

The background of the cover is a photograph of the University of Nevada, Las Vegas campus during a dramatic sunset or sunrise. The sky is filled with dark, heavy clouds, with bright orange and yellow light breaking through, creating two distinct rainbows on either side of the central building. The central building is a tall, modern structure with a grid-like facade. In the foreground, there are green lawns, paved walkways, and several trees. The overall mood is serene and majestic.

UNLV
University of Nevada, Las Vegas
Graduate Catalog

Fall 2013 - Summer 2014

About UNLV: Mission and Core Themes

The University of Nevada, Las Vegas, located in the vibrant and dynamic city of Las Vegas and surrounded by the Mojave Desert, embraces the traditional values of higher education adapted for the global community of the twenty-first century. UNLV assists students in meeting the intellectual and ethical challenges of responsible citizenship and a full and productive life through opportunities to acquire the knowledge and common experiences that enhance critical thinking, leadership skills, aesthetic sensitivity, and social integrity.

The university provides traditional and professional academic programs for a diverse student body and encourages innovative and interdisciplinary approaches to teaching, learning, and scholarship. UNLV simultaneously engenders collegial relationships and a sense of community among its members. UNLV embraces the interdependence of quality instruction, scholarly pursuits, and substantive involvements in campus and community life. The university offers artistic, cultural, and technical resources and opportunities to the broadest possible community. It promotes research programs and creative activities by students and faculty that respond to the needs of an urban community in a desert environment. UNLV is committed to developing a synergy between professional and liberal studies, between undergraduate education and graduate programs, and between superior teaching and meaningful research. UNLV increasingly is a dynamic resource for, and partner with, the community that it serves.

In its 50-year history, UNLV has undergone an amazing transformation from a small branch college into a thriving urban research institution of 28,000 students and 3,300 faculty and staff.

Along the way, the urban land-grant university has become a dynamic resource for one of the country's fastest-growing and most enterprising cities. UNLV's 332-acre main campus, located on the southern tip of Nevada in a desert valley surrounded by mountains, is home to more than 220 undergraduate, master's, and doctoral degree programs, all accredited by the Northwest Commission on Colleges and Universities.

UNLV Mission Statement

The University of Nevada, Las Vegas, is a research institution committed to rigorous educational programs and the highest standards of a liberal education. We produce accomplished graduates who are well prepared to enter the work force or to continue their education in graduate and professional programs. Our faculty, students, and staff enthusiastically confront the challenges of economic and cultural diversification, urban growth, social justice, and sustainability. Our commitment to our dynamic region and State centrally influences our research and educational programs, which improves our local communities. Our commitment to the national and international communities ensures that our research and educational programs engage both traditional and innovative areas of study and global concerns. UNLV's distinctive identity and values permeate a unique institution that brings the best of the world to our region and, in turn, produces knowledge to improve the region and world around us.

UNLV is committed to and driven by these shared values that will guide our decision making:

- High expectations for student learning and success;
- Discovery through research, scholarship, and creative activity;
- Nurturing equity, diversity, and inclusiveness that promotes respect, support, and empowerment;
- Social, environmental, and economic sustainability;
- Strong, reciprocal, and interdependent relationships between UNLV and the region around us;
- An entrepreneurial, innovative, and unconventional spirit.

Core Themes and Objectives

UNLV is accredited by the Northwest Commission on Colleges and Universities (NWCCU). Each institution accredited by NWCCU established core themes as part of the revisions to the accreditation standards.

The core themes of UNLV, the objectives, and their indicators of achievement express the mission of the university. The core themes describe in broad statements what UNLV plans to accomplish and reflect the values that are shared by faculty, students and staff. Evaluation of the metrics associated with the indicators of achievement will demonstrate how effectively UNLV is carrying out its mission.

Core Theme 1: Promote Student Learning and Success

Objective 1: Recruit, retain, and graduate an engaged and diverse student body.

Indicators of Achievement:

- a. Academic preparation
- b. Recruitment and enrollment
- c. Alignment of campus resources to support retention/persistence and graduation
- d. Post-graduation education and employment

Objective 2: Provide a high quality teaching and learning experience.

Indicators of Achievement:

- a. Student academic performance
- b. Student satisfaction with major academic areas, quality of instruction, academic support, and institutional resources
- c. Faculty involvement and satisfaction with the teaching and learning environment
- d. Student involvement in research, creative activities, and co-curricular activities

Objective 3: Advance graduate education to promote student learning and achievement.

Indicators of Achievement:

- a. Academic and professional success of graduate students
- b. Levels of graduate student support

Core Theme 2: Advance and Support Research, Scholarship, and Creative Activity

Objective 1: Cultivate quality and productivity of research, scholarship, and creative activity.

Indicators of Achievement:

- a. Quality and quantity of publications and creative activities
- b. Quality and quantity of grants, contracts, patents, and licenses
- c. Levels of support for faculty and staff

Objective 2: Encourage student research, creative, and professional practice activities.

Indicators of Achievement:

- a. Support research opportunities for graduate and undergraduate students
- b. Multidisciplinary, integrative collaborations in graduate education
- c. Mentoring and professional development of graduate students

Objective 3: Enhance the infrastructure and business practices that support research, scholarship, and creative activity in all pertinent units of the institution.

Indicators of Achievement:

- a. Availability and access to support staff and facilities
- b. Quality and quantity of space and equipment
- c. Technology, electronic initiatives, and information resources

Core Theme 3: Foster Inclusion and Community Engagement

Objective 1: Foster an inclusive environment that values and encourages tolerance and respect.

Indicators of Achievement:

- a. Efforts that ensure a civil and respectful learning and working environment
- b. Support for learning about inclusion through both curricular and co-curricular activities

Objective 2: Promote scholarship that advances community partnerships and economic diversification.

Indicators of Achievement:

- a. Community collaborations that address regional economic vitality, environmental stewardship, social well-being, and cultural understanding
- b. Institutional support of and participation in partnerships with industry, government, and other entities

Objective 3: Cultivate a university community that promotes awareness of a diverse and changing world.

Indicators of Achievement:

- a. Global partnerships
- b. Campus and community engagement on evolving local, national, and global issues

Nevada System of Higher Education

Daniel Klaich, Chancellor

The Board of Regents wishes to advance student learning to the highest level, foster the expansion of knowledge through teaching and research, encourage community service, and enrich the lives of our students, our communities, our state, and the nation. In fulfillment of this purpose, we hold the following values at the center of our endeavor:

- Integrity
- Excellence
- Accountability
- Inclusiveness
- Creativity
- Innovation

A Message from UNLV President Neal J. Smatresk

As the President of UNLV, I'm delighted to encourage you to consider graduate studies at the University of Nevada, Las Vegas. UNLV is a wonderful institution with exceptional programs, excellent faculty, and a supportive atmosphere where graduate education thrives.

As you explore graduate education at UNLV, you'll be pleased to learn that nearly a quarter of UNLV's students are currently enrolled in graduate/professional programs. This provides some indication of the significance of graduate studies at UNLV. We know that high quality graduate education is pivotal to the growth and sophistication of our institution. Through their research, scholarship and creative activity, UNLV graduate students are an important part of our campus intellectual community.

Graduate education supports the educational and research missions of the university, and plays a pivotal role in preparing tomorrow's leaders in many professions. It enables our students to move into the workplace with the kind of preparation that only advanced study can provide. Further, UNLV graduate student scholarship is impactful regionally, nationally, and internationally. Alumni of our graduate programs are the professionals who lead our community in areas such as health care, education, law enforcement, social work, business, art, the sciences and engineering. Their contributions are vital to the quality of life that we enjoy we enjoy here in Southern Nevada.

Again, I welcome your interest in UNLV, and I encourage you to join us in our dedication to research and graduate education. Together we will create a bright future for our university and our community. *Dr. Neal J. Smatresk , UNLV President*

The President's Cabinet

The President's Cabinet is composed of the university's vice presidents, assistant president/chief of staff, general counsel, President's Advisory Council chair, and athletic director.

The cabinet's mission is to provide advice and counsel to the president on matters regarding policies, procedures, and strategic planning.

John V. White

Graduate College Dean's Message

A Message from Dr. Kate Hausbeck Korgan, Ph.D. Interim Dean of the Graduate College

Welcome to the Graduate College at the University of Nevada, Las Vegas. As Interim Dean, I am pleased to invite you to explore our Graduate Catalog to familiarize yourself with the wide range of graduate programs that we offer. I also encourage you to peruse our website to better understand the breadth and depth of the services that we provide to prospective students, current students, graduate faculty, alumni, and donors.

UNLV is a vibrant scholarly institution with more than 28,000 students on campus, and more than 3,000 faculty and staff, located in one of the fastest-growing and enterprising metropolitan areas in the country. Las Vegas is truly a unique laboratory for graduate study, and Southern Nevada provides extraordinary opportunities for engaged research.

UNLV's graduate programs offer outstanding quality and opportunity for admitted graduate students. At UNLV, graduate students are able to work closely with world-class graduate faculty who are conducting research that will improve the well being of our community and state, and positively impact our nation and the world. We pride ourselves on cultivating a campus culture that promotes graduate faculty excellence, graduate program quality, and support for our graduate students. A key part of the graduate educational experience here is our students' involvement in the performance of superior research, innovative scholarly endeavors, and inspired creative activities.

The Graduate College is guided by the mutually reinforcing goals of providing graduate students with the highest quality academic experience, and cultivating a scholarly atmosphere that values and supports graduate faculty and advanced studies. This mission is guided by our core values of excellence, equity, opportunity, and impact. Graduate education at UNLV offers students the chance — and the challenge — to grow academically and professionally in a nurturing learning environment surrounded by others similarly dedicated to intellectual pursuits. UNLV's Graduate College will help guide you as you seek out the challenge, excitement, and rewards of advanced study; we are committed to enhancing and facilitating your graduate experience at UNLV.

Thank you for your interest in graduate education and research at UNLV! Our Graduate College staff is here to assist you, and to support prospective and current graduate students, our alumni, and our graduate faculty. I invite you to contact us if you have any questions, if you are interested in pursuing graduate study at UNLV, or if you would like to discuss options for becoming a donor and supporter of the UNLV Graduate College. I would be honored to assist in bringing you into our graduate community of scholars and UNLV Rebels!

Sincerely,

Kathryn Hausbeck Korgan, Ph.D.
Interim Dean of the Graduate College

About the UNLV Graduate College

The UNLV Graduate College

The Graduate College strives to achieve the institutional mission by supporting a wide range of excellent master's and doctoral degree programs in the major areas of human knowledge—the physical sciences, the social sciences, the humanities, and the arts—as well as in professional fields that respond to local, state-wide, and regional needs. It is clear that our institution's mission of becoming a premier metropolitan research university with academically excellent programs that focus on student needs as well as issues and problems of the local community and state of Nevada rests, in large part, with the direction, growth and quality of UNLV graduate education. This commitment is further supported by the integration of the university's research and graduate program management into the Office of Research and Graduate Studies. This structure strategically links the on-going development of UNLV's research infrastructure with graduate education and directly enhances scholarship opportunities for graduate students.

The Graduate College seeks to support and advance graduate education, including the student learning, the research, scholarly, and creative activities, and the community and institutional services associated with it. The Graduate College is ideally suited to fulfill this purpose and, in this capacity, will assist academic departments and colleges as well as coordinate efforts with student service and administrative offices to meet the needs and interests of graduate students, graduate faculty, and graduate programs; encourage programs and programmatic emphases that meet the challenges of our rapidly growing local population, state, and region as well as the challenges facing the nation and world; articulate a standard of intellectual excellence that pervades university discussions and decisions about matters that affect graduate education; provide university-wide policies and guidance which define good practice in graduate program administration; and bring faculty and students together to encourage intellectual communication, multidisciplinary and interdisciplinary graduate instruction; and cooperative research and artistic projects.

The Graduate College, in all of its policies and actions, must reinforce and encourage that the institution is an intellectual community where students, faculty, and programs with different backgrounds and interests all pursue advanced knowledge and seek improvement of the human condition for the twenty-first century. This shared purpose ultimately defines the most important reason for the existence of a Graduate College and the larger community.

Equal Opportunity

It has been, and will continue to be, the policy of the University of Nevada, Las Vegas, to be an equal opportunity institution. All decisions of admissions and employment are based on objective standards that will further the goals of equal opportunity.

The university is committed to assuring that all programs and activities are readily accessible to all eligible persons without regard to their race, color, religion, gender, national origin, ancestry, age, disability, Vietnam-Era and/or disabled veteran status, any protected class under relevant state and federal laws, and, in accordance with university policy, sexual orientation.

Persons having questions regarding university policies relating to nondiscrimination law are encouraged to contact the Office of Human Resources and Diversity Initiatives, Campus Services Building, room 237 or call (702) 895-3504.

Campus & Community

With more than 27,000 students and 3,000 faculty and staff members, the University of Nevada, Las Vegas (UNLV) is located on 340 tree-lined acres in the heart of the fastest growing metropolitan area in the nation. Founded in 1957, UNLV is home to 19 colleges and schools and offers more than 2 00 undergraduate, master's, and doctoral degrees to students from 47 states, Puerto Rico, Guam, and a host of foreign nations.

Ranked in the category Doctoral/Research Universities-Intensive by the Carnegie Foundation for the Advancement of Teaching, UNLV is home to the world-renowned William F. Harrah College of Hotel Administration as well as Nevada's only law and dental schools.

The library is the heart of any university campus, and the Lied Library is a superb facility that utilizes the newest technology, including the Lied Automated Storage and Retrieval (LASR), which integrates industrial automated materials handling technologies with the online library catalog system to provide an innovative solution to long-term library storage. The library also houses a Special Collections department with materials relating to such topics as Nevada history and gaming, among others.

UNLV also has many on-campus research facilities and well-equipped laboratories to serve a growing undergraduate population and more than 5,000 graduate students. Further information on these and other research centers may be found elsewhere in this catalog.

The campus' spacious lawns and walkways are shaded by trees and complemented by desert foliage. In fact, the entire 340 acre campus, dubbed "The Emerald in the Desert," has been designated an arboretum. Just outside the campus are apartments, restaurants, shopping centers, libraries, hospitals and all the other hallmarks of a modern urban area.

To keep pace with the tremendous growth of the University and the community, UNLV in 2004 dedicated its first regional campus at Shadow Lane, which is home to the school of dental medicine as well as a state-of-the-art biotechnology research center.

UNLV is also currently engaged in the development of "Midtown UNLV," a public-private endeavor aimed at creating a culturally diverse university district in the area surrounding the main UNLV campus.

Dozens of musical, dramatic, dance and artistic groups have been formed under the auspices of the university and perform regularly for campus and community audiences. Each year, a number of popular stage and screen performers and recording artists from every musical category are featured in concert in the university's events centers.

Many other campus activities are scheduled for students and the general public. The Consolidated Students of the University of Nevada (CSUN), the student government, sponsors film series', lecture series', dances, intramural athletics, concerts, and special events throughout the year. The "Rebel Yell" student newspaper, UNLV-TV, a campus and public-affairs television station, and a nonprofit radio station serve the UNLV community.

The university also has excellent sports facilities for use by students, including lighted tennis courts, playing fields, a 50-meter Olympic swimming pool, two gymnasiums, handball/racquetball courts, dance studios, gymnastics and weight-training rooms, baseball and soccer fields, and a full size track for jogging enthusiasts.

UNLV is a member of the American Association of State Colleges and Universities, the Council of Graduate Schools in the United States, the Western Association of Graduate Schools, the American Council on Education, and the Western College Association. In addition to full accreditation by the Northwest Commission on Colleges and

Universities, the university is recognized by the Nevada State Department of Education for preparation in all fields for which it conducts programs.

Las Vegas and the Southwest

Southern Nevada has many attractions. Like any other large metropolitan area, it has fine libraries, museums, community theater, art galleries, and renowned parks which are enjoyed and supported by nearly two million local residents. University cultural events provide yet another form of entertainment in a city that bills itself as the Entertainment Capital of the World. Two of the university's yearly series, the Charles Vanda Master Series and the Barrick Lecture Series, are extremely popular with students and community residents.

The Charles Vanda Master Series offers visiting performers of the caliber of Isaac Stern, Andre Segovia, the London Symphony, and Itzhak Perlman. The Barrick Lecture Series brings well-known persons to campus for free public lectures on a variety of topics. Lecturers have included Walter Cronkite, Ken Burns, Louis Rukeyser, Benazir Bhutto, Arthur Ashe, Henry Kissinger, John Kenneth Galbraith, Jimmy Carter, and Cokie Roberts. The series also has featured important scientists and academicians like Carl Sagan, Jane Goodall, Mortimer Adler, and Richard Leakey.

Of course, any college experience includes more than the intellectual stimulation of the classroom and the physical confines of the city and campus. It also takes color and character from the university's larger environment. For UNLV, this is the Southwest.

Mild desert temperatures make outdoor recreation possible throughout the year in Southern Nevada. Within a 30-mile radius lie the shores of Lake Mead, massive Hoover Dam and the Colorado River recreation area, the snow-skiing and hiking trails of 12,000-foot Mt. Charleston, and a panorama of red rock mountains and eroded sandstone landscapes. In addition, the city is only several hours by car from the beaches of Southern California and the national parks of Utah and Arizona.

Las Vegas enjoys a mild year-round climate, but there are noticeable seasonal differences. The annual average temperature is 79 degrees, but it is not unusual for the mercury to hit the 110 degree mark during the summer and dip into the 30s in the winter. Annual rainfall amounts to only 3.5 inches, much of it falling in the winter when it is snowing in the nearby mountains.

Libraries, Research Centers, Institutes, and Service Agencies

Office of Research & Economic Development

The mission of the Office of the Vice President for Research and Economic Development is to develop opportunities, policies, and infrastructure for UNLV faculty, staff, and students to support them in providing the highest quality research and creative expression, with particular focus on the needs of Southern Nevada. The mission of the Office of the Vice President is to: 1) increase funding available to support research and its integration within the educational experience of all students; 2) develop policies, procedures, and infrastructure that enable and enhance scholarship, research, and creative activity; 3) support the design, conduct, and funding of research projects that are in compliance with local, state, and federal guidelines ; 4) assess and promote progress toward attainment of the goals set forth in the university's strategic plan for scholarship, research, and creative expression; 5) communicate the value of university scholarship, research, and creative activity to all constituencies; 6) improve the efficiency and productivity of research units and administrative services; and 7) promote the university as a leader in statewide and regional economic development.

Units reporting to the Office of the Vice President for Research include the Associate Vice President for Research Services (Office of Sponsored Programs, Office of Research Integrity, Animal Care and Use Program, and Research Infrastructure), the Office of Economic Development (including UNLV Business Startup Center), National Supercomputing Center for Energy and the Environment, the UNLV Research Council, and the Council on Centers, Institutes, Museums and Laboratories.

Libraries and Service Agencies

The university is home to approximately 50 research, public service, and archival units that serve a broad clientele. These centers and institutes report through the academic colleges and schools. For a current list, visit <http://www.unlv.edu/research/active-centers>. Other units provide university-wide services, including the following.

UNLV Libraries UNLV Libraries is committed to encouraging students and creating quality programs that elevate growth and learning. It does so by participating in the articulation and assessment of student learning; providing direct instruction to students; partnering with classroom faculty on course and assignment design; and intentionally creating co-curricular learning experiences. As the only research library in Southern Nevada, UNLV Libraries has a strong community mission. The Lied Library and its three branches (Architecture, Curriculum Materials, and Music) offer more than 1.7 million books, including more than 500,000 e-books, as well as almost 20,000 electronic journals containing millions of articles. UNLV Libraries is also home to two renowned research centers: the Center for Gaming Research and the Oral History Research Center. In addition, its Special Collections Division actively documents and preserves the history and history-in-the-making of Southern Nevada.

Division of Educational Outreach The division serves Southern Nevada with a wide range of classes offered year-round to those who wish to continue their education, add professional skills, or simply enrich their lives. Noncredit programs include classes, workshops, seminars, field trips, and extended travel-study programs. Certificate programs are offered in a variety of business and management areas. Some courses are approved for professional growth in-service credit by the Clark County School District. Other designated noncredit programs offer continuing education units (CEUs) for successful completion.

Office of Information Technology. OIT is responsible for supporting the academic, research, and administrative

aims of the campus through the secure and effective use of technology. Dedicated to providing access to technology for all UNLV students, faculty, and staff, the office strives to create university awareness of technology as a fundamental component of the academic enterprise. OIT supports computer labs, computing devices, instructional technology, campus-wide administrative systems, and network infrastructure. Additional information about the Office of Information Technology can be found at <http://www.unlv.edu/provost/office-information-technology>. Summer Term. Summer Term provides a variety of opportunities for students who wish to begin or continue university study. No formal admission to the university is required for summer term study, and no out-of-state tuition is charged to nonresidents. UNLV's Summer Term offers many of the courses included in the general university curriculum as well as short workshops and seminars.

English Language Center. The center provides access to higher education at UNLV for immigrant, international, and other students learning English who need language, culture, and academic skills to succeed. The center helps students make a smooth transition from English as a second language courses to their academic studies. In addition to a full schedule of credit classes, convenient schedules, and an advising program, the ELC offers students an opportunity to experience the language, culture, and people of the United States.

Writing Center. The center offers free help to currently enrolled UNLV students and to UNLV staff with any writing project, from papers to creative writing to resumes, and at any stage of the writing process. The center's consultants help clients brainstorm, make an outline, work on drafts, or simply serve as a soundboard for ideas. Services are available in person by appointment or via online submission or Skype. The center also has a computer lab for students to work on your drafts, do research, or work with a consultant.

Marjorie Barrick Museum. The museum provides exhibitions, lectures, and programming that engage visitors' aesthetic and intellectual sensibilities. The museum is the temporary home of the Las Vegas Art Museum collection, which is featured regularly in the exhibition hall. Additionally, the museum maintains a superb collection of pre-Columbian and ethnographic art. Special arrangements can be made for school groups and tours.

National Supercomputing Center for Energy and the Environment (NSCEE). Established in 1990, the center is a full-service supercomputing facility with on-site and off-site user training, national network accessibility, and a mission for excellence in education and research in supercomputing and its applications. The NSCEE provides supercomputer training and services to academic and research institutions, government and private industry for research and development related to energy, the environment, medical informatics, and health care delivery.

Campus Copy Center. The Campus Copy Center serves students, faculty, and staff by providing black and white and color copying, laminating, binding, poster making, digital file output, resume packets, and other related services. It specializes in copying theses and dissertations to Graduate College specifications.

Reprographics/Design Services. This administrative unit is responsible for coordinating and printing a wide variety of university publications and maintaining university graphic standards in print. Reprographics provides offset printing, black and white and color copying, and an assortment of bindery services.

UNLV/CSUN Preschool. The preschool is a division of the Department of Educational & Clinical Studies and is housed in the Lynn Bennett Early Childhood Education Center on the UNLV campus. The mission of the

UNLV/CSUN Preschool is to provide a model inclusive early childhood program that serves children (6 weeks to 5 years of age) of students, faculty, staff and the surrounding campus community.

Environmental Monitoring Systems Laboratory-Las Vegas. UNLV is home to one of the U.S. Environmental Protection Agency's major research centers. The laboratory serves as headquarters for a wide variety of programs aimed at documenting natural and man-made environmental conditions. Through a cooperative agreement, UNLV students and faculty collaborate with laboratory staff on research projects and in instructional activities.

Oak Ridge Associated Universities. Since 1993, UNLV students and faculty have benefited from its membership in Oak Ridge Associated Universities (ORAU), a consortium of colleges and universities and a management and operating contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members

Nevada System of Higher Education Computing Services. One of the facilities of the Nevada System of Higher Education statewide computing network is located on the UNLV campus. The facility is responsible for providing equipment and consulting services that support the growth of educational, research, administrative, and public service computing at all NSHE higher education institutions.

University of Nevada Press. The University of Nevada Press is a publisher of scholarly books. Established by the Board of Regents in 1961, the press is a public service division of the Nevada System of Higher Education. Its purpose is to make a contribution to the state of Nevada and to the scholarly community by publishing books in the areas of history, government, natural resources, ethnic groups, and contemporary affairs.

Western Interstate Commission for Higher Education (WICHE). WICHE aids residents in obtaining graduate and professional level education in fields of study not available within the state. Currently, Nevada is active in the WICHE Professional Student Exchange Program, the Western Regional Graduate Program, and the Western Undergraduate Exchange Program.

Your Graduate School Experience

The reasons for enrolling in graduate school are as varied as the people who make up the graduate student population. Your decision to seek an advanced degree means that you share with other UNLV graduate students a spirit of adventure that comes with discovery—discovery of new information, new skills—and discovery of the depths of your own intellectual abilities. You will also share a capacity for hard work, because graduate study, whatever the subject matter, is difficult. But at the end of the rigorous and oftentimes exhilarating graduate coursework and research in your chosen field, you will have the satisfaction of having mastered a body of knowledge that places you in an elite group. Earning your graduate degree will be an achievement that marks the beginning of a professional career, more than an end of your academic studies. Your graduate degree will prepare you to engage with other experts in your field and to move forward to make notable contributions in your area of study and beyond.

The Graduate College at UNLV

The university's advanced degree programs are based on close working relationships between students and faculty. Although most programs can be developed to meet the needs and interests of the individual student, the student must also satisfy all departmental and Graduate College requirements. Therefore, it is important that all students carefully read the appropriate sections of this catalog and stay in close contact with the faculty members in their degree program. Students are responsible for being aware of and observing the policies and regulations stated in the Graduate Catalog. Please note that ignorance of campus policies is not a sufficient reason for exemption from said policies.

The Graduate Dean and the Senior Associate Dean, with the advice of the Graduate Council determines policies and procedures of the Graduate College. The Council consists of one delegate from each academic department that houses an advanced degree program, and it operates with standing committees. The Graduate and Professional Student Association also has representatives on the Graduate Council. The Graduate Dean and Senior Associate Graduate Dean are ex-officio members of the Graduate Council and each standing committee.

Once enrolled as a student, you will have various responsibilities within the academic community. The conduct of all persons affiliated with the *University of Nevada, Las Vegas is governed by the Rules and Disciplinary Procedures for Members of the University Community*. This code outlines the responsibilities of students, faculty, staff and administration as well as the rules, sanctions and hearing procedures in effect on the campus. Printed copies of the code are available in the Registrar's Office. The UNLV Student Conduct Code is available through the UNLV Office of Student Conduct.

Additional information may be found in this catalog and on the Graduate College website.

Services for Graduate Students

The Graduate College offers services to support graduate students in many different areas. In cooperation with various offices at the University of Nevada, Las Vegas, Graduate Student Services seeks to provide information and programs aimed at the unique needs of graduate students.

Orientation. Every semester, prior to the beginning of classes, the Graduate College conducts an orientation for new graduate students and graduate assistants. Each department and/or program offering a graduate degree provides additional orientation and advising for new students.

Recruitment. UNLV is committed to growing selectively, serving the region, and achieving distinction. In recognition of this commitment, the Graduate College works with academic departments who seek to develop, implement, coordinate, and monitor their recruitment programs and outcomes. The UNLV Graduate College also proudly participates in the McNair Scholars Program, which helps to identify and prepare under represented and minority students for graduate school.

Thesis and Dissertation Support. For many programs, the thesis or dissertation represents the culmination of the graduate experience. These students' final theses and dissertations must conform to the formatting guidelines established by the Graduate College, and students must submit a single hard copy of the final document, as well as an electronic copy, before conferral of their graduate degree. The Graduate College provides guidance, oversight and direction to graduate students and faculty concerning the policies and procedures for final submission of the thesis or dissertation.

Professional Development Programs. The Graduate College works with other campus units to provide a formal, value-added experience for graduate students that will enhance their career development in the areas of teaching, research, and other scholarly skills.

Student Advising Services. The Graduate College advising services provide informal and student-centered issue-resolution services, and general non-academic advising advice, to graduate students and prospective graduate students. The office offers guidance, information, and assistance when regular channels have failed to provide graduate students with the information that they need to solve problems or make informed decisions.

Note: The office does not provide academic advising; students must consult with the graduate coordinator or their designated faculty advisor in their own graduate program, or program of interest, for academic guidance.

Graduate and Professional Student Association

The Graduate & Professional Student Association was formed in 1980 to provide additional opportunities for graduate students to interact, both socially and academically, and to provide a forum for dealing with problems specific to graduate student life. The GPSA's primary goals are to improve the quality of graduate education and the graduate student experience, and to offer graduate student grants for research and other scholarly projects.

Each department on campus has a graduate student GPSA representative who attends GPSA meetings, participates on GPSA committees, and communicates all pertinent information concerning the GPSA to his/her constituents. The GPSA has graduate student representation on all standing committees of the Graduate College, and participates in at least one community service project each semester.

The GPSA office provides a study area, a copy service and a computer lab, all in the Lied Library. The office is open year round, all day, and some evenings. Meetings are held on the first Monday of every month in the Student Union, and all graduate students are encouraged to attend and participate. For more information visit the GPSA website, or contact the GPSA office in Lied Library, Room 3251, or call (702) 895-2261.

Academic Calendar

2013-2014 School Year

Fall Semester 2013

August

- 23 Fall New Graduate Student Orientation
- 25 Last day to register without late penalties for Fall 2013
- 26 Instruction begins
- 30 Last day to register with late penalties, add classes, switch sections, change courses, and change from audit to credit. Final day to withdraw from all classes and receive a 100 percent refund

September

- 2 Labor Day recess
- 19 GC Workshop: Thesis & Dissertation Formatting
- 20 GPSA/GC Workshop: How to successfully start your graduate program

October

- 1 Last day to apply to graduate in Fall 2013
- 4 Final day to completely withdraw from all classes and receive a 50 percent refund
- 11 Last day to order Academic Doctoral Regalia from the UNLV bookstore for Fall Commencement
- 18 Last day to order Standard Doctoral Regalia from the UNLV bookstore for Fall Commencement
- 18 GC Workshop: CV Construction
- 19 Mid-Semester
- 20 GPSA Emergency Sponsorship Deadline
- 25 Nevada Day recess
- 30 GPSA Book Scholarship Deadline

November

- 1 Appointment deadline for Spring Graduate Assistantships
- 1 Final day to withdraw from classes without a refund or change from credit to audit
- 11 Veterans Day recess
- 14 GC Workshop: Coping in Graduate School
- 15 GPSA/GC Workshop: Academic Time Management
- 16 Last day to defend thesis/dissertation for Fall 2013
- 20 GPSA Sponsorship Application Deadline
- 22 Last day to submit thesis/dissertation to the graduate college for Fall 2013
- 25 First day for Masters and Law Students to purchase regalia
- 28-29 Thanksgiving Day recess

December

- 1 Last day to submit Graduate Scholarship & Fellowship Applications for 2014-2015 Academic Year
- 6 Last day to submit thesis/dissertation to ProQuest for Fall 2013
- 2-7 Study Week
- 7 Instruction end
- 9-14 Final examinations
- 14 Semester ends
- 16 Fall Doctoral Candidate Reception
- 17 December Commencement
- 20 GPSA Emergency Sponsorship Deadline
- 23 Last day for doctoral students to submit Advancement to Candidacy paperwork for Spring 2014 Stipend Increase

Spring Semester 2014

January

- 17 Spring New Graduate Student Orientation
- 17 Last day to pay without late penalties for Spring 2014
- 20 Last day to register without late penalties for Spring 2014
- 20 Martin Luther King, Jr. Day recess
- 21 Instruction begins
- 27 Last day to register with late penalties, add classes, switch sections, change courses, and change from audit to credit. Final day to withdraw from all classes and receive a 100 percent refund

February

- 17 Washington's Birthday recess
- 28 Final day to completely withdraw from all classes and receive a 50 percent refund

March

- 1 Last day to apply to graduate in Spring 2014
- 1 Appointment deadline for Summer and Fall Graduate Students
- 8 Last day to order Academic Doctoral Regalia from the UNLV bookstore for Spring Commencement
- 15 Mid-semester
- 17-22 Spring Break
- 21 Last day to order Standard Doctoral Regalia from the UNLV bookstore for Spring Commencement

April

- 12 Last day to defend thesis/dissertation for Spring 2014
- 14 First day for Masters and Law Students to purchase regalia
- 18 Last day to submit thesis/dissertation to the graduate college for Spring 2014

May

- 1 Last day for doctoral students to submit Advancements to Candidacy paperwork for Summer 2014 Stipend Increase

5-10 Study Week
12 Last day to submit thesis/dissertation to ProQuest for Spring 2014
12-17 Final Examinations
16 Spring Doctoral Candidate Reception
17 Semester ends
17 Commencement

Summer Session 2014 I

May

19 Instruction Begins
26 Memorial Day Recess

June

7 Instruction Ends

Summer Session 2014 II

June

9 Instruction begins

July

4 Independence Day recess
12 Instruction ends

Summer Session 2014 III

July

14 Instruction begins

August

16 Instruction ends

***Dates are subject to change**

****Observed Holidays were determined using the guidelines in NRS 263.015.**

Academic Policies

The policies and regulations of the graduate program or department, the Graduate College, the University of Nevada, Las Vegas, and the Board of Regents are subject to review and change. The Graduate College website contains up-to-date information on policies, procedures, deadlines, forms, and special programs and services. The Office of Student Conduct handles issue and questions related to the UNLV Student Conduct Code.

It is the responsibility of students to know and observe all regulations and procedures related to their graduate program, the Graduate College, the Nevada System of Higher Education, and UNLV. In no case will any regulations be waived or an exception granted based on a plea of ignorance, or contention that the graduate program, Graduate College, or university did not specifically and individually inform a student of the regulations or procedures. Questions regarding graduate-level study, graduate student policies, rights, responsibilities, and/or regulations and their interpretation should be addressed to the Graduate College.

Graduate students are also expected to comport themselves professionally and conform to the ethics, guidelines, policies, and standards of their discipline. Finally, graduate students must abide by the laws of the State of Nevada and the United States of America.

Academic Integrity

All members of the UNLV community are dedicated to learning. The university and the Graduate College expect nothing less than a high level of scholarly integrity and academic honesty on the part of students, faculty, staff, and administrators.

Quality academic work requires honesty. The UNLV faculty and administration regard any attempt by a student to present as his or her own work that which he or she has not solely produced as a serious offense. Students are considered to have cheated, for example, if they copy the work of another; use unauthorized notes or other aids during an examination; turn in a paper or an assignment written, in whole or in part, by someone else as their own. Students are guilty of plagiarism, intentional or not, if they copy material from books, magazines, or other sources without identifying and acknowledging the sources, or if they paraphrase ideas from such sources without acknowledging them. Students guilty of, or assisting others in, either cheating or plagiarism on an assignment, quiz, examination, or other scholarly endeavor may receive a grade of 'F' for the course involved, and may be suspended or removed from the program.

Additionally, UNLV has established policies regarding research misconduct among students, faculty and staff. Research misconduct pertains to commission of any of the following acts: falsification of data, improper assignment of authorship, claiming another person's work as one's own, unprofessional manipulation of experiments or of research procedures, or misappropriation of research funds. (Adapted from the 1994-95 Graduate Catalog Northern Illinois University).

All conduct code violations are handled by the Office of Student Conduct; academic appeals and requests for waivers of Graduate College policies are handled through the Graduate College. If a faculty member suspects that a graduate student may have committed academic dishonesty, or that s/he is otherwise in violation of the UNLV Student Conduct Code, the faculty member or administrator must contact the Office of Student Conduct to discuss the possibility of disciplinary review under procedures described in the Nevada System of Higher Education document Rules and Disciplinary Procedures for Members of the University Community. Academic penalties for academic dishonesty include, but are not limited to: assigning the graduate student a failing grade for the

corresponding segment of the course or for the entire course; requiring the student to rewrite the corresponding sections of his/her research paper, professional paper, thesis or dissertation, or the document in full; failing the student on the exam in question; or recommending that the student is separated from her/his graduate program. Further disciplinary sanction options described in the Code include warning, probation, suspension, and expulsion or revocation of a degree if a degree has been previously awarded. The Office of Student Conduct's final decision will be relayed to the student, their department, and the Graduate College. Please visit the Appeals and Procedures section for further information about Graduate College academic appeal guidelines and procedures.

If a graduate student fails to maintain the standards of academic or professional integrity expected as defined in writing by their discipline or program, the student's admission status in his or her program will be terminated. If any member of the university community is deemed guilty of academic dishonesty, action may be brought under the Rules and Disciplinary Procedures for Members of the University Community. In addition, students who violate these standards will be subject to conduct sanctions, in accordance with the UNLV Student Conduct Code and Policies, in order to promote their own personal development, to protect the university community, and to maintain order and stability on campus.

Credit Requirements

Residence Credit Requirement

Resident credit means any graduate course that is satisfactorily completed at UNLV, except credits earned by special examination or correspondence courses. Online study or enrollment in another institution within the Nevada System of Higher Education does not constitute an interruption of resident credit.

A minimum of 2/3 of the total credits required to complete the master's, specialist, or doctoral degree, not including thesis, dissertation, or professional paper credits, must be earned at UNLV after admission to a graduate degree program.

Graduate Credit

All courses numbered 500-799 are considered graduate-level.

- 500 level classes are generally seen as remedial graduate courses, and they may also be used for non-degree, non-credit bearing courses; these may be cross-listed with 300 or 400 level undergraduate courses, with appropriate curricular review and approval
- 600 level classes are generally seen as lower level graduate coursework, and/or masters level course work; these may be cross-listed with 400 level undergraduate courses, with appropriate curricular review and approval
- 700 level classes are generally seen as advanced graduate coursework, and/or doctoral level course work; they may not be cross-listed with undergraduate courses

Note: Any graduate courses that are approved to be cross-listed with an undergraduate section must have more advanced learning outcomes and additional requirements for students who enroll as graduate students.

To determine which graduate-level courses will apply to a specific degree, the student must have them approved by his/her graduate department and the Graduate College. Prior to approval, there is no guarantee that a course will apply toward the degree. To be considered a graduate-level course, the instructor must be a member of the Graduate Faculty. The Graduate College requires a minimum of 50 percent of the degree program semester hours are 700-level courses excluding thesis, dissertation, or professional/scholarly paper. Individual departments may require more than the Graduate College minimum.

Credit Toward Degree

Courses used to fulfill requirements for one degree may not be used toward another degree. No more than three credits of a student's degree program may consist of UNLV workshop, institute, and conference credits, and the student must have received a grade for these credits.

A course in which a grade of less than C was received will not be considered for use toward the degree. Departments may impose a higher grade standard. Experimental, experiential (life and work experiences), correspondence, and audited courses may not be applied toward the degree. In addition, courses numbered in the 100-499 series cannot be used for graduate credit.

Credit may be used toward the graduate degree for courses taken while an undergraduate at UNLV only if the course was reserved for graduate credit. See the Admissions section for this information.

Transfer Credit Policy

Not more than one-third of a student's degree program (not including the thesis, dissertation, or professional/scholarly paper) may be transferred from another university at the time admission is granted, or subsequent to admission. For UNLV Non-Degree graduate students, a maximum of 15 graduate credits taken at UNLV may be applied toward a graduate degree program.

Once admitted to an advanced degree program, students must obtain prior written consent of the department and the Graduate Dean, by way of a Transfer Credit Request Form, to take course work elsewhere and use it in their UNLV graduate degree program.

The department chair, the graduate coordinator, the academic dean responsible for approving the student's degree program, and the Graduate Dean, must approve all graduate transfer credits. To be considered for use:

1. The work must have been taken at an appropriately accredited institution;
2. The course must be graded (it may not be pass/fail or S/U or S/F);
3. The work must have been completed with a grade of B or higher (B- is not acceptable);
4. Official transcripts covering the work must be sent directly from the issuing institution to the Graduate College; and
5. The work must be posted to the student's permanent academic record;
6. The course must be comparable in content, substance, and rigor to the coursework it is replacing in the student's UNLV graduate degree program;
7. Work that is used to fulfill requirements for another degree may not be used toward another degree.

Transfer credit is approved only when evidence exists that the work is certifiably graduate-level. The age of the transfer work under consideration, or the year taken, may also be a factor in the decision as to whether or not the coursework is admissible into a graduate student's UNLV degree program. The student is responsible for providing evidence and documentation as required.

Limitation on Credit Load

The University considers a graduate student taking nine credits per semester as full-time (six credit hours if the student is a graduate assistant). Please note that the number of credits enrolled impacts financial aid. Contact the office of Financial Aid and Scholarships for further information.

Graduate students normally may not take more than 12 credit hours (10 if a graduate assistant) during the fall and spring terms. They may take no more than six credit hours in a single five-week Summer Term and earn no more than a total of 12 credits during the Summer Term (pre, post, and regular five-week sessions combined). Overload

petitions are available on the Graduate College forms website. Petitions must be approved by the Graduate Dean prior to registration

Graduate College forms website. Petitions must be approved by the Graduate Dean prior to registration

Grade Point Average

A candidate for an advanced degree must have a minimum Graduate Program Grade Point Average of 3.00 to be eligible to graduate. The Graduate Program GPA, computed by the Graduate College, includes all completed graduate course work accepted at admission and all subsequently approved course work that is being applied toward a degree. Please note that the Graduate Program GPA does not appear on a student's transcript; a student's Cumulative Graduate GPA is posted on her/his transcript and is calculated from all graduate level course work ever taken at UNLV.

The following symbols are used in reporting and recording graduate student grades:

A	Superior (4.0)
B	Passing (3.0)
C	Average (2.0)
D	Below Average (1.0)
F	Failing
AD	Audit (not graded, no credit toward GPA)
I	Incomplete (expires after one year; if not grade is submitted in that timeframe, the 'I' will default to an 'F' grade)
S	Satisfactory
X	Hold: Grade is submitted upon completion of Thesis or Dissertation or Professional Paper

Note: Faculty members have the option of using plus (+) and minus (-) for grades of A, B, C, and D. Exception: A+ grades are not given. Please also note that at the graduate level, grades below a B are generally considered unacceptable. Graduate students must have a 3.0 GPA in order to qualify for graduation.

I or Incomplete Grade

The following regulations apply to the 'I' or Incomplete grade:

1. The 'I' grade is used for content/lecture type courses (not thesis, dissertation, or professional paper credits) designed to be completed within one year in instances where the student has completed the majority of the semester course work, but is unable to complete all of the requirements with good cause. The professor is responsible for determining if the reason for non-completion is satisfactory, if an Incomplete grade is appropriate, and the terms of the Incomplete, including what the student needs to do to successfully complete the course requirements and earn a final grade.
2. An 'I' may only be given when a minor part of the course work remains incomplete, and the majority of the coursework has been completed with a cumulative average of 'B' or better.

3. Graduate students receiving an 'I' grade in 500, 600- or 700 level courses have one calendar year to complete all course requirements and remove the 'I' grade; however, the instructor may require that it be made up in less time. If course requirements are not completed within one year, the Registrar's Office will automatically record a grade of 'F'. Note that graduate students taking an "I" in an undergraduate class must complete the coursework within one semester or the "I" will default to an "F."

S or F (Satisfactory or Failing) Grades

The Satisfactory (S) or Failing (F) mark is used upon completion of the thesis, dissertation, professional paper or for noncredit or satisfactory/fail courses. Grade-point values are not assigned for S. Many graduate and professional schools may not accept satisfactory/fail credits, or accept them only if accompanied by written evaluations of the work accomplished in such courses that bear upon the field of specialization. Additional evidence such as GRE or other advanced test results may also be required. UNLV does not accept graduate courses graded satisfactory/fail for use in a degree program except for thesis, dissertation, or professional paper credits.

Continuous Enrollment

After admission to a graduate program, students must register for and complete a minimum of six hours of graduate credits in each rolling three semesters (including summer). Students working on a thesis or dissertation must register for three graduate credits each semester (excluding summer) until the document has been completed and has been given final approval. Students who have not registered for academic work within three rolling semesters (fall-spring-summer, spring-summer-fall, summer-fall-spring) will be separated from their program and must reapply for admission should they wish to continue. Exceptions to the above policy, as with a request for a leave of absence, are made only with the approval of the student's advisor, graduate coordinator, department chair, academic dean, and the Graduate Dean. Any student using the services of the academic staff or university facilities must be registered for the period during which the services are rendered or the facilities are used. Students must be registered in a minimum of 3 graduate credits during the semester they intend to graduate and/or take final, comprehensive, preliminary, examinations, defend a thesis or dissertation.

Six-Year and Eight-Year Policy

Master's Degree Students: All master's degree requirements must be completed within six years. Course work completed more than six calendar years before the term in which all degree requirements are met may not be used in the degree program.

Doctoral Degree Students: A student beginning a doctoral degree program and holding a master's degree in an appropriate field of study must complete all doctoral degree program requirements within six years. A student beginning a doctoral degree program without a master's degree (post-bachelors to doctoral track) must complete all requirements for the degree within eight years.

In special circumstances, the student's faculty advisory committee may recommend that the Graduate Dean extend these degree time limits. Each department may establish shorter periods of time to completion, contingent upon the approval of the Graduate Dean and inclusion in the appropriate degree program section of this catalog.

Students violating the six-year and eight-year policy, and/or the continuous enrollment policy, are no longer automatically eligible to complete their program under the requirements in place at the time of admission. This decision is left to the discretion of the department. Students are considered to be making satisfactory progress toward the degree as long as they are successfully completing six hours of graduate degree program credits per rolling three semesters (including summer), meeting their graduate program milestones, fulfilling degree requirements, progressing toward completion, and submitting all required paperwork in a timely manner. Students not meeting any of these requirements will be separated from the Graduate College.

Records Retention

Electronic and paper student records must be securely maintained and FERPA protected for a minimum of 7 years post-graduation, or after the formal withdrawal or separation of a student from her/his graduate program.

- Permanent academic records in the form of a transcript are retained indefinitely.
- Grade Changes are retained for at least seven years.
- Applications for admission, transcripts from other institutions and military service records, for matriculated students, are retained for at least seven years after last attendance.
- Change of name forms are retained for one year.
- Admission materials for nonmatriculated students and/or students denied admission are retained for at least seven years.

Retention of Records by Faculty: All instructors are encouraged to retain records of completed course work and grades for a period of one calendar year from the date of the last day of the term/semester. Part-time, relocating, and retiring instructors should provide these materials to their respective departments.

Transcripts: Current students may access their unofficial transcript in their MyUNLV Student Center. Official transcripts are copies of student academic records of all work attempted at UNLV and bear the seal of the university and a signature. Official transcripts may be requested via the online system. Transcripts of work from other institutions will not be issued.

Leave of Absence

When necessary, a student may request approval for a leave of absence from a degree program. During the leave of absence, the student should remain in contact with the department about their return plans. If a student does not return by the end of her/his approved LOA, s/he must apply for an additional LOA using the form above or s/he will be separated from his/her graduate program. One year is the standard leave period; two years is the maximum allowable leave. Note that all degree requirements must be completed within the six- and/or eight-year degree completion policy as outlined above, regardless of an approved leave of absence.

Probation and Separation

Departments are required to review the academic performance and progress of graduate students at least once per academic year. If a department determines that a student is not making satisfactory progress toward the degree, they may request that the Graduate Dean place the student on probation. The department must provide the student with the specific requirements, including deadlines, which must be completed to be removed from probation. If the Graduate Dean approves the request, the student will be notified by the Graduate College and placed on probation. Failure to meet the conditions of the probation will result in separation from the student's program and the Graduate College.

Students may be placed on probation and then separated for failure to make satisfactory progress. Failure to appropriately progress may be indicated by: a failure to complete six graduate credits per rolling three semesters (including summer) toward the degree program; unsatisfactory grades (including Incompletes, grades below a B, or Withdrawals); failure to consult with the advisor when requested; failure to establish a graduate advisory committee; failure to develop an official, approved degree program; failure to establish the groundwork for an acceptable thesis or dissertation; failure of comprehensive and/or qualifying examinations; failure to meet a department milestone or to pass the culminating experience; and failure to successfully defend a thesis or dissertation prospectus, or to successfully defend a final document. Departments may establish their own benchmarks for progress, consistent

with degree program requirements and standards in the field. Satisfactory academic progress also involves maintaining the standards of academic and professional integrity expected in a particular discipline or program. Failure to maintain these standards may result in termination of the student's admission to a graduate degree program.

A UNLV graduate student who has been separated for academic reasons is not eligible for admission or re-entry. The student must petition the Graduate College to be considered for academic reinstatement.

Administrative Drops and Classroom Conduct

Failure to attend a course or to submit required work will result in a grade of F. The student who neglects a course is solely responsible for dropping the course or withdrawing from the university. However, an administrative drop may be initiated at the discretion of the instructor, who will record the circumstances. The approvals of the academic unit chair/director, and the dean of the college offering the course, are required

Students have a responsibility to conduct themselves in class and in the libraries in ways that do not interfere with the right of other students to learn or of instructors to teach. Use of electronic devices such as cellular phones, or recording devices, or other potentially disruptive activities, is permitted only with prior explicit consent of the instructor. The instructor may rescind permission anytime during the course. If a student does not comply with requirements, or obstructs the functioning of the class, the instructor may initiate an administrative drop

Serious cases of misconduct, as defined by the Rules and Disciplinary Procedures for Members of the University Community or the UNLV Student Conduct Code, will be referred to the appropriate administrative officer for action.

Change of Address and Use of Rebel Mail

A change of address must be changed by the student through his or her MyUNLV account. Any correspondence from the university mailed to the last address provided by the student to the Registrar and Graduate College will discharge all university responsibility for notification. Graduate students are required to set-up, use, and monitor their UNLV Rebel Mail email accounts. MyUNLV and Rebel Mail are the primary ways in which the Graduate College and other campus offices communicate important information to students. Any student wishing to email the Graduate College or any university staff must do so from a UNLV email account. In accordance with FERPA regulations, the Graduate College will not respond to student emails from non-UNLV accounts.

Appeals and Procedures

Graduate academic appeals are used to request reconsideration a remedy from alleged unfair or inappropriate academic practice, or relief or waiver from a UNLV and/or Graduate College policy or requirement. Appeals must be filed with the Graduate College Office within 60 calendar days from the last day of the term/semester in which the issue being appealed arose. Each appeal is reviewed individually and a decision will be based on the merits and documentation provided.

For normal grade changes: the Registrar's Office must receive notification to change a grade due to clerical error within 60 calendar days from the last day of the term/semester. For grade changes after this deadline, please submit a complete and signed Graduate College academic appeal.

When submitting an academic appeal, it is the student's responsibility to provide a clear and concisely written statement explaining the reason for the appeal and the remedy being requested. The student must also provide all

relevant documentation that s/he wishes to be reviewed and considered in the appeal decision. Academic appeals must include:

1. *UNLV Graduate College Appeal Form* as a cover sheet
2. Written Statement of Appeal addressed to the appropriate UNLV administrator
3. Relevant documentation and support. For example, documents may include medical records, work verification, police reports, death certificates, airline receipts, letters from professors on university letterhead, transcripts, etc. If the issue is not resolved between the student and course instructor, a written appeal should first be directed to the Graduate Coordinator of the department in question. If the problem remains unresolved to the student's satisfaction, appeals must be directed in progressive order to the Department Graduate Coordinator, Department Chair, College Dean, then subsequently to the Graduate Dean. The Graduate Dean may act to resolve the problem or request the Graduate College Committee on Faculty and Student Issues to review the problem and make its recommendation to the Graduate Dean. The Graduate Dean will inform the student of the final decision.
4. Appropriate signatures, with optional rejoinders and relevant documentation attached, must be included on the Appeal. An academic appeal must be directed in progressive order to the Department Graduate Coordinator, Department Chair, College Dean, then subsequently to the Graduate Dean. Note that advisors and departments may have varying methods of processing appeals. Contact your department for specific policies and procedures. The Graduate Dean may render a decision, act to resolve the problem, or request that the Graduate College Appeals and Legal Issues Committee (which does not convene in summer) review the appeal and make a recommendation to the Graduate Dean. The Graduate Dean will render the final decision and move to inform the student in a timely manner. Generally, graduate academic appeals take from two weeks to several months to resolve, depending on the nature and complexity of the appeal.

Appeals regarding financial issues (e.g., tuition refund, tuition waiver, student fees, late fees, etc.) must be submitted separately to the UNLV Student Accounts Office, using their Tuition & Fee Appeal Form. If an appeal involves both an academic and financial issue, the student should submit an academic appeal first to the Graduate College and wait for a decision before commencing with the financial appeal to the Student Accounts Office. For further information concerning the financial appeal process please visit: http://cashiering.unlv.edu/fee_appeal.html.

Waiver of Regulations

The Graduate Dean will consider a student's written request for waiver of a regulation upon a written recommendation from the student's department and committee chair. The regulation in question must be specified and the reason for the exception clearly stated. The Graduate Dean will notify both the student and the department of the decision.

Policies and Procedures on the Protection of Research Subjects

Human Subjects: Graduate students conducting research must adhere to UNLV policies and procedures regarding the use of human subjects. All research projects in which human subjects are involved must be reviewed and approved under the authority of the UNLV Institutional Review Board (IRB), which consists of two committees - Biomedical Sciences Committee and Social and Behavioral Sciences Committee. The IRB is responsible for the development and monitoring of university policy and procedures involving the use of human subjects in research.

The provision for the protection of human subjects in research applies to all studies in all locations, whether funded or unfunded, and whether conducted by faculty, students, or staff. It also applies to persons unaffiliated with UNLV, who wish to investigate subjects under the protection of the university. Students should contact the Office of Sponsored Programs to obtain appropriate forms and further information.

Animal Subjects: It is university policy that: 1) the proper care and management of laboratory animals is essential to the welfare of the animals, to the validity of research data, and to the health and safety of those caring for or using animals; and 2) the university will comply with federal and state regulations regarding animal welfare.

All animal protocols involving vertebrate animals (including farm animals and wild animals) conducted at, funded through or sponsored by UNLV must be submitted for prior Institutional Animal Care and Use Committee (IACUC) review and periodic review after approval in accordance with university policies and procedures that are required by federal law.

The provision for the protection of animal subjects in research applies to all studies in all locations, whether funded or unfunded, and whether conducted by faculty, students, or staff. It also applies to all studies in all locations, whether funded or unfunded, and whether conducted by faculty, students, or staff. It also applies to persons unaffiliated with UNLV, who wish to investigate subjects under the protection of the university. Students should contact the office of Sponsored Programs to obtain appropriate forms and further information.

UNLV Student Computer Use Policy

Public computer laboratories and mainframe computers are provided as a service to students. Use is a privilege, not a right. Users should be good citizens; they must refrain from doing anything that annoys others or disrupts the educational experiences of their peers. Failure to comply with the regulations below may result in suspension under the NSHE Code, or civil or criminal action under the Nevada Revised Statutes, or federal law. It is a violation of UNLV policy to:

1. Copy any copyrighted software provided by UNLV. It is a criminal offense to copy any software protected by copyright, and UNLV will treat it as such.
2. Use licensed software in a manner inconsistent with the licensing arrangement. Information on licenses is available at the tutor stations or through NSHE Computing Services.
3. Copy, rename, alter, examine, or delete the files or programs of another person or UNLV without permission.
4. Use a computer to annoy others, including, but not limited to, sending offensive messages or knowingly causing a system to crash.
5. Create, disseminate or run a self-replicating program (virus), whether destructive in nature or not.
6. Use a computer for non-university work, such as for a private business or non-UNLV sanctioned club.
7. Tamper with switch settings or do anything that could damage terminals, computers, printers, or other equipment.
8. Collect, read, or destroy output other than your own work without the permission of the owner.
9. Use the computer account of another with or without permission unless it is designated group work.
10. Use software in the lab not owned by UNLV unless the student is the legally licensed owner.
11. Continue to use a computer account after withdrawing from the class for which it was obtained.
12. Access or attempt to access a host computer, either at UNLV or through a network, without the owner's permission, and/or through use of log-in information belonging to another person.

Mandatory Graduate and Professional Student Health Insurance

In May 2013, the Graduate & Professional Student Association (GPSA) passed a motion to recommend that all fully admitted graduate and professional students taking 9 credits or more per semester, and all graduate assistants, must have insurance coverage either through UNLV or their own carrier. In June 2013, the NSHE Board of Regents supported and approved this proposal. As a result, the mandatory hard waiver student health insurance policy is in effect immediately for the Fall 2013 semester.

Students who are admitted into a graduate or professional program and are enrolled in 9 credits (regardless of the course level) in a semester, and all graduate assistants, will be automatically billed for student health insurance. . It is then incumbent upon those students who already have health insurance to complete the UNLV online waiver form to waive out of the UNLV student health insurance. Once approved, a health insurance waiver is good for one academic year.

For more information on Graduate Student Health Insurance fees, please refer to the Mandatory Graduate & Professional Student Health Insurance section under Tuition & Fees .

Student Use of Hazardous Materials

Certain courses may require students to work with potentially hazardous materials in the lab, darkroom, or workshop. Instructors will provide instructions regarding the safe handling of all materials. Questions should be directed to the specific academic department or instructor, and all such activities must comply with national, state, local, UNLV and Office of Risk Management guidelines and requirements.

Disclosures

Rights of Privacy Act of 1974

The Federal Family Education Rights and Privacy Act of 1974 affords persons who are currently, or who were formerly, in attendance at the university as registered students a right of access to their "educational records," which contain information directly related to such persons and the right to challenge the accuracy of their records. The act also restricts the persons to whom the university may disclose a student's educational records without the student's written permission. The university's policy is to comply fully with all provisions of the act, and a detailed statement concerning the rights afforded current and former students is available, at no cost, in the office of UNLV's General Counsel. Any person who feels the university has failed to comply with the Federal Family Education Rights and Privacy Act may file a complaint with the Family Education Rights and Privacy Act Office, Department of Education, 300 Independence Avenue S.W., Washington D.C. 20201.

Annual Jeanne Clery Campus Safety and Security Report

In order to comply with provisions of "The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act", reports from the University community and local law enforcement agencies are compiled and published annually by the Department of Public Safety. As law enforcement professionals tasked with the maintenance of a safe and secure educational environment, it is our responsibility to provide a comprehensive report regarding the campus public safety environment including the incidence of crime.

Limitations

The 2013-2014 Graduate Catalog describes current academic programs of study, course descriptions and degree requirements at the graduate level for the academic year of 2013-14 at the University of Nevada, Las Vegas. The content of this catalog is current as of August 2013, but is subject to modification at any time to accommodate changes in university resources or educational plans.

This catalog does not constitute a contractual commitment that the university will offer all the courses or programs described, and the university reserves the right to revise catalog provision and fees at any time in accordance with the actions of the president the Nevada System of Higher Education, or any other governing body.

The university reserves the right to eliminate, cancel, reduce in size or phase out courses, academic programs and/or limit enrollments in specific programs and courses, to change fees during the student's period of study, and to require a student to withdraw from the institution for cause at any time.

Inquiries

Inquiries should be addressed to: Dean of the Graduate College, University of Nevada, Las Vegas, 4505 Maryland Parkway, Box 451017, Las Vegas, NV 89154-1017, (702) 895-3320, or call UNLV's main switchboard at (702) 895-3011. Visit the UNLV Web site at <http://www.unlv.edu>.

Title IX Compliance

The Patsy T. Mink Equal Opportunity in Education Act, generally known as Title IX of the Education Amendments of 1972 is a federal law that prohibits sex discrimination in education. It reads:

"No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance."

Legal Citation: Title IX of the Education Amendments of 1972, and its implementing regulation at 34 C.F.R. Part 106 (Title IX).

Often considered a law giving women equal opportunities in athletics, Title IX of the Education Amendments of 1972 (20 U.S.C. § 1681) is an all-encompassing federal mandate prohibiting discrimination based on the gender of students and employees of educational institutions receiving federal financial assistance. Sex discrimination includes sexual harassment and sexual violence. Educational institutions that receive federal financial assistance are covered by Title IX. If only one of the institution's programs or activities receives federal funding, all of the programs within the institution must comply with Title IX regulations. In compliance with Title IX, the University of Nevada, Las Vegas prohibits discrimination in employment as well as in all programs and activities on the basis of sex.

Title IX Coordinators

- **Harriet E. Barlow, Ph.D.**

Title IX Coordinator

Monitors and oversees the overall implementation of Title IX Compliance at the University, including coordination of training, education, communications, and administration of grievance procedures for faculty, staff, students and other members of the University community.

Email: harriet.barlow@unlv.edu

- **Juanita Fain, Ph.D.**

Title IX Deputy Coordinator

Receives, investigates, and renders resolution for matters involving UNLV teaching and administrative faculty.

Email: juanita.fain@unlv.edu

- **Phil Burns**

Title IX Deputy Coordinator

Receives, investigates, and renders resolution for complaints involving UNLV students.

Email: phillip.burns@unlv.edu

- **Lisa Kelleher**

Title IX Deputy Coordinator

Responsible for receiving and reporting complaints related to Title IX and gender equity in UNLV athletics programs.

Email: lisa.kelleher@unlv.edu

- **Eric Toliver**

Title IX Deputy Coordinator

Facilitates the handling of complaints involving a UNLV Athletics (student athlete, coach, administrator, or visitor) with the Title IX Coordinator.

Email: eric.toliver@unlv.edu

Diversity at UNLV

The University of Nevada, Las Vegas (UNLV), along with other research-intensive public universities in the United States, recognizes that a student body that is diverse with respect to race, ethnicity, socioeconomic class background, and geography among other dimensions of cultural difference, benefits and enriches the educational experiences of all students, Faculty and staff. Accordingly, UNLV strives to recruit students who will further enrich this diversity and to support their academic and personal success and while they are a part of our campus community. The presence and achievement of racial and ethnic minority students at UNLV not only benefits these students individually, but it also enhances the educational and interpersonal experiences of everyone in our campus community. UNLV actively encourages applicants whose racial and ethnic background is underrepresented in higher education in Nevada, who are first-generation college students, and who have demonstrated financial need.

The vision of the Office of Diversity Initiatives is to advocate, promote, and support the advancement of equity, inclusiveness, and empowerment of a continuously changing collegiate and global community.

Student Policies

All graduate students at the University of Nevada, Las Vegas must adhere to the rules and regulations set forth by the Nevada System of Higher Education (NSHE) Board of Regents Handbook, UNLV Student Conduct Code, UNLV Graduate Catalog, and program of study student handbook. Students found in violation of any of the rules and regulations discussed above as well as the laws governing the State of Nevada and the United States of America are subject disciplinary action.

copyright ©2013-2014

Admission & Registration Information

The UNLV Graduate College welcomes applicants from all over the nation and the world to join our community of scholars. Our more than 125 graduate programs provide an outstanding opportunity for advanced study in numerous areas of research and creative activity. Admission to the Graduate College at the University of Nevada, Las Vegas is competitive. The rules and criteria established by the Board of Regents, University, Graduate College, and individual graduate programs determine admissibility. Applicants must meet minimum admissions requirements as established by the Graduate College; once they do so, the graduate program makes their final recommendations on admission based on the application materials required by the department.

The Graduate College processes applications and supporting materials as they are received. Application deadlines vary by department; applicants should contact the department where they are seeking admission to get this information. In consultation with the Graduate College, departments have the right to establish additional admission standards and criteria. It is the responsibility of the applicant to contact the appropriate department for information on additional departmental admission requirements. Please note that applicants must submit admissions materials to both the Graduate College and their graduate program of interest simultaneously in order to apply for admission. The process below describes the Graduate College requirements; please also follow the requirements, guidelines and deadlines of your degree program of interest.

UNLV is an EEO/AA/Title VI/Title IX/Section 504 institution. All qualified applicants to the Graduate College, and admitted students, will receive equal consideration without regard to race, color, national origin, religion, sex, pregnancy, marital status, sexual orientation, gender identity, age, disability, or covered US veteran status.

Requirements for Domestic Applicants

Applicants must meet the following academic requirements:

1. Hold a four-year baccalaureate degree from a regionally accredited institution or an approved equivalent.
2. Have a minimum overall undergraduate grade point average of 2.75 (4.00=A), or a minimum 3.00 GPA (4.00=A) for the last two years of study.

Policy on English Proficiency Requirement for Graduate Admissions

International applicants must provide proof of English proficiency. Applicants are exempt from this requirement if they are from countries where English is the native language. Applicants who received a post-secondary degree from an institution where English is the language of instruction are also exempt from this requirement. Graduate departments may require a higher minimum score for admission.

Acceptable official documents submitted by the testing agency:

Test of English as a Foreign Language (TOEFL)

- Internet-based: Total minimum score 80 with a minimum score of 20 required for each area of the exam.

International English Language Testing System (IELTS)

- Minimum score: 7

Michigan Test of English Language Placement (MTELP)

- Minimum score: 85

Policy Exception

With the support of the academic department, the Graduate College may accept the following scores for applicants with cumulative GPA of 3.75 or higher (4.0 scale). In addition to the GPA requirement, the academic department must provide evidence of academic excellence as rationale for such an exception.

Any requests for exceptions must be submitted to the Graduate College with support from the academic department/unit chair and graduate coordinator. Scores lower than the following will NOT be considered for exception:

Test of English as a Foreign Language (TOEFL)

- Paper-based minimum score: 547
- Computer-based minimum score: 210
- Internet-based: 77

International English Language Testing System (IELTS)

- Minimum score: 6.5

Michigan Test of English Language Placement (MTELP)

- Minimum score: 80

Any students admitted on exception will be required to visit with the UNLV English Language Center (ELC) for an assessment upon arriving on campus and take any courses prescribed by the ELC to remedy any English language deficiencies. Failure to complete prescribed courses within the time frame stipulated by the ELC will result in separation from the University.

Requirements and Procedures for International Applicants

Credentials not written in English must be accompanied by an English translation certified as true by a university official, an official representative of a United States embassy or consulate, the United States Information Service, the United States Education Foundation, or an approved professional translating service. Notarized copies of originals or translations are not considered official.

International applicants must submit a completed Certification form and Bank Letter to the Office of International Students & Scholars, must satisfy the financial eligibility requirements, and receive their Letter of Admission from the Graduate College by July 1 if admitted for fall semester and November 15 if admitted for the spring semester before an I-20 will be issued.

For information concerning matters not related directly to the degree program (housing, fees, etc.), contact the Office of International Students and Scholars. Once admitted, international students must consult with this office and their academic advisor.

Application Procedures for Domestic and International Applicants

To be considered for admission, prospective students must complete two simultaneous application processes: one in the Graduate College and the other in the department that offers your program of study. The Graduate College requires the same application and admission materials from all prospective graduate students, regardless of department of interest. Individual academic departments may require satisfactory composite scores on standardized tests, letters of recommendation, a personal statement, portfolio, or any combination of these or other items. Because departmental requirements vary, please *refer to your department of interest* for specific application requirements and deadlines.

To apply to the Graduate College, submit the following admission materials for consideration:

- A completed application: The application is available for you to fill-out online by selecting the "Apply Yourself Application" link on the Graduate College homepage at <http://graduatecollege.unlv.edu>.
- A nonrefundable admission application fee, payable to the Nevada System of Higher Education by check, money order, or online by credit card.

*Note: Applications and materials will not be processed until the application fee is received. Applicants to multiple UNLV graduate programs must pay the admission application evaluation fee for each application filed. Denied applicants, who later seek admission to the same or other UNLV degree program, are required to pay a new application fee to cover processing.

- **One transcript from every post-secondary institution the applicant has attended (whether or not a degree was earned)**, showing all coursework, extension and correspondence work, any degrees earned, and the dates that those degrees were awarded. Unofficial transcripts will be accepted as part of the application process. However, if an applicant is admitted, official transcripts will be required by the date specified on the Certificate of Admission.
- All new applicants (international and domestic), EXCEPT those applying to programs in the College of Engineering or to Management Information Systems or Economics, are required to provide a course-by-course evaluation of all foreign credentials from one of the external evaluating agencies listed below. Foreign credentials refer to transcripts from educational institutions outside the United States. When ordering your foreign credential evaluation, please be sure that your grade point average (GPA) is calculated and included in your agency evaluation.
 - We require applicants to use one of the following NACES approved agencies:
 - Josef Silny & Associates (order university course-by-course evaluation, plus GPA)
 - World Education Services (order course-by-course evaluation report, which includes GPA)
 - International Education Research Foundation (order Detail Report, which includes GPA)
 - Educational Credential Evaluators (order course-by-course evaluation report, which includes GPA)

*Note: Only transcripts sent directly from the institution are considered official. Failure to disclose all course work and/or degrees awarded will result in rescission of admission.

Send Graduate College admission materials to:

University of Nevada, Las Vegas
 Graduate College
 FDH 352 Box 451017
 4505 S. Maryland Parkway,
 Las Vegas, NV 89154-1017

Mailing addresses for specific graduate programs are available on department websites via the Graduate College website. Applicants must submit admission materials to your department of interest by their deadline. Because departmental requirements vary, please be sure to refer to your department of interest for specific application requirements. Many graduate programs require some or all of the following documentation:

- **One official transcript from all post-secondary institutions attended**, showing all degrees and the dates awarded and extension and correspondence work. Only transcripts sent directly from the institution are considered official. Some departments only require unofficial transcripts; please check with your department of interest to confirm.
- **Letters of recommendation sent by former instructors, employers, or other professionals** who can evaluate the applicant's potential to complete graduate study.

- **Resume, portfolio, etc.** Some departments may request additional materials (i.e., resume, portfolio, statement of purpose, writing samples, and the like).

Standardized test scores. In addition, some departments may require satisfactory composite scores on the Graduate Record Examination (GRE), Graduate Management Admission Test (GMAT), Miller Analogies Test (MAT), or other standardized tests. Some examinations are given only four or five times a year and require that registration be completed a minimum of six weeks prior to the test date. With the exception of the Miller Analogies Test (MAT), students may take the required tests at other colleges or universities if taking them at UNLV is inconvenient for the applicant.

The Admission Process

1. A Student Admission File is created upon receipt of an admission application and fee. Applications are not processed until the Graduate College receives all required credentials. To avoid processing delays, students must submit the online admission application and fee prior to sending additional materials (i.e., transcripts, test scores, letters of recommendation, etc.). Applicants are responsible for making sure the Graduate College and department receive the appropriate credentials by the required deadlines. All application materials, including transcripts, become the property of the university and may not be released to the applicant or any individual.
2. The Graduate College evaluates the application materials and forwards the initial evaluation to the department for review. The department will make a recommendation to the Dean of the Graduate College for approval. Early submission of all application materials to the Graduate College and department simultaneously, facilitates a more expeditious review process.
3. Applicants will be notified of their admission status on their Apply Yourself page (online). Those accepted to pursue a UNLV graduate degree will receive an electronic Letter of Admission from the Graduate College, which will be posted in their Apply Yourself application. The Letter of Admission is an important document that the student should retain.
4. The student must then log into their MyUNLV account and accept their admission. Students who do not accept admission will not be able to enroll in courses.
5. The admission process is only completed upon enrollment in graduate-level courses for the specified term and degree program indicated on the Letter of Admission. Failure to enroll or subsequent withdrawal from all course work; during the semester of admission will void the Letter of Admission and result in the student's separation from their graduate program.
6. If an applicant does not complete their admission process, the student must reapply and submit another application processing fee to be considered for admission in a future semester. Materials from the previous application, such as official transcripts, may be used if they are still on file with the Graduate College. Official transcripts are kept within the Graduate College for a minimum of one year.

Note: Occasionally a student may be admitted with deficient undergraduate preparation contingent on the deficiency being corrected by completing one or two undergraduate courses early in the graduate program. A student may also be required to register for internship credits, or related graduate coursework, to remedy a deficiency related to lack of work experience or field experience prior to admission. Students needing more than two courses are advised to consult with the department for a recommendation on which courses they should take to meet the prerequisite admission requirements. These courses taken to remedy deficiencies identified at admission will not be applied toward the advanced degree. Most College of Education departments require a minimum of 18 undergraduate credit hours in professional education courses. Nevada professional certification may be considered as fulfilling this requirement.

Transfer Work

Any courses used to fulfill requirements for one degree (at UNLV or elsewhere) may not be used toward another degree. For UNLV Non-Degree Seeking graduate students, a maximum of 15 graduate credits (with grades of B or

better) taken at UNLV may be applied toward a graduate program, with the approval of the student's department and the graduate dean. Graduate work from other regionally accredited institutions with a grade of B or higher (3.00, A=4.00) may be transferable into a degree program subject to departmental and Graduate Dean approval. Grades of B or lower, and courses graded on a satisfactory pass/fail basis, are not transferable into graduate degree programs. With the department and Graduate College approvals, no more than one-third of the minimum number of credits required for the degree (not including credits for thesis, dissertation, and professional/scholarly papers) may be transferred from a regionally accredited graduate degree granting institution.

Second Admission or Readmission to the Graduate College

Students may apply for a second master's degree (in a different department) or a doctoral degree after completing a master's degree. In these cases, students must submit a new application for admission, the required admission processing fee, and all supporting credentials required by the Graduate College and the new department or program.

If a student is admitted to a graduate program but fails to complete that program, and this happens two times in two different programs, that same student may not be eligible for future admission to the Graduate College.

Change of Department

Students are admitted to pursue an advanced degree in a specific department or program. To change to another department or program, students must submit a new application for admission, the required application fee, and all necessary admission credentials to the Graduate College. Upon admission, the student must withdraw in writing from the original department. Graduate students may not be enrolled in two degree programs simultaneously unless they are admitted to a designated dual graduate degree program or they have received special permission from the Graduate College dean.

Application Fraud and Revocation of Admission

We assume that the information provided on the application for admission is complete and accurate. Subsequent evidence to the contrary may result in the admission being revoked and the loss of any credit or degree stemming from the admission. To reapply for admission after a revocation, a new application and fee are required. Students should contact the Graduate College and their department of interest to determine what additional materials are needed. Materials from the previous application, such as official transcripts, may be used if they are still on file with the Graduate College. Official transcripts are kept within the Graduate College for a minimum of one year.

Admission Status and Classification of Students

Full Graduate Standing

Students accepted to pursue a program leading to an advanced degree are classified as having Full Graduate Standing. The Full Graduate Standing classification allows students to plan and matriculate in a degree program, to request formation of an advisory committee, and to be assigned or select a faculty advisor, depending on the degree program.

Graduate Provisional

Students whose previous academic records are not strong enough to merit Graduate Standing may be granted probationary admission and classified as Graduate Provisional. This classification does not apply to students with deficiencies or insufficient undergraduate credits in the chosen field of study. The Graduate College and the student's department determine placement in this classification.

A provisional student must complete nine credit hours of graduate-level course work selected by the department and listed on the Letter of Admission. The student must complete this course work within one calendar year of admission, with grades of B or higher (B- grades are unacceptable) before taking additional course work. Failure to complete the required course work in the specified period or earning a grade less than B (3.00) will automatically revoke the student's admission.

When the Graduate College receives confirmation of the appropriate grades being earned in the required course work, the student will be given Graduate Standing status. A student may only be admitted as a Graduate Provisional student once.

Conditional Admission

A Conditional Admission status may be granted when the applicant must submit additional material before finalizing admission, i.e., a final transcript of course work in progress while applying for admission. Full Graduate Standing or Graduate Provisional students may also be classified as Conditional Admission. The Letter of Admission will specify which material must be submitted and the date by which the Graduate College or academic department must receive it. Failure to meet the condition(s) will automatically cancel the student's admission and result in separation from the student's graduate program.

Non-Degree Seeking Graduate Students

The Non-Degree Seeking Student status is assigned to individuals with baccalaureate degrees who wish to take graduate courses but not yet pursue an advanced degree. Applications for admission as a Non-Degree Seeking Graduate Student are processed through the Graduate College. Generally, Non-Degree Seeking Students may enroll in up to 12 credit hours per semester, but they are not eligible for federal financial aid or Graduate College scholarships or fellowships.

Graduate programs and faculty determine whether non-degree seeking graduate students may enroll in their graduate courses. Department faculty are responsible for determining the adequacy of preparation of Non-Degree Seeking Students before allowing them to take upper-division or graduate courses which are open to Non-Degree Seeking Graduate Students. The student should check with the department about graduate courses accessible to Non-Degree Seeking Students. It is the student's responsibility to provide proof of adequate preparation.

A Non-Degree Seeking Graduate Student wishing to seek a degree must apply for admission to the Graduate College and pay an application processing fee. Non-Degree Seeking Graduate Students may transfer up to fifteen UNLV credits with grades of B or higher into a degree program. Courses taken as a Non-Degree Seeking Graduate Student count toward the degree program at the discretion of the graduate coordinator, and/or department chair, and Graduate Dean.

Undergraduates Taking Graduate-Level Courses

Undergraduates with a minimum of 90 semester hours of credit and a 3.00 or higher grade point average may enroll in graduate courses. Students in the Honors Program must have a minimum of 45 semester hours of credit and a 3.00 or higher grade point average. The Approval for an Undergraduate to Enroll in Graduate-Level Course Work Form must be completed and necessary signatures obtained and approved by the Graduate College prior to registration. Students may enroll in up to six hours of graduate-level courses during one semester.

Reserving Courses for Graduate Credit. Upon approval, and pursuant to the policy above, UNLV undergraduates may take 500/600/700-level course work and reserve the credits earned for possible use in an advanced degree program. Course work reserved for graduate credit may not be used to satisfy baccalaureate degree requirements.

Graduate Courses for Undergraduate Credit. Upon approval, and pursuant to the policy above, UNLV undergraduates may take 600/700-level course work for use in an undergraduate degree program. Courses used in an undergraduate program may not be applied toward an advanced degree at a later date.

Immunization Requirement

Nevada state law requires all new University of Nevada, Las Vegas graduate students to submit proof of immunization before they may register for classes. New students are required to provide proof of immunity to remove a registration hold. Proof of immunity should be sent to the Admissions Office for processing. For further information, contact Admissions at (702) 774-UNLV (<http://web.unlv.edu/admissions/immunizations.html>) or contact the UNLV Student Health Center at (702) 895-3370.

Nevada Residency

The UNLV Admissions Office determines the Nevada residency of graduate students according Board of Regents regulations and the laws of the State of Nevada. Persons, such as Nevada certified school teachers and Armed Forces personnel stationed in Nevada, are normally accorded residency status. A full statement of the regulations is available online.

Registration Policies

The university outlines specific registration procedures in the Schedule of Classes, which is made available prior to each semester by the Registrar's Office. Students must register for classes using the procedures outlined in the class schedule including enrolling by the dates and times specified for each semester or special session. Students paying fees after the date and time specified in the schedule may be charged a late fee. An administrative drop may result for nonpayment of fees. The registration or enrollment of a student ineligible to attend the university is subject to immediate cancellation. A full-time graduate student is one who is enrolled in nine or more semester credits, or six credits per semester for UNLV graduate assistants.

Adding or Dropping Classes

Students may add or drop a course up to the close of the late registration period. After this date, and with approval, students may make changes only when the circumstance is sufficiently extraordinary to warrant an exception.

Dropping/Withdrawing From Classes

The terms drop and withdraw are used interchangeably. The academic policies and calendar dates for dropping and withdrawing are the same. Drop generally refers to dropping one or more courses during a given semester. Withdrawal generally refers to the act of dropping all courses during a given semester.

A student may drop or withdraw from full semester courses during the free drop period (first ten weeks of the fall or spring semester) without a grade. The instructor must provide a preliminary evaluation of the student's grade before the end of the free drop period. No drops or withdrawals will be permitted after the end of the free drop period as published in the current class schedule (see Grades and Examinations). Refer to the appropriate class schedule for drop dates for special modular courses, short courses, extended education and summer term courses. Students who stop attending class and fail to file an official drop request form with the Registrar will receive a grade of F.

Students who wish to withdraw from all classes must obtain a Withdrawal form from the Registrar's Office, obtain all required signatures, and return the form to the Registrar's Office. The withdrawal is official only after the Registrar's Office accepts it.

A student who has officially dropped a class and who is no longer registered for credit or audit is ineligible for further attendance in that class.

Cancellation of Registration

The university reserves the right to cancel any registration in specific courses for which the student is ineligible. The registration of any student who is ineligible to attend the university is subject to immediate cancellation. The university also reserves the right to cancel the registration of an individual whose attendance, in the opinion of the appropriate administrative officials, would not be mutually beneficial to that person and to the institution.

Cancellation of Courses and Programs

The university reserves the right to cancel any registration in which the enrollment is insufficient to warrant offering the course and/or to eliminate, cancel, phase out or reduce in size courses and/or programs for financial, curricular or programmatic reasons.

Repeat Policy

Any course may be repeated, regardless of the grade received. Credit will be allowed only once for successful completion of the course, except for courses designated in the catalog as allowable repeats; these course may be repeated only up to the maximum number allowed in the catalog and MyUNLV system. A student may repeat any UNLV course once at UNLV and not have the original grade included in the computation of the grade point average. The repeat grade must be on the same grading option as the original grade. The original grade will remain on the student's academic record with suitable notation. For courses repeated prior to February 1971, both the original grade and the repeat grade are included in the grade point average. Students are responsible for providing the Registrar's Office with written notification when a repeat course is completed. Computer-printed grade reports may not initially compensate for repeated courses. Grade point averages, credits attempted, and credits earned will be manually adjusted.

When a course is repeated more than once, only the original grade is omitted in computing the grade point average. The fact that UNLV has granted a degree to a student shall not preclude the student's right to repeat a course for the purpose of improving a grade. However, class standing will not be affected by the results. A student receiving a final grade of 'F' in a course can obtain credit by pre-registering for the course, repeating the class work, and receiving a passing grade.

A failed course cannot be challenged by examination. A failed course does not have to be repeated unless the course is a specific college or department requirement. A student may be allowed to repeat any course once and not have the original grade computed in the graduation GPA. If a course is repeated more than once, only the original grade is omitted in computing the graduation GPA.

Unit of Credit

The unit of credit, or semester hour, is generally defined as one 50-minute lecture per week for a semester. Two or three laboratory hours per week, depending on the amount of outside preparation required, usually carries the same credit as one lecture hour. Please note that graduate courses that are cross-listed with undergraduate courses may require a graduate student to meet for some limited, additional hours to fulfill course requirements as indicated on the course syllabus.

Course Numbers

Graduate-level courses are numbered 500-799. Undergraduate-level courses are numbered 100-499. Some graduate level courses are not usable for graduate credits. One example of this are courses with an RPDP prefix; these are non-graduate credit granting courses and are indicated as such on the UNLV transcript.

Symbols

Numbers separated by a hyphen indicate courses which must be taken in sequence. The first semester is prerequisite for the second, for example, 701-702. Numbers separated by a comma indicate courses which may be taken one without the other, for example (701, 702). Various areas of the same course may be taken for credit. They are indicated by letters, for example A., B., etc.

Grading System

A candidate for an advanced degree must have a minimum Graduate Program Grade Point Average of 3.00 to be eligible to graduate. The Graduate Program GPA, computed by the Graduate College, includes all completed graduate course work accepted at admission and all subsequently approved course work that is being applied toward a degree. Please note that the Graduate Program GPA does not appear on a student's transcript; a student's Cumulative Graduate GPA is posted on her/his transcript and is calculated from all graduate level course work ever taken at UNLV.

The following symbols are used in reporting and recording graduate student grades:

A	Superior (4.0)
B	Passing (3.0)
C	Average (2.0)
D	Below Average (1.0)
F	Failing
AD	Audit (not graded, no credit toward GPA)
I	Incomplete (expires after one year; if not grade is submitted in that time frame, the 'I' will default to an 'F' grade)
S	Satisfactory
X	Hold: Grade is submitted upon completion of Thesis or Dissertation or Professional Paper

Note: Faculty members have the option of using plus (+) and minus (-) for grades of A, B, C, and D. Exception: A+ grades are not given. Please also note that at the graduate level, grades below a B are generally considered unacceptable. Graduate students must have a 3.0 GPA in order to qualify for graduation.

I or Incomplete Grade

The following regulations apply to the 'I' or Incomplete grade:

1. The 'I' grade is used for content/lecture type courses (not thesis, dissertation, or professional paper credits) designed to be completed within one year in instances where the student has completed the majority of the

semester course work, but is unable to complete all of the requirements with good cause. The professor is responsible for determining if the reason for non-completion is satisfactory, if an Incomplete grade is appropriate, and the terms of the Incomplete, including what the student needs to do to successfully complete the course requirements and earn a final grade.

2. An 'I' may only be given when a minor part of the course work remains incomplete, and the majority of the coursework has been completed with a cumulative average of 'B' or better.
3. Graduate students receiving an 'I' grade in 500, 600- or 700 level courses have one calendar year to complete all course requirements and remove the 'I' grade; however, the instructor may require that it be made up in less time. If course requirements are not completed within one year, the Registrar's Office will automatically record a grade of 'F'. Note that graduate students taking an "I" in an undergraduate class must complete the coursework within one semester or the "I" will default to an "F."

S or F (Satisfactory or Failing) Grades

The Satisfactory (S) or Failing (F) mark is used upon completion of the thesis, dissertation, professional paper or for noncredit or satisfactory/fail courses. Grade-point values are not assigned for S. Many graduate and professional schools may not accept satisfactory/fail credits, or accept them only if accompanied by written evaluations of the work accomplished in such courses that bear upon the field of specialization. Additional evidence such as GRE or other advanced test results may also be required. UNLV does not accept graduate courses graded satisfactory/fail for use in a degree program except for thesis, dissertation, or professional paper credits.

Transcripts of Credit

Official transcripts bear the University Seal, the Registrar's signature, and reflect all academic work attempted at UNLV. Upon written request, the Office of the Registrar will issue official UNLV transcripts. Requests should be made at least one week before the date the transcripts are needed. The Registrar will not issue transcripts for any student having a delinquent indebtedness to the university. In addition, transcripts of work from other institutions will not be issued. Work in progress does not appear on the transcript until the semester or registration period officially ends. Transcripts are not prepared during final examination, grade recording, and registration periods.

Degree Progression Policies & Procedures

Students should be aware of the Graduate Study Timeline available on the Graduate College website.

Degree requirements are usually completed under the policies and regulations listed in the Graduate Catalog in effect at the time of admission. However, and with departmental and Graduate College approval, the Graduate Catalog in effect during the semester in which degree requirements are completed may be used.

All students seeking an advanced degree must adhere to the regulations discussed in this section. With Graduate College approval, departments may have additional specific degree requirements that students must meet to receive an advanced degree.

Forms

All students are responsible for submitting the proper forms to the Graduate College as he or she progresses through their degree program. Failure to do so may cause a delay in the student's graduation.

The Advisor

Students are assigned an advisor by their graduate program at the time of admission into the Graduate College. The advisor is typically selected by the department from among its Graduate Faculty; after which, if required by degree program, it is the responsibility of the student to personally select an advisor to serve as chair of his or her advisory committee, and other graduate faculty to fulfill the other required roles on a graduate advisory committee. At any time after admission, a student may request (using a Change of Advisory Committee form) a change of advisor and/or change of advisory committee members, and upon departmental recommendation and Graduate College approval, the advisory committee will be changed.

The Graduate Advisory Committee is responsible for guiding the student through the graduate program, assisting the student with her/his professional paper, thesis, or dissertation, and administering the final examination. Not all graduate degree programs require the appointment of an advisory committee. Students should consult with their advisor to determine whether or not an advisory committee is necessary, however all students completing a thesis or dissertation must convene a proper Graduate Advisory Committee. All departmental members of the committee should have expertise in the student's research area. Generally, four graduate faculty members comprise an advisory committee: three from the student's department (the chair must have full graduate faculty status in the student's home department; the other two committee members may have either associate or full graduate faculty status in the student's home department) and one professor who has full graduate faculty status from another department to serve as the Graduate College representative. The Graduate College representative is a neutral, outside faculty member with full graduate faculty status who participates on the committee to ensure that all Graduate College policies are followed, to make sure that all milestones in the student's progression are met appropriately, and to witness rigor, quality, and fairness throughout the student's culminating experience process and defense. Note that with appropriate approval it is permissible for one or more additional graduate faculty members to be placed on the committee. Master's and doctoral students must submit the Appointment of Advisory Committee form to the Graduate College before establishing the degree program and before submitting their Prospectus Approval forms. The Graduate College must approve the Graduate College representative, and all advisory committee members on the Appointment of Advisory Committee form, before students proceed to work with their advisory committee, sit for exams, defend a prospectus, or otherwise participate in any milestone event involving their advisory committee. If a student needs to make changes to his/her advisory committee after submission of the Appointment form, they may do so with the Change of Advisory Committee form. Students have a right to change their committees as they see

fit, however all ethical and professional rules and guidelines governing research data, creative activities, funded projects, must be considered and followed. Also, please note that when a student requests a change of advisory committee immediately after a failed exam or defense, and prior to the retaking of said exam or defense, the department and/or Dean may not allow the committee change until the current milestone exam or defense is completed.

Graduate Committee Composition: Additional Committee Members

When a student constitutes a graduate committee containing a chair, plus 2 graduate faculty from their department as committee members, plus the required Graduate College representative (who has full graduate status in a department outside the student's own), and then adds an additional committee member from outside their department, that additional member does not need to establish graduate faculty status in the student's own department in order to serve in this capacity (as a co-chair or additional committee member). However, if the student's core committee of three (excluding the Graduate College representative) includes a faculty member from another department, that person must establish the appropriate graduate faculty status --- full to chair, associate to serve as a member --- in the student's home department.

Students who are not yet in MyUNLV Degree Audit (to ascertain this, please check with your Graduate Coordinator or the Graduate College), must prepare a proposed graduate degree program, with input and guidance from their advisor and advisory committee. This degree program, which outlines the courses the student will complete for the degree, should be thoughtfully prepared. The degree program of study must comply with the regulations of the graduate program or department, the Graduate College and the guidelines in the Graduate Catalog for the year in which the student was admitted. The degree program forms (Part A provided by the Graduate College, Part B is provided by the academic department) requires the approvals of the student, advisor, the graduate coordinator, the appropriate academic dean, and the Graduate Dean, and both parts of the form must be submitted at the same time, prior to applying for graduation.

The most important component of graduate education is the student's culminating experience. All graduate programs require a culminating experience of some type. This generally takes the form a thesis, a dissertation, a final scholarly research project, a professional paper, a course, a performance, an exam, and/or an oral defense. The culminating experience demonstrates the student's mastery of their research, scholarship, creative abilities, and/or written and oral communication skills in the chosen discipline. The final document is intended to benefit the student, contribute to the academic discipline or profession, and often they are of significance to the broader society. Students required to complete and defend a final research or creative document must submit the Prospectus Approval Form to the Graduate College along with a brief written statement describing the content of the document prior to beginning work on their thesis or dissertation. Students may not enroll in dissertation credits until they have completed all required coursework and exams, and submitted their signed Prospectus Approval form (with abstract) and their Advancement to Candidacy form to the Graduate College.

Final documents, including theses, dissertations, professional or scholarly papers, and projects must meet acceptable standards of the given profession. Theses and dissertations must also meet Graduate College standards according to The Guide to Preparing & Submitting a Thesis or Dissertation. The Graduate College and advisory committees expect students to give careful attention to the style and format of the final scholarly or creative documents.

Students should contact the department to determine which document and which forms are required to complete their degree program. Students must maintain continuous enrollment (a minimum of 6 graduate level credits in any three consecutive semesters including summer) while working on their degree and final document, and students be enrolled in a minimum of 3 graduate-level credits in the semester in which they graduate, even if they have already completed all the required degree credits.

Thesis and Dissertation

Some departments require a thesis, or offer the option of a thesis, for the master's degree. All research doctoral programs require a dissertation. Students must submit the Prospectus Approval form to the Graduate College at the same time the degree program is submitted for master's students and to advance to candidacy for doctoral students. The thesis or dissertation should demonstrate the student's ability to select a specific problem or topic, to assemble pertinent and necessary data, to do original research, to organize ideas and data acceptably, and to prepare a written report in clear and effective English. The Guide to Preparing & Submitting a Thesis or Dissertation is available on the Graduate College website. Students must follow the instructions in the guide. Matters of form with respect to capitalization, abbreviation, quotations, footnotes and bibliography should conform to the discipline's standards. Departments will advise the student on which style manual is appropriate.

The minimum number of thesis credits required for a master's degree program is six. For the doctoral degree program, the minimum number of dissertation credits required is twelve. A grade is not reported for thesis or dissertation credits. When the final copy of the thesis/dissertation is submitted electronically to the Graduate College and approved by the Graduate Dean, the title of the thesis/dissertation is posted on the student's transcript with the number of credits earned. Unless approved for a leave of absence, a student must register for a minimum of three thesis/dissertation or non-thesis/dissertation credits each semester (summer excluded) until the thesis or dissertation is completed, submitted to the Graduate College, and the student graduates. However, students intending to complete, defend, submit a thesis or dissertation to the Graduate College, and/or graduate during the summer term, must be registered for a minimum of three credits. It is strongly suggested that no later than eight weeks prior to the last day of instruction in the term the student will graduate, a draft of the work should be submitted to the advisory committee. The committee will review the thesis or dissertation for any corrections and changes, which must be incorporated before the final examination (oral defense) and submission of the final document to the Graduate College. The completed, unbound work must be resubmitted to the committee at least two weeks prior to the final examination. After the successful defense, the final document (incorporating all changes and formatted appropriately) must be submitted to the Graduate College. The Graduate College must approve all theses and dissertations prior to final electronic submission. The Graduate College recommends that an initial format check be performed by the Graduate College by the eighth week of the semester the student intends to graduate. Upon approval, the Graduate College will provide the student with an electronic approval page and the thesis or dissertation must be submitted electronically to ProQuest by the posted date each semester, which is generally not later than two weeks prior to the end of instruction of the term the student intends to graduate. All members of the advisory committee must approve the thesis or dissertation for submission to the Graduate College. Only the Graduate Dean may give permission for an extension of this deadline.

In rare circumstances a student may be permitted to complete the thesis or dissertation away from campus. After considerable progress has been made in collecting data and outlining the work, the student may petition to complete the thesis or dissertation in absentia, waiving the on-campus requirement. If the petition is approved, the advisor and Graduate Dean along with the student will determine the requirements for completion of the work.

Professional or Scholarly Papers or Projects

Master's students not pursuing a thesis option may be required to complete a professional/scholarly paper or project as part of the degree program. Students are encouraged to use The Guide to Preparing & Submitting a Thesis or Dissertation available on the Graduate College website when preparing a professional paper. Professional/scholarly papers or projects are not, however, reviewed, retained, or approved by the Graduate College. Some graduate programs require students doing a professional paper to have a graduate committee and to defend their work; other departments incorporate final papers into culminating experience courses or have other requirements. Please check with your department and the program information herein for detailed guidelines.

Doctoral Dissertation Defense Announcements

Doctoral dissertations must be announced to the campus via the UNLV Master calendar first, and then submitted to the Graduate College via our online form, a minimum of 2 weeks prior to the scheduled event. The reporting form is available on the Graduate College website. In addition, students are encouraged to publicize their defense in their department, and in relevant campus and community groups.

There are three major examinations which students may be required to pass in order to complete a graduate program. The following descriptions are general and may be used interchangeably by departments or programs. For the application of these terms and their use by a particular department or graduate program, refer to the appropriate section of this catalog.

Qualifying Examinations

Some departments require doctoral students to take one or more qualifying examinations as part of the admission screening process or for diagnostic purposes shortly after admission. The examination may be written, oral, or both. Written department guidelines determine who prepares the exam(s), who reviews and scores the exam(s), the timetable on which the exams are given, and the consequences for failing to pass one or more qualifying exams.

Comprehensive and Final Examinations

Most graduate degree programs require students to successfully complete one or more comprehensive or final examinations. For master's students, the comprehensive, or final, examination is generally conducted during the last semester or term of enrollment in which a student intends to graduate. For doctoral students, the comprehensive, or preliminary, examinations are generally taken after all course work, other than dissertation credits, has been completed and always before advancing to candidacy. The examination is intended to test the student's knowledge of an area of specialization and may be written, oral, or both at the discretion of the department. Written department guidelines determine who prepares the exam(s), who reviews and scores the exam(s), the timetable on which the exams are given, and the consequences for failing to pass one or more qualifying exams.

The comprehensive, final, or preliminary examination must be administered at least three weeks before the last day of instruction of any given semester or term. Students must be enrolled for at least one graduate-level credit during the semester or term the comprehensive or preliminary examination is taken. For comprehensive and final examination requirements, contact the department or refer to the appropriate section of this catalog. In the examination, the student must be able to demonstrate a comprehensive understanding of a broad field of study and a detailed understanding of one or more specialized fields of expertise. Generally, the advisory committee must unanimously pass the student. If the committee votes unanimously to fail the student or the vote is not unanimous to pass, the student, in consultation with his/her advisor, may request the committee to administer a second examination, depending on departmental policies and guidelines. Generally, depending on department rules, two failures of required exams leads to separating the student from the program for failure to progress.

Oral Defense

Graduate students completing a thesis or dissertation are required to demonstrate their ability to select a specific problem or topic, to assemble pertinent and necessary data, to do original research, to organize ideas and data acceptably, and to prepare a written report in clear and effective English. This demonstration takes the form of an oral defense of the finished document. For some master's and specialist students, completing a professional/scholarly paper or project an oral defense may be required. All members of the advisory committee must be present and may question the student.

The oral defense must be held at least three weeks before the last day of instruction in the term in which the student plans to complete the degree requirements. It may be conducted before that term only with the Graduate Dean's permission. Students must be enrolled during the term the oral defense is conducted.

Satisfactory performance on a final examination will consist of a presentation and defense of the student's original thesis or dissertation research. At a minimum, the defense consists of an oral presentation open to university graduate faculty, staff, students, and the community, followed immediately by a closed deliberation and vote by the advisory committee. More specifically, the oral presentation will be open to UNLV Graduate Faculty, graduate students, relevant administrators, and invited guests.

The oral presentation may be followed by general questions of clarification from attendees (other than the advisory committee members). The advisory committee and chair may choose to include a session of more in-depth questioning open only to the advisory committee and the UNLV Graduate Faculty. An additional phase of questioning with only the advisory committee and candidate may also be included. The final phase of closed deliberation, and the vote to pass or fail the student, will only be open to the student's appointed advisory committee, after which the student will be immediately informed of the committee's decision.

The Graduate College must be notified not less than two weeks in advance of the examination. A public announcement regarding an oral defense also must be made to the appropriate department's graduate faculty, students, and campus a minimum of fourteen (14) days prior to the oral defense.

During the oral defense, the student must be able to demonstrate a comprehensive understanding of a broad field of study and a detailed understanding of a more limited field. The advisory committee must unanimously pass the student. If the committee votes unanimously to pass or fail the student, that vote is final. If the advisory committee vote is not unanimous to pass or fail, the student, in consultation with his/ her advisor, may request the committee to administer a second examination. The student must wait at least three months before taking the second examination, during which time the department may require additional course work, substantial reworking of the thesis, dissertation, or professional/scholarly paper or project, or whatever is believed necessary to prepare the student for a successful second examination. The Graduate College will not approve third examination requests.

The Graduate College designates the advancement to candidacy status for doctoral students only. Doctoral students are advanced to candidacy upon successful completion of all course work, passing all required qualifying, preliminary, and/or comprehensive exams, completing and successfully defending the dissertation prospectus, and submitting the appropriate Advancement to Candidacy form to the Graduate College. Doing so qualifies doctoral GAs for an enhanced GA stipend in subsequent semesters (by August 1st for fall stipends; by December 1st for spring stipends; and by May 1st for summer stipends).

Application for Graduation

Students are responsible for applying for graduation by the semester deadline. Doing so triggers your graduate evaluator to review your file and make sure that everything is in order for you to graduate. The graduation application is submitted via MyUNLV. The application must be submitted by the deadline posted on the Graduate College website. Applications for graduation will not be processed unless all required forms and documents have been submitted to the Graduate College.

If students do not complete the degree requirements in the term anticipated, it is expected that they will do so in the next term. One rollover of the graduation application and fee is allowed to the next term (including summer). If the student does not graduate in the next term, a new application for graduation must be filed, and an additional graduation application fee will be charged. In addition, students must be enrolled in a minimum of 3 graduate-level credits during the term they apply for and expect to graduate.

Granting of Degrees

Degrees are awarded three times a year in May, December, and August. Students must be enrolled in a minimum of 3 graduate-level credits during the term in which they graduate. When students apply for graduation, the Graduate College reviews the degree program and all degree requirements to ensure every Catalog requirement for the student's program has been successfully met and completed. The Graduate Dean certifies that students have met degree requirements, and a recommendation is forwarded to the Board of Regents. If any requirement has not been met, the degree will not be awarded. The degree will be revoked if it is awarded in error, or if it is later discovered that the degree requirements were not met, or if fraudulent claims are later discovered.

Commencement

Students may not participate in commencement prior to completion of all degree program requirements. Commencement is held twice a year in May and December. August graduates may participate in the December commencement following the completion of degree requirements.

Tuition & Fees

Fees: All fees assessed by the university are subject to change by the Board of Regents. Every effort is made to keep fees low as possible while rendering the desired level of service. Nonresident fees are calculated to cover a major part of the direct cost of instruction.

Nevada Residency for Tuition Purposes

Residency Decisions

The Board of Regents establishes Nevada residency for tuition purposes regulations. For admitted degree-seeking graduate students, residency status is determined at the time of admission to a degree-seeking program and is indicated in the official Letter of Admission from the Graduate College. Please note that new graduate students who live in Nevada, and/or those who have held Nevada residency in the past, may still be classified as out-of-state students upon graduate admission. These students will need to follow the directions on their admission letter and apply for residency in order to be reclassified as a Nevada resident. Non-degree-seeking graduate students will generally be classified as out-of-state until and unless Nevada residency is determined via the residency application process. If the residency status is not "Nevada," out-of-state tuition will be assessed. Residency decisions are made during the application process and will be posted on the admission acceptance letter.

Qualifying for Nevada Residency

The following categories qualify for Nevada resident status:

1. A member of the Armed Forces of the United States
2. Full-time licensed personnel employed by a public school district in Nevada
3. A teacher who is currently employed full time in Nevada
4. A professional or classified employee of the University and Community College System of Nevada
5. Company relocation (also applies to spouse and children)
6. Family relocation to the state
7. Millennium scholarship recipients
8. A student who has lived in the state for a period of 12 months

Applying for Nevada Residency

To apply for residency, download and complete the Residency Application and include photocopies of supporting documents. Mail or fax documentation to the Office of Admissions by the application deadline listed in the Academic Calendar and Registration Guide. Residency review for fall applications begins June 1; spring review begins Nov. 1. Please note that Residency is handled and determined by the Office of Undergraduate Admissions for all UNLV students, including graduate students.

Good Neighbor Regulations for Reduced Nonresident Tuition

Students who claim residence for at least 12 months in a qualifying Arizona or California county, or graduates from a high school or community college in a qualifying Arizona or California county may be eligible to attend the university at a reduced tuition cost. Those claiming residency for 12 months must have maintained legal bona fide residence for at least 12 consecutive months prior to the first day of the semester in which enrollment is sought.

Applications are available online or in the Graduate College. Requests for Good Neighbor status must be filed by the close of late registration for the semester in which the student has applied for admission. Any student who enrolls under this policy shall not be eligible for reclassification as a resident student unless the student has subsequently enrolled as a non-Good Neighbor nonresident for the period of one year, or did not enroll in an Nevada System of Higher Education institution for at least 12 months immediately prior to the date of application for reclassification to resident student status.

Approved Good Neighbor Counties:

Arizona

Mohave

California

Alpine

El Dorado

Inyo

Lassen

Modoc

Mono

Nevada

Placer

Plumas

San Bernardino

Sierra Counties

Special Fees and Charges

1. An application fee of \$60 (domestic) is charged to any person applying for admission. The application fee for International applicants is \$95.00, in addition to fees for foreign credential evaluation if necessary. All application fees are non-refundable and not applicable to any other applications.
2. As approved by the NSHE Board of Regents and UNLV, special charges may be accrued for the following:
 - a. Courses requiring equipment, facilities or materials not available on the campus, i.e., golf and certain field courses
 - b. Courses requiring use of high technology equipment, e.g., computer courses or health profession courses
 - c. Private instruction in music and similar arts
 - d. Noncredit courses, conferences, workshops, postgraduate professional seminars and similar educational offerings
 - e. Courses requiring field trips or travel
 - f. Personal expenses incurred by students in connection with field trips
 - g. Lab and computer usage fees

- h. Differential tuition in select graduate programs
- 3. The following fees are either assessed or identified at registration:
 - a. A late registration fee of \$25 per day to a maximum of \$250 is assessed to students who do not complete registration by the date designated. Summer Term students are assessed a late registration fee of \$25 per day until the end of the late registration period for that Summer Session. In case the time designated for registration is not adequate, the Registrar may defer the assessment of this fee for one day.
 - b. Returned Check Fee. Personal checks are accepted in payment of fees owed to the university, although no counter checks or checks altered in any way are accepted. A collection fee of \$25 is assessed for any check returned unpaid by a bank. The check must be made good within 10 days or it will be turned over to a collection agency, and the student will be liable for all collection costs and any other related costs. If a personal check is returned from the bank, the university reserves the right to place the student on a cash basis only and withdrawal procedures may be initiated at the option of the university. A stop payment placed on a check does not constitute withdrawal from courses. Official withdrawal must be processed as returned checks and are subject to the same fees and collection cost.
 - c. A graduation and commencement fee of \$75 will be billed to the student's account after the application for graduation is completed through MyUNLV. If a student fails to meet graduation requirements after a diploma has been ordered, \$2.50 of the fee is forfeited. A graduation application is good for two consecutive semesters. If a student still has not graduated after the two semesters have concluded then the student will need to submit a new application along with another \$50 fee.

Student Health Fee

The Student Health program fees for Fall, Spring, and Summer semester classes are not to be confused with the mandatory UNLV Graduate and Professional Student Health Insurance plan. Student Health Program fees are applicable to all students regardless of health insurance status, and they are used to support various services offered by the Student Wellness Center.

The Student Health program facilitates on-campus educational experiences and leadership opportunities for all UNLV students; is responsible for public health protection of the UNLV community; provides access to health care and provisions, and coordinates health needs for students; provides student counseling and psychological services; and includes the Jean Nidetch Women's Center, which caters to all students.

Mandatory Graduate and Professional Student Health Insurance

Effective Fall 2013, students who are admitted into a graduate or professional program and are enrolled in 9 credits (regardless of the course level) in a semester, and all graduate assistants, will be automatically billed for student health insurance. It is then incumbent upon those students who already have health insurance to complete the UNLV online waiver form to waive out of the UNLV student health insurance. Once approved, a health insurance waiver is good for one academic year.

The cost for the UNLV Graduate & Professional Student Health Insurance for domestic and international students in academic year 2013-14:

Annual: \$2,068

Fall 2013 Only: \$844

Spring/Summer 2014 Only: \$1,224

Please note that all graduate and professional students who do not waive out of the UNLV Student Health Insurance for the Spring semester will be enrolled in the Spring/Summer insurance plan; these are combined and there is not an option to be enrolled in Spring only.

Optional Group Health and Accident Insurance Fee

All admitted graduate and professional students are eligible to enroll in the UNLV graduate student health insurance plan. If you do not fall in either required category (i.e., 9 or more credits or a GA) then you will need to contact Wells-Fargo to enroll in the student health insurance plan and receive the discounted UNLV graduate and professional student rates.

Grants-in-Aid

Each student is expected to pay all assessed fees on registration day unless a grant-in-aid is secured prior to registration day. Students are responsible to pay their portion on time. Late fees and/or withdrawal may be initiated for a student's portion and/or reported to a credit bureau. Legal proceedings may be initiated for any default accounts receivable.

Delinquent Accounts

A student or former student having a delinquent account receivable or an overdue student loan of any amount with any division of the Nevada System of Higher Education shall not be permitted to register, receive any type of transcript of records, grades, diploma or certificate or obtain services from any division. The university reserves the right to refer any delinquent account to a collection agency and/ or report to a credit bureau. Legal proceedings may be initiated for any delinquent account.

Deferred Payment Option

Deferred payment is available to students who are registered for seven credits or more and are not receiving any sort of financial aid, grant-in-aid, etc. There is a \$20.00 service charge for all deferred fee payment plans. The \$20.00 service charge plus 50 percent of the per credit fee, nonresident tuition (if applicable), and 100 percent of special fees are due by the first installment date. Second installment is due by Friday of the fourth week of instruction. Failure to pay the second half of the deferred payment on schedule will constitute withdrawal from the university. The tuition will still be owed, but the student will not receive credit for the courses. Any delinquent accounts may be reported to a credit bureau. All delinquent accounts not paid as required will be sent to a collection agency. The student is responsible for all collection costs, attorney fees, etc. All students must pay their tuition in full at registration or be on an approved deferred payment to be considered enrolled for the semester. All unapproved accounts will be disenrolled. No exceptions. The university reserves the right to deny deferred payment to any student who does not pay tuition and fees as scheduled, including late fees.

Refund of Fees

Students who withdraw from the university receive a refund of fees according to the schedule below, which is subject to change by the Board of Regents. All requests for exception to the refund policy for extraordinary circumstances must be made to Student Enrollment Services or the Fee Appeal Committee. An appeal form is available at Student Enrollment Services, Cashier's Office or the Bursar's Office website.

1. For all UNLV students, including auditors, for net credit load reductions and withdrawals from the university, the refund policy is as follows:
 - A. **WITHIN THE FIRST WEEK OF INSTRUCTION.**
 1. 100 percent credit of all fees.
 - B. **AFTER THE FIRST WEEK OF THE INSTRUCTIONAL PERIOD OF A REGULAR TERM.**
 1. 50 percent credit for total withdrawals from all courses until the end of the sixth week.
No credit for total withdrawals after the end of the sixth week.
 2. 0 percent credit for partial withdrawals.
2. For all UNLV students, including auditors, for net credit load reductions and withdrawals from the university during the Summer Term, the refund policy is as follows:
 - A. Courses dropped prior to the first day of the instructional period will receive a 100 percent credit.
 - B. Courses dropped within the first 20 percent of the course period, as defined by Student Enrollment Services, will receive a 50 percent credit.
 - C. There will be no credit for courses dropped after 20 percent of the course period has passed.
3. No credit shall be made for health and accident insurance premiums.
4. Modular courses follow different refund policies than stated above. Inquire at Student Enrollment Services for details regarding a particular modular course's refund policy.
5. Upon written approval of the Vice President for Student Life, a full refund of all registration fees and tuition shall be given upon official withdrawal at any time during the first eight weeks of the semester in the following circumstances:
 - A. Induction of the student into the U.S. Armed Forces;
 - B. Death of a parent, spouse, child or legal guardian of the student; or
 - C. Death of a student.
 - D. No refund is made if withdrawal is after eight weeks, regardless of the circumstances. All refunds are made by check.
6. In most cases, federal regulations require that refunds for students receiving financial aid must be refunded back to the financial aid program rather than the student. For information about exemptions to this policy, please contact Student Financial Services. Dropping below full time for students on financial aid may invalidate eligibility for financial aid. Students may owe UNLV for financial aid refunds.

Room and Board Refund

Students withdrawing from the residence hall will receive refunds according to the terms and conditions of the residence and dining hall contract.

Tuition and Fee Appeals

Appeals regarding financial issues (e.g., tuition refund, tuition waiver, student fees, late fees, etc.) must be submitted separately to the UNLV Student Accounts Office, using their Tuition & Fee Appeal Form . If an appeal involves both an academic and financial issue, the student should submit an academic appeal first to the Graduate College and wait for a decision before commencing with the financial appeal to the Student Accounts Office. For further information concerning the financial appeal process please visit: http://cashiering.unlv.edu/fee_appeal.html.

Graduate Student Financial Information

Student Financial Services

The University of Nevada, Las Vegas provides a wide variety of assistance to finance higher education expenses. Grants, scholarships, part-time employment, and educational loans are available to help students with educational costs while attending UNLV. Students are encouraged to explore all possible resources. Financial Aid Administrators are available to discuss the variety of resources available and to assist graduate students in the application process. For further information, contact UNLV Student Financial Aid & Scholarships, located in the Student Services Complex, at (702) 895-3424. The Graduate Student Financial Services office cannot assist with financial aid, but may be able to assist with information regarding Graduate Assistantships, scholarships and fellowships. Graduate Student Financial Services are located in the Graduate College on the 3rd floor of the Flora Dungan Humanities Building, and can be reached via email at GradFinancialSVC@unlv.edu.

FAFSA

Applying for FAFSA is the first step in becoming eligible for student loans, scholarships, and fellowships. Complete the Free Application for Federal Student Aid (FAFSA) online . UNLV's school code to complete your FAFSA is 002569. Complete and sign your FAFSA with your PIN as soon as possible after January 1st of each year, even if you don't expect to be eligible for financial aid and/or you do want student loans, because submitting your FAFSA may qualify you for certain scholarships or fellowships.

UNLV's priority financial aid consideration deadline is February 1st of each year. You may still apply for financial aid after February 1st, however, there may be limited funding from other aid programs

Federal Loan Programs

Federal Perkins Loans

A Federal Perkins loan is a low-interest (5 percent) loan available to graduate students that is made through the university. Actual award amounts depend on federal and institutional funding levels. Preference is given to those applicants who are attending at least half time and have the greatest financial need. The total amount awarded is determined by financial need.

Application must be made with the FAFSA, which must be mailed to the federal processing center by February 1. Priority is given to those with the greatest need whose federal financial aid information is received by UNLV before the priority filing date.

Subsidized Loans

A subsidized loan is offered to students on the basis of financial need as determined by the Free Application for Federal Student Aid (FAFSA). Students must be enrolled at least half time to be considered for this loan. Please visit UNLV Financial Aid - Subsidized Loans for more details.

The Federal Unsubsidized Loan is available to students regardless of financial need. You will be charged interest from the time the loan is disbursed until it is paid in full.

Graduate PLUS Loans

A Graduate PLUS Loan allows graduate students to borrow up to the financial aid cost of attendance less any other financial aid received. Please visit UNLV Financial Aid - Graduate PLUS Loans for more details.

Graduate Assistantships

The University of Nevada, Las Vegas subscribes to the following statement that has been adopted by the Council of Graduate Schools in the United States and by most of the leading graduate schools in North America:

Acceptance of an offer of a graduate scholarship, fellowship, traineeship, or graduate assistantship for the next academic year by an actual or prospective graduate student completes an agreement which both student and the graduate school expect to honor. In those instances in which the student indicates acceptance prior to April 15 and subsequently desires to change plans, the student may submit in writing a resignation of the appointment at any time through April 15 in order to accept another scholarship, fellowship, traineeship, or graduate assistantship. However, an acceptance given or left in force after April 15 commits the student not to accept another appointment without first obtaining formal release for that purpose. It is further agreed by the institutions and organizations subscribing to the above resolution that a copy of this resolution should accompany every scholarship, fellowship, traineeship, and assistantship offer sent to a first-year graduate student before April 15.

A number of state-supported and extramurally funded graduate assistantships are available each academic year. For full information and policy guidelines regarding the UNLV GA Program, please see the Graduate College website. Below are some key GA policies for your review:

1. The application is available on the Graduate College website.
2. Applications must be submitted to the department which you are seeking employment no later than March 1 proceeding the fall semester in which an assistantship is sought. Applications may be submitted after this date in case of unexpected openings occurring for the fall semester. In rare cases where an assistantship is available for the spring semester, the application deadline is November 15th.
3. An assistantship is normally offered for a full academic year. If a student seeks renewal of an assistantship for the next year, a new application form must be submitted online.
4. Currently, a graduate assistantship carries with it a stipend paid monthly for the academic year. This stipend may vary for extramurally funded assistantships. Tuition waivers are usually included with the assistantship. These waivers are approved only for work directly related to the student's degree program (courses numbered 500 and approved for graduate credit and 700-level courses). This waiver covers a significant portion of the per credit hour fee. The state-funded tuition waiver does not cover differential fees charged for some courses. The tuition waiver covers the full amount of out-of-state tuition. The out-of-state tuition waiver does not apply to students who are enrolled in self-funded programs. Tuition waiver amounts may vary for extramurally funded assistantships.
5. Graduate assistantships are not generally available during Summer Term. However, tuition waivers are available for state funded graduate assistants during the Summer Term if the student was on a state GA contract in spring, and has been renewed as a state GA for fall. To take advantage of the summer tuition waiver, the Graduate College must be informed via email at GradFinancialSVC@unlv.edu of your enrollment prior to the start of summer session. Tuition waivers are not available for undergraduate or audited courses. The above policies may differ for extramurally funded assistantships.
6. Graduate assistants must have graduate standing status in a degree seeking program at the time they begin their assistantships.
7. New International GAs are required to successfully pass the Test of Spoken English (TSE) prior to the start of the semester. Students who do not pass the TSE will be required to enroll in a 2 credit oral presentation skills course their first semester as a GA. Students whose graduate assistantship includes instructional

duties (lecture, discussion groups, laboratory supervision, tutoring) must receive a successful grade on the TSE prior to assuming these instructional duties.

8. Graduate assistants must carry a minimum of six semester hours of graduate credit per fall and spring semester. To carry more than twelve semester hours of credit, the department chair, academic dean, and the Graduate Dean must approve an Overload Petition.
9. Graduate assistants are expected to spend on the average 20 hours per week on departmental duties in either instruction and/or research.
10. Graduate assistants may not accept employment on or off campus without written permission from their faculty advisor, department chair, and Graduate College Dean. Graduate assistants are prohibited from being employed for more than 10 hours per week beyond their assistantship.
11. Graduate assistants are expected to report in the same time-frame as faculty, i.e., during academic semesters and not during break or vacation times. Graduate Assistants must report one week prior to the start of classes in both the fall and spring semesters.
12. New graduate assistants are expected, as part of their contract obligation, to attend both the New Graduate Student Orientation Session, and a mandatory GA contract signing session prior to the start of the semester.
13. Graduate assistantships will be terminated if the student does not satisfactorily perform assigned duties. Assistantships will also be terminated if a student does not make satisfactory progress toward the degree. Unsatisfactory progress includes, but is not limited to: filing a degree program late; receiving a grade of less than B; failing to remove an Incomplete grade after one calendar year; and failing comprehensive or qualifying examinations as required by the degree program.

Offers of assistantships, whether state-supported or extramurally funded, are valid only if they come from the Graduate College Dean.

Graduate Awards: Scholarships and Fellowships

The University of Nevada, Las Vegas subscribes to the following statement that has been adopted by the Council of Graduate Schools in the United States and by most of the leading graduate schools in North America:

Acceptance of an offer of a graduate scholarship, fellowship, traineeship, or graduate assistantship for the next academic year by an actual or prospective graduate student completes an agreement which both student and the graduate school expect to honor. In those instances in which the student indicates acceptance prior to April 15 and subsequently desires to change plans, the student may submit in writing a resignation of the appointment at any time through April 15 in order to accept another scholarship, fellowship, traineeship, or graduate assistantship.

However, an acceptance given or left in force after April 15 commits the student not to accept another appointment without first obtaining formal release for that purpose. It is further agreed by the institutions and organizations subscribing to the above resolution that a copy of this resolution should accompany every scholarship, fellowship, traineeship, and assistantship offer sent to a first-year graduate student before April 15.

General Information and Guidelines

- Each scholarship/fellowship is awarded for both the fall 2013 and spring 2014 semesters.
- You must remain in good standing in your degree program and enroll in a minimum of 6 graduate credits in each semester of the scholarship/fellowship year (fall 2013-spring 2014) in order to be eligible for an award.
- All applicants must apply through the Graduate College's free Apply Yourself (AY) Portal.
- All applications must be submitted via AY, and each applicant must upload: a C.V., a statement of purpose (maximum 2-3 typed pages), an unofficial UNLV transcript, and full contact information for at least one recommendation provider. Please note that some scholarships/fellowships have additional requirements, so please read and follow the directions for each scholarship/fellowship carefully.

- The application deadline is December 1st. Note that all letters of recommendation must have been submitted to AY by the close of business on December 1st.
- Failure to submit all required information and materials by the posted deadline (12/1/13) will render you ineligible for scholarship/fellowship consideration.
- Please only apply for awards that you are eligible to receive, per the guidelines below.
- All awards are subject to funding; award amounts change annually. Final award packages/amounts will be noted on award letters to recipients.

2013-2014 Doctoral Fellowship Information

The following awards are only available to doctoral students who are already admitted to, and successfully matriculating in, the Graduate College.

The Barrick Graduate Fellowship (up to \$15,000)

Barrick Graduate Fellowships were established by an endowment from philanthropist Marjorie Barrick. These fellowships are given to outstanding doctoral students who have demonstrated excellence in scholarship during their graduate study at UNLV. These fellowship awards provide a \$15,000.00 stipend; full tuition and fees paid up to 9 credits per semester, full health insurance benefits, and a waiver of out-of-state tuition, if applicable.

Applicants must:

- Submit an application with all required supporting documents (see above) in AY by the deadline;
- be an admitted doctoral student and have completed at least 24 credits of doctoral study in their current degree program (at the end of fall 2013);
- have a minimum graduate GPA of 3.5;
- remain in good standing in their doctoral degree program and complete a minimum of 6 graduate credits in each semester of the fellowship year.

Criteria for selection will also include demonstrated excellence in research; finalists will be required to participate in a face-to-face interview with the awards committee.

The Hermsen Fellowship (package worth up to \$20,000)

The Hermsen Fellowship was established by a gift from Richard and Beverly Hermsen. This prestigious award is designated for outstanding doctoral students in the School of Life Sciences. The fellowship award covers tuition, fees, full health insurance benefits, and provides a stipend each semester. Fellowship recipients will also receive a waiver of out-of-state tuition during the fellowship year, if applicable.

Applicants must:

- Submit an application with all required supporting documents (see above) in AY by the deadline;
- be admitted to the Biological Sciences (PHD) degree program;
- be in their final year, or so, as a doctoral student during the fellowship;
- have a minimum graduate GPA of 3.5;
- remain in good standing in the Biological Sciences (PHD) degree program and complete a minimum of 6 graduate credits in each semester of the fellowship year.

The President's UNLV Foundation Graduate Research Fellowship (package worth up to \$25,000)

The President's UNLV Foundation Graduate Research Fellowships are funded by gifts to the UNLV Foundation by the Frank Koch Living Trust for the research support of doctoral students. The fellowship award covers tuition, fees, full health insurance benefits, and provides a stipend each semester. Fellowship recipients will receive a waiver of out-of-state tuition during the fellowship year, if applicable. Candidates must be nominated for this award by their

department chair or graduate coordinator; each academic department may nominate one candidate for this award. Applicants must:

- Submit an application with all required supporting documents (see above) in AY by the deadline;
- be a doctoral student working primarily on their dissertation with a minimum graduate GPA of 3.5, though departments may nominate students with a lower overall graduate GPA if their doctoral program grades are higher;
- be nominated by their department chair or graduate coordinator;
- submit the contact information of the department chair or graduate coordinator (that nominated the student) as their recommendation provider;
- remain in good standing in their doctoral degree program and complete a minimum of 6 graduate credits in each semester of the fellowship year.

Letters of nomination should describe the nominee's academic accomplishments, dissertation topic, and the nature of the work the nominee would undertake during the fellowship year. Criteria for selection will also include demonstrated excellence in research; finalists will be required to participate in a face-to-face interview with the awards committee.

The UNLV Foundation Board of Trustees Fellowship (package worth up to \$30,000 per year)

The UNLV Foundation Board of Trustees Fellowship is made possible by funds from the UNLV Foundation. This prestigious award is granted over four semesters (fall 2014, spring 2015, fall 2015, and spring 2016) to doctoral students in the final two years of their program. The fellowship award covers tuition, fees, full health insurance benefits, and provides a stipend each semester. Fellowship recipients will receive a waiver of out-of-state tuition during the fellowship year, if applicable. Students selected for the fellowship must agree to participate in a limited number of UNLV Foundation events during the period they receive the fellowship.

Applicants must:

- Submit an application with all required supporting documents (see above) in AY by the deadline;
- be a doctoral student in the final two years of their doctoral program during the fellowship;
- have a graduate GPA of 3.75;
- submit their dissertation committee chair as the recommendation provider;
- remain in good standing in their doctoral degree program and complete a minimum of 6 graduate credits in each semester of the fellowship year.

Letters of nomination should describe the nominee's academic accomplishments, dissertation topic, and the nature of the work the nominee would undertake during the fellowship years. Criteria for selection will also include demonstrated excellence in research; finalists will be required to participate in a face-to-face interview with the awards committee.

2013-2014 Graduate Scholarships

The following awards were only available to graduate students who met the specified criteria for each award, and who were already admitted to, and successfully matriculating in, the Graduate College.

The Alumni Association Scholarship (up to \$1,500)

Alumni Association Scholarships are awarded to outstanding master's and specialist students who received their bachelor's degree from UNLV.

Applicants must:

- Submit an application with all required supporting documents (see above) in AY by the deadline;
- be an admitted master's or specialist student;
- have completed at least 12 graduate credits in their current degree program (by the end of spring 2014);

- have minimum UNLV undergraduate and graduate GPAs of 3.5;
- hold an undergraduate degree from UNLV;
- remain in good standing in their degree program and complete a minimum of 6 graduate credits in each semester of the scholarship year.

Note: students are eligible to receive this award for a maximum of 4 semesters, or two academic years.

The Donna Weistrop and David B. Shaffer Scholarship (up to \$750-\$1,000)

The Donna Weistrop and David B. Shaffer Scholarship was established by an endowment from Donna Weistrop and David B. Shaffer. This award is designated for students pursuing a graduate degree in Physics, Astronomy, Chemistry, or Geoscience. Preference will be given to students in Physics or Astronomy degree programs.

Applicants must:

- Submit an application with all required supporting documents in AY (see above) by the deadline;
- must be admitted into a Physics, Astronomy, Chemistry, or Geoscience graduate degree;
- have a minimum graduate GPA of 3.25;
- remain in good standing in their degree program and complete a minimum of 6 graduate credits in each semester of the scholarship year;

The James F. Adams/GPSA Scholarship (up to \$1,000)

The UNLV Graduate & Professional Student Association established these scholarships in honor of Dr. James F. Adams, former dean of the Graduate College (1980-85), to recognize academic achievement of master's and specialist students.

Applicants must:

- Submit an application with all required supporting documents (see above) in AY by the deadline;
- be a master's or specialist student;
- have completed at least 12 graduate credits in their current degree program (by the end of spring 2014);
- have a minimum graduate GPA of 3.5;
- remain in good standing in their degree program and complete a minimum of 6 graduate credits in each semester of the scholarship year.

The McNair Post-Baccalaureate Scholarship (up to \$4,000.00)

McNair Post-Baccalaureate Scholarships, administered by the Graduate College, are awarded in open competition to first-year graduate students who participated in a McNair Scholars program at UNLV or at another institution as an undergraduate.

Applicants must:

- Submit an application with all required supporting documents in AY (see above) by the deadline;
- have a minimum undergraduate GPA of 3.0 and be admitted to a graduate degree seeking program at the time the scholarship begins (fall 2014);
- upload a certification of McNair program participation letter;
- remain in good standing in their degree program and complete a minimum of 6 graduate credits in each semester of the scholarship year.

The Patricia Sastaunik Scholarship (up to \$2,500)

These awards are granted primarily on the basis of documented financial need as evidenced by a student's FAFSA application and review by the UNLV Office of Financial Aid.

Applicants must:

Submit an application with all required supporting documents in AY (see above) by the deadline;

- have a FAFSA (Free Application for Federal Student Aid) on record with Financial Aid for the upcoming scholarship year by the deadline;
- have a minimum graduate GPA of 3.5;
- have completed a minimum of 6 graduate credits in their current degree program (by the end of fall 2013);
- remain in good standing in their degree program and complete a minimum of 6 graduate credits in each semester of the scholarship year.

The Sterling Scholarship (up to \$5,000)

This prestigious Alumni Association award is designated for UNLV graduates who are now admitted to and enrolled in a doctoral degree program.

Applicants must:

- Submit an application with all required supporting documents in AY (see above) by the deadline;
- be in good standing with full graduate status;
- be pursuing a doctoral degree and must have completed at least one year of their degree program before the scholarship begins (fall 2014);
- have a minimum graduate GPA of 3.5;
- have graduated with either a bachelor's or master's degree from UNLV;
- remain in good standing in their degree program and complete a minimum of 6 graduate credits in each semester of the scholarship year.

The Summer Session Scholarship (up to \$2,000)

Summer Session Scholarships are designed to enable summer study for doctoral students, however excellent master's and specialist students may be considered.

Applicants must:

- Submit an application with all required supporting documents in AY (see above) by the deadline;
- have completed at least 12 graduate credits in their current degree program (at the end of fall 2013);
- have a minimum graduate GPA of 3.0;
- remain in good standing in their degree program and complete a minimum of 6 graduate credits in any one or combination of summer sessions in 2013.

Criteria for selection will include summer plans for conducting dissertation or thesis research, as described in your statement of purpose.

The UNLV Graduate Access Childcare Scholarship (Variable: \$150 - \$2,500 depending on documented need and childcare expenses)

The Graduate College is pleased to announce that we will be continuing our Graduate Student Access Childcare Scholarship program for academic year 2014-2015 in an effort to offer competitive, need-based scholarship funding to admitted/enrolled graduate students with young dependents who have already submitted their FAFSA (Free Application for Federal Student Aid) to Student Financial Services and have documented financial need. This scholarship is available on a highly competitive basis to graduate students with child dependents who pay for professional daycare or childcare in order to attend graduate school and pursue their graduate research.

Applicants must:

- Submit an application with all required supporting documents in AY (see above) by the deadline;

- have a FAFSA (Free Application for Federal Student Aid) on record with Financial Aid for the upcoming scholarship year by the deadline (International Students must submit FAFSA);
- be admitted to a graduate degree seeking program;
- have a minimum graduate GPA of at least 3.3;
- submit documentation that provides a Tax ID # for the childcare provider(s) and receipts showing the cost of childcare during academic semesters;
- upload your completed Childcare Information sheet (DOCX) with your application;
- remain in good standing in their degree program and complete a minimum of 6 graduate credits in each semester of the scholarship year to be awarded their full scholarship award.

Those who have all the proper documentation submitted by the deadline will be considered for a Childcare Scholarship; available childcare scholarship monies will then be distributed competitively based on financial need, childcare expenses, and graduate student GPA.

Employment

On-Campus Employment

Several campus departments and offices employ students in a variety of positions. These jobs can be viewed on the Career Services website, or on the Financial Aid and Scholarships website. On-campus employment listings are available to graduate students enrolled in at least five credits at UNLV. Financial need is not a criterion for on-campus employment.

Job Location and Development

Employment opportunities are offered to UNLV students by community businesses and individuals. These jobs can be viewed on the Financial Aid and Scholarships website or the Career Services website.

In addition to job listings, the JLD Program sponsors biannual Job Fairs where employers from businesses, government agencies, and hospitals, to name a few, come to campus to discuss part-time employment opportunities.

Federal Work Study

The Federal Work Study Program is a federally funded financial aid program awarded as part of the financial aid package. This program enables students to earn a portion of their college expenses through employment with a UNLV department or office or off campus with contracted nonprofit agencies. Community service is a major goal of this program. If available, students may choose jobs related to their academic majors and career objectives. Work hours may also be arranged according to class schedules.

To qualify for a Federal Work Study job, applicants must meet the eligibility requirements of the federal financial aid programs. One requirement, financial need, is determined by Student Financial Services and based on income and asset information entered on the Free Application for Federal Student Aid (FAFSA) application.

Funds are limited. Therefore, applicants must mail the completed FAFSA application to the federal processing center by February 1. Questions concerning the eligibility requirements or application process may be directed to Student Financial Services, second floor, Student Services Complex

Lee Business School

The Lee Business School offers four graduate programs. The Master of Science in Accountancy (MSA) provides professional preparation for students wishing to pursue careers in taxation, public accounting, managerial or corporate accounting, and government. The MSA also provides the necessary course work for sitting for the CPA exam in Nevada and other 150-hour jurisdictions.

The Master of Science in Management Information Systems (MS MIS) prepares graduates for professional and managerial careers in information technology (IT). MIS students earn competency in IT, embedded in a business context that provides them with well-rounded preparation for occupations in high demand.

The M.A. in Economics focuses on applied and empirical economics and also provides students with a strong foundation for further graduate study at the Ph.D. level. The core of the program includes the basic theory of microeconomics, macroeconomics, as well as math for economists. To develop empirical skills, students must take two courses that use statistical analysis to examine interesting economic problems.

The largest graduate program in the college, the MBA, is designed to prepare the individual to meet the challenges of rapid change in business and in society through emphasis on managerial concepts and analytical reasoning. The particular focus on theory and practice produces special qualities in the UNLV MBA graduate. By studying managerial theory and economic principles, the student acquires the capacity for assuming responsibility in a wide variety of roles within an organization.

Brent Hathaway, Ph.D., Dean, Lee Business School

Keah-Choon Tan, Ph.D., CPIM, C.P.M., Interim Associate Dean for Academic Affairs

Lee Business School Courses

FIN 718 - Financial Derivatives **Credits 3**

Introduces basic financial derivatives such as options, futures and swaps. Focuses on how to use them as hedging and speculative tools in various contexts and also as fundamental building blocks to engineer new products. Highlights techniques for the valuation of the derivatives with an emphasis on the basic principles. **Prerequisites:** FIN 708 or FIN 710.

MKT 711 - Strategic Marketing Management **Credits 3**

Development of effective strategic marketing analysis, planning, implementation, and control skills. Emphasis on market appraisal, industry structure, competitive advantage, product management, distribution strategy, promotion management, market segmentation, positioning strategies, and strategic marketing program decision making. Stresses case analysis and the solution of strategic marketing problems. **Prerequisites:** Completion of the MBA core or approval of the Director of MBA Programs.

MKT 720 - Customer Satisfaction and Service Quality Measurement **Credits 3**

Design, analysis, interpretation, and communication of measurement and multivariate techniques to assess customer satisfaction, service quality and related marketing issues. Includes scaling, sampling, data collection, reliability, and validity. **Prerequisites:** Completion of the MBA core or approval of the Director of MBA Programs.

MKT 737 - New Service and Product Development **Credits 3**

New service and product development process. Evaluation of potential markets. Identification design, and development of new services and products consistent with customer needs. Idea generation, concept testing, test marketing and commercialization discussed. **Prerequisites:** Completion of the MBA core or approval of the Director of MBA Programs.

MKT 757 - Strategic Database Marketing Credits 3

Theory and practice of use of databases to enhance marketing programs and build customer relationships. Topics include: one on one marketing, relationship building strategies, customer cloning, RFM, calculating lifetime value of customers, modeling tools and processes, customization of offers and retention strategies. **Prerequisites:** Completion of the MBA core or consent of the Director of MBA Programs.

MKT 777 - Services Marketing Credits 3

Marketing problems and strategies specific to service industries. Differences in the marketing of intangibles and services. Emphasis on services in general, rather than any particular industry. Concepts applied to such service of the art information for marketing in today's changing environment. Key topics include: competitive advantage, segmentation, relationship development, and competitive positioning. **Prerequisites:** Completion of the MBA core curriculum or consent of the Director of MBA Programs.

Accounting

The Master of Science in Accounting is designed to provide professional preparation at the graduate level for students wishing to pursue careers and advancement in taxation, public accounting, managerial or corporate accounting, and government. Our graduate courses help students extend and integrate their accounting knowledge by building on the knowledge received in undergraduate programs. The MS in Accounting also provides the necessary course work for sitting for the CPA exam in Nevada and other 150-hour jurisdictions.

Students may pursue either a full-time or part-time course of study to complete the 30-credit program. Students need not have an undergraduate degree in accounting or business. However, those without the undergraduate coursework on which the program builds will be required to complete those courses in addition to the 30-credit program.

Pursuing a career in accounting can provide a lifetime of professional opportunities. Earning your MS in Accounting is an investment in yourself and your future.

The A.A.C.S.B. - International Association for Management Education accredits the Master of Science in Accounting.

Paulette R. Tandy, Chair
Kimberly Charron, Graduate Coordinator

Department Chair

Tandy, Paulette R. - *Full Graduate Faculty*
Associate Professor; B.S., Appalachian State University; MBA, Ph.D., Texas A&M; CPA, North Carolina. *Rebel since 1989.*

Graduate Coordinator

Charron, Kimberly - *Full Graduate Faculty*
Associate Professor; B.S., Ph.D., University of Arizona; CMA. *Rebel since 1997.*

Faculty

Aalberts, Robert J. - *Full Graduate Faculty*
Professor; B.A., Bemidji State University; M.A., University of Missouri; J.D., Loyola University. *Rebel since 1991.*

Enlow, Ryan - *Associate Graduate Faculty*
Lecturer, B.S.B.A., M.S., University of Nevada Las Vegas. *Rebel since 2010.*

Hamilton, Erin
Assistant Professor, B.S., M.S., Kent State University; Ph. D., University of South Carolina; CPA, Ohio. *Rebel since 2013.*

Jones, Donald - *Associate Graduate Faculty*
Lecturer, B.S.B.A., Bowling Green State University; J. D., University of Akron; LL.M., Georgetown University; CPA, Texas, Washington D.C. *Rebel since 2011.*

Accounting Plans

Advanced Graduate Certificate in Accounting (On Hold)

This certificate is designed to prepare professionals, who may be switching careers or those entrepreneurs who want accounting skills to better run their business, with fundamental knowledge in accounting. Successful completion of the Advanced Graduate Certificate in Accounting will prepare students to enter the M.S. in Accountancy program. The Graduate Certificate in Accounting coupled with this Advanced Graduate Certificate in Accounting will provide professionals without an undergraduate degree in accounting the needed accounting credits to sit for the Certified Public Accounting (C.P.A.) exam.

Plan Admission Requirements

Admission requirements include the successful completion of either an undergraduate degree in accounting or the UNLV Graduate Certificate in Accounting or equivalent coursework with a GPA of 2.75 or higher.

If desired, upon successful completion of the Advanced Graduate Certificate in Accounting, students may apply for admittance into the M.S. Accountancy program. General Admission requirements for admission to the M.S. Accountancy program are a 3.0 GPA or higher and a Graduate Management Admission Test (GMAT) score of 550 or higher. Students who complete the Advanced Graduate Certificate in Accounting with a 3.4 GPA or higher may waive the GMAT requirement. To transfer classes taken during the Certificate program into the MS program, students must earn a B or better in the course.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 15

Course Requirements

- Required Courses – Credits: 15
 - Complete five graduate-level Accounting (ACC) courses (at least four of which must be at the 700-level).

The following courses may not be used toward the Advanced Graduate Certificate in Accounting:

- ACC 600 - Accounting Environment
- ACC 601 - Financial Reporting I
- ACC 602 - Financial Reporting II
- ACC 609 - Accounting Information Systems
- ACC 610 - Federal Taxation
- ACC 670 - Auditing and Assurance Services
- ACC 673 - Law For Accountants I

Certificate Requirements

- Completion of a minimum of 15 credit hours of ACC courses.
- A minimum of 12 credit hours of 700-level courses.
- A grade point average of at least 3.00 for course work required for the certificate.
- No grade lower than C is acceptable.

Plan Certificate Completion Requirements

The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.

Graduate Certificate in Accounting

Plan Description

This certificate is designed to prepare professionals, who may be switching careers or those entrepreneurs who want accounting skills to better run their business, with fundamental knowledge in accounting. Successful completion of the Graduate Certificate in Accounting will prepare students to enter the Advanced Graduate Certificate in Accounting or the M.S. in Accountancy program. This Graduate Certificate in Accounting coupled with the Advanced Graduate Certificate in Accounting will provide professionals without an undergraduate degree in accounting the needed accounting credits to sit for the Certified Public Accounting (C.P.A.) exam.

Plan Admission Requirements

Admission requirements include an undergraduate degree with a 2.75 GPA or higher and successful completion of two undergraduate accounting courses (ACC 201 – Introduction to Financial Accounting or equivalent and ACC 202 – Introduction to Managerial Accounting or equivalent).

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 18

Course Requirements

- Required Courses – Credits: 18
 - Complete the following six courses or other advisor-approved courses.
 - ACC 600 - Accounting Environment
 - ACC 601 - Financial Reporting I
 - ACC 602 - Financial Reporting II
 - ACC 609 - Accounting Information Systems
 - ACC 610 - Federal Taxation
 - ACC 670 - Auditing and Assurance Services

Certificate Requirements

- Completion of a minimum of 18 credit hours of ACC courses.
- A grade point average of at least 3.00 for course work required for the certificate.
- No grade lower than C is acceptable.

Plan Certificate Completion Requirements

The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.

Master of Science - Accounting

The Master of Science – Accounting is a professional degree designed to enhance the skills of those planning careers in accounting. The program of study includes training in advanced accounting topics such as auditing, financial accounting, accounting systems, and taxation. The Master of Science -Accounting requires a minimum of 30 credit hours above the bachelor's degree.

The A.A.C.S.B. - International Association for Management Education accredits the Master of Science – Accounting. The Nevada State Board of Accountancy requires 150 hours of college credits from a college or university approved by the State Board of Accountancy. In combination with an undergraduate degree, the 30 hours required by the Accounting M.S. program should satisfy these requirements.

Learning Outcomes

<http://www.unlv.edu/degree/ms-accounting>

Plan Admission Requirements

Each student must satisfy the following requirements for admission into the Master of Science –Accounting:

- A bachelor’s degree from an accredited college or university.
- A minimum GPA of 3.00 or higher on a 4.00 scale.
- Students must have satisfactorily completed introductory financial accounting.
- A minimum GMAT score of 550 and a minimum score in the 25th percentile or higher on Verbal and a minimum score in the 25th percentile or higher on Quantitative.
- The GMAT may be waived for UNLV accounting students who have a 3.25 GPA in the core accounting courses (ACC 400, 401, 402, 405, 409, 410 and 470) or equivalent.
- Compliance with the Graduate College admission standards.

Students who have not completed all the following courses (or equivalent courses) as part of their bachelor’s degree may be required to complete them as a condition of their admission prior to graduation from the Master of Science – Accounting:

- ACC 600 - Accounting Environment
- ACC 601 - Financial Reporting I
- ACC 602 - Financial Reporting II
- ACC 609 - Accounting Information Systems
- ACC 610 - Federal Taxation
- ACC 670 - Auditing and Assurance Services ACC 670 - Auditing and Assurance Services
- ACC 673 - Law For Accountants I

Note: These courses will not count toward the 30 credits required for the Master of Science – Accounting.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 30

Course Requirements

- Accounting Courses – Credits: 15
 - Complete five graduate-level Accounting (ACC) courses.
- Elective Courses – Credits: 12
 - Complete four graduate level Accounting or Non-Accounting elective courses from approved list.
- Capstone Course – Credits: 3
 - Select one of the following courses based on the area of the accounting profession you wish to pursue:

- ACC 701 - Federal Tax Topics
- ACC 706 - Auditing Theory and Applications
- ACC 715 - Advanced Management Accounting

Degree Requirements

- A minimum of 18 credits must be taken within Accounting.
- A minimum of 18 credits in 700-level courses.
- A maximum of 12 credits may be taken outside of Accounting.
- The student and the department graduate program coordinator will design each degree program.
- Students seeking a Master of Science – Accounting must comply with all general university requirements as outlined in the Graduate Catalog. In addition, the above requirements must be satisfied, and exceptions or modifications of the program and requirements must be approved by the Graduate Coordinator.

Plan Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

Accounting Courses

ACC 600 - Accounting Environment

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work.

ACC 601 - Financial Reporting I

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work.

ACC 602 - Financial Reporting II

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work.

ACC 605 - Cost Management and Control Credits 3

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work. **Prerequisites:** Graduate degree seeking.

ACC 606 - Auditing in the Gaming Industry

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work.

ACC 607 - Governmental and Not-for-Profit Accounting

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work.

ACC 609 - Accounting Information Systems

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work.

ACC 610 - Federal Taxation

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work.

ACC 612 - Fraud Examination

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work.

ACC 620 - Internal Auditing

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work.

ACC 650 - International Accounting

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work.

ACC 670 - Auditing and Assurance Services

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work. **Prerequisites:** ACC 601 and taken or concurrent enrollment in ACC 609.

ACC 673 - Law For Accountants I

Credits 3

Introduction to law and the court system; introduction to torts; contracts and sales; real and personal property.

Prerequisites: Graduate degree seeking.

ACC 700 - Financial and Managerial Accounting

Credits 3

Overview of the accounting cycle with an emphasis on the preparation and analysis of financial statements. Basic concepts and procedures of managerial accounting. Provides a foundation for identifying and analyzing alternatives useful for decision making. **Notes:** For non-business undergraduates only. Credit will not be given towards the MS degree.

ACC 701 – Federal Tax Topics

Credits 3

Advanced tax topics involving corporations, proprietorships, and individuals. **Prerequisites:** ACC 410 or ACC 610 or equivalent.

ACC 702 - Financial Reporting Topics

Credits 3

Advanced accounting principles, theory, and practice used in the preparation, interpretation, and analysis of general purpose financial statements for external users. **Prerequisites:** ACC 402 or ACC 602 or equivalent.

ACC 703 - Issues in Federal Taxation

Credits 3

Broad survey course that examines an array of topics using the Internal Revenue Code, Treasury Regulations, court cases and IRS rulings. Topics include income recognition and exclusions, capitalizations, deductions, fringe benefits, capital assets, tax free exchanges and other topics. **Prerequisites:** ACC 410 or ACC 610 or equivalent.

ACC 705 - Research Methods in Federal Taxation

Credits 3

Federal tax research methodology as related to practical problem solving in the areas of accounting practice and administrative tax procedures before the Internal Revenue Service and the United States Tax Court. **Prerequisites:** ACC 410 or ACC 610 or equivalent.

ACC 706 - Auditing Theory and Applications

Credits 3

Examination of the changing business environment of the auditor and the impact of these changes on auditing philosophy, objectives, and methodology. Contemporary issues in auditing examined. **Prerequisites:** ACC 470 or ACC 670 or equivalent.

ACC 709 - Systems Theory and Applications

Credits 3

Through readings and case studies, the course develops knowledge needed in the accounting information systems field from advanced topics that focus on design and implementation issues of enterprise systems. Emerging issues in the application of technology to accounting information systems and IT auditing tools and risk assessment are also examined. **Prerequisites:** ACC 409 or ACC 609 or equivalent.

ACC 715 - Advanced Management Accounting

Credits 3

Explores contemporary issues facing management accountants through readings and case studies. Emphasis will be placed on the topics of financial leadership, ethics and strategic decision making. **Prerequisites:** Graduate degree seeking.

ACC 725 - Mergers, Acquisitions and Divestitures

Credits 3

Accounting concepts, practices, and procedures involved in accounting for business combinations, multinational-national corporations, and divestitures. **Prerequisites:** ACC 401 or ACC 601 or equivalent.

ACC 740 - Taxation of Corporations and Shareholders

Credits 3

Federal income tax problems of corporations and shareholders including organization, capital structure, distributions, undistributed income, stock redemptions and partial liquidations. **Prerequisites:** ACC 410 or ACC 610 or consent of instructor.

ACC 745 - Taxation of Partnerships

Credits 3

Tax considerations of organization and operation of partnerships. Partnership distributions, withdrawal of partners, problems upon death of a partner, dissolution of partnership, and sale of an interest. **Prerequisites:** ACC 410 or ACC 610 or consent of instructor.

ACC 749 - Seminar in Estate Planning

Credits 3

Estate and gift taxation with consideration of estate planning devices, generation skipping transfer tax, marital deduction and liquidity problems. **Prerequisites:** ACC 410 or ACC 610 or equivalent.

ACC 774 – Law for Accountants II

Credits 3

Law of commercial paper; secured transactions; creditor's rights; bankruptcy; agency; business organizations (partnerships and corporations); security regulation. **Prerequisites:** Graduate degree seeking.

ACC 781 – Internship

Credits 3

Supervised professional learning experience in accounting with business firms, nonprofit organizations or government agencies. Project report required. **Prerequisites:** Admission to MS Accounting program.

ACC 789 - Seminar in Accounting

Credits 3

Study in specialized areas of accounting. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** ACC 402 or ACC 602 or consent of instructor.

ACC 791 - Professional Paper

Credits: 3

BLW 650 - Law of the Internet

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work.

Master of Business Administration

All programs offered by the Lee Business School at UNLV are accredited by AACSB -- The Association to Advance Collegiate Schools of Business.

The Lee Business School MBA programs at UNLV are designed for those who seek global career and leadership opportunities. Today's business leaders face challenges which are quite different from those of a generation ago. Faced with a global competitive business environment and supported by new information and communication technologies, organizational structures are changing. Success in the new marketplace requires teams of executives working across functions and across borders.

The MBA programs at UNLV prepare students to succeed in today's business environment by providing them with the needed skills, knowledge, and tools to become visionary and creative leaders. The program focuses on ethics and critical thinking, business communications, the role of the firm and its goals and markets, firms' strategic planning and positioning, value chain management approach, international business culture, technology management, integration of curriculum, and teamwork. Our faculty and administration are committed to fulfilling the recently revised college mission: to advance the knowledge and practice of the disciplines that constitute business and administration and to foster the intellectual and economic vitality of Nevada and the Intermountain Region through teaching, research, and outreach. Our faculty are committed to continuous quality improvement of the curriculum and teaching, to increased vertical and horizontal integration of course material, and to team teaching and team learning. To achieve the best outcome, the faculty embrace no single teaching method, but rather employ a combination of methods best suited to the particular objectives of the course. Lectures, group discussions, seminars, case studies, computer simulations, and individual and group research projects are frequently used within courses and across the curriculum.

MBA Program Highlights

- A holistic approach to business management which starts with the role of the firm, its goals and markets, its strategic planning and positioning, and value chain management.
- Curriculum allows students to think actively about connections among disciplines by emphasizing key functional areas in integrative course modules and team teaching across disciplines.
- Explicit emphasis on a framework for analysis of ethical issues and critical thinking.
- A greater emphasis on international studies through a specific course in international business and cross-cultural perspective and a greater internationalization of other courses.
- An evening MBA Program accommodating the needs of both full-time and part-time students by allowing students to complete their degree at a pace that fits their personal schedule.
- A 15-hour concentration with up to six hours of electives provides the opportunity of in-depth specialization and a greater flexibility in tailoring programs of study to each student's needs and interests.

Graduate Non-Degree Seeking Students

Students who have begun the admission process for the MBA program may be considered to take courses as a non-degree seeking student before being admitted to the program. Students must have a current application for admission on file and satisfy the minimum admission requirements for the upcoming semester including GMAT. Students must receive the approval of the MBA Director before enrolling in graduate courses offered by the Lee Business School. Approval may be granted for one semester only and for a maximum of six credit hours. Approval is restricted to the courses in the first half of the MBA core.

Business Administration Plans

Executive Master of Business Administration

The Executive Master's in Business Administration (EMBA) program of study offers an integrated blend of theory and practice and provides a general management emphasis that fosters the professional growth of mid- and upper-level career executives. It provides opportunities for integrating professional experiences with academic management curriculum.

The program is designed to provide a holistic educational experience. Courses are sequenced to assure continuity in learning. Through a lock-step format and an innovative curriculum, a group of highly motivated students are placed in a collaborative, proactive, integrative, and team oriented learning environment.

The students go through the program as a cohort, with the course schedule set at the beginning of the cohort's program. Students complete the program in 18 months. Classes typically meet every other Friday and Saturday. All students complete the program as a group. This provides a unique cohort experience that enhances teamwork throughout the program.

Learning Outcomes

www.unlv.edu/degree/emba

Plan Admission Requirements

The student must satisfy the minimum requirements of the Graduate College and the EMBA program. The candidate must meet the following requirements:

- Submission of completed application form and the required \$100 nonrefundable application fee.
- Submission of official transcripts of all college-level course work previously taken and evidence of having been awarded the equivalent of a U.S. bachelor's degree from an accredited college or university with an overall undergraduate grade point average of at least 2.75 on the four-point scale.
- Official results of the GMAT test. Applicants may indicate test scores and date taken on the application or indicate the expected exam date; however, official copies of the GMAT scores must be submitted to the Lee Business School EMBA Program Office.
- Evidence of 5 or more years of work experience, preferably with increasingly higher levels of decision-making.
- Two letters of recommendation, at least one from the applicant's current or previous employer and one from someone who can evaluate the applicant's potential for success in a graduate degree program.
- Resume.
- Self-evaluation. The two-page, double-spaced self-evaluation should include a description of significant contributions you have made to your organization and a well-articulated career plan.
- A personal interview.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

All entering students are required to have competency in two areas. First, the applicant must be skilled in the use of word processing and spreadsheet programs. Second, the applicant must possess strong mathematical skills through college algebra. It is the applicant's responsibility to provide satisfactory evidence of these skills.

Plan Requirements

Total Credits Required: 43

Course Requirements

- Required Courses – Credits: 41
 - EMBA 701 - Teamwork and Management Effectiveness
 - EMBA 702 - Laws, Regulations and Ethics
 - EMBA 703 - Microeconomic Analysis for Business Decision Making
 - EMBA 704 - Technology Innovation: Theory and Practice
 - EMBA 705 - Applied Statistics
 - EMBA 707 - Financial Accounting for Managers
 - EMBA 708 - Global and Macroeconomic Environment for Business
 - EMBA 709 - Organization Behavior
 - EMBA 710 - Business Finance
 - EMBA 711 - Managerial Accounting
 - EMBA 712 - Seminar in Financial Management
 - EMBA 713 - Principles of Marketing Strategy
 - EMBA 714 - Management of Entrepreneurial Organizations
 - EMBA 715 - Strategic Management: Business Strategy and Corporate Strategy
 - EMBA 716 - International Business
 - EMBA 717 - Negotiations and Conflict Resolution
 - EMBA 719 - Executive Assessment and Development
 - EMBA 723 - Applied Strategic Marketing
 - EMBA 722 - Service Operations
- Capstone Course – Credits: 2
 - EMBA 720 - International Seminar

Degree Requirements

- The candidates must successfully complete the 43 credits of required EMBA courses.

- The content of the courses is customized to meet the need of executives. Classes generally meet on Friday and Saturday every other weekend. Classes are from 8:30 a.m. to 12:30 p.m. and 1:30 p.m. to 5:30 p.m. each day. Students must be able to make a commitment to attend all classes.
- Each cohort takes an international trip. The International Seminar requires students to learn about the culture and business practices of the countries to be visited.
- The academic performance of students is reviewed on a regular basis. If it is determined that a student is not making satisfactory progress toward meeting degree requirements or if the student's overall GPA falls below 3.00, the student will be placed on probation. Conditions and deadlines for the removal of probation will be specified. Failure to meet the conditions will result in separation from the EMBA program. Graduation requires a minimum overall GPA of 3.00.
- Withdrawing from a class is considered as being unsuccessful in that course and in the program and will result in dismissal from the program. A student who, due to extraordinary circumstances, is forced to withdraw from a course and is subsequently dismissed from the program may appeal to the Director of the EMBA Program.
- Students who do not successfully complete a course in their EMBA program may replace the course with a similar course taken from the regular MBA program at UNLV or with another EMBA cohort at UNLV. The substitution requires the approval of the Director of the EMBA Program in the Lee Business School and is discouraged. Substitution will be possible only under the most unusual circumstances. In no case may more than two courses be substituted.

Plan Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

Master of Business Administration

Plan Description

The Lee Business School MBA Programs at UNLV are designed for those who seek global career and leadership opportunities. The world is changing quickly and today's business leaders are faced with new challenges in a complex business environment supported by new communication technologies and organizational structures. Success in the new global marketplace requires teams of executives working across functions and across borders.

The MBA programs at UNLV prepare students to succeed in today's business environment by providing them with the needed skills, knowledge, and tools to become visionary and creative leaders. The program focuses on ethics and critical thinking, business communications, the role of the firm and its goals and markets, firms' strategic planning and positioning, supply chain management, international business culture, information technology, leadership, and teamwork. Our faculty and administration are committed to fulfilling the recently revised college mission: to advance the knowledge and practice of the disciplines that constitute business and administration and to foster the intellectual and economic vitality of Nevada and the Intermountain Region through teaching, research, and outreach. Our faculty are committed to continuous quality improvement of the curriculum. To achieve the best outcome, the faculty embrace no single teaching method, but rather employ a combination of methods best suited to the particular objectives of the course. Lectures, group discussions, seminars, case studies, computer simulations, and individual and group research projects are frequently used within courses and across the curriculum.

MBA Program Highlights

- A holistic approach to business management which starts with the role of the firm, its goals and markets, its strategic planning and positioning, and supply chain management.
- Explicit emphasis on a framework for analysis of ethical issues and critical thinking.

- A greater emphasis on international studies through a specific course in international business and cross-cultural perspective and a greater internationalization of other courses.
- An evening MBA Program accommodating the needs of both full-time and part-time students by allowing students to complete their degree at a pace that fits their personal schedule.
- Students can take 2, 3 or 4 courses per semester enabling them to finish in the time frame of their choice. The cohort experience enables students to bond and network with each other in the program.
- Up to nine hours of electives provides greater flexibility in tailoring programs of study to each student's needs and interests.

Transfer Credit and Prior Course Work

Up to 12 graduate credit hours may be transferred if taken at AACSB accredited business schools within the last 5 years and a grade of B (3.00) or better is achieved. Graduate work taken pass/fail is not transferable toward the MBA degree. This transfer credit is limited by the requirement that a student must take a minimum of 30 credit hours of graduate classes from the UNLV Lee Business School to earn an MBA degree. Requests for transfer course work must be evaluated and approved by the MBA Director after the student is officially admitted.

Leave of Absence, Probation, and Suspension

Student academic performance is reviewed twice a year. Admitted students must enroll for courses every semester, excluding Summer Term, and must complete at least 6 credit hours every year. A leave of absence can be granted for up to one or two academic year(s) with prior approval from the MBA Director and Graduate College. A student will be placed on probation if it is determined that a student is not making satisfactory progress toward meeting degree requirements or if the student's overall MBA program GPA falls below 3.00. Conditions and deadlines for the removal of probation will be specified. Failure to meet the conditions will result in separation from the MBA program.

Learning Outcomes

www.unlv.edu/degree/mba-part-time

Plan Admission Requirements

The Lee Business School MBA Program welcomes applications from college graduates in all disciplines. Applicants must hold a bachelor's degree from an accredited college or university. Graduates from all majors are encouraged to apply. Applicants are evaluated based upon proven scholastic ability, performance on the Graduate Management Admission Test (GMAT), maturity, motivation, leadership, communication skills, and possess the interest and ability to assume business leadership responsibilities.

MBA 741 – Internship (3 credits) is required for students without relevant business work experience. This requirement may be waived at the student's request and with proof of relevant work experience.

The Application Process

Admission to the graduate business program is conducted by the Lee Business School MBA Programs and the UNLV Graduate College. Please note that the responsibility of obtaining and submitting the application material, transcripts, test scores and other necessary information rests upon the applicant. In addition, international students

must provide proof of English proficiency if the student's degree is from an institution where English is not the language of instruction.

Refer to the Graduate College Admission & Registration Information contained in this catalog for a complete description of materials and processes required for admission consideration.

Application Deadlines

Refer to the Graduate College website for deadline.

Students will be admitted to the MBA program for the fall semester only.

Application

Application to the MBA and Dual Programs require the following documentation.

- Official results of the GMAT test. You may indicate your test score and date taken on the application or indicate your expected exam date; however, official copies of the GMAT scores must be submitted to the Lee Business School MBA Programs Office.
- A copy of the applicant's current resume.
- Two letters of recommendation, academic or professional, from persons competent to judge the applicant's potential to pursue graduate work successfully.
- A one to two page statement of purpose.
- Evidence of a minimum of two years of relevant work experience preferred.
- Evidence (official transcript) of an undergraduate Grade Point Average (GPA) of 3.00, or higher, on a four-point scale.
- With the exception of the GMAT, required materials listed above are to be uploaded into the Graduate College online application. The MBA program does not require a separate application.

Graduate Management Admission Test

Applicants must meet the Graduate Management Admission Test (GMAT) score of 550 or higher with each component over the 25th percentile. The test score should be reflective of both, verbal and quantitative aptitude. GMAT scores over five years old are not considered. The average score of accepted students over the last two years is about 600. The computer adaptive GMAT is offered on a continuous basis by appointment at one of approximately 400 locations throughout North America. For further information contact:

Graduate Management Admission Test

1-800-717-GMAT (4628)

website: www.mba.com

e-mail: GMATCandidateServicesAmericas@perason.com

Applicants with demonstrated potential, a strong undergraduate academic record, and a strong GMAT score, are admitted with graduate standing. Students may be considered for admission on a provisional basis if their undergraduate academic record and/or GMAT score are not sufficiently strong to be considered for full graduate standing. Applicants with a GPA less than 3.00 but not lower than 2.75, OR a GMAT score less than 550 but not lower than 520, with each component over the 25th percentile, may be considered for provisional admission. A graduate provisional student must complete the first nine credit hours of core courses taken in the program. The courses are approved in advance and are listed on the "Letter of Admission." The student must complete this course

work within the first two consecutive enrollment periods (excluding Summer Term) and earn individual grades of B (3.00) or above (B- is not acceptable) before any other additional course work may be taken. Failure to complete this course work in the allotted time, or any grades less than B, will result in cancellation of the student's admission. Upon completion of the nine hours with grades of B or better, the Lee Business School will recommend to the Graduate College that the student be given graduate standing status. The Graduate College will then change the student's status to graduate standing.

Prior to their first semester in the program, all admitted students are required to attend a noncredit orientation program.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 42

Course Requirements

- Required Courses – Credits: 30
 - MBA 761 - Accounting for Managers
 - MBA 763 - Leadership, Teams, and Individuals
 - MBA 765 - Financial Decision Making
 - MBA 767 - Market Opportunity Analysis
 - MBA 769 - Applied Economic Analysis
 - MBA 771 - Law and Ethics
 - MBA 773 - Managing Information
 - MBA 775 - Data Modeling and Analysis
 - MBA 779 - Managing Supply Chains
 - MBA 785 - Global Business
 -
- Electives – Credits: 9
 - Complete 9 credits of electives from the list below or any 700-level course offered by the Lee Business School:
 - FIN 708 - Advance Corporate Finance
 - FIN 710 - Investment Management
 - MGT 710 - New Venture Creation
 - MGT 709 - New Venture Feasibility
 - MKT 720 - Customer Satisfaction and Service Quality Measurement
 - MKT 777 - Services Marketing
 -
- Capstone Course – Credits: 3
 - MBA 787 - Strategic Management

Degree Requirements

- The MBA degree requires a minimum of 42 credit hours of approved course work.
- All requirements listed above must be completed successfully as defined by the Lee Business School and the Graduate College. All required courses are sequenced so students may acquire the tools and skill they need for success in the program.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Successfully complete the capstone course.

Dual Degree: Master of Business Administration & Doctor of Dental Medicine

The University of Nevada, Las Vegas School of Dental Medicine and the Lee Business School offer a dual Doctorate of Dental Medicine (DMD) and Master of Business Administration (MBA) degree program that allows students to be admitted in both programs and achieve the DMD and MBA degrees. As a concurrent program, the dual degree requires that students satisfy the degree requirements of both programs. The dual Master of Business Administration and Doctorate of Dental Medicine (MBA and DMD) program is designed for those who seek career and business leadership opportunities in the field of dentistry. Students will receive two degrees, an MBA and a DMD.

The MBA degree at the Lee Business School requires 42 credit hours. The Dental degree requires 195 credit hours. Under the dual degree program 12 credit hours of dental courses are accepted towards the MBA degree.

Learning Outcomes

www.unlv.edu/degree/dual-mba-dmd

Plan Admission Requirements

Applicants to the DMD/MBA program must submit formal applications for admission to both the School of Dental Medicine and to the Lee Business School. Students must meet the requirements for admission to both programs. Admissions requirements are the same as those stated under the DMD and MBA programs. Contact the UNLV School of Dental Medicine and the Lee Business School MBA programs for further information on admissions requirements. Applications from current students in either program will be considered. Entry into the MBA program for students from the School of Dental Medicine will be no earlier than the fall semester of year two of the dental curriculum. However, petitions requesting admission to the dual DMD/MBA program from students at more advanced stages will be considered.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 216

Course Requirements

Total Credits Required for the Business Administration M.B.A.: 30

- MBA Core Required Courses – Credits: 27
 - MBA 761 - Accounting for Managers
 - MBA 763 - Leadership, Teams, and Individuals
 - MBA 765 - Financial Decision Making
 - MBA 767 - Market Opportunity Analysis
 - MBA 769 - Applied Economic Analysis
 - MBA 771 - Law and Ethics
 - MBA 773 - Managing Information
 - MBA 775 - Data Modeling and Analysis

- MBA 779 - Managing Supply Chains
- Capstone Course – Credits: 3
- MBA 787 - Strategic Management
- Total Credits Required for the Doctor of Dental Medicine: 186

Degree Requirements

Students must be admitted to both the DMD and MBA programs with graduate standing. The candidates must successfully complete the 186 credit hours of Dentistry and the 30 credit hours of the MBA required course work.

Furthermore:

- UNLV School of Dental Medicine cannot award credit for any class taken before matriculation.
- A maximum of six credit hours of courses taken prior to admission to the DMD/MBA program may be applied towards the MBA degree requirement. This includes all courses taken as a fully admitted graduate MBA student at an AACSB accredited business school, as an admitted dental student at UNLV, or as a non-admitted student at UNLV before admission to the MBA program.
- DMD/MBA candidates who subsequently decide to pursue only the DMD or only the MBA must complete the degree program in its entirety and are subject to the same rules and requirements as students not pursuing the DMD/MBA program.
- DMD/MBA may not receive credit for taking courses outside their degree program except as set forth in this document and with prior approval.
- Student honors and class ranks at the School of Dental Medicine will be computed based solely on dental classes. Student honors and class ranks at the Lee Business School will be computed based solely on business classes.
- Students in the DMD/MBA program must remain in good standing at both DMD and MBA programs.
- Students in the DMD/MBA program are subject to the same rules and regulations that apply to all students at the School of Dental Medicine and the Lee Business School.
- The Lee Business School and the School of Dental Medicine reserve the right to limit participation in the program, including dismissal. Those interested are encouraged to submit a request for permission to participate in the program, along with applications for admission, at the earliest possible time.

Plan Graduation Requirements

- Students cannot graduate from one portion of the dual degree until the requirements for both are met. Students must apply to graduate from both programs for the same semester.
- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Successful completion of the capstone course.

Dual Degree: Master of Business Administration & Master of Science - Hotel Administration

This is a dual degree offered by the Harrah Hotel College in conjunction with UNLV's Lee Business School. The MBA/MS HOA study is designed for those who seek career and business leadership opportunities in hotel administration. The programs will provide students with the needed skills, knowledge, and tools to become visionary and creative business leaders in hotel administration. The core MBA program is designed to advance the knowledge and practice of business and administration. The MS – Hotel Administration portion of the dual degree is designed to provide the industry-specific teaching and learning program. The program takes advantage of the natural learning environment that is created by the Las Vegas economy, the entertainment capital of the world. Students will receive a dual degree, an MBA and a MS – Hotel Administration.

Learning Outcomes

www.unlv.edu/degree/dual-mba-ms-hotel-administration

Plan Admission Requirements

The admission requirements for the dual degree are the same as those stated under the MBA and MS HOA programs. The only exception is that the dual MBA program only accepts the GMAT for admission. All dual degree program applicants are required to show that they have at least one year of full-time management/supervisory experience or three years of cumulative full-time front-line experience in the hospitality industry.

Application Process

See the Application Process section under the MBA and the MS HOA programs. Applications will be reviewed by representatives of the Lee Business School and the William F. Harrah College of Hotel Administration in an independent process within each college. Applicants must be admitted to both the Lee Business School and the William F. Harrah College of Hotel Administration to qualify for the dual degree program for that term.

Application Deadline

Refer to the Graduate College website for specific deadlines. All documentation and application materials must be received by the Graduate College, the William F. Harrah College of Hotel Administration Graduate Studies Office, and the Lee Business School by the deadline for the application to be considered.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Thesis Track

Total Credits Required: 51

Course Requirements

Total Credits Required for the Business Administration M.B.A.: 30

- Required Courses – Credits: 27
 - MBA 761 - Accounting for Managers
 - MBA 763 - Leadership, Teams, and Individuals
 - MBA 765 - Financial Decision Making
 - MBA 767 - Market Opportunity Analysis
 - MBA 769 - Applied Economic Analysis
 - MBA 773 - Managing Information
 - MBA 775 - Data Modeling and Analysis
 - MBA 779 - Managing Supply Chains
 - MBA 785 - Global Business
- Capstone – Credits: 3
 - MBA 787 - Strategic Management
- Total Credits Required for the Hotel Administration M.S.: 21

- Required Courses – Credits: 12
 - HOA 703 - Human Resources Management in the Hospitality Industry
 - HOA 735 - Research Methodology
 - HOA 751 - Hospitality Service Management
 - HOA 777 - Critical Issues in Hospitality Management
- Management Elective Course – Credits: 3
- Complete one of the following courses:
 - HOA 716 - Principles and Practices in Hotel Management
 - HOA 717 - Principles and Practices in Convention and Meetings Management
 - HOA 718 - Principles of Casino and Gaming Management
 - HOA 720 - Principles and Practices in Food Service Management
- Thesis – Credits: 6
 - HOA 789 - Thesis

Degree Requirements

- Completion of a minimum of 30 credits of MBA courses and a minimum of 21 credits of HOA.
- A grade point average of at least 3.00 for course work required for the degree.
- No grade lower than C is acceptable.
- Students with unsatisfactory progress toward the degree requirements are subject to dismissal. A student with a grade of C or lower in any of the required courses for the degree will be put on probation for one semester. Conditions and deadlines for the removal of probation will be specified. Failure to meet the condition will result in departure from the program. A student with two grades of C or lower will be dropped from the program.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- In addition to the academic requirements, the Harrah Hotel College requires 500 hours of acceptable employment experience in the hospitality industry. The work experience requirement requires the student to find employment, but carries no academic credit and may be earned outside Nevada and during the summer. This work experience will be evaluated qualitatively as well as quantitatively, and may be waived at the discretion of the program coordinator. International students must go to the Office of International Students and Scholars to verify employment eligibility.

Graduation Requirements

- Students cannot graduate from one portion of the dual degree until the requirements for both are met. Students must apply to graduate from both programs for the same semester.
- The student must submit all required forms to the Graduate College and then apply for graduation from both degrees up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete the MBA capstone course.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Professional Paper Track

 - HOA 720 - Principles and Practices in Food Service Management
- Elective Course – Credits: 3
 - Complete 3 credits of any 500-, 600-, or 700-level HOA course.
- Professional Paper – Credits: 3
 - HOA 788 - Professional Paper

Degree Requirements

- Completion of a minimum of 30 credits of MBA courses and a minimum of 21 credits of HOA.
- A grade point average of at least 3.00 for course work required for the degree.
- No grade lower than C is acceptable.
- Students with unsatisfactory progress toward the degree requirements are subject to dismissal. A student with a grade of C or lower in any of the required courses for the degree will be put on probation for one semester. Conditions and deadlines for the removal of probation will be specified. Failure to meet the condition will result in departure from the program. A student with two grades of C or lower will be dropped from the program.
- The Hotel Administration portion of the dual degree program requires successful completion of a professional paper that must adhere to the standards in the American Psychological Association's current publication manual regarding writing style and format. This paper must be completed at the end of the dual program.
- In addition to the academic requirements, the Harrah Hotel College requires 500 hours of acceptable employment experience in the hospitality industry. The work experience requirement requires the student to find employment, but carries no academic credit and may be earned outside Nevada and during the summer. This work experience will be evaluated qualitatively as well as quantitatively, and may be waived at the discretion of the program coordinator. - The student must submit all required forms to the Graduate College and then apply for graduation from both degrees up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete a professional paper and the MBA capstone course.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Thesis Track
- Subplan 2: Professional Paper Track

Dual Degree: Master of Business Administration & Juris Doctor

The William S. Boyd School of Law and the Lee Business School offer a dual Juris Doctor (JD) and Master of Business Administration (MBA) degree program that allows students to be admitted in both programs and achieve the JD and MBA degrees simultaneously. As a concurrent program, the dual degree requires that students satisfy the degree requirements of both programs. The JD/MBA dual degree requires 80 Law credit hours and 30 MBA credit hours. Under the dual degree program 12 credit hours of Law courses are accepted towards the MBA degree and nine credit hours of MBA courses are accepted towards the JD degree.

Learning Outcomes

www.unlv.edu/degree/dual-mba-jd

Plan Admission Requirements

Applicants to the JD/MBA program must submit formal applications for admission to both the William S. Boyd School of Law and to the Graduate College. Students must meet the requirements for admission to both programs. Admission requirements are the same as those stated under the regular JD and MBA programs. For information on the MBA program application procedures, interested individuals should contact the Lee Business School-MBA Program at (702) 895-3655 or go to <http://business.unlv.edu> or the William S. Boyd School of Law at (702) 895-2440 or go to <http://www.law.unlv.edu>

While applications from current students in either program will be considered, students normally should seek and satisfy admission to enter both programs upon entering the university. However, petitions requesting admission to the dual JD/MBA program from students at more advanced stages in either program will be considered.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 110

Course Requirements

- Total Credits Required for the Business Administration M.B.A.: 30
 - MBA Core Required Courses – Total Credits: 27
 - MBA 761 - Accounting for Managers
 - MBA 763 - Leadership, Teams, and Individuals

- MBA 765 - Financial Decision Making
- MBA 767 - Market Opportunity Analysis
- MBA 769 - Applied Economic Analysis
- MBA 773 - Managing Information
- MBA 775 - Data Modeling and Analysis
- MBA 779 - Managing Supply Chains
- MBA 785 - Global Business
- Capstone Course – Credits: 3
 - MBA 787 - Strategic Management
- Total Credits Required for the Juris Doctor: 80
- Required Courses - 44 credits
- Directed Electives - 18 credits
- Free Electives - 18 credits

Degree Requirements

- Students must be admitted to both the JD and MBA programs with graduate standing. The candidates must successfully complete the 80 credit hours of Law course work and 30 credit hours of the MBA required course work.
- William S. Boyd School of Law cannot award credit for any class taken before matriculation. JD/MBA candidates must therefore enroll at the School of Law before taking any MBA courses to be counted toward the JD degree.
- A maximum of six credit hours taken prior to admission to the JD/MBA program may be applied towards the MBA degree requirement. This includes all courses taken as a fully admitted graduate MBA student at an AACSB accredited business school, as an admitted law student at UNLV, or as a non-admitted student at UNLV before admission to the MBA program.
- JD/MBA candidates who subsequently decide to pursue only the JD or only the MBA must complete the degree program in its entirety and subject to the same rules and requirements as students not pursuing the JD/MBA program. Because students must finish both programs to receive credit toward the JD/MBA, degrees will not be awarded until both programs are finished.
- JD/MBA candidates must comply with the requirements for all students regarding the maximum amount of time for completion of a degree program. Law students have a maximum of 7 years to complete the J.D. degree. The Graduate College imposes a six-year time limit for completion of a master's program.
- JD/MBA candidates may not receive credit for taking courses outside their degree program without prior approval.
- Student honors and class ranks at the William S. Boyd School of Law will be computed based solely on law classes. Student honors and class ranks at the Lee Business School will be computed based solely on classes taken as business classes.
- Students in the JD/MBA program must remain in good standing at both JD and MBA programs.
- Students in the JD/MBA program are subject to the same rules and regulations that apply to all students at the William S. Boyd School of Law and the Lee Business School.
- The listing of courses does not constitute a binding commitment that the courses will be offered during the student's course of study or that the graduation requirements will remain unchanged.

Plan Graduation Requirements

- Students cannot graduate from one portion of the dual degree until the requirements for both are met. Students must apply to graduate from both programs for the same semester.
- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Successful completion of the MBA capstone course.

Dual Degree: Master of Business Administration & Master of Science - Management Information Systems

The dual MBA and MS – MIS program of study is designed for those who seek career and business leadership opportunities in management information systems. The program will provide students with the needed skills, knowledge, and tools to become visionary and creative business leaders with strong competency in management information systems. The core MBA program is designed to advance the knowledge and practice of business and administration. The MS – MIS portion of the dual degree is designed to prepare graduates with a broad-based knowledge of information system design, development, implementation, evaluation, and maintenance.

The program includes 54-credits and the student will receive both, an MBA and an MS MIS degree. Each student completes a total of 24 credit hours in MIS courses and a total of 30 credit hours in MBA core courses with a minimum GPA of 3.0. MBA courses are accepted as hours of elective towards the MS MIS degree. The program does not require a thesis.

Learning Outcomes

www.unlv.edu/degree/dual-mba-ms-management-information-systems

Plan Admission Requirements

The admission requirements for the dual degree program are the same as each of the MBA and M.S. – Management Information Systems programs. Applicants must be admitted to each of the MBA and M.S. – Management Information Systems programs. Candidates have to apply to the MBA/MS – MIS Dual Degree program and meet the respective application requirements of each of the programs respectively.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

- MIS 766 - Data Management
- MIS 776 - Business Intelligence

With approval of the MS – MIS program graduate coordinator, required MIS courses may be substituted with elective courses to avoid duplication of a student’s previous course work and to address the needs of the student’s specific career choice.

Degree Requirements

- Completion of a minimum of 30 credit hours of MBA core courses and a minimum of 24 credits of MS – MIS courses.
- A grade point average of at least 3.00 for course work required for the degree.
- No grade lower than C is acceptable.
- Students with unsatisfactory progress toward the degree requirements are subject to dismissal. A student with a grade of C or lower in any of the required courses for the degree will be put on probation for one semester. Conditions and deadlines for the removal of probation will be specified. Failure to meet the condition will result in departure from the program. A student with two grades of C or lower will be dropped from the program.

Plan Graduation Requirements

- Students cannot graduate from one portion of the dual degree until the requirements for both are met. Students must apply to graduate from both programs for the same semester.
- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Successful completion of the capstone course.

Business Administration Courses

EMBA 701 - Teamwork and Management Effectiveness

Credits 2

Examines why organizations increasingly adopting team-based work processes and circumstances where they are likely to be appropriate and effective. Mechanics of effective teamwork and team management. Includes effective team members and team leadership, organizational support for high performance teams, stages of team development and strategies for managing them, and issues pertaining to international teams. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean’s Office.

EMBA 702 - Laws, Regulations and Ethics

Credits 2

Explores legal, regulatory and ethical issues which affect managers in their practice of business. Legal systems, philosophical approaches and practical applications. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean’s Office.

EMBA 703 - Microeconomic Analysis for Business Decision Making

Credits 2

Uses economic analysis to understand crucial topics in business decision making, including: consumer behavior; supply and demand; choosing to input to minimize cost; product differentiation; firm behavior under different types of competition; pricing and advertising strategies; risk, uncertainty, and imperfect information; government

regulation; labor issues; and mergers. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 704 - Technology Innovation: Theory and Practice

Credits 2

This course provides an in-depth look into the potential impacts of existing and emerging information technologies on contemporary business models through lecture, case analysis, and interaction with industry guest speakers. Potential impacts for both new and existing businesses will be discussed. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 705 - Applied Statistics

Credits 2

Effective business research and decision making with the aid of statistical analysis. Hands-on experience with computer spreadsheet software. Covers how to find, manage, analyze, interpret, and effectively present actual business and economic data. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 706 - Organizational Theory: Strategy Implementation Processes

Credits 2

Effective implementation of organizational decisions and strategies. Draws on scholarly research in sociology, psychology, anthropology, and a wide variety of related social sciences. Executive-level overview of organization theory. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 707 - Financial Accounting for Managers

Credits 2

Examines process which determines economic impact of organization activities. Performance measurement, recording, and reporting. Focuses on methods and procedures that lend to the preparation of financial statements and reports to external audiences. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 708 - Global and Macroeconomic Environment for Business

Credits 2

Provides an understanding of macroeconomic conditions that impact firms operating in the global economy. Topics include aggregate demand and national income; business cycles; inflation; unemployment; interest rates; exchange rates; international trade in goods and capital; and fiscal and monetary government policies. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 709 - Organization Behavior

Credits 2

Important concepts and applications in management including motivation, leadership, group dynamics, organization design, decision making, strategic planning and organizational change. Special emphasis on analyzing leadership skills of others and improving leadership potential of participants. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 710 - Business Finance

Credits 2

Examines the role of financial management in creating firm value. Covers fundamental business finance topics and the application of basic finance concepts for decision making in a business environment. Taught from the perspective of a senior-level manager. **Prerequisite:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 711 - Managerial Accounting

Credits 2

Focus on the use and potential misuse of accounting data by managers. Provides a foundation for identifying and analyzing decision alternatives and evaluating success in accomplishing organizational goals. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 712 - Seminar in Financial Management**Credits 2**

Covers major financial management issues pertaining to a firm's operations. Taught primarily through case discussions and use of spreadsheets in financial analysis. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 713 - Principles of Marketing Strategy**Credits 2**

Designed to introduce executives to conceptual and analytical frameworks that inform the development and execution of marketing strategy. A blend of readings and case studies will be used to build fundamental knowledge of the discipline and simulate marketing strategy decision making. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 714 - Management of Entrepreneurial Organizations**Credits 3**

Examines issues involved in developing and managing entrepreneurial organizations. Topics include: why some firms fail while others succeed; stages of growth and organization effectiveness; and management systems in an entrepreneurial context, such as strategic planning, organizational development, and leadership. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 715 - Strategic Management: Business Strategy and Corporate Strategy**Credits 3**

Explores business strategies (cost leadership, differentiation, tacit collusion, and strategic alliances) and corporate strategies (vertical integration, diversification, merger and acquisition, and globalization strategies.) Economic theories of competition and cooperation. Includes case studies of firms which have successfully or unsuccessfully employed a variety of strategies. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 716 - International Business**Credits 2**

Problems and opportunities of business in a global context. Examines international economic, institutional, cultural and legal differences and analyzes their impact on business decisions including: product design, production and marketing, human resources strategy; investment analysis; financial strategy and risk management. May be repeated to a maximum of two credits. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 717 - Negotiations and Conflict Resolution**Credits 3**

Examines the nature of conflict and the negotiation process as a tool for managing conflict. Includes preparing negotiations, negotiating strategies and tactics, organizing negotiating teams, coalition bargaining, the importance of individual difference variables, international issues, the role of third parties, and ethical issues. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 718 - Executive Decision Making: Strategy Formation Processes**Credits 2**

Explores classic cases and texts on organizational decision-making processes in order to improve participants' capacities to contribute to the effective manufacturing of organizational decisions. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 719 - Executive Assessment and Development**Credits 1**

Helps participants to be more capable of understanding and leading change. Includes framework of leadership competency grounded in paradoxical thinking. Leadership concepts presented. Leadership assessment completed for each participant. **Prerequisites:** Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 720 - International Seminar

Credits 3

Includes problems and environment of international business, which require integrative analysis of these problems. Under faculty supervision, students visit selected international enterprises operating outside the United States and produce a written analysis including specific recommendations. May be repeated to a maximum of three credits.

Prerequisites: Admission to the Executive MBA Program and approval of the Dean's Office.

EMBA 722 - Service Operations

Credits 2

This course introduces students to the strategies, concepts, practices, and challenges of successful service operations. This course prepares students to identify and apply appropriate strategies and management processes to ensure efficient, effective, and quality oriented service operations, while achieving operational competitiveness.

Prerequisites: Admission to EMBA program and approval of Dean's Office.

EMBA 723 - Applied Strategic Marketing

Credits 2

Designed to give executives the opportunity to apply marketing concepts in an effort to analyze, initiate and change marketing actions. Provides the knowledge and tools needed to analyze marketing problems. **Prerequisites:** EMBA 713

EMBA 725 - Corporate Risk Management

Credits 3

This course will focus on the fundamentals of corporate risk management from a strategic decision-making perspective. The course emphasizes how exposures to strategic, operational, financial and pure risks affect the firm, and how risk exposures can be re-engineered to enhance shareholder value. Topics further include the major sources of risk, the measurement of risk exposures, methods, and strategies of managing and controlling risk.

Prerequisites:EMBA 715

MBA 741 – Internship

Credits 3

Supervised practical experience with a participating local enterprise or government agency, culminating in a written report. **Prerequisites:** Completion of MBA Core Curriculum and approval of the Director of MBA Programs, minimum GPA 3.0.

MBA 751 - Independent Study

Credits 1 – 3

Independent study of a topic relevant to the practice of business under supervision of a faculty advisor.

Prerequisites: MBA 702, 709, 710, 711 and approval of Associate Dean for Graduate Programs.

MBA 761 - Accounting for Managers

Credits 3

Fundamentals of financial and managerial accounting. Topics include accounting's conceptual framework, preparation and analysis of financial statements, current topics in financial reporting, ethical and legal responsibilities in financial reporting, cost-volume-profit analysis, tactical decision making, budgeting and accounting for management control. **Formerly:** MBA 709. **Prerequisites:** Admission to MBA Program or approval of the Director of MBA Programs.

MBA 763 - Leadership, Teams, and Individuals

Credits 3

Overview of research and theory on organizational behavior with emphasis on the skills required for managerial effectiveness in modern complex organizations including motivating and leading employees, developing effective teams, and managerial communication responsibilities. **Formerly:** MBA 707. **Prerequisites:** Admission to MBA Program or approval of the Director of MBA Programs.

MBA 765 - Financial Decision Making

Credits 3

Focuses on corporate financial management, including cash flow planning, capital budgeting, security valuation, and financing decisions. Includes the concepts of market efficiency and optimal capital structure. Provides useful set of tools to improve the efficiency of business and personal financial decisions. **Formerly:** MBA 711. **Prerequisites:** MBA 761 admission to M.B.A. program, or approval of the Director of MBA Programs.

MBA 767 - Market Opportunity Analysis**Credits 3**

Theory and practice of marketing fundamentals applied to the market opportunity analysis. Focus on the marketing concept, planning, internal analysis, industry analysis, customer analysis, segmentation, competitive strategies and strategy formulation, product and pricing decision, positioning, forecasting, and profitability of opportunities.

Formerly: MBA 715. **Prerequisites:** Admission to the MBA program or approval of the Director of MBA Programs.

MBA 769 - Applied Economic Analysis**Credits 3**

Intensive application of the principles of microeconomic theory to business management problems. Presumes no previous knowledge of economics but moves rapidly to a thorough understanding of the tools of price theory. Topics include scarcity, choice, supply, demand, production, cost, competition, monopoly, present value and decision-making under risk. **Formerly:** MBA 710. **Prerequisites:** Admission to MBA Program or approval of the Director of MBA Programs.

MBA 771 - Law and Ethics**Credits 3**

Deals with legal, regulatory and ethical environments of business. Provides foundation for recognizing and analyzing legal and ethical issues facing managers. Case studies applying both legal and ethical analysis featured.

Formerly: MBA 706. **Prerequisites:** Admission to MBA Program or approval of the Director of MBA Programs.

MBA 773 - Managing Information**Credits 3**

Overview of contemporary information systems and technology issues. Technical, behavioral, organizational and competitive perspectives reviewed. Issues related to impact of information systems on organizational processes and work practices. Information systems strategies, technology implementation and systems analysis and design.

Formerly: MBA 730. **Prerequisites:** MBA 702, 709, 710, 711, or admission to the MSIS program or approval of the Director of MBA Programs.

MBA 775 - Data Modeling and Analysis**Credits 3**

Intensive seminar/workshop applying statistical analysis to topics and problems encountered by business managers. Presumes no previous exposure to statistics but moves rapidly to the mastery of statistical analysis tools available on spreadsheet software. Topics include descriptive statistics, hypothesis testing, analysis of variance, simple regression and multiple regression. **Formerly:** MBA 702. **Prerequisites:** Admission to MBA Program or approval of the Director of MBA Programs.

MBA 779 - Managing Supply Chains**Credits 3**

Study of the integration of the key value-adding activities across a network of firms that produce raw materials, transform them into intermediate and then end products, and finally distribute these to end users. Topics include purchasing and supplier relationships, inventory and quality management, distribution, customer relationship management, service response logistics, and future trends in supply chain management. **Formerly:** MBA 720. **Prerequisites:** MBA 702, 709, 710, 711 or approval of the Director of MBA Programs.

MBA 785 - Global Business**Credits 3**

Problems and opportunities of business in a global context. Examines economic, institutional, cultural, and legal issues faced by companies involved in international business and analyzes their effect on business decisions

including: product design, production and marketing, human resources strategy, investment analysis, financial strategy, and risk management. **Prerequisites:** MBA 702, 709, 710, 711, or approval of the Director of MBA Programs.

MBA 787 - Strategic Management

Credits 3

Integrates knowledge from specialized functional courses into a CEO perspective. Moves beyond a repertoire of generic strategies toward the formation of unique, firm specific strategies. Builds effective strategies in complex organizational contexts. **Prerequisites:** To be taken during the student's final semester.

Economics

Students who obtain the MA will demonstrate a masters level understanding of economic theory and will work competently with data and interpret clearly the results of empirical studies. Over the course of the program, MA students develop and hone their abilities to solve problems. Communicating the results of economic analysis is a valuable skill in the business world and the program provides students the opportunity to develop their writing and presentation skills. The program produces students with a set of skills that both businesses and policy makers value. MA students in economics are attractive candidates for different employers — government agencies, marketing research firms, corporate research and financial departments, and consulting firms. Students interested in pursuing a Ph.D. in economics or finance also benefit from the MA in economics. The department welcomes both full and part-time students. Ambitious students can complete the program in one year.

Mary Riddel, Ph.D., Chair

Jeff Waddoups, Ph.D., Graduate Coordinator

Chair

Riddel, Mary - Full Graduate Faculty

Professor; B.A., University of Colorado, Boulder; M.S., Ph.D., Colorado State University, Ft. Collins. *Rebel since 1999.*

Graduate Coordinator

Waddoups, C. Jeffrey - Full Graduate Faculty

Professor; B.A., Ph.D., University of Utah. *Rebel since 1989.*

Graduate Faculty

Assane, Djeto - Full Graduate Faculty

Associate Professor; B.A., University of Abidjan; M.A., University of New Mexico; Ph.D., University of Colorado. *Rebel since 1998.*

Brown, Stephen P.A. - Full Graduate Faculty

Professor; B.S., California Polytechnic State University; M.A., Ph.D., University of Maryland. *Rebel since 2010.*

Carroll, Thomas - Full Graduate Faculty

Professor; A.B., Miami University; M.A., Ph.D., Syracuse University. *Rebel since 1986.*

Chen, Lein-Lein - Full Graduate Faculty

Professor; B.S., M.S., Florida International University; Ph.D., University of Miami. *Rebel since 1993.*

Li, Herman - Full Graduate Faculty

Assistant Professor; B.A., University of Pennsylvania; Ph.D., Penn State University. *Rebel since 2011.*

Malamud, Bernard - Full Graduate Faculty

Professor; B.S.E.E., Polytechnic Institute of Brooklyn; M.S.I.A., Carnegie-Mellon University; Ph.D., New School for Social Research. *Rebel since 1968.*

Miller, Stephen M. - Full Graduate Faculty

Professor, B.S., Purdue University; M.A., Ph.D., SUNY at Buffalo. *Rebel since 2001.*

O, Munpyung - Full Graduate Faculty

Assistant Professor; B.A., Sung Kyuan Kwan University; M.A., Ph.D., University of California, Santa Barbara. *Rebel since 2012.*

Robinson, William J. - Full Graduate Faculty

Assistant Professor; B.A., University of Northern Colorado; M.A., Ph.D., University of Colorado, Boulder. *Rebel since 1980.*

Schlottmann, Alan - Full Graduate Faculty

Professor; B.A., M.A., Ph.D., Washington University. *Rebel since 2000.*

Tra, Constant - Full Graduate Faculty

Associate Professor; B.A. California State University, Chico; M.S., Ph.D., University of Maryland. *Rebel since 2007.*

Wimmer, Bradley - Full Graduate Faculty

Professor; B.A., Coe College; Ph.D., University of Kentucky. *Rebel since 1998.*

Clauretie, Terrence M.

Emeritus Professor; B.A. Stonehill College; Ph.D. Washington State University. *UNLV Emeritus 1988.*

Hoppe, Hans-Herman

Emeritus Professor; M.A., Ph.D., Goethe-University, Frankfurt, West Germany. *UNLV Emeritus 1986.*

Karstensson, Lewis

Emeritus Associate Professor; B.A., Humboldt State College; M.A., Ph.D., Ohio University. *UNLV Emeritus 1979.*

Ray, Clarence G.

Emeritus Professor; B.S., College of Charleston; M.A., Ph.D., University of South Carolina. *UNLV Emeritus 1971-2000.*

Simmons, Andrew

Emeritus Professor; B.S., University of London; M.A., Michigan State University; Ph.D., University of London. *UNLV Emeritus 1960-1994.*

White, William T.

Emeritus Professor; B.S., University of Arizona; M.S., Columbia University; Ph.D., Georgetown University. *UNLV Emeritus 1967-1986.*

Economics Plans

Master of Arts - Economics

The Master of Arts degree – Economics provides students with advanced training in applied economics. The program trains students for careers in business and government, and prepares students who desire to continue their studies in economics or finance at the doctoral level. Students in the MA program will obtain a solid foundation in microeconomic and macroeconomic theory, receive training in advanced econometric techniques, and develop their communication skills through writing and presentation. The program also allows students the possibility of pursuing interdisciplinary studies by taking courses in related disciplines such as finance or marketing. An internship program provides opportunities for students to obtain valuable work experience. MA graduates in economics possess the skills that prove attractive for different employers— government agencies, marketing research firms, corporate

research and financial departments, and consulting firms. The department welcomes both full and part-time students. Ambitious students can complete the program in one year. Please see our web site for more information <http://business.unlv.edu/economics/>.

Formal preparation for most applicants seeking the Master of Arts degree requires intermediate microeconomic theory and macroeconomic theory. In addition, some form of quantitative preparation, such as calculus and intermediate statistics, is required. As noted below, students must meet general requirements for admission to the Graduate College of the University of Nevada, Las Vegas. The Department of Economics offers graduate courses during evening hours convenient for both working and full-time students.

Learning Outcomes

www.unlv.edu/degree/ma-applied-economics

Plan Admission Requirements

The first step in the application process requires the submission of relevant application forms, fees, letters of recommendation, official transcripts, test results, and assistantship applications to the Graduate College as outlined in this Catalog. All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Students may begin course work in economics in the following classifications: full graduate standing or graduate provisional. Admission to full graduate standing requires that students must:

- Meet the general requirements for admission to graduate instruction at the University of Nevada, Las Vegas.
- Complete the prerequisite preparation in microeconomic theory, macroeconomic theory, and quantitative economics. The theory preparation may be satisfied by successfully completing ECON 302 and ECON 303. Completing ECON 262 and Math 181 may satisfy the quantitative preparation. These courses, however, do not apply toward the 30 hours of graduate course work required for the Master of Arts degree. In addition, students seeking to meet prerequisite requirements with undergraduate courses may need to take a placement exam to demonstrate competence.
- Achieve score of 2100 or higher on the formula: 200 times grade point average (computed on a 4.00 scale) plus the product of 1.5 and the combined scores on the quantitative and verbal portions of the Graduate Record Exam. GRE scores for tests taken after August 1, 2011 may be adjusted accordingly to reflect the new GRE format and scoring rubric. Students may substitute the GMAT score for the GRE, in which case the GMAT score will be multiplied by 3 and added to 200 times the grade point average.

Accomplished UNLV undergraduates must meet all of the following criteria to be eligible for the Advanced Program Track:

- Receiving at least a B in graduate-level Economics courses completed as an undergraduate
- Satisfactory completion of Graduate College admission requirements
- Senior standing
- Minimum of 3.0 GPA
- Completion of the following courses with a minimum of 3.5 GPA and no grade lower than B: ECON 262 or ECON 441; ECON 302; ECON 303 and MATH 181
- Department chair or graduate coordinator's recommendation
- Submission of two letters of recommendation, a completed Enrollment Request form to the Economics department no less than two weeks before the beginning of the semester for which they would like to register for graduate courses

Students falling short of the requirements for admission with full graduate standing may be admitted as graduate provisional students. Students admitted with graduate provisional status must successfully complete the courses, possibly including any deficiencies, designated by the graduate coordinator, with an average of 3.33 or better within the first year of enrollment to qualify for admission with full graduate standing.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 18
 - ECO 701 - Macroeconomic Theory
 - ECO 702 - Microeconomic Theory
 - ECO 740 - Mathematical Economics
 - ECO 770 - Econometrics I, Statistical Modeling
 - ECO 772 - Econometrics II
 - ECO 793 - Seminar in Economic Research
- Elective Courses – Credits: 6-9
 - Students completing the Thesis must complete a minimum of 6 credits of Economics coursework. Students who complete a Professional Paper must complete 9 credits of Economics coursework; 3 credits may be from a related discipline subject to the approval of the graduate coordinator.
- Culminating Experience – Credits: 3-6
 - Complete one of the following:
 - ECO 794 - Professional Paper
 - ECO 791 - Thesis

Degree Requirements

- Completion of a minimum of 30 credit hours, of which, at least 24 credits must be taken in 700-level courses.
- Degree requirements may exceed (at the option of the student's advisor), but must not be less than the minimum outlined below. The advisor and/or the coordinator of graduate studies recommend specific course requirements for this degree.
- An internship is required and will count toward the elective credit requirements. This requirement may be waived by the department upon evidence of appropriate experience. If waived, credits must be earned in other coursework.
- Students not making satisfactory progress toward the degree are subject to dismissal. A student who earns two grades of C, D, or F in the first four graduate courses, or who receives the third grade of C, D, or F in a graduate course will be dropped from the M.A. program.
- A minimum 3.00 average is required to earn the Master of Arts degree.
- In consultation with his/her advisor, a student will organize a committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- It should be noted that a student taking four courses a semester could finish all course work in one year by adding an elective course in the fall and in the spring semesters and completing a culminating experience in the summer.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Advanced Track

Total Credits Required: 24

Course Requirements

- Required Courses – Credits: 9
 - ECO 740 - Mathematical Economics
 - ECO 772 - Econometrics II
 - ECO 793 - Seminar in Economic Research
 - Economics Course – Credits: 3
 - Complete one of the following courses:
 - ECO 701 - Macroeconomic Theory
 - ECO 702 - Microeconomic Theory
 - ECO 770 - Econometrics I, Statistical Modeling
- Elective Courses – Credits: 6-9
 - Students completing the Thesis must complete a minimum of 6 credits of Economics coursework. Students who complete a Professional Paper must complete 9 credits of Economics coursework; 3 credits may be from a related discipline subject to the approval of the graduate coordinator.
- Culminating Experience – Credits: 3-6
 - Complete one of the following:
 - ECO 794 - Professional Paper
 - ECO 791 - Thesis (6 credits)

Degree Requirements

- Completion of a minimum of 24 credit hours, of which, at least 18 credits must be taken in 700-level courses.
- Degree requirements may exceed (at the option of the student's advisor), but must not be less than the minimum outlined below. The advisor and/or the coordinator of graduate studies recommend specific course requirements for this degree.
- An internship is required and will count toward the elective credit requirements. This requirement may be waived by the department upon evidence of appropriate experience. If waived, credits must be earned in other coursework.
- In consultation with his/her advisor, a student will organize a committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- It should be noted that a student taking four courses a semester could finish all course work in one year by adding an elective course in the fall and in the spring semesters and completing a culminating experience in the summer.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

- To qualify for graduation, each student must successfully complete an empirical research paper or thesis.

Dual Degree: Master of Arts - Economics & Master of Science - Mathematical Sciences

Plan Description

The dual Master of Arts – Economics and Master of Science – Mathematical Sciences combine economic reasoning with mathematical methods. The program attracts students with focused career choices that require core competence in analytical skills and mathematical methods. It also prepares students with interests in pursuing a Ph.D. in economics with substantial quantitative skills, or a Ph.D. in Mathematics with economic applications. We believe that the analytical nature of the program will attract high quality undergraduates.

The MA – Economics portion of the dual degree program advances students’ knowledge in macro- and micro-economic theory. It also provides students with econometrics as well as developing their communication skills. The MS – Mathematical Sciences portion of the dual degree program is designed to equip graduate students with a solid foundation of mathematics, statistics, and real-world applications.

The MS – Mathematical Sciences portion of the dual degree is designed to equip graduate students with a solid foundation of mathematics, statistics, and real-world applications. The MA – Economics portion of the dual degree advances students’ knowledge in macro- and micro-economic theory. It also provides students with econometrics as well as developing their communication skills.

Learning Outcomes

www.unlv.edu/degree/dual-ms-math-ma-economics

Plan Admission Requirements

The Departments of Economics and Mathematical Sciences welcome applications from college graduates in all fields. All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements. Applicants must satisfy the minimum admission requirements of the MA – Economics program and the MS – Mathematics program. If denied by one program, the applicant will have the option of proceeding with a single degree program with departmental approval.

Plan Requirements

Total Credits Required: 51

Course Requirements

Total Credits Required for the Economics M.A.: 24

- Required Courses – Credits: 18
 - ECO 701 - Macroeconomic Theory
 - ECO 702 - Microeconomic Theory
 - ECO 740 - Mathematical Economics
 - ECO 770 - Econometrics I, Statistical Modeling
 - ECO 772 - Econometrics II
 - ECO 793 - Seminar in Economic Research
- Elective Courses – Credits: 3
 - Complete 3 credits of ECO electives at the 600- or 700-level.
- Professional Paper – Credits: 3
 - ECO 794 - Professional Paper

Total Credits Required for the Mathematical Sciences M.S.: 27

- Required Courses – Credits: 18
 - Complete 18 credits from the following list of courses:
 - MAT 657 - Introduction to Real Analysis I
 - MAT 663 - Advanced Matrix Theory and Applications
 - MAT 707 - Real Analysis I
 - MAT 709 - Complex Function Theory I
 - MAT 723 - Advanced Ordinary Differential Equations I
 - MAT 771 - Applied Analysis I
 - STA 761 - Regression Analysis I
 - STA 762 - Regression Analysis II
 - STA 767 - Mathematical Statistics I
 - STA 768 - Mathematical Statistics II
- Elective Courses – Credits: 3
 - Complete 3 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved graduate-level courses.
- Thesis – Credits: 6
 - Complete six credits in one of the following courses:
 - MAT 791 - Thesis
 - STA 791 - Thesis

Degree Requirements

- A minimum of 51 credits of graduate work is required for the Dual M.S. and M.A. Program in Mathematics and Economics.
- Completion of a minimum of 24 credits for the Economics M.A. and a minimum of 27 credits for the Mathematical Sciences M.S. with a minimum GPA of 3.00.
- 18 of the 21 credits of economics coursework (excluding professional paper) must be at the 700-level.
- 15 of the 21 credits of mathematics coursework (excluding thesis) must be at the 700-level.
- A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student's program by the Graduate Studies Committee. Failure to meet the requirements of probation will result in separation from the graduate program.

- Classes in which a student receives a C or lower will not count towards his or her degree.
- Students are required to defend a thesis on subjects in the interdisciplinary area of Mathematics and Economics. The committee chair and two other committee members must be from the Mathematics Department. The thesis committee must be composed at minimum of two graduate faculty members from the Economics Department. Please see Graduate College policy for committee appointment guidelines.
- Students are required to complete a professional paper. The committee for the professional paper must be composed of a chair and two committee members from the Economics Department and one graduate faculty member from the Mathematics Department.

Plan Graduation Requirements

- Students cannot graduate from one portion of the dual degree until the requirements for both are met. Students must apply to graduate from both programs for the same semester.
- The student must submit all required forms to the Graduate College and then apply for graduation from both degrees up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete a professional paper.
- Submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- Dual Degree: Doctor of Philosophy - Electrical Engineering & Master of Science - Mathematical Sciences

Plan Description

The dual Ph.D. EE and M.S. MAT program of study is designed for those who want to pursue a Ph.D. degree in Electrical Engineering or a career in Electrical Engineering with emphasis in applied mathematics. The program prepares graduate students with complementing educational components covering electrical engineering and mathematics, which is the basis of all engineering.

The culminating experience in the Ph.D. program in the Department of Electrical and Computer Engineering is centered about developing new knowledge focused around a specific theme embodied in the form a well-written and orally defended dissertation. The Department of Electrical and Computer Engineering at UNLV offers a number of program options leading to the Ph.D. degree in the Field of Electrical Engineering. Specific major areas of study currently available include: Communications, Computer Engineering, Control System Theory, Electromagnetics and Optics, Electronics, Power Systems, Signal Processing, and Solid State Materials and Devices.

Economics Courses

ECO 602 - Topics in Microeconomics

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work.

ECO 651 - Public Finance

Credits 3

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number.

ECO 655 - Economics of Industrial Organization

This undergraduate course has been approved for use in graduate programs. Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600-level normally requires additional work.

ECO 701 - Macroeconomic Theory

Credits 3

Investigates the behavior of the main economic aggregates: output, employment, consumption, savings, investment, interest rates, and price level. Explores and assesses the major theories of the determinants and interrelations among these variables. Also analyzes the impact of various policies on the macroeconomy. **Prerequisites:** ECO 740

ECO 702 - Microeconomic Theory

Credits 3

Uses quantitative and graphic techniques to analyze household and firm decisions as a basis for market interactions. Topics include the determinants of demand and supply, price and output determination under perfect and imperfect competition, economic efficiency, income distribution, general equilibrium, and economic welfare. **Prerequisites:** Graduate standing. **Corequisite:** ECO 740

ECO 707 - Environmental and Natural Resource Economics

Credits 3

Relationship between environmental quality and natural resources, using economic analysis. Identifies solutions to economic problems arising from resource scarcity and use. Economic growth, externalities. **Prerequisites:** Graduate standing.

ECO 709 - Regional Economic Analysis

Credits 3

Theoretical and empirical analysis of the regional component of economic activity. Examination of location factors, regional and urban development theory, and regional/urban structure and growth theory. Explores regional analysis and forecasting. **Prerequisites:** Graduate standing.

ECO 720 - Health Economics and Policy

Credits 3

Analysis of the U.S. health care markets. Examination of physician, hospital, and insurance markets. Exploration of the role of regulation and technology. Includes international comparisons. **Prerequisites:** Graduate standing.

ECO 732 - Political Economy and Economic Policy

Credits 3

Role of markets, organizations, and governments in economic policy, including topics such as collective decision making, efficient and equitable social choice, regulation, and behavior of bureaucracies. **Prerequisites:** Graduate standing in the MPA, EPS, or Economics program or consent of instructor.

ECO 733 - Economic History of Europe

Credits 3

Economic and social background of European national and international development with emphasis upon the period 1500 to present.

ECO 734 - Economic History of the United States

Credits 3

Economic and social background of the American economy from the colonial period to the present. **Prerequisites:** ECO 301 and 302 or equivalent.

ECO 740 - Mathematical Economics

Credits 3

Application of mathematics to economic analysis. **Prerequisites:** Graduate standing or consent of instructor.

ECO 742 - History of Economic Thought

Credits 3

Criticism and evaluation of economic thought from ancient to modern times; main emphasis devoted to the development of economic thought since Adam Smith. **Prerequisites:** Graduate standing.

ECO 743 - Economic Fluctuations

Credits 3

Analysis of economic fluctuations from classical times to the present. Intensive study of factors which contribute to cyclical waves. Evaluation of selected economic indicators, business forecasting, and stabilization techniques.

Prerequisites: Graduate standing.

ECO 750 - International Monetary Economics

Credits 3

Theories, institutions, and policies of international monetary economics and their impact on macroeconomic performance. Topics include international money markets, monetary and exchange rate policies, policy effectiveness under different regimes, the role of expectations, and the effect of capital mobility. **Prerequisites:** Graduate standing.

ECO 760 - International Trade

Credits 3

Study of international trade and international commercial policies. Topics include theories and policies related to international movement of goods, services, and factors of production. **Prerequisites:** Graduate standing.

ECO 763 - Economics and the Law

Credits 3

Application of economic analysis to the topics confronted in litigation. Topics include: microeconomic theory, property rights, contracts, torts, discrimination, eminent domain, copyrights, patents, antitrust, and criminal law.

Prerequisites: Graduate standing.

ECO 765 - Labor Economics

Credits 3

Examination of competing theories of labor market behavior. Topics include theories of labor supply, labor demand, wage determination, unemployment, discrimination and the impact of unions and government institutions on labor market outcomes. **Prerequisites:** Graduate standing.

ECO 770 - Econometrics I, Statistical Modeling

Credits 3

The course reviews fundamentals of mathematical statistics, that are used in econometric analysis. It integrates mathematical models and statistical techniques to perform regression analysis of cross-sectional data with a policy focus. Topics include empirical model building, estimation, and specification and data problems. **Notes:** Involves extensive use of computer software packages. **Prerequisites:** Graduate standing and a previous statistics course or consent of instructor.

ECO 772 - Econometrics II

Credits 3

Building on econometrics I, this course extends econometric/quantitative skills in the estimation and testing of economic theory. Topics include instrumental variables and two stage least squares estimations, simultaneous equation models, qualitative dependent variable models and sample selection corrections, measurement error issues, introduction to time series and panel data methods. **Prerequisites:** Graduate standing, ECO 740, and ECO 770.

ECO 773 - Business and Economic Forecasting

Credits 3

Evaluation of the uses and misuses of forecasting techniques in economics, business and governmental decision making. Exploration of techniques of data handling including exponential smoothing, seasonal and cyclical adjustments. Use of simple and multiple regression models and advanced econometric techniques in forecasting. Nature and estimation of autoregressive moving average (ARIMA) models. **Prerequisites:** Graduate standing and ECO 770.

ECO 780 - Seminar in Economic Theory and Policy**Credits 3**

Designed for the study of some specialized topic in economic theory or policy. **Prerequisites:** ECO 702, and ECO 770.

ECO 784 – Internship**Credits 3**

Internship with business firms, non-profit organizations or government agencies. Project report and internship conference required. **Grading:** Students will receive S/F for final grade. **Prerequisites:** ECO 702, ECO 740, ECO 770, ECO 793. **Corequisite:** ECO 772

ECO 788 - Topics in Economics**Credits 1**

Topics of interest to managers offered on a rotating basis. Possible topics include environmental economics, health economics, international economics, labor economics, regional economics, the economics of education, the economics of regulation, and economic forecasting. **Notes:** May be repeated to a maximum of three credits.

Prerequisites: ECO 301, 302, and 362 or equivalent. May not be taken for credit toward M.A. degree in Economics.

ECO 790 - Independent Study**Credits 1 – 6**

Directed research course under the supervision of a member of the graduate faculty, culminating in a written paper.

Prerequisites: Consent of Department Chair or Graduate Coordinator.

ECO 791 – Thesis**Credits 3 – 6**

Notes: May be repeated but only six credits will be applied to the student's program. **Grading:** S/F grading only.

ECO 793 - Seminar in Economic Research**Credits 1 – 3**

Provides students with hands-on training in empirical modeling, promotes critical thinking, teaches use of tool kit of research techniques and reinforces the student's understanding of economic concepts relating to economics research.

Prerequisites: Graduate standing in Economics.

ECO 794 - Professional Paper**Credits 3**

Directed research under the supervision of a member of the graduate faculty, culminating in a professional paper that will be presented to the student's professional-paper committee. Students will participate in a weekly seminar, presenting results of their research. Students who do not complete a professional paper will receive a temporary grade of "X". **Grading:** S/F course grading only. **Prerequisites:** ECO 701, ECO 702, ECO 740, ECO 772, ECO 793

Finance

The Department of Finance offers majors in both finance and real estate, as well as minors in finance, real estate, risk management and insurance, and business law. The finance discipline can be classified into three areas: corporate finance, investments, and finance markets and institutions. This business field is for students who want to understand the financial implications inherent in virtually any business decision. The real estate majors are exposed to both the theory and practice in real estate. Emphases are placed on investment analysis of real estate, financing issues of real estate, and real estate valuation.

We prepare our students in finance or real estate major for successful careers in corporate management, depository institutions, investment management, financial services, and real estate. The finance faculty have a diverse range of professional and research interests to enrich the student's classroom experience. Please refer to individual faculty web links for specific information.

Finance Plans

Graduate Certificate in Finance (On Hold)

The Graduate Certificate in Finance is a graduate certificate program designed to offer students the opportunity to gain a strong knowledge base in the area of Finance. Possible prospective students include those with a non-business undergraduate degree and those with a business degree in an area of business other than Finance. This program essentially allows students to take a short, focused graduate program in the area of Finance. This program is aimed at professionals that currently work in a Finance-related field looking to enhance their Finance knowledge, or for professionals contemplating a career shift to a Finance-related field. Profiles of potential students include: (1) An employee of a financial services company whose educational background is in an area other than Finance and who

could benefit from some more formal Finance training; (2) An employee of a financial services company looking for continuing education classes demanded for a professional license or credential; (3) Someone currently employed in an area other than Finance that desires to update their knowledge portfolio for a career change; (4) Someone personally interested in having a better understanding of the many Finance issues that directly affect their lives.

Plan Admission Requirements

Admission requirements include an undergraduate degree with a GPA of 3.00 or higher, and either relevant work experience or a GMAT of 550 or higher. Relevant work experience is a minimum of 3 years experience in a relevant finance-related position. The determination of what is considered relevant work experience will be made by the Department of Finance Certificate Graduate Coordinator.

If desired, upon successful completion of the Graduate Certificate in Finance, students may apply for admittance into the Business Administration M.B.A.. General admission requirements for the UNLV MBA program include: an undergraduate degree with a GPA of 3.00 or higher and a Graduate Management Admission Test (GMAT) score of 550 or higher.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 12

Course Requirements

Required Courses – Credits: 3

- Complete the following course or an advisor-approved Finance course.
 - MBA 765 - Financial Decision Making
 - Finance Courses – Credits: 9
 - Complete three 700-level Finance (FIN) courses.

Certificate Requirements

- Completion of a minimum of 12 credit hours.
- A grade point average of at least 3.00 for course work required for the certificate.
- With appropriate background the student may substitute an elective Finance class for MBA 765. What qualifies as an appropriate background will be determined by the Department of Finance Certificate Graduate Coordinator.
- An example of an appropriate background is having an undergraduate degree in Finance.
- Equivalent course work for MBA765 - Accounting Management is the completion of ACC 201 - Financial Accounting and ACC 202 - Managerial Accounting (or their equivalents) with a B average or better (B- grades are not acceptable).
- MBA 761 - Accounting for Managers and MBA 769 - Applied Economic Analysis are prerequisites for MBA 765 and can be waived with equivalent course work. Equivalent course work for MBA 769 - Applied Economic Analysis is the completion of ECON 261 - Principles of Statistics I and ECON 262 - Principles of Statistics II (or their equivalents) with a B average or better (B- grades are not acceptable).
- Students with unsatisfactory progress toward the certificate requirements are subject to dismissal. A student with a grade of C or lower in any of the required courses will be put on probation for one semester. Conditions and deadlines for the removal of probation will be specified. Failure to meet the condition will result in separation from the program. A student with two grades of C or lower will be dropped from the program.

Plan Certificate Completion Requirements

The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.

Finance Courses

FIN 708 - Advance Corporate Finance

Credits 3

Studies major decision-making areas of managerial finance and some selected topics in financial theory. Emphasis on the application of the theory and practice of business asset management, financing choice, capital structure, cost of capital, and dividend policy. Current topics, such as corporate acquisitions, restructuring, and underwriting covered as appropriate. **Prerequisites:** Completion of the core MBA curriculum or approval of the Director of MBA Programs.

FIN 709 - Applied topics in Finance

Credits 3

This course focuses on the application of theory in finance through some combination of case analysis, the use of spreadsheets to assist in financial analysis and simulations. Topics covered may include capital budgeting, cost of capital, capital structure, risk analysis, financial statement analysis, options, and mergers and acquisitions.

Prerequisites: MBA 765

FIN 710 - Investment Management

Credits 3

Theoretical and practical analyses of investment environment and process. Focuses on characteristics, valuation, and management of various financial instruments, such as common stock, corporate bonds, options, and futures. Students learn how to establish appropriate investment objectives, develop optimal portfolio strategies, estimate risk-return trade-offs, and evaluate investment performance. **Prerequisites:** Completion of the core MBA curriculum or approval of the Director of MBA Programs.

FIN 712 - Financial Markets and Institutions

Credits 3

Comparative study of the diverse financial instruments and intermediaries existing in today's financial sector. Topics include: the structure of interest rates, relative costs and benefits of each instrument, financial innovation and financial "engineering," the role of banks, thrifts and other intermediaries, and current and future trends in the financial sector. **Prerequisites:** Completion of the core MBA curriculum or approval of the Director of MBA Programs.

FIN 715 - Portfolio Management

Credits 3

Strategies investors employ to meet alternative investment objectives. Asset allocation decisions and the management of risk and return emphasized using various quantitative approaches to determine portfolio optimization and asset market equilibrium. Full spectrum of portfolio management issues considered across all classes securities, including equity, fixed-income, and derivative securities. **Prerequisites:** Completion of the core MBA curriculum and FIN 710 or approval of the Director of MBA Programs.

FIN 740 - Risk Management

Credits 3

Applies risk management process as an integrated approach to financial, credit and insurable risks. Financial perspective on the corporate risk management function emphasized, using the financial tools of risk.

Management, Entrepreneurship and Technology

The mission of the Department of Management, Entrepreneurship and Technology is to create and disseminate knowledge that can be used by our students, scholars in our disciplines, and practitioners in all types of organizations to enrich people's lives and to benefit our community, state, and nation. Our faculty is dedicated to providing undergraduate and graduate students with a high quality and rigorous education and to publishing innovative and cutting edge research in leading peer-reviewed journals.

Technology Program

This program prepares graduates for professional and managerial careers in IT or for doctoral studies leading to research and teaching careers in IS. This objective is achieved through a balanced emphasis on theory and practice. The program prepares graduates with a broad-based knowledge of information systems design, development, implementation, evaluation, and maintenance. The graduates will understand IT's dynamic nature and will be able to use and manage IT for problem solving, decision-making, competitive advantage, and innovation. Courses in the program include projects that allow students to organize team activities, analyze problems and propose solutions, explain project-related decisions, document and communicate progress, collect and analyze data, and present solutions. Students develop written and spoken communication skills. Students in this program have the option to write an MS thesis, a substantial original work that contributes to the body of knowledge in IS and business.

Students work closely with research faculty on the thesis with the objective of producing publishable quality research outcomes. The thesis prepares students for professional careers by giving them unique skills or knowledge with professional value. It prepares research oriented students with research skills that will be invaluable in pursuing the Ph.D. Students in the program take pride in using the thesis to learn something truly unique.

This degree program will prepare the graduate with:

- A deep understanding of systems thinking and ways that IT can be used to enhance effectiveness of the individual and organizations.
- The ability to analyze business problems, to develop system solutions, and apply information technology to obtain business solutions.
- A comprehensive understanding of the theoretical basis of management information systems and current research questions.
- The ability to learn on a continuing basis to stay current with rapidly changing technologies.
- The ability to effectively communicate the technology and its application to business executives and users of information systems.
- The knowledge and skills to function as an information technology professional in public or private organization.

Excellent preparation to enter a doctoral program in MIS.

Management, Entrepreneurship, and Technology Plans

Graduate Certificate in Management (On hold)

The Graduate Certificate in Management (GCM) will be comprised of graduate classes currently offered through the MBA curriculum. The Graduate Certificate is designed for those students wishing to gain knowledge or update their knowledge in the specific area of Management. The Graduate Certificate is not a degree program and completion of this program indicates an expertise in a narrower specialty, not general expertise in all areas of business. Moreover, while a concentration in New Venture Management exists in the MBA, a concentration in General Management does not.

Plan Admission Requirements

Admission requirements include an undergraduate degree with a GPA of 3.00 or higher, and either relevant work experience or a GMAT of 550 or higher. Relevant work experience is a minimum of 3 years' experience in a relevant management-related position. The determination of what is considered relevant work experience will be made by the Coordinator of Non Degree Programs for the College of Business.

If desired, upon successful completion of the Graduate Certificate in Management, students may apply for admittance into the UNLV MBA. General admission requirements for the UNLV Evening MBA Program include: an undergraduate degree with a GPA of 3.00 or higher and a Graduate Management Admission Test (GMAT) score of 550 or higher.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 15

Course Requirements

- Required Courses – Credits: 15
 - MBA 771 - Law and Ethics
 - MBA 763 - Leadership, Teams, and Individuals

- MGT 709 - New Venture Feasibility
- MGT 711 - Seminar in Negotiation
- MGT 712 - Change Management

Certificate Requirements

- Completion of a minimum of 15 credit hours.
- A grade point average of at least 3.00 for course work required for the certificate.
- No grade lower than C is acceptable.
- There are no pre-requisites for MBA 771 and MBA 763, however, the remaining three courses require the completion of the MBA Core or admission to the Graduate Certificate in Management as a pre-requisite.
- Students with unsatisfactory progress toward the certificate requirements are subject to dismissal. A student with a grade of C or lower in any of the required courses will be put on probation for one semester. Conditions and deadlines for the removal of probation will be specified. Failure to meet the condition will result in departure from the program. A student with two grades of C or lower will be dropped from the program.

Plan Certificate Completion Requirements

The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.

Graduate Certificate in New Venture Management

The Graduate Certificate in New Venture Management (GCNVM) is comprised of graduate classes currently offered through the Business Administration M.B.A. curriculum. The Graduate Certificate is designed for those students wishing to gain knowledge or update their knowledge in the specific area of New Venture Management. The Graduate Certificate is not a degree program and completion of this program indicates an expertise in a narrow specialty, not general expertise in all areas of business.

Plan Admission Requirements

Admission requirements include an undergraduate degree with a GPA of 3.00 or higher, and either relevant work experience or a GMAT of 550 or higher. Relevant work experience is a minimum of 3 years experience in a relevant business-related position. The determination of what is considered relevant work experience will be made by the Coordinator of Non Degree Programs in the College of Business.

If desired, upon successful completion of the Graduate Certificate in New Venture Management, students may apply for admittance into the Business Administration M.B.A.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 15

Course Requirements

- Required Courses – Credits: 9

- MGT 709 - New Venture Feasibility
- MGT 710 - New Venture Creation
- MBA 767 - Market Opportunity Analysis
- Elective Courses – Credits: 6
 - Complete 6 credits of advisor-approved coursework.

Certificate Requirements

- Completion of a minimum of 15 credit hours.
- A grade point average of at least 3.00 for course work required for the certificate.
- No grade lower than C is acceptable.

There are no pre-requisites for MBA 767; however, the remaining courses require the completion of the MBA Core or admission to the Graduate Certificate in New Venture Management as a pre-requisite.

Students with unsatisfactory progress toward the certificate requirements are subject to dismissal. A student with a grade of C or lower in any of the required courses will be put on probation for one semester. Conditions and deadlines for the removal of probation will be specified. Failure to meet the condition will result in departure from the program. A student with two grades of C or lower will be dropped from the program.

Plan Certificate Completion Requirements

The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.

Graduate Certificate in Management Information Systems

The Graduate Certificate in Management Information Systems (MIS) is a graduate certificate program designed for individuals who want to acquire specific MIS skills to meet the needs or demands of their workplace. The certificate program is suitable for students with no prior MIS background, as well as for those who have prior MIS knowledge or education and want to acquire specific additional skills (retooling). Students can select from three suggested subplans, or they can, upon approval of the MIS Graduate Coordinator, customize the certificate program to meet their specific retooling needs.

The Graduate Certificate in Management Information Systems requires the completion of four MIS graduate courses. These are courses that are already offered as part of the Master of Science in MIS (MS MIS) program. While the MS MIS program requires the completion of 36 credits, the Certificate in MIS requires the completion of 12 credits, a subset of the MS MIS program requirements.

Learning Outcomes

www.unlv.edu/certificate/management-information-systems

Plan Admission Requirements

The Department of Management, Entrepreneurship, and Technology welcomes applications from college graduates in all fields. The student must satisfy the minimum admission requirements of the Graduate College and the Certificate in MIS. The candidate must meet the following requirements:

- Submission of a completed application and required application fee;

- Submission of official transcripts from all post-secondary institutions;
- Evidence of having been awarded the equivalent of a U.S. bachelor's degree from an accredited college or university with an overall undergraduate grade point average of at least 3.00 on the four-point scale;
- Official GMAT or GRE score. Graduate Management Admission Test (GMAT) with target score of 550. Applicants with satisfactory scores on the general aptitude portion (50th percentile or higher) of the Graduate Record Examination (GRE) will be considered for admission. Test scores over five years old are not accepted.

If a student is already admitted to the MS MIS program and wants to switch to the Certificate in MIS program, then the student must apply for admission to the certificate program. The student can transfer up to 12 credits of MIS courses into the certificate program after being admitted. Alternatively, if a student in the Certificate in MIS program wants to switch to the MS MIS program, then the student must apply for admission to the MS MIS program. The student can transfer up to 15 credits of MIS courses into the MS MIS program after being admitted. The student can transfer these credits into the MS MIS program even if they were already applied towards the certificate.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Business Analysis and Development for Systems

Total Credits Required: 12

Course Requirements

- Required Courses – Credits: 12
 - MIS 744 - Information Systems Planning & Strategy
 - MIS 746 - Information Systems Project Management
 - MIS 762 - Systems Analysis, Modeling and Design
 - MIS 766 - Data Management

Certificate Requirements

See Plan Certificate Requirements below.

Certificate Completion Requirements

See Plan Certificate Completion Requirements below.

Subplan 2 Requirements: System Development Technologies

Total Credits Required: 12

Course Requirements

- Required Courses – Credits: 12
 - MIS 760 - Data Communications and Systems
 - MIS 762 - Systems Analysis, Modeling and Design

- MIS 764 - Advanced Web Development and Electronic Commerce
- MIS 775 - IT Architecture for Business

Certificate Requirements

See Plan Certificate Requirements below.

Certificate Completion Requirements

Subplan 3 Requirements: Business Intelligence

Total Credits Required: 12

Course Requirements

- Required Courses – Credits: 12
 - MIS 760 - Data Communications and Systems
 - MIS 764 - Advanced Web Development and Electronic Commerce
 - MIS 766 - Data Management
 - MIS 776 - Business Intelligence

Certificate Requirements

See Plan Certificate Requirements below.

Certificate Completion Requirements

See Plan Certificate Completion Requirements below.

Subplan 4 Requirements: Individual Plan

Total Credits Required: 12

Course Requirements

Required Courses – Credits: 12

Complete four courses authorized by your Graduate Coordinator. These courses must be listed on the Degree Audit Companion Form.

Certificate Requirements

See Plan Certificate Requirements below.

Certificate Completion Requirements

See Plan Certificate Completion Requirements below.

Plan Certificate Requirements

- Completion of a minimum of 12 credit hours of MIS courses.
- Changes to the courses of study require prior approval of the MIS Graduate Coordinator.
- A grade point average of at least 3.00 for course work required for the certificate.
- No grade lower than C is acceptable.
- Students with unsatisfactory progress toward the certificate requirements are subject to dismissal. A student with a grade of C or lower in any of the required courses will be put on probation for one semester. Conditions and deadlines for the removal of probation will be specified. Failure to meet the condition will result in departure from the program. A student with two grades of C or lower will be dropped from the program.

Plan Certificate Completion Requirements

The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.

Master of Science - Management Information Systems

The Master of Science – Management Information Systems (MS MIS) program prepares graduates for professional careers in the management of information technology (IT). The MS MIS focuses on the application of technology to help achieve organizational goals and solve business problems. MIS students earn competency in IT, embedded in a business context that provides them with well-rounded preparation for occupations in high demand. Recent graduates are pursuing careers in a variety of roles, such as project manager, IT manager, business analyst, database analyst, network engineer, and systems consultant.

Each student completes a total of 36 credit hours in MIS courses with a minimum GPA of 3.0. The student can elect to either take 30 credit hours of coursework and complete a master-level thesis for 6 credit hours, or to complete 36 credit hours of course work. The student's program will be selected in consultation with and approved by the student's advisor and the department chair and may include up to two courses (four courses if the non-thesis option is selected) from supporting areas other than MIS, such as accounting, law, computer science, economics, social sciences, and management.

Learning Outcomes

www.unlv.edu/degree/ms-management-information-systems

Plan Admission Requirements

- Submission of a completed application and required application fee;
- Submission of official transcripts from all post-secondary institutions;
- Evidence of having been awarded the equivalent of a U.S. Bachelor of Arts or Bachelor of Science degree from an accredited college or university with an overall undergraduate grade point average of at least 3.00 on the four-point scale;
- For MIS applicants who previously attended a post-secondary institution outside of the U.S., the requirement that transcripts be evaluated by an outside agency is waived.
- Official GMAT or GRE score. Graduate Management Admission Test (GMAT) with target score of 550. Applicants with satisfactory scores on the general aptitude portion (50th percentile or higher) of the Graduate Record Examination (GRE) will be considered for admission. Test scores over five years old are not accepted. The GMAT test score should be reflective of verbal and quantitative aptitude. GMAT or GRE scores over five years old are not accepted.
- Two letters of recommendation submitted in sealed envelopes or uploaded through the AY application system.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Individuals with deficiencies in their undergraduate background may be required to enroll in selected additional undergraduate courses to satisfy the M.S. degree requirements. A maximum of 12 credit hours may be transferred into the program if taken recently from an AACSB accredited school. The department chair and the associate dean must approve any earned credits for transfer.

Individuals with degrees in disciplines other than business may be required to take leveling business courses, as prescribed by the director.

The application forms, fees, letters of recommendation, official transcripts, test results, and assistantship applications must be submitted to the Graduate College as outlined in this catalog.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Thesis Track

Total Credits Required: 36

Course Requirements

- Required Courses – Credits: 24
 - MIS 740 - Software Concepts
 - MIS 744 - Information Systems Planning & Strategy
 - MIS 746 - Information Systems Project Management
 - MIS 760 - Data Communications and Systems
 - MIS 762 - Systems Analysis, Modeling and Design
 - MIS 764 - Advanced Web Development and Electronic Commerce
 - MIS 766 - Data Management
 - MIS 773 - Research Seminar in Information Systems
- Elective Courses – Credits: 6
- Complete 6 credits of advisor-approved electives.
- Thesis – Credits: 6
 - MIS 780 - Thesis

* * If a student has completed any of the required or elective MIS graduate courses as part of a previous degree at UNLV with grades of B or better, the course(s) may be waived and the number of credits required for the MS MIS program will be reduced by an equal number of credits, up to a maximum of 12 credits.

Degree Requirements

- Completion of a minimum of 36 credit hours of MIS courses.
- A grade point average of at least 3.00 for course work required for the degree.
- No grade lower than C is acceptable.
- Each student's program of course work must be selected in consultation with and approved by the student's advisor and the department chair, and may include up to 6 credit hours from selected disciplines other than MIS, such as cognitive psychology, computer science, accounting, or economics.
- Students on the thesis track are expected to select a research advisor by the end of their first year, to attend all departmental seminars, and to present a research seminar prior to graduation.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

- Students with unsatisfactory progress toward the degree requirements are subject to dismissal. A student with a grade of C or lower in any of the required courses for the degree will be put on probation for one semester. Conditions and deadlines for the removal of probation will be specified. Failure to meet the condition will result in departure from the program. A student with two grades of C or lower will be dropped from the program.
- Students are required to register for six hours of thesis. They are advised to split these six hours of thesis and register for three hours each during the last two semesters.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Non-Thesis Track

Total Credits Required: 36

Course Requirements

- Required Courses – Credits: 24
 - MIS 740 - Software Concepts
 - MIS 744 - Information Systems Planning & Strategy
 - MIS 746 - Information Systems Project Management
 - MIS 760 - Data Communications and Systems
 - MIS 762 - Systems Analysis, Modeling and Design
 - MIS 764 - Advanced Web Development and Electronic Commerce
 - MIS 766 - Data Management
 - MIS 773 - Research Seminar in Information Systems
- Elective Courses – Credits: 12
- Complete 12 credits of advisor-approved electives.

* * If a student has completed any of the required or elective MIS graduate courses as part of a previous degree at UNLV with grades of B or better, the course(s) may be waived and the number of credits required for the MS MIS program will be reduced by an equal number of credits, up to a maximum of 12 credits.

Degree Requirements

- Completion of a minimum of 36 credit hours of MIS courses.
- A grade point average of at least 3.00 for course work required for the degree.
- No grade lower than C is acceptable.
- Each student's program of course work must be selected in consultation with and approved by the student's advisor and the department chair, and may include up to 6 credit hours from selected disciplines other than MIS, such as cognitive psychology, computer science, accounting, or economics.
- Students with unsatisfactory progress toward the degree requirements are subject to dismissal. A student with a grade of C or lower in any of the required courses for the degree will be put on probation for one semester. Conditions and deadlines for the removal of probation will be specified. Failure to meet the condition will result in departure from the program. A student with two grades of C or lower will be dropped from the program.

Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Thesis Track
- Subplan 2: Non-Thesis Track

Dual Degree: Master of Business Administration & Master of Science - Management Information Systems

The dual MBA and MS – MIS program of study is designed for those who seek career and business leadership opportunities in management information systems. The program will provide students with the needed skills, knowledge, and tools to become visionary and creative business leaders with strong competency in management information systems. The core MBA program is designed to advance the knowledge and practice of business and administration. The MS – MIS portion of the dual degree is designed to prepare graduates with a broad-based knowledge of information system design, development, implementation, evaluation, and maintenance.

The program includes 54-credits and the student will receive both, an MBA and an MS MIS degree. Each student completes a total of 24 credit hours in MIS courses and a total of 30 credit hours in MBA core courses with a minimum GPA of 3.0. MBA courses are accepted as hours of elective towards the MS MIS degree. The program does not require a thesis.

Learning Outcomes

www.unlv.edu/degree/dual-mba-ms-management-information-systems

Plan Admission Requirements

The admission requirements for the dual degree program are the same as each of the MBA and M.S. – Management Information Systems programs. Applicants must be admitted to each of the MBA and M.S. – Management Information Systems programs. Candidates have to apply to the MBA/MS – MIS Dual Degree program and meet the respective application requirements of each of the programs respectively.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 54

Course Requirements

- Total Credits Required for the Business Administration M.B.A.: 30
- Required Courses – Credits: 27

- MBA 761 - Accounting for Managers
- MBA 763 - Leadership, Teams, and Individuals
- MBA 765 - Financial Decision Making
- MBA 767 - Market Opportunity Analysis
- MBA 769 - Applied Economic Analysis
- MBA 771 - Law and Ethics
- MBA 775 - Data Modeling and Analysis
- MBA 779 - Managing Supply Chains
- MBA 785 - Global Business
- Capstone Course – Credits: 3
 - MBA 787 - Strategic Management
- Total Credits Required for the Management Information Systems M.S.: 24
- Required Courses – Credits: 24
 - MIS 740 - Software Concepts
 - MIS 744 - Information Systems Planning & Strategy
 - MIS 746 - Information Systems Project Management
 - MIS 760 - Data Communications and Systems
 - MIS 762 - Systems Analysis, Modeling and Design
 - MIS 764 - Advanced Web Development and Electronic Commerce
 - MIS 766 - Data Management
 - MIS 776 - Business Intelligence

With approval of the MS – MIS program graduate coordinator, required MIS courses may be substituted with elective courses to avoid duplication of a student’s previous course work and to address the needs of the student’s specific career choice.

Degree Requirements

- Completion of a minimum of 30 credit hours of MBA core courses and a minimum of 24 credits of MS – MIS courses.
- A grade point average of at least 3.00 for course work required for the degree.
- No grade lower than C is acceptable.
- Students with unsatisfactory progress toward the degree requirements are subject to dismissal. A student with a grade of C or lower in any of the required courses for the degree will be put on probation for one semester. Conditions and deadlines for the removal of probation will be specified. Failure to meet the condition will result in departure from the program. A student with two grades of C or lower will be dropped from the program.

Plan Graduation Requirements

- Students cannot graduate from one portion of the dual degree until the requirements for both are met. Students must apply to graduate from both programs for the same semester.
- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Successful completion of the capstone course

Dual Degree: Master of Science - Hotel Administration & Master of Science - Management Information Systems

The Lee School of Business, MIS department and the William F. Harrah College of Hotel Administration offer a Master of Science – Hotel Administration and Master of Science – Management Information Systems (MS HOA / MS MIS) dual degree program. It is designed for students who seek careers and leadership opportunities in the hospitality industry with a focus on information technology and management information systems. The program provides students with the skills, knowledge, and tools needed to become visionary and creative leaders in information technology in the hospitality industry.

The program includes 48-credits and the student will receive both, an MS HOA and an MS MIS degree. The MS MIS degree (24 credits) helps students develop critical skills in information technology systems analysis and design. The MS HOA degree (24 credits) helps students acquire knowledge specific to the management of hospitality operations. HOA courses are accepted as hours of elective towards the MS MIS degree and MIS courses are accepted as hours of elective towards the HOA degree. This program will take at least three years (six semesters) to complete. The completion of a professional paper is included in the credit total.

Learning Outcomes

www.unlv.edu/degree/dual-ms-hoa-ms-mis

Plan Admission Requirements

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements. The admission requirements for the dual degree are the same as those stated under the MS MIS and MS HOA programs. Dual MS MIS applicants may take the GRE or the GMAT. All dual degree program applicants are required to show that they have at least one year of full-time management/supervisory experience or three years of cumulative full-time front-line experience in the hospitality industry.

See the Application Process section under the MS MIS and the MS HOA programs. Applications will be reviewed by representatives of the Lee Business School and the William F. Harrah College of Hotel Administration in an independent process within each college. Applicants must be admitted to both the Lee Business School and the William F. Harrah College of Hotel Administration to qualify for the dual degree program for that term. If denied by one program, the applicant will have the option of proceeding with a single degree program with departmental approval.

Plan Requirements

Total Credits Required: 48

Course Requirements

- Total Credits Required for the Management Information Systems M.S.: 24
 - Required Courses – Credits: 24
 - MIS 740 - Software Concepts
 - MIS 744 - Information Systems Planning & Strategy
 - MIS 760 - Data Communications and Systems
 - MIS 762 - Systems Analysis, Modeling and Design
 - MIS 764 - Advanced Web Development and Electronic Commerce
 - MIS 766 - Data Management
 - MIS 775 - IT Architecture for Business
 - MIS 776 - Business Intelligence
- Total Credits Required for the Hotel Administration M.S.: 24
- Required Courses – Credits: 18
 - HOA 711 - Laws of Innkeeping and Food Service

- HOA 725 - Information Technology in the Hospitality Industry
- HOA 731 - Operational Analysis in Hospitality Management
- HOA 735 - Research Methodology
- HOA 751 - Hospitality Service Management
- HOA 777 - Critical Issues in Hospitality Management
- Management Elective Course – Credits: 3
 - Complete one of the following courses:
 - HOA 716 - Principles and Practices in Hotel Management
 - HOA 717 - Principles and Practices in Convention and Meetings Management
 - HOA 718 - Principles of Casino and Gaming Management
 - HOA 720 - Principles and Practices in Food Service Management
- Professional Paper – Credits: 3
 - HOA 788 - Professional Paper

Degree Requirements

- Completion of a minimum of 24 credits of MS HOA courses and a minimum of 24 credits of MS MIS courses.
- A grade point average of at least 3.00 for course work required for the degree.
- No grade lower than C is acceptable.
- With approval of the MS MIS program graduate coordinator, required MIS courses may be substituted with elective courses to avoid duplication of a student's previous course work and to address the needs of the student's specific career choice.
- Students with unsatisfactory progress toward the degree requirements are subject to dismissal. A student with a grade of C or lower in any of the required courses for the degree will be put on probation for one semester. Conditions and deadlines for the removal of probation will be specified. Failure to meet the condition will result in departure from the program. A student with two grades of C or lower will be dropped from the program.
- The Hotel Administration portion of the dual degree program requires successful completion of a professional paper that must adhere to the standards in the American Psychological Association's current publication manual regarding writing style and format. This paper must be completed at the end of the dual program and examine a topic relating to Information Technology in Hospitality.

Plan Graduation Requirements

- Students cannot graduate from one portion of the dual degree until the requirements for both are met. Students must apply to graduate from both programs for the same semester.
- The student must submit all required forms to the Graduate College and then apply for graduation from both degrees up to two semesters prior to completing his/her degree requirements.
- Successfully complete a professional paper.

Management, Entrepreneurship, and Technology Courses

MGT 709 - New Venture Feasibility

Credits 3

This course emphasizes feasibility analysis as students choose business opportunities they will pursue. In conjunction with case study analysis and interaction with local entrepreneurs, students will assess the technical merits, operational logistics, legal ramifications, consumer needs and demands, team skills and abilities, and the financial viability of their new venture. **Prerequisites:** Completion of the MBA core curriculum or approval of the Director of MBA Programs.

MGT 710 - New Venture Creation

Credits 3

Concerned with development of the business tools and skills necessary to successfully create an entrepreneurial venture. Focus includes evaluation of new venture opportunities, obtaining capital and other resources, personnel issues, business operations, and legal considerations. Students will prepare and present a business plan.

Prerequisites: Admission to the MBA Program and MBA 710.

MGT 711 - Seminar in Negotiation

Credits 3

Enhances students' abilities to use negotiation as a tool for managing conflict, making deals, and making team decision. Examines important aspects of the negotiation process, including preparations, strategies and tactics, international issues, the role of third parties, and ethical issues. **Prerequisites:** Completion of MBA core curriculum or approval of the Director of MBA Programs.

MGT 712 - Change Management

Credits 3

Change management is the process of transforming an organization's operations to enhance individual and organizational effectiveness. Both the rate of change and its importance to senior management seem to be accelerating. Examines competing models of change, considers various change methodologies, and explores examples of best practice. **Prerequisites:** Completion of MBA core curriculum or approval of the Director of MBA Programs.

MGT 787 - International Seminar

Credits 3-6

Exposes students to the problems and environment of international business in emerging markets. Students will visit selected international enterprises operating outside the US and experience first-hand the business etiquette and culture in that country. **Prerequisites:** Approval of the Director of MBA Programs.

MIS 740 - Software Concepts

Credits 3

First course in programming for non-programmers aimed at developing a proficiency in designing and writing programs using a high-level programming language. Topics include standard programming constructs (conditionals, loops, etc.), concept of an algorithm, and fundamental data types (numbers, strings, arrays, etc.). **Prerequisites:** Admission to a graduate program in MIS or consent of the Director of MIS Graduate Programs.

MIS 742 - Systems Design and Development

Credits 3

Covers both systems analysis and design and modern database concepts. Introduces basic systems analysis and design tools and techniques used to analyze business processes and data flows. Also focuses on the relational database model and principles of good database design. **Prerequisites:** Completion of the core MBA curriculum or approval of the Associate Dean.

MIS 744 - Information Systems Planning & Strategy

Credits 3

Familiarizes students with aspects of developing, implementing and evaluating strategic plans for corporate information systems as a competitive tool; using methods and frameworks for strategic analysis; assisting in establishing an information systems strategy; developing an understanding of change management issues in IS planning for organizations. **Prerequisites:** Admission to a graduate program in MIS or consent of the Director of MIS Graduate Programs.

MIS 746 - Information Systems Project Management

Credits 3

Conceptual material on project management techniques. Planning, organizing and controlling of projects in manufacturing and service organizations. Includes project management process, project scheduling, project resource management, schedule duration risk analysis and management of project. **Prerequisites:** Admission to a graduate program in MIS or consent of the Director of MIS Graduate Programs.

MIS 748 - Social and Economic Impacts of Information Technology

Credits 3

The impact of IT on post- industrial management, productivity, personnel, privacy, competitive advantage, innovation, organizational design, organizational intelligence, decision-making, individual learning, and communication. Students prepare term papers on the impact of information technology on specific industries, depending on their career path interests. **Prerequisites:** MBA 773

MIS 752 - Advanced Topics in MIS**Credits 1-3**

Advanced or specialized study in a special topic or subject area in information systems. **Notes:** May be repeated with different subject matter to a maximum of six credits. **Prerequisites:** Admission to a graduate program in MIS or consent of the Director of MIS Graduate Programs.

MIS 753 - Independent Study**Credits 1-3**

Advanced or specialized study in a special topic or subject area in information systems. **Notes:** May be repeated with different subject matter to a maximum of six credits. **Prerequisites:** Admission to a graduate program in MIS or consent of the Director of MIS Graduate Programs.

MIS 755 – Internship**Credits 3**

Supervised practical experience with a participating enterprise or government agency, culminating in a written report. **Notes:** May be repeated to a maximum of six credits. **Grading:** S/F grading only. **Prerequisites:** MS MIS program admission

MIS 760 - Data Communications and Systems**Credits 3**

Concepts, models, architectures, protocols, standards, and security for the design, implementation, and management of digital networks. Essentials of local area networks (LAN), metropolitan area networks (MAN), and wide area networks (WAN). Transmission and switching efficiency, and regulatory and technical environments. Topics include: security and authentication, operating systems, e- commerce etc. **Prerequisites:** Admission to a graduate program in MIS or consent of the Director of MIS Graduate Programs.

MIS 762 - Systems Analysis, Modeling and Design**Credits 3**

Systems development life cycle, analysis and design techniques. Information systems planning, project identification and selection, requirements collection and structuring, process modeling, data modeling. Design of interface and data management, system implementation and operation, system maintenance, and change management. Rapid application development and prototyping. **Prerequisites:** Admission to a graduate program in MIS or consent of the Director of MIS Graduate Programs.

MIS 764 - Advanced Web Development and Electronic Commerce**Credits 3**

Integration of technology and commercial practices for doing business on the Internet. Business and social implications of emergence of electronic commerce in cyberspace. Technological and organizational issues. Introduction to and application of advanced tools and techniques in the development of commercial-quality web sites. **Prerequisites:** Admission to a graduate program in MIS or consent of the Director of MIS Graduate Programs.

MIS 766 - Data Management**Credits 3**

Concepts, principles, issues and techniques for managing corporate data resources. Techniques for managing design and development of large database systems including logical data models, concurrent processing, data distribution, database administration, data warehousing, data cleansing, and data mining. **Prerequisites:** Admission to a graduate program in MIS or consent of the Director of MIS Graduate Programs.

MIS 768 - Java Programming**Credits 3**

Java programming language, platform, software delivery environment, internet commerce environment, applications vs. applets/services, Java APIs and extensions, paradigms in information systems, network computers, security and future directions. **Prerequisites:** MIS 740

MIS 770 - IS Security, Audit and Control

Credits 3

Investigates broad selection of contemporary issues in computer security, including an assessment of state-of-the-art approaches used to address security problems. Integration with organizational/informational systems audit, computer information systems, and management practices. **Prerequisites:** Admission to a graduate program in MIS or consent of the Director of MIS Graduate Programs.

MIS 772 - Advanced Information Systems

Credits 3

Technical and managerial issues in the effective development and use of decision support systems (DDS) from three distinct approaches: data, intelligence and groups. Extensive hands-on exercises with state-of-the-art software. Exposure to current industry best practices. **Prerequisites:** MBA 773

MIS 773 - Research Seminar in Information Systems

Credits 3

Survey a range of historic and current research in IS to understand current problems of interest to IS researchers and methods used to address them. A major deliverable for the course will be a proposal for a thesis research project. **Prerequisites:** Admission to a graduate program in MIS or consent of the Director of MIS Graduate Programs.

MIS 774 - IT Outsourcing

Credits 3

This course will focus on the sourcing issues relevant to information systems development and integration in organizations. Topics will include vendor selection, vendor evaluation, negotiation, risk mitigation, contract implementation, partnership, intellectual property, integration, retention, social influences, critical success factors, and offshoring. **Prerequisites:** MBA 773.

MIS 775 - IT Architecture for Business

Credits 3

How IT Architecture can meet corporate information system needs. Topics include system scaling, architecture design, enterprise integration, service-oriented architectures, web services, agile application development, corporate IT security, disaster recovery, cost of ownership, and others. Students apply concepts using IBM system i. **Prerequisites:** MIS 762 or Instructor Consent.

MIS 776 - Business Intelligence

Credits 3

Business intelligence refers to the set of technologies and tools that enable organizations to integrate, store, analyze, and report data for the purpose of obtaining competitive advantage. Students will be exposed to key components of business intelligence applications, including defining data structure, analyzing cubes, data mining, and reporting. **Prerequisites:** MIS 766 or Instructor Consent

MIS 777 - Project Feasibility Study and Proposal

Credits 3

Mastery of methods and techniques required to propose new systems for processes, applications and products, including idea generation, data collection, analysis, project proposals, client presentations, sourcing and vendor negotiation. Emphasis on data collection techniques, including structured and unstructured individual and group interviews, survey questionnaires, observation, and document analysis. **Prerequisites:** Admission to a graduate program in MIS or consent of the Director of MIS Graduate Programs.

MIS 778 - Technology Innovation and Feasibility Analysis

Credits 3

This course emphasizes a technology feasibility analysis. In conjunction with case study analysis and interaction with local entrepreneurs and business leaders, students will assess the technical merits, operational logistics, legal

ramifications, consumer needs and demands, team skills and abilities, and the financial viability of a technological innovation.

MIS 779 - Technology Venture Creation

Credits 3

The Technology Venture Creation course take students from the idea stage to the startup of a new technology based venture. The key output from the course will be a business plan for a new technology venture that can be taken to investors for funding. **Prerequisites:** MIS 778 or consent of instructor.

MIS 780 – Thesis

Credits 3 – 6

A substantial piece of work demonstrating the use of research methods and presentation of research results. Students must complete twelve required credit hours before they can register for this course. This course is a six-credit hour thesis and is expected to take two semesters to complete. Completion of the thesis requires a successful defense.

Notes: May be repeated to a maximum of eighteen credits. **Prerequisites:** MIS 773 with a minimum grade of B.

College of Education

The College of Education is committed to creating an intellectual environment that promotes quality instruction, significant research, and professional service. Particular attention is focused on preparing professionals for diverse educational settings and on contributing to educational and pedagogical knowledge through scholarly endeavors. The College provides leadership in both the art and science of educational practice. Furthermore, the College is committed to creating an inclusive learning environment that values and promotes diversity. Collaboration among students, faculty, other professionals, and community members is essential to the College in achieving its goals. Integral to the mission is a dedication to being a premier college of education that serves our dynamic and expanding community, the state, the region, and the nation.

The College of Education provides dynamic graduate programs that engage students in field-based practice and research, offering students an exciting opportunity to study at a nationally recognized university situated within one of the fastest growing cities and school districts in the country.

Graduate programs in the College of Education include master, educational specialist, and doctoral degrees as well as post-baccalaureate programs for initial teacher licensure and additional endorsement to licensure. These programs are available in the departments of Educational & Clinical Studies, Educational Psychology & Higher Education, and Teaching & Learning. The College of Education has an outstanding graduate faculty who are nationally recognized for their scholarship and leadership in their respective disciplines.

The College of Education is accredited by the Northwest Commission on Colleges and Universities (NWCCU), which is an independent, non-profit membership organization recognized by the U.S. Department of Education as the regional authority on educational quality and institutional effectiveness of higher education institutions in the seven-state Northwest region of Alaska, Idaho, Montana, Nevada, Oregon, Utah, and Washington. It fulfills its mission by establishing accreditation criteria and evaluation procedures by which institutions are reviewed. The COE is also accredited by the National Association of School Psychologists, and the Council for the Accreditation of Counseling and Related Educational Programs. The COE is also accredited by the State of Nevada.

Kim K. Metcalf, Ph.D., Dean, College of Education

Cyndi Giorgis, Ph.D., Associate Dean

Gregory Schraw, Ph.D., Associate Dean

Educational Psychology and Higher Education

The Department of Educational Psychology and Higher Education is dedicated to the advancement and application of knowledge about human behavior with an emphasis on educational settings. This dedication is reflected in our 2006 ranking in the top 20 among specialty programs in educational psychology by U.S. News & World Report. We focus on the educational process as it occurs at every level from home and nursery school through graduate school to business, industry and the military.

Educational Psychology and Higher Education Plans

Graduate Certificate in Higher Education

The graduate certificate in Higher Education targets full or part-time graduate students who may not have studied higher education through any formal degree program but wish to develop a deeper understanding of higher education. In particular doctoral students enrolled in other disciplines who plan to enter the academy as tenure track faculty members, as well as current administrative professionals who already possess an undergraduate degree and have 2-3 years full-time experience in higher education, may also benefit from this experience. Hours earned for the certificate may be applied to a degree program in higher education at the masters or doctoral levels. Hours earned in the masters or doctorate programs in higher education may NOT be used toward the certificate.

Plan Admission Requirements

A qualified student, who wishes to enter UNLV to obtain the graduate certificate in higher education without being enrolled in a degree program, may apply for graduate admission to the Graduate College via the ApplyYourself (AY) system. All minimum Graduate College requirements MUST be met. Once accepted to UNLV, students must also complete and submit the Graduate Certificate in Higher Education application.

Doctoral and masters level students who are admitted to and pursuing other disciplines are eligible for the certificate program in higher education. Students must complete and submit the Graduate Certificate in Higher Education application.

Enrollment may be limited based on class size. Students must earn a B or better in all courses. Certificates will be awarded upon the student's successful completion of the certificate requirements.

Application may be submitted at any time during an academic term. Accepted students can begin taking classes the follow term of acceptance

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 15

Course Requirements

- Foundations Course – Credits: 3
 - Complete one of the following courses:
 - EDH 703 - History of American Higher Education
 - EDH 733 - The Professorate
 - EDH 742 - Academic Governance in Higher Education
- Student Development Course – Credits: 3
 - Complete one of the following courses:
 - EDH 609 - Leading Diverse Organizations
 - EDH 627 - Student Learning and Development
- Policy Course – Credits: 3
 - Complete one of the following courses:
 - EDH 710 - Finance and Budgeting in Higher Education
 - EDH 738 - Public Policy in Higher and Post-Secondary Education
- Leadership Course – Credits: 3
 - Complete one of the following courses:
 - EDH 607 - Leadership Development Seminar
 - EDH 715 - Theory of Educational Organizations

- Electives Course – Credits: 3
 - Complete one of the following courses:
 - EDH 603 - Role of Intercollegiate Athletics in Higher Ed
 - EDH 705 - HE Law-Doctoral
 - EDH 708 - The American Community College
 - EDH 780 - Seminar: Teaching in Higher Education

Certificate Requirements

Student must complete a minimum of 15 credit hours with a minimum GPA of 3.00.

Plan Certificate Completion Requirements

The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.

Education Specialist - Educational Psychology

Educational Psychology Ed.S. is based upon standards set forth by state and national accreditation organizations and is a nationally approved program. Students pursuing school psychology studies meet credential standards by completing at least 66 semester hours beyond the bachelor's of required and elective graduate-level course work by completing the hours and 1,200 hours of supervised internship. Completion of this program of graduate study enables the student to receive state licensure as a school psychologist in Nevada and the opportunity to gain national certification.

The program adopts the scientist/practitioner model of school psychology. Courses and practica seek to integrate theory and applied skills for working in schools and other educational settings. The primary goal of the school psychology program is to prepare professional school psychologists who can apply psychological principles to ameliorate cognitive, learning, behavioral, and other school related problems of children and adolescents.

Learning Outcomes

www.unlv.edu/degree/eds-school-psychology

Plan Admission Requirements

Students are admitted each spring to begin the following fall. Applicants must have a 2.75 undergraduate GPA with the last two years GPA of 3.0. The GRE must also be taken, with preference given to applicants who score at or above the 50% percentile on both the verbal and quantitative scores on the GRE. The admission process begins with applications submitted to the Graduate College and to the program

Admission is based on the following criteria:

- Graduate College online application
- Department application
- Preference is given to students whose scores relate to the 50th percentile or better on the verbal and quantitative sections of the Graduate Record Examination (GRE)
- Three letters of recommendation from former instructors, employers, or other professionals who can evaluate the potential to complete graduate study
- One-page career goals statement which also serves as a sample of the applicant's writing skills
- Transcripts from all colleges and universities attended

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 67

Course Requirements

- Psychology/Educational Foundations Courses – Credits: 16

- EPY 701 - Proseminar in Educational Psychology
- EPY 711 - Human Growth and Development
- EPY 712 - Foundations of Learning and Cognition
- ESP 701 - Introduction to Special Education and Legal Issues
- EPY 788 - Seminar in EPY
- EPP 760 - Psychoeducational Issues of Diverse Learners
- Assessment & Intervention Courses – Credits: 22
 - EPY 705 - Child Counseling
 - EPP 710 - Assessment of Intelligence by School Psychologists
 - EPY 786 - Applied Assessment in Educational and School Psychology
 - EPP 715 - Projective, Personality, and Behavioral Assessment by School Psychologists
 - CED 733 - Introduction to Group Counseling
 - EPP 767 - School-Based Neuropsychological Assessment
 - EPP 763 - Psychoeducational Academic and Diagnostic Assessment
 - ESP 733 - Management and Modification of Students with Special Needs
- Research Courses – Credits: 9
 - EPY 702 - Research Methods
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
 - EPP 750 - Advanced Test Analysis in School Psychology
- Professional School Psychology Courses – Credits: 6
- Complete 3 credits in each of the following two courses:
 - EPP 761 - Role and Function of the School Psychologist
 - EPP 764 - School Psychology Seminar
- School Psychology Course – Credits: 6
 - EPP 762 - School Psychology Intervention with Practicum
- Internship Course – Credits: 6
 - EPP 769 - Internship in School Psychology
- Professional Paper – Credits: 2
 - EPP 766 - School Psychology Professional Paper

Degree Requirements

- Student must complete a minimum of 67 credit hours with a minimum GPA of 3.00.
- Course substitutions may be allowed with advisor and/or program faculty approval.
- Following the first year of the required prescribed Ed.S. program courses (minimum of 34 credits) and successful completion of the comprehensive examination, students are eligible to receive an M.S. degree in Educational Psychology.
- The culminating experience for the School Psychology Ed.S. is the completion of a two-semester (minimum of 1200 clock hour) internship in a school setting. This is typically a full-time assignment, completed at the end of the program. During this time students will also enroll in EPP 766 and complete a portfolio with results of a national exam and examples of work product. The portfolio will serve as the final examination for the Ed.S. degree.
- Students will typically have completed all other coursework prior to being approved for internship. Students must have successfully completed the primary assessment courses (EPP 710, EPP 715, EPP 763) and the practica to be eligible for internship placement.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation from both degrees (where applicable) up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete the professional paper.

Master of Science - Educational Psychology

The Master of Science - Educational Psychology is appropriate for students seeking the core knowledge, research tools, and educational experiences necessary to succeed in various educational settings. The program is appropriate for elementary, secondary, and special education teachers who wish to enhance classroom skills; students interested in pursuing advanced studies in educational psychology; students interested in obtaining a specialist degree in school psychology; as well as students who plan to apply their skills in government or business settings. Students' individualized programs are tailored with attention to their area of specialization.

Learning Outcomes

www.unlv.edu/degree/ms-educational-psychology

Plan Admission Requirements

Admission to graduate studies at UNLV requires a bachelor's degree from an accredited four-year college or university with either a minimum grade point average of 2.75 overall or a 3.00 in the last two years of undergraduate work. Master's degree programs require that an application for admission be submitted to the Graduate College, as well as transcripts from all colleges and universities attended.

Admission to the Master of Science degree program in Educational Psychology is based on the following criteria:

- Department application
- Preference given to students whose scores relate to the 50th percentile or better on the verbal and quantitative sections of the Graduate Record Examination (GRE)
- Three letters of recommendation
- One writing sample
- Transcripts from all colleges and universities attended
- Graduate College application is available online

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Thesis Track

Total Credits Required: 34

Course Requirements

- Required Courses – Credits: 1
 - EPY 701 - Proseminar in Educational Psychology
- Learning and Development Courses – Credits: 6
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Research Courses – Credits: 9
 - EPY 702 - Research Methods
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
 - EPY 723 - Theory and Practice of Human Measurement I

- Elective Courses – Credits: 12
 - Students must complete a minimum 12 credit hours of advisor-approved electives.
- Thesis – Credits: 3
 - EPY 749 - Thesis

Degree Requirements

- A minimum of 34 credits is required for the degree. Students must maintain a grade point average of 3.00 or better in the program and a grade of B or better in core course work.
- The culminating experience for the M.S. degree is the defense of the students' master's thesis.
- Students who choose to complete a thesis will select a Graduate Faculty member to serve as chair. The chair and the student will select the other committee members. Each committee must have three members. Committee members must be named by the time the student submits their Program of Study to the Graduate College. The student must defend a thesis proposal before data to be used in the thesis are collected. The committee will meet and determine whether to accept or reject the proposal. A proposal can be accepted provisionally given that the student follows the committee's suggestions for revision. Upon completion of the thesis, an oral defense will be scheduled. This defense will be scheduled and conducted in accordance with the Graduate College's policies for thesis and dissertation completion.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation from both degrees up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Non-Thesis Track

Total Credits Required: 34

Course Requirements

- Required Courses – Credits: 1
 - EPY 701 - Proseminar in Educational Psychology
- Learning and Development Courses – Credits: 6
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Research Courses – Credits: 9
 - EPY 702 - Research Methods
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
 - EPY 723 - Theory and Practice of Human Measurement I
- Elective Courses – Credits: 15
 - Students must complete a minimum of 15 credit hours of electives. Students electing to complete the professional paper must complete EPY 782 - Independent Study as part of their elective credits.
- Internship – Credits: 3
 - EPY 794 - Internship

Degree Requirements

- A minimum of 34 credits is required for the degree. Students must maintain a grade point average of 3.00 or better in the program and a grade of B or better in core course work.
- The culminating experience for the M.S. degree is the completion of an internship with either a written comprehensive examination or a professional paper.
- Students will be asked to complete either a Comprehensive Examination or a Professional Paper.
- The professional paper is an in-depth exploration of a topic agreed upon by the student and adviser. In general, it is not original research but explores constructs from Educational Psychology and is related to the student's internship experience. The Professional Paper is evaluated by the adviser and approved by the department before the degree is granted.
- The comprehensive exam option for the culminating experience is comprised of questions reflective of the core areas (learning and development, research and measurement), and the specialty. All students who take the comprehensive exam in a given semester will respond to items from a set selected for that semester. In consultation with the Comprehensive Examination Evaluation Committee, the student's adviser/committee chair may create an additional item to reflect the student's internship experience. Students will have 15 days to complete the examination. A department Comprehensive Examination Evaluation Committee will evaluate the responses for each examinee. Each student's adviser/committee chair will also evaluate his/her student's responses to the selected items.
- Students completing the comprehensive exam may opt to take additional elective courses in place of the internship in order to satisfy the required minimum of 34 credit hours.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation from both degrees up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete a culminating experience.

Plan Graduation Requirements

Master of Education - Higher Education

The Master of Education – Higher Education is designed to prepare graduates to serve in administrative capacities within the university, community college, and for-profit settings, with an emphasis on student affairs, intercollegiate athletics, and higher education organization.

Learning Outcomes

www.unlv.edu/degree/med-higher-education

Plan Admission Requirements

- A bachelor's degree from an accredited college or university
- A completed application and official copies of all college transcripts
- Two letters of professional recommendation
- Submission of an official copy of the Graduate Record Examination (GRE) or the Graduate Management Admissions Test (GMAT), or the LSAT
- A minimum GPA of 2.75 for all undergraduate work or a 3.00 for the last two years of undergraduate work
- Evidence of a minimum of two years satisfactory teaching or administrative experience (or equivalent) preferable but not required
- Statement of Interest
- Indication of interest in a graduate assistantship, when applicable

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 37

Course Requirements

- Required Courses – Credits: 12
 - EDH 604 - Management Communications
 - EDH 607 - Leadership Development Seminar
 - EDH 609 - Leading Diverse Organizations
 - EDH 703 - History of American Higher Education
- Core Research Course – Credits: 3
 - EPY 702 - Research Methods
- Additional Research Course – Credits: 3
 - Select one of the following:
 - EPY 716 - Evaluation Research Methods
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
- Internship – Credits: 3
 - EDH 690 - Masters Internship
- Elective Courses – Credits: 15
 - Complete 15 credits of advisor-approved elective course work. Courses may be selected from but are not limited to, the following three emphasis areas.

- *Student Affairs Emphasis*
 - EDH 626 - College Student Personnel Services
 - EDH 627 - Student Learning and Development
 - EDH 624 - Readings in Student Personnel Issues
 - *Intercollegiate Athletics Emphasis*
- EDH 603 - Role of Intercollegiate Athletics in Higher Ed
- EDH 606 – Intercollegiate Athletic Administration
- EDH 611 - Marketing Institutions of Higher Education

Higher Education Organizational Emphasis

- EDH 708 - The American Community College
- EDH 742 - Academic Governance in Higher Education
- EDH 750 - Special Topics in Higher Education

Capstone Course – Credits: 1

- EDH 610 - Master’s Capstone Experience

Degree Requirements

- Student must complete a minimum of 37 credit hours with a minimum GPA of 3.00.
- All courses in the program must be at the 600- or 700-level.
- The Master of Education (M.Ed.) – Higher Education is a non-thesis program, which requires the successful completion of a capstone project taken during the final semester.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation from both degrees up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete the capstone course.

Doctor of Philosophy - Educational Psychology

The Educational Psychology Ph.D. is designed to provide advanced studies in educational psychology with three primary strands: 1) Educational psychology with specialty area emphases in educational assessment, program evaluation, research, and learning in school domains, 2) School Counselor Education, and 3) School Psychology. This program will provide opportunities for students to become independent scholars who are able to make significant contributions to knowledge in specialized areas of educational psychology where both regional and national need for trained professionals has been identified.

The three strands in the program focus on the outcomes and processes that promote more effective learning in school based and related applications. Students in all strands will take core courses in: 1) research methods and statistics, 2) learning and cognition, and 3) advanced studies in a domain of school curriculum, school counselor education, or school psychology. All students will be actively involved in research and research-related activities throughout their program of study. The program will prepare students for a variety of professional careers related to teaching, research, and professional practice in both academic and nonacademic settings. For example, students will be prepared to fill faculty, research, or assessment positions at academic institutions, such as universities, community colleges, and K-12 school districts.

Representative occupations include educational psychologist, program evaluator, director of school counseling, school counselor educator, educational assessment coordinator, school psychologist, and employee training specialist. Graduates from the school psychology specialization strand can find employment in universities, public and private schools, and as mental health service providers in agencies and private practice.

Learning Outcomes

www.unlv.edu/degree/phd-educational-psychology

Plan Admission Requirements

Admission will be limited to the most qualified applicants based on a combination of the following:

- An undergraduate grade point average of 3.00 or above.
- If graduate course work has been completed, a graduate grade point average of 3.00 or above.
- Preference given to scores that relate to the 50th percentile or better on the verbal and quantitative sections of the Graduate Record Examination (GRE).
- A score of 600 or above on the Test of English as a Foreign Language (TOEFL) is also required for students who do not speak English as their language.
- Three letters of reference from university faculty or other individuals qualified to judge the applicant's academic potential.
- The applicant's statement of professional interests and goals.
- A scholarly or professional writing sample.
- Graduate College application is available online. Applications for admission will be considered once a year. The deadline for the receipt of applications is February.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Foundations Track

Students must have a master's equivalent degree to be considered for admission.

School Counselor Track

Students must have a master's degree in a school counseling program accredited by the council for Accreditation of Counseling and Related Educational Programs (CACREP) or must have completed the substantial equivalent of such program. Students with degrees in other counseling specialties will be considered for admission with the understanding that additional course work will be required as part of their doctoral programs.

School Psychology Track

Students must have a bachelor's degree. Many students admitted for this strand have completed their Ed.S. from a NASP-approved program, or its equivalent, as evidence of the knowledge base of a professional school psychologist. Students without this foundation are considered for admission with understanding that their programs of study will include content from our Ed.S. program.

Plan Requirements

- Learning Theory Courses – Credits: 9
 - EPY 757 - Theory and Philosophy of Educational Psychology
 - EPY 767 - Human Learning and Cognition
 - EPY 777 - Cognitive Development
- Specialization Courses – Credits: 18
 - Complete 18 credits of advisor-approved coursework within your specified area of focus.
- Emphasis Area Courses – Credits: 12
 - Complete 12 credits of advisor-approved coursework within an area of emphasis.
- Dissertation – Credits: 12
 - EPY 799 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: School Psychology Track

Total Credits Required: 67

Course Requirements

- Proseminar Course – Credits: 1
 - EPY 701 - Proseminar in Educational Psychology
- Research Methods Courses – Credits: 12
 - EPY 718 - Qualitative Research Methodologies
 - EPY 722 - Inferential Statistics and Experimental Design
 - EPY 723 - Theory and Practice of Human Measurement I
 - EPY 730 - Advanced Research Methods
- Additional Research Methods Course – Credits: 3
 - Complete one of the following courses:
 - EPY 716 - Evaluation Research Methods
 - EPY 719 - Advanced Qualitative Research
 - EPY 724 - Theory and Practice of Human Measurement II
 - EPY 733 - Multivariate Statistics
 - EPY 787 - Individual Research (3 credits)
 - EPY 790 - Research Seminar in EPY (3 credits)
- Learning Theory Courses – Credits: 9
 - EPY 757 - Theory and Philosophy of Educational Psychology
 - EPY 767 - Human Learning and Cognition
 - EPY 777 - Cognitive Development
- Specialization Courses – Credits: 18
 - Complete 18 credits of advisor-approved coursework within your specified area of focus.
- Emphasis Area Courses – Credits: 12
 - Complete 12 credits of advisor-approved coursework within an area of emphasis.
- Dissertation – Credits: 12

- EPY 799 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Degree Requirements

- Student must successfully complete a minimum of 67 credit hours while maintaining a grade point average of 3.00 or better in the program and a grade of B or better in core course work.
- Of the 67 credits, 18 must be in coursework tailored for the area of focus in the strand.
- Of the 67 credits, 25 are in courses shared with other doctoral programs in the department.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Specific specialization courses in the assessment, program evaluation, research, and learning in school domains strands are determined by the student in consultation with her or his committee.
- In addition to the required specialization courses, each student, in consultation with advisor and doctoral committee, selects an individual emphasis area and determines the specific courses to be completed.
- Each student must satisfy a scholarly paper requirement by the time he or she has completed 36 credits (Review I). The student must be primarily responsible for carrying out and reporting a study under the supervision of a program faculty member. The requirement may be fulfilled in one of two ways. First, the study may involve the collection and analysis of some empirical data (for example, a pilot study) resulting in a scholarly paper that is submitted to either a professional journal or as a proposal to an annual conference of a national organization. Second, the paper may consist of a literature review that is submitted for publication in a quality, peer-reviewed journal or submitted for presentation at a national conference. Prior to beginning, projects must be approved by a supervising faculty member. Once completed, students must submit to the program coordinator(s): (a) a copy of the paper, (b) a submission acknowledgment, and (c) a completed Review I form from the supervising faculty member.
- Each student must take the preliminary examination (Review II). This second formal assessment, typically completed during the last semester of formal classwork, is an examination that will focus on areas of knowledge that are most relevant to the student's proposed dissertation topic. The student and his/her committee will determine the content of this examination format in that it will focus on in-depth reading and writing directly related to the student's proposed dissertation topic as well as on the student's mastery of previously learned core information.
- After successfully completing Review I (i.e., satisfying the scholarly product requirement) and Review II (i.e., passing the preliminary examination), students can then submit a formal dissertation proposal to their doctoral committee and submit the accompanying "Dissertation Prospectus" form to the Graduate College. The doctoral committee will meet and determine whether to accept or reject the prospectus. A prospectus can be accepted provisionally given that the student follows the committee's suggestions in the dissertation. Upon completion of the full dissertation, a defense will be scheduled. This defense will be scheduled and conducted in accordance with the Graduate College's policies for thesis and dissertation completion. It is the student's responsibility to file the required "Notification of Oral or Written Examination" form with the Graduate College in a timely manner.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Doctor of Philosophy - Higher Education

The Doctor of Philosophy – Higher Education is grounded in the concept that successful higher educational leaders must be well-informed and context sensitive professionals who make theory based, research supported, and data driven decisions.

The primary objectives of the program are to:

Prepare students for administrative positions in community colleges, four year colleges, universities, and other public and private learning and policy environments;

Prepare individuals for faculty positions in higher education; and

Assist doctoral students in the development of skills in assessment and evaluation, research design, and quantitative and qualitative methodologies appropriate for leadership roles as faculty or administrators in higher and postsecondary education.

Students can elect to specialize in any of three emphasis areas: higher education leadership, including university and community college leadership; higher education policy and planning; and student affairs leadership.

Learning Outcomes

www.unlv.edu/degree/phd-higher-education

Plan Admission Requirements

Entrance to the Ph.D. program requires candidates to complete three steps. Current application deadlines are posted on the website .

Minimum admission requirements for UNLV's Graduate College include:

- Completed application for admission and the nonrefundable application fee;
- One copy of official transcripts from all institutions attended after high school, including verification of a master's degree from an accredited college or university.
- More information is available on the Graduate College website .

Additional materials each candidate must also upload with the application:

- Personal Statement of Professional Aspirations;
- A professional resumé or vita;
- Verification of experience in higher education or related field;

- Scores from the Graduate Record Exam (GRE), the Graduate Management Admission Test (GMAT) or the Law School Admissions Test (LSAT). Score should be no more than five years old;
- Two letters of nomination/ professional reference;
- Evidence of writing ability; see the website for specifics.

In the final step after reviewing all material, a select number of candidates will be invited for an interview with department faculty. The interview enables candidates to demonstrate their oral communication skills, commitment to continuing professional development, and to show their leadership, learning, and educational philosophy. Final admission will be based on evaluation of all application materials, including the interview.

For specific information on the Department Educational Psychology & Higher Education's Higher Education Ph.D. programs, please visit the website. Applicants interested in receiving a graduate assistantship must complete the Graduate Assistantship Application found on the Graduate College website. Potential students should also inform the program or doctoral admissions coordinator of their interest in the program.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 72

Course Requirements

- Required Core Courses – Credits: 15
 - EDH 703 - History of American Higher Education
 - EDH 710 - Finance and Budgeting in Higher Education
 - EDH 715 - Theory of Educational Organizations
 - EDH 738 - Public Policy in Higher and Post-Secondary Education
 - EDH 705 - HE Law-Doctoral
 - Or
 - EDH 742 - Academic Governance in Higher Education
- Required Research Courses – Credits: 12
 - EDH 707 - Designing & Critiquing Research In Education
 - EPY 716 - Evaluation Research Methods
 - EPY 722 - Inferential Statistics and Experimental Design
 - EPY 718 - Qualitative Research Methodologies
- Research Elective Courses – Credits: 6
 - Complete two of the following courses in consultation with your program of study chair.
 - EPY 719 - Advanced Qualitative Research
 - EPY 729 - Qualitative Case Study Research
 - EPY 732 - Multiple Regression and Path Analysis
 - EPY 733 - Multivariate Statistics
- Specialization Courses – Credits: 21
 - Complete 21 credits from the following courses in consultation with your program of study chair.
 - EDH 607 - Leadership Development Seminar
 - EDH 609 - Leading Diverse Organizations
 - EDH 618 - Facilities Management and Campus Planning
 - EDH 619 - Institutional Advancement
 - EDH 624 - Readings in Student Personnel Issues
 - EDH 706 - Current Issues in Higher Ed
 - EDH 708 - The American Community College
 - EDH 732 - Readings in Administration of Higher Education

- EDH 733 - The Professorate
- EDH 737 - Ethical Dimensions of Higher Education Leadership
- EDH 739 - Organization Change & Innovation in Higher Education
- EDH 740 - Comparative and International Higher Education
- EDH 742 - Academic Governance in Higher Education
- EDH 745 - Institutional Planning in Higher Education
- EDH 750 - Special Topics in Higher Education
- EDH 780 - Seminar: Teaching in Higher Education
- EDH 791 - Doctoral Independent Study
- Internship Course – Credits: 3
 - EDH 790 - Doctoral Internship
- Prospectus Course – Credits: 3
 - EDH 796 - Dissertation Proposal Preparation
- Dissertation – Credits: 12
 - EDH 799 - Dissertation

Degree Requirements

- Students must complete a minimum of 72 credit hours of approved course work with a minimum GPA of 3.00.
- Students without a background in statistics may take EPY 721 – Descriptive/Inferential Statistics, but the course will not count as credits toward the doctoral program.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department’s discretion. Please see Graduate College policy for committee appointment guidelines.
- The doctoral comprehensive examination consists of two parts: A core examination and an individualized examination. Part I: Core examination:
- The core examination is offered twice a year (usually September and February). Students should take this examination as early in their programs as possible. Students are eligible to the Comprehensive Examinations if they have passed all core courses with a “B-” or better. No student with anything less than a “B-” in any core course will be allowed to take the Comprehensive Examination. A core course may be repeated, allowing the student an opportunity to earn a “B-” or better.
- To be eligible to sit for this examination, students must have completed the required core courses, the required research courses, and the methodology course.
- Each section of the comprehensive examination is taken over a two week period.
- Section One: Covers research design. It draws heavily on EDH 707 and the research core. Students are encouraged to integrate information from other methods courses into their answers. Information about this question is provided to students prior to the examination.
- Section Two: Affords student the opportunity to integrate basic historical, organizational, financial/economic, policy, and legal perspectives into a discussion of one or more current issues. Faculty members will meet with students prior to distributing this question to talk about specific, appropriate issues that may be addressed in this section of the exam.
- The evaluation rubric is available for download from the department website. Students who do not pass a section of the comprehensive exams meet with their current advisor to discuss options and potential remedies.
- The purpose of the individualized examination is to help students fill in gaps in their knowledge base and to help them move forward into the dissertation stage of the program.
- All students are required to engage in an internship experience. Each internship is an individually designed, semester-long experience that can be repeated for credit for up to a maximum of 6 hours. Ordinarily, the internship is completed after the student has successfully passed the core comprehensive examination. There are three types of internships for doctoral students: Administrative, Teaching, and Research.
- Administrative internships enable students to apply theory to practice. Internship placements are available in a variety of professional settings including UNLV, the Community College of Southern Nevada, Nevada

State College, the Nevada System of Higher Education administrative departments, as well as in neighboring institutions of higher education and government policy and business environments. These are challenging experiences in which students are expected to make meaningful contributions that advance the goals of the host site.

- Teaching internships are done under the aegis of a faculty member. Doctoral teaching assistants may team with a faculty member in a Master's course or teach undergraduate courses.
- Research internships are usually done with the student's doctoral chair. These internships allow students to team with a faculty member on a research-based project, which may entail design, data collection, analysis, or writing.
- Students must complete the residency requirement. Residency requirements are met following the completion of 42 credit hours, the comprehensive examinations, and by completing these outcomes:
 - Completion of remaining course work, including research courses and electives.
 - Combination of doctoral internships and/or independent studies, as advised by student's doctoral advisor.
 - Successful completion of EDH 790 – Doctoral Internship and EDH 796 –Dissertation Proposal Preparation.
 - Completion of a national presentation and/or a manuscript submitted for publication consideration.
 - Students may use three credits of dissertation hours (EDH 799) towards their residency.
 - Residency requirements must be fulfilled prior to the dissertation proposal defense. Students must review an outcomes checklist with their advisors prior to the proposal defense to verify completion of residency. Upon completion of residency students should have 9 to 12 dissertation credits remaining in the program of study.

Plan Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.

The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Doctor of Philosophy - Learning & Technology

The Learning and Technology Ph.D. is an academic program with an emphasis on the assessment and understanding of learning outcomes and processes in technology-rich learning environments and in modifying those environments in ways that promote more effective learning. Students take a common core of courses in three specialty areas: research methods and statistics, learning and cognition theory, and technology.

The overarching goal of the program is to prepare students to become independent scholars who will contribute to the advancement of the discipline of educational psychology and the field of educational technology. Graduates of the program will be prepared for a variety of professional positions (e.g., university and community college faculty positions, educational psychologists, learning and technology specialists, employee training specialists, program evaluators, educational technology coordinators, and instructional technology specialists).

Learning Outcomes

www.unlv.edu/degree/phd-learning-technology

Plan Admission Requirements

Admission will be limited to the most qualified applicants based on a combination of the following:

- An undergraduate grade point average of 3.00 or above.
- If graduate course work has been completed, a graduate grade point average of 3.00 or above.
- Preference given to students whose scores relate to the 50th percentile or better on the verbal and quantitative sections of the Graduate Record Examination (GRE).
- A score of 600 or above on the Test of English as a Foreign Language (TOEFL) is also required for students who do not speak English as their first language.
- Three letters of reference from university faculty or other individuals qualified to judge the applicant's academic potential.
- The applicant's statement of professional interests and goals.
- Graduate College application is available online.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 67

Course Requirements

- Required Courses – Credits: 4
 - EPY 701 - Proseminar in Educational Psychology
 - CIT 778 - Instructional Design
- Core Research Courses – Credits: 12
 - EPY 718 - Qualitative Research Methodologies
 - EPY 722 - Inferential Statistics and Experimental Design
 - EPY 723 - Theory and Practice of Human Measurement I
 - EPY 732 - Multiple Regression and Path Analysis
- Additional Research Course – Credits: 3
 - Complete one of the following courses:
 - EPY 716 - Evaluation Research Methods
 - EPY 719 - Advanced Qualitative Research
 - EPY 724 - Theory and Practice of Human Measurement II
 - EPY 726 - Advanced Evaluation Research Methods
 - EPY 729 - Qualitative Case Study Research
 - EPY 733 - Multivariate Statistics
 - EPY 738 - Interpretive Analysis of Text and Discourse
 - EPY 745 - Categorical/Nonparametric Data Analysis
 - EPY 746 - Multilevel Statistical Models: Theory and Application
 - EPY 747 - Large Scale Secondary Data Analysis
- Learning Courses – Credits: 9
 - EPY 757 - Theory and Philosophy of Educational Psychology
 - EPY 767 - Human Learning and Cognition
 - EPY 777 - Cognitive Development
- Technology Course – Credits: 3
 - CIT 770 - Advanced Seminar in Educational Technology Research
- Multimedia Course – Credits: 6
 - CIT 780 - Multimedia Learning Studio
- Elective Courses – Credits: 18
 - Student must take a minimum of 18 credit hours of learning and/or technology elective courses from the following list of courses, or other advisor-approved courses.
- Illustrative learning elective courses include but are not limited to:

- EPY 768 - Problem Solving, Reasoning, and Expertise
- EPY 770 - Cognition and Instruction
- EPY 787 - Individual Research (1-3 credits)
- EPY 789 - Seminar in Learning and Cognition
- EPY 791 - Special Topics in Educational Psychology
- PSY 703 - Cognitive Psychology (3 credits)
- Illustrative technology elective courses include but are not limited to:
 - CIT 608 - Integrating Technology in Teaching and Learning
 - CIT 643 - Designing Digital Materials for Education
 - CIT 647 - Creating Online Learning Environments
 - CIT 648 - Issues and Methods in Online Learning
 - CIT 653 - Creating Digital Materials for Education
 - CIT 667 - Technology and Educational Change
 - CIT 669 - Advanced Web Design and Development for Educators
 - CIT 772 - Technology in Teacher Education
 - CIT 782 - Distance Education Issues and Trends
- Dissertation – Credits: 12
 - EPY 799 - Dissertation

Degree Requirements

- Students must maintain a GPA of 3.00 or higher for all course work taken at the doctoral level.
- Residence Credit Requirement: A minimum of 50 percent of the total credits required to complete the doctoral degree not including transferred and dissertation credits must be earned at UNLV after admission to the doctoral degree program.
- Each student must satisfy a scholarly paper requirement by the time he or she has completed 36 credits (Review I). The student must be primarily responsible for carrying out and reporting a study under the supervision of a program faculty member. The requirement may be fulfilled in one of two ways. First, the study may involve the collection and analysis of some empirical data (for example, a pilot study) resulting in a scholarly paper that is submitted to either a professional journal or as a proposal to an annual conference of a national organization. Second, the paper may consist of a literature review that is submitted for publication in a quality, peer-reviewed journal or submitted for presentation at a national conference. Prior to beginning, projects must be approved by a supervising faculty member. Once completed, students must submit to the program coordinator(s): (a) a copy of the paper, (b) a submission acknowledgment, and (c) a completed Review I form from the supervising faculty member.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Students must successfully complete a preliminary examination. This formal assessment will focus on areas of knowledge that are most relevant to the student's dissertation topic. The student and his/her committee will determine the content of this examination. The student and his/her committee will determine the content of this examination format in that it will focus on in-depth reading and writing directly related to the student's proposed dissertation topic as well as on the student's mastery of previously learned core information.
- After successfully completing the scholarly paper requirement and preliminary examination, students can submit a formal dissertation proposal to their doctoral committee and submit the accompanying "Prospectus Approval" form from the Graduate College. The doctoral committee will determine the acceptability of the prospectus. Upon completion of the dissertation, a defense will be scheduled and conducted in accordance with the Graduate College's policies for thesis and dissertation completion.

Plan Graduation Requirement

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Dual Degree: Doctor of Philosophy - Special Education & Juris Doctor

The Doctor of Philosophy Degree (Ph.D.) is designed with an emphasis in the development of skills in scientific inquiry and leadership. Students enrolled in this study program gain an understanding of philosophy and theory as they relate to the conduct of research and program evaluation. Graduates pursue careers in schools, institutions of higher education, research centers and agencies that require the competencies developed through a Ph.D. course of study

Pursued individually, the J.D. degree requires the completion of 89 credit hours and the Ph.D. degree requires the completion of a minimum of 72 credit hours. The J.D./Ph.D. degree would require the completion of 80 law credit hours and a minimum of 63 education credit hours, as 9 hours of education courses are accepted toward the J.D. degree and 9 hours of law courses are accepted toward the Ph.D. degree

Learning Outcomes

www.unlv.edu/degree/dual-jd-phd-special-educatio

Plan Admission Requirement

Applicants to the J.D./Ph.D. program must submit formal applications for admission to both the William S. Boyd School of Law and to the Graduate College. Students must meet the requirements for admission to both programs. Admission requirements are the same as those stated under the regular J.D. and Special Education Ph.D. programs

A dual program candidate must complete the Graduate College, Law School and Special Education Ph.D. admission processes in order to matriculate. Successful completion of the first year of law school is a precondition to commencement of work on the Ph.D. program. A law school student may be admitted to the dual program by gaining admission to the Special Education Ph.D. program after successful completion of the first year of law school with the consent of both programs

Students interested in the dual program should alert Graduate College admission personnel when commencing the admission process. Students interested in the Dual Degree Program should alert the Special Education Ph.D. Admissions Coordinator so that consultation on the admissions process can be initiated

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements

Plan Requirement

Total Credits Required: 14

Course Requirements

- Total Credits Required for the Doctor of Philosophy – Special Education: 63
- Required Courses – Credits: 21

- ESP 782 - Professional Seminar in Special Education
- ESP 783 - Leadership Seminar in Special Education
- ESP 784 - Seminar in Advanced Special Education Technology
- ESP 785 - Issues, Trends and Futures in Special Education
- ESP 787 - Philosophical Perspectives in Special Education
- ESP 788 - Single Subject Methods in Special Education
- ESP 789 - Grant Writing for Human Services
- Research Courses – Credits: 6
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
 - ESP 791 - Proposal Design and Analysis
- Statistics Course – Credits: 3
 - Complete one of the following courses, or another advisor-approved equivalent course.
 - EPY 722 - Inferential Statistics and Experimental Design
 - KIN 751 - Selected Application of Statistical Techniques I
- Additional Research Courses – Credits: 6
 - Complete 6 credits from the following list of courses, or other advisor-approved courses.
 - EPY 716 - Evaluation Research Methods
 - EPY 718 - Qualitative Research Methodologies
 - EPY 733 - Multivariate Statistics
 - EPY 790 - Research Seminar in EPY
 - KIN 752 - Selected Application of Statistical Techniques II
- Internship Course – Credits: 6
 - ESP 794 A-C - Internship in Special Education
 - ESP 794 A-C - Internship in Special Education
- Leadership & Exceptionality Courses – Credits: 6
 - Complete 6 credits of advisor-approved leadership and exceptionality courses from one or more of the following leadership concentrations: Parenting, Administration, Research, Diagnosis/Assessment, Transition, Early Childhood Special Education, Early Childhood Education, Higher Education, Technology, Consultation, or Curriculum.
 - Complete credits in specialty areas from the following list: Autism, Learning Disabilities, Emotional Disturbance, Mental Retardation, Gifted and Talented Education, Developmental Disabilities/Children at Risk.
- Prospectus Course – Credits: 3
 - Complete the following course as an independent study supervised by the advisor.
- ESP 796 - Dissertation Prospectus
- Dissertation – Credits: 12
 - ESP 799 - Dissertation
- Total Credits Required for the Juris Doctor: 80
 - Required Courses – Credits: 44
 - Directed Electives – Credits: 9
 - Free Electives – Credits: 27

Degree Requirements

- Students must be admitted to both the J.D. and Ph.D. programs with graduate standing. The candidates must successfully complete the 80 credit hours of Law course work and 63 credit hours of the Ph.D. required course work.
- William S. Boyd School of Law cannot award credit for any class taken before matriculation. J.D./Ph.D. candidates are required to enroll at the Boyd School of Law and complete one year of study before taking any Ph.D. courses.
- The Ph.D. program of study requires a minimum of 63 semester hours. Only credits that meet the following criteria may be included on the formal Program of Study:
- Those not previously used to fulfill requirements for another degree;

- Those taken while enrolled at an accredited graduate degree-granting institution in a degree-granting program;
- Those taken as a non-degree seeking student (not to exceed 15 total semester hours); and
- Those for which a grade of B or higher was earned.
- Students in the J.D./Ph.D. program must remain in good standing in both J.D. and Ph.D. programs.
- Doctoral students must earn a grade of B or higher in all core curriculum courses.
- Doctoral Students must earn a grade of B or higher in EPY 721 and EPY 722/KIN 751.
- Doctoral students are required to spend a minimum of two consecutive semesters (Fall-Spring, Spring-

Summer or Summer-Fall) in full-time resident study in the Department of Educational and Clinical Studies. Full-time resident study is defined as being enrolled in at least nine semester hours of graduate level course work from an approved Program of Study (six semester hours if the student is a graduate assistant). In cases where residency includes a semester of course work prior to submission of the Program of Study, the advisor must approve residency. Work during residency is allowed. However, if the student is employed as a graduate assistant, any additional work beyond that performed as an assistant must conform to the rules of the University and Graduate College.

Two-thirds of the total semester hours included on the formal Program of Study (not including dissertation) must be taken at UNLV. Faculty members of the Department of Educational and Clinical Studies instructing specialist's and/ or master's classes initiate an interaction with doctoral students enrolled in these courses regarding the appropriateness of both the content and performance requirements for doctoral students. Students not admitted to the doctoral program in Educational and Clinical Studies (or to another doctoral program in the College of Education) may enroll in: ESP 782 - Professional Seminar in Special Education (formerly ESP 760) and two additional Core Curriculum Courses with consent of instructor prior to formal admission

The Educational and Clinical Studies Doctoral Colloquium typically is held one Friday each semester. The Doctoral Coordinator coordinates these meetings with the assistance of the special education faculty and doctoral students.

The comprehensive examination is taken during the semester immediately preceding enrollment in ESP 799 Dissertation. The comprehensive examination consists of 16 hours of written examinations with eight hours structured by the student's major advisor and eight hours structured by the other internal committee members. The examinations are scheduled on two successive Fridays. The student's advisor determines the specific dates of the examination. The questions on the comprehensive examination address elements of the Core, Research, Leadership Studies, Exceptionality Specialties, and any course work taken for licensure or endorsements. The student's Doctoral Studies Committee provides general parameters from which questions are selected. "Take-home" examinations, in whole or in part, are not allowed. Students may use college provided technology for word-processing. Grading consists of three categories: Pass, Fail, and Pass with Distinction. Pass with Distinction occurs contingent upon a unanimous vote of the committee excluding the Graduate College representative. Students who fail the comprehensive examination will be placed on probation and must wait 4 months from the date of the failed examination to re-write their exam. However, under no circumstances may the reexamination be later than the semester following the failed examination. Students not passing the comprehensive examination on the re-write will be "excused" from the program.

Upon successful completion of comprehensive examination, the student selects a dissertation committee (i.e., minimum of three faculty members from the Department of Educational and Clinical Studies, one law school faculty member, and an outside member appointed by the Graduate College) and submits a dissertation proposal to the committee. This proposal includes an introduction, review of the literature, and a discussion of study methods. The Dual Degree Program Coordinator will sit on all dissertation committees. Two weeks after this proposal is submitted to the dissertation committee, the committee meets with the student to accept or reject the proposal, as well as

provide a critique of its relative strengths and weaknesses. Upon acceptance of the student's dissertation proposal, a recommendation for advancement to candidacy is submitted to the Graduate College.

Upon completion of the full dissertation, a defense is scheduled. Students need to obtain The Guide to Preparing and Submitting a Thesis or Dissertation from the Graduate College web site.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Educational Psychology and Higher Education Courses

EDH 602 - Research Based Decision Making

Credits 3

This master's level course assists students in how to integrate information from reports, research, surveys, and other forms of data into effective leadership and management decision making processes. The methods and processes for deciphering information will help students detail the strengths and weaknesses of informational sources that administrators commonly encounter. **Formerly:** EDH 702 **Notes:** (Master's Program)

EDH 603 - Role of Intercollegiate Athletics in Higher Ed

Credits 3

Examine the role intercollegiate athletics plays in higher education. Through analysis of relevant scholarly literature and current issues, students will experience the expectations placed on higher education administrators responsible for integration and oversight of college sport programs.

EDH 604 - Management Communications

Credits 3

Master's level course on the administrative and communication aspects of effective leadership within a higher education setting. Equips students with the tools necessary to be effective communicators with various audiences via letters, memorandums, E-mail messages, presentations, and meetings. **Formerly:** EDH 704 **Notes:** (Master's Program)

EDH 605 - Introduction to Colleges and Universities

Credits 3

Master's level course that provides an introduction to the purposes, goals, and structures of institutions of higher education. Provides a broad view of managerial functions and an understanding of organization, finance, and other issues related to college administration. **Notes:** Master's program

EDH 607 - Leadership Development Seminar

Credits 3

Analyzes leadership functions related to educational organizations, leadership and management theory and the impact of human resources. Special emphasis placed on use of teams in higher education. **Formerly:** EDH 728

EDH 608 - HE Law-Masters

Credits 3

Informs students of various legal authorities and their impact on higher education and administration. Includes review and analysis of legal dictates including federal and state constitutions, statutes, case law policies, and administrative rules. **Formerly:** EDH 751 **Notes:** (Master's Program)

EDH 609 - Leading Diverse Organizations

Credits 3

Provides students with opportunity to reflect on experiences, examinations of theory, and practical application of organizational leadership within the context of diversity. **Formerly:** EDH 761

EDH 610 - Master's Capstone Experience

Credits 1

Provides an integrative, synthesizing experience for students culminating in a written examination or an Option II Paper. Draws on and integrates concepts from previous courses and work experiences to ascertain the big picture perspective of higher education. **Formerly:** EDH 798 **Notes:** Only one credit may count toward degree plan.

Grading: S/F grading. (Master's Program)

EDH 611 - Marketing Institutions of Higher Education

Credits 3

A study of the conceptual and empirical approaches higher education leaders can utilize for building relationships with stakeholders. Topics include commercialization of higher education, market forces versus public interest, responsible innovation, strategic marketing plan development, corporate sponsorships and intercollegiate athletics, marketing ethics, as well as application of market research in the higher education contexts.

EDH 618 - Facilities Management and Campus Planning

Credits 3

This course familiarizes students with facilities management, campus planning, and public/private partnerships. The goal of the class is to increase the awareness and understanding of the topic areas and their impact on both the academic and administrative programs at higher education institutions. **Formerly:** EDH 712

EDH 619 - Institutional Advancement

Credits 3

Introduction to fundraising and alumni relations operations in contemporary higher education. Examines the assumptions, models, and methods that characterize fund and friend raising. Students will develop a context within which to evaluate the effectiveness of IA programs. **Formerly:** EDH 718

EDH 624 - Readings in Student Personnel Issues

Credits 3

Explores in detail all aspects of college student personnel work by conducting an extensive review of writings related to theory, practice, and program management. **Formerly:** EDH 734. **Prerequisites:** Consent of instructor.

EDH 626 - College Student Personnel Services

Credits 3

Introduction to the field of college student personnel services and the role of CSPW within institutions of higher education. Reviews development of the profession and assessment of current developments. **Formerly:** EDH 762

EDH 627 - Student Learning and Development

Credits 3

Explores how students learn and develop. Strategies to facilitate learning by college students analyzed. Focuses on application of student development theory. **Formerly:** EDH 764

EDH 630 - Program Evaluation, Planning & Assessment

Credits 3

Familiarizes students with the relationship between campus environment and student learning.

EDH 690 - Masters Internship

Credits 3

Individually structured program designed to enroll the student in an administrative unit or academic experience under the joint supervision of a practicing administrator or faculty member and a university professor. **Notes:** Repeatable to six credits. **Grading:** S/F grading only.

EDH 691 - Masters Independent Study**Credits 3**

Research in area of unique interest in college student personnel work. Research conducted in cooperation with instructor. **Notes:** Repeatable to six credits. **Corequisite:** Consent of instructor.

EDH 703 - History of American Higher Education**Credits 3**

Surveys the history of American higher education in the United States with a focus on two-year and four-year institutions, public and private. Begins with its traditional liberal arts origin through the growth of the community college and American research university. Explores how various groups changed the structure of higher education and the challenges these changes created. **Prerequisites:** Master's consent of instructor.

EDH 705 - HE Law-Doctoral**Credits 3**

Designed for graduate students preparing for leadership positions in public schools. **Formerly:** EDH 752. **Prerequisites:** Consent of instructor.

EDH 706 - Current Issues in Higher Ed**Credits 3**

Assists graduate students in higher education in developing understanding of and appreciation for philosophical and sociological contexts that provide foundation for present system of higher education in America.

EDH 707 - Designing & Critiquing Research In Education**Credits 3**

Helps Ph.D. students become more thoughtful about the goals and methods of educational research. Develops in-depth understanding of research design and awareness of issues considered when critiquing research findings.

EDH 708 - The American Community College**Credits 3**

Development of the contemporary community, junior, and technical college. In-depth examination of history, philosophy, curriculum, and structure of the two-year college. Includes related curriculum topics. **Prerequisites:** Consent of instructor.

EDH 709 - Seminar in the Economics of Higher Education**Credits 3**

Designed to expose students to the basic principles of micro economics and fundamental economic theories that tie to education. Students have opportunity to experiment with economics as a tool for examining higher education policy. **Prerequisites:** Consent of instructor.

EDH 710 - Finance and Budgeting in Higher Education**Credits 3**

For students who expect to spend their careers in higher education. Provides understanding of the principals related to the economics of education including why society invests in colleges and universities.

EDH 715 - Theory of Educational Organizations**Credits 3**

Intense discussion in understanding how higher educational organizations function. Students examine these roles as they relate to the performance of higher education administrators.

EDH 730 - Legal Aspects of Student-University Relationship**Credits 3**

Advanced issues course that explores topics relevant to the legal aspect of the student-university relationship. **Formerly:** EDH 784. **Prerequisites:** Master's consent of instructor.

EDH 732 - Readings in Administration of Higher Education

Credits 3 – 6

Selected readings of literature in higher education; assigned topics in the areas of organization, administration, finance, and/or supervision, agreed upon by both advisor and student. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Consent of instructor.

EDH 733 - The Professorate

Credits 3

Designed to engage participants in discussion, research, and writing that focuses on college and University faculty. Analyze faculty as people at work in organizations, consider structural and cultural dimensions of faculty work, and examine the condition of the academic profession within changing environmental contexts. **Formerly:** EDH 760. **Prerequisites:** Masters consent of instructor.

EDH 735 - Law and the Professorate

Credits 3

Legal aspects of the relationship between university faculty and the institution. **Prerequisites:** Master's consent of instructor.

EDH 737 - Ethical Dimensions of Higher Education Leadership

Credits 3

Ethical aspects of the culture, activities, and principles relating to leadership in higher education. Students will explore current ethical issues in the post-secondary education setting and prepare a written project focusing on the ethical principles of a higher education leadership issue. **Prerequisites:** Masters consent of instructor.

EDH 738 - Public Policy in Higher and Post-Secondary Education

Credits 3

Focuses on decision making and public policy formation in higher education. Roles of state and national policy-making process studied in depth. **Formerly:** EDH 792. **Prerequisites:** Master's consent of instructor.

EDH 739 - Organization Change & Innovation in Higher Education

Credits 3

Introduces students to philosophical and application tools in which to view public policy. Students will examine higher education policy utilizing these different tools and national databases. **Prerequisites:** EDH 792

EDH 740 - Comparative and International Higher Education

Credits 3

Familiarizes students with international higher education systems. The goal of the course is to examine the similarities and differences of the international systems as they relate to higher education in the United States. **Prerequisites:** Master's consent of instructor.

EDH 742 - Academic Governance in Higher Education

Credits 3

Theoretical and working knowledge of politics in higher education. Students gain appreciation, understanding and critique of politics and its influences on policy formation. **Formerly:** EDH 787. **Prerequisites:** Master's consent of instructor.

EDH 745 - Institutional Planning in Higher Education

Credits 3

Familiarizes students with institutional planning in higher education with a focus on issues including academic strategy, university management, institutional competition, program evaluation/assessment, and program/institutional accreditation. Planning issues at community colleges, private four-year institutions, and public four-year institutions will be examined.

EDH 750 - Special Topics in Higher Education**Credits 1-3**

Exposes students to and helps them understand special topics that impact and influence higher education. Variety of special topics offered: student financial aid, enrollment management, academic organization and leadership, and student diversity. **Notes:** May be repeated to a maximum of nine credits. **Prerequisites:** Consent of instructor.

EDH 769 - Diverse Student Populations in Higher Education**Credits 3**

Investigates traditional assumptions, including that college makes a difference and explores student-related issues, study of campus cultures, and study of diverse student populations.

EDH 780 - Seminar: Teaching in Higher Education**Credits 3**

Weekly seminars in organization, materials, and procedures related to working with college-level students. Includes survey of various teaching techniques, evaluation, and general patterns of instruction.

EDH 785 A - Practitioner Experience Seminar**Credits 3 – 9**

Follows a three-course sequence that combines seminar discussions along with limited practical experience in an administrative office or department of a postsecondary institution. The three seminars center on academic affairs, student services and finance, and administration. **Prerequisites:** Completion of doctoral core. (Ed.D. Program)

EDH 785 B - Practitioner Experience Seminar**Credits 3 – 9**

Follows a three-course sequence that combines seminar discussions along with limited practical experience in an administrative office or department of a postsecondary institution. The three seminars center on academic affairs, student services and finance, and administration. **Prerequisites:** Completion of doctoral core. (Ed.D. Program)

EDH 785 C - Practitioner Experience Seminar**Credits 3 – 9**

Follows a three-course sequence that combines seminar discussions along with limited practical experience in an administrative office or department of a postsecondary institution. The three seminars center on academic affairs, student services and finance, and administration. **Prerequisites:** Completion of doctoral core. (Ed.D. Program)

EDH 790 - Doctoral Internship**Credits 3**

Individually structured program designed to enroll the student in an administrative unit or academic experience under the joint supervision of a practicing administrator or faculty member and a university professor. **Notes:** Repeatable to six credits. **Grading:** S/F grading. **Prerequisites:** Internship-doctoral.

EDH 791 - Doctoral Independent Study**Credits 3**

Research in area of unique interest in college student personnel work. Research conducted in cooperation with instructor. **Notes:** Repeatable to six credits. **Prerequisites:** Consent of instructor.

EDH 796 - Dissertation Proposal Preparation**Credits 3**

Acquaints students with resources available to graduate students in conceptualizing, proposing, conducting and reporting research proposals. **Prerequisites:** Successful completion of comprehensive examination.

EDH 799 – Dissertation**Credits 1 – 3**

Culminate research analysis and writing toward completion of dissertation and subsequent defense. **Prerequisites:** Limited to doctoral candidates, consent of instructor.

EPP 710 - Assessment of Intelligence by School Psychologists

Credits 3

Theory and practice in the use of assessment measures for evaluating intellectual abilities of children, youth, and adults. **Prerequisites:** Admission to program or consent of instructor.

EPP 715 - Projective, Personality, and Behavioral Assessment by School Psychologists**Credits 3**

Assessment devices used by school psychologist to evaluate student's emotional and behavioral status.

Prerequisites: Admission to program or consent of instructor.

EPP 720 - Problems in Child Development**Credits 3**

Application of the principles in child growth and development; interpretation of research and theory of school practices relating student personnel services to the resolution of professional problems in the school. **Prerequisites:** Graduate standing or consent of instructor.

EPP 723 - Diagnostic and Prescriptive Strategies: Psychopathology**Credits 3**

Designed to explore variables and intervention strategies with emphasis on assessment-based interventions and focus on brief counseling theories and techniques for school psychologists and other school-based practitioners.

Formerly: (EPC 723). **Prerequisites:** Admission to doctoral program or consent of instructor.

EPP 750 - Advanced Test Analysis in School Psychology**Credits 3**

Functional and theoretical approach for interpretation and inquiry applications with cognitive and affective scales typical in school-based practice. Emphasis on advanced statistical analysis for synthesizing data in diagnostic and validation studies. **Prerequisites:** Admission to doctoral program or consent of instructor.

EPP 760 - Psychoeducational Issues of Diverse Learners**Credits 3**

Provides skills needed to work with diverse learners in a psychoeducational setting. The learner will be expected to understand multicultural issues concerning assessment, counseling, second-language acquisition, and/or general cultural diversity. **Prerequisites:** Admission to program or consent of instructor.

EPP 761 - Role and Function of the School Psychologist**Credits 3**

Primarily designed for prospective school psychologists but also for those interested in field of school psychology. In-depth survey of field with its related problems and issues. Local, regional, and national issues studied from a practical field perspective. **Prerequisites:** Consent of instructor.

EPP 762 - School Psychology Intervention with Practicum**Credits 3**

Supervised practice with children in school and clinic settings with intervention recommendations. **Notes:** May be repeated up to a maximum of nine credits. **Prerequisites:** Admission to program and consent of instructor.

EPP 763 - Psychoeducational Academic and Diagnostic Assessment**Credits 3**

Teaches students how to effectively perform psychological, academic, and diagnostic testing as part of a general psychoeducational evaluation. Students will also be given skills in diagnosing educational and psychological disorders. **Prerequisites:** Admission to program or consent of instructor.

EPP 764 - School Psychology Seminar**Credits 1**

Review of issues and research in the field of school psychology. **Notes:** May be repeated to a maximum of four credits. **Prerequisites:** Consent of instructor.

EPP 765 - Advanced Assessment Seminar:

Credits 1 – 9

Designed to provide functional skills in assessment in the diagnosis and evaluation phase of counseling to provide skills in the administration, scoring, and interpretation of clinical instruments. **Prerequisites:** Admission to program or consent of instructor.

EPP 766 - School Psychology Professional Paper**Credits 2**

Scholarly paper on a topic pertinent to the profession of school psychology. **Prerequisites:** Admission to program and consent of instructor.

EPP 767 - School-Based Neuropsychological Assessment**Credits 3**

Provides functional skills in neuropsychological assessment for school psychologists with attention to organization of the human nervous system, brain-behavior relationships, and developing recommendations for instructional interventions based on neurocognitive strengths and weaknesses.

EPP 769 - Internship in School Psychology**Credits 3**

Supervised school-based experience as a school psychologist intern. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** EPP 761 (may be taken concurrently).

EPP 773 - Social Science Contributions in Education**Credits 2**

Utilization of theory, data, and methodology from various social sciences to gain an appreciation and understanding of the forces and interactions among societies, institutions, and individuals in the realm of educational theory and pedagogy. A) Anthropological perspectives. B) Sociological perspectives. C) Economic perspectives. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Consent of instructor.

EPY 699 - Special Topics

Graduate credit may be obtained for courses designated 600 or above. A Full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

EPY 700 - Special Problems: EPY**Credits 1 – 6**

Specialized instruction in general professional education designed to develop depth in understanding of current EPY problems. **Notes:** May be repeated to a maximum of six credits.

EPY 701 - Proseminar in Educational Psychology**Credits 1 – 2**

Introduction to graduate studies in educational psychology. Topics may include, but are not limited to: teaching apprenticeship, professional organizations, creating a vita, evaluation and assessment, institutional review board training, peer review process, use of PsychInfo and other topics relevant to graduate studies. **Notes:** May be repeated to a maximum of two credits. **Prerequisites:** EPY 702 (may be taken concurrently) or equivalent.

EPY 702 - Research Methods**Credits 3**

Early entry graduate-level survey of research methods with emphasis on comprehension of educational research literature. Includes scientific method, locating and summarizing published research, sampling, measurement, statistics, research design, and critique of published research

EPY 703 - Teachers as Producers and Consumers of Educational Research**Credits 3**

Entry graduate-level survey of research methods with a dual emphasis on 1) comprehension of educational research literature (teachers as consumers of educational research) and 2) designing and conducting classroom-based research (teachers as producers of educational research).

EPY 705 - Child Counseling**Credits 2**

Focuses on children's position in and impact upon the family, emotional development, assessment of behavioral and emotional problems, adjustment issues at school and social/developmental situations. Models of counseling children, models of parent education, and models of parent and school interaction, ethical and legal responsibilities in regard to children, and current research presented. **Prerequisites:** Graduate standing or consent of instructor.

EPY 707 - Adolescent Development**Credits 3**

Examines physical, cognitive, social, and moral development of adolescents. Theories of identity development, including ethnic identity development, and their applications to counseling, education, and curriculum development discussed. Social relations, aspects of sexuality, and special problems/issues of adolescence.

EPY 708 - Human Learning and Development**Credits 3**

Graduate-level introduction to basic concepts in educational psychology with emphasis on development, learning, and motivation. **Prerequisites:** Undergraduate degree not in behavioral science or consent of instructor.

EPY 709 - Classroom Assessment**Credits 3**

Compares and contrasts traditional and alternative assessment procedures including factors such as: philosophical basis, purposes, roles of teacher, student and administrators, interpreting and reporting results, and strengths and limitations. The role of assessment in promoting learning also discussed. **Prerequisites:** EPY 707 or EPY 708 (may be concurrent) or consent of instructor.

EPY 710 - Survey Methods and Design**Credits 3**

Systematic analysis of survey design and research conducted using survey techniques with emphasis on how to effectively plan and conduct mail, electronic, and other self-administered. **Prerequisites:** EPY 702 or consent of instructor.

EPY 711 - Human Growth and Development**Credits 3**

Emphasis on implications of human growth and life-span development (childhood through adulthood) for counseling, research and instruction. Topics include prenatal development and birth, death and dying, and physical, perceptual, cognitive, moral, personality, and language development. **Prerequisites:** EPC 701 or consent of instructor.

EPY 712 - Foundations of Learning and Cognition**Credits 3**

Systematic analysis of concepts and principles of human learning with emphasis on their application to instruction and counseling. Topics include classical and operant conditioning, information-processing and memory, the neurophysiology of learning, and personality and social factors in learning.

EPY 716 - Evaluation Research Methods**Credits 3**

Addresses the definition and purposes of evaluation research including its potential uses and limitations. Examines models of evaluation research and their application in a variety of settings. **Notes:** Students are strongly encouraged to complete EPY 711 prior to enrolling in this course. **Prerequisites:** EPY 702 and 721 (may be taken concurrently).

EPY 717 - Analysis of Applied Learning Principles and Educational Media**Credits 3**

Introduction to the processes and products of educational media development/selection through the study of contributions, evaluation criteria, and production requirements essential for optimal learning situations. Includes practice in applying learning principles to educational media.

EPY 718 - Qualitative Research Methodologies**Credits 3**

Qualitative approaches to exploring phenomena related to educational and other social contexts. Attention given to theoretical and practical considerations of case studies, ethnographies, participant observation and narrative reports; discussion of criteria for establishing goodness of qualitative studies. **Notes:** Field work using qualitative methods required. **Prerequisites:** EPY 702

EPY 719 - Advanced Qualitative Research**Credits 3**

Qualitative approaches to exploring phenomena related to educational and other social contexts. Analysis of data and presentation of findings. Specific emphasis on analysis of discourses from participant observation and/or interview data. **Notes:** Field work using qualitative methods may be required. **Prerequisites:** EPY 702 and EPY 718

EPY 720 - Research Design in Education**Credits 3**

Principles of research design as applied to empirical data with particular emphasis on quantitative data analysis and interpretation. Includes research design, data collection, data analysis and research report. **Prerequisites:** Epy 702, EPY 721 and consent of instructor.

EPY 721 - Descriptive and Inferential Statistics: An Introduction**Credits 3**

Descriptive indices of central location and dispersion, correlation and regression, hypothesis testing and basic inferential techniques. Emphasis on intuitive understanding and applications in educational/behavioral measurement and research.

EPY 722 - Inferential Statistics and Experimental Design**Credits 3**

Intermediate- level coverage of inferential statistics and experimental design analysis covering commonly used techniques in educational and behavioral research with computer applications. **Prerequisites:** EPY 721

EPY 723 - Theory and Practice of Human Measurement I**Credits 3**

Measurement of human characteristics using applications of classical measurement theory and introduction to the more recent item response theory models. Topics include test planning, scaling, item and test construction, item analysis, reliability and validity. **Prerequisites:** EPY 721 (EPY 721 may be taken concurrently).

EPY 724 - Theory and Practice of Human Measurement II**Credits 3**

Human measurement emphasizing methods of test and trait validation. Topics include factor analysis, discriminant analysis, item response theory, test equating, and current issues in measurement. **Prerequisites:** EPY 721, 722, 723 (EPY 722 may be taken concurrently).

EPY 725 - Item Response Theory and Applications**Credits 3**

Introduction to item response theory (IRT) and applications. Models and assumptions, item parameter and person ability estimation, scale construction and selected computer applications of IRT to educational measurement.

Prerequisites: EPY 723 and EPY 724

EPY 726 - Advanced Evaluation Research Methods**Credits 3**

Addresses application of evaluation research theory and methods through a project-bases curriculum in order to provide in-depth examination of essential elements of the evaluation process. **Prerequisites:** EPY 716

EPY 728 - Applied Classroom Research**Credits 3**

Provides students with basic knowledge and skills necessary to conduct research within a classroom. Introduces elements required to begin and conduct an action research project, including purpose/rationale, literature review, data collection, analysis and interpretation, and communicating results. **Prerequisites:** EPY 702 or EPY 703 and EPY 718

EPY 729 - Qualitative Case Study Research

Credits 3

Focuses on case studies within education. Students conduct in-depth, naturalistic case studies in educational settings to learn about theory, methodology, and methodological issues relevant to disciplined qualitative case study. Conducting interviews, data collection, coding, and analysis in a qualitative case study design. **Prerequisites:** EPY 702 and EPY 718

EPY 730 - Advanced Research Methods

Credits 3

Compares strengths and weaknesses of experimental research designs, using this knowledge to improve design sensitivity. Includes hypothesis testing, threats to validity, power, and effect size. Considers controversies in quantitative research literature. **Prerequisites:** EPY 702, EPY 721 and EPY 722.

EPY 732 - Multiple Regression and Path Analysis

Credits 3

Intermediate-level inferential statistics for experimental and non-experimental educational research covering general linear models including analysis of variance, regression (simultaneous, variable-selection, hierarchical approach), and path analysis, integrated with the use of statistical computer packages. **Prerequisites:** EPY 722

EPY 733 - Multivariate Statistics

Credits 3

Advanced-level statistics including commonly used multivariate statistical procedures in educational and behavioral inquiries with computer applications. **Prerequisites:** EPY 722, EPY 730 (EPY 730 may be taken concurrently).

EPY 734 - Latent Variable Models: Factor Analysis and SEM

Credits 3

Designed for those who want to become familiar with applied latent variable modeling and popular computer programs used to carry out the analysis. Topics include exploratory and confirmatory factor analysis and structural equation models with observed and/or latent variables and with single or multiple groups. **Prerequisites:** EPY 721, EPY 732 or consent of instructor.

EPY 736 - History of Education in the United States

Credits 3

Story of factors and conditions which have been influential in shaping educational thought, ideals, theories, and practices of current American education.

EPY 737 - Social Foundations in Education

Credits 3

Study of schools and other socialization agents as they interact within the community and the larger society. Also includes intercultural education.

EPY 738 - Interpretive Analysis of Text and Discourse

Credits 3

Qualitative approaches to text and discourse analysis from different theoretical perspectives will be contrasted. Data from various textual and discourse oriented sources including narratives, audio and/or video tapes, and written artifacts analyzed in depth through hands-on projects. May include use of software programs specific to qualitative data analysis. **Prerequisites:** EPY 702 or 703 and EPY 718, or equivalent.

EPY 741 - Essential Relationship Skills for College Teaching

Credits 3

Focuses on developing helping relationships between educators and adult learners. Presents conceptual basis for theories of effective helping, communication skills, conditions and issues affecting helping relationships, educator as reflective practitioner, and self-motivation in adult learners, providing a forum for interdisciplinary interaction common to all helping professionals. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Graduate standing.

EPY 745 - Categorical/Nonparametric Data Analysis

Credits 3

Introduction to categorical/nonparametric data analysis, for use in small samples or when cases consist of categories or ranks. Topics include contingency tables (including loglinear models), nonparametric tests for ordinal and interval data, logistic and Poisson regression. **Notes:** Project involving analysis of the student's own research data may be required. **Prerequisites:** EPY 721, EPY 722, and EPY 732.

EPY 746 - Multilevel Statistical Models: Theory and Application

Credits 3

Intermediate-level coverage of linear and non-linear multilevel statistical models. Includes coverage of status and growth models. Emphasis on intuitive understanding and practical application. **Prerequisites:** EPY 721, EPY 722, and EPY 732.

EPY 747 - Large Scale Secondary Data Analysis

Credits 3

Introduction to large scale secondary data analysis. Examination of the promise and pitfalls of working with secondary data sources. Overview of data management and analysis issues. **Notes:** Practical skill development emphasized. **Prerequisites:** EPY 721, EPY 722, and EPY 732.

EPY 749 – Thesis

Credits 3 – 6

Notes: May be repeated but only six credits applied to the student's program. **Grading:** S/F grading only.

Prerequisites: EPY 702.

EPY 757 - Theory and Philosophy of Educational Psychology

Credits 3

Evolution of psychological learning theories, from their philosophical foundations to the present. Central issues include how psychological constructs such as the mind, knowledge representation, and attention impact learning and changes in our understanding of the nature of these constructs over time. **Prerequisites:** Graduate standing.

EPY 760 - Advanced Seminars in School Counselor Education and Practice

Credits 3

Analysis of significant issues in counseling of current and continuing concern. Examination of historical, social, legal and philosophical dimensions of selected problem areas. **Formerly:** (EPC 760). **Prerequisites:** Consent of instructor.

EPY 767 - Human Learning and Cognition

Credits 3

Components of human memory and how these components affect learning. Emphasis placed on recent research and theory in working memory and long-term storage. Instructional implications of research discussed, especially with respect to skill acquisition, development of expertise, and cognitive strategy instruction. **Prerequisites:** Graduate standing.

EPY 768 - Problem Solving, Reasoning, and Expertise

Credits 3

Acquisition of reasoning and problem solving expertise. Emphasis on models of memory and learning and their implications for expert performance in a variety of domains. Discusses issues such as creativity and intelligence, implications of the literature on expert performance for teaching and learning. **Prerequisites:** Graduate standing.

EPY 770 - Cognition and Instruction

Credits 3

Examines research in the application of cognitive learning principals to instruction in specific domains, particularly reading, writing, mathematics, and science. Research on technological applications especially emphasized. Readings include both foundational and current research. **Prerequisites:** Graduate standing.

EPY 772 - Contemporary Philosophies of Education**Credits 3**

Intensive critical analysis of leading contemporary philosophies of education and their possible implications for practice.

EPY 777 - Cognitive Development**Credits 3**

Overview of major theories, issues, and research in cognitive development. Primary emphasis on development of thinking and learning from childhood through adulthood. **Prerequisites:** Graduate standing.

EPY 780 - Individual Instruction**Credits 1 – 12**

Selected basic problems related to the field of counseling services. A) Testing. B) Curriculum. C) Supervision. D) Counseling. E) Area Problems. F) Research. **Notes:** May be repeated to a maximum of 12 credits.

EPY 781 - Research in Educational Psychology**Credits 3**

Individual research projects in educational psychology under the direction of a faculty member. **Notes:** May be repeated to a maximum of 12 credits. **Prerequisites:** EPY 702, EPY 721, EPY 722 and consent of instructor.

EPY 782 - Independent Study**Credits 3**

Independent study of a selected topic in educational psychology under the direction/supervision of a faculty member. **Notes:** May be repeated to a maximum of 12 credits.

EPY 783 - Directed Readings in Educational Psychology**Credits 3**

In-depth study of a topic through selected readings under the direction of a faculty member. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** EPY 767

EPY 784 - Teaching Practicum**Credits 3**

Individual study under the direction of a faculty member focusing on preparing to teach at the college level. **Prerequisites:** EPY 723 or EPY 767 and consent of instructor.

EPY 786 - Applied Assessment in Educational and School Psychology**Credits 1 – 4**

Application of assessment approaches used for the evaluation of students in school settings. **Notes:** May be repeated to a maximum of four credits.

EPY 787 - Individual Research**Credits 1 – 7**

Selected basic problems in personnel services. **Prerequisites:** EPY 702

EPY 788 - Seminar in EPY**Credits 1 – 6**

Selected topics in counseling and human development services. A) Principles and practices. B) Individual analysis. C) Occupational information. D) Placement. E) Follow-up evaluation. F) Research. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Consent of instructor.

EPY 789 - Seminar in Learning and Cognition

Credits 3 – 12

Selected topics in learning and cognition. Exploration of a specific aspect of learning and cognition. Topics may include, but are not limited to: memory, learning theory, motivation, text processing, individual differences, epistemological beliefs. **Prerequisites:** EPY 767 or consent of instructor.

EPY 790 - Research Seminar in EPY

Credits 1 – 3

Seminar for the advanced candidate stressing the exploration of current literature and research projects.

Prerequisites: Consent of advisor and instructor.

EPY 791 - Special Topics in Educational Psychology

Credits 3

In-depth study of special topics in educational psychology stressing the exploration of cutting-edge research on the topic. Topics may include, but are not limited to: false memory, goal theory, self-regulated learning, web-based data collection, discourse analysis. **Notes:** May be repeated to a maximum of twelve credits. **Prerequisites:** Consent of instructor.

EPY 793 - Advanced Doctoral Practicum Credits 3 – 6

Advanced practice supervised experience for doctoral students in school psychology and counseling. **Notes:** May be repeated to a total of six credits. **Prerequisites:** Consent of instructor.

EPY 794 – Internship Credits 3 – 6

Final activity intended to provide on-the-job experience in developing related competencies. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Consent of instructor.

EPY 799 – Dissertation Credits 3–24

Culminating experience that may be: a) traditional, original research, b) field oriented and problem solving, or c) exploratory or generative research. Limited to doctoral candidates. 3-24 credits in increments of three. **Notes:** May be repeated but only a maximum of 24 credits may be applied towards degree. **Grading:** S/F grading only.

Educational and Clinical Studies

The Department of Educational and Clinical Studies offers graduate degree programs at the master's, specialist, and doctoral levels in special education, early childhood education, and counselor education. All graduate programs are designed to provide the professional experiences required by teachers, specialists, administrators, and future professors of special education, early childhood education, and counselor education.

Tom Pierce, Ph.D., Chair

Kyle Higgins, Ph.D., Graduate Coordinator

Cori More, Ph.D., Graduate Coordinator

Chair

Pierce, Thomas B. - *Full Graduate Faculty*

Professor; B.S., State University of New York, Fredonia; Ph.D., University of New Mexico. *Rebel since 1990*

Graduate Coordinators

Higgins, Kyle - *Full Graduate Faculty*

Professor; B.A., M.A., Ph.D., University of New Mexico. *Rebel since 1991.*

More, Cori - *Full Graduate Faculty*

Assistant Professor; B.A., University of Montana; M.Ed., Western New Mexico University; Ph.D., University of Nevada Las Vegas. *Rebel since 2013.*

Graduate Faculty

Astramovich, Randall - *Full Graduate Faculty*

Associate Professor; B.A., M.Ed., Ph.D., University of North Texas Ph.D. *Rebel since 2002.*

Baker, Joshua - *Full Graduate Faculty*

Assistant Professor; B.A., M.A., Marshall University; Ph.D. University of North Carolina, Charlotte. *Rebel since 2012.*

Brinson, Jesse A. - *Full Graduate Faculty*

Full Professor; B.A., Clark College; M.A., University of the District of Columbia; Ed.D., Western Michigan University. *Rebel since 1989.*

Brown, Nancy - *Associate Graduate Faculty*

Faculty in Residence; B.S., M.Ed., Utah State University. *Rebel since 1992.*

Carruthers, Cynthia - *Full Graduate Faculty*

Professor; B.S., M.S., Ph.D., University of Illinois. *Rebel since 1990.*

Gelfer, Jeffrey - *Full Graduate Faculty*

Professor; B.A., Wilmington College; M.S., University of Oregon; Ph.D., Florida State University. *Rebel since 1989.*

Filler, John - *Full Graduate Faculty*

Professor; B.A., Randolph Macon College; M.A., Wake Forest University; Ph.D., Vanderbilt University. *Rebel since 1989.*

Harris, Katrina - *Associate Graduate Faculty*

Visiting Lecturer; B.A., Stephens College; Me.Ed., Ph.D., University of Nevada, Las Vegas. *Rebel since 2010.*

Hoskins, Wendy - *Full Graduate Faculty*

Associate Professor; B.A., William Penn College M.A., Truman State University; Ph.D., Idaho State University. *Rebel since 2003.*

Lau, Jared - *Full Graduate Faculty*

Assistant Professor; B.S., University of Hawaii at Manoa; M.S., University of San Diego; Ph.D., University of North Carolina at Charlotte. *Rebel since 2013.*

Lyons, Catherine - *Full Graduate Faculty*

Assistant Professor; B.S., St. Francis College; M.Ed., Ph.D., University of Nevada, Las Vegas. *Rebel since 2007.*

McKay, Terri-Lynn

Visiting Assistant Research Professor; Ph.D., University of Calgary. *Rebel since 2013.*

Morgan, Joseph - *Full Graduate Faculty*

Assistant Professor; B.A., University of Illinois at Chicago; M.Ed., University of Nevada, Las Vegas.

Ramirez, Maria G. - *Full Graduate Faculty*

Associate Professor; B.S., M.A., Texas A&I University; Ph.D., University of Kansas. *Rebel since 1989.*

Smith, Shannon - *Full Graduate Faculty*

Associate Professor; B.A., Eastern Bible College M.A., Ashland College; Ph.D., Oregon State University. *Rebel since 2003.*

Spies, Tracy - *Full Graduate Faculty*

Assistant Professor; B. S., University of Houston; M.S., Sam Houston State University; Ph.D., Texas A & M University. *Rebel since 2012.*

Strawser, Sherri - *Full Graduate Faculty*

Associate Professor; B.S., Indiana University; M.S., Saint Francis College; Ph.D., University of Utah. *Rebel since 1991.*

West, Glenn - *Full Graduate Faculty*

Visiting Professor; B.A., San Diego State University; M.A., University of North Carolina-Chapel Hill; M.S., University of Kentucky; Ph.D., University of North Carolina-Chapel Hill. *Rebel since 2009.*

Educational and Clinical Studies Plans

Advanced Graduate Certificate in Addiction Studies

The Department of Educational and Clinical Studies offers Advanced Graduate Certificates in Addiction Studies. The certificate program is designed for individuals already holding master's degrees in counseling who are seeking

to enhance their professional counseling practice and licensure options.

The Advanced Graduate Certificate in Addictions Studies meets the needs of health professionals such as marriage and family therapists, community counselors, rehabilitation counselors, school counselors, physicians, psychologists, social workers, and behavioral health therapists by providing graduate addiction training to help them address client needs.

Faculty members in the Department of Educational and Clinical Studies endeavor to promote excellence in counselor education and counseling research. Our graduate counseling programs prepare students to:

- Serve as professional counselors, advocates, and leaders who maximize opportunities for individuals, groups, and communities with a particular emphasis on helping underserved and oppressed client populations;
- Address developmental, academic, career, mental health, socio-cultural, and wellness needs of clients seeking counseling;
- Help individuals, groups and communities strive to find meaning, involvement, worth, and dignity in their lives;
- Engage in action research and program evaluations to further the knowledge base and best practice initiatives of the counseling profession; and
- Advocate with local, state, and national organizations to promote client and societal wellbeing.

Learning Outcomes

Advanced Graduate Certificate in Addiction Studies

Plan Admission Requirements

Students must already be holding a master's degree in counseling, or be currently admitted to the Clinical and Mental Health Counseling M.S. program at UNLV.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Con-Current Master's Track

Total Credits Required: 12

Course Requirements

- Required Courses – Credits: 9
 - Complete 9 credits of advisor-approved coursework.
- Final Project – Credits: 3
 - CED 787 - Individual Research

Certificate Requirements

- Completion of a minimum of 12 credit hours with a minimum GPA of 3.00.
- Students who receive an F or more than two C grades will be separated from the program.
- A minimum of six semester hours of credit must be taken each semester, including summer.

- The courses listed above may only be taken after the core degree requirements for the Clinical and Mental Health Counseling Program are met.

Certificate Completion Requirements

See Plan Certificate Completion Requirements below.

Subplan 2 Requirements: Post-Master's Track

Total Credits Required: 24

Course Requirements

- Required Courses – Credits: 21
 - Complete 21 credits of advisor-approved coursework.
- Final Project – Credits: 3
 - CED 787 - Individual Research

Certificate Requirements

- Completion of a minimum of 24 credit hours with a minimum GPA of 3.00.
- Students who receive an F or more than two C grades will be separated from the program.
- A minimum of six semester hours of credit must be taken each semester, including summer.

Certificate Completion Requirements

See Plan Certificate Completion Requirements below.

Plan Certificate Completion Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.
- The student must successfully complete the final project.

Advanced Graduate Certificate in Clinical Mental Health Counseling

The Department of Educational and Clinical Studies offers Advanced Graduate Certificates in Community Mental Health Counseling. The certificate program is designed for individuals already holding master's degrees in counseling who are seeking to enhance their professional counseling practice and licensure options.

The Advanced Graduate Certificate in Mental Health Counseling is targeted primarily toward those individuals who have graduated from CACREP accredited or equivalent programs, but do not meet the necessary educational requirements for the LPC in the State of Nevada.

Faculty members in the Department of Educational and Clinical Studies endeavor to promote excellence in counselor education and counseling research. Our graduate counseling programs prepare students to:

- Serve as professional counselors, advocates, and leaders who maximize opportunities for individuals, groups, and communities with a particular emphasis on helping underserved and oppressed client populations;
- Address developmental, academic, career, mental health, socio-cultural, and wellness needs of clients seeking counseling;

- Help individuals, groups and communities strive to find meaning, involvement, worth, and dignity in their lives;
- Engage in action research and program evaluations to further the knowledge base and best practice initiatives of the counseling profession; and
- Advocate with local, state, and national organizations to promote client and societal wellbeing.

The certificate consists of 12-24 credits, based on the student's master's degree training.

Learning Outcomes

Advanced Graduate Certificate in Clinical Mental Health Counseling

Plan Admission Requirements

The Advanced Graduate Certificate in Mental Health Counseling is an extension of the M.S. degree and is geared for those individuals who have graduated from CACREP accredited or equivalent programs, but do not meet the necessary educational requirements for the Nevada licensure for Clinical Professional Counselors (LCPC).

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post CACREP Community Counseling Master's Track

Total Credits Required: 12

Course Requirements

- Required Courses – Credits: 12
 - Complete 12 credits of advisor-approved coursework.

Certificate Requirements

- Completion of a minimum of 12 credit hours with a minimum GPA of 3.00.
- Students who receive an F or more than two C grades will be separated from the program.
- A minimum of six semester hours of credit must be taken each semester, including summer.

Certificate Completion Requirements

See Plan Certificate Completion Requirements below.

Subplan 2 Requirements: Con-Current School Counseling Master's Track

Total Credits Required: 12-24

Course Requirements

- Required Courses – Credits: 12-24
 - Complete 12-24 credits of advisor-approved coursework.

Certificate Requirements

- Completion of a minimum of 12-24 credit hours with a minimum GPA of 3.00.
- Students who receive an F or more than two C grades will be separated from the program.
- A minimum of six semester hours of credit must be taken each semester, including summer.

Certificate Completion Requirements

See Plan Certificate Completion Requirements below.

Subplan 3 Requirements: Non-CACREP Community Counseling Master's Track

Total Credits Required: 24

Course Requirements

- Required Courses – Credits: 24
 - Complete 24 credits of advisor-approved coursework.

Certificate Requirements

- Completion of a minimum of 24 credit hours with a minimum GPA of 3.00.
- Students who receive an F or more than two C grades will be separated from the program.
- A minimum of six semester hours of credit must be taken each semester, including summer.

Certificate Completion Requirements

See Plan Certificate Completion Requirements below.

Subplan 4 Requirements: Post Counseling Related Master's Track

Total Credits Required: 24

Course Requirements

- Required Courses – Credits: 24
 - Complete 24 credits of advisor-approved coursework.

Certificate Requirements

- Completion of a minimum of 24 credit hours with a minimum GPA of 3.00.
- Students who receive an F or more than two C grades will be separated from the program.
- A minimum of six semester hours of credit must be taken each semester, including summer.

Certificate Completion Requirements

See Plan Certificate Completion Requirements below.

Plan Certificate Completion Requirements

The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.

Master of Education - School Counseling

The Department of Educational and Clinical Studies offers a 48 credit Master of Education (M.Ed.) – School Counseling. The master program is fully accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP), the accrediting body of the American Counseling Association. Graduates of the M.Ed. programs are eligible to sit for the National Counselor Examination in order to qualify for the National Certified Counselor (NCC) credential.

The Master of Education – School Counseling degree at UNLV requires a minimum of 48 graduate semester credits and prepares educational professionals who work to meet the academic, career, personal, and social needs of culturally and linguistically diverse K-12 student populations. The program prepares school counselors to fulfill the following roles:

- Serve as advocates, educational leaders, team members, consultants, and counselors to maximize opportunities for students to succeed academically;
- Address the academic, career, and personal/social needs of all students in the school;
- Serve as leaders of equity and achievement and be able to address institutional and environmental barriers impeding student progress;
- Through the collection and dissemination of data, advocate for systemic change to promote student achievement and academic success; and
- Become managers of resources and partnership builders, enlisting the support of parents, agencies, and community members.

Learning Outcomes

www.unlv.edu/degree/med-school-counseling

Plan Admission Requirements

The master degree program requires that an application for admission be submitted to the Graduate College and the Department of Educational and Clinical Studies as well as transcripts of all college-level work. A minimum grade point average of 2.75 for all undergraduate work and a 3.00 for the last two years of undergraduate work is required.

Applicants must provide three letters of recommendation directly to the department along with a departmental application form that includes a writing sample. Final applicants undergo an extensive/structured personal interview. Students should refer to the department website. Students are admitted once each year, with an application deadline of February 1st.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 48

Course Requirements

- Required Courses – Credits: 48
 - CED 701 - Introduction to Counseling
 - CED 703 - Counseling with Expressive Arts and Activities
 - CED 711 - Counseling Appraisal and Inquiry
 - CED 713 - Introduction to School Counseling
 - CED 715 - Counseling and Consultation Theories
 - CED 721 - Career Theories and Practices
 - CED 727 - Counseling Process and Procedures

- CED 731 - Social Justice and Advocacy in Counseling
- CED 733 - Introduction to Group Counseling
- CED 735 - Substance Abuse Prevention and Treatment
- CED 741 - Practicum
- CED 743 - Ethical and Legal Issues in Counseling
- CED 750 - Advanced Seminars in School Counseling
- CED 751 - Internship in Counseling I
- CED 752 - Internship in Counseling II
- CED 753 - Internship in Counseling III
- EPY 702 - Research Methods
- EPY 711 - Human Growth and Development

Degree Requirements

- All full and part-time students entering into the M.S. program are required to enroll in the following courses during their first fall semester: CED 701 - Introduction to Counseling and CED 727 - Counseling Process and Procedures.
- A grade of B or better is required in both CED 701 and CED 727 in order to continue taking coursework in the M.Ed. program. Students who make a grade of B- or lower (but not an F) in either CED 701 or CED 727 will be placed on probation and may not continue taking other coursework in the M.Ed. program until successfully repeating these courses. If after a second attempt a student does not make a B or better, the student will be officially separated from the graduate program.
- Students must make a grade of B or better in CED 741 in order to enroll in CED 751. A grade of B or better is required for all internship courses (CED 751 and CED 775) or they must be repeated.
- A student receiving a grade of F in any required course in the degree program will be officially separated from the graduate program. Students must repeat any course in which they make a grade of C- or lower. Students making three or more grades of B- or lower will be officially separated from the graduate program. In order to earn the degree, students must have a cumulative GPA of 3.0 or better.
- Students must successfully complete and pass the final compressive exam.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for the program.
- The student must successfully complete and pass the final compressive exam.

Master of Education - Special Education

The M.Ed. program is designed to meet the needs of persons who hold a baccalaureate degree and wish to earn a master's degree in special education or early childhood education special education, with or without licensure. Students are expected to develop a plan of study that is most relevant to their educational purposes. Students seeking a license to teach should be aware that certification or endorsement requirements might limit their choices. A number of specific focus areas are available and can lead to the following Nevada Department of Education endorsements: Autism, Early Childhood Special Education, Learning Disabilities, Generalist-Mild Disabilities, Gifted and Talented, Emotional Behavioral Disorders, Intellectual Disabilities, Applied Behavioral Analysis (BCBA), or other professional areas. The Master of Education – Special Education program requires 36 credits of graduate-level coursework. Additional credits may be required for endorsement or licensure purposes.

Learning Outcomes: Autism Spectrum Disorders

Learning Outcomes: Early Childhood Education

www.unlv.edu/degree/med-special-ed-early-childhood-education

Learning Outcomes: Generalist (K-12)

www.unlv.edu/degree/med-special-ed-emphasis-generalist-k-12

Learning Outcomes: Gifted Education

www.unlv.edu/degree/med-special-ed-emphasis-gifted-ed

Learning Outcomes: Intellectual Disabilities

www.unlv.edu/degree/med-special-ed-emphasis-intellectual-disabilities

Learning Outcomes: Teaching English as a Second Language

www.unlv.edu/degree/med-special-education-teaching-english-second-language

Plan Admission Requirements

In addition to meeting the admission requirements of the Graduate College, as outlined in the front of this catalog, applicants must also meet the requirements established by the Department of Educational and Clinical Studies. They are:

- A minimum grade point average of 2.75 for all undergraduate work or a 3.00 grade point average for the last two years of undergraduate work. Admission to a master's degree program in special education requires that students with a GPA of less than 2.75 be admitted to the graduate program with provisional status; and
- A letter of application/intent.

Applications are processed when all credentials required by both the Graduate College and the Department of Educational and Clinical Studies have been received by the Graduate Coordinator. The Graduate Coordinator evaluates the applicant's credentials and recommends either 1) admission to full, contingency, or provisional graduate standing (depending on the strength of the applicant's academic credentials); or 2) denial. Those who wish to begin studies but who miss the application deadline may enroll as a non-degree graduate student. However, since there is no guarantee that courses taken as a non-degree student will count toward a degree, and since a maximum of 15 hours taken prior to admission to the program may be used to meet degree requirements, candidates are urged to seek advisement prior to registering for any course(s).

Applicants should log back into their online applications to monitor the status of the application. Official decision letters will be posted in the online application once a decision has been made. Hard-copy letters are not issued. The online decision letter will include the name of the student's advisor. Students are responsible for contacting their advisors.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Applied Behavioral Analysis Track

Total Credits Required: 36

Course Requirements

- Required Courses – Credits: 6
 - EPY 702 - Research Methods
 - ESP 722 - Multicultural Perspectives in Special Education
- Special Education Courses – Credits: 15
 - Complete 15 credits of advisor-approved course work.
 - ESP 712 - Applied Behavior Analysis
 - ESP 733 - Management and Modification of Students with Special Needs
 - ESP 735 - Advanced Behavior Management
 - ESP 736 – Single Subject Design
 - ESP 739 - Advanced Educational Strategies for Students with Autism Spectrum Disorders

 - ESP 722 - Multicultural Perspectives in Special Education
- Special Education Courses – Credits: 15
 - Complete 15 credits of advisor-approved course work.
- Elective Courses – Credits: 15
 - Complete 15 credits of advisor-approved course work.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Degree Requirements

- Previous course work included in submitted graduate plans of study must have a grade of B or better. Only two subsequent grades of less than B- (one with an ESP or ECE prefix and one with any other prefix) will be permitted in a submitted plan of study. Under no circumstances will a Grade Point Average (GPA) of less than 3.00 be allowed on a finished plan of study. Failure to meet these standards will result in suspension from the degree program.
- For Nevada state licensure, students must complete a total of 8 credits of fieldwork; any additional credits will not count towards the degree program.
- In order to be endorsed in Teaching English as a Second Language (TESL) the following four courses must be completed in addition to the courses required as part of the degree program:
 - TESL 651 – Theories of second language acquisition
 - TESL 652 – TESL Methods and Materials
 - TESL 653 – TESL curriculum
 - TESL 654 – TESL Assessment Procedures
- Students must successfully complete and pass a comprehensive examination.
 - The comprehensive examination is taken during the student's last semester of coursework or in the semester immediately following completion of coursework listed on the student's Program of Studies. If students opt to take the comprehensive exam the semester after completion of the coursework listed on their Program of Studies, they must enroll in ESP 766 or another graduate course. Per Graduate College Guidelines, students must be enrolled in a minimum of 3 hours of coursework the semester they graduate.
 - Students must apply to take comprehensive examinations. Specific application deadlines are available in the Department of Educational and Clinical Studies.
 - If a student does not pass their comprehensive examination on the first attempt, they must wait 30 days after written notification from the department to reschedule the exam. This will be done in consultation with the student's advisor.
 - A student may retake their comprehensive examination once.
- Master's degrees must be completed within a six-year period and continuous enrollment must be maintained throughout the six years, unless a formal request for a leave of absence is approved by the department and Graduate College.

Plan Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for the program.

Master of Science - Clinical Mental Health Counseling

The Department of Educational and Clinical Studies offers a 60 credit Master of Science (M.S.) – Clinical Mental Health Counseling. The master's program is fully accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP), the accrediting body of the American Counseling Association. Graduates of the M.S. program are eligible to sit for the National Counselor Examination in order to qualify for the National Certified Counselor (NCC) credential.

The Clinical Mental Health Counseling program, a 60-credit hour course of study, is designed to train professional

counselors for work in a variety of community and mental health settings. Community mental health counselors work in local, state, and federal agencies, as well as private for-profit and non-profit agencies.

The Clinical Mental Health Counseling M.S. degree offers a unique arena for the development of counseling theory and in depth research in issues impacting community and mental health, as well as continuing the development of professional counselors to meet the diverse needs of Southern Nevada, the region, and the nation.

Faculty members in the Department of Counselor Education endeavor to promote excellence in counselor education and counseling research. Our graduate counseling programs prepare students to:

- Serve as professional counselors, advocates, and leaders who maximize opportunities for individuals, groups, and communities with a particular emphasis on helping underserved and oppressed client populations;
- Address developmental, academic, career, mental health, socio-cultural, and wellness needs of clients seeking counseling;
- Help individuals, groups and communities strive to find meaning, involvement, worth, and dignity in their lives;
- Engage in action research and program evaluations to further the knowledge base and best practice initiatives of the counseling profession; and
- Advocate with local, state, and national organizations to promote client and societal wellbeing.

Learning Outcomes

www.unlv.edu/degree/ms-clinical-mental-health-counseling

Plan Admission Requirements

The master degree program requires that an application for admission be submitted to the Graduate College and the Department of Educational and Clinical Studies as well as transcripts of all college-level work. A minimum grade point average of 2.75 for all undergraduate work and a 3.00 for the last two years of undergraduate work is required.

Applicants must provide three letters of recommendation directly to the department along with a departmental application form that includes a writing sample. Final applicants undergo an extensive/structured personal interview. Students should refer to the department website. Students are admitted once each year, with an application deadline of February 1st.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Total Credits Required: 60

Course Requirements

- Required Courses – Credits: 60
 - CED 701 - Introduction to Counseling
 - CED 703 - Counseling with Expressive Arts and Activities
 - CED 710 - Relationships Through the Lifespan
 - CED 711 - Counseling Appraisal and Inquiry
 - CED 715 - Counseling and Consultation Theories
 - CED 721 - Career Theories and Practices
 - CED 727 - Counseling Process and Procedures
 - CED 731 - Social Justice and Advocacy in Counseling
 - CED 732 - Advanced Multicultural Counseling

- CED 733 - Introduction to Group Counseling
- CED 735 - Substance Abuse Prevention and Treatment
- CED 741 - Practicum
- CED 743 - Ethical and Legal Issues in Counseling
- CED 751 - Internship in Counseling I
- CED 752 - Internship in Counseling II
- CED 753 - Internship in Counseling III
- CED 766 - Psychopathology and Wellness Models in Counseling
- CED 772 - Counseling and Spirituality
- CED 775 - Internship in Mental Health and Addictions Counseling
- EPY 702 - Research Methods
- EPY 711 - Human Growth and Development

Degree Requirements

- All full and part-time students entering into the M.S. program are required to enroll in the following courses during their first fall semester: CED 701 - Introduction to Counseling and CED 727 - Counseling Process and Procedures.
- A grade of B or better is required in both CED 701 and CED 727 in order to continue taking coursework in the M.S. program. Students who make a grade of B- or lower (but not an F) in either CED 701 or CED 727 will be placed on probation and may not continue taking other coursework in the M.S. program until successfully repeating these courses. If after a second attempt a student does not make a B or better, the student will be officially separated from the graduate program.
- Students must make a grade of B or better in CED 741 in order to enroll in CED 751. A grade of B or better is required for all internship courses (CED 751 and CED 775) or they must be repeated.
- A student receiving a grade of F in any required course in the degree program will be officially separated from the graduate program. Students must repeat any course in which they make a grade of C- or lower. Students making three or more grades of B- or lower will be officially separated from the graduate program. In order to earn the degree, students must have a cumulative GPA of 3.0 or better.
- Students must successfully complete and pass the final compressive exam.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for the program.
- The student must successfully complete and pass the final compressive exam.

Doctor of Philosophy - Special Education

The Doctor of Philosophy Degree (Ph.D.) is designed with an emphasis in the development of skills in scientific inquiry and leadership. Students enrolled in this study program gain an understanding of philosophy and theory as they relate to the conduct of research and program evaluation. Graduates pursue careers in schools, institutions of higher education, research centers and agencies that require the competencies developed through a Ph.D. course of study.

Learning Outcomes

www.unlv.edu/degree/phd-special-education

Plan Admission Requirements

Applicants to the Special Education Ph.D. program must complete the Graduate College Application for Admission

and arrange to have official transcripts sent to the Graduate College. Graduate level transcripts should indicate grade point averages (and receipt of a post baccalaureate degree in special education or a related field).

The following materials also should be submitted through the online application network.

- A letter of application that clearly articulates professional and research goals that are related to the focus of the Ph.D. degree program in Special Education;
- Three letters of recommendation – at least one from an individual familiar with the applicant’s academic performance and potential for doctoral degree completion and at least one from an individual knowledgeable of the applicant’s quality of work experience;
- Representative samples of scholarly writing, preferably in APA style, and/or other media samples related to professional study;
- A resume of professional preparation and experience (a minimum of two to three years of professional experience in special education, general education or other relevant field as a teacher, administrator or related service provider for children and adults with disabilities and/or giftedness is preferred);
- Scores from the verbal, quantitative and analytical sections of the Graduate Record Examination (GRE) (taken within five years from the date of application for admission). Applicants should arrange to have official notification of GRE scores sent to the Department of Educational and Clinical Studies. The department does not impose minimum GRE scores.

It is the student’s responsibility to ensure that his/her applicant file is complete. Incomplete files will not be considered. Application materials for U.S. residents requesting financial support are due March 1.

Note: The department admissions committee may request additional materials and/or conduct a personal interview after reviewing initial applicant files.

In general, applicants will be expected to have a 3.50 grade point average on all graduate-level work and an indication of potential to complete all requirements of doctoral study successfully (provided through submitted writings or creative products, letters of recommendation and GRE results) to be admitted as doctoral students in the Department of Educational and Clinical Studies.

After Admission Committee review, the Doctoral Program Coordinator may recommend to the department faculty that the applicant be: 1) admitted fully to the Ph.D. program in special education, 2) admitted provisionally to the Ph.D. program or 3) denied admission to the Ph.D. program in special education. A recommendation for provisional admission may occur when an applicant has not met the criteria or prerequisites to do advanced graduate level work. Provisional admission requires the satisfactory completion (e.g., with a minimum 3.50 grade-point average) of nine or more hours in regularly scheduled graduate courses approved by the student’s advisor and departmental faculty. After completion of the provisional program, the Doctoral Coordinator and Department Chair recommend to the Graduate College that the student either be transferred to regular status or dropped from the program.

Note: To apply for a Graduate Assistantship, applicants must complete online the Graduate Assistant Application for the Department of Educational and Clinical Studies.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 72

Course Requirements

- Required Courses – Credits: 21
 - ESP 782 - Professional Seminar in Special Education
 - ESP 783 - Leadership Seminar in Special Education

- ESP 784 - Seminar in Advanced Special Education Technology
- ESP 785 - Issues, Trends and Futures in Special Education
- ESP 787 - Philosophical Perspectives in Special Education
- ESP 788 - Single Subject Methods in Special Education
- ESP 789 - Grant Writing for Human Services
- Research Courses – Credits: 6
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
 - ESP 791 - Proposal Design and Analysis
- Statistics Course – Credits: 3
 - Complete one of the following courses, or another advisor-approved equivalent course.
 - EPY 722 - Inferential Statistics and Experimental Design
 - KIN 751 - Selected Application of Statistical Techniques I
- Additional Research Courses – Credits: 6
 - Complete 6 credits from the following list of courses, or other advisor-approved courses.
 - EPY 716 - Evaluation Research Methods
 - EPY 718 - Qualitative Research Methodologies
 - EPY 733 - Multivariate Statistics
 - EPY 790 - Research Seminar in EPY
 - KIN 752 - Selected Application of Statistical Techniques II
- Internship Course – Credits: 6
 - ESP 794 A-C - Internship in Special Education
 - ESP 794 A-C - Internship in Special Education
- Leadership & Exceptionality Courses – Credits: 15
 - Complete 15 credits of advisor-approved leadership and exceptionality courses from one or more of the following leadership concentrations: Parenting, Administration, Research, Diagnosis/Assessment, Transition, Early Childhood Special Education, Early Childhood Education, Higher Education, Technology, Consultation, or Curriculum.
 - Complete credits in two specialty areas from the following list: Autism, Learning Disabilities, Emotional Disturbance, Mental Retardation, Gifted and Talented Education, Developmental Disabilities/Children at Risk.
- Prospectus Course – Credits: 3
 - Complete the following course as an independent study supervised by the advisor.
 - ESP 796 - Dissertation Prospectus
- Dissertation – Credits: 12
 - ESP 799 – Dissertation

Degree Requirements

- The program of study requires a minimum of 72 semester hours. Only credits that meet the following criteria may be included on the formal Program of Study:
 - Those not previously used to fulfill requirements for another degree;
 - Those taken while enrolled at an accredited graduate degree-granting institution in a degree-granting program;
 - Those taken as a non-degree seeking student (not to exceed 15 total semester hours); and
 - Those for which a grade of B or higher was earned.
- Doctoral students must earn a grade of B or higher in all core curriculum courses.
- Doctoral Students must earn a grade of B or higher in EPY 721 and EPY 722/KIN 751.
- Doctoral students are required to spend a minimum of two consecutive semesters (Fall-Spring, Spring-Summer or Summer-Fall) in full-time resident study in the Department of Educational and Clinical Studies. Full-time resident study is defined as being enrolled in at least nine semester hours of graduate level course work from an approved Program of Study (six semester hours if the student is a graduate assistant). In cases where residency includes a semester of course work prior to submission of the Program of Study, the advisor must approve residency. Work during residency is allowed. However, if the student is employed as

a graduate assistant, any additional work beyond that performed as an assistant must conform to the rules of the University and Graduate College.

- Two-thirds of the total semester hours included on the formal Program of Study (not including dissertation) must be taken at UNLV. Faculty members of the Department of Educational and Clinical Studies instructing specialist's and/ or master's classes initiate an interaction with doctoral students enrolled in these courses regarding the appropriateness of both the content and performance requirements for doctoral students. Students not admitted to the doctoral program in Educational and Clinical Studies (or to another doctoral program in the College of Education) may enroll in: ESP 782 - Professional Seminar in Special Education (formerly ESP 760) and two additional Core Curriculum Courses with consent of instructor prior to formal admission.
- The Educational and Clinical Studies Doctoral Colloquium typically is held one Friday each semester. The Doctoral Coordinator coordinates these meetings with the assistance of the special education faculty and doctoral students.
- The comprehensive examination is taken during the semester immediately preceding enrollment in ESP 799 Dissertation. The comprehensive examination consists of 16 hours of written examinations with eight hours structured by the student's major advisor and eight hours structured by the other internal committee members. The examinations are scheduled on two successive Fridays. The student's advisor determines the specific dates of the examination. The questions on the comprehensive examination address elements of the Core, Research, Leadership Studies, Exceptionality Specialties, and any course work taken for licensure or endorsements. The student's Doctoral Studies Committee provides general parameters from which questions are selected. "Take-home" examinations, in whole or in part, are not allowed. Students may use college provided technology for word-processing. Grading consists of three categories: Pass, Fail, and Pass with Distinction. Pass with Distinction occurs contingent upon a unanimous vote of the committee excluding the Graduate College representative. Students who fail the comprehensive examination will be placed on probation and must wait 4 months from the date of the failed examination to re-write their exam. However, under no circumstances may the reexamination be later than the semester following the failed examination. Students not passing the comprehensive examination on the re-write will be "excused" from the program.
- Upon successful completion of comprehensive examination, the student selects a dissertation committee (i.e., minimum of three faculty members from the Department of Educational and Clinical Studies and an outside member appointed by the Graduate College) and submits a dissertation proposal to the committee. This proposal includes an introduction, review of the literature, and a discussion of study methods. Two weeks after this proposal is submitted to the dissertation committee, the committee meets with the student to accept or reject the proposal, as well as provide a critique of its relative strengths and weaknesses. Upon acceptance of the student's dissertation proposal, a recommendation for advancement to candidacy is submitted to the Graduate College.
- Upon completion of the full dissertation, a defense is scheduled. Students need to obtain The Guide to Preparing and Submitting a Thesis or Dissertation from the Graduate College web site.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Educational and Clinical Studies Courses

CED 608 - Counseling the Older Adult
Credits 3

Overview of issues that may be encountered while counseling the older adult. Reviews information on the nature, diagnosis and treatment of common mental health problems of later life. Introduces students to services and support systems that are available to older adults and their families that will assist in the referral process.

CED 620 - Identification, Assessment, and Treatment of The Process Addictions

Credits 3

This course is designed to develop the knowledge and skills to identify, assess, and treat various process and co-occurring disorders. Emphasis will be placed on creating an understanding of the history, philosophy, and trends of addiction counseling. In addition, knowledge of the current literature that outlines theories, approaches, effective strategies, and techniques when working with these addictions will be explored. Teaching method is lecture, presentations, role plays, videos and discussion.

CED 639 – Problem Gambling Counseling I

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

CED 640 – Problem Gambling Counseling II

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work. **Prerequisites:** CED 639

CED 645 - Trauma and Addiction

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number.

CED 646 - Combat Trauma

Credits 3

Overview of the trauma that is experienced by individuals involved in armed combat situations. The signs and symptoms of such involvement will be explored. In addition, the impact on families and communities will be addressed.

CED 661 - Use and Application of Technology in Counseling

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number.

CED 699 - Special Topics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number.

CED 700 - Special Problems: Counseling and Educational Psychology

Credits 1 – 6

Specialized instruction in general professional education designed to develop depth in understanding of current counseling and educational psychology problems. **Notes:** May be repeated to a maximum of six credits.

CED 701 - Introduction to Counseling

Credits 3

Introductory course designed to provide students with understanding of the basic roles and functions of the counselors in the human services. Examination of historical roots, philosophy, current trends, and best practices in professional counseling.

CED 703 - Counseling with Expressive Arts and Activities

Credits 3

Examination of expressive arts and activity methods for counseling with children, adolescents, and adults. Topics include play therapy, sandtray, dreamwork, and other experiential counseling interventions.

CED 710 - Relationships Through the Lifespan
Credits 3

Students will learn the basic knowledge of relationship issues across the lifespan and how it relates to the counseling professional. **Prerequisites:** Consent of instructor.

CED 711 - Counseling Appraisal and Inquiry
Credits 3

Theoretical and practical approach to assessing the individual. Includes development of a framework for understanding individual and group testing; case study approaches; adapting and using questionnaires, surveys, and other assessments to meet local needs; and individual differences including ethnic and cultural and gender considerations. **Prerequisites:** CED 701

CED 713 - Introduction to School Counseling
Credits 3

Study of the roles and functions of the school counselor at the elementary, middle, and high school levels as well as history and current trends in the profession. **Prerequisites:** Graduate standing.

CED 715 - Counseling and Consultation Theories
Credits 3

Examination of major counseling theories and consultation techniques for application in individual and group settings. **Prerequisites:** EPY 701 and admission to the department.

CED 721 - Career Theories and Practices
Credits 3

Survey of current theories and practices in career counseling. Emphasis on values and decision-making process. Meets program requirements for school, community, and rehabilitation counseling. **Prerequisites:** CED 701

CED 722 - Introduction to Child Counseling & Play Therapy
Credits 3

This course is designed as an examination of play therapy theories and interventions usable by professional counselors, social workers, marriage and family therapists, psychologists, nurses, mental health and related professionals who work with children.

CED 727 - Counseling Process and Procedures
Credits 3

Students learn the necessary skills to establish counseling relationships, identify relevant counseling issues, and translate their understanding into an action plan for promoting lasting change. Stages of the counseling process identified, practiced, and applied. **Prerequisites:** CED 701

CED 731 - Social Justice and Advocacy in Counseling
Credits 3

Seminar course designed to foster awareness, knowledge, and skills for counseling with diverse clients. Emphasizes social justice and advocacy in counseling with minority and oppressed students. Topics include culture, ethnicity, nationality, age, gender, sexual orientation, mental and physical abilities, education, family dynamics, and socioeconomic status.

CED 732 - Advanced Multicultural Counseling
Credits 3

This course is designed to help students develop awareness, knowledge, skills for more effective work with culturally diverse groups and individuals. Substantial attention will be given to intrapersonal issues, concerns related to different cultures & programming in a variety of settings.

CED 733 - Introduction to Group Counseling
Credits 3

Study and practice of basic approaches to group procedures in relation to group goals, group dynamics and group leadership. **Prerequisites:** CED 701 and EPY 723

CED 735 - Substance Abuse Prevention and Treatment**Credits 3**

Overview of physiological and interpersonal impacts of substance abuse. Emphasis on empirically validated prevention programs, substance abuse assessment, counseling techniques, referral information, aftercare, and relapse prevention strategies. **Prerequisites:** CED 701

CED 738 - Introduction to Community Mental Health Counseling**Credits 3**

Introduction to community and rehabilitation counseling including historical, philosophical legislative and organizational bases; rehabilitation process, and services in public and private community settings. Emphasis on role and function of the counselor.

CED 739 - Vocational Placement and Community Resources**Credits 2**

Study of vocational placement techniques along with an understanding of community resources including community organizational theory and criteria for use of such facilities in the vocational adjustment and placement of the disabled and disadvantaged.

CED 741 – Practicum**Credits 3**

Supervised counseling practice in human service settings including work with individuals and groups. Emphasis on utilizing a variety of counseling skills and methods with diverse client populations. **Prerequisites:** CED 701, CED 727, CED 733 and EPC 723

CED 742 - Introduction to Community Counseling**Credits 3**

Provides information concerning the professional role, function, history, philosophy and practice of counseling. Role of the community-agency counselor in community, clinical, education, and business settings, as well as their interactive relationship with other professionals. **Formerly:** COU 743 **Notes:** Normally taken no later than two semesters following admission to the program. **Prerequisites:** MFT 701 and admission to the department.

CED 743 - Ethical and Legal Issues in Counseling**Credits 3**

Overview of ethical, legal, and professional issues in counseling. Emphasis on best practices and ethical decision making models. **Prerequisites:** CED 701

CED 745 - Assessment, Treatment, and Case Management in Addictions**Credits 3**

Provides theoretical framework for assessing and treating individuals with addictive disorders and the practical application of managing a client's case from initial treatment stages through discharge and aftercare. **Formerly:** COU 741 **Prerequisites:** MFT 731

CED 746 - Supervised Practicum in Group Counseling**Credits 3**

Supervised practice in counseling with small groups in a variety of settings. **Notes:** May be taken concurrently with EPY 744. **Prerequisites:** MFT 701, CED 715 and EPY 724, or equivalent.

CED 749 – Thesis**Credits 3**

Culminating masters level research project. **Notes:** May be repeated, but only six credits will apply to students program of study. **Prerequisites:** Consent of instructor.

CED 750 - Advanced Seminars in School Counseling**Credits 1 – 3**

Advanced studies in professional school counseling practice, theory, and research. Topics may include innovative practices, supervision, evaluation, techniques, and theory of school counseling.

Notes: May be repeated to a maximum of twelve credits.

CED 751 - Internship in Counseling I

Credits 1

Advanced supervised counseling practice in human service settings. Provides the opportunity to engage in all of the activities of a regularly employed staff member in an organization with program emphasis area. **Prerequisites:** CED 741

CED 752 - Internship in Counseling II

Credits 1

Advanced supervised counseling practice in human service settings. Provides the opportunity to engage in all of the activities of a regularly employed staff member in an organization compatible with program emphasis area.

Prerequisites: CED 741

CED 753 - Internship in Counseling III

Credits 1

Advanced supervised counseling practice in human service settings. Provides the opportunity to engage in all of the activities of a regularly employed staff member in an organization compatible with program emphasis area.

Prerequisites: CED 741

CED 754 - Supervised Group Practice and Theory

Credits 3

Group theory and practice as it relates to leadership of personal growth, counseling, and therapeutic groups.

Emphasis placed on leadership functions as they relate to group processes. **Same as:** EPY 754. **Prerequisites:** MFT 715, CED 715

CED 755 - Planning, Management, and Evaluation of Addictions and Mental Health Programs

Credits 3

Develops skills in applying basic management, planning, and evaluation techniques to addictions and mental health programs. Areas stressed include the relationships between program evaluation, program planning, program effectiveness, and organizational performance. **Formerly:** COU 751. **Prerequisites:** CED 745 or consent of instructor.

CED 758 - Independent Study

Credits 3

Independent study of a selected topic in professional counseling under the direction/supervision of a graduate faculty member. **Notes:** May be repeated to a maximum of twelve credits. **Prerequisites:** Consent of instructor.

CED 766 - Psychopathology and Wellness Models in Counseling

Credits 3

Overview of psychopathology as classified in the DMS, with an emphasis on diagnosis, supportive psychopharmacology, and counseling interventions. Also overviews wellness models in counseling and highlights ways counselors can promote optimal development and wellbeing with diverse client populations. **Prerequisites:** CED 741, CED 753

CED 768 - Pre-practicum Laboratory in Counseling

Credits 3

Laboratory practice in counseling theory and techniques. **Notes:** Must be taken concurrently with EPY 753.

Prerequisites: MFT 701, EPY 704 and admission to the department.

CED 770 - Advanced Supervised Practice in Counseling

Credits 3

Theory, research, techniques, and practice of supervising marriage and family therapists. **Notes:** May be repeated to a maximum of six credits.

CED 772 - Counseling and Spirituality**Credits 3**

Application and integration of sound counseling skills into a spiritually-based counseling approach. Contemporary counseling theories and their assumptions about human nature and the role of spirituality in counseling.

Prerequisites: Consent of instructor.

CED 775 - Internship in Mental Health and Addictions Counseling**Credits 3**

Internship in Mental Health and Addictions Counseling, emphasizing counseling skills and techniques with individuals and groups in dual diagnosis settings. **Notes:** Students will complete a minimum of 300 hours, with 150 of the hours being direct contact hours. **Prerequisites:** CED 751, CED 752, CED 753

CED 781 - Problem Gambling Counseling**Credits 3**

Orient students to relevant literature and theoretical perspectives regarding problematic gambling, including an appreciation of its symptoms, progression, and impact across areas of one's life. Students will be provided with knowledge of current assessment measures and learn empirically-based treatment practices related to problem gambling.

CED 782 - Counseling with Potential Suicides**Credits 1 – 6**

Emphasis on the helping skills to facilitate communication with the potential suicide. Principles and techniques to facilitate client self-exploration that encourage self-understanding and alternate actions. **Prerequisites:** CED 754 or consent of instructor.

CED 783 - Understanding and Treating Trauma**Credits 3**

This course will orient students to relevant literature and theoretical perspectives regarding psychological trauma, including an appreciation of its symptoms, progression, and impact across areas of one's life. Students will be provided with knowledge of current assessment measures and learn empirically-based treatment practices related to post traumatic and acute stress disorders.

CED 784 - Co-Occurring Conditions in Counseling**Credits 3**

This course will orient students to relevant literature and theoretical perspectives regarding co-occurring addictions and mental health concerns, including an appreciation of complex symptoms, progression, and impact across areas of one's life. Students will be provided with knowledge of current assessment measures and learn empirically-based treatment practices related to co-occurring disorders.

CED 785 - Eating Disorders Counseling**Credits 3**

Designed as a comprehensive review of eating disorders, correlated issues, and treatment interventions. Cultural, familial, societal, and personal factors that may contribute to the development and maintenance of eating disorders will be examined.

CED 787 - Individual Research**Credits 1 – 6**

Individual research on a selected topic in professional counseling under the direction/supervision of a graduate faculty member. **Prerequisites:** Consent of instructor.

CED 789 - The Student in Higher Education**Credits 1**

Theory and practices related to counseling college students. Emphasis on both traditional and nontraditional approaches to meeting the needs of students at various types of postsecondary institutions. Interrelationship of student and institutional needs within the environment of higher education.

CIL 543 - Literacy Instruction II: Clinic-based**Credits 3**

Methods of instruction and assessment for intermediate grade readers and writers. Designed to help teacher candidates acquire knowledge and strategies related to literacy development and engagement through classroom application, reflection, analysis, and implementation of lessons with diverse learners through tutoring. **Formerly:** CIL 720. **Same as:** EDRL 443. **Prerequisites:** CIL 542. **Corequisites:** Concurrent enrollment in a practicum.

COU 610 - Eating Disorders: Etiology and Treatment

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number.

ECE 706 - Planning Curriculum for Young Children**Credits 3**

Examination of basic principles underlying the development and planning of non-handicapped early childhood education curriculum. **Notes:** Review of components of selected curricular areas.

ECE 707 - Programs in Early Childhood Education**Credits 3**

Overview of current models of early childhood education. Includes principles, research studies, and current trends as factors related to the education of young children.

ECE 709 - Investigations in Early Childhood Education**Credits 3**

Current practices and methods in early childhood education investigated and evaluated in depth. **Prerequisites:** Consent of instructor.

ECE 710 - Planning and Administering Early Childhood Programs**Credits 3**

Investigates the basic principles involved in establishing and operating centers for the young child; examines the historical background of the early childhood education movement; and reviews theories of child development as they relate to planning, operating, and evaluating centers. **Prerequisites:** Consent of instructor.

ECE 711 - Science and Math for Young Children**Credits 3**

Preparation, by modeling, for presenting and structuring appropriate science activities/experiences for young children (PK-2) with emphasis on integrating process skills with life, earth, and physical science concepts. **Prerequisites:** Nine hours of content science, or consent of instructor.

ECE 722 - Theoretical Bases for Early Childhood Education**Credits 3**

Examination of the underlying theories and perspectives supporting early childhood education. Emphasis on the theoretical foundations for early childhood education and the application of developmental theories across domains.

ECE 726 - Early Education for Infants and Toddlers**Credits 3**

Theoretical and practical approaches to early education services for newborns, infants, toddlers, and their families. Development of infants and toddlers within the developmental domains and focuses on attachment, milestones, identification of developmental delays, and program development and evaluation.

ECE 740 - Early Language and Learning**Credits 3**

Focuses on the theory, research and practice of language development from birth through age eight. Opportunities to implement your understanding of language development for typically developing children and children with special needs.

ECE 781 - Early Childhood Education Field Experience**Credits 3-8**

Includes program planning, implementing lesson plans, guidance of students, and working with families. Candidates will be placed with young children birth to age eight. **Prerequisites:** Completion of all ECE licensure coursework or consent of instructor.

ESP 700 - Problems in Special Education**Credits 1 – 6**

Specialized instruction in special education designed to develop depth in understanding a current educational problem of the in-service teacher. **Notes:** Maximum of six credits accepted toward degree from special education courses in EPY 700, ESP 700, and ICG 700.

ESP 701 - Introduction to Special Education and Legal Issues**Credits 3**

Survey of the characteristics, training, and educational needs of students with disabilities. Designed for graduate students in special education, general education, nursing, counseling, psychology and related fields. **Notes:** Required of all students in the Generalist Program who do not have a bachelor's degree in special education.

ESP 702 - Psychological and Social Problems in Intellectual Disabilities**Credits 3**

Study and interpretation of theories and research on the learning characteristics of person with intellectual disabilities: psychological and social contributions to educative/habilitative solutions in intellectual disabilities.

ESP 703 - Prescriptive and Precision Teaching with Intellectual Disabilities**Credits 3**

Cognitive, adaptive, and diagnostic-prescriptive instructional strategies and behavioral interventions for persons with intellectual disabilities and diverse educational and community settings.

ESP 704 - Adaptive Curricular Programming for Persons with Intellectual Disabilities**Credits 3**

In-depth analysis and application of curricular development and implementation for persons with intellectual disabilities in diverse educational settings.

ESP 705 - Psychological and Sociological Problems of Students with Emotional Disabilities**Credits 3**

Study and interpretation of theories and research concerning learning characteristics and psychological and social aspects of the student with emotional disabilities within the school setting.

ESP 706 - Advanced Educational Strategies for Students with Emotional Disabilities**Credits 3**

Evaluation of the behavioral characteristics of students with emotional disabilities applied to practical classroom strategies. Application of treatment strategies and relevant research to the educational problems of students with emotional disabilities. **Prerequisites:** ESP 705

ESP 707 - Theories of Learning Disabilities**Credits 3**

Study of the contemporary positions regarding learning disabilities. Curricular implications of positions emphasized.

ESP 708 - Advanced Education Strategies for Students with Disabilities**Credits 3**

Advanced instructional methods and procedures applicable to the education of children with learning disabilities. **Prerequisites:** ESP 701 or 707

ESP 709 - Diagnostic and Prescriptive Assessment for Diverse Learners**Credits 3**

Establishment of educationally relevant diagnostic and prescriptive teaching procedures for students who are learners (i.e., students with/or at-risk for disabilities, including those who are second language learners). Emphasis upon both individual and group prescriptive classroom methodologies. **Prerequisites:** ESP 701 or 708

ESP 712 - Applied Behavior Analysis

Credits 3

Evaluation of the application of behavior analysis in classroom, clinical, and consultative settings. Includes definition and characteristics of applied behavior analysis, basic principles of behavior, measurement and observation procedures, evaluation and analysis of behavior change, procedures for increasing and decreasing behavior, and systems applications.

ESP 713 - Affective Assessment Models

Credits 3

Study of affective behavioral testing procedures applicable to children and adolescents in public school settings. Emphasis on classroom observational techniques, as well as supplemental employment of data obtained through school relevant behavior rating scales and checklists, task analysis assessments, projective and group personality testing and case studies. **Prerequisites:** Consent of instructor.

ESP 714 - Advanced Seminar in Learning Disabilities

Credits 3 – 6

In-depth review of recent developments and research in the field of learning disabilities. **Notes:** May be repeated to a maximum of nine credits. **Prerequisites:** ESP 607. **Corequisite:** ESP 611

ESP 715 - Communication Programming for Persons with Severe Disabilities

Credits 3

Critical study of disorders affecting communication of persons with severe disabilities. Emphasis on developmental considerations, ecological needs, clinical assessment, selection and implementation of augmentative systems, support services, funding, and research. **Prerequisites:** Consent of instructor.

ESP 717 A - Seminar in Advanced Curriculum Development

Credits 1 – 9

Critical study of current curricular models in special education. Areas of emphasis: mental retardation. **Notes:** May be repeated to a maximum of nine credits. Maximum of nine credits may be applied to a graduate program. **Prerequisites:** ESP 701

ESP 717 B - Seminar in Advanced Curriculum Development

Credits 1 – 9

Critical study of current curricular models in special education. Areas of emphasis: emotional disturbance. **Notes:** Maximum of nine credits may be applied to a graduate program. May be repeated to a maximum of nine credits.

ESP 717 C - Seminar in Advanced Curriculum Development

Credits 1 – 9

Critical study of current curricular models in special education. Areas of emphasis: learning disabilities. **Notes:** Maximum of nine credits may be applied to a graduate program. May be repeated to a maximum of nine credits.

ESP 717 D - Seminar in Advanced Curriculum Development

Credits 1 – 9

Critical study of current curricular models in special education. Areas of emphasis: early childhood special education. **Notes:** Maximum of nine credits may be applied to a graduate program. May be repeated to a maximum of nine credits.

ESP 717 E - Seminar in Advanced Curriculum Development

Credits 1 – 9

Critical study of current curricular models in special education. Areas of emphasis: adaptive physical education. **Notes:** Maximum of nine credits may be applied to a graduate program. May be repeated to a maximum of nine credits.

ESP 717 F - Seminar in Advanced Curriculum Development**Credits 1 – 9**

Critical study of current curricular models in special education. Areas of emphasis: parent education. **Notes:** Maximum of nine credits may be applied to a graduate program. May be repeated to a maximum of nine credits.

ESP 717 G - Seminar in Advanced Curriculum Development**Credits 1 – 9**

Critical study of current curricular models in special education. Areas of emphasis: gifted education. **Notes:** Maximum of nine credits may be applied to a graduate program. May be repeated to a maximum of nine credits.

ESP 717 H - Seminar in Advanced Curriculum Development**Credits 1 – 9**

Critical study of current curricular models in special education. Areas of emphasis: career education. **Notes:** Maximum of nine credits may be applied to a graduate program. May be repeated to a maximum of nine credits.

ESP 717 I - Seminar in Advanced Curriculum Development**Credits 1 – 9**

Critical study of current curricular models in special education. Areas of emphasis: management and staff direction. **Notes:** Maximum of nine credits may be applied to a graduate program. May be repeated to a maximum of nine credits.

ESP 717 J - Seminar in Advanced Curriculum Development**Credits 1 – 9**

Critical study of current curricular models in special education. Areas of emphasis: English Language Learners. **Notes:** Maximum of nine credits may be applied to a graduate program. May be repeated to a maximum of nine credits.

ESP 718 - Assessment of Persons with Severe Intellectual Disabilities**Credits 3**

Emphasis on diagnosis and problems encountered in assessing individuals with severe intellectual disabilities. Practice observation techniques, develop and implement ecological inventories, developmental scales, and adaptive behavior scales. **Prerequisites:** ESP 702 or consent of instructor.

ESP 719A - Advanced Oral and Written Language Instruction for Students with Disabilities**Credits 3**

Overview course on language development, disabilities, and delays. Information and specific strategies for identifying oral and written language difficulties in students with disabilities. Emphasis on educational applications – designing and implementing instruction for students with disabilities. **Prerequisites:** ESP 701

ESP 719B - Advanced Oral and Written Instruction Early Childhood**Credits 3**

Methods and curriculum in early childhood literacy and early intervention strategies for inclusive education.

Prerequisites: ECE 709

ESP 720 - Field Experience in Special Education**Credits 1 – 9**

Supervised experience in designing and using prescriptive teaching in the classroom. Areas include: (a) intellectual disabilities, (b) emotional/behavioral disabilities, (c) learning disabilities, (d) early childhood special education, (e) autism, and (f) gifted and talented. A maximum of nine credits may be applied to a graduate program. **Notes:** Maximum of nine credits may be applied to a graduate program. May be repeated to a maximum of nine credits.

ESP 722 - Multicultural Perspectives in Special Education**Credits 3**

Introduces trends and issues in special education relative to students with disabilities who come from culturally diverse backgrounds. Educational programming and adaptations emphasized.

ESP 724 - Math Methods in Special Education**Credits 3**

Effective classroom methods and strategies for assessing, teaching, and monitoring the mathematical performance of students with learning difficulties. Emphasis on practical classroom techniques designed to facilitate skill acquisition, maintenance, retention, and generalization. Computation and problem-solving covered. **Prerequisites:** ESP 701, MAT 122 and MAT 123 or equivalent, and consent of instructor.

ESP 725 - Workshops in Special Education**Credits 1 – 3**

Supervised instruction through workshops and conferences in topics relevant to special education. Emphasis on in-service education for regular and special education personnel. **Notes:** May be repeated to a maximum of four credits. **Grading:** S/F grading only.

ESP 726 - Policy Analysis and Development for Special Human Services**Credits 3**

Principles and practices of policy development and critical analysis of established social policy in local, state, and federal programs and its impact on persons with exceptionalities.

ESP 727 - Technology in Special Education**Credits 3**

Uses of computers and other technologies in the instruction of students with disabilities. Includes strategies for adapting computers and selecting software for individuals with special needs. Principles for integrating technology into the curriculum and strategies for teaching academic subjects with technology stressed. Overviews of integrated technologies such as hypermedia and access technologies provided. **Prerequisites:** ICE 334 or ICG 754 or equivalent.

ESP 728 - Theory of Play Development**Credits 3**

Critical analysis of theoretical, philosophical, empirical, and educational implications of play. Provides planning, integrating and evaluating play in the educational curriculum.

ESP 729 - Characteristics of Students with Autism Spectrum Disorders**Credits 3**

Survey of the characteristics of students with autism spectrum disorders, including historical foundations, definitions, placement alternatives, and current issues. **Prerequisites:** ESP 701 and 733 or equivalent.

ESP 730 - Parent Involvement in Special and General Education**Credits 3**

Overview of current involvement, rationales for parent involvement, and research that supports it. Focuses on common effort by the school, home and community to provide for students' growth through integrated successive learning experiences that allow for variation in skills, cognitive development, emotional creative abilities, and physical development.

ESP 731 - Practicum in Parental Involvement**Credits 3**

Advanced practicum to involve teachers with parents of children with special needs in various aspects of special education programming in the home, school, and public agency settings. Development of parent education materials and program for parents, or prospective parents in some of the basic skills necessary for effective parenting.

Prerequisites: ESP 730

ESP 733 - Management and Modification of Students with Special Needs**Credits 3**

Provides introduction to applied behavior analysis as it relates to teaching and managing students with special needs. Focuses on teaching new skills and managing inappropriate behavior, both academic and social. Strengths and weaknesses of common school practices for controlling students' inappropriate behaviors described.

ESP 734 - Vocational and Career Education for Persons with Disabilities in Transition**Credits 3**

Consideration and design of vocational and career education programs for students with disabilities including those with intellectual disabilities, learning disabilities, emotional disturbances, and others.

ESP 735 - Advanced Behavior Management**Credits 3**

Application of behavioral, psychoeducational and other management approaches for students with disabilities. Special emphasis given to implementation of behavior management techniques for students with disabilities and students in early childhood special education. **Prerequisites:** Consent of instructor.

ESP 737 - Advanced Practicum with Exceptional Children**Credits 1 – 9**

Teaching and research experience with exceptional students, with special emphasis upon application, educational methods, and curricular models. Areas of emphasis are: a) mental retardation, b) emotional disturbance, c) learning disabilities, d) early childhood special education, e) research, f) gifted education, g) parent education, h) career education, i) resource room, or j) inclusive environments. **Notes:** Maximum of nine credits may be applied to a graduate program. May be repeated to a maximum of nine credits. **Prerequisites:** ESP 701

ESP 737B - Emotional Disturbance**Credits 1-9**

EMOTIONAL DISTURBANCE

ESP 737C - Learning Disabilities**Credits 1-9**

LEARNING DISABILITIES

ESP 737I - Resource Room**Credits 1-9**

RESOURCE ROOM

ESP 739 - Advanced Educational Strategies for Students with Autism Spectrum Disorders**Credits 3**

Advanced instructional methods and curricular models applicable to the education of students with autism spectrum disorders. **Prerequisites:** ESP 729 or equivalent.

ESP 740 - Speech and Hearing Therapy for Classroom Teachers**Credits 3**

Overview of common speech and hearing disabilities, with primary teacher-relevant therapeutic methods and materials applicable to general and special classroom contexts.

ESP 741 - Introduction to Gifted Education**Credits 3**

Introduction to individuals who are gifted, including definition, identification, characteristics, etiology, and nurturing factors. Relationship of creativity and concerns for underachievement, cultural differences, disabilities and gender issues of individuals who are gifted.

ESP 742 - Dimensions of Giftedness**Credits 3**

Information concerning educational procedures in all areas of functioning appropriate for gifted individuals, along with basic strategies for creativity and self-concept. Skills developed for planning, implementing, and evaluating effective programs for the gifted. Individualization, strategies for teaching, simulation and inquiry skills, and skills of higher-level thinking emphasized. **Prerequisites:** ESP 741 or equivalent.

ESP 743 - Teaching Models in Gifted Education

Credits 3

Provides comprehensive review of teaching-learning models for use in development and implementation of curriculum for gifted students. **Prerequisites:** ESP 742 or consent of instructor.

ESP 745 - Experiential Learning in Gifted Education**Credits 3**

Connection between the gifted classroom and the world of work and postsecondary education. Focuses on breaking boundaries of school with emphasis on global issues, rapidly changing workplace, and linkage between schools and future life experiences. **Prerequisites:** ESP 741

ESP 746 - Creativity in Gifted Education**Credits 3**

Intensive study of new approaches dealing with creative expression for the gifted student stressing strategies for creativity.

ESP 747 - Contemporary Considerations Gifted Education**Credits 3**

Current trends, research and issues in the education of students who are gifted. **Prerequisites:** ESP 746 and consent of instructor.

ESP 748 - Overview of Assistive Technology**Credits 3**

Overview of assistive technology as it relates to life skills including communication, mobility, education, recreation, vocation, independence and therapy/rehabilitation. Variety of computer access methods investigated. Underlying assumptions and legal basis explored. **Prerequisites:** ESP 701 or equivalent.

ESP 749 – Thesis**Credits 3 – 6**

Notes: May be repeated, but only six credits applied to the student's program. **Grading:** S/F grading only.

ESP 751 - Advanced Techniques in Applied Behavior Analysis**Credits 3**

Analysis and application of the skills, practices, and knowledge in advanced theory and methods of Applied Behavior Analysis in special education. Attention given to acquiring practical skills in the theory, principles, procedures, and science of Applied Behavior Analysis with human populations and systems (e.g., classrooms and schools).

ESP 752 - Consultative Techniques in Special Education**Credits 3**

In-depth emphasis on the differing roles of the special education consultant. Attention given to acquiring practical skills in interviewing parents and teachers of exceptional children.

ESP 753 - Administration and Supervision of Special Education Programs**Credits 3**

Investigation of existing special education administrative units, pupil placement procedures, student staffing, program reimbursement procedures, and federal funding models. **Prerequisites:** Consent of area coordinator.

ESP 755 A - Medically Related Aspects of Disabilities**Credits 3**

Course emphasizes medical bases of typical and atypical development for individuals across the lifespan. Physical systems and disabilities; etiologies, symptoms, and psychosocial implications of disabilities and medical conditions; and interventions, treatment strategies, resources, transition/vocational implications are addressed.

ESP 755 B - Medically Related Aspects of Disabilities**Credits 3**

Course emphasizes medical bases of typical and atypical development for young children birth to eight with developmental delays. Physical systems and disabilities; etiologies, symptoms, and psychosocial implications of disabilities and medical conditions; and interventions, treatment strategies, resources, transition/vocational implications are addressed.

ESP 757 - Assistive Technology Assessment

Credits 3

Presents variety of procedures for gathering data to identify assistive technology needs. Role of team decision making in the assessment process to determine appropriate assistive technology solutions described. Integration of assistive and educational technologies also investigated. **Prerequisites:** ESP 748, ESP 701.

ESP 758 - Collaborative Services in Assistive Technology

Credits 3

Emphasizes development of collaborative relationships that support development of student-centered assistive technology plans, including working with parents, students and related service providers. Funding issues also addressed. **Prerequisites:** ESP 701 and overview of AT (ESP 748).

ESP 759 - Assistive Technology Applications for Students with Disabilities

Credits 3

Development of functional applications of assistive technology in the areas of communication, mobility, education, recreation, vocation, independence, and therapy/rehabilitation. **Prerequisites:** ESP 701, ESP 715 and ESP 727.

ESP 763 - Seminars in Selected Special Educational Topics

Credits 1 – 3

Areas of emphasis are a) mental retardation, b) emotional disturbance, c) learning disabilities, d) autism, e) early childhood, f) gifted education, g) parent education, h) higher education, i) special education administration, j) research, k) consultation, l) curriculum, m) technology, n) ABA, o) diversity, p) professional writing, q) data-based decision making and growth models. **Notes:** May be repeated to a maximum of nine credits. **Prerequisites:** ESP 760 and consent of instructor.

ESP 764 - Characteristics & Inclusive Strategies for Students with LD, ED, & MID

Credits 3

Overview of natural and characteristics of students with mild disabilities. Issues in assessment, curriculum and instruction, and placement discussed.

ESP 766 - Comprehensive Examination

Credits 3

Preparation for Comprehensive Examination. Students enroll in this course only if they are not enrolled in coursework in the semester in which they sit for the Comprehensive Examination. **Notes:** No additional assignments are required. Only one credit will be accepted toward degree plan. **Grading:** S/F grading only.

ESP 767 - Training Program Seminar

Credits 3

In-depth analysis of special education training program roles and functions in college and university settings. Emphasis upon teaching, supervisory, and advisement functions, program and area curriculum development, program funding, program-university, public agency and community relationships, and ancillary training program responsibilities. **Prerequisites:** Consent of instructor.

ESP 770 - Second Language Methods for Diverse Learners in Inclusive Settings

Credits 3

Study and implementation of methods and strategies for teaching English language learners (ELLs) with and without disabilities. Learner characteristics and second language development reviewed followed by practical techniques for teaching diverse second language learners across the curriculum.

ESP 771 - Perspectives on Early Childhood Special Education

Credits 3

Perspectives of national, state, and local programs in special education for young children with disabilities. Reviews variables related to: program development, classroom management, parent involvement, legislation and funding, disability condition, identification, screening and assessment, learning and developmental problems, research, normal child development and developmental deviations.

ESP 772 - Family Education in Early Childhood Special Education

Credits 3

Review of average family structure and interaction patterns, roles, expectations and conflicts; mother-infant, infant-family bonding patterns; general specific problems and needs of families of young children with disabilities; programs developed for family involvement and education; national, state and local program models and evaluation.

Prerequisites: ESP 771 or consent of instructor.

ESP 773 - Assessment for Young Children with Disabilities

Credits 3

Focuses on subjective, objective, unstructured, and structured observations of young children with physical disabilities and disabilities of behavior, communication, learning, and development. Survey, review and critique of standardized and non-standardized tests as well as the use of test data in planning instruction. **Prerequisites:** ESP 771 or consent of instructor.

ESP 774 - Seminar in Curriculum Development in Early Childhood Special Education

Credits 3

Focuses on the identification of important components of early childhood education for young children with disabilities; critical evaluation for the suitability of various curriculum modes for various disabilities; critical evaluation of commercial materials; designing new curriculum models; and utilizing teacher-made materials.

Prerequisites: ESP 771

ESP 775 - Strategies for Early Childhood Special Education

Credits 3

Focuses upon development of behavioral objectives, task analysis, and grouping and regrouping of children. Includes behavior modification, precision teaching, interaction analysis and microteaching procedures. Consideration of modifications of classroom physical and learning environments, reinforcement patterns, and questioning styles, etc. **Prerequisites:** ESP 771 or consent of instructor.

ESP 776 - Strategies for Working with Infants and Toddlers in Early Childhood Special Education

Credits 3

Focus is on research based practices, practical problems, and issues pertaining to the effectiveness of various interventions and strategies used with infants and toddlers (0-3) with special needs. **Prerequisites:** ESP 771 and consent of instructor.

ESP 777 - Assistive Technology Strategies for Young Children

Credits 3

Emphasizes the selection and implementation of assistive technology for young children with and without disabilities. **Prerequisites:** ESP 701 and ESP 748.

ESP 778 - Behavior Management for Early Childhood

Credits 3

Provides a background in applied behavior analysis and positive behavior support, with a focus on the application of behavior support for young children and their families. Future service providers receive important knowledge and skills for implementing positive, preventive and function-based interventions in school, home and community environments. **Prerequisites:** ESP 771 or consent of instructor.

ESP 779 - Early Intervention Service Coordination

Credits 3

Provides content related to staffing patterns in programs for young children with disabilities; organization and implementation of training to meet identified needs of varied paraprofessionals and professionals; supervisory and consultive roles; and budget and fiscal matters. **Prerequisites:** ESP 771 or consent of instructor.

ESP 780 - Field Experience in Early Childhood Special Education 7 Infancy**Credits 3 or 6**

Intensive 15-week full- or part-time early intervention experience with high risk children and infants with disabilities and their families. Experience includes working with children below age three years in individual and small group activities, planning and implementing Individual Family Service Plans, and exploring community resources. **Prerequisites:** Consent of instructor.

ESP 781 - Field Experience in Early Childhood Special Education 7 Preschool/Kindergarten**Credits 8**

Intensive 15-week full- or part-time supervised teaching experience with young children with disabilities and their families. Experience includes working with children three to six years of age in individual, small and large group activities, planning and implementing Individualized Program Plans, and exploring community resources.

Prerequisites: Consent of instructor.

ESP 782 - Professional Seminar in Special Education**Credits 3**

Perceptions of exceptionality by a variety of interdisciplinary personnel. **Prerequisites:** Doctoral status or consent of instructor.

ESP 783 - Leadership Seminar in Special Education**Credits 3**

Teaches and empowers participants to become highly effective leaders in the field of special education. Current leadership paradigms and their application to a variety of professional roles in special education explored.

ESP 784 - Seminar in Advanced Special Education Technology**Credits 3**

In-depth analysis concerning the impact of technology on persons with disabilities. Includes analysis and synthesis of research, local, state, and national policies and initiatives; resource allocations; funding issues; and the use of technology in higher education special education. **Prerequisites:** ESP 760

ESP 785 - Issues, Trends and Futures in Special Education**Credits 3**

Concepts and techniques which facilitates students' abilities in issue analysis, issue resolution, trend impact analysis, and futures formulations. The latter includes evaluations of possibilities, probabilities, and preferences in creating the future. **Prerequisites:** ESP 760

ESP 786 - Legal and Political Issues in Special Education Programming**Credits 3**

Analysis of federal, state, and local statutes, policies and titles which affect the funding and direction of programs for exceptional children. Impact of special education from social, political, and economic perspectives.

ESP 787 - Philosophical Perspectives in Special Education**Credits 3**

Emphasis on the sociocultural, epistemological, teleological, and ethical implications of special education programs.

Prerequisites: ESP 760

ESP 788 - Single Subject Methods in Special Education**Credits 3**

Overview of methods for evaluating the effectiveness of individual educational interventions and curricula for students with disabilities. Factors which determine when and under what conditions it is appropriate to employ different assessment strategies. **Prerequisites:** ESP 782 and EPY 721; and EPY 722 or KIN 751 or consent of instructor

ESP 789 - Grant Writing for Human Services**Credits 3**

History and pragmatics of grant proposal writing, management, and evaluation for federal, state and philanthropic support of research, demonstration programs, and personnel preparation in special education and related services. **Prerequisites:** ESP 760

ESP 791 - Proposal Design and Analysis

Credits 3

Formative and summative research considerations and applications, with emphasis upon practitioner-relevant proposal development, research design, and interpretive critical analyses. **Prerequisites:** ESP 782, EPY 721, ESP 788, and EPY 722 or KIN 751 or consent of instructor.

ESP 793 - Advanced Field Experience in Special Education

Credits 3 – 6

Field-relevant applications of administrative diagnostic-prescriptive and research content to practical working situations. **Prerequisites:** Consent of instructor.

ESP 794 A-C - Internship in Special Education

Credits 3 – 6

Structured internship experiences related to (a) conducting research within the field of special education and/or early childhood education, (b) teaching university courses within the Department of Special Education, or (c) the administration of special education and/or early childhood programs. **Prerequisites:** Consent of instructor.

ESP 796 - Dissertation Prospectus

Credits 3

Development of appropriate field-relevant topics as a preface to dissertation writing. **Prerequisites:** ESP 760

ESP 798 - Professional Paper in Special Education

Credits 2

ESP 799 – Dissertation

Credits 3 – 12

Practitioner-relevant thesis covering significant special educational topics, with appropriate applications of demonstration, research and/or model formation. **Prerequisites:** ESP 796. 3-12 credits in increments of three.

TESL 650 - TESL Linguistic Theory

Credits 3

General linguistics for the TESL teacher and classroom, focusing on the nature of language, English phonology, syntax, semantics, and language change; introduction to psycholinguistics and sociolinguistics. **Formerly:** CIL 650.

TESL 651 - Theories of Second Language Acquisition

Credits 3

Current philosophies and approaches to second language acquisition and instruction; attention to sociocultural influences. **Formerly:** CIL 651.

TESL 652 - TESL Methods and Materials

Credits 3

Methods and materials for teaching English as a second language (ESL). Design, implement, prepare, and evaluate ESL materials. **Formerly:** CIL 652. **Prerequisites:** TESL 650, TESL 651

TESL 653 - TESL Curriculum

Credits 3

Principles of curriculum organization, development and adaptation of TESL curriculum. **Formerly:** CIL 653. **Prerequisites:** TESL 650, TESL 651.

TESL 654 - TESL Assessment Procedures

Credits 3

Assessment of ESL students; selection of appropriate ESL assessment instruments, their administration, scoring, and interpretation. **Formerly:** CIL 654. **Prerequisites:** TESL 652, TESL 653

TESL 655 - Language Acquisition and Development

Credits 3

Explores the nature of children's language acquisition, emphasizing normal development. Incorporates the application of current research to teaching strategies. **Formerly:** CIL 655R. **Prerequisites:** TESL 652, TESL 653

TESL 656 - Technology Assisted English Language Learning

Credits 3

Application software for ESL learning, including evaluation of software. **Formerly:** CIL 756. **Prerequisites:** TESL 654, TESL 655.

TESL 67 - English Language Acquisition Practicum

Credits 2

Supervised field experience in an ESL setting with application of TESL methods, materials, and assessment procedures. **Formerly:** CIL 657. **Prerequisites:** TESL 654, TESL 655.

TESL 659 - English Language Acquisition Seminar

Credits 3

Examination of seminal and current English language acquisition research through readings, writings, discussions and presentations. **Formerly:** CIL 659. **Prerequisites:** 15 graduate credits of ELA coursework.

TESL 770 - TESL Culminating Experience

Credits 1-3

TESL Culminating Experience. **Prerequisites:** 33 Graduate credits.

TESL 772 - Individual Instruction in Teaching English as a Second Language

Credits 1-9

Individual study in the analysis, synthesis, evaluation, and application or learning of issues and selected topics in teaching English as a second language. **Notes:** Maximum of 9 credits toward degree. Must be approved prior to registration. **Prerequisites:** Masters' student status.

Teaching and Learning

The Department of Teaching and Learning offers graduate degrees in education at the master, specialist, and doctoral levels. All Teaching and Learning graduate programs are aimed at providing the professional experiences required by teachers, field supervisors, curriculum specialists, adult educators, and future professors of education who are dedicated to school improvement.

The Department of Teaching and Learning offers the Master of Education (M.Ed.) and the Master of Science (M.S.) degrees. The M.Ed. degree requires a minimum of 37 semester hours of study including a 1 credit culminating experience and a core of three semester hours in research, three semester hours in foundations, and three semester hours in curriculum and instruction. The M.S. degree requires a minimum of 39 semester hours of study including 6 credits of thesis and a core of six semester hours in research and three semester hours in foundations.

The Department of Teaching and Learning offers the following concentrations for a M.Ed. or M.S. degree:

Children's and Young Adult Literature
Elementary Education
English Education
Literacy Education
Mathematics Education
Multicultural Education
Reading Specialist
Science Education
Social Studies Education
Secondary Education
Educational Technology

The Graduate Licensure Program is a graduate program in the Department of Teaching & Learning leading to an elementary or secondary teaching license and a Master of Education (M.Ed.). The program is designed for individuals who hold a degree in a field other than education and aspire to become elementary or secondary classroom teachers.

The Ed.D. in Curriculum and Instruction is intended for professional educators who desire to extend and advance their studies in the theory and practice of education. The completion of this degree will enable individuals to become members of university and college faculties as well as leaders in school districts and community agencies.

The Ph.D. in Curriculum and Instruction is intended for professional educators who desire to extend and advance knowledge in the theory and practice of education as university researchers. The completion of this degree will enable individuals to become skilled researchers and mentors of university students, as well as leaders in school districts and community agencies. Curricular emphasis areas within the Ed.D. and Ph.D. include:

1. Teacher Education;
2. Literacy Education;
3. Cultural and International Studies in Education;
4. Mathematics Education;
5. Educational Technology;
6. Science Education;

A separate and unique Ph.D. in Teacher Education is designed for professional educators who have an interest in becoming practitioner-oriented scholars in teacher education and who are interested in teacher education as a content

area for research. Completing this degree will enable individuals to answer the national call for teacher educators and researchers in this field. The program is one of only a few in the nation devoted to teacher education.

Randall Boone, PhD, Chair
P.G. Schrader, Ph.D, Graduate Coordinator
Neal Strudler, Ph.D., Graduate Coordinator
Lindsay Diamond, Graduate Coordinator

Chair

Boone, Randall A. - *Full Graduate Faculty*
Professor; B.S., M.S., University of Central Arkansas; Ph.D., University of Oregon. *Rebel since 1991.*

Graduate Coordinators

Schrader, Peter - *Full Graduate Faculty*
Associate Professor; B.S., M.A., Ph.D., University of Connecticut. *Rebel since 2003.*

Strudler, Neal - *Full Graduate Faculty*
Professor; B.A., State University of New York at Albany; M.A., George Peabody College for Teachers; M.A., Ph.D., University of Oregon. *Rebel since 1989.*

Graduate Faculty

Clark, Christine - *Full Graduate Faculty*
Professor; B.A., Franklin and Marshall College; M.Ed., Ed.D., University of Massachusetts, Amherst. *Rebel since 2007.*

Deniz, Hasan - *Full Graduate Faculty*
Associate Professor; B.S., Dokuz Eylul University in Turkey; M.S., Ph.D., Indiana University. *Rebel since 2007.*

Garcia, Jesus - *Full Graduate Faculty*
Professor; B.A., San Francisco State University; M.S., Ph.D., University of California. *Rebel since 2004.*

Giorgis, Cynthia - *Full Graduate Faculty*
Professor; B.S., Chadron State College; MLS, Ph.D., University of Arizona. *Rebel since 1995.*

Grove, Karen - *Associate Graduate Faculty*
Associate Faculty in Residence; B.A.E., Wayne State College; M.S., Ph.D., University of Nevada Las Vegas. *Rebel since 2006.*

Grubaugh, Steven J. - *Full Graduate Faculty*
Professor; B.A., California State University, Sonoma; M.A., Ed.D., University of Northern Colorado. *Rebel since 1991.*

Gordon, Howard R. - *Full Graduate Faculty*
Professor; Diploma, School of Agriculture, Jamaica, West Indies; B.S. and M.S., Tuskegee University; Ed.D., Virginia Polytechnic Institute and State University. *Rebel since 2008.*

Hartley, Kendall - *Full Graduate Faculty*
Associate Professor; B.S., Ph.D., University of Nebraska-Lincoln; M.S., University of Iowa. *Rebel since 1999.*

Levitt, Gregory A. - *Full Graduate Faculty*

Professor; B.A., Capitol University; M.A., Ohio State University; Ph.D., Ohio State University. *Rebel since 2001.*

Lin, Emily Shu-Ying - *Full Graduate Faculty*

Associate Professor; B.Ed, M.A., University of British Columbia; Ph.D., University of Toronto. *Rebel since 2002.*

McCarthy, Jane - *Full Graduate Faculty*

Professor; B.A., Douglass College-Rutgers; M.S., Florida State University, Tallahassee; Ed.D., University of Houston. *Rebel since 1991.*

McKinney, Marilyn M. - *Full Graduate Faculty*

Professor; B.A., Mary Washington College; M.S., Ed.D., Northwest Missouri State University; Ph.D., University of Iowa. *Rebel since 1988.*

McClain, Clifford R. - *Full Graduate Faculty*

Associate Professor; B.S., M.S., University of Idaho; Ph.D., University of Nebraska. *Rebel since 1988.*

Olson, Travis A. - *Full Graduate Faculty*

Assistant Professor; B.S., Western Illinois University; M.S., Western Illinois University; Ph.D. candidate, University of Missouri. *Rebel since 2009.*

Quinn, Linda - *Full Graduate Faculty*

Professor; B.S., Portland State University; Ed.D., University of Houston. *Rebel since 1999.*

Shih, Jeffrey - *Full Graduate Faculty*

Associate Professor; B.A., University of California, Berkeley; Ph.D., University of California, Los Angeles. *Rebel since 1999.*

Spalding, Mary Elizabeth - *Full Graduate Faculty*

Professor; B.A., M.A., University of West Virginia; Ph.D., Indiana State University. *Rebel since 2004.*

Stohlmann, Micah - *Full Graduate Faculty*

Assistant Professor; B.A., Concordia University; M.Ed., Ph.D., University of Minnesota. *Rebel since 2012.*

Wang, Jian - *Full Graduate Faculty*

Professor; B.A., Nanchang Technical and Vocational Teacher's College; M.A., Northeast Normal University; Ph.D., Michigan State University. *Rebel since 1998.*

Zhang, Shaoan - *Full Graduate Faculty*

Associate Professor; B.A., M.A., Hebei Normal University; Ph.D., Old Dominion University. *Rebel since 2007.*

Teaching and Learning Plans

Doctor of Philosophy - Curriculum & Instruction

This course of study is for professional educators who desire to extend and advance knowledge in the theory and practice of education as university researchers. The completion of this degree will particularly enable individuals to become skilled researchers as members of university faculties.

Upon completion of the program, graduates will:

Have an understanding of the theoretical and historical foundations of education.

Demonstrate knowledge and synthesis of major research in teaching and schooling.

Demonstrate knowledge and research application in the area of emphasis: cultural and international studies in education, instructional technology, literacy, mathematics education, science education, teacher education, and teaching English as a second language (TESL).

Demonstrate college-level teaching experience.

Understand and apply the major tenets of research design and analysis spanning quantitative and qualitative methods. Begin to disseminate findings in refereed journals.

Demonstrate the ability to successfully design, defend, and complete an extended educational study resulting in a defensible dissertation.

Areas of research emphasis include:

Career & Technical and Postsecondary Education

The Doctor of Philosophy (Ph.D.) in Curriculum and Instruction with a Concentration in Career & Technical and Postsecondary Education (CTPE) is a research and professional leadership degree. It is designed to develop future leaders/educators who will make well-informed, theory-based, research supported, and data driven decisions related to planning, organizing, delivering and evaluating the many components and systems connecting education, work, and economic development. Program graduates typically seek research and teaching faculty positions in universities; administrative and policy positions in local, state and national education and other governmental agencies; instructional/curricular leadership positions within school districts; leadership and teaching positions in secondary, community and technical colleges, and training positions in a variety of adult education and training environments. Graduates will be prepared to assume leadership positions in Southern Nevada and throughout Nevada and the Nation.

Cultural Studies, International Education, and Multicultural Education

Cultural Studies is a highly interdisciplinary field, drawing on philosophy, literature, the arts, sociology, psychology, political science, technology, and media. Cultural Studies connects those scholars interested in examining and challenging relationships of power, culture, and knowledge. International Education is an umbrella term encompassing comparative education, transnational education, and pan-global indigenous studies. Included in these studies are a series of large-scale, cross-national comparisons in student achievement, teaching practice, curriculum, and educational policy. Multicultural Education is an instructional and pedagogical paradigm that integrates the history, cultural traditions, social norms, life experiences, and learned contributions that members of non-dominant groups have made to all aspects of local and global society, especially those aspects that are typically codified in PK-12 and higher education courses of study in the United States.

Educational Technology

The goal of our program is to enable students to become university faculty, researchers, instructional designers, and leaders in the growing field of educational technology. The focus of the program is on content, pedagogy, technology, and a wide range of associated issues. Students will develop expertise in critical analysis, deconstruction, and research on educational technology. The program will prepare students for a variety of professional careers related to teaching and learning in both academic and non-academic settings, such as K-12 schools, community colleges, universities, state and federal agencies, and private organizations.

Literacy Education

Doctoral students in Literacy Education will be engaged in exploring relationships among language, literacy, culture and social justice. They will develop expertise in critical analysis and methodological approaches for conducting research on literacy teaching and learning (e.g., curriculum design; assessment; policy; new literacies; issues related to gender, race, and class; and attention to comparative, international, and cross-cultural studies in education). Students will have opportunities for clinical and field-based work in conjunction with our teacher education program, the Gayle A. Zeiter Literacy Development Center, the Southern Nevada Writing Project, and other community organizations. Through an emphasis on the integration of theory, research and practice, students will demonstrate a well-grounded understanding of the literacy content, pedagogy, technology, and issues associated with teaching and learning in literacy education.

Mathematics Education

The purpose of the Ph.D. Program in Mathematics Education is to prepare individuals for research and teacher education careers in higher education and for leadership positions in educational settings. The program is designed to develop expertise in conceptualizing, conducting and reporting research in mathematics education and to improve student knowledge about the field of mathematics education. Students choosing this area of study will find themselves challenged with the latest ideas and theories in the field. The program is consistent with other top graduate programs and is aligned with UNLV's goals to advance the research functions of UNLV while maintaining high quality teaching.

Science Education

Doctoral students electing this Ph.D./Ed.D. area of study will be engaged in developing expertise in critical analysis, deconstruction, and research on teaching and learning science including, but not limited to: curriculum design, assessment, scientific literacy, policy, media, popular culture, issues related to race, gender, class, and attention to comparative, international, and cross-cultural studies in education. In essence, the development and offering of this Ph.D./Ed.D. emphasis is consistent with offerings at other top graduate schools of education including Penn State and The Ontario Institute for Studies in Education where these programs currently flourish. Indeed, this goal is consistent with UNLV planning documents designed to advance the research functions of UNLV while maintaining high quality teaching.

Teacher Education

The Ph.D. in Teacher Education is a separate degree program from the Ph.D. in Curriculum and Instruction with an emphasis in Teacher Education. This teacher education emphasis is one of the emphasis areas in Curriculum and Instruction Ph.D. and Ed.D. programs. By completing this emphasis and their program, graduates will be able to conduct scholarly research to advance knowledge in specific areas in the field of teaching and teacher education and be well prepared for an academic or professional career position that demands a strong commitment to teaching and research in teacher education. This emphasis is designed in consistence with top doctorate programs in teacher education in research institutions, such as Michigan State University, University of Wisconsin, and University of Georgia and with UNLV strategic goals to advance its research functions while maintaining high quality teaching.

Learning Outcomes

<http://www.unlv.edu/degree/phd-curriculum-instruction>

Plan Admission Requirements

Application for the Ph.D. in Curriculum and Instruction in the Department of Teaching and Learning is accomplished through the UNLV Graduate College online application process. Deadline for completed and submitted applications is March 1.

Specific admission criteria for the PhD in Curriculum and Instruction include:

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Hold a master's degree from an accredited program in an area closely related to the chosen field of specialization. Normally, 18 semester hours in education are required.

Have a grade point average of 3.0 or higher in all graduate level coursework. *Please note that one third of the total program hours may be transferred from another accredited doctoral program.

Have completed a minimum of 2 years of successful professional educational experience upon entrance to the program.

Obtain three letters of recommendation from individuals who can specifically address the applicant's potential for success in the doctoral program. These letters of recommendation will be requested and submitted through the Graduate College online application system. One of the letters must be from a university faculty member addressing your past academic success and future potential in a doctoral program.

Submit one set of official transcripts from all previously attended colleges and universities as requested in the Graduate College online application. You may upload unofficial transcripts via the online application as a supplement if you have the documents in a digital computer file (e.g., PDF). Unofficial transcripts do NOT substitute for the official documents.

Submit Graduate Record Examination (GRE) scores for the General Exam. The scores should be sent directly to the Doctoral Studies Office in the Department of Curriculum and Instruction. Applicants are encouraged to provide self-reported scores for the GRE in the Standardized Tests section of the Graduate College online application.

Submit a Personal Statement via the Graduate College online application that addresses in detail:

Emphasis area of study

Reasons for pursuing a doctorate in education

Expectations concerning the doctoral program

Potential areas of study

The name of a faculty member in the department with whom you would like to work [optional]

Submit a written statement regarding when the residency requirement will be met (see the Doctoral Handbook). This statement should be uploaded via the Graduate College online application in the Supplementary Information section as an "Other Required Document."

Demonstrate oral communication skills through an interview conducted by members of the C&I graduate faculty. Out-of-state applicants must contact the Coordinator of Doctoral Studies directly to make alternate arrangements to the on-campus interview.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Career & Technical and Postsecondary Education Track

Total Credits Required: 72

Course Requirements

- Required Courses ,Ä Credits: 6
 - Complete two of the following courses:
 - CIG 761 - Theoretical Foundations of Education
 - CIG 768 - Advanced Curriculum Studies
 - CIG 780 - Research on Teaching and Schooling
- CTPE Required Courses ,Ä Credits: 18
 - Complete 18 credits from the following courses:
 - EDW 719 - Leadership in Workforce Education and Development
 - EDW 745 - Theories of Adult Learning
 - EDW 746 - History and Development of Two Year Postsecondary Institution
 - EDW 747 - Workforce Education Teaching
 - EDW 749R - Evaluation of Workforce Education Programs
 - EDW 763 - Readings in Postsecondary Education, Workplace Learning and Performance, and Workforce Education Leadership
 - EDW 765 - Fiscal Management and Administration of Workforce Programs
- Cognate Courses ,Ä Credits: 12
 - Complete 12 credit hours of advisor-approved cognate coursework related to the area of emphasis.
- Research Courses ,Ä Credits: 9
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
 - CIG 790 - Doctoral Research Seminar
- Elective Research Courses ,Ä Credits: 6
 - Complete 6 credits of advisor-approved additional research courses.
- Internship Courses ,Ä Credits: 6
 - Complete six credits of a combination of a research internship and/or a college teaching internship
 - EDW 735 - Practicum in Workforce Education
- Dissertation ,Ä Credits: 15
 - CIG 799 – Dissertation

Degree Requirements

- Complete a minimum of 72 credit hours beyond the master,Äôs degree.
- All coursework must be approved by the doctoral student,Äôs advisor.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level;
- Complete the residency requirement for the degree through one of the three options available as described in the current Doctoral Studies Guide on the department Web site.
- Attend the Teaching and Learning Department Doctoral Colloquium held periodically throughout their years of study.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Äôs discretion. Please see Graduate College policy for committee appointment guidelines.

- Pass a written comprehensive examination prior to commencing work on the dissertation proposal or dissertation (See the Doctoral Handbook for more detailed information on this process).
- Submit an article for publication in a national refereed journal.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Cultural Studies, International Education, and Multicultural Education Track

Total Credits Required: 72

Course Requirements

- Required Courses ,Ä Credits: 15
 - CIG 662 - Theory and Research Multicultural Education
 - CIG 768 - Advanced Curriculum Studies
 - CIG 771 - Comparative Studies in Learning, Teaching, and Curriculum
 - CIG 772 - Introduction to Cultural Studies in Education
 - CIG 773 - Critical Literacies/Critical Pedagogies
- Area of Emphasis Elective Courses ,Ä Credits: 12
 - Complete 12 credits of advisor-approved emphasis-area courses within and/or outside the department.
- Cognate Courses ,Ä Credits: 9
 - Complete 9 credit hours of advisor-approved cognate coursework outside the department related to the area of emphasis.
- Research Required Course ,Ä Credits: 3
 - CIG 790 - Doctoral Research Seminar
- Research Elective Courses ,Ä Credits: 12
 - Complete 12 credits from the following list of courses, or any 600- or 700-level advisor-approved research elective course within and/or outside the department. Students should check with relevant department to ensure they meet any admission and/or prerequisite requirements.
 - CIG 690 - Teachers as Action Researchers
 - EPY 718 - Qualitative Research Methodologies
 - EPY 719 - Advanced Qualitative Research
 - EPY 720 - Research Design in Education
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
 - EPY 729 - Qualitative Case Study Research
 - EPY 730 - Advanced Research Methods
 - EPY 738 - Interpretive Analysis of Text and Discourse
- Internship Course ,Ä Credits: 6
 - CIG 791 - Internship in Curriculum and Instruction
- Dissertation ,Ä Credits: 15
 - CIG 799 – Dissertation

Degree Requirements

- Complete a minimum of 72 credit hours beyond the master,Äôs degree.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level.

- Complete the residency requirement for the degree through one of the three options available as described in the current Doctoral Studies Guide on the department Web site.
- Attend the Teaching and Learning Department Doctoral Colloquium held periodically throughout their years of study.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Each student must satisfy a scholarly publication requirement. This requirement can be met in one of two ways: students may submit a research study to a refereed journal; or submit a proposal for refereed presentation at an annual conference of a national organization (e.g., the Association for Cultural Studies Conference, the Comparative and International Education Conference, etc.).
- Pass a written comprehensive examination prior to commencing work on the dissertation proposal or dissertation (See the Doctoral Handbook for more detailed information on this process).

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: Educational Technology Track

Total Credits Required: 72

Course Requirements

- Required Courses ,À Credits: 12
 - CIT 770 - Advanced Seminar in Educational Technology Research
 - CIT 778 - Instructional Design
 - CIT 780 - Multimedia Learning Studio
 - CIT 782 - Distance Education Issues and Trends
- Area of Emphasis Elective Courses ,À Credits: 15
 - Complete 15 credits of advisor-approved emphasis-area courses within and/or outside the department.
- Cognate Courses ,À Credits: 9
 - Complete 9 credit hours of advisor-approved cognate coursework related to the area of emphasis.
- Research Required Courses ,À Credits: 9
 - CIG 790 - Doctoral Research Seminar
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
- Research Elective Courses ,À Credits: 6
 - Complete two of the following courses:
 - EPY 716 - Evaluation Research Methods
 - EPY 722 - Inferential Statistics and Experimental Design
 - EPY 726 - Advanced Evaluation Research Methods
 - EPY 730 - Advanced Research Methods
 - EPY 733 - Multivariate Statistics
- Internship Course ,À Credits: 6
 - CIG 791 - Internship in Curriculum and Instruction
- Dissertation ,À Credits: 15
 - CIG 799 – Dissertation

Degree Requirements

- Complete a minimum of 72 credit hours beyond the master's degree.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level.
- Complete the residency requirement for the degree through one of the three options available as described in the current Doctoral Studies Guide on the department Web site.
- Attend the Teaching and Learning Department Doctoral Colloquium held periodically throughout their years of study.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Pass a written comprehensive examination prior to commencing work on the dissertation proposal or dissertation (See the Doctoral Handbook for more detailed information on this process).
- Submit an article for publication in a national refereed journal.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 4 Requirements: Literacy Education Track

Total Credits Required: 72

Course Requirements

- Required Courses , Credits: 12
 - CIG 761 - Theoretical Foundations of Education
 - CIG 772 - Introduction to Cultural Studies in Education
 - CIL 774 - Historical Foundations of Literacy Research and Instruction
 - CIL 776 - Social and Political Issues in Literacy
 - CIG 780 - Research on Teaching and Schooling
- Area of Emphasis Elective Courses , Credits: 15
 - Complete 15 credits from the following list of courses, or any 600- or 700-level advisor-approved courses in the English Department. Students should check with relevant department to ensure they meet any admission and/or prerequisite requirements.
 - CIG 773 - Critical Literacies/Critical Pedagogies
 - CIL 688 - Historical Development of Literature
 - CIL 747 - Literary Theories and Children's Literature
 - CIL 784 - Theory and Research in Literacy
 - CIL 782 - Theory and Research in the English/Language Arts
- Cognate Courses , Credits: 9
 - Complete 9 credits of advisor-approved cognate coursework related to the area of emphasis.
- Research Required Courses , Credits: 9
 - CIG 790 - Doctoral Research Seminar
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
- Research Elective Courses , Credits: 6
 - Complete two of the following courses, or other research courses from within the College of Education or from departments across campus.
 - EPY 716 - Evaluation Research Methods

- EPY 722 - Inferential Statistics and Experimental Design
 - EPY 729 - Qualitative Case Study Research
 - EPY 730 - Advanced Research Methods
 - EPY 733 - Multivariate Statistics
 - EPY 738 - Interpretive Analysis of Text and Discourse
- Internship Course ,À Credits: 6
 - Complete 6 credits of internship. This can include a combination of a research internship and/or a college teaching internship.
 - CIG 791 - Internship in Curriculum and Instruction
- Dissertation ,À Credits: 15
 - CIG 799 – Dissertation

Degree Requirements

- Complete a minimum of 72 credit hours beyond the master,Às degree.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level.
- Complete the residency requirement for the degree through one of the three options available as described in the current Doctoral Studies Guide on the department Web site.
- Attend the Teaching and Learning Department Doctoral Colloquium held periodically throughout their years of study.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Às discretion. Please see Graduate College policy for committee appointment guidelines.
- Pass a written comprehensive examination prior to commencing work on the dissertation proposal or dissertation (See the Doctoral Handbook for more detailed information on this process).
- Submit an article for publication in a national refereed journal.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 5 Requirements: Mathematics Education Track

Total Credits Required: 72

Course Requirements

- Required Courses ,À Credits: 15
 - CIG 761 - Theoretical Foundations of Education
 - CIG 620 - Principles of Learning Mathematics
 - CIG 780 - Research on Teaching and Schooling
 - CIG 783 - Theory and Research in School Mathematics
 - CIG 787 - Individual Instruction in Mathematics Education
- Area of Emphasis Elective Courses ,À Credits: 12
 - Complete 12 of electives within your area of emphasis, or any 600- or 700-level advisor-approved course with a MAT, CIG, CIE, or CIS prefix. Students should check with the relevant department to ensure they meet any admission and/or prerequisite requirements.
- Cognate Courses ,À Credits: 9
 - Complete 9 credit hours of advisor-approved cognate coursework relating to the area of emphasis.

- Research Required Courses ,À Credits: 9
 - CIG 790 - Doctoral Research Seminar
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
- Research Elective Courses ,À Credits: 3
 - Complete one of the following courses:
 - EPY 716 - Evaluation Research Methods
 - EPY 722 - Inferential Statistics and Experimental Design
 - EPY 726 - Advanced Evaluation Research Methods
 - EPY 730 - Advanced Research Methods
 - EPY 733 - Multivariate Statistics
- Internship Course ,À Credits: 6
 - CIG 791 - Internship in Curriculum and Instruction
- Dissertation ,À Credits: 15
 - CIG 799 - Dissertation

Degree Requirements

- Complete a minimum of 72 credit hours beyond the master,Às degree.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level.
- Complete the residency requirement for the degree through one of the three options available as described in the current Doctoral Studies Guide on the department Web site.
- Attend the Teaching and Learning Department Doctoral Colloquium held periodically throughout their years of study.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Às discretion. Please see Graduate College policy for committee appointment guidelines.
- Pass a written comprehensive examination prior to commencing work on the dissertation proposal or dissertation (See the Doctoral Handbook for more detailed information on this process).
- Submit an article for publication in a national refereed journal.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 6 Requirements: Science Education Track

Total Credits Required: 72

Course Requirements

- Required Courses ,À Credits: 12
 - CIG 761 - Theoretical Foundations of Education
 - CIG 777 - Principles of Learning Science
 - CIG 780 - Research on Teaching and Schooling
 - CIG 784 - Theory and Research in School Science
- Area of Emphasis Elective Courses ,À Credits: 15

- Complete 15 credits of electives within your area of emphasis. Courses can be selected from the following list, or any 600- or 700- level advisor-approved course with a BIOL, CHE, PHY, ENV, GEO, GEY, ENG, AST or SCI prefix. Students should check with the relevant department to ensure they meet any admission and/or prerequisite requirements.
 - CIG 775 - Theoretical Frameworks for Science Education
 - CIG 776 - Philosophical Foundations of Science Education
 - CIG 788 - Individual Instruction in Science Education
- Cognate Courses ,Ä Credits: 9
 - Complete 9 credit hours of advisor-approved cognate coursework relating to the area of emphasis.
- Research Required Courses ,Ä Credits: 9
 - CIG 790 - Doctoral Research Seminar
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
- Research Elective Courses ,Ä Credits: 6
 - Complete two of the following courses:
 - EPY 716 - Evaluation Research Methods
 - EPY 722 - Inferential Statistics and Experimental Design
 - EPY 726 - Advanced Evaluation Research Methods
 - EPY 730 - Advanced Research Methods
 - EPY 733 - Multivariate Statistics
- Internship Course ,Ä Credits: 6
 - CIG 791 - Internship in Curriculum and Instruction
- Dissertation ,Ä Credits: 15
 - CIG 799 - Dissertation

Degree Requirements

- Complete a minimum of 72 credit hours beyond the master,Äs degree.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level.
- Complete the residency requirement for the degree through one of the three options available as described in the current Doctoral Studies Guide on the department Web site.
- Attend the Teaching and Learning Department Doctoral Colloquium held periodically throughout their years of study.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Äs discretion. Please see Graduate College policy for committee appointment guidelines.
- Pass a written comprehensive examination prior to commencing work on the dissertation proposal or dissertation (See the Doctoral Handbook for more detailed information on this process).
- Submit an article for publication in a national refereed journal.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 7 Requirements: Teacher Education Track

Total Credits Required: 72

Course Requirements

- Required Courses ,Ài Credits: 6
 - Complete two of the following courses:
 - CIG 761 - Theoretical Foundations of Education
 - CIG 768 - Advanced Curriculum Studies
 - CIG 780 - Research on Teaching and Schooling
- Area of Emphasis Required Courses ,Ài Credits: 9
 - Complete three of the following courses:
 - CIG 706 - Mentoring Strategies to Improve Teaching
 - CIG 760R - Inquiry into Teacher Education
 - CIG 762 - Instructional Strategies and Learning to Teach in Higher Education
 - CIG 763 - Teaching and Learning to Teach
- Area of Emphasis Elective Courses ,Ài Credits: 12
 - Complete four of the following courses, or other 700-level advisor-approved courses within and/or outside the department.
 - CIG 764 - Models of Teaching
 - CIG 766 - Evaluation of Teaching
 - CIG 767 - Human Relations for the Teacher Educator
 - CIG 771 - Comparative Studies in Learning, Teaching, and Curriculum
 - CIG 781 - Theories and Research in Classroom Management
 - CIT 772 - Technology in Teacher Education
- Cognate Courses ,Ài Credits: 9
 - Complete 9 credits of advisor-approved cognate coursework within the area of emphasis.
- Research Required Courses ,Ài Credits: 9
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
 - CIG 790 - Doctoral Research Seminar
- Research Elective Courses ,Ài Credits: 6
 - Complete two of the following courses:
 - EPY 716 - Evaluation Research Methods
 - EPY 722 - Inferential Statistics and Experimental Design
 - EPY 726 - Advanced Evaluation Research Methods
 - EPY 730 - Advanced Research Methods
 - EPY 733 - Multivariate Statistics
- Internship Course ,Ài Credits: 6
 - CIG 791 - Internship in Curriculum and Instruction
- Dissertation ,ÀiCredits: 15
 - CIG 799 – Dissertation

Degree Requirements

- Complete a minimum of 72 credit hours beyond the master,Às degree.
- All coursework must be approved by the doctoral student,Às advisor.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level.
- Complete the residency requirement for the degree through one of the three options available as described in the current Doctoral Studies Guide on the department Web site.
- Attend the Teaching and Learning Department Doctoral Colloquium held periodically throughout their years of study.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Às discretion. Please see Graduate College policy for committee appointment guidelines.
- Pass a written comprehensive examination prior to commencing work on the dissertation proposal or dissertation (See the Doctoral Handbook for more detailed information on this process).

- Submit an article for publication in a national refereed journal.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- The student must also file a copy of the dissertation with the Teaching and Learning Department.

Doctor of Philosophy - Teacher Education

The Ph.D. in Teacher Education in the Department of Teaching & Learning is projected for professional educators who have an interest in becoming practitioner-oriented scholars in teacher education and who are interested in teacher education as a content area for research. Completing this degree will enable individuals to answer the national call for teacher educators and researchers in this field. The program is one of only a few in the nation devoted to teacher education.

Upon completion of this program, graduates will be able to:

Demonstrate college-level teaching experience;

Connect theory and research related to teaching and learning to the practice of teaching in schools and to the practice of teaching university courses;

Design and conduct research using quantitative and qualitative methodologies with particular emphasis on applied research in the context of diverse schools.

Learning Outcomes

www.unlv.edu/degree/phd-teacher-education

Plan Admission Requirements

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Hold a master's degree from an accredited program in an area closely related to the chosen field of specialization. Normally, 18 semester hours in education are required.

Have a grade point average of 3.0 or higher in all graduate level coursework. *Please note that one third of the total program hours may be transferred from another accredited doctoral program.

Have satisfactory teaching experience, preferably licensed.

Obtain three letters of recommendation from individuals who can specifically address the applicant's potential for success in the doctoral program. These letters of recommendation will be requested and submitted through the Graduate College online application system. One of the letters must be from a university faculty member addressing your past academic success and future potential in a doctoral program.

Submit one set of official transcripts from all previously attended colleges and universities as requested in the Graduate College online application. You may upload unofficial transcripts via the online application as a supplement if you have the documents in a digital computer file (e.g., PDF). Unofficial transcripts do NOT substitute for the official documents.

Submit Graduate Record Examination (GRE) scores for the General Exam. The scores should be sent directly to the Doctoral Studies Office in the Department of Teaching and Learning. Applicants are encouraged to provide self-reported scores for the GRE in the Standardized Tests section of the Graduate College online application.

Submit a Personal Statement via the Graduate College online application that addresses in detail:

Reasons for pursuing a doctorate in teacher education

Expectations concerning the doctoral program

Potential areas of study within teacher education

The name of a faculty member in the department with whom you would like to work [optional]

Submit a written statement regarding when the residency requirement will be met (see the Doctoral Handbook). This statement should be uploaded via the Graduate College online application in the Supplementary Information section as an "Other Required Document."

Demonstrate oral communication skills through an interview conducted by members of the T & L graduate faculty. Out-of-state applicants must contact the Coordinator of Doctoral Studies directly to make alternate arrangements to the on-campus interview.

Once requirements are met, members of the T & L Graduate Faculty will evaluate all evidence for admission submitted by the applicant and then make their recommendations to the entire T& L faculty. The T & L faculty will make a recommendation to the Graduate College, and the Graduate College will post the decision letter to the student's online application. Only complete applications will be considered.

Plan Requirements

Total Credits Required: 63

Course Requirements

- Required Courses , Credits: 9
 - EPY 767 - Human Learning and Cognition
 - CIG 762 - Instructional Strategies and Learning to Teach in Higher Education
 - CIG 763 - Teaching and Learning to Teach

- Teaching Course ,À Credits: 3
 - Complete one of the following courses:
 - CIG 760R - Inquiry into Teacher Education
 - CIG 780 - Research on Teaching and Schooling
- Education Course ,À Credits: 3
 - Complete one of the following courses:
 - CIG 761 - Theoretical Foundations of Education
 - CIG 768 - Advanced Curriculum Studies
- Research Courses ,À Credits: 6
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
- Internship Course ,À Credits: 9
 - Complete 9 credits of internship. This must include a combination of 3 credits of school-based internship and 6 credits of teaching internship.
 - CIG 791 - Internship in Curriculum and Instruction
- Additional Research Course ,À Credits: 3
 - Complete one of the following courses:
 - EPY 716 - Evaluation Research Methods
 - EPY 719 - Advanced Qualitative Research
 - EPY 722 - Inferential Statistics and Experimental Design
 - EPY 720 - Research Design in Education
 - SOC 705 - Qualitative Methods
 - SOC 774 - Seminar in Feminist Theories and Research
 - PSY 707 - Research Methods
 - PSY 708 - Statistics for Psychologists I
 - PSY 709 - Statistics for Psychologists II
- Technology Course ,À Credits: 3
 - CIT 772 - Technology in Teacher Education
- Elective Courses ,À Credits: 9
 - Complete three of the following courses:
 - CIE 685 - Elementary Education Curriculum
 - CIG 603 - Urban Education
 - CIG 661 - Topics Multicultural Education
 - CIG 706 - Mentoring Strategies to Improve Teaching
 - CIG 764 - Models of Teaching
 - CIG 765 - Instructional Design
 - CIG 766 - Evaluation of Teaching
 - CIG 769 - Advanced Curriculum Evaluation in Education
 - CIG 770 - Current Trends and Issues in Education
 - CIG 780 - Research on Teaching and Schooling
 - CIG 782 - School Climate
 - CIL 772 - Cognitive Foundations of Literacy
 - CIS 618 - Instructional Methods Secondary School
 - CIT 667 - Technology and Educational Change
 - EDA 782 - Seminar in Teacher Education
- Research Seminar Course ,À Credits: 3
 - CIG 790 - Doctoral Research Seminar
- Dissertation ,À Credits: 15
 - CIG 799 – Dissertation

Degree Requirements

- Complete a minimum of 63 hours of study beyond the master,Às degree.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level.

- For the teaching internship course, three credit hours will involve shadowing a faculty member teaching a university course and the other three credits will include teaching a university course under the supervision and mentoring of a faculty member. Co-enrollment with CIG 762 required.
- For the school-based internship, students will complete an internship in Millennium Schools, Paradise Professional Development School, or other Professional Practice Schools. Co-enrollment in CIG 763 is required.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Às discretion. Please see Graduate College policy for committee appointment guidelines.
- Complete the residency requirement for the degree. The residency experience incorporates, to the greatest extent possible, a spirit of full-time attention from students to their studies during the residency period. Selection of the criteria for fulfilling the residency requirement is under the auspices of the student,Às committee with oversight of the Doctoral Studies Coordinator and Doctoral Studies Committee. A formal proposal for the residency period is required from the student. The PhD residency experience will incorporate a focus on activities associated with success in academe (e.g., scholarly writing, classroom and online university teaching, research methods and opportunities, and external funding). The residency period will encompass at least two consecutive terms (may include one summer term).
- Attend the T & L Doctoral Colloquium held periodically throughout the years of study.
- Pass a written comprehensive examination taken before commencing with the dissertation.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- The student must also file a copy of the dissertation with the Teaching and Learning Department.

Doctor of Education - Curriculum & Instruction

This program is intended for professional educators who desire to extend and advance their studies in the theory and practice of education. The completion of this degree will enable individuals to become members of university faculties but particularly suited for positions as leaders in school districts and community agencies.

Upon completion of the program, graduates will:

Have an understanding of the theoretical and historical foundations of education.

Demonstrate knowledge and synthesis of major research in teaching and schooling.

Demonstrate knowledge and research application in the area of emphasis: cultural and international studies in education, instructional technology, literacy, mathematics education, science education, teacher education, or teaching English as a second language (TESL).

Demonstrate knowledge and skill in staff development theory, research, and practice.

Understand and apply the major tenets of research design and analysis spanning quantitative, qualitative, and evaluation research methods.

Demonstrate the ability to successfully design, defend, and complete an extended educational study resulting in a defensible dissertation.

Areas of emphasis include:

Career & Technical and Postsecondary Education

The Doctor of Philosophy (Ph.D.) in Curriculum and Instruction with a Concentration in Career & Technical and Postsecondary Education (CTPE) is a research and professional leadership degree. It is designed to develop future leaders/educators who will make well-informed, theory-based, research supported, and data driven decisions related to planning, organizing, delivering and evaluating the many components and systems connecting education, work, and economic development. Program graduates typically seek research and teaching faculty positions in universities; administrative and policy positions in local, state and national education and other governmental agencies; instructional/curricular leadership positions within school districts; leadership and teaching positions in secondary, community and technical colleges, and training positions in a variety of adult education and training environments. Graduates will be prepared to assume leadership positions in Southern Nevada and throughout Nevada and the Nation.

Cultural Studies, International Education, and Multicultural Education

Cultural Studies is a highly interdisciplinary field, drawing on philosophy, literature, the arts, sociology, psychology, political science, technology, and media. Cultural Studies connects those scholars interested in examining and challenging relationships of power, culture, and knowledge. International Education is an umbrella term encompassing comparative education, transnational education, and pan-global indigenous studies. Included in these studies are a series of large-scale, cross-national comparisons in student achievement, teaching practice, curriculum, and educational policy. Multicultural Education is an instructional and pedagogical paradigm that integrates the history, cultural traditions, social norms, life experiences, and learned contributions that members of non-dominant groups have made to all aspects of local and global society, especially those aspects that are typically codified in PK-12 and higher education courses of study in the United States.

Educational Technology

The goal of our program is to enable students to become university faculty, researchers, instructional designers, and leaders in the growing field of educational technology. The focus of the program is on content, pedagogy, technology, and a wide range of associated issues. Students will develop expertise in critical analysis, deconstruction, and research on educational technology. The program will prepare students for a variety of professional careers related to teaching and learning in both academic and non-academic settings, such as K-12 schools, community colleges, universities, state and federal agencies, and private organizations.

Literacy Education

Doctoral students in Literacy Education will be engaged in exploring relationships among language, literacy, culture and social justice. They will develop expertise in critical analysis and methodological approaches for conducting research on literacy teaching and learning (e.g., curriculum design; assessment; policy; new literacies; issues related to gender, race, and class; and attention to comparative, international, and cross-cultural studies in education). Students will have opportunities for clinical and field-based work in conjunction with our teacher education program, the Gayle A. Zeiter Literacy Development Center, the Southern Nevada Writing Project, and other community organizations. Through an emphasis on the integration of theory, research and practice, students will demonstrate a well-grounded understanding of the literacy content, pedagogy, technology, and issues associated with teaching and learning in literacy education.

Mathematics Education

The purpose of the Ph.D. Program in Mathematics Education is to prepare individuals for research and teacher education careers in higher education and for leadership positions in educational settings. The program is designed to develop expertise in conceptualizing, conducting and reporting research in mathematics education and to improve student knowledge about the field of mathematics education. Students choosing this area of study will find themselves challenged with the latest ideas and theories in the field. The program is consistent with other top graduate programs and is aligned with UNLV's goals to advance the research functions of UNLV while maintaining high quality teaching.

Science Education

Doctoral students electing this Ph.D./Ed.D. area of study will be engaged in developing expertise in critical analysis, deconstruction, and research on teaching and learning science including, but not limited to: curriculum design, assessment, scientific literacy, policy, media, popular culture, issues related to race, gender, class, and attention to comparative, international, and cross-cultural studies in education. In essence, the development and offering of this Ph.D./Ed.D. emphasis is consistent with offerings at other top graduate schools of education including Penn State and The Ontario Institute for Studies in Education where these programs currently flourish. Indeed, this goal is consistent with UNLV planning documents designed to advance the research functions of UNLV while maintaining high quality teaching.

Teacher Education

The Ph.D. in Teacher Education is a separate degree program from the Ph.D. in Curriculum and Instruction with an emphasis in Teacher Education. This teacher education emphasis is one of the emphasis areas in Curriculum and Instruction Ph.D. and Ed.D. programs. By completing this emphasis and their program, graduates will be able to conduct scholarly research to advance knowledge in specific areas in the field of teaching and teacher education and be well prepared for an academic or professional career position that demands a strong commitment to teaching and research in teacher education. This emphasis is designed in consistency with top doctorate programs in teacher education in research institutions, such as Michigan State University, University of Wisconsin, and University of Georgia and with UNLV strategic goals to advance its research functions while maintaining high quality teaching.

Learning Outcomes

www.unlv.edu/degree/edd-curriculum-instruction

Plan Admission Requirements

Application for the Curriculum and Instruction Ed.D. in the Department of Teaching and Learning is accomplished through the UNLV Graduate College online application process. Deadline for completed and submitted applications is March 1.

Specific admission criteria for the Ed.D. in Curriculum and Instruction include:

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Hold a master's degree from an accredited program in an area closely related to the chosen field of specialization. Normally, 18 semester hours in education are required.

Have a grade point average of 3.0 or higher in all graduate level coursework. *Please note that one third of the total program hours may be transferred from another accredited doctoral program.

Have completed a minimum of 2 years of successful professional educational experience upon entrance to the program.

Obtain three letters of recommendation from individuals who can specifically address the applicant's potential for success in the doctoral program. These letters of recommendation will be requested and submitted through the Graduate College online application system. One of the letters must be from a university faculty member addressing your past academic success and future potential in a doctoral program.

Submit one set of official transcripts from all previously attended colleges and universities as requested in the Graduate College online application. You may upload unofficial transcripts via the online application as a supplement if you have the documents in a digital computer file (e.g., PDF). Unofficial transcripts do NOT substitute for the official documents.

Submit Graduate Record Examination (GRE) scores for the General Exam. The scores should be sent directly to the Doctoral Studies Office in the Department of Curriculum and Instruction. Applicants are encouraged to provide self-reported scores for the GRE in the Standardized Tests section of the Graduate College online application.

Submit a Personal Statement via the Graduate College online application that addresses in detail:

Emphasis area of study

Reasons for pursuing a doctorate in education

Expectations concerning the doctoral program

Potential areas of study

The name of a faculty member in the department with whom you would like to work [optional]

Demonstrate oral communication skills through an interview conducted by members of the C&I graduate faculty. Out-of-state applicants must contact the Coordinator of Doctoral Studies directly to make alternate arrangements to the on-campus interview.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Career & Technical and Postsecondary Education Track

Total Credits Required: 69

Course Requirements

- Required Courses ,À Credits: 6
 - Complete two of the following courses:
 - CIG 761 - Theoretical Foundations of Education
 - CIG 768 - Advanced Curriculum Studies
 - CIG 780 - Research on Teaching and Schooling
- CTPE Required Courses ,À Credits: 18
 - Complete 18 credits from the following courses:
 - EDW 719 - Leadership in Workforce Education and Development
 - EDW 745 - Theories of Adult Learning
 - EDW 746 - History and Development of Two Year Postsecondary Institution

- EDW 747 - Workforce Education Teaching
 - EDW 749R - Evaluation of Workforce Education Programs
 - EDW 763 - Readings in Postsecondary Education, Workplace Learning and Performance, and Workforce Education Leadership
 - EDW 765 - Fiscal Management and Administration of Workforce Programs
- Cognate Courses ,Ài Credits: 12
 - Complete 12 credit hours of advisor-approved cognate coursework related to the area of emphasis.
- Research Courses ,Ài Credits: 9
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
 - CIG 790 - Doctoral Research Seminar
- Research Elective Courses ,Ài Credits: 3
 - Complete 3 credits of advisor-approved additional research courses.
- Internship Courses ,Ài Credits: 6
 - Complete six credits of a combination of a research internship and/or a college teaching internship.
 - EDW 735 - Practicum in Workforce Education
- Dissertation ,Ài Credits: 15
 - CIG 799 – Dissertation

Degree Requirements

- Complete a minimum of 69 credit hours beyond the master,Às degree.
- All coursework must be approved by the doctoral student,Às advisor.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level;
- Complete the residency requirement for the degree through one of the three options available as described in the current Doctoral Studies Guide on the department Web site.
- Attend the Teaching and Learning Department Doctoral Colloquium held periodically throughout their years of study.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Às discretion. Please see Graduate College policy for committee appointment guidelines.
- Pass a written comprehensive examination prior to commencing work on the dissertation proposal or dissertation (See the Doctoral Handbook for more detailed information on this process).

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Cultural and International Studies in Education Track

Total Credits Required: 69

Course Requirements

- Required Courses ,Ài Credits: 15
 - CIG 662 - Theory and Research Multicultural Education
 - CIG 771 - Comparative Studies in Learning, Teaching, and Curriculum
 - CIG 772 - Introduction to Cultural Studies in Education
 - CIG 773 - Critical Literacies/Critical Pedagogies

- CIG 768 - Advanced Curriculum Studies
- Area of Emphasis Elective Courses ,Ä Credits: 12
 - Complete 12 credits of advisor-approved emphasis-area courses within and/or outside the department.
- Cognate Courses ,Ä Credits: 9
 - Complete 9 credit hours of advisor-approved cognate coursework outside the department related to the area of emphasis.
- Research Required Course ,Ä Credits: 3
 - CIG 790 - Doctoral Research Seminar
- Research Elective Courses ,Ä Credits: 9
 - Complete three of the following courses, or any 600- or 700-level advisor-approved research elective course within and/or outside the department. Students should check with the relevant department to ensure they meet any admission and/or prerequisite requirements.
 - CIG 690 - Teachers as Action Researchers
 - EPY 718 - Qualitative Research Methodologies
 - EPY 719 - Advanced Qualitative Research
 - EPY 720 - Research Design in Education
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
 - EPY 729 - Qualitative Case Study Research
 - EPY 730 - Advanced Research Methods
 - EPY 738 - Interpretive Analysis of Text and Discourse
- Internship Course ,Ä Credits: 6
 - Complete 6 credits of internship. This can include a combination of a research internship and/or a college teaching internship.
 - CIG 791 - Internship in Curriculum and Instruction
- Dissertation ,Ä Credits: 15
 - CIG 799 – Dissertation

Degree Requirements

- Complete a minimum of 69 credit hours beyond the master,Äôs degree.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level.
- Twelve credit hours (drawn from electives, cognate, and/or research courses) must be taken outside the Department of Teaching and Learning.
- Complete the residency requirement for the degree through one of the three options available as described in the current Doctoral Studies Guide on the department Web site.
- Attend the Teaching and Learning Department Doctoral Colloquium held periodically throughout their years of study.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Äôs discretion. Please see Graduate College policy for committee appointment guidelines.
- Pass a written comprehensive examination taken before commencing with the dissertation. Following completion of the course of study, the student will complete a comprehensive examination centered on three areas: (a) Emphasis area; (b) Cognate; and (c) Research, with a particular focus on developing the dissertation proposal. (See the Doctoral Handbook for more detailed information on this process.)

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: Educational Technology Track

Total Credits Required: 69

Course Requirements

- Required Courses ,Ä Credits: 12
 - CIT 770 - Advanced Seminar in Educational Technology Research
 - CIT 778 - Instructional Design
 - CIT 780 - Multimedia Learning Studio
 - CIT 782 - Distance Education Issues and Trends
- Area of Emphasis Elective Courses ,Ä Credits: 15
 - Complete 15 credits of advisor-approved emphasis-area courses within and/or outside the department.
- Cognate Courses ,Ä Credits: 9
 - Complete 9 credits of advisor-approved cognate coursework relating to the area of interest.
- Research Required Courses ,Ä Credits: 9
 - CIG 790 - Doctoral Research Seminar
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
- Research Elective Course ,Ä Credits: 3
 - Complete one of the following courses:
 - EPY 716 - Evaluation Research Methods
 - EPY 722 - Inferential Statistics and Experimental Design
 - EPY 726 - Advanced Evaluation Research Methods
 - EPY 730 - Advanced Research Methods
 - EPY 733 - Multivariate Statistics
- Internship Course ,Ä Credits: 6
 - CIG 791 - Internship in Curriculum and Instruction
- Dissertation ,Ä Credits: 15
 - CIG 799 - Dissertation

Degree Requirements

- Complete a minimum of 69 credit hours beyond the master,Äôs degree.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level.
- Complete the residency requirement for the degree through one of the three options available as described in the current Doctoral Studies Guide on the department Web site.
- Attend the Teaching and Learning Department Doctoral Colloquium held periodically throughout their years of study.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Äôs discretion. Please see Graduate College policy for committee appointment guidelines.
- Pass a written comprehensive examination taken before commencing with the dissertation. Following completion of the course of study, the student will complete a comprehensive examination centered on three areas: (a) Emphasis area; (b) Cognate; and (c) Research, with a particular focus on developing the dissertation proposal. (See the Doctoral Handbook for more detailed information on this process.)

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 4 Requirements: Literacy Education Track

Total Credits Required: 69

Course Requirements

- Required Courses ,Äi Credits: 12
 - CIG 761 - Theoretical Foundations of Education
 - CIG 772 - Introduction to Cultural Studies in Education
 - CIL 774 - Historical Foundations of Literacy Research and Instruction
 - CIL 776 - Social and Political Issues in Literacy
 - CIG 780 - Research on Teaching and Schooling
- Area of Emphasis Elective Courses ,Äi Credits: 15
 - Complete 15 credits from the following list of courses, or any 600- or 700-level advisor-approved courses in the English Department. Students should check with the relevant department to ensure they meet any admission and/or prerequisite requirements.
 - CIL 784 - Theory and Research in Literacy
 - CIL 782 - Theory and Research in the English/Language Arts
 - CIL 688 - Historical Development of Literature
 - CIL 747 - Literary Theories and Children,Äôs Literature
 - CIG 773 - Critical Literacies/Critical Pedagogies
- Cognate Courses ,Äi Credits: 9
 - Complete 9 credits of advisor-approved cognate coursework relating to and broadening the area of interest.
- Research Required Courses ,Äi Credits: 9
 - CIG 790 - Doctoral Research Seminar
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
- Research Elective Courses ,Äi Credits: 3
 - Complete one of the following courses, or another research course from within the College of Education or from one of the departments across campus.
 - EPY 729 - Qualitative Case Study Research
 - EPY 738 - Interpretive Analysis of Text and Discourse
 - EPY 716 - Evaluation Research Methods
 - EPY 722 - Inferential Statistics and Experimental Design
 - EPY 730 - Advanced Research Methods
 - EPY 733 - Multivariate Statistics
- Internship Course ,Äi Credits: 6
 - Complete 6 credits of internship. This can include a combination of a research internship and/or a college teaching internship.
 - CIG 791 - Internship in Curriculum and Instruction
- Dissertation ,Äi Credits: 15
 - CIG 799 – Dissertation

Degree Requirements

- Complete a minimum of 69 credit hours beyond the master,Äôs degree.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level.

- Complete the residency requirement for the degree through one of the three options available as described in the current Doctoral Studies Guide on the department Web site.
- Attend the Teaching and Learning Department Doctoral Colloquium held periodically throughout their years of study.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Â’s discretion. Please see Graduate College policy for committee appointment guidelines.
- Pass a written comprehensive examination prior to commencing work on the dissertation proposal or dissertation (See the Doctoral Handbook for more detailed information on this process).

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 5 Requirements: Mathematics Education Track

Total Credits Required: 69

Course Requirements

- Required Courses ,Â Credits: 15
 - o CIG 761 - Theoretical Foundations of Education
 - o CIG 620 - Principles of Learning Mathematics
 - o CIG 780 - Research on Teaching and Schooling
 - o CIG 783 - Theory and Research in School Mathematics
 - o CIG 787 - Individual Instruction in Mathematics Education
- Area of Emphasis Elective Courses ,Â Credits: 12
 - o Complete 12 of electives within your area of emphasis, or any 600- or 700-level advisor-approved course with a MAT, CIG, CIE, or CIS prefix. Students should check with the relevant department to ensure they meet any admission and/or prerequisite requirements.
- Cognate Courses ,Â Credits: 9
 - o Complete 9 credit hours of advisor-approved cognate coursework relating to the area of interest.
- Research Required Courses ,Â Credits: 9
 - o CIG 790 - Doctoral Research Seminar
 - o EPY 718 - Qualitative Research Methodologies
 - o EPY 721 - Descriptive and Inferential Statistics: An Introduction
- Research Elective Courses ,Â Credits: 3
 - o Complete one of the following courses:
 - EPY 716 - Evaluation Research Methods
 - EPY 722 - Inferential Statistics and Experimental Design
 - EPY 726 - Advanced Evaluation Research Methods
 - EPY 730 - Advanced Research Methods
 - EPY 733 - Multivariate Statistics
- Internship Course ,Â Credits: 6
 - o CIG 791 - Internship in Curriculum and Instruction
- Dissertation ,Â Credits: 15
 - o CIG 799 - Dissertation

Degree Requirements

- Complete a minimum of 69 credit hours beyond the master's degree.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level.
- Complete the residency requirement for the degree through one of the three options available as described in the current Doctoral Studies Guide on the department Web site.
- Attend the Teaching and Learning Department Doctoral Colloquium held periodically throughout their years of study.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Pass a written comprehensive examination prior to commencing work on the dissertation proposal or dissertation (See the Doctoral Handbook for more detailed information on this process).

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 6 Requirements: Science Education Track

Total Credits Required: 69

Course Requirements

- Required Courses ,À Credits: 12
 - CIG 761 - Theoretical Foundations of Education
 - CIG 777 - Principles of Learning Science
 - CIG 780 - Research on Teaching and Schooling
 - CIG 784 - Theory and Research in School Science
- Area of Emphasis Elective Courses ,À Credits: 15
 - Complete 15 credits of electives within your area of emphasis, or any 600- or 700- level advisor-approved course with a BIOL, CHE, PHY, ENV, GEO, GEY, ENG, AST or SCI prefix. Students should check with the relevant department to ensure they meet any admission and/or prerequisite requirements.
 - CIG 775 - Theoretical Frameworks for Science Education
 - CIG 776 - Philosophical Foundations of Science Education
 - CIG 788 - Individual Instruction in Science Education
- Cognate Courses ,À Credits: 9
 - Complete 9 credits of advisor-approved cognate coursework relating to the area of interest.
- Research Required Courses ,À Credits: 9
 - CIG 790 - Doctoral Research Seminar
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
- Research Elective Course ,À Credits: 3
 - Complete one of the following courses:
 - EPY 716 - Evaluation Research Methods
 - EPY 722 - Inferential Statistics and Experimental Design
 - EPY 726 - Advanced Evaluation Research Methods
 - EPY 730 - Advanced Research Methods
 - EPY 733 - Multivariate Statistics
- Internship Course ,À Credits: 6
 - CIG 791 - Internship in Curriculum and Instruction
- Dissertation ,À Credits: 15

- CIG 799 - Dissertation

Degree Requirements

- Complete a minimum of 69 credit hours beyond the master's degree.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level.
- Complete the residency requirement for the degree through one of the three options available as described in the current Doctoral Studies Guide on the department Web site.
- Attend the Teaching and Learning Department Doctoral Colloquium held periodically throughout their years of study.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Pass a written comprehensive examination taken before commencing with the dissertation. Following completion of the course of study, the student will complete a comprehensive examination centered on three areas: (a) Emphasis area; (b) Cognate; and (c) Research, with a particular focus on developing the dissertation proposal. (See the Doctoral Handbook for more detailed information on this process.)

Subplan 7 Requirements: Teacher Education Track

Total Credits Required: 69

Course Requirements

- Required Courses ,À Credits: 6
 - Complete two of the following courses:
 - CIG 761 - Theoretical Foundations of Education
 - CIG 768 - Advanced Curriculum Studies
 - CIG 780 - Research on Teaching and Schooling
- Area of Emphasis Required Courses ,À Credits: 9
 - Complete three of the following courses:
 - CIG 706 - Mentoring Strategies to Improve Teaching
 - CIG 760R - Inquiry into Teacher Education
 - CIG 762 - Instructional Strategies and Learning to Teach in Higher Education
 - CIG 763 - Teaching and Learning to Teach
- Area of Emphasis Elective Courses ,À Credits: 12
 - Complete four of the following courses, or other 700-level advisor-approved courses within and/or outside the department.
 - CIG 764 - Models of Teaching
 - CIG 771 - Comparative Studies in Learning, Teaching, and Curriculum
 - CIG 767 - Human Relations for the Teacher Educator
 - CIG 781 - Theories and Research in Classroom Management
 - CIG 766 - Evaluation of Teaching
 - CIT 772 - Technology in Teacher Education
- Cognate Courses ,À Credits: 9
 - Complete 9 credits of advisor-approved cognate coursework within the area of emphasis.

- Research Required Courses ,Äi Credits: 9
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
 - CIG 790 - Doctoral Research Seminar
- Research Elective Courses ,Äi Credits: 3
 - Complete one of the following courses:
 - EPY 716 - Evaluation Research Methods
 - EPY 722 - Inferential Statistics and Experimental Design
 - EPY 726 - Advanced Evaluation Research Methods
 - EPY 730 - Advanced Research Methods
 - EPY 733 - Multivariate Statistics
- Internship Course ,Äi Credits: 6
 - CIG 791 - Internship in Curriculum and Instruction
- Dissertation ,ÄiCredits: 15
 - CIG 799 - Dissertation

Degree Requirements

- Complete a minimum of 69 credit hours beyond the master,Äôs degree.
- Maintain an overall GPA of 3.00 or higher for all course work taken at the doctoral level.
- Complete the residency requirement for the degree through one of the three options available as described in the current Doctoral Studies Guide on the department Web site.
- Attend the Teaching and Learning Department Doctoral Colloquium held periodically throughout their years of study.

In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Äôs discretion. Please see Graduate College policy for committee appointment guidelines.
- Pass a written comprehensive examination prior to commencing work on the dissertation proposal or dissertation (See the Doctoral Handbook for more detailed information on this process).

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- The student must also file a copy of the dissertation with the Teaching and Learning Department.College of Education

Master of Education - Curriculum & Instruction

The Department holds as its central mission the preparation and development of educators at all levels. The department ensures that its professional education programs are based on essential knowledge, established and current research findings, and sound professional practice.

The program offers a wide variety of sub-plans to accommodate educators of all levels and content areas. The Graduate Licensure Program (GLP) subplans are designed to assist the student in earning a Master's degree while also completing some of the requirements necessary to become licensed teacher. Subplans are also available for students who have been admitted into the Teach For America (TFA) program. Students can also earn a Master's degree in some content areas through a partnership with the Regional Professional Development Program (RPDP).

Plan Admission Requirements

In addition to meeting the admission requirements of the Graduate College, applicants must also meet the requirements established by the Department of Teaching and Learning. They are:

An overall undergraduate grade point average (GPA) of 3.00 is required for admission. Students with a GPA of less than 3.00 but greater or equal to 2.75 may be admitted to the graduate program upon review of the Admissions Committee.

A completed on-line application for admission submitted to the Graduate College.

The online application must include a one- to two-page statement of professional goals. The names with contact information of two professional references and intended emphasis area should be included in the statement.

Two sets of official transcripts from all previously attended colleges and universities. One set of transcripts must be sent directly to the Graduate College; the other set must be sent directly to the T&L main office.

For Graduate Licensure Program (GLP), must submit PPST/Praxis I passing scores and the supplemental application directly to the T&L Department (see tl.unlv.edu/glp for details).

Applications are processed when all credentials required by both the Graduate College and T&L have been received. Once received, materials are forwarded to the Graduate Coordinator and the T&L Master's Admission Committee to evaluate the applicant's credentials and recommend acceptance or denial into the program. Those who wish to begin studies but who missed the application deadline may enroll as a non-degree seeking graduate student. However, since there is no guarantee that courses taken as a non-degree student will count toward a degree, and since a maximum of 15 hours taken prior to admission to the program may be used to meet degree requirements, candidates are urged to seek advisement prior to registering for any course(s). Please see <http://tl.unlv.edu/admissions> for more information. Students may also email tlgrad@unlv.edu or call (702) 895-1986 for assistance.

The Graduate College will send official notification regarding the status of applications through the Apply Yourself (AY) portal. In addition, an email will be sent from the department of Teaching and Learning identifying an academic advisor. Students are responsible for contacting their advisors upon admission to the program. Students are required to complete their program of study using Advise, T&L's online system for submitting a program of study. Advise can be accessed at: <http://advise.unlvcoe.net/>.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Elementary Education Track

Total Credits Required: 37

Course Requirements

- Research Course ,Ài Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Ài Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Ài Credits: 3
 - CIE 685 - Elementary Education Curriculum
- Pedagogy Course ,Ài Credits: 3
 - CIE 683 - Elementary Classroom Management

- Instruction Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIE 681 - Elementary School Instruction
 - CIG 602 - Differentiated Curriculum and Instruction
- Curricular Courses ,Ä Credits: 18
 - Complete 9 credits from each of two curricular areas below:
 - Mathematics Education
 - Complete one of the following courses:
 - CIE 623 - Instruction Primary Elementary Mathematics Education
 - CIE 625 - Instruction Intermediate Elementary Mathematics Education
 - CIS 622 - Instructional Middle School Mathematics Education
 - Complete two of the following courses (excluding the course taken above):
 - CIE 620 - Topics Elementary School Mathematics
 - CIE 623 - Instruction Primary Elementary Mathematics Education
 - CIE 625 - Instruction Intermediate Elementary Mathematics Education
 - CIE 627 - Technology Applications K-8 Mathematics Education
 - CIE 629 - Curriculum Development in Elementary School Mathematics
 - CIG 620 - Principles of Learning Mathematics
 - CIS 622 - Instructional Middle School Mathematics Education
 - Science Education
 - Complete the following course:
 - CIE 635 - Instruction Elementary Science Education
 - Complete two of the following courses:
 - CIE 630 - Topics Elementary School Science
 - CIE 637 - Technology Applications K-8 Science Education
 - CIE 639 - Curriculum Development Elementary Science Education
 - Social Studies Education
 - CIE 640 - Topics Elementary School Social Studies
 - CIE 645 - Instruction Elementary Social Studies Education
 - CIE 649 - Curriculum Development Elementary Social Studies Education
 - Literacy Education
 - Complete three of the following courses:
 - CIL 601 - Foundations of Literacy Learning
 - CIL 604 - Literacy Instruction for Young Children
 - CIL 607 - Comprehensive Reading Instruction
 - CIL 610 - Content Area Literacy
 - CIL 616 - Teaching Writing
 - CIL 621 - Assessment in Literacy
 - CIL 680 - Contemporary Literature Children and Young Adults
 - Multicultural Education
 - Complete three of the following courses:
 - CIG 660 - Multicultural Education
 - CIG 662 - Theory and Research Multicultural Education
 - CIG 661 - Topics Multicultural Education
 - CIL 693 - Literacy for a Diverse Society
 - CIL 684 - Multicultural Literature
 - Educational Technology
 - Complete three of the following courses:
 - CIT 601 - Technology Applications Elementary Curriculum
 - CIT 608 - Integrating Technology in Teaching and Learning
 - CIT 609 - Internet for Learning
 - CIT 611 - Digital Publishing for Educators
 - CIT 649 - Instructional Methods Computer Applications
 - Teaching English as a Second Language

- Complete three of the following courses:
 - TESL 650 - TESL Linguistic Theory
 - TESL 651 - Theories of Second Language Acquisition
 - TESL 652 - TESL Methods and Materials
 - TESL 653 - TESL Curriculu
 - TESL 654 - TESL Assessment Procedures
- Elective Course ,Äi Credits: 3
 - Complete 3 credits advisor-approved elective courses.
- Culminating Experience ,Äi Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIE 685 must be completed within final 30-36 hours of study and required before enrollment in CIG 697.

CIG 660 cannot satisfy requirements in more than one category.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Elementary Education Endorsement Track

Total Credits Required: 37

Course Requirements

- Research Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education**
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development**
 - EPY 712 - Foundations of Learning and Cognition**
- Curriculum and Instruction Course ,Äi Credits: 3
 - Complete the following course within last 30-36 semester hours of coursework; preferably the semester before CIG 697.
 - CIE 685 - Elementary Education Curriculum
- Pedagogy Course ,Äi Credits: 3
 - CIE 683 - Elementary Classroom Management**
- Additional Pedagogy Course ,Äi Credits: 3
 - Complete one of the following courses:

- CIE 681 - Elementary School Instruction
 - CIG 602 - Differentiated Curriculum and Instruction
- Literacy Courses ,Àì Credits: 6
 - CIL 621 - Assessment in Literacy*
 - CIL 680 - Contemporary Literature Children and Young Adults*
- Additional Literacy Course ,Àì Credits: 3
 - Complete one of the following courses:
 - CIL 604 - Literacy Instruction for Young Children*
 - CIL 607 - Comprehensive Reading Instruction*
- Methods Courses ,Àì Credits: 6
 - CIE 635 - Instruction Elementary Science Education*
 - CIE 645 - Instruction Elementary Social Studies Education*
- Additional Methods Course ,Àì Credits: 3
 - Complete one of the following courses:
 - CIE 623 - Instruction Primary Elementary Mathematics Education*
 - CIE 625 - Instruction Intermediate Elementary Mathematics Education*
- Professional Education Course ,Àì Credits: 3
 - Complete one of the following courses, or another advisor-approved course given the Professional Education licensure requirements are satisfied.
 - CIT 601 - Technology Applications Elementary Curriculum**
 - ESP 701 - Introduction to Special Education and Legal Issues**
 - TESL 652 - TESL Methods and Materials**
- Culminating Experience ,Àì Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

(Prerequisite: CIE 685 the semester prior to enrollment)

Subplan Notes

Student must hold a secondary or special (art, music, health, physical education, special education, etc.) license, plus three years of successful teaching experience in the initial licensed area to obtain a regular Elementary Education endorsement added to a license. If the license is 7-12 secondary or the specialty teaching experience is in a K-8 setting, then student teaching may be waived given Nevada Department of Education approval.

*Methods courses (9 semester hours of literacy and 9 semester hours of mathematics, science and social studies) required for the regular Elementary Education license. Depending on student,Àôs academic background, 500-level courses may be substituted for 600-level methods courses given instructor, advisor and/or Graduate Coordinator approval.

**Meets the six semester hours of Professional Education coursework required for the regular Elementary Education license. Although selected courses are required for the master,Àôs degree program, previous courses taken in two of the following areas are acceptable for the Nevada Department of Education regular Elementary Education license.

Classroom management;

English as a second language;

Technology;

Evaluation of pupils;

Child development;

Special education; or

Social and cultural issues.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: Elementary Education GLP Track

Total Credits Required: 37

Course Requirements

- Research Course ,Äi Credits: 3
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Äi Credits: 3
 - CIG 660 - Multicultural Education
- Curriculum & Instruction Course ,Äi Credits: 3
 - CIE 685 - Elementary Education Curriculum
- Pedagogy Courses ,Äi Credits: 15
 - CIE 601 - Elementary Teacher Development Seminar
 - CIT 601 - Technology Applications Elementary Curriculum
 - EPY 708 - Human Learning and Development
 - EPY 709 - Classroom Assessment
 - ESP 701 - Introduction to Special Education and Legal Issues
- Elementary Methods Courses ,Äi Credits: 12
 - Complete four of the following courses:
 - CIE 533 - Teaching Elementary School Mathematics
 - CIE 543 - Teaching Elementary School Science
 - CIE 553 - Teaching Elementary School Social Studies
 - CIE 508 - Classroom Management Elementary Education
 - CIL 501 - Children,Äôs Literature Elementary School Curriculum
 - CIL 542 - Literacy Instruction I
 - CIL 543 - Literacy Instruction II: Clinic-based
- Culminating Experience ,Äi Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIS 684 must be completed within final 30-36 hours of study and before enrollment in CIG 697.

These courses are only for the M.Ed portion of the Graduate Licensure program. Additional requirements exist that do not count towards the master's degree. Students should reference the Graduate Licensure page for complete details and information about the required sequence in which these courses must be taken.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 4 Requirements: Elementary Education TFA Track

Total Credits Required: 37

Course Requirements

- Required Courses ,À Credits: 36
 - Complete six of the following courses:
 - CIE 533 - Teaching Elementary School Mathematics
 - CIE 543 - Teaching Elementary School Science
 - CIE 553 - Teaching Elementary School Social Studies
 - CIE 681 - Elementary School Instruction
 - CIG 660 - Multicultural Education (formerly CIG 750)
 - CIL 542 - Literacy Instruction I
 - CIL 621 - Assessment in Literacy
 - CIL 680 - Contemporary Literature Children and Young Adults
 - CIE 685 - Elementary Education Curriculum
 - EPY 702 - Research Methods
 - ESP 701 - Introduction to Special Education and Legal Issues
 - TESL 652 - TESL Methods and Materials
- Culminating Experience ,À Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIS 684 must be completed within final 30-36 hours of study and before enrollment in CIG 697.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 5 Requirements: Elementary Mathematics Education (K-8) Track

Total Credits Required: 37

Course Requirements

- Research Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIE 681 - Elementary School Instruction
 - CIE 683 - Elementary Classroom Management
 - CIE 685 - Elementary Education Curriculum
 - CIG 602 - Differentiated Curriculum and Instruction
- Methods Courses ,Äi Credits: 6
 - Complete two of the following courses:
 - CIE 623 - Instruction Primary Elementary Mathematics Education
 - CIE 625 - Instruction Intermediate Elementary Mathematics Education
 - CIS 622 - Instructional Middle School Mathematics Education
- Core Courses ,Äi Credits: 9
 - CIE 620 - Topics Elementary School Mathematics
 - CIE 627 - Technology Applications K-8 Mathematics Education
 - CIG 620 - Principles of Learning Mathematics
- Education Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIE 629 - Curriculum Development in Elementary School Mathematics
 - CIG 621 - Diagnostic Assessment School Mathematics
- Cognate Courses ,Äi Credits: 6
 - Complete 6 credits of advisor approved cognate coursework.
 - Possible cognates include, but are not limited to, educational technology and teaching English as a second language.
- Seminar Course ,Äi Credits: 3
 - CIG 689 - Curriculum and Instruction Seminar
- Culminating Experience ,Äi Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIG 689 must be taken prior to enrollment in CIG 697.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 6 Requirements: Elementary Science Education (K-8) Track

Total Credits Required: 37

Course Requirements

- Research Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIE 681 - Elementary School Instruction
 - CIE 683 - Elementary Classroom Management
 - CIE 685 - Elementary Education Curriculum
 - CIG 602 - Differentiated Curriculum and Instruction
- Core Courses ,Ä Credits: 12
 - CIE 630 - Topics Elementary School Science
 - CIE 635 - Instruction Elementary Science Education
 - CIE 637 - Technology Applications K-8 Science Education
 - CIE 639 - Curriculum Development Elementary Science Education
- Elective Courses ,Ä Credits: 6
 - Complete 6 credits of 600 or 700-level advisor-approved Science courses from the College of Sciences or SCI 630 courses via RPDP.
- Cognate Courses ,Ä Credits: 6
 - Complete 6 credits of cognate coursework. Possible cognates include, but are not limited to, educational technology and teaching English as a second language.
- Seminar Course ,Ä Credits: 3
 - CIG 639 - Science Education Seminar
- Culminating Experience ,Ä Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIG 639 must be completed prior to enrollment in CIG 697.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 7 Requirements: Elementary Social Studies Education (K-8) Track

Total Credits Required: 37

Course Requirements

- Research Course ,Ä Credits: 3
- Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIE 681 - Elementary School Instruction
 - CIE 683 - Elementary Classroom Management
 - CIE 685 - Elementary Education Curriculum
 - CIG 602 - Differentiated Curriculum and Instruction
- Core Courses ,Ä Credits: 9
 - CIE 640 - Topics Elementary School Social Studies
 - CIE 645 - Instruction Elementary Social Studies Education
 - CIE 649 - Curriculum Development Elementary Social Studies Education
- Integration Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIT 608 - Integrating Technology in Teaching and Learning
 - CIT 609 - Internet for Learning
- Elective Courses ,Ä Credits: 12
 - Complete three 600-level advisor-approved social science courses from Liberal Arts.
- Seminar Course ,Ä Credits: 3
 - CIG 689 - Curriculum and Instruction Seminar
- Culminating Experience ,Ä Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIG 689 must be completed prior to enrollment in CIG 697.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 8 Requirements: Middle School Mathematics Education RPDP Track

Total Credits Required: 37

Course Requirements

- Research Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIE 681 - Elementary School Instruction
 - CIE 683 - Elementary Classroom Management
 - CIE 685 - Elementary Education Curriculum
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
- Content Courses ,Ä Credits: 15
 - Complete 15 credits of SCI 620 courses via RPDP from UNLV ,Äs College of Sciences.
- Core Courses ,Ä Credits: 9
 - CIE 627 - Technology Applications K-8 Mathematics Education
 - CIG 620 - Principles of Learning Mathematics
 - CIS 622 - Instructional Middle School Mathematics Education
- Elective Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIE 629 - Curriculum Development in Elementary School Mathematics
 - CIG 629 - Mathematics Education Seminar
 - CIG 621 - Diagnostic Assessment School Mathematics
 - CIS 620 - Topics Secondary School Mathematics
 - CIS 629 - Curriculum Development Secondary Mathematics Education
- Culminating Experience ,Ä Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIS 620 is limited to 3 total credit hours.

CIS 684 must be completed within final 30-36 hours of study and before enrollment in CIG 697.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 9 Requirements: Middle School Science Education RPDP Track

Total Credits Required: 37

Course Requirements

Research Course ,Ä Credits: 3

- Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
- Content Courses ,Ä Credits: 15
 - Complete 15 credits of SCI 630 courses via RPDP with credit through UNLV ,Äs College of Sciences.
- Core Courses ,Ä Credits: 6
 - CIE 637 - Technology Applications K-8 Science Education
 - CIS 632 - Instruction Middle School Science Education
- Elective Courses ,Ä Credits: 6
 - Complete one of the following courses:
 - CIG 639 - Science Education Seminar
 - CIS 630 - Topics Secondary School Science
 - CIS 639 - Curriculum Development Secondary Science Education
- Culminating Experience ,Ä Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

Admission to UNLV ,Äs Graduate College is required PRIOR to the completion of 15 credit hours. Students who have already begun the RPDP Certificate Program are encouraged to apply to UNLV as soon as possible.

CIS 684 must be completed within final 30-36 hours of study and before enrollment in CIG 697.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 10 Requirements: Secondary Education Track

Total Credits Required: 37

Course Requirements

- Research Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
- Pedagogy Courses ,Ä Credits: 6
 - CIS 684 - Secondary Education Curriculum
 - CIG 603 - Urban Education
- Elective Courses ,Ä Credits: 9
 - Complete three courses from one of the subject areas below. One of the courses must be a methods** course.
 - English Education
 - Complete the following course:
 - CIL 642 - Instruction English Education**
 - Complete two of the following courses, or any 600- or 700-level course(s) in English:
 - CIL 610 - Content Area Literacy
 - CIL 643 - Curriculum Development English Education
 - CIL 616 - Teaching Writing
 - Mathematics Education
 - Complete one of the following courses:
 - CIS 622 - Instructional Middle School Mathematics Education**
 - CIS 624 - Instruction Secondary Mathematics Education**
 - Complete two of the following courses (excluding the course taken above), or any 600-or 700-level course(s) in Mathematics:
 - CIG 621 - Diagnostic Assessment School Mathematics
 - CIS 620 - Topics Secondary School Mathematics
 - CIS 622 - Instructional Middle School Mathematics Education

- CIS 624 - Instruction Secondary Mathematics Education
 - CIS 628 - Technology Application in Secondary Mathematics Education
- Science Education
 - Complete one of the following courses:
 - CIS 632 - Instruction Middle School Science Education**
 - CIS 634 - Instruction Secondary Science Education**
 - Complete two of the following courses (excluding the course taken above), or any 600-or 700-level course(s) in Biology, Chemistry, Geosciences, and/or Physics:
 - CIS 630 - Topics Secondary School Science
 - CIS 632 - Instruction Middle School Science Education
 - CIS 634 - Instruction Secondary Science Education
 - CIS 639 - Curriculum Development Secondary Science Education
 - CIS 638 - Technology Applications in Secondary Science Education
- Social Studies
 - Complete the following course:
 - CIS 644 - Instruction Secondary Social Studies Education**
 - Complete the following courses, or any 600-or 700-level course(s) in Anthropology, Economics, Geography, History, Political Science, Psychology and/or Sociology:
 - CIS 640 - Topics Secondary Social Studies Education
 - CIS 649 - Curriculum Development Secondary Social Studies Education
- Cognate Courses ,Äi Credits: 9
 - Complete 3 advisor-approved courses from one of the cognate areas below. Other cognate areas may be selected with advisor approval.
 - Multicultural Education
 - CIG 660 - Multicultural Education
 - CIG 661 - Topics Multicultural Education
 - CIG 662 - Theory and Research Multicultural Education
 - CIL 684 - Multicultural Literature
 - CIL 693 - Literacy for a Diverse Society
 - Teaching English as a Second Language
 - TESL 650 - TESL Linguistic Theory
 - TESL 651 - Theories of Second Language Acquisition
 - TESL 652 - TESL Methods and Materials
 - TESL 653 - TESL Curriculum
 - TESL 654 - TESL Assessment Procedures
 - Educational Technology
 - CIT 601 - Technology Applications Elementary Curriculum
 - CIT 608 - Integrating Technology in Teaching and Learning
 - CIT 609 - Internet for Learning
 - CIT 611 - Digital Publishing for Educators
 - CIT 649 - Instructional Methods Computer Application
- Elective Course ,Äi Credits: 3
 - Complete 3 credits of an advisor-approved elective course.
- Culminating Experience ,Äi Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIS 684 must be completed within final 30-36 hours of study and before enrollment in CIG 697.

CIG 660 cannot satisfy requirements in more than one category.

Each topic course (CIS 620, CIS 630, CIS 640, and CIG 661) is limited to 3 total credit hours.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 11 Requirements: Secondary Education GLP Track

Total Credits Required: 37

Course Requirements

Research Course ,Ä Credits: 3

- Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Ä Credits: 3
 - CIG 660 - Multicultural Education
- Curriculum & Instruction Course ,Ä Credits: 3
 - CIS 684 - Secondary Education Curriculum
- Pedagogy Courses ,Ä Credits: 24
 - CIS 601 - Secondary Teacher Development Seminar
 - CIS 602 - Secondary School Practicum
 - CIS 603 - Secondary Process and Instruction
 - CIS 604 - Secondary Classroom Management
 - CIT 602 - Technology Applications Secondary Curriculum
 - EPY 707 - Adolescent Development
 - EPY 709 - Classroom Assessment
 - ESP 701 - Introduction to Special Education and Legal Issues
- Teaching Field Methods Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIS 533 - Teaching Secondary English
 - CIS 553S - Teaching Secondary Mathematics
 - CIS 563 - Teaching Secondary Science
 - CIS 573 - Teaching Secondary Social Studies
- Culminating Experience ,Ä Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIS 684 must be completed within final 30-36 hours of study and before enrollment in CIG 697.

Note: These courses are only for the M.Ed portion of the Graduate Licensure program. Additional requirements exist that do not count towards the masters degree. Students should reference the Graduate Licensure page

(tl.unlv.edu/glp) for complete details and information about the required sequence in which these courses must be taken.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 12 Requirements: Secondary English Language Arts Education (7-12) Track

Total Credits Required: 37

Course Requirements

- Research Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
 - Core Courses ,Äi Credits: 12
 - CIL 610 - Content Area Literacy
 - CIL 642 - Instruction English Education
 - CIL 643 - Curriculum Development English Education
 - CIL 616 - Teaching Writing
- Literacy Topics Course ,Äi Credits:
 - Complete one of the following courses:
 - CIL 600 - Topics Literacy Education
 - CIL 680 - Contemporary Literature Children and Young Adults
- Cognate Courses ,Äi Credits: 6
 - Complete two courses from one of the following areas of emphasis: English. Advisor-approved 600-level courses in the Department of English.
 - Literacy
 - CIL 601 - Foundations of Literacy Learning
 - CIL 621 - Assessment in Literacy
 - CIL 693 - Literacy for a Diverse Society
 - Other CIL literacy courses selected with advisor approval

- TESL
 - TESL 650 - TESL Linguistic Theory
 - TESL 651 - Theories of Second Language Acquisition
 - TESL 652 - TESL Methods and Materials
 - TESL 653 - TESL Curriculum
 - TESL 654 - TESL Assessment Procedures
- Elective Course ,À Credits: 3
 - Complete 3 credits of an advisor-approved elective course.
- Seminar Course ,À Credits: 3
 - CIL 699 - Literacy Research Seminar
- Culminating Experience ,À Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 13 Requirements: Secondary English Language Arts Education TFA Track

Total Credits Required: 37

Course Requirements

- Required Courses ,À Credits: 36
 - Complete six of the following courses:
 - CIG 660 - Multicultural Education
 - CIL 610 - Content Area Literacy
 - CIL 616 - Teaching Writing
 - CIL 642 - Instruction English Education
 - CIL 643 - Curriculum Development English Education
 - CIS 684 - Secondary Education Curriculum
 - CIS 682 - Secondary School Instruction
 - EPY 702 - Research Methods
 - ESP 701 - Introduction to Special Education and Legal Issues
 - TESL 651 - Theories of Second Language Acquisition
 - TESL 652 - TESL Methods and Materials
 - TESL 653 - TESL Curriculum
- Culminating Experience ,À Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIS 684 must be completed within final 30-36 hours of study and before enrollment in CIG 697.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 14 Requirements: Secondary Mathematics Education (7-12) Track

Total Credits Required: 37

Course Requirements

- Research Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
- Methods Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIS 622 - Instructional Middle School Mathematics Education
 - CIS 624 - Instruction Secondary Mathematics Education
- Mathematics Education Courses ,Ä Credits: 6
 - CIG 620 - Principles of Learning Mathematics
 - CIS 628 - Technology Application in Secondary Mathematics Education
- Mathematics Elective Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 621 - Diagnostic Assessment School Mathematics
 - CIS 686 - Curriculum Development Secondary Education
- Mathematics Content Courses ,Ä Credits: 9
 - Complete three of the following courses, or other 600-700 level MAT courses:
 - CIS 620 - Topics Secondary School Mathematics
 - MAT 711 - Survey of Mathematical Problems I
 - MAT 712 - Survey of Mathematical Problems II
 - MAT 714 - History of Mathematics
 - SCI 620 - Middle School Mathematics Content:
 - SCI 640 - High School Mathematics Content:
- Elective Course ,Ä Credits: 3
 - Complete 3 credits of an advisor-approved elective course.
- Seminar Course ,Ä Credits: 3
 - CIG 689 - Curriculum and Instruction Seminar

- Culminating Experience ,Ä Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIG 689 must be completed before enrollment in CIG 697.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 15 Requirements: Secondary Mathematics Education RPDP (7-12) Track

Total Credits Required: 37

Course Requirements

- Research Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
- Content Courses ,Ä Credits: 15
 - Complete 15 credits of SCI 640 courses via RPDP from UNLV,Äs College of Sciences.
- Instruction Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIS 622 - Instructional Middle School Mathematics Education
 - CIS 624 - Instruction Secondary Mathematics Education
- Education Courses ,Ä Credits: 6
 - CIG 620 - Principles of Learning Mathematics
 - CIS 628 - Technology Application in Secondary Mathematics Education
- Elective Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 629 - Mathematics Education Seminar
 - CIG 621 - Diagnostic Assessment School Mathematics

- CIS 620 - Topics Secondary School Mathematics
 - CIS 629 - Curriculum Development Secondary Mathematics Education
- Culminating Experience ,Ài Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIS 620 is limited to 3 total credit hours.

CIS 624 and CIS 628 require secondary mathematics content background.

Students must successfully complete a culminating experience. CIG 697 involves the development of an e-portfolio. It is recommended that you keep copies of your work from all classes in your program in preparation for this course.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 16 Requirements: Secondary Mathematics Education TFA Track

Total Credits Required: 37

Course Requirements

- Required Courses ,Ài Credits: 36
 - Complete six of the following courses:
 - CIG 620 - Principles of Learning Mathematics
 - CIG 660 - Multicultural Education
 - CIL 610 - Content Area Literacy
 - CIS 624 - Instruction Secondary Mathematics Education
 - CIS 628 - Technology Application in Secondary Mathematics Education
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
 - EPY 702 - Research Methods
 - ESP 701 - Introduction to Special Education and Legal Issues
 - TESL 651 - Theories of Second Language Acquisition
 - TESL 652 - TESL Methods and Materials
 - TESL 653 - TESL Curriculum
- Culminating Experience ,Ài Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIS 684 must be completed within final 30-36 hours of study and before enrollment in CIG 697.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 17 Requirements: Secondary Science Education Track

Total Credits Required: 37

Course Requirements

- Research Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
- Core Courses ,Ä Credits: 12
 - CIS 630 - Topics Secondary School Science
 - CIS 634 - Instruction Secondary Science Education
 - CIS 638 - Technology Applications in Secondary Science Education
 - CIS 639 - Curriculum Development Secondary Science Education
- Elective Courses ,Ä Credits: 6
 - Complete 6 credits of 600- or 700-level advisor-approved courses from the College of Sciences or SCI 650 courses via RPDP.
- Cognate Courses ,Ä Credits: 6
 - Complete 6 credits of advisor-approved cognate coursework.
- Seminar Course ,Ä Credits: 3
 - CIG 639 - Science Education Seminar
- Culminating Experience ,Ä Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIG 639 must be completed prior to enrollment in CIG 697.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 18 Requirements: Secondary Science Education RPDP Track

Total Credits Required: 37

Course Requirements

- Research Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
- Content Courses ,Äi Credits: 15
 - Complete 15 credits of SCI 650 courses via RPDP through UNLV,Äôs College of Sciences.
- Core Courses ,Äi Credits: 6
 - CIS 634 - Instruction Secondary Science Education
 - CIS 638 - Technology Applications in Secondary Science Education
- Elective Courses ,Äi Credits: 6
 - Complete two of the following courses:
 - CIG 639 - Science Education Seminar
 - CIS 630 - Topics Secondary School Science
 - CIS 639 - Curriculum Development Secondary Science Education
- Culminating Experience ,Äi Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

Admission to UNLV,Äôs Graduate College is required PRIOR to the completion of 15 credit hours. Students who have already begun the RPDP Certificate Program are encouraged to apply to UNLV as soon as possible.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 19 Requirements: Secondary Science Education TFA Track

Total Credits Required: 37

Course Requirements

- Required Courses ,Äi Credits: 36
 - Complete six of the following courses:
 - EPY 702 - Research Methods
 - CIG 660 - Multicultural Education (formerly CIG 750)
 - CIL 610 - Content Area Literacy
 - CIS 634 - Instruction Secondary Science Education
 - CIS 638 - Technology Applications in Secondary Science Education
 - CIS 639 - Curriculum Development Secondary Science Education
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum (formerly CIS 705)
 - ESP 701 - Introduction to Special Education and Legal Issues
 - TESL 651 - Theories of Second Language Acquisition
 - TESL 652 - TESL Methods and Materials
 - TESL 653 - TESL Curriculum
- Culminating Experience ,Äi Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIS 684 must be completed within final 30-36 hours of study and before enrollment in CIG 697.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 20 Requirements: Secondary Social Studies Education (7-12) Track

Total Credits Required: 37

Course Requirements

- Research Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers

- EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,ÄiCredits: 3
 - Complete one of the following courses:
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
- Core Courses ,Äi Credits: 12
 - CIS 640 - Topics Secondary Social Studies Education
 - CIS 644 - Instruction Secondary Social Studies Education
 - CIS 649 - Curriculum Development Secondary Social Studies Education
- Content Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIT 609 - Internet for Learning
 - CIT 608 - Integrating Technology in Teaching and Learning
- Elective Courses ,Äi Credits: 9
 - Complete 9 credits of 600-level social science courses from Liberal Arts.
- Seminar Course ,Äi Credits: 3
 - CIG 649 - Social Studies Education Seminar
- Culminating Experience ,Äi Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIS 640 is limited to 3 total credit hours.

CIG 649 must be completed prior to CIG 697.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 21 Requirements: Secondary Social Studies Education TFA Track

Total Credits Required: 37

Course Requirements

- Required Courses ,Äi Credits: 36
 - Complete six of the following courses:

- CIG 660 - Multicultural Education
- CIL 610 - Content Area Literacy
- CIS 640 - Topics Secondary Social Studies Education
- CIS 649 - Curriculum Development Secondary Social Studies Education
- CIS 644 - Instruction Secondary Social Studies Education
- CIS 682 - Secondary School Instruction
- CIS 684 - Secondary Education Curriculum
- EPY 702 - Research Methods
- ESP 701 - Introduction to Special Education and Legal Issues
- TESL 651 - Theories of Second Language Acquisition
- TESL 652 - TESL Methods and Materials
- TESL 653 - TESL Curriculum
- TESL 654 - TESL Assessment Procedures
- Culminating Experience ,Äi Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIS 684 must be completed within final 30-36 hours of study and before enrollment in CIG 697.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 22 Requirements: Career & Technical and Postsecondary Education Track

Total Credits Required: 37

Course Requirements

- Research Course ,Äi Credits: 3
 - Complete one of the following courses:
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Äi Credits: 3
- Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum & Instruction Course ,Äi Credits: 3
- Complete one of the following courses:
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
- Concentration Courses ,Äi Credits: 15

- EDW 755 - Professional Seminar in Workforce Education
- EDW 539 - Methods of Teaching in Workforce Education
- EDW 575 - Performance-Based Education
- EDW 733 - Workforce Education Curriculum and Program Development
- EDW 768 - Grantsmanship in Education
- Core Course ,Äi Credits: 3
 - Complete one of the following courses:
 - EDW 571 - Advising Career and Technical Student Organizations (CTSO)
 - EDW 745 - Theories of Adult Learning
- Cognate Courses ,Äi Credits: 6
 - Complete 6 credits of advisor-approval cognate coursework within a particular area of study.
- Applied Concepts Course ,Äi Credits: 3
 - Complete one of the following courses:
 - EDW 530 - Tools for Success in Secondary Workforce Education
 - EDW 748 - Internship in Workforce Education
- Culminating Experience ,Äi Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 23 Requirements: Children's and Young Adult Literature (K-12) Track

Total Credits Required: 37

Course Requirements

- Curriculum and Instruction Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIE 681 - Elementary School Instruction
 - CIE 683 - Elementary Classroom Management
 - CIE 685 - Elementary Education Curriculum
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
- Research Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Literacy Learning Course ,Äi Credits: 3
 - CIL 601 - Foundations of Literacy Learning

- Literacy Topics Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIL 600 - Topics Literacy Education
 - CIL 680 - Contemporary Literature Children and Young Adults
- Elective Courses ,Äi Credits: 12
 - Complete four of the following courses, or other advisor-approved CIL 600-level courses:
 - CIL 600 - Topics Literacy Education
 - CIL 604 - Literacy Instruction for Young Children
 - CIL 607 - Comprehensive Reading Instruction
 - CIL 680 - Contemporary Literature Children and Young Adults
 - CIL 684 - Multicultural Literature
 - CIL 687 - Literature-Based Instruction
 - CIL 688 - Historical Development of Literature
 - CIL 747 - Literary Theories and Children,Äôs Literature
- Cognate Course ,Äi Credits: 6
 - Complete 6 credits of advisor-approved cognate coursework within a particular area of study.
- Culminating Experience ,Äi Credits: 3
 - CIL 699 - Literacy Research Seminar
- Culminating Experience ,Äi Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

A maximum of 6 semester hours of CIL 602 topics classes accepted toward a degree.

CIL 699 must be taken the semester prior to CIG 697.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 24 Requirements: Education Technology Track

Total Credits Required: 37

Course Requirements

- Research Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development

- EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIE 681 - Elementary School Instruction
 - CIE 683 - Elementary Classroom Management
 - CIE 685 - Elementary Education Curriculum
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
 - Core Courses ,Äi Credits: 18
 - CIT 608 - Integrating Technology in Teaching and Learning
 - CIT 609 - Internet for Learning
 - CIT 643 - Designing Digital Materials for Education
 - CIT 648 - Issues and Methods in Online Learning
 - CIT 667 - Technology and Educational Change
 - CIT 673 - Digital Materials Studio
 - Elective Courses ,Äi Credits: 9
 - Complete 9 credits of electives from the following list, or other advisor-approved content area methods courses:
 - CIT 600 - Topics in Educational Technology:
 - CIT 611 - Digital Publishing for Educators
 - CIT 647 - Creating Online Learning Environments
 - CIT 649 - Instructional Methods Computer Applications
 - CIT 651 - Instructional Methods Computer Science
 - CIT 653 - Creating Digital Materials for Education
 - CIT 676 - Management of Educational Technology Facilities and Resources
 - Culminating Experience ,Äi Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 25 Requirements: Educational Technology RPDP Track

Total Credits Required: 37

Course Requirements

- Research Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development

- EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIE 681 - Elementary School Instruction
 - CIE 683 - Elementary Classroom Management
 - CIE 685 - Elementary Education Curriculum
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
- Technology Integration Courses ,Äi Credits: 24
 - CIT 643 - Designing Digital Materials for Education
 - CIT 667 - Technology and Educational Change
 - CIT 673 - Digital Materials Studio
 - CIT 608 - Integrating Technology in Teaching and Learning
 - CIT 609 - Internet for Learning
 - CIT 611 - Digital Publishing for Educators
 - CIT 622 - Microcomputer Technology for Educators
 - CIT 647 - Creating Online Learning Environments
- Electives Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIE 637 - Technology Applications K-8 Science Education
 - CIE 627 - Technology Applications K-8 Mathematics Education
 - TESL 656 - Technology Assisted English Language Learning
 - CIS 628 - Technology Application in Secondary Mathematics Education
 - CIS 638 - Technology Applications in Secondary Science Education
 - CIT 600 - Topics in Educational Technology:
 - CIT 648 - Issues and Methods in Online Learning
 - CIT 649 - Instructional Methods Computer Applications
 - CIT 651 - Instructional Methods Computer Science
 - CIT 653 - Creating Digital Materials for Education
- Culminating Experience ,Äi Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 26 Requirements: Literacy Education (K-12) Track

Total Credits Required: 37

Course Requirements

- Research Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers

- EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIE 681 - Elementary School Instruction
 - CIE 683 - Elementary Classroom Management
 - CIE 685 - Elementary Education Curriculum
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
- Learning Course ,Ä Credits: 3
 - CIL 601 - Foundations of Literacy Learning
- Literacy Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIL 600 - Topics Literacy Education
 - CIL 680 - Contemporary Literature Children and Young Adults
- Elective Courses ,Ä Credits: 12
 - Complete 12 credits from the following list of courses, or other advisor-approved CIL 600-level courses:
 - CIL 600 - Topics Literacy Education
 - CIL 604 - Literacy Instruction for Young Children
 - CIL 607 - Comprehensive Reading Instruction
 - CIL 610 - Content Area Literacy
 - CIL 616 - Teaching Writing
 - CIL 617 - Southern Nevada Writing Project: Invitational Institute (6 semester hours)
 - CIL 621 - Assessment in Literacy
 - CIL 622 - Practicum Literacy Diagnosis and Instruction
 - CIL 691 - Organization and Supervision Literacy Programs
 - CIL 693 - Literacy for a Diverse Society
 - CIL 680 - Contemporary Literature Children and Young Adults
 - CIL 684 - Multicultural Literature
 - CIL 687 - Literature-Based Instruction
 - CIL 688 - Historical Development of Literature
 - CIL 747 - Literary Theories and Children,Äs Literature
- Cognate Courses ,Ä Credits: 6
 - Complete 6 credits of advisor-approved cognate coursework.
- Seminar Course ,Ä Credits: 3
 - CIL 699 - Literacy Research Seminar
- Culminating Experience ,Ä Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

A maximum of 6 semester hours of CIL 602 topics classes accepted toward a degree.

CIL 699 must be taken the semester prior to Culminating Experience.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 27 Requirements: Multicultural Education (PK12, Higher Ed, or Community-Based Ed Focus) Track

Total Credits Required: 37

Course Requirements

- Research Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIE 681 - Elementary School Instruction
 - CIE 683 - Elementary Classroom Management
 - CIE 685 - Elementary Education Curriculum
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
- Core Course ,Äi Credits: 3
 - CIG 660 - Multicultural Education
- Education Courses ,Äi Credits: 9
 - Complete three of the following courses:
 - CIG 661 - Topics Multicultural Education
 - CIG 662 - Theory and Research Multicultural Education
 - CIL 693 - Literacy for a Diverse Society
 - CIL 684 - Multicultural Literature
- TESL Core Course ,Äi Credits: 3
 - TESL 651 - Theories of Second Language Acquisition
- TESL Elective Courses ,Äi Credits: 6
 - Complete two of the following courses:
 - TESL 650 - TESL Linguistic Theory
 - TESL 651 - Theories of Second Language Acquisition
 - TESL 652 - TESL Methods and Materials

- TESL 653 - TESL Curriculum
 - TESL 654 - TESL Assessment Procedures
- Cognate Courses ,Ài Credits: 6
 - Complete 6 credits of advisor-approved cognate coursework.
- Culminating Experience ,Ài Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 28 Requirements: Reading Specialist Track

Total Credits Required: 37

Course Requirements

- Research Course ,Ài Credits: 3
 - Complete one of the following courses:
 - CIG 690 - Teachers as Action Researchers
 - EPY 702 - Research Methods
 - EPY 703 - Teachers as Producers and Consumers of Educational Research
- Foundations Course ,Ài Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Curriculum and Instruction Course ,Ài Credits: 3
 - Complete one of the following courses:
 - CIE 681 - Elementary School Instruction
 - CIE 683 - Elementary Classroom Management
 - CIE 685 - Elementary Education Curriculum
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
- Foundations Course ,Ài Credits: 3
 - CIL 601 - Foundations of Literacy Learning
- Additional Foundations Course ,Ài Credits: 3
 - Complete one of the following courses:
 - CIL 600 - Topics Literacy Education
 - CIL 680 - Contemporary Literature Children and Young Adults
- Reading Specialist Course ,Ài Credits: 12
 - CIL 610 - Content Area Literacy
 - CIL 621 - Assessment in Literacy

- CIL 622 - Practicum Literacy Diagnosis and Instruction
- CIL 691 - Organization and Supervision Literacy Programs
- Literacy Programs Course ,Ã Credits: 3
 - Complete one of the following courses:
 - CIL 604 - Literacy Instruction for Young Children
 - CIL 607 - Comprehensive Reading Instruction
- Reading Specialist Elective Course ,Ã Credits: 3
 - Complete one of the following courses, or other advisor-approved CIL 600-level courses:
 - CIL 616 - Teaching Writing
 - CIL 617 - Southern Nevada Writing Project: Invitational Institute (6 semester hours)
 - TESL 650 - TESL Linguistic Theory
 - CIL 684 - Multicultural Literature
 - CIL 687 - Literature-Based Instruction
 - CIL 688 - Historical Development of Literature
 - CIL 693 - Literacy for a Diverse Society
 - CIL 747 - Literary Theories and Children,Ãs Literature
 - TESL 651 - Theories of Second Language Acquisition
- Seminar Course ,Ã Credits: 3
 - CIL 699 - Literacy Research Seminar
- Culminating Experience ,Ã Credits: 1
 - CIG 697 - Curriculum and Instruction Culminating Experience

Subplan Notes

CIL 699 must be taken the semester prior to Culminating Experience.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Degree Requirements

Students must complete a minimum of 37 credit hours with a minimum GPA of 3.00.

All graduate students are held responsible for the requirements and academic policies established by the Graduate College and outlined in the front of this catalog.

Students must successfully complete a culminating experience, CIG 697 under the direction of an advisor.

Registration for the culminating experience, CIG 697, is restricted to students who have 6 credits or less remaining in their program of study.

CIG 697 involves the development of an e-portfolio. It is recommended that you keep copies of your work from all classes in your program in preparation for this course.

Per graduate college requirements, students must be enrolled in at least 3 credits in the term they will graduate.

Plan Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

The student must successfully complete the culminating experience.

Master of Science - Curriculum & Instruction

The Department holds as its central mission the preparation and development of educators at all levels. The department ensures that its professional education programs are based on essential knowledge, established and current research findings, and sound professional practice.

Plan Admission Requirements

In addition to meeting the admission requirements of the Graduate College, applicants must also meet the requirements established by the Department of Teaching and Learning. They are:

- An overall undergraduate grade point average (GPA) of 3.00 is required for admission. Students with a GPA of less than 3.00 but greater or equal to 2.75 may be admitted to the graduate program upon review of the Admissions Committee.
- A completed on-line application for admission submitted to the Graduate College.
- The online application must include a one- to two-page statement of professional goals. The names with contact information of two professional references and intended emphasis area should be included in the statement.
- Two sets of official transcripts from all previously attended colleges and universities. One set of transcripts must be sent directly to the Graduate College; the other set must be sent directly to the T&L main office.
- Applications are processed when all credentials required by both the Graduate College and T&L have been received. Once received, materials are forwarded to the Graduate Coordinator and the T&L Master, who's Admission Committee to evaluate the applicant, who's credentials and recommend acceptance or denial into the program. Those who wish to begin studies but who missed the application deadline may enroll as a non-degree seeking graduate student. However, since there is no guarantee that courses taken as a non-degree student will count toward a degree, and since a maximum of 15 hours taken prior to admission to the program may be used to meet degree requirements, candidates are urged to seek advisement prior to registering for any course(s). Please see <http://tl.unlv.edu/admissions> for more information. Students may also email tlgrad@unlv.edu or call (702) 895-1986 for assistance.
- The Graduate College will send official notification regarding the status of applications through the Apply Yourself (AY) portal. In addition, an email will be sent from the department of Teaching and Learning identifying an academic advisor. Students are responsible for contacting their advisors upon admission to the program. Students are required to complete their program of study using Advise, T&L, who's online system for submitting a program of study. Advise can be accessed at: <http://advise.unlvcoe.net/>.

- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Career & Technical and Postsecondary Education Track

Total Credits Required: 39

Course Requirements

- Required Course ,Ä Credits: 3
 - EPY 702 - Research Methods
- Methods Course ,Ä Credits: 3
 - Complete one of the following courses:
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
- Foundations Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Instruction Course ,Ä Credits: 3
 - Complete one of the following courses:
 - CIG 602 - Differentiated Curriculum and Instruction
 - CIS 682 - Secondary School Instruction
 - CIS 684 - Secondary Education Curriculum
 - EDW 745 - Theories of Adult Learning
- Core Courses ,Ä Credits: 15
 - EDW 755 - Professional Seminar in Workforce Education
 - EDW 539 - Methods of Teaching in Workforce Education
 - EDW 575 - Performance-Based Education
 - EDW 733 - Workforce Education Curriculum and Program Development
 - EDW 768 - Grantsmanship in Education
- Additional Core Course ,Ä Credits: 3
 - Complete one of the following courses:
 - EDW 571 - Advising Career and Technical Student Organizations (CTSO)
 - EDW 745 - Theories of Adult Learning
- Seminar Course ,Ä Credits: 3
 - EDW 772 - Seminar in Workforce Education
- Thesis ,Ä Credits: 6
 - CIG 699 - Curriculum and Instruction Thesis

Degree Requirements

- Students must complete a minimum of 39 credit hours with a minimum GPA of 3.00.
- EPY 702 must be taken prior to EPY 718 or EPY 721.

- CIG 649 must be taken prior to CIG 699.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Complete and defend a thesis.
- Students must be enrolled in thesis credits the semester of graduation.
- A thesis prospectus must be filed with the C&I Department and the Graduate College the semester prior to registering for thesis hours. The form, "Prospectus Approval Form," must be completed by the student, signed by the student's advisor, and returned to the T&L Department Graduate Studies Office (CEB 368A) three (3) weeks prior to the last day of instruction the semester before enrolling in six (6) semester hours of CIG 699 C&I Thesis. The T&L Graduate Studies Office will obtain signatures from committee members and graduate coordinator before forwarding the form to the Graduate College.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.

Subplan 2 Requirements: English Language Arts Education Track

Total Credits Required: 39

Course Requirements

- Required Course "Credits: 3
 - EPY 702 - Research Methods
- Methods Course "Credits: 3
 - Complete one of the following courses:
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
- Foundations Course "Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Core Courses "Credits: 12
 - CIL 610 - Content Area Literacy
 - CIL 642 - Instruction English Education
 - CIL 643 - Curriculum Development English Education
 - CIL 616 - Teaching Writing
- Literacy Topics Course "Credits: 3
 - Complete one of the following courses:
 - CIL 600 - Topics Literacy Education
 - CIL 680 - Contemporary Literature Children and Young Adults
- Cognate Courses "Credits: 6
 - Complete two courses from one of the following areas of emphasis: English. Classes must be 600-level, advisor approved courses in the Department of English.

- Literacy
 - CIL 601 - Foundations of Literacy Learning
 - CIL 621 - Assessment in Literacy
 - CIL 693 - Literacy for a Diverse Society
 - Other CIL literacy courses selected with advisor approval.
 - TESL
 - TESL 650 - TESL Linguistic Theory
 - TESL 651 - Theories of Second Language Acquisition
 - TESL 652 - TESL Methods and Materials
 - TESL 653 - TESL Curriculum
 - TESL 654 - TESL Assessment Procedures
- Seminar Course ,À Credits: 3
 - CIL 699 - Literacy Research Seminar
- Thesis ,À Credits: 6
 - CIG 699 - Curriculum and Instruction Thesis

Degree Requirements

- Students must complete a minimum of 39 credit hours with a minimum GPA of 3.00.
- EPY 702 must be taken prior to EPY 718 or EPY 721.
- CIG 649 must be taken prior to CIG 699.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Às discretion. Please see Graduate College policy for committee appointment guidelines.
- Complete and defend a thesis.
- Students must be enrolled in thesis credits the semester of graduation.
- A thesis prospectus must be filed with the C&I Department and the Graduate College the semester prior to registering for thesis hours. The form, ,À Prospectus Approval Form,À, must be completed by the student, signed by the student,Às advisor, and returned to the T&L Department Graduate Studies Office (CEB 368A) three (3) weeks prior to the last day of instruction the semester before enrolling in six (6) semester hours of CIG 699 C&I Thesis. The T&L Graduate Studies Office will obtain signatures from committee members and graduate coordinator before forwarding the form to the Graduate College.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 3 Requirements: Elementary Mathematics Education Track

Total Credits Required: 39

Course Requirements

- Required Course ,Äi Credits: 3
 - EPY 702 - Research Methods
- Methods Course ,Äi Credits: 3
 - Complete one of the following courses:
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
- Foundations Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education
 - EPY 707 - Adolescent Development
 - EPY 711 - Human Growth and Development
 - EPY 712 - Foundations of Learning and Cognition
- Methods Courses ,Äi Credits: 6
 - Complete two of the following courses:
 - CIE 623 - Instruction Primary Elementary Mathematics Education
 - CIE 625 - Instruction Intermediate Elementary Mathematics Education
 - CIS 622 - Instructional Middle School Mathematics Education
- Core Courses ,Äi Credits: 9
 - CIE 620 - Topics Elementary School Mathematics
 - CIE 627 - Technology Applications K-8 Mathematics Education
 - CIG 620 - Principles of Learning Mathematics
- Education Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CIE 629 - Curriculum Development in Elementary School Mathematics
 - CIG 621 - Diagnostic Assessment School Mathematics
- Elective Course ,Äi Credits: 6
 - Complete 6 credits of advisor-approved elective courses.
- Culminating Experience ,Äi Credits: 6
 - CIG 689 - Curriculum and Instruction Seminar
 - CIG 697 - Curriculum and Instruction Culminating Experience

Degree Requirements

- Students must complete a minimum of 39 credit hours with a minimum GPA of 3.00.
- EPY 702 must be taken prior to EPY 718 or EPY 721.
- Complete the culminating experience.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must complete the culminating experience.

Subplan 4 Requirements: Secondary Mathematics Education Track

Total Credits Required: 39

Course Requirements

- Required Course ,À Credits: 3
 - EPY 702 - Research Methods
- Methods Course ,À Credits: 3
 - Complete one of the following courses:
 - EPY 718 - Qualitative Research Methodologies
 - EPY 721 - Descriptive and Inferential Statistics: An Introduction
- Foundations Course ,À Credits: 3
 - Complete one of the following courses:
 - CIG 603 - Urban Education
 - CIG 660 - Multicultural Education

Teaching and Learning Courses

CIE 508 - Classroom Management Elementary Education

Credits 3

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** CIE 659. **Same as:** EDEL 408.

Notes: Credit at the 500 level normally requires additional work. **Prerequisites:** CIE 601 and EDEL 311

CIE 533 - Teaching Elementary School Mathematics

Credits 3

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** CIE 652. **Same as:** EDEL 433.

Notes: Credit at the 500 level normally requires additional work. **Prerequisites:** PPST, MATH 122 and MATH 123 or EDEL 431 or consent of instructor. **Corequisite:** Enrollment in a practicum.

CIE 543 - Teaching Elementary School Science

Credits 3

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** CIE 655. **Same as:** EDEL 443.

Notes: Credit at the 500 level normally requires additional work. **Prerequisites:** PPST, BIOL 100, GEOG 101 and 103, CHEM 105 and 106 or 110 or PHYS 108 and 108L. **Corequisite:** Enrollment in a practicum.

CIE 553 - Teaching Elementary School Social Studies

Credits 3

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** CIE 658. **Same as:** EDEL 463.

Notes: Credit at the 500 level normally requires additional work. **Prerequisites:** PPST, nine hours of social science. **Corequisite:** Enrollment in a practicum.

CIE 601 - Elementary Teacher Development Seminar

Credits 3

Designed for students entering the Elementary Graduate Licensure program. Examines contemporary trends for developing classroom expertise with observations in an elementary classroom. Focus on theory and practice in fostering personal and professional development for pre-service teachers. **Formerly:** CIE 701. **Same as:** CIS 601.

Prerequisites: Graduate standing. **Corequisite:** Admission Graduate Licensure Program.

CIE 620 - Topics Elementary School Mathematics

Credits 1 – 3

Examines specific topics and issues in elementary school mathematics. **Formerly:** CIE 720. **Same as:** CIS 620. **Notes:** Maximum of six credits accepted toward degree. **Prerequisites:** EDEL 433 or CIE 533 and current teaching certificate.

CIE 623 - Instruction Primary Elementary Mathematics Education

Credits 3

Study of research-based practices and methods in primary elementary school mathematics education. **Formerly:** CIE 723. **Prerequisites:** EDEL 433 or CIE 533 or ECE 454 and current teaching certificate.

CIE 625 - Instruction Intermediate Elementary Mathematics Education

Credits 3

Study of research-based practices and methods in intermediate elementary school mathematics education. **Formerly:** CIE 725. **Prerequisites:** EDEL 433 or CIE 533 and current teaching certificate.

CIE 627 - Technology Applications K-8 Mathematics Education

Credits 3

Research-based study of the integration of technology into the teaching of mathematics in grades K-8. **Formerly:** CIE 727. **Prerequisites:** One 600-level mathematics instruction course or consent of instructor.

CIE 629 - Curriculum Development in Elementary School Mathematics

Credits 3

Emphasizes research and curriculum studies dealing with content and procedures of elementary school mathematics programs. **Formerly:** CIE 729. **Same as:** CIS 629. **Prerequisites:** One 600-level mathematics instruction course or consent of instructor.

CIE 630 - Topics Elementary School Science

Credits 1 – 3

Examines specific topics and issues in elementary school science. **Formerly:** CIE 730. **Same as:** CIS 630. **Prerequisites:** EDEL 443 or CIE 543 and current teaching certificate.

CIE 635 - Instruction Elementary Science Education

Credits 3

Study of research-based practices and methods in elementary school science education. **Formerly:** CIE 735. **Prerequisites:** EDEL 443 or CIE 543 and current teaching certificate.

CIE 637 - Technology Applications K-8 Science Education

Credits 3

Research-based study of the integration of technology into the teaching of science in grades K-8. **Formerly:** CIE 737. **Prerequisites:** EDEL 443 or CIE 543 and current teaching certificate or consent of instructor.

CIE 639 - Curriculum Development Elementary Science Education

Credits 3

Emphasizes research and curriculum studies dealing with content and procedures of elementary school science programs. **Formerly:** CIE 739. **Prerequisites:** One 600-level science instruction course or consent of instructor.

CIE 640 - Topics Elementary School Social Studies

Credits 1 – 3

Examines specific topics and issues in elementary school social studies. **Formerly:** CIE 740. **Same as:** CIS 640. **Notes:** Maximum of six credits accepted toward degree. **Prerequisites:** EDEL 453 or CIE 553 and current teaching license.

CIE 645 - Instruction Elementary Social Studies Education

Credits 3

Study of research-based practices and methods in elementary school social studies education. **Formerly:** CIE 745. **Prerequisites:** EDEL 453 or CIE 553 and current teaching license.

CIE 649 - Curriculum Development Elementary Social Studies Education**Credits 3**

Emphasizes research and curriculum studies dealing with content and procedures of elementary school social studies programs. **Formerly:** CIE 749. **Same as:** CIS 649. **Prerequisites:** EDEL 453 or CIE 553 and current teaching license.

CIE 681 - Elementary School Instruction**Credits 3**

Research basis for developing and implementing instructional strategies and models of teaching for the elementary classroom. **Formerly:** CIE 701. **Prerequisites:** Current teaching certificate.

CIE 683 - Elementary Classroom Management**Credits 3**

Advanced study in managing various aspects of the classroom including establishing and maintaining positive psychosocial environments; rules, routines, and procedures to minimize disruption; discipline plans; and enriched curricula. **Formerly:** CIE 702. **Prerequisites:** Current teaching certificate.

CIE 685 - Elementary Education Curriculum**Credits 3**

Current research, influences, trends and issues in the modern elementary school curriculum. Recommended as a culminating course. **Formerly:** CIE 703. **Prerequisites:** Current teaching certificate.

CIE 687 - Curriculum Development Elementary Education**Credits 3**

Examines the conceptual framework and decision making involved in elementary school curriculum development. **Formerly:** CIE 704. **Prerequisites:** CIE 685

CIG 500 - Topics Teacher Education**Credits 1 - 3**

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** CIG 600. **Notes:** May be repeated to a maximum of six credits. Credit at the 500 level normally requires additional work.

CIG 600A - Curriculum and Instruction**Credits 1 – 6**

Specialized course in curriculum and instruction designed to develop depth in understanding a current educational topic for the in-service teacher. **Formerly:** CIG 700. **Notes:** Maximum of six credits accepted toward a degree.

CIG 601 - Curriculum and Instruction Urban Settings**Credits 3**

This course is a research-based study of elementary and secondary education in urban settings that blends curriculum and instruction to develop an in-depth understanding of contemporary educational practices. **Formerly:** CIG 701

CIG 602 - Differentiated Curriculum and Instruction**Credits 3**

Research-based study of strategies to differentiate curriculum and instruction in order to effectively assess learner needs, modify curriculum materials, plan and implement instruction, develop assignments, and evaluate learning outcomes. **Formerly:** CIG 702. **Notes:** Credit at the 600 level normally requires additional work.

CIG 603 - Urban Education**Credits 3**

Analysis of the needs and problems of pupils in the urban school, with special emphasis on the development of relevant curricula and teaching strategies. Field work on a pertinent problem required. **Formerly:** CIG 703. **Prerequisites:** Subject area undergraduate methods course.

CIG 620 - Principles of Learning Mathematics

Credits 3

Study of research involving cognitive factors that impact the learning of mathematics. **Formerly:** CIG 720.

Prerequisites: One 600-level course in mathematics instruction or consent of instructor.

CIG 621 - Diagnostic Assessment School Mathematics

Credits 3

Study of the causes and effects of mathematics learning difficulties, methods and instruments useful in diagnosis and treatment. Evaluation of materials for the correction of mathematics learning problems. **Formerly:** CIG 721.

Prerequisites: One 600-level course in mathematics instruction or consent of instructor.

CIG 629 - Mathematics Education Seminar

Credits 3

Examination of seminal and current mathematics education research through readings, writings, discussions and presentations. **Prerequisites:** Fifteen hours of graduate coursework or consent of instructor.

CIG 639 - Science Education Seminar

Credits 3

Examination of seminal and current science education research through readings, writings, discussions and presentations. **Prerequisites:** Fifteen hours of graduate coursework or consent of instructor.

CIG 649 - Social Studies Education Seminar

Credits 3

Examination of seminal and current social studies education research through readings, writings, discussions and presentations. **Prerequisites:** Fifteen hours of graduate coursework or consent of instructor.

CIG 650 - Art History for Art Educator

Credits 3

Study of art history and its relationship to the design and implementation of art curriculum in elementary and secondary education. **Formerly:** CIG 710

CIG 651 - Aesthetics and Criticism Art Education

Credits 3

Study of aesthetics and art criticism concepts as curricular content in elementary and secondary art education.

Formerly: CIG 711

CIG 652 - Technology Applications Art Education

Credits 3

Research-based study of the integration of technology into the teaching and learning of elementary and secondary art education curriculum. **Formerly:** CIG 712

CIG 653 - Instructional Discipline-Based Art Education

Credits 3

Study of research-based practices and methods in the teaching of discipline-based elementary and secondary school art education. **Formerly:** CIG 713

CIG 660 - Multicultural Education

Credits 3

Introduces students to topics, issues, research, and practices associated with teaching in a diverse society. **Formerly:** CIG 750. **Prerequisites:** Graduate standing.

CIG 661 - Topics Multicultural Education

Credits 3

Examines specific topics and issues in multicultural education. **Formerly:** CIG 751. **Notes:** Maximum of six credits accepted toward a degree. **Prerequisites:** CIG 660 or consent of instructor.

CIG 662 - Theory and Research Multicultural Education**Credits 3**

Examines research related to current programs, trends and issues relative to student instruction for the purpose of preparing teachers, administrators, and other educators to work with diverse populations.

Formerly: CIG 752. **Prerequisites:** CIG 660 or consent of instructor.

CIG 682 - Reflective Practice in Teaching**Credits 3**

Focuses on the theoretical bases, roles, approaches, and dimensions of teacher reflection. Provides students opportunities for reflective practice to improve teaching. Students acquire important knowledge and basic skills of teacher reflection necessary to be a master teacher. **Formerly:** CIG 704

CIG 689 - Curriculum and Instruction Seminar**Credits 1 - 3**

Examination of seminal and current mathematics education research through readings, writings, discussions and presentations. **Formerly:** CIG 717. **Notes:** Maximum of six credits accepted toward a degree. **Prerequisites:** Fifteen hours of graduate coursework or consent of instructor.

CIG 690 - Teachers as Action Researchers**Credits 3**

Surveys literature on classroom action research as a new genre of research, examines important issues in the field of teacher research, and helps students begin conducting action research in their own classrooms. Students develop an action research project. **Formerly:** CIG 705

CIG 692 - Curriculum Evaluation in Education**Credits 3**

Study of research-based practices in general and specific curriculum evaluation. **Notes:** Requires a field-based curriculum evaluation project related to an elementary or secondary subject area and basic knowledge of statistics, research methodology, and curriculum theory. **Prerequisites:** CIE 685 or CIS 686 or consent of instructor.

CIG 697 - Curriculum and Instruction Culminating Experience**Credits 1 – 3**

Culminating experience for M.Ed. students. Includes a selection of faculty approved options such as a comprehensive examination, professional manuscript or presentation, eportfolio project, or other equitable curricular experiences. **Formerly:** CIG 715. **Grading:** S/F grading. **Prerequisites:** Thirty hours graduate course work.

CIG 698 - Curriculum and Instruction Professional Paper/Project**Credits 3**

Culminating activity for M.Ed. students. Paper/project requires the student to identify an educational issues applicable to a professional setting and conduct in-depth study or action research concerning the issue. **Formerly:** CIG 718. **Notes:** Maximum of six credits accepted toward a degree. **Grading:** S/F grading only.

CIG 699 - Curriculum and Instruction Thesis**Credits 3 – 9**

Culminating activity for M.S. Students. **Formerly:** CIG 719. **Notes:** Maximum of nine credits accepted toward a degree. **Grading:** S/F grading only. **Prerequisites:** CIG 689 and consent of instructor.

CIG 706 - Mentoring Strategies to Improve Teaching**Credits 3**

Addresses underlying theory of mentoring and development of mentoring strategies and practices. Aims to improve mentoring practices of experienced teachers working with novice teachers. **Prerequisites:** Consent of instructor.

CIG 716 - Reading and Conference**Credits 1 – 3**

Independent reading and study conference with assigned professor. **Notes:** Maximum of six credits accepted toward a degree. **Prerequisites:** Must be approved prior to registration.

CIG 760R - Inquiry into Teacher Education**Credits 3**

Supports students in analyzing major issues, questions, and trends in teacher education as well as the social, historical, and theoretical backgrounds. Familiarizes students with various forms of literature in the field of teacher education. Engages students in writing literature reviews and conference proposals.

CIG 761 - Theoretical Foundations of Education**Credits 3**

Examines the historical, philosophical, sociological, and cultural foundations of teaching and learning.

Prerequisites: Doctoral status; or consent of instructor.

CIG 762 - Instructional Strategies and Learning to Teach in Higher Education**Credits 3**

Focuses on the past, present, and evolving pedagogical content of teacher education. Topics include: the role and work of the teacher educator, teacher educator curricular issues, and effective teaching strategies for working with adult learners. **Prerequisites:** Doctoral status.

CIG 763 - Teaching and Learning to Teach**Credits 3**

Broad overview of the process of learning to teach that begins long before a teacher enrolls in education courses. Explores empirical and conceptual questions about teacher learning across the career. **Prerequisites:** Doctoral status.

CIG 764 – Models of Teaching**Credits 3**

Considers the wide variety of approaches to teaching through historical, theoretical and research perspectives. Emphasis on the identification of models of teaching most appropriate to the objectives of individual lessons.

Prerequisites: Doctoral status.

CIG 765 - Instructional Design**Credits 3**

Trends, issues, and research findings on effective instructional planning, presentation, and evaluation.

Prerequisites: Doctoral status.

CIG 766 - Evaluation of Teaching**Credits 3**

Survey of current methods in evaluating teaching including summative and formative evaluation; high and low inference instruments; validity, reliability and legal issues; and techniques of data gathering. Explores evaluation as a method of improving instruction. **Prerequisites:** EPY 702 and Doctoral status.

CIG 767 - Human Relations for the Teacher Educator**Credits 3**

Inquiry into the role of cultural, racial, and social minorities in education. **Prerequisites:** Doctoral status.

CIG 768 - Advanced Curriculum Studies**Credits 3**

Examines various philosophical and theoretical traditions in contemporary Curriculum Studies, including progressive educational thought, postmodern, post-structural, psychoanalytic, Marxist, postcolonial, feminist, and queer theory. One of three courses that fulfills the requirement for two Educational Foundations courses.

Prerequisites: Doctoral status.

CIG 769 - Advanced Curriculum Evaluation in Education**Credits 3**

Development and application of evaluation models, instruments, and strategies. Applications of selected models, instruments, and strategies to curriculum program evaluation projects. Requires in-depth evaluation report based on field experience project. **Prerequisites:** Doctoral status.

CIG 770 - Current Trends and Issues in Education

Credits 3

Contemporary trends and issues in curriculum development, teaching and learning in education. **Prerequisites:** Doctoral status or consent of instructor.

CIG 771 - Comparative Studies in Learning, Teaching, and Curriculum

Credits 3

Examines relationships between learning, curriculum, teaching, and teacher development within and across different countries and analyzes goals, theoretical assumptions, methodological dilemmas, and implications of such comparisons. **Prerequisites:** Doctoral status.

CIG 772 - Introduction to Cultural Studies in Education

Credits 3

Examines the political, theoretical, and historical roots of Cultural Studies as it applies to issues of power, culture and knowledge in the field of education. Popular culture, media studies, youth/child culture figure prominently.

Notes: This is a compulsory core for those in the International and Cultural Studies emphasis area. **Prerequisites:** Doctoral status

CIG 773 - Critical Literacies/Critical Pedagogies

Credits 3

Explores the work of Paulo Freire and the development of Critical Literacy and Critical Pedagogy. **Notes:** This is a required course for students of International and Cultural Studies and can be used as an elective for those doctoral students in literacy education. **Prerequisites:** Doctoral Status or Consent of Instructor

CIG 774 - Gender and Sexuality of Education

Credits 3

Examines current research and scholarship on curricular issues related to gender and sexuality in educational settings. The course will emphasize the pedagogical production of gender and sexual identities, drawing on gender, feminist, queer, postmodern and postcolonial theory. **Prerequisites:** Doctoral Status or Consent of Instructor

CIG 775 - Theoretical Frameworks for Science Education

Credits 3

Examines the backgrounds and applications of a variety of theoretical frameworks for qualitative, quantitative, and mixed-methods research in science education, including constructivist, hermeneutic, and critical theory frameworks. Students will analyze and critique such frameworks as they apply toward their own potential research topics.

Prerequisites: Doctoral Status or Consent of Instructor

CIG 776 - Philosophical Foundations of Science Education

Credits 3

An exploration of the works of twentieth century philosophers of science who were most influential in shaping the thinking about science among science education community. Aims to help participants develop informed and critical views of nature of science and its implications for science teaching and learning. **Prerequisites:** Doctoral status or Consent of Instructor

CIG 777 - Principles of Learning Science

Credits 3

This advanced course is designed to develop an understanding of the theoretical ideas related to how people learn scientific concepts. Using a combination of current research from cognitive science, educational psychology, and evaluations of classroom interventions, students will explore a range of topics that relate directly to science learning.

Prerequisites: Consent of instructor.

CIG 779 - Advanced Seminar in Curriculum and Instruction

Credits 3

Concentrated study of literature on specified topics in curriculum and instruction studies. Specific topic announced in the schedule of classes. **Notes:** Maximum of six credits accepted toward a degree. **Prerequisites:** Doctoral status and consent of instructor.

CIG 780 - Research on Teaching and Schooling**Credits 3**

Examines, analyzes, and critiques research literature in contexts and cultures of teaching and schooling, teachers' knowledge and beliefs, school change and teacher change processes, and schooling for diverse learners.

Prerequisites: Doctoral status. EPY 702 and CIG 761 or consent of instructor.

CIG 781 - Theories and Research in Classroom Management**Credits 3**

Assists teacher educators in exploring major models of classroom management with emphasis on developing strategies to promote teacher growth. Models include behavioristic, humanistic, and cognitive approaches toward managing student behavior. Development of classroom routines, preventive discipline, and organization of classroom environment. **Prerequisites:** Doctoral status.

CIG 782 - School Climate**Credits 3**

Study of research on effective schools relative to school climate; curricular, instructional, psychological, affective, and processing. Emphasis on utilization of research in developing and inservice education. **Prerequisites:** Doctoral status.

CIG 783 - Theory and Research in School Mathematics**Credits 3**

Analysis and evaluation of theories and research in school mathematics methods and curriculum with emphasis on theories and research leading to contemporary programs. **Notes:** Maximum of six credits accepted toward a degree. **Prerequisites:** Doctoral status. Six hours of course work in educational research, one 700-level course in mathematics methods, and consent of instructor.

CIG 784 - Theory and Research in School Science**Credits 3**

Analysis and evaluation of theories and research in school science methods and curriculum with emphasis on theories and research leading to contemporary programs. **Notes:** Maximum of six credits accepted toward a degree. **Prerequisites:** Doctoral status. Six hours of course work in educational research, one 700-level course in science methods, and consent of instructor.

CIG 785 - Theory and Research in School Social Studies**Credits 3**

Analysis and evaluation of theories and research in school social studies methods and curriculum with emphasis on theories and research leading to contemporary programs. **Notes:** Maximum of six credits accepted toward a degree. **Prerequisites:** Doctoral status. Six hours of course work in educational research, one 700-level course in social studies methods, and consent of instructor.

CIG 786 - Individual Instruction in Education**Credits 1 – 6**

Application of theory, actual research, or replication of studies related to school education. **Notes:** Maximum of six credits accepted toward degree. Must be approved prior to registration. **Prerequisites:** Doctoral status.

CIG 787 - Individual Instruction in Mathematics Education**Credits 3**

Application of theory, actual research, or replication of studies related to mathematics education. **Notes:** Maximum of six credits accepted toward degree. Must be approved prior to registration. **Prerequisites:** Doctoral status.

CIG 788 - Individual Instruction in Science Education

Credits 3

Application of theory, actual research, or replication of studies related to science education. **Notes:** Maximum of six credits accepted toward degree. Must be approved prior to registration. **Prerequisites:** Doctoral status.

CIG 789 - Individual Instruction in Social Studies Education**Credits 3**

Application of theory, actual research, or replication of studies related to social studies education. **Notes:** Maximum of six credits accepted toward degree. Must be approved prior to registration. **Prerequisites:** Doctoral status.

CIG 790 - Doctoral Research Seminar**Credits 3**

Designed to assist a cohort of doctoral students in varying stages of dissertation development: prospectus writing, research design, data collection, data analysis, and oral defense. **Notes:** Maximum of nine credits accepted toward a degree. **Prerequisites:** Doctoral status.

CIG 791 - Internship in Curriculum and Instruction**Credits 1 – 3**

Individually structured apprenticeship experience preparing students for future service. Requires up to 50 hour of work experience for each credit earned. **Notes:** Maximum of twelve credits accepted toward a degree.

Prerequisites: Doctoral status and consent of instructor.

CIG 799 – Dissertation**Credits 3**

May be taken for variable credits over a period of several semesters, with final grade being withheld until the dissertation has been successfully defended. Once a student enrolls in CIG 799, enrollment must be continuous until the dissertation is successfully defended. **Notes:** May be repeated but only a maximum of 24 credits may be allowed in the student's program. **Grading:** S/F grading only. **Prerequisites:** Consent of advisor. 3-24 credits in increments of three.

CIL 501 - Children's Literature Elementary School Curriculum**Credits 3**

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** CIL 615. **Same as:** EDRL 401. **Notes:** Credit at the 500 level normally requires additional work.

CIL 511 - Teaching Language Arts Elementary Schools**Credits 3**

Current methods and materials for teaching language arts including oral language arts including oral language development, speaking and listening, written expression, spelling, and handwriting.

CIL 542 - Literacy Instruction I**Credits 3**

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** CIL 655. **Same as:** EDRL 442. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** PPST. **Corequisite:** Enrollment in a practicum.

CIL 600 - Topics Literacy Education**Credits 1 – 6**

Examines specific topics and issues of content, materials, methods, and procedures related to literacy and literacy learning. **Formerly:** CIL 702. **Notes:** Maximum of six credits accepted toward a degree.

CIL 601 - Foundations of Literacy Learning**Credits 3**

Surveys theories and historical trends leading up to present day literacy instruction. Incorporates application of current research to the methods and philosophies of teaching reading and writing. **Formerly:** CIL 701

CIL 604 - Literacy Instruction for Young Children**Credits 3**

Current trends, practices, materials, and methods utilized in grades K-3. Includes language development, reading and writing development, and application of current research. **Formerly:** CIL 604. **Notes:** May include field experience. **Prerequisites:** CIL 601 or consent of instructor.

CIL 607 - Comprehensive Reading Instruction**Credits 3**

Study of historical developments, theoretical underpinnings and practical applications of a comprehensive approach to literacy instruction. **Prerequisites:** CIL 601 or consent of instructor.

CIL 610 - Content Area Literacy**Credits 3**

Development of literacy processes and strategies in content areas. **Formerly:** CIL 710

CIL 616 - Teaching Writing**Credits 3**

Study of research-based practices and methods in teaching and assessing writing. Throughout the course students will explore the writing process through personal writing assignments. **Formerly:** CIL 716

CIL 617 - Southern Nevada Writing Project: Invitational Institute**Credits 6**

Participants in the SNWP Invitational Institute explore writing and the teaching of writing by engaging in the process themselves, demonstrating effective writing practices, planning school and community-based inquiry, and reading and responding to professional resources. **Formerly:** CIL 717. **Notes:** As an invitational institute, application and interview process required. **Prerequisites:** Application and interview.

CIL 621 - Assessment in Literacy**Credits 3**

Examines naturalistic assessment procedures in literacy based on a holistic philosophy. Students expected to field test selected assessment procedures. Strategies for improving instruction presented. K-12 perspective. **Formerly:** CIL 721. **Prerequisites:** CIL 601 or consent of instructor.

CIL 622 - Practicum Literacy Diagnosis and Instruction**Credits 3**

Practicum in the application of principles, materials, and instructional strategies for teaching students with literacy difficulties. **Formerly:** CIL 722. **Prerequisites:** CIL 621

CIL 629 - Reading Conference**Credits 3**

Annual conference to bring together teachers and experts in reading, the related language arts, and reading in the content area. Presentation of timely topics, new teaching techniques and technology-based media. **Notes:** May be repeated to a maximum of six credits. **Grading:** S/F grading only.

CIL 641 - Instruction English and Language Arts**Credits 3**

Study of research-based instructional practices in the teaching of English/language arts. **Formerly:** CIL 711. **Prerequisites:** CIL 701 or consent of instructor.

CIL 642 - Instruction English Education**Credits 3**

Designed to connect the study of curriculum theory and research related to the teaching of English with the practices of teacher in the secondary English classroom. Methods for reading, writing, speaking and listening skills addressed. **Formerly:** CIL 712

CIL 643 - Curriculum Development English Education

Credits 3

Emphasizes research and curriculum studies dealing with content and procedures in the English/language arts.

Formerly: CIL 713

CIL 661 - Literacy Development Bilingual Classroom

Credits 3

Current trends, practices, materials, and methods in literacy instruction in a bilingual (Spanish-English) classroom, including Spanish language development, reading and writing development, and application of research.

CIL 664 - Assessment Bilingual Classroom

Credits 3

Assessment of bilingual (Spanish-English) students; selection of appropriate bilingual (Spanish-English) assessment instruments, their administration, scoring, and interpretation. **Formerly:** CIL 764. **Prerequisites:** TESL 652

CIL 665 - Curriculum Development Bilingual Classroom

Credits 3

Principles of curriculum organization, development, adaptation, and implementation of a bilingual (Spanish-English) curriculum. **Formerly:** CIL 762. **Prerequisites:** TESL 652

CIL 671 - Materials Selection School Library

Credits 3

Study of research-based practices and methods of assessing and selecting school library material to meet curricular needs and reading interests and abilities of students. Methods of acquisition include design and implementation of collection development policies and survey of bibliographic tools used in the selection of K-12 materials. **Formerly:** CIL 731

CIL 672 - Reference Methods and Resources School Library

Credits 3

Study of research-based practices and methods of the school library's informational curricular support function including the role of the school library specialist as an information resource consultant, teacher and instructional partner. Examines selected print and electronic reference tools including dictionaries, encyclopedias, yearbooks, periodical indexes and subject area references. **Formerly:** CIL 732

CIL 673 - Technology Applications School Library

Credits 3

Examines the issues and methods for the application of library science-based technology in the school library.

Formerly: CIL 733

CIL 674 - Organization and Classification School Library

Credits 3

Introduction to the principles, practices and trends of organizing information in the school library including the classification, cataloging, and processing of materials for effective access and retrieval. **Formerly:** CIL 734.

Prerequisites: CIL 671 and CIL 672 or consent of instructor. **Corequisite:** Concurrent or prerequisite CIL 673.

CIL 675 - Administration School Library

Credits 3

Study of research-based principles and strategies for planning, organizing and administering school library programs and practices related to policy development, budgets, personnel, public relations, facilities planning, and systematic program planning and evaluation. **Formerly:** CIL 735. **Prerequisites:** CIL 674

CIL 676 - Supervised Practicum School Library

Credits 3

Supervised library practicum under the direction of professional librarians in school settings. **Formerly:** CIL 736.

Prerequisites: CIL 674. **Corequisite:** Concurrent or prerequisite CIL 675.

CIL 680 - Contemporary Literature Children and Young Adults

Credits 3

Designed for teachers and librarians. Evaluation, selection, and use of recent literature for children and young adults.

Formerly: CIL 740. **Notes:** May be repeated after a six-year period.

CIL 684 - Multicultural Literature

Credits 3

Study and critical evaluation of multicultural and multiethnic literature and media for children and young adults.

Formerly: CIL 741

CIL 687 - Literature-Based Instruction

Credits 3

Study and application of principles and techniques of teaching reading and language arts with children's literature (trade books) as primary content. **Formerly:** CIL 742. **Prerequisites:** CIL 680, CIL 681 or CIL 682

CIL 688 - Historical Development of Literature

Credits 3

Survey of the development of literature for children; investigation of social and cultural factors affecting children's reading and the publication of children's books during different periods of United States history; critical analysis of the literary value of children's books. **Formerly:** CIL 743. **Prerequisites:** CIL 680, CIL 681, or CIL 682 or consent of instructor.

CIL 691 - Organization and Supervision Literacy Programs

Credits 3

For individual serving in or preparing for leadership roles in literacy. Emphasis on the effects of education reform; evaluation of model programs; design, implementation and evaluation of district-wide programs; development of guidelines for staff development. **Formerly:** CIL 726. **Prerequisites:** Fifteen hours graduate coursework in literacy or consent of instructor.

CIL 693 - Literacy for a Diverse Society

Credits 3

Advanced course work focuses on literacy issues for students, including diverse learners from various cultures, socioeconomic backgrounds, and language groups. **Formerly:** CIL 728. **Prerequisites:** Fifteen hours graduate coursework in literacy or consent of instructor.

CIL 699 - Literacy Research Seminar

Credits 3

Examination of seminal and current literacy education research through readings, writings, discussions, and presentations. **Formerly:** CIG 717. **Prerequisites:** Fifteen hours of graduate coursework or consent of instructor.

CIL 747 - Literary Theories and Children's Literature

Credits 3

Explores various theoretical positions within the framework of literary theory and how these positions have influenced reading and literature instruction. Participants will come to understand a range of perspectives within literary theory and be able to relate these theories to reading comprehension and literacy development.

Prerequisites: CIL 740 or CIL 741

CIL 770 - Advanced Practicum in Diagnosis and Instruction of Literacy Difficulties

Credits 3

Advanced practicum in the application of principles, materials, and instructional strategies for teaching students with literacy difficulties. **Notes:** Maximum of six credits accepted toward a degree. **Prerequisites:** Doctoral status or consent of instructor.

CIL 772 - Cognitive Foundations of Literacy

Credits 3

Examines theories and research on cognition related to literacy learning and programs of literacy instruction for adults and children. Required of doctoral students in the literacy emphasis sequence. **Prerequisites:** Doctoral status.

CIL 774 - Historical Foundations of Literacy Research and Instruction**Credits 3**

Examines the historical foundations of literacy research and instruction. Overview of significance of research and theories within literacy and the implications for instruction today. **Prerequisites:** Doctoral status.

CIL 776 - Social and Political Issues in Literacy**Credits 3**

Examines the social and political implications of literacy access and development by investigating the role of literacy in culture, government, economics, technology and its future in society. **Prerequisites:** CIL 772 and CIL 774 or consent of instructor. Doctoral status.

CIL 782 - Theory and Research in the English/Language Arts**Credits 3**

Critical interpretation and evaluation of research and theoretical writing in English/language arts. **Notes:** Maximum of six credits accepted toward a degree. **Prerequisites:** EPY 702 and EPY 721 or consent of instructor. Doctoral status.

CIL 784 - Theory and Research in Literacy**Credits 3**

Critical review of major studies in literacy with the student identifying an area or areas which warrant investigation; planning a possible implementation of research proposal. **Notes:** Maximum of six credits accepted toward a degree. **Prerequisites:** Six hours of educational research from EPY 718, EPY 721, or EPY 722. Doctoral status.

CIS 513A - Teaching Secondary Art**Credits 3**

Provides an overview of methods and materials to include instructional strategies, curriculum standards, and classroom management techniques for teaching secondary school art. Students must have completed or be currently enrolled in courses to complete three-fourths of the content coursework in art. **Corequisite:** CIS 602, CIS 603

CIS 533 - Teaching Secondary English**Credits 3**

This course is designed for preservice teachers planning to teach high school English. Course topics include methods, materials, teaching techniques, and strategies unique to the English classroom, as well as curriculum design, lesson planning, assessment, and current issues in the teaching of English. **Notes:** Credit at the 500 level normally requires additional work. **Corequisite:** CIS 702

CIS 543 - Teaching Secondary Foreign/Second Language**Credits 3**

Provides an overview of theories, methods, materials to include instructional strategies, curriculum standards, and classroom management techniques for teaching Languages Other Than English (LOTE) at the secondary school level. Students must have completed or be currently enrolled in courses to complete three-fourths of the content coursework in LOTE. **Prerequisites:** 20-24 semester credit hours of LOTE. **Corequisite:** CIS 602, CIS 603

CIS 553M - Teaching Middle School Mathematics**Credits 3**

Explore mathematics and its relation to education in grades 6 through 9. The focus is to develop skills in planning and teaching mathematics. Lessons incorporate use of technology, cooperative learning, and manipulatives while providing an environment to construct knowledge about arithmetic, algebra, geometry, probability, and statistics. Evaluation using formative and summative strategies. **Same as:** EDMS 453. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** PPST. **Corequisite:** Concurrent enrollment in a practicum.

CIS 553S - Teaching Secondary Mathematics**Credits 3**

The focus is on developing skills in planning and teaching mathematics for grades 9–12 that are consistent with Mathematics Standards. Students explore instructional strategies to develop understanding of concepts in the topic

areas of arithmetic, algebra, geometry, trigonometry, calculus, probability, and statistics. Evaluation procedures use formative and summative strategies. **Same as:** EDSC 453. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** PPST. **Corequisite:** Concurrent enrollment in a practicum.

CIS 563 - Teaching Secondary Science

Credits 3

This course is designed for candidates intending to teach high school science. Course topics include: assessing knowledge before instruction, designing curriculum, planning lessons, promoting inquiry-oriented teaching, teaching about evolution and nature of science, scientific literacy, laboratory safety, national and state standards, using technology, and assessing student learning. **Same as:** EDSC 46. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** PPST. **Corequisite:** Enrollment in a practicum and CIS 702.

CIS 601 - Secondary Teacher Development Seminar

Credits 3

Designed for students entering the Secondary Graduate Licensure program. Examines contemporary trends for developing classroom expertise with observations in a middle or high school setting. Focuses on theory and practice in fostering personal and professional development for inservice teachers. **Formerly:** CIS 701. **Same as:** CIE 601. **Prerequisites:** Graduate standing. **Corequisite:** Admission to Graduate Licensure Program.

CIS 602 - Secondary School Practicum

Credits 3

Designed for Secondary Graduate Licensure students. Exposure to contemporary urban educational settings and basic management and planning strategies through structured experiences in a middle or high school settings, supplemented with campus-based instruction. **Formerly:** CIS 702. **Prerequisites:** PPST and CIS 601. **Corequisite:** CIS 603 and subject area methods.

CIS 603 - Secondary Process and Instruction

Credits 3

Designed to examine effective teaching practices and theories. Students examine research literature in classroom organization and management, instructional planning, classroom contexts and conditions. Provides analyses of the secondary classroom processes, school context, and the community at large. **Formerly:** CIS 703. **Prerequisites:** PPST and CIS 601. **Corequisite:** CIS 602 and subject area methods.

CIS 604 - Secondary Classroom Management

Credits 3

Students engage in the examination of theories, models and application of classroom management to develop a personal philosophy and effective practices of managing contemporary middle and high school classrooms. **Formerly:** CIS 711. **Prerequisites:** Graduate standing

CIS 610 - Middle School History, Theory, and Philosophy

Credits 3

Study of history, theory, and philosophy of middle school learning environments. Emphasis on application of theory and philosophy to contemporary middle school contexts. **Formerly:** CIS 716

CIS 611 - Instructional Trends for the Middle School Level

Credits 3

Study of application of knowledge about instructional strategies, adolescent development, and models of teaching to the middle school context. Students design lessons appropriate for middle-level learners and examine literature on interdisciplinary teaching and middle-level learners. **Formerly:** CIS 717. **Prerequisites:** CIS 710

CIS 612 - Curriculum Development Middle School Education

Credits 3

Studies application of curriculum development theory to middle school context. Emphasis on middle-level teacher's role in curriculum development. Students examine and develop interdisciplinary teaching units. **Formerly:** CIS 718. **Prerequisites:** CIE 685 or CIS 684 or CIS 686

CIS 613 - Contemporary Middle School Research
Credits 3

Assessment of research practices and trends in middle schools. Emphasis on application of research findings to school classroom. Proposals for action research projects in middle school learning environment required. **Formerly:** CIS 719. **Prerequisites:** Three hours course work in research; six hours in middle school education.

CIS 617 - Topics Secondary Education
Credits 1 – 3

Examines specific topics and issues related to content in secondary subjects. **Formerly:** CIS 707. **Notes:** Maximum of six credits accepted toward a degree. **Prerequisites:** Current teaching certificate or consent of instructor.

CIS 618 - Instructional Methods Secondary School
Credits 3

Study of research-based practice and methods related to curricular content in specific secondary subjects. **Formerly:** CIS 708. **Prerequisites:** Current teaching certificate or consent of instructor.

CIS 620 - Topics Secondary School Mathematics
Credits 1 - 3

Examines specific topics and issues related to content and pedagogy in secondary mathematics education. **Same as:** CIE 620. **Notes:** Maximum of six credits accepted toward a degree. **Prerequisites:** Secondary mathematics undergraduate methods course and current teaching certificate.

CIS 622 - Instructional Middle School Mathematics Education
Credits 3

Study of research-based practice and methods in middle school mathematics education. **Prerequisites:** EDEL 433 or EDMS 453 or EDSC 453 or consent of instructor.

CIS 624 - Instruction Secondary Mathematics Education
Credits 3

Study of research-based practice and methods in secondary school mathematics education. **Formerly:** CIS 724. **Prerequisites:** EDMS 453 or EDSC 453 or consent of instructor.

CIS 628 - Technology Application in Secondary Mathematics Education
Credits 3

Study and development of research-based practices and methods of using computer-based technology to teach mathematics in secondary schools. **Formerly:** CIS 728. **Prerequisites:** CIS 622 or CIS 624 or consent of instructor.

CIS 629 - Curriculum Development Secondary Mathematics Education
Credits 3

Examines research and curriculum studies related to content and procedures within secondary school mathematics programs. **Same as:** CIE 629. **Prerequisites:** CIS 622 or CIS 624 or consent of instructor.

CIS 630 - Topics Secondary School Science
Credits 1 - 3

Examines specific topics and issues related to content and pedagogy in secondary science education. **Same as:** CIE 630. **Notes:** Maximum of six credits accepted toward a degree. **Prerequisites:** Current teaching certificate or consent of instructor.

CIS 632 - Instruction Middle School Science Education
Credits 3

This course is designed for teachers of middle school science. Course topics include: assessing knowledge before instruction, designing curriculum, planning lessons, promoting inquiry-oriented teaching, teaching about evolution and nature of science, scientific literacy, laboratory safety, national and state standards, using technology, and assessing student learning. **Prerequisites:** EDSC 463 or consent of instructor.

CIS 634 - Instruction Secondary Science Education

Credits 3

Study off research-based practice and methods in secondary school science education. **Prerequisites:** EDSC 463 or EDSC 563 and current teaching certificate or consent of instructor.

CIS 638 - Technology Applications in Secondary Science Education**Credits 3**

Study and development of research-based practices and methods of using computer-based technology to teach science in secondary schools. **Formerly:** CIS 738. **Prerequisites:** CIS 632 or CIS 634 or consent of instructor.

CIS 639 - Curriculum Development Secondary Science Education**Credits 3**

Examines research and curriculum studies related to content and procedures within secondary school science programs. **Same as:** CIE 639. **Prerequisites:** CIS 632 or CIS 634 or consent of instructor.

CIS 640 - Topics Secondary Social Studies Education**Credits 1 - 3**

Examines specific topics and issues related to content and pedagogy in secondary social studies education. **Same as:** CIE 640. **Notes:** Maximum of six credits accepted toward a degree. **Prerequisites:** Current teaching certificate or consent of instructor.

CIS 644 - Instruction Secondary Social Studies Education**Credits 3**

Study of research-based practice and methods in secondary school social studies education. **Prerequisites:** EDSC 473 or EDSC 573 and current teaching certificate consent of instructor.

CIS 649 - Curriculum Development Secondary Social Studies Education**Credits 3**

Examines research and curriculum studies related to content and procedures within secondary school social studies programs. **Same as:** CIE 649. **Prerequisites:** CIS 644 or consent of instructor.

CIS 682 - Secondary School Instruction**Credits 3**

Examines effective teaching practices derived from classroom-based research. Includes instructional planning, instructional strategies, motivational techniques, teaching models, and the teacher-as-researcher. **Formerly:** CIS 704. **Prerequisites:** EDSC 481 or consent of instructor.

CIS 684 - Secondary Education Curriculum**Credits 3**

Examines the major input variables to curriculum decision-making at the secondary level. Emphasis on the levels of curriculum decision-making, decision implementations, and curriculum evaluation. **Formerly:** CIS 705. **Prerequisites:** EDSC 481 or consent of instructor.

CIS 686 - Curriculum Development Secondary Education**Credits 3**

Introduces problem of conducting systematic inquiry in the curriculum field related to a subject area discipline, including generation of practical programs, curriculum research and theory, innovative proposals, and critical analysis. Current status of field, literature sources, and work of leading scholars. **Prerequisites:** CIS 618 or CIS 684

CIT 600 - Topics in Educational Technology:**Credits 1 - 6**

Specialized course that explores current educational technology topics.

CIT 601 - Technology Applications Elementary Curriculum**Credits 3**

Study of issues and applications of digital technologies in elementary schools. Students will explore appropriate uses of technology and gain hands-on experience in developing instructional activities using technology applications.
Formerly: CIT 701. **Same as:** CIT 602

CIT 602 - Technology Applications Secondary Curriculum

Credits 3

Study of issues and applications of digital technologies in secondary schools. Students will explore appropriate uses of technology and gain hands-on experience in developing instructional activities using technology applications.
Formerly: CIT 702. **Same as:** CIT 601

CIT 604 - Nevada Technology Leadership Conference

Credits 1

Annual conference to bring together educators interested in enhancing teaching and learning with computer-based technology. Presentations of timely topics, new techniques and strategies, and the latest hardware and software applications. **Formerly:** CIT 704. **Notes:** Maximum of three credits accepted toward a degree. **Prerequisites:** Course work or experience in computing.

CIT 607 - Technology as Educational Mindtools

Credits 3

Examines current technologies as examples of mindtools, research-based devices used to help students think and learn. Explores mindtools as a cognitive model and uses technology as a mindtool while providing students with the requisite skills to implement these tools in a classroom setting. **Formerly:** CIT 707

CIT 608 - Integrating Technology in Teaching and Learning

Credits 3

Study of research-based practices and methods of integrating technology to promote thinking and learning. Students actively explore contemporary technologies and environments for the production and consumption of information. **Formerly:** CIT 720 and CIT 620. **Prerequisites:** Coursework in educational technology or consent of instructor.

CIT 609 - Internet for Learning

Credits 3

Examines the potential of the Internet to impact education and learning. Explores a wide range of online resources and how they can be integrated into instruction. **Formerly:** CIT 709

CIT 611 - Digital Publishing for Educators

Credits 3

Hands-on tutorials and design assignments for using page layout and graphics software to create well designed, effective publications for professional and instructional purposes. Topics include: design principles, layout techniques, graphics and type manipulation, importing media, and desktop publishing projects for the classroom. **Formerly:** CIT 711. **Prerequisites:** Coursework in educational technology or consent of instructor.

CIT 622 - Microcomputer Technology for Educators

Credits 3

In-depth look at how personal computers work. Microprocessors, printed circuit boards, bus structures, storage devices, and display options examined from the perspective of how they impact educational applications, purchasing decisions, and planning. **Formerly:** CIT 722. **Prerequisites:** Coursework in educational technology or consent of instructor.

CIT 643 - Designing Digital Materials for Education

Credits 3

Examines instructional design principles and applies them to the design of instructional software. Explores various theories of learning as they apply to courseware. **Formerly:** CIT 743. **Prerequisites:** CIT 608 or consent of instructor.

CIT 647 - Creating Online Learning Environments

Credits 3

Educational Web site development using contemporary tools and contexts. Emphasis on web-based programming and user interface design. **Formerly:** CIT 747. **Prerequisites:** CIT 609 or consent of instructor.

CIT 648 - Issues and Methods in Online Learning

Credits 3

Addresses the theory and practice for online teaching and learning. Participants explore a range of resources and extend skills in creating and implementing digital learning activities. Emphasis is on pedagogical issues and trends in virtual schooling and distance education. **Formerly:** CIT 768, CIT 668. **Prerequisites:** CIT 609 or consent of instructor.

CIT 649 - Instructional Methods Computer Applications

Credits 3

Study of research-based practices and methods for teaching computer applications. Emphasis on developing project-based instructional activities for teaching digital technologies in the elementary/secondary classroom or professional development settings. **Formerly:** CIT 749. **Prerequisites:** Coursework in educational technology or consent of instructor.

CIT 651 - Instructional Methods Computer Science

Credits 3

Study of research-based practices and methods in the teaching of computer science topics including algorithmic processes and their principles, object orientation and programming, elements of software design and usability, data abstraction and logic structures, and interface design. Emphasis is on project-based learning (PBL) strategies in a web-based development environment. **Formerly:** CIT 751. **Prerequisites:** Consent of instructor.

CIT 653 - Creating Digital Materials for Education

Credits 3

Focus on current application programming interfaces for developing digital educational materials. **Formerly:** CIT 753. **Prerequisites:** CIT 643 or consent of instructor.

CIT 667 - Technology and Educational Change

Credits 3

Examines issues and trends pertaining to the implementation of technology-based innovations. Includes a review of research on past and current change efforts. Topics covered include professional development, assessment, strategies for technology coordinators, grant writing, and long-range planning for effective change. **Formerly:** CIT 767.

Prerequisites: CIT 608 or consent of instructor.

CIT 669 - Advanced Web Design and Development for Educators

Credits 3

Advanced educational web site development with emphasis on web-based programming and user interface design. Development environments such as JavaScript, Perl/ CGI, and brief introduction to Java explored. **Formerly:** CIT 769. **Prerequisites:** CIT 647 or consent of instructor.

CIT 673 - Digital Materials Studio

Credits 3

Project-based course emphasizing problem definition in, instructional design, and product development. Students work individually and collaboratively on a set of relevant technical and pedagogical competencies. **Formerly:** CIT 763. **Prerequisites:** CIT 643 or consent of instructor.

CIT 676 - Management of Educational Technology Facilities and Resources

Credits 3

Advanced course focusing on problems and issues in procurement and management of educational computing applications, desktop workstations, computer laboratories, local and wide area networks, and support services. Consideration given to hardware and software interoperability; security for hardware, software and information; legal issues; health and safety factors; budgeting. **Formerly:** CIT 766. **Prerequisites:** CIT 622

CIT 700 - Advanced Topics in Educational Technology

Credits 1 – 6

Specialized course that explores current educational technology topics and issues.

CIT 770 - Advanced Seminar in Educational Technology Research**Credits 3**

Emphasis is on critical review and analysis of educational technology research from multiple theoretical and methodological perspectives. **Prerequisites:** Doctoral status or consent of instructor.

CIT 772 - Technology in Teacher Education**Credits 3**

Examines issues and research on preparing teachers to enhance learning with technology. Topics include ISTE's National Educational Technology Standards (NETS) for Students and Teachers, technology integration in methods courses and field experiences, electronic portfolio assessment, one-to-one laptop projects, and online learning in teacher preparation and professional development. **Prerequisites:** Doctoral status or consent of instructor.

CIT 778 - Instructional Design**Credits 3**

Trends, issues, and research findings on effective instructional planning, presentation, and evaluation.

Prerequisites: Doctoral status or consent of instructor.

CIT 780 - Multimedia Learning Studio**Credits 3**

Examines the latest research regarding multimedia learning. Research supported principles will be applied in the development of multimedia instructional materials. This course can be taken up to 3 times for a total of 9 credit hours. **Prerequisites:** CIT 778 or consent of Instructor.

CIT 782 - Distance Education Issues and Trends**Credits 3**

Study of issues, and trends in Distance Education. Examines distance education history, research, practice, and program/course development. **Prerequisites:** Doctoral status or consent of instructor.

ESP 723 - Learning Strategies Instruction**Credits 3**

Theoretical and practical aspects of implementing a learning strategy curriculum within elementary and secondary school environments. Class participants analyze, synthesize, and modify instructional strategies to meet the needs of students with disabilities. **Prerequisites:** ESP 701

Howard R. Hughes College of Engineering

Welcome to the Howard R. Hughes College of Engineering! We are confident that you will find UNLV, as well as our College of Engineering, an exciting place to pursue your graduate studies and mature as a researcher. The College of Engineering has played a significant role in helping UNLV develop into a leading research institution in the region. We have created a research and educational environment where our students thrive and grow, resulting in a dynamic community of scholars, encompassing our faculty as well as graduate and undergraduate students.

Graduate students in the College of Engineering study a variety of disciplines: we offer degrees in aerospace, biomedical, civil and environmental, electrical and computer, science, materials, mechanical, and nuclear engineering as well as construction management and computer science. Students have first-class research facilities available to them while studying under the supervision of our faculty, many of whom have won national and international recognition. Our graduate students are involved in all aspects of the research projects our faculty pursue. Some of our current research areas include air and water quality, cybersecurity, nano materials and devices, transportation, renewable energy, sensors and systems for space and national security applications.

Our graduates work in many leading companies, both in the USA and internationally. Some of these students serve in the national laboratories, while others are leading research efforts in some of the best organizations.

As the boundaries of science and engineering continue to expand, UNLV's College of Engineering is committed to offering a variety of competitive programs to our students. We are confident that you will find our graduate programs both challenging and rewarding. We hope that you will join us at UNLV.

Rama Venkat, Ph.D., Interim Dean, Howard R. Hughes College of Engineering

Mohamed Trabia, Ph.D., Associate Dean for Research

Civil and Environmental Engineering

Well-equipped facilities developed by the department faculty include a Computer Assisted Design Laboratory, an Engineering Geophysics Laboratory and Test Site, an Environmental Engineering Laboratory, A Soil and Rock Mechanics Laboratory, the Nevada Universities Transportation Center, and a Water Resources Laboratory. These facilities provide state-of-the-art research tools. Among these are a MTS dynamic testing machine, a triaxial testing apparatus, a large-scale structural load frame, a 50-foot tilting flume, concrete testing facilities, a portable wind tunnel, a broad geophysical test equipment base anchored by a 7,000-lb (3 metric ton) programmable seismic source with 144-channel recording system, PCs, workstations, and current software programs are available within these facilities, with additional facilities being available in the college. Additional assets include access to high speed multiprocessor computers housed in the National Supercomputing Center for Energy and the Environment. Facilities are located in the Thomas Beam Engineering Complex. Additional research facilities nearby include one of twelve national EPA laboratories (located on campus) and the Department of Energy's Nevada Test Site, which has been designated an Environmental Research Park.

Students with backgrounds in civil engineering as well as related disciplines are invited to apply. Students with science backgrounds desiring admission to the graduate program will be required to complete course work, prerequisite or otherwise, that will assure successful completion of the graduate program. Specific course work requirements will depend on the area of specialization desired by the applicant.

Civil Engineering applicants must identify a specialization from one of the following areas: construction, environmental, geotechnical, structural, systems, transportation or water resources. Applications for admission to the program are evaluated by faculty representing each of the respective areas of specialization.

Applications from international students must reach the Graduate College by the dates specified in the catalog in order to be considered for financial aid. Offers of financial aid are made in writing by the department, which assumes no responsibility to provide financial support unless an offer is made in writing. Also, when the department has made an offer to provide financial support, it has no obligation to honor the offer unless the student attends UNLV and enrolls in the Civil and Environmental Engineering and Construction graduate program during the initial semester for which financial aid was offered.

Applicants should notice that some documents must be mailed to the Graduate College while others must be mailed to the Department of Civil and Environmental Engineering and Construction, as outlined below. It is imperative that the documentation is sent to the appropriate location to aid fast processing of the application.

The deadlines for application to the Civil and Environmental Engineering and Construction Department as well as the Graduate College:

Spring Semester August 30 for international students and November 15 for domestic students

Fall Semester March 15 for international students and June 15 for domestic students

Donald Hayes, Ph.D., Chair
Aly Said, Graduate Coordinator

Chair

Hayes, Donald

Professor; B.S.C.E., M.S.C.E., Mississippi State University; Ph.D., Colorado State University; PE Louisiana and Mississippi. *Rebel since 2011.*

Graduate Coordinator

Karakouzian, Moses - Full Graduate Faculty

Professor; B.C.E., American University of Beirut; M.S., M.B.A., Ph.D., Ohio State University; P.E., Nevada. *Rebel since 1988.*

Graduate Faculty

Ahmad, Sajjad - Full Graduate Faculty

Assistant Professor; B.S., University of Engineering and Technology, Lahore, Pakistan; M.E., Asian Institute of Technology, Bangkok, Thailand; Ph.D., University of Western Ontario, London, Ontario, Canada. *Rebel since 2006.*

Ashley, David - Full Graduate Faculty

Professor; B.S., M.S., MIT; M.S., Ph.D., Stanford. *Rebel since 2006.*

Batista, Jacimaria Ramos - Full Graduate Faculty

Professor; B.S., Federal University of Ouro Preto; M.S., Montana College of Mineral Science and Technology; Ph.D., Pennsylvania State University. *Rebel since 1997.*

Ghafoori, Nader - Full Graduate Faculty

Professor; B.S.C.E., Texas Tech University; M.S.C.E., Ph.D., University of Miami. *Rebel since 2003.*

Gerrity, Daniel - Full Graduate Faculty

Assistant Professor; B.S., M.S., Ph.D., Arizona State University. *Rebel since 2012.*

James, David E. - Full Graduate Faculty

Associate Professor; A.B., University of California, Davis; M.S., Ph.D., California Institute of Technology. *Rebel since 1990.*

Kaseko, Mohamed S. - Full Graduate Faculty

Associate Professor; B.S., University of Dares-Salaam; M.S., Cornell University; Ph.D., University of California, Irvine. *Rebel since 1993.*

Ladkany, Samaan - Full Graduate Faculty

Professor; B.S., American University of Beirut; B.S., M.S., Ph.D., University of Wisconsin, Madison. *Rebel since 1984.*

Luke, Barbara - Full Graduate Faculty

Professor; A.A., University of Florida; B.S., Ph.D., University of Texas at Austin; M.S., University of California, Berkeley. *Rebel since 1995.*

Neumann, Edward S. - Full Graduate Faculty

Professor; B.S.C.E., Michigan Technological University; M.S., Ph.D., Northwestern University. *Rebel since 1991.*

Opfer, Neil - Full Graduate Faculty

Associate Professor; B.S., B.A., B.A., Washington State University; M.B.A., Purdue University; P.D., University of Wisconsin. *Rebel since 1989.*

Paz, Alexander - Full Graduate Faculty

Assistant Professor; B.S., University of Cauca, Colombia; M.S., University of Puerto Rico, Mayaguez Campus, PR; Ph.D., Purdue University. *Rebel since 2008.*

Piechota, Thomas - *Full Graduate Faculty*

Associate Professor; B.S., Northern Arizona University; M.S., Ph.D., University of California, Los Angeles. *Rebel since 1999.*

Said, Aly - *Full Graduate Faculty*

Assistant Professor; B.S., Ain Shams University, Cairo, Egypt; MScA, Universite de Moncton, Moncton, New Brunswick, Canada; MEng, McMaster University, Hamilton, Ontario, Canada, Ph.D., University of Western Ontario, London, Ontario, Canada. *Rebel since 2006.*

Shields, David - *Full Graduate Faculty*

Associate Professor; B.S., M.S., Texas A & M University; Ph.D., University of Texas at Austin, P.E. (Arizona). *Rebel since 2003.*

Shrestha, Pramen P. - *Full Graduate Faculty*

Assistant Professor; B.S., National Institute of Technology, India; M.S., Oklahoma State University; Ph.D., University of Texas at Austin; P.E. (Texas). *Rebel since 2007.*

Teng, Hualiang - *Full Graduate Faculty*

Assistant Professor; B.S., M.S., Northern Jiaotong University; M.S.C.E., West Virginia University; Ph.D., Purdue University. *Rebel since 2004.*

Tian, Ying - *Full Graduate Faculty*

Assistant Professor; B.S., Hebei Polytechnic University; M.S., Tsinghua University; M.S., Ohio State University; Ph.D., University of Texas at Austin. *Rebel since 2007.*

Civil and Environmental Engineering and Construction Plans

Master of Science in Engineering - Civil and Environmental Engineering

The Department of Civil and Environmental Engineering & Construction at UNLV offers a number of program degree options leading to the Master of Science in Engineering (M.S.E.) - Civil and Environmental Engineering. Specific areas of engineering that are currently available include Construction, Environmental, Geotechnical, Structural, Transportation, and Water Resources.

Learning Outcomes

www.unlv.edu/degree/ms-civil-engineering

Plan Admission Requirements

In addition to the general requirements for admission to the Graduate College, an applicant for the M.S.E. program must:

Have a bachelor's degree in engineering or a closely related discipline. Applicants desiring to specialize in environmental engineering who have baccalaureate degrees in the natural sciences may require at least an additional semester of full-time study to complete engineering prerequisite undergraduate course work; this may include fluid mechanics, calculus through differential equations, engineering physics, chemistry and engineering economics. Successful environmental engineering applicants are expected to complete a set of graduate courses in engineering hydrology, hydraulics, statistics, water and wastewater treatment, and wastewater treatment plant design during their graduate study.

Submit a one page Statement of Objectives indicating the area of civil engineering in which they wish to pursue graduate work and the reason they wish to earn a master's degree.

All applicants are required to take the verbal, quantitative, and analytical writing portions of the GRE General Test and submit the scores to the Civil and Environmental Engineering department. Successful applicants generally have a combined verbal and quantitative GRE score of at least 300 on the new test (1000 on all GRE exams taken before August 2011) and GRE analytical writing score of at least 3.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Thesis Track

Total Credits Required: 30

Course Requirements

- Required Course ,ÿ Credits: 3
 - CEE 700 - Research Methods in Civil and Environmental Engineering
- Elective Courses ,ÿ Credits: 21
 - Complete 21 credits of advisor-approved elective coursework.
- Thesis ,ÿ Credits: 6

- CEE 797 - Thesis in Civil Engineering

Degree Requirements

- Satisfactory completion of CEE 700 during the first year and 21 credits of approved graduate courses plus six credits of work associated with the master,Äs level thesis, for a total of 30 credits. The final examination will include a defense of thesis.
- At least 15 credits must be 700-level, of which at least 12 credits must be offered by the College of Engineering.
- The program of study for each student must be approved by the student,Äs advisory committee.
- Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00), no grades below C and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. Additionally, no more than nine credits below B are allowed in the student,Äs graduate program. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise it to 3.00 or above.
- The student,Äs Advising Committee should be composed of at least four members of the UNLV Graduate Faculty of which at least two must be tenured or tenure-track members of the Department of Civil and Environmental Engineering, the third from the Department of Civil and Environmental Engineering or a related field, and the fourth must be appointed by the Graduate College.
- Each student,Äs program should show suitable breadth and coherence, as specified in the Graduate Catalog. Prior to filing, the program must receive approval by the student,Äs committee. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Non-Thesis Track

Total Credits Required: 33

Course Requirements

- Required Courses ,Ä Credits: 33
- Complete 33 credits of advisor-approved graduate coursework.

Degree Requirements

- Satisfactory completion of 33 credits of graduate courses approved by the student,Äs advisory committee, of which at least 50 percent must be 700-level offered by the College of Engineering.
- The program of study for each student must be approved by the student,Äs advisory committee.

- Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00), no grades below C and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. Additionally, no more than nine credits below B are allowed in the student's graduate program. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise it to 3.00 or above.
- The student's Advising Committee should be composed of at least four members of the UNLV Graduate Faculty of which at least two must be tenured or tenure-track members of the Department of Civil and Environmental Engineering, the third from the Department of Civil and Environmental Engineering or a related field, and the fourth must be appointed by the Graduate College.
- Each student's program should show suitable breadth and coherence, as specified in the Graduate Catalog. Prior to filing, the program must receive approval by the student's committee. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

Subplan 3 Requirements: Geographic Information Systems Thesis Track

Total Credits Required: 30

Course Requirements

- Required Courses ,À Credits: 9
 - CEE 668 - GIS Applications in Civil Engineering
 - CS 733 - Geographic Data Base Systems
 - STA 751 - Spatial Statistics
- Applied Concepts Course ,À Credits: 4
 - Complete one of the following courses:
 - CEE 768 - Applied Geographic Information Systems
 - EGG 768 - Applied Geographic Information Systems
- Statistics Course ,À Credits: 3
 - Complete one of the following courses:
 - STA 667 - Introduction to Mathematical Statistics
 - STA 691 - Statistics for Scientists I
- Research Course ,À Credits: 3
 - CEE 700 - Research Methods in Civil and Environmental Engineering
- Elective Courses ,À Credits: 5
 - Complete 5 credits of advisor-approved elective coursework.
- Thesis ,À Credits: 6
 - CEE 797 - Thesis in Civil Engineering

Degree Requirements

- The Geographic Information Systems Thesis track requires the satisfactory completion of CEE 700 during the first year, 17 credits of required coursework, 4 credits of approved graduate courses and six credits of

work associated with the master,Ãs level thesis, for a total of 30 credits. The final examination will include a defense of thesis.

- At least 15 credits must be 700-level, of which at least 12 credits must be offered by the College of Engineering.
- The program of study for each student must be approved by the student,Ãs advisory committee.
- Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00), no grades below C and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. Additionally, no more than nine credits below B are allowed in the student,Ãs graduate program. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise it to 3.00 or above.
- The student,Ãs Advising Committee should be composed of at least four members of the UNLV Graduate Faculty of which at least two must be tenured or tenure-track members of the Department of Civil and Environmental Engineering, the third from the Department of Civil and Environmental Engineering or a related field, and the fourth must be appointed by the Graduate College.
- Each student,Ãs program should show suitable breadth and coherence, as specified in the Graduate Catalog. Prior to filing, the program must receive approval by the student,Ãs committee. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 4 Requirements: Geographic Information Systems Non-Thesis Track

Total Credits Required: 33

Course Requirements

- Required Courses ,Ã Credits: 9
 - o CEE 668 - GIS Applications in Civil Engineering
 - o CS 733 - Geographic Data Base Systems
 - o STA 751 - Spatial Statistics
- Applied Concepts Course ,Ã Credits: 4
 - o Complete one of the following courses:
 - CEE 768 - Applied Geographic Information Systems
 - EGG 768 - Applied Geographic Information Systems
- Statistics Course ,Ã Credits: 3
 - o Complete one of the following courses:
 - STA 667 - Introduction to Mathematical Statistics
 - STA 691 - Statistics for Scientists I
- Elective Courses ,Ã Credits: 17
 - o Complete 17 credits of advisor-approved elective coursework.

Degree Requirements

- The Geographic Information Systems Non-Thesis track requires satisfactory completion of 17 credits of required coursework and 16 credits of graduate courses approved by the student, the advisory committee, of which at least 50 percent must be 700 level offered by the College of Engineering.
- The program of study for each student must be approved by the student, the advisory committee.
- Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00), no grades below C and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. Additionally, no more than nine credits below B are allowed in the student, the graduate program. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise it to 3.00 or above.
- The student, the Advising Committee should be composed of at least four members of the UNLV Graduate Faculty of which at least two must be tenured or tenure-track members of the Department of Civil and Environmental Engineering, the third from the Department of Civil and Environmental Engineering or a related field, and the fourth must be appointed by the Graduate College.
- Each student, the program should show suitable breadth and coherence, as specified in the Graduate Catalog. Prior to filing, the program must receive approval by the student, the committee. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Thesis Track
- Subplan 2: Non-Thesis Track
- Subplan 3: Geographic Information Systems Thesis Track
- Subplan 4: Geographic Information Systems Non-Thesis Track

Master of Science - Construction Management

The Master of Science degree in Construction Management provides graduate-level study for those seeking mid- and upper-level management positions in the construction industry or continued study for the doctorate. Students with degrees in construction management, engineering, science, architecture and business, as well as related disciplines are invited to apply. Applications for admission to the program are evaluated on an individual basis by the program, the faculty.

Learning Outcomes

www.unlv.edu/degree/mscm

Plan Admission Requirements

Applicants are considered on an individual basis. Candidates can be admitted on a regular or provisional status. Qualified applicants who are not admitted on either status can take graduate courses as a non-degree student. A maximum of 15 credits taken as a UNLV non-degree graduate student may be applied toward the M.S.C.M. degree.

To be considered for admission:

Applicants must have an earned baccalaureate degree from a regionally accredited four-year college or university with preferred study in construction, engineering, architecture, business, or closely related area.

Overall undergraduate GPA should be at least 2.75 (4.00=A) for the bachelor's degree or at least 3.00 (4.00=A) for the last two years of undergraduate work.

Credit (in semester hours) must have been earned in the following subjects or their equivalents:

- MATH 181 ,Ài Calculus I
- PHYS 151/151L ,Ài General Physics I
- CEM 250/250L ,Ài Construction Materials & Methods
- CEM 270 ,Ài Construction Engineering Mechanics
- A course in construction or engineering graphics

The leveling courses required of a student before entering the M.S. program will be determined on an individual basis. The student will be notified in writing of any deficiencies prior to admission to the program. Students with deficiencies exceeding two courses may need to satisfactorily complete them before admission to the graduate program.

The applicant must obtain a satisfactory score on the Graduate Record Examination (GRE) as determined by the Graduate Program Committee (GPC).

Each applicant must submit to the program two letters of recommendation from individuals familiar with their knowledge, skills and abilities, and a one-page Statement of Objectives describing the reasons why they wish to earn a master's degree and indicating the area of concentration within the construction management discipline in which they wish to pursue graduate work.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Thesis Track

Total Credits Required: 30

Course Requirements

- Required Courses ,Äi Credits: 13
 - CEM 651 - Construction Estimating
 - CEM 653 - Construction Scheduling and Resource Optimization
 - CEM 700 - Research Methods in Construction Management
 - MBA 775 - Data Modeling and Analysis
- Core Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CEM 750 - Advanced Construction Scheduling
 - CEM 751 - Construction Cost Analysis and Estimating
- Specialty Course ,Äi Credits: 3
 - Complete one of the following courses:
 - CEM 685 - Construction Law and Contracts
 - CEM 740 - Construction Safety and Performance Improvement
 - CEM 775 - Construction Operations and Management
 - CEM 705 - Construction Engineering Management
- Elective Courses ,Äi Credits: 5
 - Complete 5 credits of elective coursework.
- Thesis ,Äi Credits: 6
 - CEM 797 - Research Thesis in Construction Engineering and Management

Degree Requirements

- Completion of at least 30 credits, comprised of 18 required 600/700-level credits of CEM and MBA course work, 6 credits of approved electives, and 6 credits of thesis research. The final examination will include a defense of the thesis.
- MBA 775 and CEM 700 must be completed within the first two semesters of study.
- Other courses may be substituted upon written permission of the student,Äôs graduate faculty advisor. Students who have credit in CEM 451 and CEM 453 or equivalent courses will select two other courses from the approved elective list.
- The thesis option program of study will be jointly developed by the student and advisor, approved by the student,Äôs advisory committee.
- Student,Äôs pursuing the thesis option shall have an Advising Committee composed of at least four members of the UNLV Graduate Faculty of which at least two must be tenured or tenure-track members of the Construction Management Program, the third from the Construction Management Program or a related field, and the fourth must be appointed by the Graduate College.
- Completion of a thesis requires the student to make a unique contribution to the existing knowledge in the field of construction management or engineering. The effort must include the development of a contemporary research topic and the methodology for investigating the topic. The student is required to undertake the research effort to investigate the topic. The thesis prepared as part of this option shall include a literature review, description of the research topic, methodology, and results, and present conclusions obtained from the research effort and recommendations for further work.
- Each student,Äôs program should show suitable breadth and coherence, as specified in the Graduate Catalog. Prior to filing, the program must receive approval by the student,Äôs committee. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.
- Students must make satisfactory progress and comply with all Graduate College and Howard R. Hughes College of Engineering policies. If progress is not satisfactory, probation and separation from the graduate program may result, in accordance with the rules of the Graduate College. Satisfactory progress is defined as filing an proposed graduate degree program before the completion of 16 credit hours of course work,

completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00), no grades below C and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. Additionally, no more than nine credits below B are allowed in the student's graduate program. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have two semesters to raise it to 3.00 or above. Students who are awarded a graduate assistantship must be enrolled in a minimum of 6 credit hours per semester and must elect the thesis option.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Non-Thesis Track

Total Credits Required: 36

Course Requirements

- Required Courses , Credits: 13
 - CEM 651 - Construction Estimating
 - CEM 653 - Construction Scheduling and Resource Optimization
 - CEM 700 - Research Methods in Construction Management
 - MBA 775 - Data Modeling and Analysis
- Core Course , Credits: 3
 - Complete one of the following courses:
 - CEM 750 - Advanced Construction Scheduling
 - CEM 751 - Construction Cost Analysis and Estimating
- Specialty Course , Credits: 3
 - Complete one of the following courses:
 - CEM 685 - Construction Law and Contracts
 - CEM 740 - Construction Safety and Performance Improvement
 - CEM 775 - Construction Operations and Management
 - CEM 705 - Construction Engineering Management
- Elective Courses , Credits: 14
 - Complete 14 credits of advisor-approved elective coursework.
- Special Project , Credits: 3
 - CEM 796 - Special Project in Construction Engineering and Management

Degree Requirements

- Completion of at least 36 credits comprised of 18 required 600/700-level credits of CEM and MBA course work, 15 credits of approved electives of which nine credits must be 600/700-level credits of CEM.
- MBA 775 and CEM 700 must be completed within the first two semesters of study.

- Other courses may be substituted upon written permission of the student's graduate faculty advisor. Students who have credit in CEM 451 and CEM 453 or equivalent courses will select two other courses from the approved elective list.
- The project option program of study will be jointly developed by the student and advisor.
- Completion of a project requires the student to investigate and solve, or propose solutions to, a problem related to the field of construction management. It is expected that the results of this effort will be beneficial for and applied to other construction-related projects or problems. The project report prepared for this option shall include a description of the issue investigated, how the investigation was performed, the results obtained, conclusions regarding the investigation, and recommendations for further work.
- Each student's program should show suitable breadth and coherence, as specified in the Graduate Catalog. Prior to filing, the program must receive approval by the student's committee. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.
- Students must make satisfactory progress and comply with all Graduate College and Howard R. Hughes College of Engineering policies. If progress is not satisfactory, probation and separation from the graduate program may result, in accordance with the rules of the Graduate College. Satisfactory progress is defined as filing an proposed graduate degree program before the completion of 16 credit hours of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00), no grades below C and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. Additionally, no more than nine credits below B are allowed in the student's graduate program. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have two semesters to raise it to 3.00 or above. Students who are awarded a graduate assistantship must be enrolled in a minimum of 6 credit hours per semester and must elect the thesis option.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Successfully complete a project.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1 Requirements: Thesis Track
- Subplan 2 Requirements: Non-Thesis Track

Master of Science in Transportation - Transportation

The Master of Science in Transportation degree program is terminal in nature and oriented toward the practice of transportation science, with emphasis on the planning and operations aspects of transportation systems. It is intended for applicants who have backgrounds in areas other than engineering or closely related disciplines, and who either presently work for or aspire to work for transportation agencies or firms.

Learning Outcomes

www.unlv.edu/degree/mst

Plan Admission Requirements

To be considered for admission:

Applicants must have a Bachelor of Science or Bachelor of Arts degree. It is desirable to have a degree in one of the following areas: urban or regional planning, architecture, business, economics, public administration, quantitative geography, computer science, mathematics, operations research, statistics, political science, physical science, or similar discipline.

Undergraduate GPA must be at least 3.00 and credit must have been earned in the following subjects, or equivalent subjects, with a grade of B or better: MAT 180 (3 credits), PHY 155 (4 credits), computer Science or Management Information Systems (3 credits), ECO 201 or ECO 202 (3 credits), and STA 391 or ECO 261 (3 credits). CEE 362 (3 credits) also is required of applicants who have not had at least one year of acceptable experience with a transportation agency.

Submit a two-page Statement of Objectives indicating:

Previous work experience, particularly in transportation.

The reason they wish to pursue the M.S.T. program.

How the degree will be utilized following graduation.

Submit two letters of recommendation from individuals familiar with their skills and abilities. Contact the department for additional information.

Take the verbal, quantitative, and analytical writing portions of the GRE General Test and submit the scores to the Civil and Environmental Engineering department. Successful applicants generally have a combined verbal and quantitative GRE score of at least 300 on the new test (1000 on all GRE exams taken before August 2011) and GRE analytical writing score of at least 3.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

The degree offered is a Master of Science in Transportation (M.S.T.). Completion of the degree does not qualify the student with a non-engineering background to sit for the Fundamentals of Engineering (FE) exam.

Plan Requirements

Total Credits Required: 33

Course Requirements

- Required Courses ,À Credits: 6
 - Complete two of the following courses:
 - CEE 609 - Engineering Project Management

- CEE 663 - Traffic Engineering
 - CEE 760 - Transportation Planning
 - CEE 765 - Public Transportation Systems
- Elective Courses ,À Credits: 24
 - Complete 24 credits of advisor-approved elective coursework.
- Project ,À Credits: 3
 - CEE 796 - Design Project in Civil Engineering

Degree Requirements

- The program of study for each student must be approved by the student,Às advisory committee. The degree requires completion of 33 credits including a 3 credit project.
- A minimum of 21 credits must be taken in civil engineering courses, and 12 credits may be taken from other departments.
- The program is highly quantitative in nature and requires aptitude and familiarity with analytic and mathematical reasoning. Course work is rigorous, and students in the program will be taking the same courses offered to engineering students.
- Satisfactory progress is defined as filing an approved program before the completion of 12 credits of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00), not grades below C and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. Additionally, no more than nine credits below B are allowed in the student,Às graduate program. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise it to 3.00 or above.
- The student,Às Advising Committee should be composed of at least four members of the UNLV Graduate Faculty of which at least two must be tenured or tenure track members of the Department of Civil and Environmental Engineering, the third from the Department of Civil and Environmental Engineering or a related field, and the fourth must be appointed by the Graduate College.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Successfully complete a project.

Doctor of Philosophy - Civil and Environmental Engineering

The Department of Civil and Environmental Engineering & Construction at UNLV offers a number of program degree options leading to the Doctor of Philosophy (Ph.D.) - Civil and Environmental Engineering. Specific areas of engineering that are currently available include Construction, Environmental, Geotechnical, Structural, Transportation, and Water Resources.

Learning Outcomes

www.unlv.edu/degree/phd-civil-engineering

Plan Admission Requirements

Admission to the program leading to the Ph.D. in Engineering in the field of Civil and Environmental Engineering is open to those students completing the following requirements:

Application must be made to the Department of Civil and Environmental Engineering. Applications must include all documentation as required by the Graduate College. The Department of Civil and Environmental Engineering will admit the student and supervise the student, the Ph.D. program.

The applicant must have a Master of Science in Engineering degree or equivalent with a major in civil engineering or a closely allied field. Students with non-engineering backgrounds will be required to complete a set of course work requirements that will assure successful completion of the Ph.D. specialization and qualify the student to sit for the Fundamentals of Engineering (FE) exam. Special cases will be decided upon by the Graduate Program Committee (GPC).

The applicant must submit a written statement of purpose indicating interests and objectives in working toward a Ph.D. degree. In addition, three letters of recommendation for Ph.D.-level study must be submitted.

Applicants from countries where English is not the native language must take the Test of English as a Foreign Language, earn scores of at least 213 (computerized) or 550 (written), and submit an official report of the score to the Graduate College.

The GPC will examine the applicant's academic record and will make the final determination of the applicant's admissibility to the Ph.D. program. In general, a minimum post-baccalaureate GPA of 3.20 on a 4.00 scale or equivalent is required for admission.

All applicants are required to take the verbal, quantitative, and analytical writing portions of the GRE General Test and submit the scores to the Civil and Environmental Engineering department. Successful applicants generally have a combined verbal and quantitative GRE score of at least 300 on the new test (1000 on all GRE exams taken before August 2011) and GRE analytical writing score of at least 3.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 45

Course Requirements

- Elective Courses, Credits: 27
 - Complete 27 credits of advisor-approved elective coursework.
- Dissertation, Credits: 18
 - CEE 799 - Dissertation Research

Degree Requirements

- A minimum of 27 credit hours of course work beyond the degree of Master of Science in Engineering or equivalent is required (excluding dissertation) with a minimum GPA of 3.00.
- A minimum of 18 of these credits must be 700-level courses.
- In addition to these course requirements, a dissertation consisting of at least 18 credits (CEE 799) is required.
- A Doctoral Advisory Committee composed of at least five members of the UNLV graduate faculty is to be formed for the student. At least three of the committee members must be from tenured or tenure-track members of the Department of Civil and Environmental Engineering, the fourth from the Department of Civil and Environmental Engineering or a related field, and the fifth must be appointed by the Graduate College.
- The student, "s Doctoral Advisory committee may add additional requirements in accordance with the individual, "s background and area of study.
- Doctoral students who have not completed CEE 700, or equivalent, or did not write a thesis as part of their Master of Science studies, may be required to complete CEE 700 as a deficiency course. This course will not count towards their doctoral degree program.
- Students whose mother tongue is not English must demonstrate a satisfactory command of the English language by passing the advanced level on the Michigan test during the first year of study.
- In order to show breadth and depth of knowledge in his/her discipline, the doctoral student must pass either a written qualifying exam, an oral qualifying exam, or both as determined by the student, "s Doctoral Advisory Committee. These examinations are prepared by the faculty and supervised by the GPC. These qualifying exams must be scheduled after the completion of one year of study but not before the completion of at least 12 credits of course work.
- The doctoral student must pass a preliminary exam consisting of the preparation of a written proposal for the dissertation research followed by an oral defense of the proposal. The dissertation must be approved by the student, "s Doctoral Advisory Committee. Students are advanced to candidacy for the Ph.D. upon the completion of all course work and approval of the dissertation research proposal.
- All requirements for the Ph.D. are met upon the satisfactory completion of the proposed research, the submission of a satisfactory dissertation, and the successful oral defense of the dissertation before the Doctoral Advisory Committee.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Civil and Environmental Engineering and Construction Courses

CEE 604 - Open Channel Flow

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 606 - Hydrologic Analysis and Design

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the

course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 609 - Engineering Project Management

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 610 - Highway Construction Materials

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 612 - Advanced Mechanical Properties of Engineering Materials (formerly CEG 611)

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 621 - Professional Engineering Practice

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 632 - Geological Engineering

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 634 - Rock Mechanics

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 635 - Foundations Engineering

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 636 - Engineering Geophysics

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 644 - Steel Structural Design

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 650 - Unit Operations/Processes in Environmental Engineering

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 650L - Unit Operations/Processes Laboratory

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 651 - Water and Wastewater Quality Analysis

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 652 - Air Pollution Control Fundamentals

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 654 - Solid and Hazardous Wastes Engineering

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 655 - Chemical Processes for Water Quality Control

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 663 - Traffic Engineering

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 664 - Airport Design

CEE 6 This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 665 - Fire Protection Engineering

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 666 - Geometric Design of Highways

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 667 - Computer Applications in Transportation Engineering

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 668 - GIS Applications in Civil Engineering

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 676 - Earthquake Engineering

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404). **Formerly:** CEG 681

CEE 677 – Design of Underground Structures

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404). **Formerly:** CEG 683

CEE 678 - Applied Finite Element Analysis

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 680 - Concrete Design

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404). **Formerly:** CEG 643

CEE 682 – Design of Timber Structures

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404). **Formerly:** CEG 648

CEE 695 - Special Topics

Credits 3

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the

course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

CEE 700 - Research Methods in Civil and Environmental Engineering

Credits 3

Methods to improve and develop research skills and prepare students for professional careers at the graduate level. Includes principles of scientific research, ethics, writing skills, methods for compiling scientific literature, identification of research questions and specific hypotheses, presentation of research results, writing research papers, proposal preparation, preparation of grant proposals, thesis and dissertation.

CEE 703 – Turbulence

Credits 3

Topics include the origin of turbulence, dynamics of turbulent flows, free shear flows, bounded shear flows, transport phenomena, semiempirical theories, statistical descriptions, spectral dynamics. **Prerequisites:** ME 700 and Graduate standing.

CEE 704 - Environmental & Water Systems

Credits 3

Introduction to techniques to evaluating alternatives in environmental and water resources systems. Topics include southwest U.S. water economic analysis, optimization using linear and dynamic programming, systems modeling using STELLA, analysis of droughts, and current research topics. Applications focus on surface water systems, operation, and reservoirs, water distribution and environmental systems. **Prerequisites:** CEE 413

CEE 705 - Fluid Dynamics in Porous Media I

Credits 3

Engineering analysis of fluid flows in porous media. Includes development of the basic equations, analysis of steady and unsteady flows, multidimensional flows, analytical solutions using conformal mapping, analog methods, finite difference and finite element modeling, and transport phenomena. **Prerequisites:** ME 700 or consent of instructor.

CEE 706 - Fluid Dynamics in Porous Media II

Credits 3

Finite element solution of flow problems in porous media. Topics include steady and unsteady saturated flows, unsaturated flows, mass transport problems, and coupled transport problems such as combined mass-thermal flows. **Prerequisites:** ME 700 or consent of instructor.

CEE 708 - Hydraulic Transients

Credits 3

Analysis of unsteady fluid flow problems in liquid and gas transmission systems of practical interest. Emphasis placed on computer solutions. Topics include methods of characteristics, water-hammer, effect of pumps, turbines, valves, etc.; column separation; control of transient conditions; oscillatory flow and resonance; open channel transient flow. **Prerequisites:** Graduate standing or consent of instructor.

CEE 709 - Numerical Methods in Mechanics

Credits 3

Numerical solution of partial differential equations arising from problems in mechanics. Emphasis on finite difference techniques. Topics include classification of equations: solutions of elliptic, parabolic, and hyperbolic equations; stability, consistency and convergence and nonlinear equations; multidimensional problems; systems of equations; discontinuous solutions. **Prerequisites:** MATH 466 or ME 445 or consent of instructor.

CEE 711 - Continuum Mechanics

Credits 3

Matrices and tensors, stress deformation and flow, compatibility conditions, constitutive equations, field equations and boundary conditions in fluids and solids, applications in solid and fluid mechanics. **Prerequisites:** MATH 431 and graduate standing.

CEE 722 - Advanced Air Pollution Control

Credits 3

Fundamental chemical and physical principles of generation and control of air pollutants, and applications to pollution control equipment. Pollutant and particle formation during combustion. Gas absorption and absorption fundamentals and tower/column design. Pollution control strategies. **Prerequisites:** CEE 452/CEE 652, MATH 432, ME 311, or equivalents. Strongly recommended: ME 314 and MAT 665 or equivalents.

CEE 731 - Pavement Materials and Design**Credits 3**

In-depth study of pavement materials such as soils, asphaltic concrete and Portland cement concrete; analytical and empirical methods for design of flexible and rigid pavements; pavement rehabilitation management. Includes highway and airfield pavements. **Prerequisites:** CEE 334, CEE 334L, CEE 362

CEE 732 - Advanced Foundation Engineering**Credits 3**

Detailed study and analysis of the mechanical properties of soils with applications to foundation behavior. **Prerequisites:** CEE 334, CEE 334L, CEE 435

CEE 734 - Advanced Soil Mechanics**Credits 3**

Stress-strain properties and shear strength of soil: settlements and stability analysis. **Prerequisites:** CEE 334, CEE 334L

CEE 735 - Earth Dams and Embankments**Credits 3**

Principles governing the flow of water through soils and their applications to design of earth dams and embankments. Methods of earth dam design, including earthquake design, theory of wells, and groundwater flow. **Prerequisites:** CEE 334 and CEE 478/CEE 678

CEE 736 - Earth Slopes and Retaining Structures**Credits 3**

Analysis and design of stable earth slopes, including slopes cut from natural deposits and engineered embankments. Analysis and design of earth retaining structures. Both theoretical and practical aspects of design discussed. **Prerequisites:** CEE 334, CEE 334L

CEE 737 - Soil Dynamics and Earthquake Engineering**Credits 3**

Use of dynamics in geotechnical engineering, for nondestructive characterization of engineering materials, and for design of foundations subjected to dynamic loads. Geotechnical aspects of earthquake engineering, particularly effect of soils on ground-surface motions, and soil liquefaction during earthquakes. **Prerequisites:** CEE 334, CEE 334L

CEE 741 - Design of Highway Bridge Structures**Credits 3**

Review of types of highway bridges. Application of the AASHTO Bridge Specifications including dead load, live load and impact. Design of steel, reinforced and prestressed concrete bridge superstructures and their substructures. Span lengths through 150 feet. **Prerequisites:** CEE 444, CEE 480 and graduate standing.

CEE 743 - Design of Masonry Structures**Credits 3**

Study of the principles of masonry design applied to structural design of building components and retaining walls. Discussion of wind and seismic loadings. Analysis and design of shear walls. **Prerequisites:** CEE 480 and graduate standing.

CEE 744 - Design of Prestressed/Post-Tensioned Concrete Structures**Credits 3**

Study of principles of prestressed concrete, both pre-tensioned and post-tensioned, applied to structural design of buildings and bridges. Discussion of effects of lateral loads on structures. Introduction to analysis and design of shear walls. Discussion of connections between members. **Prerequisites:** CEE 480 and graduate standing.

CEE 745 - Advanced Topics in Concrete and Steel Structures

Credits 3

Advanced theoretical analysis and design of reinforced concrete, prestressed and composite steel-concrete structures. Topics include beam torsion, stability of tall columns, local buckling effects, biaxially loaded columns, composite decks, ponding on steel roofs, and introduction to prestressed concrete structures. **Prerequisites:** CEE 480 or consent of instructor.

CEE 747 - Introduction to Analysis and Design of Plates and Shells

Credits 3

Introduction to the analysis and design of plates and shell structures. Bending of flat rectangular and circular plates with various boundary and loading conditions. Membrane analysis of spherical, cylindrical shells, and shells of revolution with ring reinforcement. **Prerequisites:** CEE 381 and graduate standing.

CEE 748 - Advanced Design of Timber Structures

Credits 3

Study of wood as an engineering material used in various types of construction. Strength properties of timber, structural properties of plywood, analysis and design of timber beams, timber columns, analysis and design of connections using nails, bolts, and adhesives. **Prerequisites:** MATH 431 and any one of CEE 444, 480 or 482.

CEE 749 - Advanced Topics in Finite Element Analysis

Credits 3

Properties and applications of isoparametric elements, solids of revolution elements, plate bending elements, finite elements of dynamics, vibrations and buckling instability. Introduction to nonlinear problems using finite element analysis. **Prerequisites:** CEE 478 or consent of instructor.

CEE 750 - Urban Runoff Quality and Control

Credits 3

Study of the quality of urban runoff during wet and dry periods. Topics include: review of hydrologic concepts, modeling water quantity and quality in stormwater systems, water quality of non-point sources, control structures or Best Management Practices (BMPs), evaluation of current research, discussion of current regulations.

Prerequisites: CEE 413 and CEE 450 or consent of instructor.

CEE 751 - Advanced Topics in Wastewater Engineering

Credits 3

Fundamentals of aeration and gas transfer, natural systems for effluent polishing, impacts of effluent discharges in natural water systems. Wastewater reuse issues. Sludge management including dewatering, conditioning, composting, and final disposal. **Prerequisites:** Graduate standing and CEE 450/CEE 650 or equivalent.

CEE 752 - Advanced Water and Wastewater Analysis

Credits 3

Fundamentals and quantitative analysis or the standard methods used by environmental engineers to analyze drinking water and wastewater and control water quality. Topics include total organic carbon, solids analysis, alkalimetry, UV/VIS spectrophotometry, carbon absorption, ion exchange, AA spectrometry, ion chromatography (IC), phase partitioning, advanced oxidation. **Prerequisites:** CEE 451/CEE 651 and graduate standing, or consent of instructor.

CEE 753 - Air Pollution Atmospheric Processes

Credits 3

Fundamentals of aerosol composition, formation and coagulation. Atmospheric photochemistry and atmospheric transport. Computer methods emphasized. Applications to pollution control strategies for urban areas.

Prerequisites: CS 117, CEE 452/CEE 652 or equivalent, MATH 431.

CEE 754 - Biochemical Wastewater Treatment Fundamentals**Credits 3**

Underlying chemical, microbiological, and biochemical principles considered when designing suspended and attached growth biological processes for water quality control. Topics covered include activated sludge design, selector design, filamentous growth control, toxicity to biological systems, biofilm processes, and design of nutrient (phosphorus and nitrogen) removal systems. **Prerequisites:** CEE 450/CEE 650 or equivalent.

CEE 755 - Advanced Physicochemical Methods for Water Treatment**Credits 3**

Fundamentals of chemical equilibrium, ion exchange, chemical kinetics, gas transfer and absorption theory. Applications to design of water treatment facilities, including disinfection basins, ion exchange and activated carbon columns for treatment of water for drinking, agriculture, and industry. **Prerequisites:** CEE 455/CEE 655 and MATH 431 or equivalent.

CEE 756 - Advanced Waste Treatment Design**Credits 3**

Application of optimization methods to the physical, chemical, and biological reaction engineering principles used in air, water, and solid waste treatment plant design. Review and critique of plans for existing treatment works, and incorporation of new technologies. Waste minimization. **Prerequisites:** CEE 450/CEE 650 or CEE 455/CEE 655 or equivalent.

CEE 757 - Engineering Modeling of Natural Systems**Credits 3**

Application of physical, chemical, and ecological concepts to mathematical modelling of fluid mixing, nutrient cycling and population dynamics. Applications to waste treatment and impacts in natural water systems.

Prerequisites: CS 117, CEE 450/CEE 650, MATH 431

CEE 758 - Air Quality Modeling**Credits 3**

Data requirements for inputs to air quality models. Review of photochemical and transport processes used in models. Influence of local topography and meteorology. Review of photochemical computer models. Use of models in evaluation of strategies for improvement of air quality. **Prerequisites:** CEE 753 or equivalent; course in numerical methods recommended.

CEE 759 - Mass Transfer in Environmental Systems**Credits 3**

Fundamentals of mass transfer by diffusion and advection. Solutions to steady-state and transient problems in several dimensions. Applications to natural and engineered systems. **Prerequisites:** CEE 367, MATH 432, and ME 400/ME 600 or ME 700, or equivalent, or consent of instructor.

CEE 760 - Transportation Planning**Credits 3**

Network representation methods; minimum-path trees; traffic assignment algorithms and their performance; trip distribution models; travel surveys and data needs; applications of statistical methods to develop methods of ownership, trip generation, vehicle occupancy, and model choice. **Prerequisites:** CEE 362 and graduate standing, or consent of instructor.

CEE 761 - Transportation Demand Analysis**Credits 3**

Problems dealing with transportation-systems as they affect travel behavior; study of the demand for transportation theoretical concepts and analytical methods; urban and regional travel demand analysis, forecasting methods and behavioral demand models. **Prerequisites:** CEE 362 and graduate standing, or consent of instructor.

CEE 762 - Operations Research Applications in Civil Engineering**Credits 3**

Analysis of civil engineering systems using operations research methods and techniques. Methods covered include optimization models in deterministic systems, network models, and modeling of stochastic systems, including queuing theory. Applications drawn from various civil engineering contexts, particularly transportation systems.

Prerequisites: MATH 466 or STAT 411, or consent of instructor.

CEE 763 - Advanced Traffic Engineering

Credits 3

Theories of traffic flow and signal operations with application to activated, coordinated, and networked intersections using computerized models such as PASSER, NETSIM, TRANSYT, SOAP, CALSIG. Analysis of arterial/freeway operations techniques including HOV and reverse lanes, ramp metering, freeway surveillance, TSM, demand modification. Evaluation of objectives, measures of effectiveness. **Notes:** Two hours lecture, three hours laboratory.

Prerequisites: CEE 463/CEE 663 or consent of instructor.

CEE 764 - Air Transportation

Credits 3

Nature of civil aviation, aviation system planning, airline operations, aircraft characteristics, airline economics, structure of the airline industry, aircraft fleet planning and scheduling, aviation safety. **Prerequisites:** CEE 362 and graduate standing, or consent of instructor.

CEE 765 - Public Transportation Systems

Credits 3

Analysis and evaluation of mass transit systems; their operation and management: demand and cost analysis; route design, schedules and fare policy. Technology of transit systems including vehicles and structures. Transit financing. Impact on land use and environment. **Prerequisites:** CEE 362 and graduate standing, or consent of instructor.

CEE 766 - Analysis of Hazardous Materials Transportation

Credits 3

Hazardous materials transportation analysis using probabilistic risk assessment, including concept measures, models, and methodologies; routing analysis including measures and models, background and scope of hazardous materials transportation issues; mitigation including engineering applications in risk management and emergency preparedness. **Prerequisites:** CEE 362 and graduate standing, or consent of instructor.

CEE 767 - Human Factors in Transportation Engineering

Credits 3

Application of human factors to transportation system planning, design, operation, and management with emphasis on transportation safety; ergonomic principles; driver, vehicle, and guideway interaction; highway safety problems; human factors analytical methods; engineering and management solutions. **Prerequisites:** CEE 362, or consent of instructor.

CEE 768 - Applied Geographic Information Systems

Credits 4

Review of data structures and algorithms for surfaces, volumes and time, elevation models, spatial interpolation. Error modeling and data uncertainty. Visualization of spatial data. Decision making in a GIS context. Emphasis on interdisciplinary group project constructing a data base and maps involving several areas of expertise using popular GIS software. **Same as:** EGG 768. **Prerequisites:** EGG 668, STA 751, and CS 733 or CS 432.

CEE 770 - Shell Structures, Bending and Membrane Theories

Credits 3

Analysis and design of curved thin shell structures using two methods: the approximate membrane force analysis and the exact bending moment and membrane force analysis combined. Introductions provided to the theory of elasticity and specialized solutions to partial differential equations as needed for the analysis of shell structures.

Prerequisites: CEE 342 and graduate standing.

CEE 772 - Theory of Composite Structures

Credits 3

Analysis and design of structures using composite materials and sandwich construction. Elasticity and failure theories of fiber composites and laminates discussed, unidirectional, multidirectional and random fiber reinforcement considered. **Prerequisites:** CEE 381 and graduate standing.

CEE 774 - Introduction to Theory of Elasticity and Plasticity I

Credits 3

Introduction to theoretical and applied elasticity and plasticity theory-solutions to engineering problems in structural mechanics and geotechnical engineering. Response of isotropic, orthotropic and layered media to applied stresses and strains. **Prerequisites:** MATH 431 and graduate standing only.

CEE 775 - Seismic Response of Structures

Credits 3

Application of principles of vibration theory to structures. Determination of natural frequencies and mode shapes using classical methods and energy techniques. Response of structures to harmonic, impulse, periodic and earthquake loadings. **Prerequisites:** CEE 381 and graduate standing.

CEE 776 - Experimental Techniques in Structural Mechanics

Credits 3

Application of various experimental techniques to stress analysis problems. Comparison of experimental and analytical methods. Theory of electric resistance strain gages. Brittle lacquer coatings and their photoelasticity and its application including photoelastic coatings. Introduction to similitude. **Prerequisites:** CEE 381 and graduate standing.

CEE 778 - Theory of Elastic Stability

Credits 3

Buckling of centrally loaded and eccentrically loaded compression members. Variational methods of determining critical loads. Stability of rigid frame members, effective lengths of compression members in trusses, lateral buckling of beams, torsional buckling. Buckling of compressed rings and curved bars. **Prerequisites:** CEE 381 and graduate standing.

CEE 785 - Construction Engineering Management

Credits 3

Concepts of construction project management of heavy civil, and capital facility projects. Covers the project phases: pre-project planning, engineering, procurement, construction and start up. **Prerequisites:** Graduate standing in civil engineering or consent of instructor.

CEE 791 - Independent Study in Civil Engineering

Credits 1 – 3

Independent study of a selected civil engineering topic. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Graduate standing in civil engineering and consent of instructor.

CEE 795 - Special Topics in Civil Engineering

Credits 1 – 6

Outlet for experimental and other topics of current interest. Topics and credits to be announced. **Notes:** May have a laboratory. May be repeated for credit. **Prerequisites:** Graduate standing in civil engineering and consent of instructor.

CEE 796 - Design Project in Civil Engineering

Credits 1 – 3

Synthesis course to involve students in the design process from analysis and proposal to solution. **Notes:** May be repeated to a maximum of three credits. Not permitted for students pursuing the M.S.E. Thesis option or for those in the Ph.D. Program. **Prerequisites:** Graduate standing in civil engineering and consent of instructor.

CEE 797 - Thesis in Civil Engineering

Credits 3 – 6

Notes: May be repeated but only six credits will be applied to program. **Grading:** S/F grading only. **Prerequisites:** Graduate standing in civil engineering.

CEE 799 - Dissertation Research

Credits 1 – 6

Research analysis and writing towards completion of dissertation and subsequent defense. **Notes:** May be repeated with a maximum of 18 credits allowed to be used towards the degree. **Grading:** S/F grading only. **Prerequisites:** Graduate standing in Ph.D. program and consent of advisor.

CEM 632 – Temporary Construction Structures

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

CEM 651 - Construction Estimating

Credits 4

Principles and procedures used in estimating construction costs. Application of quantity determination, estimate pricing, specifications, subcontractor and supplier solicitation, risk assessment and risk analysis, and final bidding preparation. Computer-based estimating used for semester project. **Notes:** Credit at the 600 level normally requires additional work.

CEM 653 - Construction Scheduling and Resource Optimization

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

CEM 654 – Heavy Construction Equipment & Methods

Characteristics, capabilities, limitations, uses and selection of heavy construction equipment. Construction methods selection. Construction equipment process planning and improvement, fleet operations, and maintenance programs. Field trips. **Notes:** Credit at the 600 level normally requires additional work.

CEM 680 - Sustainable Construction

Credits 3

Overview of sustainable design and construction. Introduction to green buildings, LEED assessment process, high-performance building, and green building material. Economic analysis of green buildings. **Prerequisites:** Consent of instructor.

CEM 685 - Construction Law and Contracts

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

CEM 693 – Independent Study

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

CEM 695 – Special Topics in Construction Management

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

CEM 700 - Research Methods in Construction Management

Credits 3

Introduction to research process, design, measurement, sampling, analysis, and results, research information resources, and literature review. **Corequisite:** MBA 775 or STAT 463 or equivalent or consent of instructor.

CEM 701 - Construction Seminar II

Credits 1

Presentations by students on research studies or projects. Presentations and discussions by local construction industry representatives on current construction engineering and management research and practice topics.

Prerequisites: CEM 700

CEM 705 - Construction Engineering Management

Credits 3

Technical project management applications for pre-project planning, design, pre-construction services, value engineering, construction, start up/commissioning and decommissioning of capital facilities. **Corequisite:** CEM 451/CEM 651 and CEM 451/CEM 653

CEM 740 - Construction Safety and Performance Improvement

Credits 3

Introduction to construction safety issues, regulations and ways to improve safety on the job site. Accidents and their causes, OSHA regulations, and worker safety programs. Productivity concepts, data collection, and analysis of data and factors affecting construction productivity. Means for improving production and study of productivity improvement programs. **Prerequisites:** CEE 381 or ABS 341, and graduate standing.

CEM 750 - Advanced Construction Scheduling

Credits 3

Models of network theory and non-network theory for construction scheduling. Systems theory, resource leveling and resource algorithms, project diagnostics, optimum workforce/equipment movement, and as-built schedule coordination. Cost control and computer applications, and expert systems. Case studies. **Prerequisites:** CEM 453/CEM 653 and graduate standing.

CEM 751 - Construction Cost Analysis and Estimating

Credits 3

Advanced topics in construction estimating including value engineering, pricing strategies, and computer concepts. Development of estimating data. Computer-aided design and cost integration. Range, factor, and parametric estimating. Production factors. **Prerequisites:** CEM 451 or CEM 651 or consent of instructor.

CEM 755 - Renewable Energy Capital Facility Projects

Credits 3

Overview of control and management of the cost, timing, and value of capital-investment in renewable energy projects such as solar thermal power plants, photovoltaic plants, biomass power plants, biofuel power plants, hydroelectric power plants, geothermal power plants, tidal power station, wave power station and on-shore/off-shore wind power plants. **Prerequisites:** Graduate standing.

CEM 775 - Construction Operations and Management

Credits 3

Theory and practice of construction operations and management. Roles of the designer, owner, constructor, and construction manager. Systems approach to project, firm, and organization issues for construction management. Decision modeling. Readings, case studies, and analysis of construction problems and solutions. Computer applications, case studies. **Notes:** May be taken concurrently with CEM 751. **Prerequisites:** EGG 307, CEM 740, CEM 750, CEM 751

CEM 780 - Construction Engineering

Credits 3

Advanced topics in construction engineering addressing techniques and sequences employed in the construction of heavy and industrial projects. **Prerequisites:** CEE 334 or CEM 330, CEE 381 or CEM 370

CEM 793 - Advanced Independent Study

Credits 1 – 3

Advanced independent study of a selected construction topic. Paper required. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Graduate standing and consent of instructor.

CEM 795 - Advanced Special Topics in Construction Management

Credits 1 – 6

Outlet for experimental and other topics of interest in advanced construction management. Paper required. Topics and credits to be announced. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Graduate standing in major.

CEM 796 - Special Project in Construction Engineering and Management

Credits 1 – 3

Development and undertaking of a project investigating a topic of interest related to construction engineering or construction management. **Notes:** May be repeated for a maximum of three credits. **Prerequisites:** Graduate standing.

CEM 797 - Research Thesis in Construction Engineering and Management

Credits 1 – 3

Development and undertaking of a research study on a contemporary topic related to construction engineering or construction management. Preparation and presentation of a research thesis. Preparation of a project report. **Notes:** May be repeated for a maximum of six credits. **Prerequisites:** Graduate standing.

EKG 651 – Ergonomics

Credits 3

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

EKG 695 - Special Topics

Credits 3

This upper-division engineering course is open to graduate students, provided it demonstrates a level of accomplishment suitable to graduate study. The Undergraduate Catalog should be consulted for a description of the course. In the Undergraduate Catalog, the course is numbered as 4XX, where the XX represents the same last two digits as the 600 course listed (for example, the description for CEE 604 appears under CEE 404).

EKG 747 - Orthopedic Biomechanics - Lower Extremities and Spine

Credits 3

Biomechanics of the lower extremities and spine; engineering properties and physiology of bone, cartilage, and tendon; analysis of gait; effects of orthopedic impairment and injury; design and surgical implantation of prosthetic joints and fracture fixation devices; engineering of tissue regeneration and replacement. **Same as:** (ME 747). **Prerequisites:** Graduate standing in engineering or kinesiology or consent of instructor.

EKG 748 - Prosthetic Systems Engineering

Credits 3

Engineering design to prosthetic feet, ankles, knees, and prehension devices; materials and manufacturing; the biomechanics of movement using a prosthesis; residual limb morphology and surgical enhancements; socket design and tissue response; myoelectric devices; microprocessor control; psychophysical and motor control considerations; aspects of clinical science. Emphasis on R&D needs. **Same as:** (ME 748). **Prerequisites:** Graduate standing in engineering or kinesiology or consent of instructor.

EKG 750 - Analysis of Human Movement

Credits 3

Analysis of the kinematics and kinetics of human movement in two and three dimensions with emphasis on methods used in motion capture, including joint and segment position; acceleration, velocity, force and torque; work and power; and inverse solution methods. **Same as:** (ME 750). **Prerequisites:** Graduate standing in engineering or kinesiology or consent of instructor.

EKG 768 - Applied Geographic Information Systems**Credits 4**

Review of data structures and algorithms for surfaces, volumes and time, elevation models, spatial interpolation. Error modelling and data uncertainty. Visualization of spatial data. Decision making in a GIS context. Emphasis on interdisciplinary group project constructing a data base and maps involving several areas of expertise using popular GIS software. **Prerequisites:** EGG 668, STA 751, and CS 733 or CS 432.

EKG 769 - Applied Modeling with Geographic Information Systems**Credits 3**

Design and interfacing of civil engineering models of transportation and finite element, finite difference, and hydrologic models with geographic data base systems. Applications in general air, water, transportation, and land use management. **Prerequisites:** EGG 768

EKG 795 - Special Topics**Credits 3**

Directed research course under the supervision of a member of the graduate faculty culminating in a written paper. **Notes:** May be repeated twice with permission of instructor and advisor. **Prerequisites:** Graduate standing and permission of instructor.

Computer Science

The School of Computer Science offers programs leading to the Master of Science and the Doctor of Philosophy degrees in Computer Science. Areas of school strength include both theoretical and experimental computer science, especially within such areas as information and network security, Internet forensics, real-time algorithms, information retrieval, document analysis, graphics, computational geometry, networking and distributed systems, parallel programming, artificial intelligence, and software engineering.

The distributed computing environment of the College of Engineering is housed in the Thomas T. Beam Engineering Complex. Several hundred modern computing systems are operated for purposes of instruction, experimentation, laboratory instrument control, data acquisition, and research. More than 50 of the systems are in public laboratories accessible to all Computer Science students. These laboratories contain both Windows and Unix/Linux clients and servers in a variety of modern configurations.

Students can also obtain permission to access the machines of the National Supercomputer Center for Energy and the Environment (NSCEE).

Laxmi Gewali, Ph.D., Chair
Ajoy Datta, Ph.D., Graduate Coordinator

Chair

Gewali, Laxmi P. - *Full Graduate Faculty*
Professor; B.S., Gauhati University, India; M.S., Tribhuvan University, Nepal; M.S., Ph.D., University of Texas-Dallas. *Rebel since 1989.*

Graduate Coordinator

Datta, Ajoy K. - *Full Graduate Faculty*
Professor; B.S., M.S., Ph.D., Jadavpur University. *Rebel since 1988.*

Graduate Faculty

Bein, Wolfgang - *Full Graduate Faculty*
Professor; M.S., Ph.D., University of Osnabruck. *Rebel since 1998.*

Berghel, Hal - *Full Graduate Faculty*
Professor; B.A., M.A., Ph.D., University of Nebraska, Lincoln. *Rebel since 1999.*

Jo, Juyeon - *Full Graduate Faculty*
Associate Professor; B.S., Dongguk University, Korea; M.S., University of Connecticut; Ph.D., Case Western Reserve University. *Rebel since 2006.*

Kim, Yoohwan - *Full Graduate Faculty*
Associate Professor; B.A., Seoul National University, Korea; M.S., Ph.D., Case Western Reserve University. *Rebel since 2004.*

Larmore, Lawrence L. - *Full Graduate Faculty*
Professor; B.S., Tulane University; Ph.D., Northwestern University; Ph.D., University of California, Irvine. *Rebel since 1994.*

Minor, John T. - *Full Graduate Faculty*

Associate Professor; B.A., Rice University; Ph.D., University of Texas, Austin. *Rebel since 1985.*

Nartker, Thomas A. - *Full Graduate Faculty*

Professor Emeritus; B.S., University of Dayton; M.S., University of Tennessee; Ph.D., Texas A&M University. *Rebel since 1986.*

Nasoz, Fatma - *Full Graduate Faculty*

Assistant Professor; B.S., Bogazici University; M.Sc., University of Central Florida; Ph.D., University of Central Florida. *Rebel since 2006.*

Pedersen, Jan B. - *Full Graduate Faculty*

Associate Professor; B.S., M.S., University of Aarhus, Denmark; Ph.D., University of British Columbia. *Rebel since 2003.*

Stefik, Andreas -

Assistant Professor; B.A., Central Washington University; M.S., Washington State University; Ph.D., Washington State University

Taghva, Sidkazem - *Full Graduate Faculty*

Professor; B.S., Pahlavi University; M.S., University of Kansas; Ph.D., University of Iowa. *Rebel since 1987.*

Yfantis, Evangelos A. - *Full Graduate Faculty*

Professor; B.S., University of Athens; M.S., Fairleigh Dickinson University; M.S., Rutgers University; M.S., New Jersey Institute of Technology; Ph.D., University of Wyoming. *Rebel since 1979.*

Computer Science Plans

Master of Science in Computer Science

Our masters program gives you the opportunity to study different areas, including:

- Design and analysis of algorithms
- Operating and distributed systems
- Computer architecture and networking
- Computational geometry and robotics
- Computer graphics and image processing
- Programming languages and compiler construction
- Artificial intelligence and expert systems
- Database design, document analysis, and retrieval
- Software engineering

Learning Outcomes

www.unlv.edu/degree/ms-computer-science

Plan Admission Requirements

Applicants must submit the following to the Graduate College:

- An application and official transcripts of all college level work with a minimum GPA of 3.00.

- Two letters of recommendation concerning the student,Â’s potential for succeeding in the graduate program.
- Another set of official transcripts.
- The results of the Graduate Record Examination current to within five years should be sent directly to the school.

In addition, applicants must have completed courses and their prerequisites equivalent to our undergraduate Programming Languages (CS 326), Operating Systems (CS 370), Discrete Mathematics II (MATH 351), and Statistical Methods I (STAT 411) with an average grade of B or better.

The Computer Science Admission Committee may elect to admit an outstanding applicant who has not satisfied all of the background requirements on a conditional basis.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

The student must complete these requirements before full admission to the program is granted.

Students who have not completed all the following courses (or equivalent courses) as part of their bachelor,Â’s degree may be required to complete them as a condition of their admission. If taken as part of their master,Â’s degree program, these courses may count toward the 30 credits required.

- o CS 656 - Automata and Formal Languages
- o CS 677 - Analysis of Algorithms
- o CS 660 - Compiler Construction

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Thesis Track

Total Credits Required: 30

Course Requirements

- Computer Science Courses ,Â Credits: 24
 - o Complete 24 credits of 600- or 700- level Computer Science (CS) courses. Students may complete up to 3 credits outside of CS. Outside credits must be related to the student,Â’s research area and be approved by the school graduate committee.
- Thesis Credits: 6
 - o CS 791 – Thesis

Degree Requirements

- The student must pass at least 30 credits of 600- and 700-level courses with grades of C or better.
- Students must complete 12 credits of 700-level CS courses (excluding thesis).
- Courses in which the student earns a grade lower than C cannot be included in his or her program, and the student,Â’s total grade point average (GPA) must be 3.00 or higher while in the program. A student whose GPA falls below 3.00 will be placed on academic probation. That student must have an overall GPA of at

least 3.00 by the end of two subsequent semesters; otherwise the student will be separated from the graduate program. A student on probation will not be allowed to register for CS 690, CS 790, CS 791, CS 792, CS 799, or equivalent courses in another department.

- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- The student must submit a thesis conforming to the specifications of the Graduate College and pass a final oral examination covering the thesis and relevant course work.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public. .
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Project Track

Total Credits Required: 30

Course Requirements

- Computer Science Courses ,À Credits: 27
 - Complete 27 credits of 600- or 700- level Computer Science (CS) courses. Students may complete up to 3 credits outside of CS. Outside credits must be related to the student's research area and be approved by the school graduate committee.
- Project ,À Credits: 3
 - CS 790 - Master's Project

Degree Requirements

- The student must pass at least 30 credits of 600- and 700-level courses with grades of C or better.
- Students must complete 15 credits of 700-level CS courses (excluding the project).
- Courses in which the student earns a grade lower than C cannot be included in his or her program, and the student's total grade point average (GPA) must be 3.00 or higher while in the program. A student whose GPA falls below 3.00 will be placed on academic probation. That student must have an overall GPA of at least 3.00 by the end of two subsequent semesters; otherwise the student will be separated from the graduate program. A student on probation will not be allowed to register for CS 690, CS 790, CS 791, CS 792, CS 799, or equivalent courses in another department.
- The student must complete a computer science project and a report approved by his/her advisor and pass a final oral examination over the project and relevant course work.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete a master's project.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Thesis Track
- Subplan 2: Project Track

Doctor of Philosophy - Computer Science

The Ph.D. degree is awarded to a candidate who has demonstrated breadth of knowledge in computer science in general and has displayed depth of knowledge in the area of specialty as well as the ability to make original contributions to the body of knowledge in this field.

Learning Outcomes

www.unlv.edu/degree/phd-computer-science

Plan Admission Requirements

Applicants for admission to the Ph.D. program in computer science must meet the following:

- A GPA of 3.70 (on a 4.00 scale) or higher in post-baccalaureate course work is required for admission. Students entering with a bachelor's degree must have a GPA of 3.5 or higher for the courses at the 200-level or above.
- Students are expected to have a master's degree in computer science before applying to the Ph.D. program. On rare occasions, an unusually capable student may be admitted to work directly for the Ph.D. degree without having a master's degree.
- At least three letters of recommendation (preferably from academic sources) attesting to the applicant's professional competence and academic potential are required.
- A personal statement of purpose, which should be as specific as possible and should include the applicant's objectives and area(s) of interest, is required.
- A minimum score of 315 on the general test of the Graduate Record Examination (GRE) is required. Official score reports from the last five years are acceptable.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Master's Track

Total Credits Required: 48

Course Requirements

- Required Courses , Credits: 30
 - Complete 30 credits of 600- or 700- level Computer Science (CS) courses.
- Dissertation , Credits: 18
 - CS 799 - Dissertation Research

Degree Requirements

- A student entering the Ph.D. program with a master's degree in computer science is required to take at least 48 credits of coursework.
- At least 24 credits must be in computer science (excluding dissertation).
- A minimum of 12 credits of 700-level Computer Science courses (excluding dissertation)
- A maximum of 12 credits of 600-level Computer Science courses.
- A maximum of 6 credits of 600/700 level non-Computer Science courses (with departmental approval).
- Satisfactorily pass a written comprehensive examination within the first four semesters.
- The written comprehensive examination will be given twice a year. The comprehensives will assess the student's breadth of knowledge through two examinations covering the six Core Areas listed below and another examination in two other areas of his or her choice.
 - Core Areas:
 - Automata and formal languages; Algorithms and data structures
 - Programming languages; Compiler construction
 - Computer architecture; Operating systems
 - Application Areas:
 - Artificial intelligence
 - Computer graphics and image processing
 - Computer simulation and networks
 - Data base systems
 - Software engineering and reliability
 - Document analysis
 - Networks and distributed computing
 - Geometric applications
- The level of the examination is that of 600-level and 700-level courses in each area. A syllabus will be published well in advance of the exams listing the topics to be covered in each exam. Students are expected to take the comprehensive examination within two years of entering the Ph.D. program. All Ph.D. students are urged to take this examination as early as possible. Preference is given in the allocation of student financial support to those who have passed the comprehensive examination. The comprehensive examination may be attempted at most twice. Students who do not pass the comprehensive examination the first time must retake the examination at the next scheduled offering. Failure to pass the comprehensive examination after two attempts will normally lead to dismissal from the Ph.D. program. After passing the comprehensive examination, a research topic of mutual interest to the student and his/her proposed committee is selected. At this point, the student formally begins his/her research study.
- The qualifying examination is an oral examination designed to test the depth of the student's knowledge in his or her area of research specialization.
 - It must be taken before either:
 - Two years after passing the comprehensive examination or
 - Four years after entering the Ph.D. program.
- It generally focuses on his/her dissertation proposal. The main purpose of this exam is to evaluate the technical merits and feasibility of the student's proposal for his/her Ph.D. dissertation.
- The student's Ph.D. committee must conduct the examination. This committee consists of five faculty members of whom one must be from outside the school of computer science. The student's advisor is the chairperson of this committee. Please see Graduate College policy for committee appointment guidelines.
- The student must prepare a dissertation proposal before taking this examination. The student's advisor should have already approved this proposal. This proposal must be given to the Ph.D. committee members at least two weeks before the date of the qualifying exam. The proposal must contain a discussion of the background literature on the problem area, description of the specific topic of research proposal approach, feasibility arguments, the objective of the research project, and a list of references.
- The student begins the exam with a presentation of the dissertation proposal. The remaining time is used for discussion and asking questions to determine if the student has sufficient depth of knowledge to carry out the proposed research.

- The examination cannot be taken more than twice. After successful completion of the qualifying examination, the student is advanced to candidacy for the doctoral degree.
- Satisfactorily pass a dissertation proposal defense by the end of year 4.
- The candidate must prepare a dissertation on his or her research. The doctoral dissertation should represent a significant original research contribution to the field of computer science and be publishable in a recognized refereed journal.
- After completion of the dissertation, the candidate must pass a final oral defense of his/her dissertation. The candidate must make the final changes, if any, in the dissertation within three months from the date of the oral defense. A candidate can defend the dissertation no more than twice. Each member of the committee must approve the final dissertation.
- Maintain a satisfactory rate of progress and a yearly progress report must be submitted. To maintain satisfactory progress in the Ph.D. program a student must:
 - Pass the comprehensive examination within 2.50 years of entering the Ph.D. program.
 - Maintain a minimum grade point average required by the College of Engineering.
 - Pass the qualifying examination within four years of entering the Ph.D. program.
 - Maintain satisfactory progress towards research.
- Students who enter the Ph.D. program with a master's degree must complete all requirements for the Ph.D. degree within six years. Those who enter the Ph.D. program with a bachelor's degree must complete all requirements for the Ph.D. degree within eight years. If these requirements are not met, the department may place the student on academic probation or drop him/her from the Ph.D. program.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Post-Bachelor's - No Master's/Ph.D. Only Track

Total Credits Required: 72

Course Requirements

- Required Courses , Credits: 54
 - Complete 54 credits of 600- or 700- level Computer Science (CS) courses.
- Dissertation , Credits: 18
 - CS 799 - Dissertation Research

Degree Requirements

- Complete a minimum of 72 credits of coursework with a minimum GPA of 3.00.
- At least 42 credits must be in computer science (excluding dissertation).
- A minimum of 24 credits of 700-level Computer Science courses (excluding dissertation)
- A maximum of 12 credits of 600-level Computer Science courses.
- A maximum of 6 credits of 600/700 level non-Computer Science courses (with departmental approval).
- Satisfactorily pass a written comprehensive examination within the first four semesters.

- The written comprehensive examination will be given twice a year. The comprehensives will assess the student, Ås breadth of knowledge through two examinations covering the six Core Areas listed below and another examination in two other areas of his or her choice.
 - Core Areas:
 - Automata and formal languages; Algorithms and data structures
 - Programming languages; Compiler construction
 - Computer architecture; Operating systems
 - Application Areas:
 - Artificial intelligence
 - Computer graphics and image processing
 - Computer simulation and networks
 - Data base systems
 - Software engineering and reliability
 - Document analysis
 - Networks and distributed computing
 - Geometric applications

- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 3 Requirements: Post-Bachelor's - Thesis Track

Total Credits Required: 72

Course Requirements

- Required Master's Courses , Credits: 24
 - Complete 24 credits of 600- or 700- level Computer Science (CS) courses.
- Thesis , Credits: 6
 - CS 791 - Thesis

After successfully completing the requirements above, students are eligible to earn the Master of Science , Computer Science.

- Required Doctoral Courses , Credits: 24
 - Complete 24 credits of 600- or 700- level Computer Science (CS) courses
- Dissertation , Credits: 18
 - CS 799 - Dissertation Research

Degree Requirements

- Complete a minimum of 72 credits of coursework with a minimum GPA of 3.00.
- At least 42 credits must be in computer science (excluding thesis & dissertation).
- A minimum of 24 credits of 700-level Computer Science courses (excluding thesis & dissertation)
- A maximum of 12 credits of 600-level Computer Science courses.
- A maximum of 6 credits of 600/700 level non-Computer Science courses (with departmental approval).
- The student must submit a thesis conforming to the specifications of the Graduate College and pass a final oral examination covering the thesis and relevant course work.
- Satisfactorily pass a written comprehensive examination within the first four semesters.

- The written comprehensive examination will be given twice a year. The comprehensives will assess the student, Ås breadth of knowledge through two examinations covering the six Core Areas listed below and another examination in two other areas of his or her choice.
 - Core Areas:
 - Automata and formal languages; Algorithms and data structures

 - Maintain satisfactory progress towards research.
- Students who enter the Ph.D. program with a master's degree must complete all requirements for the Ph.D. degree within six years. Those who enter the Ph.D. program with a bachelor's degree must complete all requirements for the Ph.D. degree within eight years. If these requirements are not met, the department may place the student on academic probation or drop him/her from the Ph.D. program.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her master's degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her doctoral degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 4 Requirements: Post-Bachelor's - Project Track

Total Credits Required: 72

Course Requirements

- Required Master's Courses , Credits: 27
 - Complete 27 credits of 600- or 700- level Computer Science (CS) courses.
- Project , Credits: 3
 - CS 790 - Master's Project

After successfully completing the requirements above, students are eligible to earn the Master of Science , Computer Science.

- Required Doctoral Courses , Credits: 24
 - Complete 24 credits of 600- or 700- level Computer Science (CS) courses
- Dissertation , Credits: 18
 - CS 799 - Dissertation Research

Degree Requirements

- Complete a minimum of 72 credits of coursework with a minimum GPA of 3.00.
- At least 42 credits must be in computer science (excluding dissertation).
- A minimum of 24 credits of 700-level Computer Science courses (excluding dissertation)

- A maximum of 12 credits of 600-level Computer Science courses.
- A maximum of 6 credits of 600/700 level non-Computer Science courses (with departmental approval).
- The student must complete a computer science project and a report approved by his/her advisor and pass a final oral examination over the project and relevant course work.
- Satisfactorily pass a written comprehensive examination within the first four semesters.
- The written comprehensive examination will be given twice a year. The comprehensives will assess the student, 's breadth of knowledge through two examinations covering the six Core Areas listed below and another examination in two other areas of his or her choice.
- Core Areas:
 - Automata and formal languages; Algorithms and data structures
 - Programming languages; Compiler construction
 - Computer architecture; Operating systems
- Application Areas:
 - Artificial intelligence
 - Computer graphics and image processing
 - Computer simulation and networks
 - Data base systems
 - Software engineering and reliability
 - Document analysis
 - Networks and distributed computing
 - Geometric applications
- The level of the examination is that of 600-level and 700-level courses in each area. A syllabus will be published well in advance of the exams listing the topics to be covered in each exam. Students are expected to take the comprehensive examination within two years of entering the Ph.D. program. All Ph.D. students are urged to take this examination as early as possible. Preference is given in the allocation of student financial support to those who have passed the comprehensive examination. The comprehensive examination may be attempted at most twice. Students who do not pass the comprehensive examination the first time must retake the examination at the next scheduled offering. Failure to pass the comprehensive examination after two attempts will normally lead to dismissal from the Ph.D. program. After passing the comprehensive examination, a research topic of mutual interest to the student and his/her proposed committee is selected. At this point, the student formally begins his/her research study.
- The qualifying examination is an oral examination designed to test the depth of the student, 's knowledge in his or her area of research specialization.
 - It must be taken before either:
 - Two years after passing the comprehensive examination or
 - Four years after entering the Ph.D. program.
 - It generally focuses on his/her dissertation proposal. The main purpose of this exam is to evaluate the technical merits and feasibility of the student, 's proposal for his/her Ph.D. dissertation.
 - The student, 's Ph.D. committee must conduct the examination. This committee consists of five faculty members of whom one must be from outside the school of computer science. The student, 's advisor is the chairperson of this committee. Please see Graduate College policy for committee appointment guidelines.
- The student must prepare a dissertation proposal before taking this examination. The student, 's advisor should have already approved this proposal. This proposal must be given to the Ph.D. committee members at least two weeks before the date of the qualifying exam. The proposal must contain a discussion of the background literature on the problem area, description of the specific topic of research proposal approach, feasibility arguments, the objective of the research project, and a list of references.
- The student begins the exam with a presentation of the dissertation proposal. The remaining time is used for discussion and asking questions to determine if the student has sufficient depth of knowledge to carry out the proposed research.
- The examination cannot be taken more than twice. After successful completion of the qualifying examination, the student is advanced to candidacy for the doctoral degree.
- Satisfactorily pass a dissertation proposal defense by the end of year 4.

- The candidate must prepare a dissertation on his or her research. The doctoral dissertation should represent a significant original research contribution to the field of computer science and be publishable in a recognized refereed journal.
- After completion of the dissertation, the candidate must pass a final oral defense of his/her dissertation. The candidate must make the final changes, if any, in the dissertation within three months from the date of the oral defense. A candidate can defend the dissertation no more than twice. Each member of the committee must approve the final dissertation.
- Maintain a satisfactory rate of progress and a yearly progress report must be submitted. To maintain satisfactory progress in the Ph.D. program a student must:
 - Pass the comprehensive examination within 2.50 years of entering the Ph.D. program.
 - Maintain a minimum grade point average required by the College of Engineering.
 - Pass the qualifying examination within four years of entering the Ph.D. program.
 - Maintain satisfactory progress towards research.
- Students who enter the Ph.D. program with a master's degree must complete all requirements for the Ph.D. degree within six years. Those who enter the Ph.D. program with a bachelor's degree must complete all requirements for the Ph.D. degree within eight years. If these requirements are not met, the department may place the student on academic probation or drop him/her from the Ph.D. program.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for both the master's and doctoral portions of the program.
- The student must successfully complete a master's project.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Post-Master's Track
- Subplan 2: Post-Bachelor's - No Master's/Ph.D. Only Track
- Subplan 3: Post-Bachelor's - Thesis Track
- Subplan 4: Post-Bachelor's - Project Track

Computer Science Courses

CS 617 - Introduction to Computer Simulation

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 620 - Human-Computer Interaction

Credits 3

Overview of human-computer interaction principles, guidelines, methods, and tools. User research, low-fidelity prototyping, participatory design, usability evaluation, visual design, usability principles, and affordances. Graphical user interface implementation, including design patterns, event handling, widget tool kits, languages, and development environments. **Prerequisites:** Consent of Instructor

CS 641 - Advanced Internet Programming

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 641L - Advanced Internet Programming Lab

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 645 - Internet Security

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 648 - Computer Security

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 651 - Multimedia Systems Design

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 651L - Multimedia Systems Design Lab

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 656 - Automata and Formal Languages

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 657 - Database Management Systems

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 660 - Compiler Construction

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 663 - Computer Architecture

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 665 - Computer Networks I

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 666 - Computer Networks II

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 669 - Introduction to Digital Image Processing

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 670 - Networks and Distributed Systems

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 671 - Program Derivation

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 672 - Software Product Design and Development I

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 673 - Software Product Design II

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 674 - Decision Environments for Software Product Development

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 677 - Analysis of Algorithms

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 680 - Computer Graphics

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 682 - Artificial Intelligence

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 689 - Advanced Computer Science Topics

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 690 - Independent Study

This course may also be used for graduate credit. For a description of this 600-level course, please consult the current Undergraduate Catalog, where it is listed as a 400-level class.

CS 715 - Advanced Analysis of Algorithms**Credits 3**

Analysis of the complexity and correctness of asymptotically efficient algorithms, including set partitioning, matrix multiplication, integer multiplication and pattern matching algorithms. The theory of NP-completeness; Cook's theorem and polynomial transformations. Basic NP-complete problems, such as the three-satisfactory, three dimensional matching and Hamiltonian circuit problems. PSPACE-completeness results, such as quantified Boolean formulas. **Prerequisites:** CS 656 and CS 677

CS 717 - Advanced Computer Simulation**Credits 3**

Advanced discrete simulation modeling using SIMSCRIPT 11.5 and SLAM. Advanced continuous simulation using ACSL. Modeling concepts, measuring random phenomena. Passive objects, application of simulation to operating systems and software design in general. Digital- analog solution of linear differential equations, industrial dynamics. Feedback systems. **Prerequisites:** CS 617

CS 718 - Theory of Computation**Credits 3**

Computability of functions and sets in terms of Turing machines and other computational models. Universal Turing machines and examples of unsolvable problems. Introduction to other computational models, such as the lambda-

calculus, Post systems, Markov algorithms and recursive function theory. The Church-Turing thesis and proofs of equivalence between the models. **Prerequisites:** CS 656

CS 719 - Advanced Automata and Formal Languages

Credits 3

Extensive study of context-sensitive, recursive and recursively enumerable languages, including ambiguity and closure properties: decidable and undecidable properties of the different language classes: the halting problem and Post's correspondence problem; properties of the deterministic context-free languages; LR(k) and LL(k) grammars.

Prerequisites: CS 656

CS 733 - Geographic Data Base Systems

Credits 3

Spatial data types and operators: point queries, range queries, translation, rotation, and scaling. Data structures for object representation: arc tree, quadtrees. Commercial data bases vs. spatial data bases: relational, hierarchical, network. **Notes:** (May not be used to satisfy degree requirements in Computer Science.). **Prerequisites:** CS 135 or CS 117 or equivalent and STAT 611

CS 740 - Statistical Pattern Recognition

Credits 3

Concepts and formal theoretical structures necessary for design and implementation of a pattern recognition system. Topics include: parametric and non-parametric methods, linear and non-linear classifiers and clustering algorithms.

Prerequisites: STA 667, MATH 253 or 265, and CS 302

CS 741 - Structural Pattern Recognition

Credits 3

Survey of advanced pattern recognition techniques. Topics include: graph matching methods, syntactic approaches, neural nets, and context-dependent methods. **Prerequisites:** CS 656 and CS 677

CS 742 - Document Image Understanding

Credits 3

Survey of document understanding methods and related topics that include: data compression, document exchange standards, layout analysis methods, logical analysis methods, OCR, error correction, and document routing.

Prerequisites: CS 740 and CS 669

CS 747 - Cryptography and Information Theory

Credits 3

Cryptography, cryptographic systems, encryption algorithms, cryptographic techniques, access control, lattice model of information flow, flow control mechanisms, inference control mechanisms, mechanisms restricting noise, mechanisms restricting statistics, statistical database models. **Prerequisites:** CS 370, STAT 411

CS 750 - Computational Algorithms in VLSI

Credits 3

Application and inherent limitations of using VLSI to implement computational algorithms, design and analysis of algorithms for design of VLSI circuits, introduction to VLSI implementation of computational algorithms represented by logic circuits, lower bounds on area and time, systolic arrays and their applications, VLSI layout algorithms, VLSI test generation and simulation. **Prerequisites:** CS 677

CS 754 - Discrete Optimization

Credits 3

Network optimization problems, use of advanced data structures. Topics may vary and include maximum-flow algorithms, multiterminal maximum flows, minimum cost flows and circulations, matching algorithms, approximation algorithms, and applications. Hamiltonian circuits in dense graphs, disjoint paths, the postman problem, introduction to combinatorial geometry, and linear programming. **Prerequisites:** CS 677

CS 756 - Formal Semantics

Credits 3

Coverage of formal methods for defining the semantics of programming languages, including the operational, denotation and axiomatic approaches. Proof techniques for verifying properties of programs. Consistent and complementary definitions for a Pascal-like language discussed. **Prerequisites:** CS 326 and CS 656

CS 758 - Computational Geometry

Credits 3

Geometric searching, point location, range searching, convex hull, Graham's scan, gift wrapping, dynamic convex hull, proximity closest pair, Voronoi diagram, triangulation. Intersection, visibility shortest paths, geometry of rectangles. **Prerequisites:** CS 677

CS 763 - Advanced Computer Architecture

Credits 3

Advanced study of various current computer architectures. Examples taken from specialized architectures that support modern general-purpose programming, operating systems, artificial intelligence and data bases. SIMD and MIMD parallel architectures. **Prerequisites:** CS 326 and CS 663

CS 767 - Advanced Computer Graphics

Credits 3

Hidden line elimination algorithms and implementation. Perfect interpolators, cubic and bicubic splines, Kriging, Hermite surfaces, nonperfect interpolators, Bezier curves and surfaces, B-splines, ray tracing algorithms, shading, lightness, motion, moving pictures, two- and three- dimensional fractals. Special topics. **Prerequisites:** CS 680

CS 768 - Surface Estimation for Computer-Aided Geometric Design

Credits 3

Affine maps, function spaces, the DeCasteljau algorithm, Bernstein polynomials, Bezier surfaces, nonparametric curves, Lagrange polynomials, C continuity, B-spline basis, Frenet frame, G continuity, gamma splines, beta splines, geometric continuity, tensor product interpolants, volume deformations, curvatures. **Prerequisites:** CS 767

CS 769 - Advanced Data Base Management

Credits 3

Continuation of CS 632, including normalization of relational data bases using functional and multivalued dependencies. Query processing, query interpretation, query optimization, and methods for implementing and optimizing logic queries. Knowledge data bases, distributed data bases and object-oriented data bases.

Prerequisites: CS 657

CS 770 - Advanced Operating Systems

Credits 3

Study of the design principles, organization, and performance analysis of large-scale computer operating systems. Particular subjects emphasized include coordination of tasks, solutions of deadlock problems, theories of segmentation and paging, and performance prediction. **Prerequisites:** CS 370

CS 771 - Concurrent Computation

Credits 3

Study of concurrent programming methods and applications; event spaces; models of concurrency, such as Petri nets, CCS and CSP. Synchronization, data sharing and communication. Concurrency constructs in various programming languages. Scheduling and implementation techniques. Applications of concurrency in operating system design, fault-tolerance, and reliability. **Prerequisites:** CS 326 and CS 370.

CS 772 - Software Architecture

Credits 3

Survey of advanced techniques for specifying and designing large software systems. System verification. Reliability and project management. **Prerequisites:** CS 370, CS 672, and CS 660, or consent of instructor.

CS 777 - Parallel Algorithms

Credits 3

Methods for creating and analyzing parallel algorithms. Parallel programming languages and programming models of shared-memory and distributed architectures. Measuring complexity of parallel algorithms. NC-class versus P-class algorithms. **Prerequisites:** CS 677

CS 778 - Advanced Translation

Credits 3

Formal semantics, automatic compiler generation, attribute grammars. Language issues as they relate to compiler generation. **Prerequisites:** CS 660

CS 779 - Supercompilers for Parallel and Vector Computers

Credits 3

Dependence analysis, Diophantine equations, the GCD test, the Banerjee test, do-loop normalization, concurrency in loops, vector code generation, control dependence and vectorization, parallel code generation for doall-loops, parallel code generation for doacross-loops, shared memory parallelization, parallelization for distributed memory architectures. **Prerequisites:** CS 778

CS 780 - Distributed Computing and Algorithms

Credits 3

Methods and algorithms of distributed computing. Topics may include architecture and design goals, formal approaches to distributed computing problems, networks and protocols, models of distributed computing, synchronization and communication, synchronous and asynchronous systems, fault-tolerance and reliability, self-stabilization, distributed algorithms and applications. **Prerequisites:** CS 370, CS 677

CS 781 - Automated Deduction

Credits 3

Use of computers for forming deductions and proving theorems in symbolic logic covered. Topics include resolution, unification, proof strategies, and equality. Also examines areas of application: problem solving, question answering, program verification, automatic programming and logic programming (Prolog). **Prerequisites:** CS 682

CS 782 - Expert System Construction

Credits 3

Design, organization, and construction of expert systems. Includes general concepts, characteristics, elements, advantages, and examples of expert systems. Also rule-based knowledge representations, inference techniques, implementation tools and shells, and advanced topics. **Prerequisites:** CS 682

CS 783 - Genetic Algorithms and Neural Networks

Credits 3

A study of the utility of adaptive methods and their limitations across optimization problems spanning areas of engineering. Topics include genetic algorithms and genetic programming, simulated annealing, tabu search, neural networks, artificial life. Use of software tools for implementations.

CS 785 - Computational Linguistics

Credits 3

Introduction to linguistics and computational linguistics, for natural language. Phonology, morphology, syntax, semantics, and lexicology. Text analysis and processing; construction of lexicons, and indexes and concordances. Introduction to text retrieval, translation, speech understanding and generation. **Prerequisites:** CS 656

CS 786 - Advanced Computational Linguistics

Credits 3

Advanced study of computational linguistics. Emphasis on cognitive methods in natural language understanding and generation. Pragmatics and discourse. **Prerequisites:** CS 785

CS 788 - Computational Environmetrics

Credits 3

Applications of sensor networks and pattern recognition to environmental problems. Geometric pattern recognition: metrics for comparing 2-d shapes, signature functions, turning functions. Geometric algorithms in sensor networks.

Position based routing, face routing, broadcasting and multi-casting. Interference aware sensor networks. Data gathering and target recognition. Prototype implementation. **Prerequisites:** Consent of instructor.

CS 789 - Topics in Advanced Computer Science

Credits 3

Graduate-level course in some field of computer science, at advanced level, depending upon the current interest of the staff and the students. **Notes:** May be repeated with a different subject matter to a maximum of nine credits.

Prerequisites: Consent of instructor.

CS 790 - Master's Project

Credits 1 – 3

Notes: May be repeated, but only three credits will be applied to the student's program. **Grading:** S/F grading only.

Prerequisites: Consent of instructor.

CS 791 – Thesis Credits 3 – 6

Notes: May be repeated, but only six credits will be applied to the student's program. **Grading:** S/F grading only.

Prerequisites: Consent of instructor.

CS 792 - Research Seminar

Credits 1

Oral presentation of assigned articles. **Notes:** May be repeated to a maximum of four credits. **Prerequisites:** Consent of instructor.

CS 799 - Dissertation Research

Credits 1 – 6

Research analysis and writing towards completion of dissertation and subsequent defense. **Notes:** May be repeated but no more than 18 credits will be allowed in the degree. **Grading:** S/F grading only. **Prerequisites:** Graduate standing in Ph.D. program and consent of advisor.

INF 730 - Human Computer Interaction

Credits 3

Covers the fundamental concepts and techniques for design, implementation, and evaluation of human computer interfaces. Topics include Foundations of Human computer interaction, design and implementation techniques for graphical user interfaces, evaluation techniques, and different interface models. **Prerequisites:** Consent of instructor.

INF 731 - Advanced HCI - Design and Implementation

Credits 3

This course is organized around readings that reinforce the student's knowledge in Human Computer Interaction guidelines, principles, and theories and mainly around projects that allow students to apply theoretical knowledge to the design, implementation, and evaluation of interactive computer systems. **Prerequisites:** INF 730

INF 732 - Affectively Intelligent Systems

Credits 3

Focuses on computational emotion modeling which spawns from a variety of interest: improving basic understanding of the functional role of emotions in humans; integrating emotion recognition and prediction techniques; synthesizing emotion and expression of emotion to apply to synthetic characters, autonomous software agents or robots; understanding social implications of affective information and communication technology.

Prerequisites: INF 700

INF 740 - Digital Media Design, Technology and Representation

Credits 3

Covers principles of design to visualize new media concepts in any medium. Exposes students to new and emerging digital media technologies and applications. **Prerequisites:** Consent of instructor.

INF 760 - Advanced Theoretical Foundations of Informatics

Credits 3

Advanced course to cover mathematical methods for information modeling, analysis, and manipulation. Requires various research article reading and discussions. Topics include proof techniques, first-order logic, computability theory, complexity theory, model theory, and statistics. **Prerequisites:** INF 700

INF 770 - Social Foundations of Informatics

Credits 3

Covers the relationships between social systems and information and communication technologies. Focuses on social factors that influence the organization of information technologies in social and organizational systems, and how the human social factors and technological tools mutually contribute to the field of Informatics. **Prerequisite:** Consent of instructor.

INF 780 - Special Topics in Informatics

Credits 3

Emphasis is on new developments and research in science, humanities, fine arts, and other domain informatics. **Prerequisites:** INF 700

INF 790 - Informatics Project

Credits 3

Advanced project in informatics. **Notes:** May be repeated for different project topics, but only three credits will be applied to the student's program. **Prerequisites:** INF 700 and consent of instructor.

INF 792 – Internship

Credits 3

Supervised internship in business, industry, government, or educational institution providing practical experience to use skills and knowledge acquired in informatics and cognate course work. **Prerequisites:** INF 700 and consent of instructor.

INF 794 - Research Methods

Credits 3

Examination of research methods including: the scientific method, sampling, statistics, research design, analytical technique, literature review, technical writing, professional ethics, faculty research areas and potential topics for thesis. **Prerequisites:** INF 700

INF 795 - Independent Study in Informatics

Credits 1-6

Supervised independent work in a topic of Informatics. **Notes:** May be repeated but no more than 6 credits will be allowed in the degree. **Grading:** S/F grading only. **Prerequisites:** INF 700 and Instructor consent

INF 797 - Master's Thesis

Credits 1-6

Research analysis and writing towards completion of Master's thesis and subsequent defense. **Notes:** May be repeated but no more than 6 credits will be allowed in the degree. **Grading:** S/F grading only. **Prerequisites:** INF 700 and Instructor consent

INF 799 - Dissertation Research

Credits 1 – 6

Research analysis and writing towards completion of dissertation and subsequent defense. **Notes:** May be repeated but no more than eighteen credits will be allowed in the degree. **Prerequisites:** Passing the written comprehensive examination.

Electrical and Computer Engineering

Electrical engineering is the basic and applied research of scientific and mathematical principles to investigate, invent, develop, design, manufacture, and control of machines, processes, phenomena, and/or systems. The work of electrical engineers has had and continues to have a direct and vital impact on people's lives in the fields of environment, energy, defense, homeland security, data security, medicine, space exploration, safety, communication, biology and extending to all types of industrial and manufacturing issues. For example, electrical engineers have been responsible for the creation of electric power and signals at all frequencies and pulse repetition rates, modern electronics, computers, electronic communication systems, modern flight controllers, automated manufacturing, medical diagnostic tools. An electrical engineering education continues to provide opportunities for solving problems of great social significance and for augmenting the quality of life. The Department of Electrical and Computer Engineering at UNLV has excellent facilities for graduate education and research in electrical engineering. In addition, the Electrical and Computer Engineering faculty is experienced and knowledgeable in many of the electrical engineering disciplines, including communications, computer engineering, control system theory, electromagnetics and optics, electronics, power systems, signal processing, and solid state devices. At UNLV, students have the opportunity to interact effectively with faculty and personnel so that programs and research theses and dissertations can be tailored to their interests.

Peter Stubberud, Ph.D., Chair

Robert Schill, Ph.D., Graduate Coordinator

Chair

Stubberud, Peter - Full Graduate Faculty

Professor; B.S., M.S., Ph.D., University of California, Los Angeles. *Rebel since 1991.*

Graduate Coordinator

Schill Jr., Robert A. - Full Graduate Faculty

Professor; B.S.E.E., Milwaukee School of Engineering; M.S.E.E., Ph.D., University of Wisconsin-Madison. *Rebel since 1993.*

Graduate Faculty

Baker, R. Jacob - Full Graduate Faculty

Professor, B.S., M.S. University of Nevada Las Vegas, Ph.D. University of Nevada Reno. *Rebel since 2012.*

Research Interests: Integrated circuit design

Baghzouz, Yahia - Full Graduate Faculty

Professor; B.S., M.S., Ph.D., Louisiana State University. *Rebel since 1987.*

Research Interests: Power system harmonics/power quality; computer-aided analysis of electric power systems; solar photovoltaic systems; renewable energy integration with the utility grid.

Das, Biswajit - Full Graduate Faculty

Professor; B.S.E.E., Indian Institute of Technology, Kharagpur; M.S.E.E., Southern Illinois University, Ph.D., Purdue University. *Rebel since 2003.*

Research Interests: Nanotechnology, Nanoscale device fabrication and characterization, Biomedical applications of nanotechnology, Sensors and sensor networks, RF Circuit Design.

Jiang, Yingtao - Full Graduate Faculty

Associate Professor; B.E., Chongqing University; M.S.E.C.E., Concordia University, Montreal; Ph.D., University of Texas at Dallas. *Rebel since 2001.*

Research Interests: Algorithms, VLSI architectures, and circuit level techniques for the design of DSP, networking and telecommunications systems; computer architectures; computer aided designs; biomedical signal processing, instrumentation, and medical informatics; BioMEMS/BioNEMS; wireless communications and security.

Kachroo, Pushkin - Full Graduate Faculty

Professor; B. Tech (Civil Eng), Indian Institute of Technology; MSME, Rice University; Ph.D. University of California at Berkeley, Ph.D. Virginia Polytechnic Institute. *Rebel since 2008.*

Research Interests: Nonlinear and hybrid control systems, intelligent transportation systems, mechatronics, robotics, distributed parameter systems, differential geometric methods, feedback control in e-marketing, and education and learning, bio-dynamics and control, nano-bio transport control and robotics.

Latifi, Shahram - Full Graduate Faculty

Professor; B.S., M.S., Teheran University; M.S., Ph.D., Louisiana State University. *Rebel since 1989.*

Research Interests: Computer networks, parallel processing, fault-tolerant computing, data compression.

Morris, Brendan - Full Graduate Faculty

Assistant Professor; B.S., University of California, Berkeley; Ph.D., University of California, San Diego. *Rebel since 2001.*

Research Interests: Intelligent systems, computer vision, pattern recognition, machine learning, intelligent transportation systems, and intelligent vehicles.

Muthukumar, Venkatesan - Full Graduate Faculty

Associate Professor; B.S.E.E., Anna University India; M.S.E.E., Ph.D., Monash University, Australia. *Rebel since 2001.*

Research Interests: Embedded systems, high performance computation on FPGAs, network and system on chips, multi-core and microprocessor systems.

Regentova, Emma - Full Graduate Faculty

Associate Professor; M.S.C.E., Ph.D., State Engineering University of Armenia. *Rebel since 2001.*

Research Interests: Classical and applied image processing, image analysis, coding and compression, pattern recognition. Advanced Computer Architectures. Computer Networks.

Saberinia, Ebrahim - Full Graduate Faculty

Associate Professor; B.S.E.E., M.S.E.E., Sharif University of Technology; Ph.D., University of Minnesota. *Rebel since 2004.*

Research Interests: Communications; Wireless communication systems and networks; Wireless local, personal and sensor area networks.

Schill, Robert A. - Full Graduate Faculty

Professor; B.S.E.E., Milwaukee School of Engineering; M.S.E.E., Ph.D., University of Wisconsin-Madison. *Rebel since 1993.*

Research Interests: Charged particle beams; microwave theory; fiber, traditional and modern optics; plasma physics; electromagnetic fields and material interactions; linear and nonlinear waves; pulsed power; biomedical and environmental applications of electromagnetics and pulse power.

Selvaraj, Henry - Full Graduate Faculty

Professor; M.S., Ph.D., Warsaw University of Technology. *Rebel since 1994.*
Research Interests: Digital circuit design; programmable logic devices; logic synthesis; application of logic synthesis techniques in machine learning; data compression and data mining, functional decomposition; PLAs; and FPGAs; multiple valued functions and applications; artificial intelligence and multimedia; microprocessor architecture; and DSP.

Singh, Sahjendra N. - Full Graduate Faculty

Professor; B.S., Patna University; M.E., Indian Institute of Science; Ph.D., The Johns Hopkins University. *Rebel since 1986.*

Research Interests: Systems and Control Theory. Robotics. Applications to Aerospace Stability and Control. Fluid Flow Control.

Stubberud, Peter - Full Graduate Faculty

Professor; B.S., M.S., Ph.D., University of California, Los Angeles. *Rebel since 1991.*

Research Interests: Digital Signal Processing, multidimensional digital signal processing, adaptive signal processing, neural networks, mixed signal VLSI design, data converters.

Sun, Ke-Xun - Full Graduate Faculty

Professor; B.S., Peking (Beijing) University; M.S., Nagoya University; Ph.D., Massachusetts Institute of Technology. *Rebel since 2012.*

Research Interests: Security science and engineering, radiation hard III-V semiconductor and devices, micro and nano technology, radiation detection and measurement, ultrafast electronics, optics and nonlinear optical devices, HEDP diagnostics systems, space flight and payload instruments, and scientific computing.

Venkat, Rama - Full Graduate Faculty

Professor; B.Tech., Indian Institute of Technology; M.S., Ph.D., Purdue University. *Rebel since 1989.*

Research Interests: Electronic Materials and Devices, Device Physics and Modeling and Process Physics and Modeling.

Yang, Mei - Full Graduate Faculty

Associate Professor; B.E.C.E., M.E.C.E., University of Electronic Science and Technology of China; Ph.D., University of Texas at Dallas. *Rebel since 2004.*

Research Interests: Computer architectures, computer networks, wireless sensor networks, and embedded systems.

Professors Emeriti

Brogan, William L.

Emeritus Professor; B.S.M.E., State University of Iowa; M.S., Ph.D., University of California, Los Angeles. *UNLV Emeritus 1990-1998.*

McGaugh, Eugene E.

Emeritus Professor; B.S., University of Kansas; M.S., University of Missouri; Ph.D., University of Kansas. *UNLV Emeritus 1989-2010.*

Electrical and Computer Engineering Plans

Master of Science in Engineering - Electrical Engineering

The Department of Electrical and Computer Engineering at UNLV offers a number of program degree options leading to the Master of Science in Engineering (M.S.E.) - Electrical Engineering. Specific areas of study that are currently available include Communications, Computer Engineering, Control System Theory, Electromagnetics and Optics, Electronics, Power Systems, Signal Processing, and Solid State Materials and Devices. The following degree options are available: M.S.E. - Electrical Engineering with thesis option, M.S.E. ,Äi Electrical Engineering with course only option, M.S.E. ,Äi Electrical Engineering Integrated BS-MS track option, and M.S.E. ,Äi Electrical

Engineering dual degree option. The M.S.E. ,Äi Electrical Engineering thesis option culminates with a thesis which prepares the student for a Ph.D. experience if higher education is desired. The course only option is a final advanced professional degree option culminating with a comprehensive exam that must be passed in the student,Äôs specialty area. The Integrated BS-MS track option is for UNLV graduates who excel in their ECE UNLV undergraduate programs wanting to attain a M.S.E. or Ph.D. degree at UNLV in ECE with the thesis option. The dual degree program allows the student to complete a M.S.E. ,Äi Electrical Engineering degree and a Masters of Science in Mathematics degree jointly [Refer to Dual Degree: Master of Science in Engineering ,Äi Electrical Engineering and Master of Science ,Äi Mathematical Sciences].

Learning Outcomes

www.unlv.edu/degree/ms-electrical-engineering

Plan Admission Requirements

Applications are considered on an individual basis. Candidates can be admitted on a regular (full graduate standing) or provisional status. Qualified applicants who are not admitted on either status can take graduate courses as a non-degree seeking graduate student. Up to 15 UNLV credits taken as a non-degree seeking graduate student at UNLV can be applied towards an M.S.E. degree. Potentially, six graduate credits taken at another regionally accredited university [Graduate College Policy] may be transferred into the M.S.E. degree program at UNLV. At most, only 15 credits of a combination of non-UNLV course credits and ECE UNLV course credits taken as a non-seeking graduate student may be applied to the M.S.E. program. Courses with a grade less than B (3.0) cannot be applied to the M.S.E. program. Further, the courses must not have been or will be applied to different degree program. Note that informal course credits will not be transferred into a M.S.E. degree program. Informal courses such as Graduate Independent Study and seminar taken as a non-degree seeking student cannot be applied towards an M.S.E. degree. Non-degree seeking students can count Electrical & Computer Engineering Graduate Special Topics towards the program degree as long as they adhere to the conditions of the particular program option regarding informal course credits.

To be considered for admission to the M.S.E. program, an applicant must:

1. Have a Bachelor of Science (B.S.) degree in electrical engineering, computer engineering or a closely related discipline.
2. Applicants who possess a bachelor,Äôs degree in a closely related discipline, such as physics or mathematics, may be admitted on conditional and/or provisional status. These students will be required to complete certain undergraduate and/or graduate courses before they can attain regular status. The graduate committee determines these courses on an individual basis.
3. Graduates with degrees in engineering technology ordinarily have an inadequate background to be admitted to the graduate program.
4. Have a minimum grade point average (GPA) of 3.00 (A=4.00) for their bachelor,Äôs degree. Applicants who have an overall GPA below 3.00 must submit Graduate Record Examination (GRE) scores {scaled score and percentile score in quantitative, verbal reasoning, and analytical writing} to the Electrical and Computer Engineering Department. These applicants may be admitted subject to the discretion and possible further requirements of the Electrical and Computer Engineering Graduate Committee. Applicants who want to be considered for an assistantship, or who feel that their GRE scores will enhance their chances for admission, are strongly encouraged to submit GRE scores.
5. Submit GRE scaled and percentile scores in quantitative, verbal reasoning, and analytical writing to the Department of Electrical and Computer Engineering if the applicant did not obtain his bachelor,Äôs degree from an ABET accredited institution, if the applicant is interested in a teaching assistantship, or if the applicant received a Bachelor,Äôs Degree in Electrical and Computer Engineering more than five years prior to the first day of the first semester of the degree program applied for. Interpretation of the scores is at the discretion of the Electrical and Computer Engineering Graduate Committee. (An applicant possessing a bachelor,Äôs degree from an ABET accredited institution within the past five years is not required to submit GRE scores.)
6. Submit a completed application prior to the department,Äôs admission deadline.

7. Completed online application.
8. Submit official transcripts of all college-level work to the Graduate College.
9. Submit an additional set of transcripts of all college-level work directly to the Department of Electrical and Computer Engineering.
10. Submit a one page written statement of purpose indicating the applicant, "s research interests, motivations, and objectives.
11. In the statement of purpose, the applicant must explicitly identify his/her areas of interest from the following list of areas offered at UNLV in the ECE Department: Communications, Computer Engineering, Control Systems, Electromagnetics and Optics, Electronics, Power Systems, Signal Processing, and Solid State Materials and Devices (which includes Nanotechnology).
12. Applicants are required to account for all time beyond the Bachelor degree indicating how they have developed professionally.
13. Applicants transferring from other graduate programs must justify why they are leaving that program to join our program.
14. Applicants receiving grades less than B in a graduate course elsewhere may not be admitted to the graduate program without a well justified explanation. Poor performance in course work in the program that the student is transferring from may be a cause for denial of admission. It will be the graduate committee, "s discretion whether to allow or deny admission.
15. Submit three dated letters of recommendation concerning the applicant, "s potential for succeeding in the graduate program. If the applicant has attended a university or is currently enrolled in a program beyond the bachelor degree, then the letters of recommendation should be solicited from that university or program. If the applicant has been out of school for an extended period of time, then letters should be solicited from the professional community that can comment on the applicant, "s technical background and/or from the applicant, "s most recent academic institution. Letters of recommendation written beyond a six-month period prior to applying for admission to our graduate program will not be accepted. Strong letters of recommendation illustrate technical talent and professional accomplishments beyond the grade point average or course grade. The graduate committee is interested in the applicant, "s technical, conceptual, verbal, ethical, and social skills. The graduate committee is interested in the applicant, "s ability to perform research with evidence to substantiate claims made. Note that letters from professors that casually know the applicant will not help in the admission process.

Application deadlines are February 1st for admission in the fall of the same year and October 1st for admission in the spring of the subsequent year.

Before international applicants can be considered for admission, the Graduate College requires that all international applicants take the Test of English as a Foreign Language (TOEFL) and obtain a minimum score of 550 or 85 on the Michigan Test. Students whose first language is not English may be required to take and pass the English as a Second Language Placement Test upon arrival at UNLV. If necessary, they will be required to take English as a Second Language (ESL) courses at UNLV.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

The Integrated BS-MS Track program allows select UNLV undergraduates to pursue the Electrical Engineering M.S.E. degree at UNLV. The program provides an opportunity for those undergraduates who have taken either 9, 6, or 3 graduate-level electrical and computer engineering course credits applied toward their undergraduate electrical/computer engineering degrees, to complete the respectively corresponding M.S. in Engineering with a total of either 21, 24, or 27 as opposed to the 30 credits required for Thesis Track. Students admitted to the Integrated BS-MS Track program are required to write a thesis.

To be considered for admission to the Integrated BS-MS Track, an applicant must:

Have a minimum overall grade point average (GPA) of 3.5 (A = 4.00) for their B.S. degree in electrical engineering or computer engineering at UNLV.

Have completed up to a maximum of 9 credits of formal Graduate College curriculum approved 600/700 level courses (which excludes informal courses such as Graduate Independent Study, Graduate Seminar, and Special Topics) which were applied towards the student's B.S. degree. Each graduate level course must have been completed with a minimum grade of B (3.0).

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Comprehensive Exam Track

Total Credits Required: 30

Course Requirements

Core Courses ,À Credits: 9

- Complete a minimum of 3 credits in at least three of the following areas:
 - Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 700 - Advanced Computer System Architecture
 - ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital System
 - Control Systems Theory
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - ECG 774 - Stochastic Control
 - ECG 776 - Adaptive Control
 - Electromagnetics and Optics
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I
 - Electronics
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
 - Power Engineering
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control

- Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 781 - Digital Filters
 - ECG 782 - Multidimensional Digital Signal Processing
 - ECG 783 - Adaptive Signal Processing with Neural Networks
- Solid State Electronics
 - ECG 750 - Optical Electronics I
 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices

Additional Core Courses ,Ä Credits: 12

- Complete 12 credits of 700-level additional core courses from the core courses in any of the areas listed above.
- Elective Courses ,Ä Credits 9
 - Complete a minimum of 9 credits of 600- or 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.

Degree Requirements

- Students must satisfy the M.S.E. - Electrical Engineering degree program admission requirements and be admitted to the M.S.E. - Electrical Engineering program with regular full graduate standing status, having met all conditions and provisions.
- Students must complete a minimum of 30 credits of graduate level courses with an overall minimum GPA of 3.00 (B), a minimum GPA of 3.00 (B) each semester, and a minimum GPA of 2.70 (B-) in each class applied towards the 30 credits. Grades below B- are not counted towards the M.S.E. degree and must be repeated or replaced.
- Students who do not maintain an overall GPA of 3.00 (B), a GPA of 3.00 (B) each semester, or who earn more than one grade below B- will either be placed on probation or expelled from the program. The Electrical and Computer Engineering Graduate Committee and/or the Graduate College will determine the terms of the student,Äs probation in accordance with the rules of the Graduate College.
- At the time of admission or no later than the first semester, the candidate must formally petition BOTH the graduate college and the ECE graduate committee to accept transfer credits and credits taken as a non-degree seeking graduate student to be applied to the M.S.E. program.
- Students must select a faculty advisor in their first semester.
- A minimum of 21 credits must be in core electrical engineering 700-level courses excluding informal courses (such as Independent Study, Graduate Seminar, and Special Topics).
- No more than 3 credits may be from Independent Study (which cumulatively includes Graduate Seminar) and no more than a total of 6 credits of the combination of Independent Study, Graduate Seminar, and Graduate Special Topics may be applied towards the M.S.E. degree program.
- Pass a comprehensive exam on graduate level coursework in the student,Äs specialty area.
- The exam may be taken in the last two semesters of the student,Äs M.S.E. program.
- The student may not take the exam until all course work pertaining to the exam is completed. For clarity, students enrolled in courses pertaining to the comprehensive exam cannot take the comprehensive exam. Within the six year limit, the exam may be repeated until passed but cannot be taken more than once per semester. Prior to the end of the first week of classes in the student,Äs last two semesters, the student must announce to the ECE Graduate Coordinator his/her intention of taking the exam, the major field to be examined, and at least two courses taken in that field.
- The Comprehensive Exam Track is a final advanced professional degree option in that students who complete this track will not be considered for admission into any of the department,Äs Ph.D. program options.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must pass a final comprehensive exam.

Subplan 2 Requirements: Thesis Track

Total Credits Required: 30

Course Requirements

Core Courses , Credits: 9

- Complete a minimum of 3 credits in at least three of the following areas:
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics
 - ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture
 - ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital Systems
 - Control Systems Theory
 - ECG 672 - Digital Control Systems
 - ECG 674 - Recent Topics in Control
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - ECG 774 - Stochastic Control
 - ECG 776 - Adaptive Control
 - Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I
 - Electronics

- ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
- Power Engineering
 - ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
- Signal Processing
 - ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 781 - Digital Filters
 - ECG 782 - Multidimensional Digital Signal Processing
 - ECG 783 - Adaptive Signal Processing with Neural Networks
- Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 750 - Optical Electronics I
 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- Additional Core Courses ,Äi Credits: 9
 - Complete 9 credits of additional core courses from the core courses in any of the areas listed above.
- Elective Courses ,Äi Credits: 6
 - Complete a minimum of 6 credits of 600- or 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Thesis ,Äi Credits: 6
 - ECG 797 - Electrical Engineering Thesis

Degree Requirements

- Students must satisfy the M.S.E. - Electrical Engineering degree program admission requirements and be admitted to the M.S.E. - Electrical Engineering program with regular full graduate standing status, having met all conditions and provisions.
- Students must complete a minimum of 30 credits of graduate level courses with an overall minimum GPA of 3.00 (B), a minimum GPA of 3.00 (B) each semester, and a minimum GPA of 2.70 (B-) in each class applied towards the 30 credits. Grades below B- are not counted towards the M.S.E. degree and must be repeated or replaced.
- Students who do not maintain an overall GPA of 3.00 (B), a GPA of 3.00 (B) each semester, or who earn more than one grade below B- will either be placed on probation or expelled from the program. The Electrical and Computer Engineering Graduate Committee and/or the Graduate College will determine the terms of the student,Äs probation in accordance with the rules of the Graduate College.
- At the time of admission or no later than the first semester, the MS candidate must formally petition BOTH the graduate college and the ECE graduate committee to accept transfer credits and credits taken as a non-degree seeking graduate student to be applied to the M.S.E. program.
- Students must select a faculty advisor in their first semester.

- A minimum of 18 credits must be in core (formal) electrical engineering courses, of which 15 credits must be 700-level. This excludes Thesis credits, and informal courses (such as Special Topics, Graduate Seminar, and Independent Study).
- No more than 3 credits may be from Independent Study (which cumulatively includes Graduate Seminar) and no more than a total of 6 credits of the combination of Independent Study, Graduate Seminar, and Graduate Special Topics may be applied towards the M.S.E. degree program.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Às discretion. Please see Graduate College policy for committee appointment guidelines.
- Students must complete a thesis.
- Students must complete at least 6 credits of Thesis which culminates in the successful completion of a thesis oral exam and the submission of an approved thesis. Although Electrical Engineering Thesis can be taken repeatedly, no more than 6 credits can be applied towards the 30 credits required for the M.S.E. degree.
- Before beginning a thesis, students must have their thesis topic approved by their advisor, and the necessary paper work must be filed with the Graduate College. The thesis prospectus describes the thesis topic and must include an introductory set of sentences, a well formed hypothesis or hypotheses (specifically italicized in the prospectus) accompanied by a motivation, objectives with major and alternative approaches to the studies, and conjectures of possible outcomes. Students are NOT allowed to take thesis credits until their thesis prospectus is approved. Credits taken before the approval date will NOT count towards the degree program.
- The student must complete a thesis containing original research and publically defend it before his/her advisory committee at the Thesis Exam.
- Prior to the student,Às defense of the thesis before his/her advisory committee, the student must submit a complete copy of the thesis to each member of his/her advisory committee. This submission must occur at least two weeks prior to the date of the oral defense. The student must also notify each member of his/her advisory committee of the date, time and location of the oral defense of the thesis or project at least two weeks in advance.
- Students who plan to continue their studies beyond the M.S.E. degree program are strongly encouraged to select this option.
- A full graduate standing master,Às degree candidate who is interested in pursuing a doctoral degree may be allowed to take the Ph.D. qualifying exam without penalty during his/her period as an M.S.E. student. The exam may be taken as many times as desired but no more than once a semester at the time the exam is typically offered. The M.S.E. candidate must pass four areas of choice in a single sitting to satisfy the Qualifying Exam requirement. If the student successfully completes the Qualifying Exam requirement while pursuing the M.S.E. degree in Electrical Engineering with a thesis option in the Electrical and Computer Engineering department at UNLV, the student will have automatically fulfilled the Qualifying Exam requirement upon admission to the Ph.D. program in the Electrical and Computer Engineering program at UNLV. Once the student receives an M.S. degree in the field of Electrical Engineering, the student must abide by the requirements outlined in the Ph.D. program. This option is not available to non-degree students.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 3 Requirements: Integrated BS-MS Track

Total Credits Required: 21-27

Course Requirements

Core Courses ,À Credits: 0-9

- Complete a minimum of 0-3 credits in at least three of the following areas:
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics
 - ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture
 - ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital Systems
 - Control Systems Theory
 - ECG 672 - Digital Control Systems
 - ECG 674 - Recent Topics in Control
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - ECG 774 - Stochastic Control
 - ECG 776 - Adaptive Control
 - Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I
 - Electronics
 - ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
 - Power Engineering
 - ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems

- ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
 - Signal Processing
 - ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 781 - Digital Filters
 - ECG 782 - Multidimensional Digital Signal Processing
 - ECG 783 - Adaptive Signal Processing with Neural Networks
 - Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 750 - Optical Electronics I
 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- Additional Core Courses ,Ä Credits: 0-9
 - Complete 0-9 credits of additional core courses from the core courses in any of the areas listed above.
- Elective Courses ,Ä Credits: 0-6
 - Complete 0-6 credits of 600- or 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Thesis ,Ä Credits: 6
 - ECG 797 - Electrical Engineering Thesis

Degree Requirements

- Students must satisfy the M.S.E. - Electrical Engineering degree program admission requirements and be admitted to the M.S.E. - Electrical Engineering program with regular full graduate standing status, having met all conditions and provisions.
- Total credits required depends on the total number of approved graduate-level course work taken as technical electives (with a grade of B or better) during the senior year.
- Complete a minimum of 21, 24, or 27 credits (including thesis credits) in the Integrated BS-MS track program respectively corresponding to 9, 6, or 3 credits of formally approved graduate level courses applied toward the B.S. degree yielding a total of 30 course credits. The final division of major, minor, and elective credits will be determined in consultation with the student,Äs advisor.
- Students must complete all courses with an overall minimum GPA of 3.00 (B), a minimum GPA of 3.00 (B) each semester, and a minimum GPA of 2.70 (B-) in each class applied towards the 30 credits. Grades below B- are not counted towards the M.S.E. degree and must be repeated or replaced.
- Students who do not maintain an overall GPA of 3.00 (B), a GPA of 3.00 (B) each semester, or who earn more than one grade below B- will either be placed on probation or expelled from the program. The Electrical and Computer Engineering Graduate Committee and/or the Graduate College will determine the terms of the student,Äs probation in accordance with the rules of the Graduate College.
- At the time of admission or no later than the first semester, the MS candidate must formally petition BOTH the graduate college and the ECE graduate committee to accept transfer credits and credits taken as a non-degree seeking graduate student to be applied to the M.S.E. program.
- Students must select a faculty advisor in their first semester.
- A minimum of 18 credits must be in core (formal) electrical engineering courses, of which 15 credits must be 700-level. This excludes Thesis credits, and informal courses (such as Special Topics, Graduate Seminar, and Independent Study).
- No more than 3 credits may be from Independent Study (which cumulatively includes Graduate Seminar) and no more than a total of 6 credits of the combination of Independent Study, Graduate Seminar, and Graduate Special Topics may be applied towards the M.S.E. degree program.

- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department, 's discretion. Please see Graduate College policy for committee appointment guidelines.
- Students must complete a thesis.
- Students must complete at least 6 credits of Thesis which culminates in the successful completion of a thesis oral exam and the submission of an approved thesis. Although Electrical Engineering Thesis can be taken repeatedly, no more than 6 credits can be applied towards the 30 credits required for the M.S.E. degree.
- Before beginning a thesis, students must have their thesis topic approved by their advisor, and the necessary paper work must be filed with the Graduate College. The thesis prospectus describes the thesis topic and must include an introductory set of sentences, a well formed hypothesis or hypotheses (specifically italicized in the prospectus) accompanied by a motivation, objectives with major and alternative approaches to the studies, and conjectures of possible outcomes. Students are NOT allowed to take thesis credits until their thesis prospectus is approved. Credits taken before the approval date will NOT count towards the degree program.
- The student must complete a thesis containing original research and publically defend it before his/her advisory committee at the Thesis Exam.
- Prior to the student, 's defense of the thesis before his/her advisory committee, the student must submit a complete copy of the thesis to each member of his/her advisory committee. This submission must occur at least two weeks prior to the date of the oral defense. The student must also notify each member of his/her advisory committee of the date, time and location of the oral defense of the thesis or project at least two weeks in advance.
- Students who plan to continue their studies beyond the M.S.E. degree program are strongly encouraged to select this option.
- A full graduate standing master, 's degree candidate who is interested in pursuing a doctoral degree may be allowed to take the Ph.D. qualifying exam without penalty during his/her period as an M.S.E. student. The exam may be taken as many times as desired but no more than once a semester at the time the exam is typically offered. The M.S.E. candidate must pass four areas of choice in a single sitting to satisfy the Qualifying Exam requirement. If the student successfully completes the Qualifying Exam requirement while pursuing the M.S.E. degree in Electrical Engineering with a thesis option in the Electrical and Computer Engineering department at UNLV, the student will have automatically fulfilled the Qualifying Exam requirement upon admission to the Ph.D. program in the Electrical and Computer Engineering program at UNLV. Once the student receives an M.S. degree in the field of Electrical Engineering, the student must abide by the requirements outlined in the Ph.D. program. This option is not available to non-degree students.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Comprehensive Exam Track
- Subplan 2: Thesis Track
- Subplan 3: Integrated BS-MS Track

Doctor of Philosophy - Electrical Engineering

The culminating experience in the Ph.D. program in the Department of Electrical and Computer Engineering is centered about developing new knowledge focused around a specific theme embodied in the form a well-written and orally defended dissertation. The Department of Electrical and Computer Engineering at UNLV offers a number of program options leading to the Ph.D. degree in the Field of Electrical Engineering. Specific major areas of study currently available include: Communications, Computer Engineering, Control System Theory, Electromagnetics and Optics, Electronics, Power Systems, Signal Processing, and Solid State Materials and Devices.

Applicants may be admitted to the Electrical Engineering Ph.D Program through one of the following three options: the Post-Master, "Track, the Post-Bachelor, "Track, or the Post-Bachelor, "Integrated BS-PHD Track. The Post-Master, "Track requires the student to have completed a M.S. Degree in Electrical Engineering, Computer Engineering, or a closely related field with thesis before entering the program.

The Post-Bachelor, "Track allows undergraduates with outstanding undergraduate backgrounds to enter the Ph.D. program without having to complete a M.S. Degree in Electrical or Computer Engineering. The Post-Bachelor, "Integrated BS-PHD Track allows students who applied up to 9 credits of graduate courses towards their B.S. degrees to complete their Ph.D. in engineering with up to 9 fewer credits than students in the Post-Bachelor, "Track. All requirements leading to a Ph.D. are still required beyond the B.S. Degree in Electrical and Computer Engineering excluding the completion of a Master, " thesis. In conjunction with these options, a dual degree option does exist for candidates simultaneously working towards a Ph.D. degree in Electrical Engineering and a Master of Science degree in Mathematics. This program prepares graduate students with complementing educational components covering electrical engineering and mathematics, which is the basis of all engineering. [Refer to the Dual Degree Doctor of Philosophy, "Electrical Engineering and Master of Science, "Mathematical Sciences program description.]

Learning Outcomes

<http://www.unlv.edu/degree/phd-electrical-engineering>

Plan Admission Requirements

Applicants are considered on an individual basis. Applicants may be admitted as a regular or provisional status student. Qualified applicants who are not admitted can take graduate courses as a non-degree seeking graduate student. Up to 15 UNLV credits taken as a non-degree seeking graduate student at UNLV can be applied towards a PhD degree program in electrical and computer engineering. Potentially, nine graduate credits taken at another regionally accredited university may be transferred in the PhD degree program at UNLV. At most, only 15 credits of a combination of UNLV and non-UNLV course credits, within the constraints above, may be applied to the PhD program. Courses with a grade less than B (3.0) will not be applied to the PhD program. Further, the courses must not have been or will be applied to different degree program. Note that informal course credits will not be transferred into a PhD degree program. Informal courses such as Graduate Independent Study and Seminar taken as a non-degree seeking student cannot be applied towards a program degree in ECE. Non-degree seeking students can count Electrical & Computer Engineering Graduate Special Topics towards the program degree as long as they adhere to the conditions of the particular program option regarding informal course credits.

To be considered for admission an applicant must:

Submit GRE scaled and percentile scores in quantitative, verbal reasoning, and analytical writing to the Department of Electrical and Computer Engineering and have obtained the following minimum relative percentile comparison rank of 75 in the Quantitative section, 20 in the Verbal Reasoning section, and 20 in Analytical Writing. Please note that GRE scores will only be considered valid if taken within five years prior to the time of admission

and are recognized by the GRE examination board. Official scores must be obtained from an official GRE provider. The GRE requirement can be waived under the circumstances listed in the GRE Waiver section.

Submit a completed application form and official transcripts of all college level work to the Graduate College. Submit an additional set of transcripts of all college-level work directly to the Department of Electrical and Computer Engineering.

Submit a one page written statement of purpose indicating the applicant's interests, motivations, and objectives. In the statement of purpose, the applicant must explicitly identify his/her areas of interest from the following list of areas offered at UNLV in the ECE Department: Communications, Computer Engineering, Control Systems, Electromagnetics and Optics, Electronics, Power Systems, Signal Processing, and Solid State Materials and Devices (which includes Nanotechnology). Applicants are required to account for all time beyond the B.S. degree indicating how they have developed professionally. Applicants transferring from other graduate programs without obtaining an M.S. degree must justify why they are leaving that program to join our graduate program. Applicants receiving grades less than B in a graduate course elsewhere may not be admitted to the graduate program without a well justified explanation. Poor performance in course work in the program that the student is transferring from can be a cause for denial of admission. It will be the graduate committee's discretion whether to allow or deny admission.

Submit three letters of recommendation (signed and dated) concerning the applicant's potential for succeeding in the graduate program directly to the Department of Electrical and Computer Engineering. Letters of reference may be electronically uploaded in the online admissions application process. If the student received a M.S. degree in electrical or computer engineering at UNLV, then only one letter of recommendation is required, and it must come from the candidate's faculty advisor who should be the student's thesis committee chair. If the applicant has attended a university or is currently enrolled in a program beyond the M.S. degree, then at least one letter of recommendation should be solicited from that university or program and two from the university in which the M.S. degree was received. One of the three letters should be written by your thesis advisor commenting on your background and your thesis research. If the applicant has been out of school for an extended period of time, then letters should be solicited from the professional community who can comment on the applicant's technical background and/or from the applicant's most recent academic institution. Letters of recommendation written beyond a six-month period prior to applying for admission to our graduate program will not be accepted. Strong letters of recommendation illustrate technical talent and professional accomplishments beyond the grade point average or course grade. The graduate committee is interested in the applicant's technical, conceptual, verbal, ethical and social skills. The graduate committee is interested in the applicant's ability to perform research with evidence to substantiate claims made. Note that letters from professors that casually know you will not help you in the admission process.

Before international applicants can be considered for admission, the Graduate College requires that all international applicants take the Test of English as a Foreign Language (TOEFL) and obtain a minimum score of 550 or 85 on the Michigan Test. Students whose first language is not English may be required to take and pass the English as a Second Language Placement Test upon arrival at UNLV. If necessary, they will be required to take English as a Second Language (ESL) courses at UNLV.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Application deadlines are February 1st for admission in the fall of the same year and October 1st for admission in the spring of the subsequent year.

Post-Master Track

Have a Master of Science (M.S.) degree in electrical engineering or computer engineering or a closely related field with an M.S. thesis component. The M.S. thesis must be completed prior to admission. Potential candidates applying to the program based on a course only option or a project option will not be admitted. (Applicants who

possess a bachelor, 's degree in a closely related discipline, such as physics or mathematics, may be admitted on conditional and/or provisional status. These students will be required to complete certain undergraduate and/or graduate courses before they can attain regular full graduate standing status. The graduate committee determines these courses on an individual basis.)

Have a minimum overall grade point average (GPA) of 3.20 (A = 4.00) for their M.S. degree and a 3.00 for their B.S. degree.

Post-Bachelors Track:

Have a Bachelor of Science (B.S.) degree in electrical engineering or computer engineering or a closely related field. (Applicants who possess a bachelor degree in a closely related discipline, such as physics or mathematics, may be admitted on conditional and/or provisional status. These students will be required to complete certain undergraduate and/or graduate courses before they can attain regular full graduate standing status. The graduate committee determines these courses on an individual basis.)

Have a minimum overall grade point average (GPA) of 3.50 (A = 4.00) for their B.S. degree in Electrical or Computer Engineering a closely related field.

Post-Bachelor, 's Integrated BS-PHD Track:

The Integrated BS-PHD Track program allows UNLV undergraduate students who applied up to 9 credits of UNLV electrical engineering or computer engineering graduate courses towards their UNLV B.S. in Electrical Engineering or Computer Engineering degree to complete their Ph.D. in engineering with up to 9 fewer credits than students in the Post-Bachelor, 's Track. All requirements leading to a Ph.D. are still required beyond the B.S. Degree in Electrical and Computer Engineering excluding the completion of a Master, 's thesis.

Have a minimum overall grade point average (GPA) of 3.5 (A = 4.00) for their B.S. degree in electrical engineering or computer engineering at UNLV.

Have completed up to a maximum of 9 credits of formal Graduate College curriculum approved 600/700 level courses (which excludes informal courses such as Graduate Independent Study, Graduate Seminar, and Special Topics) which were applied towards the student, 's B.S. degree. Each graduate level course must have been completed with a minimum grade of B (GPA) of 3.2 (A = 4.00).

The GRE entrance requirement will be waived for students entering the Ph.D. program if ALL of the following are satisfied:

The candidate receives a MS degree in Electrical and Computer Engineering (ECE) at UNLV.

The candidate, 's BS GPA equals or exceeds 3.0.

The candidate, 's MS GPA equals or exceeds 3.6.

The candidate shows evidence that a paper pertaining to his/her research has been published in a refereed conference (minimum requirement). A published article in a refereed journal exceeds this minimum requirement. In all cases, the candidate must be the first author of the publication. Galley proofs along with a letter of acceptance may be used as minimum evidence that a paper will be published.

The candidate is not seeking a teaching assistantship.

One strong letter of recommendation from the major professor indicating the student, 's ability for higher education.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Master's Track

Total Credits Required: 45

Course Requirements

Major Field Courses ,À Credits: 6-15

- Complete 6-15 credits of coursework in an approved major in a single area in Electrical and Computer Engineering with a minimum overall average GPA of 3.33.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics
 - ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture
 - ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital Systems
 - Control Systems Theory
 - ECG 672 - Digital Control Systems
 - ECG 674 - Recent Topics in Control
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - ECG 774 - Stochastic Control
 - ECG 776 - Adaptive Control
 - Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I

- Electronics
 - ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
- Power Engineering
 - ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
- Signal Processing
 - ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 781 - Digital Filters
 - ECG 782 - Multidimensional Digital Signal Processing
 - ECG 783 - Adaptive Signal Processing with Neural Networks
- Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 750 - Optical Electronics I
 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices

Minor Fields Courses ,Äi Credits: 6-18

- Select two advisor-approved minor fields and complete coursework in each single area totaling 6-18 credits, with a minimum overall average GPA of 3.33. The secondary minor can be from a field outside Electrical Engineering.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 763 - Advanced Digital Communication Systems
 - Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics
 - ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture
 - ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital Systems
 - Control Systems Theory

- ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I
 - Electronics
 - ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
 - Power Engineering
 - ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
 - Signal Processing
 - ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 781 - Digital Filters
 - Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 750 - Optical Electronics I
 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- Elective Courses ,Ã Credits: 0-12
 - Complete 0-12 credits of 600- or 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Dissertation ,Ã Credits: 18
 - ECG 799 - Dissertation

Degree Requirements

- All Ph.D. students must satisfy the Ph.D. degree program admission requirements and be admitted to the Ph.D. program on a regular status.
- Complete a minimum of 27 credits of graduate level courses (excluding dissertation credits) with an overall minimum GPA of 3.20 and a minimum GPA of 2.70 (B-) in each class applied towards the 27 credits. The final division of major, minor, and elective credits will be determined in consultation with the student,Ãs advisor.

- Of the 27 required credits, a minimum of 18 credits must be in 700-level courses. Of these 18 credits, a minimum of 15 must be from formal courses. The student, Ås doctoral advisory committee may add more requirements in accordance with the individual, Ås background and field of study.
- No more than 3 credits may be from Graduate Independent Study together with Graduate Seminar. No more than 6 credits of a combination of informal courses such as Graduate Independent Study, Special Topics, and Seminar may be applied to the degree program.
- Beyond the Bachelor degree, a Ph.D. student must complete a minimum of 15 credits in an approved ECE major field, 9 credits an approved ECE minor (primary minor) field, and 9 credits in a second approved open minor (secondary minor) field. Of the 15 credits required in the ECE major field, a minimum of 9 credits must be completed in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in the major field. Of the 9 required credits in each minor field, a minimum of 6 credits must be in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in each of the minor fields.
- Informal courses (Graduate Independent Study, Graduate Seminar, and Special Topics) cannot be applied to the ECE major, ECE minor (primary minor) and the open minor (secondary minor) fields.
- At the time of admission or no later than the first semester, the Ph.D. candidate must formally petition BOTH the graduate college and the ECE graduate committee to accept transfer credits and credits taken as a non-degree seeking graduate student to be applied to the Ph.D. program.
- All regular (full graduate standing) status graduate students must select a faculty advisor in their first semester.
- Maintain a minimum overall grade point average (GPA) of 3.20, must maintain a minimum GPA of 3.20 each semester, and must complete all graduate level courses that apply towards their degree with a minimum GPA of 2.70 (B-) in each course. Grades below B- cannot be applied towards the Ph.D. degree and must be repeated or replaced. A class grade below C (2.0) is grounds for initiating a program separation recommendation to the Graduate College. Ph.D. candidates who do not maintain an overall minimum GPA of 3.2, who do not maintain a minimum GPA of 3.2 each semester, or who earn more than one grade below B- will be placed on academic probation or expelled from the program. The Electrical and Computer Engineering Graduate Committee in conjunction with the Graduate College will determine the terms of the student, Ås probation based upon the student, Ås academic record and in accordance with the rules of the Graduate College.
- All regular (full graduate standing) status graduate students must file an approved program before the completion of their third semester. This program must be approved by the student, Ås advisor and the graduate coordinator. All regular and provisional status graduate students must show satisfactory progress towards completion of their degree by completing at least six credits of their approved program per calendar year. If their progress towards their degree program is not satisfactory, students will either be put on probation or expelled from the program.
- Before beginning a dissertation, students must have their dissertation topic approved by their advisor, and the necessary paper work including a dissertation prospectus must be filed with the Graduate College by the end of the third semester. The dissertation prospectus describes the dissertation topic and must include an introductory set of sentences, a well formed hypothesis or hypotheses (specifically italicized in the prospectus) accompanied by a motivation, objectives with major and alternative approaches to the studies, and conjectures of possible outcomes. Students are NOT allowed to take dissertation credits until their prospectus is approved. Credits taken before the approval date will NOT count towards the degree program.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Post-Bachelor's Track

Total Credits Required: 69

Course Requirements

Major Field Courses ,À Credits: 15

- Complete 15 credits of coursework in an approved major in a single area in Electrical and Computer Engineering with a minimum overall GPA of 3.33. A minimum of 9 credits must be in 700-level courses.

 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- 700-Level Elective Courses ,À Credits: 12
 - Complete 12 credits of 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Elective Courses ,À Credits: 6
 - Complete 6 credits of 600- or 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Dissertation ,À Credits: 18
 - ECG 799 - Dissertation

Degree Requirements

- All Ph.D. students must satisfy the Ph.D. degree program admission requirements and be admitted to the Ph.D. program on a regular status.
- Complete a minimum of 51 credits (24 M.S.E. credits + 27 Post-Master,À Track credits) of graduate level courses (excluding dissertation credits) with an overall minimum GPA of 3.20 and a minimum GPA of 2.70 (B-) in each class applied towards the 27 credits.
- Of the 51 required credits, a minimum of 33 credits must be in 700-level courses. Of these 33 credits, a minimum of 30 must be from formal courses. The student,À doctoral advisory committee may add more requirements in accordance with the individual,À background and field of study.
- No more than 6 credits may be from Graduate Independent Study together with Graduate Seminar. No more than 12 credits of a combination of informal courses such as Graduate Independent Study, Special Topics, and Seminar may be applied to the degree program.
- Complete a minimum of 15 credits in an approved ECE major field, 9 credits an approved ECE minor (primary minor) field, and 9 credits in a second approved open minor (secondary minor) field. Of the 15 credits required in the ECE major field, a minimum of 9 credits must be completed in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in the major field. Of the 9 required credits in each minor field, a minimum of 6 credits must be in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in each of the minor fields.
- Informal courses (Graduate Independent Study, Graduate Seminar, and Special Topics) cannot be applied to the ECE major, ECE minor (primary minor) and the open minor (secondary minor) fields.

- At the time of admission or no later than the first semester, the Ph.D. candidate must formally petition BOTH the graduate college and the ECE graduate committee to accept transfer credits and credits taken as a non-degree seeking graduate student to be applied to the Ph.D. program.
- All regular (full graduate standing) status graduate students must select a faculty advisor in their first semester.
- Students on academic probation may be transferred to the M.S.E. Program depending on the student's academic record. In such a case, the M.S.E. Program requirements must be satisfied. For example, only 6 credits of the informal courses may be applied to the M.S.E. degree program with the further constraint that up to 3 credits total of Independent Study in combination with Graduate Seminar may be in the 6 credits.
- Maintain a minimum overall grade point average (GPA) of 3.20, must maintain a minimum GPA of 3.20 each semester, and must complete all graduate level courses that apply towards their degree with a minimum GPA of 2.70 (B-) in each course. Grades below B- cannot be applied towards the Ph.D. degree and must be repeated or replaced. A class grade below C (2.0) is grounds for initiating a program separation recommendation to the Graduate College. Ph.D. candidates who do not maintain an overall minimum GPA of 3.2, who do not maintain a minimum GPA of 3.2 each semester, or who earn more than one grade below B- will be placed on academic probation or expelled from the program. The Electrical and Computer Engineering Graduate Committee and/or the Graduate College will determine the terms of the student's probation in accordance with the rules of the Graduate College.
- All regular status graduate students must file an approved program before the completion of their third semester. This program must be approved by the student's advisor and the graduate coordinator. All regular and provisional status graduate students must show satisfactory progress towards completion of their degree by completing at least six credits of their approved program per calendar year. If their progress towards their degree program is not satisfactory, students will either be put on probation or expelled from the program.
- Before beginning a dissertation, students must have their dissertation topic approved by their advisor, and the necessary paper work including a dissertation prospectus must be filed with the Graduate College by the end of the third semester. The dissertation prospectus describes the dissertation topic and must include an introductory set of sentences, a well formed hypothesis or hypotheses (specifically italicized in the prospectus) accompanied by a motivation, objectives with major and alternative approaches to the studies, and conjectures of possible outcomes. Students are NOT allowed to take dissertation credits until their prospectus is approved. Credits taken before the approval date will NOT count towards the degree program.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: Post-Bachelor's Integrated BS-PHD Track

Total Credits Required: 60-66

Course Requirements

Major Field Courses , Credits: 6-15

- Complete 6-15 credits of coursework in an approved major in a single area in Electrical and Computer Engineering with a minimum overall GPA of 3.33.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media

 - ECG 755 - Monolithic Integrated Circuit Fabrication

- ECG 756 - Advanced Topics in Semiconductor Devices II
- ECG 757 - Electron Transport Phenomena in Solid State Devices

Minor Fields Courses ,Äi Credits: 9-18

- Select two advisor-approved minor fields and complete coursework in each single area totaling 9-18 credits, with a minimum overall average GPA of 3.33. The secondary minor can be from a field outside Electrical Engineering.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics
 - ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture
 - ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital Systems
 - Control Systems Theory
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I
 - Electronics
 - ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
 - Power Engineering
 - ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
 - Signal Processing
 - ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise

- ECG 781 - Digital Filters
 - Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics

 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- Elective Courses ,Ã Credits: 9-18
 - Complete 9-18 credits of 600- or 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Dissertation ,Ã Credits: 18
 - ECG 799 - Dissertation

Degree Requirements

- All Ph.D. students must satisfy the Ph.D. degree program admission requirements and be admitted to the Ph.D. program on a regular status.
- Total credits required depends on the total number of approved graduate-level course work taken as technical electives (with a grade of B or better) during the senior year.
- Complete a minimum of 60, 63, or 66 credits (including dissertation credits) respectively corresponding to 9, 6, or 3 credits of formally approved graduate level courses applied toward the B.S. degree yielding a total of 69 course credits. The final division of major, minor, and elective credits will be determined in consultation with the student,Ãs advisor.
- Of the 69 required credits, a minimum of 33 credits must be in 700-level courses. Of these 33 credits, a minimum of 30 must be from formal courses. The student,Ãs doctoral advisory committee may add more requirements in accordance with the individual,Ãs background and field of study.
- No more than 6 credits may be from Graduate Independent Study together with Graduate Seminar. No more than 12 credits of a combination of informal courses such as Graduate Independent Study, Special Topics, and Seminar may be applied to the degree program.
- Complete a minimum of 15 credits in an approved ECE major field, 9 credits an approved ECE minor (primary minor) field, and 9 credits in a second approved open minor (secondary minor) field. Of the 15 credits required in the ECE major field, a minimum of 9 credits must be completed in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in the major field. Of the 9 required credits in each minor field, a minimum of 6 credits must be in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in each of the minor fields.
- Informal courses (Graduate Independent Study, Graduate Seminar, and Special Topics) cannot be applied to the ECE major, ECE minor (primary minor) and the open minor (secondary minor) fields.
- All regular (full graduate standing) status graduate students must select a faculty advisor in their first semester.
- Students on academic probation may be transferred to the M.S.E. Program depending on the student,Ãs academic record. In such a case, the M.S.E. Program requirements must be satisfied. For example, only 6 credits of the informal courses may be applied to the M.S.E. degree program with the further constraint that up to 3 credits total of Independent Study in combination with Graduate Seminar may be in the 6 credits.
- Maintain a minimum overall grade point average (GPA) of 3.20, must maintain a minimum GPA of 3.20 each semester, and must complete all graduate level courses that apply towards their degree with a minimum GPA of 2.70 (B-) in each course. Grades below B- cannot be applied towards the Ph.D. degree and must be repeated or replaced. A class grade below C (2.0) is grounds for initiating a program separation recommendation to the Graduate College. Ph.D. candidates who do not maintain an overall minimum GPA of 3.20, who do not maintain a GPA of 3.20 each semester, or who earn more than one grade below B- will either be placed on probation or expelled from the program. The Electrical and

Computer Engineering Graduate Committee and/or the Graduate College will determine the terms of the student, and probation in accordance with the rules of the Graduate College.

- All regular status graduate students must file an approved program before the completion of their third semester. This program must be approved by the student, advisor and the graduate coordinator. All regular and provisional status graduate students must show satisfactory progress towards completion of their degree by completing at least six credits of their approved program per calendar year. If their progress towards their degree program is not satisfactory, students will either be put on probation or expelled from the program.
- Before beginning a dissertation, students must have their dissertation topic approved by their advisor, and the necessary paper work including a dissertation prospectus must be filed with the Graduate College by the end of the third semester. The dissertation prospectus describes the dissertation topic and must include an introductory set of sentences, a well formed hypothesis or hypotheses (specifically italicized in the prospectus) accompanied by a motivation, objectives with major and alternative approaches to the studies, and conjectures of possible outcomes. Students are NOT allowed to take dissertation credits until their prospectus is approved. Credits taken before the approval date will NOT count towards the degree program.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

During the first semester, a Ph.D. student must select a faculty advisor. The faculty advisor does not have to be the one to whom the student was assigned upon entering the Ph.D. program. In coordination with the faculty advisor, the student must also form a doctoral advisory committee. A doctoral advisory committee is composed of at least four members of the UNLV Graduate Faculty. Three of the faculty must be from the Department of Electrical and Computer Engineering. The fourth from a relevant supporting field having Full Graduate Faculty Status as recognized by the Graduate College.

Students admitted on provisional and/or conditional status are not allowed to take the qualifying exam until their provisions and/or conditions have been met. Students taking the exam while on provisional or conditional status will be required to retake the exam regardless if one or all areas of the exam have been passed.

Provisional status students must complete all required supplementary work within one calendar year from the time of admission into the program with a grade of B (3.0) or better in each course.

Pass the Qualifying Exam within 2 semesters of being admitted to the Ph.D. program on a regular (full graduate standing) status. The Qualifying Exam is offered once every fall semester and once every spring semester. This exam cannot be taken more than twice.

The Qualifying Exam tests the student's general undergraduate knowledge of electrical engineering and computer engineering. To register for the Qualifying Exam, eligible students must notify the graduate coordinator no later than one month prior to the examination date.

All students must pass the Qualifying Exam within the first two semesters (excluding the summer semester) upon being admitted to the Ph.D. program on a regular status. If a student is required to take the qualifying exam and is not present to sit the exam, an automatic FAIL is assigned. Students who have not passed the Qualifying Exam within this time frame will be terminated from the Ph.D. program. Students who have not passed the Qualifying Exam by their second attempt will be terminated from the Ph.D. program. Students in the Direct Ph.D. program who fail the Qualifying Exam on their second attempt within the two semester time frame may elect to pursue a M.S. Degree by completing all of the requirements listed for that degree.

The Qualifying Exam is a four and one-half hour exam covering questions in the following undergraduate electrical and computer engineering fields:

- Communications
- Control System Theory
- Electromagnetics and Optics
- Electronics
- Power
- Signal Processing
- Solid State
- Digital Logic Design
- Computer Architectures and Organization
- Digital Electronics and VLSI Design
- Computer Communication Networks

To pass the qualifying exam requirement, the student must successfully complete any four of the eleven areas with a grade of PASS to complete the qualifying exam requirement within two sittings. If the student passes less than four areas on the first attempt, the student will receive a PASS for those individual areas successfully completed and will not be required to retake these areas on the second attempt. The exam is a closed note, closed book exam.

For more details on course specifics, exam logistics, appeal rights and procedure, and protocols regarding the qualifying exam, refer to the ECE department, "Electrical Engineering Graduate Program Document."

In all Post-Bachelor, "Tracks, a Ph.D. student must complete a minimum of 15 credits in an approved ECE major field in a single area of Electrical and Computer Engineering, 9 credits in an approved ECE minor field (primary minor) in a single but different area of Electrical and Computer Engineering, and another 9 credits in a second approved minor (secondary minor) field. Currently, the Department of Electrical and Computer Engineering at UNLV offers Communications, Computer Engineering, Control System Theory, Electromagnetics and Optics, Electronics, Power Systems, Signal Processing, and Solid State Materials and Devices as major fields. Specific courses that can be applied to specific fields are listed in detail in the Electrical Engineering Graduate Program Document.

Of the 15 credits required in the ECE major field, a minimum of 9 credits must be completed in 700-level courses. To complete the ECE major field requirement, the applied 15 credits of ECE major course work must attain a minimum overall GPA of 3.33 (B+=3.30).

Each student must complete two minor fields. To complete a minor field, a student must complete a minimum of 9 credits in a minor field and have an overall minimum GPA of 3.33 (B+=3.30) for the 9 minor field credits. Of the 9 required credits in each minor field, a minimum of 6 credits must be in 700-level courses. Courses that can be applied to specific minor fields are listed in detail in the Electrical Engineering Graduate Program Document. These courses may be applied to any designated field but may only be counted once. With the written approval of the major advisor and the student, "advisory committee, the secondary minor may be a mixed minor field. A mixed minor field may be formed with courses inside and/or outside of the Electrical Engineering Department, "approved fields (e.g., mathematics and physics, computer engineering and computer science, physics, mechanical engineering, solid state and electromagnetics) A mixed minor may not be composed of courses in the Electrical Engineering Department that satisfy course work in the major and the other minor field. The only exception is when a course may be used in more than one field. In this case, the course may not be counted twice but may be used for either minor area. However, the student must complete at least one minor field (primary minor field) in Electrical Engineering in a single area.

After passing the Qualifying Exam, successfully completing all courses for a major field, and successfully completing all courses for the ECE minor field, students are eligible to take the Comprehensive Exam. All students must have passed the Comprehensive Exam within two semesters after successfully completing all required course

work except for the 18 credits Dissertation. [NOTE: Up to 6 credits of Dissertation taken prior to the successful completion of the Preliminary Exam may count towards the degree program.] The Comprehensive Exam cannot be taken more than once per semester and cannot be taken more than twice.

The Comprehensive Exam tests the candidate's depth of knowledge in the candidate's chosen ECE major field and chosen ECE minor (primary minor) field. All students must have passed the Comprehensive Exam within two semesters after successfully completing all required course work (except for the 18 credits of Dissertation). The Comprehensive Exam is offered once every fall semester and once every spring semester. The Comprehensive Exam cannot be taken more than twice. Candidates who have not passed the Comprehensive Exam within this time frame (two consecutive sittings) will be terminated from the Ph.D. program. Candidates who have not passed the Comprehensive Exam following their second attempt will be terminated from the Ph.D. program.

Before a student is eligible to register for the Comprehensive Exam, the candidate must have obtained regular (full graduate standing) admission status, passed the Qualifying Exam, and must have successfully completed all of the course requirements for the ECE major field and the ECE minor (primary minor) field. The student must have acquired a minimum GPA of 3.33 in both the major and minor fields separately. If the minor field GPA is less than 3.33 and/or the major field GPA is less than 3.33, then the minor and/or major field requirement has not been successfully completed. The candidate will not be allowed to take the Comprehensive Exam until both the major and minor 3.33 GPA requirements are fulfilled. Further, the student must have a minimum overall GPA of 3.2 and must have satisfied all other Ph.D. degree program admission requirements. If a student takes the Comprehensive Exam before any one of these requirements has been satisfied, the student will automatically receive a FAIL grade for the exam. At their discretion, the Graduate Committee may also count this failing grade as one of the student's attempts for the Comprehensive Exam. To register for the Comprehensive Exam, eligible students must notify the graduate coordinator no later than one month prior to the examination date.

To pass the Comprehensive Exam, a student must pass a five-hour exam covering courses in his/her ECE major field and ECE minor (primary minor) field. A pass or fail grade will be given for the exam. The graduate committee will notify students of the results of the exam. The major and minor area exam will emphasize graduate coursework taken in the ECE major and ECE minor (primary minor; minor 1) fields. The exam will evaluate the student's ability to apply his/her theoretical and analytical abilities to problems in his/her ECE major and ECE minor (primary minor) field. However, the exam may require knowledge of undergraduate material related to the student's major and minor fields. Students should expect problems that require advanced thinking. Specific problems need not be familiar textbook problems nor may the student be necessarily familiar with the problem. A pass or fail grade will be given for the exam. The graduate committee will notify students of the exam results.

For more details on course specifics, exam logistics, appeal rights and procedure, and protocols regarding the comprehensive exam, refer to the ECE department's Electrical Engineering Graduate Program Document.

After successfully completing all required course work and passing the Comprehensive Exam, the candidate must pass the Preliminary Exam. The Preliminary Exam cannot be taken more than once per semester but may be repeated until passed.

The Preliminary Exam evaluates the caliber of a student's dissertation topic. The Preliminary Exam cannot be taken more than once per semester but may be repeated until passed.

To be eligible for the Preliminary Exam, a student must have passed the Comprehensive Exam, and have successfully completed all required course work except for the 18 credits of Dissertation.

Before the Preliminary Exam, a student must prepare a 10 to 20-page prospectus of his/her research. A copy of this prospectus must be submitted to the Graduate Committee and each member of the Ph.D. candidate's advisory committee at least two weeks prior to the Preliminary Exam.

The student must also notify the Graduate Committee and each member of their advisory committee of the date, time and location of their Preliminary Exam. This must be done at least two weeks prior to the Preliminary Exam.

During the Preliminary Exam, the student presents his/her prospectus to his advisory committee. To pass the Preliminary Exam, the student's advisory committee must unanimously approve the student's prospectus. Students who pass the Preliminary Exam are advanced to candidacy for the Ph.D.

Complete a minimum of 18 credits of Dissertation and complete a dissertation containing original research. Upon completion, the student must pass the Final Exam in which the student defends his/her dissertation. The Final Exam is the culminating experience of the PhD program.

The Final Exam evaluates the Ph.D. candidate's dissertation. The Final Exam cannot be taken more than once per every three months but may be repeated until passed. To be eligible for the Final Exam, a Ph.D. candidate must have passed the Preliminary Exam, and have successfully completed all required course work including a minimum of 18 credits of Dissertation. A minimum of 12 credits of Dissertation must be taken after the successful completion of the Preliminary Exam. A copy of the Ph.D. candidate's dissertation must be submitted to the Graduate Committee and each member of the Ph.D. candidate's advisory committee at least two weeks prior to the Final Exam. The Ph.D. candidate must also notify the Graduate Committee and each member of his/her advisory committee of the date, time, and location of his/her Final Exam at least two weeks prior to the Final Exam. During the Final Exam, the Ph.D. candidate will present his/her dissertation to their advisory committee. To pass the Final Exam, the Ph.D. candidate's advisory committee must unanimously approve the Ph.D. candidate's dissertation.

The Department of Electrical and Computer Engineering requires that the Ph.D. degree be completed within a period of six years from the time the candidate is fully admitted to the Ph.D. program. Further, courses taken more than six years prior to graduation cannot be applied toward the PhD degree without permission from the Graduate College. Students exceeding this time limit must formally write a letter requesting permission from both the Graduate Committee and the Graduate College to stay in the Ph.D. program and apply coursework towards the degree program. The formal letter must explain the circumstances of why the degree was not completed within the allotted time frame and indicate the extended period of time needed to complete the degree.

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.

Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Dual Degree: Master of Science in Engineering - Electrical Engineering & Master of Science - Mathematical Sciences

The dual M.S.E. ,Äi Electrical Engineering and the M.S. ,Äi Mathematical Sciences program is designed for those who want to pursue the M.S.E. degree in Electrical Engineering or a career in Electrical Engineering with emphasis in applied Mathematics. The program prepares graduate students with complementing educational components covering electrical engineering and mathematics, which is the basis of all engineering. The students graduating from this program will be well-prepared with a well-rounded background.

The Department of Electrical and Computer Engineering at UNLV offers a number of program options leading to the M.S.E. degree in the Field of Electrical Engineering. Specific major areas of study currently available include: Communications, Computer Engineering, Control System Theory, Electromagnetics and Optics, Electronics, Power Systems, Signal Processing, and Solid State Materials and Devices.

Learning Outcomes

Master of Science in Engineering - Electrical Engineering

Master of Science - Mathematical Sciences

Plan Admission Requirements

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Applicants must satisfy the minimum requirements of the M.S.E. ,Äi Electrical Engineering program and the MS ,Äi Mathematics program. If denied by one program, the applicant will have the option of proceeding with a single degree program with departmental approval.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Standard Track

Total Credits Required: 54-57

Course Requirements

Total Credits Required for the Mathematical Sciences M.S.: 30-33

- Required Courses ,Äi Credits: 6
 - Complete two of the following courses:
 - MAT 707 - Real Analysis I
 - MAT 709 - Complex Function Theory I
 - MAT 765 - Advanced Numerical Analysis
- Elective Courses ,Äi Credits: 21-24
- Students completing the exam option must complete a minimum of 24 credits of MAT or STA elective courses (excluding MAT 711 & 712), and students completing the thesis option must complete a minimum

of 21 credits of MAT or STA elective courses (excluding MAT 711 & 712). Other graduate-level courses may be taken with advisor-approval.

- Thesis ,Ä Credits: 6 (Optional)
 - Complete 6 credits from one of the following courses:
 - MAT 791 - Thesis
 - STA 791 - Thesis

Total Credits Required for the Electrical Engineering M.S.E.: 30

- Core Courses ,Ä Credits: 9
- Complete a minimum of 3 credits in at least three of the following areas. Students in the comprehensive exam track must take all courses at the 700-level.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics
 - ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture
 - ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital Systems
 - Control Systems Theory
 - ECG 672 - Digital Control Systems
 - ECG 674 - Recent Topics in Control
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - ECG 774 - Stochastic Control
 - ECG 776 - Adaptive Control
 - Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I
 - Electronics
 - ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
 - Power Engineering

- ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
- Signal Processing
 - ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 781 - Digital Filters
 - ECG 782 - Multidimensional Digital Signal Processing
 - ECG 783 - Adaptive Signal Processing with Neural Networks
- Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 750 - Optical Electronics I
 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- Additional Core Courses ,À Credits: 9-12
- Complete 9-12 credits of additional core courses from the core courses in any of the areas listed above. Students in the comprehensive exam track must take all courses at the 700-level.
- Students completing the comprehensive exam option must complete a minimum of 12 credits of electives, and students completing the thesis option must complete a minimum of 9 credits of electives.
- Elective Courses ,À Credits: 6-9
 - Complete a minimum of 6-9 credits of 600- or 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Students completing the comprehensive exam option must complete a minimum of 9 credits of electives, and students completing the thesis option must complete a minimum of 6 credits of electives.
- Thesis ,À Credits: 6 (Optional)
 - ECG 797 - Electrical Engineering Thesis

Total Credits Shared: 6

Two courses can be double counted between Electrical Engineering M.S.E and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Degree Requirements

- A minimum of 54 or 57 credits (including thesis credits) of graduate work is required for the Dual Electrical Engineering M.S.E. and Mathematical Sciences M.S. which corresponds to the choice of completing a Mathematics comprehensive exam or thesis.
- Two of the courses included in the degree program can be double counted Electrical Engineering M.S.E and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.
- If a thesis option is chosen: In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be

added at the student and department, Ås discretion. Please see Graduate College policy for committee appointment guidelines.

Mathematical Sciences M.S.

Students completing a thesis must complete a minimum of 33 credit hours with a minimum GPA of 3.00.

Students completing the comprehensive exam must complete a minimum of 30 credit hours with a minimum GPA of 3.00.

21 credits of mathematics course work must be at the 700-level (excluding thesis).

A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student, Ås program by the Graduate Studies Committee.

The Graduate College requires a minimum of 50 percent of the total credits required to complete the graduate degree, exclusive of transferred credits and/or the thesis, must be earned at UNLV after admission to a graduate degree program.

Students must complete a final examination. This will be either an examination to defend the thesis or a written comprehensive examination based on requirements 1 and 2.

Electrical Engineering M.S.E.

Students must satisfy the M.S.E. - Electrical Engineering degree program admission requirements and be admitted to the M.S.E. - Electrical Engineering program with regular full graduate standing status, having met all conditions and provisions.

Students must complete a minimum of 30 credits of graduate level courses with an overall minimum GPA of 3.00 (B), a minimum GPA of 3.00 (B) each semester, and a minimum GPA of 2.70 (B-) in each class applied towards the 30 credits. Grades below B- are not counted towards the M.S.E. degree and must be repeated or replaced.

Students who do not maintain an overall GPA of 3.00 (B), a GPA of 3.00 (B) each semester, or who earn more than one grade below B- will either be placed on probation or expelled from the program. The Electrical and Computer Engineering Graduate Committee and/or the Graduate College will determine the terms of the student, Ås probation in accordance with the rules of the Graduate College.

At the time of admission or no later than the first semester, the candidate must formally petition BOTH the graduate college and the ECE graduate committee to accept transfer credits and credits taken as a non-degree seeking graduate student to be applied to the M.S.E. program.

Students must select a faculty advisor in their first semester.

No more than 3 credits may be from Independent Study (which cumulatively includes Graduate Seminar) and no more than a total of 6 credits of the combination of Independent Study, Graduate Seminar, and Graduate Special Topics may be applied towards the M.S.E. degree program.

Students completing a Thesis:

A minimum of 18 core (formal) must be in core electrical engineering courses, of which 15 credits must be 700-level. This excludes Thesis, and informal courses (such as Special Topics, Graduate Seminar, and Independent Study).

Students must complete at least six credits of Electrical Engineering Thesis which culminates in the successful completion of a thesis oral exam and the submission of an approved thesis. Although Electrical Engineering Thesis can be taken repeatedly, no more than 6 credits can be applied towards the 30 credits required for the M.S.E. degree.

Before beginning a thesis, students must have their thesis topic approved by their advisor, and the necessary paper work must be filed with the Graduate College. The thesis prospectus describes the thesis topic and must include an introductory set of sentences, a well formed hypothesis or hypotheses (specifically italicized in the prospectus) accompanied by a motivation, objectives with major and alternative approaches to the studies, and conjectures of possible outcomes. Students are NOT allowed to take thesis credits until their thesis prospectus is approved. Credits taken before the approval date will NOT count towards the degree program.

The student must complete a thesis containing original research and publically defend it before his/her advisory committee at the Thesis Exam.

Prior to the student's defense of the thesis before his/her advisory committee, the student must submit a complete copy of the thesis to each member of his/her advisory committee. This submission must occur at least two weeks prior to the date of the oral defense. The student must also notify each member of his/her advisory committee of the date, time and location of the oral defense of the thesis or project at least two weeks in advance.

Students who plan to continue their studies beyond the M.S.E. degree program are strongly encouraged to select this option.

A full graduate standing master's degree candidate who is interested in pursuing a doctoral degree may be allowed to take the Ph.D. qualifying exam without penalty during his/her period as an M.S.E. student. The exam may be taken as many times as desired but no more than once a semester at the time the exam is typically offered. The M.S.E. candidate must pass four areas of choice in a single sitting to satisfy the Qualifying Exam requirement. If the student successfully completes the Qualifying Exam requirement while pursuing the M.S.E. degree in Electrical Engineering with a thesis option in the Electrical and Computer Engineering department at UNLV, the student will have automatically fulfilled the Qualifying Exam requirement upon admission to the Ph.D. program in the Electrical and Computer Engineering program at UNLV. Once the student receives an M.S.E. degree in the field of Electrical Engineering, the student must abide by the requirements outlined in the Ph.D. program. This option is not available to non-degree students.

Students completing the Comprehensive Exam:

A minimum of 21 credits must be in core (formal) electrical engineering 700-level courses excluding informal courses (such as Independent Study, Graduate Seminar, and Special Topics).

Pass a comprehensive exam on graduate level coursework in the student's specialty area.

The exam may be taken in the last two semesters of the student's M.S.E. program.

The student may not take the exam until all course work pertaining to the exam is completed. For clarity, students enrolled in courses pertaining to the comprehensive exam cannot take the comprehensive exam. Within the six year limit, the exam may be repeated until passed but cannot be taken more than once per semester. Prior to the end of the first week of classes in the student's last two semesters, the student must announce to the ECE Graduate Coordinator his/her intention of taking the exam, the major field to be examined, and at least two courses taken in that field.

The Course Only Option is a final advanced professional degree option in that students who complete the Course Only Option will not be considered for admission into any of the department's Ph.D. program options.

Graduation Requirements

- Students cannot graduate from one portion of the dual degree until the requirements for both are met. Students must apply to graduate from both programs for the same semester.
- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

Mathematical Sciences M.S.

The student must successfully complete a culminating experience.

If the exam option is chosen, the student must successfully pass a final comprehensive examination.

If the thesis option is chosen, the student must:

Submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.

Submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Electrical Engineering M.S.E.

The student must successfully complete a culminating experience.

If the exam option is chosen, the student must pass a final comprehensive examination.

If the thesis option is chosen, the student must:

Submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.

Submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Integrated BS-MS Track

Total Credits Required: 45-54

Course Requirements

Total Credits Required for the Mathematical Sciences M.S.: 30-33

- Required Courses ,À Credits: 6
 - Complete two of the following courses:
 - MAT 707 - Real Analysis I

- MAT 709 - Complex Function Theory I
 - MAT 765 - Advanced Numerical Analysis
- Elective Courses ,Ä Credits: 21-24
- Students completing the exam option must complete a minimum of 24 credits of MAT or STA elective courses (excluding MAT 711 & 712), and students completing the thesis option must complete a minimum of 21 credits of MAT or STA elective courses (excluding MAT 711 & 712). Other graduate-level courses may be taken with advisor-approval.
- Thesis ,Ä Credits: 6 (Optional)
 - Complete 6 credits from one of the following courses:
 - MAT 791 - Thesis
 - STA 791 - Thesi

Total Credits Required for the Electrical Engineering M.S.E.: 21-27

- Core Courses ,Ä Credits: 0-9
- Complete a minimum of 0-3 credits in at least three of the following areas:
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics
 - ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture
 - ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital Systems
 - Control Systems Theory
 - ECG 672 - Digital Control Systems
 - ECG 674 - Recent Topics in Control
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - ECG 774 - Stochastic Control
 - ECG 776 - Adaptive Control
 - Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I
 - Electronics
 - ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design

- ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
- Power Engineering
 - ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
- Signal Processing
 - ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 781 - Digital Filters
 - ECG 782 - Multidimensional Digital Signal Processing
 - ECG 783 - Adaptive Signal Processing with Neural Networks
- Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 750 - Optical Electronics I
 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- Additional Core Courses ,Ä Credits: 0-9
 - Complete 0-9 credits of additional core courses from the core courses in any of the areas listed above.
- Elective Courses ,Ä Credits: 0-6
 - Complete 0-6 credits of 600- or 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Thesis ,Ä Credits: 6
 - ECG 797 - Electrical Engineering Thesis

Total Credits Shared: 6

Two courses can be double counted between Electrical Engineering M.S.E and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Degree Requirements

- A minimum of 45, 48, 51, or 54 credits (including thesis credits) of graduate work is required for the Dual Electrical Engineering M.S.E. and Mathematical Sciences M.S. which corresponds to the choice of completing a Mathematics comprehensive exam or thesis, and the number of credits of formally approved graduate level courses applied toward the B.S. degree and used in the Electrical Engineering Integrated BS-MS Track.
- Two of the courses included in the degree program can be double counted Electrical Engineering M.S.E and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Mathematical Sciences M.S.

Students completing a thesis must complete a minimum of 33 credit hours with a minimum GPA of 3.00.

Students completing the comprehensive exam must complete a minimum of 30 credit hours with a minimum GPA of 3.00.

21 credits of mathematics course work must be at the 700-level (excluding thesis)

A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student, the program by the Graduate Studies Committee.

The Graduate College requires a minimum of 50 percent of the total credits required to complete the graduate degree, exclusive of transferred credits and/or the thesis, must be earned at UNLV after admission to a graduate degree program.

Students must complete a final examination. This will be either an examination to defend the thesis or a written comprehensive examination based on requirements 1 and 2.

If the thesis option is chosen: In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Electrical Engineering M.S.E.

Students must satisfy the M.S.E. - Electrical Engineering degree program admission requirements and be admitted to the M.S.E. - Electrical Engineering program with regular full graduate standing status, having met all conditions and provisions.

Total credits required depends on the total number of approved graduate-level course work taken as technical electives (with a grade of B or better) during the senior year.

Complete a minimum of 21, 24, or 27 credits (including thesis credits) in the Integrated BS-MS track program respectively corresponding to 9, 6, or 3 credits of formally approved graduate level courses applied toward the B.S. degree yielding a total of 30 course credits. The final division of major, minor, and elective credits will be determined in consultation with the student's advisor.

Students must complete all courses with an overall minimum GPA of 3.00 (B), a minimum GPA of 3.00 (B) each semester, and a minimum GPA of 2.70 (B-) in each class applied towards the 30 credits. Grades below B- are not counted towards the M.S.E. degree and must be repeated or replaced.

Students who do not maintain an overall GPA of 3.00 (B), a GPA of 3.00 (B) each semester, or who earn more than one grade below B- will either be placed on probation or expelled from the program. The Electrical and Computer Engineering Graduate Committee and/or the Graduate College will determine the terms of the student's probation in accordance with the rules of the Graduate College.

At the time of admission or no later than the first semester, the candidate must formally petition BOTH the graduate college and the ECE graduate committee to accept transfer credits and credits taken as a non-degree seeking graduate student to be applied to the M.S.E. program.

Students must select a faculty advisor in their first semester.

A minimum of 18 credits must be in core (formal) electrical engineering courses, of which 15 credits must be 700-level. This excludes Thesis credits, and informal courses (such as Special Topics, Graduate Seminar, and Independent Study).

No more than 3 credits may be from Independent Study (which cumulatively includes Graduate Seminar) and no more than a total of 6 credits of the combination of Independent Study, Graduate Seminar, and Graduate Special Topics may be applied towards the M.S.E. degree program.

In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Students must complete a thesis.

Students must complete at least 6 credits of Thesis which culminates in the successful completion of a thesis oral exam and the submission of an approved thesis. Although Electrical Engineering Thesis can be taken repeatedly, no more than 6 credits can be applied towards the 30 credits required for the M.S.E. degree.

Before beginning a thesis, students must have their thesis topic approved by their advisor, and the necessary paper work must be filed with the Graduate College. The thesis prospectus describes the thesis topic and must include an introductory set of sentences, a well formed hypothesis or hypotheses (specifically italicized in the prospectus) accompanied by a motivation, objectives with major and alternative approaches to the studies, and conjectures of possible outcomes. Students are NOT allowed to take thesis credits until their thesis prospectus is approved. Credits taken before the approval date will NOT count towards the degree program.

The student must complete a thesis containing original research and publically defend it before his/her advisory committee at the Thesis Exam.

Prior to the student's defense of the thesis before his/her advisory committee, the student must submit a complete copy of the thesis to each member of his/her advisory committee. This submission must occur at least two weeks prior to the date of the oral defense. The student must also notify each member of his/her advisory committee of the date, time and location of the oral defense of the thesis or project at least two weeks in advance.

Students who plan to continue their studies beyond the M.S.E. degree program are strongly encouraged to select this option.

A full graduate standing master's degree candidate who is interested in pursuing a doctoral degree may be allowed to take the Ph.D. qualifying exam without penalty during his/her period as an M.S.E. student. The exam may be taken as many times as desired but no more than once a semester at the time the exam is typically offered. The M.S.E. candidate must pass four areas of choice in a single sitting to satisfy the Qualifying Exam requirement. If the student successfully completes the Qualifying Exam requirement while pursuing the M.S.E. degree in Electrical Engineering with a thesis option in the Electrical and Computer Engineering department at UNLV, the student will have automatically fulfilled the Qualifying Exam requirement upon admission to the Ph.D. program in the Electrical and Computer Engineering program at UNLV. Once the student receives an M.S. degree in the field of Electrical Engineering, the student must abide by the requirements outlined in the Ph.D. program. This option is not available to non-degree students.

Graduation Requirements

- Students cannot graduate from one portion of the dual degree until the requirements for both are met. Students must apply to graduate from both programs for the same semester.
- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

Mathematical Sciences M.S.

The student must successfully complete a culminating experience.

If the exam option is chosen, the student must successfully pass a final comprehensive examination.

If the thesis option is chosen, the student must:

Submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.

Submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Electrical Engineering M.S.E.

The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.

The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Standard Track
- Subplan 2: Integrated BS-MS Track

Dual Degree: Doctor of Philosophy - Electrical Engineering & Master of Science - Mathematical Sciences

The dual Ph.D. EE and M.S. MAT program of study is designed for those who want to pursue a Ph.D. degree in Electrical Engineering or a career in Electrical Engineering with emphasis in applied mathematics. The program prepares graduate students with complementing educational components covering electrical engineering and mathematics, which is the basis of all engineering.

The culminating experience in the Ph.D. program in the Department of Electrical and Computer Engineering is centered about developing new knowledge focused around a specific theme embodied in the form a well-written and orally defended dissertation. The Department of Electrical and Computer Engineering at UNLV offers a number of program options leading to the Ph.D. degree in the Field of Electrical Engineering. Specific major areas of study currently available include: Communications, Computer Engineering, Control System Theory, Electromagnetics and Optics, Electronics, Power Systems, Signal Processing, and Solid State Materials and Devices.

Plan Admissions Requirements

Applicants are considered on an individual basis. All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Applicants must satisfy the minimum requirements of the Ph.D. Electrical Engineering program, and the M.S. Mathematics program. If denied by one program, the applicant will have the option of proceeding with a single degree program with departmental approval.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Master's Track

Total Credits Required: 69-72

Course Requirements

Total Credits Required for the Mathematical Sciences M.S.: 30-33

- Required Courses ,Credits: 6
 - Complete two of the following courses:
 - MAT 707 - Real Analysis I
 - MAT 709 - Complex Function Theory I
 - MAT 765 - Advanced Numerical Analysis
- Elective Courses ,Credits: 21-24
 - Students completing the exam option must complete a minimum of 24 credits of MAT or STA elective courses (excluding MAT 711 & 712), and students completing the thesis option must complete a minimum of 21 credits of MAT or STA elective courses (excluding MAT 711 & 712). Other graduate-level courses may be taken with advisor-approval.
- Thesis ,Credits: 6 (Optional)
 - Complete 6 credits from one of the following courses:
 - MAT 791 - Thesis
 - STA 791 - Thesis

Total Credits Required for the Electrical Engineering Ph.D.: 45

- Major Field Courses ,Credits: 6-15
- Complete 6-15 credits of coursework in an approved major in a single area in Electrical and Computer Engineering with a minimum overall average GPA of 3.33.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media

- ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
- Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics
 - ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture
 - ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital Systems
- Control Systems Theory
 - ECG 672 - Digital Control Systems
 - ECG 674 - Recent Topics in Control
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - ECG 774 - Stochastic Control
 - ECG 776 - Adaptive Control
- Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I
- Electronics
 - ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
- Power Engineering
 - ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
- Signal Processing
 - ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 781 - Digital Filters
 - ECG 782 - Multidimensional Digital Signal Processing
 - ECG 783 - Adaptive Signal Processing with Neural Networks
- Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 750 - Optical Electronics I

- ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- Minor Fields Courses ,Äi Credits: 6-18
- Select two advisor-approved minor fields and complete coursework in each single area totaling 6-18 credits, with a minimum overall average GPA of 3.33. The secondary minor can be from a field outside Electrical Engineering.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics
 - ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture
 - ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital Systems
 - Control Systems Theory
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I
 - Electronics
 - ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
 - Power Engineering
 - ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
 - Signal Processing
 - ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise

- ECG 781 - Digital Filters
 - Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 750 - Optical Electronics I
 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- Elective Courses ,À Credits: 0-12
 - Complete 0-12 credits of 600- or 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Dissertation ,À Credits: 18
 - ECG 799 - Dissertation

Total Credits Shared: 6

Two courses can be double counted between Electrical Engineering Ph.D. and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Degree Requirements

- A minimum 69 or 72 credits (including thesis and dissertation credits) is required for the Dual Electrical Engineering Ph.D. and Mathematical Sciences M.S. which corresponds to the choice of completing a Mathematics comprehensive exam or thesis.
- Two of the courses included in the degree program can be double counted in the Electrical Engineering Ph.D. and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Mathematical Sciences M.S

Students completing a thesis must complete a minimum of 33 credit hours with a minimum GPA of 3.00.

Students completing the comprehensive exam must complete a minimum of 30 credit hours with a minimum GPA of 3.00.

For the master,À degree 21 credits of mathematics course work must be at the 700-level (excluding thesis).

A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student,À program by the Graduate Studies Committee.

The Graduate College requires a minimum of 50 percent of the total credits required to complete the graduate degree, exclusive of transferred credits and/or the thesis, must be earned at UNLV after admission to a graduate degree program.

Students must complete a final examination. This will be either an examination to defend the thesis or a written comprehensive examination based on requirements 1 and 2.

If the thesis option is chosen: In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Electrical Engineering Ph.D.

All Ph.D. students must satisfy the Ph.D. degree program admission requirements and be admitted to the Ph.D. program on a regular status.

Complete a minimum of 27 credits of graduate level courses (excluding dissertation credits) with an overall minimum GPA of 3.20 and a minimum GPA of 2.70 (B-) in each class applied towards the 27 credits. The final division of major, minor, and elective credits will be determined in consultation with the student's advisor.

Of the 27 required credits, a minimum of 18 credits must be in 700-level courses. Of these 18 credits, a minimum of 15 must be from formal courses. The student's doctoral advisory committee may add more requirements in accordance with the individual's background and field of study.

No more than 3 credits may be from Graduate Independent Study together with Graduate Seminar. No more than 6 credits of a combination of informal courses such as Graduate Independent Study, Special Topics, and Seminar may be applied to the degree program.

Beyond the Bachelor degree, a Ph.D. student must complete a minimum of 15 credits in an approved ECE major field, 9 credits an approved ECE minor (primary minor) field, and 9 credits in a second approved open minor (secondary minor) field. Of the 15 credits required in the ECE major field, a minimum of 9 credits must be completed in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in the major field. Of the 9 required credits in each minor field, a minimum of 6 credits must be in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in each of the minor fields.

Informal courses (Graduate Independent Study, Graduate Seminar, and Special Topics) cannot be applied to the ECE major, ECE minor (primary minor) and the open minor (secondary minor) fields.

At the time of admission or no later than the first semester, the Ph.D. candidate must formally petition BOTH the graduate college and the ECE graduate committee to accept transfer credits and credits taken as a non-degree seeking graduate student to be applied to the Ph.D. program.

All regular (full graduate standing) status graduate students must select a faculty advisor in their first semester.

Maintain a minimum overall grade point average (GPA) of 3.20, must maintain a minimum GPA of 3.20 each semester, and must complete all graduate level courses that apply towards their degree with a minimum GPA of 2.70 (B-) in each course. Grades below B- cannot be applied towards the Ph.D. degree and must be repeated or replaced. A class grade below C (2.0) is grounds for initiating a program separation recommendation to the Graduate College. Ph.D. candidates who do not maintain an overall minimum GPA of 3.2, who do not maintain a minimum GPA of 3.2 each semester, or who earn more than one grade below B- will be placed on academic probation or expelled from the program. The Electrical and Computer Engineering Graduate Committee in conjunction with the Graduate College will determine the terms of the student's probation based upon the student's academic record and in accordance with the rules of the Graduate College.

All regular (full graduate standing) status graduate students must file an approved program before the completion of their third semester. This program must be approved by the student's advisor and the graduate coordinator. All regular and provisional status graduate students must show satisfactory progress towards completion of their degree by completing at least six credits of their approved program per calendar year. If their progress towards their degree program is not satisfactory, students will either be put on probation or expelled from the program.

Before beginning a dissertation, students must have their dissertation topic approved by their advisor, and the necessary paper work including a dissertation prospectus must be filed with the Graduate College by the end of the third semester. The dissertation prospectus describes the dissertation topic and must include an introductory set of sentences, a well formed hypothesis or hypotheses (specifically italicized in the prospectus) accompanied by a motivation, objectives with major and alternative approaches to the studies, and conjectures of possible outcomes. Students are NOT allowed to take dissertation credits until their prospectus is approved. Credits taken before the approval date will NOT count towards the degree program.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Post-Bachelor's Track

Total Credits Required: 93-96

Course Requirements

Total Credits Required for the Mathematical Sciences M.S.: 30-33

- Required Courses , Credits: 6
 - Complete two of the following courses:
 - MAT 707 - Real Analysis I
 - MAT 709 - Complex Function Theory I
 - MAT 765 - Advanced Numerical Analysis
- Elective Courses , Credits: 21-24
- Students completing the exam option must complete a minimum of 24 credits of MAT or STA elective courses (excluding MAT 711 & 712), and students completing the thesis option must complete a minimum of 21 credits of MAT or STA elective courses (excluding MAT 711 & 712). Other graduate-level courses may be taken with advisor-approval.
- Thesis , Credits: 6 (Optional)
- Complete 6 credits from one of the following courses:
 - MAT 791 - Thesis
 - STA 791 - Thesis

Total Credits Required for the Electrical Engineering Ph.D.: 69

- Major Field Courses , Credits: 15
- Complete 15 credits of coursework in an approved major in a single area in Electrical and Computer Engineering with a minimum overall GPA of 3.33. A minimum of 9 credits must be in 700-level courses.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics
 - ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture

- ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital Systems
- Control Systems Theory
 - ECG 672 - Digital Control Systems
 - ECG 674 - Recent Topics in Control
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - ECG 774 - Stochastic Control
 - ECG 776 - Adaptive Control
- Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering

 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II

- ECG 757 - Electron Transport Phenomena in Solid State Devices
- 700-Level Elective Courses ,À Credits: 12
 - Complete 12 credits of 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Elective Courses ,À Credits: 6
 - Complete 6 credits of 600- or 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Dissertation ,À Credits: 18
 - ECG 799 - Dissertation

Total Credits Shared: 6

Two courses can be double counted between Electrical Engineering Ph.D. and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Degree Requirements

- A minimum 93 or 96 credits (including thesis and dissertation credits) is required for the Dual Electrical Engineering Ph.D. and Mathematical Sciences M.S. which corresponds to the choice of completing a Mathematics comprehensive exam or thesis.
- Two of the courses included in the degree program can be double counted Electrical Engineering M.S.E and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Mathematical Sciences M.S

Students completing a thesis must complete a minimum of 33 credit hours with a minimum GPA of 3.00.

Students completing the comprehensive exam must complete a minimum of 30 credit hours with a minimum GPA of 3.00.

21 credits of mathematics course work must be at the 700-level (excluding thesis).

A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student,Às program by the Graduate Studies Committee.

The Graduate College requires a minimum of 50 percent of the total credits required to complete the graduate degree, exclusive of transferred credits and/or the thesis, must be earned at UNLV after admission to a graduate degree program.

Students must complete a final examination. This will be either an examination to defend the thesis or a written comprehensive examination based on requirements 1 and 2.

If the thesis option is chosen: In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Às discretion. Please see Graduate College policy for committee appointment guidelines.

Electrical Engineering Ph.D.

All Ph.D. students must satisfy the Ph.D. degree program admission requirements and be admitted to the Ph.D. program on a regular status.

Complete a minimum of 51 credits (24 M.S.E. credits + 27 Post-Master, Track credits) of graduate level courses (excluding dissertation credits) with an overall minimum GPA of 3.20 and a minimum GPA of 2.70 (B-) in each class applied towards the 27 credits.

Of the 51 required credits, a minimum of 33 credits must be in 700-level courses. Of these 33 credits, a minimum of 30 must be from formal courses. The student's doctoral advisory committee may add more requirements in accordance with the individual's background and field of study.

No more than 6 credits may be from Graduate Independent Study together with Graduate Seminar. No more than 12 credits of a combination of informal courses such as Graduate Independent Study, Special Topics, and Seminar may be applied to the degree program.

Complete a minimum of 15 credits in an approved ECE major field, 9 credits an approved ECE minor (primary minor) field, and 9 credits in a second approved open minor (secondary minor) field. Of the 15 credits required in the ECE major field, a minimum of 9 credits must be completed in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in the major field. Of the 9 required credits in each minor field, a minimum of 6 credits must be in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in each of the minor fields.

Informal courses (Graduate Independent Study, Graduate Seminar, and Special Topics) cannot be applied to the ECE major, ECE minor (primary minor) and the open minor (secondary minor) fields.

At the time of admission or no later than the first semester, the Ph.D. candidate must formally petition BOTH the graduate college and the ECE graduate committee to accept transfer credits and credits taken as a non-degree seeking graduate student to be applied to the Ph.D. program.

All regular (full graduate standing) status graduate students must select a faculty advisor in their first semester.

Students on academic probation may be transferred to the M.S.E. Program depending on the student's academic record. In such a case, the M.S.E. Program requirements must be satisfied. For example, only 6 credits of the informal courses may be applied to the M.S.E. degree program with the further constraint that up to 3 credits total of Independent Study in combination with Graduate Seminar may be in the 6 credits.

Maintain a minimum overall grade point average (GPA) of 3.20, must maintain a minimum GPA of 3.20 each semester, and must complete all graduate level courses that apply towards their degree with a minimum GPA of 2.70 (B-) in each course. Grades below B- cannot be applied towards the Ph.D. degree and must be repeated or replaced. A class grade below C (2.0) is grounds for initiating a program separation recommendation to the Graduate College. Ph.D. candidates who do not maintain an overall minimum GPA of 3.2, who do not maintain a minimum GPA of 3.2 each semester, or who earn more than one grade below B- will be placed on academic probation or expelled from the program. The Electrical and Computer Engineering Graduate Committee and/or the Graduate College will determine the terms of the student's probation in accordance with the rules of the Graduate College.

All regular status graduate students must file an approved program before the completion of their third semester. This program must be approved by the student's advisor and the graduate coordinator. All regular and provisional status graduate students must show satisfactory progress towards completion of their degree by completing at least six credits of their approved program per calendar year. If their progress towards their degree program is not satisfactory, students will either be put on probation or expelled from the program.

Before beginning a dissertation, students must have their dissertation topic approved by their advisor, and the necessary paper work including a dissertation prospectus must be filed with the Graduate College by the end of the third semester. The dissertation prospectus describes the dissertation topic and must include an introductory set of sentences, a well formed hypothesis or hypotheses (specifically italicized in the prospectus) accompanied by a motivation, objectives with major and alternative approaches to the studies, and conjectures of possible outcomes. Students are NOT allowed to take dissertation credits until their prospectus is approved. Credits taken before the approval date will NOT count towards the degree program.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: Post-Bachelor's Integrated BS-PHD Track

Total Credits Required: 84-93

Course Requirements

Total Credits Required for the Mathematical Sciences M.S.: 30-33

- Required Courses ,Äi Credits: 6
 - Complete two of the following courses:
 - MAT 707 - Real Analysis I
 - MAT 709 - Complex Function Theory I
 - MAT 765 - Advanced Numerical Analysis
- Elective Courses ,Äi Credits: 21-24
- Students completing the exam option must complete a minimum of 24 credits of MAT or STA elective courses (excluding MAT 711 & 712), and students completing the thesis option must complete a minimum of 21 credits of MAT or STA elective courses (excluding MAT 711 & 712). Other graduate-level courses may be taken with advisor-approval.
- Thesis ,Äi Credits: 6 (Optional)
- Complete 6 credits from one of the following courses:
 - MAT 791 - Thesis
 - STA 791 - Thesis

Total Credits Required for the Electrical Engineering Ph.D.: 60-66

- Major Field Courses ,Äi Credits: 6-15
- Complete 6-15 credits of coursework in an approved major in a single area in Electrical and Computer Engineering with a minimum overall GPA of 3.33.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics

- ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture
 - ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital Systems
- Control Systems Theory
 - ECG 672 - Digital Control Systems
 - ECG 674 - Recent Topics in Control
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - ECG 774 - Stochastic Control
 - ECG 776 - Adaptive Control
- Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I
- Electronics
 - ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
- Power Engineering
 - ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
- Signal Processing
 - ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 781 - Digital Filters
 - ECG 782 - Multidimensional Digital Signal Processing
 - ECG 783 - Adaptive Signal Processing with Neural Networks
- Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 750 - Optical Electronics I
 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- Minor Fields Courses ,Ai Credits: 9-18

- Select two advisor-approved minor fields and complete coursework in each single area totaling 9-18 credits, with a minimum overall average GPA of 3.33. The secondary minor can be from a field outside Electrical Engineering.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics
 - ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture

- ECG 755 - Monolithic Integrated Circuit Fabrication
- ECG 756 - Advanced Topics in Semiconductor Devices II
- ECG 757 - Electron Transport Phenomena in Solid State Devices
- Elective Courses ,À Credits: 9-18
 - Complete 9-18 credits of 600- or 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Dissertation ,À Credits: 18
 - ECG 799 - Dissertation

Total Credits Shared: 6

Two courses can be double counted between Electrical Engineering Ph.D. and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Degree Requirements

- A minimum of 84, 87, 90, or 93 credits (including thesis and dissertation credits) of graduate work is required for the Dual Electrical Engineering Ph.D. and Mathematical Sciences M.S. which corresponds to the choice of completing a Mathematics comprehensive exam or thesis, and the number of credits of formally approved graduate level courses applied toward the B.S. degree and used in the Electrical Engineering Integrated BS-PHD Track.
- Two of the courses included in the degree program can be double counted Electrical Engineering M.S.E and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Mathematical Sciences M.S

Students completing a thesis must complete a minimum of 33 credit hours with a minimum GPA of 3.00.

Students completing the comprehensive exam must complete a minimum of 30 credit hours with a minimum GPA of 3.00.

21 credits of mathematics course work must be at the 700-level (excluding thesis).

A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student,Às program by the Graduate Studies Committee.

The Graduate College requires a minimum of 50 percent of the total credits required to complete the graduate degree, exclusive of transferred credits and/or the thesis, must be earned at UNLV after admission to a graduate degree program.

Students must complete a final examination. This will be either an examination to defend the thesis or a written comprehensive examination based on requirements 1 and 2.

If the thesis option is chosen: In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Às discretion. Please see Graduate College policy for committee appointment guidelines.

Electrical Engineering Ph.D.

All Ph.D. students must satisfy the Ph.D. degree program admission requirements and be admitted to the Ph.D. program on a regular status.

Total credits required depends on the total number of approved graduate-level course work taken as technical electives (with a grade of B or better) during the senior year.

Complete a minimum of 60, 63, or 66 credits (including dissertation credits) respectively corresponding to 9, 6, or 3 credits of formally approved graduate level courses applied toward the B.S. degree yielding a total of 69 course credits. The final division of major, minor, and elective credits will be determined in consultation with the student,Às advisor.

Of the 69 required credits, a minimum of 33 credits must be in 700-level courses. Of these 33 credits, a minimum of 30 must be from formal courses. The student,Às doctoral advisory committee may add more requirements in accordance with the individual,Às background and field of study.

No more than 6 credits may be from Graduate Independent Study together with Graduate Seminar. No more than 12 credits of a combination of informal courses such as Graduate Independent Study, Special Topics, and Seminar may be applied to the degree program.

Complete a minimum of 15 credits in an approved ECE major field, 9 credits an approved ECE minor (primary minor) field, and 9 credits in a second approved open minor (secondary minor) field. Of the 15 credits required in the ECE major field, a minimum of 9 credits must be completed in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in the major field. Of the 9 required credits in each minor field, a minimum of 6 credits must be in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in each of the minor fields.

Informal courses (Graduate Independent Study, Graduate Seminar, and Special Topics) cannot be applied to the ECE major, ECE minor (primary minor) and the open minor (secondary minor) fields.

All regular (full graduate standing) status graduate students must select a faculty advisor in their first semester.

Students on academic probation may be transferred to the M.S.E. Program depending on the student,Às academic record. In such a case, the M.S.E. Program requirements must be satisfied. For example, only 6 credits of the informal courses may be applied to the M.S.E. degree program with the further constraint that up to 3 credits total of Independent Study in combination with Graduate Seminar may be in the 6 credits.

Maintain a minimum overall grade point average (GPA) of 3.20, must maintain a minimum GPA of 3.20 each semester, and must complete all graduate level courses that apply towards their degree with a minimum GPA of 2.70 (B-) in each course. Grades below B- cannot be applied towards the Ph.D. degree and must be repeated or replaced. A class grade below C (2.0) is grounds for initiating a program separation recommendation to the Graduate College. Ph.D. candidates who do not maintain an overall minimum GPA of 3.20, who do not maintain a GPA of 3.20 each semester, or who earn more than one grade below B- will either be placed on probation or expelled from the program. The Electrical and Computer Engineering Graduate Committee and/or the Graduate College will determine the terms of the student,Às probation in accordance with the rules of the Graduate College.

All regular status graduate students must file an approved program before the completion of their third semester. This program must be approved by the student,Às advisor and the graduate coordinator. All regular and provisional

status graduate students must show satisfactory progress towards completion of their degree by completing at least six credits of their approved program per calendar year. If their progress towards their degree program is not satisfactory, students will either be put on probation or expelled from the program.

Before beginning a dissertation, students must have their dissertation topic approved by their advisor, and the necessary paper work including a dissertation prospectus must be filed with the Graduate College by the end of the third semester. The dissertation prospectus describes the dissertation topic and must include an introductory set of sentences, a well formed hypothesis or hypotheses (specifically italicized in the prospectus) accompanied by a motivation, objectives with major and alternative approaches to the studies, and conjectures of possible outcomes. Students are NOT allowed to take dissertation credits until their prospectus is approved. Credits taken before the approval date will NOT count towards the degree program.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

Students cannot graduate from one portion of the dual degree until the requirements for both are met. Students must apply to graduate from both programs for the same semester.

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

Mathematical Sciences M.S

The student must successfully complete a culminating experience.

If the exam option is chosen, the student must successfully pass a final comprehensive examination.

If the thesis option is chosen, the student must:

Submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.

Submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Electrical Engineering Ph.D.

During the first semester, a Ph.D. student must select a faculty advisor. The faculty advisor does not have to be the one to whom the student was assigned upon entering the Ph.D. program. In coordination with the faculty advisor, the student must also form a doctoral advisory committee. A doctoral advisory committee is composed of at least four members of the UNLV Graduate Faculty. Three of the faculty must be from the Department of Electrical and Computer Engineering. The fourth from a relevant supporting field having Full Graduate Faculty Status as recognized by the Graduate College.

Students admitted on provisional and/or conditional status are not allowed to take the qualifying exam until their provisions and/or conditions have been met. Students taking the exam while on provisional or conditional status will be required to retake the exam regardless if one or all areas of the exam have been passed.

Provisional status students must complete all required supplementary work within one calendar year from the time of admission into the program with a grade of B (3.0) or better in each course.

Pass the Qualifying Exam within 2 semesters of being admitted to the Ph.D. program on a regular (full graduate standing) status. The Qualifying Exam is offered once every fall semester and once every spring semester. This exam cannot be taken more than twice.

The Qualifying Exam tests the student's general undergraduate knowledge of electrical engineering and computer engineering. To register for the Qualifying Exam, eligible students must notify the graduate coordinator no later than one month prior to the examination date.

All students must pass the Qualifying Exam within the first two semesters (excluding the summer semester) upon being admitted to the Ph.D. program on a regular status. If a student is required to take the qualifying exam and is not present to sit the exam, an automatic FAIL is assigned. Students who have not passed the Qualifying Exam within this timeframe will be terminated from the Ph.D. program. Students who have not passed the Qualifying Exam by their second attempt will be terminated from the Ph.D. program. Students in the Direct Ph.D. program who fail the Qualifying Exam on their second attempt within the two semester timeframe may elect to pursue a M.S. Degree by completing all of the requirements listed for that degree.

The Qualifying Exam is a four and one-half hour exam covering questions in the following undergraduate electrical and computer engineering fields:

- Communications
- Control System Theory
- Electromagnetics and Optics
- Electronics
- Power
- Signal Processing
- Solid State
- Digital Logic Design
- Computer Architectures and Organization
- Digital Electronics and VLSI Design
- Computer Communication Networks

To pass the qualifying exam requirement, the student must successfully complete any four of the eleven areas with a grade of PASS to complete the qualifying exam requirement within two sittings. If the student passes less than four areas on the first attempt, the student will receive a PASS for those individual areas successfully completed and will not be required to retake these areas on the second attempt. The exam is a closed note, closed book exam.

For more details on course specifics, exam logistics, appeal rights and procedure, and protocols regarding the qualifying exam, refer to the ECE department's Electrical Engineering Graduate Program Document.

In all Post-Bachelor's Tracks, a Ph.D. student must complete a minimum of 15 credits in an approved ECE major field in a single area of Electrical and Computer Engineering, 9 credits in an approved ECE minor field (primary minor) in a single but different area of Electrical and Computer Engineering, and another 9 credits in a second approved minor (secondary minor) field. Currently, the Department of Electrical and Computer Engineering at UNLV offers Communications, Computer Engineering, Control System Theory, Electromagnetics and Optics, Electronics, Power Systems, Signal Processing, and Solid State Materials and Devices as major fields. Specific courses that can be applied to specific fields are listed in detail in the Electrical Engineering Graduate Program Document.

Of the 15 credits required in the ECE major field, a minimum of 9 credits must be completed in 700-level courses. To complete the ECE major field requirement, the applied 15 credits of ECE major course work must attain a minimum overall GPA of 3.33 (B+=3.30).

Each student must complete two minor fields. To complete a minor field, a student must complete a minimum of 9 credits in a minor field and have an overall minimum GPA of 3.33 (B+=3.30) for the 9 minor field credits. Of the 9 required credits in each minor field, a minimum of 6 credits must be in 700-level courses. Courses that can be applied to specific minor fields are listed in detail in the Electrical Engineering Graduate Program Document. These courses may be applied to any designated field but may only be counted once. With the written approval of the major advisor and the student's advisory committee, the secondary minor may be a mixed minor field. A mixed minor field may be formed with courses inside and/or outside of the Electrical Engineering Department's approved fields (e.g., mathematics and physics, computer engineering and computer science, physics, mechanical engineering, solid state and electromagnetics) A mixed minor may not be composed of courses in the Electrical Engineering Department that satisfy course work in the major and the other minor field. The only exception is when a course may be used in more than one field. In this case, the course may not be counted twice but may be used for either minor area. However, the student must complete at least one minor field (primary minor field) in Electrical Engineering in a single area.

After passing the Qualifying Exam, successfully completing all courses for a major field, and successfully completing all courses for the ECE minor field, students are eligible to take the Comprehensive Exam. All students must have passed the Comprehensive Exam within two semesters after successfully completing all required course work except for the 18 credits Dissertation. [NOTE: Up to 6 credits of Dissertation taken prior to the successful completion of the Preliminary Exam may count towards the degree program.] The Comprehensive Exam cannot be taken more than once per semester and cannot be taken more than twice.

The Comprehensive Exam tests the candidate's depth of knowledge in the candidate's chosen ECE major field and chosen ECE minor (primary minor) field. All students must have passed the Comprehensive Exam within two semesters after successfully completing all required course work (except for the 18 credits of Dissertation). The Comprehensive Exam is offered once every fall semester and once every spring semester. The Comprehensive Exam cannot be taken more than twice. Candidates who have not passed the Comprehensive Exam within this timeframe (two consecutive sittings) will be terminated from the Ph.D. program. Candidates who have not passed the Comprehensive Exam following their second attempt will be terminated from the Ph.D. program.

Before a student is eligible to register for the Comprehensive Exam, the candidate must have obtained regular (full graduate standing) admission status, passed the Qualifying Exam, and must have successfully completed all of the course requirements for the ECE major field and the ECE minor (primary minor) field. The student must have acquired a minimum GPA of 3.33 in both the major and minor fields separately. If the minor field GPA is less than 3.33 and/or the major field GPA is less than 3.33, then the minor and/or minor field requirement has not been successfully completed. The candidate will not be allowed to take the Comprehensive Exam until both the major and minor 3.33 GPA requirements are fulfilled. Further, the student must have a minimum overall GPA of 3.2 and must have satisfied all other Ph.D. degree program admission requirements. If a student takes the Comprehensive Exam before any one of these requirements has been satisfied, the student will automatically receive a FAIL grade for the exam. At their discretion, the Graduate Committee may also count this failing grade as one of the student's attempts for the Comprehensive Exam. To register for the Comprehensive Exam, eligible students must notify the graduate coordinator no later than one month prior to the examination date.

To pass the Comprehensive Exam, a student must pass a five-hour exam covering courses in his/her ECE major field and ECE minor (primary minor) field. A pass or fail grade will be given for the exam. The graduate committee will notify students of the results of the exam. The major and minor area exam will emphasize graduate coursework taken in the ECE major and ECE minor (primary minor; minor 1) fields. The exam will evaluate the student's ability to apply his/her theoretical and analytical abilities to problems in his/her ECE major and ECE minor (primary minor) field. However, the exam may require knowledge of undergraduate material related to the student's major and minor fields. Students should expect problems that require advanced thinking. Specific problems need not be familiar textbook problems nor may the student be necessarily familiar with the problem. A pass or fail grade will be given for the exam. The graduate committee will notify students of the exam results.

For more details on course specifics, exam logistics, appeal rights and procedure, and protocols regarding the comprehensive exam, refer to the ECE department, "Electrical Engineering Graduate Program Document."

After successfully completing all required course work and passing the Comprehensive Exam, the candidate must pass the Preliminary Exam. The Preliminary Exam cannot be taken more than once per semester but may be repeated until passed.

The Preliminary Exam evaluates the caliber of a student, "dissertation topic. The Preliminary Exam cannot be taken more than once per semester but may be repeated until passed.

To be eligible for the Preliminary Exam, a student must have passed the Comprehensive Exam, and have successfully completed all required course work except for the 18 credits of Dissertation.

Before the Preliminary Exam, a student must prepare a 10 to 20-page prospectus of his/her research. A copy of this prospectus must be submitted to the Graduate Committee and each member of the Ph.D. candidate, "advisory committee at least two weeks prior to the Preliminary Exam.

The student must also notify the Graduate Committee and each member of their advisory committee of the date, time and location of their Preliminary Exam. This must be done at least two weeks prior to the Preliminary Exam.

During the Preliminary Exam, the student presents his/her prospectus to his advisory committee. To pass the Preliminary Exam, the student, "advisory committee must unanimously approve the student, "prospectus. Students who pass the Preliminary Exam are advanced to candidacy for the Ph.D.

Complete a minimum of 18 credits of Dissertation and complete a dissertation containing original research. Upon completion, the student must pass the Final Exam in which the student defends his/her dissertation. The Final Exam is the culminating experience of the PhD program.

The Final Exam evaluates the Ph.D. candidate, "dissertation. The Final Exam cannot be taken more than once per every three months but may be repeated until passed. To be eligible for the Final Exam, a Ph.D. candidate must have passed the Preliminary Exam, and have successfully completed all required course work including a minimum of 18 credits of Dissertation. A minimum of 12 credits of Dissertation must be taken after the successful completion of the Preliminary Exam. A copy of the Ph.D. candidate, "dissertation must be submitted to the Graduate Committee and each member of the Ph.D. candidate, "advisory committee at least two weeks prior to the Final Exam. The Ph.D. candidate must also notify the Graduate Committee and each member of his/her advisory committee of the date, time, and location of his/her Final Exam at least two weeks prior to the Final Exam. During the Final Exam, the Ph.D. candidate will present his/her dissertation to their advisory committee. To pass the Final Exam, the Ph.D. candidate, "advisory committee must unanimously approve the Ph.D. candidate, "dissertation.

The Department of Electrical and Computer Engineering requires that the Ph.D. degree be completed within a period of six years from the time the candidate is fully admitted to the Ph.D. program. Further, courses taken more than six years prior to graduation cannot be applied toward the PhD degree without permission from the Graduate College. Students exceeding this time limit must formally write a letter requesting permission from both the Graduate Committee and the Graduate College to stay in the Ph.D. program and apply coursework towards the degree program. The formal letter must explain the circumstances of why the degree was not completed within the allotted timeframe and indicate the extended period of time needed to complete the degree.

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.

Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Electrical and Computer Engineering Courses

ECG 600 - Computer Communication Networks

Credits 3

Computer network architecture; the OSI Model: network protocols; local area networks; fiber optics communication; ISDN; elements of Queueing Theory, with emphasis on hardware design issues.

ECG 603 - Embedded Systems Design

Credits 3

Embedded Systems Design.

ECG 604 - Modern Processor Architecture

Credits 3

Instruction level parallel processing. Processor performance evaluation and optimization. Scalar and superscalar pipelines. Instruction, register data and memory data flow techniques. Cache organization and performance analysis. Comparison of RESC, CISC and VLIW architecture. Survey of modern processors. Introduction to multithreading.

ECG 605 - Data Compression Systems

Credits 3

Source modeling. Foundations of lossy and lossless compression, code properties. Huffman and arithmetic coding, predictive coding, dictionary techniques, compression techniques and standards for facsimile, audio, video and still image coding. Hardware design specifics, coding and watermarking.

ECG 607 – Biometrics

Credits 3

Taxonomics of devices and applications, probability and statistical testing methods, one and two dimensional transform techniques, finger printing, voice recognition., facial recognition, and iris scanning, large scale identification applications, multibiometrics, social, legal, and ethical concerns.

ECG 608 - Digital Design Verification and Testing

Credits 3

A study of complete digital design testing during all design flow stages - from writing code to testing chips after manufacturing, creating and implementing effective test scenarios and assertion techniques, designing self-testing devices. Students will get hands-on experience with various EDA tools for design testing, verification, logic and fault simulation.

ECG 620 - Analog Integrated Circuit Design

Credits 3

An introduction to the design, layout, and simulation of analog integrated circuits including current mirrors, voltage and current references, amplifiers, and op-amps. **Prerequisites:** EE 320 or equivalent.

ECG 621 - Digital Integrated Circuit Design

Credits 3

An introduction to the design, layout, and simulation of digital integrated circuits. MOSFET operation and parasitics. Digital design fundamentals including the design of digital logic blocks. **Prerequisites:** CpE 100 and EE 320 or equivalent.

ECG 630 - Transmission Lines**Credits 3**

Telegraphist's equations; transient response—steady state response; reflection diagrams; Smith chart; matching techniques and designs; narrow and broadband impedance matching techniques; scattering matrix; introduction to stripline and microstrip devices.

ECG 631 - Engineering Optics**Credits 3**

Fundamentals of antennas and antenna design; linear wire, loop, and antenna arrays; antenna measurements.

ECG 632 - Antenna Engineering**Credits 3**

Fundamentals of antennas and antenna design; linear wire, loop, and antenna arrays; antenna measurements.

ECG 633 - Active and Passive Microwave Engineering**Credits 3**

This 600-level course has been approved by the Graduate College for possible inclusion in graduate programs. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ECG 642 - Power Electronics**Credits 3**

Topics include: diode circuits and rectifiers, power semiconductor diodes and transistors, thyristors and static switches, controlled rectifiers, AC voltage controllers, DC choppers, inverters, AC and DC drives, power supplies and protection of devices and circuits.

ECG 646 - Photovoltaic Devices and Systems**Credits 3**

This course covers solar resource characteristics, solar cell physics and technologies, cell electrical characteristics, PV module design, DC-AC inverters, battery energy storage and charge controllers, design of stand-alone and grid-connected PV systems, and economic considerations. **Prerequisites:** Enrollment in the Solar and Renewable Energy Graduate Certificate Program, or graduate standing for engineering students.

ECG 650L - Solid State Characterization Laboratory**Credits 1**

Capacitance and voltage. Hall mobility and carrier concentration, oxidation and etching silicon dioxide processing of silicon.

ECG 651 - Electronic and Magnetic Materials and Devices**Credits 3**

Semiconductors, dielectrics, ferroelectrics, antiferromagnetics, ferromagnetics, ferrimagnetics, crystal structure, structure-property relations, device applications.

ECG 652 – Optoelectronics**Credits 3**

Topics include: modulation of light, display devices, lasers, photodetectors, fiber optics, engineering applications, and systems.

ECG 653 - Introduction to Nanotechnology**Credits 3**

Overview of Nanotechnology. Physics of the Solid State, Properties of Individual Nanostructures. Bulk Nanostructured materials, magnetic nanoparticles, Quantum Wells, Wires and Dots, Self-Assembly and Catalysis, nanoscale Biological materials.

ECG 662 - Advanced Digital Communications**Credits 3**

Information theory and fundamental limits on performance, digital coding of waveforms, pulse shaping for baseband transmission, digital bandpass modulations, channel coding.

ECG 672 - Digital Control Systems

Credits 3

Introduction to discrete time of control. State space representation of linear systems; stability; the concepts of controllability and observability. Sample data control system design techniques, including pole placement, observer design.

ECG 674 - Recent Topics in Control

Credits 3

This 600-level course has been approved by the Graduate College for possible inclusion in graduate programs. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ECG 680 - Discrete-Time Signal Processing

Credits 3

Review of discrete linear system theory including the z-transformers, the Fourier transform, discrete and fast Fourier transform. Sampling, reconstruction multirate systems and quantization noise. IIR and FIR digital filter design including digital filter structures and finite word length effects.

ECG 680L - Digital Signal Processing Laboratory

Credits 1

Laboratory projects and exercises in digital signal processing including the design and implementation of FIR, IIR, and multirate systems.

ECG 682 - Introduction to Biomedical Signals and Systems

Credits 3

Introduction to biomedical signals, transduction devices, bioelectric potentials and sensors. Application of electrical signal and system principles to biosignals, such as cardiovascular electrical signals, neural electrical communication, and diagnostic ultrasound. Includes current biomedical engineering topics.

ECG 695 - Special Topics

Credits 1-4

Covers experimental and other topics which may be of current interest. Topics and credits to be announced. **Notes:** May be repeated once under a different topic. May have a laboratory.

ECG 700 - Advanced Computer System Architecture

Credits 3

High performance computer architecture including pipelining techniques, high speed memory systems, vector processors, parallel processing, and interconnection networks. **Prerequisites:** ECG 300 or consent of instructor.

ECG 701 - Reliable Design of Digital Systems

Credits 3

D-algorithm, Boolean difference, test generation for combinational and sequential circuits, self checking circuits, fault tolerant design, design for testability, and topics in reliability and maintainability. **Prerequisites:** ECG 300 or consent of instructor.

ECG 702 - Interconnection Networks for Parallel Processing Applications

Credits 3

Interconnection networks models, comparison of single-stage networks: PM2I, HYPERCUBE Illiac and shuffle-exchange, partitioning single-stage networks, multistage networks, survey and comparison of fault-tolerant multistage networks. **Prerequisites:** ECG 300 or consent of instructor.

ECG 704 - Coding with Applications in Computers and Communication Media

Credits 3

Error correcting codes, design and analysis of encoder/decoder circuitry, applications to reliable communication and fault tolerant computing, compression encoding schemes. **Prerequisites:** ECG 300 , MATH 453, or consent of instructor.

ECG 706 - Analysis of Telecommunication and Data Networks

Credits 3

Probability-based treatment of telecommunication and data networks. Delay, throughput, buffer management in layers of ISO Open Systems Interconnection Model. Performance analysis, flow and congestion control, routing function, polling and random access, CSMA/CD and Ethernet. **Prerequisites:** ECG 300 and MATH 462

ECG 707 - Logic Synthesis Engineering

Credits 3

Theory and application of Boolean Minimization, functional decomposition and logic synthesis for FPGAs, serial and parallel decomposition strategies, and design implementation using FPGAs. Design entry, introduction to VHDL, BDD, FSM, and BLIF. Placement and routing in Xilinx and Aleira. **Prerequisites:** Graduate standing in computer engineering or consent of instructor.

ECG 709 - Synthesis and Optimization of Digital Systems

Credits 3

Study of the high-level synthesis and optimization algorithms for designing SOCs and MPSOCs. Topics including algorithms for high-level synthesis, scheduling, resource binding, real-time systems, application specific instruction processors, embedded systems and hardware/software codesigns. Simulate and synthesize algorithms using HDL languages (Verilog and SystemC). Use of simulators and emulators. **Prerequisites:** CPE 300 and C/C++ knowledge or Instructor permission

ECG 720 - Advanced Analog IC Design

Credits 3

Advanced analog design considerations including: noise, common-mode feedback, high-speed design, and design for analog signal processing. **Prerequisites:** EE 420 or ECG 620.

ECG 721 - Memory Circuit Design

Credits 3

A practical introduction to the transistor-level design of memory circuits. Memory technologies including DRAM, Flash, MRAM, Glass-based, and SRAM will be discussed. **Prerequisites:** EE 421 or ECG 621.

ECG 722 - Mixed-Signal Circuit Design

Credits 3

Design of data converters using sigma-delta techniques. Operation and design of custom digital filters for decimating and interpolating in analog-to-digital interfaces. **Prerequisites:** EE 320 and EE 360 or equivalent.

ECG 730 - Advanced Engineering Electromagnetics I

Credits 3

Conformal transformation with application to static field problems in engineering; wave harmonics with engineering applications; theorems of waves and media; Special Theory of Relativity with engineering applications; wave propagation in various media; engineering application of scattering. **Prerequisites:** ECG 330 or consent of instructor.

ECG 731 - Theoretical Techniques in Electromagnetics

Credits 3

Review and introduce mathematical techniques basic to the study of engineering electromagnetics, including coupled mode theory; complex analysis; and Green's function. **Prerequisites:** ECG 330 or consent of instructor.

ECG 732 - Advanced Engineering Electromagnetics II

Credits 3

Scattering; particle and beam radiation; selected topics in advanced antenna and microwave engineering. **Prerequisites:** ECG 330 or consent of instructor.

ECG 733 - Plasma I**Credits 3**

Single particle motion; adiabatic invariants; plasmas as fluids; waves in plasmas; diffusion; resistivity; introduction to kinetic theory; Landau damping. **Prerequisites:** ECG 330

ECG 740 - Computer Analysis Methods for Power Systems**Credits 3**

Power system matrices, programming considerations, conventional power flow studies, approximate and fast power flow studies, optimal dispatch, fault studies, power system stability, stochastic methods in power systems analysis.

Prerequisites: ECG 440, ECG 440L or consent of instructor.

ECG 741 - Electric Power Distribution System Engineering**Credits 3**

Electric load characteristics, distribution transformers, design of subtransmission lines and distribution substations, design of primary and secondary systems, voltage drop and power loss calculation, capacitor applications, voltage regulation, distribution system protection and reliability. **Prerequisites:** ECG 440, ECG 440L or consent of instructor.

ECG 742 - Power System Stability and Control**Credits 3**

Power equipment dynamic characteristics and modeling, control of active and reactive power, small-signal stability, transient stability, voltage stability, sub-synchronous oscillations, mid- and long-term stability, methods of improving stability. **Prerequisites:** ECG 440, ECG 440L or consent of instructor.

ECG 750 - Optical Electronics I**Credits 3**

Propagation of rays and beams, optical beams in fibers, resonators, laser oscillation, electro-optic, modulation, laser systems. **Prerequisites:** MATH 432, ECG 330, ECG 452 or consent of instructor.

ECG 751 - Optical Electronics II**Credits 3**

Detection of optical radiation, optical dielectric waveguides, semiconductor lasers, phase conjugate optics, laser applications including holography. **Prerequisites:** ECG 750

ECG 752 - Physical Electronics**Credits 3**

Quantum Theory, electron in potential well, harmonic oscillator. Hydrogen atom, Band Theory of Solids, Kronig-Penny model, theory of metallic state, diffraction by crystals, electronic structure of solids. **Prerequisites:** ECG 320 or consent of instructor.

ECG 753 - Advanced Topics in Semiconductor Devices I**Credits 3**

Topics of current interest in solid state electronic devices: physics of semiconductors, thermal and optical and electronic properties of semiconductors, bipolar junction devices, field effect devices, surface related effects, optoelectronic devices, semiconductor lasers. Applications and the design of circuits using these devices. Intended for electrical and electronic engineers, physicists and qualified senior students in engineering and physics.

Prerequisites: PHYS 411 and 483 or ECG 421, ECG 420 and consent of instructor.

ECG 754 - Hybrid Microelectronics**Credits 3**

Vacuum theory, thin and thick film fabrication, electron transport phenomena, electronic properties active and passive films, distributed networks, designing hybrid microcircuits. **Prerequisites:** Graduate standing or consent of instructor.

ECG 755 - Monolithic Integrated Circuit Fabrication

Credits 3

Fabrication of integrated silicon and gas circuits, thermal oxidation, solid state diffusion, epitaxial growth, ion implantation, photo and electron lithography, design considerations, surface effect. **Prerequisites:** Graduate standing or consent of instructor.

ECG 756 - Advanced Topics in Semiconductor Devices II**Credits 3**

Topics of current interest in solid state electronic devices: ultrafast electronics, high electron mobility transistors, superlattices, heteroface devices, transfer electron devices and III-V and II-VI compounds, novel device structures. Novel approaches to device modeling such as Monte Carlo simulations, self-consistent solution of Schroedinger and Poisson and other approaches. **Prerequisites:** ECG 753

ECG 757 - Electron Transport Phenomena in Solid State Devices**Credits 3**

Phenomenological transport equations, Boltzmann transport equation, relaxation time approximation, low field and high electron transport in Si and GaAs, moments of BTE, Monte Carlo simulation, spatial and temporal transients, device analysis, Quantum transport. **Prerequisites:** ECG 450 or ECG 753.

ECG 760 - Random Processes in Engineering Problems**Credits 3**

Basic probability theory, random variables, probability and densities, expectation, static estimation, random processes, power spectral density, mean square calculus, Wiener integrals. **Prerequisites:** ECG 460, MATH 461 or consent of instructor.

ECG 761 - Spectral Analysis and Time Series**Credits 3**

Stationary random processes. Spectral representation. Estimation of correlation functions and spectra. Higher order spectra and nonlinear system models. **Prerequisites:** ECG 460, ECG 760 or consent of instructor.

ECG 762 - Detection and Estimation of Signals in Noise**Credits 3**

Hypothesis testing, matched filters, estimation theory, Kalman and Wiener filters, applications to communication systems. **Prerequisites:** ECG 460, ECG 760 or consent of instructor.

ECG 770 - Linear Systems Theory**Credits 3**

Mathematical systems theory, state space concepts, canonical forms, time and frequency domains, controllability and observability, state feedback, compensator design, and algebraic systems theory. **Prerequisites:** ECG 470, MATH 431 or consent of instructor.

ECG 771 - Optimal and Modern Controls**Credits 3**

Review of analysis of linear control systems, optimal control systems, time and frequency domains, regulator problems, deterministic and random processes. **Notes:** Topics selected according to the interests of the class. **Prerequisites:** ECG 770

ECG 772 - Nonlinear Systems I**Credits 3**

Introduction, differential equations, approximate analysis methods, Lyapunov stability, input-output stability. **Prerequisites:** ECG 770 or consent of instructor.

ECG 773 - Multivariable Control**Credits 3**

Mathematical preliminaries, frequency domain representation, differential operator representation, linear state feedback, frequency domain compensation, fractional approaches, recent topics in control. **Prerequisites:** ECG 770 or consent of instructor.

ECG 774 - Stochastic Control**Credits 3**

Introduction, stochastic processor, state estimation, Kalman Filter, nonlinear estimation, stochastic control.

Prerequisites: ECG 770 or consent of instructor.

ECG 775 - Nonlinear Systems II**Credits 3**

Geometric approach to nonlinear systems, inversion of input-output map, decomposition, noninteraction, disturbance decoupling, exact linearization, nonlinear control synthesis, Volterra series, realization theory.

Prerequisites: ECG 772 or consent of instructor.

ECG 776 - Adaptive Control**Credits 3**

Introduction, model reference control, hyperstability, Popov criterion, parameter identification, adaptive control of discrete systems, adaptive predictor, adaptive state estimation. **Prerequisites:** ECG 770 (formerly EEG 760) or consent of instructor.

ECG 777 - Robotic Systems Control**Credits 3**

Dynamics of rigid and elastic robotic systems, trajectory planning, inverse torque computation, adaptive control, variable structure control, torque and force feedback control. **Prerequisites:** Consent of instructor.

ECG 780 - Digital Signal Processing**Credits 3**

Introduction to the theory and applications of digital signal processing. Discrete-time signals, linear systems and difference equations. Sampling and multirate systems. One sided and two sided z-transforms. Finite impulse response (FIR) and infinite impulse response (IIR) systems. The discrete and fast Fourier transforms (FFT).

Prerequisites: ECG 460, MATH 431 or consent of instructor.

ECG 781 - Digital Filters**Credits 3**

Theory and applications of digital filters. Structures for discrete time systems. Finite precision numerical effects in digital systems. Finite impulse response (FIR) and infinite impulse response (IIR) digital filters designs including windowing techniques, optimization techniques, analog to discrete time transformation techniques and wave digital filters. **Prerequisites:** ECG 780

ECG 782 - Multidimensional Digital Signal Processing**Credits 3**

Theory and applications of multidimensional (M-D) digital signal processing. M-D signals and systems. M-D z-transform. M-D DFT and FFT. Design and implementation of M-D FIR and IIR filters. Applications to image processing such as image enhancement and restoration. Advanced topics chosen according to class interests.

Prerequisites: ECG 780

ECG 783 - Adaptive Signal Processing with Neural Networks**Credits 3**

Theory and application of adaptive signal processing with neural networks. Theory of adaptation and performance surfaces. Adaptive algorithms. Fundamental concepts and models of artificial neural systems. Single layer perception classifiers. Multi layer feed forward networks. Single layer feedback networks applications.

Prerequisites: ECG 780 or equivalent.

ECG 791 - Independent Study in Electrical Engineering**Credits 1 – 3**

Supervised independent work in a topic of electrical engineering. **Notes:** May be repeated to a maximum of six credits with consent of electrical engineering faculty. **Prerequisites:** Graduate standing in electrical engineering or related field and consent of instructor.

ECG 795 - Advanced Special Topics in Electrical Engineering

Credits 1 – 3

Advanced special topics in modern electrical engineering as defined in the announcement of the course.

Notes: May be repeated to a maximum of six credits. **Prerequisites:** Graduate standing in electrical engineering or related field and consent of instructor.

ECG 797 - Electrical Engineering Thesis

Credits 3 – 6

Notes: May be repeated, but only six credits will be applied to a student's program. **Grading:** S/F grading only.

Prerequisites: Graduate standing in electrical engineering or related field and consent of instructor.

ECG 799 – Dissertation

Credits 1 – 6

Research analysis and writing toward completion of dissertation and subsequent defense. **Notes:** May be repeated to a maximum of 18 credits allowed toward the degree. **Grading:** S/F grading only. **Prerequisites:** Graduate standing in electrical engineering or related field and consent of instructor.

Mechanical Engineering

Among the subjects taught and researched by the faculty of the mechanical engineering program are the following: active material, aerospace, vibrations and acoustics, heat transfer, fluid flow (and computational fluid dynamics), environmental transport processes, multiphase flow, energy conservation and conversion technologies, alternative energy including solar power, automatic control, robotics, biomedical engineering, nuclear engineering, structural properties of engineering materials, and composites.

Graduate students have access to all departmental laboratories and equipment as well as the facilities of the National Supercomputing Center for Energy and the Environment. The department supports numerous networked workstations.

The laboratories of the department include an extensive acoustics and vibrations facility, a thermal-fluids capability, a full array of mechanical testing machines, measurement and control laboratory, and a low-moderate speed wind tunnel. A unique laboratory also exists for full-scale testing of ducts and diffusers, including indoor air quality and HVAC equipment.

In addition to a recently established material performance laboratory, several faculty members are developing and testing different designs of solar power generators.

Woosoon Yim, Ph.D., Chair
Yitung Chen, Ph.D., Graduate Coordinator

Chair

Yim, Woosoon - *Full Graduate Faculty*
Professor; B.S., Hanyang University, S. Korea; M.S., Ph.D. University of Wisconsin-Madison. *Rebel since 1987.*

Graduate Coordinator

Chen, Yi Tung - *Full Graduate Faculty*
Professor; B.S., Feng Chia University; M.S., Ph.D., University of Utah. *Rebel since 1993.*

Graduate Faculty

Barzilov, Alexander P. - *Full Graduate Faculty*
Associate Professor; M.S. Institute of Nuclear Power Engineering (INPE), Obninsk, Russia; Ph.D. Institute of Physics and Power Engineering (IPPE), Obninsk, Russia. *Rebel since 2012.*

Boehm, Robert F. - *Full Graduate Faculty*
Professor; B.S., M.S., Washington State University; Ph.D., University of California, Berkeley; P.E., California. *Rebel since 1990.*

Culbreth, William G. - *Full Graduate Faculty*
Associate Professor; B.S., California State Polytechnic University, Pomona; M.S., Ph.D., University of California, Santa Barbara. *Rebel since 1985.*

Kim, Kwang J. - *Full Graduate Faculty*

Professor; B.S., Yonsei University, S. Korea; M.S., Ph.D., Arizona State University. *Rebel since 2012.*

Mauer, Georg F. - *Full Graduate Faculty*

Professor; Diploma-Ingenieur; Ph.D., Technical University of Berlin. *Rebel since 1986.*

Moujaes, Samir F. - *Full Graduate Faculty*

Professor; B.S., M.S., American University of Beirut; Ph.D., University of Pittsburgh; P.E., Nevada. *Rebel since 1984.*

O'Toole, Brendan J. - *Full Graduate Faculty*

Professor; B.S., M.S., Ph.D., University of Delaware. *Rebel since 1992.*

Pepper, Darrell W. - *Full Graduate Faculty*

Professor; B.S., M.S., Ph.D., University of Missouri-Rolla. *Rebel since 1992.*

Reynolds, Douglas D. - *Full Graduate Faculty*

Professor; B.S., Michigan State University; M.S., Ph.D., Purdue University. *Rebel since 1983.*

Rice, Stephen - *Full Graduate Faculty*

Professor; B.S., M.Eng., Ph.D., University of California, Berkeley. *Rebel since 1966.*

Trabia, Mohamed - *Full Graduate Faculty*

Professor; B.S., M.S., Alexandria University; Ph.D., Arizona State University. *Rebel since 1987.*

Wang, Zhiyoung - *Full Graduate Faculty*

Associate Professor; B.S., M.S., Ph.D., Harbin University of Science and Technology. *Rebel since 1998.*

Zhao, Hui - *Full Graduate Faculty*

Assistant Professor; B.S., M.S., Peking University, China; Ph.D., University of Pennsylvania. *Rebel since 2009.*

Mechanical Engineering Plans

Graduate Certificate in Nuclear Criticality Safety

The graduate, distance education Nuclear Criticality Safety Engineering (NCSE) Certificate program will provide the graduate MSMNE student a diverse education and the practicing NCS engineer (and their employer) with components that will help train and maintain a well-qualified workforce. The UNLV NCSE Certificate will provide evidence that the graduate has the appropriate education to become a certified NCS Engineer in NRC-licensed facilities, US DOE, the national laboratories, and the Navy Reactors program. The NCSE Certificate program consists of four nuclear engineering courses (twelve credits total) that include three required courses and a related/approved elective course. In addition, many of the proposed topic areas, e.g., Introduction to Nuclear Criticality Safety, are also appropriate subjects for general nuclear engineering graduate students (i.e., not NCS engineers), while other certificate program courses, e.g., Monte Carlo Methods are appropriate for both UNLV, the MSMNE students as well as health and medical physics students.

Plan Admission Requirement

Admission to the NCSE Certificate program requires both a BS degree in an engineering discipline and ME 455/655 Fundamentals of Nuclear Engineering (or equivalent).

If an applicant can demonstrate equivalent knowledge from relevant work experience (e.g. Navy nuclear reactor program or extensive training and experience at an NRC-licensed or DOE process facility), the Director of the NCSE Certificate Program can waive both requirements with the concurrence of the Chair of the Department of Mechanical Engineering based upon review by nuclear engineering faculty.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 12

Course Requirements

- Required Courses ,À Credits: 9
 - ME 754 - Introduction to Nuclear Criticality Safety
 - ME 755 - Nuclear Criticality Safety Engineering
 - ME 756 - Monte Carlo Methods in Nuclear Engineering
- Elective ,À Credits: 3
 - Complete an advisor-approved graduate-level nuclear engineering or health physics course.

Certificate Requirements

- Completion of a minimum of 12 credit hours with a minimum GPA of 3.00.

Plan Certificate Completion Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.

Master of Science in Aerospace Engineering - Aerospace Engineering

The objectives of the M.S.A.E. degree are to provide a quality graduate educational program that will complement the existing undergraduate and graduate curricula in mechanical engineering. The aerospace graduate program will improve and enhance the capabilities of those students seeking careers in the aerospace field and supporting engineering work for the aerospace and aviation technology community. The majority of students seeking the M.S.A.E. degree will have undergraduate degrees in the fields of mechanical or aerospace engineering, or closely related fields of engineering, applied physics, or applied mathematics; some will already have graduate degrees in the more conventional areas of engineering or the sciences. Those individuals with engineering (as well as physical science) interests will use the M.S.A.E. to develop careers as well as improve their skills in the aerospace and aviation industry. Students enrolling in the program on a full-time basis will likely assist engineering faculty in obtaining sponsored project funding and performing innovative aerospace and aviation engineering research.

Learning Outcomes

www.unlv.edu/degree/msae-aerospace-engineering

Plan Admission Requirement

In addition to the general requirements for admission to the Graduate College, an applicant for the M.S. program must complete the following requirements:

1. Applicants must complete the on-line process in the ,ÀApply Yourself (AY),À system.
2. In addition to the required information in the general AY application system, the Mechanical Engineering Department has two additional requirements which can also be submitted in the AY system as optional

items. Electronic submission is the preferred method. If these items are not completed in the AY system before you finish and make payment, you cannot go back and do them electronically afterwards. In this case, you must mail hardcopies to the Mechanical Engineering Department. The two items are:

3. A written statement of purpose indicating interests and objectives in working toward a M.S. degree.
4. Two letters of recommendation. There is no specified format. Your references should point out the qualifications that make you a good candidate for admission.
5. The applicant must have a bachelor's degree in engineering or a closely related discipline. Students with non-engineering backgrounds will be required to complete a set of course work requirements that will assure successful completion of the M.S. specialization and qualify the student to sit for the Fundamentals of Engineering (FE) exam. The Graduate Program Committee (GPC) will decide upon special cases.
6. The applicant must submit his/her official copy of the Graduate Record Examination (GRE) test scores. To be admitted to the graduate program in Mechanical Engineering, the applicant must be at or above the 75 percentile range (of the group taking the GRE when the applicant takes the exam) in the quantitative reasoning section of the exam. If the applicant is less than 75 percent, at the discretion of the Department of Mechanical Engineering, the applicant may be provisionally admitted to the graduate program with the requirement that he/she retake the GRE during the first semester after admission. If the applicant fails to retake the GRE during the first semester after admission or if the applicant fails to be at or above the 75 percent range in the quantitative reasoning section of the exam after retaking the exam, at its discretion, the Department of Mechanical Engineering may remove the applicant from the graduate program. The GRE university code for UNLV is 4861. The Mechanical Engineering Department code is 1502.
7. The GPC will examine the applicant's academic record and will make the final determination of the applicant's admissibility to the M.S. program. In general, a minimum post baccalaureate GPA of 3.00 on a 4.00 scale or equivalent is required for admission in addition to a GPA of 3.00 on a 4.00 scale or equivalent in all engineering courses.
8. All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Our department admissions committee looks at all of these requirements when making admissions decisions.

The Integrated BS-MS degree program is designed to provide high-achieving MEG undergraduate students with the opportunity to be exposed to graduate courses and to encourage them to continue with graduate degree by reducing the time needed for degree completion. Up to nine credit hours of approved graduate-level course work can be taken as technical electives for the grade of B or better during the senior year and those credit hours will be waived for the graduate degree. The following conditions are needed to enroll in the Integrated BS-MS program:

- A minimum of two semesters of full-time enrollment in B.S. of Mechanical Engineering program is required.
- Applications are normally submitted with two semesters remaining in the senior year.
- A minimum of 90 credit hours of course work applicable to the B.S. of Mechanical Engineering degree with a cumulative GPA of 3.50 or higher must be completed before beginning the joint degree program.
- Student has to choose the thesis option.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Non-Thesis Track

Total Credits Required: 30

Course Requirements

- Required Courses ,Ä Credits: 9
 - Complete three of the following courses:
 - ME 609 - Turbomachinery
 - ME 700 - Advanced Fluid Mechanics I
 - ME 701 - Advanced Fluid Mechanics II
 - ME 702 - Computational Fluid Dynamics
 - ME 705 - Conduction Heat Transfer
 - ME 706 - Convective Heat Transfer
 - ME 740 - Advanced Dynamics
 - ME 741 - Energy and Variational Methods in Applied Mechanics I
- Core Courses ,Ä Credits: 6
 - Complete two of the following courses:
 - ME 704 - Finite Element Applications in Mechanical Engineering
 - ME 711 - Advanced Thermodynamics
 - ME 717 - Transport Phenomena
 - ME 720 - Acoustics I
 - ME 721 - Acoustics II
 - ME 725 - Vibrations I
 - ME 726 - Vibrations II
 - ME 729 - Advanced Robotics
 - ME 774 - Introduction to Theory of Elasticity and Plasticity I
 - ME 777 - Application of High-Performance Computing Methods in Science and Engineering
- Elective Courses ,Ä Credits: 12
 - Complete 12 credits of elective coursework from within the College of Engineering. Courses from outside the College of Engineering may be taken with advisor approval.
- Design Project ,Ä Credits: 3
 - ME 796 - Design Project in Mechanical Engineering

Degree Requirements

- Requires 33 credits of approved graduate courses. At least 18 credits must be earned from 700-level courses, and 15 credits must be in engineering.
- Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00 scale), no grades below C, (C- is not acceptable) and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise it to 3.00 or above.
- Only those courses in which a student received a grade of C or better may be used for graduate credit. Students must comply with Graduate College policy.
- Each student,Äs program should show suitable breadth and coherence. As specified in the Graduate Catalog, the program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the program must receive approval by the student,Äs committee. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Successfully complete a design project.

Subplan 2 Requirements: Thesis Track

Total Credits Required: 30

Course Requirements

- Required Courses ,Ä Credits: 9
- Complete three of the following courses:
 - ME 609 - Turbomachinery
 - ME 700 - Advanced Fluid Mechanics I
 - ME 701 - Advanced Fluid Mechanics II
 - ME 702 - Computational Fluid Dynamics
 - ME 705 - Conduction Heat Transfer
 - ME 706 - Convective Heat Transfer
 - ME 740 - Advanced Dynamics
 - ME 741 - Energy and Variational Methods in Applied Mechanics I
- Core Courses ,Ä Credits: 6
- Complete two of the following courses:
 - ME 704 - Finite Element Applications in Mechanical Engineering
 - ME 711 - Advanced Thermodynamics
 - ME 717 - Transport Phenomena
 - ME 720 - Acoustics I
 - ME 721 - Acoustics II
 - ME 725 - Vibrations I
 - ME 726 - Vibrations II
 - ME 729 - Advanced Robotics
 - ME 774 - Introduction to Theory of Elasticity and Plasticity I
 - ME 777 - Application of High-Performance Computing Methods in Science and Engineering
- Elective Courses ,Ä Credits: 9
- Complete 9 credits of elective coursework from within the College of Engineering. Courses from outside the College of Engineering may be taken with advisor approval.
- Thesis ,Ä Credits: 6
 - ME 797 - Thesis in Mechanical Engineering

Degree Requirements

- Requires 24 credits of approved graduate courses plus six credits of work associated with the master's level thesis, for a total of 30 credits. At least 15 credits must be earned from 700-level courses, and at least 15 credits must be in engineering. The final examination will include a defense of thesis.
- Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00 scale), no grades below C, (C- is not acceptable) and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise it to 3.00 or above.
- Only those courses in which a student received a grade of C or better may be used for graduate credit. Students must comply with Graduate College policy.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

- Each student's program should show suitable breadth and coherence. As specified in the Graduate Catalog, the program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the program must receive approval by the student's committee. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 3 Requirements: Integrated BS-MS Track

Total Credits Required: 21-27

Course Requirements

- Required Courses , Credits: 9
- Complete three of the following courses:
 - ME 609 - Turbomachinery
 - ME 700 - Advanced Fluid Mechanics I
 - ME 701 - Advanced Fluid Mechanics II
 - ME 702 - Computational Fluid Dynamics
 - ME 705 - Conduction Heat Transfer
 - ME 706 - Convective Heat Transfer
 - ME 740 - Advanced Dynamics
 - ME 741 - Energy and Variational Methods in Applied Mechanics I
- Core Courses , Credits: 6
- Complete two of the following courses:
 - ME 704 - Finite Element Applications in Mechanical Engineering
 - ME 711 - Advanced Thermodynamics
 - ME 717 - Transport Phenomena
 - ME 720 - Acoustics I
 - ME 721 - Acoustics II
 - ME 725 - Vibrations I
 - ME 726 - Vibrations II
 - ME 729 - Advanced Robotics
 - ME 774 - Introduction to Theory of Elasticity and Plasticity I
 - ME 777 - Application of High-Performance Computing Methods in Science and Engineering
- Electives , Credits: 0-6
- Complete 0-6 credits of elective coursework from within the College of Engineering. Courses from outside the College of Engineering may be taken with advisor approval.
- Thesis , Credits: 6
 - ME 797 - Thesis in Mechanical Engineering

Degree Requirements

- Total credits required depends on the total number of approved graduate-level course work taken as technical electives (with a grade of B or better) during the senior year.
- Requires 15-21 credits of approved graduate courses plus six credits of work associated with the master,Ãs level thesis, for a total of 21-27 credits. At least 15 credits must be earned from 700-level courses, and at least 15 credits must be in engineering. The final examination will include a defense of thesis.
- Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00 scale), no grades below C, (C- is not acceptable) and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise it to 3.00 or above.
- Only those courses in which a student received a grade of C or better may be used for graduate credit. Students must comply with Graduate College policy.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department,Ãs discretion. Please see Graduate College policy for committee appointment guidelines.
- Each student,Ãs program should show suitable breadth and coherence. As specified in the Graduate Catalog, the program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the program must receive approval by the student,Ãs committee. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Non-Thesis Track
- Subplan 2: Thesis Track
- Subplan 3: Integrated BS-MS Track

Master of Science - Biomedical Engineering

The objective of the M.S.B.E. degree program is to provide a graduate-level educational experience that will prepare individuals to undertake design and research in the area of biomedical engineering. The program is multidisciplinary and integrates knowledge from the traditional engineering sciences, the life sciences, and medicine.

Specific goals of the program include development of:

- A thorough grounding in the life sciences;
- Mastery of engineering tools and approaches;
- Familiarity with the problems of making and interpreting quantitative measurements of living systems;
- The ability to use modeling techniques; and
- The ability to formulate and solve problems with medical relevance, including the design of devices, systems, and processes to improve human health.

Learning Outcomes

www.unlv.edu/degree/msbe-biomedical-engineering

Plan Admission Requirement

In addition to the general requirements for admission to the Graduate College, an applicant for the M.S. program must complete the following requirements:

1. Applicants must complete the on-line process in the „Apply Yourself (AY),“ system.
2. In addition to the required information in the general AY application system, the Mechanical Engineering Department has two additional requirements which can also be submitted in the AY system as optional items. Electronic submission is the preferred method. If these items are not completed in the AY system before you finish and make payment, you cannot go back and do them electronically afterwards. In this case, you must mail hardcopies to the Mechanical Engineering Department. The two items are:
3. A written statement of purpose indicating interests and objectives in working toward a M.S. degree.
4. Two letters of recommendation. There is no specified format. Your references should point out the qualifications that make you a good candidate for admission.
5. The applicant must have a bachelor’s degree in engineering or a closely related discipline. Students with non-engineering backgrounds will be required to complete a set of course work requirements that will assure successful completion of the M.S. specialization and qualify the student to sit for the Fundamentals of Engineering (FE) exam. The Graduate Program Committee (GPC) will decide upon special cases.
6. The applicant must submit his/her official copy of the Graduate Record Examination (GRE) test scores. To be admitted to the graduate program in Mechanical Engineering, the applicant must be at or above the 75 percentile range (of the group taking the GRE when the applicant takes the exam) in the quantitative reasoning section of the exam. If the applicant is less than 75 percent, at the discretion of the Department of Mechanical Engineering, the applicant may be provisionally admitted to the graduate program with the requirement that he/she retake the GRE during the first semester after admission. If the applicant fails to retake the GRE during the first semester after admission or if the applicant fails to be at or above the 75 percent range in the quantitative reasoning section of the exam after retaking the exam, at its discretion, the Department of Mechanical Engineering may remove the applicant from the graduate program. The GRE university code for UNLV is 4861. The Mechanical Engineering Department code is 1502.
7. The GPC will examine the applicant’s academic record and will make the final determination of the applicant’s admissibility to the M.S. program. In general, a minimum post baccalaureate GPA of 3.00 on a 4.00 scale or equivalent is required for admission in addition to a GPA of 3.00 on a 4.00 scale or equivalent in all engineering courses.
8. All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Our department admissions committee looks at all of these requirements when making admissions decisions.

Students who have not taken at least three of the courses listed below (or their equivalent), will be required to do so in addition to course requirements listed below.

Course Requirements

- BIO 209 ,Ài Introduction to Cell Biology
- BIO 360 ,Ài Mammalian Physiology
- CHE 225 ,Ài Organic Chemistry I
- BIOL 209 ,Ài Introduction to Cell Biology
- BIOL 223 ,Ài Human Anatomy and Physiology I
- BIOL 480 ,Ài Introduction to Biological Modeling
- CHEM 220 ,Ài Introductory Organic Chemistry
- CHEM 474 ,Ài Biochemistry I
- CHEM 478 ,Ài Endocrinology
- MATH 283 ,Ài Calculus III
- MATH 427 ,Ài Differential Equations I
- MATH 431 ,Ài Mathematics for Engineers and Scientists I
- STAT 463 ,Ài Applied Statistics for Engineers
- ME 301 ,Ài Structure and Properties of Solids
- ME 302 ,Ài Material Mechanics
- ME 311 ,Ài Engineering Thermodynamics
- ME 314 ,Ài Introduction to Heat Transfer
- ME 380 ,Ài Fluid Dynamics for Mechanical Engineers
- ME 402 ,Ài Computational Methods for Engineers
- ME 421 ,Ài Automatic Controls
- ME 425 ,Ài Robotics

- Student has to choose the thesis option.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Non-Thesis Track

Total Credits Required: 30

Course Requirements

- Required Courses ,Ài Credits: 27
 - Complete 27 credits of advisor-approved common core introductory biomedical engineering and health science courses.

- Design Project ,Ã Credits: 3
 - ME 796 - Design Project in Mechanical Engineering

Degree Requirements

- Requires 33 credits of approved graduate courses. At least 18 credits must be earned from 700-level courses, and 15 credits must be in engineering.
- Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00 scale), no grades below C, (C- is not acceptable) and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise it to 3.00 or above.
- Only those courses in which a student received a grade of C or better may be used for graduate credit. Students must comply with Graduate College policy.
- Courses numbered below 600 do not count toward the hours required for the M.S. degree.
- Each student,Ãs program should show suitable breadth and coherence. As specified in the Graduate Catalog, the program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the program must receive approval by the student,Ãs committee. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Successfully complete a design project.

Subplan 2 Requirements: Thesis Track

Total Credits Required: 30

Course Requirements

- Required Courses ,Ã Credits: 24
 - Complete 24 credits of advisor-approved common core introductory biomedical engineering and health science courses.
- Thesis ,Ã Credits: 6
 - ME 797 - Thesis in Mechanical Engineering

Degree Requirements

- Requires 24 credits of approved graduate courses plus six credits of work associated with the master,Ãs level thesis, for a total of 30 credits. At least 15 credits must be earned from 700-level courses, and at least 15 credits must be in engineering. The final examination will include a defense of thesis.
- Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00 scale), no grades below C, (C- is not acceptable) and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. If

progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise it to 3.00 or above.

- Only those courses in which a student received a grade of C or better may be used for graduate credit. Students must comply with Graduate College policy.
- Courses numbered below 600 do not count toward the hours required for the M.S. degree.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department, 's discretion. Please see Graduate College policy for committee appointment guidelines.
- Each student, 's program should show suitable breadth and coherence. As specified in the Graduate Catalog, the program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the program must receive approval by the student, 's committee. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

Master of Science - Materials and Nuclear Engineering

M.S. is intended to provide the student with a solid background in either applied nuclear science and engineering, with an emphasis in used fuel management, criticality, or radiation detection, or material science and engineering, with an emphasis in materials performance. The program consists of two master, 's degree tracks: Materials Engineering and Nuclear Engineering. The materials engineering track consists of a core curriculum in material science, metallurgy, and materials performance, which is to be augmented by advanced level classes in corrosion engineering, physical metallurgy, mechanical metallurgy, mechanics of materials, and nuclear materials. The nuclear engineering track consists of a core curriculum in applied nuclear science and engineering, coupled with advanced classes in the student, 's sub discipline.

Learning Outcomes

www.unlv.edu/degree/msmne-materials-and-nuclear-engineering

Plan Admission Requirement

In addition to the general requirements for admission to the Graduate College, an applicant for the M.S. program must complete the following requirements:

1. Applicants must complete the on-line process in the „Apply Yourself (AY),“ system.
2. In addition to the required information in the general AY application system, the Mechanical Engineering Department has two additional requirements which can also be submitted in the AY system as optional items. Electronic submission is the preferred method. If these items are not completed in the AY system before you finish and make payment, you cannot go back and do them electronically afterwards. In this case, you must mail hardcopies to the Mechanical Engineering Department. The two items are:
 3. A written statement of purpose indicating interests and objectives in working toward a M.S. degree.
 4. Two letters of recommendation. There is no specified format. Your references should point out the qualifications that make you a good candidate for admission.
5. The applicant must have a bachelor’s degree in engineering or a closely related discipline. Students with non-engineering backgrounds will be required to complete a set of course work requirements that will assure successful completion of the M.S. specialization and qualify the student to sit for the Fundamentals of Engineering (FE) exam. The Graduate Program Committee (GPC) will decide upon special cases.
6. The applicant must submit his/her official copy of the Graduate Record Examination (GRE) test scores. To be admitted to the graduate program in Mechanical Engineering, the applicant must be at or above the 75 percentile range (of the group taking the GRE when the applicant takes the exam) in the quantitative reasoning section of the exam. If the applicant is less than 75 percent, at the discretion of the Department of Mechanical Engineering, the applicant may be provisionally admitted to the graduate program with the requirement that he/she retake the GRE during the first semester after admission. If the applicant fails to retake the GRE during the first semester after admission or if the applicant fails to be at or above the 75 percent range in the quantitative reasoning section of the exam after retaking the exam, at its discretion, the Department of Mechanical Engineering may remove the applicant from the graduate program. The GRE university code for UNLV is 4861. The Mechanical Engineering Department code is 1502.
7. The GPC will examine the applicant’s academic record and will make the final determination of the applicant’s admissibility to the M.S. program. In general, a minimum post baccalaureate GPA of 3.00 on a 4.00 scale or equivalent is required for admission in addition to a GPA of 3.00 on a 4.00 scale or equivalent in all engineering courses.
8. All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.
9. Our department admissions committee looks at all of these requirements when making admissions decisions.
10. The Integrated BS-MS degree program is designed to provide high-achieving MEG undergraduate students with the opportunity to be exposed to graduate courses and to encourage them to continue with graduate degree by reducing the time needed for degree completion. Up to nine credit hours of approved graduate-level course work can be taken as technical electives for the grade of B or better during the senior year and those credit hours will be waived for the graduate degree. The following conditions are needed to enroll in the Integrated BS-MS program:
 11. A minimum of two semesters of full-time enrollment in B.S. of Mechanical Engineering program is required.
 12. Applications are normally submitted with two semesters remaining in the senior year.
 13. A minimum of 90 credit hours of course work applicable to the B.S. of Mechanical Engineering degree with a cumulative GPA of 3.50 or higher must be completed before beginning the joint degree program.
 14. Student has to choose the thesis option.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Non-Thesis Track

Total Credits Required: 30

Course Requirements

- Required Courses - Credits: 9
- Select one of the following specializations and complete three courses:
 - Materials Engineering
 - ME 630 - Corrosion Engineering
 - ME 732 - Mechanical Metallurgy
 - ME 734 - Fracture of Engineering Materials
 - ME 741 - Energy and Variational Methods in Applied Mechanics I
 - Nuclear Engineering
 - ME 655 - Fundamentals of Nuclear Engineering
 - ME 706 - Convective Heat Transfer
 - ME 754 - Introduction to Nuclear Criticality Safety
 - ME 755 - Nuclear Criticality Safety Engineering
 - ME 756 - Monte Carlo Methods in Nuclear Engineering
 - ME 760 - Waste Management And The Nuclear Fuel Cycle
 - ME 762 - Nuclear Power Engineering
 - ME 763 - Nuclear Reactor Analysis
 - PHYS 631 - Nuclear and Elementary Particle Physics
 - Or
 - RDCH 701 - Applied Nuclear Physics
- Electives - Credits: 18
- Complete 18 credits of elective coursework from within the College of Engineering. Courses from outside the College of Engineering may be taken with advisor approval.
 - Suggested Electives for Materials Engineering Track
 - ME 646 - Composite Materials
 - ME 650 - Physical Metallurgy
 - ME 670 - Experimental Mechanics of Materials
 - ME 742 - Energy and Variational Methods in Applied Mechanics II
 - Suggested Electives for Nuclear Engineering Track
 - ME 615 - Design of Thermal Systems
 - ME 702 - Computational Fluid Dynamics
 - ME 705 - Conduction Heat Transfer
 - ME 707 - Radiation Heat Transfer
 - ME 708 - Convective Boiling and Condensation
 - ME 711 - Advanced Thermodynamics
 - Design Project - Credits: 3
 - ME 796 - Design Project in Mechanical Engineering

Degree Requirements

- Requires 30 credits of approved graduate courses. At least 18 credits must be earned from 700-level courses, and 15 credits must be in engineering.
- Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00 scale), no grades below C, (C- is not acceptable) and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise it to 3.00 or above.

- Only those courses in which a student received a grade of C or better may be used for graduate credit. Students must comply with Graduate College policy.
- Each student's program should show suitable breadth and coherence. As specified in the Graduate Catalog, the program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the program must receive departmental approval. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Successfully complete a design project.

Subplan 2 Requirements: Thesis Track

Total Credits Required: 30

Course Requirements

- Required Courses - Credits: 9
- Select one of the following specializations and complete three courses:
 - Materials Engineering
 - ME 630 - Corrosion Engineering
 - ME 732 - Mechanical Metallurgy
 - ME 734 - Fracture of Engineering Materials
 - ME 741 - Energy and Variational Methods in Applied Mechanics I
 - Nuclear Engineering
 - ME 655 - Fundamentals of Nuclear Engineering
 - ME 706 - Convective Heat Transfer
 - ME 754 - Introduction to Nuclear Criticality Safety
 - ME 755 - Nuclear Criticality Safety Engineering
 - ME 756 - Monte Carlo Methods in Nuclear Engineering
 - ME 760 - Waste Management And The Nuclear Fuel Cycle
 - ME 762 - Nuclear Power Engineering
 - ME 763 - Nuclear Reactor Analysis
 - PHYS 631 - Nuclear and Elementary Particle Physics
 - Or
 - RDCH 701 - Applied Nuclear Physics
- Electives - Credits: 15
- Complete 15 credits of elective coursework from within the College of Engineering. Courses from outside the College of Engineering may be taken with advisor approval.
 - Suggested Electives for Materials Engineering Track
 - ME 646 - Composite Materials
 - ME 650 - Physical Metallurgy
 - ME 670 - Experimental Mechanics of Materials
 - ME 742 - Energy and Variational Methods in Applied Mechanics II
 - Suggested Electives for Nuclear Engineering Track
 - ME 615 - Design of Thermal Systems
 - ME 702 - Computational Fluid Dynamics
 - ME 705 - Conduction Heat Transfer

- ME 707 - Radiation Heat Transfer
- ME 708 - Convective Boiling and Condensation
- ME 711 - Advanced Thermodynamics
- Thesis - Credits: 6
 - ME 796 - Design Project in Mechanical Engineering

Degree Requirements

- Requires 24 credits of approved graduate courses plus six credits of work associated with the master's level thesis, for a total of 30 credits. At least 15 credits must be earned from 700-level courses, and at least 15 credits must be in engineering. The final examination will include a defense of thesis.
- Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00 scale), no grades below C, (C- is not acceptable) and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise it to 3.00 or above.
- Only those courses in which a student received a grade of C or better may be used for graduate credit. Students must comply with Graduate College policy.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Each student's program should show suitable breadth and coherence. As specified in the Graduate Catalog, the program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the program must receive approval by the student's committee. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 3 Requirements: Integrated BS-MS Track

Total Credits Required: 21-27

Course Requirements

- Required Courses - Credits: 9
- Select one of the following specializations and complete three courses:
 - Materials Engineering
 - ME 630 - Corrosion Engineering
 - ME 732 - Mechanical Metallurgy

- ME 734 - Fracture of Engineering Materials
 - ME 741 - Energy and Variational Methods in Applied Mechanics I
 - Nuclear Engineering
 - ME 655 - Fundamentals of Nuclear Engineering
 - ME 706 - Convective Heat Transfer
 - ME 754 - Introduction to Nuclear Criticality Safety
 - ME 755 - Nuclear Criticality Safety Engineering
 - ME 756 - Monte Carlo Methods in Nuclear Engineering
 - ME 760 - Waste Management And The Nuclear Fuel Cycle
 - ME 762 - Nuclear Power Engineering
 - ME 763 - Nuclear Reactor Analysis
 - PHYS 631 - Nuclear and Elementary Particle Physics
 - Or
 - RDCH 701 - Applied Nuclear Physics
- Electives - Credits: 6-12
 - Complete 6-12 credits of elective coursework from within the College of Engineering. Courses from outside the College of Engineering may be taken with advisor approval.
 - Suggested Electives for Materials Engineering Track
 - ME 615 - Design of Thermal Systems
 - ME 646 - Composite Materials
 - ME 650 - Physical Metallurgy
 - ME 670 - Experimental Mechanics of Materials
 - ME 742 - Energy and Variational Methods in Applied Mechanics II
 - Suggested Electives for Nuclear Engineering Track
 - ME 615 - Design of Thermal Systems
 - ME 702 - Computational Fluid Dynamics
 - ME 705 - Conduction Heat Transfer
 - ME 707 - Radiation Heat Transfer
 - ME 708 - Convective Boiling and Condensation
 - ME 711 - Advanced Thermodynamics
 - Thesis - Credits: 6
 - ME 796 - Design Project in Mechanical Engineering

Degree Requirements

- Total credits required depends on the total number of approved graduate-level course work taken as technical electives (with a grade of B or better) during the senior year.
- Requires 15-21 credits of approved graduate courses plus six credits of work associated with the master's level thesis, for a total of 21-27 credits. At least 15 credits must be earned from 700-level courses, and at least 15 credits must be in engineering. The final examination will include a defense of thesis.
- Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00 scale), no grades below C, (C- is not acceptable) and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise it to 3.00 or above.
- Only those courses in which a student received a grade of C or better may be used for graduate credit. Students must comply with Graduate College policy.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

- Each student's program should show suitable breadth and coherence. As specified in the Graduate Catalog, the program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the program must receive approval by the student's committee. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Non-Thesis Track
- Subplan 2: Thesis Track
- Subplan 3: Integrated BS-MS Track

Master of Science in Engineering - Mechanical Engineering

The Master of Science degree is designed to give post baccalaureate students a broad understanding of the mechanical engineering field while providing some depth in a specific option area. Option areas include Dynamic Systems and Controls, Fluid and Thermal Sciences, Materials and Mechanics, Engineering Management, Mechanical and Environmental Systems, Nuclear Engineering, and Aerospace Engineering. Applicants who choose the M.S.E. program usually have an interest in more than one aspect of Mechanical Engineering. They are interested in gaining research and/or design experience to become better prepared for the workforce or further graduate study. Graduates from the program have gone to work in a broad range of industries including automotive, aerospace, nuclear, energy, oil, entertainment, HVAC, defense, utilities, and manufacturing. Graduates have also enrolled in some of the top Ph.D. programs in the country.

Learning Outcomes

www.unlv.edu/degree/mse-mechanical-engineering

Plan Admission Requirement

In addition to the general requirements for admission to the Graduate College, an applicant for the M.S. program must complete the following requirements:

1. Applicants must complete the on-line process in the 'Apply Yourself (AY)' system.
2. In addition to the required information in the general AY application system, the Mechanical Engineering Department has two additional requirements which can also be submitted in the AY system as optional

items. Electronic submission is the preferred method. If these items are not completed in the AY system before you finish and make payment, you cannot go back and do them electronically afterwards. In this case, you must mail hardcopies to the Mechanical Engineering Department. The two items are:

3. A written statement of purpose indicating interests and objectives in working toward a M.S. degree.
4. Two letters of recommendation. There is no specified format. Your references should point out the qualifications that make you a good candidate for admission.
5. The applicant must have a bachelor's degree in engineering or a closely related discipline. Students with non-engineering backgrounds will be required to complete a set of course work requirements that will assure successful completion of the M.S. specialization and qualify the student to sit for the Fundamentals of Engineering (FE) exam. The Graduate Program Committee (GPC) will decide upon special cases.
6. The applicant must submit his/her official copy of the Graduate Record Examination (GRE) test scores. To be admitted to the graduate program in Mechanical Engineering, the applicant must be at or above the 75 percentile range (of the group taking the GRE when the applicant takes the exam) in the quantitative reasoning section of the exam. If the applicant is less than 75 percent, at the discretion of the Department of Mechanical Engineering, the applicant may be provisionally admitted to the graduate program with the requirement that he/she retake the GRE during the first semester after admission. If the applicant fails to retake the GRE during the first semester after admission or if the applicant fails to be at or above the 75 percent range in the quantitative reasoning section of the exam after retaking the exam, at its discretion, the Department of Mechanical Engineering may remove the applicant from the graduate program. The GRE university code for UNLV is 4861. The Mechanical Engineering Department code is 1502.
7. The GPC will examine the applicant's academic record and will make the final determination of the applicant's admissibility to the M.S. program. In general, a minimum post baccalaureate GPA of 3.00 on a 4.00 scale or equivalent is required for admission in addition to a GPA of 3.00 on a 4.00 scale or equivalent in all engineering courses.
8. All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Our department admissions committee looks at all of these requirements when making admissions decisions.

The Integrated BS-MS degree program is designed to provide high-achieving MEG undergraduate students with the opportunity to be exposed to graduate courses and to encourage them to continue with graduate degree by reducing the time needed for degree completion. Up to nine credit hours of approved graduate-level course work can be taken as technical electives for the grade of B or better during the senior year and those credit hours will be waived for the graduate degree. The following conditions are needed to enroll in the Integrated BS-MS program:

1. A minimum of two semesters of full-time enrollment in B.S. of Mechanical Engineering program is required.
2. Applications are normally submitted with two semesters remaining in the senior year.
3. A minimum of 90 credit hours of course work applicable to the B.S. of Mechanical Engineering degree with a cumulative GPA of 3.50 or higher must be completed before beginning the joint degree program.
4. Student has to choose the thesis option.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Non-Thesis Track

Total Credits Required: 30

Course Requirements

- Required Courses , Credits: 9
- Select one of the following specializations and complete three courses:
 - Dynamic Systems and Controls
 - ME 625 - Robotics
 - ME 629 - Computer Control of Machines and Processes
 - ME 653 - Mechanical Vibrations
 - ME 725 - Vibrations I
 - ME 726 - Vibrations II
 - ME 729 - Advanced Robotics
 - ME 740 - Advanced Dynamics
 - ME 741 - Energy and Variational Methods in Applied Mechanics I
 - ME 746 - Experimental Design and Analysis of Digital Process Control Systems
 - Fluid/Thermosciences
 - ME 700 - Advanced Fluid Mechanics I
 - ME 701 - Advanced Fluid Mechanics II
 - ME 702 - Computational Fluid Dynamics
 - ME 703 - Continuum Mechanics
 - ME 704 - Finite Element Applications in Mechanical Engineering
 - ME 705 - Conduction Heat Transfer
 - ME 706 - Convective Heat Transfer
 - ME 707 - Radiation Heat Transfer
 - ME 708 - Convective Boiling and Condensation
 - ME 710 - Transport Phenomena in Bioengineering
 - ME 711 - Advanced Thermodynamics
 - ME 714 - Computational Aspects of Solar Energy
 - ME 717 - Transport Phenomena
 - Materials and Mechanics
 - ME 641 - Advanced Mechanical Engineering Design
 - ME 643 - Design Techniques in Mechanical Engineering
 - ME 646 - Composite Materials
 - ME 732 - Mechanical Metallurgy
 - ME 734 - Fracture of Engineering Materials
 - ME 741 - Energy and Variational Methods in Applied Mechanics I
 - ME 742 - Energy and Variational Methods in Applied Mechanics II
 - ME 743 - Applied Dynamic Finite Element Analysis
 - Engineering Management
 - CEE 609 - Engineering Project Management
 - MBA 763 - Leadership, Teams, and Individuals
 - MBA 769 - Applied Economic Analysis
 - MBA 767 - Market Opportunity Analysis
 - MBA 771 - Law and Ethics
 - MBA 775 - Data Modeling and Analysis
 - ME 626 - Manufacturing Processes
 - ME 701 - Advanced Fluid Mechanics II
 - ME 727 - Engineering Optimization
 - Mechanical and Environmental Systems
 - ME 618 - Air Conditioning Engineering Systems
 - ME 634 - Noise Control
 - ME 653 - Mechanical Vibrations
 - ME 700 - Advanced Fluid Mechanics I
 - ME 706 - Convective Heat Transfer
 - ME 720 - Acoustics I
 - ME 721 - Acoustics II
 - ME 725 - Vibrations I
 - ME 726 - Vibrations II
 - Nuclear Engineering

- ME 630 - Corrosion Engineering
- ME 655 - Fundamentals of Nuclear Engineering
- ME 656 - Radioactive Waste Management
- ME 705 - Conduction Heat Transfer
- ME 706 - Convective Heat Transfer
- ME 707 - Radiation Heat Transfer
- ME 708 - Convective Boiling and Condensation
- Aerospace
 - ME 700 - Advanced Fluid Mechanics I
 - ME 701 - Advanced Fluid Mechanics II
 - ME 702 - Computational Fluid Dynamics
 - ME 705 - Conduction Heat Transfer
 - ME 706 - Convective Heat Transfer
 - ME 740 - Advanced Dynamics
 - ME 741 - Energy and Variational Methods in Applied Mechanics I
- Electives ,Ã Credits: 18
- Complete 18 credits of elective coursework from within the College of Engineering. Courses from outside the College of Engineering may be taken with advisor approval.
- Design Project ,Ã Credits: 3
- ME 796 - Design Project in Mechanical Engineering

Degree Requirements

- Requires 33 credits of approved graduate courses. At least 18 credits must be earned from 700-level courses, and 15 credits must be in engineering.
- Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of at least six credits of the approved program per calendar year, maintenance of a GPA of 3.00 (4.00 scale), no grades below C, (C- is not acceptable) and compliance with the letter and spirit of the Graduate Catalog and published policies of the Howard R. Hughes College of Engineering. If progress is not satisfactory, probation and separation may result, in accordance with the rules of the Graduate College. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise it to 3.00 or above.
- Only those courses in which a student received a grade of C or better may be used for graduate credit. Students must comply with Graduate College policy.
- Each student,Ãs program should show suitable breadth and coherence. As specified in the Graduate Catalog, the program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the program must receive approval by the student,Ãs committee. An approved program must be filed before the completion of nine credits of course work after admission (regular or provisional). The responsibility rests with the student. Students will be dropped from the graduate engineering program if they neglect this requirement.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Successfully complete a design project.

Subplan 2 Requirements: Thesis Track

Total Credits Required: 30

Course Requirements

- Required Courses ,À Credits: 9
- Select one of the following specializations and complete three courses:

www.unlv.edu/degree/phd-mechanical-engineering

Plan Admission Requirement

Application for the Ph.D. program can be completed by one of two mechanisms. The Post-Master's Track requires the student to complete an M.S. degree in Engineering or equivalent with a major in mechanical engineering or closely related fields (nuclear engineering or health physics for the Nuclear concentration track). The Post-Bachelor's Track allows those undergraduates with outstanding undergraduate backgrounds to enter the Ph.D. program without having to complete an M.S. degree. The degree requirements for both options are the same beyond the B.S. degree excluding the completion of a master's thesis.

In order to be admitted to the Ph.D. program in Engineering in the field of Mechanical Engineering, a student must complete the following requirements:

1. Applicants must complete the on-line process in the 'Apply Yourself (AY)' system.
2. In addition to the required information in the general AY application system, the Department of Mechanical Engineering has two additional requirements which can also be submitted in the AY system as optional items. Electronic submission is a preferred method. If these items are not completed in the AY

system before you finish and make payment, you cannot go back and do them electronically afterwards. In this case, you must mail hard copies to the Department of Mechanical Engineering. The two requirements are:

3. Submit a written statement of purpose indicating interests and objectives in working toward a Ph.D. degree. This is a 1-2 page essay describing the applicant, reasons for considering graduate study, goals after completion of the graduate degree, and the applicant's specific areas of interest.
4. Submit three letters of recommendation using the online recommendation system. There is no specified format. Each letter should detail the potential of the applicant for advanced graduate work in Mechanical Engineering.
5. Candidates can be admitted on a regular or provisional status. Qualified applicants who are not admitted can take graduate courses as a non-degree seeking student but only 15 credits can be counted toward the degree program.
6. The applicant must submit his/her official copy of the Graduate Record Examination (GRE) test scores. To be admitted to the graduate program in Mechanical Engineering, the applicant must be at or above the 75 percentile range (of the group taking the GRE when the applicant takes the exam) in the quantitative reasoning section of the exam. If the applicant is less than 75 percent, at the discretion of the Department of Mechanical Engineering, the applicant may be provisionally admitted to the graduate program with the requirement that he/she retake the GRE during the first semester after admission. If the applicant fails to retake the GRE during the first semester after admission or if the applicant fails to be at or above the 75 percent range in the quantitative reasoning section of the exam after retaking the exam, at its discretion, the Department of Mechanical Engineering may remove the applicant from the graduate program. The GRE university code for UNLV is 4861. The Mechanical Engineering Department code is 1502.
7. All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Post-Master's Track

- The applicant must have a Master of Science in Engineering degree or equivalent with a major in mechanical engineering or a closely allied field. Students with non-engineering backgrounds will be required to complete a set of course work requirements that will assure successful completion of the Ph.D. specialization and qualify the student to sit for the Fundamentals of Engineering (FE) exam. The Graduate Program Committee (GPC) will decide upon special cases.
- A minimum post-baccalaureate GPA of 3.30 (on a 4.00 scale) is required for graduates from accredited U.S. institutions. The Graduate College is responsible for international GPA interpretation.

Post-Bachelor's Track

- The applicant must have a bachelor's degree in engineering or a closely related discipline. Students with non-engineering backgrounds will be required to complete a set of course work requirements that will assure successful completion of the Ph.D. specialization and qualify the student to sit for the Fundamentals of Engineering (FE) exam. The department Graduate Program Committee (GPC) will decide upon special cases.
- A minimum GPA of 3.50 (on a 4.00 scale) is required for graduates from accredited U.S. institutions. The Graduate College is responsible for international GPA interpretation.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Master's Track

Total Credits Required: 39

Course Requirements

- Required Courses ,À Credits: 21
- Complete 21 credits of 600- or 700-level coursework from within the College of Engineering. Courses from outside the College of Engineering may be taken with advisor approval.
- Students in the Nuclear Engineering concentration must take at least three of the following courses as part of their 21 credits of coursework:
 - ME 655 - Fundamentals of Nuclear Engineering
 - ME 700 - Advanced Fluid Mechanics I
 - ME 701 - Advanced Fluid Mechanics II
 - ME 702 - Computational Fluid Dynamics
 - ME 705 - Conduction Heat Transfer
 - ME 706 - Convective Heat Transfer
 - ME 707 - Radiation Heat Transfer
 - ME 708 - Convective Boiling and Condensation
 - ME 711 - Advanced Thermodynamics
 - ME 754 - Introduction to Nuclear Criticality Safety
 - ME 755 - Nuclear Criticality Safety Engineering
 - ME 756 - Monte Carlo Methods in Nuclear Engineering
 - ME 760 - Waste Management And The Nuclear Fuel Cycle
 - ME 762 - Nuclear Power Engineering
 - ME 763 - Nuclear Reactor Analysis
 - HPS 602 - Radiation Detection
 - HPS 603 - Radiation Physics and Instrumentation Laboratory
 - HPS 701 - Applied Nuclear Physics
 - HPS 703 - Radiation Interactions and Transport
 - HPS 720 - Radiation Dosimetry
 - HPS 730 - Advanced Radiation Biology
 - HPS 719 - Introduction to Radioanalytical Chemistry
- Dissertation ,À Credits: 18
- 799 - Dissertation

Degree Requirements

- Complete a minimum of 21 credit hours of course work beyond the degree of Master of Science in Engineering (M.S.) or equivalent with an overall minimum GPA of 3.20 and a minimum GPA of 2.70 (B-) in each class. Ph.D. candidates who do not maintain this GPA requirement will be placed on probation.
- Out of the 21 credit hours of course work a minimum of 18 of these credits must be 700-level courses, and no more than 6 credits can be from ME 791 Graduate Independent Study. In addition to these course requirements, a minimum of 18 credits of Dissertation is required.
- The student,Às Doctoral Advisory Committee may add other requirements in accordance with the individual,Às background and area of study. No more than 15 non,Àematriculated credits including transfer credits are allowed.
- A Doctoral Advisory Committee composed of at least five members of the UNLV graduate faculty is to be formed for the student. Three of these faculty members must be from the Department of Mechanical Engineering, the fourth from a relevant supporting field, and a fifth as appointed by the Graduate College.
- The program of study must be submitted by the second semester of study. The program of study is to be prepared by the student and his/her doctoral advisor, and must be approved by the student,Às Doctoral Advisory Committee and the GPC.
- In order to show breadth and depth of knowledge in his/her discipline, the doctoral student must pass either a written qualifying exam, or an oral qualifying exam, or both as determined by the student,Às Doctoral

Advisory Committee. Each student must choose one of the following areas as a major and another as a minor:

- Dynamics and Control
 - Fluid Mechanics
 - Material Science
 - Solid Mechanics and Mechanical Design
 - Thermal Sciences
 - Nuclear Engineering
- In addition, all students will be tested in Mathematics. These examinations are on the undergraduate senior level, and are prepared by the department. Qualifying exams are held every semester. The qualifying exams must be scheduled during the first year of study. The qualifying exam can be taken a maximum of two times. Failure to take the exam within the first year or failure to pass the exam in the second attempt will automatically result in terminating student from the program.
 - After successfully completing all required course work and passing the Qualifying Exam, students must pass a preliminary exam with a written proposal for the dissertation research, followed by an oral defense of the proposal before the Doctoral Advisory Committee. The Preliminary Exam cannot be taken more than once per semester but may be repeated until passed. The student is advanced to candidacy for the Ph.D. upon completion of all course work and this Preliminary Exam.

Plan Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Post-Bachelor's Track

Total Credits Required: 63

Course Requirements

- Required Courses ,À Credits: 21
- Complete 45 credits of 600- or 700-level coursework from within the College of Engineering. Courses from outside the College of Engineering may be taken with advisor approval.
- Students in the Nuclear Engineering concentration must take at least three of the following courses as part of their 45 credits of coursework:
 - ME 655 - Fundamentals of Nuclear Engineering
 - ME 700 - Advanced Fluid Mechanics I
 - ME 701 - Advanced Fluid Mechanics II
 - ME 702 - Computational Fluid Dynamics
 - ME 705 - Conduction Heat Transfer
 - ME 706 - Convective Heat Transfer
 - ME 707 - Radiation Heat Transfer
 - ME 708 - Convective Boiling and Condensation
 - ME 711 - Advanced Thermodynamics
 - ME 754 - Introduction to Nuclear Criticality Safety
 - ME 755 - Nuclear Criticality Safety Engineering
 - ME 756 - Monte Carlo Methods in Nuclear Engineering
 - ME 760 - Waste Management And The Nuclear Fuel Cycle
 - ME 762 - Nuclear Power Engineering
 - ME 763 - Nuclear Reactor Analysis
 - HPS 602 - Radiation Detection
 - HPS 603 - Radiation Physics and Instrumentation Laboratory
 - HPS 701 - Applied Nuclear Physics

- HPS 703 - Radiation Interactions and Transport
- HPS 720 - Radiation Dosimetry
- HPS 730 - Advanced Radiation Biology
- HPS 719 - Introduction to Radioanalytical Chemistry
- Dissertation ,À Credits: 18
- ME 799 - Dissertation

Degree Requirements

- Complete a minimum of 45 credit hours of course work beyond the degree of Bachelor of Science in Engineering (B.S.) or equivalent with an overall minimum GPA of 3.20 and a minimum GPA of 2.70 (B-) in each class. Ph.D. candidates who do not maintain this GPA requirement will be placed on probation. Students on academic probation may be transferred to the M.S.M.E. Program depending on the student,Às academic record.
- Out of the 45 credit hours of course work, a minimum of 33 credits must be in 700-level courses, and no more than 6 credits can be from ME 791 Graduate Independent Study. In addition to these course requirements, a minimum of 18 credits of Dissertation is required.
- The student,Às doctoral advisory committee may add more requirements in accordance with the individual,Às background and field of study. No more than 15 non,Àematriculated credits including transfer credits is allowed.
- A Doctoral Advisory Committee composed of at least five members of the UNLV graduate faculty is to be formed for the student. Three of these faculty members must be from the Department of Mechanical Engineering, the fourth from a relevant supporting field, and a fifth as appointed by the Graduate College.
- The program of study must be submitted by the second semester of study. The program of study is to be prepared by the student and his/her doctoral advisor, and must be approved by the student,Às Doctoral Advisory Committee and the GPC.
- In order to show breadth and depth of knowledge in his/her discipline, the doctoral student must pass either a written qualifying exam, or an oral qualifying exam, or both as determined by the student,Às Doctoral Advisory Committee. Each student must choose one of the following areas as a major and another as a minor:
 - Dynamics and Control
 - Fluid Mechanics
 - Material Science
 - Solid Mechanics and Mechanical Design
 - Thermal Sciences
 - Nuclear Engineering
- In addition, all students will be tested in Mathematics. These examinations are on the undergraduate senior level, and are prepared by the department. Qualifying exams are held every semester. The qualifying exams must be scheduled during the first year of study. The qualifying exam can be taken a maximum of two times. Failure to take the exam within the first year or failure to pass the exam in the second attempt will automatically result in terminating student from the program.
- After successfully completing all required course work and passing the Qualifying Exam, students must pass a preliminary exam with a written proposal for the dissertation research, followed by an oral defense of the proposal before the Doctoral Advisory Committee. The Preliminary Exam cannot be taken more than once per semester but may be repeated until passed. The student is advanced to candidacy for the Ph.D. upon completion of all course work and this Preliminary Exam.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Mechanical Engineering Courses

ME 600 - Intermediate Fluid Mechanics

This advanced undergraduate course is available for graduate credit.

ME 602 - Computational Methods for Engineers

This advanced undergraduate course is available for graduate credit.

ME 609 – Turbomachinery

Credits 3

Types of turbomachines, applications of turbomachines, and performance characteristics. Energy transfer in turbomachines. Fundamentals of turbomachinery. Applications of the principles of fluid mechanics, thermodynamics and aerodynamics to the design and analysis of pumps, fans, blowers, compressors, gas turbines, steam turbines, hydraulic turbines, and wind turbines are incorporated. **Prerequisites:** ME 311 and ME 380, or equivalent.

ME 611 - Engineering Thermodynamics II

This advanced undergraduate course is available for graduate credit.

ME 615 - Design of Thermal Systems

This advanced undergraduate course is available for graduate credit.

ME 616 - Introduction to Biomechanical Engineering

This advanced undergraduate course is available for graduate credit.

ME 617 - Introduction to Fuel Cell

Credits 3

Fuel Cell Principles, Fuel Cell Thermodynamics, Fuel Cell Reaction Kinetics, Fuel Cell Charge Transport, Fuel Cell Mass Transport, Fuel Cell Modeling, Fuel Cell Characterization, Fuel Cell Technology, Fuel Cell Types and Systems. **Prerequisites:** ME 311, ME 314, ME 380.

ME 618 - Air Conditioning Engineering Systems

This advanced undergraduate course is available for graduate credit.

ME 619 - Advanced HVAC and Energy Conservation Systems

This advanced undergraduate course is available for graduate credit.

ME 625 - Robotics

This advanced undergraduate course is available for graduate credit.

ME 626 - Manufacturing Processes

This advanced undergraduate course is available for graduate credit.

ME 627 - Manufacturing Systems

This advanced undergraduate course is available for graduate credit.

ME 629 - Computer Control of Machines and Processes

This advanced undergraduate course is available for graduate credit.

ME 630 - Corrosion Engineering

This advanced undergraduate course is available for graduate credit.

ME 634 - Noise Control

This advanced undergraduate course is available for graduate credit.

ME 641 - Advanced Mechanical Engineering Design

This advanced undergraduate course is available for graduate credit.

ME 642 - Advanced Mechanism Design

This advanced undergraduate course is available for graduate credit.

ME 643 - Design Techniques in Mechanical Engineering

This advanced undergraduate course is available for graduate credit.

ME 646 - Composite Materials

This advanced undergraduate course is available for graduate credit.

ME 650 - Physical Metallurgy

This advanced undergraduate course is available for graduate credit.

ME 650L - Physical Metallurgy Laboratory

This advanced undergraduate course is available for graduate credit.

ME 653 - Mechanical Vibrations

This advanced undergraduate course is available for graduate credit.

ME 655 - Fundamentals of Nuclear Engineering

This advanced undergraduate course is available for graduate credit.

ME 656 - Radioactive Waste Management

This advanced undergraduate course is available for graduate credit.

ME 660 - High School Mentoring for Engineering Design**Credits 3**

Students help high school teams design robots for the FIRST robotics competition. Weekly meetings discuss: mentoring, design, robotics, organizational skills, and teamwork. Must arrange transport to assigned local high school. Class begins with the international FIRST kick-off meeting usually scheduled for the first Saturday after New Year's Day. **Prerequisites:** Instructor Consent

ME 662 - Vehicle Design Projects**Credits 3**

Students design and build a vehicle for entry into a national or regional collegiate competition such as Mini-Baja or Human Powered Vehicle. Design topics may include structural analysis, composite materials, aerodynamics, engine performance, occupant safety, drive train, suspension systems, project management, team building, technical report writing, and oral presentations. **Prerequisites:** Instructor Consent

ME 670 - Experimental Mechanics of Materials

This advanced undergraduate course is available for graduate credit.

ME 677 - Solar and Renewable Energy Utilization**Credits 3**

Introduction to renewable energy applications. Includes environmental motivations, historical perspectives, solar photovoltaic and thermal applications, implications in building designs, wind energy, biomass, alternative fuels, geothermal power utilization, utility considerations, and political and economic factors. **Formerly:** EGG 650

ME 680 - Gas Dynamics I

This advanced undergraduate course is available for graduate credit.

ME 682 - Aerodynamics

This advanced undergraduate course is available for graduate credit.

ME 695 - Special Topics in Engineering

This advanced undergraduate course is available for graduate credit.

ME 700 - Advanced Fluid Mechanics I**Credits 3**

Covers area of viscous laminar fluid flow. Presents concept of shear stresses and develops Navier-Stokes equation. Applications such as boundary layer flow studied as are some solutions of viscous fluid flow. **Prerequisites:** Graduate Standing or Instructor Consent

ME 701 - Advanced Fluid Mechanics II**Credits 3**

Potential flow theory with emphasis on complex representations, conformal mapping, Schwarz Christoffel transformations, airfoils. Compressible flow, free shear layers, shock waves, compressible boundary layers, two- and three- dimensional supersonic flows. **Prerequisites:** ME 700 or consent of instructor.

ME 702 - Computational Fluid Dynamics**Credits 3**

Application of numerical methods to solve highly nonlinear equations of motion and energy associated with fluid dynamics. Among other methods, finite difference and finite element methods discussed along with use of commercial software packages. **Prerequisites:** Graduate Standing or Instructor Consent

ME 703 - Continuum Mechanics**Credits 3**

Matrices and tensors, stress deformation and flow, compatibility conditions, constitutive equations, field equations and boundary conditions in fluids and solids, applications in solid and fluid mechanics. **Formerly:** (CEG 711). **Prerequisites:** Graduate Standing or Instructor Consent

ME 704 - Finite Element Applications in Mechanical Engineering**Credits 3**

Finite Element Method used historically for structurally related problems. Advances in application and development of Finite Element Method particularly useful in fluid flow and heat transfer related problems. PC, workstation, and mainframe finite element computer codes used to assist students in solving fluid and heat transfer problems. **Prerequisites:** Graduate Standing or Instructor Consent

ME 705 - Conduction Heat Transfer**Credits 3**

Designed to solve more advanced heat transfer problems by conduction. Analytical and numerical techniques in heat conduction covered. Review of elementary problems presented. Advanced analytical methods using Bessel functions, separation of variables and Laplace transforms, among others. Solutions using finite differences covered. **Prerequisites:** ME 314 and ME 445 or equivalent or consent of instructor.

ME 706 - Convective Heat Transfer**Credits 3**

Conservation principles, fluid stresses and flux laws, boundary layer equation, laminar and turbulent heat flow inside tubes. Heat transfer in laminar and turbulent boundary layers. Influence of temperature dependent fluid properties and free-convection boundary layers. **Prerequisites:** Graduate Standing or Instructor Consent

ME 707 - Radiation Heat Transfer

Credits 3

Advanced engineering analysis of thermal radiation heat transfer. Spectral and gray-body analysis. Exchange of radiation between surfaces and through absorbing, emitting, and scattering media. Radiation combined with conduction and convection. **Prerequisites:** Graduate Standing or Instructor Consent

ME 708 - Convective Boiling and Condensation

Credits 3

Basic models, empirical treatments of two-phase flow. Introduction to convective boiling, subcooled boiling, void fraction and pressure drop in subcooled boiling, saturated boiling heat transfer, critical heat flux, condensation.

Prerequisites: Graduate Standing or Instructor Consent

ME 710 - Transport Phenomena in Bioengineering

Credits 3

Transport phenomena in bioengineering at molecular, cellular and tissue levels. Topics include blood flow in large and small vessels, gas exchange in lung, biomass and heat transfer in microcirculation, ion transport across cell membrane, cell migration, renal transport, controlled drug delivery and transport in tumors. **Prerequisites:** Graduate Standing or Instructor Consent

ME 711 - Advanced Thermodynamics

Credits 3

Advanced concepts and laws of classical equilibrium thermodynamics as applied to engineering problems. Introduction to statistical thermodynamics. **Prerequisites:** Graduate Standing or Instructor Consent

ME 714 - Computational Aspects of Solar Energy

Credits 3

Theory and practice in the design of solar energy components and systems. Included are collectors, concentrators, receivers, storage, and power systems. Emphasis is on the simulation of transient systems. **Prerequisites:** Graduate Standing or Instructor Consent

ME 717 - Transport Phenomena

Credits 3

Momentum, energy, and mass transport at molecular motion, microscopic levels. Momentum flux tensors, heat flux vectors, and mass flux vectors. Transport in laminar or turbulent flow. Transport in isothermal or nonisothermal systems. Transport in single or multicomponent systems. Interface transport and chemical reaction. **Prerequisites:** Graduate Standing or Instructor Consent

ME 720 - Acoustics I

Credits 3

Introduction to wave motion and general solution techniques associated with wave equation; propagation of waves in solid media; one-dimensional acoustic waves, acoustic transmission phenomena, and propagation of sound outdoors. **Prerequisites:** Graduate Standing or Instructor Consent

ME 721 - Acoustics II

Credits 3

Three-dimensional sound waves; experimental measurement techniques associated with acoustics; acoustic filter theory; other advanced topics in acoustics. **Prerequisites:** ME 720

ME 725 - Vibrations I

Credits 3

Vibrations of systems with one-degree-of-freedom and more than one-degree-of-freedom. Methods for finding natural frequencies, discrete systems and continuous systems. **Prerequisites:** Graduate Standing or Instructor Consent

ME 726 - Vibrations II

Credits 3

Virtual work, Hamilton's principles, Lagrange's equation, influence coefficients, Green's function as applied to advanced vibration problems; vibration of continuous systems; modal analysis. **Prerequisites:** Graduate standing and ME 725.

ME 727 - Engineering Optimization

Credits 3

Introduction to optimization, univariate functions, multivariate functions, constrained optimality criteria, penalty method, constrained direct search, engineering case studies, linear programming. **Prerequisites:** Graduate Standing or Instructor Consent

ME 729 - Advanced Robotics

Credits 3

In-depth study of advanced automation concepts and robotic manipulators. Topics including 3-D kinematics, trajectory generation, compliance analysis, dynamic control of robotics along with concept of assembly operations and machine vision. **Prerequisites:** Graduate Standing or Instructor Consent

ME 732 - Mechanical Metallurgy

Credits 3

Behavior and response of metals to applied forces. Five areas covered: mechanical fundamentals, metallurgical fundamentals, materials testing, plastic forming of metals, and modes of failure. **Prerequisites:** Graduate Standing or Instructor Consent

ME 734 - Fracture of Engineering Materials

Credits 3

Stress-strain relationships during elastic and plastic deformation, linear elastic and elastic-plastic fracture mechanics, Griffith's theory, stress analyses of cracks, plastic zone size, fracture toughness measurements, ductile-to-brittle transition, fatigue failure mechanisms, environment-assisted cracking and relevant test methods, metallographic evaluations using state-of-the-art techniques. **Prerequisites:** Graduate Standing or Instructor Consent

ME 736 - Diffusion in Metals

Credits 3

Covers thermodynamics and phase diagrams, interstitial and substitutional diffusion, diffusion in binary and ternary alloys, solidification, and diffusional and diffusionless transformation in solids. **Prerequisites:** ME 301 and 302 or equivalent.

ME 740 - Advanced Dynamics

Credits 3

Applications of Lagrangian and Newtonian mechanics to mechanical systems. Includes kinematics, moving reference frames, rigid body dynamics, oscillations and mode forms, and gyroscopic effects. **Prerequisites:** Graduate Standing or Instructor Consent

ME 741 - Energy and Variational Methods in Applied Mechanics I

Credits 3

Governing equations of mechanics, energy and variational principles, variational methods of approximation, theory of elasticity, material laws, work and energy, beam theory, finite element method, structural systems. **Prerequisites:** Graduate Standing or Instructor Consent

ME 742 - Energy and Variational Methods in Applied Mechanics II

Credits 3

Theoretical principles for solving solid mechanics problems. Direct continuation of ME 741. Topics covered include: computational solution methods to governing equations, free vibration and forced response of elastic systems, stability analysis, solution methods to governing equations, free vibration and forced response of elastic systems, stability analysis, solution methods for beams, plates, and structural systems. **Prerequisites:** ME 741

ME 743 - Applied Dynamic Finite Element Analysis

Credits 3

Overview of the development of dynamic computational analysis, software description, modeling techniques, symmetry and boundary conditions, initial conditions, contact algorithms, wave propagation, material behavior, implicit analysis, damping, mass scaling, mesh adaptation, element selection, hourglassing, postprocessing, output control, restarts, parallel processing, Eulerian and ALE methods. **Prerequisites:** Graduate standing in engineering or consent of instructor.

ME 746 - Experimental Design and Analysis of Digital Process Control Systems

Credits 3

Applications, design, and experimental practice of mechanical linear and discrete systems: hydraulic, pneumatic, elastic multibody systems, centripetal and coriolis effects, automatic model and code generation. Discrete nonlinear control systems modeling, simulation, design using state space methods. Aspects of system identification, robust and optimal control. **Same as:** (EGG 746). **Prerequisites:** Graduate Standing or Instructor Consent

ME 747 - Orthopedic Biomechanics - Lower Extremities and Spine

Credits 3

Biomechanics of the lower extremities and spine; engineering properties and physiology of bone, cartilage, and tendon; analysis of gait; effects of orthopedic impairment and injury; design and surgical implantation of prosthetic joints and fracture fixation devices; engineering of tissue regeneration and replacement. **Same as:** (EGG 747).

Prerequisites: Graduate standing in engineering or kinesiology or consent of instructor.

ME 748 - Prosthetic Systems Engineering

Credits 3

Engineering design of prosthetic feet, ankles, knees, and prehension devices; materials and manufacturing; the biomechanics of movement using a prosthesis; residual limb morphology and surgical enhancements; socket design and tissue response; myoelectric devices; microprocessor control; psychophysical and motor control considerations; aspects of clinical science. Emphasis on R&D needs. **Same as:** (EGG 748). **Prerequisites:** Graduate standing in engineering or kinesiology or consent of instructor.

ME 750 - Analysis of Human Movement

Credits 3

Analysis of the kinematics and kinetics of human movement in two and three dimensions with emphasis on methods used in motion capture, including joint and segment position; acceleration, velocity, force and torque; work and power; and inverse solution methods. **Same as:** (EGG 750). **Prerequisites:** Graduate standing in engineering or kinesiology or consent of instructor.

ME 752 - Advanced Air Pollution Control

Credits 3

Fundamental chemical and physical principles of generation and control of air pollutants, and applications to pollution control equipment. Pollutant and particle formation during combustion. Gas adsorption and absorption fundamentals and tower/column design. Pollution control strategies. **Prerequisites:** Graduate Standing or Instructor Consent

ME 754 - Introduction to Nuclear Criticality Safety

Credits 3

Review of criticality accidents, overview of the physics of criticality, factors that affect reactivity, experiments and the development of subcritical limits, standards and regulations, hand calculation techniques, engineering and evaluations for criticality safe processes and facilities. **Prerequisites:** ME 455, ME 655 or equivalent or consent of instructor.

ME 755 - Nuclear Criticality Safety Engineering

Credits 3

Nuclear engineering for criticality safe processes and facilities: in-depth physics of criticality, hand calculation techniques, Monte Carlo applications, experimental development of subcritical limits; nuclear criticality accidents, anomalies and case studies; nuclear data/benchmarking, standards and regulations, etc. Practical engineering examples/case studies and the preparation of a nuclear criticality safety evaluation. **Prerequisites:** ME 754 or equivalent or consent of instructor.

ME 756 – Monte Carlo Methods in Nuclear Engineering

Credits 3

Theory and application of the Monte Carlo method for neutron transport calculations from introductory concepts to advanced simulations of criticality in fissile materials. Computer applications in nuclear engineering; verification and validation (V&V), nuclear data files, examples of Monte Carlo calculations, case studies and applied problems. **Prerequisites:** ME 455, ME 655 or equivalent or consent of instructor.

ME 757 - Radiation Monitoring and Safeguards Systems

Credits 3

Advanced topics in radiation measurement science, remote sensing, nondestructive assay techniques, and nuclear material safeguards. Use of radiation detection systems in process monitoring and safeguards, and in security applications. **Prerequisites:** ME 4585/655, or consent of instructor.

ME 758 - Accelerator Applications in Nuclear Engineering

Credits 3

Fundamental concepts of particle accelerators. Radiation beams and targets. Advanced topics in accelerator applications in engineering, security, isotope production, transmutation, nondestructive assay, material analysis, biology and medicine. **Prerequisites:** ME 455/655, or consent of instructor.

ME 759 - Mass Transfer in Environmental Systems

Credits 3

Fundamentals of mass transfer by diffusion and advection. Solutions to steady-state and transient problems in several dimensions. **Notes:** Applications to natural and engineered systems. **Prerequisites:** Graduate Standing or Instructor Consent

ME 760 - Waste Management And The Nuclear Fuel Cycle

Credits 3

Introduction to the nuclear fuel cycle and management of nuclear waste. Introduction to repository design and performance assessment. Overview of waste form performance, contaminant transport, and risk assessment as applied to nuclear waste management. **Prerequisites:** HPS 701 or consent of instructor.

ME 762 - Nuclear Power Engineering

Credits 3

Analysis of the conversion of energy generated by fission, fusion, or radioactive decay into electrical power and propulsion. Theory of reactor heat generation and removal and new reactor concepts. Review of thermodynamic cycles used in pressurized and boiling water reactors, gas-cooled and liquid metal reactors. **Prerequisites:** ME 311, ME 314, ME 455 or ME 655 or equivalent

ME 763 - Nuclear Reactor Analysis

Credits 3

Development of the neutron diffusion equation with application to the design of steady state nuclear reactors. Derivation of critical core dimensions for single energy and multienergy neutron groups. Determination of group constants for thermal and fast neutrons. Unsteady reactor dynamics and criticality control. Introduction to Monte Carlo techniques. **Prerequisites:** ME 455 or ME 655

ME 765 - Neutron Detection and Production

Credits 3

Content includes passive and active neutron detection using He3 and BF3 ionization/proportional tubes, liquid and plastic scintillators, fission chambers, and activation foils. The course includes laboratory exercises. Pulsed and continuous sources will be covered including fission reactors, accelerator production through fusion, spallation, photonuclear effects, and [alpha, n] reactions. **Prerequisites:** ME 455/655 or equivalent.

ME 774 - Introduction to Theory of Elasticity and Plasticity I

Credits 3

Introduction to theoretical and applied elasticity and plasticity theory-solutions to engineering problems in structural mechanics and geotechnical engineering. Response of isotropic, orthotropic and layered media to applied stresses and strains. **Prerequisites:** Graduate Standing or Instructor Consent

ME 777 - Application of High-Performance Computing Methods in Science and Engineering

Credits 3

Application of high performance computing systems to science and engineering, models for numerically intensive problem solving, high performance numerical algorithms, FORTRAN 90 and high-performance FORTRAN. **Same as:** (MAT 777). **Prerequisites:** Knowledge of UNIX, FORTRAN, and previous course on numerical methods. Graduate standing.

ME 791 - Independent Study in Mechanical Engineering

Credits 1 – 3

Independent study of a selected mechanical engineering topic. **Notes:** May be repeated to a maximum of three credits. **Prerequisites:** Graduate standing in mechanical engineering and consent of instructor.

ME 795 - Advanced Topics in Mechanical Engineering

Credits 1 – 6

Outlet for experimental and other advanced topics which may be of current interest. **Notes:** Topics and credits to be announced. May have a laboratory. May be repeated to a maximum of six credits.

ME 796 - Design Project in Mechanical Engineering

Credits 1 – 3

Synthesis course involving students in the design process from analysis and proposal to solution.

Notes: May be repeated to a maximum of three credits. **Prerequisites:** Graduate standing in mechanical engineering and consent of instructor.

ME 797 - Thesis in Mechanical Engineering

Credits 3 – 6

Notes: May be repeated but only six credits will be applied to the program. **Grading:** S/F grading only.

Prerequisites: Graduate standing in mechanical engineering.

ME 799 – Dissertation

Credits 1 – 6

Research analysis and writing towards completion of dissertation and subsequent defense. **Notes:** May be repeated to a maximum of 18 credits allowed toward the degree. **Grading:** S/F grading only. **Prerequisites:** Graduate standing in Ph.D. program and consent of advisor.

College of Fine Arts

The graduate programs in the College of Fine Arts are considered among the very best in the country. Indeed, several programs are considered the "best!" The deserved reputations of these discrete programs are based largely on the excellent graduate faculty, which consists of highly trained artists and educators of national stature. Graduate programs include: the M.F.A. degree in visual arts; M.M. degree in music with programs in applied music, music education, and theory/composition and the Doctor of Music Arts (D.M.A.); M.F.A. in design/theatre technology, music theatre performance, writing for dramatic media, and playwriting; an M.A. in theatre research; and, a Master of Architecture degree. We have designed all graduate programs, at the professional level, to prepare students to compete aggressively in their chosen fields. Thanks to an excellent artist-in-residence program, our students are exposed to, and work with, professionals who regularly visit the college. Certain of the programs have developed relationships with the best professional outlets in their areas, allowing students to work and interact with professionals prior to graduation. All graduate programs are accredited by their individual accrediting agencies.

The College of Fine Arts is committed to excellence in the classroom in conjunction with practical experience, which hones the skills and talents of its students. An excellent faculty, excellent facilities, excellent connections to the professions, and excellent students all contribute to a fast growing college that can enhance careers and help dreams become realities.

Jeffrey Koep, Ph.D., Dean, College of Fine Arts
Dean Gronemeier, D.M.A., J.D., College of Fine Arts

Architecture

The School of Architecture offers an NAAB accredited Master of Architecture professional degree (M. Arch). The M. Arch. program has the goals of developing students' abilities to conceive and accurately represent environmentally sound and aesthetically fitting spaces at different scales and to provide a basis for understanding the consequences that these spaces have for their inhabitants, for society, and for the environment.

The School of Architecture capitalizes on the unique conditions provided by the city of Las Vegas and Southern Nevada. The School of Architecture current research emphasis areas are: 1. Sustainable desert climate architecture; 2. Solar and energy efficient building design; 3. Ecological land use planning; 4. Education and Research Facilities Design; 5. Environmental, historic, and socio-cultural contexts ranging from the city to the building site; and 6. Hospitality Designs.

Accreditation

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree. The UNLV School of Architecture offers the following NAAB-accredited degree programs:

M. Arch. (pre-professional degree + 48 credits)
M. Arch. (non-pre-professional degree + 96 credits)

The next NAAB accreditation visit for both programs: 2017.

Assistant Professor; B.S. Arizona State University; M. Arch, Arizona State University. *Rebel since 2011.*

White, Janet R. - *Full Graduate Faculty*

Assistant Professor; A.B. Bryn Mawr College, 1976; M. Arch Columbia University PhD. Cornell University. *Rebel since 1999.*

School of Architecture Plans

Graduate Certificate in Hospitality Design

Hospitality Design Leaders from Las Vegas based architecture firms (responsible for designing most of the resorts on the Las Vegas Strip and countless other national/international projects) are collaborating with UNLV School of Architecture (SoA) to offer a graduate concentration in Hospitality Design/Entertainment Architecture. This concentration allows students to engage and learn from industry leaders and investigate the issues that shape this dynamic international design industry. For qualified applicants including international students, practitioners in disciplines related to hospitality design, and students already holding an accredited architecture degree, the SoA would like to announce the HD Certificate.

The HD Certificate program is an intensive one year course of study. To earn the certificate, students must engage in design/research under the guidance of faculty with diverse expertise and professionals with several years of experience, successfully defend their work before a panel of design critics, and demonstrate their ability to generate original material relevant to the profession and/or academia by completing a publishable work.

Plan Admission Requirements

Hospitality Design (HD) Certificate applicants must meet the following minimum qualifications for consideration of admission to the HD Certificate program: an undergraduate degree, a strong design or research background, and

professional or internship experience in the hospitality industry.

Applicants must submit a portfolio of original work (specify exact role on work generated in collaborative settings) and a one page letter of intent that describes their design and/or research agenda to be developed. Each year, the HD Concentration's coordinator must receive student applications to the HD Certificate Program by July 1 in order to conduct the admissions process and make preparations for design-research proposals.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 21

Course Requirements

- Required Courses – Credits: 9
 - AAE 775 - Tourist Facility Design and Development
 - AAE 789 - Architecture Research Studio
- Elective Course – Credits: 3
 - Complete 3 credits of advisor-approved elective coursework.
- Hospitality Elective Course – Credits: 3
 - Complete 3 credits from the following list of courses, or another advisor-approved course:
 - HOA 739 - Psychology of Hospitality Marketing
 - HOA 797 - Philosophy of Science in Hospitality Research
 - HOA 574 - Seminar in Hotel Research
 - SLS 718 - Programming for Sport and Leisure Service Organizations
- Project Design Course – Credits: 6
 - AAE 790 - Professional Project Design

Certificate Requirements

- Completion of a minimum of 21 credit hours with a minimum GPA of 3.00.
- Ideally, students take one elective in the fall semester and one elective in the spring while they are engaged in independent design research projects focusing on hospitality design/entertainment architecture issues.
- The Project Design course will be conducted as a design research project guided by the Hospitality Design Concentration Coordinator. The culminating experience must include successful defense of design/research presentation to the student's critics and the submission of the work (or component thereof) to a refereed conference, journal, or equivalent.

Plan Certificate Completion Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.
- The student must successfully complete and defend his/her final project.

Master of Architecture

The School of Architecture offers an NAAB accredited Master of Architecture professional degree (M. Arch). The M. Arch. program has the goals of developing students' abilities to conceive and accurately represent environmentally sound and aesthetically fitting spaces at different scales and to provide a basis for understanding the consequences that these spaces have for their inhabitants, for society, and for the environment.

Learning Outcomes

Plan Admission Requirements

Each Master of Architecture program applicant must hold a baccalaureate or graduate degree from a regionally accredited college or international equivalent. Applicants must have a cumulative undergraduate GPA of 3.00 or higher. Applicants are also required to submit a design portfolio for review, a statement of intent, two letters of reference, and GRE scores of 146 or higher in the verbal section and 148 or higher in the quantitative section. The combined GRE score of these two sections may be no less than 294. All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

The Master of Architecture program offers prospective students two paths:

- For applicants holding a Bachelor of Science in Architecture (BS Arch), or its equivalent, the program offers a two-year degree path in the 4+2 program.
- For applicants with academic backgrounds outside of architecture or holding a Bachelor of Arts in Architecture, the program offers an alternative path through the 3 year plus degree program. The duration of the 3+ path varies based on an individual student's academic background and preparation. Each student applying for admission will be individually assessed and provided a course of study.

Interested applicants can find detailed information about the Master of Architecture program directly from the School of Architecture's web site.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: 4+2 Hospitality & Entertainment Design Track

Total Credits Required: 48

Course Requirements

- Required Courses – Credits: 30
 - AAE 660 - Issues in Contemporary Urbanism
 - AAE 756 - Design Practice Management
 - AAE 770 - Research Methods in Environmental Design
 - AAE 771L - Architectural Design V
 - AAE 772L - Architectural Design VI
 - AAE 789 - Architecture Research Studio
 - ABS 741 - Integrated Building Systems
- Elective Courses – Credits: 12
 - Complete 12 credits of advisor-approved course work.
- Professional Project – Credits: 6
 - AAE 790 - Professional Project Design

Degree Requirements

- Students are required to maintain a minimum GPA of 3.00 on a 4.00 point scale. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise his/her GPA to 3.00 or higher. Failure to meet the requirements of academic probation may result in separation.
- Only those courses in which a student receives a grade of B- or better may be used for graduate credit. Students must comply with all UNLV and Graduate College policies.

- Students are required to declare a subplan by the end of their first year.
- In order to assess the student's progress in the program, the School of Architecture Graduate Committee will meet once a year with the student to determine whether or not he/she may advance to the next graduate year.
- The student must successfully complete a Professional Project developed as part of the Professional Project Design course. The Professional Project should address a significant architectural problem and demonstrate a comprehensive design solution. The requirements and evaluation of this project will be determined by the instructor of the course.
- The student is required to present his/her Professional Project to the School of Architecture Graduate Committee.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete a Professional Project.

Subplan 2 Requirements: 4+2 Education Facilities Research & Design Track

Total Credits Required: 48

Course Requirements

- Required Courses – Credits: 30
 - AAE 660 - Issues in Contemporary Urbanism
 - AAE 756 - Design Practice Management
 - AAE 770 - Research Methods in Environmental Design
 - AAE 771L - Architectural Design V
 - AAE 772L - Architectural Design VI
 - AAE 789 - Architecture Research Studio
 - ABS 741 - Integrated Building Systems
- Elective Courses – Credits: 12
 - Complete 12 credits from the following list of courses or other advisor-approved courses:
 - CIG 603 - Urban Education
 - CIE 683 - Elementary Classroom Management
 - CIG 761 - Theoretical Foundations of Education
 - CIG 764 - Models of Teaching
 - CIG 771 - Comparative Studies in Learning, Teaching, and Curriculum
 - CIG 782 - School Climate
 - CIS 686 - Curriculum Development Secondary Education
 - CIT 607 - Technology as Educational Mindtools
 - CIT 772 - Technology in Teacher Education
 - ESP 701 - Introduction to Special Education and Legal Issues
 - ESP 715 - Communication Programming for Persons with Severe Disabilities
 - ESP 774 - Seminar in Curriculum Development in Early Childhood Special Education
 - ESP 775 - Strategies for Early Childhood Special Education
 - ESP 777 - Assistive Technology Strategies for Young Children
 - ESP 786 - Legal and Political Issues in Special Education Programming
 - ESP 752 - Consultative Techniques in Special Education
 - ESP 771 - Perspectives on Early Childhood Special Education
 - ESP 764 - Characteristics & Inclusive Strategies for Students with LD, ED, & MID
- Professional Project – Credits: 6
 - AAE 790 - Professional Project Design

Degree Requirements

- Students are required to maintain a minimum GPA of 3.00 on a 4.00 point scale. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise his/her GPA to 3.00 or higher. Failure to meet the requirements of academic probation may result in separation.
- Only those courses in which a student receives a grade of B- or better may be used for graduate credit. Students must comply with all UNLV and Graduate College policies.
- Students are required to declare a subplan by the end of their first year.
- In order to assess the student's progress in the program, the School of Architecture Graduate Committee will meet once a year with the student to determine whether or not he/she may advance to the next graduate year.
- The student must successfully complete a Professional Project developed as part of the Professional Project Design course. The Professional Project should address a significant architectural problem and demonstrate a comprehensive design solution. The requirements and evaluation of this project will be determined by the instructor of the course.
- The student is required to present his/her Professional Project to the School of Architecture Graduate Committee.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete a Professional Project.

Subplan 3 Requirements: 4+2 Urban Sustainability Design Track

Total Credits Required: 48

Course Requirements

- Required Courses – Credits: 30
 - AAE 660 - Issues in Contemporary Urbanism
 - AAE 756 - Design Practice Management
 - AAE 770 - Research Methods in Environmental Design
 - AAE 771L - Architectural Design V
 - AAE 772L - Architectural Design VI
 - AAE 789 - Architecture Research Studio
 - ABS 741 - Integrated Building Systems
- Elective Courses – Credits: 12
 - Complete 12 credits of advisor-approved elective coursework.
- Professional Project – Credits: 6
 - AAE 790 - Professional Project Design

Degree Requirements

- The student is required to present his/her Professional Project to the School of Architecture Graduate Committee.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete a Professional Project.

Subplan 4 Requirements: 4+2 Building Systems & Sustainability Track

Total Credits Required: 48

Course Requirements

- Required Courses – Credits: 27
 - AAE 660 - Issues in Contemporary Urbanism
 - AAE 756 - Design Practice Management
 - AAE 770 - Research Methods in Environmental Design
 - AAE 771L - Architectural Design V
 - AAE 772L - Architectural Design VI
 - AAE 789 - Architecture Research Studio
 - ABS 741 - Integrated Building Systems
- Elective Courses – Credits: 18
 - Complete 18 credits of advisor-approved elective coursework.
- Thesis – Credits: 6
 - AAE 791 - Thesis Writing

Degree Requirements

- Students are required to maintain a minimum GPA of 3.00 on a 4.00 point scale. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise his/her GPA to 3.00 or higher. Failure to meet the requirements of academic probation may result in separation.
- Only those courses in which a student receives a grade of B- or better may be used for graduate credit. Students must comply with all UNLV and Graduate College policies.
- Students are required to declare a subplan by the end of their first year.
- In order to assess the student's progress in the program, the School of Architecture Graduate Committee will meet once a year with the student to determine whether or not he/she may advance to the next graduate year.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- The master's thesis will have to focus on an area of concentration approved by the student's Thesis Advisory Committee and supported by elective course work related to the selected concentration subject. The student should register for thesis credits during the last year in the program.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit a bound copy of his/her thesis to the student's Thesis Advisory Committee chair and to the Architecture Studies Library. The school reserves the right to retain any or all student projects for the program's future use and exhibition.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 5 Requirements: 3+ Hospitality & Entertainment Design Track

Total Credits Required: 96

Course Requirements

- Preparatory Architecture Courses – Credits: 27
 - AAE 555 - The Enlightenment to Mid-20th Century: Arch His and Theory
 - AAE 651 - Multidiscipline Theory and Analysis in Architecture
 - AAE 711L - Graduate Design I: Design and Communication
 - AAE 712L - Graduate Design II: Fundamentals
 - AAE 713L - Graduate Design III
 - AAE 714L - Graduate Design IV
- Preparatory Building Science Courses – Credits: 18
 - ABS 521 - Construction Technologies I
 - ABS 522 - Construction Technologies II
 - ABS 531 - Environmental Control Systems I
 - ABS 532 - Environmental Control Systems II
 - ABS 541 - Structures for Architects I
 - ABS 640 - Structures For Architects II
- Preparatory Concentration Elective Course – Credits: 3
 - Complete 3 credits of an advisor-approved concentration elective course.
- Preparatory Clinical Internship – Credits: 0
 - AAD 600 - Clinical Internship
- Required Courses – Credits: 30
 - AAE 660 - Issues in Contemporary Urbanism
 - AAE 756 - Design Practice Management
 - AAE 770 - Research Methods in Environmental Design
 - AAE 771L - Architectural Design V
 - AAE 772L - Architectural Design VI
 - AAE 789 - Architecture Research Studio
 - ABS 741 - Integrated Building Systems
- Elective Courses – Credits: 12
 - Complete 12 credits of advisor-approved course work.
- Professional Project – Credits: 6
 - AAE 790 - Professional Project Design

Degree Requirements

- Students are required to complete preparatory work before proceeding to the final four semesters of the program. The duration and total credits required for the program vary based on an individual student's

academic background and preparation. Each student will be individually assessed to determine these preparatory requirements.

- Students are required to maintain a minimum GPA of 3.00 on a 4.00 point scale. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise his/her GPA to 3.00 or higher. Failure to meet the requirements of academic probation may result in separation.

- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- The master's thesis will have to focus on an area of concentration approved by the student's Thesis Advisory Committee and supported by elective course work related to the selected concentration subject. The student should register for thesis credits during the last year in the program.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit a bound copy of his/her thesis to the student's Thesis Advisory Committee chair and to the Architecture Studies Library. The school reserves the right to retain any or all student projects for the program's future use and exhibition.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: 4+2 Hospitality & Entertainment Design Track
- Subplan 2: 4+2 Education Facilities Research & Design Track
- Subplan 3: 4+2 Urban Sustainability Design Track
- Subplan 4: 4+2 Building Systems & Sustainability Track
- Subplan 5: 3+ Hospitality & Entertainment Design Track
- Subplan 6: 3+ Education Facilities Research & Design Track
- Subplan 7: 3+ Urban Sustainability Design Track
- Subplan 8: 3+ Building Systems & Sustainability Track

School of Architecture Courses

AAD 600 - Clinical Internship **Credits 0**

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class. **Prerequisites:** AAE 714L or equivalent.

AAD 661 - Computer Applications in Architecture I

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class.

AAD 701 - International Study**Credits 3 - 6**

Full-time study of architecture and/or allied studies in a foreign location as designated by the program. **Notes:** May be repeated to a maximum of 12 credits. **Prerequisites:** Graduate standing and consent of graduate coordinator.

AAD 793 - Independent Study**Credits 1 – 3**

Independent study of a selected topic in architectural design. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Graduate standing and consent of graduate coordinator.

AAD 795 - Advanced Special Topics in Design**Credits 1 – 3**

Experimental and other topics which may be of current interest in design. **Notes:** Topics and credits to be announced. May be repeated to a maximum of six credits. **Prerequisites:** Graduate standing and consent of graduate coordinator.

AAE 540 - Professional Practice and Society**Credits 3**

Professional and societal issues in architectural practice including codes, zoning, licensing, regulations, ethics and standards, building and occupancy types, exiting, accessibility and fire protection. **Same as:** AAE 440

AAE 555 - The Enlightenment to Mid-20th Century: Arch His and Theory**Credits 3**

Professional and societal issues in architectural practice including codes, zoning, licensing, regulations, ethics and standards, building and occupancy types, exiting, accessibility and fire protection. **Same as:** AAE 440

AAE 635 - Sustainable Design Principles**Credits 3**

Exploration of sustainable design emphasizing application of analytical, conceptual, and representational skills within projects that engage cultural, ecological, technological, and urban contexts. **Formerly:** AAE 735. **Prerequisites:** Graduate standing.

AAE 651 - Multidiscipline Theory and Analysis in Architecture**Credits 3**

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class. **Notes:** Credit at the 600-level requires additional work. **Prerequisites:** Graduate standing.

AAE 653 - Visionary and Utopian Architecture: Plato to Bladerunner**Credits 3**

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class. **Notes:** Credit at the 600-level requires additional work. **Prerequisites:** Graduate standing.

AAE 654 - Architecture and the New Urbanism**Credits 3**

Examination of New Urbanism and its implications for architectural design practices. **Same as:** AAE 454. **Prerequisites:** Graduate standing.

AAE 657 - Architecture in Las Americas**Credits 3**

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class. **Notes:** Credit at the 600-level requires additional work. **Prerequisites:** Graduate standing.

AAE 658 - History of Renaissance and Baroque Architecture

Credits 3

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class. **Notes:** Credit at the 600-level requires additional work. **Prerequisites:** Graduate standing.

AAE 660 - Issues in Contemporary Urbanism

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class.

AAE 685 - Non-Western Settlements

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class.

AAE 711L - Graduate Design I: Design and Communication

Credits 3

Basic principles of design and communication. Understanding of the fundamentals of architectural graphics, 2-D design principles, 3-D composition and the effect of design elements on design decisions. **Prerequisites:** Graduate standing.

AAE 712L - Graduate Design II: Fundamentals

Credits 6

Principles of design for graduate students. Understanding of the fundamentals of architectural design principles, site planning, architectural programming, response to specific and unique climate conditions for a given site.

Prerequisites: AAE 711L or consent of graduate coordinator.

AAE 713L - Graduate Design III

Credits 6

Design of residential structures at different scales. Emphasis on psychological and behavioral aspects of space and analysis of user needs. **Prerequisites:** AAE 712L or consent of graduate coordinator.

AAE 714L - Graduate Design IV

Credits 6

Design of medium scale urban buildings. Emphasis on integration of building systems, urban design issues, and value engineering analysis. **Prerequisites:** AAE 713L or consent of graduate coordinator.

AAE 756 - Design Practice Management

Credits 3

Investigation of professional management and organizational issues in the practice of architecture including project delivery, strategic business and financial planning. **Prerequisites:** AAE 772L

AAE 770 - Research Methods in Environmental Design

Credits 3

Survey of research methods in environmental design. Quantitative and qualitative methods used in researching design, social/behavioral and technical problems in architecture. **Prerequisites:** Graduate standing.

AAE 771L - Architectural Design V

Credits 6

Design and presentation of complex urban developments and multistory structures in an urban context.

Prerequisites: AAE 714L or consent of graduate coordinator.

AAE 772L - Architectural Design VI

Credits 6

Continuation of Architectural Design V, AAE 771L. **Prerequisites:** AAE 771L. **Corequisite:** ABS 741

AAE 775 - Tourist Facility Design and Development**Credits 3**

Focuses on the interrelationships of social, economic and physical aspects of total tourist facilities design, with emphasis on the physical development of tourism, planning concepts of tourist centers and resort areas.

Prerequisites: Consent of instructor.

AAE 780 - The Design-Build Process**Credits 3**

Design-build process for project delivery. Analysis of alternative methods. Exploration of design-build concept from initial phases through to project start up and delivery. **Prerequisites:** Graduate standing.

AAE 789 - Architecture Research Studio**Credits 6**

Comprehensive building design project producing final report summarizing the building typology and conceptual design research and definitive written program requirements. **Prerequisites:** AAE 772L

AAE 790 - Professional Project Design**Credits 6**

Design of a complex building, a major design competition, or a comprehensive, integrated building design problem.

Prerequisites: AAE 789

AAE 791 - Thesis Writing**Credits 6**

Full draft of the written thesis must be completed. Refinement of the problem statement and methodology, completion of literature review, investigation of the chosen problem, data collection and analysis expected. **Notes:** May be repeated until course requirements are satisfied, but only six credits counted toward M.Arch. Degree.

Grading: S/F grading only. **Prerequisites:** Consent of graduate coordinator.

AAE 793 - Advanced Independent Study**Credits 1 – 3**

Advanced independent study of a selected topic in architectural design. Paper required. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Graduate standing and consent of instructor.

AAE 795 - Advanced Special Topics in Design**Credits 1 – 4**

Outlet for experimental and other topics which may be of current interest in design. **Notes:** Topics and credits to be announced. May be repeated to a maximum of eight credits. **Prerequisites:** Graduate standing and consent of instructor.

AAI 650 - Designed Environment and Human Behavior

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class.

AAI 655 - Facilities Planning and Design**Credits 3**

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class. **Notes:** Credit at the 600-level requires additional work. **Prerequisites:** Graduate standing and instructor consent.

AAI 680 - Furniture Design**Credits 3**

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class. **Notes:** Credit at the 600-level requires additional work. **Prerequisites:** Graduate standing and instructor consent.

AAL 655 - Landscape Interpretation

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class.

AAL 656 - Campus Planning and Design

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class.

AAL 665 - GIS Planning Methods

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class.

AAL 667 - History and Theory of Golf Course Development

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class.

AAL 668 - Golf Course Design

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class.

AAP 630 - Land Use Management

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class.

AAP 646 - Urban Land Use: Planning and Controls

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class.

ABS 521 - Construction Technologies I
Credits 3

Basic materials, methods and detailing of landscape, building and interior construction. Includes effects of zoning and code requirements. **Same as:** ABS 321

ABS 522 - Construction Technologies II
Credits 3

Investigation of building materials, assemblies, and construction delivery systems and their impact upon architectural design. **Same as:** ABS 322. **Prerequisites:** AAE 521 or instructor consent.

ABS 531 - Environmental Control Systems I
Credits 3

Climate, energy use, and comfort as determinants of architectural form in small-scale buildings. Emphasis on architectural methods of daylighting, heating, cooling, and ventilation for envelope-load dominated buildings. **Same as:** ABS 331. **Corequisite:** ABS 531L

ABS 532 - Environmental Control Systems II
Credits 3

Building design implications of HVAC systems, vertical transportation, water supply and waste systems, acoustics, and lighting systems in accordance with current building codes. **Same as:** ABS 332. **Prerequisites:** AAE 531 / AAE 531L or instructor consent. **Corequisite:** ABS 532L

ABS 541 - Structures for Architects I
Credits 3

Theory and basic elements of simple structural systems for architects, designers, and construction manager. Lecture and field trip. **Same as:** ABS 341

ABS 632 - Solar Energy Applications in Architecture

Credits 3

Solar energy as a renewable energy resource for heating and cooling of buildings. Presents technical and design issues of passive and active solar energy systems, as well as solar electric power (photovoltaics). Emphasis on architectural design integration and occupant comfort. Explores design-related projects and case studies of existing solar buildings. **Prerequisites:** Graduate standing.

ABS 640 - Structures For Architects II

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class.

ABS 641 - Structures For Architects III

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class.

ABS 643 - Interior Lighting Design

Credits 3

This course may also be used for graduate elective credit. For a description of this 600-level course, please consult the current UNLV Undergraduate Catalog where it is listed as a 400-level class. **Prerequisites:** ABS 532 or equivalent.

ABS 644 - Lighting Design and Technology

Credits 3

Provides an understanding of architectural lighting design. Fundamental principles of light, vision and perception, visual comfort and performance, daylight and electric light sources, systems and luminaires, electrical and lighting codes, and lighting design for a variety of applications. Emphasis on energy-efficient design strategies, system integration and occupant comfort. **Formerly:** ABS 731. **Prerequisites:** ABS 643

ABS 741 - Integrated Building Systems

Credits 3

Design of building structures together with mechanical and electrical services, life safety codes, and building codes. **Prerequisites:** AAE 771L . **Corequisite:** AAE 772L

ABS 743 - Advanced Computer Applications for Structures

Credits 3

Application of specialized computer programs in structural design. **Prerequisites:** ABS 341 or equivalent.

ABS 793 - Advanced Independent Study

Credits 1 – 3

Advanced independent study of a selected building science topic. Paper required. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Graduate standing and consent of instructor.

ABS 795 - Advanced Special Topics in Building Science

Credits 1 – 3

Outlet for experimental and other topics of interest in advanced building science. Paper required. **Notes:** Topics and credits to be announced. May be repeated to a maximum of six credits. **Prerequisites:** Graduate standing and consent of graduate coordinator.

Art

The UNLV/MFA in studio art is a research-based program that uses a tutorial and seminar system as the primary basis for teaching. This means graduate students come in direct contact with faculty whose personal work is focused in a variety of media. At the same time that graduate students are encouraged to investigate new mediums and explore interdisciplinary options, they are also exposed to an experience-rich environment and guided through an exploration of the creative process. The possibilities for interaction with established artists are increased by a visiting artists and artist in residence program. MFA candidates are encouraged to establish and articulate their own creative and productive values. Each student is provided with individual studio space. There are a number of graduate assistantships available to assist and support students in their pursuit of the Master of Fine Arts degree. In addition, the UNLV studio art program is placed in a unique geographical position, which creates unlimited aesthetic opportunities minutes from the surrounding desert and the Las Vegas Strip.

The MFA Program, which is a part of the UNLV Graduate College, and fully accredited by The National Association of Schools of Art and Design (NASAD), is jointly administered by the Art Department's Graduate Coordinator and the Graduate College.

60 credit hours are required to complete the Degree in Masters of Fine Arts in Art. MFA candidates must be full-time students and are required to enroll in a minimum of 9 credits per semester. After completing 3 semesters or thirty credit hours in the program, the candidates submit their work in the form of a midway exhibition to the Graduate Committee for evaluation. A successful midway exhibition is a prerequisite for continuing in the program. The capstone of the UNLV MFA in Art is a solo graduation exhibition accompanied by a thesis, a thesis examination.

Louisa McDonald, Ph.D., Chair
Pasha Rafat, Graduate Coordinator

Chair

McDonald, Aya Louisa - *Full Graduate Faculty*
Associate Professor; B.A., M.A., Ph.D., Stanford University. *Rebel since 2000.*

Graduate Coordinator

Rafat, Pasha - *Full Graduate Faculty*
Professor, B.S. Arizona State University, M.A., M.F.A. California State University, Fullerton. *Rebel since 1986.*

Graduate Faculty

Angel, Catherine - *Full Graduate Faculty*
Professor; B.F.A., University of Oklahoma; M.F.A., Indiana University. *Rebel since 1991.*

Bellver, Jose - *Full Graduate Faculty*
Professor;

Burden, Jeffrey K. - *Full Graduate Faculty*
Professor; B.F.A., University of Evansville; M.F.A., University of Indiana. *Rebel since 2007.*

McDonald, Aya Louisa - *Full Graduate Faculty*

Associate Professor; B.A., M.A., Ph.D., Stanford University. *Rebel since 2000.*

Seo, Sang-Duck - *Full Graduate Faculty*

Assistant Professor, BFA Taegu University, Korea, MFA Iowa State University. *Rebel since 2006.*

Tracy, Robert H. - *Full Graduate Faculty*

Associate Professor; B.A., California State University, Hayward; M.A., Ph.D., University of California, Los Angeles. *Rebel since 1984.*

Watkins, Helga - *Full Graduate Faculty*

Associate Professor; B.F.A., Savannah College of Art and Design; M.F.A., University of Notre Dame. *Rebel since 1999.*

Professor.

Leaf, Bill S.

Professor; B.F.A., San Francisco Art Institute; M.A., University of California, Davis. *UNLV Emeritus 1973.*

McCollum, Michael L.

Emeritus Dean of Fine and Performing Arts; A.B., Humboldt State University; M.A., M.F.A., University of California, Berkeley. *UNLV Emeritus 1969-1995.*

Pink, James

Professor; B.S., M.A., Northern Illinois University; M.F.A., University of Florida. *UNLV Emeritus 1987.*

Warner, Mary

Associate Professor.

Art Plans

Master of Fine Arts - Art

The UNLV MFA degree is a three-year, research oriented and studio based program. It provides each student with studio space and a tutorial system that assures close contact with faculty members and peers, the latter implemented through visiting artist program that exposes new students to an experience-rich environment to help guide them in their exploration to establish and articulate their creative and productive activities. Graduate assistantships are available to defray expenses, and in addition, the city of Las Vegas provides a unique visual, architectural, and cultural setting that many students find to be inspiring.

The UNLV Art Department focuses on various areas of discipline including Drawing and Painting, Sculpture, Printmaking, Photography and Mixed-Media. While these areas are the department's primary focus, graduate students are encouraged to investigate and research any media discipline.

Learning Outcomes

Plan Admission Requirements

A student working toward the M.F.A. – Art may select a major in ceramics, painting, photography, printmaking, drawing, sculpture, or graphic design. Applicants for the program leading to this degree must hold a Bachelor of Fine Arts in Art (or an equivalent degree) from an accredited university.

To be considered for admission to the program, applicants must submit for approval 20 slides of their work, a statement of intent, a resumé, official transcripts, and three letters of recommendation. These materials should be sent directly to the Department of Art. The application for admission, request for graduate assistantship, and an additional set of original transcripts should be sent directly to the Graduate College.

To enter the program, the student should have a baccalaureate in the field in which he or she expects to major and should have completed at least 60 hours in art and art history as a requirement for that degree. A student with less than 60 hours must enroll in undergraduate courses until this requirement is met.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Bachelor's Track

Total Credits Required: 60

Course Requirements

- Studio Course – Credits: 6
 - ART 721 - Graduate Faculty Studio
- Seminar Course – Credits: 6
 - ART 700 - Seminar in Studio Practices
 - Art History or Theory Courses – Credits: 6
 - ART 677 - Art Since 1945
 - ART 737 - Theory and Criticism
- Theory or Directed Readings Courses – Credits: 3
 - Complete 3 credits from the following list of courses:
 - ART 737 - Theory and Criticism
 - ART 747 - Directed Readings
- Additional Courses – Credits: 36
 - Complete 36 credits from the following list of courses or other advisor-approved courses.
 - ART 710 - Graduate Studio
 - ART 720 - Graduate Projects
- Graduate Exhibition – Credits: 3
 - ART 777 - Graduate Exhibition

Degree Requirements

- Sixty credit hours are required to complete the degree. Approximately six regular semesters are necessary to cover requirements and prepare for the final exhibition. The M.F.A. candidate must be a full-time student (nine credits per semester).

- In consultation with his/her advisor, a student will organize an advisory committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- After completing three semesters, or thirty credit hours, in the M.F.A. program, the candidate's work must be submitted to a committee for evaluation as a midway exhibition. The committee determines if the student's progress meets the standards required for advancement to candidacy. ART 720 should only be taken after the student has completed their midway exhibition.
- The M.F.A. exhibition of the student's work must have the approval of the student's committee. After advancement to candidacy, students must complete a comprehensive project consisting of an exhibition of a representative body of creative work and a statement (2,000-word minimum) regarding the intent and underlying conceptualization. The final evaluation is oral and is prepared and conducted by the student's advisory committee during the student's exhibition.
- Two copies of a sheet of 35mm slides of work in the exhibition, along with two copies of the 2,000 word minimum statement, must be presented to the department during the exhibition for permanent record.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Post-M.A. Track

Total Credits Required: 45

Course Requirements

- Studio Course – Credits: 6
 - ART 721 - Graduate Faculty Studio
- Seminar Course – Credits: 6
 - ART 700 - Seminar in Studio Practices
 - Art History or Theory Courses – Credits: 6
 - ART 677 - Art Since 1945
 - ART 737 - Theory and Criticism
- Theory or Directed Readings Courses – Credits: 3
 - Complete 3 credits from the following list of courses:
 - ART 737 - Theory and Criticism
 - ART 747 - Directed Readings
- Additional Courses – Credits: 21
 - Complete 21 credits from the following list of courses or other advisor-approved courses.
 - ART 710 - Graduate Studio
 - ART 720 - Graduate Projects
- Graduate Exhibition – Credits: 3
 - ART 777 - Graduate Exhibition

Degree Requirements

- Forty-five credit hours are required to complete the degree. Approximately six regular semesters are necessary to cover requirements and prepare for the final exhibition. The M.F.A. candidate must be a full-time student (nine credits per semester).
- In consultation with his/her advisor, a student will organize an advisory committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

- After completing approximately three semesters in the M.F.A. program, the candidate's work must be submitted to a committee for evaluation as a midway exhibition. The committee determines if the student's progress meets the standards required for advancement to candidacy. ART 720 should only be taken after the student has completed their midway exhibition.
- The M.F.A. exhibition of the student's work must have the approval of the student's committee. After advancement to candidacy, students must complete a comprehensive project consisting of an exhibition of a representative body of creative work and a statement (2,000-word minimum) regarding the intent and underlying conceptualization. The final evaluation is oral and is prepared and conducted by the student's advisory committee during the student's exhibition.
- Two copies of a sheet of 35mm slides of work in the exhibition, along with two copies of the 2,000 word minimum statement, must be presented to the department during the exhibition for permanent record.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her M.F.A. exhibition by the posted deadline. The exhibit must be advertised and is open to the public.

Art Courses

ART 604 - Art in Public Places

Credits 3

Theoretical and practical investigation of art in public places. Concentration on collaborative process between artists, designers, architects and communities. Includes site considerations, grant writing, proposal preparation and presentation, budgeting, legal aspects, publicity and report development and documentation. **Notes:** Credit at the 600 level normally requires additional work.

ART 662 – The History of Medieval Art

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 663 – History of Early Renaissance Art

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 664 – High Renaissance and Mannerist Art

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 665 – History of Northern Renaissance Art

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

Notes: Credit at the 600 level normally requires additional work.

ART 666 – History of Renaissance and Baroque Architecture

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 667 – History of Baroque Art I

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 668 - History of Baroque Art II

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 669 - Art of Eighteenth Century Europe I

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 670 - Art of Eighteenth Century Europe II

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 672 - Nineteenth Century Art

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 673 - Twentieth Century Art

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 674 - History of American Art

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 676 - Performance and Media Art

Credits 3

Provides an alternative history of contemporary art, focusing on performance, media, participatory, and action-based art from the early twentieth century to the present.

ART 677 - Art Since 1945

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 680 - The Art of China

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 681 - Art of Japan

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 695 - Special Topics in Art History

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

ART 700 - Seminar in Studio Practices

Credits 3

Studio practices directed toward the analysis of studio work. Fosters an open and conducive atmosphere for examination of media and concepts through constructive criticism. **Notes:** May be repeated to a maximum of 12 credits.

ART 710 - Graduate Studio

Credits 1 – 9

Individual problems in major studio area, with choice of medium. **Notes:** May be repeated with change of subject, maximum of 15 credits. **Prerequisites:** Graduate standing.

ART 720 - Graduate Projects

Credits 1 – 9

Individual problems in major studio area, with choice of medium. **Notes:** May be repeated with change of subject, maximum of 30 credits. **Prerequisites:** Graduate standing in art.

ART 721 - Graduate Faculty Studio

Credits 3

Individual problems in the studio area with regularly scheduled discussion sessions involving all department faculty. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Graduate standing in art.

ART 722 - Graduate Contemporary Practice Seminar

Credits 3

Practice and theory of contemporary space, with emphasis on critical examination of object making utilizing speculative investigations and a synthesis of means. Goals of the course include critical theory, current art criticism, and advancement of the studio practice toward the current global discourse in art. **Notes:** May be repeated to a maximum of fifteen credits.

ART 727 – Historiography

Credits 3

Surveying the variety of methods utilized by scholars of the humanities to study the visual arts in the Western world. **Prerequisites:** Graduate standing.

ART 737 - Theory and Criticism

Credits 3

Analyzes the various aesthetic theories of art in the Western world. **Notes:** May be repeated to a maximum of nine credits. **Prerequisites:** Graduate standing.

ART 747 - Directed Readings

Credits 1 – 3

Directed readings in art history in a specific area agreed upon by the students and faculty prior to registration. **Notes:** May be repeated for a maximum of nine credits. **Prerequisites:** Graduate standing.

ART 777 - Graduate Exhibition

Credits 4

Culminates in a graduate exhibition presented by the candidate for the Master of Fine Arts degree. **Prerequisites:** Must be taken in final semester with show exhibition, graduate standing.

Film

The UNLV Department of Film offers a Master of Fine Arts degree in Writing for Dramatic Media. This terminal film degree provides students with opportunities to develop motion picture screenplays, stage plays, television series, content for the internet, mobile communication, and game-scripting. This is in keeping with the narrative driven curriculum of the Film Department as a whole. This M.F.A. professional training program presents superior academic and artistic standards for the candidates. They are challenged to elevate their talent and craft to levels of excellence to make for seamless transfers into careers in the entertainment industry. Students completing the three-year program will have a significant group of feature motion picture and television scripts that have been honed to the sharpest professional sensibility. In addition to faculty with professional experience, the students are exposed to a variety of guests who are working in the industry.

Francisco Menendez, Chair

Waldman, David
Assistant Professor; M.F.A., American Film Institute.

Wegner, Hart L.- *Full Graduate Faculty*
Professor; B.A., M.A., University of Utah; Ph.D., Harvard University. *Rebel since 1968.*

Film Plans

Graduate Certificate in Writing for Dramatic Media

The UNLV Department of Film offers a Graduate Certificate in Writing for Dramatic Media. The mission of the Writing for Dramatic Media Certificate Program at UNLV is to give graduate students in other disciplines the opportunity to study creative writing for various dramatic media at a professional standard and to award those who complete the program a valuable distinction to benefit them in their careers.

Plan Admission Requirements

The certificate candidate must already have been accepted by the Graduate College at UNLV and be a graduate degree-seeking candidate in good standing in a field other than film. The candidate must have the authorization by the graduate coordinator or advisor from their own program or department. The certificate candidate may start at any time in their studies, but must complete the requirements prior to, or in the same semester, as completing their graduate degree.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 12

Course Requirements

- Required Courses – Credits: 6
 - Complete 6 credits of the following course:
 - FIS 722 - Graduate Screenwriting
- Required Courses – Credits: 6
 - Complete 6 credits from the following courses:
 - FIS 615 - Story Development
 - FIS 618 - Writing for Television I
 - FIS 619 - Writing for Television II
 - FIS 720 - Advanced Cinematic Structure
 - FIS 723 - Ensemble Screenwriting
 - FIS 724 - The Adaptation Screenplay
 - FIS 725 - Writing for Assignment
 - FIS 726 - Advanced Screenplay Analysis
 - FIS 727 - Advanced Screenplay Theory
 - FIS 728 - Graduate Production

Certificate Requirements

- Completion of a minimum of 12 credit hours with a minimum GPA of 3.00.
- The culminating experience will be a two hour oral defense of a significant creative work that was developed within the program.

Plan Certificate Completion Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.
- The student must successfully complete and defend his/her final project.

Master of Fine Arts - Writing for Dramatic Media

The UNLV Department of Film offers a Master of Fine Arts in Writing for Dramatic Media. This terminal degree focuses specifically on the art and craft of writing for performance. This is a three-year long creative writing discipline housed in a film department. The focus of the program is on developing feature screenplays but the candidate will also produce television screenplays, stage plays, and various types of work for digital media as it

evolves. The program is based on a “conservatory” approach of practice and repetition and includes a significant amount of “pitching,” or working aloud, as part of the process. Students completing the three-year program will have a significant group of feature motion picture, television, and other scripts that have been honed to a professional level. In addition to faculty with professional experience, the students are exposed to a variety of professional guests.

Learning Outcomes

www.unlv.edu/degree/mfa-dramatic-media

Plan Admission Requirements

Students are admitted in the fall term of each academic year. In addition to the general requirements for admission to the Graduate College, the following materials must be submitted.

- A writing sample to the Graduate Coordinator. This sample should be a screenplay. A stage play or prose fiction will suffice if approved by the coordinator. The sample is needed to demonstrate narrative ability.
- The names, addresses, and telephone numbers of two references.
- Finalists will be interviewed, by telephone or in person, by the Graduate Coordinator.

Review of applications begins January 15.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 54

Course Requirements

- Required Courses – Credits: 18
 - Complete 18 credits of the following course:
 - FIS 722 - Graduate Screenwriting
- Required Courses – Credits: 18
 - Complete 18 credits from the following courses:
 - FIS 615 - Story Development
 - FIS 618 - Writing for Television I
 - FIS 619 - Writing for Television II
 - FIS 720 - Advanced Cinematic Structure
 - FIS 723 - Ensemble Screenwriting
 - FIS 724 - The Adaptation Screenplay
 - FIS 725 - Writing for Assignment
 - FIS 726 - Advanced Screenplay Analysis
 - FIS 727 - Advanced Screenplay Theory
 - FIS 728 - Graduate Production
- Elective Courses – Credits: 18
 - Complete 18 credits of 600- or 700-level courses.

Degree Requirements

- Completion of a minimum of 54 credit hours with a minimum GPA of 3.00.
- In consultation with his/her advisor, a student will organize an advisory committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate

College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

- During the three years of study, each screenwriting student will be expected to complete a minimum of four full-length feature motion picture screenplays and two television scripts. In practice, the output is actually closer to five screenplays and four television scripts. One screenplay will be selected to be the candidate's thesis script. It will undergo final revision as the work most indicative of the candidate's art and craft.
- A two-hour oral examination will take place at the end of the course of study. This examination focuses on the student's final project (1 hour) and on all remaining work completed within the program (1 hour).

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete and defend his/her final project.

Film Courses

FIS 615 - Story Development

Graduate credit may be obtained for this course designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. Credit at the 600-level normally required additional work.

FIS 618 - Writing for Television I

Graduate credit may be obtained for this course designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. Credit at the 600-level normally required additional work.

FIS 619 - Writing for Television II

Graduate credit may be obtained for this course designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. Credit at the 600-level normally required additional work.

FIS 720 - Advanced Cinematic Structure

Credits 3

Analytical study of screenplay structure based on the filmed script. Select motion pictures established as subject films studied in piece and in detail as to how the structure of each scene works as itself and in the film as whole.

Notes: May be repeated to a maximum of six credits. **Prerequisites:** Graduate standing.

FIS 721 - Collaboration and Preparation

Credits 3

Practical exploration of the working process between the screenwriter, the director and the producer. Focuses moving the screenplay from "writers" draft to "production" draft in preparation for shooting. **Notes:** May be repeated for a maximum of six credits. **Prerequisites:** Graduate standing.

FIS 722 - Graduate Screenwriting

Credits 3

Study of art and craft of writing a feature-length motion picture screenplay. Student completes a full-length (120 pages) screenplay or completes a thorough revision in workshop environment. **Notes:** May be repeated for a maximum of eighteen credits. **Prerequisites:** Consent of instructor.

FIS 723 - Ensemble Screenwriting

Credits 3

Study of the art and craft of screenwriting in an ensemble. Students, as a group, complete four short screenplays and revisions. **Notes:** May be repeated for a maximum of six credits. **Prerequisites:** Consent of instructor.

FIS 724 - The Adaptation Screenplay**Credits 3**

Study of adapting a screenplay from another written medium by writing a full-length (120-page) screenplay in accepted industry format. The screenplay must have a contemporary setting but source material must be at least 100 years old and in public domain. **Notes:** May be repeated for a maximum of six credits. **Prerequisites:** Consent of instructor.

FIS 725 - Writing for Assignment**Credits 3**

Study and practice of editing, rewriting and revising the creative work of other screenwriters. Students analyze precedent of revising known screenplays, rewrite a full-length script as a group and commit an individual rewrite of a full-length script. **Note:** May be repeated for a maximum of six credits. **Prerequisites:** Consent of instructor.

FIS 726 - Advanced Screenplay Analysis**Credits 3**

In-depth analytical study of a filmed script. Analysis ranges from the effects of a scripted visual technique to metaphor to personal and societal influences. Students write and present two analytical papers. **Prerequisites:** Consent of instructor.

FIS 727 - Advanced Screenplay Theory**Credits 3**

Analytical study of motion pictures with focus on the screenwriter's intent and agenda. Students conduct thorough research on screenwriters and provide analysis of the screenwriters' product. Students present and defend two papers combining this research and analysis. **Prerequisite:** Consent of instructor.

FIS 728 - Graduate Production**Credits 3**

Analytical approach to the professional production of a student's screenplay. Students chronicle all levels of involvement with the physical "shooting" of his, or her, script. **Notes:** May be repeated for a maximum of six credits. **Prerequisites:** Consent of instructor.

Music

The UNLV Department of Music provides a professional artistic environment that supports programs of excellence in the development of musicians. The Department offers graduate programs, accredited by the National Association of Schools of Music, which lead to the Master of Music degree with options in Applied Music (Performance), Composition /Theory, Music Education, or Conducting. The Doctor of Musical Arts degree is offered in Performance.

Students not admitted to graduate programs in Music may register for graduate courses only with permission from the instructor of the course and the appropriate program administrator.

Music Plans

Graduate Certificate in Teacher Licensure

The Graduate Certificate Program in Teacher Licensure is offered by the Department of Music for students who have already completed a Master of Music degree. Like the Master of Music Graduate Licensure Program (GLP) the certificate program will be advised by the Music Education Coordinator; majority of coursework is offered in the Department of Music/College of Fine Arts. This program allows for the Department of Music to meet the needs of Master of Music degree students seeking state teacher licensure requirements and provides for a stronger program than would be available through the state Alternate Licensure Program (ALP).

The Graduate Certificate Program in Teacher Licensure offers coursework that is required for licensure by the State of Nevada not available or required for Master of Music degrees in Performance, Music Education, Composition, or Conducting. Certificate will also include coursework enabling students to complete licensure requirements without obtaining a second Master of Music degree.

Plan Admission Requirements

- Students must have an earned Bachelor's degree with overall GPA of 2.75 or above in a Comprehensive Subject Area (Vocal/General or Instrumental).
- Content coursework related to general music core for music majors that mirrors the music education majors must be on transcript (music theory, music history, conducting, piano, private instruction and ensembles.)
- Passing scores in reading, writing, and mathematics on the Praxis I Pre-Professional Skills Test examination.
- Passing scores on the Music Theory and Music History entrance examinations.
- Passing scores on the Teacher Licensure Examinations for Nevada School Law, Nevada Constitution and U.S. Constitution or related coursework.
- Documentation of immunizations with UNLV Admissions and Records.
- Field-based experiences (practicum and student teaching) require fingerprinting in compliance with the Clark County School District (CCSD) policy.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 43

Course Requirements

- Required Courses – Credits: 39
 - CIS 601 - Secondary Teacher Development Seminar
 - MUS 640 - Foundations and Principles of Music Education
 - EPY 708 - Human Learning and Development
 - MUS 650 - Educational Measurement in Music
 - MUS 655 - Teaching Music and Exceptional Learners
 - MUS 575 - Instrumental Methods
 - MUS 576 - Choral Methods
 - MUS 578 - Teaching of General Music
 - MUS 502 - School Music Practicum*
 - MUS 581E - Elementary Supervised Student Teaching: Music
 - MUS 581S - Secondary Supervised Student Teaching: Music
- Conducting Course – Credits: 3
 - Complete one of the following courses:
 - MUS 721 - Large Ensemble Conducting and Literature
 - MUS 722 - Instrumental Conducting Seminar
 - MUS 723 - Advanced Choral Conducting
 - MUSA 760 - Secondary Applied Music for Doctoral Students
- Culminating Experience – Credits: 1
 - MUS 697 - Music Culminating Experience

Note: MUS 502 requires a \$100 lab fee, and MUS 581E and MUS 581S both require \$400 lab fees.

Certificate Requirements

- Completion of a minimum of 43 credit hours with a minimum GPA of 3.00.

Plan Certificate Completion Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.

Master of Music - Music

The Master of Music degrees at UNLV conforms to the following qualifying prerequisites and guidelines for study set forth by the National Association of Schools of Music:

Demonstrate baccalaureate-level capabilities in basic music competencies.

Demonstrate sufficient knowledge and skill in English to pursue advanced studies.

Mission

The mission of the Master of Music degree at UNLV is to prepare musicians and music educators for careers in performance and education. The minimum number of credits required for the Master of Music degree varies with each major option.

Learning Outcomes:

Conducting

www.unlv.edu/degree/mm-conducting

Multiple Woodwinds

www.unlv.edu/degree/mm-multiple-woodwinds

Performance

www.unlv.edu/degree/mm-performance

Music Education - Graduate Licensure

Music Education - Traditional

www.unlv.edu/degree/mm-music-education-traditional

Plan Admission Requirements

Students applying for admission to the Master of Music degree program must apply online through the Graduate College website. There are different deadlines for international students, and for students who wish to apply for assistantships, which are also found on the Graduate College website.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements . In addition to submitting an application and transcripts of all college-level work to the Graduate College, prospective students must present the following credentials:

- An overall undergraduate GPA of at least 2.75 (or 3.00 in the last two years of undergraduate study).
- An undergraduate GPA of at least 3.00 in music.

Prior to registration, all Department of Music graduate students must take placement examinations in music history, theory, and aural skills/sight- singing, regardless of their area of concentration. Passing scores on these exams, or passing grades in the appropriate history or theory review courses (B or above) are required before students may enroll in graduate level history and theory courses. Credit for review courses will not be applied towards the degree.

Prospective students must also present credentials to the Department of Music. Under the Program Information section of the online application, please be sure to list your specific concentration. The following credentials must be presented to the Department of Music:

Performance Tracks

- Two confidential letters of recommendation from former instructors attesting to the student's ability to complete graduate work at an acceptable level.
- A 500-word essay defining career goals and explaining how graduate studies in music will advance the applicant toward these goals.
- A successful on-campus performance audition.
- All auditions must be presented by April 15 for fall semester admission and by October 15 for spring semester admission. Audition length, requirements, and contact information vary by area. Please consult the area coordinator for further information.

Theory/Composition Tracks

- Two confidential letters of recommendation from former instructors attesting to the student's ability to complete graduate work at an acceptable level.
- A 500-word essay defining career goals and explaining how graduate studies in music will advance the applicant toward these goals.
- A portfolio of compositions including at least one work from three of the following categories: a) orchestra, band or chorus; b) solo instrument and piano or for solo piano; c) string quartet, brass quintet, woodwind quintet, or other small ensemble; d) set of songs for solo voice and piano; e) original composition scored for jazz ensemble. Additional works may be included.
- All auditions must be presented by April 15 for fall semester admission and by October 15 for spring semester admission. Audition length, requirements, and contact information vary by area. Please consult the area coordinator for further information.

Music Education Tracks

- An undergraduate degree in Music Education or the equivalent is required for admission to the program.
- Passing PPST I scores for Nevada found at www.ets.org.
- Two confidential letters of recommendation from former instructors attesting to the student's ability to complete graduate work at an acceptable level.
- A 500-word essay on the applicant's philosophy of music education.
- An undergraduate degree in Music Education or the equivalent is required for admission to the program.
- Provide portfolio evidence of two years of successful music teaching experience in the public school. This evidence may include, but is not limited to:
 - A current resume
 - A copy of your teaching credential
 - Representative lesson plans for two classes
 - Audio and/or video of your students' learning or performing.
 - Programs and other materials demonstrating programs you have given in the past two years
- All auditions must be presented by April 15 for fall semester admission and by October 15 for spring semester admission. Audition length, requirements, and contact information vary by area. Please consult the area coordinator for further information.

Conducting Tracks

- Two confidential letters of recommendation from former instructors attesting to the student's ability to complete graduate work at an acceptable level.
- A 500-word essay defining career goals and explaining how graduate studies in music will advance the applicant toward these goals.
- A videotape or DVD of a rehearsal and performance under the applicant's direction.
- An on-campus conducting audition.
- All auditions must be presented by April 15 for fall semester admission and by October 15 for spring semester admission. Audition length, requirements, and contact information vary by area. Please consult the area coordinator for further information.

Graduate Licensure Tracks

The Music Graduate Licensure Program is a graduate program offered by the Department of Music leading to an elementary or secondary teaching license and a Master of Music (M.M.).

Students are not admitted during the summer; however, potential candidates may enroll in select courses, as non-admitted graduate students, while awaiting admission to the program. Students should apply for admission to the Graduate College. Once accepted to the Graduate Licensure Program, students should complete the course requirement worksheets they receive and contact their advisors to schedule initial appointments.

- Students must have an earned Bachelor's degree with overall GPA of 2.75 or above in the Comprehensive Subject Area (Vocal/General or Instrumental).
- Content coursework related to general music core for music majors that mirrors the music education majors must be on transcript (music theory, music history, conducting, piano, private instruction and ensembles.)
- Passing scores in reading, writing, and mathematics on the Praxis I Pre-Professional Skills Test examination.
- Passing scores on the Music Theory and Music History entrance examinations.
- Passing scores on the Teacher Licensure Examinations for Nevada School Law, Nevada Constitution and U.S. Constitution or related coursework.
- Documentation of immunizations with UNLV Admissions and Records.
- Field-based experiences (practicum and student teaching) require fingerprinting in compliance with the Clark County School District (CCSD) policy.

Music History Placement Examination

The examination is an assessment of accumulated knowledge. Students may wish to prepare, however, by reviewing the facts and concepts in J. Peter Burkholder, Donald J. Grout, and Claude V. Palisca, *A History of Western Music*, 7th edition (New York: W.W. Norton, 2006), the volumes of the Prentice Hall History of Music series, or similar texts. Students who show deficiencies in music history will be required to register for MUS 603 - Graduate Music History Review

The examination is given prior to the first day of instruction for the Fall semester. The exact date, time, and location may be found on the Department of Music website: <http://music.unlv.edu/home.shtml>

Students must take the exam at the designated time; no make-up examinations will be given. Students who fail to take the exam at the scheduled time must complete MUS 603 before enrolling in any other music history course. This course is offered in the Fall semesters only.

For more specific details concerning the placement exam, please consult the Music History Handbook, available on the Music Department website: <http://music.unlv.edu/home.shtml> or contact Dr. Anthony Barone (702) 895-5953, (anthony.barone@unlv.edu).

Graduate Music Theory and Aural Skills/Sight-singing Placement Examination

A sample graduate theory placement exam may be found on the Department of Music, Ås website:
<http://music.unlv.edu/home.shtml>

The Graduate Aural Skills/Sight-singing Placement Examination consists of:

- Two-voice dictation
- Three-voice dictation
- Harmonic dictation
- Two-part rhythmic dictation
- Sight-singing of a melody in any of the modern clefs (treble, alto, tenor, bass). A single melody may contain clef changes.

Students who show deficiencies in music theory and/or aural skills/sight-singing will be required to register for MUS 604 - Graduate Theory Review and/or MUS 602 - Graduate Ear Training Review.

The Graduate Music Theory and Aural Skills/Sight-singing Placement Examination is given prior to the first day of instruction for the Fall semester and the Spring semester. The exact date, time, and location may be found on the Department of Music, Ås website: <http://music.unlv.edu/home.shtml>

Students must take the exam at the designated time; no make-up examinations will be given. Students who fail to take the exams at the scheduled time must complete MUS 604 and MUS 602 before enrolling in any other music theory course.

For more specific details concerning the placement exam, please contact the Department of Music Office or the Graduate Coordinator (702) 895-3332.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Performance - Applied Major Track

Total Credits Required: 30

Course Requirements

- Required Course – Credits: 3
 - MUS 690 - Bibliography
- Music History Courses – Credits: 6
 - Complete 6 credits from following list of courses:
 - MUS 529 - Interpretation: German Lied
 - MUS 530 - French Melodie
 - MUS 770A - Graduate History Seminar
 - MUS 770B - Beethoven
 - MUS 770C - Fin de Siecle
 - MUS 770D - Music of Wagner
 - MUS 770E - Music of Bach
 - MUS 770F - Music of Stravinsky
 - MUS 770G - History of Russian Music
 - MUS 785 - The Symphony
 - MUS 786A - The Operas of Mozart

- MUS 786B - The Operas of Verdi
 - MUS 786C - Puccini and the Verismo
 - MUS 786D - American Opera Seminar
 - MUS 789 - The Art Song
 - MUS 792 - History of Opera
 - MUS 793 - Medieval and Renaissance Music
 - MUS 794 - Music of the Baroque Period
 - MUS 795 - Classical and Early Nineteenth-Century Music
 - MUS 796 - Music of the Romantic Period
 - MUS 797 - Music of the Twentieth Century
- Music Theory Course – Credits: 3
 - Complete 3 credits from following list of courses:
 - MUS 501 - Counterpoint
 - MUS 705 - Techniques of the Romantic Period
 - MUS 706 - Twentieth-Century Techniques
 - MUS 707 - Analysis in Relation to Performance
 - MUS 708 - Aspects of Musical Style
 - MUS 709X - Analysis of 20th and 21st Century Music

- Applied Music Courses – Credits: 8
 - MUSA 661 - Applied Music for Master's Students
- Ensemble Course – Credits: 2
 - Complete 2 credits of advisor-approved ensemble coursework.
- Recital Course – Credits: 2
 - MUS 698 - Recital-Master Level
- Elective Course – Credits: 3
 - Complete 3 credits of advisor-approved elective coursework.

Degree Requirements

- Successful completion of a minimum of 30 credits.
- No more than eight hours of 500-level course work may be applied to the candidate's degree program.
- All graduate students in music must maintain a minimum cumulative grade point average (GPA) of 3.00 in all degree-required courses. Only courses for which the student earns a final grade of A, A-, A+, B+, B-, B, or S may be applied to the graduate degree. A graduate student whose cumulative GPA falls below 3.0 (B) in a given term will be placed on probation for the following term. If a 3.0 cumulative GPA is not attained by the end of the probationary term, the student will either be granted a final opportunity to raise her/his GPA or may be dismissed from the program.
- Successful completion of MUS 690 - Bibliography, with a minimum grade of B, is a pre-requisite for all graduate-level music history classes.
- Students must participate in one major ensemble and one chamber ensemble.
- The Department of Music reviews the academic performance of graduate students at the end of each academic year and reviews the academic performance of graduate students on assistantships at the end of each semester.
- If the department determines that a student is not making satisfactory progress towards the degree, it will request that the Graduate Dean separate the student from the department or place the student on probation.

A student whose cumulative GPA falls below 3.0 for three successive semesters will be automatically dismissed from the program.

- All candidates for the Master of Music degree in Applied Music are required to take written and oral comprehensive examinations.
- The Master of Music comprehensive examinations consist of a written examination, and an oral examination.
- The comprehensive exams are taken during the term in which the student intends to graduate.
- For more specific information, please consult your advisor or the Department of Music Graduate Handbook.

Only courses for which the student earns a final grade of A, A-, A+, B+, B, B-, or S may be applied to the graduate degree. A graduate student whose cumulative GPA falls below 3.0 (B) in a given term will be placed on probation for the following term. If a 3.0 cumulative GPA is not attained by the end of the probationary term, the student will either be granted a final opportunity to raise her/his GPA or may be dismissed from the program.
- Successful completion of MUS 690 - Bibliography, with a minimum grade of B, is a pre-requisite for all graduate-level music history classes.
- The Department of Music reviews the academic performance of graduate students at the end of each academic year and reviews the academic performance of graduate students on assistantships at the end of each semester.

- If the department determines that a student is not making satisfactory progress towards the degree, it will request that the Graduate Dean separate the student from the department or place the student on probation. A student whose cumulative GPA falls below 3.0 for three successive semesters will be automatically dismissed from the program.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 9 Requirements: Conducting - Choral Track (On Hold)

Total Credits Required: 33

Course Requirements

- Required Course – Credits: 9
 - MUS 690 - Bibliography
 - MUS 721 - Large Ensemble Conducting and Literature
 - MUS 723 - Advanced Choral Conducting
- Music History Course – Credits: 6
 - Complete 6 credits from following list of courses:
 - MUS 529 - Interpretation: German Lied
 - MUS 530 - French Melodie
 - MUS 770A - Graduate History Seminar
 - MUS 770B - Beethoven
 - MUS 770C - Fin de Siecle
 - MUS 770D - Music of Wagner
 - MUS 770E - Music of Bach
 - MUS 770F - Music of Stravinsky
 - MUS 770G - History of Russian Music
 - MUS 785 - The Symphony
 - MUS 786A - The Operas of Mozart
 - MUS 786B - The Operas of Verdi

 - MUS 774 - Seminar in Music Theory

- MUS 770 - Techniques of the Classical Era
 - MUS 770 - Techniques of the Baroque Era
- Internship Course – Credits: 3
 - MUS 502 - School Music Practicum
- Culminating Experience – Credits: 1
 - MUS 697 - Music Culminating Experience

Degree Requirements

- Successful completion of a minimum of 34 credits with a minimum GPA of 3.00.
- Students are required to complete the courses as delineated in each phase of the program, both prior to and after, student teaching. In the Graduate Licensure Program, students complete the prerequisites and requirements for licensure (with student teaching) prior to completing the Master's degree.
- Continuous enrollment must be maintained unless a letter requesting exemption for the semester in question is submitted. Once admitted, students must take a 500, 600 or 700 level course each semester.
- CIS 601 must be successfully completed before taking MUS 502.
- Successful completion of a culminating experience.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

Doctor of Music Arts - Music Arts

The Doctor of Musical Arts degree represents the highest level of academic and musical achievement at UNLV. The program is designed for those students who choose to pursue careers in both performance and college-level teaching.

Our program provides intensive academic preparation and teaching of the type that will enable students to be effective pedagogues and to function successfully in an academic environment while continuing their development as performing artists.

Plan Admission Requirements

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Students applying for admission to the Doctor of Musical Arts degree program must make application through the Graduate College. There are different deadlines for international students, and for students who wish to apply for assistantships, which are also found on the Graduate College website. In addition to submitting an application and transcripts of all college-level work to the Graduate College, prospective students must have a Master's degree in music from a NASM accredited institution.

Placement Exams

- Prior to registration, all Department of Music graduate students must take placement examinations in music history, theory, and aural skills/sight-singing, regardless of their area of concentration. Passing scores on these exams, or passing grades in the appropriate history or theory review courses (B or above) are required before students may enroll in graduate level history and theory courses. Credit for review courses will not be applied towards the degree.
- Successful completion of MUS 690 - Bibliography, with a minimum grade of B, is a pre-requisite for all graduate-level music history classes.

Music History Placement Exam

- The examination is an assessment of accumulated knowledge. Students may wish to prepare, however, by reviewing the facts and concepts in J. Peter Burkholder, Donald J. Grout, and Claude V. Palisca, *A History of Western Music*, 7th edition (New York: W.W. Norton, 2006), the volumes of the Prentice Hall History of Music series, or similar texts. Students who show deficiencies in music history will be required to register for MUS 603 - Graduate Music History Review. The examination is given prior to the first day of instruction for the Fall semester. The exact date, time, and location may be found on the Department of Music website: <http://music.unlv.edu/home.shtml>.
- Students must take the exam at the designated time; no make-up examinations will be given. Students who fail to take the exam at the scheduled time must complete MUS 603 before enrolling in any other music history course. This course is offered in the Fall semesters only.
- For more specific details concerning the placement exam, please consult the Music History Handbook, available on the Music Department website: <http://music.unlv.edu/home.shtml> or contact Dr. Anthony Barone (702) 895-5953, (anthony.barone@unlv.edu).

Graduate Music Theory and Aural Skills/Sight-singing Placement Examination

- A sample graduate theory placement exam may be found on the Department of Music's website: <http://music.unlv.edu/home.shtml>
- The Graduate Aural Skills/Sight-singing Placement Examination consists of:
 - Two-voice dictation
 - Three-voice dictation
 - Harmonic dictation
 - Two-part rhythmic dictation
 - Sight-singing of a melody in any of the modern clefs (treble, alto, tenor, bass). A single melody may contain clef changes.
- Students who show deficiencies in music theory and/or aural skills/sight-singing will be required to register for MUS 604 - Graduate Theory Review and/or MUS 602 - Graduate Ear Training Review.
- The Graduate Music Theory and Aural Skills/Sight-singing Placement Examination is given prior to the first day of instruction for the Fall semester and the Spring semester. The exact date, time, and location may be found on the Department of Music's website: <http://music.unlv.edu/home.shtml>
- Students must take the exam at the designated time; no make-up examinations will be given. Students who fail to take the exams at the scheduled time must complete MUS 604 and MUS 602 before enrolling in any other music theory course.
- For more specific details concerning the placement exam, please contact the Department of Music Office or the Graduate Coordinator (702) 895-3332.

- Pedagogy Course – Credits: 3
 - Complete three credits from the following list of courses:
 - MUS 720 - Instrumental Music Reading and Conducting Workshop
 - MUS 727A - Survey of Ensemble Repertoire-String
 - MUS 727B - Survey of Ensemble Repertoire-Woodwind
 - MUS 727C - Survey of Ensemble Repertoire-Brass
 - MUS 727D - Survey of Ensemble Repertoire-Percussion
 - MUS 727E - Survey of Ensemble Repertoire-Piano
 - MUS 727F - Survey of Ensemble Repertoire-Vocal
 - MUS 727G - Survey of Ensemble Repertoire-Band
 - MUS 728 - Percussion Literature and Pedagogy
 - MUS 746 - Master Class in Vocal Pedagogy
 - MUS 747 - Instrumental Music Pedagogy
 - MUS 747A - Instrumental Music Pedagogy-Piano
 - MUS 747B - Instrumental Music Pedagogy-Brass
 - MUS 747C - Instrumental Music Pedagogy-Woodwind
 - MUS 747D - Instrumental Music Pedagogy-String
 - MUS 747E - Instrumental Music Pedagogy-Guitar
 - MUS 747F - Instrumental Music Pedagogy-Band
 - MUS 747G - Instrumental Music Pedagogy-Orchestra
 - MUS 748 - Music Wellness: A Survival Guide for Teachers and Performers
- Applied Lessons Courses – Credits: 16
 - Complete 16 credits from the following course corresponding to the student's primary instrument:
 - MUSA 764C - Applied Music for Doctoral Students: Cello
 - MUSA 764K - Applied Music for Doctoral Students: String Bass
 - MUSA 764O - Applied Music for Doctoral Students: Viola
 - MUSA 764P - Applied Music for Doctoral Students: Violin
 - MUSA 764R - Applied Music for Doctoral Students: Guitar
- Ensembles Course – Credits: 3
 - Complete 3 credits of advisor-approved ensemble (2 large, 1 chamber) coursework.
- Recital Courses – Credits: 9
 - MUS 798B - Recital
- Lecture-Recital Course – Credits: 3
 - MUS 781 - Lecture-Recital
- Elective Courses – Credits: 5
 - Complete 5 credits of advisor-approved elective coursework.
- Document Course – Credits: 2
 - MUS 780 - Document

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 4 Requirements: Woodwind Track

Total Credits Required: 60

Course Requirements

- Required Courses – Credits: 4
 - MUS 773 - Research Seminar
 - MUS 719 - Teaching Music in Higher Education
- History/Literature Courses – Credits: 9
 - Complete 6 credits from following list of courses:
 - MUS 529 - Interpretation: German Lied
 - MUS 530 - French Melodie
 - MUS 770A - Graduate History Seminar
 - MUS 770B - Beethoven
 - MUS 770C - Fin de Siecle
 - MUS 770D - Music of Wagner
 - MUS 770E - Music of Bach
 - MUS 770F - Music of Stravinsky
 - MUS 770G - History of Russian Music
 - MUS 785 - The Symphony
 - MUS 786A - The Operas of Mozart
 - MUS 786B - The Operas of Verdi
 - MUS 786C - Puccini and the Verismo
 - MUS 786D - American Opera Seminar
 - MUS 789 - The Art Song
 - MUS 792 - History of Opera
 - MUS 793 - Medieval and Renaissance Music
 - MUS 794 - Music of the Baroque Period
 - MUS 795 - Classical and Early Nineteenth-Century Music
 - MUS 796 - Music of the Romantic Period
 - MUS 797 - Music of the Twentieth Century
- Music Theory Courses – Credits: 6
 - Complete 6 credits from following list of courses:
 - MUS 501 - Counterpoint
 - MUS 705 - Techniques of the Romantic Period
 - MUS 706 - Twentieth-Century Techniques
 - MUS 707 - Analysis in Relation to Performance
 - MUS 708 - Aspects of Musical Style
 - MUS 709X - Analysis of 20th and 21st Century Music
 - MUS 774 - Seminar in Music Theory
 - MUS 770 - Techniques of the Classical Era
 - MUS 770 - Techniques of the Baroque Era
- Pedagogy Course – Credits: 3
 - Complete three credits from the following list of courses:
 - MUS 720 - Instrumental Music Reading and Conducting Workshop
 - MUS 727A - Survey of Ensemble Repertoire-String
 - MUS 727B - Survey of Ensemble Repertoire-Woodwind
 - MUS 727C - Survey of Ensemble Repertoire-Brass
 - MUS 727D - Survey of Ensemble Repertoire-Percussion
 - MUS 727E - Survey of Ensemble Repertoire-Piano
 - MUS 727F - Survey of Ensemble Repertoire-Vocal
 - MUS 727G - Survey of Ensemble Repertoire-Band

- MUS 728 - Percussion Literature and Pedagogy
 - MUS 746 - Master Class in Vocal Pedagogy
 - MUS 747 - Instrumental Music Pedagogy
 - MUS 747A - Instrumental Music Pedagogy-Piano
 - MUS 747B - Instrumental Music Pedagogy-Brass
 - MUS 747C - Instrumental Music Pedagogy-Woodwind
 - MUS 747D - Instrumental Music Pedagogy-String
 - MUS 747E - Instrumental Music Pedagogy-Guitar
 - MUS 747F - Instrumental Music Pedagogy-Band
 - MUS 747G - Instrumental Music Pedagogy-Orchestra
 - MUS 748 - Music Wellness: A Survival Guide for Teachers and Performers
- Applied Lessons Courses – Credits: 16
 - Complete 16 credits from the following course corresponding to the student,Â’s primary instrument:
 - MUSA 764B - Applied Music for the Doctoral Student: Bassoon
 - MUSA 764D - Applied Music for the Doctoral Student: Clarinet
 - MUSA 764E - Applied Music for the Doctoral Student: Flute
 - MUSA 764G - Applied Music for the Doctoral Student: Oboe
- Ensembles Course – Credits: 3
 - Complete 3 credits of advisor-approved ensemble (2 large, 1 chamber) coursework.
- Recital Courses – Credits: 9
 - MUS 798B - Recital
- Lecture-Recital Course – Credits: 3
 - MUS 781 - Lecture-Recital
- Elective Courses – Credits: 5
 - Complete 5 credits of advisor-approved elective coursework.
- Document Course – Credits: 2
 - MUS 780 - Document

Degree Requirements

 - Complete one of the following courses:
 - MUS 718A - Graduate Seminar in Voice-German
 - MUS 718B - Graduate Seminar in Voice-French
 - MUS 718C - Graduate Seminar in Voice-Italian
- Document Course – Credits: 2

- MUS 780 - Document

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Degree Requirements

- The student must complete a minimum of 60 credits.
- Throughout work for the degree, the student must maintain a minimum GPA of 3.00 with no course work receiving a grade of B- or below. If a student receives a grade of B- or below, the course must be retaken. If the student's cumulative GPA falls below 3.00, the student may be separated from the program.
- The Department of Music reviews the academic performance of graduate students at the end of academic year and reviews the academic performance of graduate students on assistantships at the end of each semester. If the Department of Music determines that a student is not making satisfactory progress toward the degree, it will request that the Graduate Dean separate the student from the department or place the student on probation. The department will provide the student with the specific requirements, including deadlines, which must be completed for the student to be removed from probation.
- In consultation with his/her advisor, a student will organize a thesis committee of at least four departmental members. In addition, a fifth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Advisors are assigned by the Graduate Coordinator and are usually the student's major teacher. New graduate students should schedule an appointment with their advisor before registering for classes to determine course of study and will be advised upon matriculation as to which, if any, areas need special attention. Advisors take an active role in assisting to correct any student deficiencies by suggesting appropriate course work. Meetings should continue on a regular basis to assure appropriate progress towards the degree.
- Participation in large ensembles is required throughout the student's residency. Some areas may have more specific large and small ensemble requirements. Students should consult their advisor for more details.
- Reading knowledge of at least one foreign language is required for the DMA: French, German, Spanish, or Italian. With permission of the Department of Music Graduate Committee, another language may be substituted. Students whose native language is not English may not use English or their native language to fulfill this requirement. This requirement must be fulfilled before the student schedules their qualifying exams. Students may fulfill the language requirement by doing one of the following:
 - Pass the Foreign Language Proficiency Exam in one of the approved languages.
 - The Foreign Language Proficiency Exam typically involves the translation of a 350 to 500-word text in a 90-minute period. The student may use a dictionary during the exam.
 - Students interested in this option should first contact the Graduate Coordinator to schedule the exam. The exam content will be selected from a Departmental set of translation excerpts.
 - Once complete, the exam is graded by a member of the Foreign Language Department, and the results are documented in completion of the DMA Foreign Language Evaluation form by the person overseeing the exam and should be sent to the Graduate Coordinator for the student's file.
 - If the student does not succeed in passing the Foreign Language Proficiency Exam, they must fulfill the foreign language requirement by completing option b below.
 - Complete two successive semesters of regular undergraduate foreign language courses while in residence for the DMA at UNLV in French, German, or Italian with a grade of B (3.0) or better in

each course. Students may choose as a starting point the course that best suits their current level of competency.

- Contact the Department of Music for a list of UNLV courses that may be taken to fulfill this requirement.
- Students must formally petition the Department of Music Graduate Committee in advance if they wish to substitute a language for French, German, Spanish, or Italian.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her doctoral document by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Music Courses

MUS 501 – Counterpoint

Credits 3

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** MUS 610. **Notes:** Credit at the 500 level normally requires additional work.

MUS 502 - School Music Practicum

Credits 3

Students work in a music classroom with a teacher to implement lessons planned in music. Students have the opportunity, with supervision, to manage classrooms and to implement instructional plans. Course taken the semester prior to student teaching. **Prerequisites:** CIS 601 and PPST. **Corequisite:** MUS 575, MUS 576, or MUS 578

MUS 529 – Interpretation: German Lied

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** MUS 629. **Notes:** Credit at the 500 level normally requires additional work.

MUS 530 - French Melodie

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** MUS 630. **Notes:** Credit at the 500 level normally requires additional work.

MUS 553 - Music Skills for Classroom Teachers

Credits 3

Development of music skills useful in teaching and integrating music in a standards-based curriculum in the elementary grades. Classroom curriculum design and performance projects on recorder, Orff instruments and classroom percussion instruments. Methods, materials and techniques of Jaques-Dalcroze, Orff-Schulwerk, and Kodaly studied for functional application. **Grading:** Graduate standing.

MUS 575 - Instrumental Methods

Credits 3

Overview of instrumental techniques in teaching music in junior and senior high schools. Topics include evaluation and selection of materials, repertoire, curriculum, classroom organization, teacher tools, communications, and use of multimedia and technology. **Prerequisites:** CIS 601 and PPST. **Corequisite:** MUS 502

MUS 576 - Choral Methods

Credits 3

Overview of vocal techniques in teaching music in junior and senior high schools. Topics include evaluation and selection of materials, repertoire, curriculum, classroom organization, teacher tools, communications, and use of multimedia and technology. **Prerequisites:** CIS 601 and PPST. **Corequisite:** MUS 502

MUS 577 - Teaching of Elementary Instrumental Music

Credits 1

Instruction in pedagogy and performance for general music to include guitar, recorder, barred instruments and unpitched percussion. **Corequisite:** MUS 578

MUS 578 - Teaching of General Music

Credits 3

Methods of teaching research-based practices and standards based music curriculum in the elementary school. Includes communication skills, instructional delivery, assessment, lesson design and behavior management.

Prerequisites: CIS 601. **Corequisite:** MUS 502

MUS 580 - Body Mapping: What Every Performer Needs to Know About the Body

Credits 1

This course gives specific information about practical anatomy and movement. Students will gain ease in performing and learn how improved coordination enables them to avoid fatigue, technical limitation and injury.

MUS 581E - Elementary Supervised Student Teaching: Music

Credits 6-12

Full time teaching as a teacher candidate in an elementary school related directly to the teaching of music. Teacher candidates demonstrate their knowledge, skills and disposition for teaching through directed mentorship from certified licensed teachers and university liaisons/supervisors and participate in all aspects of an elementary school.

Prerequisites: MUS 578

MUS 581S - Secondary Supervised Student Teaching: Music

Credits 6-12

Full time teaching as a teacher candidate in a secondary school related directly to the teaching of music. Secondary teacher candidates demonstrate their knowledge, skills and disposition for teaching through directed mentorship from certified licensed teachers and university liaisons/supervisors and participate in all aspects of a secondary school.

Prerequisites: MUS 575 or MUS 576

MUS 590 - Music Internship

Credits 1

Prerequisites: Consent of instructor.

MUS 602 - Graduate Ear Training Review

Credits 2

Designed to develop the student's ear training and sight-singing skills to the level necessary to pass the Graduate Aural Skills/Sight-singing Placement Examination. **Notes:** Not credited toward graduate program of study.

Grading: S/F grading only.

MUS 603 - Graduate Music History Review

Credits 3

An accelerated survey of composers and works from the Middle Ages to the present, providing graduate students with concepts and historical perspective needed for further graduate music history studies. **Notes:** Not credited toward graduate program of study.

MUS 604 - Graduate Theory Review**Credits 3**

A review of common-practice harmony, counterpoint, and form. **Notes:** Not credited toward graduate program of study.

MUS 609 - Jazz Theory and Composition**Credits 3**

Analytical and written studies covering advanced jazz harmony as it relates to specific style developments in jazz history from the bebop period to present day. **Formerly:** MUS 703. **Prerequisites:** Graduate standing, undergraduate course work in jazz theory or consent of instructor.

MUS 611 - Jazz Keyboard and Arranging**Credits 3**

Study of advanced keyboard techniques as they apply to jazz composition. **Formerly:** MUS 711. **Prerequisites:** Graduate standing; undergraduate course work in jazz keyboard or consent of instructor.

MUS 613 - Jazz Pedagogy**Credits 3**

Examination of the basic materials, systems, and philosophies related to jazz education. **Formerly:** MUS 729. **Prerequisites:** Graduate standing or consent of instructor.

MUS 617 - Marching Band Techniques**Credits 3**

Techniques of charting field movements and arranging musical selections for the marching band. **Formerly:** MUS 717

MUS 640 - Foundations and Principles of Music Education**Credits 3**

Examination of the historical, psychological, and philosophical foundations of music education and teaching principles derived from these foundations. **Formerly:** MUS 752

MUS 641 - Studies in Music Curricula**Credits 3**

Scope and sequence of musical experiences in the school music program including new techniques, trends, and developments in music education influencing change in curricula. **Formerly:** MUS 751

MUS 642 - Orff Schulwerk Teacher Training Certification Level I**Credits 3**

Development of a sequential teaching curriculum utilizing chants, rhymes, poetry, singing, rhythmic and melodic training, improvisation, the study of pentatonic scales, the ostinato, simple bordun accompaniments, and elemental forms and soprano recorder. **Prerequisites:** Undergraduate major in music education or consent of instructor.

MUS 643 - Orff Schulwerk Teacher Training Certification Level II**Credits 3**

Extension of Level One techniques with further exploration in the following areas: mixed and uneven meters, harmonizations to include the moving bordun and chord change accompaniments, movement and instrumental improvisation, extended form, and the continuation of the soprano recorder with the introduction of the alto recorder. Students will teach a short lesson demonstrating Orff process. **Grading:** 3. **Prerequisites:** Successful completion of Orff Schulwerk Teacher Training Level I in an AOSA approved course.

MUS 644 - Orff Schulwerk Teacher Training Certification Level III**Credits 3**

Extension of Level Two techniques with further exploration in instrumental and vocal improvisation; advanced orchestration; major, minor, and modal materials; advanced recorder and movement. Students will teach two short lessons. **Prerequisites:** Successful completion of Orff Schulwerk Teacher Training Level II in an AOSA approved course.

MUS 645 - History of Orff Schulwerk**Credits 3**

A study of the Orff Schulwerk approach through examination of key people and political events, dance and movement practices, pedagogy and orchestration. Level I Orff Schulwerk Teacher Certification or experience teaching in the approach is recommended. **Prerequisites:** Consent of instructor.

MUS 646 - Advanced Orff Orchestration**Credits 3**

A study and practical application of orchestration techniques in the Orff Schulwerk approach to include arranging folk songs, speech and body percussion, non-tuned percussion, recorder and barred percussion instruments. Level II Orff Schulwerk Teacher Certification and 5 years teaching experience in the Orff Schulwerk approach recommended. **Prerequisites:** Instructor Consent

MUS 647 - Orff Schulwerk for the Classroom Teacher**Credits 3**

Utilizes singing, creative movement, speech, body percussion, musical drama, and instruments. Provides opportunities to explore, plan, and develop units of musical activities which coordinate with public school music programs. Helps teachers improve individual music skills while enhancing classroom programs. **Formerly:** MUS 745

MUS 650 - Educational Measurement in Music**Credits 3**

A study of techniques, administration, and evaluation of tests and measurements appropriate for the K-12 music classroom to include: classroom tests and assessments, multiple-choice tests, performance-based and authentic assessments, observational techniques, achievement and aptitude tests, portfolios, and standardized tests.

MUS 651 - Music Methods for Early Childhood**Credits 3**

Techniques for teaching and integrating music for preschool and primary children. Participation in musical experiences and performance assignments required. **Prerequisites:** Graduate or special student status.

MUS 652 - Advanced Studies in Elementary School Music**Credits 3**

Review, critical analysis and examination of current pedagogy and materials in the elementary music classroom. Focus includes Kodaly, Orff, Dalcroze, and Gordon approaches, emphasis on the use of technology and the development of sequential experiences which contribute to children's musical growth. **Formerly:** MUS 754

MUS 653 - Teaching Non-Performance Music in Secondary School**Credits 3**

Review, critical analysis and examination of current pedagogy and materials in the elementary music classroom. Focus includes Kodaly, Orff, Dalcroze, and Gordon approaches, emphasis on the use of technology and the development of sequential experiences which contribute to children's musical growth. **Formerly:** MUS 754

MUS 655 - Teaching Music and Exceptional Learners**Credits 3**

Examination of the legislative, psychological, sociological, and philosophical foundations of music education for special learners and teaching principles derived from these foundations. Active discussion and lesson building, skills and approaches to teach in the music classroom with special learners will be actively included in class meetings. **Formerly:** MUS 755. **Prerequisites:** Graduate standing.

MUS 671 - Research in Music Education**Credits 3**

Investigation of methods of research, procedures for reporting research, and examination of research literature in music education. **Formerly:** MUS 771

MUS 672 - Research Project in Music Education

Credits 3

Design and completion of research study using descriptive or experimental research skills in a clinical or educational setting, or using historical research techniques. **Formerly:** MUS 772. **Prerequisites:** MUS 671

MUS 680 – Thesis

Credits 2-6

May be repeated but only six credits will be applied to the student's program. **Grading:** S/F grading only.

MUS 690 – Bibliography

Credits 3

Study of the bibliography of music and methods of research. **Formerly:** MUS 790

MUS 697 - Music Culminating Experience

Credits 1

Culminating experience for M.Ed. music students. Includes a selection of faculty approved options such as a comprehensive examination, professional manuscript or presentation, eportfolio project, or other equitable curricular experiences.

MUS 698 - Recital-Master's Level

Credits 2

Presentation of a full recital. **Formerly:** MUS 798A. **Notes:** May be repeated for a maximum of twelve credits.

Prerequisites: Consent of Advisory Committee. **Corequisite:** Concurrent enrollment in MUS 661.

MUS 699 - Independent Study

Credits 1-6

Investigation of specific aspect of music under supervision of a faculty member. Students must present proposals, including advisors and numbers of credits, no later than one week before registration, a) History/Literature. b) Theory/Composition. c) Music Education. d) Pedagogy and Literature. **Prerequisites:** Consent of instructor.

MUS 705 - Techniques of the Romantic Period

Credits 3

Analytical and written studies covering compositional practices of the nineteenth and early twentieth centuries.

Prerequisites: MUS 690; Graduate standing in music.

MUS 706 - Twentieth-Century Techniques

Credits 3

Analytical and written studies covering compositional practices from Impressionism to the present day.

MUS 707 - Analysis in Relation to Performance

Credits 3

A study of Schenkerian analysis and its application to the problems of performance.

MUS 708 - Aspects of Musical Style

Credits 3

Identification and study of the theoretical aspects of musical style through the examination of representative works from music literature. **Prerequisites:** MUS 304, 407

MUS 717 - Master Class in Singer's Diction

Credits 3

Phonetics and diction for singers in English, Italian, French, German, and Spanish. **Formerly:** MUS 724

MUS 718 - Seminars in Voice

Credits 3 – 9

To study representative vocal repertoire from major song composers of a) German lieder, b) French melodie c) Italian song and d) American song through performance, discussion, reading, and listening. Study of repertoire in each national area. Encompasses origins and development of the genre, and interpretive concerns relating to text, diction and composers' styles. **Notes:** May be repeated to a maximum of 12 credits. **Prerequisites:** Doctoral standing.

MUS 719 - Teaching Music in Higher Education

Credits 1

Examination of the preparation, skills, and ethics essential for securing and retaining a faculty position in music at the college or university level. **Prerequisites:** Doctoral standing.

MUS 720 - Instrumental Music Reading and Conducting Workshop

Credits 1-3

Primarily for the purpose of reading large ensemble music with additional emphasis on conducting techniques and pedagogy. Orchestra.

MUS 721 - Large Ensemble Conducting and Literature

Credits 3

LARGE ENSEMBLE CONDUCTING AND LITERATURE

MUS 722 - Instrumental Conducting Seminar

Credits 3

Analysis of individual conducting problems with emphasis on orchestral and contemporary music. a) Orchestra b) Band.

MUS 723 - Advanced Choral Conducting

Credits 3

Preparation of selected choral scores with emphasis on style and interpretation.

MUS 725 - Advanced Choral Literature

Credits 3

Form and style in choral music of the Renaissance and Baroque periods to the present.

MUS 726 - Survey of Solo Repertoire

Credits 3

Examination of solo literature available for performance in the following media. a) String. b) Woodwind. c) Brass. d) Percussion. e) Piano. f) Vocal. g) Guitar.

MUS 727 - Survey of Ensemble Repertoire

Credits 3

Examination of ensemble literature available for performance in the following media. a) String. b) Woodwind. c) Brass. d) Percussion. e) Piano. f) Choral. g) Band. h) Orchestra.

MUS 728 - Percussion Literature and Pedagogy

Credits 3

Study of the origins and developments and the pedagogical techniques of standard percussion instruments, including general concert percussion instruments, keyboard percussion instruments, and drum set. **Prerequisites:** Graduate standing or consent of instructor.

MUS 740 - History of Orff Schulwerk

Credits 3

A study of the history of the Orff Schulwerk approach through examination of key people and political events, dance and movement practices, pedagogy and orchestration. Level I Orff Schulwerk Teacher Certification or experience teaching in the approach is recommended. **Prerequisites:** Instructor Consent

MUS 742 - Orff Certification Level I**Credits 3**

Development of a sequential teaching curriculum utilizing chants, rhymes, poetry, singing, movement, instrumentation, and soprano recorder. **Prerequisites:** Undergraduate major in music education or consent of instructor.

MUS 743 - Orff Certification Level II**Credits 3**

Extension of a sequential teaching curriculum utilizing major and minor modes, additional harmonic techniques, complex rhythms, expanded elemental forms, and alto recorder. **Prerequisites:** Completion of Orff Level I.

MUS 744 - Orff Certification Level III**Credits 3**

Extension of a sequential teaching curriculum utilizing pentatonic and diatonic scales, lydian and mixolydian modes, descant, parallelism, irregular meters, changing meters, and off-beat accents. **Prerequisites:** Completion of Orff Level II.

MUS 746 - Master Class in Vocal Pedagogy**Credits 3**

Techniques for training and retraining voices. Study of the singer's vocal production mechanism.

MUS 747 - Instrumental Music Pedagogy**Credits 3**

Rationale and procedures for developing a logical and appropriate course of study for individual instruction of instrumental music. a) Piano. b) Brass. c) Woodwind. d) String. e) Guitar. f) Band. g) Orchestra.

MUS 748 - Music Wellness: A Survival Guide for Teachers and Performers**Credits 3**

Focuses on past and current research related to health preservation and injury prevention among musicians. Vocal, auditory, mental and neuromusculoskeletal health will be investigated through the exploration of Body Mapping, as well as methods developed by Feldenkreis, Alexander, Taubman and others.

MUS 756 - Percussion Ensemble in the High School Curriculum**Credits 3**

Focuses on elements needed to develop and maintain high school percussion ensembles. Primary attention devoted to conducting and performing techniques, and study of appropriate literature. Secondary attention devoted to general methods and maintenance of percussion section along with basic considerations for assigning parts. **Prerequisites:** Consent of instructor.

MUS 761 - Graduate Applied Music for Performance Majors**Credits 2 – 4**

Individual instruction on instruments or voice. Audition and jury examination required. a) Baritone. b) Bassoon. c) Cello. d) Clarinet. e) Flute. f) Horn. g) Oboe. i) Piano. j) Saxophone. k) String Bass. l) Trombone. m) Trumpet. n) Tuba. o) Viola. p) Violin. q) Voice. r) Guitar. s) Percussion. t) Organ. u) Harp.

MUS 762 - Graduate Applied Music for Performance Majors**Credits 2 – 4**

Individual instruction on instruments or voice. Audition and jury examination required. a) Baritone. b) Bassoon. c) Cello. d) Clarinet. e) Flute. f) Horn. g) Oboe. i) Piano. j) Saxophone. k) String Bass. l) Trombone. m) Trumpet. n) Tuba. o) Viola. p) Violin. q) Voice. r) Guitar. s) Percussion. t) Organ. u) Harp.

MUS 767 - Graduate Applied Music for Non-Performance Majors**Credits 2 – 4**

Individual instruction on instruments or voice. Audition and jury examination required. For students in music education or theory and composition curricula. a) Baritone. b) Bassoon. c) Cello. d) Clarinet. e) Flute. f) Horn. g)

Oboe. I) Piano. j) Saxophone. k) String Bass. l) Trombone. m) Trumpet. n) Tuba. o) Viola. p) Violin. q) Voice. r) Guitar. s) Percussion. t) Organ. u) Harp.

MUS 768 - Graduate Applied Music for Non-Performance Majors

Credits 2 – 4

Individual instruction on instruments or voice. Audition and jury examination required. For students in music education or theory and composition curricula. a) Baritone. b) Bassoon. c) Cello. d) Clarinet. e) Flute. f) Horn. g) Oboe. I) Piano. j) Saxophone. k) String Bass. l) Trombone. m) Trumpet. n) Tuba. o) Viola. p) Violin. q) Voice. r) Guitar. s) Percussion. t) Organ. u) Harp.

MUS 770 - Seminar: Special Topics

Credits 1 – 9

Explores a specific aspect of music. **Notes:** May be repeated to a maximum of six credits for master's candidates and nine credits for doctoral candidates.

MUS 773 - Research Seminar

Credits 3

Study of research methodologies appropriate to the various disciplines of music history: biography and history, ethnomusicology, performance practice. Study of each methodology complemented by practical applications such as oral reports, research papers, or lecture-recitals. **Prerequisites:** MUS 690 or equivalent; Master's degree in music.

MUS 774 - Seminar in Music Theory

Credits 3

Special topics in music theory including investigations of the underlying theoretical techniques of various composers' styles. Investigations will include use of rhythm, harmony, counterpoint, form, instrumentation, as well as other elements of musical style. **Prerequisites:** Master's degree in music and consent of instructor.

MUS 777 - Seminars in Percussion

Credits 1 – 3

Candidate chooses three percussion topics to research at five-week intervals. Examines the topic as to its history, pedagogy, and literature. Formal presentation after each five-week period featuring the research with emphasis on specific area within the general topic. **Prerequisites:** Master's degree in music and consent of instructor.

MUS 780 – Document

Credits 2-6

The document is limited in scope compared to a dissertation, demonstrates professional standards of scholarship, and contributes to existing knowledge within the field of study. **Prerequisites:** Successful completion of D.M.A qualifying exams, successful completion of all required D.M.A academic course work and consent of advisory committee.

MUS 781 - Lecture-Recital

Credits 3

Presentation of a lecture-recital demonstrating a synthesis of performance and scholarship. Topic is directly related to the topic of the student's D.M.A document. **Prerequisites:** Successful completion of all required D.M.A academic course work and consent of advisory committee. **Corequisite:** Concurrent enrollment in MUS 764.

MUS 783 - Jazz History Seminar

Credits 3

In-depth study of jazz history with special focus on student research and presentations. **Prerequisites:** Graduate standing; undergraduate course work in jazz history or consent of instructor.

MUS 784 - Chamber Music

Credits 3

Study of chamber music from 1650 to the present. Analysis of representative works from different style periods and examination of relationship between instrumental technique and musical style. **Prerequisites:** MUS 690 and Graduate standing; or MUS 320, 321 and consent of instructor.

MUS 785 - The Symphony**Credits 3**

Study of the origins and development of the symphony from 1750 to the present. Analysis of representative works from different style periods and emphasis on relationships of development of orchestra and formal development of genre. **Prerequisites:** MUS 690 and Graduate standing; or MUS 320, 321 and consent of instructor.

MUS 786A - The Operas of Mozart**Credits 3**

Detailed study of the operas of W. A. Mozart, analysis of style, vocal writing, of his librettists, and the influences on the formation of his style. **Prerequisites:** MUS 690, Graduate standing in music.

MUS 786B - The Operas of Verdi**Credits 3**

Detailed study of the operas of Giuseppe Verdi, analysis of style, vocal writing, his librettists, and influences that led to formation of his style. **Prerequisites:** MUS 690, Graduate standing in music.

MUS 786C - Puccini and the Verismo**Credits 3**

Surveys and discusses the operatic works of Giacomo Puccini and his importance to the historical development of opera. Discussion of the period in Italian Opera known as Verismo with emphasis on composers that help to create this musical form. **Prerequisites:** MUS 690, Graduate standing in music.

MUS 786D - American Opera Seminar**Credits 3**

In-depth survey of American operas in the twentieth century, with emphasis on composer, representative works, style and content. **Prerequisites:** MUS 690, Graduate standing in music.

MUS 789 - The Art Song**Credits 3**

Study of solo song from its beginning to the present day. **Prerequisites:** MUS 690, Graduate standing in music.

MUS 792 - History of Opera**Credits 3**

Study of the historical development of opera from Monteverdi to the present with emphasis on representative works and composers. **Prerequisites:** MUS 690; Graduate standing in music.

MUS 793 - Medieval and Renaissance Music**Credits 3**

Study of the evolution of European music from antiquity through the end of the sixteenth century.

MUS 794 - Music of the Baroque Period**Credits 3**

Examination of the styles and forms of the seventeenth and early eighteenth centuries.

MUS 795 - Classical and Early Nineteenth-Century Music**Credits 3**

Examination of the styles and forms of the period 1750 to 1825.

MUS 796 - Music of the Romantic Period**Credits 3**

Examination of the styles and forms from 1815 through the early twentieth century.

MUS 797 - Music of the Twentieth Century**Credits 3**

Examination of the styles and forms from Impressionism to the present day.

MUS 798 – Recital

Credits 3

Presentation of a full recital at the doctoral level. **Notes:** May be repeated for a maximum of fifteen credits.

Prerequisites: Consent of the advisory committee.

MUS 799 - Independent Study

Credits 1 – 3

Investigation of specific aspect of music under supervision of a faculty member. Students must present proposals, including advisors and numbers of credits, no later than one week before registration, a) History/Literature. b) Theory/Composition. c) Music Education. d) Pedagogy and Literature. **Notes:** May be repeated to a maximum of six credits for master's candidates and nine credits for doctoral. **Prerequisites:** Consent of instructor.

MUSA 660 - Secondary Applied Music for Master's Students

Credits 2

Individual instruction on instruments or voice other than the student's area of specialization. a) Euphonium. b) Bassoon. c) Cello. d) Clarinet. e) Flute. f) Horn. g) Oboe. i) Piano. j) Saxophone. k) String Bass. l) Trombone. m) Trumpet. n) Tuba. o) Viola. p) Violin. q) Voice. r) Guitar. s) Percussion. t) Organ. u) Harp. **Prerequisites:** Permission of instructor.

MUSA 661 - Applied Music for Master's Students

Credits 2

Individual instruction on instruments or voice. Audition and jury examination required. a) Euphonium. b) Bassoon. c) Cello. d) Clarinet. e) Flute. f) Horn. g) Oboe. i) Piano. j) Saxophone. k) String Bass. l) Trombone. m) Trumpet. n) Tuba. o) Viola. q) Voice. r) Guitar. s) Percussion. t) Organ. u) Harp. **Prerequisites:** Successful audition and permission of instructor.

MUSA 760 - Secondary Applied Music for Doctoral Students

Credits 2 - 4

Individual instruction for doctoral students outside of degree requirements. a) Euphonium, b) Bassoon, c) Cello, d) Clarinet, e) Flute, f) Horn, g) Oboe, i) Piano, j) Saxophone, k) String Bass, l) Trombone, m) Trumpet, n) Tuba, o) Viola, p) Violin, q) Voice, r) Guitar, s) Percussion, t) Organ, u) Harp, aa) Wind Conducting, y) Orchestra Conducting, z) Choral Conducting. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Permission of the Department chair.

MUSA 764 - Applied Music for Doctoral Students

Credits 2 - 4

Individual instruction for doctoral students. a) Euphonium, b) Bassoon, c) Cello, d) Clarinet, e) Flute, f) Horn, g) Oboe, i) Piano, j) Saxophone, k) String Bass, l) Trombone, m) Trumpet, n) Tuba, o) Viola, p) Violin, q) Voice, r) Guitar, s) Percussion, t) Organ, u) Harp, v) Wind Conducting, y) Orchestra Conducting, z) Choral Conducting. **Notes:** May be repeated to a maximum of sixteen credits. **Prerequisites:** Successful audition and permission of instructor.

MUSA 766 - Private Graduate Conducting

Credits 2 – 4

Along with the individual private lesson, candidates must attend a weekly, one-hour conducting seminar. a) Orchestral. b) Band. c) Choral. **Prerequisites:** Successful audition and permission of instructor.

MUSE 503 – Chamber

Credits 1

Advanced chamber ensemble with emphasis on a cappella literature of all periods. Required participation in scheduled performances. **Formerly:** MUSE 603. **Notes:** Credit at the 500 level normally requires additional work.

MUSE 504 - Opera Workshop

Credits 1

Laboratory course devoted to the performance of operatic excerpts and short operas. **Formerly:** MUSE 604. **Notes:** Credit at the 500 level normally requires additional work.

MUSE 505 - Women's Chorus

Credits 1

Study and performance of sacred and secular choral music for female voices. Required participation in scheduled performances. **Formerly:** MUSE 605. **Notes:** Credit at the 500 level normally requires additional work.

MUSE 506 - Varsity Men's Glee Club

Credits 1

Study and performance of sacred and secular choral music for male voices. Required participation in scheduled performances. **Formerly:** MUSE 606. **Notes:** Credit at the 500 level normally requires additional work.

MUSE 507 - Master Chorale

Credits 1

Mixed choir for music majors, non-majors, and community members which focuses upon a cappella repertoire as well as major works with orchestra. Required participation in scheduled performances. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Membership by audition.

MUSE 508 - Concert Singers

Credits 1

Concert choir that performs sacred and secular choral music of many styles, including a cappella literature. Required participation in scheduled performances. **Formerly:** MUSE 608. **Notes:** Credit at the 500 level normally requires additional work.

MUSE 513 - Wind Orchestra

Credits 1

Emphasis on wind and percussion literature from all historical periods. Required participation in scheduled appearances for various events on and off campus. **Formerly:** MUSE 613. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Successful audition.

MUSE 515 - Marching Band

Credits 1

Experience in large instrumental ensembles. Required participation in scheduled appearances for various events on and off campus. Designed primarily to perform at football games. **Formerly:** MUSE 615. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Consent of instructor.

MUSE 516 - Pep Band

Credits 1

Experience in large instrumental ensembles. Required participation in scheduled appearances for various events on and off campus. Ensemble designed primarily to perform at basketball games. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Consent of instructor.

MUSE 518 - Community Concert Band

Credits 1

Open to all university students with previous band experience. Required participation in scheduled appearances for various events on and off campus. **Formerly:** MUSE 618. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Consent of instructor.

MUSE 520 - Symphonic Winds

Credits 1

Open to music and select non-music majors who successfully audition at the end of the fall semester. Performs standard wind band literature with an emphasis upon practical pedagogical foundations. Required participation in scheduled appearances for various events on and off campus. **Formerly:** MUSE 620. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Consent of instructor.

MUSE 521 - Symphony Orchestra

Credits 1

Premier university ensemble which rehearses and performs orchestral repertoire from the early Baroque to the present day. Participants selected by audition and the instructor's consent. All selected participants expected to be available for all rehearsals (including occasional evening and dress rehearsals) and performances. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Successful audition required.

MUSE 522 - Chamber Orchestra

Credits 1

Small orchestral ensemble with an emphasis on developing chamber music skills and rehearsal techniques. Repertoire ranges from the early Baroque to the present day. **Formerly:** MUSE 622. **Notes:** Credit at the 500 level normally requires additional work.

MUSE 524 - New Horizons Band

Credits 1

A rehearsal and study of wind and percussion literature from all historical periods for members of the university and community. May include scheduled appearances on and off campus. **Notes:** May be repeated to a maximum of 4 credits.

MUSE 525 - Civic Orchestra

Credits 1

An introduction to the modern symphony orchestra with an emphasis upon the learning and enjoyment of music, musical comprehension and appreciation. The ensemble performs regularly throughout the semester and is open to anyone with the desire to play an instrument within the orchestra idiom. Standard orchestral repertoire will be covered. **Notes:** May be repeated to a maximum of four credits.

MUSE 531 - Jazz Ensemble

Credits 1

Experience in large ensemble performances in the jazz idiom. Required participation in scheduled appearances both on and off campus, including festivals and out-of-town tours. Open to university students by audition only. **Formerly:** MUSE 631. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** By audition only.

MUSE 533 - Jazz Combo

Credits 1

Jazz Combo experience including the study of appropriate repertoire. Preparation for performances will be done in weekly scheduled combo rehearsals. In addition, each combo will perform two additional concerts, so that a minimum of three performances is required of each combo during the semester. **Formerly:** MUSE 633. **Notes:** Credit at the 500 level normally requires additional work. May be repeated to a maximum of eight credits. **Prerequisites:** Successful audition.

MUSE 534 - Jazz Guitar Ensemble

Credits 1

Jazz Guitar Ensemble. Exposes guitar students to a broad spectrum of musical styles, exercises their reading skills, and introduces them to the art of improvisational soloing. Experience the camaraderie of playing in an ensemble and the opportunity to exchange information and ideas. **Formerly:** MUSE 634. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Successful audition

MUSE 535 - Jazz Vocal Ensemble

Credits 1

Jazz Vocal Ensemble. Exposes the students to performance with emphasis on essential stylistic interpretations associated with the jazz vocal repertoire. A rhythm section will be provided. **Formerly:** MUSE 635. **Notes:** Credit at the 500 level normally requires additional work.

MUSE 536 - Contemporary Jazz Ensemble

Credits 1

Rehearsals with performance opportunities in contemporary jazz styles. Students will explore relevant jazz literature and are encouraged to compose original jazz music. Performances may take place on and off campus. **Formerly:** MUSE 636. **Notes:** Credit at the 600 level normally requires additional work.

MUSE 537 - Jazz Latin Ensemble**Credits 1**

Exposes the students to performance with emphasis on essential stylistic interpretations associated with Latin jazz repertoire. **Prerequisites:** Successful audition.

MUSE 541 - Woodwind Ensemble**Credits 1**

Students rehearse and perform chamber music for various instrumental combinations. Performances may take place on and off campus. **Formerly:** MUSE 641. **Notes:** Credit at the 500 level normally requires additional work.

MUSE 543 - Flute Ensemble**Credits 1**

Students rehearse and perform chamber music for various instrumental combinations. Performances may take place on and off campus. **Formerly:** MUSE 643. **Notes:** Credit at the 500 level normally requires additional work.

Prerequisites: Audition and instructor consent required.

MUSE 544 - Clarinet Choir**Credits 1**

Students rehearse and perform chamber music for various instrumental combinations. Performances may take place on and off campus. **Formerly:** MUSE 644. **Notes:** Credit at the 500 level normally requires additional work.

Prerequisites: Audition and instructor consent required.

MUSE 545 - Saxophone Ensemble**Credits 1**

Students rehearse and perform chamber music for various instrumental combinations. Performances may take place on and off campus. **Formerly:** MUSE 645. **Notes:** Credit at the 500 level normally requires additional work.

Prerequisites: Audition and instructor consent required.

MUSE 546 - Brass Ensemble**Credits 1**

Students rehearse and perform chamber music for various instrumental combinations. Performances may take place on and off campus. **Formerly:** MUSE 646. **Notes:** Credit at the 500 level normally requires additional work.

Prerequisites: Audition and instructor consent required.

MUSE 551 - String Chamber Ensemble**Credits 1**

Students rehearse and perform chamber music for various instrumental combinations. Performances may take place on and off campus. **Formerly:** MUSE 651. **Notes:** Credit at the 500 level normally requires additional work.

MUSE 553 - Guitar Ensemble**Credits 1**

Students rehearse and perform chamber music for various instrumental combinations. Performances may take place on and off campus. **Formerly:** MUSE 653. **Notes:** Credit at the 500 level normally requires additional work.

Prerequisites: Audition and instructor consent required.

MUSE 561 - Percussion Ensemble**Credits 1**

Students rehearse and perform chamber music for various instrumental combinations. Performances may take place on and off campus. **Formerly:** MUSE 661. **Notes:** Credit at the 500 level normally requires additional work.

Prerequisites: Audition and instructor consent required.

MUSE 562 - Marimba Band

Credits 1

Students rehearse and perform chamber music for various instrumental combinations. Performances may take place on and off campus. **Formerly:** MUSE 662. **Notes:** Credit at the 500 level normally requires additional work.

Prerequisites: Audition and instructor consent required.

MUSE 563 - African Ensemble

Credits 1

Students rehearse and perform chamber music for various instrumental combinations. Performances may take place on and off campus. **Formerly:** MUSE 663. **Notes:** Credit at the 500 level normally requires additional work.

Prerequisites: Audition and instructor consent required.

MUSE 565 - Steel Drum Band

Credits 1

The UNLV Steel Band performs music of many genres predominantly the music indigenous to Jamaica and Trinidad. Students will develop the ability and skills to play a variety of steel pans, percussion instruments and drum set. **Formerly:** MUSE 665. **Notes:** Credit at the 500 level normally requires additional work.

MUSE 566 - Hand Drum Ensemble

Credits 1

Art of playing a variety of hand drums from around the world. Students exposed to authentic patterns, techniques and the general drum circle experience. Beginning and advanced ensembles accommodate the needs of all participants. **Notes:** May be repeated to a maximum of 10 credits.

MUSE 571 - Piano Ensemble

Credits 1

Students rehearse and perform chamber music for various instrumental combinations. Performances may take place on and off campus. **Formerly:** MUSE 671. **Notes:** Credit at the 500 level normally requires additional work.

Prerequisites: Audition and instructor consent required.

MUSE 572 – Accompanying

Credits 1

Develops skills needed in vocal and instrumental accompanying. Fulfills 1 credit of ensemble requirement for piano majors. **Formerly:** MUSE 672. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Intermediate piano skills or consent of instructor.

MUSE 580 - Opera Production

Credits 1

Involvement as a performer or production assistant in an opera/opera production. **Formerly:** MUSE 680. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Successful audition.

MUSE 590 - Special Ensemble

Credits 1

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** MUSE 690. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Audition and instructor consent required.

MUSE 591 - Chamber Music for Non Majors

Credits 1

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** MUSE 691. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Audition and instructor consent required.

MUSE 593 - Special Vocal Ensemble

Credits 1

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** MUSE 693. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Audition and instructor consent required.

MUSE 594 – Collegium

Credits 1

Study, performance, and researching of early and rarely performed music of historical importance, including new and unperformed works. Performances prepared for both university and public presentation. Open to qualified personnel by audition and consent of instructor. The Collegium determines its own procedural policies. (A) Madrigal singers (B) Early Music Consort. **Formerly:** MUSE 694. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Audition and consent of instructor.

MUSE 595 - Chamber Players

Credits 1

Teaching and performance of contemporary music, with special emphasis on the historic approach to the many styles that have developed from early twentieth century to the present time. Also involves the learning and proper execution of various new notational styles. **Formerly:** MUSE 695. **Notes:** Credit at the 500 level normally requires additional work.

MUSE 619 - Brass Band

Credits 1

Ensemble designed to rehearse and concertize literature composed/transcribed for large brass ensemble and percussion. Required participation in scheduled appearances for various events on and off campus. **Notes:** Credit at the 500 level normally requires additional work. **Prerequisites:** Consent of instructor.

MUSE 664 - Percussion and Dance

Credits 1

Students rehearse and perform chamber music for various instrumental combinations. Performances may take place on and off campus. **Notes:** Credit at the 600 level normally requires additional work.

Brewer, Robert

Emeritus Professor; B.F.A., University of Illinois; M.F.A., Pennsylvania State University. *UNLV Emeritus 1989.*

Burgan, Robert N.

Emeritus Professor; B.A., University of Nevada, Las Vegas, M.F.A., Ohio University. *UNLV Emeritus 1972.*

Crawford, Jerry L.

Emeritus Professor; B.F.A., Drake University; M.A., Stanford University; Ph.D., University of Iowa.

UNLV Emeritus 1962-1994.

Harris, Paul C.

Emeritus Professor; B.A., University of Colorado; M.A., Ph.D., Stanford University. *UNLV Emeritus 1959-1989.*

Theatre Plans

Master of Arts - Theatre

The theatre department,Âs Master of Arts program is designed to deepen the student,Âs knowledge and understanding of the theatre. Focus is on developing strong research skills culminating in completion of a thesis and reading list. A minimum of 31 semester hours of credit (12 are electives) approved by student,Âs advisor and student,Âs committee are required.

Learning Outcomes

www.unlv.edu/degree/ma-theatre

Plan Admission Requirements

1. All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.
2. Students seeking an M.A. degree are admitted for matriculation in the fall or spring semester of the academic year. In addition to the general requirements for admission to the Graduate College, the following department application materials must be uploaded into the online application:
3. Transcripts from all postsecondary institutions attended, showing an undergraduate degree in theatre and the date awarded. (An acceptable alternative undergraduate major coupled with satisfactory practical experience in theatre may be deemed equivalent to an undergraduate major in theatre.)
4. A written statement (500 words or less) of the applicant,Âs purpose in pursuing graduate study.
5. A sample research paper or research statement to demonstrate research and writing ability.
6. Two letters of recommendation sent by former instructors, employers, or other professionals who can evaluate the applicant,Âs potential to complete graduate study.

Note: A writing sample and/or a personal interview may also be requested by the department,Âs Graduate Coordinator.

Plan Requirements

Total Credits Required: 31

Course Requirements

- Required Courses – Credits: 9
 - THTR 681 - Theatre History I
 - THTR 682 - Theatre History II
 - THTR 701 - Research in Theatre and Drama
- Seminar Course – Credits: 4
 - THTR 702 - Graduate Seminar
- Elective Courses – Credits: 12
 - Complete 12 credits of advisor-approved graduate-level elective courses.
- Thesis – Credits: 6
 - THTR 798 - Thesis

Degree Requirements

- Completion of a minimum of 31 credit hours with a minimum GPA of 3.00.
- A reading list will be given to each student upon entering the program. It contains major works in theatre history, performance theory, and dramatic criticism and play texts. It is expected that M.A. students will have read everything on the list and be prepared to answer questions of comprehension as part of their final examination.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department, Ås discretion. Please see Graduate College policy for committee appointment guidelines.
- A thesis topic is proposed by the student and approved by the examination committee. The M.A. thesis should be an original contribution of knowledge about a suitable dramatic or theatrical subject, no less than fifty pages in length. In matters of form and style, the student should follow the procedures set forth by the Graduate College in this catalog and in its Thesis and Dissertation Manual. A minimum of six thesis credits is required in the degree program.
- Thesis credits should be taken over the course of at least two semesters with a minimum of two credit hours in the student, Ås final semester of study.
- Students enrolled in the M.A. program will take a written diagnostic examination at the beginning of their first semester. Additionally, M.A. candidates will take a written comprehensive examination one week prior to their oral examination. The first half of the oral examination will be focused on defense of thesis; the second half will be based upon the Graduate Reading List, the curricular content represented in the student, Ås individual course of study, and the results of their comprehensive examination.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation from both degrees up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Master of Fine Arts - Theatre

The Master of Fine Arts is a three-year program offering advanced concentrations in Design/Technology, Directing, Performance, Playwriting, and Stage Management. Actors, directors, playwrights, designers, stage managers, and

technicians receive comprehensive and specialized training in preparation for careers in the professional theatre. While deeply committed to the individual theatre artist, the program fosters and encourages an integrated and collaborative approach to theatre. In each semester of training, graduate students share a two-credit graduate seminar committed to progressive and practical exploration of the essential theatre.

The Nevada Conservatory Theatre engages national and international theatre professionals in all disciplines to work alongside the most advanced students from the UNLV Department of Theatre. It is a leading theatre in Las Vegas and southern Nevada. It enriches, strengthens, and challenges the cultural and artistic life of the city and strives to be the state's premier theatre. It seeks the most advanced level of artistic achievement and to become a renowned regional theatre in America.

Learning Outcomes:

Design/Technology

www.unlv.edu/degree/mfa-theatre-design-technology

Directing

www.unlv.edu/degree/mfa-theatre-directing

Performance

www.unlv.edu/degree/mfa-theatre-performance

Stage Management

www.unlv.edu/degree/mfa-theatre-stage-management

Plan Admission Requirements

- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.
- In addition to the general requirements for admission to the Graduate College, the following department application materials must be uploaded into the online application:
- Transcripts from all postsecondary institutions attended, showing an undergraduate degree in theatre and the date awarded. (An acceptable alternative undergraduate major coupled with satisfactory practical experience in theatre may be deemed equivalent to an undergraduate major in theatre.) M.F.A. candidates deemed to have deficiencies in their training may be required to take specific remedial course work. Students with deficiencies in theatre history will be required to take THTR 681 and THTR 682 (Theater History I and II). Remedial course work may not be counted toward the degree requirements.
- A written statement (500 words or less) of the applicant's purpose in pursuing graduate study.
- Two letters of recommendation sent by former instructors, employers, or other professionals who can evaluate the applicant's potential to complete graduate study.

Design/Technology Track

In addition to general materials requested by the Department of Theatre, please submit a portfolio of representative work.

Directing Track

In addition to general materials requested by the Department of Theatre (see above), please submit a directorial analysis of a play chosen from the following list:

- Othello (Shakespeare)
- Tartuffe (Moliere)

- She Stoops to Conquer (Goldsmith)
- A Doll, Ås House (Ibsen)
- Long Day, Ås Journey Into Night (O, ÅsNeill)
- A Streetcar Named Desire (Williams)
- All My Sons (Miller)
- Glengarry Glen Ross (Mamet)
- Take Me Out (Greenberg)
- The Heidi Chronicles (Wasserstein)
- Fences (Wilson)
- Lips Together Teeth Apart (McNally)
- Wit (Edson)
- The Goat (Albee)

The analysis should not exceed five double-spaced typewritten pages and should include:

- A brief statement of the director, Ås reason for selecting this play.
- A single sentence summary of the plot.
- A single sentence expressing the essence of the play in a metaphor.
- A simple description of the theatrical style the director is contemplating. (This may best be achieved by comparing the production to other well-known works.)
- A selected, annotated bibliography of historical, social, political or aesthetic research.
- A brief discussion of time and location of the action. If the director intends to reset the action to a locale or time not indicated in the script, there must be a clear description and justification of that choice.
- Three color copies of visual images you would submit to your designers as a point of departure for your collaboration.
- All directing students are required to interview with members of the directing faculty. Interviews will be arranged after required materials have been received. The M.F.A. Directing Program has a three-year admission cycle.

Performance Track

In addition to general materials requested by the Department of Theatre (see above), students must audition either in person or through submission of a video (audition videos cannot be returned). The audition should contain the following:

- Two contrasting selections, one of which must be Shakespeare. The total audition should not exceed four minutes in length.
- A song selected from a Broadway musical not to exceed one minute in length. A CD or cassette recording of your accompaniment is recommended as accompaniment cannot be provided.

The M.F.A. in Performance Program admits a new class every three years.

Playwriting Track

In addition to general materials requested by the Department of Theatre (see above), submit two original plays, including at least one full-length play, and a one page statement of personal aesthetics. Materials cannot be returned.

Stage Management Track

In addition to general materials requested by the Department of Theatre (see above), submit several pages from a sample prompt script (cannot be returned). An interview with Stage Management faculty will be scheduled after application materials have been received.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Design/Technology Track

Total Credits Required: 72

Course Requirements

- Required Courses – Credits: 6
 - Complete the following courses, or other advisor-approved courses.
 - THTR 701 - Research in Theatre and Drama
 - THTR 661 - Play Structure and Analysis
- Seminar Course – Credits: 6
 - Complete 6 credits of the following course, or other advisor-approved courses.
 - THTR 702 - Graduate Seminar
- Design/Technology Studio Courses – Credits: 27
 - Select an area of concentration and complete 27 credits from the associated list of courses, or other advisor-approved courses.

Scene Design:

- THTR 727 - Scene Design Studio I
- THTR 728 - Scene Design Studio II
- THTR 729 - Scene Design Studio II

Technical Design:

- THTR 732 - Technical Direction Studio I
- THTR 733 - Technical Direction Studio II
- THTR 734 - Technical Direction Studio III

Costume Design:

- THTR 741 - Costume Design Studio I
- THTR 742 - Costume Design Studio II
- THTR 743 - Costume Design Studio III

Lighting Design:

- THTR 745 - Lighting Design Studio I
- THTR 746 - Lighting Design Studio II
- THTR 747 - Lighting Design Studio III

- Internship – Credits: 9
 - Complete 9 credits of the following course, or other advisor-approved courses.
 - THTR 796 - Internship
- Elective Courses – Credits: 15
 - Complete 15 credits of advisor-approved electives.
- Creative Project – Credits: 9
 - Complete 9 credits of the following course, or other advisor-approved courses.
 - THTR 797 - Creative Project

Degree Requirements

See Plan Graduation Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Directing Track (On Hold)

Total Credits Required: 72

Course Requirements

- Required Courses – Credits: 15
 - Complete the following courses, or other advisor-approved courses.
 - THTR 707 - Form, Style and Structure
 - THTR 719 - Dramaturgy
 - THTR 727 - Scene Design Studio I
 - THTR 741 - Costume Design Studio I
 - THTR 745 - Lighting Design Studio I
- Seminar Course – Credits: 8
 - Complete 8 credits of the following course, or other advisor-approved courses.
 - THTR 702 - Graduate Seminar
- Directing Course – Credits: 12
 - Complete 12 credits of the following course, or other advisor-approved courses.
 - THTR 725 - Directing Studio
- Stage Management Course – Credits: 3
 - Complete 3 credits of the following course, or another advisor-approved course.
 - THTR 736 - Stage Management Studio I
- Acting Course – Credits: 8
 - Complete 8 credits of the following course, or other advisor-approved courses.
 - THTR 771 - Acting Studio
- Scene Study Course – Credits: 12
 - Complete 12 credits of the following course, or other advisor-approved courses.
 - THTR 773 - Scene Study
- Elective Courses – Credits: 11
 - Complete 11 credits of advisor-approved electives.
- Creative Project – Credits: 3
 - Complete 3 credits of the following course, or other advisor-approved courses.
 - THTR 797 - Creative Project

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: Performance Track

Total Credits Required: 72

Course Requirements

- Audition Course – Credits: 2
 - Complete the following course, or another advisor-approved course.
 - THTR 763 - Audition Technique
- Dialect Course – Credits: 1
 - Complete 1 credit of the following course, or another advisor-approved course.
 - THTR 764 - Dialects for the Stage
- Seminar Course – Credits: 10
 - Complete 10 credits of the following course, or other advisor-approved courses.
 - THTR 702 - Graduate Seminar
- Acting Course – Credits: 12
 - Complete 12 credits of the following course, or other advisor-approved courses.
 - THTR 771 - Acting Studio
- Scene Course – Credits: 12
 - Complete 12 credits of the following course, or other advisor-approved courses.
 - THTR 773 - Scene Study
- Sound and Movement Course – Credits: 10
 - Complete 10 credits of the following course, or other advisor-approved courses.
 - THTR 775 - Sound and Movement Studio
- Movement Course – Credits: 6
 - Complete 6 credits of the following course, or other advisor-approved courses.
 - THTR 777 - Movement for the Actor
- Speech Course – Credits: 6
 - Complete 6 credits of the following course, or other advisor-approved courses.
 - THTR 779 - Speech for the Actor
- Dance Course – Credits: 6
 - Complete 6 credits of the following course, or other advisor-approved courses.
 - THTR 781 - Dance for the Actor
- Elective Courses – Credits: 7
 - Complete 7 credits of advisor-approved electives.

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

 - ENG 609A - Visual Rhetoric
 - ENG 634A - Shakespeare: Tragedies
 - ENG 634B - Shakespeare: Comedies and Histories
 - ENG 663A - Classical Drama in Translation
 - ENG 664A - English Drama to 1642
 - ENG 665B - Restoration and Eighteenth-Century Drama
 - ENG 666A - Nineteenth-Century Drama
 - ENG 667A - Modern British Drama
 - ENG 667B - Modern American Drama
- Creative Project – Credits: 4
 - Complete 4 credits of the following course, or other advisor-approved courses.
 - THTR 797 - Creative Project

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Degree Requirements

- Completion of a minimum of 72 credit hours with a minimum GPA of 3.00.

- A reading list will be given to each student upon entering the program. It contains major works in theatre history, performance theory, dramatic criticism and approximately one hundred play texts. It is expected that graduate students will read everything on the list and be prepared to answer questions of comprehension as part of their final examination.
- The candidacy of all first-year M.F.A. students is provisional. Upon completion of the first year of study, the faculty in each area formally review their students' academic and artistic progress. If progress is deemed satisfactory, a student is advanced to M.F.A. candidacy. After advancement to candidacy, the student forms an examination committee comprised of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- The faculty in each area of study periodically review the candidate's progress. Termination of candidacy is determined by the faculty in consultation with the student's advisor, the examination committee and the Graduate Coordinator.
- All M.F.A. candidates will complete a two-hour oral examination at the end of their course of study. The first hour will focus on the student's course of study and the intent, purpose, conceptualization and realization of the student's creative project(s). The second hour will focus on the graduate reading list.
- In addition to required course work, graduate students in the Performance Track must audition for all productions affiliated with the Nevada Conservatory Theatre and the University Theatre Season.

Plan Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

Theatre Courses

THTR 621A - Entertainment & Fine Art Law I

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

THTR 621B - Entertainment & Fine Art Law II

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

THTR 636 - Rehearsal Management

Credits 3

Examination of the Unions encountered in theatrical venues to develop a familiarity with the rehearsal and work-related rules encountered.

THTR 637 - Theatre Management

Credits 3

Focuses on the relationship between the art and business of theatre, exploring "front of house" positions such as general managers, business managers, box office managers, publicity and development directors. **Formerly:** THTR 739. **Prerequisites:** Graduate standing.

THTR 638 - Production Management

Credits 3

Examines the responsibilities of production managers. Focuses on organizational skills, dissemination of information and collaborative relationship that a production manager must foster with design, technical, and performance staff. **Formerly:** THTR 740. **Prerequisites:** Graduate standing.

THTR 654 – Directing I

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

THTR 661 - Play Structure and Analysis

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

THTR 675 - Musical Theatre Literature

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

THTR 681 - Theatre History I

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

THTR 682 - Theatre History II

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes:** Credit at the 600 level normally requires additional work.

THTR 701 - Research in Theatre and Drama**Credits 3**

Graduate research methodology, research reporting and research/creative thesis document preparation.

THTR 702 - Graduate Seminar**Credits 2**

Interdisciplinary course in history, theory, criticism, dramaturgy, aesthetics and technique. Through selected readings, lectures, discussions and collaborative projects, actors, directors, designers, playwrights, stage managers and theatre scholars explore the essential theatre. Topics rotate each semester. Course required for all M.A. and M.F.A. Students. **Notes:** May be repeated to a maximum of twelve credits. **Prerequisites:** Graduate standing.

THTR 703 - Collaborative Process**Credits 3**

Explores the working relationships between designer, director, and technician in the process of play production. **Notes:** May be repeated for a maximum of six credits.

THTR 704 - Oral History Theatre**Credits 3**

Focuses on the study of the development, structure and performance techniques of oral history theatre. Methods presented along with guidelines for adapting techniques to a variety of age groups.

THTR 707 - Form, Style and Structure**Credits 3**

Study of the theatre text, classical to modern, explicating form, style and structure.

THTR 711 - Playwrights Master Class

Credits 3

Advanced writing class for second and third year playwrights. **Notes:** May be repeated to a maximum of twelve credits. **Prerequisites:** Consent of instructor.

THTR 713 - Playwriting**Credits 3**

The One-Act Play Practical course in the writing of shorter dramatic forms, focusing on craft, structure and technique. **Prerequisites:** Consent of instructor.

THTR 714 - Playwriting**Credits 3**

The Full Length Play Practical course in the writing of long dramatic forms, focusing on craft, structure and technique. **Prerequisites:** Consent of instructor.

THTR 715 - Playwriting**Credits 3**

Adaptation Study and writing workshop of adaptations for the stage of non-dramatic sources and adaptations of plays from earlier historical periods. **Prerequisites:** Consent of instructor.

THTR 716 - Playwrights Laboratory**Credits 3**

Explores the collaborative role of the playwright during the rehearsal process of a new play with actors, directors, and dramaturg. **Prerequisites:** Consent of instructor.

THTR 717 - Playwrights Tutorial**Credits 1 – 4**

Meetings with individual members of the faculty and with guest artists for discussion of successive drafts of work in progress. **Prerequisites:** Consent of instructor.

THTR 719 – Dramaturgy**Credits 3**

Overview of the history, form and function of dramaturgy. Provides active experience in dramaturgy, on a variety of drama from the classic play to new works. Collaborative relationships among director, playwright, and dramaturg explored. **Prerequisites:** Graduate standing.

THTR 720 - Playwrights Workshop**Credits 1 – 5**

Weekly meeting of all playwrights for reading and discussion of works in progress. **Prerequisites:** Consent of instructor.

THTR 725 - Directing Studio**Credits 3**

Laboratory course in the technique and aesthetics of directing. Topics rotate each semester and may include history of directing, rehearsal techniques, script analysis, visualization, and collaboration. Specific laboratory assignments may include apprenticeships, dramaturgy, stage management as well as directing short, full-length musical and original playscripts. **Notes:** May be repeated to a maximum of eighteen credits. **Prerequisites:** Consent of instructor.

THTR 726 - Problems in Direction**Credits 3**

“The following course was not found in the supplied content but, were listed in program requirements. Please review and provide us, if possible, with the correct information.”

THTR 727 - Scene Design Studio I**Credits 3**

Focuses on training the first-year graduate student in scene design. Emphasizes the essential skills of drafting, researching historical and visual sources, aesthetic judgment, concept development, and production collaboration.

Student required to assist faculty and advanced designers on a minimum of three productions for the year.

Prerequisites: Consent of instructor.

THTR 728 - Scene Design Studio II

Credits 3 – 6

Focuses on training the second-year graduate student in scene design. Develops skills in rendering, model making, and refines skills through assignment as designer on a minimum of two department productions for the year. **Notes:** May be repeated to a maximum of nine credits. **Prerequisites:** THTR 727.

THTR 729 - Scene Design Studio II

Credits 3 – 6

Focuses on the graduate student's last year of development. Provides the student with the opportunity to demonstrate the mastering of the professionalism needed to practice the art of scene design. Student required to design a minimum of two productions for the year. **Notes:** May be repeated to a maximum of nine credits. **Prerequisites:** THTR 728.

THTR 732 - Technical Direction Studio I

Credits 3 – 6

Trains the first-year graduate student in technical direction. Emphasizes the essentials skills of drafting, CAD, researching historical and visual sources, aesthetic judgement, concept development and production collaboration. Student required to assist faculty and advanced technical direction students on a minimum of two productions for the year. **Notes:** May be repeated to a maximum of twelve credits. **Prerequisites:** Consent of instructor.

THTR 733 - Technical Direction Studio II

Credits 3 – 6

Trains the second-year graduate student in technical direction. Develops skills in rigging safety, welding, sound, construction techniques, construction methods, estimating, and ordering materials. Student required to assist faculty and advanced technical direction students on a minimum of three productions for the academic year. **Notes:** May be repeated to a maximum of twelve credits. **Prerequisites:** THTR 732.

THTR 734 - Technical Direction Studio III

Credits 3 – 6

Focuses on the graduate student's last year of development. Provides student with the opportunity to demonstrate the mastering of the professionalism needed to practice the art of technical direction. Student required to serve as Technical Director for a minimum of two productions for the year. **Notes:** May be repeated to a maximum of twelve credits. **Prerequisites:** THTR 733

THTR 735 - Sound Design: Theory and Practice

Credits 3

Art of sound design developed through lectures, weekly projects, demonstrations, and production involvement.

THTR 736 - Stage Management Studio I

Credits 1 – 4

Focuses on the principles and techniques of stage management with emphasis on setting up the prompt book, dissemination of information, and the relationship with directors, actors, and staff. Also examines contracts that the stage manager works under with an emphasis on work-related rules. Stage management assignment. **Notes:** May be repeated to a maximum of eight credits. **Prerequisites:** Consent of instructor.

THTR 737 - Stage Management Studio II

Credits 1 – 4

In addition to lab assignments, rotating topics may include: Production, show management, entertainment on the road, performance artist representation, career preparation. Guest speakers address working in the professional theatre. **Notes:** May be repeated to a maximum of 16 credits. **Prerequisites:** Graduate standing, THTR 736

THTR 741 – Costume Design Studio I

Credits 3 – 6

Focuses on training the first-year graduate student in costume design. Emphasizes the essential skills of play analysis, historic period research, aesthetic judgment, costume rendering techniques and production collaboration. Student assists faculty and advanced graduate designers on a minimum of three productions for the year. **Notes:** May be repeated to a maximum of nine credits. **Prerequisites:** Consent of instructor.

THTR 742 - Costume Design Studio II

Credits 3 – 6

Focuses on training the second-year graduate student in costume design. Emphasizes the refinement of design skills, such as plot layouts, the costume plate, and fabric. Assignment of a minimum of two department productions for the year, demonstrating practical application of the knowledge gained. **Notes:** May be repeated to a maximum of nine credits. **Prerequisites:** THTR 741.

THTR 743 - Costume Design Studio III

Credits 3 – 6

Focuses on the graduate student's last year of development in his/her area of specialization. In addition to further refinements in theory, technique and style, program culminates with the student demonstrating the mastery of costume design through a minimum of two fully realized assignments for the year for a substantial department production. **Notes:** May be repeated to a maximum of nine credits. **Prerequisites:** THTR 742.

THTR 745 - Lighting Design Studio I

Credits 3 – 6

Focuses on training the first-year graduate student in lighting design. Develops skills in concept development research, production collaboration, design, drafting and execution of the light plot for theatre and dance. **Notes:** May be repeated to a maximum of nine credits. **Prerequisites:** Consent of instructor.

THTR 746 - Lighting Design Studio II

Credits 3 – 6

Focuses on training the second-year graduate student in lighting design. Further develops skills in concept development research, production collaboration, design, drafting and execution of the light plot for theatre and dance. Development through assignment on a minimum of two department productions for the year. **Notes:** Student required to assist faculty and advanced designers on a minimum of three productions for the year. May be repeated to a maximum of nine credits. **Prerequisites:** THTR 745

THTR 747 - Lighting Design Studio III

Credits 3 – 6

Focuses on training the third-year graduate student in lighting design. Final year provides the student with the opportunity to demonstrate the mastering of the skills and responsibilities of a lighting designer. Student required to design a minimum of two productions for the year. **Notes:** May be repeated to a maximum of nine credits. **Prerequisites:** THTR 746.

THTR 748 - Seminar in Theatre Architecture and Apparatus

Credits 3

In-depth study of the architectural instrument, the theatre building. Covers the structural forms, grounding them in their historical timeline. The team-taught seminar provides a basic process for accessing and using the theatre building of the present and planning the theatre building of tomorrow. **Prerequisites:** Graduate standing.

THTR 749 - CAD for the Theatre

Credits 3

Explores the use of computer-aided drafting in theatre design and technology. Includes training in Mincad, Maclux Pro and other programs available for use in theatre design and technology practices. **Prerequisites:** Consent of instructor.

THTR 763 - Audition Technique

Credits 2

Preparation of a theatre audition, both musical and nonmusical. Study of theatrical unions, contracts, agents, and the legal and professional aspects of professional acting. **Notes:** Instructor approval.

THTR 764 - Dialects for the Stage**Credits 1-3**

Study and practice of dialects and accents for the stage. **Prerequisites:** Consent of instructor.

THTR 771 - Acting Studio**Credits 1-4**

Laboratory course in the practice and process of the technique, craft, and aesthetics of acting. Through a series of basic exercises and improvisational studies specialized skills in action, subtext, environment, sensory awareness, characterization, language, and script analysis are developed in the context of a variety of theatrical styles which are rotated each semester. **Notes:** May be repeated to a maximum of sixteen credits. **Prerequisites:** Consent of instructor.

THTR 773 - Scene Study**Credits 1-4**

Repertory course for actors and directors. Rotating scene material selected each semester from the canon of theatrical literature and may include contemporary drama, classical American realism, Shakespeare, Greek and Roman drama, Comedy of Manners, musical theatre, original scripts, Modernism, the avant garde, television & film, and performance. **Notes:** May be repeated to a maximum of sixteen credits. **Prerequisites:** Graduate status, consent of instructor.

THTR 775 - Sound and Movement Studio**Credits 1-4**

Integrated voice and body course designed specifically for the actor to increase strength, flexibility, range, control, placement, coordination, and efficiency. Exercises and improvisational studies are designed specifically to address the psycho-physical aspects of dramatic action and character transformation. **Notes:** May be repeated to a maximum of twelve credits. **Prerequisites:** Instructor approval.

THTR 777 - Movement for the Actor**Credits 1-3**

Rotating course in various movement disciplines which have practical application to the art and craft of acting. Topics may include the Alexander Technique, the Feldenkrais Method, Pilates techniques, Suzuki, yoga, tai chi, weight training, aerobics, stage combat, mime, clown, circus techniques, improvisation, and movement for period style. **Notes:** May be repeated to a maximum of twelve credits. **Prerequisites:** Consent of instructor.

THTR 778 - Problems in Makeup**Credits 3**

Study and practical experience in the art of makeup. **Notes:** May be repeated to a maximum of six credits.

THTR 779 - Speech for the Actor**Credits 1-4**

Technical course in articulation and pronunciation for the actor. Vocal anatomy and physiology, the International Phonetic Alphabet, phrasing, linkage, syllabication, stress, and vowel length explored for clarity, efficiency, coordination, dexterity, and control in the formation of the sounds of spoken English. **Notes:** May be repeated to a maximum of eight credits. **Prerequisites:** Consent of instructor.

THTR 781 - Dance for the Actor**Credits 1**

Laboratory course in the technique and aesthetics of dance. Different dance forms of styles rotated each semester may include ballet, modern, jazz, tap, ballroom, and musical theatre dance.

THTR 791 - Commerce of Theatre**Credits 2**

Study of theatre contracts, unions, legal, management, and practical business/market concerns.

THTR 793 - Special Topics in Theatre

Credits 1 – 3

Selected topics announced including master classes. **Notes:** May be repeated to a maximum of six credits.

THTR 795 - Supervised Individual Study**Credits 1 – 3**

Consultation course consisting of individual student effort under guidance of instructor with Students request assignment to specific areas or issues on the basis of interest and preparation. Prior to registration, the student must secure consent in writing from the instructor directing the study. May be repeated to a maximum of nine credits.

Notes: Must be taken for the maximum four credit hours, but these hours should normally be spread over at least two terms. A student may not register for this course until the project supervisor has been designated and the project tentatively established. **Prerequisites:** Consent of instructor.

THTR 796 – Internship**Credits 1 – 12**

Internship at regional centers of theatre activity. **Notes:** May be repeated to a maximum of 12 credits. **Prerequisites:** Subject to M.F.A. program requirements.

THTR 797 - Creative Project**Credits 1 – 12**

Planning and execution of a major creative proposal as a thesis production and project. **Notes:** May be repeated to a maximum of twelve credits. **Prerequisites:** Subject to M.F.A. program requirements.

THTR 798 – Thesis**Credits 1 – 6**

Must be taken for a maximum of six hours, but these hours normally should be spread over at least two terms. A student may not register for this course until the thesis director has been designated and the topic tentatively established. **Notes:** May be repeated to a maximum of six credits. **Grading:** S/F grading only. **Prerequisites:** Graduate standing.

Division of Health Sciences

The health issues facing our local, state, and national governments are complex, and the solutions will require research, innovation, and collaboration from individuals and agencies representing the full spectrum of health and wellness.

UNLV's Division of Health Sciences — along with other health science-related programs in the Nevada System of Higher Education — is addressing today's pressing needs and making tomorrow's discoveries.

The division is comprised of the schools of Dental Medicine, Nursing, Community Health Sciences and Allied Health Sciences. Guided by a mission that demands UNLV serves its community, the division is using research, education, training, and service to form unique public and private partnerships. These partnerships are helping provide quality health care to the underserved, educating future professionals, and exploring ways to improve the health and well-being of our citizens. Taken together, UNLV is helping build a foundation for a healthier and more vibrant Nevada.

Health Physics and Diagnostic Sciences

Many industries, medical facilities, and research laboratories demand professionals who understand the safe and effective use of radiation and radioactive materials. Health physics is the study of radiation protection, and the safe use of radioactive materials. Our M.S. program provides students with instruction and research opportunities focused in two career paths: Medical Physics, the effective use of radiation for medical imaging and therapy, and Environmental Health Physics, radiation protection, the industrial applications of radiation and radioactive materials, and the behavior and evaluation of radiation in the environment. The Department of Health Physics faculty members look forward to working with prospective students in this challenging program of study.

Health physics is the profession dedicated to the protection of the individual, the population, and the environment from the potentially harmful effects of radiation while allowing society to benefit from all the beneficial applications of radiation and radioactive materials in the modern world. It incorporates the principles and technical skills from many disciplines including: physics, chemistry, biochemistry, biology, mathematics, and ecology. The wide spectrums of knowledge required of the health physicist make this profession both challenging and rewarding. The Master of Science (M.S.) in Health Physics is designed to prepare students in the fields of health physics and medical physics to administer public and private radiation health programs; investigate medical uses of radioactivity; measure and control radiation in the workplace and the environment; ensure compliance with radiation protection regulations; assist in the cleanup of radioactive and hazardous waste sites; evaluate worker, patient, and public radiation doses; and conduct research in radiation protection, medical imaging, and radiation therapy.

The M.S. in Health Physics Program is accredited by both the Commission on Accreditation of Medical Physics Educational Programs (CAMPEP) and the Accreditation Board for Engineering and Technology (ABET).

Health Physics & Diagnostic Sciences Plans

Master of Science - Health Physics

The Master of Science (M.S.) in Health Physics is designed to prepare students in the field of health physics to administer public and private radiation health programs; investigate medical uses of radioactivity; measure and control radiation in the workplace and the environment; ensure compliance with radiation protection regulations; assist in the cleanup of radioactive and hazardous waste sites; evaluate worker, patient, and public radiation doses; and conduct research in radiation protection.

Learning Outcomes

www.unlv.edu/degree/ms-health-physics

Plan Admission Requirements

- Complete the Graduate College online application for admission. Completed applications, official Graduate Record Examination (GRE) scores, one copy of official transcripts from all post-secondary institutions, and all other documents (i.e., recommendation provider information and statement of professional goals) should be uploaded into the online application system.
- Students seeking admission to the graduate program in health physics must fulfill the following admission requirements:
- Overall GPA of 3.00 (A=4.00 or equivalent) in undergraduate work. Applicants with a GPA below 3.00, but not less than 2.75, may be admitted as a graduate provisional student.
- Successful completion (grade of C or better) of the following course work:
 - Seven-semester credits in biology including an introductory modern biology course and one higher level course
 - Ten-semester credits in chemistry or geology including a general chemistry sequence and one higher-level course
 - Eight-semester credits in elementary calculus (mathematics through differential equations is recommended)
 - Twelve semester credits in physics including a general physics sequence
 - A course in computer programming (an additional course in numerical methods or scientific computing is recommended) Applicants not meeting a limited number (maximum of nine credit hours) of prerequisite requirements may still be admitted to the program. However, prerequisite requirements may still be admitted to the program. However, prerequisite deficiencies must be completed during the first year of study and prior to registering for Thesis or Professional Paper.

- Completion of a baccalaureate degree in health physics, one of the basic sciences, or in a closely related scientific or engineering field. Applicants holding a degree in a non-related field may be given special consideration if they have completed all prerequisite course work.
- Students seeking entry to the medical physics specialization must have a strong foundation in physics and, as such, applicants are required to have either an undergraduate degree in physics or a degree in a related engineering or physical science discipline with course work equivalent to a minor in physics (includes at least three upper level undergraduate physics courses).
- A score ranking in the 50th percentile or higher on the verbal and quantitative sections of the Graduate Record Exam (GRE). Tests taken prior to August 2011 require a composite score of 1,000 or higher on the verbal and quantitative sections of the Graduate Record Exam (GRE).
- Three letters of recommendation from former instructors or employers that speak to the applicant, "potential as a graduate student. Contact information for recommendation providers should be entered into the recommendation page of the online application. Recommenders will then upload their letters directly into the student's online application.
- A statement of approximately 300 words indicating the student's professional goals and reason for seeking graduate education.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Environmental Health Physics

Total Required Credits: 40

Course Requirements

- Required Courses – Credits: 21
 - HPS 602 - Radiation Detection
 - HPS 603 - Radiation Physics and Instrumentation Laboratory
 - HPS 701 - Applied Nuclear Physics
 - HPS 703 - Radiation Interactions and Transport
 - HPS 720 - Radiation Dosimetry
 - HPS 730 - Advanced Radiation Biology
 - HPS 791 - Graduate Seminar
- Core Courses – Credits: 7
 - HPS 616 - Advanced Health Physics
 - HPS 718 - Radiochemistry Laboratory
 - HPS 719 - Introduction to Radioanalytical Chemistry
- Elective Courses – Credits: 6
 - Complete 6 credits from the following list of courses, any graduate-level health physics (HPS) courses, or other advisor-approved graduate-level courses.
 - HPS 670 - Environmental Health Physics
 - HPS 750 - Radiation Risk Assessment
 - HPS 760 - Environmental Restoration and Radioactive Waste Management
- Culminating Experience – Credits: 6
 - Complete one of the following:
 - HPS 797 - Thesis
 - HPS 796 - Professional Paper

Plan Degree Requirements

- Maintain a cumulative grade point average of 3.00 or above each semester enrolled.
- Receive a grade of B (3.00) or above in all core health physics courses. If less than a B is earned, the course may be repeated. The student must be in good standing to repeat a course, and any core course may be repeated only once.
- In consultation with his/her advisor, a student will organize an advisory committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Pass the comprehensive oral examination. The comprehensive oral exam will be taken by all students after completion of the second semester of enrollment in the program. The exam will be pass/fail. Students who fail the exam may re-take the exam at the end of their third semester of enrollment. Students who fail their second attempt will be separated from the program. Students may not defend their thesis prospectus or proceed with their professional paper until successful completion of the oral exam. The exam will be administered by the graduate faculty from Health Physics.
- Continuously register for three credit hours of thesis or professional paper each semester while working on the thesis or professional paper until completion.
- Credit by Challenge Examination: Graduate courses in the Health Physics program may not be challenged for credit.
- Allotment of Credits: Students have a choice of catalog under which they wish to graduate
 - The year of official matriculation, or
 - The year of graduation
- Students are encouraged to meet the requirements of the current catalog.
- A final oral examination will be held following completion of the thesis or professional paper resulting from a research project. The final examination must be held by the Graduate College deadline in the term in which the student plans to complete the degree requirements.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Medical Physics

Total Required Credits: 40

Course Requirements

- Required Courses – Credits: 21
 - HPS 602 - Radiation Detection
 - HPS 603 - Radiation Physics and Instrumentation Laboratory
 - HPS 701 - Applied Nuclear Physics
 - HPS 703 - Radiation Interactions and Transport
 - HPS 720 - Radiation Dosimetry
 - HPS 730 - Advanced Radiation Biology
 - HPS 791 - Graduate Seminar -(three times)
- Core Courses – Credits: 13
 - HPS 740 - Medical Imaging Physics
 - HPS 740L - Diagnostic Medical Physics Clinical Rotation and Laboratory
 - HPS 742 - Radiation Therapy Physics
 - HPS 742L - Therapy Physics Clinical Rotation and Lab

- HPS 795 - Independent Study
- Culminating Experience – Credits: 6
 - Complete one of the following:
 - HPS 797 - Thesis
 - HPS 796 - Professional Paper

Plan Degree Requirements

- Maintain a cumulative grade point average of 3.00 or above each semester enrolled.
- Receive a grade of B (3.00) or above in all core health physics courses. If less than a B is earned, the course may be repeated. The student must be in good standing to repeat a course, and any core course may be repeated only once.
- In consultation with his/her advisor, a student will organize an advisory committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Pass the comprehensive oral examination. The comprehensive oral exam will be taken by all students after completion of the second semester of enrollment in the program. The exam will be pass/fail. Students who fail the exam may re-take the exam at the end of their third semester of enrollment. Students who fail their second attempt will be separated from the program. Students may not defend their thesis prospectus or proceed with their professional paper until successful completion of the oral exam. The exam will be administered by the graduate faculty from Health Physics.
- Continuously register for three credit hours of thesis or professional paper each semester while working on the thesis or professional paper until completion.
- Credit by Challenge Examination: Graduate courses in the Health Physics program may not be challenged for credit.
- Allotment of Credits: Students have a choice of catalog under which they wish to graduate
 - The year of official matriculation, or
 - The year of graduation
- Students are encouraged to meet the requirements of the current catalog.
- A final oral examination will be held following completion of the thesis or professional paper resulting from a research project. The final examination must be held by the Graduate College deadline in the term in which the student plans to complete the degree requirements.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis or professional paper by the posted deadline. The thesis defense must be advertised and is open to the public.
- If a thesis is completed, the student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Health Physics & Diagnostic Sciences Courses

HPS 602 - Radiation Detection

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

HPS 603 - Radiation Physics and Instrumentation Laboratory

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

HPS 616 - Advanced Health Physics**Credits 3**

Solutions to problems pertaining to radiation safety in the environment, industry, medical facilities, and nuclear reactors. Topics include shielding, accelerators, radon, non-ionizing radiation, and radiation dose-effect.

Prerequisites: HPS 300 and HPS 402, or equivalent.

HPS 670 - Environmental Health Physics

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

HPS 680 - Industrial Hygiene

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

HPS 701 - Applied Nuclear Physics**Credits 3**

Atomic and nuclear structure; decay energetics and kinetics; interactions of radiation with matter; radiation protection standards; practical aspects of radiation protection; photon, neutron, beta and X-ray shielding; criticality; radiation protection at reactors, accelerators and medical facilities; radioactive material transportation regulations.

HPS 702 - Radiation Detection and Transport**Credits 3**

Detection of ionizing radiation, counting statistics, and radiation transport modeling. **Prerequisites:** HPS 701, STA 161 or 491, or consent of instructor. **Corequisite:** HPS 718

HPS 703 - Radiation Interactions and Transport**Credits 3**

Decay energetics and kinetics; interactions of radiation with matter, radiation protection standards; practical aspects of radiation protection; photon, neutron, beta, and x-ray shielding, radioactive material transportation regulations, radiation transport. **Prerequisites:** HPS 701.

HPS 718 - Radiochemistry Laboratory**Credits 3**

Laboratory experiments in radiation detection, counting statistics and radiochemical separations are discussed. The operation and calibration of alpha- and gamma-ray spectrometry equipment and liquid scintillation counters will be examined. Radiochemical separation and analysis of environmental samples are performed. Novel and standard procedures for sample examination will be covered. **Prerequisites:** Consent of instructor. **Corequisite:** HPS 602

HPS 719 - Introduction to Radioanalytical Chemistry**Credits 1**

Introduction to the principles and concepts of radioanalytical chemistry, such as the use of tracers, carriers and spikes and isotope dilution analysis. Sample preparation and techniques for radioanalytical separations and source preparation. Differences between macro chemistry and tracer chemistry. **Prerequisites:** HPS 602.

HPS 720 - Radiation Dosimetry**Credits 3**

Mathematical treatment of the fundamental principles of internal and external radiation dosimetry. Pathway models and bioassay techniques studied to support the calculation of radiation dose from the intake of radioactivity. General external dosimetry from a variety of industrial and medical sources is addressed. **Prerequisites:** HPS 701 or consent of instructor.

HPS 730 - Advanced Radiation Biology

Credits 3

Topics covered include: physics and chemistry of radiation absorption, cell survival curves, repair of radiation damage, radiation carcinogenesis, risk assessment models, cancer biology, model tumor systems, and dose fractionation in radiotherapy.

HPS 740 - Medical Imaging Physics**Credits 3**

Conceptual, mathematical, and diagnostic aspects of commonly used clinical imaging modalities including film-screen radiography, computed tomography, magnetic resonance imaging, single photon emission computed tomography, positron emission tomography, and ultrasound. **Prerequisites:** HPS 701 or consent of instructor.

HPS 740L - Diagnostic Medical Physics Clinical Rotation and Laboratory**Credits 3**

Covers the quality control and assurance aspects of commonly used clinical diagnostic modalities including film-screen and digital radiography, mammography, computed tomography, magnetic resonance imaging, single photon emission computed tomography (SPECT), and positron emission tomography (PET). **Prerequisites:** HPS 701. **Corequisite:** HHPS 740 or consent of instructor.

HPS 742 - Radiation Therapy Physics**Credits 3**

Use of ionizing and nonionizing radiation in radiation therapy to cause controlled biological effects in cancer patients. Emphasis on external treatment techniques using photon and electron beams, internal treatment techniques, and treatment planning. **Prerequisites:** HPS 701 or consent of instructor.

HPS 742L - Therapy Physics Clinical Rotation and Lab**Credits 3**

An introductory course dealing with the practical aspects of clinical therapeutic physics. Labs will be performed in a clinical setting and students will be introduced to the technology and procedures commonly encountered in a modern radiation therapy facility. **Prerequisites:** HPS 742.

HPS 750 - Radiation Risk Assessment**Credits 3**

Descriptive and mathematical treatment of radionuclide transport, bioaccumulation, and human uptake. **Notes:** Risk analyses based on recent epidemiological studies reviewed. **Prerequisites:** HPS 670 or consent of instructor.

HPS 760 - Environmental Restoration and Radioactive Waste Management**Credits 3**

Overview of the cleanup and management of radioactive and mixed wastes in the federal and private sector. Role of radiation protection personnel in radioactive waste management activities discussed. **Prerequisites:** HPS 701 or consent of instructor.

HPS 772 - Environmental Radiation Measurements**Credits 3**

Laboratory sessions provide practical experience with techniques to evaluate the presence of radioactivity in environmental media. Topics include environmental radiation sources, environmental monitoring plans, sample collection and analysis, in-situ gamma- γ spectrometry, data interpretation and laboratory quality control. **Notes:** One hour lecture and three hours laboratory. **Prerequisites:** HPS 670 and HPS 718 or consent of instructor.

HPS 781 - Industrial Hygiene II**Credits 3**

Overview of the major physical and biological hazards in the industrial environment emphasizing recognition, monitoring technology, engineering control methodology, and best practice. **Prerequisites:** HPS 680 or consent of instructor.

HPS 790 - Radiation Oncology Physics Clinical Internship**Credits 1-3**

Overview of clinical radiation oncology physics techniques including treatment planning, linear accelerator operation, commissioning and quality assurance, dose calibration and on-board imaging. **Notes:** May be repeated to a maximum of six credits.

HPS 791 - Graduate Seminar

Credits 1

Overview of research methods, ethics, professional development, and technical communications related to health physics. Students prepare and give seminars on topics of interest in health physics. **Notes:** May be repeated for a maximum of three credits.

HPS 795 - Independent Study

Credits 1 – 3

Individual directed study of a topic in health physics not covered in depth in other courses. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Graduate standing in health physics and consent of instructor.

HPS 796 - Professional Paper

Credits 3

Discussion of the components of a research proposal, writing a research proposal, and conducting pilot projects.

Notes: May be repeated but only six credits applied to the student's program. **Grading:** S/F grading only.

Prerequisites: HPS 620, HPS 701, graduate standing in health physics, and consent of instructor.

HPS 797 – Thesis

Credits 3

Notes: May be repeated but only six credits applied to the student's program. **Grading:** S/F grading only.

Prerequisites: HPS 620, HPS 701, graduate standing in health physics, and consent of instructor.

HSC 777 - Advanced Applied Statistics for the Health Sciences

Credits 3

Application of advanced statistical procedures to the investigation of research problems in the health science professions. Emphasis on a conceptual understanding of selected advanced statistical techniques with application to the investigation and analysis of problems in the health sciences area. **Prerequisites:** Introductory course in statistics and introduction to research methodology course or consent of instructor.

Kinesiology and Nutrition Sciences

Kinesiology is the study of human movement as it relates to human performance. The graduate degrees offered by the Department of Kinesiology and Nutrition Sciences are designed to prepare students for advanced study in biomedical sciences, clinical positions, and leadership positions in instituting physical fitness programs in public and private organizations. The department is committed to an interdisciplinary approach to professional preparation and scholarship and to creating an environment in which both basic and applied research in the field of kinesiology is stimulated. Comprehensive laboratories have been developed for the study of human performance, injury rehabilitation, and skill acquisition.

Students are afforded the opportunity to work closely with faculty in all areas of academics and research. The faculty are recognized internationally through their scholarship and research and are enthusiastically committed to graduate education.

Department of Kinesiology and Nutrition Sciences offers programs of study that lead to a Master of Science degree in [Exercise Physiology](#) or [Kinesiology](#). These degree programs allow students a choice of preparation and opportunities to specialize in biomechanics, exercise physiology, motor learning/motor control and sports medicine. The goal of the graduate program in kinesiology is to provide students with the theory, knowledge, and skills necessary to apply the principles of human movement in a variety of community, research, clinical, or athletic settings, or to pursue advanced study at the doctoral level.

Kinesiology and Nutrition Sciences Plans

Master of Science - Exercise Physiology

The Master of Science in Exercise Physiology is designed to provide the student with an understanding of the physiological effects of exercise on the human body. The program also emphasizes the effect of regular exercise on adults and offers students experience in conducting physical fitness evaluations, and exercise testing. In addition, the graduate is prepared for entrance into a doctoral program in exercise physiology.

The program emphasizes academic preparation in exercise physiology, laboratory experience, knowledge of research methodology, and statistics. Students must complete a thesis in the general area of exercise physiology.

Learning Outcomes

<http://www.unlv.edu/degree/ms-exercise-physiology>

Plan Admission Requirements

- Students are admitted in the fall, spring, and summer semesters. Applicants for admission must have an undergraduate major in kinesiology, exercise science, physical education, athletic training, biology, nutrition, or a related academic discipline.
- Applicants must have a minimum overall undergraduate grade point average of 2.75 (A=4.0), or 3.00 (A=4.0) in the last two years. The Graduate Record Examination must be taken prior to applying. Successful applicants generally have a 3.00 undergraduate grade point average and a combined score of 300 on verbal and quantitative sections of the GRE and higher than 3.5 on the analytical section
- Interested applicants must send the following information to the Graduate College:
 - A completed application for graduate studies.
 - Official transcripts of all colleges and universities attended.
- Interested applicants must upload the following information into the Apply Yourself system:
 - Copies of all transcripts sent to the Graduate College.
 - Official GRE scores.

- A letter of intent that addresses: Reason(s) for wishing to earn an advanced degree. Motivation for attending UNLV. Summary of educational goals. Summary of research activities and interests. Possible faculty mentors.
- Two letters of recommendation from persons familiar with the applicant, his academic record and potential for graduate study.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Required Credits: 33

Course Requirements

- Required Courses – Credits: 12
 - KIN 605 - Sports Nutrition
 - KIN 738 - Human Physiology
 - KIN 739 - Evaluation of Physical Working Capacity
 - KIN 740 - Advanced Exercise Physiology
- Research Courses – Credits: 6
 - KIN 750 - Research Methods
 - KIN 751 - Selected Application of Statistical Techniques I
- Elective Courses – Credits: 9
 - Complete 9 credits of advisor-approved elective coursework.
- Thesis – Credits: 6
 - KIN 749 - Thesis

Degree Requirements

- Completion of a minimum of 33 credit hours with a minimum GPA of 3.00.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Master of Science - Kinesiology

The Master of Science in Kinesiology is designed for students interested in the study of human performance. Students are provided with the theoretical foundations of the movement-based sciences and select an emphasis in biomechanics, motor learning/control, or sports medicine. Through involvement in directed research projects, students obtain an in-depth understanding of laboratory equipment research and applications in the biomedical

sciences. Graduates are prepared to make applications of the movement sciences in research, clinical or athletic settings and for entrance into doctoral programs in kinesiology.

- A letter of intent that addresses: Reason(s) for wishing to earn an advanced degree. Motivation for attending UNLV. Summary of educational goals. Summary of research activities and interests. Possible faculty mentors.
- Two letters of recommendation from persons familiar with the applicant, academic record and potential for graduate study.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Thesis Track

Total Credits Required: 33

Course Requirements

- Biomechanics Course – Credits: 3
 - Complete one of the following courses:
 - KIN 656 - Biomechanics of Endurance Performance
 - KIN 736 - Biomechanical Applications in Kinesiology
 - KIN 737 - Biomechanics of Strength
 - KIN 743 - Research Techniques in Biomechanics
- Motor Learning/Motor Control Course – Credits: 3
 - Complete one of the following courses:
 - KIN 760 - Motor Learning
 - KIN 761 - Human Motor Control
 - KIN 762 - Motor Learning Applications

- Exercise Physiology Course – Credits: 3
 - Complete one of the following courses:
 - KIN 605 - Sports Nutrition
 - KIN 657 - Physiology of Endurance Performance
 - KIN 691 - Exercise Physiology
 - KIN 692 - Clinical Exercise Physiology
 - KIN 738 - Human Physiology
 - KIN 739 - Evaluation of Physical Working Capacity
 - KIN 740 - Advanced Exercise Physiology
 - KIN 744 - Thermoregulation During Physical Work
 - KIN 745 - Human Energy Metabolism
- Research Courses – Credits: 6
 - KIN 750 - Research Methods
 - KIN 751 - Selected Application of Statistical Techniques I
- Specialization Courses – Credits: 9
 - Complete 9 credits of advisor-approved coursework. Research opportunities and course work are available in biomechanics, motor learning/motor control, and sports medicine.
- Elective Courses – Credits: 3
 - Complete 3 credits of advisor-approved elective coursework.
- Thesis – Credits: 6
 - KIN 749 - Thesis

Degree Requirements

- Completion of a minimum of 33 credit hours with a minimum GPA of 3.00.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Non-Thesis Track

Total Credits Required: 33

Course Requirements

- Biomechanics Course – Credits: 3
 - Complete one of the following courses:
 - KIN 656 - Biomechanics of Endurance Performance
 - KIN 736 - Biomechanical Applications in Kinesiology
 - KIN 737 - Biomechanics of Strength
 - KIN 743 - Research Techniques in Biomechanics

- Motor Learning/Motor Control Course – Credits: 3
 - Complete one of the following courses:
 - KIN 760 - Motor Learning
 - KIN 761 - Human Motor Control
 - KIN 762 - Motor Learning Applications
- Exercise Physiology Course – Credits: 3
 - Complete one of the following courses:
 - KIN 605 - Sports Nutrition
 - KIN 657 - Physiology of Endurance Performance
 - KIN 691 - Exercise Physiology
 - KIN 692 - Clinical Exercise Physiology
 - KIN 738 - Human Physiology
 - KIN 739 - Evaluation of Physical Working Capacity
 - KIN 740 - Advanced Exercise Physiology
 - KIN 744 - Thermoregulation During Physical Work
 - KIN 745 - Human Energy Metabolism
- Research Courses – Credits: 6
 - KIN 750 - Research Methods
 - KIN 751 - Selected Application of Statistical Techniques I
- Specialization Courses – Credits: 9
 - Complete 9 credits of advisor-approved coursework. Research opportunities and course work are available in biomechanics, motor learning/motor control, and sports medicine.
- Elective Courses – Credits: 6
 - Complete 6 credits of advisor-approved elective coursework.
- Professional Paper – Credits: 3
 - KIN 748 - Professional Paper

Degree Requirements

- Completion of a minimum of 33 credit hours with a minimum GPA of 3.00.
- In consultation with his/her advisor, a student will organize a committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete a professional paper.

Doctor of Philosophy - Kinesiology

The Ph.D. program is designed specifically for professionals who desire tenure-track research, teaching, and administrative positions in postsecondary education. The Ph.D. program offers academic concentrations in Biomechanics, Exercise Physiology, and Motor Behavior.

Learning Objectives

- **Kinesiology Content Knowledge:** demonstrate a broad conceptual knowledge of the Kinesiology field of study and develop related disciplinary content knowledge expertise in Biomechanics, Exercise Physiology, or Motor Behavior.
- **Effectively communicate knowledge in the discipline:** Demonstrate the ability to write and speak about current scholarship and issues of the discipline to peers, practitioners, and the public.
- **Research Design:** understand concepts pertinent to experimental research design relative to controlling internal and external threats to validity.
- **Research Methods:** understand and applying sound scientific methodology to pursue a research question.

Learning Outcomes

www.unlv.edu/degree/phd-kinesiology

Plan Admission Requirements

- Admission to doctoral study will be granted to qualified applicants based on a combination of the following:
 - A master's degree from an accredited college or university
 - Official copies of all postsecondary transcripts
 - Professional vita or resume
 - Evidence of writing ability with appropriate examples including excerpt from a master's thesis, professional paper, or published article
 - Three letters of recommendation from previous instructors and/or professional colleagues attesting to the applicant's ability to complete a doctoral program of study
 - A detailed statement explaining why the student desires admission to the program
 - A personal interview with the department graduate faculty.
 - Satisfactory GRE test scores (taken within five years from the date of application for admission)
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Admission Process

- Contact the Department of Kinesiology prior to applying for admission. Applications for the Ph.D. program will be considered once per year and deadline for receipt of application is March 1.
- The online admissions application, fees, and transcripts should be submitted to the Graduate College. Further admission and application information may be obtained from the UNLV Graduate College website at: <http://graduatecollege.unlv.edu/admissions>.
- Three letters of recommendation, professional resume or vita, GRE scores, official copies of all college transcripts, evidence of writing ability (e.g., excerpt from masters' thesis, professional paper or published article), a detailed statement explaining why the student desires admission, and a statement demonstrating evidence of professional/ educational compatibility with program goals should be submitted through the online application system.
- As a final step in the admission process, a personal interview with the graduate faculty will be conducted.

Plan Requirements

Total Required Credits: 66

Course Requirements

- **Content Knowledge Courses – Credits: 18**
 - Complete 18 credits from the following course, or other advisor-approved courses.
 - KIN 747 - Graduate Seminar

- Cognate Area Courses – Credits: 18
 - Select two advisor-approved cognate areas and complete 9 credits of coursework in each area.
 - Biomechanics
 - KIN 615 - Introduction to Forensic Kinesiology
 - KIN 656 - Biomechanics of Endurance Performance
 - KIN 736 - Biomechanical Applications in Kinesiology
 - KIN 737 - Biomechanics of Strength
 - KIN 743 - Research Techniques in Biomechanics
 - Motor Behavior
 - KIN 614 - Enhancing Mental and Motor Abilities
 - KIN 760 - Motor Learning
 - KIN 761 - Human Motor Control
 - KIN 762 - Motor Learning Applications
 - Exercise Physiology
 - KIN 605 - Sports Nutrition
 - KIN 657 - Physiology of Endurance Performance
 - KIN 691 - Exercise Physiology
 - KIN 692 - Clinical Exercise Physiology
 - KIN 738 - Human Physiology
 - KIN 739 - Evaluation of Physical Working Capacity
 - KIN 740 - Advanced Exercise Physiology
 - KIN 744 - Thermoregulation During Physical Work
 - KIN 745 - Human Energy Metabolism
 - Sports Medicine
 - KIN 695 - Sports Medicine
 - KIN 730 - Organization and Administration of Athletic Training
 - KIN 731 - Orthopedic Assessment in Sports Medicine
 - KIN 733 - Psychological Aspects of Sport and Rehabilitation
 - KIN 734 - Therapeutic Intervention in Sports Medicine
 - KIN 735 - Sports Medicine Rehabilitation Principles and Practices
- Research Methodology Courses – Credits: 15
 - Complete 15 credits from the following list of courses, or other advisor-approved courses.
 - KIN 750 - Research Methods
 - KIN 751 - Selected Application of Statistical Techniques I
 - KIN 752 - Selected Application of Statistical Techniques II
- Prospectus Course – Credits: 3
 - PED 796 - Dissertation Prospectus
- Dissertation – Credits: 12
 - KIN 799 - Dissertation

Degree Requirements

- Completion of a minimum of 66 credit hours with a minimum GPA of 3.00.
- Scholarly Product Requirement ,Äi each student must satisfy a scholarly product requirement. This requirement can be met in one of two ways:
 - Students may submit a research study to a refereed journal for publication.
 - Students may submit a proposal for presentation of research at an annual conference of a national organization.
- Student Advisory Committees - Students are required to select a graduate advisory committee by the end of their second semester.
 - Advisory committees must consist of three Kinesiology graduate faculty members (one of which can be an associate graduate faculty member) and a graduate college representative from outside of the department.

- The chair of the advisory committee must be a graduate faculty member in the Department of Kinesiology.
- Advisory committees should be informed prior to the student's completion of 16 credit hours.
- The committee oversees the student's progress, including the comprehensive exams.
- A temporary advisor is assigned until the student becomes acquainted with the faculty and selects his/her advisory committee.
- Comprehensive Examination
 - The student takes the comprehensive examination during the semester immediately preceding enrollment in dissertation.
 - The comprehensive examination consists of six questions in which the student is allotted two hours per question. Questions are constructed and scored by the student's advisory committee.
 - Students must file intent to take comprehensive examinations, adhering to timelines cited for other graduate programs scheduled by the Graduate College and the Department of Kinesiology. Students may petition the Kinesiology Graduate Faculty for permission to take comprehensive examinations pending approval of the advisory committee.
 - The questions on the comprehensive examination address elements of content knowledge, research methodology, and related discipline electives. The student's advisory committee provides general parameters from which questions are selected. Take-home examinations, in whole or in part, are not allowed. Students may use college provided technology for word-processing. Grading consists of two categories: Pass and Fail.
 - Upon receiving a passing grade for the written comprehensive examination, students will be required to pass an oral examination by their respective advisory committees. Students must successfully complete the written and oral comprehensive examinations before enrolling in dissertation hours.
- Dissertation Proposal and Defense
 - Following the successful completion of the written and oral comprehensive examinations, the student must submit a dissertation proposal to the Doctoral Advisory Committee and submit the accompanying Dissertation Prospectus Approval form from the Graduate College. The Doctoral Advisory Committee will determine the acceptability of the prospectus.
 - Upon approval of the prospectus, the student must obtain approval for the study from the Institutional Review Board for the Protection of Human Subjects.
 - Upon completion of the dissertation, a defense will be scheduled and conducted in accordance with the Graduate College's policy for dissertation completion. Students should obtain The Graduate Study Guide and the Guide to Preparing and Submitting a Thesis or Dissertation from the Graduate College web site.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Kinesiology and Nutrition Sciences Courses

CLS 612 - Clinical Immunology

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 613 - Clinical Immunology Laboratory

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 614 - Transfusion - Immunohematology

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 615 - Transfusion Medicine Immunohematology Laboratory

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 622 - Clinical Hematology I

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 623 - Clinical Hematology Laboratory I

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 624 - Clinical Hematology II

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 625 - Clinical Hematology Laboratory II

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 632 - Clinical Microbiology I

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 633 - Clinical Microbiology Laboratory I

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 634 - Clinical Microbiology II

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 635 - Clinical Microbiology Laboratory II

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 642 - Clinical Chemistry I

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 643 - Clinical Chemistry I Laboratory

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 644 - Clinical Chemistry II

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 645 - Clinical Chemistry II Laboratory

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 653 - Seminar in CLS IV

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 681 - Clinical Practicum in Hematology

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 682 - Clinical Practicum in Chemistry

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 683 - Clinical Practicum in Immunoematology

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 684 - Clinical Practicum in Microbiology

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CLS 685 - Advanced Clinical Practicum

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

KIN 601 - History of Exercise and Sport Science

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

KIN 605 - Sports Nutrition

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

KIN 614 - Enhancing Mental and Motor Abilities

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

KIN 615 - Introduction to Forensic Kinesiology

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

KIN 656 - Biomechanics of Endurance Performance**Credits 3**

The primary objective of this course is to provide a study of endurance performance from a biomechanical perspective. At the conclusion of the course, the student will be able to apply biomechanical terminology to understand factors that influence endurance swimming, biking, and running performance, for example.

KIN 657 - Physiology of Endurance Performance**Credits 3**

The primary objective of this course is to provide a study of endurance performance from an exercise physiology perspective. At the conclusion of the course, the student will be able to demonstrate an understanding of physiological factors that influence endurance swimming, biking, and running performance, for example.

KIN 685 - Physical Activity and the Law

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

KIN 691 - Exercise Physiology

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

KIN 692 - Clinical Exercise Physiology

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

KIN 695 - Sports Medicine

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

KIN 700 - Special Problems in Kinesiology**Credits 1 – 6**

Specialized instruction and/or research designed to develop depth in understanding a current kinesiology problem.

Notes: May be repeated to a maximum of six credits. **Prerequisites:** Consent of instructor.

KIN 730 - Organization and Administration of Athletic Training**Credits 3**

Develop and utilize organization and administrative theories and philosophies in managing facilities, co-workers and students in a variety of athletic settings.

KIN 731 - Orthopedic Assessment in Sports Medicine**Credits 3**

Theory and methods of orthopedic assessment as they relate to the understanding, evaluation, treatment, and rehabilitation of sport injuries. Emphasis on advanced understanding of the theoretical applications of advanced assessment techniques for orthopedic injuries. **Prerequisites:** Consent of instructor.

KIN 733 - Psychological Aspects of Sport and Rehabilitation**Credits 3**

Overview of theoretical concepts and techniques in sport psychology. Emphasis on the application of psychology to human movement, skilled athletic performance, and injury rehabilitation.

KIN 734 - Therapeutic Intervention in Sports Medicine**Credits 3**

Theoretical background in the application of therapeutic intervention in a practical setting.

KIN 735 - Sports Medicine Rehabilitation Principles and Practices**Credits 3**

Provides opportunity to study theory and techniques of various exercise rehabilitation processes and apply these processes on a case study basis. **Prerequisites:** Graduate standing and consent of instructor.

KIN 736 - Biomechanical Applications in Kinesiology**Credits 3**

Provides opportunity to learn mechanical principles underlying human movement and apply these skills in a laboratory situation. **Prerequisites:** Graduate standing and consent of instructor.

KIN 737 - Biomechanics of Strength**Credits 3**

Interdisciplinary examination of concepts and principles involved in strength development and force production. Includes study of neurological, physiological and mechanical factors affecting force/tension/power generation, and

biomechanical interactions with external loads and various resistance training equipment. **Prerequisites:** Graduate standing or consent of instructor.

KIN 738 - Human Physiology

Credits 3

Study of mechanisms which regulate physiological systems and the way regulation functions to maintain homeostasis. Emphasis on those systems involved in the integrated response to exercise. **Prerequisites:** Consent of instructor, undergraduate course in anatomy and physiology.

KIN 739 - Evaluation of Physical Working Capacity

Credits 3

Concepts and methodology in the measurement of energy metabolism in humans. Examination of the various methods used to measure physical working capacity with the treadmill and ergometry. Understanding of basic electrophysiology of myocardium and pulmonary function measurements. **Prerequisites:** Consent of instructor.

KIN 740 - Advanced Exercise Physiology

Credits 3

Lecture, discussion, and laboratory experiences dealing with impact of acute and chronic exercise on several systems. Selected topics such as nutrition and exercise, weight control, physical working capacity, and body composition. **Prerequisites:** KIN 739

KIN 743 - Research Techniques in Biomechanics

Credits 3

Examination of some of the techniques used in biomechanical research for data collection, analysis, and presentation. Emphasis on developing an understanding of experimental techniques, their capabilities and limitations. The lecture/discussion/lab sessions provide a historical and theoretical basis for each of the techniques examined. **Prerequisites:** Graduate standing or consent of instructor.

KIN 744 - Thermoregulation During Physical Work

Credits 3

Emphasizes physical mechanisms of heat transfer and their physiological control: relationship among body temperatures, sweat rate, exercise loads, environmental temperature, and heat stress. **Same as:** (BIO 744). **Prerequisites:** KIN 739 and consent of instructor.

KIN 745 - Human Energy Metabolism

Credits 3

Study of the interactions between nutrition, energy metabolism, and physical exercise. Emphasis on how the body assimilates, stores, and makes available food energy to power muscular work. **Prerequisites:** KIN 739 or consent of instructor.

KIN 747 - Graduate Seminar

Credits 1

Oral presentations of proposed and completed research by graduate students, graduate faculty, and guests. **Notes:** May be taken for credit to a maximum of four credits.

KIN 748 - Professional Paper

Credits 1 – 6

May be repeated but only three credits will be applied to the student's program. **Notes:** May be repeated but only two credits will be applied to the student's program. **Grading:** S/F grading only.

KIN 749 – Thesis

Credits 3 – 6

Notes: May be repeated but only six credits will be applied to the student's program. **Grading:** S/F grading only.

KIN 750 - Research Methods

Credits 3

Overview of techniques used in historical, descriptive, and experimental research such as those found in exercise science, health, physical education, and recreation research publications. Procedures for formulating a research proposal; hypothesis testing; experimental designs and statistical applications.

KIN 751 - Selected Application of Statistical Techniques I

Credits 3

Introduction to descriptive and inferential statistical procedures utilized in studies reported in exercise science, health, physical education, and recreation. **Prerequisites:** KIN 750

KIN 752 - Selected Application of Statistical Techniques II

Credits 3

Statistical analysis techniques including correlation and regression, anova, multivariate analysis, manova for repeated measures designs. Introduction to selected statistical software packages; computer-aided graphics and data presentation techniques. **Prerequisites:** KIN 751 or consent of instructor.

KIN 755 - Research on Physical Activity Behavior

Credits 3

Students review the scholarly literature pertaining to physical activity behavior. Papers with special implications for building a general knowledge base requisite to the conduct of research on physical activity behavior are read, discussed, and critically analyzed.

KIN 760 - Motor Learning

Credits 3

Discussion of factors and practice methods that enhance the learning of motor skills (e.g., in sports, physical or occupational therapy, athletic training, music). Topics include observational learning, providing feedback, attentional focus, practice scheduling, implicit learning, learner-controlled practice, social-cognitive influences, and enhancing learner expectancies.

KIN 761 - Human Motor Control

Credits 3

Advanced studies in motor control, including sensory and central contributions to movement control, balance, movement observation, focus of attention, mindset, social-cognitive-affective influences on motor performance.

KIN 762 - Motor Learning Applications

Credits 3

Designed to explain basic concepts of motor learning involved in organizing and scheduling practice for efficient learning/teaching of motor skills. Includes discussions of memory, feedback, stages of learning, and other motor learning principles.

KIN 775 - Internship in Athletic Administration

Credits 3

The internship in Athletics is a culminating experience that provides an opportunity to apply knowledge and skills learned in the academic program while working within an athletic administration or related organization. Students will work under the direction of a supervisor in a area related to their selected interest for future employment. **Notes:** May be repeated to a maximum of six credits.

KIN 788 - Independent Study

Credits 1-3

Independent Study

KIN 796 - Supervised Practice: Community Nutrition

Credits 2

For Students accepted into the Department of Nutrition Sciences Dietetic Internship. Students gain intensive experiences covering all aspects of community nutrition programming. Students will observe the diversity within community nutrition in terms of mission, target audience and programs and will actively participate in nutrition program development, implementation, evaluation, and marketing. **Corequisite:** KIN 797 and KIN 798.

KIN 797 - Supervised Practice: Food Service Management

Credits 2

For students accepted into the Department of Nutrition Sciences Dietetic Internship. Students will gain experience in managing the diet office, tray line production and supervision, food service production, cafeteria management, and catering. **Corequisite:** KIN 796 and KIN 798.

KIN 798 - Supervised Practice: Clinical Nutrition and Dietetics

Credits 2

For students accepted into the Department of Nutrition Sciences Dietetic Internship. Students will gain the skills required to screen and assess individual patients, interpret laboratory values, develop and implement appropriate care plans, complete appropriate diet instructions, and document all assessment and plan information in correct medical chart format. **Corequisite:** KIN 797 and KIN 798.

KIN 799 – Dissertation

Credits 1 – 12

Culminating research analysis and writing toward completion of dissertation and subsequent defense.

Physical Therapy

The Department of Physical Therapy offers a graduate program leading to a Doctor of Physical Therapy (DPT) degree. The program is designed to prepare students to plan and administer treatment to help patients regain diminished physical function lost secondary to injury or disease, to promote soft tissue healing, and to relieve pain. By determining the degree of impairment, physical therapists are then able to help patients return to full function by using various physical agents such as electrical stimulation, heat, and cold to decrease pain and by using therapeutic exercises to increase strength, endurance, and coordination.

The purpose of the Department of Physical Therapy is to provide students pursuing a career in physical therapy the opportunity to acquire the knowledge and skills required for the safe practice of physical therapy. Students are prepared as generalists, but also have some opportunity to investigate specialized aspects of physical therapy through numerous clinical exposures. The program of study consists of approximately 112 credit hours of graduate course work and consists of intense academic and clinical work spread over six semesters and three summers. These hours are divided between classroom, clinical and research activities.

The DPT degree is an entry-level professional program designed to provide individuals with appropriate baccalaureate degrees the knowledge and skills to develop clinical and research expertise in the provision of physical therapy. Upon receiving this degree, students will be eligible to sit for the licensure examination in physical therapy.

The mission of the UNLV Department of Physical Therapy is to develop competent, caring and autonomous practitioners who will serve the health care needs of the State of Nevada and the profession and who are doctorally prepared to engage in critical thinking, evidence-based practice, life-long learning, and service in a variety of health care settings, including rural and under-served areas.

Merrill Landers, PT, DPT, PhD, Chair
Emilio Puenteadura, Ph.D., Graduate Coordinator
Carrie Gillis, Ph.D., Graduate Coordinator

Chair

Landers, Merrill - Full Graduate Faculty

Associate Professor; B.S., Brigham Young University; D.P.T., Creighton University; Ph.D., University of Nevada Las Vegas. *Rebel since 2001.*

Graduate Coordinator

Puenteadura, Emilio - Full Graduate Faculty

Associate Professor; B.App.Sc. and G.D.M.T., Lincoln Institute of Health Sciences, La Trobe University, Australia; D.P.T., Northern Arizona University; Ph.D. Nova Southeastern University. *Rebel since 2007.*

Gillis, Carrie

Administrative Clinical Coordinator; B.S., Oklahoma City University; D.P.T., University of Nevada Las Vegas. *Rebel since 2012.*

Hickman, Robbin - Full Graduate Faculty

Associate Professor; B.S., California State University, Long Beach; M.H.S., University of Indianapolis; D.Sc., Rock Mountain University of Health Professionals. *Rebel since 2007.*

Ho, Kai-Yu - Full Graduate Faculty

Assistant Professor; B.S. and M.S., National Chen Kung University, Taiwan; Ph.D., University of Southern California. *Rebel since 2013.*

Schuerman, Sue - Full Graduate Faculty

Assistant Professor; B.S., University of Nebraska; M.B.A., University of Massachusetts, Ph.D., University of Nebraska. *Rebel since 2006.*

Young, Danny - Full Graduate Faculty

Associate Professor; B.S., Southern Utah University; D.P.T., Creighton University. *Rebel since 2007.*

Turner, Cassy - Full Graduate Faculty

Assistant Professor; B.S. and D.P.T., University of Nevada Las Vegas. *Rebel since 2011.*

Lee, Szu-Ping - Full Graduate Faculty

Assistant Professor; B.S., National Yang-Ming University, Taiwan; M.S., University of Florida; Ph.D., University of Southern California. *Rebel since 2012.*

Physical Therapy Plan

Doctor of Physical Therapy

The course of study at the University of Nevada, Las Vegas is an entry-level professional program designed to prepare students to enter the profession of physical therapy. A Doctor of Physical Therapy Degree is awarded following the successful completion of the program that consists of intense academic and clinical work spread over six semesters and three summers. Students are prepared as generalists, but also have an opportunity to investigate specialized aspects of physical therapy through numerous clinical exposures. The program of study consists of 112 credit hours of graduate course work. These hours are divided among classroom, clinical, and research activities.

Learning Outcomes

www.unlv.edu/degree/dpt

Plan Admission Requirements

Admission to the program is limited to 34 available spaces per class. Students enrolling in any class in the Department of Physical Therapy must be admitted (graduate standing only, no graduate provisional standing accepted) to the program in the Summer semester of each year. Since enrollment is limited in the Physical Therapy program, satisfactory completion of prerequisite courses does not assure an applicant of admission. No student may take any class as a “Non-Degree Seeking” student. Admissions criteria are reviewed by the faculty annually and are subject to change.

Prior to application to the program, the individual is advised to fully explore the nature of the profession of physical therapy. Students are expected to volunteer in or visit various physical therapy facilities in order to gain a broad view of the roles and responsibilities of a physical therapist. As part of the interview process, students will be assessed on their knowledge of the scope of the profession of physical therapy.

The application deadline is December 15th preceding the June in which admission is desired. After applications are received, they are reviewed regarding the minimum requirements, i.e., baccalaureate degree, GPAs, etc. Only the leading candidates will be invited for interviews during the Spring semester, which are based on satisfactory completion of the admission requirements.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

The following requirements are considered for admission into the Doctor of Physical Therapy program:

- Prior to entering the program, candidates must complete prerequisite courses and earn a baccalaureate degree from an accredited college or university. There is no preference given to any particular baccalaureate degree.
- A minimum overall undergraduate grade point average of 2.75 on a 4.0 scale with a minimum average of 3.0 on a 4.0 scale for prerequisite courses.
- A composite score of 300 or higher on the verbal and quantitative sections of the Graduate Record Examination (GRE) is preferred. A score of 4 out of 6 is recommended on the Analytical Writing Section of the GRE.
- Students must apply to the DPT program via the new Physical Therapy Centralized Application Service (PTCAS). Only applications from PTCAS will be considered. Please use the URL www.ptcas.org to complete your application.
- The following are required with your application to PTCAS:
 - Three letters of recommendation. Two of the letters need to be from a licensed physical therapist who can evaluate the applicant's potential as a student in the physical therapy program. The remaining letter can be from a former professor or employer.
 - An autobiographical statement of approximately 300 words describing the student's professional goals and reasons for seeking graduate education in physical therapy.
 - Knowledge of the field through actual work or volunteer experience (a minimum of 100 hours or more divided among hospital and outpatient facilities). Additional hours in diversified settings are strongly recommended.
- An interview will be required.

Information to be submitted to the Graduate College:

- Complete and submit the Graduate College online application for admission, with appropriate fees.
- Official transcripts from all previous college and professional schools.

The program is open to qualified applicants without regard to race, color, religion, sex, sexual orientation, age, national origin, marital status, or the presents of any physical, sensory, or mental disability.

Prerequisite Courses

In addition to completing the requirements of a baccalaureate degree, applicants must have completed or be able to complete the necessary specific hours of prerequisite course work with a grade of at least a C prior to admission to the program. Grades below a C in prerequisite courses will not be accepted. No more than two prerequisite science courses should be in progress or incomplete and all prerequisite science courses must be completed by the end of the spring semester (quarter) prior to commencing the program. Those students in the process of fulfilling the requirements of a prerequisite course must realize that their acceptance into the program is contingent upon satisfactory completion of that course during the application process.

Courses taken on a pass-fail basis may not fulfill prerequisite requirements. Individuals submitting prerequisite course work completed prior to 1995 should contact the Physical Therapy Department Office to determine if the course work is appropriate to fulfill prerequisite course requirements, which are as follows:

- One year of lecture-based biology courses
- One year of laboratory and lecture-based anatomy and physiology courses
- One year of laboratory and lecture-based inorganic chemistry
- One year of laboratory and lecture-based physics

- One year psychology (introduction to psychology and one semester of either child, adolescent, developmental or abnormal psychology)
- One semester statistics

Advisement

All entering students will be assigned a specific faculty member for advisement.

Policies and Procedures

Policies and procedures for didactic and clinical work regarding course grades, probation, separation, and reapplication are detailed in the Department of Physical Therapy Student Manual and Clinical Education Manual.

Objectives

- To prepare students to be the purveyors of physical therapy practice through clinical excellence, critical thinking, scientific inquiry, and social responsibility.
- To prepare students to differentially diagnose enabling them to establish an appropriate plan of care and provide referral as necessary.
- To prepare graduates who will be able to work autonomously in a wide variety of settings and roles as practitioners, clinical educators and researchers, supervisors, administrators and consultants.
- To prepare students to adapt to changes in health care and society and be prepared to work in challenging environments with elderly, rural, and underserved populations.
- To educate students in the design and implementation of culturally competent health care.
- To develop scientific practitioners, who are able to demonstrate the ability to critically analyze literature, utilize evidence-based integrated treatment approaches, and value clinical based research.
- To prepare graduates to educate and encourage patients to achieve functional independence so they may have an improved quality of life and become more productive members of society.
- To prepare graduates who will be able to organize and promote health awareness, wellness, and prevention education, and reintegrate populations with special needs into the community throughout-reach programs.
- To prepare graduates to assume a leadership role in addressing critical issues that affect clinical practice, education, research, and public policy.
- To prepare graduates to be committed to a lifetime of self-directed learning, professional development, integrity, community involvement, and to exemplify professional and personal ethics and values.
- To prepare graduates to demonstrate understanding of medico-legal issues in physical therapy practice through active involvement in professional organization.
- To educate students on the benefits of working interdependently with other health care professionals using a team approach to patient care.

Plan Requirements

Total Credits Required: 112

Course Requirements

- Summer Semester 1st Year Courses – Credits: 8
 - DPT 726 - Evidenced-Based Practice in Physical Therapy I
 - DPT 727 - Evidence-Based Practice in Physical Therapy II
 - DPT 744 - Gross Anatomy I
 - DPT 744L - Gross Human Anatomy Lab I
 - DPT 745 - Gross Anatomy II
 - DPT 745L - Gross Human Anatomy Lab II
- Fall Semester 1st Year Courses - Credits: 19
 - DPT 730 - Foundations of Observation and Assessment

- DPT 730L - Foundations of Observation and Assessment Lab
- DPT 741 - Orthopaedic Principles
- DPT 742 - Clinical and Pathological Physiology
- DPT 746 - Neuroanatomy
- DPT 746L - Neuroanatomy Lab
- DPT 749 - Applied Exercise Physiology
- DPT 749L - Applied Exercise Physiology Lab
- Spring Semester 1st Year Courses - Credits: 20
 - DPT 732 - Therapeutic Exercise
 - DPT 732L - Therapeutic Exercise Lab
 - DPT 735 - Functional Training and Acute Care
 - DPT 735L - Functional Training and Acute Care Lab
 - DPT 748 - Pharmacology
 - DPT 754 - Orthopaedic Assessment in Physical Therapy
 - DPT 754L - Orthopaedic Assessment in Physical Therapy Lab
 - DPT 756 - Neurophysiology
 - DPT 790 - Clinical Research in Physical Therapy
- Summer Semester 2nd Year Courses - Credits: 8
 - DPT 740 - Movement Science
 - DPT 752 - Physical Agents and Electrophysiology
 - DPT 752L - Physical Agents and Electrophysiology Lab
 - DPT 761 - Supervised Clinical Education I
- Fall Semester 2nd Year Courses - Credits: 16
 - DPT 720 - Professional Development
 - DPT 757 - Wound Care
 - DPT 770 - Cardiopulmonary Rehabilitation
 - DPT 770L - Cardiopulmonary Rehabilitation Lab
 - DPT 785 - Orthopaedic Rehabilitation
 - DPT 785L - Orthopaedic Rehabilitation Lab
 - DPT 786 - Neurological Rehabilitation
 - DPT 786L - Neurologic Rehabilitation Laboratory Experience
 - DPT 791 - Applied Research Statistics
- Spring Semester 2nd Year Courses - Credits: 15
 - DPT 747 - Geriatric Examination and Intervention
 - DPT 750 - Prosthetics and Orthotics
 - DPT 750L - Prosthetics and Orthotics Lab
 - DPT 758 - Diagnostic Testing and Imaging
 - DPT 759 - Pediatric Rehabilitation
 - DPT 759L - Pediatric Rehabilitation Laboratory Experience
 - DPT 780 - Balance and Vestibular Rehabilitation
 - DPT 788 - Spine Examination and Treatment
 - DPT 788L - Spine Examination and Intervention Lab
 - DPT 793 - Seminar
- Summer Semester 3rd Year Courses - Credits: 6
 - DPT 751 - Women's Health in Physical Therapy
 - DPT 772 - Physical Therapy Administration
 - DPT 774 - Psychosocial Aspects of Physical Therapy
- Fall Semester 3rd Year Courses - Credits: 10
 - DPT 762 - Supervised Clinical Education II
 - DPT 763 - Supervised Clinical Education III
- Spring Semester 2nd Year Courses - Credits: 9
 - DPT 764 - Supervised Clinical Education IV
 - DPT 798 - Directed Research(3 credits)

***Course Fee**

Degree Requirements

- Satisfactory completion of the 112 credits of the Physical Therapy program including the required period of clinical education with a grade point average of 3.00 or higher on a scale of 4.00.
- Maintain a cumulative grade point average of 3.00 or above each semester enrolled.
- Receive a grade of B- or above in all required physical therapy courses. Students who do not maintain a 3.00 average or who receive any grade less than a B- in any course at the end of the semester will be notified in writing and placed on probation at that time. A second grade of C+ or lower received in any course in the ensuing semester or failure to restore the cumulative average to 3.00 or above during the ensuing semester will bring about separation from the program. The student's status in the program will be determined the Chair/Director on the recommendation of the Academic Review Committee (ARC) regarding the student's separation or action plan for remediation.
- The student will not progress in the program if any of the following occur:
 - An earned F in any didactic course. This results in immediate separation without the option for reapplication.
 - Failure of a third attempt of any clinical competency check-off with the exception of the final practical exam.
 - A failure of a final practical exam (different than the competency check-off).
 - A grade of C+ or below in more than one course in any semester.
 - Inability to rectify probationary status within the time frame allotted by the ARC.
 - A student on probation whose actions warrant probation in another category (academic, professional behavior, clinical) may also be separated.
- A student may register for a Supervised Clinical Education course only two times if the option to reapply is approved by the ARC and a recommendation is made to the department chair/director. This option is only available to students who have failed a clinical rotation and have been separated from the program. This option is not available to students failing didactic course work. A student who is registered for the same course twice and has withdrawn or received a Fail is ineligible for readmission unless otherwise approved by the ARC, Department Chair, and Graduate Dean.
- The students must follow the proposed curriculum in the specified time frames unless otherwise approved by the ARC, Department Chair, and Graduate Dean.
- Credit by Challenge Examination: Graduate courses in the Department of Physical Therapy may not be challenged for credit.
- The program must be completed within six years from the date of matriculation. The chair/director will evaluate potential exceptions.
- In addition to the course requirements, the student must satisfactorily prepare a written document and oral presentation of a final research project, professional paper, or case report. The presentation will satisfy the requirements for a final capstone experience and will be open to the public.
- Students must be in good standing with the Department of Physical Therapy and cannot be on a probation status at the time of graduation. Policies related to student probation, separation, and academic progress as stated in the current physical Therapy Student Manual are in compliance with the Graduate College.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully present his/her final research project, professional paper, or case report by the posted deadline. The presentation must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy research project, professional paper, or case report to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Physical Therapy Courses

DPT 710 - Selected Topics in Physical Therapy

Credits 1

Forum to disseminate information to students on current and professional issues in physical therapy. **Prerequisites:** Graduate standing in physical therapy.

DPT 711 - Medical Terminology

Credits 1

Introduction to medical terminology for the healthcare professional. Students expand their medical vocabulary via immersion in medical content and subjects from a broad spectrum of body systems. **Prerequisites:** Graduate standing in physical therapy.

DPT 720 - Professional Development

Credits 2

Theories and experiences designed to develop skills to accurately, sensitively and assertively communicate with patients, families, and colleagues. Principles of written and oral communication. Professional issues of changes in health care, state and local laws, standards of practice, code of ethics, quality assessment and quality assurance.

Prerequisites: Graduate standing in physical therapy.

DPT 721 - Advanced Topics in Physical Therapy

Credits 1

Through in-class and web-assisted instruction, independent study, and mentored project development, prepares students for a variety of clinical competencies including health promotion/wellness, evaluation of alternative and complementary approaches, rural health, and other advanced aspects of clinical practice, ethics, and professional conduct related to physical therapy. **Prerequisites:** DPT 710

DPT 722 - Issues in Rural Health

Credits 1

Unique needs of frontier/rural and underserved populations addressed, emphasizing the eclectic nature of practice in these areas, the importance of networking with other disciplines, and special considerations of these populations including functional rehabilitation, time management, travel, emergencies, and involvement of families in treatment.

Prerequisites: Graduate standing in physical therapy.

DPT 726 - Evidenced-Based Practice in Physical Therapy I

Credits 1

Designed to provide the student with knowledge and hands-on experience in skills required to engage evidence-based clinical practice of physical therapy. Students will learn how to write answerable questions, search the literature, and critically analyze evidence for application in clinical practice. **Prerequisites:** Graduate standing in Physical Therapy.

DPT 727 - Evidence-Based Practice in Physical Therapy II

Credits 1

This 1-credit course builds on DPT 726 and 790, providing students with knowledge skills to implement evidence-based practice in physical therapy. Students will critique special cases of evidence and psychometric properties of diagnostic tools and outcome measures, and create a minimal data set in order to integrate evidence into practice.

Prerequisites: DPT 726 and DPT 790

DPT 730 - Foundations of Observation and Assessment

Credits 2

Basic patient assessment skills with introduction to posture and gait evaluation through observation. Patient history and review of the medical record. Documentation in S.O.A.P. Note and functional outcome formats. Assessment

skills emphasized include: anthropometric measures, reflex and sensation testing, goniometry, manual muscle testing, vital signs, and surface palpation. **Prerequisites:** Graduate standing in physical therapy. **Corequisite:** DPT 730L

DPT 730L - Foundations of Observation and Assessment Lab

Credits 2

Lab of basic patient assessment skills including posture, gait evaluation, anthropometric measures, reflex and sensation testing, goniometry, manual muscle testing, vital signs, and surface palpation. Patient history and review of medical records, documentation in SOAP format, and functional outcome formats. **Prerequisites:** Graduate standing in Physical Therapy. **Corequisite:** DPT 730

DPT 732 - Therapeutic Exercise

Credits 2

Holistic approach to evaluation and management of patients with various orthopaedic pathologies and other related movement dysfunction. Emphasis placed on theoretical basis of specific exercise physiology, therapeutic exercise and functional training skills interrelated with clinical decision-making methodology. Rationale for and implementation of treatments with safety awareness and proper body mechanics. **Prerequisites:** DPT 730, DPT 730L; DPT 741 DPT 741L; DPT 744 DPT 744L; DPT 745 DPT 745L. **Corequisite:** DPT 732L.

DPT 732L - Therapeutic Exercise Lab

Credits 1

Laboratory sessions to practice the evaluation and management of patients (and patient scenarios) with various orthopaedic pathologies and other related movement dysfunctions. Emphasis on exercise prescription and demonstration, as well as progression. **Prerequisites:** DPT 730, DPT 730L; DPT 741 DPT 741L; DPT 744 DPT 744L; DPT 745 DPT 745L. **Corequisite:** DPT 732.

DPT 735 - Functional Training and Acute Care

Credits 4

Performance and application of positioning skills, transfers techniques, and assistive devices. Advancement to clinical decision-making skills and incorporation of learned materials into therapy interventions. Clinical reasoning skills in assessment, treatment design and intervention, goal development and discharge planning for patients in the acute hospital environment. **Prerequisites:** Graduate standing in Physical Therapy. DPT 744, 745, 730.

Corequisite: DPT 735L

DPT 735L - Functional Training and Acute Care Lab

Credits 1

Hands on performance and application of positioning skills, transfer techniques, and assistive devices. Advancement to clinical decision-making skills and incorporation of learned materials into therapy interventions. Clinical reasoning skills in assessment, treatment design and intervention, goal development and discharge planning for patients in the acute hospital environment. **Prerequisites:** Graduate standing in Physical Therapy. DPT 744, 745, 730. **Corequisite:** DPT 735

DPT 740 - Movement Science

Credits 2

This course will introduce students to principles and theories in movement science. Students will be introduced to concepts related to motor control, motor development, and motor learning. Students will also apply these principles to the clinical practice of physical therapy and to observe and assess related phenomena in patients. **Prerequisites:** Enrollment in professional DPT curriculum.

DPT 741 - Orthopaedic Principles

Credits 3

Principles of orthopaedic physical therapy including biomechanics, applied anatomy, and osteokinematic and arthrokinematic concepts examined. Musculoskeletal system investigated from histological, structural, and functional perspectives. **Prerequisites:** Graduate standing in physical therapy.

DPT 742 - Clinical and Pathological Physiology

Credits 5

Fundamentals of physiology and pathology related to diseases causing abnormal movement patterns or capabilities. Processes and diseases most frequently encountered in physical therapy practice emphasized. **Prerequisites:** Graduate standing in physical therapy.

DPT 744 - Gross Anatomy I**Credits 2**

Study of gross human anatomy as it applies to physical therapy. Materials to be covered include: muscle, tendon, ligament and nerve innervation of the trunk and upper extremity, structural identification and function of the spine, heart, lungs, abdominopelvic organs, circulatory and sensory systems. Emphasis on relevance of gross anatomy to physical therapy practice. Involves both lecture and laboratory dissection that will cover the upper half of the body. **Prerequisites:** Graduate standing in Physical Therapy. **Corequisite:** DPT 744L

DPT 744L - Gross Human Anatomy Lab I**Credits 1**

Gross human anatomy cadaver lab with supervised dissection and exploration of muscle, tendon, ligament and nerve innervation of the trunk and upper extremity, structural identification and function of the spine, heart, lungs, abdominopelvic organs, circulatory and sensory systems.

DPT 745 - Gross Anatomy II**Credits 2**

Study of gross human anatomy as it applies to physical therapy. Materials to be covered include: muscle, tendon, ligament and nerve innervation of the head, neck, and lower extremity, structural identification and function of the corresponding circulatory and sensory systems. **Prerequisites:** DPT 744 and DPT 744L. **Corequisite:** DPT 745L

DPT 745L - Gross Human Anatomy Lab II**Credits 1**

Gross human anatomy cadaver lab with supervised dissection and exploration of muscle, tendon, ligament and nerve innervation of the head, neck, and lower extremity, structural identification and function of the corresponding circulatory and sensory systems. **Prerequisites:** DPT 744 and DPT 744L. **Corequisite:** DPT 745

DPT 746 – Neuroanatomy**Credits 3**

High level immersion into the anatomy of the nervous system, emphasizing structure and functional relationships. Coursework will also relate the structural relationships of the central and peripheral nervous systems to brain dysfunction and pathology. **Prerequisites:** Graduate standing in physical therapy. **Corequisite:** DPT 746L

DPT 747 - Geriatric Examination and Intervention**Credits 1**

Examination, evaluation, plan of intervention, outcomes, patient education, and health promotion as applied to the geriatric client. Issues include factors affecting normal aging, pathological aging, common pathologies associated with aging, quality of life, successful aging, care settings, reimbursement, and public policy. **Prerequisites:** Graduate standing in physical therapy.

DPT 748 – Pharmacology**Credits 2**

Actions and effects of pharmaceutical agents commonly encountered in physical therapy clinical practice. **Prerequisites:** Graduate standing in Physical Therapy.

DPT 749 - Applied Exercise Physiology**Credits 2**

Review of systems responsible for the generation of energy. Overview of the physiologic responses of the human body to acute bouts of exercise and how training leads to chronic adaptation of selected systems. Course content focuses on principles of exercise, role of nutrients in body metabolism, human development and performances. **Prerequisites:** Graduate standing in physical therapy.

DPT 750 - Prosthetics and Orthotics

Credits 2

Evaluation of medical, surgical and prosthetic and rehabilitation management of amputations. Discussion of design, fabrication and fitting of prosthetic devices as well as general orthotic principles examined. Basic clinical problem solving skills integrated in the context of prosthetic and orthotic management of patients. **Prerequisites:** Graduate standing in Physical Therapy. **Corequisite:** DPT 750L

DPT 750L - Prosthetics and Orthotics Lab

Credits 1

Application of medical, surgical and prosthetic and rehabilitation management of amputations. Design, fabrication and fitting of prosthetic devices as well as general orthotic principles examined. Basic clinical problem solving skills integrated in the context of prosthetic and orthotic management of patients. **Prerequisites:** Graduate standing in Physical Therapy. **Corequisite:** DPT 750

DPT 751 - Women's Health in Physical Therapy

Credits 2

Overview of the anatomical, physiological, nutritional, psychological, and sociological influences throughout the woman's life span including: adolescence, the reproductive years, the middle years, the older age. Discussion of physical therapy management of musculoskeletal, integumentary, cardiopulmonary, and visceral pathologies common to women. **Prerequisites:** Graduate standing in physical therapy.

DPT 752 - Physical Agents and Electrophysiology

Credits 3

Biological processes of injury and repair, clinical application of soft tissue techniques, thermal agents, intermittent compression, continuous motion, electrical stimulation, and mechanical traction. Principles of electrophysics and neurophysiology as they pertain to the use of therapeutic electrical stimulation. Advancement to clinical decision-making skills in physical application. **Prerequisites:** Graduate standing in Physical Therapy. DPT 742, 730, 732. **Corequisite:** DPT 752L

DPT 752L - Physical Agents and Electrophysiology Lab

Credits 1

Hands on performance and clinical application of soft tissue techniques, thermal agents, intermittent compression, continuous motion, electrical stimulation, mechanical traction, therapeutic electrical stimulation. **Prerequisites:** Graduate standing in Physical Therapy. DPT 742, 730, 732. **Corequisite:** DPT 752

DPT 753 – Electrotherapy

Credits 2

Principles of an electrophysics and neurophysiology as they pertain to the use of therapeutic electrical stimulation. Application techniques of various electrical stimulation devices also presented. **Prerequisites:** DPT 742, DPT 752, DPT 730, DPT 732.

DPT 754 - Orthopaedic Assessment in Physical Therapy

Credits 3

Evaluation and assessment of upper and lower extremity orthopaedic problems. Discussion and application of functional anatomy, biomechanics, and evaluative manual therapy skills used to differentially diagnose orthopaedic pathologies and disorders. **Prerequisites:** DPT 730, DPT 730L, DPT 741, DPT 744, DPT 744L, DPT 745, DPT 745L. **Corequisite:** DPT 754L

DPT 754L - Orthopaedic Assessment in Physical Therapy Lab

Credits 1

Evaluation and assessment of upper and lower extremity orthopaedic problems. Practical application of functional anatomy, biomechanics, and evaluative manual therapy skills used to differentially diagnose orthopaedic pathologies and disorders. **Prerequisites:** DPT 730, DPT 730L, DPT 741, DPT 744, DPT 744L, DPT 745, DPT 745L. **Corequisite:** DPT 754

DPT 755 - Geriatric and Pediatric Rehabilitation

Credits 3

Examination of factors affecting normal and pathologic systems from birth into aging. Issues include normal developmental sequences and common pathologies across the life span. Evaluation, wellness and leisure activities, and how basic rehabilitation procedures can be modified for the elderly. **Prerequisites:** Graduate standing in physical therapy.

DPT 756 – Neurophysiology**Credits 4**

High level immersion into the function of the human central and peripheral nervous systems based on current research and theory. Topics include normal human motor and sensory neurophysiology, cognitive and learning neurophysiology, neuropathophysiology, neuroplasticity, neurodiagnostics and neurologic treatment options.

Prerequisites: DPT 746

DPT 757 - Wound Care**Credits 2**

Clinical practice of wound care including physiology of tissue healing, wound assessment tools, dressings and treatment approaches. Processes and diseases most frequently encountered in physical therapy practice specializing in wound care. **Prerequisites:** DPT 742, DPT 752

DPT 758 - Diagnostic Testing and Imaging**Credits 2**

Presentation of diagnostic tests used by disciplines and specialties within and outside of the profession of physical therapy. Discussion of blood studies, nuclear medicine studies, and radiologic/X-ray studies. Interpretation of test results as it applies to physical therapy evaluation, intervention planning and treatment. **Prerequisites:** Graduate standing in physical therapy.

DPT 759 - Pediatric Rehabilitation**Credits 2**

Provides foundational knowledge of development (typical and atypical) and an overview of pediatric physical therapy practice for children with atypical development. Presents examination, evaluation, and development of physical therapy plans of care for children with various disabilities within the frameworks of family-centered care and disablement/enablement models. **Prerequisites:** Graduate standing in Physical Therapy. **Corequisite:** DPT 759L

DPT 759L - Pediatric Rehabilitation Laboratory Experience**Credits 1**

Focuses on application of developmental concepts and an overview of pediatric physical therapy practice for children with atypical development. Provides students with opportunities to observe/engage in examination, evaluation, and development of physical therapy plans of care for children with various disabilities within the frameworks of family-centered care and enablement models. **Prerequisites:** Graduate standing in Physical Therapy. **Corequisite:** DPT 759

DPT 761 - Supervised Clinical Education I**Credits 3**

The first clinical affiliation is a supervised full-time extended clinical learning experience six weeks in duration. The primary purpose is to provide students with the opportunity to actively engage in learning in order to develop introductory clinical competence in the delivery of services to persons with movement dysfunction. **Prerequisites:** Successful completion of all course work in the first year of the graduate physical therapy program.

DPT 762 - Supervised Clinical Education II**Credits 5**

The second clinical affiliation is a supervised, full-time extended clinical learning experience 11 weeks in duration. The primary purpose is to provide students with the opportunity to actively engage in experiential learning in order to advance clinical competence in the delivery of services to persons with movement dysfunction. **Prerequisites:** DPT 761

DPT 763 - Supervised Clinical Education III**Credits 5**

The third clinical affiliation is ten and one-half weeks and is a supervised full-time extended clinical learning experience. The primary purpose is to provide students with the opportunity to actively engage in experimental learning in order to advance clinical competence in the delivery of services to persons with movement dysfunction.

Prerequisites: DPT 762

DPT 764 - Supervised Clinical Education IV**Credits 6**

The fourth clinical affiliation is twelve weeks and is a supervised full-time extended clinical learning experience. The primary purpose is to provide students with the opportunity to actively engage in experiential learning in order to advance clinical competence in the delivery of services to persons with movement dysfunction. **Prerequisites:**

DPT 763

DPT 765 - Clinical Education V**Credits 4**

This nine-week clinical affiliation is an extended learning experience for students completing the transitional physical therapy doctorate. The primary purpose is to provide students the opportunity to advance clinical competence in the delivery of physical therapy services to persons with movement dysfunction. **Prerequisites:** Successful completion or concurrent work in all course work to date in the transitional doctorate physical therapy program.

DPT 770 - Cardiopulmonary Rehabilitation**Credits 1**

Review of systems responsible for the generation of energy. Over-view of the physiologic responses of the human body to acute bouts of exercise and how training leads to chronic adaptation of selected systems. Course content focuses on principles of exercise, role of nutrients in body metabolism, human development and performance.

Prerequisites: Graduate standing in physical therapy. **Corequisite/Prerequisite:** DPT 770L

DPT 770L - Cardiopulmonary Rehabilitation Lab**Credits 1**

Lab of basic patient skills including assessment of vital signs, breathing patterns, heart sounds, ECG interpretation, pulmonary function testing, blood gases, chest wall mobility, cough and sputum, ventilation, performance of bronchial drainage, prescribe exercises for patient with compromised cardiopulmonary function. **Corequisite:** DPT 770

DPT 772 - Physical Therapy Administration**Credits 2**

General principles of organizations and administration that impact the ethical and legal aspects of physical therapy practice. Topics include budget development, cost accounting, supervision, communication skills, evaluative techniques, and methods of management and quality assurance. **Prerequisites:** Graduate standing in physical therapy.

DPT 774 - Psychosocial Aspects of Physical Therapy**Credits 2**

Social and psychological issues which arise during illness examined and discussed in an open class discussion format. Emphasis on self-awareness as well as awareness of others with respect to cultural differences, religious beliefs, addictions, and coping strategies during stress. **Prerequisites:** Graduate standing in physical therapy.

DPT 780 - Balance and Vestibular Rehabilitation**Credits 2**

This course will introduce students to principles and theories of rehabilitation for the patient with balance dysfunction. There will be emphasis on sound clinical reasoning and assessment of balance impairment and disability. Students will be exposed to theoretical applications of different treatment modalities in balance and vestibular rehabilitation. **Prerequisites:** Enrollment in professional DPT curriculum.

DPT 785 - Orthopaedic Rehabilitation

Credits 2

Manual therapy and therapeutic exercise techniques for the extremities with emphasis on integrating these techniques into treatment regimes for specific orthopaedic pathologies/disorders. Includes pathogenesis, clinical presentation, medical/surgical management and rehabilitation. Review, integrate, and enhance knowledge from previous course work as it pertains to appropriate entry-level application. **Prerequisites:** DPT 732, DPT 741, DPT 754. **Corequisite:** DPT 785L

DPT 785L - Orthopaedic Rehabilitation Lab

Credits 1

Orthopaedic Rehabilitation lab with supervised integration of manual therapy and therapeutic exercise techniques for the extremities. Focus will be on developing and providing treatment regimes for specific orthopaedic pathologies/ disorders. Students will refine skills from previous course work as it pertains to appropriate entry-level application. **Prerequisites:** DPT 732, DPT 741, DPT 754. **Corequisite:** DPT 785

DPT 786 - Neurological Rehabilitation

Credits 3

Course fosters clinical reasoning and critical analysis skills across elements of patient client management for individuals with neurologically-based movement disorders. Students are exposed to theory and movement science as related to clinical reasoning. Students are expected to incorporate professional behavior, scientific and clinical knowledge and critical analysis to clinical applications. **Prerequisites:** DPT 730, DPT 732, DPT 744, DPT 745, DPT 746, DPT 756. **Corequisite:** DPT 786L

DPT 786L - Neurologic Rehabilitation Laboratory Experience

Credits 1

Course emphasizes hands-on skill development, clinical reasoning, and critical analysis skills for all elements of patient-client management for individuals with neurologically-based movement disorders across the lifespan. Students are expected to incorporate professional behavior, scientific and clinical knowledge, critical analysis and competent skill performance in laboratory and practical skill application. **Corequisite:** DPT 786

DPT 787 - Integrated Rehabilitation

Credits 2

Assessment and treatment of advanced orthopedics, advanced neurological, and spinal cord injured patients utilizing comprehensive techniques for spinal cord injury (SCI), orthopedics, and neurological treatment. Through dynamic patient case problems, students evaluate, plan, and implement course of treatment. **Prerequisites:** Graduate standing in Physical Therapy and DPT 785 and DPT 786. **Corequisite:** DPT 787L

DPT 787L - Integrated Rehabilitation Lab

Credits 1

Hands on assessment and treatment of advanced orthopedics, advanced neurological, and spinal cord injured patients utilizing comprehensive techniques for spinal cord injury (SCI), orthopedics, and neurological treatment. Through dynamic patient case problems, students will be able to evaluate, plan, and implement a course of treatment. **Prerequisites:** Graduate standing in Physical Therapy and DPT 785 and DPT 786. **Corequisite:** DPT 787.

DPT 788 - Spine Examination and Treatment

Credits 2

Spine examination including biomechanics, observation, range of motion, muscle strength, joint play and special tests. Inclusion of examination schema, clinical reasoning skills and differential diagnosis of commonly seen spine pathology. Emphasis on hands-on examination, assessment, and treatment including manual therapy, spinal mobilization and spinal manipulation skills. **Prerequisites:** Graduate standing in physical therapy. **Corequisite:** DPT 788L.

DPT 788L - Spine Examination and Intervention Lab

Credits 1

Lab sessions focusing on hands-on examination, assessment, and treatment of spine dysfunction, including manual therapy, spinal mobilization and spinal manipulation skills. **Prerequisites:** Graduate standing in Physical Therapy or consent of instructor. **Corequisite:** DPT 788.

DPT 790 - Clinical Research in Physical Therapy

Credits 3

Introduction to principles and concepts of clinical research in physical therapy. Covers development of the research question, measurement issues, statistical analysis, literature review, and writing of results. **Prerequisites:** Graduate standing in physical therapy.

DPT 791 - Applied Research Statistics

Credits 3

Review of foundations, concepts of measurement, and design in clinical research. Emphasis on hands-on data analysis of clinically relevant physical therapy research designs including descriptive statistics, statistical inference, analysis of differences, and analysis of relationships. **Prerequisites:** Graduate standing in physical therapy.

DPT 793 – Seminar

Credits 1

Preparation and presentation of seminars on topics of current interest in physical therapy and rehabilitation. Topic changes by semester and by course instructor; see class schedule for details. **Prerequisites:** Enrollment in professional DPT curriculum.

DPT 795 - Independent Study

Credits 1 – 6

Students pursue a topic related to physical therapy beyond that covered in the graduate curriculum. Satisfactory completion accomplished through individualized, self-directed study. Topics based on student preference and faculty approval. Faculty and student jointly determine goals, objective and evaluation methods. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Graduate standing in physical therapy.

DPT 798 - Directed Research

Credits 1 – 6

Critical inquiry by participating in new or ongoing research with faculty who serve as project advisors. Students summarize research by a written report and present each project orally to the faculty and area clinicians. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** DPT 790

PTS 744 - Gross Human Anatomy

Credits 3

Gross anatomy studied regionally stressing relationships of major structures, organs, vessels and nerves. Prosected human cadaver observation by students included in laboratory session (PTS 744L). All major areas of the body covered. Reference to the relationship of anatomical structures to pathology, traumatic injury and medicine stressed. **Prerequisites:** Undergraduate Anatomy, Physiology or Biology lab course. **Corequisite:** PTS 744L

PTS 744L - Gross Human Anatomy Lab

Credits 1

Gross human anatomy cadaver lab with supervised examination and exploration of prosected human cadavers. All major areas of the body are covered. References to the relationship of anatomical structures to pathology, traumatic injury and medicine stressed. **Prerequisites:** Undergraduate Anatomy, Physiology or Biology lab course or equivalent. **Corequisite:** PTS 744

PTS 747 - Human Neuroanatomy

Credits 3

High level immersion, including cadaveric prosection, into the anatomy of the central nervous system, emphasizing structure and functional relationships. Coursework will also relate these structural relationships to brain dysfunction and pathology. **Prerequisites:** Graduate standing.

School of Dental Medicine

The UNLV School of Dental Medicine, which accepted its Inaugural Class in August of 2002, has been designed to serve our local community and the state of Nevada in oral health care, health services, research and scholarly activities. Education of dental students will be accomplished through a competency based curriculum with a special emphasis on biomedical sciences, professional studies and an innovative vertically integrated team approach for clinical instruction and delivery of patient care. The School of Dental Medicine is recruiting and employing a diverse and distinguished faculty to facilitate the program. The competency-based education program has at its core a student and patient entered environment designed to maximize learning and patient care delivery. Beginning dentists will be exposed to in depth studies of biological and clinical sciences as well as biomedical and bio-ethical disciplines. Students will encounter a broad spectrum of clinical experiences to prepare them for entry into the profession. These experiences will begin in year one of the curriculum, and clinical responsibilities will expand in scope and depth throughout the four years. During year four, students will have the opportunity to select placement in a variety of clinically supervised community settings. They will also have extensive exposure to business and financial management designed to meet the challenges of dental practice. Furthermore, they will be introduced to principles of research, will have an opportunity to conduct independent research and will be encouraged to pursue scholarly activities with the possibility of creating a career in academic dentistry. Training will occur in state of the art facilities designed to achieve the goals of the dental academic program. Today's dental professional needs a learning environment that offers interaction with other medical professionals and facilitates diagnosis and treatment to improve the patient's overall health. The dental school is adopting this new reality and keeping it at the forefront as it designs the teaching facility at the UNLV Shadow Lane campus. The building is part of a regional campus that is expected to house the university's biotech research center, including the UNLV Cancer Institute. Students will have access to the latest technology with other health care professionals in diagnosing disease and treating patients. By the time of graduation, students will be competent and confident to begin a rewarding career as a provider of comprehensive oral health care. For additional information, visit <http://dentalschool.unlv.edu>.

Karen P. West, D.M.D., Dean, School of Dental Medicine

Christine C. Ancajas, D.D.S., Assistant Dean for Admission and Student Affairs

William D. Davenport, Jr., Ph.D., Associate Dean for Academic Affairs

Ellen V. Herrick, Assistant Dean of Finance and Administration

Ronald R. Lemon, D.M.D., Associate Dean, Advanced Education

Connie C. Mobley, Ph.D., Associate Dean for Research

Judith Skelton, Ph.D., Assistant Dean for Outreach and Engagement

Rick B. Thiriot, D.D.S., Co-Associate Dean for Clinical Services

Wendy S. Woodall, D.D.S., Co-Associate Dean for Clinical Services

School of Dental Medicine Faculty

Dean

West, Karen - Full Graduate Faculty

Professor; D.M.D., University of Louisville School of Dentistry; M.P.H., University of South Carolina School of Public Health.

Associate and Assistant Deans

Lemon, Ronald - *Full Graduate Faculty*
Professor; D.M.D., University of Kentucky, School of Dental Medicine.
Co-Associate Dean for Clinical Services

Thiriot, Rick
Assistant Professor-in-Residence; B.S., University of Nevada, Las Vegas; D.D.S., University of the Pacific School of Dentistry.
Assistant Dean

Herrick, Ellen
B.S., University of Nevada, Las Vegas.
Assistant Dean for Admissions and Student Affairs

Ancajas, Christine - *Assistant Graduate Faculty*
B.A., California State University; D.D.S., Northwestern University Dental School.
Assistant Dean for Outreach and Engagement

Skelton, Judith - *Full Graduate Faculty*
Professor; B.S., University of Louisville; M.E.D., University of Florida; Ph.D., University of Florida.

Graduate Faculty

Bethea, Lorenzo
B.S., University of Phoenix.

Capurro, Antonina
Visiting Professor; B.S., University of Nevada, Las Vegas; D.M.D., University of Nevada, Las Vegas; M.P.H., University of Nevada, Las Vegas.

Cole, Dean
Associate Professor; A.A., Pasadena City College; D.D.S., Loyola University.

Danforth, Robert
Associate Professor; D.D.S., Loma Linda University.

Davenport Jr., William - *Full Graduate Faculty*
Professor; B.S., University of Mississippi; M.S., University of Mississippi; Ph.D., Medical College of Georgia.

Demopoulos, Christina
Assistant Professor-in-Residence; B.S., University of Nevada, Las Vegas; D.D.S., University of Southern California School of Dentistry; M.P.H., University of Nevada, Las Vegas.

Ditmyer, Marcia - *Full Graduate Faculty*
Assistant Professor; B.S., Wayne State University; Ph.D., University of Toledo.

Dounis, Georgia
Associate Professor; D.D.S., Marquette University, School of Dentistry; M.S., Marquette University School of Dentistry.

Evans, Laurie
B.S.B.A., University of Phoenix; M.B.A, University of Phoenix.

Everett, Rhonda - *Full Graduate Faculty*

Assistant Professor in Residence; B.A., University of California; D.D.S., University of Southern California, School of Dentistry; M.P.H., University of Nevada, Las Vegas.

Farfel, Elena

Visiting Assistant Professor; B.A., University of Colorado; D.M.D., University of Nevada, Las Vegas.

Faulkner, Davin

Visiting Assistant Professor; B.S., Brigham Young University; D.M.D., University of Nevada, Las Vegas.

Fox, Gerald

Visiting Assistant Professor; B.S., Brooklyn College; D.D.S., Temple University School of Dentistry.

Galbraith, Gillian - *Full Graduate Faculty*

Professor, M.D., University of London, King's College Hospital Medical School.

Gallob, John

Assistant Professor-in-Residence; B.S., University of Arizona-Tucson; D.D.S., Nova Southeastern University.

Gerrard, Curtis

B.A., University of Nevada, Las Vegas; M.A., Regis University.

Haskin, Christine

Associate Professor; B.A., University of Texas at Austin; M.S., Southwest Texas State University; D.D.S., University of Texas; Ph.D., University of Texas.

Herschaft, Edward - *Full Graduate Faculty*

Professor; B.A., Queens College of the City University of New York; D.D.S., West Virginia University School of Dentistry; M.A., University of New Orleans.

Hillyard, Stanley - *Full Graduate Faculty*

Professor; B.A., University of California, Riverside; Ph.D., University of California, Los Angeles.

Howard, Katherine - *Full Graduate Faculty*

Assistant Professor; B.Sc., Texas A & M University; Ph.D., University of Texas.

Hughes, Cody - *Full Graduate Faculty*

Assistant Professor-in-Residence; D.M.D., University of Nevada, Las Vegas, School of Dental Medicine; M.S., Indiana University.

Hurlbut, Bernard - *Full Graduate Faculty*

Assistant Professor-in-Residence; B.A., Arizona State University; D.D.S., Baylor College of Dentistry.

Ingel, Andrew

Visiting Assistant Professor-in-Residence; B.S., Villanova University; M.S., Bryn Mawr College; D.M.D., University of Pittsburgh School of Dental Medicine.

Jones, Francis

Assistant Professor-in-Residence; B.A., California State University; D.D.S., Meharry Medical College.

Joyner-Tucker, Arlene

Assistant Professor-in-Residence; B.S., North Carolina University; D.D.S., Howard University College of Dentistry; M.P.H., University of California, Los Angeles.

Kingsley, Karl - *Full Graduate Faculty*

Associate Professor; B.A., New Mexico State University; B.B.A., New Mexico State University; Ph.D., University of Nevada, Las Vegas; M.P.H., University of Nevada, Las Vegas.

Kirit, Theodore

Associate Professor-in-Residence; M.D., University of Bucharest, School of Medicine; D.D.S., University of Bucharest, Romania, School of Dentistry; M.S., New York University.

Kuprienko, Kirstina

Visiting Assistant Professor; B.S., University of Nevada, Las Vegas; D.M.D., University of Nevada, Las Vegas School of Dental Medicine.

Leavitt, William

Visiting Professor-in-Residence; B.A., Brigham Young University; M.P.A., University of Southern California; D.D.S., University of the Pacific.

Lockhart, Robert

Associate Professor-in-Residence; D.D.S., Indiana University of Dentistry; M.S., University of Missouri, Kansas City.

Mack, Michael

B.S., University of Nevada, Las Vegas.

Mah, James - Full Graduate Faculty

B.S., University of Alberta, Edmonton; D.D.S., University of Alberta, Edmonton; M.S., University of Alberta, Edmonton; D.M.Sc., Harvard University.

Martin, Bob- Assistant Graduate Faculty

Assistant Professor-in-Residence; B.S., Bridgewater College; D.D.S., Medical College of Virginia.

McAlpine, George

B.A., University of Illinois; D.D.S., Loyola University; M.S., University of Texas, Health Sciences Center, Dental Branch and Wilford-Hall medical Center.

McClain, Mildred - Full Graduate Faculty

Assistant Professor; A.S., University of Nevada, Las Vegas; B.S., University of Nevada, Las Vegas; M.Ed., University of Nevada, Las Vegas; Ph.D., University of Nevada, Las Vegas.

Mobley, Connie - Full Graduate Faculty

Professor; B.S., University of Southern Louisiana; M.S., Florida International University; Ph.D., Texas A & M.

Nelson, Stanley

Professor; B.S., Albion College; D.D.S., University of Michigan School of Dentistry; M.S., University of Michigan School of Dentistry.

Neubauer, Michael

Associate Professor-in-Residence; B.S., University of California; D.D.S., University of California; M.S., University of Iowa.

O'Grady, Cynthia

B.A., University of Oregon; M.A., King's College.

Ord, David

Assistant Professor-in-Residence; B.S., Brigham Young University; D.D.S., University of Southern California.

Orr II, Daniel

Professor-in-Residence; B.S., Brigham Young University; D.D.S., University of Southern California School of Dentistry; M.S., University of Utah School of Medicine, Department of Anesthesiology; Ph.D., Columbia Pacific

University; J.D., William Howard Taft University School of Law; M.D., University of Health Sciences, Antigua School of Medicine.

Phillips, Randy

Assistant Professor-in-Residence; B.A., University of California at Los Angeles; D.D.S., University of Southern California School of Dentistry.

Phipps, Flora Monique

Assistant Professor-in-Residence; B.S., Hampton University; D.D.S., Virginia Commonwealth University.

Reinke, Robin

Assistant Professor-in-Residence; B.S., University of Puget Sound; D.D.S., University of Washington School of Dentistry; M.P.A., Keller Business School of Management of Devry University.

Rothbart, Jonathan

Associate Professor-in-Residence; A.B., Brandeis University; D.M.D., Boston University Goldman School of Graduate Dentistry.

Sanders, R. Michael

Professor; D.M.D., College of Medicine and Dentistry; Ed.M., Rutgers University; M.P.H., Robert Wood Johnson Medical School.

Scherer, Michael

Assistant Professor-in-Residence; B.S., University of Miami; D.M.D., Nova Southeastern University; M.S., Ohio State University.

Self, McKinley

Assistant Professor-in-Residence; B.S., University of Utah; D.M.D., Case Western Reserve University.

Seran, Clifford - Full Graduate Faculty

Assistant Professor; B.S., Bucknell University; D.M.D., University of Pennsylvania.

Tham, Foeng (Bill)

Visiting Assistant Professor; B.A., Union College; D.D.S., University of Missouri; J.D., Concord University School of Law.

Tozzi, Raymond

Assistant Professor-in-Residence; B.S., St. Francis College; D.D.S., Georgetown University School of Dentistry.

Walker Jr., Richard

Professor; B.A., Westminster College; D.D.S., University of Missouri at Kansas City.

Walter, Philip - Full Graduate Faculty

B.A., Indiana University; D.D.S., Indiana University.

Wasden, Jason

B.S., University of Nevada, Las Vegas; M.P.A., University of Nevada, Las Vegas; Ph.D., University of Nevada, Las Vegas.

Webberson, Michael

Assistant Professor-in-Residence; B.S., University of Nevada, Las Vegas; D.D.S., Creighton University School of Dentistry.

Woo, Victoria

Associate Professor-in-Residence; D.D.S., University of Western Ontario.

Woodall, Wendy

Assistant Professor; B.A.S.S., Stephen F. Austin State University; D.D.S., University of Texas.

Zhou, Wenlian

Assistant Professor; D.D.S., Beijing Medical University School of Stomatology General Dentistry; Ph.D., Peking University Health Science Center, School of Stomatology Orthodontics; D.M.D., University of Nevada, Las Vegas, School of Dental Medicine.

Zoller, Lawrence

Professor-in-Residence; M.A., Rutgers University; Ph.D., University of Pennsylvania.

School of Dental Medicine Plan

Master of Science - Oral Biology

The future of oral health medicine is dependent upon significant orthodontic and craniofacial research. Masters of Science – Oral Biology emphasizes orthodontic and craniofacial research and aims to aid developing orthodontic residents in becoming successful researchers, educators and/or clinicians. It does this by providing a diverse clinical experience with a strong integration of basic sciences. This program will equip residents with the clinical, the analytical and the managerial skills that are necessary to provide oral healthcare to the community.

Learning Outcomes

www.unlv.edu/degree/certificate-orthodontics-dentofacial-orthopedics-ms-oral-biology

Plan Admission Requirements

In addition to being accepted to the UNLV Graduate College, prospective students must meet the following criteria.

- Must have passed Parts I and II, National Dental Board Examination.
- Must have earned a DMD/DDS degree from a program in the US or Canada that is fully accredited by the Commission on Dental Accreditation
- Must be eligible for a Nevada state dental license and receive a full or limited dental license from the Nevada State Board of Dental Examiners prior to engaging in any clinical activity.
- Application through the Postdoctoral Application Support Service (PASS) including specified letters of recommendations.
- Background and criminal checks as required.
- Medical history, immunizations and physicals as required.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 147

Course Requirements

- Required Courses – Credits: 141
 - ORTH 8001 - Introduction to Orthodontics (4 Credits)
 - ORTH 8011 - Cephalometrics (2 Credits)

- ORTH 8102 - Clinical Specialty Seminars I (2 Credits)
- ORTH 8103 - Clinical Specialty Seminars II (3 Credits)
- ORTH 8104 - Clinical Specialty Seminars III (3 Credits)
- ORTH 8201 - Introduction to Clinic Orthodontics (4 Credits)
- ORTH 8202 - Clinic Orthodontics (6 Credits)
- ORTH 8203 - Clinic Orthodontics (6 Credits)
- ORTH 8204 - Clinic Orthodontics (6 Credits)
- ORTH 8205 - Clinic Orthodontics (6 Credits)
- ORTH 8206 - Clinic Orthodontics (12 Credits)
- ORTH 8207 - Clinic Orthodontics (2 x 6 Credits)
- ORTH 8512 - Biomechanical Principles (2 Credits)
- ORTH 8513 - Growth and Developmentes (2 Credits)
- ORTH 8518 - Orthodontic Materials (2 Credits)
- ORTH 8602 - Diagnosis, Treatment Planning and Case Presentation (4 Credits)
- ORTH 8603 - Diagnosis & Treatment Plan (4 Credits)
- ORTH 8604 - Diagnosis & Treatment Plan (4 Credits)
- ORTH 8605 - Diagnosis, Treatment Planning and Case Presentation (4 Credits)
- ORTH 8606 - Diagnosis, Treatment Plan and Case Presentation (8 Credits)
- ORTH 8607 - Diagnosis & Treatment Plan (2 x 2 Credits)
- ORTH 8803 - Literature Review/Journal Club (2 Credits)
- ORTH 8804 - Literature Review/Journal Club (2 Credits)
- ORTH 8805 - Literature Review/Journal Club
- ORTH 8910 - Craniofacial Anomalies (2 Credits)
- PGDE 8312 - Independent Research I (3 Credits)
- PGDE 8313 - Independent Research II (3 Credits)
- ORTH 8314 - Advanced Research (1 Credits)
- PGDE 8315 - Independent Research III (3 Credits)
- PGDE 8316 - Independent Research (3 Credits)
- PGDE 8402 - Biomedical Sciences Core I (2 Credits)
- PGDE 8403 - Biomedical Sciences Core II (4 Credits)
- PGDE 8415 - Advanced Biomedical Sciences (2 Credits)
- PGDE 8503 - Interdisciplinary Diagnosis and Treatment Planning (2 Credits)
- PGDE 8516 - Advanced Clinical Sciences: Radiology (2 Credits) 4 cr
- PGDE 8517 - Temporomandibular Disorders and Occlusion (2 Credits)
- PGDE 8701 - Methods of Literature Review/Scientific Writing (2 Credits)
- PGDE 8702 - Research Methodology, Biostatistics & Epidemiology (2 Credits)
- PGDE 8703 - Research Methods II (2 Credits)
- PGDE 8715 - Professional Studies Core: Practice Management (2 Credits)
- Thesis – Credits: 6
 - PGDE 8901 - Thesis

Degree Requirements

- The Master of Science – Oral Biology program is designed to be a three year program (divided as follows: Year 1: 3 trimesters (summer, fall, spring); Year 2: 2 semesters (Fall July-Dec, and Spring Jan-June); and Year 3: fall semester).
- The advanced program in Orthodontics and Dentofacial Othopedicas is accredited by the Commission on Dental Accreditation; as such graduates of UNLV School of Dental Medicine’s Oral Biology program will also receive a certificate in Orthodontics and Dentofacial Orthopedics which is required for licensure.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department’s discretion. Please see Graduate College policy for committee appointment guidelines.

Dual Degree: Master of Business Administration & Doctor of Dental Medicine

The University of Nevada, Las Vegas School of Dental Medicine and the Lee Business School offer a dual Doctorate of Dental Medicine (DMD) and Master of Business Administration (MBA) degree program that allows students to be admitted in both programs and achieve the DMD and MBA degrees. As a concurrent program, the dual degree requires that students satisfy the degree requirements of both programs. The dual Master of Business Administration and Doctorate of Dental Medicine (MBA and DMD) program is designed for those who seek career and business leadership opportunities in the field of dentistry. Students will receive two degrees, an MBA and a DMD.

The MBA degree at the Lee Business School requires 42 credit hours. The Dental degree requires 195 credit hours. Under the dual degree program 12 credit hours of dental courses are accepted towards the MBA degree.

Learning Outcomes

www.unlv.edu/degree/dual-mba-dmd

Plan Admission Requirements

Applicants to the DMD/MBA program must submit formal applications for admission to both the School of Dental Medicine and to the Lee Business School. Students must meet the requirements for admission to both programs. Admissions requirements are the same as those stated under the DMD and MBA programs. Contact the UNLV School of Dental Medicine and the Lee Business School MBA programs for further information on admissions requirements. Applications from current students in either program will be considered. Entry into the MBA program for students from the School of Dental Medicine will be no earlier than the fall semester of year two of the dental curriculum. However, petitions requesting admission to the dual DMD/MBA program from students at more advanced stages will be considered.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 216

Course Requirements

- Total Credits Required for the Business Administration M.B.A.: 30
- MBA Core Required Courses – Credits: 27
 - MBA 761 - Accounting for Managers
 - MBA 763 - Leadership, Teams, and Individuals
 - MBA 765 - Financial Decision Making
 - MBA 767 - Market Opportunity Analysis
 - MBA 769 - Applied Economic Analysis
 - MBA 771 - Law and Ethics
 - MBA 773 - Managing Information
 - MBA 775 - Data Modeling and Analysis
 - MBA 779 - Managing Supply Chains
- Capstone Course – Credits: 3
 - MBA 787 - Strategic Management
- Total Credits Required for the Doctor of Dental Medicine: 186

Degree Requirements

- Students must be admitted to both the DMD and MBA programs with graduate standing. The candidates must successfully complete the 186 credit hours of Dentistry and the 30 credit hours of the MBA required course work.

Furthermore:

- UNLV School of Dental Medicine cannot award credit for any class taken before matriculation.
- A maximum of six credit hours of courses taken prior to admission to the DMD/MBA program may be applied towards the MBA degree requirement. This includes all courses taken as a fully admitted graduate MBA student at an AACSB accredited business school, as an admitted dental student at UNLV, or as a non-admitted student at UNLV before admission to the MBA program.
- DMD/MBA candidates who subsequently decide to pursue only the DMD or only the MBA must complete the degree program in its entirety and are subject to the same rules and requirements as students not pursuing the DMD/MBA program.
- DMD/MBA may not receive credit for taking courses outside their degree program except as set forth in this document and with prior approval.
- Student honors and class ranks at the School of Dental Medicine will be computed based solely on dental classes. Student honors and class ranks at the Lee Business School will be computed based solely on business classes.
- Students in the DMD/MBA program must remain in good standing at both DMD and MBA programs.
- Students in the DMD/MBA program are subject to the same rules and regulations that apply to all students at the School of Dental Medicine and the Lee Business School.
- The Lee Business School and the School of Dental Medicine reserve the right to limit participation in the program, including dismissal. Those interested are encouraged to submit a request for permission to participate in the program, along with applications for admission, at the earliest possible time.

Plan Graduation Requirements

- Students cannot graduate from one portion of the dual degree until the requirements for both are met. Students must apply to graduate from both programs for the same semester.
- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Successful completion of the capstone course.
 - The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
 - A master's thesis, which carries six credits, is required for the Oral Biology M.S. It must conform to the guidelines set forth by the Graduate College in this catalog and in its Thesis and Dissertation Manual. The M.A. thesis should be an original contribution to academic knowledge. Thesis projects must be designed, developed, and written in close consultation with an appropriate thesis advisor and with the student's thesis committee.
 - The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.

School of Dental Medicine Courses

ORTH 8001 - Introduction to Orthodontics
Credits 4

ORTH 8011 – Cephalometrics**Credits 2**

To discuss the history, development and the use of cephalometrics in clinical orthodontic practice. This course will cover the basic principles of Cephalometric analysis and describe developing as well as established skeletal Class I, II & III discrepancies.

ORTH 8102 - Clinical Specialty Seminars I**Credits 2****ORTH 8103 - Clinical Specialty Seminars II****Credits 3**

A continuation and progressing advanced level of the one-hour clinical seminars that will proceed all clinical sessions. The purpose of these seminars is for the faculty to preview the daily clinic schedule and prepare the residents for the procedures to be performed during that clinic session.

ORTH 8104 - Clinical Specialty Seminars III**Credits 3****ORTH 8201 - Introduction to Clinic Orthodontics****Credits 4**

An introduction and overview of the three-hour clinical sessions during which the residents will screen, diagnose, treatment plan and treat and/or manage the orthodontic malocclusions of their patients, under the supervision of the attending orthodontic clinical faculty. Clinical attire, policies, procedures and professionalism will be discussed.

ORTH 8202 - Clinic Orthodontics**Credits 6****ORTH 8203 - Clinic Orthodontics****Credits 6**

A continuation and progressing advanced level of the three-hour clinical sessions during which the residents will screen, diagnose, treatment plan and treat and/or manage the orthodontic malocclusions of their patients under the supervision of the attending orthodontic clinical faculty.

ORTH 8204 - Clinic Orthodontics**Credits 6****ORTH 8205 - Clinic Orthodontics****Credits 6**

A continuation and progressively-advanced level of three-hour clinical sessions during which the residents will screen, diagnose, treatment plan and treat and/or manage the orthodontic malocclusions of their patients under the supervision of the attending orthodontic clinical faculty.

ORTH 8206 - Clinic Orthodontics**Credits 12**

A continuation and progressively-advanced level of three-hour clinical sessions during which the residents will screen, diagnose, treatment plan and treat and/or manage the orthodontic malocclusions of their patients, under the supervision of the attending orthodontic clinical faculty.

ORTH 8207 - Clinic Orthodontics**Credits 6**

This course provides Orthodontics Residents a more advanced level of material regarding orthodontic diagnosis, treatment planning and treatment. Residents build on their previous knowledge and experience. Residents are taught various finishing techniques and how to choose the proper retention per individual cases. Actual progress is compared to pretreatment projections. If progress is not on schedule, causes and solutions are discussed and changes are implemented as needed. Residents must prepare ABO written presentations for their 6 finished cases.

ORTH 8314 - Advanced Research**Credits 1**

ADVANCED RESEARCH

ORTH 8512 - Biomechanical Principles**Credits 2**

The biomechanics course aims to teach the first year orthodontic residents basic principles of tooth movement. It will include definitions of force vectors, force application and various biological responses based on mechanical principles.

ORTH 8513 - Growth and Developmentes**Credits 2**

GROWTH AND DEVELOPMENTES

ORTH 8518 - Orthodontic Materials**Credits 2**

This course is comprised of seminar discussions of materials used in the practice of orthodontics. Students will demonstrate an understanding of: the characterization of contemporary materials, methods of testing, clinical use, and health and safety concerns with the use of common materials. This course will also provide the foundation for developing a research project involving orthodontic materials.

ORTH 8602 - Diagnosis, Treatment Planning and Case Presentation**Credits 4**

A comprehensive in depth study of orthodontic diagnosis, treatment planning and ABO case reports of patients treated by orthodontic residents in our clinic. This will be accomplished in a seminar format where residents will present their case reports to fellow residents and faculty.

ORTH 8603 - Diagnosis & Treatment Plan**Credits 4****ORTH 8604 - Diagnosis & Treatment Plan****Credits 4****ORTH 8605 - Diagnosis, Treatment Planning and Case Presentation****Credits 4**

A comprehensive in depth study of orthodontic diagnosis, treatment planning and American Board of Orthodontics (ABO) case reports of patients treated by orthodontic residents in our clinic. This will be accomplished in a seminar format where residents will present their case reports to fellow residents and faculty, followed by a comprehensive discussion of every case.

ORTH 8606 - Diagnosis, Treatment Plan and Case Presentation**Credits 8**

DIAGNOSIS, TREATMENT PLAN AND CASE PRESENTATION

ORTH 8607 - Diagnosis & Treatment Plan**Credits 2**

A comprehensive in depth study, diagnosis, treatment planning and ABO case reports of patients treated by orthodontic residents in our clinic. This will be accomplished in a seminar format where residents will present their case reports to fellow residents and faculty

ORTH 8803 - Literature Review/Journal Club**Credits 2**

Introduction to analyzing and understanding literature in orthodontics, including classification of study designs, hypothesis testing, scientific writing, analysis and interpretation of data, and critical evaluation of the literature. Residents participate in critical review of research in orthodontics and craniofacial biology throughout their education and in preparation for the ABO examination.

ORTH 8804 - Literature Review/Journal Club
Credits 2

ORTH 8805 - Literature Review/Journal Club
Credits 2
Literature Review/Journal Club

ORTH 8808 - Literature Review IV
Credits 1

A continuation and progressively-advanced level of analyzing and understanding literature in orthodontics including, classification of study design, hypothesis testing, scientific writing, analysis and interpretation of data, and critical evaluation of the literature.

ORTH 8910 - Craniofacial Anomalies
Credits 2

Introduce diagnostic and treatment planning principles of interdisciplinary team approach, as well as, provide a sound basis for clinical examination, diagnosis and team management of patients with severe malocclusion associated with birth defects and craniofacial anomalies.

PGDE 8312 - Independent Research I
Credits 3

PGDE 8313 - Independent Research II
Credits 3

PGDE 8315 - Independent Research III
Credits 3

PGDE 8316 - Independent Research

At the conclusion of this course, the Orthodontic Resident will be able to: 1) Understand the scientific method as it applies to critical review of the literature and research design; 2) Understand literature search techniques and strategies as well as the different levels of research publications ranging from opinions, case reports, blinded studies, prospective research, randomized controlled clinical studies to systematic reviews; 3) Complete an independent research project to include an abstract, proposal, data collection, analysis and write up for submission to an appropriate peer-reviewed scientific journal; 4) Complete Master's Thesis.

PGDE 8402 - Biomedical Sciences Core I
Credits 4

PGDE 8403 - Biomedical Sciences Core II
Credits 4

PGDE 8415 - Advanced Biomedical Sciences
Credits 2

PGDE 8503 - Interdisciplinary Diagnosis and Treatment Planning
Credits 2

PGDE 8516 - Adv Clin Sci: Radiology
Credits 4

PGDE 8517 – TMD
Credits 2

This course reviews appropriate literature of stomatognathic function, diagnosis and treatment of TM Disorders. The student will review the multi-factorial theory of TM Disorders and will distinguish simple TM Disorders vs. complex TM Disorders. A plan for management of TM disorders within their clinical discipline will be developed.

PGDE 8701 - PSC: Lit Review
Credits 2

PGDE 8702 - Res Design
Credits 2

PGDE 8703 - Research Methods II
Credits 2

PGDE 8715 - PSC: Practice Management
Credits 2

PGDE 8901 – Thesis
Credits 6

This course guides students through the process of writing their proposal and thesis, following the guidelines/practices for oral biology/orthodontics.

School of Nursing

Welcome to the School of Nursing at UNLV. Our nursing program is the oldest in southern Nevada and the only one in Nevada to offer a Ph.D. program. All of our graduate programs are web-based to allow for "anytime, anyplace" education, but may involve occasional visits to campus.

In our Masters of Science program, there are currently two tracks, the Family Nurse Practitioner Track, and the Nurse Educator Track. We also offer post-masters certificates in these areas. Family Nurse Practitioners provide primary care for individuals across the lifespan and many provide care to the indigent and uninsured populations. The Nurse Educator program prepares nursing students to teach nursing. This provides more qualified faculty so that all of the area nursing schools may increase their enrollment. The MS program is growing rapidly because of the great need for advanced practice nurses and nurse educators in Nevada. The master's program has full accreditation by the Commission on Collegiate Nursing Education (CCNE). The Master of Science in Nursing graduate program is designed to provide students pursuing a career in nursing the opportunity to acquire the knowledge, skills and abilities requisite to the safe, effective and efficient practice of nursing.

We also offer an on line Ph.D. in Nursing program. This program is research-focused and will help meet the need for more highly qualified faculty in Nevada and the surrounding states. If you are considering a position as a nurse educator and researcher, this web-based program may meet your needs. We are rapidly expanding our research activities and have a number of well-funded graduate assistant positions available for full time students. In this role, graduate students work closely with faculty on their research, teach undergraduate classes, or supervise students in the clinical setting. It is a wonderful opportunity to enhance your education.

The School of Nursing also offers a Doctorate of Nursing Practice (DNP) in collaboration with the University of Nevada, Reno (UNR). The UNDNP post-master's program is on-line and offers courses from UNLV as well as UNR. The DNP degree is a terminal professional practice degree and prepares graduates for advanced clinical practice and leadership roles to serve the health care needs of the people of Nevada, the nation, and the professional community. The collaborative UNDNP program is accredited by the Commission on Collegiate Nursing Education (CCNE).

I encourage you to read the catalog and explore our website to find out more about all of these programs and to visit us when you are in the Las Vegas area.

Carolyn Yucha, Ph.D., RN, CNE, Dean

Jillian Inouye, Ph.D., RN, Associate Dean for Research

Tish Smyer, DNSc, RN, CNE, Associate Dean for Academics

Dean

Yucha, Carolyn - Full Graduate Faculty

Professor; BS SUNY Albany; MS SUNY Buffalo; Ph.D. SUNY, Health Sciences Center, Syracuse, NY.

Associate Dean for Academic Affairs

Smyer, Tish - Full Graduate Faculty

Professor; BS, University of Arkansas Medical Center; MS University of California Los Angeles; DNSc University of California Los Angeles. *Rebel since 2006.*

Associate Dean for Research

Inouye, Jillian - Full Graduate Faculty

Professor; BS, University of Hawaii; MS, University of California; MA, University of Hawaii; PhD, University of Hawaii. *Rebel since 2013.*

Psychosocial Nursing Department Chair

Clark, Michele - Full Graduate Faculty

Associate Professor; B.S. University of California, San Francisco; M.S., Ph.D. University of Arizona. *Rebel since 2006.*

Physiological Nursing Department Chair

Alpert, Patricia - Full Graduate Faculty

Associate Professor; B.S., M.S., M.P.H. University of Hawaii; D.P.H. Loma Linda University. *Rebel since 1991.*

MSN Coordinator

Giddings, Michelle - Full Graduate Faculty

Assistant Professor; BSN, State University of New York; MSN, University of Nevada, Las Vegas; DNP, University of South Alabama. *Rebel since 2011.*

Ph.D. Coordinator

Clark, Michele - Full Graduate Faculty

Associate Professor; B.S. University of California, San Francisco; M.S., Ph.D. University of Arizona. *Rebel since 2006.*

DNP Coordinator

Sabo, Carolyn - Full Graduate Faculty

Professor; BS, MS University of Utah; Ed.D. Brigham Young University. *Rebel since 1984.*

Graduate Faculty

Angosta, Alona

B.S.N, M.S.N. University of Nevada, Las Vegas; Ph.D. University of Hawaii. *Rebel since 2005.*

Candela, Lori - Full Graduate Faculty

Associate Professor; BS Metropolitan State College; MS, University of Colorado; Ed.D. University of Southern California. *Rebel since 1999.*

Cyrkiel, Dianne - Associate Graduate Faculty

Lecturer; BSN, Indiana University; MSN, University of Texas. *Rebel since 2000.*

Doolen, Jessica - Full Graduate Faculty

Assistant Professor; BS, University of Nevada, Las Vegas; MS, University of Nevada, Las Vegas; PhD, University of Northern Colorado. *Rebel since 1994.*

Feng, Du - *Full Graduate Faculty*

Professor; BS, Peking University; MS, University of Southern California; PhD, University of Southern California. *Rebel since 2013.*

Gatlin, Tricia - *Full Graduate Faculty*

Assistant Professor; B.S.N, University of Memphis; M.S., University of Portland; PhD, University of Arizona. *Rebel since 2011.*

Gulliver, Kevin - *Associate Graduate Faculty*

Lecturer; BSN, MSN, University of Nevada, Las Vegas. *Rebel since 2003.*

Kawi, Jennifer - *Full Graduate Faculty*

B.S.N., Saint Louis University; M.S.N., University of Nevada, Las Vegas; Ph.D. University of Colorado, Denver. *Rebel since 2007.*

Leonard, Bruce - *Full Graduate Faculty*

Associate Professor; BSN, Oregon Health Sciences University; MSN, Seattle University; PhD, University of Texas. *Rebel since 2013.*

Maes, Cheryl - *Associate Graduate Faculty*

Lecturer; BS, MS University of Nevada, Las Vegas. *Rebel since 2004.*

Menzel, Nancy - *Full Graduate Faculty*

Associate Professor; BS Cornell University; MS Boston University; Ph.D. University of South Florida. *Rebel since 2006.*

St. Pierre Schneider, Barbara - *Full Graduate Faculty*

Associate Professor; BSN, LSUMC; MS, University of Washington; DNSc, UCLA. *Rebel since 2006.*

Tan, Rhigel - *Full Graduate Faculty*

Assistant Professor; B.S.N., Cebu City Medical Center College of Nursing; MN, Cebu Normal University; D.N.P. Rocky Mountain University of Health Professions. *Rebel since 2005.*

Thomason, Diane - *Full Graduate Faculty*

Assistant Professor; BSN, University of Washington; MSN, University of Washington; PhD, University of Washington. *Rebel since 2013.*

VanBeuge, Susan - *Full Graduate Faculty*

Assistant Professor; BS Pacific Lutheran University; MS University of Nevada Las Vegas; D.N.P. University of Utah. *Rebel since 2006.*

School of Nursing Plan

Advanced Graduate Certificate in Family Nurse Practitioner

Plan Description

Individuals who already have a master's degree in nursing, and meet the admission qualifications will be allowed to take courses as a non-degree student. No degree will be awarded, but a certificate documenting completion of the course work will be provided and transcripts showing completion of the courses will be available. Each individual applicant will be evaluated to determine the courses required in order to complete the specific certificate program. Additional courses beyond the minimum courses needed for the certificate program may be required if the applicant's earned MS in nursing lack courses required by the UNLV School of Nursing.

Learning Outcomes

www.unlv.edu/degree/post-ms-family-nurse-practitioner

Plan Admission Requirements

- Students must apply and submit all admission materials via the ApplyYourself system available through the Graduate College. The following items are required:
- Transcripts of all course work for both baccalaureate and masters degrees must be sent to the School of Nursing and Graduate College. Additionally, if unofficial transcripts are available to the student, please upload to the Apply Yourself application. Nursing course work must have been completed at a nursing program accredited by the National League for Nursing Accrediting Commission or Commission on Collegiate Nursing Education.
- Two letters of recommendation from either instructors or employers that speak to the applicant's potential to complete the Post-Master's FNP Certificate Program.
- Statement of 300 words describing the students' professional goals and reason for seeking a nurse practitioner certificate.
- Current resume or vita.
- Current valid RN license in state of residence.
- If admitted, submit a photo of self and current evidence of the following to the School of Nursing:
 - Health insurance.
 - Nurse practitioner student malpractice insurance.
 - Immunization record of vaccinations against Hepatitis B, Varicella, MMR, Tetanus Diphtheria or Tetanus Diphtheria Pertussis booster (TD/Tdap) and a 2 step TB screen.
 - CPR certification.
 - Health and physical clearance completed by a licensed healthcare provider.
 - A drug screen and background check (completed after admission to the program).
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 36

Course Requirements

- Required Courses – Credits: 36
 - NURS 703 - Advanced Physical Assessment
 - NURS 704 - Pathophysiology for Advanced Nursing Practice
 - NURS 714 - Family Theory and Assessment in Primary Care:
 - NURS 730 - Pharmacology in Primary Care
 - NURS 749 - Primary Care of the Family I
 - NURS 752 - Role of the Nurse Practitioner
 - NURS 759 - Primary Care of the Family II

- NURS 769 - Primary Care of the Family III

Certificate Requirements

- Completion of a minimum of 36 credit hours with a minimum GPA of 3.00.

Plan Certificate Completion Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.

Advanced Graduate Certificate in Pediatric Nurse Practitioner (On Hold)

Plan Description

Individuals who already have a master's degree in nursing, and meet the admission qualifications will be allowed to take courses as a non-degree student. No degree will be awarded, but a certificate documenting completion of the course work will be provided and transcripts showing completion of the courses will be available. Each individual applicant will be evaluated to determine the courses required in order to complete the specific certificate program. Additional courses beyond the minimum courses needed for the certificate program may be required if the applicant's earned MS in nursing lack courses required by the UNLV School of Nursing.

This pediatric nurse practitioner (PNP) post-master's certificate program will allow those who already hold a master's degree in nursing to return to UNLV to obtain specialization as a pediatric nurse practitioner.

Plan Admission Requirements

- Completed online Graduate College application.
- Two copies of official transcripts of all course work taken for both baccalaureate and master's degrees sent directly from the granting institutions to the School of Nursing (SON) and to the Graduate College.
- Upload into the online application:
 - Two letters of recommendation.
 - 300 word statement of goals and reasons for seeking a PNP post-master's certificate.
 - Current resume or vitae.
 - Current valid Nevada RN license or eligibility to obtain a Nevada RN license.
 - Health and malpractice insurance, Hepatitis B vaccination, negative drug screen, background check & a current BLS certificate.
- Students are expected to have basic computer skills, including word processing.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 35

Course Requirements

- Required Courses – Credits: 35
 - NURS 704 - Pathophysiology for Advanced Nursing Practice
 - NURS 714 - Family Theory and Assessment in Primary Care:

- NURS 730 - Pharmacology in Primary Care
- NURS 731 - Advanced Pediatric Health Assessment
- NURS 734 - Primary Care in Pediatrics: The Well Child and Adolescent
- NURS 744 - Primary Care in Pediatrics: Common Problems
- NURS 752 - Role of the Nurse Practitioner
- NURS 764 - Primary Care in Pediatrics: Chronic Conditions

Certificate Requirements

Completion of a minimum of 35 credit hours with a minimum GPA of 3.00.

Plan Certificate Completion Requirements

The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.

Master of Science - Nursing

Plan Description

The M.S.N. program currently offers two tracks: the Family Nurse Practitioner (NP) Track and the Nurse Educator (NE) Track. The role of the nurse practitioner (NP) is that of direct care provider. NPs practice in clinics, long-term care facilities, hospitals, physician offices, managed care corporations and private industries. NPs perform health histories and physical examinations, order and interpret diagnostic tests, diagnose and manage acute and chronic diseases, prescribe medication and treatments, provide patient and family counseling and education regarding lifestyle behaviors and self-care skills and participate in research projects and integrate research findings. The NP blends some aspects of medicine with nursing, using a nursing perspective. When required by state law, as it is in Nevada, NPs have collaborative relationships with physicians. Credentialing examinations, designed by specialty area, are available and required prior to practice in most states. The nurse practitioner track offers courses with the option for full-time and part-time study.

The nurse educator track prepares the graduate for a faculty position within a program of nursing or a nurse educator position in a clinical setting. The student will increase mastery related to teaching and learning and evaluation strategies, curriculum design, and the use of educational technologies. Via directed study and mentorship with experienced faculty, students will enhance clinical expertise in a selected specialty area. Graduate students will have the opportunity to supervise basic nursing students in clinical practice areas and/or work with nurse educators in clinical settings in the preparation, delivery and evaluation of educational programs for nurses. The nurse educator track is a year round program featuring full time and part time options for program completion.

Program Outcomes of the Master of Science Degree

- Upon completion of the program the graduate will complete the following core outcomes:
- Evaluate the principles, personal values, and beliefs that influence ethical decision making, which provides a framework for nursing practice.
- Communicate effectively as a health care professional, creating collaborative interdependent relationships and act as advocates for the nursing profession and client population.
- Incorporate nursing theory and evidence based practice in advanced nursing roles.
- Understand the influences of human diversity and social issues in providing culturally sensitive health promotion and disease prevention strategies in a global society.
- Assume a leadership role in the management of human, fiscal and physical health care resources to improve nursing practice and health care delivery.

Program Outcomes: Nurse Practitioner Track

- Competently assess, diagnose, prescribe, evaluate and create a holistic plan of treatment.
- Articulate the professional role, which includes the ethical code of conduct and scope of advanced practice.
- Develop and monitor comprehensive, holistic plans of care that address the health promotion and disease prevention needs of diverse client populations.
- Assess and monitor teaching/learning needs in a diverse client population. Practice ethically in the conduct of research, management and clinical professional practice.

Program Outcomes: Nurse Educator Track

- Utilize education research to continually improve teaching strategies/skills.
- Develop a teaching-learning style that facilitates learner development that meets the educational outcomes of the learner.
- Assess and evaluate at both the course and program level
- Function as a leader and change agent in nursing education settings.
- Participate in scholarship to further knowledge and abilities in nursing education.

Learning Outcomes: Family Nurse Practitioner

www.unlv.edu/degree/ms-nursing-family-nurse-practitioner

Learning Outcomes: Nurse Educator

www.unlv.edu/degree/post-ms-nurse-educator

Plan Admission Requirements

- Students are admitted to the program in the fall semester of each year based upon competitive selection. Students may enroll in selected (NURS 705, 706, and 713) classes as a non-degree student, but no more than seven credits of course work as a non-degree student will be accepted toward the degree.
- Students make simultaneous application to the Graduate College and the School of Nursing.
- Cumulative Grade Point Average (GPA) of 3.00 or a GPA of 3.00 in the last two years of undergraduate work. (Submit one copy of official transcripts from all previous college and professional schools to the Graduate College and one copy to the School of Nursing). The undergraduate nursing course work must have been completed at a nursing program accredited by the National League for Nursing Accrediting Commission or Commission on Collegiate Nursing Education.
- Completion of undergraduate courses in nursing research, physical assessment (as currently taught in the undergraduate program of nursing at UNLV), and a course in introductory statistics. All prerequisite courses must be completed with a grade of C (2.00) or better. It is expected that students possess basic computer word processing skills. If not, the student should seek that content prior to enrollment.
- Completion of a graduate level statistics course with a grade of “B” or better within five years prior to matriculation into the MSN program. (Example EPY 721 or KIN 751.)
- Two letters of recommendation from former instructors or employers that speak to the applicant’s potential to complete the graduate program must be submitted to the school. The evaluators should speak to the student’s professional nursing competency, including application of theory, quality of patient care, independent judgment when appropriate; relationship with team members such as nurses, physicians, and others; leadership skills; and personal responsibility and accountability.
- A current resumé or curriculum vita.
- Current valid RN license in state of residence. Students should submit a copy of their Nursing License with the word “copy” printed over the top.
- Accepted applicants must, prior to enrollment, show evidence of current health and malpractice insurance, proof of completion of the Hepatitis B Vaccine series, or a titer indicating presumptive immunity, proof of

varicella or a titer indicating presumptive immunity, or a statement from a health care provider indicating that vaccination is contraindicated for health reasons and validation of a negative drug screen and background check. Other immunization and health data requirements are identified in the student handbook.

- A statement of approximately 300 words describing the student's professional goals and reason for seeking graduate education.
- Students seeking admission to the FNP track must submit a resume or vita that demonstrates a minimum of one year clinical experience as a registered nurse.
- Students seeking admission into the Nursing Education Pathway are required to have completed one year of clinical practice prior to enrollment in the first nursing education practicum course (NURS 733).
- Selection into one of the approved pathways is based upon the applicant's qualifications (academic and professional), applicant's strengths as compared to other applicants, and upon the number of available openings.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Family Nurse Practitioner Track

Total Credits Required: 48-52

Course Requirements

- Required Courses – Credits: 46
 - NURS 703 - Advanced Physical Assessment
 - NURS 704 - Pathophysiology for Advanced Nursing Practice
 - NURS 705 - Roles in Advanced Practice Nursing
 - NURS 706 - Nursing Theory and the Research Process
 - NURS 707 - Nursing Research Methods and Utilization
 - NURS 713 - Health and Public Policy
 - NURS 714 - Family Theory and Assessment in Primary Care:
 - NURS 730 - Pharmacology in Primary Care
 - NURS 749 - Primary Care of the Family I
 - NURS 759 - Primary Care of the Family II
 - NURS 769 - Primary Care of the Family III
 - NURS 752 - Role of the Nurse Practitioner
- Culminating Experience
 - Complete one of the following culminating experiences:
 - Capstone Project – Credits: 2
 - NURS 766 - Capstone Seminar I
 - NURS 796 - Capstone Seminar II
 - Thesis – Credits: 6
 - NURS 799 - Thesis

Degree Requirements

- Maintain a cumulative grade point average of 3.00 or above each semester enrolled.
- Receive a grade of B (3.00) or above in all required cognate and nursing courses. If less than a B, for example a B- (2.70), is earned, the course must be repeated. The student must be in good standing to repeat a course and any required course may be repeated only one time.

- A student may register for a course only two times. A student who has registered for the same course twice and has withdrawn or received a grade less than B is ineligible for readmission unless approved by the UNLV Graduate College.
- If a student fails two courses or has withdrawn from two courses or received a grade less than B in two courses he/she is ineligible for readmission unless approved by the Graduate College.
- Complete a minimum of six semester hours in each calendar year.
- Continuously register for a minimum of three (3) semester hours of credit each semester while working on the thesis or capstone project.
- In order to maintain clinical competency the FNP student must continuously register for at least three (3) semester hours of NURS 773 (clinical practicum) each semester while working on the thesis or capstone project if all required clinical courses are complete.
- Residency Credits: No more than three courses (maximum 7 credits) may be transferred into the program. The MSN Coordinator and the Graduate College must approve transfer credit.
- Credit by Challenge Examination: Graduate courses with a 700 number or above may not be challenged for credit.
- Six-Year Completion Rule: All degree requirements must be completed within six calendar years from the date of matriculation. No credit may be used in an advanced degree program for course work completed more than six calendar years immediately preceding the term in which all degree requirements are completed.
- Graduation Requirements: Students have a choice of the catalog under which they wish to graduate. They may choose between: 1) the year of official matriculation, or 2) the year of graduation. Students are encouraged to meet the requirements of the current catalog.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Comprehensive Examination: Students in all tracks will be formally evaluated by an Examination Committee for their thesis or capstone project. (More detailed information is provided in the MSN Handbook.)
- Complete a thesis or capstone project.
- If completing a thesis:
 - The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
 - The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Nursing Education Track

Total Credits Required: 39

Course Requirements

- Required Courses – Credits: 33
 - NURS 706 - Nursing Theory and the Research Process
 - NURS 709 - Teaching and Learning in Nursing
 - NURS 710 - Evaluation Strategies For Nurse Educators
 - NURS 755 - Nursing Educator Role Development
 - NURS 707 - Nursing Research Methods and Utilization
 - NURS 724 - Developing Curriculum for Nursing Education
 - NURS 742 - Advanced Nursing Informatics

- NURS 723 - Specialty Focus for Nurse Educators
- NURS 733 - Nursing Practicum I
- NURS 713 - Health and Public Policy
- NURS 743 - Nursing Education Practicum 2
- Elective Courses – Credits: 3
 - Three credits of approved graduate electives must be taken by students selecting the professional paper option.
- Culminating Experience – Credits: 3-6
 - Complete one of the following culminating experiences:
 - Thesis – Credits: 6
 - NURS 799 - Thesis
 - Research Utilization Project – Credits: 6
 - NURS 795 - Research Utilization Project
 - Professional Paper – Credits: 3
 - NURS 793 - Nursing Education Professional Paper

Degree Requirements

- Maintain a cumulative grade point average of 3.00 or above each semester enrolled.
- Receive a grade of B (3.00) or above in all required cognate and nursing courses. If less than a B, for example a B- (2.70), is earned, the course must be repeated. The student must be in good standing to repeat a course and any required course may be repeated only one time.
- A student may register for a course only two times. A student who has registered for the same course twice and has withdrawn or received a grade less than B is ineligible for readmission unless approved by the UNLV Graduate College.
- If a student fails two courses or has withdrawn from two courses or received a grade less than B in two courses he/she is ineligible for readmission unless approved by the Graduate College.
- Complete a minimum of six semester hours in each calendar year.
- Continuously register for a minimum of three (3) semester hours of credit each semester while working on the thesis, professional paper, or research utilization project.
- In order to maintain clinical competency the FNP student must continuously register for at least three (3) semester hours of NURS 773 (clinical practicum) each semester while working on the thesis or capstone project if all required clinical courses are complete
- Residency Credits: No more than three courses (maximum 7 credits) may be transferred into the program. The MSN Coordinator and the Graduate College must approve transfer credit.
- Credit by Challenge Examination: Graduate courses with a 700 number or above may not be challenged for credit.
- Six-Year Completion Rule: All degree requirements must be completed within six calendar years from the date of matriculation. No credit may be used in an advanced degree program for course work completed more than six calendar years immediately preceding the term in which all degree requirements are completed.
- Graduation Requirements: Students have a choice of the catalog under which they wish to graduate. They may choose between: 1) the year of official matriculation, or 2) the year of graduation. Students are encouraged to meet the requirements of the current catalog.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Comprehensive Examination: Students in all tracks will be formally evaluated by an Examination Committee for their thesis, research utilization project, or professional paper. (More detailed information is provided in the MSN Handbook.)
- Complete a thesis, research utilization project, or professional paper.
- If completing a thesis:

- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Doctor of Nursing Practice

Plan Description

The Doctor of Nursing Practice (DNP) is a terminal professional practice degree. The goal of the collaborative University of Nevada at Reno and Las Vegas, DNP program is to prepare nurses to assume leadership roles in clinical practice, administration, clinical teaching, and clinical research. The DNP differs from the PhD in Nursing or Doctor of Nursing Science degrees, emphasizing advanced clinical practice, implementation of best practices, and evaluation of practice and care delivery models rather than individually initiated research. The DNP program prepares graduates for advanced clinical practice and leadership roles to serve the health care needs of the people of Nevada, the nation, and the professional community. DNP graduates are equipped to assume a wide range of leadership roles in both direct and indirect health care settings. DNP graduates may function as specialists in their advanced practice clinical roles, nursing faculty, or as healthcare executives, program and policy analysts.

DNP Program Objectives:

- The goal of the DNP degree is to prepare nurses to assume leadership roles in clinical practice, clinical teaching, and health care analysis. At the conclusion of the University of Nevada DNP program, graduates will:
- Provide advanced nursing care to improve patient and population health care outcomes in various direct and indirect settings.
- Take leadership roles in the analysis, delivery and management of nursing care and health care systems.
- Provide evidence-based practice through the application of analytical methods, information systems technology, and clinical research.
- Collaborate with interprofessional teams to meet the healthcare needs of culturally and ethnically diverse individuals and populations.
- Act as change agent, leader, and advocate in the design, implementation, and evaluation of health care policy as it affects populations and the nursing profession.

Learning Outcomes

www.unlv.edu/degree/dnp

Plan Admission Requirements

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements .

Advanced Practice Track:

- Hold a baccalaureate in nursing from an accredited NLNAC or CCNE nursing program.
- Hold a master's degree in nursing (MSN or MN). Exceptions to this will be made on a case-by-case basis and only for those students who hold a Bachelor of Science in Nursing with a master's degree in another health-related field (e.g., MPH, MHA, etc.). Coursework from non-nursing master's degree must have significant content from nursing or a nursing focus. At a minimum, graduate level coursework must demonstrate a substantial study of Nursing Theory, Research, and Health Policy.

- Have completed graduate-level course work with a grade of B or better in advanced pathophysiology, pharmacology, physical assessment, nursing theory, research, and healthcare policy.
- Have a cumulative grade point average (GPA) of 3.5 or higher at the graduate level.
- Have completed graduate-level course work with a grade of B or better in nursing theory, research and healthcare policy.
- Hold an unencumbered license as a registered nurse and as an advanced practice nurse commensurate with state licensure.
- Hold national certification in an advanced practice role from a nationally recognized certification/credentialing organization.

Nurse Executive Track:

- Hold a baccalaureate in nursing from an accredited NLNAC or CCNE nursing program.
- Students must hold a master's degree in nursing (MSN or MN). Exceptions to this will be made on a case-by-case basis and only for those students who hold a Bachelor of Science in Nursing with a master's degree in another health-related field (i.e. MBA, MHA, MPH etc.). Coursework from non-nursing master's degree must have significant content from nursing or a nursing focus. At a minimum, graduate level coursework must demonstrate a substantial study of Nursing Theory, Research, and Health Policy.
- Have a cumulative grade point average (GPA) of 3.5 or higher at the graduate level.
- Have completed graduate-level course work with a grade of B or better in nursing theory, research and healthcare policy.
- Hold an unencumbered license as a registered nurse.
- Hold national certification or eligibility for certification reflective of advanced practice in a leadership role from a nationally recognized certification/credentialing organization.
- Provide documentation of at least 500 hours of practice in a leadership role from educational experience, practice experience or equivalent course work in the area of administration, e.g., MBA, MHA, MPH, etc.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Advanced Practice Track

Total Credits Required: 39

Course Requirements

- Required Courses – Credits: 33
 - NURS 719R - Health & Public Policy for Advanced Practice of Nursing
 - NURS 725 - Scientific Underpinnings of the DNP in Advanced Practice Nursing
 - NURS 728R - Analysis of Health Organizations
 - NURS 729R - Translational Evidence for Healthcare Systems
 - NURS 732 - Economics of Healthcare Delivery
 - NURS 745 - Healthcare Information Systems & Technology
 - NURS 765 - DNP Residency
 - NURS 767 - Collaboration, Communication & Negotiation for the Nurse Leader
 - NURS 768 - DNP Forum & Role Transformation
 - NURS 772 - The Nurse as Leader
 - NURS 778 - Geographic Information Systems for Health
 - NURS 792 - Outcomes Management & Performance Improvement in Nursing
- DNP Project – Credits: 6

- NURS 786 - DNP Project: Planning
- NURS 787 - DNP Project: Implementing
- NURS 788 - DNP Project: Defense

Degree Requirements

- Complete 39 credits with a minimum GPA of 3.00.
- Maintain a cumulative grade point average of 3.00 or above each semester enrolled.
- Receive a grade of “B” (3.00) or above in all required cognate and nursing courses. If less than a “B”, for example a B- (2.7) is earned, the course must be repeated. The student must be in good standing to repeat a course and any required course may be repeated only one time.
- A student may register for a course only two times. A student who has registered for the same course twice and has withdrawn or received a grade less than “B” is ineligible for readmission unless approved by the Graduate College.
- If a student fails two courses or has withdrawn from two courses or received a grade less than “B” in two courses he/she is ineligible for readmission unless approved by the Graduate College.
- Complete a minimum of six (6) semester hours in each calendar year.
- Each student, upon admission, will be assigned an advisor. The advisor (and later the Advisory Committee including the chair of the Advisory committee if in place) will plan the student’s entire degree program of study and submit it to the Graduate College by the end of the second semester of enrollment. The degree program requires the approvals of the student, advisor, and the DNP Coordinator, the appropriate academic dean, and the Graduate Dean.
- The Advisor monitors the student’s progress through the program of study. In addition, the DNP Coordinator will monitor the student’s progress, including adherence to all established policies of the Graduate College. At any given time, the student can request a change of advisor or chair of Advisory Committee. However, it is the student’s responsibility to secure approval of an individual faculty member who agrees to serve as his or her advisor before changing the original advisor, subject to Graduate College approval. Also, it is the student’s responsibility to make sure that his or her chosen advisor or chair has current full graduate faculty status at UNLV, which can be checked at: <http://graduatecollege.unlv.edu/facstaff/status.html>.
- Students will select a chair for their DNP Project committee in the first semester and be required to file the Committee Appointment Form with the DNP coordinator when this is completed. More specific information about the DNP Project will be discussed in the courses it is embedded in the program.
- In consultation with his/her advisor, a student will organize an advisory committee of at least two departmental members. In addition, a third member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department’s discretion. Please see Graduate College policy for committee appointment guidelines.
- Continuously register for three (3) semester hours of credit each semester while working on a DNP Project.
- Students are enrolled in the UNLNP program as a ‘cohort’. The program is a 5-semester prescribed program and students are expected to matriculate along with the cohort starting from the 1st semester until completion. In instances where students are not with their cohort for extenuating circumstances, they will need to continue to take a minimum of 3 credits per semester for both fall and spring semesters to maintain their place in the program until graduation. A leave of absence may be requested by students.
- The DNP Project is a culmination project based on guidelines from the American Association of Colleges of Nursing (AACN) DNP essentials. This is a project completed over semesters 2, 4 and 5 in the program. Students must complete each semester of the DNP Project to progress in the program. Each student will create, present and defend a DNP Project proposal in the 2nd semester. This must be successfully completed in the semester to progress. Students will complete a project, write a final paper and defend the project in the 5th semester with full committee approval obtained for graduation from the UNLNP program according to the individual ‘home’ school Graduate College (UNLV and UNR) requirements.
- Progression in the DNP Project experience from each course must be completed in order. For students who do not progress in the stated progression, the DNP Project Progression Policy will be followed. Please refer to the UNLV DNP Online Program page, the DNP Project Handbook, or the UNLV DNP Coordinator for a copy of the policy.

- Students in the DNP program are required to abide by the policies for UNLV School of Nursing and UNR Orvis School of Nursing. Students in the DNP program are also required to abide by the policies of the UNLV Graduate College and University as well as the UNR Orvis School of Nursing and UNR Graduate College.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Nurse Educator Track

Total Credits Required: 39

Course Requirements

- Required Courses – Credits: 33
 - NURS 719R - Health & Public Policy for Advanced Practice of Nursing
 - NURS 725 - Scientific Underpinnings of the DNP in Advanced Practice Nursing
 - NURS 728R - Analysis of Health Organizations
 - NURS 729R - Translational Evidence for Healthcare Systems
 - NURS 732 - Economics of Healthcare Delivery
 - NURS 745 - Healthcare Information Systems & Technology
 - NURS 763 - Management Strategies for Nursing & Healthcare Systems
 - NURS 765 - DNP Residency
 - NURS 767 - Collaboration, Communication & Negotiation for the Nurse Leader
 - NURS 768 - DNP Forum & Role Transformation
 - NURS 772 - The Nurse as Leader
 - NURS 792 - Outcomes Management & Performance Improvement in Nursing
- DNP Project – Credits: 6
 - NURS 786 - DNP Project: Planning
 - NURS 787 - DNP Project: Implementing
 - NURS 788 - DNP Project: Defense

Degree Requirements

- Complete 39 credits with a minimum GPA of 3.00.
- Maintain a cumulative grade point average of 3.00 or above each semester enrolled.
- Receive a grade of “B” (3.00) or above in all required cognate and nursing courses. If less than a “B”, for example a B- (2.7) is earned, the course must be repeated. The student must be in good standing to repeat a course and any required course may be repeated only one time.

Students in the DNP program are also required to abide by the policies of the UNLV Graduate College and University as well as the UNR Orvis School of Nursing and UNR Graduate College.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

- Submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her DNP Project by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy project to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Doctor of Philosophy - Nursing

Plan Description

Individuals who complete the Ph.D. in Nursing Program will be prepared for roles as leader, scholar/researcher, and educator in academia, the health care industry, or government and private organizations focused on health care. Graduates will demonstrate the following program outcomes:

Provide leadership in the advancement of nursing as a scientific and practice discipline through the conduct of culturally competent scholarship and identification of implications for policy, the discipline, and the profession.

Conduct and communicate original research that generates new knowledge.

Develop, implement and evaluate innovative approaches to teaching and learning.

Course Offerings

Doctoral courses offered by the School of Nursing are web-based. However, students are required to be on campus three days at the beginning of the first semester of enrollment. These meeting times and dates are set in advance to allow students adequate time to plan their schedules and most likely occur on Friday and/or Saturday. Students are also required to be on campus for their oral comprehensive exams, proposal defense, and final dissertation defense.

Programs of Study

There are three options in the current Ph.D. in Nursing Program: Nursing Education Track, Sustainable Health Track, and the Post-D.N.P. to Ph.D. Track. The UNLV School of Nursing (SON) Ph.D. in Nursing Curriculum Framework outlines the shared required core courses in the Ph.D. Nursing Program.

Learning Outcomes: Nursing Education

www.unlv.edu/degree/phd-nursing-education

Learning Outcomes: Post D.N.P to Ph.D.

www.unlv.edu/degree/phd-nursing-post-dnp

Learning Outcomes: Sustainable Health

www.unlv.edu/degree/doctor-philosophy-nursing-sustainable-health

Plan Admission Requirements

- Admission into the nursing doctoral program is contingent upon the qualifications of the applicant and the availability of open positions. Students are admitted once a year in the fall. Applicants must have submitted all required materials by the deadline posted on the School of Nursing website.
- For the Post-D.N.P. to Ph.D. Track an earned Doctorate in Nursing Practice degree from a program accredited by the National League for Nursing Accrediting Commission or the Commission on Collegiate Nursing Education is required. In addition to the required courses below, students must have 17 units from an accredited DNP program.
- Earned master's degrees in nursing (MSN) from programs accredited by the National League for Nursing Accrediting Commission or the Commission on Collegiate Nursing Education; persons educated outside the United States need to demonstrate proof of equivalent education and advanced degrees.

- Persons holding a bachelor's degree in nursing and master's degree in a health-related discipline from an accredited institution are eligible for admission but will need to successfully complete the following courses, or their equivalents, from the MSN program prior to taking doctoral courses:
 - NURS 705 or NURS 755
 - NURS 706
 - NURS 707
 - NURS 713
- A minimal grade point average of 3.5 (4.0 = A) earned in a nursing or health-related master's program of study.
- Successful completion of graduate course work in statistics and research with a B or better prior to admission.
- Licensed as a Registered Nurse in at least one state or territory of the US.
- Applicants must present GRE scores on verbal, quantitative and analytic measures. The exam must have been taken within the last five years.
- Three letters of recommendation are required from individuals who can evaluate the applicant's motivation, academic capability, scholarship potential, and personal integrity for doctoral study in nursing.
- Evidence of current health and malpractice insurance. Accepted applicants must, prior to enrollment, show proof of completion of the Hepatitis B vaccine series, a titer indicating presumptive immunity, or a statement from a health care provider indicating that vaccination is contraindicated for health reasons and validation of a negative drug screen. Other immunization and health data requirements are identified in the student handbook.
- Applicants must submit the following written materials for review:
 - Two representative samples of scholarly work (e.g., thesis, demonstration project, publications, etc.).
 - Written statement of personal career, educational and scholarship goals including identification of research interests. The applicant's research interests must be within the realm of our faculty expertise in order to pursue a doctoral degree in this program.
 - Curriculum Vita or resume.
- Applicants are required to participate in an interview with members of the Admissions Committee, either in person or by telephone.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below

Subplan 1 Requirements: Nursing Education Track

Total Credits Required: 62

Course Requirements

- Core Courses – Credits: 32
 - NURS 709 - Teaching and Learning in Nursing
 - NURS 770 - Knowledge Development in Nursing
 - NURS 771 - Theory Development in Nursing
 - NURS 772 - The Nurse as Leader
 - NURS 775 - Statistical Methods for Nursing Research I: Univariate Methods
 - NURS 776 - Statistical Methods for Nursing Research II: Multivariate Methods
 - NURS 779 - Writing a Research Grant Application
 - NURS 780 - Quantitative Methods in Nursing

- NURS 781 - Qualitative Research Methods in Nursing
- NURS 785 - Special Topics in Nursing Research
- NURS 789 - Independent Study
- Nursing Education Courses – Credits: 18
 - NURS 710 - Evaluation Strategies For Nurse Educators
 - NURS 724 - Developing Curriculum for Nursing Education
 - NURS 733 - Nursing Practicum I
 - NURS 774 - Educational Theory and Philosophy for Nursing
 - NURS 790 - Independent Teaching Practicum Seminar
 - NURS 791 - Independent Teaching Practicum
- Dissertation – Credits: 12
 - NURS 797 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Sustainable Health Track

Total Credits Required: 62

Course Requirements

- Core Courses – Credits: 32
 - NURS 709 - Teaching and Learning in Nursing
 - NURS 770 - Knowledge Development in Nursing
 - NURS 771 - Theory Development in Nursing
 - NURS 772 - The Nurse as Leader
 - NURS 775 - Statistical Methods for Nursing Research I: Univariate Methods
 - NURS 776 - Statistical Methods for Nursing Research II: Multivariate Methods
 - NURS 779 - Writing a Research Grant Application
 - NURS 780 - Quantitative Methods in Nursing
 - NURS 781 - Qualitative Research Methods in Nursing
 - NURS 785 - Special Topics in Nursing Research
 - NURS 789 - Independent Study
- Sustainable Health Courses – Credits: 18
 - NURS 778 - Geographic Information Systems for Health
 - NURS 782 - Sustainable Health: Clinical Perspectives
 - NURS 783 - Economics of Sustaining Health
 - NURS 784 - Sustainable Health and Public Policy
 - NURS 777 - Individualized Study/Dissertation Seminar
- Dissertation – Credits: 12
 - NURS 797 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: Post-D.N.P. to Ph.D. Track

Total Credits Required: 45

Course Requirements

- Core Courses – Credits: 33
 - NURS 770 - Knowledge Development in Nursing
 - NURS 771 - Theory Development in Nursing
 - NURS 775 - Statistical Methods for Nursing Research I: Univariate Methods
 - NURS 776 - Statistical Methods for Nursing Research II: Multivariate Methods
 - NURS 779 - Writing a Research Grant Application
 - NURS 780 - Quantitative Methods in Nursing
 - NURS 781 - Qualitative Research Methods in Nursing
 - NURS 785 - Special Topics in Nursing Research
 - NURS 789 - Independent Study
- Dissertation – Credits: 12
 - NURS 797 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Degree Requirements

- Complete the minimum credits required.
- Upon approval of the Graduate Coordinator, students in the Nursing Education Track who completed NURS 709, 710, 724, and 733 or equivalent course work during either their masters' or postmasters' education are required to complete a minimum of 50 credits of required course work.
- A grade point average of 3.0 must be maintained in all courses required for the degree; no grade less than B is acceptable for curricular completion of the program.
- Upon admission, each student will be assigned to the Ph.D. coordinator as their initial academic advisor who will plan the student's entire program of study. Approved courses will include those taught in other disciplines but must relate to the student's area of research.
- After the student has selected a research topic, the student will select an advisor based on research focus and needs. Upon student recommendation, faculty acceptance, and approval from both the Ph.D. Coordinator and the Graduate College, the advisor will be changed.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Upon completion of all required course work other than dissertation and research seminar, each student must take a written Comprehensive Examination that will assess a doctoral student's readiness to begin the

doctoral dissertation. Specifically, the examination will evaluate a student's written and oral articulation of a possible dissertation research focus or problem. Upon successful completion of the comprehensive exam, the student achieves candidacy and may register for dissertation credits and begin dissertation proposal development followed by independent dissertation study.

- Students who do not successfully complete the exam will be placed on academic probation.
- Failure to successfully complete the exam or meet the requirements of academic probation will result in separation.
- Upon successfully completing the comprehensive examination and proposal defense, the student submits a dissertation prospectus to his/her committee for approval. After approval, the student submits a "Prospectus Approval Form" to the Graduate College. The student's major advisor and dissertation committee are responsible for the student's progression through the dissertation.
- Upon completion of the dissertation, the student must pass a final oral examination which involves the successful defense of the dissertation study. All dissertation committee members must be present for this examination and may question the student following presentation of the study. The defense will be scheduled and conducted in accordance with the Graduate College's policies for dissertation completion.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

School of Nursing Courses

NURS 501 - Critical Care Nursing

Credits 6

This course provides RNs a beginning understanding of Critical Care Nursing and the knowledge required within this role. The student will be prepared to work in critical care settings, including ICU, CCU, Recovery Room or the Emergency Room. The course is composed of online didactic content, laboratory skills practice, simulation experience and clinical internship.

NURS 622 - AIDS: An Interdisciplinary Perspective

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

NURS 654 - Introduction to Forensic Nursing

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

NURS 675 - Nursing Systems Management

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

NURS 676 - Introduction to Nursing Case Management

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

NURS 677 - Nursing Case Management Systems

This course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

NURS 703 - Advanced Physical Assessment**Credits 3**

Focuses on expanding the skills necessary to do a comprehensive physical assessment. Emphasis on developing advanced techniques in history taking and physical examination to prepare the student for clinical course as a nurse practitioner. Correlation of assessment findings with pathophysiological processes to develop differential diagnosis is presented. **Prerequisites:** Admission to Graduate Program or consent of instructor.

NURS 704 - Pathophysiology for Advanced Nursing Practice**Credits 3**

Emphasis on physiologic mechanisms of disease from a cellular perspective. Cellular pathophysiology of disease as it translates into clinical signs and symptoms manifested by the patient. Physiology of growth and development and the physiology of aging as they contrast with pathophysiologic mechanisms of disease. **Prerequisites:** Admission into the graduate program in nursing or consent of instructor.

NURS 705 - Roles in Advanced Practice Nursing**Credits 1**

Introduces specialty areas within advanced practice nursing. Differentiates between characteristics of each specialty area. **Prerequisites:** Consent of Graduate Program Advisor.

NURS 706 - Nursing Theory and the Research Process**Credits 3**

Examines nursing theories/models and their role in practice, research and education. Emphasizes the structure, building and testing of nursing knowledge. Discussion of the research process. **Prerequisites:** Graduate standing.

NURS 707 - Nursing Research Methods and Utilization**Credits 3**

Examines qualitative and quantitative nursing research methods, research utilization and skills for critical evaluation of nursing research. Evaluation of research findings for evidence-based practice or thesis approach to scholarly inquiry also emphasized. **Prerequisites:** NURS 706

NURS 709 - Teaching and Learning in Nursing**Credits 3**

Explores traditional and alternative teaching and learning concepts, skills, and strategies. Emphasis is on competencies of an educator. **Prerequisites:** Admission to the Graduate Nursing Program or Certificate Program for Nurse Educators.

NURS 710 - Evaluation Strategies For Nurse Educators**Credits 3**

Develops formative/process and summative/outcome evaluations for patients, students, peers and programs using both traditional and alternative evaluation strategies. Experience in evaluating outcomes and processes of education within the context of nursing specialty area. **Prerequisites:** Admission to the Graduate Nursing Program or Certificate Program for Nurse Educators.

NURS 713 - Health and Public Policy**Credits 3**

Examines selected health problems from a political, cultural, social, educational, environmental, economic and ethical perspective. Analysis of research and public policy relevant to the prevention, treatment and amelioration of the problems. Initiate change strategies to impact public policy related to the selected problems. **Prerequisites:** Consent of Graduate Program Advisor.

NURS 714 - Family Theory and Assessment in Primary Care:**Credits 3**

Study of advanced and emerging theory in family nursing science, determinants of family health, and research in family systems in the context of society and culture. Emphasis on family as client. Applies theory to phenomena in family and child health. **Prerequisites:** Graduate standing.

NURS 719R - Health & Public Policy for Advanced Practice of Nursing**Credits 3**

Prepares nursing leaders to analyze and influence health policy. Defines problems, critiques potential solutions, assesses political influences, designs interventions for policy-making, and evaluates outcomes. **Prerequisites:** Completion of the first 2 terms in the DNP program or permission of instructor.

NURS 720 - Functionality of the GNP Role**Credits 3**

Focuses on roles of GNP as expert practitioner, educator, consultant, clinical researcher and systems manager in primary, secondary and tertiary practice settings. Uses bio-psycho-social, spiritual, cultural perspectives and epidemiology data to examine communication, developmental and intergenerational issues in the care of older adults. **Notes:** (3 hours/week practicum). **Prerequisites:** NURS 705 and acceptance into the Gerontological Nurse Practitioner pathway.

NURS 722 - Integrative Health Care**Credits 3**

Exploration of healing and wholeness as a philosophy for advanced nursing practice. Examination and evaluation of healing modalities that can be utilized for health promotion and treatment of common health problems.

Prerequisites: NURS 705, NURS 706

NURS 723 - Specialty Focus for Nurse Educators**Credits 4**

Advanced knowledge in nursing specialty area of choice. Under the direction of a nursing faculty mentor, examines interrelationships between theory, practice, and research within specialty area. Includes independent study lab and seminar. **Prerequisites:** Admission to the Graduate Nursing Program or Certificate Program for Nursing Educators.

NURS 724 - Developing Curriculum for Nursing Education**Credits 3**

Develop curriculum for educational programs in schools of nursing and clinical agencies. Clinical specialty area and intended practice setting serve as context for course assignments. **Prerequisites:** Admission to the Graduate Nursing Program or Certificate Program for Nursing Educators.

NURS 725 - Scientific Underpinnings of the DNP in Advanced Practice Nursing**Credits 2**

Articulates and supports a role for the nursing doctorate to prepare nurse leaders within the discipline of nursing.

Prerequisites: Admission to the DNP Program.

NURS 727 - Nursing Management: Organizational Level**Credits 3**

Analysis of theories and goals of nursing management, the processes and resources utilized for goal achievement, and the various systems which impact nursing care delivery. **Prerequisites:** NURS 706, NURS 707, and NURS 713

NURS 728R - Analysis of Health Organizations**Credits 2**

An introduction to the analysis of the health/human service organization as a particular type of complex organization. **Prerequisites:** Admission to the DNP Program or permission of instructor.

NURS 729R - Translational Evidence for Healthcare Systems**Credits 3**

Critical analysis and synthesis of the literature and available data to determine and implement evidence-based science into healthcare practice. **Prerequisites:** Admission to the DNP Program.

NURS 730 - Pharmacology in Primary Care**Credits 3**

Focuses on the clinical application of pharmacologic and pharmacy kinetics principles in the management of selected health problems of adults and children. Focuses on drugs commonly used for adults and children in primary care settings. **Prerequisites:** NURS 704

NURS 731 - Advanced Pediatric Health Assessment

Credits 3

Focuses on advanced concepts in the physical, social, cognitive and developmental assessment of infants, children, and adolescents. Physical assessment specific to each age group will be studied. Students will also explore several selected developmental screening tools. **Notes:** Three hours/week of precepted clinical/lab. **Prerequisites:** Graduate standing in PNP track.

NURS 732 - Economics of Healthcare Delivery

Credits 3

Addresses basic concepts and techniques for financial management as it relates to clinical practice, clinical teaching, and research in healthcare programs and organizations. **Prerequisites:** Completion of the first term courses in the DNP program or permission of the instructor.

NURS 733 - Nursing Practicum I

Credits 3

Applies strategies and concepts of the nurse educator role in a practice setting of choice and within the context of clinical specialty area. **Prerequisites:** NURS 709, NURS 710, and NURS 723.

NURS 734 - Primary Care in Pediatrics: The Well Child and Adolescent

Credits 6

Primary care of children and adolescents, specifically, advanced nursing assessment and interventions designed to promote the wellness of children aged 0 through adolescents are emphasized. Includes screening anticipatory guidance and health promotion strategies. **Notes:** Twelve hours of precepted practicum per week.

Prerequisites: NURS 704 and NURS 731.

NURS 740 - The GNP Role in Wellness Management: Primary Prevention

Credits 6

Theoretical and clinical basis of primary prevention for older adults. Focuses on concepts of health promotion, maintenance, screening, teaching, advocacy and financing. Exploration of essential nutrition needs, lifestyle and living patterns of non-institutionalized older adults. Clinical management includes algorithm, protocols and health maintenance flow sheets. **Notes:** (12 hours/week practicum). **Prerequisites:** NURS 703, NURS 704, NURS 720, and NURS 730.

NURS 742 - Advanced Nursing Informatics

Credits 2

Analyze the use of computer and information science and systems to manage and process data, information and knowledge in nursing education. **Notes:** Nursing specialty serves as the context for course assignments.

Prerequisites: Admission to the Graduate Nursing Program or Certificate Program for Nurse Educators.

NURS 743 - Nursing Education Practicum 2

Credits 4

Second practicum to apply and evaluate strategies and concepts of the nurse educator role in a practice setting of choice and within the context of clinical specialty area. **Prerequisites:** NURS 709, NURS 710, NURS 723 and NURS 733.

NURS 744 - Primary Care in Pediatrics: Common Problems

Credits 7

Research-based assessment, diagnosis, management and evaluation of common acute health problems affecting children from infancy through adolescence. **Notes:** Nine hours per week of precepted practicum. **Prerequisites:** NURS 731 and NURS 734.

NURS 745 - Healthcare Information Systems & Technology

Credits 3

Leadership models for nurse educator, advanced practice, or management roles. Mentorship, service, knowledge dissemination and impact of diversity on ethical leadership practices are included. **Prerequisites:** Completion of the second term of the DNP Program or permission of the instructor.

NURS 749 - Primary Care of the Family I**Credits 7**

Theoretical and clinical bases of primary and secondary prevention for families across the lifespan. Focuses on health maintenance, teaching, screening, and clinical management of common acute health problems. Emphasis on wellness management, differential diagnoses, and pharmacologic/non-pharmacologic treatment options. **Notes:** (15 hours/week clinical). **Prerequisites:** NURS 703, Basic Life Support Certification and current malpractice insurance.

NURS 750 - The GNP Role in Acute Illness Management: Secondary Prevention**Credits 6**

Theoretical and clinical basis of secondary prevention (acute care) for older adults. Focuses on clinical management of common acute health problems encountered in an inpatient or outpatient setting, stressing differential diagnosis and pharmacologic/non-pharmacologic treatment options. **Prerequisites:** NURS 740

NURS 752 - Role of the Nurse Practitioner**Credits 2**

Assists the student in transitioning into the role of the practicing nurse practitioner. Focuses on ethical decision making, legal issues, various practice plans, billing, credentialing and legal certification requirements for practice. **Prerequisites:** Concurrent enrollment in NURS 769.

NURS 755 - Nursing Educator Role Development**Credits 2**

Explores the role of the nurse educator including development in the areas of teaching, research, and service. Examines interpersonal dynamics and team-work in academic and practice settings, functioning within institutional expectations, developing a teaching portfolio, legal issues, and future directions in nursing education.

NURS 757 - Field Study in Nursing Management**Credits 3**

Application and testing of existing theories and processes of management in the delivery of nursing services. Projects carried out under the guidance of a nursing faculty member, in collaboration with a preceptor in a clinical agency. **Prerequisites:** NURS 727

NURS 759 - Primary Care of the Family II**Credits 8**

Theoretical and clinical basis for secondary and tertiary prevention interventions across the lifespan. Focuses on clinical management of common acute health problems. Students examine the individual, familial and societal impact of chronic and terminal illness. Emphasis on differential diagnosis, clinical management and identification/utilization of community resources. **Notes:** (15 hours of clinical per week). **Prerequisites:** Successful completion of NURS 749/ NURS 749L

NURS 760 - The GNP Role in Chronic Illness Management: Primary, Secondary and Tertiary Prevention**Credits 8**

Focuses on chronic illness management of the older adult in primary, secondary and/or tertiary settings. Seminar presentations include research and practice protocols. Practicum involves increased independence under supervision of on-site preceptors and clinical instructor. **Notes:** (15 hours/week practicum). **Prerequisites:** Successful completion of NURS 750.

NURS 762 - Integrative Health Care Practicum I**Credits 3**

Development of skill in mind-body therapies. Exploration and evaluation of providers of complementary therapies in the community that enables the student to develop a knowledge base regarding appropriate therapies for common health problems. **Prerequisites:** NURS 722

NURS 763 - Management Strategies for Nursing & Healthcare Systems

Credits 3

Analysis and application of human resource management, public relations, and marketing strategies for effective and efficient use of human talent to accomplish organizational goals. **Prerequisites:** Completion of term 3 of DNP Program.

NURS 764 - Primary Care in Pediatrics: Chronic Conditions

Credits 8

Research based assessment, diagnosis, management and evaluation of common developmental and behavioral problems affecting children and families. **Notes:** Nine hours of precepted clinical experience in primary care per week. **Prerequisites:** NURS 714, NURS 744.

NURS 765 - DNP Residency

Credits 4

Residency to apply program concepts and develop and implement strategies for practice-level and/or system-wide practice initiatives to improve the quality of care. **Prerequisites:** Completion of term 4 course work for DNP Program.

NURS 766 - Capstone Seminar I

Credits 1

Capstone seminar provides students with the opportunity to synthesize core and major coursework completed during the program of graduate study. Capstone seminar I, the first of two capstone credits, culminates in the submission of the first written draft of the capstone project. The capstone is fully developed in capstone II. **Prerequisites:** NURS 706 and NURS 707.

NURS 767 - Collaboration, Communication & Negotiation for the Nurse Leader

Credits 2

The utilization of collaboration, communication and negotiation for implementation of practice models, peer review, practice guidelines, health policy, standards of care, and other scholarly products. **Prerequisites:** NURS 786 DNP Project: Planning for Change.

NURS 768 - DNP Forum & Role Transformation

Credits 2

Examination of issues and challenges in the DNP role and skills and strategies to conceptualize, articulate, plan, and actualize a career as a nurse leader. **Prerequisites:** Completion of term 4 course work for DNP Program.

NURS 769 - Primary Care of the Family III

Credits 8

This final clinical seminar focuses on continued clinical expertise and relies on the knowledge and skills learned in previous courses. Students gain skill in providing care to families with increasing independence under the supervision of a preceptor and clinical instructor. (1 credit of seminar = 2 contact hours, 7 credits of clinical = 21 contact hours of clinical per week. **Prerequisites:** Successful completion of NURS 749/NURS 749L and NURS 759/NURS 759L.

NURS 770 - Knowledge Development in Nursing

Credits 3

Offers a disciplinary context for doctoral study in nursing. The history and evolution of nursing knowledge is examined. Emphasis is on debates regarding what is known and how it is known. **Prerequisites:** Enrollment in nursing doctoral program.

NURS 771 - Theory Development in Nursing

Credits 3

Theoretical frameworks that guide the development of nursing knowledge. The methods and processes of theory development are analyzed. **Prerequisites:** Enrollment in doctoral program.

NURS 772 - The Nurse as Leader**Credits 3**

Leadership models as templates for nurse leader. Factors that influence leadership will be explored. **Prerequisites:** Enrollment in the nursing doctoral program.

NURS 773 - Clinical Practicum**Credits 3 - 6**

Designed for students continuing a clinical practicum while completing NURS 795/799/796. Students enrolled in this clinical practicum course must register for at least 3 credits (this translates to at least nine hours of clinical per week) but no more than six credits in any one semester. **Notes:** May be repeated up to three consecutive semesters but a student may not take more than a total of nine credits. **Prerequisites:** Successful completion of NURS 769/NURS 769L.

NURS 774 - Educational Theory and Philosophy for Nursing**Credits 3**

Explores traditional and contemporary philosophies and theories of education within the context of societal development. Examines the role of educational theory and philosophy within nursing education. **Prerequisites:** Enrollment in the nursing doctoral program.

NURS 775 - Statistical Methods for Nursing Research I: Univariate Methods**Credits 3**

Designed to provide students with skills necessary to understand, interpret, and conduct descriptive and univariate analysis relevant to the field of nursing. Students will gain practical experience examining real-world data sets using SPSS software. **Prerequisites:** Enrollment in the nursing doctoral program; successful completion of introductory graduate level statistics course.

NURS 776 - Statistical Methods for Nursing Research II: Multivariate Methods**Credits 3**

Focuses on multivariate methods useful for the field of nursing research. Students will be expected to complete a capstone project to explore and implement statistical methods likely to be part of their dissertation projects. **Prerequisites:** NURS 775 or equivalent; enrollment in the nursing doctoral program.

NURS 777 - Individualized Study/Dissertation Seminar**Credits 1 - 5**

Individualized study or seminar to facilitate dissertation research. **Notes:** May be repeated to a maximum of five credits. **Prerequisites:** Admission into doctoral program or permission of instructor.

NURS 778 - Geographic Information Systems for Health**Credits 3**

This course introduces the use of epidemiologic methods and modern geographic information systems to analyze the relationships between socioeconomic, physical, geopolitical, and demographic factors and sustainable health. These techniques form the basis of assessment of urban health problems to inform, plan, deliver, and evaluate appropriate interventions to ensure sustainability. **Prerequisites:** Admission into doctoral program or permission of instructor.

NURS 779 - Writing a Research Grant Application**Credits 2**

Involves preparing and writing a research grant application. Students will learn how to prepare a research budget and budget justification; write a resources and environment section, a biosketch, and project timeline; and propose an innovative and significant research proposal. **Prerequisites:** NURS 780 or permission of instructor.

NURS 780 - Quantitative Methods in Nursing**Credits 3**

Examines, quantitative and mixed-method approaches used in nursing research. **Prerequisites:** Admitted to nursing doctoral program.

NURS 781 - Qualitative Research Methods in Nursing**Credits 3**

Examines qualitative approaches used in nursing research. **Prerequisites:** NURS 780, Enrollment in the Nursing Ph.D. Program.

NURS 782 - Sustainable Health: Clinical Perspectives**Credits 4**

This course focuses on air quality, potable water, waste disposal, disasters, and other potentially health-threatening environmental problems that affect health in developing and developed countries. The impact of environmental practices on sustainable health will be examined. **Prerequisites:** NURS 778, admission into doctoral program or permission of instructor.

NURS 783 - Economics of sustainable health**Credits 3**

Uses an economic sustainability approach to examine health effects of such issues as health insurance and health care financing, acute and chronic disease, and psychosocial issues. The economics of sustainable health in developing and developed countries will be compared. **Prerequisites:** Admission into doctoral program or permission of instructor.

NURS 784 - Sustainable Health and Public Policy**Credits 3**

Examines urban health promotion in terms of primary, secondary, and tertiary prevention, with an emphasis on the policy issues and critical processes that shape them. Apply theories to identify urban health promotion issues that are linked to sustainability and identify policy strategies for upstream interventions. **Prerequisites:** Admission into doctoral program or permission of instructor.

NURS 785 - Special Topics in Nursing Research**Credits 2-8**

Provides the student with an opportunity for an in-depth exploration of specific aspects of nursing research issues and approaches. **Prerequisites:** NURS 780 and admission to doctoral program.

NURS 786 - DNP Project: Planning**Credits 2**

Planning, managing, evaluating, and sustaining change in the healthcare environment. Establishes communication with the faculty advisor to develop DNP project. **Prerequisites:** Completion of the first term of DNP coursework or permission of the instructor.

NURS 787 - DNP Project: Implementing**Credits 2**

Topics that support students' implementation and evaluation of their DNP projects. **Prerequisites:** Completion of NURS 786 (Project Proposal Plan).

NURS 788 - DNP Project: Defense**Credits 2**

Presentation and discussion of completed DNP projects on campus. **Prerequisites:** Completion of NURS 787.

NURS 789 - Independent Study**Credits 3**

Supervised student designed study project done in consultation with instructor; must be submitted in writing to student advisor and graduate program coordinator for approval. May be repeated to a maximum of 10 credits. **Prerequisites:** NURS 770, NURS 771, NURS 772, NURS 780, enrollment in nursing doctoral program.

NURS 790 - Independent Teaching Practicum Seminar**Credits 1**

Exploration in group settings of actual experiences and outcomes of independent teaching practicum. Options for enhanced personal performance as nurse educator will be discussed. **Notes:** Must be taken concurrently with NURS 791. **Prerequisites:** NURS 724, NURS 733 and enrollment in nursing doctoral program.

NURS 791 - Independent Teaching Practicum

Credits 5

Integrate knowledge and competencies of nurse educator through application in independently taught undergraduate nursing course; systematic exploration of roles, responsibilities, and opportunities inherent in practice of nursing education. May be repeated to a maximum of five credits. **Prerequisites:** NURS 724, NURS 733 and enrollment in nursing doctoral program.

NURS 792 - Outcomes Management & Performance Improvement in Nursing

Credits 3

Application of concepts of quality improvement and safety to the management of outcomes in healthcare and nursing systems to ensure delivery of quality interprofessional care. **Prerequisites:** Completion of Term 3 of DNP program.

NURS 793 - Nursing Education Professional Paper

Credits 3

Focuses on a key area of nursing education requiring exploration and development. Students will select a committee to provide review and guidance. The final paper will be adapted and submitted for publication to a professional, peer-reviewed journal. **Prerequisites:** NURS 706, NURS 707, and NURS 733.

NURS 795 - Research Utilization Project

Credits 3

Identify a clinically based problem in area of nursing practice. Evaluate extent current practice deviates from research based practice. Design, implement and systematically evaluate a research-based innovation project. **Notes:** May be repeated, but only six credits may be applied to the student's program. **Grading:** S/F grading only. **Prerequisites:** NURS 706, NURS 707

NURS 796 - Capstone Seminar II

Credits 1

Capstone seminar II provides students with the opportunity to complete the development of the graduate program capstone project initiated in seminar I. The final written project will be submitted for grading, and the project will be presented orally to the student's advising committee and any interested parties. **Prerequisites:** NURS 766

NURS 797 – Dissertation

Credits 1 – 12

Research analysis and writing toward completion of dissertation and subsequent defense. **Formerly:** (NURS 798). **Grading:** S/F grading only. **Prerequisites:** Enrollment in nursing doctoral program and consent of instructor.

NURS 798 - Independent Study

Credits 1 – 3

Graduate seminar focusing on current developments in nursing practice. **Formerly:** (NURS 797). **Notes:** Topics vary each semester. **Prerequisites:** Admission to graduate program and consent of instructor.

NURS 799 – Thesis

Credits 3

Notes: May be repeated, but only six credits may be applied to the student's program. **Grading:** S/F grading only. **Prerequisites:** NURS 706, NURS 707.

Community Health Sciences

Founding Dean

Mary Guinan - Full Graduate Faculty

Professor of Epidemiology and Community Health; M.D., Johns Hopkins University; Ph.D., University of Texas. *Rebel since 2004.*

Executive Associate Dean

Shawn Gerstenberger - Full Graduate Faculty

Professor of Environmental and Occupational Health; B.S., University of Wisconsin-Platteville University; M. S., Ph.D., University of Illinois. *Rebel since 1997.*

Graduate Coordinators

Chino, Michelle (MPH, M.Ed, & Ph.D. Programs) - Full Graduate Faculty

Associate Professor of Environmental and Occupational Health, B.S., M.S., Ph.D. University of New Mexico. *Rebel since 2000.*

Shen, Jie - Full Graduate Faculty

Associate Professor and Chair of Health Care Administration and Policy; Ph.D. Virginia Commonwealth University. *Rebel since 2006.*

Graduate Faculty

Abella, Scott

Associate Research Professor of Environmental and Occupational Health; B.S. Grand Valley State University; M.S. Clemson University; Ph.D. Northern Arizona University. *Rebel since 2011.*

Bungum, Timothy - Full Graduate Faculty

Associate Professor of Biostatistics and Epidemiology; B.A. Luther College; M.S., D.P.H University of South Carolina. *Rebel since 2001.*

Buttner, Mark P. - Full Graduate Faculty

Associate Professor of Environmental and Occupational Health; B.S. University of Wisconsin; M.S. University of Nevada Las Vegas; Ph.D University of Nevada Reno. *Rebel since 1989.*

Chino, Michelle - Full Graduate Faculty

Associate Professor of Environmental and Occupational Health; B.S., M.S., Ph.D. University of New Mexico. *Rebel since 2000.*

Cochran, Christopher - Full Graduate Faculty

Associate Professor of Health Care Administration and Policy; B.A. University of Texas, El Paso; M.P.A.; Ph.D. University of South Carolina. *Rebel since 1997.*

Cruz, Patricia - Full Graduate Faculty

Associate Professor of Environmental and Occupational Health; B.S. University of Puerto Rico; M.S. University of Central Florida; Ph.D. University of Nevada Reno. *Rebel since 1995.*

Dodge Francis, Carolee - Full Graduate Faculty

Assistant Professor of Environmental and Occupational Health; B.S., M.A., Ed.D., University of St. Thomas. *Rebel since 2007.*

Gerstenberger, Shawn - *Full Graduate Faculty*

Professor of Environmental and Occupational Health; B.S., University of Wisconsin- Platteville University; M. S., Ph.D., University of Illinois. *Rebel since 1997.*

Ginn, Gregory - *Full Graduate Faculty*

Associate Professor of Health Care Administration and Policy; B.A., M.Ed., MBA, Ph.D. University of Texas, Austin. *Rebel since 2000.*

Liu, Darren - *Full Graduate Faculty*

Assistant Professor of Health Care Administration and Policy; B.S. Kaohsiung Medical University, Taiwan; M.H.A. China Medical University, Taiwan; M.S. University of Pittsburgh; Dr. P.H. University of Pittsburgh. *Rebel since 2011.*

Moonie, Sheniz

Associate Professor of Biostatistics and Epidemiology; B.S., University of California San Diego; M.S., California Polytechnic University, Pomona; Ph.D. Saint Louis University. *Rebel since 2006.*

Pinheiro, Paulo - *Full Graduate Faculty*

Assistant Professor of Epidemiology.

Regin, Charles - *Full Graduate Faculty*

Assistant Professor of Health Promotion, B.S., M.S. University of Wisconsin-La Crosse; Ph.D. Southern Illinois University. *Rebel since 1987.*

Shen, Jie - *Full Graduate Faculty*

Associate Professor and Chair of Health Care Administration and Policy; Ph.D. Virginia Commonwealth University. *Rebel since 2006.*

Stetzenbach, Linda - *Full Graduate Faculty*

Professor Emerita of Environmental and Occupational Health; B.S., M.S., Ph.D., University of Arizona. *Rebel since 2005.*

Thompson-Robinson, Melva - *Full Graduate Faculty*

Associate Professor of Health Promotion; B.S., University of Michigan; M.S. Ohio University; D.P.H., University of South Carolina. *Rebel since 2004.*

Wong, David - *Full Graduate Faculty*

Associate Research Professor; B.Sc., M.Sc., Ocean University of Qingdao; Ph.D. City University of Hong Kong. *Rebel since 2008.*

School of Community Health Sciences Plans

Master of Public Health

The Master of Public Health Degree Program is designed to prepare students to be Public Health professionals in the private and public sectors with the overall goal of promoting and protecting the health of individuals in our society.

Educational Objectives

The purpose of the MPH Program is to prepare individuals to become effective health care practitioners, researchers and teachers who will competently identify public health problems and needs, develop effective strategies to address those needs, and promote appropriate services to be available for the protection of human health.

At a minimum, the following criteria should be met to assure each student a) develops an understanding of the areas of knowledge that are basic to public health, b) acquires skills and experience in the application of basic public health concepts and of specialty knowledge to the solution of community health problems, and c) demonstrates integration of knowledge through a capstone experience.

Learning Outcomes

www.unlv.edu/degree/mph

Plan Admission Requirements

To be considered for admission to the MPH, an applicant must:

- Hold a bachelor's degree or recognized equivalent from a regionally accredited institution and have adequate preparation in the biological, physical, or social sciences. A criterion for admission is at least a B (3.0) grade-point average or the equivalent in work completed after the first two years of a bachelor's degree program and in all post-baccalaureate course work.
- Completion of the school's application process.
- Submit a personal essay describing what you perceive to be pressing public health issues, why a career in the field appeals to you, and how it will use your strengths and commitment.
- Three letters of recommendation.
- Take and submit scores for the Personal Potential Index (PPI) exam.
- All applicants to the MPH program who do not have a master's degree or higher will be required to submit GRE or equivalent (e.g., MCAT, LSAT) test scores no more than 5 years old.
- All applicants will submit the ETS Personal Potential Index (PPI) exam.
- Unofficial copies to the School of Public Health.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Dental Fast Track Program

The Doctorate of Dental Medicine-Fast Track Masters of Public Health program is designed for those who seek a deeper understanding of disease prevention, medical delivery, and health promotion at both an individual and population level within the field of dentistry. The program enables students who graduate with both the Masters of Public Health and the Doctorate of Dental Medicine to become leaders in oral health research, education, and community dental health promotion. After completing the program, graduates will be eligible to apply for a position within a dental public health residency program.

Students interested in applying for the DMD-Fast Track MPH program should begin by applying for admissions to the UNLV School of Dental Medicine. Please see the School of Dental Medicine website for specific requirements and deadlines.

Current dental students interested in the Fast Track MPH program are encouraged to submit an application for permission to enter the program to the UNLV School of Dental Medicine Assistant Dean for Admissions and Student Affairs. This request form must accompany the Graduate College application for admissions into the MPH program. Completed packets will be submitted to the Graduate College for admissions to the Masters of Public Health program.

Students must indicate on their Graduate College application form that they are registering for the DMD-Fast Track MPH program and present evidence of being a current dental student in good standing by submitting a signed SDM application for permission to enter the program. While a dental student may apply for the fast track program at any time, they may not register for classes within the College of Community Health Sciences until the Fall semester of their sophomore year. Students will also be limited in the number of MPH classes they are allowed to pursue during their sophomore year of dental school. A cap of one MPH class a semester will be enforced. The junior and senior year of dental school, students in the fast track program will be allowed to take heavier course loads unless

specifically stated otherwise by the Assistant Dean for Admissions and Student Affairs at the School of Dental Medicine.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Social and Behavioral Health Track

Total Credits Required: 45

Course Requirements

- Required Courses – Credits: 18
 - HED 710 - Fundamentals of Public Health
 - EOH 740 - Fundamentals of Environmental Health
 - EAB 705 - Epidemiology and Public Health
 - HCA 701 - U.S. Health Care System: Programs and Policies
 - HED 705 - Theoretical Foundations in Health Promotion
 - EAB 703 - Biostatistical Methods for the Health Sciences
- Social and Behavioral Health Courses – Credits: 6
 - HED 720 - Program Planning and Grant Writing in Health Promotion
 - HED 730 - Program Evaluation in Health Promotion
- Methods Courses – Credits: 3
 - Complete one of the following courses:
 - EAB 700 - Research Methods for Public Health
 - EAB 785 – Qualitative Methods
- Social Health Courses – Credits: 3
 - Complete one of the following courses:
 - EOH 705 - Social Epidemiology
 - EOH 760 - Racial and Ethnic Disparities in Health
- Internship – Credits: 3
 - EOH 793 - Internship in Environmental Health
 - An additional 3 credits of internship may be taken as an elective for a total of 6 credits of internship.
- Elective Courses – Credits: 6-9
 - Students completing a thesis must complete six credits of elective coursework, and students completing a project must complete nine credits of elective coursework. Select from the following list:
 - HED 607 - Stress Management
 - HED 627 - Methods in Health Education
 - HED 629 - Education for Sexuality
 - HED 630 - Nutrition
 - HED 635 - Health Studies on Dangerous Drugs
 - HED 760 - Technology in Health Promotion
 - EOH 793 - Internship in Environmental Health
- Culminating Experience – Credits: 3-6
 - Complete one of the following:
 - HED 750 - Graduate Project in Health Promotion
 - HED 755 - Thesis Research

Degree Requirements

- Completion of a minimum of 45 credit hours with a minimum GPA of 3.00.

- In consultation with his/her advisor, a student will organize a committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Successfully complete the graduate project or successfully complete and defend a thesis by the posted deadline. The defense must be advertised and is open to the public.
- If a thesis is completed, the student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Environmental and Occupational Health Track

Total Required Credits: 45

Course Requirements

- Required Courses – Credits: 18
 - HED 710 - Fundamentals of Public Health
 - EOH 740 - Fundamentals of Environmental Health
 - EAB 705 - Epidemiology and Public Health
 - HCA 701 - U.S. Health Care System: Programs and Policies
 - HED 705 - Theoretical Foundations in Health Promotion
 - EAB 703 - Biostatistical Methods for the Health Sciences
- Environmental and Occupational Health Courses – Credits: 3
 - EOH 601 - Advanced Environmental Toxicology
- Health and Safety Courses – Credits: 3
 - Complete one of the following courses:
 - EOH 717 - Food Safety and Public Health
 - EOH 747 - Transmission of Infectious Disease
- Environmental Courses – Credits: 3
 - Complete one of the following courses:
 - EOH 765 - Seminar in Environmental Justice and Public Health
 - EOH 732 - Children, Development, Health, and the Environment
- Skill Development Courses – Credits: 3
 - Complete one of the following courses:
 - EAB 700 - Research Methods for Public Health
 - EOH 709 - Scientific/Technical Writing for the Health and Life Sciences
- Internship – Credits: 3
 - EOH 793 - Internship in Environmental Health
 - An additional 3 credits of internship may be taken as an elective for a total of 6 credits of internship.
- Elective Courses – Credits: 6-9
 - Students completing a thesis must complete six credits of elective coursework, and students completing a project must complete six credits of elective coursework. Select from the following list:
 - EOH 705 - Social Epidemiology
 - EOH 713 - Public Health Law
 - EOH 715 - Qualitative & Field Methods for Public Health
 - EOH 732 - Children, Development, Health, and the Environment

- EOH 757 - Parasitology and Public Health
 - EOH 760 - Racial and Ethnic Disparities in Health
 - EOH 765 - Seminar in Environmental Justice and Public Health
 - EOH 767 - Bioaerosols and Human Health
 - EOH 769 - Advanced Pollution Ecology
 - EAB 716 - The Epidemiology of Obesity
 - EOH 777 - Emerging Infectious Disease
 - EOH 795 - Special Topics in Public Health
 - EOH 796 - Independent Study in Environmental Health
- Culminating Experience – Credits: 3-6
 - Complete one of the following:
 - EOH 794 - Professional Paper in Environmental Health
 - EOH 798 - Thesis Research (6 credits)

Degree Requirements

- Completion of a minimum of 45 credit hours with a minimum GPA of 3.00.
- In consultation with his/her advisor, a student will organize a committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation from up to two semesters prior to completing his/her degree requirements.
- Successfully complete the professional paper or successfully complete and defend a thesis by the posted deadline. The defense must be advertised and is open to the public.
- If a thesis is completed, the student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 3 Requirements: Health Care Administration and Policy Track

Total Required Credits: 45

Course Requirements

- Required Courses – Credits: 18
 - HED 710 - Fundamentals of Public Health
 - EOH 740 - Fundamentals of Environmental Health
 - EAB 705 - Epidemiology and Public Health
 - HCA 701 - U.S. Health Care System: Programs and Policies
 - HED 705 - Theoretical Foundations in Health Promotion
 - EAB 703 - Biostatistical Methods for the Health Sciences
- Health Care Admin & Policy Courses – Credits: 15
 - HCA 703 - Management of Health Service Organizations and Systems
 - HCA 705 - Health Care Accounting and Finance
 - HCA 706 - Strategic Management of Health Services
 - HCA 707 - Operations and Quality Management of Health Services
 - HCA 708 - Information Systems in Health Services Management
- Internship – Credits: 3
 - HCA 713 - Internship in Health Care Administration

- An additional 3 credits of internship may be taken as an elective for a total of 6 credits of internship.
- Elective Courses – Credits: 3-6
 - Students completing a thesis must complete three credits of elective coursework, and students completing a project must complete six credits of elective coursework. Select from the following list or choose from other advisor approved courses from
 - the pool of university approved graduate level courses:
 - HCA 704 - Health Care Economics
 - HCA 711 - Advanced Health Care Finance
 - HCA 652 - Health Politics and Policy
 - HCA 761 - Health Care Law and Ethics for Managers
 - HCA 680 - Organization and Management of Long-Term Care Services
 - HCA 713 - Internship in Health Care Administration
- Culminating Experience – Credits: 3-6
 - Complete one of the following:
 - HCA 709 - Health Care Administration Capstone Course (3 credits)
 - HCA 799 - Thesis Research (6 credits)

Degree Requirements

- Completion of a minimum of 45 credit hours with a minimum GPA of 3.00.
- If the thesis option is chosen, in consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Students must receive prior approval from their committee before registering for any capstone experience.
- Successfully pass the capstone course or successfully complete and defend a thesis by the posted deadline. The defense must be advertised and is open to the public.
- If a thesis is completed, the student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 4 Requirements: Biostatistics and Epidemiology Track

Total Required Credits: 45

Course Requirements

- Required Courses – Credits: 18
 - HED 710 - Fundamentals of Public Health
 - EOH 740 - Fundamentals of Environmental Health
 - EAB 705 - Epidemiology and Public Health
 - HCA 701 - U.S. Health Care System: Programs and Policies
 - HED 705 - Theoretical Foundations in Health Promotion
 - EAB 703 - Biostatistical Methods for the Health Sciences
- Biostatistics and Epidemiology Courses – Credits: 12
 - EAB 700 - Research Methods for Public Health
 - EAB 715 - Chronic Disease Epidemiology

- EAB 725 - Epidemiology of Infectious Diseases
- EAB 763 - Linear Statistical Models
- Internship – Credits: 3
 - EAB 793 - Internship in Epidemiology and Biostatistics
 - An additional 3 credits of internship may be taken as an elective for a total of 6 credits of internship.
- Elective Courses – Credits: 6-9
 - Students completing a thesis must complete six credits of elective coursework, and students completing a professional paper must complete nine credits of elective coursework. Select from the following list:
 - EOH 705 - Social Epidemiology
 - EAB 720 - Grant Writing for Epidemiology and Public Health Research
 - EAB 795 - Special Topics in Epidemiology and Biostatistics
 - EAB 796 - Independent Study in Epidemiology and Biostatistics
 - EAB 716 - The Epidemiology of Obesity
 - EAB 733 - Survey Sampling for the Health Sciences
 - EAB 735 - Outbreak Investigation
 - EAB 743 - Experimental Design for the Health Sciences
 - EAB 753 - Nonparametric Statistics for Public Health
 - EAB 773 - Survival Analysis for Public Health
 - EAB 793 - Internship in Epidemiology and Biostatistics
- Culminating Experience – Credits: 3-6
 - Complete one of the following:
 - EAB 794 - Professional Paper in Epidemiology and Biostatistics (3 credits)
 - EAB 798 - Thesis Research in Epidemiology and Biostatistics (6 credits)

Degree Requirements

- Completion of a minimum of 45 credit hours with a minimum GPA of 3.00.
- In consultation with his/her advisor, a student will organize a committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Students must receive prior approval from their committee before registering for any capstone experience.
- Successfully complete the professional paper or successfully complete and defend a thesis by the posted deadline. The defense must be advertised and is open to the public.
- If a thesis is completed, the student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 5 Requirements: Dental Fast Track - Social and Behavioral Health

Total Credits Required: 45

Course Requirements

- Required Courses – Credits: 18
 - HED 710 - Fundamentals of Public Health
 - EOH 740 - Fundamentals of Environmental Health

- EAB 705 - Epidemiology and Public Health
- HCA 701 - U.S. Health Care System: Programs and Policies
- HED 705 - Theoretical Foundations in Health Promotion
- EAB 703 - Biostatistical Methods for the Health Sciences
- Social and Behavioral Health Courses – Credits: 6
 - HED 720 - Program Planning and Grant Writing in Health Promotion
 - HED 730 - Program Evaluation in Health Promotion
- Methods Courses – Credits: 3
 - Complete one of the following courses:
 - EAB 700 - Research Methods for Public Health
 - EAB 785 – Qualitative Methods
- Social Health Courses – Credits: 3
 - Complete one of the following courses:
 - EOH 705 - Social Epidemiology
 - EOH 760 - Racial and Ethnic Disparities in Health
- Internship – Credits: 3
 - EOH 793 - Internship in Environmental Health
 - An additional 3 credits of internship may be taken as an elective for a total of 6 credits of internship.
- Elective Courses – Credits: 6-9
 - Students completing a thesis must complete six credits of elective coursework, and students completing a project must complete nine credits of elective coursework. Select from the following list:
 - Den 7151 – Healthcare Finance and Public Health (1 credit)
 - Den 7154 – Healthcare Delivery: Patient Record and HIPAA Regulations (1.5 credits)
 - Den 7160 – Research and Professional Development I (1 credit)
 - Den 7161 – Research and Professional Development II (1.5 credits)
 - Den 7162 – Biochemical Basis of Clinical Nutrition (3 credits)
 - Den 7252 – Community Outreach/Geriatric Population (3 credits)
 - Den 7253 – Research and Analysis Methodology (1.5 credits)
- Culminating Experience – Credits: 3-6
 - Complete one of the following:
 - HED 750 - Graduate Project in Health Promotion (3 credits)
 - HED 755 - Thesis Research (6 credits)

Degree Requirements

- Completion of a minimum of 45 credit hours with a minimum GPA of 3.00.
- Students enrolled in the DMD-Fast Track MPH program must remain in good academic/ethical standing in both the individual DMD and MPH programs or may be subject to dismissal.
- Students in the DMD-Fast Track MPH program are subject to the same rules and regulations that apply to all students at the School of Dental Medicine and the School of Community Health Sciences.
- Upon date of entry into the MPH program, students will be given a maximum time frame of five years in which they must satisfy the degree requirements for the Masters in Public Health degree.
- In consultation with his/her advisor, a student will organize a committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

- Successfully complete the graduate project or successfully complete and defend a thesis by the posted deadline. The defense must be advertised and is open to the public.
- If a thesis is completed, the student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 6 Requirements: Dental Fast Track - Environmental and Occupational Health

Total Required Credits: 45

Course Requirements

- Required Courses – Credits: 18
 - HED 710 - Fundamentals of Public Health
 - EOH 740 - Fundamentals of Environmental Health
 - EAB 705 - Epidemiology and Public Health
 - HCA 701 - U.S. Health Care System: Programs and Policies
 - HED 705 - Theoretical Foundations in Health Promotion
 - EAB 703 - Biostatistical Methods for the Health Sciences
- Environmental and Occupational Health Courses – Credits: 3
 - EOH 601 - Advanced Environmental Toxicology
- Health and Safety Courses – Credits: 3
 - Complete one of the following courses:
 - EOH 717 - Food Safety and Public Health
 - EOH 747 - Transmission of Infectious Disease
- Environmental Courses – Credits: 3
 - Complete one of the following courses:
 - EOH 765 - Seminar in Environmental Justice and Public Health
 - EOH 732 - Children, Development, Health, and the Environment
- Skill Development Courses – Credits: 3
 - Complete one of the following courses:
 - EAB 700 - Research Methods for Public Health
 - EOH 709 - Scientific/Technical Writing for the Health and Life Sciences
- Internship – Credits: 3
 - EOH 793 - Internship in Environmental Health
 - An additional 3 credits of internship may be taken as an elective for a total of 6 credits of internship.
- Elective Courses – Credits: 6-9
 - Students completing a thesis must complete six credits of elective coursework, and students completing a project must complete nine credits of elective coursework. Select from the following list:
 - Den 7151 – Healthcare Finance and Public Health (1 credit)
 - Den 7154 – Healthcare Delivery: Patient Record and HIPAA Regulations (1.5 credits)
 - Den 7160 – Research and Professional Development I (1 credit)
 - Den 7161 – Research and Professional Development II (1.5 credits)
 - Den 7162 – Biochemical Basis of Clinical Nutrition (3 credits)
 - Den 7253 – Research and Analysis Methodology (1.5 credits)
- Culminating Experience – Credits: 3-6
 - Complete one of the following:
 - EOH 794 - Professional Paper in Environmental Health (3 credits)
 - EOH 798 - Thesis Research (6 credits)

Degree Requirements

- Completion of a minimum of 45 credit hours with a minimum GPA of 3.00.
- Students enrolled in the DMD-Fast Track MPH program must remain in good academic/ethical standing in both the individual DMD and MPH programs or may be subject to dismissal.
- Students in the DMD-Fast Track MPH program are subject to the same rules and regulations that apply to all students at the School of Dental Medicine and the School of Community Health Sciences.
- Upon date of entry into the MPH program, students will be given a maximum time frame of five years in which they must satisfy the degree requirements for the Masters in Public Health degree.
- In consultation with his/her advisor, a student will organize a committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation from up to two semesters prior to completing his/her degree requirements.
- Successfully complete the professional paper or successfully complete and defend a thesis by the posted deadline. The defense must be advertised and is open to the public.
- If a thesis is completed, the student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 7 Requirements: Dental Fast Track - Health Care Administration and Policy

Total Required Credits: 45

Course Requirements

- Required Courses – Credits: 18
 - HED 710 - Fundamentals of Public Health
 - EOH 740 - Fundamentals of Environmental Health
 - EAB 705 - Epidemiology and Public Health
 - HCA 701 - U.S. Health Care System: Programs and Policies
 - HED 705 - Theoretical Foundations in Health Promotion
 - EAB 703 - Biostatistical Methods for the Health Sciences
- Health Care Admin & Policy Courses – Credits: 15
 - HCA 703 - Management of Health Service Organizations and Systems
 - HCA 705 - Health Care Accounting and Finance
 - HCA 706 - Strategic Management of Health Services
 - HCA 707 - Operations and Quality Management of Health Services
 - HCA 708 - Information Systems in Health Services Management
- Internship – Credits: 3
 - HCA 713 - Internship in Health Care Administration
 - An additional 3 credits of internship may be taken as an elective for a total of 6 credits of internship.
- Elective Courses – Credits: 3-6
 - Students completing a thesis must complete three credits of elective coursework, and students completing a project must complete six credits of elective coursework. Select from the following list:
 - Den 7151 – Healthcare Finance and Public Health (1 credit)
 - Den 7154 – Healthcare Delivery: Patient Record and HIPAA Regulations (1.5 credits)
 - Den 7160 – Research and Professional Development I (1 credit)
 - Den 7161 – Research and Professional Development II (1.5 credits)
 - Den 7162 – Biochemical Basis of Clinical Nutrition (3 credits)

- Den 7253 – Research and Analysis Methodology (1.5 credits)
- Culminating Experience – Credits: 3-6
 - Complete one of the following:
 - HCA 709 - Health Care Administration Capstone Course (3 credits)
 - HCA 799 - Thesis Research (6 credits)

Degree Requirements

- Completion of a minimum of 45 credit hours with a minimum GPA of 3.00.
- Students enrolled in the DMD-Fast Track MPH program must remain in good academic/ethical standing in both the individual DMD and MPH programs or may be subject to dismissal.
- Students in the DMD-Fast Track MPH program are subject to the same rules and regulations that apply to all students at the School of Dental Medicine and the School of Community Health Sciences.
- Upon date of entry into the MPH program, students will be given a maximum time frame of five years in which they must satisfy the degree requirements for the Masters in Public Health degree.
- If the thesis option is chosen, in consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Students must receive prior approval from their committee before registering for any capstone experience.
- Successfully pass the capstone course or successfully complete and defend a thesis by the posted deadline. The defense must be advertised and is open to the public.
- If a thesis is completed, the student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 8 Requirements: Dental Fast Track - Biostatistics and Epidemiology

Total Required Credits: 45

Course Requirements

- Required Courses – Credits: 18
 - HED 710 - Fundamentals of Public Health
 - EOH 740 - Fundamentals of Environmental Health
 - EAB 705 - Epidemiology and Public Health
 - HCA 701 - U.S. Health Care System: Programs and Policies
 - HED 705 - Theoretical Foundations in Health Promotion
 - EAB 703 - Biostatistical Methods for the Health Sciences
- Biostatistics and Epidemiology Courses – Credits: 12
 - EAB 700 - Research Methods for Public Health
 - EAB 715 - Chronic Disease Epidemiology
 - EAB 725 - Epidemiology of Infectious Diseases
 - EAB 763 - Linear Statistical Models
- Internship – Credits: 3
 - EAB 793 - Internship in Epidemiology and Biostatistics
 - An additional 3 credits of internship may be taken as an elective for a total of 6 credits of internship.

- Elective Courses – Credits: 6-9
 - Students completing a thesis must complete six credits of elective coursework, and students completing a project must complete nine credits of elective coursework. Select from the following list:
 - Den 7151 – Healthcare Finance and Public Health (1 credit)
 - Den 7154 – Healthcare Delivery: Patient Record and HIPAA Regulations (1.5 credits)
 - Den 7160 – Research and Professional Development I (1 credit)
 - Den 7161 – Research and Professional Development II (1.5 credits)
 - Den 7162 – Biochemical Basis of Clinical Nutrition (3 credits)
 - Den 7253 – Research and Analysis Methodology (1.5 credits)
- Culminating Experience – Credits: 3-6
 - Complete one of the following:
 - EAB 794 - Professional Paper in Epidemiology and Biostatistics (3 credits)
 - EAB 798 - Thesis Research in Epidemiology and Biostatistics (6 credits)

Degree Requirements

- Completion of a minimum of 45 credit hours with a minimum GPA of 3.00.
- Students enrolled in the DMD-Fast Track MPH program must remain in good academic/ethical standing in both the individual DMD and MPH programs or may be subject to dismissal.
- Students in the DMD-Fast Track MPH program are subject to the same rules and regulations that apply to all students at the School of Dental Medicine and the School of Community Health Sciences.
- Upon date of entry into the MPH program, students will be given a maximum time frame of five years in which they must satisfy the degree requirements for the Masters in Public Health degree.
- In consultation with his/her advisor, a student will organize a committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Students must receive prior approval from their committee before registering for any capstone experience.
- Successfully complete the professional paper or successfully complete and defend a thesis by the posted deadline. The defense must be advertised and is open to the public.
- If a thesis is completed, the student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Social and Behavioral Health Track
- Subplan 2: Environmental and Occupational Health Track
- Subplan 3: Health Care Administration and Policy Track
- Subplan 4: Biostatistics and Epidemiology Track
- Subplan 5: Dental Fast Track – Social and Behavioral Health
- Subplan 6: Dental Fast Track – Environmental and Occupational Health
- Subplan 7: Dental Fast Track – Health Care Administration and Policy
- Subplan 8: Dental Fast Track – Biostatistics and Epidemiology

Doctor of Philosophy - Public Health

The Schools of Community Health Sciences (SCHS) at UNLV and UNR are pleased to offer a collaborative doctoral program (Ph.D.) in Public Health. The collaboration between the two schools represents a unique, statewide approach to public health training and research, drawing on complementary expertise and opportunities at both universities to create a high-quality academic program that maximizes resources and flexibility.

Students with an MPH from the UNLV SCHS must complete 48 credits beyond the Master of Public Health (MPH). Students with an MPH from another institution must complete 48 credits beyond the master's plus an additional 6 credits of deficiency. Students with a master's degree in a related field must complete 48 credits beyond the master's degree plus an additional 15 credits of deficiency.

Educational Objectives

The Ph.D. – Public Health is designed to prepare students for careers in which advanced analytical and conceptual capabilities are required, such as university teaching, research, consulting, policy development or other high-level positions.

The curriculum was developed jointly by faculty from the Schools of Community Health Sciences at the University of Nevada, Reno, and the University of Nevada, Las Vegas, with input from representatives of academia and the public health community. The curriculum provides a comprehensive and interdisciplinary examination of topics and experiences necessary to produce graduates who are ready to secure employment in the public health arena.

Students in the program are admitted to either UNLV or UNR and follow the course requirements from their home institution. Courses may be taken at either institution. A Chair from the admitting institution supervises and the dissertation but the doctoral committee may include members from either or both institutions.

This program is competitive and space is limited. More students will apply than will be admitted. The most competitive students will have a strong academic record and a clear plan for their proposed research.

Completion of the Ph.D. demonstrates that the graduate has the advanced research skills and competencies necessary to succeed in high level research careers.

Upon admission each student will be assigned an academic (not dissertation) advisor who will help the student begin planning a program of study. Students are expected to identify a dissertation committee before the end of their second semester in the program.

Learning Objectives

www.unlv.edu/degree/phd-publichealth

Plan Admission Requirements

Admission into the Public Health PhD Program at UNLV will require applicants to meet the standard criteria of the UNLV Graduate College, applicable to all graduate students, both domestic and international, and contingent upon the qualifications of the applicant and the availability of openings for new students. Doctoral students are admitted as a cohort, once a year, for the fall semester. Applicants must have submitted all required materials by the April 1 deadline for admission in the following fall semester. Students will be admitted directly into the doctoral program and all admissions will require the final approval of the Dean of the UNLV Graduate College. In addition to the generic requirements of the UNLV Graduate College applicants will be expected to meet the following criteria:

- Earned a bachelor's and Master's of Public Health (MPH) or a master's degree in an appropriate field from an accredited university. Applicants educated outside of the United States will need to demonstrate proof of equivalent education and advanced degrees.

- A minimum grade point average of 3.0 (4.0=A) earned in a masters' program of study. The most competitive students will have a master's level GPA of 3.5 or higher.
- Applicants must present competitive Graduate Record Exam (GRE) scores on verbal, quantitative and analytical measures. GRE scores will be assessed relative to other applicants in the pool, as well as relative to other graduate programs at UNLV. The exam must have been taken with the institutions' graduate school/college requirements. The most competitive students will have a combined verbal/quantitative GRE score of 1200 (old test) /300 (new test) or higher. The GRE is required for all applicants.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.
- Letters of Recommendation- Three (3) letters of recommendation are required from faculty and other individuals who can evaluate the applicant's motivation, academic capability, scholarship potential, and personal goals for doctoral study.
- Written Self-Presentation- Applicants must submit for review a written statement of personal career, educational and scholarship goals including identification of research interests. The most competitive students will clearly identify their plan for dissertation research and its contribution to the field of public health.
- Interview-Applicants may be asked to participate in an interview with member(s) of the Admissions Committee, either in person or by telephone. Applicants may also be asked to submit a writing sample.
- Applicants must identify an Area of Emphasis (sub plan) at the time of application.
- All students are required to take or have taken at the Master's level the following 27 credit hours or their approved equivalent:

UNLV Courses

- EOH 740 - Fundamentals of Environmental Health
- EAB 703 - Biostatistical Methods for the Health Sciences
- HED 705 - Theoretical Foundations in Health Promotion
- EOH 747 - Transmission of Infectious Disease
- EAB 705 - Epidemiology and Public Health
- HCA 701 - U.S. Health Care System: Programs and Policies
- EOH 704 - Research Integrity & Ethics

UNR Courses

- PUBH 725 – Health and the Environment
- PUBH 780 – Biostatistics in Public Health
- PUBH 701 – Social and Behavioral Health
- PUBH 620 – Biological Basis of Health & Disease
- PUBH 712 – Epidemiology in Public Health
- PUBH 755 – Policy and Health Administration
- PUBH 785 – Public Health Ethics

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Environmental and Occupational Health Track

Total Credits Required: 48

Course Requirements

- Required Courses – Credits: 15
- Complete five courses from the following lists from either UNLV or UNR:
 - UNLV Courses:
 - EOH 709 - Scientific/Technical Writing for the Health and Life Sciences
 - EOH 717 - Food Safety and Public Health
 - EOH 737 – Public Health Microbiology
 - EOH 757 - Parasitology and Public Health
 - EOH 767 - Bioaerosols and Human Health
 - EOH 765 - Seminar in Environmental Justice and Public Health
 - EOH 769 - Advanced Pollution Ecology
 - EOH 777 - Emerging Infectious Disease
 - HPS 680 - Industrial Hygiene
 - HPS 781 - Industrial Hygiene II
 - EAB 715 - Chronic Disease Epidemiology
 - ENV 711 - Risk Assessment and Risk Management
 - Or
 - ENV 712 - Environmental Risk Decision Making
 - UNR Courses:
 - ATMS 612 – Introduction to Air Pollution
 - CEE 617 – Intro to Env Quality and Analysis
 - CEE 653 – Environmental Microbiology
 - CEE 658 – Fundamentals of Env Chemistry
 - HE 695 – Toxic Communities and Public Health
 - NRES 612 – Environmental Law
 - NRES 633 – Env Chemicals: Exp, Trans & Fate
 - NRES 672 – Environmental Health and Safety
 - NUTR 723 – Food and Nutritional Toxicology
 - PCS 603D – Global Environmental Policy
 - PUBH 695 – Biochemical and Molec Mech of Toxicity
 - PUBH 730 – Biomarkers of Human Disease
 - PUBH 735 – Intro to Exposure Assessment and Control
 - PUBH 753 – Health Informatics
 - PUBH 776 – Essentials of Occupational Health
 - PUBH 777 – Fundamental of Industrial Hygiene
 - PUBH 781 – Env-Occup Health Risk Assessment
- Methods Course – Credits: 3
 - EAB 700 - Research Methods for Public Health
- Research Courses – Credits: 6
 - Complete two of the following courses:
 - EAB 733 - Survey Sampling for the Health Sciences
 - EAB 753 - Nonparametric Statistics for Public Health
 - EAB 763 - Linear Statistical Models
 - EAB 773 - Survival Analysis for Public Health
 - EAB 783 - Multivariate Methods for the Health Sciences
- Elective Courses – Credits: 3
 - Complete 3 credits of advisor-approved coursework.
- Dissertation – Credits: 21
 - Complete either 3 credits of prospectus and 18 credits of dissertation, or 21 credits of dissertation.
 - EOH 797 - Dissertation Prospectus
 - EOH 799 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Social Behavioral Health Track

Total Credits Required: 48

Course Requirements

- Required Courses – Credits: 6
 - EOH 705 - Social Epidemiology
 - EOH 760 - Racial and Ethnic Disparities in Health
- Elective Courses – Credits: 12
 - Complete 12 credits of additional advisor-approved elective courses.
- Methods Courses – Credits: 3
 - Complete one of the following courses:
 - EAB 700 - Research Methods for Public Health
 - EOH 715 - Qualitative & Field Methods for Public Health
- Research Courses – Credits 6
 - Complete two of the following courses:
 - EAB 733 - Survey Sampling for the Health Sciences
 - EAB 743 - Experimental Design for the Health Sciences
 - EAB 753 - Nonparametric Statistics for Public Health
 - EAB 763 - Linear Statistical Models
 - EAB 773 - Survival Analysis for Public Health
 - EAB 783 - Multivariate Methods for the Health Sciences
- Dissertation – Credits: 21
 - Complete either 3 credits of prospectus and 18 credits of dissertation, or 21 credits of dissertation.
 - EOH 797 - Dissertation Prospectus
 - EOH 799 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: Epidemiology and Biostatistics Track

Total Credits Required: 48

Course Requirements

- Required Courses – Credits: 6
 - EAB 756 - Epidemiology and Research
 - EAB 715 - Chronic Disease Epidemiology
- Epidemiology Courses – Credits 6
 - Complete two of the following courses:
 - EAB 755 - Cancer Epidemiology
 - EAB 716 - The Epidemiology of Obesity

- EOH 705 - Social Epidemiology
- Methods Course – Credits: 3
 - Complete one of the following courses:
 - EAB 700 - Research Methods for Public Health
 - EOH 715 - Qualitative & Field Methods for Public Health
- Research Courses – Credits: 6
 - Complete two of the following courses:
 - EAB 733 - Survey Sampling for the Health Sciences
 - EAB 743 - Experimental Design for the Health Sciences
 - EAB 753 - Nonparametric Statistics for Public Health
 - EAB 763 - Linear Statistical Models
 - EAB 773 - Survival Analysis for Public Health
 - EAB 783 - Multivariate Methods for the Health Sciences
- Elective Courses – Credits: 6
 - Complete 6 credits of advisor-approved coursework.
- Dissertation – Credits: 21
 - Complete either 3 credits of prospectus and 18 credits of dissertation, or 21 credits of dissertation.
 - EOH 797 - Dissertation Prospectus
 - EOH 799 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 4 Requirements: Health Service Management and Policy Track

Total Credits Required: 48

Course Requirements

- Required Courses – Credits: 12
 - Complete four of the following courses:
 - HCA 703 - Management of Health Service Organizations and Systems
 - HCA 652 - Health Politics and Policy
 - HCA 704 - Health Care Economics
 - HCA 705 - Health Care Accounting and Finance
 - HCA 706 - Strategic Management of Health Services
 - HCA 707 - Operations and Quality Management of Health Services
 - HCA 708 - Information Systems in Health Services Management
 - HCA 710 - Human Resources Management of Health Care Organizations
 - HCA 711 - Advanced Health Care Finance
- Methods Courses – Credits: 6
 - HCA 715 - Health Services Research Methods
 - EOH 715 - Qualitative & Field Methods for Public Health
- Research Courses – Credits: 6
 - Complete two of the following courses:
 - EAB 733 - Survey Sampling for the Health Sciences
 - EAB 753 - Nonparametric Statistics for Public Health
 - EAB 763 - Linear Statistical Models
 - EAB 773 - Survival Analysis for Public Health

- EAB 783 - Multivariate Methods for the Health Sciences
 - ECO 772 - Econometrics II
 - MBA 767 - Market Opportunity Analysis
- Elective Courses – Credits: 3
 - Complete 3 credits of advisor-approved coursework.
- Dissertation – Credits: 21
 - Complete either 3 credits of prospectus and 18 credits of dissertation, or 21 credits of dissertation.
 - EOH 797 - Dissertation Prospectus
 - EOH 799 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Degree Requirements

- A grade point average of at least a 3.0 must be maintained in all courses required for the degree; no grade less than a B in any course is acceptable for curricular completion of the program.
- All students are required to complete a written Comprehensive Examination upon completion of the core courses of the program. The examination is designed to assess the student's ability to synthesize knowledge, as demonstrated by the selection and integration of information from several doctoral courses and is evaluated by written discussion in response to examination questions. The Comprehensive Examination may only be repeated once and must be repeated within one semester of the initial attempt. Students unable to pass the Comprehensive Examination after a second attempt will be separated from the program.
- After successful completion of the Comprehensive Exam the student must establish a Dissertation committee. The committee will include at minimum, a Chairperson with expertise in the student's Area of Emphasis; two additional committee members from the School of Community Health Sciences; and, a Graduate College Representative. Students may also elect to add approved, external committee member with expertise in the student's selected area of emphasis.
- Upon completion of all required course work other than dissertation, each student must take oral Qualifying Examination that will focus on those areas of knowledge most relevant to the student's dissertation topic. Qualifying examinations may only be repeated once and must be repeated within one semester of the initial attempt. If a student fails a second attempt, the student will be separated from the program.
- Upon successful completion of the Qualifying examination, the student will present a dissertation prospectus to his/her committee and an oral presentation to peers and faculty. The prospectus is a written and oral presentation of the student's dissertation research plan. The written prospectus should be the equivalent of the first three chapters of the dissertation. The oral presentation is a public presentation of the research plan. The prospectus becomes the agreement for the student's dissertation research. Upon approval of the prospectus, the student advances to candidacy, can register for dissertation credits, and begin their independent research.
- Upon completion of the dissertation, the student must pass a final oral examination that involves the public presentation and successful defense of their dissertation study. All advisory committee members must be present for the final defense and may question the student following presentation of the study. The defense will be scheduled and conducted in accordance with the Graduate College/ School's policies for dissertation completion. It is the student's responsibility to file all required forms and written materials with the Graduate College in a timely manner.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

School of Community Health Sciences Courses

EAB 700 - Research Methods for Public Health

Credits 3

Provides a foundation in research methodology for public health professionals. Topics include basic sampling and experimental designs, quantitative and qualitative methods in research, mathematical and economic models in research, and multidisciplinary approaches to designing research programs. **Prerequisites:** EAB 703 or consent of instructor.

EAB 703 - Biostatistical Methods for the Health Sciences

Credits 3

Designed to provide a foundation in biostatistics for graduate students in the health sciences. Topics include probability, distributions, estimation, hypothesis testing, ANOVA, simple and multiple regression, vital statistics, and nonparametric methods. **Prerequisites:** Undergraduate mathematics through calculus, comparable graduate coursework, or consent of instructor.

EAB 704 - Research Integrity & Ethics

Credits 3

Designed to provide students with an understanding of how to conduct responsible research. Covers the concepts of scientific ethics and integrity broadly in order to provide a foundation for future research professionals. Topics include ethical principles, peer review, mentoring, IRB, collaborative research, and scientific record keeping.

EAB 705 - Epidemiology and Public Health

Explores principles related to the distribution and causality of disease. Focuses on etiology, prevention and control of communicable and chronic human disease. Participants trained in basic epidemiological methodology, featuring case-series, case-control, experimental and cohort study designs.

EAB 709 - Scientific/Technical Writing for the Health and Life Sciences

Credits 3

Technical writing skills are critical to success in publication of scientific journal articles, approval of research grant submissions, and acceptance of thesis/dissertation requirements. In this course students will study techniques and develop skills in technical writing useful to professionals in health care and life sciences.

EAB 710 - Fundamentals of Public Health

Credits 3

Introduces students to public health concepts and practice. Provides broad overview of the field of public health and focused look at core areas of health promotion and education, environmental health, epidemiology and bio statistics, and health care administration in the public health arena.

EAB 715 - Chronic Disease Epidemiology

Credits 3

Surveys the major chronic diseases with an emphasis on recent epidemiological research and findings, demographic and populations aspects of chronic illness, causation and risk factors, prevention, and control. **Prerequisites:** HED 725 or consent of instructor.

EAB 716 - The Epidemiology of Obesity**Credits 3**

Describes the epidemiology and prevention of obesity and associated complications. Discusses methodological issues associated with evaluating epidemiologic studies that target obesity. Designed to cover the global epidemic of obesity, the environmental and behavioral risk factors, as well as interventions to reduce and prevent obesity.

EAB 720 - Grant Writing for Epidemiology and Public Health Research**Credits 3**

Covers the process of designing competitive research grant proposals from conceptualization to grant management.

Prerequisites: Core epidemiology class, research methods.

EAB 725 - Epidemiology of Infectious Diseases**Credits 3**

Introduces the basic concepts in infectious disease epidemiology. Students develop a basic conceptual understanding and analytic skills in the investigation and control of infectious diseases in human populations. Students describe the most common infectious diseases, including their transmission, pathogenesis, treatment, prevention, and control.

Prerequisites: Admission to the School of Community Health Sciences or consent of instructor.

EAB 733 - Survey Sampling for the Health Sciences**Credits 3**

Introduces the basics of sampling theory and application in the health sciences. Several popular designs will be covered in depth. Other topics include sources of error in sampling, design of surveys, and population size determination. **Prerequisites:** EAB 703 or consent of instructor.

EAB 735 - Outbreak Investigation**Credits 3**

Students will work through simulated outbreak situations, culminating in a lengthy simulation of an outbreak.

Students will be responsible for all aspects of the investigation including report writing. Through partnership with community health agencies, students will have the opportunity to assist in actual outbreak investigations occurring during the semester. **Prerequisites:** HED 725/EAB 705 or equivalent

EAB 743 - Experimental Design for the Health Sciences**Credits 3**

Provides thorough coverage of experimental design for student in the health sciences. Topics include single factor designs, factorial experiments, within-factor designs, nested designs, analysis of trend, and general linear models.

Prerequisites: EAB 703 or consent of instructor.

EAB 745 - Epidemiological Surveillance**Credits 3**

Students will explore systems currently in place, both in the United States and internationally, and will learn the methodology used to analyze surveillance data. Students will learn about effective surveillance systems through lecture and case studies of existing surveillance systems.

EAB 753 - Nonparametric Statistics for Public Health**Credits 3**

Designed to provide a strong foundation in nonparametric statistical methods commonly used in public health.

Topics explored in the course include ranked data, transformation of ranks, methods for paired and independent samples, nonparametric regression and correlation, categorical data analysis, and robust estimation. **Prerequisites:** Graduate level biostatistics.

EAB 755 - Cancer Epidemiology**Credits 3**

This course is an introduction to cancer epidemiology. The objective is to make the student use, learn and consolidate basic analytic skills in developing research projects in cancer. It includes among others the following topics: trends, biology of cancer, issues in prostate, breast, colorectal, lung, and cervical cancer, cancer screening, GIS and spatial analysis in cancer, survival, and migrant studies.

EAB 756 - Epidemiology and Research**Credits 3**

Topics in Epidemiology II include analytic reasoning in public health and in disease surveillance, descriptive epidemiology and causal inference with a special emphasis on study design. This course will largely make use of scientific articles to provide students with a solid basis to critically analyze and develop medical/public health research. May be repeated to a maximum of three credits. **Prerequisites:** EAB 703 and EAB 705

EAB 763 - Linear Statistical Models**Credits 3**

Explores the foundations and applications of linear statistical models. Applications include simple, multivariate, and logistic regression; time series analysis; single -/multiple-factor ANOVA; random and mixed effects models; and ANCOVA. Several experimental designs will also be explored. **Prerequisites:** Graduate level biostatistics.

EAB 773 - Survival Analysis for Public Health**Credits 3**

Explores the broad area of survival analysis for analyzing data derived from laboratory, clinical, and epidemiological studies. Methods explored in this course include survival functions, data censoring, hazard models, regression models, and parametric/nonparametric methods for comparing survival models. **Prerequisites:** EAB 753 and EAB 763.

EAB 783 - Multivariate Methods for the Health Sciences**Credits 3**

Provides an in- depth coverage of common multivariate methods. Topics include multivariate correlation and regression, multivariate ANOVA, logistic regression, factor analysis, time series analysis, and principle component analysis. Emphasis placed on application of techniques useful for students in the health sciences. **Prerequisites:** EAB 773 or consent of instructor.

EAB 790 - Current Topics in Environmental Health and Epidemiology**Credits 1-3**

This is an advanced seminar course directed by members of the Department of Environmental and Occupational Health and the Epidemiology and Biostatistics Program. Seminars will be facilitated by faculty members based on their particular areas of research interest and expertise.

EAB 793 - Internship in Epidemiology and Biostatistics**Credits 1 – 3**

Capstone experiences for the MPH degree and is intended to provide students with applied work experience in a local agency, organization, center or institute. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Admission to the School of Community Health Sciences or consent of instructor.

EAB 794 - Professional Paper in Epidemiology and Biostatistics**Credits 3**

Provides the opportunity for a graduate degree candidate to be involved in an in-depth project. A formal paper and presentation describing the project culminate this experience. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Admission to the School of Community Health Sciences or consent of instructor.

EAB 795 - Special Topics in Epidemiology and Biostatistics**Credits 1 – 3**

Selected topic of current interest in epidemiology and biostatistics. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Admission to the School of Community Health Sciences or consent of instructor.

EAB 796 - Independent Study in Epidemiology and Biostatistics**Credits 1 – 3**

Independent study of a selected topic in Epidemiology or Biostatistics. **Prerequisites:** Admission to the School of Community Health Sciences or consent of instructor.

EAB 798 - Thesis Research in Epidemiology and Biostatistics

Credits 1 – 6

Notes: May be repeated, but a maximum of six credits will apply towards the student's degree program.

EOH 601 - Advanced Environmental Toxicology

The following course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

EOH 793 - Internship in Environmental Health

Credits 1 – 3

The environmental internships is one of the capstone experiences for the MPH degree and is intended to provide students with applied work experience in a local agency, organization, center or institute. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Admission to the School of Community Health Sciences or consent of instructor.

HCA 652 - Health Politics and Policy

Credits 3

Role of politics and policy-making as an external environmental impact on health care. Describes the political process in health care policy-making at all government levels. Interest group politics introduced in the context of the roles that these groups play in health care policy development and how these forces and health care organizations react to shape health care policy. Prerequisites: HIST 100, PSC 100, or PSC 101. 3 credits.

HCA 680 - Organization and Management of Long-Term Care Services

Credits 3

ORG & MGT OF LONG TERM CARE SERVICES

HED 629 - Education for Sexuality

Graduate credit may be obtained for this course designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. Credit at the 600 level normally requires additional work.

Environmental and Occupational Health

The mission of the Department of Environmental and Occupational Health is to advance the health of all people in the United States and around the world through research and training in environmental health. The department emphasizes the role of air, water, the home environment, and the workplace as critical determinants of health.

Michelle Chino, Ph.D., Chair
Sheniz Mooney, Graduate Coordinator

Chair

Chino, Michelle - Full Graduate Faculty

Associate Professor of Environmental and Occupational Health, B.S., M.S., PhD. University of New Mexico. *Rebel since 2000.*

Graduate Faculty

Bungum, Timothy - Full Graduate Faculty

Associate Professor of Biostatistics and Epidemiology; B.A. Luther College; M.S., DPH University of South Carolina. *Rebel since 2001.*

Buttner, Mark P. - Full Graduate Faculty

Associate Professor of Environmental and Occupational Health; B.S. University of Wisconsin; M.S. University of Nevada Las Vegas, PhD University of Nevada Reno. *Rebel since 1989.*

Chino, Michelle - Full Graduate Faculty

Associate Professor of Environmental and Occupational Health, B.S., M.S., PhD. University of New Mexico. *Rebel since 2000.*

Cross, Chad - Associate Graduate Faculty

Associate Professor of Biostatistics and Epidemiology; B.S., Purdue University; M.S., PhD. Old Dominion University. *Rebel since 2005.*

Cruz, Patricia - Full Graduate Faculty

Associate Professor of Environmental and Occupational Health, B.S. University of Puerto Rico, M.S. University of Central Florida, PhD. University of Nevada Reno. *Rebel since 1995.*

Dodge Francis, Carolee - Full Graduate Faculty

Assistant Professor of Environmental and Occupational Health; B.S., M.A., Ed.D., University of St. Thomas. *Rebel since 2007.*

Moonie, Sheniz - Full Graduate Faculty

Assistant Professor of Biostatistics and Epidemiology, BS University of California San Diego; MS California Polytechnic University, Pomona; PhD Saint Louis University. *Rebel since 2006.*

Stetzenbach, Linda - Full Graduate Faculty

Professor Emeritus of Environmental and Occupational Health; B.S., M.S., PhD. University of Arizona. *Rebel since 2005.*

Thompson-Robinson, Melva - Full Graduate Faculty

Associate Professor of Environmental and Occupational Health, B.S. University of Michigan, M.S., Ohio University, D.P.H. University of South Carolina. *Rebel since 2004.*

Wong, David - Full Graduate Faculty

Associate Research Professor. B.Sc., M.Sc. Ocean University of Qingdao, PhD. City University of Hong Kong. *Rebel since 2008.*

Environmental and Occupation Health Courses

EOH 702 - Community Based Participatory Research Methods

Credits 3

Teaches the philosophy and methods of community based participatory research. Focus on traditional research methods and their application to community health research as well as strategies for developing research partnerships, community consent, and essential competencies for research with diverse communities.

EOH 704 - Research Integrity & Ethics

Credits 3

RESEARCH INTEGRITY & ETHICS

EOH 705 - Social Epidemiology

Credits 3

Focuses on the social determinants of health and the health implications of social phenomena such as class, discrimination, and work. Students will examine life course hypotheses and the impact of early exposure to disease in later life as well as intervention strategies that incorporate social change elements. Prerequisite: Core epidemiology class.

EOH 709 - Scientific/Technical Writing for the Health and Life Sciences

Credits 3

Technical writing skills are critical to success in publication of scientific journal articles, approval of research grant submissions, and acceptance of thesis/dissertation requirements. In this course students will study techniques and develop skills in technical writing useful to professionals in health care and life sciences.

EOH 710 - Fundamentals of Public Health

Credits 3

Introduces students to public health concepts and practice. Provides broad overview of the field of public health and focused look at core areas of health promotion and education, environmental health, epidemiology and bio statistics, and health care administration in the public health arena.

EOH 711 - Diseases that Changed the World

Credits 3

Human disease has played a significant role in social and political changes worldwide. In this course students will study the impact of people and disease on historical events, and present written and oral discussions of selected topics including how these events impact public health.

EOH 713 - Public Health Law

Credits 3

Examines the history of public health law and the role, authority and limitations of government to enact and enforce such laws. Students will examine the development of public health laws and the relationship between government entities in carrying out the laws.

EOH 715 - Qualitative & Field Methods for Public Health

Credits 3

This course will provide students with the content/skills needed to conduct community-based participatory field research. This course will explore several topics related to qualitative research: theoretical aspects of qualitative research, negotiating community, designing the study, ethnographic observations, triangulating data, and writing a field study report.

EOH 717 - Food Safety and Public Health**Credits 3**

Foodborne illness has a significant impact on public health. In this course students will study microbiological and chemical aspects of food safety including factors that affect growth of organisms in food and production of toxins that can result in foodborne illness.

EOH 732 - Children, Development, Health, and the Environment**Credits 3**

Focuses on health issues specific to children age 0-18, such as abuse and neglect, insurance, nutrition, immunization, mental health, substance abuse, sexuality and chronic disease. Students will examine the unique status of children in the public health system as well as systemic approaches to improving services and policies. **Prerequisites:** MPH core classes.

EOH 735 - Outbreak Investigation**Credits 3**

Students will work through simulated outbreak situations, culminating in a lengthy simulation of an outbreak. Students will be responsible for all aspects of the investigation including report writing. Through partnership with community health agencies, students will have the opportunity to assist in actual outbreak investigations occurring during the semester.

EOH 740 - Fundamentals of Environmental Health**Credits 3**

This course will address chemical, physical and biological factors in the environment and their relationship to the health of the human population.

EOH 745 - Epidemiology & Biostatistics**Credits 3**

Students will explore systems currently in place, both in the United States and internationally, and will learn methodology used to analyze surveillance data. Students will learn about the effective surveillance systems through lecture and case studies of existing surveillance systems. **Same as:** EAB 745. **Prerequisites:** HED 725/EAB 705 or equivalent

EOH 747 - Transmission of Infectious Disease**Credits 3**

Exposure to disease causing microorganisms occurs via inhalation, ingestion, and dermal contact. Students will study transmission of selected microorganisms via the air, water, food, vectors, and person-to-person contact.

EOH 757 - Parasitology and Public Health**Credits 3**

Parasitic infections resulting from exposure to parasites that invade the intestine, blood, or tissues of humans can result in serious disease. This course will discuss a variety of human parasites, resulting disease, and treatment and control strategies to minimize exposure and health impacts.

EOH 760 - Racial and Ethnic Disparities in Health**Credits 3**

Explore the causes of health disparities and potential remedies for health-related inequities that associate with race, ethnicity, social class and culture. Students will develop skills necessary to recognize personal and institutionalized bias which interferes with clinical decision-making, health policy, and health system structural development.

EOH 765 - Seminar in Environmental Justice and Public Health**Credits 3**

Explores the impact of environmental hazards on community health and examine strategies for developing justice resources and effective policy change. Students will examine actual cases and their health and policy outcomes. Focus on community based strategies for research, advocacy, and environmental change. **Prerequisites:** EOH and MPH core classes.

EOH 766 - Biological Invasions and Environmental Health**Credits 3**

This class covers topics with regard to the human introduction, impacts, and prevention of invasive species to environmental health, such as invasion theory, species distinction, ecosystem health, social and economic impacts, invasive species control and management.

EOH 767 - Bioaerosols and Human Health**Credits 3**

Bioaerosols are biological materials that can elicit adverse health effects when humans are exposed in indoor and outdoor environments. This course will present the physical and environmental parameters that affect the dispersal, transport, and survival of bioaerosols, detail specific bioaerosols of concern, and discuss the human health impacts of exposure.

EOH 769 - Advanced Pollution Ecology**Credits 3**

This course will address the major effects of pollution on aquatic organisms and ecosystems. **Prerequisites:** EOH 740 or permission of instructor.

EOH 775 - Injury Epidemiology**Credits 3**

This course will teach students about the epidemiology of intentional and unintentional injury. The course will include the basic concepts of injury prevention, injury surveillance, strategies for injury control, developing injury prevention programs, and designing injury research and evaluation. **Prerequisites:** Core Epidemiology and Research Methods.

EOH 777 - Emerging Infectious Disease**Credits 3**

Re-emerging and newly recognized/emerging infections diseases are having a significant on public health world-wide. This course will present a variety of new diseases resulting from exposure to emerging and re-emerging microbial pathogens and suggested treatment and control strategies to minimize exposure and health impacts.

EOH 790 - Doctoral Seminar**Credits 3**

This is an advanced seminar course directed by members of the Department of Environmental and Occupational Health and the Epidemiology and Biostatistics Program. Seminars will be facilitated by faculty members based on their particular areas of research interest and expertise. **Same as:** EAB 790. **Notes:** S/U grading only.

EOH 794 - Professional Paper in Environmental Health**Credits 3**

This capstone experience provides the opportunity for a graduate degree candidate to be involved in an in-depth project either written or experimental in nature. A formal paper and presentation describing the project culminate this experience. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Admission to the School of Community Health Sciences or consent of instructor.

EOH 795 - Special Topics in Public Health**Credits 3**

Selected topic of current interest not covered in any existing courses in environmental and occupational health. **Notes:** May be repeated to a maximum of three credits. **Prerequisites:** Admission to the School of Community Health Sciences or consent of instructor.

EOH 796 - Independent Study in Environmental Health**Credits 1 – 3**

Independent study of a selected topic in Environmental and Occupational Health. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Admission to the School of Community Health Sciences or consent of instructor.

EOH 797 - Dissertation Prospectus

Credits 3

This course is designed to guide students in the development of their dissertation prospectus.

EOH 798 - Thesis Research

Credits 1 – 6

Notes: May be repeated, but a maximum of six credits will apply towards the student's degree program. **Grading:** S/F grading only.

EOH 799 – Dissertation

Credits 3-6

Dissertation in Environmental and Occupational Health. **Notes:** May be repeated to a maximum of 12 credits.

Prerequisites: PhD standing

Healthcare Administration and Policy

The Health Care Industry is one of the three largest industries in the United States based on revenues, total assets or number of employees. Opportunities for employment in health care organizations are abundant in the Las Vegas Valley.

Job opportunities occur in the following types of organizations:

- Hospitals
- Ambulatory care facilities
- Long-term care facilities
- Medical practices
- Insurance companies
- Public health agencies
- Mental health programs
- Managed care organizations
- Community health programs

Students in the Health Care Administration M.H.A. gain a broad view of the health care delivery system and develop an understanding of health and disease. They develop analytical skills through the curriculum and internships to prepare them for leadership positions in the organization, financing, and delivery of health care services.

Health Care Administration and Policy Plan

Master of Healthcare Administration

Plan Description

The Master of Health Care Administration degree program is the only graduate health care administration program in the Nevada System of Higher Education (NSHE). The MHA will prepare students to assume leadership roles in health care organizations. The degree is recognized in the health care field as an important credential that allows graduates to assume health care management positions. The curriculum is developed to include all the critical competencies for health care leadership, including issues of health care delivery, health care finance, ethical and legal issues in health care administration and management topics. Students and faculty will contribute through research and service to the knowledge and applications of management in health care; and they will use their education and expertise to help meet the health care management needs of the State of Nevada and beyond.

Learning Outcomes

www.unlv.edu/degree/mha

Plan Admission Requirements

To be considered for admission, an applicant must meet Graduate College standards and:

- Hold a bachelor's degree or recognized equivalent from a regionally accredited institution. A criterion for admission is at least a B (3.0) grade point average, or equivalent in work completed after the first two years of a bachelor's degree program, and in all post-baccalaureate course work. An applicant who does not meet this academic criterion may request special consideration.
- Submit the following documents as part of your online application for admission:
 - A one to two page personal essay describing why they want to pursue a career in health care management.
 - A resume.
 - Unofficial transcripts from all post-secondary institutions attended.
 - Contact information for three recommendation providers who will upload letters of recommendation on your behalf.
 - Official GMAT or GRE scores.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Thesis Track

Total Credits Required: 48

Course Requirements

- Required Courses – Credits: 42
 - HCA 701 - U.S. Health Care System: Programs and Policies

- HCA 702 - Epidemiology in Health Services Management
- HCA 703 - Management of Health Service Organizations and Systems
- HCA 704 - Health Care Economics
- HCA 705 - Health Care Accounting and Finance
- HCA 706 - Strategic Management of Health Services
- HCA 707 - Operations and Quality Management of Health Services
- HCA 708 - Information Systems in Health Services Management
- HCA 710 - Human Resources Management of Health Care Organizations
- HCA 711 - Advanced Health Care Finance
- HCA 713 - Internship in Health Care Administration
- HCA 715 - Health Services Research Methods
- HCA 761 - Health Care Law and Ethics for Managers
- EAB 703 - Biostatistical Methods for the Health Sciences
- Thesis – Credits: 6
 - HCA 799 - Thesis Research

Degree Requirements

- Completion of a minimum of 48 credit hours with a minimum GPA of 3.00.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation from both degrees up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Students must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Non-Thesis Track

Total Credits Required: 45

Course Requirements

- Required Courses – Credits: 42
 - HCA 701 - U.S. Health Care System: Programs and Policies
 - HCA 702 - Epidemiology in Health Services Management
 - HCA 703 - Management of Health Service Organizations and Systems
 - HCA 704 - Health Care Economics
 - HCA 705 - Health Care Accounting and Finance
 - HCA 706 - Strategic Management of Health Services
 - HCA 707 - Operations and Quality Management of Health Services
 - HCA 708 - Information Systems in Health Services Management
 - HCA 710 - Human Resources Management of Health Care Organizations
 - HCA 711 - Advanced Health Care Finance
 - HCA 713 - Internship in Health Care Administration

- HCA 715 - Health Services Research Methods
- HCA 761 - Health Care Law and Ethics for Managers
- EAB 703 - Biostatistical Methods for the Health Sciences
- Capstone Course – Credits: 3
 - HCA 709 - Health Care Administration Capstone Course

Degree Requirements

- Completion of a minimum of 45 credit hours with a minimum GPA of 3.00.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation from both degrees up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete the capstone course.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Thesis Track
- Subplan 2: Non-Thesis Track

Health Care Administration and Policy Courses

HCA 701 - U.S. Health Care System: Programs and Policies

Credits 3

Examines the manpower, financing and major service components of the US health care system. Addresses major issues of health care access, costs, and quality of care. Special emphasis on the role of government regulation and public policy in the system. **Prerequisites:** Graduate standing.

HCA 702 - Epidemiology in Health Services Management

Credits 3

Examination and synthesis of concepts and an application of methods appropriate to epidemiology from a managerial perspective.

HCA 703 - Management of Health Service Organizations and Systems

Credits 3

Theories and practice of the management of health services. Analysis and evaluation of the management functions and roles, organizational theories and behavioral perspectives and health care policy issues as they apply to health services management.

HCA 704 - Health Care Economics

Credits 3

Application of economic theory to study of health markets and institutions. Impact of insurance on demand for and supply of health care analyzed. Competition and regulation as forces in health care industry discussed from an economic perspective. **Prerequisites:** ECON 102 or equivalent, 3 hours of undergraduate microeconomics.

HCA 705 - Health Care Accounting and Finance

Credits 3

Introduction to financial and managerial accounting in the context of the health care industry. Also introduces concepts from finance for use in the decision making process. **Prerequisites:** ACC 201 or equivalent, 3 hours of undergraduate accounting.

HCA 706 - Strategic Management of Health Services

Credits 3

Emphasis on concepts of strategic and operational management for health care organizations. Also covers managerial epidemiology and marketing. Utilizes case studies. **Prerequisites:** HCA 705

HCA 707 - Operations and Quality Management of Health Services

Credits 3

Introduces concepts of operations management in the context of the health care industry. Covers analytical techniques in the context of quality management. **Prerequisites:** Graduate standing.

HCA 708 - Information Systems in Health Services Management

Credits 3

Understanding of computerized needs of health services managers. Examines decision making process, information needs of various decisions and how “decision support systems” meet these needs. Major types of information systems examined, include financial, patient care & strategic management systems. **Prerequisites:** Graduate standing.

HCA 709 - Health Care Administration Capstone Course

Credits 3

Capstone experience provides the Health Care Administration graduate degree candidate the option to select one of the following: an indepth project or a comprehensive examination. **Same as:** HED 710/EAB 710/EOH 710. **Notes:** The project option requires a formal paper and a presentation. **Grading:** S/F grading only. **Prerequisites:** Last semester in program or consent of instructor.

HCA 710 - Human Resources Management of Health Care Organizations

Credits 3

Covers structural and behavioral systems and human resources process systems. Taught from the perspective of strategic management and in the context of the legal environment for health care organizations.

HCA 711 - Advanced Health Care Finance

Credits 3

Further study of financial management in the context of the health care industry. **Prerequisites:** HCA 705 or the equivalent.

HCA 713 - Internship in Health Care Administration

Credits 3 – 6

Provides students with an applied work experience in a local health services organization. Course is faculty supervised and requires written reports and other structured assignments. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Consent of instructor.

HCA 715 - Health Services Research Methods

Credits 3

Course examines health services research concepts and methods. Topics include: health services research relevance; research study conceptualization; research design, operationalization and analysis; and the review of the health services research literature. Emphasis on research relevant to the practice of health care management. **Prerequisites:** EAB 703

HCA 761 - Health Care Law and Ethics for Managers

Credits 3

Course examines legal and ethical issues that impact health care management. Topics include: liability, contract and antitrust law; employee and labor law, professional relations, and ethical issues regarding; beginning and end of life, patient rights, medical research, access to care; conflict of interest, and confidentiality.

HCA 798 - Independent Study**Credits 1 – 3**

Independent study in a specific area of student interest under the direction of a faculty member. **Notes:** May be repeated to a maximum of six credits. **Grading:** S/F grading only. **Prerequisites:** Consent of instructor.

HCA 799 - Thesis Research**Credits 3**

Notes: May be repeated, but a maximum of six credits will apply towards the student's degree program. **Grading:** S/F grading only. **Prerequisites:** Consent of HCA& P Department Chair, graduate courses in research methodology and in statistics.

Health Promotion

The goal of the 36-semester credit hour Health Promotion graduate program is to provide students with the theory, knowledge, and skills needed to integrate the principles of health promotion into a variety of community, research, clinical, business or school settings and/or to pursue advanced study. Specifically, the Health Promotion degree program will prepare students to: 1) assess and communicate individual, family, and community needs, 2) plan, implement, evaluate, and administer programs, 3) act as a resource person by coordinating provisions for services and applying appropriate research principles and methods, and 4) advance the goals of job-related professional organizations. To this end, eight concentrations in the Health Promotion degree are offered.

The **Administration** concentration is designed for those interested in assuming leadership roles in their organization such as health program planners, health care project specialists, or health officers. The **Communication** concentration is designed for individuals interested in the dissemination of health promoting information and skills through varied strategies leading to health media specialist or health communication expert occupations.

The **Counseling** concentration is designed for anyone wishing to assist others one on one or in small groups regarding effective and positive strategies dealing with critical health issues. Such professionals include, but are not limited to, employee assistance program educators, patient educators, or mental health counselors.

The **Education** concentration is designed to improve the delivery skills of any educator at any teaching level, at varied sites such as school health teachers, public health educators, and employee wellness associates.

The **Environmental Health** concentration is designed for those individuals seeking occupations such as health and safety specialists or environmental health consultants due to an interest in the relationship that exists between the physical environment and the health of individuals and groups in that environment.

The **Gerontology** concentration is designed for individuals who are interested in health promotion strategies geared specifically for older adults delivered through professional roles such as gerontology outreach workers or program planners for seniors.

The **Nutrition and Fitness** concentration is designed for those interested in the fields of corporate health promotion or personal wellness training who desire to advise individuals and groups regarding eating choices and activity regimens to enhance performance and health.

The **Interdisciplinary** concentration, clearly the most flexible, is designed for those students with specific needs who would be best served by selecting a myriad of graduate courses from across campus. Individuals such as school nurses, epidemiologists, and industrial hygienists could benefit from the individualized approach offered in this concentration.

Shawn Gerstenberger, Ph.D., Chair

Chair

Gerstenberger, Shawn - Full Graduate Faculty

Assistant Professor of Biostatistics and Epidemiology, BS University of California San Diego, MS California Polytechnic University, Pomona, PhD Saint Louis University. *Rebel since 2006.*

Moseley, Charles - *Full Graduate Faculty*

Associate Professor and Chair of Health Care Administration and Policy; Ph.D. Virginia Commonwealth University. *Rebel since 1991.*

Regin, Charles - *Associate Graduate Faculty*

Assistant Professor; B.S., M.S., University of Wisconsin-La Crosse; Ph.D., Southern Illinois University at Carbondale. *Rebel since 1987.*

Shen, Jie - *Full Graduate Faculty*

Associate Professor and Chair of Health Care Administration and Policy; Ph.D. Virginia Commonwealth University. *Rebel since 2006.*

Wong, David - *Full Graduate Faculty*

Associate Research Professor. B.Sc., M.Sc. Ocean University of Quingdao, Ph.D. City University of Hong Kong. *Rebel since 2008.*

Health Promotion Courses

HED 607 - Stress Management**Credits 3**

STRESS MANAGEMENT

HED 627 - Methods in Health Education**Credits 3**

METHODS IN HEALTH EDUCATION

HED 630 – Nutrition**Credits 3**

NUTRITION

HED 635 - Health Studies on Dangerous Drugs**Credits 3**

HEALTH STUDIES ON DANGEROUS DRUGS

HED 700 - Contemporary Issues in Health Promotion**Credits 3**

Selected studies in health promotion, health education or health-related area addressed through readings, discussions, and/or presentations. **Formerly:** (HED 780). **Notes:** Specific topic(s) announced in the schedule of classes. May be taken up to a maximum of six credits. **Prerequisites:** Graduate standing, consent of instructor and/or degree program advisor.

HED 705 - Theoretical Foundations in Health Promotion**Credits 3**

Study of the social, cultural, demographic, political, and educational foundations of health promotion. Professional and practice settings in health promotion reviewed. Traditional and contemporary concepts of treatment, intervention, and prevention as applied to health promotion investigated.

HED 710 - Fundamentals of Public Health**Credits 3**

Introduces students to public health concepts and practice. Provides broad overview of the field of public health and focused look at core areas of health promotion and education, environmental health, epidemiology and biostatistics, and health care administration in the public health arena.

HED 720 - Program Planning and Grant Writing in Health Promotion**Credits 3**

Principles of program planning based on assessing individual and community needs and techniques to evaluate the effectiveness of health promotion programs. Also designed to analyze the process to obtain fiscal resources through grants, contracts, and other internal and external sources. **Prerequisites:** HED 700, 705

HED 725 - Epidemiology and Public Health**Credits 3**

Explores principles related to the distribution and causality of disease. Focuses on etiology, prevention and control of communicable and chronic human disease. Participants trained in basic epidemiological methodology, featuring case-series, case-control, experimental and cohort study. **Same as:** HED 725/EAB 705

HED 730 - Program Evaluation in Health Promotion**Credits 3**

Provides overview of processes and skills required to effectively evaluate health programs. Formative, summative, process, and outcome evaluation methods discussed for application in a variety of professional settings. Includes socio-cultural, political, administrative, and ethical issues in conducting evaluation. **Formerly:** (HED 715).

Prerequisites: HED 705, HED 720.**HED 735 - Practical Applications in Health Promotions****Credits 3**

Identification and development of methods and strategies within the health education system which influence decisions about personal, family, organizational, and community health promotion. Emphasis on developing competency in planning and implementation of classrooms and clinical teaching strategies and health information dissemination. **Prerequisites:** HED 700, 705, 720

HED 750 - Graduate Project in Health Promotion

Credits 3

Capstone experience provides health promotion graduate degree candidate with opportunity to be involved with indepth project either written, experiential, or combination in nature. Planned and carried out under graduate faculty approval and supervision.

HED 755 - Thesis Research

Credits 1-9

May be repeated, but a maximum of 9 credits will apply towards the student's degree program. **Grading:** S/F grading only. **Prerequisites:** HED 735

HED 760 - Technology in Health Promotion

Credits 3

Use of current technology as it relates to health issues. Provides knowledge and skills to the health professional to enhance utilization of technology applications.

HED 785 - Independent Study in Health Promotion

Credits 1 – 3

Individually arranged study of areas of health promotion not covered in depth in other courses. **Notes:** May be repeated up to a maximum of six credits. **Prerequisites:** Consent of instructor and graduate program advisor.

William F. Harrah College of Hotel Administration

Graduate education in the William F. Harrah College of Hotel Administration is a personalized experience. There is no better place to learn about the hospitality profession than the entertainment capital of the world-Las Vegas. Here we have a living laboratory with more than 146,000 hotel rooms and hundreds of casinos, restaurants, resorts, sporting events, conventions, trade shows, and leisure and recreation facilities. If you are interested in a post-graduate degree that will advance your career or prepare you to teach others about the hospitality industry, this is the place for you.

We offer a master's of science degree in Hotel Administration plus a dual MBA and M.S. in Hotel Administration degree, and, a dual M.S. in Hotel Administration and M.S. in Management Information Systems degree. We also have an executive master's degree and a Ph.D. in Hospitality Administration. Our internationally recognized, diverse faculty members will help you create an academic program that meets your unique needs.

The William F. Harrah College of Hotel Administration is known for its tradition of offering world-class programs in hospitality administration. The Ace Denken Co. Ltd. Endowment supports the Ph.D. in Hospitality Administration.

Stowe Shoemaker, Ph.D., Dean, William F. Harrah College of Hotel Administration

James Busser, Ph.D., Associate Dean of Academic Affairs

Tony L. Henthorne, Ph.D., Associate Dean of Research and Graduate Programs

Pat Moreo, Ph.D., Associate Dean of Strategic Initiatives

Billy Bai, Ph.D., Senior Assistant Dean of Academic Affairs

Jean Hertzman, Ph.D., Assistant Dean of Operations

Hotel Administration

Dean

Stowe Shoemaker - *Full Graduate Faculty*

Professor; B.S., University of Vermont; M.S., University of Massachusetts; Ph.D., Cornell University. *Rebel since 2012.*

Associate Deans

James A. Busser - *Full Graduate Faculty*

Associate Dean of Academic Affairs; Director, Ph.D. Program; Professor; B.A., Illinois State University; M.S., Ph.D., University of Illinois-Champaign-Urbana. *Rebel since 1987.*

Tony L. Henthorne - *Full Graduate Faculty*

Associate Dean of Research and Graduate Programs; Professor; B.A., Ouachita Baptist University; M.B.A., University of Arkansas, Fayetteville; Ph.D., University of Mississippi. *Rebel since 2008.*

Pat Moreo - *Full Graduate Faculty*

Associate Dean of Strategic Initiatives; Professor; B.S., University of Nevada Las Vegas; M.P.S., Cornell University; Ed.D., University of Nevada, Las Vegas. *Rebel since 2006.*

Graduate Studies

James A. Busser - *Full Graduate Faculty*

Associate Dean of Academic Affairs; Director, Ph.D. Program; Professor; B.A., Illinois State University; M.S., Ph.D., University of Illinois-Champaign-Urbana. *Rebel since 1987.*

Sarah Tanford - *Full Graduate Faculty*

Director of M.S. in Hotel Administration Program; Assistant Professor; B.A., Northwestern University; M.S., Ph.D., University of Wisconsin-Madison. *Rebel since 2008.*

Gail Sammons - *Full Graduate Faculty*

Director of Master of Hotel Administration Program; Professor; B.S., North Dakota State University; M.S., University of Nevada, Las Vegas; Ph.D., Pennsylvania State University. *Rebel since 1996.*

Karl Mayer - *Full Graduate Faculty*

Director, Dual MBA/Master of Science in Hotel Administration and Master of Science in Hotel Administration/Master of Science in Management Information Systems Programs; Associate Professor; B.S., University of Wisconsin-Madison; M.S., Columbia University; M.B.A., Harvard University; Ph.D., University of Nevada, Las Vegas. *Rebel since 2001.*

Graduate Faculty

Bai, Billy - *Full Graduate Faculty*

Senior Assistant Dean of Academic Affairs; Associate Professor; B.A., Nankai University; M.Phil., Hong Kong Polytechnic University; M.S., Ph.D., Purdue University. *Rebel since 2001.*

Baloglu, Seyhmus - *Full Graduate Faculty*

Professor; B.S., Cukurova University; M.B.A., Hawaii Pacific University; Ph.D., Virginia Polytechnic Institute and State University. *Rebel since 1996.*

Bergman, Christine - *Full Graduate Faculty*

Professor; B.S., Loma Linda University; M.S., University of Arizona; Ph.D., Michigan State University. *Rebel since 2005.*

Bernhard, Bo Jason - *Full Graduate Faculty*

Associate Professor; Executive Director International Gaming Institute; B.A., Harvard University; Ph.D., University of Nevada, Las Vegas. *Rebel since 2002.*

Braunlich, Carl - *Full Graduate Faculty*

Associate Professor; B.S., M.S., Cornell University; D.B.A., United States International University. *Rebel since 2006.*

Busser, James A. - *Full Graduate Faculty*

Associate Dean of Academic Affairs; Professor; B.A., Illinois State University; M.S., Ph.D., University of Illinois-Champaign-Urbana. *Rebel since 1987.*

Chatfield, Hyun Kyung - *Full Graduate Faculty*

Assistant Professor; B.S., M.B.A., Ph.D., University of Nevada, Las Vegas. *Rebel since 2008.*

Christianson, David J. - *Full Graduate Faculty*

Associate Professor; B.A., M.R.E., Brigham Young University; Ph.D., Texas A&M University. *Rebel since 1977.*

Dalbor, Michael C. - *Full Graduate Faculty*

Professor; B.S., Ph.D., Pennsylvania State University; M.B.A., Loyola College. *Rebel since 2000.*

William F. Harrah College of Hotel Administration Plans

Master of Science - Hotel Administration

Plan Description

The 36-hour Master of Science – Hotel Administration degree program will prepare you for a successful career as an upper-level executive in the hospitality industry or as an instructor/researcher in a hospitality education program. You can choose from several tracks of study including food service management, hotel management, hospitality education, convention and meetings management, or casino and gaming management.

Students have the opportunity to conduct research on a subject that interests them by writing a thesis or a professional paper. This decision will be based upon the student's goals and consultation with an academic advisor. Copies of the completed thesis must meet the guidelines of the UNLV Graduate College and be completed according to published deadlines.

Learning Outcomes

www.unlv.edu/degree/ms-hotel-administration

Plan Admission Requirements

The student must satisfy the minimum admission requirements of the UNLV Graduate College and the William F. Harrah College of Hotel Administration, including:

- Submission of a completed online application form and required admission fee.
- Submission of two copies of official transcripts from all institutions attended after high school. One copy should be sent directly from the institution attended to the UNLV Graduate College and another one to the Harrah Hotel College Graduate Studies Office. Please note: it is a requirement of the UNLV Graduate College that students with class credits and/or degrees from educational institutions outside the United States must provide a course-by-course evaluation of those credentials by a Graduate College approved NACES Evaluation Agency. This is to obtain an evaluation of the courses, verification of degrees, and establish accreditation of the schools and/or universities. A copy of this evaluation should be sent to both the UNLV Graduate College and the Harrah Hotel Graduate Studies Office. Unofficial copies of transcripts may be uploaded with the online application form.
- A baccalaureate degree from an accredited institution with a minimum overall GPA of 2.75 on a 4.00 scale, or 3.00 in the last two years of study.

- A satisfactory composite score on the Graduate Record Examination (GRE) (department code 5199), minimum score 1150 or 50th percentile—with at least 35% on the verbal portion, or the Graduate Management Admissions Test (GMAT) (department code ZSC-37-21), minimum score 550 with at least 25% on the verbal portion. All scores must be sent directly from the testing center to the Harrah Hotel College Graduate Studies Office.
- A minimum of one year of full-time work experience in a management/supervisory capacity in the hospitality industry, or three years of full-time, front-line experience.
- A brief essay of approximately 500 words outlining the applicant’s career goals and how the applicant’s hospitality employment background has prepared him/her for graduate study.
- Two letters of recommendation, one from a current or former employer and one from a college faculty member able to evaluate the applicant’s potential for success in a graduate program. If the applicant is no longer in touch with faculty members, letters from two employers will suffice.
- A current resume with employer references. The resume should clearly indicate job titles, places and dates of employment, and specific job responsibilities.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Items 6, 7, and 8 above can be submitted to the Harrah Hotel College Graduate Studies Office by email or mail. Recommendation letters must be mailed or emailed directly from the employer or professor, not forwarded by the applicant.

Application Deadline: Refer to The Graduate College website for specific deadlines.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Thesis Track

Total Credits Required: 36

Course Requirements

- Required Courses – Credits: 24
 - HOA 703 - Human Resources Management in the Hospitality Industry
 - HOA 705 - Financial Analysis for the Service Industries
 - HOA 711 - Laws of Innkeeping and Food Service
 - HOA 730 - Statistical Analysis for Hospitality
 - HOA 731 - Operational Analysis in Hospitality Management
 - HOA 735 - Research Methodology
 - HOA 740 - Marketing Systems
 - HOA 777 - Critical Issues in Hospitality Management
- Management Elective Course – Credits: 3
 - Complete one of the following courses:
 - HOA 716 - Principles and Practices in Hotel Management
 - HOA 717 - Principles and Practices in Convention and Meetings Management
 - HOA 718 - Principles of Casino and Gaming Management
 - HOA 720 - Principles and Practices in Food Service Management
- Supporting Elective Course – Credits: 3
 - Complete three credits of advisor-approved elective coursework.

- Thesis – Credits: 6
 - HOA 789 - Thesis

Degree Requirements

- Successfully complete a minimum of 36 graduate-level credit hours, of which no less than 24 are in Hotel Administration. This allows for a variety of supplemental tracks including business and education. At least 27 credits must be at the 700-level.
- An oral examination is required of all candidates for the M.S. degree.
- Successfully complete supplemental courses as required by the academic advisor, if the student's undergraduate preparation is insufficient. Generally, no more than six credits of supplementary courses will be required.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- In addition to the academic requirements, the Harrah Hotel College requires 500 hours of acceptable employment experience in the hospitality industry. The work experience requirement requires the student to find employment, but carries no academic credit and may be earned outside Nevada and during the summer. This work experience will be evaluated qualitatively as well as quantitatively, and may be waived at the discretion of the program coordinator. International students must go to the Office of International Students and Scholars to verify employment eligibility.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Professional Paper Track

Total Credits Required: 36

Course Requirements

- Required Courses – Credits: 24
 - HOA 703 - Human Resources Management in the Hospitality Industry
 - HOA 705 - Financial Analysis for the Service Industries
 - HOA 711 - Laws of Innkeeping and Food Service
 - HOA 730 - Statistical Analysis for Hospitality
 - HOA 731 - Operational Analysis in Hospitality Management
 - HOA 735 - Research Methodology
 - HOA 740 - Marketing Systems
 - HOA 777 - Critical Issues in Hospitality Management
- Management Elective Course – Credits: 3

- Complete one of the following courses:
 - HOA 716 - Principles and Practices in Hotel Management
 - HOA 717 - Principles and Practices in Convention and Meetings Management
 - HOA 718 - Principles of Casino and Gaming Management
 - HOA 720 - Principles and Practices in Food Service Management
- Supporting Elective Courses – Credits: 6
 - Complete six credits of advisor-approved elective coursework.
- Professional Paper – Credits: 3
 - HOA 788 - Professional Paper

Degree Requirements

- Successfully complete a minimum of 36 graduate-level credit hours, of which no less than 24 are in Hotel Administration. This allows for a variety of supplemental tracks including business and education. At least 27 credits must be at the 700-level.
- An oral examination is required of all candidates for the M.S. degree.
- Successfully complete supplemental courses as required by the academic advisor, if the student's undergraduate preparation is insufficient. Generally, no more than six credits of supplementary courses will be required.
- In addition to general academic requirements, the Harrah College of Hotel Administration requires 500 hours of acceptable employment in the hospitality industry. This work experience will be evaluated qualitatively as well as quantitatively. The work experience requirement may be met during the school year or in summers. International students must go to the Office of International Students and Scholars to verify employment eligibility. The work experience requirement requires the student to find a paid job but carries no academic credit and may be earned anywhere.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete a professional paper.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Thesis Track
- Subplan 2: Professional Paper Track

Executive Master of Hospitality Administration

Plan Description

The Master's of Hospitality Administration (MHA) degree is a 30-credit program designed to bring hospitality executives together to learn the latest management and leadership techniques in an executive format, via the Internet and other media. Demand determines the class schedule for the program.

Courses are taught entirely online—there is no requirement that any student come to the main UNLV campus (although all students are encouraged to participate in the graduation exercises). Courses are offered throughout the

year in five eight-week sessions. Two sessions are scheduled during the fall and spring semesters and one during the summer semester. At least two required courses and two elective courses are offered during each session. The professional paper class is offered during the regular 16-weeks of the Fall and Spring semesters and for an extended time during the Summer semester to afford students time to complete their projects. The professional paper should adhere to the American Psychological Association's current publication manual regarding writing style and format.

In addition to regular tuition and fees, this program has an additional fee of \$510 per credit to cover the cost of delivery in an executive format. For more information, contact the program coordinator at (702) 895-5430.

Learning Outcomes

www.unlv.edu/degree/mha-hospitality-administration

Plan Admission Requirements

The student must satisfy the following admission requirements of the Graduate College and the William F. Harrah College of Hotel Administration.

- A baccalaureate degree from an accredited college or university with an overall undergraduate grade point average of at least 2.75 on a 4.00 scale, or 3.00 or higher in the last two years of study.
- A minimum of three years of full-time management experience in the hospitality industry.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

IMPORTANT NOTE FOR INTERNATIONAL STUDENTS: Because this program is offered totally online and is available anywhere in the world, UNLV cannot issue an I-20 and you cannot obtain a student visa to come to the United States based upon enrollment in the Master's of Hospitality Administration Program.

The following information to be submitted electronically to the Graduate College with your application:

- Completed online application found in the upper right-hand column of the Graduate College home page.
- Unofficial transcripts for all post-secondary schools attended.
- Payment of application fees.
- A brief essay of approximately 500 words outlining your career goals and how your hospitality employment background has prepared you for graduate study.
- Résumé with employer references. The resume should clearly indicate job titles, place and date of employment and specific job responsibilities.
- Two letters of recommendation: You may upload contact information (name, address, phone, email) for a current or former employer and a college faculty member able to evaluate your potential for success in a graduate program (two recommendations required). If you are no longer in touch with faculty members, two letters from employers will suffice. Your contacts will be sent an email with information on how to complete the online recommendation or where to mail a submission.
- NOTE: Instead of the above, you may skip this section on the application and have your recommenders email their letters directly to gael.hancock@unlv.edu.

The following information to be submitted directly to the Harrah Hotel College Graduate Studies Office and the Graduate College:

- In addition to the electronic transcript(s) submitted to the Graduate College with your application, official copies of your transcripts must be mailed directly from the educational institution(s) to both the Graduate College and the Harrah Hotel College Graduate Studies Office.

- Evaluation of Foreign Credentials (see #4 above)

Notes: Students are not required to take the GRE or the GMAT for entry into this program.

We will accept email submissions of the essay, resume and recommendation letters. However, recommendation letters must be emailed directly from the professor or employer, not forwarded by the prospective student.

Application Deadlines

Refer to the Graduate College website for specific deadlines.

All required documentation and application materials must be received by the UNLV Graduate College and the Harrah Hotel College Graduate Studies Office by the listed deadline for the application to be considered.

Plan Requirements

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 15
 - MHA 603 - Human Resources and Behavior in the Hospitality Industry
 - MHA 605 - Financial Analysis for the Service Industries
 - MHA 640 - Marketing Systems
 - MHA 635 - Research Methodology
 - MHA 651 - Hospitality Service Management
- Elective Courses – Credits: 12
 - Complete four additional MHA courses:
 - MHA 538 - Fundamentals of Casino Operations
 - MHA 604 - Hospitality Organizational Behavior Issues
 - MHA 606 - Hospitality Revenue Management
 - MHA 607 - Hospitality Industry Cost Control
 - MHA 611 - Laws of Innkeeping and Food Service
 - MHA 616 - Principles and Practices in Hospitality Management
 - MHA 617 - Principles and Practices in Convention and Meetings Management
 - MHA 618 - Principles of Casino and Gaming Management
 - MHA 620 - Principles and Practices in Food Service Management
 - MHA 625 - Information Technology in the Hospitality Industry
 - MHA 626 - Sustainability in the Hospitality Industry
 - MHA 631 - Operational Analysis in Hospitality Management
 - MHA 638* - Database Marketing for Hospitality and Tourism
 - MHA 641 - Dynamics of Tourism
 - MHA 642 - Customer Development Strategies for Casino & Gaming
 - MHA 644 - Online Training and Development
 - MHA 645 - Human Dynamics and Organizational Leadership
 - MHA 646 - Essentials of Negotiation in the Hospitality Industry
 - MHA 647 - Intercultural Communication in the Hospitality Industry
 - MHA 653 - Event Management
 - MHA 654 - Risk Management: Safety and Security in Hospitality and Tourism
 - MHA 660 - Research Seminar in Hotel Administration
 - MHA 661 - Research Seminar in Food Service Administration

- MHA 662 - Seminar in Hospitality Education
- MHA 663 - Research Seminar in Casino and Gaming Management
- MHA 675 - Seminar in Hospitality Finance
- MHA 681 - Independent Study and Research
- MHA 690 - Special Topics in Hospitality Management
- Culminating Experience – Credits: 3
 - Complete either a professional paper or hospitality entrepreneurship.
 - MHA 787 - Entrepreneurship in the Hospitality Industry
 - MHA 788 - Professional Paper

Degree Requirements

- Students must successfully complete 30 credit hours of 500-/600-level course work in the MHA program in the William F. Harrah College of Hotel Administration. These credits will come from four elective courses, five required courses and a professional paper.
- Students may take courses in any order with three exceptions: six or more credit hours must be completed before MHA 635 – Research Methods can be taken; MHA 635 – Research Methodology must be taken prior to the culminating experience, and it is recommended that the culminating experience be taken in the last semester of study. Students can schedule their individual programs with the MHA academic advisor.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete a culminating experience.

William F. Harrah College of Hotel Administration Courses

HOA 501 - Hotel Law Credits 3

Legal aspects of the owner/customer relationship with particular attention to personal and property liability in the hospitality industry. **Formerly:** HOA 601. **Same as:** HMD 401. **Notes:** Credit at the 500 level normally requires additional work.

HOA 502 - Employment Law in the Hospitality Industry Credits 3

Covers all significant state and federal laws applicable to employment relationships found in hospitality businesses and studies effective methods of managing hospitality employees in compliance with applicable employment laws. Students learn to effectively identify, evaluate and resolve employment law issues and liabilities commonly encountered by hospitality businesses. **Formerly:** HOA 602. **Same as:** HMD 402. **Notes:** Credit at the 500-level normally requires additional work.

HOA 507 - Organizational Theory Applied to the Service Industries Credits 3

Focuses on developing management skills through the study and application of theories of human behavior, particularly in service organizations. Areas addressed include: working with/through others, communication, coaching and counseling, providing feedback, goal setting, stress management, creative problem solving, motivation, power, conflict management, and group dynamics and developing effective teams. **Formerly:** HOA 607. **Same as:** HMD 407. **Notes:** Credit at the 500 level normally requires additional work.

HOA 508 - Labor Management Relations

Credits 3

Analysis of labor-management relations in the hospitality industry at the employee, unit, and strategic levels. Development of written and verbal communication and problem identification/ solving skills via environmental analysis (historical, legal, social and technological). Other areas include: contract negotiation and administration, union-management cooperative efforts, and strategic labor management decision-making. **Formerly:** HOA 608. **Same as:** HMD 408. **Notes:** Credit at the 500-level normally requires additional work.

HOA 509 - Hospitality Security/Risk

Credits 3

Analysis of contemporary risk management and security concerns specific to hospitality and gaming industries; encompassing lodging, food and beverage, casinos, events, and clubs. Includes development of security and risk management strategies for asset protection, loss prevention, disaster control, crisis management, industrial safety, casino security, and emergency action planning. **Formerly:** HOA 510. **Same as:** HMD 410. **Notes:** Credit at the 500-level normally requires additional work.

HOA 521 - Market and Feasibility Studies

Credits 3

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** HOA 621. **Notes:** Credit at the 500 level normally requires additional work.

HOA 522 - Staff Planning and Operational Analyses

Credits 3

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** HOA 622. **Notes:** Credit at the 500-level normally requires additional work.

HOA 525 - Computer Application to the Hospitality

Credits 3

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** HOA 625. **Notes:** Credit at the 500-level normally requires additional work.

HOA 526 - Accounting for the Casino Hotel

Credits 3

Detailed examination of accounting systems, procedure, and controls peculiar to casinos required by both management and government for internal auditing, financial reporting, and governmental control. **Formerly:** HOA 626. **Same as:** GAM 426

HOA 536 - Mathematics of Casino Games

Credits 3

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** HOA 636. **Notes:** Credit at the 500 level normally requires additional work.

HOA 537 - Gaming Regulations and Control

Credits 3

Nevada's system of gaming regulation and control provides a model for studying the history, purpose, politics, methods, and limitations — both practical and legal — of governmental regulation and control of legal gambling. **Formerly:** HOA 637. **Same as:** GAM 437. **Notes:** Credit at the 500 level normally requires additional work.

HOA 540 - Casino Marketing

Credits 3

Marketing concepts as applied to the gaming industry. **Formerly:** HOA 640. **Same as:** GAM 440. **Notes:** Credit at the 500 level normally requires additional work.

HOA 542 - Sociology of Gambling**Credits 3**

Analysis of patterns of participation in various forms of gambling; political/economic background of gambling; effects of gambling on communities, lifestyles, and value systems. **Formerly:** HOA 642. **Same as:** GAM 442, SOC 442, SOC 642. **Notes:** Credit at the 500 and 600 level normally requires additional work.

HOA 549 - International Tourism**Credits 3**

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** HOA 649. **Notes:** Credit at the 500 level normally requires additional work.

HOA 553 - Management of Hospitality Service Delivery System**Credits 3**

Evaluation, design, and management of service delivery systems through operations management topics from a service perspective. Included are other related topics such as customer satisfaction and managing organizational change. **Formerly:** HOA 653. **Same as:** HMD 453. **Notes:** Credit at the 500 level normally requires additional work.

HOA 555 - Hotel Administration Seminar**Credits 3**

Study and discussion of current problems in the hospitality industry using case studies, individual research, and guests. **Formerly:** HOA 655. **Same as:** HMD 455. **Notes:** Credit at the 500 level normally requires additional work.

HOA 556 - Employee Development**Credits 3**

Stresses the techniques in planning, developing, and conducting training programs in food service and lodging firms. **Formerly:** HOA 656. **Same as:** HMD 456. **Notes:** Credit at the 500 level normally requires additional work.

HOA 560 - Facilities Planning and Equipment**Credits 3**

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** HOA 660. **Notes:** Credit at the 500 level normally requires additional work.

HOA 570 - Quantitative Methods and Applications in Casino Gaming**Credits 3**

Develops the techniques and methods for computing the probabilities, expected values, and house percentages of casino games and analyzes the effects of changes in playing rules and payoff odds. **Formerly:** HOA 670. **Same as:** GAM 470. **Notes:** Credit at the 500 level normally requires additional work.

HOA 571 - Practicum in Hotel Education**Credits 3**

Graduate credit may be obtained for courses designated 500 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly:** HOA 671. **Notes:** Credit at the 500 level normally requires additional work.

HOA 574 - Seminar in Hotel Research**Credits 3**

For descriptions of 500-level courses, please consult the current Undergraduate Catalog where they are listed as 400-level courses. **Formerly:** HOA 674. **Notes:** Credit at the 500 level usually requires additional work.

HOA 587 - Association Management**Credits 3**

Formerly: HOA 687

HOA 703 - Human Resources Management in the Hospitality Industry**Credits 3**

Examines the functions of human resource management through readings, cases and applied research with special attention to strategic HR alliances and developing trends.

HOA 705 - Financial Analysis for the Service Industries**Credits 3**

Problems and cases in applying accounting and financial information to executive decision making in the hospitality industry. **Prerequisites:** Adequate preparation in accounting.

HOA 711 - Laws of Innkeeping and Food Service**Credits 3**

Examines through case studies and discussion the modern application of the laws of innkeeping using a historical perspective.

HOA 716 - Principles and Practices in Hotel Management**Credits 3**

Examination of the mechanisms and techniques employed in the management of hotel/motel companies. Comparisons, case studies, and selected topics focus on equity structures, operations, marketing, and systems for a variety of public and private operations.

HOA 717 - Principles and Practices in Convention and Meetings Management**Credits 3**

Examination of the mechanisms and techniques employed in the management of convention and meeting industries. Comparisons, case studies, and selected topics focus on equity structures, operations, marketing, and systems for a variety of convention and meetings management issues.

HOA 718 - Principles of Casino and Gaming Management**Credits 3**

Examination of the mechanisms and techniques employed in the management of casino companies. Comparisons, case studies and selected topics focus on organization and department policies, production processes, manpower development, scheduling, and marketing for a variety of operating systems. **Prerequisites:** Consent of instructor.

HOA 720 - Principles and Practices in Food Service Management**Credits 3**

Examination of the mechanisms and techniques employed in the management of food service companies. Comparisons, case studies, and selected topics focus on equity structures, operations, multiunits, marketing, and systems for a variety of public and private operations. **Prerequisites:** HOA 461 or equivalent.

HOA 721 - Issues in Women's Nutrition**Credits 3**

Advanced discussion of how nutrition affects the physical and mental health of women throughout the life cycle and how to evaluate the validity of nutrition research as it relates to the needs of women rather than the general population.

HOA 725 - Information Technology in the Hospitality Industry**Credits 3**

Examines the current level of technology use, explores the potential uses of existing technology, and discusses new technologies in the hospitality industry. **Prerequisites:** Consent of instructor.

HOA 730 - Statistical Analysis for Hospitality**Credits 3**

Introduction to the use of statistical techniques with emphasis on applications for the hospitality industry.

HOA 731 - Operational Analysis in Hospitality Management

Credits 3

Research design, operations analysis, and the application of analytical models for the hotel and food service industry. **Formerly:** (HOA 701). **Prerequisites:** HOA 730

HOA 732 - Advanced Statistics in R for Hospitality and Business**Credits 3**

Advanced statistical methods for analyzing time series data, including seasonal and non-seasonal ARIMA modeling. Statistical analysis of panel data (aka longitudinal or cross-sectional time-series data), which is a time series data for several entities, will also be covered. The statistical programming language R will be used in this class.

Prerequisites: HOA 730 or equivalent.

HOA 735 - Research Methodology**Credits 3**

Examination of research methods including: the scientific method, literature review, sampling, statistics, research design, and analytical technique. **Notes:** If you are following the thesis option, you must take 3 credits of HOA 799 in conjunction with this class. **Prerequisites:** Graduate standing.

HOA 738 - Database Marketing for Hospitality and Tourism**Credits 3**

Provides students with a working knowledge of database marketing in the hospitality and tourism industries. Database marketing is an information-driven process of compiling detailed information about customers, leads, and prospects and using that information to segment and target individual customers with appropriate sales-oriented materials.

HOA 739 - Psychology of Hospitality Marketing**Credits 3**

Research in neurology, biology, and cognitive science is changing the way researchers approach how people think and behave. This class introduces students to new ways of viewing cognition and to help graduate students apply these new views as they develop their own research programs.

HOA 740 - Marketing Systems**Credits 3**

Development of marketing and advertising systems for hospitality industries based on both the need to create new markets and the need to respond to significant shifts in social and economic patterns.

HOA 741 - Dynamics of Tourism**Credits 3**

Examines major components of international and domestic tourism systems, including socio-economic effects. Legal and environmental problems, and managerial and planning functions.

HOA 742 - Customer Development Strategies for the Casino and Gaming Industry**Credits 3**

Analyzing marketing and promotional strategies utilized by the casino industry and developing understanding of evaluative techniques that facilitate managerial decision making concerning these strategies. **Prerequisites:** HOA 718 or consent of instructor.

HOA 743 - Professional Training Applications**Credits 3**

Prepares students to plan, create, and conduct management and employee development programs. Process of learning essentials of training and presentation skill and management concepts. **Notes:** Students work with industry professionals.

HOA 744 - Online Training and Development**Credits 3**

Concepts, principles, and techniques of online training. Emphasizes transfer of knowledge acquisition via online learning. Development of online training programs.

HOA 745 - Human Dynamics and Organizational Leadership

Credits 3

Provides students with knowledge, skills and attitudes necessary to undertake leadership responsibilities in complex organizations. Applies concepts and methodologies from social and behavioral sciences in the analysis of leadership behavior in diverse organizational and community settings. **Same as:** (EDA 745 and BUS 745)

HOA 751 - Hospitality Service Management

Credits 3

Examines service marketing and management concepts relevant to the hospitality industry and explores how these concepts can be applied to service delivery systems in the hospitality industry.

HOA 756 - Culinary Arts Instruction

Credits 1

Practical methods for improving culinary curriculum and instruction. Methods of instruction for culinary theory, cooking methods, mise en place, food service sanitation, menu development, culinary math, and food and beverage trends.

HOA 757 - Restaurant Management Instruction

Credits 1

Practical methods for introducing restaurant management skills into the curriculum. Methods for instruction of food service purchasing and purchasing formulas, dining room service techniques, managing service, suggestive selling, advanced culinary techniques, and revenue management. **Prerequisites:** HOA 756

HOA 758 - Advanced Culinary Instructional Techniques

Credits 1

Methods for introducing advanced culinary techniques into the curriculum. Methods for instruction of baking pastries and cakes, use of baking equipment, basic garde manger and food presentation skills. **Prerequisites:** HOA 757

HOA 759 - Advanced Food Service Management Instruction

Credits 1

Practical methods for introducing advanced food service management into the curriculum. Capstone course for the food service management instructional series. Organization, design, and management of the different styles of restaurant operations. **Prerequisites:** HOA 758

HOA 760 - Research Seminar in Hotel Administration

Credits 3

Student solutions to situation incidents and case studies in the lodging segment of the hospitality industry. Alternate semesters treat different topics. **Notes:** May be repeated once with consent of advisor and instructor. **Prerequisites:** Six graduate credits in hotel administration.

HOA 761 - Research Seminar in Food Service Administration

Credits 3

Student solutions to incidents and case studies in the food segment of the hospitality industry. Alternate semesters treat different topics. **Notes:** May be repeated once with consent of advisor and instructor. **Prerequisites:** Six graduate credits in hotel administration.

HOA 763 - Research Seminar In Casino and Gaming Management

Credits 3

Student solutions to situations, incidents and case studies in the casino segment of the hospitality industry. Alternate semesters treat different topics. **Notes:** May be repeated once with consent of advisor and instructor. **Prerequisites:** Six graduate credits in hotel administration including HOA 718.

HOA 764 - Research Seminar in Convention Management

Credits 3

Designed around student solutions to situations, incidents, and case studies in convention, meeting, and exhibition management. Comprehensive and application of research to practical and theoretical issues in convention management will be emphasized. Alternate semesters treat different topics. **Prerequisites:** Six graduate credits in hotel administration.

HOA 775 - Seminar in Hospitality Finance

Credits 3

Analysis and application of financial theories to hospitality firms and industry. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** HOA 705, FIN 701 or equivalent.

HOA 777 - Critical Issues in Hospitality Management

Credits 3

Provides the opportunity to identify, explore, discuss, and analyze current critical issues and events important to the hospitality industry. Students communicate in research and writing the essence of a critical issue and prepare a verbal presentation to communicate a critical issue. **Notes:** May be repeated to a maximum of six credits.

HOA 781 - Independent Study and Research

Credits 1 – 3

Consultation course consisting of individual student effort under guidance of the instructor. Students assigned to or request assignment to specific problems in hospitality management on the basis of interest and preparation. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Consent of instructor and graduate program director.

HOA 782 - Advanced Independent Study and Research

Credits 3

Consultation course consisting of individual student effort under guidance of the instructor. Students conduct independent research in their major area or work on the analysis of a problem for a hospitality organization. **Prerequisites:** Doctoral student.

HOA 783 – Internship

Credits 1 – 3

Field experience in a variety of hospitality related industries that focus on management or application of specific skills within a discipline. Must be consistent with the student's area of specialization and conducted under the guidance of a graduate faculty member. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Consent of instructor and graduate program director.

HOA 787 - Entrepreneurship in the Hospitality Industry

Credits 3

Comprehensive coverage of various tools, documents, and subject materials utilized to start and maintain a small hospitality business. Includes entrepreneurial perspectives, challenges, characteristics, self-assessment; starting a new venture; developing business idea and business/marketing/financial organizational plans; and financing and managing the new venture. Other issues include legal, franchising, and international entrepreneurship.

Prerequisites: HOA 703, HOA 740 or MBA 767, HOA 705 or MBA 765.

HOA 788 - Professional Paper

Credits 3

Professional paper whose contents serve as the focus for the final oral examination. **Formerly:** HOA 791. **Notes:** May be enlarged in scope and purpose for thesis credit. 3 credits.

HOA 789 – Thesis

Credits 3 – 6

Students may enroll in 3 credits per semester. **Formerly:** HOA 799. **Notes:** A total of six credits are required for the thesis. **Grading:** S/F grading only. **Prerequisites:** HOA 735

HOA 790 - Special Topics in Hospitality Management

Credits 1 – 6

Eclectic approach to special problem areas of current interest employing individual and group research. **Notes:** May be repeated once with consent of advisor and instructor. **Prerequisites:** Six graduate credits in hotel administration.

HOA 794 - Issues and Trends for Hospitality Educators

Credits 1

Explores issues and trends in hospitality education. **Formerly:** HOA 779. **Notes:** May be repeated to a maximum of three credits. **Prerequisites:** Doctoral student.

HOA 795 - Research Seminar in Hospitality Education

Credits 3

Exploration of problems related to programs and techniques of teaching in food service and lodging education, with emphasis upon the means of improving curriculum and instruction. **Formerly:** HOA 762. **Notes:** May be repeated once with consent of advisor and instructor. **Prerequisites:** Six graduate credits in hotel administration.

HOA 796 - Advanced Research Methodology

Credits 3

Exploration of problems related to programs and techniques of teaching in food service and lodging education, with emphasis upon the means of improving curriculum and instruction. **Formerly:** HOA 762. **Notes:** May be repeated once with consent of advisor and instructor. **Prerequisites:** Six graduate credits in hotel administration.

HOA 797 - Philosophy of Science in Hospitality Research

Credits 3

Exploration of the philosophical and sociological context of research, including different epistemologies, ontologies, and images of human nature and their influence on conceptualizing and designing research, collecting and understanding data, and disseminating findings. Implications and consequences of alternative approaches and perspectives of inquiry examined. **Formerly:** HOA 737

HOA 798 - Readings in Hospitality Management

Credits 3

Exploration of the philosophical and sociological context of research, including different epistemologies, ontologies, and images of human nature and their influence on conceptualizing and designing research, collecting and understanding data, and disseminating findings. Implications and consequences of alternative approaches and perspectives of inquiry examined. **Formerly:** HOA 737

HOA 799 – Dissertation

Credits 3 – 12

Dissertation Research. **Formerly:** HOA 798. **Notes:** 3-12 credits in three-credit increments. **Grading:** S/F grading only. **Prerequisites:** Graduate standing in Ph.D. program and consent of advisor.

MHA 538 - Fundamentals of Casino Operations

Credits 3

Provides students with basic casino table games and slot department management operational procedures. It shows the relationship between these departments and other hotel/casino departments. By the end of this course, students will understand state of the art casino operations management methods.

MHA 603 - Human Resources and Behavior in the Hospitality Industry

Credits 3

Examines the functions of human resource management through readings, cases and applied research with special attention to strategic HR alliances and developing trends. **Formerly:** MHA 703

MHA 604 - Hospitality Organizational Behavior Issues

Credits 3

This course focuses on developing management skills through the study and application of theories of human behavior, particularly in service organizations. Areas addressed include: working with/through others, communication, coaching and counseling, providing feedback, goal setting, stress management, creative problem solving, motivation, power, conflict management, group dynamics and developing effective teams.

MHA 605 - Financial Analysis for the Service Industries**Credits 3**

Problems and cases in applying accounting and financial information to executive decision making in the hospitality industry. **Formerly:** MHA 705

MHA 606 - Hospitality Revenue Management**Credits 3**

This course deals with the theory and practice of operational and strategic revenue management policy and problems in the hospitality industry. It briefly examines the critical areas of yield management and revenue maximization in the context of hospitality and tourism industry. Emphasis is placed upon current issues in revenue management systems. **Formerly:** MHA 706

MHA 607 - Hospitality Industry Cost Control**Credits 3**

Course examines: types and nature of costs in hotels and restaurants, the role of cost control in gaining competitive advantage, the application of food and beverage cost control methods, cost forecasting approaches, Cost Volume Profit analyses, Activity Based Cost, and an introduction to energy and utility cost control.

MHA 611 - Laws of Innkeeping and Food Service**Credits 3**

Examines through case studies and discussion the modern application of the laws of innkeeping using a historical perspective. **Formerly:** MHA 711

MHA 616 - Principles and Practices in Hospitality Management**Credits 3**

Examination of the management techniques employed in hospitality companies. Comparisons, case studies, and selected topics focus on management systems for a variety of public and private operations. **Formerly:** MHA 716

MHA 617 - Principles and Practices in Convention and Meetings Management**Credits 3**

Examination of the mechanisms and techniques employed in the management of convention and meeting industries. Comparisons, case studies, and selected topics focus on equity structures, operations, marketing, and systems for a variety of convention and meetings management issues. **Formerly:** MHA 717

MHA 618 - Principles of Casino and Gaming Management**Credits 3**

Examination of the mechanisms and techniques employed in the management of casino companies. Comparisons, case studies and selected topics focus on organization and department policies, production processes, manpower development, scheduling, and marketing for a variety of operating systems. **Formerly:** MHA 718

MHA 620 - Principles and Practices in Food Service Management**Credits 3**

Examination of the mechanisms and techniques employed in the management of food service companies. Comparisons, case studies, and selected topics focus on equity structures, operations, multiunits, marketing, and systems for a variety of public and private operations. **Formerly:** MHA 720

MHA 625 - Information Technology in the Hospitality Industry**Credits 3**

Examines the current level of technology use, explores the potential uses of existing technology, and discusses new technologies in the hospitality industry. **Formerly:** MHA 725

MHA 626 - Sustainability in the Hospitality Industry**Credits 3**

An examination of sustainability practices in hotels, restaurants, and other hospitality facilities. Topics covered include material use, waste reduction, and recycling; water conservation; energy management; site selection and

green building design, and indoor environmental quality issues. A special emphasis is placed on certifications and certifying organizations. **Formerly:** MHA 726

MHA 630 - Statistical Analysis for Hospitality

Credits 3

Introduction to the use of statistical techniques with emphasis on applications for the hospitality industry.

MHA 631 - Operational Analysis in Hospitality Management

Credits 3

Research design, operations analysis, and the application of analytical models for the hotel and food service industry. **Formerly:** MHA 601, MHA 731

MHA 635 – Research Methodology

Credits 3

Examination of research methods including the scientific method, literature review, sampling, statistics, research design and analytical technique. **Formerly:** MHA 735. **Prerequisites:** Six or more credits in the MHA program.

MHA 638* - Database Marketing for Hospitality and Tourism

Credits 3

Provides students with a working knowledge of database marketing in the hospitality and tourism industries. Database marketing is an information-driven process of compiling detailed information about customers, leads, and prospects and using that information to segment and target individual customers with appropriate sales-oriented materials.

MHA 640 - Marketing Systems

Credits 3

Development of marketing and advertising systems for hospitality industries based on both the need to create new markets and the need to respond to significant shifts in social and economic patterns. **Formerly:** MHA 740

MHA 641 - Dynamics of Tourism

Credits 3

Examines major components of international and domestic tourism systems, including socio-economic effects. Legal and environmental problems, and managerial and planning functions. **Formerly:** MHA 741

MHA 642 - Customer Development Strategies for Casino & Gaming

Credits 3

Analyzing marketing and promotional strategies utilized by the casino industry and developing understanding of valuable techniques that facilitate managerial decision making concerning these strategies. **Formerly:** MHA 742

MHA 644 - Online Training and Development

Credits 3

Concepts, principles, and techniques of online training. Emphasizes transfer of knowledge acquisition via online learning. Development of online training programs. **Formerly:** MHA 744

MHA 645 - Human Dynamics and Organizational Leadership

Credits 3

Provides students with knowledge, skills and attitudes necessary to undertake leadership responsibilities in complex organizations. Applies concepts and methodologies from social and behavioral sciences in the analysis of leadership behavior in diverse organizational and community settings. **Formerly:** MHA 745

MHA 646 - Essentials of Negotiation in the Hospitality Industry

Credits 3

This course explores the major concepts and theories of the psychology of bargaining and negotiation, and the dynamics of interpersonal and inter-group conflict and its resolution. Course concepts will be applied to situations within the hospitality industry. **Formerly:** MHA 746

MHA 647 - Intercultural Communication in the Hospitality Industry

Credits 3

Explores communication, culture, and social dynamics internal and external to hospitality organizations within an international context. **Formerly:** MHA 747

MHA 651 - Hospitality Service Management

Credits 3

Examines service marketing and management concepts relevant to the hospitality industry and explores how these concepts can be applied to service delivery systems in the hospitality industry. **Formerly:** MHA 751

MHA 653 – Event Management

Credits 3

This course offers an analysis of the fundamental issues that arise in managing meetings, conferences, and conventions, and the skills, tools, and resources necessary for site selection, program planning and management, exhibits, selection and use of facility, volunteers, and budget management. **Formerly:** MHA 753

MHA 654 - Risk Management: Safety and Security in Hospitality and Tourism

Credits 3

Natural disasters, terrorism, fire, boycotts, lawsuits and transportation or utility interruptions can have negative effects on hospitality and tourism. This course addresses preparing for, managing, and recovering from major and minor realized risks. Managing risk using risk management teams, contingency plans, contract language, and insurance will be discussed. **Formerly:** MHA 754

MHA 655 - Meeting and Convention Management

Credits 3

Formerly: MHA 755

MHA 660 - Research Seminar in Hotel Administration

Credits 3

Student solutions to situation incidents and case studies in the lodging segment of the hospitality industry. Alternate semesters treat different topics. **Formerly:** MHA 760

MHA 661 - Research Seminar in Food Service Administration

Credits 3

Student solutions to incidents and case studies in the food segment of the hospitality industry. Alternate semesters treat different topics. **Formerly:** MHA 761

MHA 662 - Seminar in Hospitality Education

Credits 3

This course covers: overview of the history, organization, and administration of higher education and hospitality management programs, differences between types of degree programs and sources of funding, improving curriculum and instruction for both classroom and distance learning. The course will also investigate the role of faculty members in non-instructional activities.

MHA 663 - Research Seminar in Casino and Gaming Management

Credits 3

Student solutions to situations, incidents and case studies in the casino segment of the hospitality industry. Alternate semesters treat different topics. **Formerly:** MHA 763

MHA 675 - Seminar in Hospitality Finance

Credits 3

Analysis and application of financial theories to hospitality firms and industry. **Formerly:** MHA 775

MHA 681 - Independent Study and Research

Credits 1-3

Consultation course consisting of individual student effort under guidance of the instructor. Students assigned to or request assignment to specific problems in hospitality management on the basis of interest and preparation.

Formerly: MHA 781

MHA 690 - Special Topics in Hospitality Management

Credits 3

Eclectic approach to special problem areas of current interest employing individual and group research. **Formerly:** MHA 790. **Notes:** May be repeated multiple times.

MHA 787 - Entrepreneurship in the Hospitality Industry

Credits 3

Comprehensive coverage of various tools, documents, and subject materials utilized to start and maintain a small hospitality business. Includes entrepreneurial perspectives, challenges, characteristics, self-assessment; starting a new venture; developing business idea and business/marketing/financial organizational plans; and financing and managing the new venture. Other issues include legal, franchising, and international entrepreneurship.

Prerequisites: MHA 603, MHA 605, MHA 651, MHA 640.

MHA 788 - Professional Paper

Credits 3

Professional paper whose contents serve as a capstone research experience based on a current hospitality topic or problem in the industry. The outcome of this final requirement for the degree is a publishable paper. **Formerly:** MHA 691, MHA 791, MHA 688. **Prerequisites:** MHA 635

SLS 550 - Administration of Recreation and Leisure Services

Credits 3

Comprehensive examination of the philosophical, legal, financial, and administrative foundations necessary for management personnel in a public, not-for-profit or commercial leisure service organization. **Formerly:** SLS 650

SLS 700 - Special Problems in Sport and Leisure

Credits 3

Specialized instruction and/or research designed to develop depth in understanding a current problem in sport and leisure. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Consent of instructor.

SLS 701 - Independent Study

Credits 1 – 3

Independent study of a selected topic in sport or leisure service management or leisure behavior. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Consent of instructor.

SLS 702 - Management in Sport and Leisure Service Organizations

Credits 3

Utilizes management theory in conjunction with theory of sport and leisure behavior to develop a philosophy of administration applicable to sport and leisure service organizations.

SLS 703 - Management Analysis of Sport and Leisure Service Organizations

Credits 3

Analysis of how the financial resources needed to operate sport and leisure service facilities and programs are acquired and marshaled to realize organizational goals. Marketing strategies and revenue source specific to sport and leisure services analyzed and discussed. **Prerequisites:** SLS 702

SLS 704 - Management Internship

Credits 3

Structured management internship in a sport or leisure service organization which focuses on specific administrative functions under the supervision of an agency manager and a university advisor. **Prerequisites:** SLS 703 and approval of student's advisor.

SLS 716 - Social Psychology of Sport and Leisure

Credits 3

Introduces and examines the theories of sport and leisure behavior from a social psychological perspective. Issues and outcomes of involvement in sport and leisure activities for the individual as well as organized groups.

SLS 717 - Law and Liability in Sport and Leisure Services**Credits 3**

Explores the legal principles and rules of law affecting the administration of recreation, sports and athletic programs. Emphasis on risk management theory, safety principles, insurance concepts and liability issues. Litigation trends identified and procedures outlined to minimize legal risks.

SLS 718 - Programming for Sport and Leisure Service Organizations**Credits 3**

Theoretical and conceptual aspects of comprehensive programming for sport and leisure service organizations. Includes program development theories, program design concepts, advertising, promotion and evaluation procedures.

SLS 748 - Professional Paper**Credits 3**

Under the direction of a faculty advisor, the student develops a written treatise detailing the application of a principle or theory to the solution of a current problem of professional practice in the management of sport and leisure service. **Grading:** S/F grading only. **Prerequisites:** Consent of instructor.

SLS 749 – Thesis**Credits 3**

Under the direction of a faculty advisor, students develop a written treatise detailing their methodical investigation and exposition of a theory or principle related to the management of sport and leisure service. **Notes:** May be repeated to a maximum of six credits. **Grading:** S/F grading only. **Prerequisites:** Consent of instructor.

William S. Boyd School of Law

The William S. Boyd School of Law, which commenced classes in August 1998, is the first state-supported law school in Nevada history, and the only law school in the state. The school offers three juris doctor degree programs: a part-time evening program, a part-time day program, and a full-time, day program and three dual degree programs: a J.D./M.B.A., J.D./M.S.W. and J.D./Ph.D. in Education. These programs are designed to train ethical and effective lawyers and leaders for Nevada and for the legal profession. The curriculum is designed to stress professionalism, community service, and dispute avoidance/dispute resolution through a combination of skills training and traditional pedagogy and exposure to different public policy players and sources of law. More information is available on the Boyd School of Law website: <http://www.law.unlv.edu>.

The mission of the William S. Boyd School of Law is to prepare students for the competent and ethical practice of law. At the same time, the Boyd School of Law recognizes that the skills and knowledge acquired in the juris doctor program may be transferred easily to other fields of endeavor and that many students seek legal training for the value it may have in pursuits other than the practice of law. The Boyd School of Law is dedicated to preserving, transmitting, and advancing the current state of legal knowledge, to developing programs which meet the changing needs of society, and to encouraging its graduates to apply the knowledge they gain for their own personal development and for the good of society. The curriculum responds to the needs of the students as well as the needs of the profession. In the early stages of legal education, the curriculum stresses professionalism, community service, and the roles and importance of lawyers in our society, all in an effort to acquaint students with the nature and nobility of the legal profession and with the opportunity that lawyers have to improve the society in which they live. Throughout the curriculum, emphasis is placed on writing, professionalism and community service. In our clinical and externship programs, the law school provides students with the opportunity of a substantial lawyering experience under close supervision.

Stacey Tovino, Ph.D., Associate Dean for Faculty

Law

Associate Deans

Pindell, Ngai L.

Associate Dean for Academic Affairs; A.B., Duke University; J.D., Harvard University Law School. *Rebel since 2000.*

Smith, Christine

Associate Dean for Administration and External Relations; B.S., Arizona State University; M.Ed., Northern Arizona University. *Rebel since 1998.*

Tovino, Stacey

Associate Dean for Faculty Development and Research; Tulane University; J.D., University of Houston; Ph.D., University of Texas. *Rebel since 2010.*

Associate Dean and Graduate Coordinator

Durand, Frank

Associate Dean for Student Affairs; B.A., University of New Mexico; J.D., Stanford University. *Rebel since 1998.*

Faculty

Anderson, Rachel J.

Associate Professor; M.A., Stanford University; J.D., University of California, Berkeley. *Rebel since 2007.*

Bartrum, Ian C.

Associate Professor; B.A., Hamilton College; J.D., Vermont Law School; LL.M., Yale Law School. *Rebel since 2011.*

Bayer, Peter Brandon

Lawyering Process Professor; B.A., Hamilton College; J.D., New York University School of Law; M.A., New York University; LL.M., Harvard University. *Rebel since 2001.*

Berger, Linda

Family Foundation Professor; B.S., University of Colorado-Boulder; J.D., Case Western Reserve University. *Rebel since 2011.*

Berkheiser, Mary E.

Professor and Director of Clinical Programs; B.A., University of Arizona; J.D., James E. Rogers College of Law, University of Arizona. *Rebel since 1998.*

Birdsong, Bret C.

Professor; B.A., Princeton University; J.D., University of California, Hastings College of the Law. *Rebel since 2000.*

Blakesley, Christopher L.

The Cobeaga Law Firm Professor; B.A., University of Utah; M.A., The Fletcher School of Law and Diplomacy, Tufts University; J.D., University of Utah; LL.M., J.S.D., Columbia University. *Rebel since 2002.*

Cammett, Ann

Associate Professor; B.F.A., School of Visual Arts; J.D., City University of New York School of Law; LL.M., Georgetown University Law Center. *Rebel since 2008.*

Carr, Jennifer

Director of Academic Success Program; B.A., University of Nevada, Reno; J.D., University of Nevada, Las Vegas. *Rebel since 2009.*

Correales, Robert I.

Professor; B.A., University of North Texas; J.D., University of Kansas School of Law; LL.M., Georgetown University Law Center. *Rebel since 1998.*

Edwards, Linda

E. L. Cord Foundation Professor; B.A., Florida State University; J.D., University of Tennessee College of Law. *Rebel since 2009.*

Garcia, Ruben J.

Professor; A.B., Stanford University; J.D., University of California, Los Angeles; LL.M., University of Wisconsin Law School. *Rebel since 2011.*

Gordon, Sara G.

Lawyering Process Professor; B.A., Pitzer College; J.D., James E. Rogers College of Law, University of Arizona. *Rebel since 2007.*

Griffin, Leslie

William S. Boyd Professor; B.A., University of Notre Dame; M.A., M.Phil., Ph.D., Yale University; J.D., Stanford Law School. *Rebel since 2012.*

Johnson, Lori D.

Lawyering Process Professor; B.A., University of Notre Dame; J.D., Northwestern University School of Law. *Rebel since 2010.*

Kagan, Michael

Associate Professor; B.A., Northwestern University; J.D., University of Michigan. *Rebel since 2011.*

Kindred, Kay

Ralph Denton Professor; A.B., Duke University; J.D., Columbia University School of Law. *Rebel since 1999.*

LaFrance, Mary

IGT Professor; A.B., Bryn Mawr College; M.A., J.D., Duke University. *Rebel since 1999.*

Lazos, Sylvia

Justice Myron Leavitt Professor; B.A., St. Mary's University; M.A., St. Mary's University; J.D., University of Michigan Law School. *Rebel since 2003.*

Lipman, Francine J.

Professor; B.A., University of California, Santa Barbara; M.B.A., San Diego State University; J.D., University of California, Davis; L.L.M., New York University. *Rebel since 2012.*

MacDowell, Elizabeth L.

Associate Professor; B.A., California State University, Hayward; J.D., University of California, Berkeley. *Rebel since 2010.*

Main, Thomas

William S. Boyd Professor; B.A. Grinnell College; J.D., Northeastern University School of Law. *Rebel since 2012.*

Marouf, Fatma

Associate Professor; B.A., Yale University; J.D., Harvard Law School. *Rebel since 2010.*

McAffee, Thomas B.

William S. Boyd Professor; B.S., University of Utah; J.D., University of Utah College of Law. *Rebel since 1998.*

McGinley, Ann C.

William S. Boyd Professor; B.A., Rosemont College; M.A., University of Delaware; J.D., University of Pennsylvania. *Rebel since 1999.*

Nathanson, Rebecca

James E. Rogers Professor of Education and Law, Associate Professor, Joint Appointment with Department of Educational Psychology; B.A., University of California, Los Angeles; M.A., University of California, Santa Barbara; Ph.D., University of California, Santa Barbara. *Rebel since 2003.*

Patterson, Raymond W.

Associate Director of the Saltman Center for Conflict Resolution; B.S., State University of New York, Stony Brook; M.A., Adelphi University; J.D., Yeshiva University, Benjamin Cardozo School of Law. *Rebel since 2005.*

Pollman, Terrill

Professor and Director of the Lawyering Process Program; B.A., J.D., University of Arizona. *Rebel since 1998.*

Price, Jeanne

Associate Professor and Director of the Wiener-Rogers Law Library; B.A., Yale University; J.D., University of Texas; M.L.S., University of Maryland. *Rebel since 2008.*

Rolnick, Addie C. - Full Graduate Faculty

Associate Professor; B.A., Oberlin College; J.D., M.A., University of California, Los Angeles. *Rebel since 2011.*

Rowley, Keith A.

William S. Boyd Professor; B.A., Baylor University; M.P.P., Harvard University; J.D., University of Texas Law School. *Rebel since 2001.*

Scharf, Rebecca

Lawyering Process Professor; B.A., Brandeis University; J.D., Harvard Law School. *Rebel since 2004.*

Lawyering Process Professor, Interim Externship Director and Associate Director of the Lawyering Process Program; B.A. and M.Ed., University of Minnesota; J.D., William Mitchell College of Law. *Rebel since 1999.*

Professors Emereti

Brown, Richard

Professor Emeritus; B.A., University of California, Los Angeles; J.D., Indiana University School of Law; M.L.L., University of Washington. *UNLV Emeretus 1998.*

Grant, Douglas L.

Professor Emeritus; B.A., University of Iowa; J.D., University of Colorado School of Law. *UNLV Emeretus 1999.*

Henderson, Lynne

Professor Emerita; B.A., J.D., Stanford University. *UNLV Emeretus 2000.*

Morgan, Richard J.

Dean Emeritus; B.A., University of California, Berkeley; J.D., University of California, Los Angeles. *UNLV Emeretus 1997.*

William S. Boyd School of Law Courses

LAW 502 - Contracts I**Credits 3**

Overview of basic contract law. Exploration of common law legal method and the structure of Article 2 of the Uniform Commercial Code in the context of issues of contract formation. **Prerequisites:** Majors only, consent of instructor.

LAW 503 – Contracts**Credits 4**

Overview of basic contract law. Exploration of common law legal method and the structure of Article II of the Uniform Commercial Code in the context of issues of contract formation and interpretation. **Notes:** May be repeated to a maximum of four credits. **Prerequisites:** Majors only, consent of instructor.

LAW 505 - Lawyering Process I**Credits 1 – 4**

Students are introduced to basic legal research, interviewing skills, effective use of legal authorities in legal analysis and the conventions of predictive legal writing. The course is taught using readings, exercises, simulations, extensive individual feedback and conferences. Students will write several short assignments as well as longer office memos. **Prerequisites:** Majors only, consent of instructor.

LAW 511 - Civil Procedure/Alternative Dispute Resolution I**Credits 4**

Exploration of the nature and structure of dispute resolution systems, with a focus on formal adjudicatory procedure for civil lawsuits while exposing students to the spectrum and interrelation of dispute resolution systems. Topics covered include jurisdiction, venue, rules of procedure, choice of law. **Notes:** May be repeated to a maximum of four credits. **Prerequisites:** Majors only, consent of instructor.

LAW 515 - Lawyering Process II**Credits 1 – 4**

Students continue to develop skills in legal research, analysis, reasoning and writing. Focuses on writing persuasively as an advocate, using increasingly complex simulations requiring analysis of statutory and administrative law materials. Assignments include letters to clients and attorneys, a trial court memorandum and an appellate brief, staged to allow for extensive individual feedback and instruction, and an oral argument to a mock appellate court. **Prerequisites:** LAW 505, majors only; consent of instructor.

LAW 517 - Constitutional Law I**Credits 3**

Examines judicial review, congressional power under the Commerce, Taxing, and Spending Clauses and section five of the Fourteenth Amendment; substantive due process rights; the role of the states and national government under the Tenth and Eleventh Amendments; and Separation of Powers. **Prerequisites:** Majors only, consent of instructor.

LAW 519 - Contracts II**Credits 3**

Further exploration of Contracts I with an emphasis on interpretation of contracts. **Prerequisites:** Majors only, consent of instructor.

LAW 521 - Property I**Credits 4**

Acquisitions of property interest, estates in land and future interests, and landlord tenant. **Notes:** May be repeated to a maximum of four credits. **Prerequisites:** Majors only, consent of instructor.

LAW 523 – Torts**Credits 4**

Law of civil injuries, including legal protection of personality, property and relational interests against physical, economic, and emotional harms. Emphasis on intentional torts, negligence and strict liability.

Prerequisites: Majors only, consent of instructor.

LAW 525 - Property II**Credits 2 – 3**

Real estate transactions, easements and other servitudes, public land use regulation. **Notes:** May be taken to a maximum of three credits. **Prerequisites:** Majors only, consent of instructor.

LAW 531 - Civil Procedure and Alternative Dispute Resolution II**Credits 2 – 3**

Continuation of Civil Procedure and Alternative Dispute Resolution I. Topics covered include pretrial practice, pretrial dispositions, and court-imposed alternative dispute resolution mechanisms.

LAW 602 - American Legal History**Credits 2 – 3**

Examination of major issues in American legal history such as the role of lawyers in society and the role of law in developing the economy as well as the development of American legal institutions. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 603 - Federal Income Tax**Credits 3**

Overview of the code provisions governing the taxation of individual income and the basic concepts and legal doctrines which courts employ in implementing those provisions. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 604 - Administrative Law**Credits 3**

Examines the legal structure of federal and state government agencies; how they may be structured under the Constitution; how they issue and enforce regulations; and how they make decisions. Majors only or completion of first-year law courses or consent of instructor.

LAW 605 - Basic Bankruptcy**Credits 3**

Reviews the basic elements of business and consumer bankruptcy under federal bankruptcy statutes. Emphasis on problem solving and ethical issues. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 606 – Evidence**Credits 3 – 5**

Focuses on the Federal Rules of Evidence and the issues that arise out of their use. Provides understanding of the rules including both their theoretical basis and how they function in the courtroom. Addresses preparation and presentation of various kinds of evidence, including proof of writings; qualifications and examination of witnesses; privilege; opinion testimony; demonstrative, experimental, scientific evidence, determination of relevancy; application of the hearsay rule. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 607 - Family Law**Credits 3**

Basic family law. Covers legal construction of the family and relationship between the state and the family, marriage, divorce, custody, and adoption. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 608 - Insurance Law**Credits 3**

Overview of the theory and operation of insurance, including the marketing, underwriting, and claims process. Major forms of insurance surveyed with primary focus on issues of insurance policy construction and judicial resolution of recurring coverage issues. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 609 - Law and Literature**Credits 1 – 3**

Study of real or fictional depictions of lawyers and the legal system from a literary perspective to gain a new understanding of the law. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 610 - Advanced Legal Analysis and Writing: Special Topics**Credits 3**

Analysis and writing about complex legal problems. Interpretation of various authorities and use of various forms of legal reasoning, types of argument, and techniques for clear and effective writing. **Prerequisites:** LAW 505, LAW 515, majors only, consent of instructor.

LAW 611 - Products Liability**Credits 2 – 3**

Analyzes the substantive law, underlying theory and policy, and practice of products liability—liability for injuries by defective consumer products. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 613 - Professional Responsibility**Credits 3**

Examines the law governing lawyers, the rules that govern how members of the legal profession, including judges as well as lawyers, may or must behave. Sources of these rules are many— the Constitution, statutes, procedural, evidentiary and court rules, and rules of professional conduct. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 614 - Real Estate Finance**Credits 3**

Mortgages, deeds of trust, installment land contracts, construction financing, mechanics' liens, sales and leasebacks. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 615 - Secured Transactions**Credits 3**

Covers Article 9 of the Uniform Commercial code with respect to taking security interests in personal property. Emphasis on interplay with real property security and bankruptcy, problem solving and ethical issues. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 616 - Criminal Law**Credits 3**

Introduction to criminal law with emphasis on principles of criminal liability. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 617 - Disability Law**Credits 3**

Examines the law of disability discrimination, focusing on the Americans with Disabilities Act of 1990 and other federal and state statutes, case law and regulations governing the civil rights of persons with disabilities to education, employment, public accommodations and housing. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 618 - Employment Discrimination Law**Credits 3**

Examines the law of employment discrimination, focusing on Title VII of the Civil Rights Act of 1964, the Civil Rights Act of 1991, the Age Discrimination Employment Act of 1967 and other federal and state statutes, case law and regulations protecting the civil rights of employees and job applicants. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 619 - Employment Law

Credits 3

Surveys the law of employment relations focusing on common law exceptions to the employment at will doctrine through public policy, individual contracts, handbooks, and tort doctrine. Examines just cause provisions of the Model Termination Act. Analyzes common law and statutory protections afforded to employee speech and employee privacy, and examines federal wages and hours legislation. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 620 - Water Law**Credits 3**

Acquisition and exercise of private rights in water, public rights and environmental protection, water distribution organizations, interstate water allocation, and federal-state relations in water resource management. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 621 - Patents, Trademarks and Trade Secrets**Credits 3**

Study of the law relating to the protection of literary, artistic, and musical material; copyright law, including publication, subjects protected, and extent of protection; aspects of unfair competition, and right of privacy. **Notes:** May be repeated to a maximum of four credits. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 622 - Introduction to Gaming Law**Credits 2 – 3**

This course provides an overview of public policy issues; the federal role in gaming regulation; the economics of gaming; the creation of gaming control systems; the licensing process; ethical requirements for the gaming lawyer; accounting, internal controls and taxation; gaming contracts; gaming crimes; advertising; entertainment; the legislative process; problem gambling; and practical approaches to legal representation. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 623 - Resort & Hotel Casino Law**Credits 3**

The course will explore the legal issues that arise from the operation of a resort hotel and casino, using Nevada companies as typical examples.

LAW 624 - Constitutional Law II**Credits 3**

Examines the Equal Protection Clause of the Fourteenth Amendment and related topics and the First Amendment's Free Speech and Free Press Clauses. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 625 - Federal Indian Law**Credits 3**

Anthropological, historical, and legal study of the American Indians, including a focus on American Indian traditional law and values, federal policy and current legal issues. **Notes:** May be repeated to a maximum of four credits. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 626 - Business Organizations I**Credits 3 – 4**

Examines different forms of business organization, including corporations, partnerships and limited liability companies. Focuses on similarities and differences among these forms, and examines the roles, responsibilities and rights of the persons involved in business organizations. Does not cover federal regulation of securities or issuers. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 627 - Pretrial Litigation**Credits 3**

Hands-on experience of the pre-trial litigation process in the federal court system. Students act as lawyers in a simulated civil case, interviewing and counseling clients, conducting legal research, drafting pleading, engaging in

discovery practice, settlement negotiations and pre-trial motion practice. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 628 - Payment Systems

Credits 3

Examine the legal rules regarding how goods and services are paid for. Includes portions of Articles 3 and 4 of the Uniform Commercial Code, federal statutes regarding credit and debit cards, and the rules regarding negotiable instruments.

LAW 629 – Copyright

Credits 3

Covers federal copyright law and the state law right of publicity, with minor attention to some closely related doctrines. Fundamental principles and public policy questions of federal copyright law. Although some state law doctrines examined from time to time, copyright laws in the United States is almost exclusively federal. For students whose career interests include intellectual property or entertainment law. Also recommended for those interested in communications law, general business transactions, and/or commercial litigation. **Notes:** May be repeated to a maximum of four credits.

LAW 630 - Community Property

Credits 1 – 3

Examines the law dealing with the classification, management and distribution of property acquisition within the community property jurisdictions of the United States. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 631 – Remedies

Credits 2 – 4

Explores what lawyers and courts do to help someone who has been, or is about to be, wronged. In-depth look at the four major categories of remedies: damages, coercive remedies, declaratory relief and restitution. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 632 - Wills, Trusts and Estates

Credits 2 – 3

Examines intestate succession, family protection, execution of wills, will contests, will substitutes, creation of trusts, modification and termination of trusts, administration of estates and trusts. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 633 - Land Use Regulation

Credits 2 – 3

Focuses on public regulation of land use, including zoning, subdivision regulation, regulation of urban growth, etc. Include the planning process, constitutional limitations on land use controls, state and regional regulation, aesthetic regulation and discriminatory zoning, and private land use alternatives. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 634 - Federal Courts

Credits 2 – 3

Examines federal jurisdiction and the law of federal- state relations. Covers federal judicial powers, congressional allocation of jurisdiction, choice of law, district court jurisdiction, appellate review, civil judicial reform, 42 USC Section 1983, Implied Right of Action, 11th Amendment and Federal Habeas Corpus. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 635 - Conflict of Laws

Credits 2 – 3

Focuses on the problem of choosing which jurisdiction's law should be applied to transactions, relationships, or events with contracts in more than one jurisdiction. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 636 - Child, Parent and the State**Credits 2 – 3**

Explores the legal relationships between children, their parents, and the state, covering such issues as the child as an autonomous being, the child's role in the family, family autonomy, and the obligations of parents and the state to children. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 637 - Sales and Leases**Credits 2 – 3**

Examines the laws governing sales and leases of goods, including Articles 1, 2 and 2A of the Uniform Commercial Code, the U.N. Convention on Contracts for the International Sale of Goods, and the Uniform Electronic Transactions Act. **Prerequisites:** Majors only or completion of first- year law courses or consent of instructor.

LAW 638 - Education Law and Policy**Credits 2 – 3**

Examines six distinct and highly visible areas of education law and policy, primarily in K-12: compulsory education; school governance and due process; school finance; private schools; religion and public schools; and, equal educational opportunity.

LAW 639 - Feminist Jurisprudence**Credits 2 – 3**

Explores feminist theory in relation to the law. Examines the historical foundations of women's legal subordination as well as the various strands of feminist legal theory. Specific units of study may include topics such as affirmative action, comparable worth, work and family, education, sexual harassment, domestic violence, the teaching and practice of law, pornography and free speech, abortion and others. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 640 - Labor Law**Credits 2 – 3**

Explores the employer-employee-union relationship, its historical and economic development and its modern statutory framework.

LAW 641 - Entertainment Law**Credits 2 – 3**

Surveys a wide range of legal issues pertinent to live and recorded entertainment, including intellectual property rights, contract formation and breach, regulatory schemes, labor issues, and First Amendment considerations. **Prerequisites:** LAW 629

LAW 642 - Law and Social Justice**Credits 2 – 3**

Examines the role of law in creating, perpetuating, and dismantling hierarchies of power and privilege in society, particularly those based on social/ethnic groupings, gender, socio-economic class, sexual orientation, and disabilities. Enables students to read law critically with an understanding of the ways in which techniques, practices and rhetorical strategies can exclude and subordinate based on categories of identity.

LAW 643 - Legislation and Statutory Interpretation**Credits 2 – 3**

Explores some of the various procedural, constitutional, and jurisprudential issues raised by a study of the unique role that state and federal legislatures play in constitutional order. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 644 - Juvenile Law**Credits 2 – 3**

Examines the procedural and substantive law and judicial administration relating to juvenile justice. Primary area of concentration: rights of accused juvenile, police conduct and detention, reference for adult prosecution, adjudication, treatment vs. punishment, and the roles of the lawyer in the juvenile court system. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 645 - Lawyering Theory and Practice**Credits 2 – 4**

Students study and perform a range of tasks and services performed by practicing attorneys in the representation of clients. Exercises include counseling, assessment of legal problems, efforts for resolution and claims activity, including litigation and defense through complaints, motions, discovery, and trial-related activity.

LAW 646 – Cyberlaw**Credits 2 –4**

Study of legal issues attending use of computers and electronic communications and commerce, including intellectual property concerns related to cyberspace and features such as websites, e-commerce and communications. **Notes:** LAW 629 is strongly recommended.

LAW 647 - Civil Rights Litigation**Credits 2 – 4**

Students examine, analyze and evaluate the various stages of a complex case involving a civil rights claim made pursuant to the Constitution, federal anti-discrimination statutes, or common law. **Prerequisites:** LAW 515, majors only, consent of instructor.

LAW 648 - Health Care Liability and Quality Regulation**Credits 3**

Explores ways in which the law promotes the quality of health care through licensing, certification, and accreditation of health care professionals and institutions and also addresses liability issues in the health care context. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 649 - Taxation of Business Entities**Credits 2 – 3**

Surveys federal income taxation of business entities and their owners, including corporations, partnerships, LLC's, and LLP's. **Prerequisites:** LAW 603, majors only or completion of first-year law courses or consent of instructor.

LAW 650 - Estate and Gift Tax**Credits 1 – 3**

Examines the federal taxation regime applicable to gifts and inheritances. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 651 - Environmental Quality Law**Credits 2 – 3**

Provides an overview of the law and policy of environmental quality and pollution control. Addresses the origins and development of modern statutory environmental law as it relates to the various media: air, water and soil. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 652 - International Public Law**Credits 2 – 3**

Introduction to the doctrines, institutions and methodology of modern international law. Students examine the legal systems governing relations among states, and their expansion to non-state actors. Also analyzes the application of international law in domestic courts, international tribunals and organizations, doctrines of jurisdiction and immunities and human rights. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 653 - Criminal Procedure I**Credits 3**

Basic course in criminal procedure. Covers laws regulating daily interactions of police and public, including laws of search and seizure and of interrogations. Does not cover rights subsequent to interrogation. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 654 - Public Lands and Natural Resources Law

Credits 2 – 3

Provides an introduction to federal public lands and natural resources law. Focuses on the laws and legal systems that govern the classification and use of the federally owned lands comprising a third of America and the vast majority of the West. Examines major resource areas, including: minerals, timber, range, wildlife, recreation, wilderness, and cultural resources. Explores the interplay between environmental, economic, cultural, social and political factors in managing national parks, forest, and the public domain. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 655 – Securitization**Credits 2 – 3**

Examines the financing technique of securitization and its various legal underpinnings. Securitization is a trillion dollar industry that raises issues in corporate finance, secured transactions, bankruptcy and securities regulation. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor, and LAW 615 or LAW 626.

LAW 656 - Business Organizations II**Credits 2 – 3**

Covers the law of publicly-traded corporations. Special attention will be given to the fiduciary duties of boards of directors; management, and controlling shareholders; proxy regulation and shareholder voting; insider trading; shareholder litigation and mergers and acquisitions. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 657 – Antitrust**Credits 1 – 3**

Basic legal framework for regulating conduct to undermine competitive markets. Topics include antitrust regulation of horizontal agreements between competitors to restrain trade, such as price-fixing, output restrictions, boycotts and mergers; vertical agreements between suppliers and purchasers such as distributional restraints, exclusive dealing and tying; and unilateral conduct, such as monopolization and attempted monopolization. Role of antitrust law in today's technological environment. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 658 - Immigration Law**Credits 1 – 3**

Covers legal issues and policies pertaining to non-citizens of the United States, including the regulation of admission, exclusion, and deportation of immigrants seeking to enter the United States. Rights of non-citizens who are in U.S. territory in the areas of health, education, and labor. Topics covered from various perspectives, including constitutional law, international human rights, comparative law, ethics and morality and history. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 659 - First Amendment Rights**Credits 2 – 3**

Explores in depth critical First Amendment Freedoms: Freedom of Expression and Association, Freedom of Press and Media, and Freedom of Religion. **Prerequisites:** Law 517

LAW 660 - Banking Law**Credits 3**

Basic understanding of the federal and state laws governing traditional commercial banks and financial institutions in the United States. At the end of the course, the students will have a solid foundation which they can use to study more specific areas of law regarding such institutions. **Prerequisites:** Majors only or completion of first year law courses or consent of instructor.

LAW 661 - Federal Taxation**Credits 1 – 5**

Surveys the three major federal tax topics: income tax (two-fifths of course), taxation of business entities (two-fifths), and estate and gift tax (one-fifth). Students may enroll for all three components (5 credits), or two

components, or one component (credits depending on components taken). **Prerequisites:** Majors only or completion of first year law courses or consent of instructor.

LAW 662 - Civil and Criminal Tax Litigation

Credits 1 – 3

Examines tax controversy resolution mechanism. Not limited to tax students. Helpful for all interested in litigation career, including civil litigation and white collar crime. Also, good to hone drafting skills. Students prepare pleadings, memos, and other controversy-related documents. **Notes:** May be repeated to a maximum of three credits. **Prerequisites:** Majors only or completion of first year law courses or consent of instructor.

LAW 663 - Advanced Issues in Tax

Credits 2 – 3

Seminar. In consultation with the professor, students select a topic of current interest and importance in federal, state, or international taxation. **Notes:** Students write research papers on topic and present and defend them in class. **Prerequisites:** Majors only or completion of first year law courses, or consent of instructor.

LAW 664 - Criminal Procedure II

Credits 3

Covers law and practices between the time defendant is charged and final disposition and sentencing. Includes prosecutorial discretion, bail, plea bargaining right to counsel, due process, sentencing, and post-conviction review. **Prerequisites:** Majors only or completion of first year courses or consent of instructor.

LAW 665 - Health Care Organization and Finance

Credits 3

Laws and legal issues relating to the organization and operation of health care enterprises and the financing of health care services. **Notes:** Prior or concurrent enrollment in LAW 626 desirable but not required. **Prerequisites:** Majors only or completion of first year courses or consent of professor.

LAW 666 - Domestic Violence and the Law

Credits 3

Examines violence against women and others in intimate relationships and the ways in which the law impacts and is impacted by domestic violence. Explores the history and social context of domestic violence and the dynamics and dimensions of abusive relationships. **Prerequisites:** Majors only or completion of first year courses or consent of professor.

LAW 667 - International Criminal Law

Credits 3

Covers the basics of public international law in the context of international criminal law including the nature of international crime, aspects of the international substantive system of laws, and specific offenses, as well as how this law is adjudicated and enforced. Specific offenses covered will include both international and transnational crimes as well as the procedural and adjudicative mechanisms established to deal with these offenses. **Prerequisites:** Majors only or completion of first year law courses or consent of instructor.

LAW 668 - Commercial Law: Core Concepts in Secured Transactions and Payments Systems

Credits 4 – 5

Gives students a familiarity with, and the ability to manipulate, basic concepts in secured transactions (Article 9 of the Uniform Commercial Code) and certain aspects of payment systems (Articles 3,4 and 5 of the Uniform Commercial Code). **Prerequisites:** Majors only or completion of first year law courses or consent of instructor.

LAW 669 - Legal Drafting: Special Topics

Credits 3

Drafting legal documents such as contracts, leases, wills, by-laws, and employment agreements. Recognizing the importance of determining the client's objectives, researching the relevant law, organizing the document effectively, and drafting with accuracy, clarity, brevity, and appropriate tone. **Prerequisites:** LAW 505, LAW 515; majors only; consent of instructor.

LAW 670 - Alternative Dispute Resolution Survey**Credits 3**

Students learn about negotiation, mediation, arbitration, and other forms of dispute resolution that are alternative or supplemental to litigation. The course will include theory, discussion, simulations, and lectures. **Prerequisites:** 500-level courses; majors only; consent of instructor.

LAW 671 - Judicial Writing**Credits 3**

Introduction to style and form of judicial writing. Researching and writing on problems typically handled by trial or appellate courts. Exploration of the roles of courts in America's law and society, the internal workings of courts, and the roles and ethical obligations of various court staff. **Prerequisites:** LAW 505, LAW 515; majors only; consent of instructor.

LAW 672 - International Business Transactions**Credits 3**

Explores a wide range of legal problems involving international trade, licensing, and investment issues. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 673 - Estate Planning**Credits 3**

Cover various estate planning strategies, including but not limited to, the estate planning process, wills and living trusts, gifting considerations, life insurance, limited partnerships and limited liability companies and charitable giving. **Prerequisites:** LAW 632, LAW 650, majors only or permission of instructor.

LAW 674 - Perspectives on the Law: History and Jurisprudence**Credits 3**

Explores American Legal History and the best thinking about the nature of law and how it functions. **Prerequisites:** Majors only or permission of instructor.

LAW 675 - State and Local Taxation**Credits 1 – 3**

Explores the state and federal constitutional limits on state taxation and the principle kinds of state taxes: income, sales and property taxes. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 676 - Intellectual Property Licensing Practicum**Credits 3**

Covers the fundamentals of intellectual property licensing agreements with emphasis on drafting techniques for licenses involving patents, copyrights, trademarks, databases, and/or trade secrets. **Notes:** This course satisfies the third semester Lawyering Process requirement. **Prerequisites:** LAW 505, and LAW 515, LAW 621 or LAW 629.

LAW 677 - Nevada Civil Practice**Credits 2-3**

This course covers the basic areas of civil practice [actions, pleadings, civil procedure, evidence, and remedies], and will explore their particular applications [from selection, discovery tactics, litigation and trial strategy, professional ethics]. **Prerequisites:** Majors only or completion of first year law courses or consent of professor.

LAW 678 - U.S. Federal Gaming Law**Credits 3**

This course will provide basic information about federal gambling law, including laws concerning Native American casinos, interstate wagering, international wagering, transportation of wagering devices and online wagering.

LAW 679 - Advanced Writers' Group**Credits 1**

The Advanced Writers' Group helps students become more effective legal writers by providing opportunities for them to respond to others' writing and to receive feedback on their own writing. **Notes:** S/F grading only.

LAW 680 - International Intellectual Property**Credits 3**

This course covers the principles, treaties and mechanisms that regulate intellectual property at the international level (particularly copyright, patents, trademarks and internet domain names) and surveys the differences in the intellectual property laws of various countries.

LAW 710 - The Bill of Rights in Law and History**Credits 2 – 3**

Read recent works on the Bill of Rights and consider contemporary and historical questions about the meaning and purpose of the Bill of Rights or one of its particular provisions. Topics include federalism, populism, the role of reason in conceptualizations of the Constitution and Bill of Rights, the problem of unenumerated rights and issues raised by the incorporation controversy. **Prerequisites:** Law 517

LAW 711 - Children in Society: Selected Problems**Credits 2 – 3**

Examines issues related to laws and policy governing the place and treatment of children in American society. Specific issues vary somewhat based on current events and student interest, but generally focus on legal and policy issues affecting the meaning of the state's parents-partial obligation, the parent-child relationship and the family.

LAW 712 - Trial Advocacy**Credits 2 – 4**

Students design, execute, and practice the lawyering tasks specifically associated with actual courtroom trials, including opening statements, direct examination, cross-examination, evidentiary objectives, and closing arguments. Students perform these tasks in the context of hypothetical cases. **Prerequisites:** Prior or concurrent enrollment in LAW 606 and LAW 515.

LAW 713 - Interviewing, Counseling and Negotiations**Credits 2 – 4**

Studies three principal forms of lawyering that take place outside the courtroom. Examines issues of client relations, decision-making and ethics in dealing with opponents as well as in guiding clients. Simulated exercises performed by students. **Prerequisites:** LAW 610

LAW 714 - Alternative Dispute Resolution Practicum**Credits 2 – 4**

Engages in simulated situations involving various means of alternative dispute resolution in action, including simulated forms of mediation, arbitration, and various hybrids of ADR. **Prerequisites:** LAW 531

LAW 715 – Mediation**Credits 2 – 3**

Examines the theory, practice, and public policy of mediation. Focusing particularly on issues of relevance to attorneys representing clients in mediation, the course will include simulations. **Prerequisites:** Majors only or completion of first year law courses or consent of instructor.

LAW 716 - Society of Advocates**Credits 1 – 3**

Students participate in forensic competitions, such as moot court and trial practice, involving legal research and analysis and brief writing as well as oral arguments or other advanced lawyering tasks. **Prerequisites:** LAW 515, majors only; consent of instructor.

LAW 717 – Arbitration**Credits 2 – 4**

Examination of the history and use of arbitration as well as its current legal status. Focus will be on substantive legal doctrines of arbitration particularly enforcement of arbitration agreements, and on arbitration procedure, particularly the manner in which arbitration may be conducted in various contexts. **Prerequisites:** LAW 610

LAW 718 - Advanced Advocacy: Special Topics

Credits 3

Analysis and writing about complex legal problems and writing documents that would be submitted to a court or quasi-judicial decision-maker. **Prerequisites:** LAW 505 and LAW 515; majors only; consent of instructor.

LAW 719 – Negotiation**Credits 2 – 3**

Examines the theory, practice, and public policy of negotiation. Focusing particularly on issues of relevance to attorneys representing clients in negotiation, the course will include numerous simulations. **Prerequisites:** Majors only or completion of first year law courses or consent of instructor.

LAW 720 - Trial Evidence**Credits 2**

This course is designed to move evidence from a group of rules grounded in theory to their application in adversarial proceedings. **Prerequisites:** LAW 605.

LAW 721 - Criminal Evidence**Credits 2**

An in-depth exploration of the evidentiary issues that often come into play in criminal trials. **Prerequisites:** LAW 606 and LAW 616.

LAW 722 - International Commercial Arbitration**Credits 2**

This course introduces students to the fundamentals of international commercial arbitration, including drafting an effective arbitration clause, selection of arbitrators, proceedings before arbitrators, enforcement, and challenge of awards.

LAW 723 - Economics and the Law**Credits 3**

Application of economic analysis to the topics confronted in litigation. Topics include: microeconomic theory, property rights, contracts, torts, discrimination, eminent domain, copyrights, patents, antitrust and criminal law. **Prerequisites:** ECO 302 or MBA 710, or consent of instructor.

LAW 724 - Law Practice Management**Credits 3**

Application of economic analysis to the topics confronted in litigation. Topics include: microeconomic theory, property rights, contracts, torts, discrimination, eminent domain, copyrights, patents, antitrust and criminal law. **Prerequisites:** ECO 302 or MBA 710, or consent of instructor.

LAW 725 - Gaming Policy Seminar**Credits 1 – 3**

Studies gaming policy and sophisticated legal issues surrounding gaming law and regulation, primarily through case studies. Focuses on legislative and administrative action as well as litigation. **Prerequisites:** Majors only or completion of first-year law courses, LAW 622 or consent of instructor.

LAW 726 - Separation of Powers Law**Credits 2 – 3**

Explores the separation of powers in federal constitutional system. Topics covered include allocation of authority in the Constitution relating to the conduct of American foreign policy and the conduct of war-making activities. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 727 - International Human Rights Law**Credits 2 – 3**

Studies the norms, procedures, and the actors of international human rights. Explores the U.S. role in international human rights, the US policies that motivate its involvement, and the significance of international human rights as US domestic law. Explores the legal and moral complexities of implementing universal principles of human rights and

introduce the mechanics of the practice of human rights domestically and internationally. **Prerequisites:** Majors only or completion of first year law courses or consent of instructor.

LAW 728 - Bioethics and the Law

Credits 2 – 3

Studies the norms, procedures, and the actors of international human rights. Explores the U.S. role in international human rights, the US policies that motivate its involvement, and the significance of international human rights as US domestic law. Explores the legal and moral complexities of implementing universal principles of human rights and introduce the mechanics of the practice of human rights domestically and internationally. **Prerequisites:** Majors only or completion of first year law courses or consent of instructor.

LAW 729 - Advanced Legal Research

Credits 1 – 3

Expands the research skills that have been introduced in Lawyering Process I as well as introduce new topics. Focuses on practitioner oriented materials and their use. In addition, research in specific subject areas also explored. **Prerequisites:** Majors only, consent of instructor; LAW 505, LAW 515.

LAW 730 - Business Bankruptcy

Credits 2 – 3

Studies financially distressed businesses with emphasis on business reorganizations under Chapter 11 of the Bankruptcy Code. Emphasizes lawyering skills and may include students representing parties in a simulated Chapter 11. **Prerequisites:** Majors only, or completion of first year courses or consent of professor; either LAW 605 or LAW 615.

LAW 731 - Seminar in Race, Gender, Sexual Orientation and the Law

Credits 2 – 3

Students select the specific topics covered. Examines race, ethnicity, culture, gender, and sexual orientation and how legal norms address tensions raised by such diversity.

LAW 732 - Privacy, Publicity & Defamation

Credits 3

Discusses constitutional right to privacy, the four privacy torts, contrast between right of privacy and right against defamation, and right of publicity. **Prerequisites:** Majors only or completion of first year courses or consent of professor.

LAW 733 - Advanced Intellectual Property Seminar

Credits 2 – 3

Course covers advanced topics in copyright, trademark and unfair competition law, trade secrets, and patent law. **Prerequisites:** LAW 621, LAW 629, majors only or completion of first-year law courses or consent of instructor.

LAW 734 - Income Taxation of Estates and Trusts

Credits 1

Examines federal income taxation of estates, trusts, and income in respect of decedent. Considers effect on estate, planning and administration. **Prerequisites:** LAW 603, majors only, completion of first-year courses or consent of instructor.

LAW 735 - U.S. Taxation of International Transactions

Credits 1 – 3

Examines how the federal income tax applies to outbound (U.S. persons doing business abroad) and in-bound (foreign persons doing business in U.S.) transactions. Also examines tax treaties. **Prerequisites:** LAW 603, majors only or completion of first-year law courses or consent of instructor.

LAW 736 - Securities Regulation

Credits 1 – 3

A study of federal and state securities regulation, including statutes, administrative rules, decisions and interpretations, cases governing the duties of participants in securities offerings, and other securities transactions.

Coverage will include registration, disclosure, and antifraud provisions and, time permitting, may include international and comparative topics. **Notes:** While not required, students without an undergraduate or graduate business degree or comparable work experience are encouraged to take Law 626, prior to taking this course. **Prerequisites:** Completion of first-year law courses or consent of instructor.

LAW 737 - Workers Compensation

Credits 2-3

Students will gain an effective understanding of Worker's Compensation law, as it is practiced in most jurisdictions, with emphasis on the rights of workers to compensation, the administration of claims and the evaluation of individual cases. **Prerequisites:** Majors only or completion of first year law courses or consent of professor.

LAW 738 - Death Penalty Seminar

Credits 2-3

This courses addresses the law of capital punishment and constitutional requirements. Emphasis is on Nevada's death penalty statutes and Nevada Supreme Court Death penalty jurisprudence, policy issues implicated by capital punishment, and responsibilities of lawyers who handle capital cases. **Notes:** It is strongly recommended that students complete LAW 653 and LAW 664. **Prerequisites:** Majors only or completion of first year law courses or consent of professor.

LAW 739 - Community Law

Credits 3-4

Students learn about the law through both classroom study and structured field experiences in which they apply what they learn by providing law-related services to community partners. Students will also develop their awareness of ethical issues, the social and cultural contexts of legal institutions, and the value of civic engagement. **Prerequisites:** Majors only, completion of first-year law courses or consent of instructor.

LAW 750 - Congressional Externship

Credits 3 – 6

Explores the legislative process by placing students in legislative offices in Washington D.C. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 751 - Judicial Externship

Credits 3 – 7

Explores the role of the judiciary in the legal system by means of in-class discussions and field placements in judicial chambers in federal and state courts in the state of Nevada. **Prerequisites:** Majors only, consent of instructor.

LAW 752 - Legislative Externship

Credits 1 – 12

Explores the state legislative process by placing students in the Legislative Counsel Bureau Office in Carson City and Las Vegas. Students are assigned to work with the Legislative Counsel Bureau, the House and Senate Judiciary Committees and interim committees. **Prerequisites:** Majors only or completion of first-year law courses or consent of instructor.

LAW 760 - Law Journal

Credits 1 – 3

Academic credit for successful completion of work by a member of the Nevada Law Journal. **Grading:** S/F grading only. **Prerequisites:** Successful completion of writing competition and selection by the instructor.

LAW 761 - Gaming Law Journal

Credits 1-3

Academic credit for successful completion of work by a member of the Gaming Law Journal. **Notes:** May be repeated to a maximum of 6 credits. **Grading:** S/F grading only. **Prerequisites:** Graduate standing

LAW 769 - Education Clinic

Credits 3 – 6

Students will represent children and their adult educational decision makers in educational matters in administrative foray including informal and formal hearings within Nevada school systems and possibly in state and federal court. Students, teamed with professionals from other disciplines, will also work on educational policy and advocacy. **Prerequisites:** Completion of thirty credits; majors only; permission of instructor. Completion of thirty credits; majors only; permission of instructor.

LAW 770 - Family Justice Clinic

Credits 1 - 6

This clinic explores the role of families in society, the strengths and weaknesses of state intervention into families, and the meaning of access to justice for children and parents. Students represent children, parents or guardians in family cases including termination of parental rights, guardianship, and other family matters. Cases involve contested trials, negotiations, administrative advocacy, and cutting edge legal and policy issues. **Notes:** In order to represent clients in court, students must be licensed under Nevada's student practice rule. Course also has classroom component. **Prerequisites:** Completion of 30 law school credits.

LAW 771 - Juvenile Justice Clinic

Credits 1 – 6

Under direct supervision of the professor, students represent juveniles in juvenile court and district court proceedings involving charges of criminal conduct. To represent these clients, students must be licensed under Nevada's student practice rule for court appearances. Course also has classroom component. **Prerequisites:** LAW 616, LAW 613, majors only or completion of first-year courses or consent of instructor.

LAW 772 - Special Topics: Mediation Clinic

Credits 1-6

Students will study theories of conflict, negotiation and mediation. They will be exposed to many different models of mediation and learn to choose the interventions and techniques appropriate for different settings. Students receive practical and theoretical training in mediation theory and apply what they learn by mediating live cases in their weekly 4-hour placement in a variety of community venues. **Prerequisites:** Completion of first-year law courses, interviewed by and permission of instructor.

LAW 773 - Government & Public Interest Externship

Credits 1 – 12

Designed to provide experiential learning opportunities in a variety of public law agencies including the offices of the U.S. Attorney, Special Public Defender, Clark County District Attorney, Federal Defender, and others. **Notes:** Supervised fieldwork is coupled with a weekly seminar. **Corequisite/Prerequisite:** Pre or Corequisite: Professional responsibility.

LAW 774 - Capital Defense Clinic

Credits 1 – 6

Under direct supervision of the professor, students work on legal teams representing capital defendants. The classroom component of the course will emphasize death penalty law, lawyering skills, and professionalism issues. **Notes:** Students must be able to be certified for student practice under the applicable court rules. **Prerequisites:** Second year standing.

LAW 775 - Immigration Clinic

Credits 1 – 6

Under direct supervision of the professor, students represent clients in judicial and administrative proceedings involving immigration and related matters. The course will have a classroom component emphasizing immigration and naturalization law, lawyering and professionalism. **Notes:** Students must be eligible to represent clients under the applicable student practice rules.

LAW 776 - Natural Resources Field Seminar

Credits 2

Course offers students an opportunity to explore advanced natural resources law issues both in the field and through traditional classroom discussion and research. Topics include rangeland management, wildlife management,

endangered species protection, forest management, the Colorado ecosystem and fire management. **Prerequisites:** LAW 654 or LAW 620 or consent of instructor.

LAW 777 - Community Law Practicum

Credits 1-2

A “companion course” that students take to add a practical application component to a doctrinal course. Students will work, individually or in teams, on a research, investigative or litigation project, undertaken in collaboration with community partners selected or approved by the professor teaching the doctrinal course. **Prerequisites:** Majors only, completion of first-year law courses or consent of instructor.

LAW 778 - Innocence Clinic

Credits 1-6

This course will teach about the systemic causes of wrongful convictions and the legal remedies for actually innocent clients. Students enrolled in the course will work on Nevada claim of innocence cases referred from the Rocky Mountain Innocence Center and work on policy projects to improve the criminal justice system.

Prerequisites: Completion of 30 law school credits.

LAW 779 - Appellate Clinic

Credits 1-6

Students will represent clients on appeal in the Ninth Circuit Court of Appeals, the United States Supreme Court, or the Nevada Supreme Court. These appeals may include direct criminal appeals or civil appeals. Students will develop expertise in appellate counseling, strategy, legal research, storytelling, and oral and written advocacy.

Prerequisites: Completion of 45 law school credits.

LAW 780 - Directed Readings

Credits 1 – 3

Students earn credit for completing readings under the supervision and approval of a faculty member. **Prerequisites:** Majors only; consent of instructor required.

LAW 781 - Directed Research

Credits 1 – 3

Students research and write about a legal topic of their choice under the guidance and supervision of a faculty member who has approved their choice of topic. Students further their knowledge of the area, as well as their legal research and writing skills. **Prerequisites:** Majors only, consent of instructor.

LAW 790 - Special Topics in Law

Credits 2 – 4

Involves the study of a specialized topic in law that is not covered elsewhere in the law school curriculum. The particular topic will be announced during registration for the semester in which the course is offered. **Notes:** May be repeated to a maximum of six credits. **Prerequisites:** Majors only or completion of first year law courses or consent of instructor.

College of Liberal Arts

The College of Liberal Arts offers doctoral programs in Anthropology, English, History, Political Science, Psychology and Sociology. Eight Masters of Arts degrees along with an M.F.A. in creative writing are also available. Ranging across the college's two subdivisions of the humanities and social sciences, these programs are ably staffed by nationally recognized scholars. These faculty members, who have earned advanced degrees from many of the nation's most prestigious universities, actively pursue research and creative activities that advance their professions and often benefit the larger community. These endeavors are especially important since graduate education requires an understanding of the methodology for producing knowledge as well as the mastery of bodies of information. Small classes and individual attention further enhance the learning experience of each of these programs. In short, prospective graduate students in the College of Liberal Arts may confidently expect to participate in programs characterized by rigorous intellectual pursuit and careful, conscientious instruction.

Christopher C. Hudgins, Ph.D., Dean
Jennifer Keene, Ph.D., Associate Dean

Anthropology

Our program, which has a strong field and laboratory component in addition to coursework, is designed to prepare our graduates to work in a variety of settings, including academia, applied anthropology, cultural resources management, and other research settings.

Anthropology Plans

Doctor of Philosophy - Anthropology

Plan Description

Our program, which has a strong field and laboratory component in addition to coursework, is designed to prepare our graduates to work in a variety of settings, including academia, applied anthropology, cultural resources management, and other research settings.

Learning Outcomes

www.unlv.edu/degree/phd-anthropology

Plan Admission Requirements

- All domestic and international applicants must review and follow the Graduate College Admission & Registration Requirements.
- Normally, only applicants possessing a master's degree in Anthropology, or its equivalent, from an accredited institution are considered for admission. Students entering with an approved M.A. will not be required to go through the department's M.A. program, but they may be required to take remedial courses in the case of deficiencies. Applicants without an M.A. in Anthropology should have a minimum of 18 semester credit hours in Anthropology distributed among all traditional sub-disciplines of the field.
- The applicant must have at least a 3.50 (A=4.00) grade point average for previous graduate work.
- The applicant must submit an example of their previous research, preferably a published paper; a copy of their thesis or a relevant research paper is also acceptable.
- The applicant must submit a detailed statement of intent (1-2 pages) outlining proposed research. In addition, the applicant must identify specific members of the faculty with whom they may wish to work.
- Three letters of recommendation must be provided attesting to the applicant's ability to conduct doctoral level work. At least two of the letters must be from academic references.
- GRE scores are required for admission. There is no required minimum score, but scores will be used in combination with other information in the application to evaluate the applicant. The exam must be taken within five years preceding the deadline for the application to be considered.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Master's Track

Total Credits Required: 42

Course Requirements

- Required Courses - Credits: 8
 - ANTH 700A - Proseminar I
 - ANTH 700B - Proseminar II
 - ANTH 703 - Core Concepts in Anthropology
 - ANTH 770 - Quantitative Methods in Anthropology
 - ANTH 790 - Research Design, Professional Ethics, and Grant Writing for Anthropologists
- Elective Courses - Credits: 22
 - Complete 22 credits of advisor-approved Anthropology electives.
- Dissertation - Credits: 12
 - ANTH 798 - Dissertation

Degree Requirements

- A minimum of 30 credits of approved work beyond the M.A. plus 12 credits of dissertation must be completed. This will not include remedial courses.
- Seventeen of the 30 units presented for the degree must be courses with the prefix ANTH at the 700-level (excluding Directed Readings, Independent Study, and Dissertation).
- The 42 credits and any remedial work must be passed with a grade of B- or better. Classes in which a student receives a C+ or lower will not count towards his or her degree.
- Any student receiving a C+ or lower will be placed on academic probation. Failure to meet the requirements of probation will result in separation from the graduate program.
- Within the 42 credits, there will be a cap of four credits each of Independent Study and Directed Readings, and 12 credits for the Dissertation.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- The student must pass a comprehensive examination. This exam will cover three topics, selected to relate to the student's dissertation research area. The topics will relate to an area of (a) theory, (b) methodological or topical specialty, and (c) culture area. Students who fail in any portion of the exam will be placed on probation and may retake that portion of the exam any time prior to the end of the semester (excluding summer) following that during which the exam was first taken. A second failure of any portion of the re-taken exam or failure to meet the conditions of probation will result in termination from the doctoral program.
- After passing the doctoral comprehensive examination, the student must submit to the department a written dissertation proposal approved by the dissertation committee prior to the commencement of fieldwork or research. The student also must present a defense of this proposal to the academic community. After successfully completing these tasks, the student is advanced to candidacy.
- The student will then conduct approved anthropological research to gather data needed for writing the dissertation. This may involve fieldwork, laboratory research, or research on a theoretical topic, but in any case must represent an original contribution to knowledge.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Post-Bachelor's Track

Total Credits Required: 75

Course Requirements

- Required Courses - Credits: 11
 - ANTH 700A - Proseminar I
 - ANTH 700B - Proseminar II
 - ANTH 703 - Core Concepts in Anthropology
 - ANTH 770 - Quantitative Methods in Anthropology
 - ANTH 790 - Research Design, Professional Ethics, and Grant Writing for Anthropologists
- Elective Courses - Credits: 16-22
 - Anthropology electives to be determined in consultation with your advisor. Students completing a thesis must complete a minimum of 16 credits of elective coursework, and students completing a professional paper must complete a minimum of 22 credits of elective coursework.
- Culminating Experience - Credits: 6 (Optional)
 - ANTH 797 - Thesis
- After successfully completing the requirements above, students are eligible to earn the Master of Arts in Anthropology.
- Elective Courses - Credits: 30
 - Complete 30 credits of advisor-approved Anthropology electives.
- Dissertation - Credits: 12
 - ANTH 798 - Dissertation

Degree Requirements

- A minimum of 75 credits of approved work beyond the bachelor's must be completed. This will not include remedial courses.
- A minimum of 33 credits of approved work beyond the bachelor's must be completed for the M.A. degree.
- Fourteen (for students completing a thesis) or seventeen (for students completing a professional paper) of the 33 units presented for the M.A. degree must be courses with the prefix ANTH at the 700-level (excluding Directed Readings, Independent Study, and Thesis).
- A minimum of 30 credits of approved work beyond the M.A. plus 12 credits of dissertation (42 credits total) must be completed for the Ph.D. degree.
- Fifteen of the 30 units presented for the Ph.D. degree must be courses with the prefix ANTH at the 700-level (excluding Directed Readings and Independent Study).
- The 75 credits and any remedial work must be passed with a grade of B- or better. Classes in which a student receives a C+ or lower will not count towards his or her degree.

- Any student receiving a C+ or lower will be placed on academic probation. Failure to meet the requirements of probation will result in separation from the graduate program.
- Within the 75 credits, there will be a cap of four credits each of Independent Study and Directed Readings, and 12 credits for the Dissertation.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- In consultation with his/her advisor, and as approved by the student's committee, the student will complete one of two options for an MA in Anthropology en route to receiving their PhD: a) write a publishable professional paper or b) write a thesis. In consultation with the student, the student's committee will decide which option the student will take. Each of these options will require a committee defense and department defense.
- The student must pass a comprehensive examination. This exam will cover three topics, selected to relate to the student's dissertation research area. The topics will relate to an area of (a) theory, (b) methodological or topical specialty, and (c) culture area. Students who fail in any portion of the exam will be placed on probation and may retake that portion of the exam any time prior to the end of the semester (excluding summer) following that during which the exam was first taken. A second failure of any portion of the re-taken exam or failure to meet the conditions of probation will result in termination from the doctoral program.
- After passing the doctoral comprehensive examination, the student must submit to the department a written dissertation proposal approved by the dissertation committee prior to the commencement of fieldwork or research. The student also must present a defense of this proposal to the academic community. After successfully completing these tasks, the student is advanced to candidacy.
- The student will then conduct approved anthropological research to gather data needed for writing the dissertation. This may involve fieldwork, laboratory research, or research on a theoretical topic, but in any case must represent an original contribution to knowledge.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for both the Master's and Doctoral portions of the program.
- The student must submit and successfully defend his/her thesis or professional paper by the posted deadline. The defense must be advertised and is open to the public.
- If a thesis is completed, the student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Post-Master's Track
- Subplan 2: Post-Bachelor's Track

Master of Arts - Anthropology

Plan Description

Our program, which has a strong field and laboratory component in addition to coursework, is designed to prepare our graduates to work in a variety of settings, including academia, applied anthropology, cultural resources management, and other research settings.

Learning Outcomes

www.unlv.edu/degree/ma-anthropology

Plan Admission Requirements

- All domestic and international applicants must review and follow the Graduate College Admission & Registration Requirements.
- In addition to the general admission requirements established by the Graduate College, the applicant should have earned 18 semester credit hours in anthropology accepted by the department, with at least a 3.00 average in those courses. It is preferred that as many of the four subdisciplines as possible be represented among those courses and approximately one half of the 18 hours be at the upper-division level.
- Applicants must submit a research paper representative of their undergraduate work. If the student did not major in anthropology as an undergraduate, a research paper in another field indicative of the student's ability is acceptable.
- Applicants must also submit an explicit letter of intent.
- GRE scores are required for admission. There is no required minimum score, but scores will be used in combination with other information in the application to evaluate the applicant. The exam must be taken within five years preceding the deadline for the application to be considered.

Plan Requirements

Total Credits Required: 33

Course Requirements

Required Courses – Credits: 11

ANTH 700A - Proseminar I

ANTH 700B - Proseminar II

ANTH 703 - Core Concepts in Anthropology

ANTH 770 - Quantitative Methods in Anthropology

ANTH 790 - Research Design, Professional Ethics, and Grant Writing for Anthropologists

Elective Courses – Credits: 16

Complete 16 credits of advisor-approved Anthropology electives.

Thesis – Credits: 6

ANTH 797 - Thesis

Degree Requirements

- A minimum of 27 credits of approved work at the graduate level plus 6 credits of thesis must be completed.
- Seventeen of the 27 units presented for the degree must be courses with the prefix ANTH at the 700-level (excluding Directed Reading, Independent Study, and Thesis).
- Classes in which a student receives a C+ or lower will not count towards his or her degree.

- Any student receiving a C+ or lower will be placed on academic probation. Failure to meet the requirements of probation will result in separation from the graduate program.
- Up to four credits each of Directed Reading and Independent Study can be applied toward the degree but may be taken only after acceptance into the Graduate College.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member outside the department will be assigned by the Graduate College. Another outside member may be added at the department's discretion. Please see Graduate College policy for committee appointment guidelines.
- The student must submit to the department a written thesis research proposal approved by the thesis committee prior to the commencement of fieldwork or research. The student also must present a defense of this proposal to the thesis committee.
- After successfully completing these tasks, the student will then conduct approved anthropological research to gather data needed for writing the thesis. This may involve fieldwork, laboratory research, or research on a theoretical topic.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Anthropology Courses

AAS 636 - Politics of Racial Ambiguity

Credits 3

Interdisciplinary investigation of contemporary American black/white multiracial identities, including analyses and assessments of the multiracial identity movement in the United States.

ANTH 609 - Economic Anthropology

Credits 3

Comparative study of preliterate and peasant economic systems, with particular attention paid to the relation of these systems to the social and cultural arrangements of these societies. **Same as:** ANTH 409. **Notes:** Credit at the 600 level normally requires additional work.

ANTH 617 - Evolution & Culture: 'Darwinian' Models of Culture

Credits 3

Humans depend on complex cultures for their survival. Why it is the case, how it is made possible and how fundamentally culture affects humans have always been essential focuses of the anthropological research. The courses will present the main models of cultural evolution found currently in the anthropological literature.

Prerequisites: Graduate standing.

ANTH 620 - Magic, Witchcraft, and Religion

Credits 3

Examines the ways non-western people experience "religion" in official and unofficial domains. Provides a conceptual framework for analyzing the way cultures outside the U.S. organize reality to gain an awareness of the interrelationship between cosmology, religion, and personhood and an appreciation of the cultural diversity found around the world. **Same as:** ANTH 420. **Notes:** Credit at the 600 level normally requires additional work.

ANTH 622 - Psychological Anthropology**Credits 3**

Examines how culture influences the development of character and conduct in non-western societies. Provides cross-cultural research findings on socialization, aggression, sexual behavior, mental illness and social pathology. Research findings from small-scale and complex societies from around the globe are evaluated. **Same as:** ANTH 422. **Notes:** Credit at the 600 level normally requires additional work.

ANTH 626 - Medical Anthropology**Credits 3**

Overview of medical anthropology, covering such topics as disease and human evolution, ecology of disease, and culture-centered approaches in the field, including ethnomedicine (cross-cultural conceptions of health and illness), healers in global perspective, and medicine practiced in clinical and public health settings in societies around the world. **Same as:** ANTH 426. **Notes:** Credit at the 600 level normally requires additional work.

ANTH 627 - Cultures and Cognition**Credits 3**

Focuses on the interactions between culture, cognition and behavior. Explores a variety of non-western cultures to identify how social and psychological perspectives are formed and influence behavior. Models and case studies found in social sciences are used to discuss the relationship between cognition and cultural behaviors.

Prerequisites: ANTH 101 or ANTH 102 or ANTH 105 or equivalent.

ANTH 630 - Anthropology and Ecology**Credits 3**

Focuses on the biocultural processes by which people adapt to their environments around the world. Human genetic, developmental and behavioral responses to environments considered across a range of cultural contexts. Topics include human growth, reproduction, diet, disease, resource use and sociopolitical structures. **Same as:** ANTH 430. **Notes:** Credit at the 600 level normally requires additional work.

ANTH 633 - Theories of Cultural Change**Credits 3**

Mechanisms of change such as invention, diffusion, revitalization movements, devolution, urbanization, and acculturation. In addition, forms of forcible change such as colonialism and conquest, rebellion and revolt covered. **Same as:** ANTH 433. **Notes:** Credit at the 600 level normally requires additional work.

ANTH 634 – Ethnohistory**Credits 3**

Methodological study applying anthropological concepts to early written sources and recorded oral tradition. Cross-cultural comparisons. **Same as:** ANTH 434. **Notes:** Credit at the 600 level normally requires additional work.

ANTH 636 - History of Anthropology**Credits 3**

History of the intellectual developments within anthropology. **Same as:** ANTH 436. **Notes:** Credit at the 600 level normally requires additional work.

ANTH 638 - Ethnographic Field Methods**Credits 3**

Surveys methods and techniques of field work. Students do weekly ethnographic projects and write short reports. **Same as:** ANTH 438. **Notes:** Credit at the 600 level normally requires additional work.

ANTH 640B - Archaeology of the Great Basin**Credits 3**

Explores the prehistory of the Great Basin and surrounding areas, including the Mojave Desert. Examines the Paleoindian, Archaic, and later prehistoric occupation of the region, focusing on the evidence archaeologists use to reconstruct past behavior and how the environment influenced prehistoric peoples in the area. **Same as:** ANTH 440B. **Notes:** Credit at the 600 level normally requires additional work.

ANTH 640C - Archaeology of the Southwest**Credits 3**

Prehistory of the American Southwest, focusing on development of the Anasazi, Hohokam and Mogollon cultures and their antecedents 2000 B.C. to A.D. 1500. **Same as ANTH 440C** **Notes:** Credit at the 600 level normally requires additional work.

ANTH 641B - Near Eastern and Mediterranean Prehistory**Credits 3**

Reviews Near Eastern and Mediterranean archaeology from the earliest evidence of humans in the region through the origins and development of farming and food production. Examines foundations for civilization in Egypt and Mesopotamia and the colonization of islands of the Mediterranean Sea. **Same as ANTH 441B** **Notes** Credit at the 600 level normally requires additional work.

ANTH 643 - Environmental Archaeology**Credits 3**

Examines human adaptations to various environments, techniques from the environmental sciences. Analysis of ancient human and environmental interactions stressing arid lands. Human impacts upon the landscape, constraints imposed by ecological variables, and techniques used in environmental reconstruction. **Same as ANTH 443.** **Notes** Credit at the 600 level normally requires additional work.

ANTH 644 - Bioarchaeology**Credits 3**

Method and theory for the study of human remains in archaeological contexts. Formerly ANTH 673 **Same as ANTH 444.** **Notes** Credit at the 600 level normally requires additional work.

ANTH 649A - Ceramic Analysis in Archaeology**Credits 3**

Introduction to the laboratory analysis of archeological ceramics. Emphasizes theories and techniques used to reconstruct past human behavior from the study of prehistoric and historic ceramics. **Same as ANTH 449A.** **Notes** Credit at the 600 level normally requires additional work.

ANTH 649B - Lithic Artifact Analysis**Credits 3**

Designed to provide general background on lithics and lithic analysis. Explores lithic technology, typology, and interpretations of lithic assemblage variability. **Same as ANTH 449B.** **Notes** Credit at the 600 level normally requires additional work.

ANTH 649D - Zooarchaeology Laboratory**Credits 3**

Enables students to identify, document, analyze, interpret, and report archaeological animal bone assemblages. Addresses theoretical, methodological, and analytical issues that are significant in designing and conducting zooarchaeological research. Formerly ANTH 649C. **Notes** This course is cross listed with ANTH 449D. Credit at the 600 level normally requires additional work. **Prerequisites** Consent of instructor

ANTH 654 - Ethnoarchaeology**Credits 3**

Theoretical foundations, methods, and issues associated with an ethnoarchaeological approach. Explores present interactions of people within their environments and the formation, patterns, and meaning of the archaeological record. **Same as ANTH 454.** **Notes** Credit at the 600 level normally requires additional work. **Prerequisites** Consent of instructor

ANTH 655 - Archaeological Theory**Credits 3**

Surveys major theoretical approaches used in archaeology. Examines historical development of these theories and discusses their practical application.

Same as ANTH 455. Notes Credit at the 600 level normally requires additional work.

ANTH 656 - Archaeology of Technology**Credits 3**

Explores the methodological and theoretical developments in archaeological research on technology and the challenges of connecting materials with human behavior and intent in the past. **Notes** Credit at the 600 level normally requires additional work. **Prerequisites** Consent of instructor

ANTH 658 - Origins of Inequality: A Cross-cultural Perspective**Credits 3**

This course uses origins of inequality to understand how societies and their culture developed differently across time and space. A cross-cultural emphasis enables the student to appreciate the factors responsible for the rise of different modes of sociopolitical organization around the globe and to realize the complexity of human experience.

ANTH 662 - Human Osteology: Archaeological and Forensic Applications**Credits 4**

Utilization of physical anthropological methods of bone analysis applied to the identification of human and non-human skeletal remains. **Same as ANTH 462. Notes** Credit at the 600 level normally requires additional work.

ANTH 664 - Dental Anthropology: Archaeological and Forensic Applications**Credits 3**

Dental morphology, growth and development, and dental variability in modern populations. Techniques used to reveal information about past diets, health, and behavior. Forensic odontology. Major stages in the evolution of the dentition, with particular focus on primate and human dental evolution. **Same as ANTH 464. Notes** Credit at the 600 level normally requires additional work.

ANTH 665 - Human Growth and Aging**Credits 3**

Explores, how humans grow, mature, and age in a variety of non-western cultures. Addresses social and biological factors that shape peoples' decisions about when to begin reproducing, how many offspring to have, when to wean, and style of parenting, as well as those impacting physical age changes and lifespan. **Same as ANTH 465. Notes** Credit at the 600 level normally requires additional work.

ANTH 667 - Health and Disease in Antiquity**Credits 3**

Covers paleopathology, or, the study of disease in ancient populations. Provides an overview of morbidity and mortality over the last 20,000 years for many different populations from around the globe. Information on disease is drawn from human skeletal and mummified remains, and from archaeological reconstructions of lifestyle and diet. **Same as ANTH 467. Notes** Credit at the 600 level normally requires additional work.

ANTH 669 - Evolution and Biology of Human Behavior**Credits 3**

Reviews relevant theory and primary approaches—evolutionary psychology and behavioral ecology—for investigating human behavior from an evolutionary perspective. Topics include cooperation, mate choice, parenting, pair bonding, aggression, language and culture. **Same as ANTH 469**

ANTH 671 - Evolution of Human Sexuality

Credits 3

Examines human sexuality from an evolutionary perspective. Major themes include basics of evolutionary theory, comparisons with other non-human primates, cross-cultural and historical variation in human sexuality and consideration of the neuroendocrine bases of sexual behavior. Topics include sexual selection, mating systems, and sexual orientation. **Same as ANTH 471**

ANTH 672 - Hormones and Human Behavior

Credits 3

Covers the dynamic field of human hormones and behavior. Emphasis is given to human naturalistic and clinical studies. Cross-cultural and comparative nonhuman primate findings are highlighted. Topics addressed include sex differences, sexual behavior, parenting, aggression, and the stress response. **Notes** Credit at the 600 level normally requires additional work. **Prerequisites** Equivalent of 3 credit hours in Physical Anthropology, Biology, or Psychology.

ANTH 673R - Anthropology of Violence

Credits 3

An overview on the history of aggression, violence and trauma in human groups. Interpersonal and institutional forms of violence are examined from an anthropological perspective. The goal of the course is to explore a number of theoretical frameworks used by anthropologists to understand violence. **Prerequisites** Graduate standing.

ANTH 675 - Evolutionary Medicine

Credits 3

This course provides an introduction to evolutionary medicine, a relatively new and exciting field that emphasizes the interplay between human evolutionary history, adaptation, and proximate mechanisms. Examples are drawn from societies around the world. Topics include growth, reproduction, diet, activity patterns, aging and infectious and chronic disease. **Same as ANTH 475**

ANTH 685 - Language and Culture

Credits 3

Examines the interaction of language and culture, focusing on basic aspects of linguistics, models for the study of language use, and intersections of language with gender, power, and status cross-culturally. **Same as ANTH 485.** **Notes** Credit at the 600 level normally requires additional work.

ANTH 686 - Language and Gender

Credits 3

Examines from an anthropological perspective the ways in which language and gender intertwine. Explores how language emerges from, reproduces, and challenges ideas of gender and gendered practices cross-culturally. Topics covered include interaction of gender with race, identity and class in language use. **Same as ANTH 486**

ANTH 700A - Proseminar I

Credits 1

Orientation for entering anthropology graduate students. Presents the program's expectations and policies, and introduces students to faculty research and expertise within the department.

Grading

S/F grading only. **Prerequisites** Graduate standing/permission of instructor.

ANTH 700B - Proseminar II

Credits 1

Continuation of the orientation begun in ANTH 700A. Develops students' appreciation of professionalism and develops the skills necessary for academic presentations. Presents the current research of advanced anthropology graduate students.

Grading

S/F grading only. **Prerequisites** Graduate standing/permission of instructor.

ANTH 701 - Directed Reading in Anthropological Literature

Credits 3.

Notes (May be repeated to a maximum of six credits.)

ANTH 703 - Core Concepts in Anthropology

Credits 3

Course explores the intellectual foundations of critical thinking and practice in Anthropology (Cultural, Biological, Archaeology, and Linguistics). Examines anthropological theory as it has been manifested in studies of human evolution, cultural materialism, historical analysis, and cultural interpretation. **Prerequisites** Graduate standing.

ANTH 735 - Seminar on Classic Ethnographies

Credits 3

Classic ethnographies read in the original, selected to represent a wide range of culture types, culture areas, and theoretical perspectives. Broadens and deepens students' control of the professional database, while exploring how data support theoretical constructs and how theory in turn informs ethnographic methods and descriptions.

Prerequisites Graduate standing.

ANTH 736 - Problems in North American Ethnology

Credits 3

Selected cases from Native North America used to learn logic and methods for resolving conflicts in ethnographic data and data interpretation. Impact of those arguments and decisions on significant current theoretical constructs pursued. **Prerequisites** Graduate standing.

ANTH 741 - Seminar in Cultural Processes

Credits 3

Theories of culture change on selected topics. **Notes** Topics to be announced. May be repeated to a maximum of 12 credits. **Prerequisites** Consent of instructor.

ANTH 743 - Seminar in Method and Theory in Cultural Anthropology

Credits 3

Research and discussion of selected topics relating to data gathering, interpretation, or theoretical explanation in sociocultural anthropology. Specific topics and instructor vary. **Notes** May be repeated to a maximum of six credits.

ANTH 744 - Identity, Culture and Power

Credits 3

Examines how transnational migration and globalization affect our understanding of identity, culture, and power relations. What is identity? Why isn't identity fixed? What is the relationship between the local and the global?

Seminar explores these questions focusing on themes of identity, culture, and power.

ANTH 746 - Gender, Sexuality, Race and Flexible Citizenship

Credits 3

Analyzes how gender and sexuality converge with race and class, and how people negotiate gender, sexual and racial differences. Explores the concept of cultural citizenship among different ethnic groups in relation to sex/gender and race. **Prerequisites** Graduate standing.

ANTH 749 - Archaeology of Colonialism in the Americas

Credits 3

Explores the archaeology and descendant experience of colonialism in the Americas. Examines archaeological, ethnohistoric, ethnographic, and oral historic data to explore the variability and patterns of the colonial process.

Prerequisites Permission of instructor

ANTH 751 - Seminar on Current Problems in Archaeology

Credits 3.

Notes May be repeated to a maximum of six credits.

ANTH 753 - Seminar in Cultural Adaptations to Arid Environments

Credits 3

Addresses the problems of human cultural adaptations to arid environments, with special attention given to technological and social responses to these environments. **Prerequisites** ACC 703

ANTH 754 - Archaeology and Paleoecology of the Great Basin

Credits 3

Examines paleoenvironments and prehistory of the Great Basin and intermountain west, including Nevada and surrounding states. Issues include Pleistocene and Holocene paleoenvironmental reconstruction, Paleoindian and Archaic adaptations, Fremont culture, and spread of Numic-speaking populations. Field trip. **Prerequisites** Graduate standing or consent of instructor.

ANTH 755 - Seminar in Archaeological and Historic Preservation

Credits 3

Management of archaeological resources; laws and policies protecting archaeological sites, methods of identification, and evaluation of archaeological resources; the interface of archaeological preservation and archaeology as a scientific discipline.

ANTH 756 - Archaeology of Hunter-Gatherers

Credits 3

Course examines hunter-gatherers throughout the world, focusing on paleoenvironment, land use, subsistence, and social interaction. **Prerequisites** Consent of instructor.

ANTH 757 - Seminar in Southwestern Archaeology

Credits 3

Examines the prehistoric societies of the American Southwest, including the Hohokam, Mogollon, and Anasazi; issues include origins, social organization, subsistence, production, distribution and exchange, and the dynamics of change in the region. **Prerequisites** ANTH 418 or consent of instructor.

ANTH 758 - Seminar in Agricultural Origins

Credits 3

Examines the circumstances surrounding the transition from hunting and gathering to food production throughout the world. Evaluates both the theoretical framework and empirical database for understanding this transition and the consequences of the shift to agricultural production.

ANTH 761 - Seminar on Current Thought in Physical Anthropology

Credits 3

Topics to be announced. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Consent of instructor.

ANTH 762 - Laboratory Seminar on Osteology

Credits 3

'Hands-on' class relevant to research and analysis in human osteology and palaeopathology. Laboratory analysis of osteological and palaeopathology materials available in the Physical Anthropology Laboratory. Methods of age, sex, ethnic determinations, discrete morphological, anthropometric, and palaeopathological research and analysis.

Prerequisites ANTH 462

ANTH 763 - Paleoanthropology

Credits 3

Current issues in and evidence for human biocultural evolution. Include finding, dating, and naming fossil hominids, the effect of climate on hominid evolution, as well as issues in paleobiology, functional anatomy, prehistoric archaeology, and geomorphology. **Prerequisites** Consent of instructor.

ANTH 764 - Seminar: Medical Anthropology

Credits 3

Explores the evolution and cross- cultural understanding of human health, healing and disease. Includes extensive examination and critical evaluation of evolutionary, biocultural and culturally-centered approaches in medical anthropology. **Prerequisites** Consent of instructor.

ANTH 770 - Quantitative Methods in Anthropology

Credits 3

Provides practical introduction to the uses of computers for statistical analysis, data gathering and storage, computer modeling and computer- assisted instruction as applies in anthropology. Every student carries out one or more projects requiring the use of computers. **Prerequisites** MIS 101 or CSC 115 or equivalent or consent of instructor.

ANTH 790 - Research Design, Professional Ethics, and Grant Writing for Anthropologists

Credits 3

Class components include ethics relating to data acquisition and sharing, formulating cohesive and compelling research questions, and the mechanics of proposal preparation required in professional practice. All students will be required to prepare and present a research proposal. **Prerequisites** Graduate standing or consent of instructor.

ANTH 796 - Cultural Resource Management Internship

Credits 3

Students work with an archaeologist both in field and office situations, focusing on identification and evaluation of sites; writing technical reports and examining the development of correspondence between federal agencies and contracting archaeologists. **Prerequisites** One field class (ANTH 453, 485, 486) and one lab class (ANTH 452, 458) or one summer field school (ANTH 487, 488), senior or graduate standing and recommendation of UNLV faculty coordinator.

ANTH 797 - Thesis

Credits 3 – 6.

Notes May be repeated but only six credits will be applied to the student's program. Grading S/F grading only.

ANTH 798 - Dissertation

Credits 3 – 12.

Notes May be repeated but only 12 credits will be applied to the student's program. Grading S/F grading only.

ANTH 799 - Independent Research

Credits 1 – 3.

Notes May be repeated to a maximum of six credits.

English

The Department of English offers programs of study leading to the Master of Arts, Master of Fine Arts, and Doctor of Philosophy degrees. The M.A. program involves course work at the graduate level in English and American literature or in language studies. Work toward this degree is designed to supplement and complete the student's undergraduate study in the field of English and to familiarize the student with professional standards, methods of research, and modes of thought in the discipline. Possession of this degree normally leads to professional advancement for the secondary school or community college teacher; to a career in writing, publishing and editing; or to further study in English at the doctoral level.

The M.F.A. program is designed to be a three-year, intensive studio arts terminal degree with a strong international emphasis and requires the writing of a book-length creative thesis in either fiction or poetry. The objectives of the M.F.A. degree are to enable the student to master the craft of writing in the chosen genre to a publishable level; to train the student in both traditional literary topics and writing pedagogy to the end of a teaching career at the college or university level; and to provide the student with an international perspective on both the creation and publication of fiction or poetry and on the teaching and appreciation of literature.

The Ph.D. program is a highly specialized program designed to train a student for a career in teaching at the college or university level through the acquisition of skills in research, original thought, and academic writing. The doctoral program is focused on literary study although a concentration of six credits may be earned in composition studies. At the time of admission the student chooses, with the approval of her or his advisor, three areas in which to specialize: (1) a chronological period, (2) a literary genre, and (3), an additional chronological period, a major author chosen from outside the selected chronological period, or a special topic. All subsequent course work is devoted to developing a high degree of professional competence and knowledge in the three chosen areas of specialization. Such knowledge is tested in a qualifying examination and is also the basis upon which the student writes a doctoral dissertation.

The department, in conjunction with the International Institute of Modern Letters, also offers a program leading to the degree of Doctor of Philosophy in English with a Creative Dissertation. This program centers on the study of English and American literature and is designed to train a student for a career in the teaching of English at the college or university level, as well as for a career in writing, editing, and publishing. The program of study includes course work in English and Creative Writing, a Qualifying Examination, and a Creative Dissertation. Differences in admission requirements and degree requirements between the two Ph.D. programs are indicated below. Additional details for the admission requirements and the degree requirements for each degree can be found on the English Department website.

Richard L. Harp, Ph.D., Chair

Darlene H. Unrue, Ph.D., Graduate Coordinator

Chair

Harp, Richard L. - *Full Graduate Faculty*

Professor; B.A., Ph.D., University of Kansas; M.A., Boston College. *Rebel since 1975.*

Graduate Coordinator

Unrue, Darlene Harbour - *Full Graduate Faculty*

Distinguished Professor; B.A., M.A., Marshall University; Ph.D., The Ohio State University. *Rebel since 1972.*

Professor; B.S., M.S., University of Wisconsin, Madison; Ph.D., United States International University, San Diego. *Rebel since 1962.*

Chapman, Maile - *Full Graduate Faculty*

Assistant Professor; B.A. Evergreen State College; M.F.A., Syracuse University; Ph.D., University of Nevada, Las Vegas. *Rebel since 2011.*

Decker, Christopher - *Full Graduate Faculty*

Associate Professor; B.A., Yale University; Ph.D., Cambridge University. *Rebel since 2004.*

Erwin, Timothy - *Full Graduate Faculty*

Professor; B.A., Marquette University; M.A., Ph.D., University of Chicago. *Rebel since 1990.*

Gajowski, Evelyn - *Full Graduate Faculty*

Professor; B.A., Cleveland State University; M.A., Ph.D., Case Western Reserve University. *Rebel since 1991.*

Hafen, Jane - *Full Graduate Faculty*

Professor; B.A., M.A., Brigham Young University; Ph.D., University of Nevada, Las Vegas. *Rebel since 1993.*

Harter, Carol - *Full Graduate Faculty*

Professor and President Emerita, University of Nevada, Las Vegas; B.A., M.A., Ph.D., State University of New York at Binghamton. *Rebel since 1995.*

Jablonski, Jeffrey - *Full Graduate Faculty*

Associate Professor; B.A., M.A., State University of New York College at Buffalo; Ph.D., Purdue University. *Rebel since 2000.*

Keelan, Claudia - *Full Graduate Faculty*

Professor; B.A., Humboldt State University; M.F.A., University of Iowa. *Rebel since 1996.*

Kryah, Josh

Visiting Assistant Professor; M.F.A., Iowa Writers' Workshop; Ph.D., University of Nevada, Las Vegas.

Marraouchi, Mustapha - *Full Graduate Faculty*

Professor; D.E.A., Université de Provence, France; Ph.D., University of Toronto. *Rebel since 2008.*

Mays, Kelly J. - *Full Graduate Faculty*

Associate Professor; B.A., Emory University; Ph.D., Stanford University. *Rebel since 2001.*

Nagelhout, Edwin - *Full Graduate Faculty*

Associate Professor; B.A., California State University-Fullerton; M.A., Ph.D., Purdue University. *Rebel since 2005.*

Perez, Vincent - *Full Graduate Faculty*

Associate Professor; B.A., University of California, Santa Cruz; M.A., Ph.D., Stanford University. *Rebel since 1999.*

Revell, Donald - *Full Graduate Faculty*

Professor; B.A., Harpur College at Binghamton University; M.A., State University of New York at Binghamton; Ph.D., State University of New York at Buffalo. *Rebel since 2008.*

Rosenberg, Beth Carole - *Full Graduate Faculty*

Associate Professor; B.A., Douglass College, Rutgers University; M.S., Ph.D., New York University. *Rebel since 1994.*

Rusche, Philip - *Full Graduate Faculty*

Associate Professor; B.A., M.A., Emory University; M.A., M.Phil., Ph.D., Yale University. *Rebel since 1998.*

Staggers, Julie - *Full Graduate Faculty*

Associate Professor; B.A., University of Washington; M.A., Ph.D., Purdue University. *Rebel since 2006.*

Stevens, Anne - *Full Graduate Faculty*

Associate Professor; B.A., University of Chicago; M.A., Ph.D., New York University. *Rebel since 2004.*

Unger, Douglas - *Full Graduate Faculty*

Professor; B.A., University of Chicago; M.F.A., University of Iowa. *Rebel since 1991.*

Tillery, Denise - *Full Graduate Faculty*

Associate Professor; B.A., Ph.D., University of New Mexico; M.A., University of North Carolina. *Rebel since 2004.*

Unrue, John C. - *Full Graduate Faculty*

Professor; B.A., M.A., Marshall University; Ph.D., Ohio State University. *Rebel since 1970.*

Whitney, Charles - *Full Graduate Faculty*

Professor; B.A., San Francisco State College; Ph.D., City University of New York. *Rebel since 1988.*

Professors Emeriti

Coburn, W. Leon

Emeritus Associate Professor; B.A., University of New Mexico; M.A., Ph.D., University of California, Davis. *Joined UNLV 1969.*

Dodge, Robert K.

Emeritus Professor; B.A., Rice University; M.A., Ph.D., University of Texas. *Joined UNLV 1970.*

Engberg, Norma J.

Emerita Associate Professor; B.A., George Washington University; M.A., University of Florida; Ph.D., University of Pennsylvania. *Joined UNLV 1969.*

Emerita Associate Professor; B.A., M.E., University of Nevada, Reno; Ph.D., University of New Mexico. *Joined UNLV 1969.*

Hazen, James F.

Emeritus Professor; B.A., Princeton University; M.S., Ph.D., University of Wisconsin. *Joined UNLV 1971.*

Irsfeld, John H.

Emeritus Professor; B.A., M.A., Ph.D., University of Texas. *Joined UNLV 1969.*

McCullough, Joseph B. - Full Graduate Faculty

Distinguished Professor Emeritus; B. Ed., Gonzaga University; M.A., Ph.D., Ohio University.
UNLV Emeritus

Weinstein, Mark A.

Emeritus Distinguished Professor; B.A., Cornell University; M.A., Ph.D., Yale University. *Joined UNLV 1970.*

English Plans

Master of Fine Arts - Creative Writing

Plan Description

The MFA international program at UNLV enables writers to begin recognizing themselves and their art in relation to a larger understanding of writing. The program's commitment to world literature provides a unique MFA experience that differs from many traditional creative writing programs. Admitted students follow a three-year program that includes literature and writing courses, time abroad, completion of a poetry or fiction manuscript, a literary translation, and a critical essay. In addition, the MFA program at UNLV is the nation's only creative writing program that gives credit to students who wish to spend their time abroad in the Peace Corps. The program's international emphasis is derived from the belief that the best writing is done by individuals who know that literature is something created from more than mere self-expression, and that great books are written by the few who know their gift is connected to the world they live in and strive to create dialogue between private imagination and public concern. Graduates of UNLV's MFA program have gone on to secure tenure track teaching jobs, gain admission to Ph.D. programs in creative writing, publish books, and enter the workforce as editors, writers, and arts administrators. UNLV also routinely supports recent graduates with part-time teaching opportunities in the department.

Learning Outcomes

<http://www.unlv.edu/degree/mfa-creative-writing>

Plan Admission Requirements

All domestic and international applicants must review and follow the Graduate College Admission & Registration Requirements.

Applicants for the M.F.A. in Creative Writing must submit the following to the English department:

- A strong manuscript of either poetry or fiction for consideration, of approximately 10-15 pages for poetry and 20-30 pages for fiction. The primary consideration for admission is the quality of the manuscript as judged by the Creative Writing faculty.
- A letter of application to the Graduate Committee that includes a statement of purpose and reasons the applicant wants to study creative writing at the University of Nevada, Las Vegas.
- Applicants must send two official sets of transcripts from all colleges or universities attended; one set goes to the Graduate College and one directly to the English Department.

- Two letters of recommendation to be sent directly to the department. There is a wide range of acceptability with regard to an applicant's previous record of studies and major field of specialization as an undergraduate.
- Scores for the Verbal portion of the General test of the Graduate Record Examination.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: International Focus Track

Total Credits Required: 54

Course Requirements

- Creative Writing Course – Credits: 1
 - Complete 9 credits in the chosen genre of concentration (either poetry or fiction) and 3 credits in another genre.
 - ENG 705 - Creative Writing
- Required Courses – Credits: 6
 - ENG 739 - M.F.A. Translation
 - ENG 749 - M.F.A. Critical Essay
- Forms of Fiction or Poetry Course – Credits: 9
 - ENG 729 - Forms of Fiction or Poetry
- Elective Courses – Credits: 9
 - Complete 9 credits of graduate literature courses not offered by the writing faculty of the Department of English.
- Independent Study – Credits: 6
 - ENG 794 - Independent Study - International Focus
- Thesis – Credits: 12
 - ENG 790 - M.F.A. Thesis

Degree Requirements

- Independent Study: International Focus
 - 3 credits for the completion of a significant translation of superior quality from a language other than English and 3 credits for the writing of a substantial scholarly essay of at least 5,000 words on some aspect of a major world writer or field of literary study.
 - The strong international emphasis of the M.F.A. in Creative Writing requires all students to spend at least one semester or summer abroad in a non-English speaking country and to earn at least six credits toward the M.F.A. by enrolling in a university, school, or institute abroad and/or by Independent Study guided and monitored by a member of the Creative Writing faculty. For applicants with strong experience and demonstrable study and residency in a non-English speaking country and with significant foreign language skills, the study abroad requirement may be waived at the discretion of the Creative Writing faculty and of the Graduate College. The six required credits must then be earned in some other way.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

- All candidates for the M.F.A. degree are required to write a creative thesis in either poetry or fiction and to complete at least 12 credits toward the creative thesis requirement by intensive work in conference with members of the faculty. The creative thesis for the M.F.A. will be a book-length manuscript and must conform to the guidelines set forth by the Graduate College in this catalog and in its Thesis and Dissertation Manual. The M.F.A. creative thesis will only be passed and the M.F.A. degree granted when the creative thesis is judged to be a substantial creative work of high seriousness and literary merit in the opinion of the Creative Writing faculty and the student's creative thesis committee.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Peace Corps Track

Total Credits Required: 42

Course Requirements

- Creative Writing Course – Credits: 12
 - Complete 9 credits in the chosen genre of concentration (either poetry or fiction) and 3 credits in another genre.
 - ENG 705 - Creative Writing
- Required Courses – Credits: 6
 - ENG 739 - M.F.A. Translation
 - ENG 749 - M.F.A. Critical Essay
- Forms of Fiction or Poetry Course – Credits: 9
 - ENG 729 - Forms of Fiction or Poetry
- Elective Courses – Credits: 6
 - Complete 6 credits of graduate literature courses not offered by the writing faculty of the Department of English.
- Thesis – Credits: 9
 - ENG 790 - M.F.A. Thesis

Degree Requirements

- Through the Peace Corps Master's International Partnership, students must apply to the Peace Corps during their first or second year in the program.
- The entire program is a four-year obligation. Students complete their course work in two years instead of the usually required three, and write a thesis during their two-year Peace Corps assignment.
- Students receive an MFA when they complete their Peace Corps assignment, receive a resettlement allowance, and experience the Peace Corps firsthand.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate

College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

- All candidates for the M.F.A. degree are required to write a creative thesis in either poetry or fiction and to complete at least 12 credits toward the creative thesis requirement by intensive work in conference with members of the faculty. The creative thesis for the M.F.A. will be a book-length manuscript and must conform to the guidelines set forth by the Graduate College in this catalog and in its Thesis and Dissertation Manual. The M.F.A. creative thesis will only be passed and the M.F.A. degree granted when the creative thesis is judged to be a substantial creative work of high seriousness and literary merit in the opinion of the Creative Writing faculty and the student's creative thesis committee.

Graduation Requirements

- The student must submit all required forms to the Graduate College.
- Upon return from the Peace Corps, students must:
 - Have faculty submit a grade change form for any X grades
 - Apply for graduation and pay the fee
 - If the student cannot graduate in the semester in which they return, they must enroll in 6 graduate credits in the next semester
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements

Subplan 1: International Focus Track

Subplan 2: Peace Corps Track

Master of Arts - English

Plan Description

The M.A. program involves course work at the graduate level in English and American literature or in language studies with a thesis optional, but recommended, for the literature emphasis and required for the language studies emphasis. Work toward this degree is designed to supplement and complete the student's undergraduate study in the field of English and to familiarize the student with professional standards, methods of research, and modes of thought in the discipline. Possession of this degree normally leads to advancement in the teaching profession for the secondary school or community college teacher, to careers in writing, publishing and editing, or to further study in English at the doctoral level.

Learning Outcomes

www.unlv.edu/degree/ma-english

Plan Admission Requirements

- Applicants must meet the minimum requirements of the Graduate College, including holding an undergraduate GPA of 2.75 or better from a regionally accredited college or university. In addition, the English department requires a minimum of 21 credits in English courses above the Freshman Composition level.
- Applicants must submit the following:
 - Two official sets of transcripts from all universities attended; one set goes to the Graduate College and one directly to the English Department
 - A minimum of ten pages of critical writing
 - Official scores on the Verbal portion of the General Test and the Literature in English Subject Test of the Graduate Record Examination
- Applicants must demonstrate competency in the reading of one foreign language. This requirement may be satisfied by earning a B or better in FOL 198 or by passing a translation examination (with aid of a dictionary if desired) administered and evaluated by the English Department.
- Students who did not take History of the English Language (ENG 414A) as undergraduates must add it to their master's program either as 414A or 614A. If it is taken as 414A, it will not count toward the 30 required hours. If it is taken as 614A, it may be used toward the 30 hours with the permission of the student's advisor.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Literature Emphasis Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 3
 - ENG 700 - Bibliography and Methods
- Literature Courses in Periods before 1800 – Credits: 9
 - Complete three of the following courses:
 - ENG 632A - Chaucer
 - ENG 634A - Shakespeare: Tragedies
 - ENG 634B - Shakespeare: Comedies and Histories
 - ENG 635A - Milton
 - ENG 640A - Medieval English Literature
 - ENG 640B - Gender and Early Literature
 - ENG 641A - The Renaissance
 - ENG 641B - Gender and Renaissance Literature
 - ENG 642A - The Seventeenth Century
 - ENG 643A - Restoration and Augustan Literature
 - ENG 643C - Later Eighteenth Century
 - ENG 652A - American Literature, 1620-1800
 - ENG 660A - Heroic Epic

- ENG 663A - Classical Drama in Translation
 - ENG 670A - The British Novel I
 - ENG 673A - The Early American Novel
 - ENG 695A - Early African-American Literature
 - ENG 665B - Restoration and Eighteenth-Century Drama
 - ENG 720 - Studies in Medieval Literature
 - ENG 722 - Studies in Chaucer
 - ENG 723 - Studies in the Renaissance
 - ENG 724 - Studies in Early Seventeenth-Century Literature
 - ENG 725 - Studies in Shakespeare
 - ENG 728 - Studies in Milton
 - ENG 731 - Studies in Restoration and Eighteenth-Century British Literature
- Literature Courses in Periods after 1800 – Credits: 9
 - Complete three of the following courses:
 - ENG 645B - Victorian Poetry
 - ENG 645C - Nineteenth-Century Prose Writers
 - ENG 646A - Modern British Literature
 - ENG 652B - American Literature, 1800-1865
 - ENG 653A - American Literature, 1865-1918
 - ENG 653B - American Literature, 1918-Present
 - ENG 654B - Gender and Modern American Literature
 - ENG 662C - Modern American Poetry
 - ENG 666A - Nineteenth-Century Drama
 - ENG 667A - Modern British Drama
 - ENG 667B - Modern American Drama
 - ENG 670B - The British Novel II
 - ENG 671A - Modern English Novel
 - ENG 671B - Contemporary English Novel
 - ENG 673B - The Modern American Novel
 - ENG 673C - The Contemporary American Novel
 - ENG 695B - Modern African-American Literature
 - ENG 734 - Studies in English Romanticism
 - ENG 735 - Studies in Victorian Literature
 - ENG 738 - Studies in Modern British Literature
 - ENG 742 - Studies in Early American Literature
 - ENG 743 - Studies in Later American Literature
 - ENG 744 - Studies in Modern American Literature
 - ENG 787 - Studies in Modern Comparative Literature
- Elective Courses – Credits: 3-9
 - Students completing the Thesis must complete a minimum of 3 credits of elective coursework, while students who choose not to complete a thesis must complete 9 credits of elective coursework. Elective credits may be in any period or area.
 - ENG 632A - Chaucer
 - ENG 634A - Shakespeare: Tragedies
 - ENG 634B - Shakespeare: Comedies and Histories
 - ENG 635A - Milton
 - ENG 640A - Medieval English Literature
 - ENG 640B - Gender and Early Literature

- ENG 641A - The Renaissance
- ENG 641B - Gender and Renaissance Literature
- ENG 642A - The Seventeenth Century
- ENG 643A - Restoration and Augustan Literature
- ENG 643C - Later Eighteenth Century
- ENG 645B - Victorian Poetry
- ENG 645C - Nineteenth-Century Prose Writers
- ENG 646A - Modern British Literature
- ENG 652A - American Literature, 1620-1800
- ENG 652B - American Literature, 1800-1865
- ENG 653A - American Literature, 1865-1918
- ENG 653B - American Literature, 1918-Present
- ENG 654B - Gender and Modern American Literature
- ENG 660A - Heroic Epic
- ENG 662C - Modern American Poetry
- ENG 663A - Classical Drama in Translation
- ENG 665B - Restoration and Eighteenth-Century Drama
- ENG 666A - Nineteenth-Century Drama
- ENG 667A - Modern British Drama
- ENG 667B - Modern American Drama
- ENG 670A - The British Novel I
- ENG 670B - The British Novel II
- ENG 671A - Modern English Novel
- ENG 671B - Contemporary English Novel
- ENG 673A - The Early American Novel
- ENG 673B - The Modern American Novel
- ENG 673C - The Contemporary American Novel
- ENG 695A - Early African-American Literature
- ENG 695B - Modern African-American Literature
- ENG 720 - Studies in Medieval Literature
- ENG 722 - Studies in Chaucer
- ENG 723 - Studies in the Renaissance
- ENG 724 - Studies in Early Seventeenth-Century Literature
- ENG 725 - Studies in Shakespeare
- ENG 728 - Studies in Milton
- ENG 731 - Studies in Restoration and Eighteenth-Century British Literature
- ENG 734 - Studies in English Romanticism
- ENG 735 - Studies in Victorian Literature
- ENG 738 - Studies in Modern British Literature
- ENG 742 - Studies in Early American Literature
- ENG 743 - Studies in Later American Literature
- ENG 744 - Studies in Modern American Literature
- ENG 760 - Studies in Literary Genres
- ENG 775 - Studies in Literary Criticism
- ENG 795 - Seminar
- ENG 787 - Studies in Modern Comparative Literature

- Thesis – Credits: 6 (Optional)
 - ENG 797 - Thesis

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Language/Composition Theory Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 3
 - Select one of the following courses:
 - ENG 700 - Bibliography and Methods
 - ENG 704 - Theory and Practice of Textual Editing
- Language/Composition Courses – Credits: 12
 - Select four of the following courses:
 - ENG 611A - Advanced Linguistics
 - ENG 611B - Principles of Modern Grammar
 - ENG 612C - Seminar in Language and Cognition
 - ENG 614B - Development of American English
 - ENG 701 - Contemporary Composition Theory
 - ENG 702 - History of Rhetoric and Composition
 - ENG 711 - Studies in Language
 - ENG 712 - Studies in Modern Grammar
 - ENG 719 - Area Linguistics
 - ENG 792 - Directed Studies in Language
- Literature Courses in any Period – Credits: 9
 - Complete 9 credits from the following courses:
 - ENG 632A - Chaucer
 - ENG 634A - Shakespeare: Tragedies
 - ENG 634B - Shakespeare: Comedies and Histories
 - ENG 635A - Milton
 - ENG 640A - Medieval English Literature
 - ENG 640B - Gender and Early Literature
 - ENG 641A - The Renaissance
 - ENG 641B - Gender and Renaissance Literature
 - ENG 642A - The Seventeenth Century
 - ENG 643A - Restoration and Augustan Literature
 - ENG 643C - Later Eighteenth Century
 - ENG 645B - Victorian Poetry
 - ENG 645C - Nineteenth-Century Prose Writers
 - ENG 646A - Modern British Literature

- ENG 652A - American Literature, 1620-1800
- ENG 652B - American Literature, 1800-1865
- ENG 653A - American Literature, 1865-1918
- ENG 653B - American Literature, 1918-Present
- ENG 654B - Gender and Modern American Literature
- ENG 660A - Heroic Epic
- ENG 662C - Modern American Poetry
- ENG 663A - Classical Drama in Translation
- ENG 665B - Restoration and Eighteenth-Century Drama
- ENG 666A - Nineteenth-Century Drama
- ENG 667A - Modern British Drama
- ENG 667B - Modern American Drama
- ENG 670A - The British Novel I
- ENG 670B - The British Novel II
- ENG 671A - Modern English Novel
- ENG 671B - Contemporary English Novel
- ENG 673A - The Early American Novel
- ENG 673B - The Modern American Novel
- ENG 673C - The Contemporary American Novel
- ENG 695A - Early African-American Literature
- ENG 695B - Modern African-American Literature
- ENG 720 - Studies in Medieval Literature
- ENG 722 - Studies in Chaucer
- ENG 723 - Studies in the Renaissance
- ENG 724 - Studies in Early Seventeenth-Century Literature
- ENG 725 - Studies in Shakespeare
- ENG 728 - Studies in Milton
- ENG 731 - Studies in Restoration and Eighteenth-Century British Literature
- ENG 734 - Studies in English Romanticism
- ENG 735 - Studies in Victorian Literature
- ENG 738 - Studies in Modern British Literature
- ENG 742 - Studies in Early American Literature
- ENG 743 - Studies in Later American Literature
- ENG 744 - Studies in Modern American Literature
- ENG 760 - Studies in Literary Genres
- ENG 775 - Studies in Literary Criticism
- ENG 795 - Seminar
- ENG 787 - Studies in Modern Comparative Literature
- Thesis – Credits: 6
 - ENG 797 – Thesis

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Degree Requirements

- No more than a total of 6 credit hours may be selected from 600-level courses.
- A comprehensive examination is required of each M.A. student, who will choose either a three-hour written exam or a sixty- to ninety-minute oral exam and prepare a reading list for the examination with the supervision and approval of the advisor and the examination committee. The reading list will comprise at least twenty authors, and the selections should recognize diversity of genre, gender, culture, and period. At least seventeen of those authors should be chosen from the master reading list on the English Department website. Three other authors not on the master list may be added. If taken during the semester of graduation, the exam must be scheduled no later than three weeks before the end of classes. The Graduate College designates deadline dates for each semester. See graduatecollege.unlv.edu.
- A master's thesis, which carries six credits, is optional (although recommended) for the literary study emphasis. It is normally written during two consecutive semesters and must conform to the guidelines set forth by the Graduate College in this catalog and in its Thesis and Dissertation Manual.
 - In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
 - The M.A. thesis should be an original contribution to knowledge about a suitable literary or linguistic subject and comprise about seventy-five pages. Thesis projects must be designed, developed, and written in close consultation with an appropriate thesis advisor and with the student's thesis committee.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully pass the comprehensive exam and submit the Final Exam Results by the posted deadline.
- If a thesis is completed, the student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- If a thesis is completed, the student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Doctor of Philosophy - English

Plan Description

The Ph.D. program is a highly specialized program designed to train students for careers in teaching at the college or university level and to develop in them a capacity for research, original thought, and writing that ordinarily accompanies such careers. The doctoral program is focused on literary study although a concentration of six credits may be earned in composition studies. At the time of admission the student chooses three areas in which to specialize: (1) a chronological period, (2) a literary genre, and (3) either an additional chronological period, a major author chosen from outside the selected chronological period and approved by the graduate committee, or a special topic approved by the graduate committee. All subsequent course work is devoted to developing a high degree of professional competence and knowledge in the three chosen areas of specialization. Such knowledge is tested in a qualifying examination and is also the basis upon which the student writes a doctoral dissertation.

The department, in conjunction with the International Institute of Modern Letters, also offers a program leading to the degree of Doctor of Philosophy – English with a Creative Dissertation. This program centers on the study of English and American literature and is designed to train students for careers in the teaching of English at the college or university level, as well as for careers in writing, editing, and publishing. The program of study includes course work in English and Creative Writing, a Qualifying Examination, and a Creative Dissertation. Differences in the requirements for admission and degree requirements between the two Ph.D. programs are indicated below. Additional details for the admission requirements and the degree requirements for each degree can be found on the English Department website.

Learning Outcomes

www.unlv.edu/degree/phd-english

Plan Admission Requirements

- All domestic and international applicants must review and follow the Graduate College Admission & Registration Requirements.
- Applicants must possess an M.A. in English from a regionally accredited institution with at least 21 credits in English and American literature on the graduate transcript and a graduate GPA of 3.50 or better.
 - Students wishing to enter the Creative Writing Track may possess either an M.A. in English as stated above or an M.F.A. in Creative Writing from an accredited institution.
- Applicants must submit the following to the English department:
 - Two sets of official transcripts from all universities attended; one set goes to the Graduate College and one directly to the English department.
 - Official scores on the Verbal portion of the General Test and the Literature in English Subject Test of the Graduate Record Examination.
- Creative Dissertation applicants must submit GRE scores in the 75th percentile or better on the general verbal test and in the 50th percentile or better on the advanced literature subject test.
 - Three letters of recommendation specifically for Ph.D. study from professors of English.
 - Two or three writing samples totaling at least 30 pages of literary criticism, history or analysis and offering substantial evidence of the student's ability to do work at the doctoral level.
- Students wishing to enter the Creative Writing Track must submit a 50-page (or longer) writing sample of the candidate's creative work, to be read and judged by the Creative Writing faculty.
 - A letter of application to the Graduate Committee stating the applicant's reasons for wanting to enter the program and the intended areas of specialization.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: English Literature Track

Total Credits Required: 42

Course Requirements

- Required Course – Credits: 3
 - ENG 703 - Survey of Literary Criticism and Theory
- Elective Courses – Credits: 27

- Complete 27 credits in graduate-level advisor-approved English courses.
- Dissertation – Credits: 12 credits
 - ENG 799 – Dissertation

Degree Requirements

- Of the required 30 course credits, all credits must be taken at the 700-level. Six of these may be earned with a concentration in Composition Studies.
- Courses completed at a grade below a B will not count towards the degree, and any student receiving more than one grade below a B will be separated from the graduate program.
- Only 6 credits of Independent Study can be applied to the program.
- Demonstration of reading knowledge of two foreign languages or proficiency in one. Proficiency in a language is demonstrated by completion of two upper-division or graduate courses in the literature of that language with a B or better; or by passing a translation test administered and evaluated by English Department faculty fluent in that language.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Qualifying Examinations: Superior performance is required on qualifying examinations in the student's three areas of specialization. These examinations consist of three four-hour written exams: one in the historical period of specialization, one in the genre of specialization, and a third in an additional chronological period, a major author approved by the graduate committee, or a special topic approved by the graduate committee, and a two-hour oral examination. For more information visit the English department's website here: [English Literature PhD Requirements](#).
- After passing the Qualifying Examination, and normally in the third or fourth year of the program, the student will begin a doctoral dissertation under the direction of an Advisor and a Thesis Committee approved by the Graduate Director of the Department. The Prospectus for this Dissertation must be approved, and the Dissertation written, under the close supervision of the Advisor and the Thesis Committee. The doctoral dissertation involving original thought and superior scholarship on a topic or author in English or American literature, or world literature in English.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Creative Dissertation Track

Total Credits Required: 42

Course Requirements

- Required Course – Credits: 6
 - Complete 6 credits in one of the following:
 - ENG 705 - Creative Writing
 - ENG 796 - Independent Study
- Elective Courses – Credits: 24
 - Complete 24 credits in non-creative writing English courses.

- Credits may include ENG 729 - Forms of Fiction or Poetry , to be taken once.
 - Credits may not include ENG 791 - College Teaching in Language and Literature
- Dissertation – Credits: 12
 - ENG 799 – Dissertation

Degree Requirements

- Of the required 30 course credits, all credits must be taken at the 700-level.
- Courses completed at a grade below a B will not count towards the degree, and any student receiving more than one grade below a B will be separated from the graduate program.
- Only 6 credits of Independent Study can be applied to the program.
- Demonstration of reading knowledge of two foreign languages or proficiency in one. Proficiency in a language is demonstrated by completion of two upper-division or graduate courses in the literature of that language with a B or better; or by passing a translation test administered and evaluated by English Department faculty fluent in that language.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

The doctoral dissertation involving original thought and superior scholarship on a topic or author in English or American literature, or world literature in English.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

English Courses

ENG 601A - Advanced Composition**Credits 3**

Explores writing and literacy. Students will develop greater awareness of themselves as strategic writers by studying and creating texts for different audiences, purposes and contexts in a variety of styles and genres.

ENG 602A - Advanced Creative Writing II**Credits 3**

Advanced workshop designed to hone students' skills in writing fiction or poetry.

ENG 605B - Research and Editing

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 605C - Writing For Publication

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 607B - Fundamentals of Technical Writing**Credits 3**

Examines the rhetorical principles and composing practices necessary for writing effective technical documents and the role of writing in technical and industrial settings.

ENG 608A - Tutorial Techniques in English

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 609A - Visual Rhetoric

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 609B - Rhetoric and the Environment

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 611A - Advanced Linguistics

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 611B - Principles of Modern Grammar**Credits 3**

Surveys the structure of contemporary English grammar. Examines the workings of the English language from a linguistic perspective, concentrating primarily on sentence structure.

ENG 612C - Seminar in Language and Cognition

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 614A - History of the English Language

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 614B - Development of American English**Credits 3**

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly** ENG 614. **Same as** ENG 414B. **Notes** Credits at the graduate level normally requires additional work.

ENG 614C - Old English II

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 615B - Old English I**Credits 3**

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly** ENG 614B. **Same as** ENG 415B. **Notes** Credit at 600 level normally requires additional work.

ENG 616A - Special Problems in English

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 616C - Special Problems in English**Credits 1-6**

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 622A - Topics in Literary Theory**Credits 3**

Selected topics and issues in literary and cultural theory. **Notes** May be repeated to a maximum of six credits.

ENG 625A - Themes of Literature

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 626A - Religion and Literature

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Prerequisites** Graduate standing

ENG 626B - Mythology

Study of mythologies, such as Greek, Roman, and Native American, in cultural context.

ENG 627B - Gender and Literature

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 629A - Early American Humor

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 629B - Modern American Humor

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 629C - Literature of the American West

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 630A - Major Figures in British Literature**Credits 3**

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 632A - Chaucer

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 634A - Shakespeare: Tragedies

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 634B - Shakespeare: Comedies and Histories

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 635A - Milton

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 636A - Major Figures in American Literature

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 640A - Medieval English Literature

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 640B - Gender and Early Literature

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 641A - The Renaissance**Credits 3**

Study of English literature of the sixteenth century, primarily Elizabethan.

ENG 641B - Gender and Renaissance Literature

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 642A - The Seventeenth Century**Credits 3**

Study of English literature from 1603 to 1660.

ENG 643A - Restoration and Augustan Literature**Credits 3**

Study of British literature from 1660 to 1740. Topics may include the genres of neoclassical drama and mock-epic, satire from Dryden through the Scriblerians, the periodical essay, and the birth of aesthetics.

ENG 643C - Later Eighteenth Century**Credits 3**

Study of eighteenth-century British literature after 1740. Topics may include the growth in female authorship, the Johnson circle, and cultural contexts such as feminism and nationalism.

ENG 644B - The Romantic Poets

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 645B - Victorian Poetry

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 645C - Nineteenth-Century Prose Writers

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 646A - Modern British Literature

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 646B - Gender and Modern British Literature

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 652A - American Literature, 1620-1800

Credits 3

Study of American writing through 1800.

ENG 652B - American Literature, 1800-1865

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 653A - American Literature, 1865-1918

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 653B - American Literature, 1918-Present

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 654B - Gender and Modern American Literature

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 660 - The American Short Story

Credits 3

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Formerly** ENG 674A. **Same as** ENG 460. **Notes** Credit at the 600-level requires additional work.

ENG 660A - Heroic Epic

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 661A - The Study of Poetry and Poetics

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 662A - Modern British Poetry

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 662C - Modern American Poetry

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 663A - Classical Drama in Translation

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 664A - English Drama to 1642**Credits 3**

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 665B - Restoration and Eighteenth-Century Drama**Credits 3**

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Same as** ENG 465B. **Notes** Credit at the 600-level requires additional work.

ENG 666A - Nineteenth-Century Drama**Credits 3**

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 667A - Modern British Drama

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 667B - Modern American Drama

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 670A - The British Novel I**Credits 3**

Study of the British novel from its origins to about 1800. Topics may include the rise of the novel from the materials of romance and realism, the formative decade of the 1740s, and the sub genres of Gothic and historical fiction.

ENG 670B - The British Novel II**Credits 3**

Study of the British novel from about 1800 to 1914. Topics may include the role of serialization and circulating library and sub genres such as the bildungsroman, the social-problem novel, and imperial Gothic.

ENG 671A - Modern English Novel

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 671B - Contemporary English Novel

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 673A - The Early American Novel

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 673B - The Modern American Novel

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 673C - The Contemporary American Novel

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 677A - Film and Literature**Credits 3**

Comparative study of the relations of prose, poetry, and drama to the structure and themes of the cinema, from Dickens to the present.

ENG 678C - Special Topics in Folklore

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the

Undergraduate Catalog under the corresponding 400 number.

ENG 684A - The Bible as Literature

Credits 3

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level requires additional work.

ENG 685A - Asian Literature

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 686A - Postcolonial Theory

Credits 3

Examines the significance of the Other in ex-colony. Reflects of colonialism, independence, subordination, hybridity, resistance, and ideology. Frantz Fanon, C.L.R. James, Edward Said, Homi Bhabha, Gayatri Spicak, Malcolm X, Stephen Greenblatt, among others, will be considered. **Same as** ENG 486A. **Notes** Work at the 600 level usually requires additional work. **Prerequisites** Any of the following: ENG 101 and ENG 102.

ENG 686B - Postcolonial Literature

Credits 3

Probes literature from the ex-colony: Africa, the Caribbean, Ireland, India, America, Canada, Australia. V.S. Naipaul, Derek Walcott, Wole Soyinka, Saman Rushdie, Jamaica Kincaid, Toni Morrison, Claude McKay, Maya Angelou, David Dabydeen, Chinua Achebe, among others, will be considered. **Same as** ENG 486B. **Notes** Courses at the 600 level normally require additional work. **Prerequisites** ENG 101 and ENG 102

ENG 691B - Environmental Literature

Credits 3

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Same as** ENG 491B. **Notes** Credit at the 600 level requires additional work.

ENG 694A - Native American Literature

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 695A - Early African-American Literature

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 695B - Modern African-American Literature

This undergraduate course, when taught by a member of the graduate faculty, may be used toward graduate degrees with the permission of advisor (maximum: six credits). A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

ENG 696B - Early Latino/a Literature

Credits 3

Examines prose and poetry by Latino and Latina writers from the colonial era through the end of the nineteenth century in the United States.

ENG 696C - Contemporary Latino/a Literature

Credits 3

Examines prose and poetry by Latino and Latina writers since 1900 in the United States.

ENG 700 - Bibliography and Methods

Credits 3

Bibliography, reference tools, introduction to scholarly methods, modern research techniques in language and literature, preparation and presentation of documented investigation. **Notes** To be taken in the student's first year of graduate study.

ENG 701 - Contemporary Composition Theory

Credits 3

Theories that underline contemporary composition as a discipline and a profession, including the practical implications of literacy as it relates to college writing instruction, administration, and practice. **Prerequisites** Graduate standing.

ENG 702 - History of Rhetoric and Composition

Credits 3

Survey of ancient, medieval, Renaissance, enlightenment, and twentieth-century texts that establish terminologies and raise issues still vital to the theory and practice of composition and language study today. **Prerequisites** Graduate standing.

ENG 703 - Survey of Literary Criticism and Theory

Credits 3

Surveys criticism and theory from Plato to contemporary trends. Provides historical perspective on the toolbox of theoretical approaches to literature vital in literary studies today. Emphasis may vary from year to year. **Notes** Required for Ph.D. Students. **Prerequisites** Graduate standing.

ENG 704 - Theory and Practice of Textual Editing

Credits 3

Examination of theories of scholarly editing. Topics include: variant and critical editions, textual recension, rationale for copy text, emendation, annotation, and copy editing. Students work on editions in progress, as well as journals sponsored by the department.

ENG 705 - Creative Writing

Credits 3

Advanced study and practice of creative methods. **Notes** May be repeated to a maximum of twelve credits. **Prerequisites** Admission to the M.F.A. program or consent of instructor.

ENG 706 - Gender and Interpretation

Credits 3

Study of gender as a category of analysis within the discipline of English studies.

ENG 711 - Studies in Language

Credits 3

Introduction to advanced study of language based on sequence of problems involving such procedures as the history of language, etymology, structural linguistics, and linguistic geography. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Consent of instructor.

ENG 712 - Studies in Modern Grammar**Credits 3**

Examination of important current approaches to grammatical descriptions, especially of English. **Notes** May be repeated to a maximum of six credits.

ENG 714 - Studies in Rhetoric and Composition**Credits 3**

Intensive study of selected topics in composition and rhetorical theory. Topics and reading lists will vary from semester to semester. **Notes** May be repeated to a maximum of six credits.

ENG 715 - Theory of Translation**Credits 3**

Readings in the theory of translation, as well as textual analysis of existing translations to and from several different languages. **Notes** Taught in English. **Prerequisites** Advanced knowledge of one foreign language, consent of instructor.

ENG 716 - Workshop in Translation**Credits 3**

Explores problems inherent in the translation of foreign texts; completion of individual and group projects, with assistance of instructor. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Advanced knowledge of one foreign language, consent of instructor.

ENG 719 - Area Linguistics**Credits 3**

Historical overview of area linguistics, with emphasis on principles of dialectology in the English speaking world and the principles of linguistic atlases in the United States and Canada.

ENG 720 - Studies in Medieval Literature**Credits 3**

Intense study of selected topics in medieval literature. **Notes** May be repeated to a maximum of six credits.

ENG 722 - Studies in Chaucer**Credits 3**

Study of major works of Geoffrey Chaucer in relation to their medieval literary and cultural context. **Prerequisites** Graduate standing or consent of instructor.

ENG 723 - Studies in the Renaissance**Credits 3**

Intensive study of selected topics in sixteenth-century literature. **Notes** May be repeated to a maximum of six credits.

ENG 724 - Studies in Early Seventeenth-Century Literature**Credits 3**

Intensive study of selected literary topics in early seventeenth-century literature. **Notes** May be repeated to a

maximum of six credits.

ENG 725 - Studies in Shakespeare

Credits 3

Intensive study of selected works of Shakespeare, with emphasis on genre, theme, or chronological grouping. **Notes** May be repeated to a maximum of nine credits.

ENG 728 - Studies in Milton

Credits 3

Study of the major works of John Milton in relation to their Renaissance literary and cultural context. **Prerequisites** Graduate standing or consent of instructor.

ENG 729 - Forms of Fiction or Poetry

Credits 3

Close reading and literary analysis. Topics and reading lists vary from semester to semester. **Notes** May be repeated to a maximum of nine credits.

ENG 731 - Studies in Restoration and Eighteenth-Century British Literature

Credits 3

Intensive study of selected literary topics in Restoration and eighteenth-century British literature. **Notes** May be repeated to a maximum of six credits.

ENG 734 - Studies in English Romanticism

Credits 3

Intensive study of selected literary topics in the English romantic period.

ENG 735 - Studies in Victorian Literature

Credits 3

Intensive examination of selected topics in Victorian literature. **Notes** May be repeated to a maximum of six credits.

ENG 738 - Studies in Modern British Literature

Credits 3

Modern literature studies with emphasis upon movements which center in Great Britain. **Notes** May be repeated to a maximum of six credits.

ENG 739 - M.F.A. Translation

Credits 3

Students translate a short story, group of poems, or other work by a foreign writer. **Notes** Open only to students in the M.F.A. Program who have passed the qualifying oral examination. FOL 717 may substitute for ENG 739.

Prerequisites Successful completion of the oral qualifying exam.

ENG 742 - Studies in Early American Literature

Credits 3

Intensive study of selected subjects in colonial or romantic American literature, such as the work of a few important literary figures, a group of related writers, or a literary movement. **Notes** May be repeated to a maximum of six credits.

ENG 743 - Studies in Later American Literature

Credits 3

Intensive study of selected topics in late nineteenth- and early twentieth-century literature. **Notes** May be repeated to a maximum of six credits.

ENG 744 - Studies in Modern American Literature

Credits 3

Intensive study of selected topics in contemporary literature. **Notes** May be repeated to a maximum of six credits.

ENG 749 - M.F.A. Critical Essay

Credits 3

M.F.A. student's individual investigation of an American or foreign novelist or poet using various critical methodologies. **Prerequisites** Acceptance to the M.F.A. Program.

ENG 760 - Studies in Literary Genres

Credits 3

Intensive study of a literary genre, with particular attention to its history and development. **Notes** May be repeated to a maximum of nine credits.

ENG 775 - Studies in Literary Criticism

Credits 3

Intensive study of selected major critical theories or a selected problem in the philosophy of criticism. **Notes** May be repeated to a maximum of six credits.

ENG 787 - Studies in Modern Comparative Literature

Credits 3

Modern literature studies with the emphasis upon international movements. **Notes** May be repeated to a maximum of six credits.

ENG 790 - M.F.A. Thesis

Credits 3-12

Open only to students in the M.F.A. program who have passed the qualifying oral examination. Students write a book-length manuscript of fiction or poetry. **Notes** May be repeated but only a maximum of 12 credits may be applied to the student's degree program. **Grading** S/F grading only. **Prerequisites** Successful completion of the oral qualifying exam.

ENG 791 - College Teaching in Language and Literature

Credits 3

Theory and practice in the teaching of English in college, particularly the first-year course. **Notes** Required of all graduate assistants.

ENG 792 - Directed Studies in Language

Credits 3

Individual investigation of a language problem in Old, Middle, or Modern English including contributions of other languages using the various methodologies of descriptive linguistics. **Notes** May be repeated to a maximum of nine credits. **Prerequisites** Consent of instructor.

ENG 794 - Independent Study - International Focus

Credits 3-6

Studies foreign cultures and languages in a non-English speaking setting. M.F.A. requirement which may be taken in lieu of registration in a foreign university. **Notes** May be repeated to a maximum of six credits. **Prerequisites**

Acceptance to the M.F.A. Program.

ENG 795 - Seminar

Credits 3

Topics vary from semester to semester. Notes May be repeated to a maximum of nine credits.

ENG 796 - Independent Study

Credits 1-3

Open to students only upon approval of a written prospectus of the work to be done. Notes Normally limited to three credits on the M.A. program of study.

ENG 797 - Thesis

Credits 3-6

Notes May be repeated but only six credits will be applied toward the student's program. Grading S/F grading only.

ENG 798 - Doctoral Research

Credits 1-3

Independent study for graduate students in the Ph.D. program upon approval by the dissertation advisor of a written prospectus of the work to be done. Notes Normally limited to six credits on the doctoral program of study.

Prerequisites Admission to Ph.D. program and consent of graduate director.

ENG 799 - Dissertation

Credits 3-9

Open only to Ph.D. students who have passed the qualifying examination. **Notes** May be repeated but only a maximum of 18 credits maybe applied towards degree. **Prerequisites** Consent of graduate director.

History

The graduate programs in History are designed to achieve a balance between scholarship and teaching. Advanced study in the areas of North America, Europe, Latin America, Asia, and in Public History has prepared many of our graduates for teaching positions in area schools and community colleges. Our course offerings, which train students in research, writing, editing, and critical analysis, have qualified many of our graduates for admission to doctoral programs, law schools, and jobs in historic preservation, the National Park Service, historical societies, museums, and international business firms.

David Tanenhaus, Ph.D., Chair
Elizabeth White Nelson, Ph.D., Graduate Coordinator

Chair

Tanenhaus, David - *Full Graduate Faculty*
Professor; B.A., Grinnell College; M.A., Ph.D., University of Chicago. *Rebel since 1997.*

Graduate Coordinator

Nelson, Elizabeth White - *Full Graduate Faculty*
Associate Professor; A.B., Bryn Mawr College; M.A., Ph.D., Yale University. *Rebel since 1996.*

Graduate Faculty

Bauer, William - *Full Graduate Faculty*
Associate Professor; B.A., University of Notre Dame; M.A., Ph.D., University of Oklahoma. *Rebel since 2009.*

Bell, Andrew J. E. - *Full Graduate Faculty*
Associate Professor; B.A., Oxford University; Ph.D., Stanford University. *Rebel since 1994.*

Brown, Gregory - *Full Graduate Faculty*
Professor; B.A., University of Pennsylvania; M.A., Ph.D., Columbia University. *Rebel since 1998.*

Casas, Maria Raquel - *Full Graduate Faculty*
Associate Professor; B.A., California State University at Fresno; M.A., Ph.D., Yale University. *Rebel since 1997.*

Chung, Sue Fawn - *Full Graduate Faculty*
Professor; B.A., University of California, Los Angeles; M.A., Harvard University; Ph.D., University of California, Berkeley. *Rebel since 1975.*

Clemente, Deirdre --*Full Graduate Faculty*
Assistant Professor; B.A., Johns Hopkins University; M.A. Fashion Institute of Technology, State University of New York; Ph.D., Carnegie Mellon University. *Rebel since 2011.*

Coughtry, Jay A. - *Full Graduate Faculty*
Associate Professor; B.A., State University of New York, Geneseo; M.A., Ph.D., University of Wisconsin. *Rebel since 1982.*

Curry John, - *Full Graduate Faculty*

Associate Professor; B.A. Northwestern University; M.A., Ph.D., Ohio State University. *Rebel since 2006.*

Dawson, Kevin - *Full Graduate Faculty*

Assistant Professor; B.A. California State University, Fullerton; M.A. California State University, Fullerton; Ph.D. University of South Carolina. *Rebel since 2007.*

Fry, Joseph A. - *Full Graduate Faculty*

Distinguished Professor; B.A., Davis and Elkins College; M.A., Ph.D., University of Virginia. *Rebel since 1975.*

Gallo, Marcia M. - *Full Graduate Faculty*

Assistant Professor; B.A. Holy Names University; Ph.D., City University of New York Graduate School. *Rebel since 2009.*

Goodwin, Joanne - *Full Graduate Faculty*

Associate Professor; B.F.A., University of Washington; M.A., Sarah Lawrence College; Ph.D., University of Michigan. *Rebel since 1991.*

Hise, Greg - *Full Graduate Faculty*

Professor; B.A. University of California, Berkeley; Ph.D., University of California, Berkeley. *Rebel since 2008.*

Kirk, Andrew Glenn - *Full Graduate Faculty*

Professor; B.A., M.A., University of Colorado-Denver; Ph.D., University of New Mexico. *Rebel since 1999.*

Loader, Colin T. - *Full Graduate Faculty*

Professor; A.B., Bates College; M.A., University of Rhode Island; Ph.D., University of California, Los Angeles. *Rebel since 1986.*

Melton-Villanueva, Miriam - *Full Graduate Faculty*

Assistant Professor; B.A., M.A., C. Phil., Ph.D., University of California, Los Angeles. *Rebel since 2012.*

Moehring, Eugene P. - *Full Graduate Faculty*

Professor; B.A., M.A., Queens College; Ph.D., City University of New York. *Rebel since 1976.*

Nelson, Elizabeth White - *Full Graduate Faculty*

Associate Professor; A.B., Bryn Mawr College; M.A., Ph.D., Yale University. *Rebel since 1996.*

Robinson, Todd - *Full Graduate Faculty*

Assistant Professor; B.A., American University; M.M., Cambridge College; M.A., University of Massachusetts; Ph.D., University of Michigan. *Rebel since 2007.*

Tanenhaus, David - *Full Graduate Faculty*

Professor; B.A., Grinnell College; M.A., Ph.D., University of Chicago. *Rebel since 1997.*

Tusan, Michelle - *Full Graduate Faculty*

Associate Professor; B.A., University of California, Davis; M.A., Ph.D., University of California, Berkeley. *Rebel since 2001.*

Werth, Paul - *Full Graduate Faculty*

Professor; B.A., Knox College; Ph.D., University of Michigan. *Rebel since 1997.*

Whitney, Elspeth - *Full Graduate Faculty*

Associate Professor B.A., San Francisco State University; Ph.D., City University of New York. *Rebel since 1990.*

Professors Emeriti

Burns, Paul E.

Emeritus Professor; B.A., Miami University (Ohio); M.A., Certificate in Russian Studies, Ph.D., Indiana University. *UNLV Emeritus 1963-1995.*

Davenport, Robert W.

Emeritus Associate Professor; B.A., Pomona College; M.A., University of California, Berkeley; M.S., Ph.D., University of California. Los Angeles. *UNLV Emeritus 1964-1998.*

Mattson, Vernon E.

Emeritus Associate Professor; B.A., Tennessee Temple College; M.A., North Texas State University; Ph.D., University of Kansas. *UNLV Emeritus 1969.*

Wright, Thomas C.

Emeritus Distinguished Professor; B.A., Pomona College; M.A., Ph.D., University of California, Berkeley. *UNLV Emeritus 1972.*

History Plans

Master of Arts - History

Plan Description

The Department of History offers a Master of Arts degree with specializations in the following areas: United States, Europe, Asia, Latin America, and Public History (minor). The program is designed to broaden and deepen the student's understanding of the heritage of human experience. It also sharpens scholarly skills and provides for some specialization in specific fields or periods of history.

Learning Outcomes: Non-Thesis

www.unlv.edu/degree/ma-nonthesis-history

Learning Outcomes: Thesis

www.unlv.edu/degree/ma-thesis-history

Plan Admission Requirements

Students must meet the following requirements for admission to graduate standing.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

An overall undergraduate grade point average of at least 3.00.

A grade point average of at least 3.30 in history courses.

Recommendations from two former instructors addressing the applicant's preparedness for graduate work in history.

A minimum of 18 credits in history.

Submission of a writing sample, preferably a research paper, representative of undergraduate work.

Submission of a statement of purpose in which the applicant describes historical areas and approaches of particular interest, background and training for advanced work in history, and academic and professional goals.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: United States History Track

Total Credits Required: 35

Course Requirements

- Required Courses – Credits: 1
 - HIST 710 - The Professional Historian
- Historiography Courses – Credits: 3
 - Complete one of the following courses:
 - HIST 740A - Historiography (United States - Domestic)
 - HIST 740E - Historiography (United States - Diplomatic)
 - HIST 740F - Historiography (American West)
 - HIST 740G - Historiography (United States - Cultural/Intellectual)
- Colloquium Course – Credits: 3
 - Complete one of the following courses:
 - HIST 724 - Colloquium in American Cultural/Intellectual History
 - HIST 726 - Colloquium in American Western History
 - HIST 730 - Colloquium in American History
- Seminar Course – Credits: 4
 - Complete one of the following courses:
 - HIST 725 - Seminar in American Cultural/Intellectual History
 - HIST 727 - Research Seminar in American Western History
 - HIST 731 - Research Seminar in American History
- Elective Courses – Credits: 6-12
 - Students completing a thesis must complete 6 credits of History elective coursework, or other advisor-approved courses. Students who choose not to complete a thesis must complete 12 credits of History elective coursework, or other advisor-approved courses.
- Minor Field Courses – Credits: 12
 - In consultation with your advisor select a minor field of study and complete 3 credits of colloquium and 9 credits of electives to total 12 credits.
- *Asian History*
 - Minor Colloquium Course
 - HIST 734 - Colloquium in Modern Asian History
 - Minor Elective Courses
 - Complete 9 credits from the following list of courses:
 - HIST 649A - History of Japan to 1800
 - HIST 649B - History of Japan since 1800
 - HIST 649C - Topics in Japanese History
 - HIST 655A - History of China to 1800
 - HIST 655B - History of China since 1800
 - HIST 655C - Topics in Modern China
 - HIST 689 - Comparative History
 - HIST 698 - Advanced Historical Studies
 - HIST 735 - Research Seminar in Modern Asian History
 - HIST 740C - Historiography (Modern Asia)
 - HIST 760 - Advanced Studies in History

- *European History*
 - Minor Colloquium Course
 - Complete one of the following courses:
 - HIST 728 - Colloquium in European Cultural/Intellectual History
 - HIST 732 - Colloquium in European History
 - Minor Elective Courses
 - Complete 9 credits from the following list of courses:
 - HIST 619A - Britain to 1750
 - HIST 619B - Britain from 1750
 - HIST 620 - Topics in Central Europe: 1914 - Present
 - HIST 621 - History of Russia to 1825
 - HIST 622 - History of Russia Since 1825
 - HIST 623A - History of Germany to 1848
 - HIST 623B - History of Germany Since 1848
 - HIST 634A - European Urban History
 - HIST 635A - Early Modern Intellectual History
 - HIST 635B - Modern Intellectual History
 - HIST 635C - Topics in European Cultural and Intellectual History
 - HIST 645 - Cultural History of Modern Russia
 - HIST 646 - History of the Russian Film
 - HIST 647 - Revolutionary Russia 1905-1921
 - HIST 656 - Topics in Ancient History
 - HIST 657 - Ancient Greek Civilization
 - HIST 658 - Roman Civilization
 - HIST 659 - Medieval Civilization
 - HIST 659A - Topics in Medieval History
 - HIST 660A - The Renaissance
 - HIST 660B - The Reformation
 - HIST 661 - Europe in the 18th Century
 - HIST 661B - Early Modern Europe: 1550-1789
 - HIST 662 - The French Revolution and Napoleon
 - HIST 663 - Europe: 1815-1914
 - HIST 664 - Europe: 1914 to the Present
 - HIST 666 - European Diplomatic History, 1815-Present
 - HIST 668 - History of Science
 - HIST 679 - History of the British Empire
 - HIST 679A - West Africa and the Making of the Atlantic World
 - HIST 682 - Music History I
 - HIST 683 - Music History II
 - HIST 689 - Comparative History
 - HIST 691A - Women in the Ancient World
 - HIST 691B - Women in Medieval Culture and Society
 - HIST 692 - Woman's Role in European History: 1750-1970
 - HIST 692A - Women In Early Modern Europe
 - HIST 692B - Women In Modern European History
 - HIST 695 - Special Topics in Gender and History

- HIST 696 - Philosophy of History
 - HIST 728 - Colloquium in European Cultural/Intellectual History
 - HIST 729 - Research Seminar in European Cultural/Intellectual History
 - HIST 732 - Colloquium in European History
 - HIST 733 - Research Seminar in European History
 - HIST 760 - Advanced Studies in History
 - HIST 740H - Historiography (European - Cultural/Intellectual)
 - HIST 737 - Research Seminar in Modern Latin American History
 - HIST 760 - Advanced Studies in History
- *Latin American History*
 - Minor Colloquium Course
 - HIST 736 - Colloquium in Modern Latin American History
 - Minor Elective Courses
 - Complete 9 credits from the following list of courses:
 - HIST 670 - History of Mexico
 - HIST 671 - Revolution and Reaction in Contemporary Latin America
 - HIST 672 - History of Brazil
 - HIST 673 - History of the Andean Region
 - HIST 674 - Latin American Ethnic Studies
 - HIST 675 - Modern Latin American Film
 - HIST 676 - The Mexican Revolution
 - HIST 679A - West Africa and the Making of the Atlantic World
 - HIST 689 - Comparative History
 - HIST 695 - Special Topics in Gender and History
 - HIST 737 - Research Seminar in Modern Latin American History
 - HIST 740D - Historiography (European - Cultural/Intellectual)
 - HIST 760 - Advanced Studies in History
- *Public History*
 - Minor Colloquium Course
 - HIST 749 - Colloquium in Public History
 - Required Elective Course
 - HIST 750 - Methods for the Study of Public History
 - HIST 795 - Internship in Public History
 - Minor Elective Course
 - Complete one of the following courses:
 - HIST 751 - Museums and American Culture
 - HIST 752 - Modern Archives: Theory and Methodology
 - HIST 754 - Topics in Public History
 - HIST 760 - Advanced Studies in History
- *World History*
 - Minor Colloquium Course
 - HIST 738 - Colloquium in African and Middle Eastern History
 - Minor Elective Courses
 - Complete 9 credits from the following list of courses:
 - HIST 619A - Britain to 1750
 - HIST 619B - Britain from 1750
 - HIST 620 - Topics in Central Europe: 1914 - Present

- HIST 621 - History of Russia to 1825
- HIST 622 - History of Russia Since 1825
- HIST 623A - History of Germany to 1848
- HIST 623B - History of Germany Since 1848
- HIST 634A - European Urban History
- HIST 635A - Early Modern Intellectual History
- HIST 635B - Modern Intellectual History
- HIST 635C - Topics in European Cultural and Intellectual History
- HIST 645 - Cultural History of Modern Russia
- HIST 646 - History of the Russian Film
- HIST 647 - Revolutionary Russia 1905-1921
- HIST 649A - History of Japan to 1800
- HIST 649B - History of Japan since 1800
- HIST 649C - Topics in Japanese History
- HIST 655A - History of China to 1800
- HIST 655B - History of China since 1800
- HIST 655C - Topics in Modern China
- HIST 656 - Topics in Ancient History
- HIST 657 - Ancient Greek Civilization
- HIST 658 - Roman Civilization
- HIST 659 - Medieval Civilization
- HIST 659A - Topics in Medieval History
- HIST 660A - The Renaissance
- HIST 660B - The Reformation
- HIST 661 - Europe in the 18th Century
- HIST 661B - Early Modern Europe: 1550-1789
- HIST 662 - The French Revolution and Napoleon
- HIST 663 - Europe: 1815-1914
- HIST 664 - Europe: 1914 to the Present
- HIST 666 - European Diplomatic History, 1815-Present
- HIST 668 - History of Science
- HIST 670 - History of Mexico
- HIST 671 - Revolution and Reaction in Contemporary Latin America
- HIST 672 - History of Brazil
- HIST 673 - History of the Andean Region
- HIST 674 - Latin American Ethnic Studies
- HIST 675 - Modern Latin American Film
- HIST 676 - The Mexican Revolution
- HIST 678A - Islamic and Middle Eastern History to 1750
- HIST 678B - Islamic and Middle Eastern History since 1750
- HIST 679 - History of the British Empire
- HIST 679A - West Africa and the Making of the Atlantic World
- HIST 682 - Music History I
- HIST 683 - Music History II
- HIST 689 - Comparative History
- HIST 691A - Women in the Ancient World

- HIST 691B - Women in Medieval Culture and Society
- HIST 692 - Woman's Role in European History: 1750-1970
- HIST 692A - Women In Early Modern Europe
- HIST 692B - Women In Modern European History
- HIST 695 - Special Topics in Gender and History
- HIST 696 - Philosophy of History
- HIST 728 - Colloquium in European Cultural/Intellectual History
- HIST 729 - Research Seminar in European Cultural/Intellectual History
- HIST 734 - Colloquium in Modern Asian History
- HIST 735 - Research Seminar in Modern Asian History
- HIST 736 - Colloquium in Modern Latin American History
- HIST 737 - Research Seminar in Modern Latin American History
- HIST 739 - Research Seminar in African and Middle Eastern History
- HIST 740B - Historiography (Europe)
- HIST 740C - Historiography (Modern Asia)
- HIST 740H - Historiography (European Cultural/Intellectual)
- HIST 748 - History and Policy
- HIST 760 - Advanced Studies in History
- Thesis – Credits: 6 (Optional)
 - HIST 790 - Thesis

Degree Requirements

Students must complete a minimum of 35 credit hours of approved course work with a minimum GPA of 3.00. A minimum of 16 credit hours of course work must be at the 700-level (excluding Thesis).

In addition to the major area of study, the student must complete twelve credits in a minor area.

The student's advisor and graduate committee must approve all course work plans. A field outside of history may be presented as part of a student's program. The student is required to have a reading knowledge of a foreign language if that language is necessary to do research in the selected field.

In consultation with his/her advisor, a student will organize an advisory committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Students must successfully complete a written examination in their major area of study. This may be taken at the completion of twenty-two credits of course work, and must be taken no later than the completion of twenty-nine credits. Students prepare reading lists of books for each of their two fields within the major area in conjunction with the members of their advisory committee. The lists are based on scholarly works read in coursework, but substantial additional reading is required. Coursework alone does not constitute preparation for comprehensive exams.

No grade below a B- will be accepted for graduate credit, but will be averaged into the student's grade point average. A minimum GPA of 3.00 must be achieved in all graduate work attempted toward the degree.

Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

If a thesis is completed, the student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.

If a thesis is completed, the student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: European History Track

Total Credits Required: 35

Course Requirements

Required Courses – Credits: 1

HIST 710 - The Professional Historian

Historiography Courses – Credits: 3

Complete one of the following courses:

HIST 740B – Historiography (Europe) HIST 740C – Historiography (Modern Asia)

HIST 740D – Historiography (Modern Latin America)

HIST 740G - Historiography (United States - Cultural/Intellectual)

HIST 740H – Historiography (European - Cultural/Intellectual)

Colloquium Courses – Credits: 3

Complete one of the following courses:

HIST 728 - Colloquium in European Cultural/Intellectual History

HIST 732 - Colloquium in European History

HIST 734 - Colloquium in Modern Asian History

HIST 736 - Colloquium in Modern Latin American History

HIST 738 - Colloquium in African and Middle Eastern History

Seminar Course – Credits: 4

Complete one of the following courses:

HIST 729 - Research Seminar in European Cultural/Intellectual History

HIST 733 - Research Seminar in European History

HIST 735 - Research Seminar in Modern Asian History

HIST 737 - Research Seminar in Modern Latin American History

HIST 739 - Research Seminar in African and Middle Eastern History

Elective Courses – Credits: 6-12

Students completing a thesis must complete 6 credits of History elective coursework, or other advisor-approved courses. Students who choose not to complete a thesis must complete 12 credits of History elective coursework, or other advisor-approved courses.

Minor Field Courses – Credits: 12

In consultation with your advisor select a minor field of study and complete 3 credits of colloquium and 9 credits of electives to total 12 credits.

Asian History

Minor Colloquium Course

HIST 734 - Colloquium in Modern Asian History

Minor Elective Courses

Complete 9 credits from the following list of courses:

HIST 649A - History of Japan to 1800

HIST 649B - History of Japan since 1800

HIST 649C - Topics in Japanese History

HIST 655A - History of China to 1800

HIST 655B - History of China since 1800

HIST 655C - Topics in Modern China

HIST 689 - Comparative History

HIST 698 - Advanced Historical Studies
HIST 735 - Research Seminar in Modern Asian History
HIST 740C - Historiography (Modern Asia)
HIST 760 - Advanced Studies in History

Latin American History

Minor Colloquium Course

HIST 736 - Colloquium in Modern Latin American History

Minor Elective Courses

Complete 9 credits from the following list of courses:

HIST 670 - History of Mexico
HIST 671 - Revolution and Reaction in Contemporary Latin America
HIST 672 - History of Brazil
HIST 673 - History of the Andean Region
HIST 674 - Latin American Ethnic Studies
HIST 675 - Modern Latin American Film
HIST 676 - The Mexican Revolution
HIST 679A - West Africa and the Making of the Atlantic World
HIST 689 - Comparative History
HIST 695 - Special Topics in Gender and History
HIST 737 - Research Seminar in Modern Latin American History
HIST 740D - Historiography (United States - Diplomatic)
HIST 760 - Advanced Studies in History

Public History

Minor Colloquium Course

HIST 749 - Colloquium in Public History

Required Elective Course

HIST 750 - Methods for the Study of Public History
HIST 795 - Internship in Public History

Minor Elective Course

Complete one of the following courses:

HIST 751 - Museums and American Culture
HIST 752 - Modern Archives: Theory and Methodology
HIST 754 - Topics in Public History
HIST 760 - Advanced Studies in History

U.S. History

Minor Colloquium Course

Complete one of the following courses:

HIST 724 - Colloquium in American Cultural/Intellectual History
HIST 726 - Colloquium in American Western History
HIST 730 - Colloquium in American History

Minor Elective Courses

Complete 9 credits from the following list of courses:

HIST 601A - American Constitutional and Legal History I
HIST 601B - American Constitutional and Legal History II
HIST 604A - American Social History to 1860

HIST 604B - American Social History, 1860-Present
HIST 605 - History of the New South
HIST 606A - The American West to 1849
HIST 606B - The American West Since 1849
HIST 607A - United States Foreign Relations I
HIST 607B - United States Foreign Relations II

Thesis – Credits: 6 (Optional)

HIST 790 - Thesis

Degree Requirements

Students must complete a minimum of 35 credit hours of approved course work with a minimum GPA of 3.00.

A minimum of 16 credit hours of course work must be at the 700-level (excluding Thesis).

In addition to the major area of study, the student must complete twelve credits in a minor area.

The student's advisor and graduate committee must approve all course work plans. A field outside of history may be presented as part of a student's program. The student is required to have a reading knowledge of a foreign language if that language is necessary to do research in the selected field.

In consultation with his/her advisor, a student will organize an advisory committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Students must successfully complete a written examination in their major area of study. This may be taken at the completion of twenty-two credits of course work, and must be taken no later than the completion of twenty-nine credits. Students prepare reading lists of books for each of their two fields within the major area in conjunction with the members of their advisory committee. The lists are based on scholarly works read in coursework, but substantial additional reading is required. Coursework alone does not constitute preparation for comprehensive exams.

No grade below a B- will be accepted for graduate credit, but will be averaged into the student's grade point average. A minimum GPA of 3.00 must be achieved in all graduate work attempted toward the degree.

Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

If a thesis is completed, the student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.

If a thesis is completed, the student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 3 Requirements: Asian History Track

Total Credits Required: 35

Course Requirements

Required Courses – Credits: 1

HIST 710 - The Professional Historian

Historiography Courses – Credits: 3

Complete one of the following courses:

HIST 740C – Historiography (Modern Asia)

HIST 740E - Historiography (United States - Diplomatic)

Colloquium Courses – Credits: 3

Complete one of the following courses:

HIST 734 - Colloquium in Modern Asian History

Seminar Course – Credits: 4

Complete one of the following courses:

HIST 735 - Research Seminar in Modern Asian History

Elective Courses – Credits: 6-12

Students completing a thesis must complete 6 credits of History elective coursework, or other advisor-approved courses. Students who choose not to complete a thesis must complete 12 credits of History elective coursework, or other advisor-approved courses.

Minor Field Courses – Credits: 12

In consultation with your advisor select a minor field of study and complete 3 credits of colloquium and 9 credits of electives to total 12 credits.

European History

Minor Colloquium Course

Complete one of the following courses:

HIST 728 - Colloquium in European Cultural/Intellectual History

HIST 732 - Colloquium in European History

Minor Elective Courses

Complete 9 credits from the following list of courses:

HIST 619A - Britain to 1750

HIST 619B - Britain from 1750

HIST 620 - Topics in Central Europe: 1914 - Present

HIST 621 - History of Russia to 1825

HIST 622 - History of Russia Since 1825

HIST 623A - History of Germany to 1848

HIST 623B - History of Germany Since 1848

HIST 634A - European Urban History

HIST 635A - Early Modern Intellectual History

HIST 635B - Modern Intellectual History

HIST 635C - Topics in European Cultural and Intellectual History

Complete one of the following courses:

- CIS 640 - Topics Secondary Social Studies Education
- CIS 644 - Instruction Secondary Social Studies Education
- CIS 649 - Curriculum Development Secondary Social Studies Education
- CIG 692 - Curriculum Evaluation in Education

Educational Methods Technology Course – Credits: 3

Complete one of the following courses:

- CIT 602 - Technology Applications Secondary Curriculum
- CIT 607 - Technology as Educational Mindtools
- CIT 609 - Internet for Learning
- CIT 608 - Integrating Technology in Teaching and Learning

Capstone Course – Credits: 3

HIST 790A - Materials for Teaching History

Degree Requirements

This program is designed for certified teachers. It is not a certification program.

Students must complete a minimum of 35 credit hours of approved course work with a minimum GPA of 3.00.

A minimum of 16 credit hours of course work must be at the 700-level.

Coursework is divided into three required fields:

- Historical Content
- Curriculum Materials
- Educational Content

The student's advisor and graduate committee must approve all course work plans. A field outside of history may be presented as part of a student's program. The student is required to have a reading knowledge of a foreign language if that language is necessary to do research in the selected field.

Matriculants with extensive background in one of the sub-fields may, with the permission of their advisor in the College of Education, take an additional course from one of the two other sub-fields in place of a course in the field of existing expertise. Matriculants with an extensive background in two of the sub-fields may, with permission of the student's advisor in Education, take 3 credits related to their program of study in another field outside of Education.

Students must successfully complete a written examination in Teacher's Track: Historical Content. This may be taken at the completion of twenty-five credits, and must be taken no later than the completion of twenty-nine credits. The examination consists of two parts; each part contains two essay questions. Students write on one essay in each part of the exam (total of two essays, two hours for each; four hours total). Questions are written by the student's committee member/s in the Historical Content field, and each part of the exam is based on a list of books prepared in conjunction with the members of the advisory committee.

Students must successfully complete a written examination in Historical Content. This may be taken at the completion of 25 credits, and must be taken no later than the completion of 35 credits. The examination consists of two parts; each part contains two essay questions. Students write on one essay in each part of the exam (total of two essays, two hours for each; four hours total). Questions are written by the student's

committee member/s in the Historical Content field, and each part of the exam is based on a list of books prepared in conjunction with the members of the advisory committee.

No grade below a B- will be accepted for graduate credit, but will be averaged into the student's grade point average. A minimum GPA of 3.00 must be achieved in all graduate work attempted toward the degree.

Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

Successfully complete a Written Final Examination.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

Subplan 1: United States History Track

Subplan 2: European History Track

Subplan 3: Asian History Track

Subplan 4: Teaching History Track

Doctor of Philosophy - History

Plan Description

The degree of Doctor of Philosophy is the ultimate expression of the History Department's mission to generate and disseminate new knowledge of the past through research, reflection and publication. The doctoral program in history at UNLV has two tracks: United States History and European History. The degree aims at providing graduates with the capacity for original research and thought as demonstrated by the completion of a doctoral dissertation of substantial scope combining imagination and excellence.

Learning Outcomes: European Culture and Society

www.unlv.edu/degree/phd-history-european

Learning Outcomes: North American Culture and Society

www.unlv.edu/degree/phd-history-northamerican

Learning Outcomes: North American West

www.unlv.edu/degree/phd-history-northamericanwest

Plan Admission Requirements

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Applicants must have completed significant course work at the upper division or graduate level in History. Competitive scores on verbal, quantitative and analytical measures of the Graduate Record Examination.

Recommendations from three former instructors addressing the applicant's preparedness for doctoral level work in United States History or European History.

A statement of purpose in which the applicant describes specific interests in and approaches to either United States History or European History. The statement should also include a description of the applicant's background and training for advanced work in this field as well as academic and professional goals.

A writing sample in the form of a master's thesis or original research paper of substantial length and quality. If possible, the writing sample should engage either United States History or European History.

Post-Bachelor's Tracks

B.A. or equivalent from an accredited institution with a minimum GPA of 3.75.

Students must have written an Honors Thesis in History or a closely related field, which must be uploaded as part of the application.

Post-Master's Tracks

M.A. or equivalent from an accredited institution with a minimum GPA of 3.50.

Students who have not completed HIST 710 and HIST 740 as part of their master's degree will be required to complete them as a condition of their admission. Note: These courses will not count toward the 35 credits required for the Doctor of Philosophy – History.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Bachelor's - North American West Track

Total Credits Required: 69

Course Requirements

- Required Courses – Credits: 8
 - HIST 710 - The Professional Historian
 - HIST 726 - Colloquium in American Western History
 - HIST 727 - Research Seminar in American Western History
- Historiography Courses – Credits: 9
 - Complete three of the following courses:
 - HIST 740A - Historiography (United States - Domestic)
 - HIST 740E - Historiography (United States - Diplomatic)
 - HIST 740F - Historiography (American West)
 - HIST 740G - Historiography (United States - Cultural/Intellectual)
- Colloquium Course – Credits: 3
 - Complete one of the following courses (excluding any courses taken as Non-U.S. Colloquium):
 - HIST 724 - Colloquium in American Cultural/Intellectual History
 - HIST 726 - Colloquium in American Western History
 - HIST 730 - Colloquium in American History
 - HIST 736 - Colloquium in Modern Latin American History
- Seminar Course – Credits: 4
 - Complete one of the following courses:
 - HIST 725 - Seminar in American Cultural/Intellectual History
 - HIST 731 - Research Seminar in American History
- Minor Field Courses – Credits: 12
 - In consultation with your advisor select a minor field of study and complete 3 credits of colloquium and 9 credits of electives to total 12 credits.
- *Asian History*

- Minor Colloquium Course
 - HIST 734 - Colloquium in Modern Asian History
- Minor Elective Courses
 - Complete 9 credits from the following list of courses:
 - HIST 649A - History of Japan to 1800
 - HIST 649B - History of Japan since 1800
 - HIST 649C - Topics in Japanese History
 - HIST 655A - History of China to 1800
 - HIST 655B - History of China since 1800

- After successfully completing the requirements above, students are eligible to earn the Master of Arts – History.
- Additional Elective Courses – Credits: 18
 - Complete 18 credits of History elective coursework, or other advisor-approved courses.
- Dissertation – Credits: 12
 - HIST 791 - Dissertation

Degree Requirements

Students are expected to take courses with as many members of the faculty who specialize in the history of the North American West as possible. Students are encouraged to take more than the minimum number of courses.

A minimum of 45 credit hours of course work must be at the 700-level (excluding Dissertation).

Foreign Language Requirement. This requirement can be met in any of the following three ways, though the chosen option must be approved by the chair of the student's examination committee:

Demonstrated reading knowledge of two foreign languages.

Demonstrated reading knowledge of one foreign language and advanced reading knowledge of the same language, assessed through the writing of a substantial historiographical essay in English based on scholarly literature in that foreign language.

With the approval of the student's committee and the Graduate Coordinator, a student may demonstrate reading knowledge of one foreign language and the successful completion of SOC 604 - Statistical Methods in the Social Sciences.

The completion of the second seminar paper will constitute the master's culminating experience; it will be evaluated by a committee consisting of the instructor of record, the student's primary advisor and the graduate coordinator.

Please note that the MA degree will not be conferred automatically. Students must take the initiative to seek committee approval and apply for conferral through the Graduate College.

Doctoral students may also apply to transfer into the MA program at any point, but this will require a new application.

Students may take up to six credits of Comprehensive Exam Preparation, but these credits will not count towards the total credits required for the degree.

Written and Oral Qualifying Examinations. Students write a total of six out of twelve essay questions. Students prepare extensive reading lists of books and articles for each field of study in conjunction with the members of their advisory committee. The lists are based on scholarly works read in coursework, but substantial additional reading is required. Coursework alone does not constitute preparation for comprehensive exams. For purposes of examination, and through close consultation with the student's committee chair and members of the committee, coursework and supplemental reading will be divided into four examination areas, each of which is comprised of four questions from which the students write on two.

Major Field (General United States History): the written examination focuses on the first or second half of U.S. History (1600 to 1877, or 1850 to Present), but students are required to answer questions on the full sweep of U.S. History in the oral examination. A student writes on two of four questions.

Major Field (Topical): Requires students to master the literature in North American West. A student writes on two of four questions.

Theory and Methods: A student chooses Applied Theory, Comparative History, or Public History. A student writes on one of two questions.

Minor Field: A student chooses one of the following fields: Asian History, European History, Latin American History, Public History, or World History. A student may only be examined in Public History in one field. A student writes on one of two questions.

Students must pass the written portion of the qualifying exam before they are allowed to take the oral qualifying exam.

Students may take up to three credits of Dissertation Prospectus course, but these credits will not count towards the total credits required for the degree.

The prospectus colloquium must be held within three months of the successful completion of the comprehensive examinations. Students must formally present a prospectus for their proposed dissertation research to their advisory committee before taking dissertation credits. The prospectus must be accepted for the student to have ABD status in the History Department.

A dissertation of substantial length and quality containing original research and interpretation on a topic in the field of Northern American West.

Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for both the Master's (if applicable) and Doctoral portions of the program.

The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.

The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Post-Bachelor's - North American Culture and Society Track

Total Credits Required: 69

Course Requirements

Required Courses – Credits: 8

HIST 710 - The Professional Historian

HIST 726 - Colloquium in American Western History

HIST 725 - Seminar in American Cultural/Intellectual History

Historiography Courses – Credits: 9

Complete three of the following courses:

HIST 740A - Historiography (United States - Domestic)

HIST 740E - Historiography (United States - Diplomatic)

HIST 740G - Historiography (United States - Cultural/Intellectual)

HIST 740H - Historiography (European Cultural/Intellectual)

Colloquium Course – Credits: 3

Complete one of the following courses (excluding any courses taken as Non-European Colloquium):

HIST 724 - Colloquium in American Cultural/Intellectual History

HIST 726 - Colloquium in American Western History

HIST 730 - Colloquium in American History

HIST 736 - Colloquium in Modern Latin American History

Seminar Course – Credits: 4

Complete one of the following courses:

HIST 727 - Research Seminar in American Western History

HIST 731 - Research Seminar in American History

Minor Field Courses – Credits: 12

In consultation with your advisor select a minor field of study and complete 3 credits of colloquium and 9 credits of electives to total 12 credits.

Asian History

Minor Colloquium Course

HIST 734 - Colloquium in Modern Asian History

Minor Elective Courses

Complete 9 credits from the following list of courses:

HIST 649A - History of Japan to 1800

HIST 649B - History of Japan since 1800

HIST 649C - Topics in Japanese History

HIST 655A - History of China to 1800

HIST 655B - History of China since 1800

HIST 655C - Topics in Modern China

HIST 689 - Comparative History

HIST 698 - Advanced Historical Studies

HIST 735 - Research Seminar in Modern Asian History
HIST 740C - Historiography (Modern Asia)
HIST 761 - Doctoral Independent Study

European History

Minor Colloquium Course

Complete one of the following courses:

HIST 728 - Colloquium in European Cultural/Intellectual History
HIST 732 - Colloquium in European History

Minor Elective Courses

Complete 9 credits from the following list of courses:

HIST 619A - Britain to 1750
HIST 619B - Britain from 1750
HIST 620 - Topics in Central Europe: 1914 - Present
HIST 621 - History of Russia to 1825
HIST 622 - History of Russia Since 1825
HIST 623A - History of Germany to 1848
HIST 623B - History of Germany Since 1848
HIST 634A - European Urban History
HIST 635A - Early Modern Intellectual History
HIST 635B - Modern Intellectual History
HIST 635C - Topics in European Cultural and Intellectual History
HIST 645 - Cultural History of Modern Russia
HIST 646 - History of the Russian Film
HIST 647 - Revolutionary Russia 1905-1921

HIST 740C - Historiography (Modern Asia)
HIST 740H - Historiography (European Cultural/Intellectual)
HIST 748 - History and Policy
HIST 761 - Doctoral Independent Study

Elective Courses – Credits: 3

Complete 3 credits of History elective coursework, or other advisor-approved courses.

After successfully completing the requirements above, students are eligible to earn the Master of Arts – History.

Additional Elective Courses – Credits: 18

Complete 18 credits of History elective coursework, or other advisor-approved courses.

Dissertation – Credits: 12

HIST 791 - Dissertation

Degree Requirements

Students are expected to take courses with as many members of the faculty who specialize in the history of European Culture and Society as possible. Students are encouraged to take more than the minimum number of courses.

A minimum of 45 credit hours of course work must be at the 700-level (excluding Dissertation).

Foreign Language Requirement. This requirement can be met in any of the following three ways, though the chosen option must be approved by the chair of the student's examination committee:

Demonstrated reading knowledge of two foreign languages.

Demonstrated reading knowledge of one foreign language and advanced reading knowledge of the same language, assessed through the writing of a substantial historiographical essay in English based on scholarly literature in that foreign language.

With the approval of the student's committee and the Graduate Coordinator, a student may demonstrate reading knowledge of one foreign language and the successful completion of SOC 604 - Statistical Methods in the Social Sciences.

The completion of the second seminar paper will constitute the master's culminating experience; it will be evaluated by a committee consisting of the instructor of record, the student's primary advisor and the graduate coordinator.

Please note that the MA degree will not be conferred automatically. Students must take the initiative to seek committee approval and apply for conferral through the Graduate College.

Doctoral students may also apply to transfer into the MA program at any point, but this will require a new application.

Students may take up to six credits of Comprehensive Exam Preparation, but these credits will not count towards the total credits required for the degree.

Written and Oral Qualifying Examinations. Students write a total of eight out of sixteen essay questions. Students prepare extensive reading lists of books and articles for each field of study in conjunction with the members of their advisory committee. The lists are based on scholarly works read in coursework, but substantial additional reading is required. Coursework alone does not constitute preparation for comprehensive exams. For purposes of examination, and through close consultation with the student's committee chair and members of the committee, coursework and supplemental reading will be divided into four examination areas, each of which is comprised of four questions from which the students write on two.

Major Field (General European History): Students, in consultation with their advisors, will define the parameters of the major field. Specific chronological parameters will vary but students are required to answer questions on the full sweep of European history in the oral examination. A student writes on two of four questions.

Major Field (Topical): Requires students to master the literature in European Culture and Society. A student writes on two of four questions.

Theory and Methods: A student chooses one of the following fields: Applied Theory, Public History, or Comparative History. A student writes on one of two questions.

Minor Field: A student chooses one of the following fields: United States History, World History, or Public History. A student may only be examined in Public History in one field. A student writes on one of two questions.

Students must pass the written portion of the qualifying exam before they are allowed to take the oral qualifying exam.

Students may take up to three credits of Dissertation Prospectus course, but these credits will not count towards the total credits required for the degree.

The prospectus colloquium must be held within three months of the successful completion of the comprehensive examinations. Students must formally present a prospectus for their proposed dissertation research to their advisory committee before taking dissertation credits. The prospectus must be accepted for the student to have ABD status in the History Department.

A dissertation of substantial length and quality containing original research and interpretation on a topic in the field of European Culture and Society.

Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for both the Master's (if applicable) and Doctoral portions of the program.

The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.

The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 4 Requirements: Post-Master's - North American West Track

Total Credits Required: 47

Course Requirements

Required Courses – Credits: 7

HIST 726 - Colloquium in American Western History

HIST 727 - Research Seminar in American Western History

Historiography Courses – Credits: 6

Complete two of the following courses:

HIST 740A - Historiography (United States - Domestic)

HIST 740E - Historiography (United States - Diplomatic)

HIST 740F - Historiography (American West)

HIST 740G - Historiography (United States - Cultural/Intellectual)

Additional Colloquium Courses – Credits: 3

Complete one of the following courses:

HIST 724 - Colloquium in American Cultural/Intellectual History

HIST 730 - Colloquium in American History

Seminar Course – Credits: 4

Complete one of the following courses:

HIST 725 - Seminar in American Cultural/Intellectual History

HIST 731 - Research Seminar in American History

Minor Field Courses – Credits: 12

In consultation with your advisor select a minor field of study and complete 3 credits of colloquium and 9 credits of electives to total 12 credits.

Asian History

Minor Colloquium Course

HIST 734 - Colloquium in Modern Asian History

Minor Elective Courses

Complete 9 credits from the following list of courses:

HIST 649A - History of Japan to 1800

HIST 649B - History of Japan since 1800

HIST 649C - Topics in Japanese History

HIST 655A - History of China to 1800

HIST 655B - History of China since 1800

HIST 655C - Topics in Modern China

HIST 689 - Comparative History

HIST 698 - Advanced Historical Studies

HIST 735 - Research Seminar in Modern Asian History

HIST 740C - Historiography (Modern Asia)

HIST 761 - Doctoral Independent Study

European History

Minor Colloquium Course

Complete one of the following courses:

HIST 728 - Colloquium in European Cultural/Intellectual History

HIST 732 - Colloquium in European History

Minor Elective Courses

Complete 9 credits from the following list of courses:

HIST 619A - Britain to 1750

HIST 619B - Britain from 1750

HIST 620 - Topics in Central Europe: 1914 - Present
 HIST 621 - History of Russia to 1825
 HIST 622 - History of Russia Since 1825
 HIST 623A - History of Germany to 1848
 HIST 623B - History of Germany Since 1848

HIST 740H - Historiography (European Cultural/Intellectual)

HIST 748 - History and Policy

HIST 761 - Doctoral Independent Study

Elective Courses – Credits: 3

Complete 3 credits of History elective coursework, or other advisor-approved courses.

Dissertation – Credits: 12

HIST 791 - Dissertation

Degree Requirements

Students are expected to take courses with as many members of the faculty who specialize in the history of the North American West as possible. Students are encouraged to take more than the minimum number of courses.

A minimum of 26 credit hours of course work must be at the 700-level (excluding Dissertation).

Foreign Language Requirement. This requirement can be met in any of the following three ways, though the chosen option must be approved by the chair of the student's examination committee:

Demonstrated reading knowledge of two foreign languages.

Demonstrated reading knowledge of one foreign language and advanced reading knowledge of the same language, assessed through the writing of a substantial historiographical essay in English based on scholarly literature in that foreign language.

With the approval of the student's committee and the Graduate Coordinator, a student may demonstrate reading knowledge of one foreign language and the successful completion of SOC 604 - Statistical Methods in the Social Sciences.

Students may take up to six credits of Comprehensive Exam Preparation, but these credits will not count towards the total credits required for the degree.

Written and Oral Qualifying Examinations. Students write a total of six out of twelve essay questions. Students prepare extensive reading lists of books and articles for each field of study in conjunction with the members of their advisory committee. The lists are based on scholarly works read in coursework, but substantial additional reading is required. Coursework alone does not constitute preparation for comprehensive exams. For purposes of examination, and through close consultation with the student's committee chair and members of the committee, coursework and supplemental reading will be divided into four examination areas, each of which is comprised of four questions from which the students write on two.

Major Field (General United States History): the written examination focuses on the first or second half of U.S. History (1600 to 1877, or 1850 to Present), but students are required to answer questions on the full sweep of U.S. History in the oral examination. A student writes on two of four questions.

Major Field (Topical): Requires students to master the literature in North American West. A student writes on two of four questions.

Theory and Methods: A student chooses Applied Theory, Comparative History, or Public History. A student writes on one of two questions.

Minor Field: A student chooses one of the following fields: Asian History, European History, Latin American History, Public History, or World History. A student may only be examined in Public History in one field. A student writes on one of two questions.

Students must pass the written portion of the qualifying exam before they are allowed to take the oral qualifying exam.

Students may take up to three credits of Dissertation Prospectus course, but these credits will not count towards the total credits required for the degree.

The prospectus colloquium must be held within three months of the successful completion of the comprehensive examinations. Students must formally present a prospectus for their proposed dissertation

research to their advisory committee before taking dissertation credits. The prospectus must be accepted for the student to have ABD status in the History Department.

A dissertation of substantial length and quality containing original research and interpretation on a topic in the field of Northern American West.

Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.

The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Elective Courses – Credits: 3

Complete 3 credits of History elective coursework, or other advisor-approved courses.

Dissertation – Credits: 12

HIST 791 - Dissertation

Degree Requirements

Students are expected to take courses with as many members of the faculty who specialize in the history of North American Culture and Society as possible. Students are encouraged to take more than the minimum number of courses.

A minimum of 26 credit hours of course work must be at the 700-level (excluding Dissertation).

Foreign Language Requirement. This requirement can be met in any of the following three ways, though the chosen option must be approved by the chair of the student's examination committee:

Demonstrated reading knowledge of two foreign languages.

Demonstrated reading knowledge of one foreign language and advanced reading knowledge of the same language, assessed through the writing of a substantial historiographical essay in English based on scholarly literature in that foreign language.

With the approval of the student's committee and the Graduate Coordinator, a student may demonstrate reading knowledge of one foreign language and the successful completion of SOC 604 - Statistical Methods in the Social Sciences.

Students may take up to six credits of Comprehensive Exam Preparation, but these credits will not count towards the total credits required for the degree.

Written and Oral Qualifying Examinations. Students write a total of six out of twelve essay questions. Students prepare extensive reading lists of books and articles for each field of study in conjunction with the members of their advisory committee. The lists are based on scholarly works read in coursework, but substantial additional reading is required. Coursework alone does not constitute preparation for comprehensive exams. For purposes of examination, and through close consultation with the student's committee chair and members of the committee, coursework and supplemental reading will be divided into four examination areas, each of which is comprised of four questions from which the students write on two.

Major Field (General United States History): the written examination focuses on the first or second half of U.S. History (1600 to 1877, or 1850 to Present), but students are required to answer questions on the full sweep of U.S. History in the oral examination. A student writes on two of four questions.

Major Field (Topical): Requires students to master the literature in North American Culture and Society. A student writes on two of four questions.

Theory and Methods: A student chooses Applied Theory, Comparative History, or Public History. A student writes on one of two questions.

Minor Field: A student chooses one of the following fields: Asian History, European History, Latin American History, Public History, or World History. A student may only be examined in Public History in one field. A student writes on one of two questions.

Students must pass the written portion of the qualifying exam before they are allowed to take the oral qualifying exam.

Students may take up to three credits of Dissertation Prospectus course, but these credits will not count towards the total credits required for the degree.

The prospectus colloquium must be held within three months of the successful completion of the comprehensive examinations. Students must formally present a prospectus for their proposed dissertation research to their advisory committee before taking dissertation credits. The prospectus must be accepted for the student to have ABD status in the History Department.

A dissertation of substantial length and quality containing original research and interpretation on a topic in the field of North American Culture and Society.

Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.

The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 6 Requirements: Post-Master's - European Culture and Society Track

Total Credits Required: 47

Course Requirements

Required Courses – Credits: 7

HIST 728 - Colloquium in European Cultural/Intellectual History

HIST 729 - Research Seminar in European Cultural/Intellectual History

Historiography Courses – Credits: 6

Complete two of the following courses:

HIST 740B - Historiography (Europe)

HIST 740C - Historiography (Modern Asia)

HIST 740D - Historiography (Modern Latin America)

HIST 740G - Historiography (United States - Cultural/Intellectual)

HIST 740H - Historiography (European Cultural/Intellectual)

Colloquium Courses – Credits: 3

Complete one of the following courses (excluding any courses taken as Non-European Colloquium):

HIST 732 - Colloquium in European History

HIST 734 - Colloquium in Modern Asian History

HIST 736 - Colloquium in Modern Latin American History

HIST 738 - Colloquium in African and Middle Eastern History

Seminar Courses – Credits: 4

Complete one of the following courses:

HIST 729 - Research Seminar in European Cultural/Intellectual History

HIST 733 - Research Seminar in European History

HIST 735 - Research Seminar in Modern Asian History

HIST 737 - Research Seminar in Modern Latin American History

HIST 739 - Research Seminar in African and Middle Eastern History

Minor Field Courses – Credits: 12

In consultation with your advisor select a minor field of study and complete 3 credits of colloquium and 9 credits of electives to total 12 credits.

Asian History

Minor Colloquium Course

HIST 734 - Colloquium in Modern Asian History

Minor Elective Courses

Complete 9 credits from the following list of courses:

HIST 649A - History of Japan to 1800

HIST 649B - History of Japan since 1800

HIST 649C - Topics in Japanese History

HIST 655A - History of China to 1800

HIST 655B - History of China since 1800

HIST 655C - Topics in Modern China

HIST 689 - Comparative History

HIST 698 - Advanced Historical Studies

HIST 735 - Research Seminar in Modern Asian History

HIST 740C - Historiography

HIST 761 - Doctoral Independent Study

Latin American History

Minor Colloquium Course

HIST 736 - Colloquium in Modern Latin American History

Minor Elective Courses

Complete 9 credits from the following list of courses:

HIST 670 - History of Mexico

HIST 671 - Revolution and Reaction in Contemporary Latin America

HIST 672 - History of Brazil

HIST 673 - History of the Andean Region

HIST 674 - Latin American Ethnic Studies

HIST 675 - Modern Latin American Film

HIST 676 - The Mexican Revolution

HIST 679A - West Africa and the Making of the Atlantic World

HIST 689 - Comparative History

HIST 695 - Special Topics in Gender and History

HIST 737 - Research Seminar in Modern Latin American History

HIST 740D - Historiography (Modern Latin America)

HIST 761 - Doctoral Independent Study

Public History

Minor Colloquium Course

HIST 749 - Colloquium in Public History

Required Elective Course

HIST 750 - Methods for the Study of Public History

HIST 795 - Internship in Public History

Minor Elective Course

Complete one of the following courses:

HIST 751 - Museums and American Culture

HIST 752 - Modern Archives: Theory and Methodology

HIST 754 - Topics in Public History

HIST 761 - Doctoral Independent Study

U.S. History

Minor Colloquium Course

Complete one of the following courses:

HIST 724 - Colloquium in American Cultural/Intellectual History

HIST 726 - Colloquium in American Western History

HIST 730 - Colloquium in American History

Minor Elective Courses

Complete 9 credits from the following list of courses:

HIST 601A - American Constitutional and Legal History I

HIST 601B - American Constitutional and Legal History II

HIST 604A - American Social History to 1860

HIST 604B - American Social History, 1860-Present

History Courses

HIST 601A - American Constitutional and Legal History I

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 601B - American Constitutional and Legal History II

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 604A - American Social History to 1860

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 604B - American Social History, 1860-Present

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 605 - History of the New South

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 606A - The American West to 1849

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 606B - The American West Since 1849

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 607A - United States Foreign Relations I

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 607B - United States Foreign Relations II

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 610A - American Cultural and Intellectual History I

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 610B - American Cultural and Intellectual History II

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 611 - United States: Colonial Period

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 612 - United States: Revolution and the New Republic

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 614A - United States: National Period, 1815–1860

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 614B - United States: Civil War and Reconstruction, 1860–1877

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 615A - United States: Gilded Age, 1877–1900

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 615B - United States: The Progressive Era, 1900–1920

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 616A - Recent America: Era of Franklin D. Roosevelt, 1920–1945

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 616B - Contemporary America: The U.S. Since 1945

Credits 3

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 617A - Nevada and the Far West

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 619A - Britain to 1750

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 619B - Britain from 1750

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 620 - Topics in Central Europe: 1914 - Present

Topics on the political and social change in Central Europe from the outbreak of World War I to the present. Topics vary.

HIST 621 - History of Russia to 1825

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 622 - History of Russia Since 1825

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 623A - History of Germany to 1848

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 623B - History of Germany Since 1848

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in

the Undergraduate catalog under the corresponding 400 number.

HIST 624 - Role of Religion in American Culture

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 625 - History of Southern Nevada

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 626 - The American West Through Film

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 628 - History of Business in United States History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 629 - History of American Labor, 1607-Present

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 632A - History of American Women to 1870

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 632B - History of American Women, 1870 to Present

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 633 - African-American History

Credits 3

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in

the Undergraduate catalog under the corresponding 400 number. **Notes** May be repeated to a maximum of 9 credits.

HIST 633B - African-American History to 1877

Credits 3

HIST 634 - Role of Cities in American History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 634A - European Urban History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 635A - Early Modern Intellectual History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 635B - Modern Intellectual History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 635C - Topics in European Cultural and Intellectual History

Credits 3

In-depth study of specific aspects of early modern and modern European cultural and intellectual history. **Same as HIST 435C**

HIST 636 - Nazi Holocaust from the American Perspective

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 637 - Family History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 638A - American Indian History to 1851

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 638B - Ethnohistory of Native Americans Since 1851

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 638C - Topics in American Indian History

Credits 3

In-depth study of specific aspects of American Indian History. **Same as HIST 438C. Prerequisites** Six credits of history.

HIST 640 - Regions in American Indian History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 641 - American Environmental History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 643 - Comparative Environmental History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 643A - Historic Preservation

Credits 3

Examines the history and theory of the historic preservation movement in the United States, the legal basis for preservation of the built environment, and the practical methodology of historic preservation.

HIST 644 - Latinos in the American West

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such

courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 645 - Cultural History of Modern Russia

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 646 - History of the Russian Film

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 647 - Revolutionary Russia 1905–1921

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 648 - Asian American History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 649A - History of Japan to 1800

Credits 3

Analysis and interpretation of Japanese history to 1800. Examines political and intellectual leaders and events, social and cultural developments, economic forces and foreign relations.

HIST 649B - History of Japan since 1800

Credits 3

Analysis and interpretation of Japanese history since 1800. Examines political and intellectual leaders and events, social and cultural developments, economic forces and foreign relations.

HIST 649C - Topics in Japanese History

Credits 3

In-depth study of selected aspects of Japanese history. **Notes** May be repeated to a maximum of 6 credits.

HIST 652A - Popular Culture in Nineteenth-Century America

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 652B - Popular Culture in Twentieth-Century America

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-

level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 653 - Women in Politics

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 655A - History of China to 1800

Credits 3

Analysis and interpretation of Chinese history to 1800. Examines political and intellectual leaders and events, social and cultural developments, economic forces and foreign relations.

HIST 655B - History of China since 1800

Credits 3

Analysis and interpretation of Chinese history since 1800. Examines political and intellectual leaders and events, social and cultural developments, economic forces and foreign relations.

HIST 655C - Topics in Modern China

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 656 - Topics in Ancient History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 657 - Ancient Greek Civilization

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 658 - Roman Civilization

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 659 - Medieval Civilization

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 659A - Topics in Medieval History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 660A - The Renaissance

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 660B - The Reformation

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 661 - Europe in the 18th Century

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 661B - Early Modern Europe: 1550–1789

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 662 - The French Revolution and Napoleon

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 663 - Europe: 1815–1914

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 664 - Europe: 1914 to the Present

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 666 - European Diplomatic History, 1815-Present

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 668 - History of Science

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 670 - History of Mexico

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 671 - Revolution and Reaction in Contemporary Latin America

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 672 - History of Brazil

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 673 - History of the Andean Region

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 674 - Latin American Ethnic Studies

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 675 - Modern Latin American Film

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 676 - The Mexican Revolution

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 678A - Islamic and Middle Eastern History to 1750

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 678B - Islamic and Middle Eastern History since 1750

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 679 - History of the British Empire

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 679A - West Africa and the Making of the Atlantic World

Credits 3

Explores how West Africa contributed to the cultural and economic development of the Atlantic world and how European contact and interaction contributed to West Africa's development and underdevelopment.

HIST 682 - Music History I

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 683 - Music History II

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 683A - Urban Destruction and Reconstruction

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 685 - Oral History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such

courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 686 - Military History of the United States

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 687 - Topics in American Studies

Interdisciplinary analysis of selected topics in American history, literature, art, science and material culture. Topics vary from semester to semester.

HIST 689 - Comparative History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 691A - Women in the Ancient World

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 691B - Women in Medieval Culture and Society

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 692 - Woman's Role in European History: 1750–1970

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 692A - Women In Early Modern Europe

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 692B - Women In Modern European History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 695 - Special Topics in Gender and History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 696 - Philosophy of History

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 698 - Advanced Historical Studies

The department also offers a large number of undergraduate courses which are open to graduate students at the 600-level. Among these are courses which reflect the specializations of our faculty. Graduate students enrolled in such courses will ordinarily be expected to complete a special project. A full description of this course may be found in the Undergraduate catalog under the corresponding 400 number.

HIST 710 - The Professional Historian

Credits 1

Provides information and workshops for History graduate students on grant writing, conference paper abstract writing, job applications, research grant applications, etc. to develop professional skills beyond coursework. Discussion of aspects of the historical profession.

HIST 724 - Colloquium in American Cultural/Intellectual History

Credits 3

Specific topic or theme announced each semester and related bibliography provided. Group sessions critique this literature and evaluate historiographical status of authors. **Notes** Several short papers, designed to give training in critical analysis, required. May be repeated to a maximum of nine credits. **Prerequisites** Graduate standing.

HIST 725 - Seminar in American Cultural/Intellectual History

Credits 4

Topic to be announced each semester. **Notes** May be repeated to a maximum of twelve credits. **Prerequisites** Graduate standing.

HIST 726 - Colloquium in American Western History

Credits 3

Specific topic or theme announced each semester and related bibliography provided. Group sessions critique literature and evaluate the historiographical status of authors. Several short papers, designed to give training in critical analysis, required. **Notes** May be repeated to a maximum of nine credits. **Prerequisites** Graduate standing.

HIST 727 - Research Seminar in American Western History

Credits 4

Topic to be announced each semester. **Notes** May be repeated to a maximum of 12 credits. **Prerequisites** Graduate standing.

HIST 728 - Colloquium in European Cultural/Intellectual History

Credits 3

Analysis of the historical literature on a selected topic in European intellectual/cultural history. **Notes** May be

repeated to a maximum of nine credits. **Prerequisites** Graduate standing.

HIST 729 - Research Seminar in European Cultural/Intellectual History

Credits 4. **Notes** Topic to be announced each semester. May be repeated to a maximum of twelve credits.

Prerequisites Graduate standing.

HIST 730 - Colloquium in American History

Credits 3

Specific topic or theme to be announced and related bibliography provided. Course focuses on critical analysis and historiographical evaluation of the literature. a) Early America. b) Nineteenth Century. c) Twentieth Century. d) Diplomatic. e) Economic. f) Gender. h) Legal. i) Political j) Race. k) Religion l) Social. **Notes** May be repeated to a maximum of nine credits. **Prerequisites** Graduate standing.

HIST 731 - Research Seminar in American History

Credits 4

Topic to be announced each semester. a) Early America. b) Nineteenth Century. c) Twentieth Century. d) Diplomatic. e) Economic. f) Gender. h) Legal. i) Political. j) Race. k) Religion. l) Social. **Notes** May be repeated to a maximum of twelve credits. **Prerequisites** Graduate standing.

HIST 732 - Colloquium in European History

Credits 3

Analysis of the historical literature on a selected topic in European history. a) England. b) The French Revolution and Napoleon. c) Modern Russia. d) Germany. e) Medieval History. f) Europe since 1945. **Notes** May be repeated to a maximum of nine credits. **Prerequisites** Graduate standing.

HIST 733 - Research Seminar in European History

Credits 4

Topic to be announced each semester. a) England. b) The French Revolution and Napoleon. c) Modern Russia. d) Germany. e) Medieval. f) Europe since 1945. **Notes** May be repeated to a maximum of twelve credits. **Prerequisites** Graduate standing.

HIST 734 - Colloquium in Modern Asian History

Credits 3

Analysis of the historical literature on a selected topic in modern Asia. **Notes** May be repeated to a maximum of nine credits. **Prerequisites** Graduate standing.

HIST 735 - Research Seminar in Modern Asian History

Credits 4

Topic to be announced. **Notes** May be repeated to a maximum of twelve credits. **Prerequisites** Graduate standing.

HIST 736 - Colloquium in Modern Latin American History

Credits 3

Analysis of the historical literature on a selected topic in modern Latin America. Topics to be announced. **Notes** May be repeated to a maximum of nine credits. **Prerequisites** Graduate standing.

HIST 737 - Research Seminar in Modern Latin American History

Credits 4

Topics to be announced. **Notes** May be repeated to a maximum of twelve credits. **Prerequisites** Graduate standing.

HIST 738 - Colloquium in African and Middle Eastern History**Credits 3**

Analysis of the historical literature on a selected topic in Africa and/or the Middle East.

HIST 739 - Research Seminar in African and Middle Eastern History**Credits 4**

Topic to be announced. **Notes** May be repeated to a maximum of twelve credits.

HIST 740 - Historiography**Credits 3**

Lectures, readings, and discussions on the history of historical thought. a) United States-Domestic. b) Europe. c) Modern Asia. d) Modern Latin America. e) United States- diplomatic. f) American West. g) United States (cultural/intellectual). h) European (cultural/intellectual). **Notes** May be repeated to a maximum of nine credits.

Prerequisites Graduate standing.

HIST 748 - History and Policy**Credits 3**

Interdisciplinary historical analysis of American policy formation and failed versus workable policy ideas. Areas of investigation include policy studies in fields such as labor, urban development, minorities and diplomacy.

Prerequisites Graduate standing.

HIST 749 - Colloquium in Public History**Credits 3**

Practical as well as theoretical introduction to the techniques, methodologies and practices of historians in non-academic settings, including historic preservation, museums, oral history, historical sites, government agencies.

Prerequisites Graduate standing.

Study of methods emphasizing those historical techniques and auxiliary sciences which are most appropriate for the study of public history. **Prerequisites** Graduate standing.

HIST 751 - Museums and American Culture**Credits 3**

Theoretical and practical introduction to issues involved in history museums. Evolving role of museums in American society; organizational, ethical, and interpretive issues; the tension between power and the production of knowledge and memory. Emphasis on curatorial practice including researching and interpreting material culture.

Prerequisites Graduate standing.

HIST 752 - Modern Archives: Theory and Methodology**Credits 3**

Introduction to theoretical principles, methodologies and processing of archives and manuscripts, institutional programs that care for them, and professional community supporting this work. For students interested in the practice of public history in a variety of historical agencies or organizations. **Prerequisites** Graduate standing.

HIST 754 - Topics in Public History**Credits 3**

Practical and theoretical course exploring the varieties of public history. **Prerequisites** Graduate standing.

HIST 760 - Advanced Studies in History

Credits 1–3. Notes May be repeated to a maximum of six credits, unless otherwise approved by the department.

Prerequisites Graduate standing.

HIST 761 - Doctoral Independent Study

Credits 1–3

Supervised readings on special topics selected in consultation with a history instructor. **Notes** May be repeated to a maximum of twelve credits, unless otherwise approved by the department. **Prerequisites** Graduate standing.

HIST 788 - Comprehensive Exam Preparation

Credits 3

This course organizes the preparation process for comprehensive exams. A student, in conjunction with one of the members of his/her advisory committee, will follow a rigorous schedule of reading, question preparation, and preparatory writing.

HIST 789 - Dissertation Prospectus

Credits 3

This course organizes the preparation and defense of the dissertation prospectus. The student, in conjunction with the members of his/her advisory committee will follow a rigorous schedule of research and writing to prepare the prospectus for the prospectus colloquium.

HIST 790 - Thesis

Credits 3–6. Notes May be repeated, but only six credits applied to the student's program. **Grading** S/F grading only. **Prerequisites** Graduate standing.

HIST 790A - Materials for Teaching History

Credits 3

Capstone course for the Master of Arts in Teaching History co-taught by History and Curriculum and Instruction faculty. Builds on historical content, original research and pedagogical skills geared to the creation of middle and high school history classroom units. **Prerequisites** 700-level HIST colloquium and 700-level HIST research seminar.

HIST 791 - Dissertation

Credits 3–6. Notes May be repeated, but only 12 credits applied to the student's program. **Grading** S/F grading only. **Prerequisites** Graduate standing.

HIST 795 - Internship in Public History

Credits 3

Supervised internship is an integral part of the Public History track. Internships provide students with practical insights into potential historical employment. Private sector or institutional supervisors provide mentoring relationships and introduce students to the professional networks common to the public historian's work environment. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Graduate standing.

Philosophy Courses

PHIL 601 - Ancient Philosophy

Credits 3

PHIL 603 - Early Modern Philosophy

Credits 3

PHIL 604–19th Century Philosophy

Credits 3

PHIL 605 - Contemporary Philosophy
Credits 3

PHIL 606 - American Philosophy
Credits 3

PHIL 615 - Kant
Credits 3

Intensive study of one or more of Kant's major writings; e.g., the Critique of Pure Reason, Critique of Practical Reason, Critique of Judgement, Metaphysics of Morals.

PHIL 620 - Logical Theory
Credits 3

PHIL 622 - Advanced Logic
Credits 3

Study of formal logic through first-order logic with identity. Soundness, completeness, compactness and other metatheorems. Other topics may include computability, modal logic, epistemic logic, many-valued logic, the logic of conditionals, higher-order logics, infinitary logics or non-monotonic logics, number theory, Godel's theorems, and the limits of logicism.

PHIL 625 – Philosophy of Language
Credits 3

PHIL 630 – Philosophy of Science
Credits 3

PHIL 631 - History of Scientific Thought
Credits 3

Study of selected topics in the history of science, such as the impact of Euclidean geometry, the Copernican Revolution, the origin of modern science, the development of non-Euclidean geometry, the transition from classical to modern physics and the rise of evolutionary biology.

PHIL 632 - Philosophy of Social Sciences
Credits 3

PHIL 633 - Philosophical Psychology
Credits 3

PHIL 634 - Philosophy Cognitive Science
Credits 3

PHIL 640 - Theory of Knowledge
Credits 3

PHIL 641 - Metaphysics
Credits 3

PHIL 650 - Ethical Theory
Credits 3

PHIL 652 – Aesthetics
Credits 3

PHIL 659 - Philosophy of Religion
Credits 3
Study of conceptions of God and the nature and meaning of religious experience.

PHIL 693 - Gandhian Welfare Philosophy and Nonviolent Culture
Credits 3

Political Science

The Department of Political Science offers a master's degree program in Political Science and a doctoral degree program in Political Science. A description of each follows.

The Department of Political Science offers a general Master of Arts degree. Students tailor their program with the assistance of the department's graduate coordinator. Advisory committees will approve a program that will provide an appropriate degree of specialization in two of the fields of political science with supporting studies in others.

Students can pursue graduate education in the areas of comparative politics, international relations, American politics, political theory, public law, and public policy. Students can normally expect to complete the program in from one-and-a-half to two years. The department offers a number of graduate assistantships as well as internship opportunities at the local, state, and federal levels, where students can obtain on-the-job experience.

The graduate program in political science is designed to prepare graduate students for doctoral studies, teaching positions at secondary schools and community colleges, or employment by government agencies, research centers, or private industry. Our graduates have gone on to executive positions in national, state, and local governments and to doctoral programs at top schools throughout the country.

The Ph.D. program offers major concentrations in Comparative Politics and International Relations, and minor concentrations in American Politics, Comparative Politics, International Relations, and Political Theory.

Globalization is a dominant characteristic of politics in the twenty-first century. The program focuses on the causes, consequences, and limitations of the political, economic, and cultural aspects of globalization.

The Ph.D. program is intended to prepare its graduates for careers in academic institutions, government (at all levels), and business and industry. Increasingly, a cross-national, cross-cultural understanding of political processes is essential for education, public policy, and commerce.

Political Science Plans

Doctor of Philosophy - Political Science

Plan Description

The Ph.D. program offers major concentrations in Comparative Politics and International Relations, and minor concentrations in American Politics, Comparative Politics, International Relations, and Political Theory.

Globalization is a dominant characteristic of politics in the twenty-first century. The program focuses on the causes, consequences, and limitations of the political, economic, and cultural aspects of globalization.

The Ph.D. program is intended to prepare its graduates for careers in academic institutions, government (at all levels), and business and industry. Increasingly, a cross-national, cross-cultural understanding of political processes is essential for education, public policy, and commerce.

Learning Outcomes

www.unlv.edu/degree/phd-political-science

Plan Admission Requirements

The following department application materials must be uploaded into the online application:

- Graduate Record Examination (GRE) General Test scores
- Three letters of recommendation by recommendation providers
- A personal statement explaining why you want to enter the doctoral program
- A writing sample

Applicants must submit satisfactory Graduate Record Examination (GRE) General Test scores. The recommended score is a total of 160 on the verbal and 148 on the quantitative sections. We also pay attention to the analytical score. The applicant's undergraduate record is examined in conjunction with the GRE scores. The former is weighed more heavily than the latter: an outstanding undergraduate record may well allow the admission of an applicant with GRE scores somewhat below the recommended level.

Applicants must possess a B.A. or equivalent from a regionally accredited institution with a minimum GPA of 3.30, or M.A. or equivalent from an accredited institution with a minimum GPA of 3.50. Under special circumstances the department may consider applicants with lower GPAs.

Applicants must have completed 12 credits of course work at the upper-division or graduate level in comparative politics and international relations combined. At the discretion of the department, students who lack such course work may be admitted on the condition that they remedy that deficiency.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Bachelor's - Comparative Politics Track

Total Credits Required: 60

Course Requirements

- Methods in Political Science Courses – Credits: 6
 - PSC 701 - Research Design and Methodology
 - PSC 702 - Advanced Quantitative Methods
- Proseminar Courses – Credits: 12
 - PSC 710R - Proseminar in American Politics
 - PSC 740 - Proseminar in International Relations
 - PSC 760R - Proseminar in Comparative Politics
 - PSC 780R - Proseminar in Political Theory
- Topics Course – Credits: 3
 - Complete one of the following courses:
 - PSC 767 - Comparative Democratization
 - PSC 775 - Comparative Political Behavior
 - PSC 779R - Advanced Studies in Comparative Politics
- Area Studies Course – Credits: 3
 - Complete one of the following courses:
 - PSC 761 - Middle Eastern and North African Politics
 - PSC 762 - African Politics
 - PSC 764 - Latin American Politics
- Major Field Course – Credits: 3
 - Complete one of the following courses (excluding Topics and Area Studies courses already completed):
 - PSC 761 - Middle Eastern and North African Politics
 - PSC 762 - African Politics
 - PSC 764 - Latin American Politics
 - PSC 767 - Comparative Democratization
 - PSC 775 - Comparative Political Behavior
 - PSC 779R - Advanced Studies in Comparative Politics
- Minor Field 1 International Relations Courses – Credits: 6
 - Complete two of the following courses:
 - PSC 741 - U.S. Foreign Policy
 - PSC 746 - Middle East in World Affairs
 - PSC 747 - Pacific Rim in World Affairs
 - PSC 751 - International Political Economy
 - PSC 754 - Global Governance
 - PSC 755 - International Security
 - PSC 759 - Advanced Studies in International Relations
- Minor Field 2 Courses – Credits: 6
 - In consultation with your advisor select your second minor field of study and complete 6 credits from the appropriate list below.

- American Politics/Public Policy/Public Law
 - PSC 712 - Intergovernmental Relations
 - PSC 713 - American National Government: Principles
 - PSC 714 - American National Government: Structure and Processes
 - PSC 719 - Advanced Studies in American Politics
 - PSC 721 - Public Policy Process
 - PSC 722 - Environmental Resource Policy
 - PSC 723 - Policy Analysis
 - PSC 724 - Intelligence Policy
 - PSC 725 - Policy Formation: The Problem of Legitimacy
 - PSC 726 - National Security Policy
 - PSC 729 - Advanced Studies in Public Policy
 - PSC 731 - Civil Rights and Liberties
 - PSC 732 - Constitutional Law
 - PSC 733 - Public Law and Public Policy
 - PSC 735 - Jurisprudence
 - PSC 739 - Advanced Studies in Public Law
 - Political Theory
 - PSC 781 - Political Theory before 1500
 - PSC 782R - Political Theory from 1500 to 1900
 - PSC 783 - Political Theory since 1900
 - PSC 789R - Advanced Studies in Political Theory
- Elective Courses – Credits: 9
 - Complete 9 credits of 700-level Political Science courses, or other advisor-approved courses.
- Dissertation – Credits: 12
 - PSC 799 – Dissertation

Degree Requirements

- A minimum of 60 credits beyond the B.A. must be completed.
- A minimum grade point average of 3.00 is required for all course work.
- Foreign language requirement: Students must demonstrate knowledge of the equivalent of two years of a single foreign language, through either an examination or 12 credits of college-level course work. Those credits would not count toward the required total. This requirement must be met prior to admission to candidacy. No grade below “B-” will be accepted.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member outside the department will be assigned by the Graduate College. Another outside member may be added at the department’s discretion.
- Comprehensive written and oral examinations will be taken during or following the semester in which the student completes required course work. They will be divided into three parts, corresponding to the student’s major field and two minor fields. Within those fields the content of the examinations will be determined by the student’s graduate coordinator.
- The student will write the dissertation of original research and interpretation on a topic in the field of comparative politics.
- Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Post-Bachelor's - International Relations Track

Total Credits Required: 60

Course Requirements

- Methods in Political Science Courses – Credits: 6
 - PSC 701 - Research Design and Methodology
 - PSC 702 - Advanced Quantitative Methods
- Proseminar Courses – Credits: 12
 - PSC 710R - Proseminar in American Politics
 - PSC 740 - Proseminar in International Relations
 - PSC 760R - Proseminar in Comparative Politics
 - PSC 780R - Proseminar in Political Theory
- International Relations Courses – Credits: 9
 - Complete three of the following courses:
 - PSC 741 - U.S. Foreign Policy
 - PSC 746 - Middle East in World Affairs
 - PSC 747 - Pacific Rim in World Affairs
 - PSC 751 - International Political Economy
 - PSC 754 - Global Governance
 - PSC 755 - International Security
 - PSC 759 - Advanced Studies in International Relations
- Minor Field 1 Comparative Politics – Credits: 6
 - Complete two of the following courses:
 - PSC 767 - Comparative Democratization
 - PSC 775 - Comparative Political Behavior
 - PSC 779R - Advanced Studies in Comparative Politics
 - PSC 761 - Middle Eastern and North African Politics
 - PSC 762 - African Politics
 - PSC 764 - Latin American Politics
- Minor Field 2 Courses – Credits: 6
 - In consultation with your advisor select your second minor field of study and complete 6 credits from the appropriate list below.
 - American Politics/Public Policy/Public Law
 - PSC 712 - Intergovernmental Relations
 - PSC 713 - American National Government: Principles
 - PSC 714 - American National Government: Structure and Processes
 - PSC 719 - Advanced Studies in American Politics

 - Two letters of recommendation by recommendation providers
 - A personal statement explaining why you want to enter the Master's program
- Applicants must possess a baccalaureate from a regionally accredited institution with a minimum GPA of 3.00.
- Applicants must submit satisfactory GRE General Test scores. Minimum scores are 153 on the verbal and 144 on the quantitative sections of the exam; we also consider the analytical writing score. In unusual circumstances, students who do not meet the above criteria may still be admitted.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Thesis Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 3
 - PSC 701 - Research Design and Methodology
- Major Fields of Study Courses – Credits: 18
 - In consultation with your advisor select two major fields of study. Complete 9 credits from each of the selected major areas.
 - American Politics/Public Policy/Public Law
 - PSC 710R - Proseminar in American Politics
 - PSC 712 - Intergovernmental Relations
 - PSC 713 - American National Government: Principles
 - PSC 714 - American National Government: Structure and Processes
 - PSC 719 - Advanced Studies in American Politics
 - PSC 721 - Public Policy Process
 - PSC 722 - Environmental Resource Policy
 - PSC 723 - Policy Analysis
 - PSC 724 - Intelligence Policy

- PSC 725 - Policy Formation: The Problem of Legitimacy
- PSC 726 - National Security Policy
- PSC 729 - Advanced Studies in Public Policy
- PSC 731 - Civil Rights and Liberties
- PSC 732 - Constitutional Law
- PSC 733 - Public Law and Public Policy
- PSC 735 - Jurisprudence
- PSC 739 - Advanced Studies in Public Law
- International Relations
 - PSC 740 - Proseminar in International Relations
 - PSC 741 - U.S. Foreign Policy
 - PSC 746 - Middle East in World Affairs
 - PSC 747 - Pacific Rim in World Affairs
 - PSC 751 - International Political Economy
 - PSC 754 - Global Governance
 - PSC 755 - International Security
 - PSC 759 - Advanced Studies in International Relations
- Comparative Politics
 - PSC 760R - Proseminar in Comparative Politics
 - PSC 761 - Middle Eastern and North African Politics
 - PSC 762 - African Politics
 - PSC 764 - Latin American Politics
 - PSC 767 - Comparative Democratization
 - PSC 775 - Comparative Political Behavior
 - PSC 779R - Advanced Studies in Comparative Politics
- Political Theory
 - PSC 780R - Proseminar in Political Theory
 - PSC 781 - Political Theory before 1500
 - PSC 782R - Political Theory from 1500 to 1900
 - PSC 783 - Political Theory since 1900
 - PSC 789R - Advanced Studies in Political Theory
- Elective Courses – Credits: 3
 - Complete 3 credits of 700-level Political Science courses, or other advisor-approved courses.
- Thesis – Credits: 6
 - PSC 796 – Thesis

Degree Requirements

- A minimum of 30 credits to be completed must be pre-approved by the graduate coordinator to be counted toward the M.A.
- The student must complete 24 credits in at least two areas of Political Science and must successfully complete three courses in each field.
- 18 credits must be taken in graduate seminar work.
- PSC 701 – Research Design and Methodology must be completed among the first 12 credits.
- Students may complete a maximum of 6 graduate credits in related areas outside political science.

- The candidate must maintain a minimum B average during the semester in order to remain in good standing. Only those courses in which a student receives a grade of B or better may be used for graduate credit.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Comprehensive Examination Track

Total Credits Required: 33

Course Requirements

- Required Courses – Credits: 6
 - PSC 701 - Research Design and Methodology
 - PSC 795 - Directed Readings in Political Science
- Major Fields of Study Courses – Credits: 18
 - In consultation with your advisor select two major fields of study. Complete 9 credits from each of the selected major areas.
 - American Politics/Public Policy/Public Law
 - PSC 710R - Proseminar in American Politics
 - PSC 712 - Intergovernmental Relations
 - PSC 713 - American National Government: Principles
 - PSC 714 - American National Government: Structure and Processes
 - PSC 719 - Advanced Studies in American Politics
 - PSC 721 - Public Policy Process
 - PSC 722 - Environmental Resource Policy
 - PSC 723 - Policy Analysis
 - PSC 724 - Intelligence Policy
 - PSC 725 - Policy Formation: The Problem of Legitimacy
 - PSC 726 - National Security Policy
 - PSC 729 - Advanced Studies in Public Policy
 - PSC 731 - Civil Rights and Liberties
 - PSC 732 - Constitutional Law
 - PSC 733 - Public Law and Public Policy
 - PSC 735 - Jurisprudence
 - PSC 739 - Advanced Studies in Public Law

- International Relations
 - PSC 740 - Proseminar in International Relations
 - PSC 741 - U.S. Foreign Policy
 - PSC 746 - Middle East in World Affairs
 - PSC 747 - Pacific Rim in World Affairs
 - PSC 751 - International Political Economy
 - PSC 754 - Global Governance
 - PSC 755 - International Security
 - PSC 759 - Advanced Studies in International Relations
 - Comparative Politics
 - PSC 760R - Proseminar in Comparative Politics
 - PSC 761 - Middle Eastern and North African Politics
 - PSC 762 - African Politics
 - PSC 764 - Latin American Politics
 - PSC 767 - Comparative Democratization
 - PSC 775 - Comparative Political Behavior
 - PSC 779R - Advanced Studies in Comparative Politics
 - Political Theory
 - PSC 780R - Proseminar in Political Theory
 - PSC 781 - Political Theory before 1500
 - PSC 782R - Political Theory from 1500 to 1900
 - PSC 783 - Political Theory since 1900
 - PSC 789R - Advanced Studies in Political Theory
- Elective Courses – Credits: 9
 - Complete 9 credits of 700-level Political Science courses, or other advisor-approved courses.

Degree Requirements

- A minimum of 33 credits to be completed must be pre-approved by the graduate coordinator to be counted toward the M.A.
- The student must select at least two areas of Political Science and must successfully complete three courses in each field.
- PSC 701 – Research Design and Methodology must be completed among the first 12 credits.
- 18 credits must be taken in graduate seminar work.
- Students may complete a maximum of 6 graduate credits in related areas outside political science.
- Complete PSC 795 – Directed Readings in Political Science, which encompasses preparation for and taking of, written and oral examinations.
- The candidate must maintain a minimum B average during the semester in order to remain in good standing. Only those courses in which a student receives a grade of B or better may be used for graduate credit
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully pass written and oral examinations administered by the advisory committee by the posted deadline.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

Political Science Courses

EPS 701 - Critical Thinking

Credits 3

Skills of argument analysis and synthesis, using the logic of natural language to locate, evaluate, and criticize reasoning in a variety of idioms. Culminates in a topical argument analysis and concluding synthesis of a more whole, defended argument. **Prerequisites** Graduate standing.

EPS 702 - Ethics

Credits 3

Focuses on the heritage of Western culture, ethics of the person and community, questions of conscience, justice, moral conflict, citizenship, and the issues of consent and dissent. Work is historical and critical, first on interpretation and then evaluation leading to student presentation on a problem in ethics.

EPS 710 - Policy Analysis

Credits 3

Aims to enable students to understand and evaluate a range of methods used by professional policy analysts, and to present some of the ethical issues surrounding this practice. Each student is required to locate and critique some examples of policy analysis in his or her own area of interest.

. **Same as PSC 723** . **Prerequisites** Graduate standing.

EPS 712 - Seminar in Business and Professional Ethics

Credits 3

Exploration of applied ethics, which combines the study of justice, human rights, corruption, sexism, or racism, etc., with analysis of existing public- and private-sector practices or laws. Environmental, medical/health care, business, journalism, professional, and government ethics may be explored. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Graduate standing.

EPS 723 - Aristotle's Nicomachean Ethics

Credits 3

A close reading of Aristotle's Nicomachean Ethics. Major themes explored include moral virtue, intellectual virtue, friendship, and the relationship between philosophy, ethics and politics. **Notes** May be repeated to a maximum of six credits.

EPS 724 - Aristotle's Politics

Credits 3

Close reading of Aristotle's Politics. Major issues to be considered include Aristotle's political naturalism, pluralism and regime classification. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Graduate standing.

EPS 738 - Organizational Ethics**Credits 3**

Focuses on the moral culture of the organization, its practices, reward and punishment systems, rituals, and languages. Examines differences between organizations supportive of or punitive of employees' intellectual integrity and moral autonomy. Organization as a moral habitat, functional or dysfunctional; problems of exit, voice, and loyalty. **Prerequisites** Graduate standing or consent of instructor.

EPS 739 - Health Care Ethics**Credits 3**

Investigates ethical issues in health care. Philosophical methodologies that help with complex and controversial decision including principlism casuistry, virtue theory, and care ethics. Issues include end-of-life care, informed consent, access to services, HIV, and organ transplantation. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Graduate standing or consent of instructor.

EPS 740 - Seminar in Organizational and Public Morality**Credits 3**

How organizational practices and policies produce moral consequences. What kinds of organizational responsibility belong to these practices, and how the person working in an organization maintains, balances, or loses moral integrity in such circumstances. Case studies from business, government, professions, and community organizations. **Prerequisites** Graduate standing or consent of instructor.

EPS 741 - Environmental Law and Policy Seminar**Credits 3**

Substantive aspects of major federal environmental laws and their concomitant regulations, as well as the policy underlying their promulgation and implementation. The present status and implementation of the National Environmental Policy Act, the Clean Air Act, the Clean Water Act, the Resource Conservation and Recovery Act, and the comprehensive Environmental Response, Compensation and Liability Act. Examines policies underlying the existing laws, their derivative regulations, and changes considered by Congress for these laws. **Same as** (ENV 703). **Prerequisites** EPS 701, 702, or 712

EPS 743 - Policy Formation: The Problem of Legitimacy**Credits 3**

What makes a policy legitimate? Analyzes the process of making public policy in terms of such ethical considerations as public versus private good, legality versus morality, accountability of policy makers, enforcement of decisions, and evaluation of programs. **Same as** (PSC 725, which used to be PSC 720). **Prerequisites** Graduate standing.

EPS 744 - Citizenship and Public Policy**Credits 3**

Examines the meaning of democracy and explores various proposals for strengthening the life of active citizenship. Balances academic and theoretical concerns with strategic and empowering ones. Students develop a working concept of democratic citizenship and a plan for integrating this concept into real-world policymaking. **Prerequisites** Graduate standing.

EPS 745 - Public Law and Public Policy

Credits 3

Focuses on the role of the courts in shaping the different policy areas in the American political system. **Same as** PSC 733 . **Prerequisites** Graduate standing.

EPS 746 - Jurisprudence**Credits 3**

Study of the role of morality in the historical and recent debates over the nature of law including: Is a conceptual separation of law and morality desirable?; legal validity; the justification of the judicial decision; finally, the importance of jurisprudence in helping to resolve public policy disputes. **Prerequisites** Graduate standing.

EPS 747 - Public Policy Process**Credits 3**

Examines the roles of the legislative and executive branches of government in public policy formation and implementation. Surveys empirical techniques used in the field, assesses the impact of ethical theories on the public policy process, and explores selected policy issues in detail. **Same as** (PSC 721). **Prerequisites** Graduate standing.

EPS 748 - History and Policy**Credits 3**

Interdisciplinary historical analysis of American policy formation and failed versus workable policy ideas. Areas of investigation may include policy studies in fields such as labor, urban development, minorities, and diplomacy. **Same as** (HIST 748). **Prerequisites** Graduate standing.

EPS 749 - Seminar: Political Sociology**Credits 3**

Explores relations between states and social institutions such as social classes, interest groups, and systems of cultural and material production and reproduction. Covers issues such as theories of the state, political behavior, and frameworks for development of solutions to various contemporary problems. **Same as** (SOC 776). **Prerequisites** Graduate standing.

EPS 750 - Advanced Studies in Public Policy**Credits 3**

Selected topics in public policy. **Same as** PSC 729. **Notes** May be repeated to a maximum of six credits. **Prerequisites** EPS 702, EPS 710, and EPS 744

EPS 790 - Ethics and Policy Selected Topics**Credits 1–9**

Designed to allow special attention to be given to ethics and policy problems by way of philosophy, history, political science, sociology, communication studies, or related disciplines. **Notes** May be repeated, with permission, to a maximum of nine credits.

EPS 794 - Independent Study and Research in Ethics and Policy Studies**Credits 1–3**

Program of independent reading and research in ethics and policy studies, to be selected in consultation with an instructor before registration. **Notes** May be repeated to a maximum of three credits with consent of instructor.

EPS 799 - Thesis**Credits 3–6**

May be repeated but only six credits applied to the student's program. S/F grading only. Prerequisite: Departmental approval. **Notes** May be repeated to a maximum of 18 credits with consent of advisor. **Grading** S/F grading only.

Prerequisites Graduate standing and consent of instructor.

PSC 701 - Research Design and Methodology

Credits 3

Exposes graduate students to a body of literature and a set of ideas about doing sound social science research, either applied or non-applied. Emphasis on injecting scientific and theoretical rigor into the investigation of political phenomena. **Prerequisites** Graduate standing.

PSC 702 - Advanced Quantitative Methods

Credits 3

Review of basic statistical techniques and in-depth treatment of bivariate and multivariate regression analysis, including regression diagnostics and remedies for assumption violations. Also introduces advanced statistical estimation techniques including robust regression, time-series analysis, and maximum likelihood estimation.

Prerequisites PSC 701 or equivalent and graduate standing.

PSC 710R - Proseminar in American Politics

Credits 3

Concepts, methods, and theories in American politics. Particular attention is devoted to the presentation and analysis of classic books and articles in the field so as to provide students with the requisite foundation for advanced study.

PSC 712 - Intergovernmental Relations

Credits 3

Covers political, constitutional, fiscal, and regulatory aspects of the federal, state, and local governments. Emphasis on relations of state and local governments to the federal government. Satisfies Nevada Constitution requirement.

Prerequisites Graduate standing.

PSC 713 - American National Government: Principles

Credits 3

Addresses the theoretical principles underlying—and disputed within—the American political regime since the Founding. Readings include writings by American statesmen, political philosophers, and scholars representative of key perspectives in the liberal-constitutional tradition. Satisfies U.S. Constitution requirement. **Formerly** (PSC 710).

Prerequisites Graduate standing.

PSC 714 - American National Government: Structure and Processes

Credits 3

American political institutions, public opinion, voting behavior, and the making of public policy. **Formerly** PSC 711. **Prerequisites** Graduate standing.

PSC 719 - Advanced Studies in American Politics

Credits 3

Selected topics in American politics. Students are advised to take PSC 710R before this course.

. **Notes** May be repeated to a maximum of six credits. **Prerequisites** PSC 701 and graduate standing.

PSC 721 - Public Policy Process

Credits 3

Examines the roles of the legislative and executive branches of government in public policy formation and implementation. Surveys empirical techniques used in the field, assesses the impact of ethical theories on the public policy process, and explores selected policy issues in detail. **Same as** (EPS 747). **Notes** May be repeated to a maximum of six credits. **Prerequisites** Graduate standing.

PSC 722 - Environmental Resource Policy**Credits 3**

Condition of the global environment, a topic which has risen from relative obscurity after World War II to a topic high on the national and global agenda. Considers the socio-political aspects related to the environment and natural resources, familiarizing students with the policy process and institutions predominant in this area. **Prerequisites** Graduate standing.

PSC 723 - Policy Analysis**Credits 3**

Aims to enable students to understand and evaluate a range of methods used by professional policy analysts, and to present some of the ethical issues surrounding this practice. **Same as** (EPS 710). **Notes** Each student is required to locate and critique some examples of policy analysis in his or her own area of interest. **Prerequisites** Graduate standing.

PSC 724 - Intelligence Policy**Credits 3**

Focuses primarily on the US intelligence community as it has evolved since World War II. Emphasis on analysis, overt action, and counterintelligence. Congressional and judicial controls examined. Attention also given to foreign intelligence agencies; terrorism.
. **Prerequisites** Graduate standing.

PSC 725 - Policy Formation: The Problem of Legitimacy**Credits 3**

What makes a policy legitimate? Analyzes the process of making public policy in terms of such ethical considerations as public versus private good, legality versus morality, accountability of policy makers, enforcement of decisions, and evaluation of programs.
. **Formerly** (PSC 720). **Same as** (EPS 743). **Prerequisites** Graduate standing.

PSC 726 - National Security Policy**Credits 3**

Focuses on national security issues confronting the U.S. including the conduct of conventional warfare, nuclear strategy, deterrence, arms control, Strategic Defense Initiative, alliance formation, and other topics. **Prerequisites** Graduate standing.

PSC 729 - Advanced Studies in Public Policy**Credits 3**

Selected topics in public policy. May be repeated to a maximum of six credits. **Same as** EPS 750. **Prerequisites** PSC 701 and graduate standing.

PSC 731 - Civil Rights and Liberties**Credits 3**

Analysis of the substance and literature on the topic of civil rights and civil liberties in the United States.
Prerequisites Graduate standing.

PSC 732 - Constitutional Law**Credits 3**

Study of the U.S. Constitution with emphasis on its interpretation, the power of the judiciary, Congress, and executive. Attention also devoted to federal-state relations and the Commerce Clause. Satisfies the U.S. Constitution

requirement. **Formerly** (PSC 730). **Prerequisites** Graduate standing.

PSC 733 - Public Law and Public Policy

Credits 3

Focuses on the role of the courts in shaping the different policy areas in the American political system. **Same as** (EPS 745). **Prerequisites** Graduate standing.

PSC 735 - Jurisprudence

Credits 3

Study of the role of morality in the historical and recent debates over the nature of law including: Is a conceptual separation of law and morality desirable?; legal validity; the justification of the judicial decision; finally, the importance of jurisprudence in helping to resolve public policy disputes. **Same as** (EPS 746). **Prerequisites** Graduate standing.

PSC 739 - Advanced Studies in Public Law

Credits 3

Selected topics in public law. Students are advised to take PSC 710R before this course. **Notes** May be repeated to a maximum of six credits. **Prerequisites** PSC 701 and graduate standing.

PSC 740 - Proseminar in International Relations

Credits 3

Concepts, methods, and theories in international relations. Application of these tools to contemporary issues in international politics and economics. Conflict and peace studies, the North-South dialogue, and futures studies.

Prerequisites Graduate standing.

PSC 741 - U.S. Foreign Policy

Credits 3

Examines the dynamics of the foreign policy decision-making process, surveys the historical evolution of American foreign policy, and addresses its contemporary issues. Impacts of the changing faces of communism, third-world nationalism, and global economic and political interdependencies on U.S. foreign policy studied in detail.

Prerequisites Graduate standing.

PSC 746 - Middle East in World Affairs

Credits 3

Develops a framework for the study of international relations of the Middle East; examines domestic, regional and global determinants of external politics in the region; analyzes its great powers' interests and policies (strategic, military, economic, etc.) in this area; and studies intraregional problems including the Arab-Israeli imbroglio, inter-Arab conflicts, and turmoil in Lebanon. **Prerequisites** Graduate standing.

PSC 747 - Pacific Rim in World Affairs

Credits 3

Examines international relations of the Pacific Rim, a key region in contemporary international politics. Analyzes diplomatic/political, military/security, and economic/trade issues in the region, and assesses the dynamics and interdependence of the region and the region's significance to international politics in the twenty-first century.

Prerequisites Graduate standing.

PSC 751 - International Political Economy

Credits 3

Examines the concepts, methods, and theories used in the study of the politics of international economic relations.

Major theories of international political economy are examined and applied to the study of international trade, international capital flows, economic development, globalization, regional integration, labor, and the environment.

PSC 754 - Global Governance

Credits 3

Examines the theoretical foundations for world order with attention to international organizations, collective security, regional and global integration, transnational capital, social movements, human security, and states.

PSC 755 - International Security

Credits 3

This course will examine contemporary threats to international security and peace (e.g., terrorism, conflict) in order to explore the different methods of preventing, managing, and resolving them.

PSC 759 - Advanced Studies in International Relations

Credits 3

Selected topics in international relations. Students are advised to take PSC 740 before this course. **Formerly** (PSC 749). **Notes** May be repeated to a maximum of six credits. **Prerequisites** PSC 701 and graduate standing.

PSC 760R - Proseminar in Comparative Politics

Credits 3

Concepts, methods, and theories in comparative politics. Topics include such as political development, ethnicity, leadership, and political economy. **Formerly** (PSC 750). **Prerequisites** Graduate standing.

PSC 761 - Middle Eastern and North African Politics

Credits 3

Provides students with in-depth analysis of the political institutions, processes, and policies in the Middle East and North Africa. **Formerly** (PSC 760). **Prerequisites** Graduate standing.

PSC 762 - African Politics

Credits 3

This course surveys the broad themes and debates in the study of the politics of sub-Saharan Africa. The historical and geographic forces that have shaped the African state are explored. The nature and performance of the post-colonial state and the attempts at economic and political reform are examined.

PSC 764 - Latin American Politics

Credits 3

Provides students with an understanding of regime change, party systems, conventional participation, and social movements. Includes coverage of advanced theories of comparative politics as applied to the region.

PSC 767 - Comparative Democratization

Credits 3

This course explores the phenomenon of democratization, with a particular focus on the cases of democratization that have occurred since the start of the third wave of democratization in the mid-1970s. The different theoretical approaches to explaining both the transition to and consolidation of democracy will be examined.

PSC 775 - Comparative Political Behavior

Credits 3

Examination of the antecedents and consequences of public opinion and political behavior from a comparative perspective, with emphasis given to democratic regimes.

PSC 779R - Advanced Studies in Comparative Politics

Credits 3

Selected topics in comparative politics. Students are advised to take PSC 760R before this course. **Formerly** (PSC 769). **Notes** May be repeated to a maximum of six credits. **Prerequisites** PSC 701 and graduate standing.

PSC 780R - Proseminar in Political Theory

Credits 3

Concepts and issues in political theory, with emphasis on major texts in the history of political philosophy. **Formerly** (PSC 771). **Prerequisites** Graduate standing.

PSC 781 - Political Theory before 1500

Credits 3

Readings from works by selected political theorists of the ancient and medieval periods. Authors may include Thucydides, Xenophon, Plato, Aristotle, Cicero, Al-Farabi, Maimonides, and Thomas Aquinas.

PSC 782R - Political Theory from 1500 to 1900

Credits 3

Readings from works by selected political theorists of the early and late modern periods. Authors may include Machiavelli, Hobbes, Locke, Rousseau, Kant, Hegel, J. S. Mill, Marx, and Nietzsche.

PSC 783 - Political Theory since 1900

Credits 3

Readings from works by selected political theorists since 1900. Authors may include Dewey and Heidegger.

PSC 789R - Advanced Studies in Political Theory

Credits 3

Selected topics in political theory. Students are advised to take PSC 780R before this course. **Formerly** (PSC 779). **Notes** May be repeated to a maximum of six credits. **Prerequisites** Graduate standing.

PSC 790 - Studies in Political Science

Credits 3

Analysis of the research and literature on a selected topic in political science. Specific topic announced each semester. **Notes** May be repeated to a maximum of six credits.

PSC 791 - M.A. Independent Study in Political Science

Credits 1–3

Program of independent reading and research in political science for M.A. students, to be selected in consultation with an instructor before registration. May be repeated to a maximum of six credits with consent of instructor.

Prerequisites Consent of instructor.

PSC 792 - Ph.D. Independent Study in Political Science

Credits 1–3

Program of independent reading and research in political science for Ph.D. students, to be selected in consultation with an instructor before registration. May be repeated to a maximum of six credits with consent of instructor.

Prerequisites Consent of instructor.

PSC 793 - Internship in Political Science

Credits 1–3

Graduate students have a work assignment in an executive, legislative, or judicial setting, political party, or interest group institution at the national, state, or local governmental level and make regular reports on work activities and assigned readings. Substantial written work required. **Formerly** (PSC 780). **Notes** May be repeated to a maximum of six credits with consent of instructor.

PSC 795 - Directed Readings in Political Science

Credits 3

Program of assigned reading in preparation for comprehensive examinations. **Formerly** (PSC 782). **Prerequisites** Graduate standing and departmental approval.

PSC 796 - Thesis

Credits 3–6. Formerly (PSC 789). **Notes** May be repeated but only six credits applied to the student's program.

Grading S/F grading only. **Prerequisites** Departmental approval.

PSC 799 - Dissertation

Credits 3–12

May be repeated but only 12 credits may be applied toward degree. **Prerequisites** Passing grade on comprehensive examinations.

Chair

Ashcraft, Mark H. - *Full Graduate Faculty*

Professor; B.A., Grinnell College, M.A., Ph.D., University of Kansas. *Rebel since 2005.*

Graduate Coordinator

Kearney, Christopher A. (Clinical) - *Full Graduate Faculty*

Distinguished Professor; B.A., State University of New York at Binghamton; M.A., Ph.D., State University of New York at Albany. *Rebel since 1990.*

Millar, Murray (Experimental) - *Full Graduate Faculty*

Associate Professor; B.A., Graceland College; M.S., Eastern Washington University; Ph.D., University of Georgia. *Rebel since 1990.*

Graduate Faculty

Allen, Daniel N. - *Full Graduate Faculty*

Professor; B.A., Moody Bible Institute; M.S., Eastern Washington University; Ph.D., University of South Dakota. *Rebel since 1999.*

Barchard, Kimberly A. - *Full Graduate Faculty*

Associate Professor; B.S., Simon Fraser University; M.A., Ph.D., University of British Columbia. *Rebel since 2001.*

Benning, Stephen D. - *Full Graduate Faculty*

Assistant Professor; B.A., Rice University; M.A., Ph.D., University of Minnesota. *Rebel since 2012.*

Carro, Michelle G. - *Full Graduate Faculty*

Assistant Professor in Residence; B.A., Colgate University; Ph.D., University of Vermont. *Rebel since 2004.*

Copeland, David - *Full Graduate Faculty*

Associate Professor; B.A., Cleveland State University; Ph.D., University of Notre Dame. *Rebel since 2006.*

Donohue, Bradley C. - *Full Graduate Faculty*

Professor; B.A., University of Kansas; Ph.D., Nova Southeastern University. *Rebel since 1998.*

Hannon, Erin E. - *Full Graduate Faculty*

Assistant Professor; B.A., New College of Florida; Ph.D., Cornell University. *Rebel since 2007.*

Heavey, Christopher L. - *Full Graduate Faculty*

Associate Professor; B.A., University of California, Santa Cruz; M.A., Ph.D., University of California, Los Angeles. *Rebel since 1992.*

Holland, Jason M.

Assistant Professor; B.A., University of Tennessee; M.S., Ph.D., University of Memphis. *Rebel since 2011.*

Hurlburt, Russell T. - *Full Graduate Faculty*

Professor; B.S.E., Princeton University; M.S., University of New Mexico; Ph.D., University of South Dakota. *Rebel since 1976.*

Kinney, Jefferson W. - *Full Graduate Faculty*

Assistant Professor; B.S., M.S., Ph.D., Colorado State University. *Rebel since 2007.*

Meana, Marta - *Full Graduate Faculty*

Professor; B.A., M.A., Ph.D., McGill University. *Rebel since 1997.*

Parks, Colleen M. - *Full Graduate Faculty*

Assistant Professor; B.A., Trinity University; M.S., Ph.D., Georgia Institute of Technology. *Rebel since 2008.*

Pritchard, Laurel M. - *Full Graduate Faculty*

Assistant Professor; B.S., University of Findlay; Ph.D., University of Cincinnati. *Rebel since 2007.*

Rennels, Jennifer L. - *Full Graduate Faculty*

Associate Professor; B.S., Ithaca College; M.A., Ph.D., University of Texas, Austin. *Rebel since 2003.*

Silver, N. Clayton - *Full Graduate Faculty*

Associate Professor; B.A., University of Cincinnati; M.S., Ph.D., Tulane University. *Rebel since 1997.*

Snyder, Joel S. - *Full Graduate Faculty*

Assistant Professor; B.A., University of California, San Diego; Ph.D., Cornell University. *Rebel since 2007.*

Warren, Cortney S. - *Full Graduate Faculty*

Associate Professor; B.A., Macalester College; M.S., Ph.D., Texas A&M University. *Rebel since 2006.*

Professors Emeriti

Ferraro, Douglas P.

Professor; A.B., M.A., Ph.D., Columbia University. *UNLV Emeritus 1996-2008.*

Hess, Harrie F.

Emeritus Professor; B.A., University of Nevada, Reno; M.A., Ph.D., University of Colorado. *UNLV Emeritus 1965-1989.*

Kern, Jeffrey M.

Emeritus Associate Professor; B.A., Queens College; Ph.D. State University of New York at Stony Brook. *UNLV Emeritus 1990-2011.*

Knapp, Terry J.

Emeritus Professor; B.A., B.S., University of Iowa; M.A., University of Northern Iowa; Ph.D., University of Nevada, Reno. *UNLV Emeritus 1976-2007.*

Rasmussen, Charles T.

Emeritus Associate Professor; B.A., Susquehanna University; M.A., Ph.D., University of Arizona. *UNLV Emeritus 1972-2007.*

Psychology Plans

Doctor of Philosophy - Psychology

Plan Description

The Graduate Faculty of the Department of Psychology is comprised of a group of dedicated individuals who have received their training at outstanding graduate programs. We continue to recruit accomplished scholars who will enhance the quality and diversity of the graduate experience available to our students. The department is committed to providing our graduate students with a high quality program balanced across classroom, laboratories, and other

research settings; and for clinical students, various practicum placements. The department currently offers M.A. and Ph.D. degrees through the Clinical and Experimental Psychology Tracks.

The UNLV Clinical Psychology Tracks prepare students to address human concerns through both scholarly research and the application of psychological knowledge and skills. We recognize psychology as an empirical science and expect students to have a broad understanding of existing psychological knowledge. We guide students to base their scholarly and professional activity on the scientific foundation of psychology. Through an integration of didactic study, supervised clinical activity, and mentored scholarly research, we prepare students as generalist scientist-practitioners to conduct scientific research and clinical interventions with children and adults.

The UNLV Experimental Psychology Tracks train research psychologists for employment in academic and nonacademic settings. The objective is to produce graduates who will be prepared for a variety of research settings, with a strong emphasis on statistical and methodological skills. This is a mentored program. Each admitted student will work directly with a specific faculty member who will oversee his/her training.

Learning Outcomes: Clinical Psychology

Learning Outcomes: Experimental Psychology

www.unlv.edu/degree/phd-experimental-psychology

Plan Admission Requirements

The program is accredited by the American Psychological Association.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Clinical Psychology Tracks

The Clinical Psychology Tracks currently admit only students seeking a doctoral degree. The program admits students for matriculation only in the fall semester. The application deadline is December 1 prior to the fall for which matriculation is being requested. Applicants will be notified of their status prior to April 15. We anticipate entering classes of 5-8 students each year. Typical admitted students have GPAs of 3.7 and GRE scores of 600 (see <http://psychology.unlv.edu/clinical.htm#Admission> for more information).

- A bachelor's degree from an accredited institution or a master's degree or equivalent from an accredited institution. We strongly recommend that applicants have a degree in psychology. Applicants should have completed at least 18 hours of undergraduate psychology courses including statistics, abnormal psychology, and experimental psychology.
- Satisfactory scores on the Verbal and Quantitative sections of the Graduate Record Examination (GRE).
- Three letters of recommendation.
- A statement of purpose written by the applicant.
- A personal interview with members of the program faculty is required for finalists in the selection process.

We will notify applicants if they are finalists in February under most circumstances. If a personal interview is not feasible, a telephone interview may be substituted. In unusual circumstances, students who do not meet these admission requirements may be admitted.

Experimental Psychology Tracks

The Experimental Psychology tracks currently admit only students seeking a doctoral degree. The program admits students for matriculation only in the fall semester. The application deadline is December 1st before the fall for which matriculation is being requested. Review of completed applications will continue until all positions are filled. Applicants are encouraged to submit their materials as early as possible.

- A bachelor's degree from an accredited institution with a minimum GPA of 3.20 (A = 4.00) or a master's degree or equivalent from an accredited institution with a minimum GPA of 3.50. Applicants with a bachelor's degree must have completed at least 18 hours in undergraduate psychology courses including Statistics and Research Methods or their equivalents.
- Satisfactory scores on the Verbal and Quantitative sections of the Graduate Record Examination (GRE).
- Three letters of recommendation.
- A statement of purpose written by the applicant.
- Admission to the program will be based on a mentoring model. Students under serious consideration for admission to the Experimental Program are required to have a personal interview with the sponsoring faculty member and at least two other program faculty members. If a personal interview is not financially or pragmatically feasible, a telephone interview may be substituted.

Note: Strong applicants who fail to meet one of the Experimental Program admission requirements may still be considered for admission.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Bachelor's - Clinical Psychology Track

Total Credits Required: 96

Course Requirements

- Clinical Foundation Courses – Credits: 27
 - PSY 712 - Psychometrics
 - PSY 714 - History and Foundations of Clinical Psychology
 - PSY 715 - Assessment of Children
 - PSY 716 - Assessment of Adults
 - PSY 725 - Intervention with Children
 - PSY 726 - Intervention with Adults
 - PSY 736 - Psychopathology
 - PSY 750 - Diversity in Professional Psychology
 - PSY 755 - Ethics and Professional Issues
- Research Methods and Statistics Courses – Credits: 9
 - PSY 707 - Research Methods
 - PSY 708 - Statistics for Psychologists I
 - PSY 709 - Statistics for Psychologists II
- Practicum – Credits: 6
 - PSY 767 - Practicum
- Thesis – Credits: 6
 - PSY 769 - Thesis

- After successfully completing the requirements above, students are eligible to earn the Master of Arts – Psychology.
- Scientific Breadth in Psychology Courses – Credits: 12
 - PSY 701 - Biological Bases of Behavior
 - PSY 703 - Cognitive Psychology
 - PSY 704 - Social Psychology
 - PSY 721 - Developmental Science Topics
- Elective Courses – Credits: 6
 - Complete 6 credits of 700-level Psychology courses. Other 700-level courses offered by other departments may be taken with approval of the student’s advisor and the Clinical Program Committee.
- Practicum – Credits: 12
 - PSY 767 - Practicum
- Internship – Credits: 6
 - Complete a full calendar year APA-approved clinical psychology internship.
 - PSY 771 - Professional Internship
- Dissertation – Credits: 12
 - PSY 770 - Dissertation

Degree Requirements

- En route to doctoral candidacy the student must complete the requirements for a master’s degree in psychology, and complete 6 credits of thesis over a minimum of 2 semesters. The thesis must be proposed and defended orally.
- In addition to a master’s degree in Psychology equivalent to the one previously described (48 credits), a minimum of 48 semester hours in graduate psychology is required for the doctoral degree.
- Comprehensive Examination. The Comprehensive examination for the doctoral program will consist of an examination administered once each year. Students may take the exam after they have completed 66 credits and the Master’s thesis.
- Electives consist of any 700-level Psychology courses excluding Independent Study, Practicum, Independent Research, Thesis, Dissertation, and Professional Internship.
- Students must obtain a grade of B- or better in each course taken for that course to count toward the degree. One grade below a B- (i.e. C+ or lower) will result in probation. Once on probation for receiving a grade below a B-, a second grade (in the same or different classes) below a B-, will result in immediate separation from the program. If a student re-takes a course in which s/he received a grade lower than a B- (i.e. C+ or lower) and earns a B- or better, s/he will be removed from probation. A student may only be on academic probation twice during their graduate career in Psychology; a third probation will result in separation from the program. No student shall be allowed more than two simultaneous grades of incomplete, except in the case of a documented and approved medical leave.
- Students must conform to all policies of the UNLV Graduate College, as stated in the UNLV Graduate Catalog, those stated in the UNLV Clinical Psychology Doctoral Program Student Handbook, and the American Psychological Association Code of Ethics. Students will be evaluated at least yearly across several professional competencies. Inadequate performance in one or more may result in the imposition of additional requirements, loss of Graduate Assistantship, probation, or separation from the program.
- Transfer Credits. Admitted clinical students may transfer credits from graduate studies in other programs contingent upon departmental approval and in accordance with Graduate College policy.
- The dissertation must be orally proposed and defended.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for both the Master's and Doctoral portions of the program.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public. Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public. Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Post-Master's - Clinical Psychology Track

Total Credits Required: 75

Course Requirements

- Clinical Foundation Courses – Credits: 18-27
 - Complete 18-27 credits from the following list of courses:
 - PSY 712 - Psychometrics
 - PSY 714 - History and Foundations of Clinical Psychology
 - PSY 715 - Assessment of Children
 - PSY 716 - Assessment of Adults
 - PSY 725 - Intervention with Children
 - PSY 726 - Intervention with Adults
 - PSY 736 - Psychopathology
 - PSY 750 - Diversity in Professional Psychology
 - PSY 755 - Ethics and Professional Issues
- Research Methods and Statistics Courses – Credits: 0-9
 - Complete 0-9 credits from the following list of courses:
 - PSY 707 - Research Methods
 - PSY 708 - Statistics for Psychologists I
 - PSY 709 - Statistics for Psychologists II
- Scientific Breadth in Psychology Courses – Credits: 3-12
 - Complete 3-12 credits from the following list of courses:
 - PSY 701 - Biological Bases of Behavior
 - PSY 703 - Cognitive Psychology
 - PSY 704 - Social Psychology
 - PSY 721 - Developmental Science Topics
- Practicum – Credits: 18
 - PSY 767 - Practicum
- Internship – Credits: 6
 - Complete a full calendar year APA-approved clinical psychology internship.
 - PSY 771 - Professional Internship
- Dissertation – Credits: 12
 - PSY 770 - Dissertation

Degree Requirements

- Students must complete a minimum of 75 credit hours with a minimum GPA of 3.00. Additional credits may be required to address student deficiencies or build specialized expertise.
- The number of required Clinical Foundation Courses, Research Methods and Statistics Courses, and Scientifics Breadth in Psychology Courses will be determined in consultation with the Director of Clinical Training. Additional credits may be required to address student deficiencies or build specialized expertise.
- Comprehensive Examination. The Comprehensive examination for the doctoral program will consist of an examination administered once each year. Students may take the exam after they have completed 45 credits.
- Students must obtain a grade of B- or better in each course taken for that course to count toward the degree. One grade below a B- (i.e. C+ or lower) will result in probation. Once on probation for receiving a grade below a B-, a second grade (in the same or different classes) below a B-, will result in immediate separation from the program. If a student re-takes a course in which s/he received a grade lower than a B- (i.e. C+ or lower) and earns a B- or better, s/he will be removed from probation. A student may only be on academic probation twice during their graduate career in Psychology; a third probation will result in separation from the program. No student shall be allowed more than two simultaneous grades of incomplete, except in the case of a documented and approved medical leave.
- Students must conform to all policies of the UNLV Graduate College, as stated in the UNLV Graduate Catalog, those stated in the UNLV Clinical Psychology Doctoral Program Student Handbook, and the American Psychological Association Code of Ethics. Students will be evaluated at least yearly across several professional competencies. Inadequate performance in one or more may result in the imposition of additional requirements, loss of Graduate Assistantship, probation, or separation from the program.
- Transfer Credits. Admitted clinical students may transfer credits from graduate studies in other programs contingent upon departmental approval and in accordance with Graduate College policy.
- The dissertation must be orally proposed and defended.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 3 Requirements: Post-Bachelor's - Experimental Psychology - General Emphasis Track

Total Credits Required: 72

Course Requirements

- Required Courses – Credits: 12
 - PSY 707 - Research Methods
 - PSY 708 - Statistics for Psychologists I
 - PSY 709 - Statistics for Psychologists II
 - PSY 756 - Ethics, Professional Issues, and Diversity in Experimental Psychology
- Proseminar Course – Credits: 6

- Complete the following course each semester during the first two years of study.
 - PSY 758 - Proseminar in Experimental Psychology
- General Emphasis Courses – Credits: 6
 - Complete two of the following courses:
 - PSY 701 - Biological Bases of Behavior
 - PSY 703 - Cognitive Psychology
 - PSY 704 - Social Psychology
 - PSY 705 - Developmental Psychology
- Elective Courses – Credits: 3
 - Complete 3 credits of 700-level Psychology courses, or other 700-level advisor-approved courses offered by other departments. 600-level courses offered by other departments require advisor approval and concurrence by the Experimental Program Director.
- Thesis – Credits: 6
 - PSY 769 - Thesis

After successfully completing the requirements above, students are eligible to earn the Master of Arts – Psychology.

- General Emphasis Courses – Credits: 6
 - Complete two of the remaining courses that have not been applied to the master’s degree:
 - PSY 701 - Biological Bases of Behavior
 - PSY 703 - Cognitive Psychology
 - PSY 704 - Social Psychology
 - PSY 705 - Developmental Psychology
- Elective Courses – Credits: 21
 - Complete 21 credits of 700-level Psychology courses, or other 700-level advisor-approved courses offered by other departments. 600-level courses offered by other departments require advisor approval and concurrence by the Experimental Program Director.
 - Two electives typically taken by students are:
 - PSY 757 - Teaching of Psychology
 - PSY 772 - Experimental Psychology Qualifying Paper Research
- Dissertation – Credits: 12
 - PSY 770 - Dissertation

Degree Requirements

- En route to doctoral candidacy the student must complete the requirements for a master’s degree in psychology and complete 6 credits of thesis over a minimum of 2 semesters.
- In addition to a master’s degree in Psychology equivalent to the one previously described, a minimum of 39 semester hours in graduate psychology is required for the doctoral degree.
- Student will be required to complete a Qualifying Activity before proposing a Dissertation. The purpose of the qualifying activity is for the student to acquire not only the expertise in a given area, but the ability to explain, discuss, and debate questions within that and related areas. Students may choose, in consultation with their advisor, from the following qualifying activities: one extensive qualifying paper, three brief papers, or a written examination.
- Comprehensive Examination. The Comprehensive examination for the doctoral program will consist of an examination administered once each year. Students may take the exam after they have completed 66 credits and the Master’s thesis.
- Students must obtain a grade of B- or better in each course taken for that course to count toward the degree. One grade below a B- (i.e. C+ or lower) will result in probation. Once on probation for receiving a grade

below a B-, a second grade (in the same or different classes) below a B-, will result in immediate separation from the program. If a student re-takes a course in which s/he received a grade lower than a B- (i.e. C+ or lower) and earns a B- or better, s/he will be removed from probation. A student may only be on academic probation twice during their graduate career in Psychology; a third probation will result in separation from the program. No student shall be allowed more than two simultaneous grades of incomplete, except in the case of a documented and approved medical leave.

- Students must conform to all policies of the UNLV Graduate College, as stated in the UNLV Graduate Catalog, those stated in the UNLV Experimental Psychology Doctoral Program Student Handbook, and the American Psychological Association Code of Ethics. Students will be evaluated at least yearly across several professional competencies in the following three areas: (1) academic performance; (2) scholarly research activity; and (3) ethical behavior and professional conduct. If the program determines that a student is not making satisfactory progress toward the degree, it may request the Graduate Dean to separate the student from the program or place the student on probation. Failure to meet the conditions of the probation will result in separation from the program.
- Students must take a minimum of four semesters of dissertation which can include summers. The dissertation must be orally proposed and defended.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for both the Master's and Doctoral portions of the program.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 4 Requirements: Post-Bachelor's - Experimental Psychology - Cognitive Emphasis Track

Total Credits Required: 72

Course Requirements

- Required Courses – Credits: 12
 - PSY 707 - Research Methods
 - PSY 708 - Statistics for Psychologists I
 - PSY 709 - Statistics for Psychologists II
 - PSY 756 - Ethics, Professional Issues, and Diversity in Experimental Psychology
- Proseminar Course – Credits: 6
 - Complete the following course each semester during the first two years of study.
 - PSY 758 - Proseminar in Experimental Psychology
- Cognitive Emphasis Courses – Credits: 6
 - Complete two of the following courses:
 - PSY 703 - Cognitive Psychology

- PSY 717 - Cognitive Methods
 - PSY 718 - Cognitive Science
- Elective Courses – Credits: 3
 - Complete 3 credits of 700-level Psychology courses, or other 700-level advisor-approved courses offered by other departments. 600-level courses offered by other departments require advisor approval and concurrence by the Experimental Program Director.
- Thesis – Credits: 6
 - PSY 769 - Thesis

After successfully completing the requirements above, students are eligible to earn the Master of Arts – Psychology.

- Cognitive Seminar Courses – Credits: 6
 - Complete two courses that have not been applied to the master’s degree:
 - PSY 703 - Cognitive Psychology
 - PSY 717 - Cognitive Methods
 - PSY 718 - Cognitive Science
 - PSY 747 - Topics in Perception
 - PSY 748 - Topics in Memory:
 - PSY 749 - Topics in Cognitive Processes:
- Elective Courses – Credits: 21
 - Complete 21 credits of 700-level Psychology courses, or other 700-level advisor-approved courses offered by other departments. 600-level courses offered by other departments require advisor approval and concurrence by the Experimental Program Director.
 - Two electives typically taken by students are:
 - PSY 757 - Teaching of Psychology
 - PSY 772 - Experimental Psychology Qualifying Paper Research
- Dissertation – Credits: 12
 - PSY 770 - Dissertation

Degree Requirements

- En route to doctoral candidacy the student must complete the requirements for a master’s degree in psychology, and complete 6 credits of thesis over a minimum of 2 semesters.
- In addition to a master’s degree in Psychology equivalent to the one previously described (33 credits), a minimum of 39 credits in graduate psychology is required for the doctoral degree.
- Student will be required to complete a Qualifying Activity before proposing a Dissertation. The purpose of the qualifying activity is for the student to acquire not only the expertise in a given area, but the ability to explain, discuss, and debate questions within that and related areas. Students may choose, in consultation with their advisor, from the following qualifying activities: one extensive qualifying paper, three brief papers, or a written examination.
- The Comprehensive Examination for the doctoral program will consist of an examination administered once each year. Students may take the exam after they have completed 66 credits and the Master’s thesis.
- Students must obtain a grade of B- or better in each course taken for that course to count toward the degree. One grade below a B- (i.e. C+ or lower) will result in probation. Once on probation for receiving a grade below a B-, a second grade (in the same or different classes) below a B-, will result in immediate separation from the program. If a student re-takes a course in which s/he received a grade lower than a B- (i.e. C+ or lower) and earns a B- or better, s/he will be removed from probation. A student may only be on academic probation twice during their graduate career in Psychology; a third probation will result in separation from

the program. No student shall be allowed more than two simultaneous grades of incomplete, except in the case of a documented and approved medical leave.

- Students must conform to all policies of the UNLV Graduate College, as stated in the UNLV Graduate Catalog, those stated in the UNLV Experimental Psychology Doctoral Program Student Handbook, and the American Psychological Association Code of Ethics. Students will be evaluated at least yearly across several professional competencies in the following three areas: (1) academic performance; (2) scholarly research activity; and (3) ethical behavior and professional conduct. If the program determines that a student is not making satisfactory progress toward the degree, it may request the Graduate Dean to separate the student from the program or place the student on probation. Failure to meet the conditions of the probation will result in separation from the program.
- Students must take a minimum of four semesters of dissertation which can include summers. The dissertation must be orally proposed and defended.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for both the Master's and Doctoral portions of the program.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 5 Requirements: Post-Bachelor's - Experimental Psychology - Neuroscience Emphasis Track

Total Credits Required: 72

Course Requirements

- Required Courses – Credits: 15
 - Complete the following courses. *Students lacking sufficient background in Neuroscience will also take PSY 701 – Biological Bases of Behavior prior to taking these core courses.
 - PSY 708 - Statistics for Psychologists I
 - PSY 709 - Statistics for Psychologists II
 - PSY 719 - Behavioral Neuroscience*
 - PSY 720 - Systems and Cognitive Neuroscience*
 - PSY 756 - Ethics, Professional Issues, and Diversity in Experimental Psychology
- Proseminar Course – Credits: 6
 - Complete the following course each semester during the first two years of study.
 - PSY 758 - Proseminar in Experimental Psychology
- Elective Courses – Credits: 6
 - Complete 6 credits of 700-level Psychology courses, or other 700-level advisor-approved courses offered by other departments. 600-level courses offered by other departments require advisor approval and concurrence by the Experimental Program Director.

- Thesis – Credits: 6
 - PSY 769 - Thesis
- After successfully completing the requirements above, students are eligible to earn the Master of Arts – Psychology.
- Elective Courses – Credits: 27
 - Complete 27 credits of 700-level Psychology courses, or other 700-level advisor-approved courses offered by other departments. 600-level courses offered by other departments require advisor approval and concurrence by the Experimental Program Director.
 - Two electives typically taken by students are:
 - PSY 757 - Teaching of Psychology
 - PSY 772 - Experimental Psychology Qualifying Paper Research
- Dissertation – Credits: 12
 - PSY 770 - Dissertation

Degree Requirements

- En route to doctoral candidacy the student must complete the requirements for a master's degree in psychology, and complete 6 credits of thesis over a minimum of 2 semesters.
- In addition to a master's degree in Psychology equivalent to the one previously described (33 credits), a minimum of 39 credits in graduate psychology is required for the doctoral degree.
- Student will be required to complete a Qualifying Activity before proposing a Dissertation. The purpose of the qualifying activity is for the student to acquire not only the expertise in a given area, but the ability to explain, discuss, and debate questions within that and related areas. Students may choose, in consultation with their advisor, from the following qualifying activities: one extensive qualifying paper, three brief papers, or a written examination.
- The Comprehensive Examination for the doctoral program will consist of an examination administered once each year. Students may take the exam after they have completed 66 credits and the Master's thesis.
- Students must obtain a grade of B- or better in each course taken for that course to count toward the degree. One grade below a B- (i.e. C+ or lower) will result in probation. Once on probation for receiving a grade below a B-, a second grade (in the same or different classes) below a B-, will result in immediate separation from the program. If a student re-takes a course in which s/he received a grade lower than a B- (i.e. C+ or lower) and earns a B- or better, s/he will be removed from probation. A student may only be on academic probation twice during their graduate career in Psychology; a third probation will result in separation from the program. No student shall be allowed more than two simultaneous grades of incomplete, except in the case of a documented and approved medical leave.
- Students must conform to all policies of the UNLV Graduate College, as stated in the UNLV Graduate Catalog, those stated in the UNLV Experimental Psychology Doctoral Program Student Handbook, and the American Psychological Association Code of Ethics. Students will be evaluated at least yearly across several professional competencies in the following three areas: (1) academic performance; (2) scholarly research activity; and (3) ethical behavior and professional conduct. If the program determines that a student is not making satisfactory progress toward the degree, it may request the Graduate Dean to separate the student from the program or place the student on probation. Failure to meet the conditions of the probation will result in separation from the program.
- Students must take a minimum of four semesters of dissertation which can include summers. The dissertation must be orally proposed and defended.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for both the Master's and Doctoral portions of the program.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 6 Requirements: Post-Bachelor's - Experimental Psychology - Developmental Emphasis Track

Total Credits Required: 72

Course Requirements

- Required Courses – Credits: 12
 - PSY 708 - Statistics for Psychologists I
 - PSY 709 - Statistics for Psychologists II
 - PSY 713 - Developmental Research
 - PSY 756 - Ethics, Professional Issues, and Diversity in Experimental Psychology
- Proseminar Course – Credits: 6
 - Complete the following course each semester during the first two years of study.
 - PSY 758 - Proseminar in Experimental Psychology
- Developmental Science Course – Credits: 6
 - Complete 6 credits of the following course:
 - PSY 721 - Developmental Science Topics
- Elective Courses – Credits: 3
 - Complete 3 credits of 700-level Psychology courses, or other 700-level advisor-approved courses offered by other departments. 600-level courses offered by other departments require advisor approval and concurrence by the Experimental Program Director.
- Thesis – Credits: 6
 - PSY 769 - Thesis
- After successfully completing the requirements above, students are eligible to earn the Master of Arts – Psychology.
- Developmental Seminar Course – Credits: 9
 - Complete 9 credits of the following course:
 - PSY 740 - Topics in Developmental Psychology
- Developmental Emphasis Courses – Credits: 6
 - Complete two courses that have not been applied to the master's degree:
 - PSY 701 - Biological Bases of Behavior
 - PSY 704 - Social Psychology
 - PSY 719 - Behavioral Neuroscience

Or

- PSY 720 - Systems and Cognitive Neuroscience

- PSY 703 - Cognitive Psychology

Or

- PSY 718 - Cognitive Science

- Elective Courses – Credits: 12
 - Complete 21 credits of 700-level Psychology courses, or other 700-level advisor-approved courses offered by other departments. 600-level courses offered by other departments require advisor approval and concurrence by the Experimental Program Director.
 - Two electives typically taken by students are:
 - PSY 757 - Teaching of Psychology
 - PSY 772 - Experimental Psychology Qualifying Paper Research
- Dissertation – Credits: 12
 - PSY 770 - Dissertation

Degree Requirements

- En route to doctoral candidacy the student must complete the requirements for a master's degree in psychology, and complete 6 credits of thesis over a minimum of 2 semesters.
- In addition to a master's degree in Psychology equivalent to the one previously described (33 credits), a minimum of 39 credits in graduate psychology is required for the doctoral degree.
- Student will be required to complete a Qualifying Activity before proposing a Dissertation. The purpose of the qualifying activity is for the student to acquire not only the expertise in a given area, but the ability to explain, discuss, and debate questions within that and related areas. Students may choose, in consultation with their advisor, from the following qualifying activities: one extensive qualifying paper, three brief papers, or a written examination.
- The Comprehensive Examination for the doctoral program will consist of an examination administered once each year. Students may take the exam after they have completed 66 credits and the Master's thesis.
- Students must obtain a grade of B- or better in each course taken for that course to count toward the degree. One grade below a B- (i.e. C+ or lower) will result in probation. Once on probation for receiving a grade below a B-, a second grade (in the same or different classes) below a B-, will result in immediate separation from the program. If a student re-takes a course in which s/he received a grade lower than a B- (i.e. C+ or lower) and earns a B- or better, s/he will be removed from probation. A student may only be on academic probation twice during their graduate career in Psychology; a third probation will result in separation from the program. No student shall be allowed more than two simultaneous grades of incomplete, except in the case of a documented and approved medical leave.
- Students must conform to all policies of the UNLV Graduate College, as stated in the UNLV Graduate Catalog, those stated in the UNLV Experimental Psychology Doctoral Program Student Handbook, and the American Psychological Association Code of Ethics. Students will be evaluated at least yearly across several professional competencies in the following three areas: (1) academic performance; (2) scholarly research activity; and (3) ethical behavior and professional conduct. If the program determines that a student is not making satisfactory progress toward the degree, it may request the Graduate Dean to separate the student from the program or place the student on probation. Failure to meet the conditions of the probation will result in separation from the program.

- Students must take a minimum of four semesters of dissertation which can include summers. The dissertation must be orally proposed and defended.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for both the Master's and Doctoral portions of the program.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 7 Requirements: Post-Master's - Experimental Psychology - General Emphasis Track

Total Credits Required: 53

Course Requirements

- Required Courses – Credits: 3-12
 - Complete 3-12 credits from the following list of courses:
 - PSY 707 - Research Methods
 - PSY 708 - Statistics for Psychologists I
 - PSY 709 - Statistics for Psychologists II
 - PSY 756 - Ethics, Professional Issues, and Diversity in Experimental Psychology
- Proseminar Course – Credits: 0-6
 - Complete the following course each semester during the first two years of study.
 - PSY 758 - Proseminar in Experimental Psychology
- General Emphasis Courses – Credits: 6-12
 - Complete 6-12 credits from the following list of courses:
 - PSY 701 - Biological Bases of Behavior
 - PSY 703 - Cognitive Psychology
 - PSY 704 - Social Psychology
 - PSY 705 - Developmental Psychology
- Elective Courses – Credits: 11-21
 - Complete 11-21 credits of 700-level Psychology courses, or other 700-level advisor-approved courses offered by other departments. 600-level courses offered by other departments require advisor approval and concurrence by the Experimental Program Director.
 - Two electives typically taken by students are:
 - PSY 757 - Teaching of Psychology
 - PSY 772 - Experimental Psychology Qualifying Paper Research
- Dissertation – Credits: 12
 - PSY 770 - Dissertation

Degree Requirements

- Students must complete a minimum of 53 credit hours with a minimum GPA of 3.00. Additional credits may be required to address student deficiencies or build specialized expertise.
- The number of Required, Proseminar, General Emphasis, and Elective credits will be determined in consultation with the Director of Clinical Training. Additional credits may be required to address student deficiencies or build specialized expertise.
- Student will be required to complete a Qualifying Activity before proposing a Dissertation. The purpose of the qualifying activity is for the student to acquire not only the expertise in a given area, but the ability to explain, discuss, and debate questions within that and related areas. Students may choose, in consultation with their advisor, from the following qualifying activities: one extensive qualifying paper, three brief papers, or a written examination.
- Comprehensive Examination. The Comprehensive examination for the doctoral program will consist of an examination administered once each year. Students may take the exam after they have completed 66 credits and the Master's thesis.
- Students must obtain a grade of B- or better in each course taken for that course to count toward the degree. One grade below a B- (i.e. C+ or lower) will result in probation. Once on probation for receiving a grade below a B-, a second grade (in the same or different classes) below a B-, will result in immediate separation from the program. If a student re-takes a course in which s/he received a grade lower than a B- (i.e. C+ or lower) and earns a B- or better, s/he will be removed from probation. A student may only be on academic probation twice during their graduate career in Psychology; a third probation will result in separation from the program. No student shall be allowed more than two simultaneous grades of incomplete, except in the case of a documented and approved medical leave.
- Students must conform to all policies of the UNLV Graduate College, as stated in the UNLV Graduate Catalog, those stated in the UNLV Experimental Psychology Doctoral Program Student Handbook, and the American Psychological Association Code of Ethics. Students will be evaluated at least yearly across several professional competencies in the following three areas: (1) academic performance; (2) scholarly research activity; and (3) ethical behavior and professional conduct. If the program determines that a student is not making satisfactory progress toward the degree, it may request the Graduate Dean to separate the student from the program or place the student on probation. Failure to meet the conditions of the probation will result in separation from the program.
- Students must take a minimum of four semesters of dissertation which can include summers. The dissertation must be orally proposed and defended.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for both the Master's and Doctoral portions of the program.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 8 Requirements: Post-Master's - Experimental Psychology - Cognitive Emphasis Track

Total Credits Required: 53

Course Requirements

- Required Courses – Credits: 3-12
 - Complete 3-12 credits from the following list of courses:
 - PSY 707 - Research Methods
 - PSY 708 - Statistics for Psychologists I
 - PSY 709 - Statistics for Psychologists II
 - PSY 756 - Ethics, Professional Issues, and Diversity in Experimental Psychology
- Proseminar Course – Credits: 0-6
 - Complete the following course each semester during the first two years of study.
 - PSY 758 - Proseminar in Experimental Psychology
- Cognitive Emphasis Courses – Credits: 0-6
 - Complete 0-6 credits from the following list of courses:
 - PSY 703 - Cognitive Psychology
 - PSY 717 - Cognitive Methods
 - PSY 718 - Cognitive Science
- Cognitive Seminar Courses – Credits: 0-6
 - Complete 0-6 credits from the following list of courses (excluding those taken as Emphasis Courses):
 - PSY 703 - Cognitive Psychology
 - PSY 717 - Cognitive Methods
 - PSY 718 - Cognitive Science
 - PSY 747 - Topics in Perception
 - PSY 748 - Topics in Memory:
 - PSY 749 - Topics in Cognitive Processes:
- Elective Courses – Credits: 11-21
 - Complete 11-21 credits of 700-level Psychology courses, or other 700-level advisor-approved courses offered by other departments. 600-level courses offered by other departments require advisor approval and concurrence by the Experimental Program Director.
 - Two electives typically taken by students are:
 - PSY 757 - Teaching of Psychology
 - PSY 772 - Experimental Psychology Qualifying Paper Research
- Dissertation – Credits: 12
 - PSY 770 - Dissertation

Degree Requirements

- Students must complete a minimum of 53 credit hours with a minimum GPA of 3.00. Additional credits may be required to address student deficiencies or build specialized expertise.
- The number of Required, Proseminar, Cognitive Emphasis, Cognitive Seminar, and Elective credits will be determined in consultation with the Director of Clinical Training. Additional credits may be required to address student deficiencies or build specialized expertise.
- Student will be required to complete a Qualifying Activity before proposing a Dissertation. The purpose of the qualifying activity is for the student to acquire not only the expertise in a given area, but the ability to explain, discuss, and debate questions within that and related areas. Students may choose, in consultation

with their advisor, from the following qualifying activities: one extensive qualifying paper, three brief papers, or a written examination.

- The Comprehensive Examination for the doctoral program will consist of an examination administered once each year. Students may take the exam after they have completed 66 credits and the Master's thesis.
- Students must obtain a grade of B- or better in each course taken for that course to count toward the degree. One grade below a B- (i.e. C+ or lower) will result in probation. Once on probation for receiving a grade below a B-, a second grade (in the same or different classes) below a B-, will result in immediate separation from the program. If a student re-takes a course in which s/he received a grade lower than a B- (i.e. C+ or lower) and earns a B- or better, s/he will be removed from probation. A student may only be on academic probation twice during their graduate career in Psychology; a third probation will result in separation from the program. No student shall be allowed more than two simultaneous grades of incomplete, except in the case of a documented and approved medical leave.
- Students must conform to all policies of the UNLV Graduate College, as stated in the UNLV Graduate Catalog, those stated in the UNLV Experimental Psychology Doctoral Program Student Handbook, and the American Psychological Association Code of Ethics. Students will be evaluated at least yearly across several professional competencies in the following three areas: (1) academic performance; (2) scholarly research activity; and (3) ethical behavior and professional conduct. If the program determines that a student is not making satisfactory progress toward the degree, it may request the Graduate Dean to separate the student from the program or place the student on probation. Failure to meet the conditions of the probation will result in separation from the program.
- Students must take a minimum of four semesters of dissertation which can include summers. The dissertation must be orally proposed and defended.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for both the Master's and Doctoral portions of the program.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 9 Requirements: Post-Master's - Experimental Psychology - Neuroscience Emphasis Track

Total Credits Required: 53

Course Requirements

- Required Courses – Credits: 9-15
 - Complete 9-15 credits from the following list of courses. *Students lacking sufficient background in Neuroscience will also take PSY 701 – Biological Bases of Behavior prior to taking these core courses.
 - PSY 708 - Statistics for Psychologists I

- PSY 709 - Statistics for Psychologists II
 - PSY 719 - Behavioral Neuroscience*
 - PSY 720 - Systems and Cognitive Neuroscience*
 - PSY 756 - Ethics, Professional Issues, and Diversity in Experimental Psychology
- Proseminar Course – Credits: 0-6
 - Complete the following course each semester during the first two years of study.
 - PSY 758 - Proseminar in Experimental Psychology
- Elective Courses – Credits: 20-27
 - Complete 20-27 credits of 700-level Psychology courses, or other 700-level advisor-approved courses offered by other departments. 600-level courses offered by other departments require advisor approval and concurrence by the Experimental Program Director.
 - Two electives typically taken by students are:
 - PSY 757 - Teaching of Psychology
 - PSY 772 - Experimental Psychology Qualifying Paper Research
- Dissertation – Credits: 12
 - PSY 770 - Dissertation

Degree Requirements

- Students must complete a minimum of 53 credit hours with a minimum GPA of 3.00. Additional credits may be required to address student deficiencies or build specialized expertise.
- The number of Required, Proseminar, and Elective credits will be determined in consultation with the Director of Clinical Training. Additional credits may be required to address student deficiencies or build specialized expertise.
- Student will be required to complete a Qualifying Activity before proposing a Dissertation. The purpose of the qualifying activity is for the student to acquire not only the expertise in a given area, but the ability to explain, discuss, and debate questions within that and related areas. Students may choose, in consultation with their advisor, from the following qualifying activities: one extensive qualifying paper, three brief papers, or a written examination.
- The Comprehensive Examination for the doctoral program will consist of an examination administered once each year. Students may take the exam after they have completed 66 credits and the Master's thesis.
- Students must obtain a grade of B- or better in each course taken for that course to count toward the degree. One grade below a B- (i.e. C+ or lower) will result in probation. Once on probation for receiving a grade below a B-, a second grade (in the same or different classes) below a B-, will result in immediate separation from the program. If a student re-takes a course in which s/he received a grade lower than a B- (i.e. C+ or lower) and earns a B- or better, s/he will be removed from probation. A student may only be on academic probation twice during their graduate career in Psychology; a third probation will result in separation from the program. No student shall be allowed more than two simultaneous grades of incomplete, except in the case of a documented and approved medical leave.
- Students must conform to all policies of the UNLV Graduate College, as stated in the UNLV Graduate Catalog, those stated in the UNLV Experimental Psychology Doctoral Program Student Handbook, and the American Psychological Association Code of Ethics. Students will be evaluated at least yearly across several professional competencies in the following three areas: (1) academic performance; (2) scholarly research activity; and (3) ethical behavior and professional conduct. If the program determines that a student is not making satisfactory progress toward the degree, it may request the Graduate Dean to separate the student from the program or place the student on probation. Failure to meet the conditions of the probation will result in separation from the program.
- Students must take a minimum of four semesters of dissertation which can include summers. The dissertation must be orally proposed and defended.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for both the Master's and Doctoral portions of the program.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 10 Requirements: Post-Master's - Experimental Psychology - Developmental Emphasis Track

Total Credits Required: 53

Course Requirements

- Required Courses – Credits: 3-12
 - Complete 3-12 credits from the following list of courses:
 - PSY 708 - Statistics for Psychologists I
 - PSY 709 - Statistics for Psychologists II
 - PSY 713 - Developmental Research
 - PSY 756 - Ethics, Professional Issues, and Diversity in Experimental Psychology
- Proseminar Course – Credits: 0-6
 - Complete the following course each semester during the first two years of study.
 - PSY 758 - Proseminar in Experimental Psychology
- Developmental Science Course – Credits: 0-6
 - Complete 0-6 credits of the following course:
 - PSY 721 - Developmental Science Topics
- Developmental Seminar Course – Credits: 0-9
 - Complete 0-9 credits of the following course:
 - PSY 740 - Topics in Developmental Psychology
- Developmental Emphasis Courses – Credits: 0-6
 - Complete 0-6 credits from the following list of courses:
 - PSY 701 - Biological Bases of Behavior
 - PSY 704 - Social Psychology

 - PSY 719 - Behavioral Neuroscience
 - Or
 - PSY 720 - Systems and Cognitive Neuroscience

 - PSY 703 - Cognitive Psychology

Or

- PSY 718 - Cognitive Science

- Elective Courses – Credits: 2-12
 - Complete 2-12 credits of 700-level Psychology courses, or other 700-level advisor-approved courses offered by other departments. 600-level courses offered by other departments require advisor approval and concurrence by the Experimental Program Director.
 - Two electives typically taken by students are:
 - PSY 757 - Teaching of Psychology
 - PSY 772 - Experimental Psychology Qualifying Paper Research
- Dissertation – Credits: 12
 - PSY 770 - Dissertation

Degree Requirements

- Students must complete a minimum of 53 credit hours with a minimum GPA of 3.00. Additional credits may be required to address student deficiencies or build specialized expertise.
- The number of Required, Proseminar, Developmental Science, Developmental Seminar, Developmental Emphasis, and Elective credits will be determined in consultation with the Director of Clinical Training. Additional credits may be required to address student deficiencies or build specialized expertise.
- Student will be required to complete a Qualifying Activity before proposing a Dissertation. The purpose of the qualifying activity is for the student to acquire not only the expertise in a given area, but the ability to explain, discuss, and debate questions within that and related areas. Students may choose, in consultation with their advisor, from the following qualifying activities: one extensive qualifying paper, three brief papers, or a written examination.
- The Comprehensive Examination for the doctoral program will consist of an examination administered once each year. Students may take the exam after they have completed 66 credits and the Master's thesis.
- Students must obtain a grade of B- or better in each course taken for that course to count toward the degree. One grade below a B- (i.e. C+ or lower) will result in probation. Once on probation for receiving a grade below a B-, a second grade (in the same or different classes) below a B-, will result in immediate separation from the program. If a student re-takes a course in which s/he received a grade lower than a B- (i.e. C+ or lower) and earns a B- or better, s/he will be removed from probation. A student may only be on academic probation twice during their graduate career in Psychology; a third probation will result in separation from the program. No student shall be allowed more than two simultaneous grades of incomplete, except in the case of a documented and approved medical leave.
- Students must conform to all policies of the UNLV Graduate College, as stated in the UNLV Graduate Catalog, those stated in the UNLV Experimental Psychology Doctoral Program Student Handbook, and the American Psychological Association Code of Ethics. Students will be evaluated at least yearly across several professional competencies in the following three areas: (1) academic performance; (2) scholarly research activity; and (3) ethical behavior and professional conduct. If the program determines that a student is not making satisfactory progress toward the degree, it may request the Graduate Dean to separate the student from the program or place the student on probation. Failure to meet the conditions of the probation will result in separation from the program.
- Students must take a minimum of four semesters of dissertation which can include summers. The dissertation must be orally proposed and defended.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for both the Master's and Doctoral portions of the program.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Post-Bachelor's – Clinical Psychology Track
- Subplan 2: Post-Master's – Clinical Psychology Track
- Subplan 3: Post-Bachelor's – Experimental Psychology – General Emphasis Track
- Subplan 4: Post-Bachelor's – Experimental Psychology – Cognitive Emphasis Track
- Subplan 5: Post-Bachelor's – Experimental Psychology – Neuroscience Emphasis Track
- Subplan 6: Post-Bachelor's – Experimental Psychology – Developmental Emphasis Track
- Subplan 7: Post-Master's – Experimental Psychology – General Emphasis Track
- Subplan 8: Post-Master's – Experimental Psychology – Cognitive Emphasis Track
- Subplan 9: Post-Master's – Experimental Psychology – Neuroscience Emphasis Track
- Subplan 10: Post-Master's – Experimental Psychology – Developmental Emphasis Track

Psychology Courses

PSY 606 - Intermediate Statistics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work. **Prerequisites** Admitted PhD Psychology students only.

PSY 620 - Psychology of Learning

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work. **Prerequisites** Admitted PhD Psychology students only.

PSY 680 - Experimental Psychology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work. **Prerequisites** Admitted PhD Psychology students only.

PSY 681 - Principles of Psychological Testing

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work. **Prerequisites** Admitted PhD Psychology students only.

PSY 682 - History of Psychology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work. **Prerequisites** Admitted PhD Psychology students only.

PSY 683 - Theories of Personality

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the UNLV Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work. **Prerequisites** Admitted PhD Psychology students only.

PSY 701 - Biological Bases of Behavior**Credits 3**

A detailed examination of the biological processes that underlie behavior including basic structure and function of the nervous system, physiological bases of behavior, and neuroscience approaches to topics such as sensation, perception, learning, memory, emotion, sleep, and development. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 702 - Sensation and Perception**Credits 3**

Critical review of major theories and issues in perception research, including a discussion of psychophysical methods, general auditory perception, speech, vision, olfaction, gustation, and touch. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 703 - Cognitive Psychology**Credits 3**

Critical review of theory and findings in cognitive psychology, including an evaluation of research in attention, pattern recognition, the representation of events in memory, and language. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 704 - Social Psychology**Credits 3**

Overview of current theory and research in social psychology. Both the limitations and implications of social psychological theory explored using current research evidence. Topics include attitude change, social influence, attribution theory, social cognition, and cross-cultural perspectives. **Prerequisites** Admitted PhD Psychology students only and PSY 460 and consent of instructor.

PSY 705 - Developmental Psychology**Credits 3**

Survey of cognitive, social, and emotional development from birth through adolescence. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 706 - History of Psychology**Credits 3**

Examination of the forces which have shaped the development of the discipline and the practice of psychology, including antecedents in philosophy, physiology, and psychotherapy. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 707 - Research Methods

Credits 3

Advanced treatment of the issues involved in planning, conducting, and evaluating research. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 708 - Statistics for Psychologists I

Credits 3

Treatment of analysis of variance and multiple comparison methods applied to psychological research.

Prerequisites Admitted PhD Psychology students only.

PSY 709 - Statistics for Psychologists II

Credits 3

Treatment of correlation, multiple regression, chi-square, and analysis of covariance as applied to psychological research. **Prerequisites** Admitted PhD Psychology students only.

PSY 710 - Multivariate Analysis in Psychology

Credits 3

Examination of multivariate statistical techniques including topics such as multivariate analysis of variance and covariance, discriminant function analysis, profile analysis, factor analysis, principal components analysis, and canonical correlation. **Prerequisites** PSY 708 and PSY 709 or equivalent and admitted PhD Psychology students only.

PSY 711 - Advanced Seminar in Psychological Statistics

Credits 3

Examination of advanced statistical techniques such as nonparametric statistics, meta analysis, time-series analysis, and structural equation modeling. **Prerequisites** PSY 708 and PSY 709 or equivalent and admitted PhD Psychology students only.

PSY 712 - Psychometrics

Credits 3

Principles of evaluating and constructing psychological tests using psychometric theory and behavioral assessment methodology. **Prerequisites** Admitted PhD Psychology students only.

PSY 713 - Developmental Research

Credits 3

Application of theory, methods, designs, analyses, and interpretation of research in developmental psychology.

Prerequisites Admitted PhD Psychology students only.

PSY 714 - History and Foundations of Clinical Psychology

Credits 3

An overview of the historical development of psychology as well as exploration of current theoretical and skills-based issues in clinical psychology. **Prerequisites** Admitted PhD Psychology students only and limited to students enrolled in clinical psychology doctoral program.

PSY 715 - Assessment of Children

Credits 3

Theory and practice of psychological assessment of children. **Prerequisites** Admitted PhD Psychology students only and limited to students enrolled in clinical psychology doctoral program.

PSY 716 - Assessment of Adults**Credits 3**

Theory and practice of psychological assessment of adults. **Prerequisites** Admitted PhD Psychology students only and limited to students enrolled in clinical psychology doctoral program.

PSY 717 - Cognitive Methods**Credits 3**

Overview of cognitive and neuroscience research methods, including demonstrations of equipment and software that is used for conducting experiments and analyzing results. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 718 - Cognitive Science**Credits 3**

An exploration of topics related to cognition from fields such as perception, neuroscience, computational modeling, artificial intelligence, anthropology, and linguistics. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 719 - Behavioral Neuroscience**Credits 3**

Examines the neural basis of behavior including cellular, molecular, and genetic contributions. Topics will include neuronal cellular structure and function, neuroanatomy, experimental methods/techniques, and detailed investigations of the mechanisms involved in various behaviors and neurological/psychological disorders.

Prerequisites Admitted PhD Psychology students only and consent of instructor.

PSY 720 - Systems and Cognitive Neuroscience**Credits 3**

Examines systems and cognitive neuroscience theories, methods, and data used to understand topics such as perception, attention, action, learning, memory, emotion, social behavior, language, music, and brain disorders.

Prerequisites Admitted PhD Psychology students only and consent of instructor.

PSY 721 - Developmental Science Topics**Credits 3**

Discussion and critical review of theoretical perspectives and issues in developmental psychology. Topics include aspects of physiological, cognitive, and social development. Course may be repeated. **Notes** Developmental Emphasis students should repeat the course within consecutive semesters. May be repeated to a maximum of six credits. **Prerequisites** Admitted PhD Psychology students.

PSY 725 - Intervention with Children**Credits 3**

Principles and methods of psychological intervention with children. **Prerequisites** Admitted PhD Psychology students only and limited to students enrolled in clinical psychology doctoral program.

PSY 726 - Intervention with Adults**Credits 3**

Principles and methods of psychological intervention with adults. **Prerequisites** Admitted PhD Psychology students only and limited to students enrolled in clinical psychology doctoral program.

PSY 727 - Seminar in Clinical Psychology**Credits 3**

In-depth study of selected topics in the science and practice of clinical psychology. Focuses on the etiology, assessment, and treatment of specific clinical disorders such as depression, anxiety-based disorders, autism, substance abuse, sexual dysfunctions and paraphilias, marital dysfunctions. **Notes** May be repeated to a maximum of nine credits. **Prerequisites** Completion of year 1 of the Ph.D. Program. Consent of instructor. Admitted PhD Psychology students only.

PSY 735 - Counseling: Theory and Practice

Credits 3

Emphasis on counseling problems, techniques, and practice as well as historic and contemporary therapeutic theories. Includes supervised student counseling. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 736 - Psychopathology

Credits 3

Advanced treatment of psychopathology covering description, diagnosis, classification, physiological factors, and psychodynamics. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 737 - Child Psychopathology

Credits 3

Primary features, etiological theories, and epidemiology of behavior disorders in youth. Major diagnostic groupings covered include internalizing disorders (i.e., anxiety, depression, suicide, social withdrawal), externalizing disorders (i.e. ADHD, conduct disorder, substance abuse), pediatric problems, and developmental disabilities (e.g., autism, mental retardation). **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 740 - Topics in Developmental Psychology

Credits 3

Analysis of theoretical concepts and research pertinent to the development of the individual. **Notes** May be repeated to a maximum of 12 credits. **Prerequisites** Admitted PhD Psychology students only.

PSY 741 - Psychology and Health

Credits 3

In-depth study of selected topics in the science of health psychology and/or the practice of behavioral medicine. Emphasis on theoretical foundations and empirical findings. Topics permitting, instruction on the clinical practice of behavioral medicine. **Prerequisites** Completion of year 1 of PhD program and admitted PhD Psychology students only.

PSY 742 - Psychopharmacology

Credits 3

In-depth study of the effects of psychoactive drugs on nervous system function and behavior. Topics include pharmacokinetics, pharmacodynamics, principles of neurotransmission, mechanisms of drug action, theoretical models of drug dependence and experimental approaches to psychopharmacology research. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 743 - Human Sexuality

Credits 3

In-depth examination of the social and biological foundations of human sexuality. Includes detailed explorations of the latest research on the human sexual response, the relation of sexuality to psychological adjustment, variations in sexual behavior and identity, sexual dysfunction, and sociocultural issues. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 744 - Neuropsychology**Credits 3**

Provides in-depth examination of the area of neuropsychology to include information on the historical roots of neuropsychology, organization of the human nervous system, brain-behavior relationships, higher cognitive functions, assessment techniques, neuropathology, neurological conditions, report writing, and developing recommendations for treatment planning. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 745 - Clinical Geropsychology**Credits 3**

Assessment and psychological treatment of problems experienced in late life. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 746 - Marital and Family Therapy**Credits 3**

Principles and methods of psychological interventions with couples and families. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 747 - Topics in Perception**Credits 3**

A seminar that explores the core concepts and recent developments in an area of perception. Potential topics include vision, hearing, taste, touch, and smell. **Notes** May be repeated to a maximum of 12 credits. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 748 - Topics in Memory:**Credits 3**

Seminar that explores the core concepts and recent developments in an area of memory research. Potential topics include short-term, working, episodic, semantic, procedural, implicit/explicit, and prospective memory.

Prerequisites Admitted PhD Psychology students only and consent of instructor.

PSY 749 - Topics in Cognitive Processes:**Credits 3**

A seminar that explores the core concepts and recent developments in an area of cognitive processes. Potential topics include reasoning, decision-making, mathematics, problem-solving, and language use. **Notes** May be repeated to a maximum of twelve credits. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 750 - Diversity in Professional Psychology**Credits 3**

Acquaints students with the growing body of psychological literature on ethnic, age, life style, and other diversity issues. Emphasis on sensitizing students to unique aspects of minority populations, while enhancing their ability to work with individuals from various backgrounds. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 752 - Group Psychotherapy: Principles and Practice**Credits 3**

The practice of competent, evidence-based group psychotherapy, its foundation, and supportive theories. Addresses key aspects of group therapy and relevant ethics. **Prerequisites** Must have taken or currently be enrolled in PSY 767.

PSY 755 - Ethics and Professional Issues

Credits 3

Examination of ethical and professional issues related to the practice of psychology. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 756 - Ethics, Professional Issues, and Diversity in Experimental Psychology

Credits 3

Examination of ethical, professional, and diversity issues related to the practice of experimental psychology. Topics include publishing, grant funding, the professoriate, scientific misconduct, protection of human and nonhuman subjects, and diversity in experimental psychology. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 757 - Teaching of Psychology

Credits 3

Preparation and presentation of teaching material, the grading process, and solicitation of student feedback, among other variables. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 758 - Proseminar in Experimental Psychology

Credits 1-3

Weekly forum for students and faculty to discuss professional issues and interdisciplinary research in experimental psychology. **Notes** May be repeated to a maximum of three credits. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 760 - Advanced Psychological Assessment

Credits 3

Advanced practice in psychodiagnosis, psychological test administration, scoring, interpretation, and integrated report writing. **Prerequisites** Admitted PhD Psychology students only and consent of instructor and limited to students enrolled in clinical psychology doctoral program.

PSY 762 - Introduction to Clinical Supervision

Credits 3

The practice of competent clinical supervision, focusing on the roles and responsibilities of the supervisor, models and methods of supervision, and legal and ethical issues. Concurrent supervision of practicum students. **Prerequisites** Admitted PhD Psychology students only and consent of instructor and limited to students enrolled in clinical psychology doctoral program.

PSY 763 - Survey of Community Mental Health Resources

Credits 1

Visits to community psychological facilities with presentations by resource professionals. **Grading** S/F grading only. **Prerequisites** Admitted PhD Psychology students only.

PSY 764 - Family Counseling Practicum

Credits 3

Supervised practice in counseling with families and couples. Emphasis on understanding functioning at the family system. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

PSY 765 - Seminar

Credits 1-6

Explores a specific aspect of psychology. Department approval must be obtained prior to registration. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Admitted PhD Psychology students.

PSY 766 - Independent Study

Credits 1–6

Individual reading projects under the direction of a faculty member. Department approval must be obtained prior to registration. **Notes** Student may enroll for 1–6 credits per semester. May be repeated to a maximum of six credits.

Prerequisites Admitted PhD Psychology students only.

PSY 767 - Practicum

Credits 3

Supervised clinical experience at a departmentally approved site. **Notes** Department approval must be obtained prior to registration. May be repeated. **Prerequisites** Admitted PhD Psychology students only.

PSY 768 - Independent Research

Credits 3–9

Individual research projects under the direction of a faculty member. **Notes** Department approval must be obtained prior to registration. Student may enroll for 3–9 credits per semester. May be repeated. **Prerequisites** Admitted PhD Psychology students only.

PSY 769 - Thesis

Credits 3–6. Notes May be repeated, but only six credits will be applied to the student's program. **Grading** S/F grading only. **Prerequisites** Admitted PhD Psychology students only.

PSY 770 - Dissertation

Credits 3–12

Dissertation must be orally proposed and defended. **Notes** Student may enroll for 3–9 credits per semester. May be repeated, but only 12 credits will be applied to the student's program. **Grading** S/F grading only. **Prerequisites** Admitted PhD Psychology students only. **Corequisite** Department approval must be obtained prior to registration.

PSY 771 - Professional Internship

Credits 1–3

The student must complete a full calendar year APA-approved clinical psychology internship. During the internship year, students must register for six credits of PSY 771: Professional Internship. **Notes** May be repeated, but only six credits will be applied to the student's program. **Grading** S/F grading only. **Prerequisites** Admitted PhD Psychology students only.

PSY 772 - Experimental Psychology Qualifying Paper Research

Credits 3

Taken by students in the Experimental Psychology Doctoral Program after completing the Master's degree while completing their Qualifying Paper. **Notes** Three credits are required for doctoral degree requirements. **Grading** S/F grading only. **Prerequisites** Admitted PhD Psychology students only and consent of instructor.

Sociology

The graduate faculty in Sociology consists of scholars/teachers who have earned doctorates at some of the leading graduate schools in the country. The Sociology department offers two graduate program tracks: a Ph.D. program for students who have already earned a Masters degree and a Bachelor's to Ph.D. track for qualified students who want to earn their MA and Ph.D. in Sociology at UNLV in a single program. We offer ten areas of specialization: (1) Family, Aging & the Life Course; (2) Culture; (3) Deviance & Criminology; (4) Environment & Health; (5) Race & Ethnic Studies; (6) Gender & Sexuality; (7) Politics & Social Movements; (8) Social Psychology & Theory; (9) Community & Urban Studies; and (10) Demography & Population Studies. The Ph.D. program, which began in 1989, has already graduated more than 37 scholars who hold positions in academia, the nonprofit sector, private industry and public service. Graduates from our Ph.D. program are trained in advanced theory and methods, and have well-developed expertise in at least two of our departmental areas of specialization. The Sociology department welcomes applications for the Ph.D. programs from candidates who can demonstrate a record of significant academic achievement and potential for professional success in sociology.

Frey, James

Professor and Dean; B.A., Augustana College; M.A., University of Iowa; Ph.D., Washington State University. *UNLV Emeritus 1974.*

Sociology Plan

Doctor of Philosophy - Sociology

Plan Description

The Doctor of Philosophy – Sociology offers programs designed for both students holding a bachelor’s degree in sociology or a closely related discipline who have a strong record of academic success, are likely to be highly successful in graduate school, and who have a professional interest in, and commitment to, earning a doctorate in Sociology and for students who have already earned a Master’s degree in Sociology or a closely related discipline, and who can demonstrate evidence of substantial expertise in Sociology. This program trains students in advanced sociological concepts and applications, as well as advanced theoretical and methodological frameworks for conducting original research. In addition, students develop at least 2 advanced areas of specialization from among the department’s core areas of specialization. Sociology doctoral students also have the opportunity to participate in our pedagogy and postsecondary teacher training program. Graduates of this program are well prepared for academic research and teaching positions, as well as careers in applied and community sociology.

Educational outcomes for our doctoral program include: development of expertise in both classical and contemporary sociological theories, mastery of both quantitative and qualitative research methods and data analysis,

development of specialized expert knowledge in at least two substantive areas, professional socialization, participation in professional organizations, oral presentation skills, familiarity with the process of academic publication of original research, and cultivation of analytical research and writing skills which culminate in the ability to author an original doctoral dissertation of substantial depth and quality. Graduate-level course work in sociology is restricted to students with graduate standing or graduate provisional status in the department, or to those students who have obtained prior written consent from instructors of specific courses in which enrollment is sought and from the graduate coordinator. Please refer to the Sociology Graduate Student Handbook for additional updated information, policies, and procedures.

Learning Outcomes

<http://www.unlv.edu/degree/phd-sociology>

Plan Admission Requirements

- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.
- Applicants to the Post-Bachelor's track must hold a bachelor's degree in sociology from a regionally accredited institution is required. Applicants to the Post-Master's track must hold a master's degree in sociology, or an equivalent master's degree, from an accredited institution in which you wrote and successfully defended a master's thesis.
- Applicants must submit the following to the Sociology department:
 - Satisfactory scores that are less than 5 years old on the general Graduate Record Examination (GRE).
 - At least 3 letters of recommendation, preferably from faculty members who know the student's work, evaluating the student's ability to perform at the Ph.D.-level of study. These should include comments on the student's academic performance, motivation, character, and promise for success in the Ph.D. program.
 - A statement of purpose, written by the applicant that evidences all of the following: writing skills, professionalism, educational and professional/career objectives, and specific areas of interest in sociology generally, and in the UNLV Department of Sociology specifically.
 - Writing Samples:
 - Post-Bachelor's applicants: Two original writing samples of substantial length and quality that indicate student's writing and analytical skills, as well as sociological knowledge.
 - Post-Master's applicants: M.A.-level thesis or at least two original papers of substantial length and quality in an area of sociological inquiry solely written by the applicant.
- If you are interested in applying for a Graduate Assistantship, please be sure to indicate this in your written statement, and complete and submit the Graduate Assistantship online application.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Bachelor's Track

Total Credits Required: 72

Course Requirements

- Required Courses – Credits: 20
 - SOC 701 - Logic of Social Inquiry
 - SOC 702 - Quantitative Methods
 - SOC 704 - Advanced Analytical Techniques
 - SOC 705 - Qualitative Methods
 - SOC 707 - Proseminar I
 - SOC 723 - Classical Sociological Theory
 - SOC 724 - Issues in Contemporary Sociological Theory
- Elective Courses – Credits: 12
 - Complete 12 credits of elective coursework. Up to 3 credits can be flex credits and at least 9 credits must be SOC 700-level.
- Professional Paper – Credits: 3
 - SOC 794 - Professional Paper

After successfully completing the requirements above, students are eligible to earn the Master of Arts – Sociology.

- Advanced ProSeminar Course – Credits: 1
 - SOC 708 - Proseminar II
- Elective Courses – Credits: 24
 - Complete 24 credits of elective coursework. Identify 2 areas of specialization among the department's core areas of study, and complete a minimum of 6 credits in each area. Up to 6 credits can be flex credits and at least 18 credits must be SOC 700-level.
- Dissertation – Credits: 12
 - SOC 799 - Dissertation

Degree Requirements

- Of the 60 required course credit hours, a maximum of 9 hours may be used as flex credits toward any combination of the following: Independent Study; Directed Reading; an approved 600-level Sociology course that is unavailable at the 700 level; and/or an approved 700 level course in a related discipline.
- A minimum of 63 credits must be completed in 700-level Sociology courses, including dissertation credits.
- Students are strongly encouraged to enroll in SOC 709 – Learning to Teach Sociology. Doctoral students who have completed their comprehensive exams and SOC 709 may be eligible for autonomous teaching. Doctoral students teaching their own autonomous courses must be simultaneously enrolled in SOC 710 – Teaching Practicum, Teaching Practicum; after one semester of taking SOC 710 for credit, graduate student instructors may audit the class.
- Any grade below a B will not be accepted for graduate credit. A grade below a B will result in probation. If a student receives two grades below a B, in the same or different courses, s/he will be separated from the program.
- A student may be on academic probation a maximum of two times during their graduate career in Sociology; a third probation will result in separation from the program.
- No student shall be allowed more than 2 simultaneous grades of Incomplete, except in the case of documented and approved emergency or medical leave.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Post-Bachelor's students must complete 3 credits of Professional Paper before defending their Professional Paper and submitting it to a reputable sociology journal for peer review. Students will establish an

Examination Committee, hold a professional paper proposal meeting, author and defend an original piece of research or theory which is then signed-off on by committee members and submitted for peer-review to a reputable sociology journal. The paper need not be accepted for publication for the student to continue matriculating in the program, but the manuscript must make a significant scholarly contribution and be of a high enough quality to merit peer review.

- Students must orally present and defend their completed professional paper to her or his Examination Committee, and receive majority approval.
 - After a successful defense of their professional paper, students must receive signatures of support from their Committee Chair and a majority of other Committee members prior to submitting their article manuscript to an approved peer-review sociology journal.
 - Students may complete this stage of the program only after successfully completing all 20 required credits, as well as a minimum of 12 credits of electives (including up to 3 flex credits).
 - Students may not take any comprehensive exams or complete more than 40 course credits before successfully completing this step in the program.
 - Students who do not successfully complete this requirement in a timely manner (before completing 40 credits) will be placed on probation.
 - After successful completion of all required courses (a minimum of 32 total course credits), 3 credits of professional paper, and this professional paper process (proposal, research, writing, oral defense and journal submission), students must submit all required paperwork to the Graduate College for completion of the Master of Arts in Sociology.
- Post-Bachelor's students who, for personal, professional or academic reasons, decide not to continue on for a Ph.D. may be eligible for an optional exit plan with a Masters degree.
 - Dissertation credits may only be taken after the student successfully defends his/her dissertation prospectus and submits required paperwork to the Graduate College. Students may not take more than 6 dissertation credits per semester.
 - In addition to a minimum of 60 hours of course work, 12 hours of dissertation credits, and successful completion of the professional paper process as described above, a doctoral student must successfully pass 2 comprehensive examinations in their chosen areas of specialization. Students should refer to the detailed guidelines governing the comprehensive exam process in the Graduate Programs Handbook (see Appendix 1).
 - The Area of Specialization comprehensive exams will be offered once a semester; students may only take 1 of these exams per semester. Intention to take a comprehensive exam must be given to the graduate coordinator and senior management assistant by the second week of the semester in which students intend to take the exam.
 - Students may not take a comprehensive exam until they have completed all required course work in these areas.
 - These specialty area comprehensive exams should reflect logical and substantive depth and breadth of knowledge of these areas. Students are expected to prepare for the comprehensive exams by reviewing class materials, meeting with their Graduate Advisory Committee, meeting with faculty sitting on the Areas of Specialization committees, looking at copies of old exams, and doing systematic independent preparation.
 - There are 4 possible grades for the comprehensive exams: Pass with Distinction; Pass; Conditional Pass with Rewrites (to be completed within two weeks of notification); or Fail.
 - A student must retake a failed comprehensive exam within one semester and successfully pass on the second attempt in order to remain in the program. A second failure in the same area will result in separation from the program. During the period of time between the initial Fail on a comprehensive exam and the re-take, the student may not take any other comprehensive exams.

- Both comprehensive exams must be completed prior to the student's dissertation prospectus defense and advancement to candidacy.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for both the Master's and Doctoral portions of the program.
- Doctoral students are required to complete a minimum of 12 credits of dissertation credits: SOC 799 - Dissertation , write an original dissertation of substantial quality and length on a sociological topic, and successfully defend this work in front of the student's Graduate Advisory Committee.
 - Students must work with their Graduate Advisory Committee to ensure quality research, analysis and writing of the comprehensive exams and dissertation.
 - Satisfactory performance on an oral defense of the dissertation prospectus to be held after the successful completion of all course work and the four comprehensive examinations is required. The oral defense will cover the student's dissertation proposal and any deficiencies on the comprehensive exams or in the student's program of study. Upon successful completion of the oral defense of the dissertation prospectus, the student may advance to candidacy and enroll in dissertation credits.
 - Upon completion of the dissertation, a final oral defense will be held in front of the student's Graduate Advisory Committee.
 - Committee members must unanimously pass the student on her or his oral defense for the Ph.D. to be conferred.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Post-Masters Track

Total Credits Required: 51

Course Requirements

- Required Courses – Credits: 21
 - SOC 701 - Logic of Social Inquiry
 - SOC 702 - Quantitative Methods
 - SOC 704 - Advanced Analytical Techniques
 - SOC 705 - Qualitative Methods
 - SOC 707 - Proseminar I
 - SOC 708 - Proseminar II
 - SOC 723 - Classical Sociological Theory
 - SOC 724 - Issues in Contemporary Sociological Theory
- Advanced Theory Course – Credits: 3
 - Complete one of the following courses:
 - SOC 725 - Seminar in Pragmatist Hermeneutics
 - SOC 726 - Current Debates in Social Theory
 - SOC 737 - Seminar in Criminological Theories

- SOC 746 - Seminar in Organizational Theory and Problems
 - SOC 756 - Urban Theory: Culture and Community
 - SOC 763 - Symbolic Interaction
 - SOC 766 - Sociology of Culture
 - SOC 774 - Seminar in Feminist Theories and Research
 - SOC 795A - Seminar on Postmodernism
 - SOC 795B – Seminar on Critical Theory
 - WMST 701 - Feminist Theory
- Advanced Research Methods Course – Credits: 3
 - Complete one of the following courses:
 - SOC 706 - Seminar in Advanced Statistical Analysis in the Social Sciences
 - SOC 717 - Urban Demography and Population Studies
 - SOC 757 - Urban Field Methods
 - SOC 767 - Visual Sociology: Image, Media, Culture
 - SOC 771 - The Virtual Society
 - WMST 702 - Principles of Feminist Inquiry
 - HIST 750 - Methods for the Study of Public History
 - HIST 752 - Modern Archives: Theory and Methodology
- Elective Courses – Credits: 12
 - Complete 12 credits of elective coursework. Identify 2 areas of specialization among the department’s core areas of study, and complete a minimum of 6 credits in each area.
 - Up to 6 credits can be flex credits and at least 6 credits must be SOC 700-level.
- Dissertation – Credits: 12
 - SOC 799 - Dissertation

Degree Requirements

- Of the 12 elective credit hours, a maximum of 6 hours may be used as flex credits toward any combination of the following: Independent Study; Directed Reading; an approved 600-level Sociology course that is unavailable at the 700 level; and/or an approved 700 level course in a related discipline.
- A minimum of 45 credits must be completed in 700-level Sociology courses, including dissertation credits.
- Students are strongly encouraged to enroll in SOC 709 - Learning to Teach Sociology. Doctoral students who have completed their comprehensive exams and SOC 709 may be eligible for autonomous teaching. Doctoral students teaching their own autonomous courses must be simultaneously enrolled in SOC 710 - Teaching Practicum, Teaching Practicum; after one semester of taking SOC 710 for credit, graduate student instructors may audit the class.
- Any grade below a B will not be accepted for graduate credit. A grade below a B will result in probation. If a student receives two grades below a B, in the same or different courses, s/he will be separated from the program.
- A student may be on academic probation a maximum of two times during their graduate career in Sociology; a third probation will result in separation from the program.
- No student shall be allowed more than 2 simultaneous grades of Incomplete, except in the case of documented and approved emergency or medical leave.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department’s discretion. Please see Graduate College policy for committee appointment guidelines.

- Dissertation credits may only be taken after the student successfully defends his/her dissertation prospectus and submits required paperwork to the Graduate College. Students may not take more than 6 Dissertation credits per semester.
- In addition to a minimum of 39 hours of course work and 12 hours of dissertation credits, a doctoral student must successfully pass 2 comprehensive examinations in their chosen areas of specialization. Students should refer to the detailed guidelines governing the comprehensive exam process in the Graduate Programs Handbook. (See Appendix 1).
 - The Area of Specialization comprehensive exams will be offered once a semester; students may only take 1 of these exams per semester. Intention to take a comprehensive exam must be given to the graduate coordinator and senior management assistant by the second week of the semester in which students intend to take the exam.
 - Students may not take a comprehensive exam until they have completed all required course work in these areas.
 - These specialty area comprehensive exams should reflect logical and substantive depth and breadth of knowledge of these areas. Students are expected to prepare for the comprehensive exams by reviewing class materials, meeting with their Graduate Advisory Committee, meeting with faculty sitting on the Areas of Specialization committees, looking at copies of old exams, and doing systematic independent preparation.
 - There are 4 possible grades for the comprehensive exams: Pass with Distinction; Pass; Conditional Pass with Rewrites (to be completed within two weeks of notification); or Fail.
 - A student must retake a failed comprehensive exam within one semester and successfully pass on the second attempt in order to remain in the program. A second failure in the same area will result in separation from the program. During the period of time between the initial Fail on a comprehensive exam and the re-take, the student may not take any other comprehensive exams.
 - Both comprehensive exams must be completed prior to the student's dissertation prospectus defense and advancement to candidacy.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for the program.
- Doctoral students are required to complete a minimum of 12 credits of dissertation credits: SOC 799 – Dissertation , write an original dissertation of substantial quality and length on a sociological topic, and successfully defend this work in front of the student's Graduate Advisory Committee.
 - Students must work with their Graduate Advisory Committee to ensure quality research, analysis and writing of the comprehensive exams and dissertation.
 - Satisfactory performance on an oral defense of the dissertation prospectus to be held after the successful completion of all course work and the four comprehensive examinations is required. The oral defense will cover the student's dissertation proposal and any deficiencies on the comprehensive exams or in the student's program of study. Upon successful completion of the oral defense of the dissertation prospectus, the student may advance to candidacy and enroll in dissertation credits.
 - Upon completion of the dissertation, a final oral defense will be held in front of the student's Graduate Advisory Committee.
 - Committee members must unanimously pass the student on her or his oral defense for the Ph.D. to be conferred.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.

- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Post-Bachelor's Track
- Subplan 2: Post-Master's Track

Sociology Courses

SOC 602 - Sociology and Literature

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 603 - Techniques of Social Research

Credits 4

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 603L - Techniques of Social Research Lab

Credits 0

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 604 - Statistical Methods in the Social Sciences

Credits 4

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 604L - Statistical Methods in the Social Sciences Lab

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 607 - Environment and Society

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 608 - Qualitative Research

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 610 - Sociology of Aging

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 611 - Films, Self and Society

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 612 - Sociology of Art

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 613 - Sociology of Sport

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 614 - Popular Culture

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 615 - World Population Problems

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 616 - Sociology of Work and Occupations

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 617 - Sociology and Leisure

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 621 - Classical Social Theory

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 622 - Contemporary Sociological Theory

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 627 - Comparative Racial and Ethnic Relations

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 628 - Special Topics in Comparative Societies**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 629 - Globalization: Economic, Political, and Cultural Perspectives**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 631 - Crime and Criminal Behavior**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 633 - Juvenile Delinquency**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 634 - Penology & Social Control**Credits 3**

The social and historical development of prison systems and other forms of social control, as well as sociological theories of punishment. Includes recent research on prison population growth, offender rehabilitation, deterrence, recidivism, correctional administration, and inmate culture, as well as political repression and other related topics.

SOC 641 - Social Inequality**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 642 - Sociology of Gambling**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 643 - Urban Sociology**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 644 - Sociology of Occupations and Professions**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 645 - Men in Society**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 646 - Bureaucracy in Society**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 647 - Marriage and the Family**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 649 - Sex and Social Arrangements**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 651 - Russian Society in Transition**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 652 - Sociology of Youth Cultures**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 653 - Gender and Society**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 655 - Social Movements and Social Change**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 658 - Sociology of Mental Health**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 660 - Critical Sociology**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full

description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 661 - Self and Society

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 662 - Mass Communications

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 665 - Collective Behavior

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 666 - Sociology of Medicine

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 667 - Sociology of Science

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 670 - Sociology of Deviance

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 671 - Race and Ethnic Relations in America

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 674 - Sociology of Religion

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 675 - Political Sociology

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 676 - Sociology of Education

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 678 - Women and Society

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 681 - Sociology of Substance Use, Abuse, and Addiction

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 682 - Aging and Social Policy

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 684 - Sociology of Death and Dying

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 688 - Architectural Sociology

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 690 - Seminar

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 697 - Special Topics in Sociology

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SOC 701 - Logic of Social Inquiry**Credits 3**

Advanced introduction to theoretical and methodological approaches in contemporary sociology and their interrelationship. Emphasis on three major paradigms in contemporary sociological research, their assumptions, operational strategies and policy implications. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Consent of graduate coordinator.

SOC 702 - Quantitative Methods**Credits 3**

In-depth review of procedures and issues associated with research design, measurement, sampling, and questionnaire construction in the conduct of survey research, experimentation, and other quantitative research techniques utilized by sociologists. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Consent of graduate coordinator.

SOC 704 - Advanced Analytical Techniques**Credits 4**

Advanced data base creation and analysis including study of appropriate statistics, mainframe computer experience with mass data software, analytical techniques with varying methodologies, data modelling. **Notes** May be repeated to a maximum of eight credits. **Prerequisites** Consent of graduate coordinator.

SOC 705 - Qualitative Methods**Credits 3**

Gives students in-depth training in a variety of qualitative methods, both traditional and new (participant observation, latent content analysis, semiotics, deconstruction, conversation analysis, feminist methodology and

critique, etc.). Explores both the theoretical justifications of each method and gives a hands-on experience in their various applications. **Notes** May be repeated to a maximum of six credits. **Prerequisites** SOC 701, consent of graduate coordinator.

SOC 706 - Seminar in Advanced Statistical Analysis in the Social Sciences

Credits 3

Examines current approaches to statistical modeling of discrete outcomes. Includes loglinear modeling, logistic regression, and event history analysis. Emphasis on mathematical specification of these approaches, usage of software packages for model estimation and interpretation of results. **Prerequisites** SOC 702, SOC 704, and consent of instructor.

SOC 707 - Proseminar I

Credits 1

Course in professional socialization and introduction to graduate program in Sociology. Learn skills necessary for successful matriculation in the graduate program and in academia. Topics include: introduction to faculty research; review of program stages and requirements; conference participation; publishing; CV building. **Prerequisites** Consent of instructor.

SOC 708 - Proseminar II

Credits 1

Course in professional socialization. Topics include: conference presentations, comprehensive exam preparation, abstract construction, scholarly writing and publishing, CV building, professional networking, and job market skills. **Notes** Required for doctoral students; recommended for master's students. **Prerequisites** ProSeminar I or consent of graduate coordinator.

SOC 709 - Teaching Sociology

Credits 3

Provides a key link for future teaching sociologists, assisting them to make the switch from consumers to educators of the sociological perspective. Places equal emphasis on theoretical issues surrounding teaching with the everyday logistical details of effectively managing a university classroom. **Prerequisites** Graduate standing.

SOC 710 - Teaching Practicum

Credits 1

Sociology graduate students teaching autonomous classes are required to take this course. Topics covered include: applied pedagogical theory, student learning styles, assignment and test construction, grading, teaching technologies, and creative strategies for teaching particular sociological theories, methodologies and concepts. **Notes** May be repeated to a maximum of two credits. **Prerequisites** SOC 709 or consent of graduate coordinator.

SOC 713 - Seminar in Sport and Leisure

Credits 3. Notes Topics announced each semester.

SOC 714 - Seminar in Work and Occupations

Credits 3

Examination of occupations and the concept of work from the perspective of contemporary sociological research. **Notes** Selected topics of work and occupations announced each semester. May be repeated to a maximum of six credits. **Prerequisites** Consent of instructor or graduate advisor.

SOC 717 - Urban Demography and Population Studies

Credits 3

Training in quantitative techniques used by researchers in urban population studies. Students will become familiar with available sources of data, the measures of population composition and change, and will receive practical training on how to conduct their own research. **Prerequisites** SOC 702, SOC 704 and SOC 711.

SOC 719 - Seminar in Deviance and Disorganization

Credits 3

Selected topics of deviance and disorganization with specific topics to be announced each semester.

SOC 723 - Classical Sociological Theory

Credits 3

In-depth analysis of the major figures in classical sociological theory. Primary focus on the works of Marx, Weber, Durkheim and Mead, supplemented by a brief discussion of other significant theorists (Comte, Spencer, Simmel, etc.). **Prerequisites** Consent of graduate coordinator.

SOC 724 - Issues in Contemporary Sociological Theory

Credits 3

Examines major issues in contemporary sociological theory. **Prerequisites** SOC 723 and consent of graduate coordinator.

SOC 725 - Seminar in Pragmatist Hermeneutics

Credits 3

Sociological examination of interpretation theory, its historical development, and contemporary applications. Traces the evolution of key ideas from ancient philosophy and biblical exegesis to pragmatist semiotics that moved hermeneutics beyond its traditional preoccupation with texts and toward the embodied, emotionally laden forms of signification. **Prerequisites** SOC 701, SOC 723 and SOC 724 or consent of instructor.

SOC 726 - Current Debates in Social Theory

Credits 3

Advanced seminar in social theory. Includes a series of approximately three to four debates and/or new perspectives in current social theory literature. In-depth analysis of most up-to-date ideas and issues in social theory. **Notes** Different topics covered each time course offered. **Prerequisites** SOC 701, SOC 723, SOC 724 or consent of instructor.

SOC 733 - Advanced Social Documentation: Las Vegas

Credits 3

or 6

Application of multiple theories and methods of social documentation and community studies. Students read classic works of social documentation, as well as conduct their own field research projects in and around Las Vegas utilizing multiple means of documentation, including ethnography, digital imaging, social mapping, GIS, and interviews. **Prerequisites** Graduate standing and consent of instructor.

SOC 737 - Seminar in Criminological Theories

Credits 3

Specific topics and theories to be announced each semester.

SOC 741 - Graduate Seminar in Social Stratification

Credits 3

Analyzes the major systems of stratification including, but not limited to, race, class, and gender. Emphasis on U.S.

and examines interrelationships among the various forms of social inequality. **Prerequisites** Graduate standing.

SOC 742 - Sociology of Gambling

Credits 3

Provides sophisticated understanding of sociological perspectives of gambling. Recreational gambling behaviors among a variety of subpopulations examined. Phenomenon labeled as “problem gambling” by medical experts also explicitly addressed as well as legislative attempts to confront social costs. **Prerequisites** Graduate standing or consent of instructor.

SOC 743 - Seminar in Urbanism and Urbanization

Credits 3

Specific topics announced each semester. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Consent of instructor or graduate advisor.

SOC 745 - The Family-Work Nexus

Credits 3

Examines integral, changing relationship between family and work, emphasizing systematic connection between the two. Includes linkages between work and family; socially constructed gender inequality through work and family activities; and work and family interconnections and conflicts within families whose interests vary. **Prerequisites** Graduate standing.

SOC 746 - Seminar in Organizational Theory and Problems

Credits 3

Specific theories and topics announced each semester. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Consent of instructor or graduate advisor.

SOC 747 - Seminar in Marriage and the Family

Credits 3

Specific topics announced each semester. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Consent of instructor or graduate advisor.

SOC 748 - Gender, Sex, Society

Credits 3

Advanced survey course and seminar on the sociology of gender, sex and sexuality. How does the sex/gender system operate within and through social structures? How are gender/sex/sexuality socially constructed? Examines these questions and ways in which gender/sex/sexuality are historically shaped and intertwined. **Prerequisites** Graduate standing.

SOC 749 - Sociology of Gender and Work

Credits 3

Political-economic analysis of the organization of work, production and reproduction of labor, and linkages between paid work in the market and unpaid work in the home. Specific topics include occupational sex segregation, segmented labor markets, dialectics of paid and unpaid labor, comparable worth, feminism and bureaucracy, emotional work, domestic labor and strategies for change. **Prerequisites** Graduate standing.

SOC 750 - Seminar in the Sociology of Sex

Credits 3

Surveys main theories and debates in sociology of sex and sexuality. Examines sex in relation to economic, cultural, political, international and historical contexts, and in relation to gender, class and racial systems of stratification.

Prerequisites Graduate standing.

SOC 751 - International Issues: Gender, Sex, Globalization

Credits 3

Addresses multicultural feminisms, globalization, human/women's rights, and workings of sex/gender systems in various regions of the world. **Prerequisites** Graduate standing.

SOC 752 - Global Migrations

Credits 3

Seminar examining immigration to the United States. Evaluates structural factors that compel people to cross international boundaries, integration and settlement, and responses to such migratory patterns. Focus placed on immigrant labor, undocumented status, laws and policies, settlement and integration, gender, and new directions in immigration research.

SOC 753 - Racial Justice and Latina/os

Credits 3

Seminar exploring the socio-historical and contemporary experiences of Latina/os in the United States. Topics include the role of Latina/os in the global economy, ethnic identity, social-demographics patterns, social integration, and political implications of the above. Emphasis is placed on social justice.

SOC 754 - Seminar in Population and Equity

Credits 3

Seminar in social demography analyzing the influence of population growth and composition in the United States and globally. Variations in mortality, fertility, migration and their influence on social, cultural, political, and economic structures will be examined. Other topics include race/ethnic demographic patterns, population resources, economic development, and the environment.

SOC 755 - Social Movements and Social Change

Credits 3

Provides deep, critical understanding of the presumptions, purposes, limitations, and special strengths of sociological theorizing or social movements and social change. Emphasis on questions about social movements and their historical context and movement formation, organization, careers, participants, ideology and effects.

Prerequisites Graduate standing.

SOC 756 - Urban Theory: Culture and Community

Credits 3

Critical examination and evaluation of sociological theories about urban cultures and communities in light of recent literature, findings, and students' own observations. **Prerequisites** SOC 701

SOC 757 - Urban Field Methods

Credits 3

Training in methods for conducting qualitative research in urban settings. These include participant observation, interviewing, archival narrative analysis, and visual studies. Students will conduct their own research and discuss their emerging findings. **Prerequisites** SOC 705 and SOC 756

SOC 763 - Symbolic Interaction

Credits 3

Symbolic interaction from the traditional ideas of Mead to the postmodern versions of interactionism. Approaches derived from phenomenology, existential sociology, labeling, ethnomethodology, dramaturgy, feminist

interactionism, and postmodernism covered. Pays particular attention to the self. **Prerequisites** Graduate standing.

SOC 764 - Seminar in Social Psychology

Credits 3

Specific topics announced each semester.

SOC 766 - Sociology of Culture

Credits 3

Broad introduction in field of cultural sociology –its historical development, different theories and methods, definition and analytical problems. **Prerequisites** Graduate standing.

SOC 767 - Visual Sociology: Image, Media, Culture

Credits 3

Role of the visual in sociology as well as sociology of the visual. Addresses issues of visual research methods as well as reviewing theories of images, media and culture. Studies interplay between historical and contemporary social aspects of production and consumption of visual culture. **Prerequisites** Graduate standing.

SOC 768 - Environmental Sociology

Credits 3

Provides deep, critical understanding of macro-sociological dimensions of environment-society relationship. Emphasis given to sociological approaches to the ideology of environmental domination, capitalist economy and environmental sustainability, rationality and nature, and ecological social movements. **Prerequisites** Graduate standing.

SOC 769 - Ecology, Culture, Social Psychology

Credits 3

Explores reciprocal influences between ecology, culture, and social psychological dynamics. Examines relation between landscapes and mindscapes, implications of cultural constructions of nature for interactions with/in the natural environment and routine social psychological dynamics, ecological identity, and contours of an ecocentric perspective. **Prerequisites** Graduate standing.

SOC 770 - Racial and Ethnic Relations

Credits 3

Historical and contemporary studies of racial and ethnic relations, both in the US and around the world. Emphasis placed on contemporary theoretical and ethnographic work.

SOC 771 - The Virtual Society

Credits 3

This course examines the scholarship on the digitalization of society and computer-mediated communication, focusing especially on the psychological, interactional, cultural, and economic impacts of virtualization.

Prerequisites SOC 701

SOC 773 - Seminar in Drug Use and Abuse

Credits 3

Specific topics announced each semester.

SOC 774 - Seminar in Feminist Theories and Research

Credits 3

Current issues in feminist theories and research and feminist critiques of social sciences. Discussions of theoretical

as well as epistemological and methodological issues. **Prerequisites** Consent of instructor and graduate standing.

SOC 775 - Seminar in the Sociology of Mental Illness

Credits 3

Specific topics announced each semester.

SOC 776 - Seminar in Political Sociology

Credits 3

Explores relations between states and social institutions such as social classes, interest groups, and systems of cultural and material production and reproduction. Covers issues such as theories of the state, political behavior, and frameworks for the development of solutions to various contemporary problems. **Same as** (EPS 749). **Prerequisites** Graduate standing.

SOC 777 - Seminar in the Sociology of Education

Credits 3

Sociological analysis of the institution of education. Primary attention directed toward class, race, and gender inequalities. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Consent of instructor.

SOC 779 - Seminar in Sociology of Aging

Credits 3

Specific topics announced each semester.

SOC 780 - Aging and Social Policy

Credits 3

Current issues in public policy in the sociology of aging. Examines the development of policies regarding aging in specific domains (e.g. labor force, retirement, income security, health care); assesses debates on society's risks and responsibilities for elders; and considers impact of history, demographic change, place, and heterogeneity of elders on resource allocation and the lives of elders, families, and communities. **Prerequisites** Graduate standing.

SOC 785 - Seminar in Social Policy and Evaluation Research

Credits 3

Interrelationships of the development of social policy and their requirements for ongoing evaluation as a component part of program development.

SOC 790 - Sociological Internship

Credits 1-4

Supervised internships in community organizations providing experience in administration, planning, and research. Placements concentrate on the organization and operation of agencies rather than on direct delivery of client services. **Notes** May be repeated to a maximum of six credits. One to four credits per semester. **Prerequisites** Consent of field experience coordinator.

SOC 791 - Field Experience in Sociology

Credits 1-4

Supervised internships in community organizations providing experience in administration, planning, and research. Placements concentrate on the organization and operation of agencies rather than on direct delivery of client services. **Notes** May be repeated to a maximum of six credits. One to four credits per semester. **Prerequisites** Consent of field experience coordinator.

SOC 794 - Professional Paper

Credits 3

Research, analysis, writing and editing for students submitting a Professional Paper as the culminating experience in the M.A. program, or for students submitting an article for publication as required in the B.A. to Ph.D. program track. **Notes** Only three credits may count toward degree. **Prerequisites** SOC 711 or SOC 712, and SOC 704, SOC 705, SOC 724 and consent of graduate coordinator.

SOC 795 - Seminar**Credits 3**

Specific topics announced each semester. **Notes** May be repeated to a maximum of nine credits (contingent on enrollment in different seminar topics).

SOC 796 - Directed Readings**Credits 1–3**

Supervised readings on special topics selected in consultation with a sociology graduate faculty member. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Consent of instructor.

SOC 797 - Independent Study**Credits 1–3**

Consultation course consisting of individual student effort under guidance of instructor. Students assigned to or request assignment to specific problems in sociology on the basis of interest and preparation. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Consent of instructor.

SOC 798 - Thesis**Credits 3**

or 6. **Notes** May be repeated but only six credits applied to the student's program. **Grading** S/F grading only.

SOC 799 - Dissertation**Credits 1–6**

Research, analysis, and writing toward completion of the dissertation and preparation for subsequent oral defense. **Notes** Students are required to complete twelve credits for their doctoral degree; may register for additional credits but they will not count toward degree. **Grading** S/F grading only. **Prerequisites** Advancement to candidacy in Sociology Ph.D. program and consent of instructor.

World Languages and Cultures

The focus on language, literature, and culture in the Spanish M.A. program offers a variety of study options in order to meet the growing demand for students who seek to acquire not only a humanistic preparation in a second language but also the necessary tools for an important practical application of a second language to their future careers. These include, among many others, areas such as public and private school teaching, communications, business, law, medicine, or further graduate studies at another institution of higher learning. Enrollment in small seminars allows students to interact easily with peers and create productive mentor relationships with the faculty.

World Languages and Cultures Plan

Master of Arts - Hispanic Studies

Plan Description

The M.A. program in Hispanic Studies is flexible, allowing students to concentrate on culture, language, literature, and translation. The program aims to meet the needs of students interested in teaching and other professions.

Learning Outcomes

www.unlv.edu/degree/ma-hispanic-studies

Plan Admission Requirements

Before acceptance into the program, students will take a pre-qualifying examination administered by the department that will test their Spanish language skills. Students must pass this examination before being officially admitted to the M. A. program. The exam may be retaken once.

Candidates for admission to the graduate program in foreign languages should have the equivalent of the UNLV undergraduate major in the corresponding language with a minimum grade point average of 3.00 in the major field. In some cases, a student who has a bachelor's degree in another discipline could be admitted to the program upon the recommendation of the department graduate advisor. Possible transfer credit will be determined by the graduate coordinator in accordance with the policies of the Graduate College. To apply for admission, submit to the Graduate College an application and official transcripts of all college-level work. Two letters of recommendation, a statement of goals, and official transcripts of all college-level work should be sent directly to the department.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 33

Course Requirements

- **Required Linguistics Course – Credits: 3**
 - Complete one of the following courses:
 - FOL 714 - Current Issues in Second Language Acquisition
 - SPAN 717 - Seminar in Spanish Linguistics
- **Required Courses – Credits: 6**
 - SPAN 709 - Writing Workshop
 - SPAN 720 - Textual Analysis
- **Elective Courses – Credits: 18-21**
 - A variety of courses in language, linguistics, literature, and culture will be offered to allow students to complete their degree. Students completing the Comprehensive Written Examination must complete a minimum of 21 credits of elective coursework, and students completing the Research Project must complete a minimum of 18 credits of elective coursework.
- **Culminating Experience – Credits: 3-6**
 - Select one of the following:
 - SPAN 798 - M. A. Written Examination
 - SPAN 797 - M.A. Written Project (6 credits)

Degree Requirements

- Completion of a minimum of 33 credit hours with a minimum GPA of 3.00.
- Students may apply a maximum of 9 credits at the 600-level to their graduate program.
- Upon departmental approval, students may take 6 of their total credits at the graduate level outside the department in an area relevant to their chosen concentration.
- Courses taken for graduate credit may not be repeated, with the exception of SPAN 730 and SPAN 740, provided that topics change. Graduate courses may not be audited without the consent of the instructor. A grade below a B- will place a student on probation. A second grade below a B- will cause a student to be separated from the program.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements for the program.
- To qualify for graduation, each student must successfully pass a written examination or complete a final research project.
 - **Written Examination:** Students choosing the written examination option must include SPAN 798 in their program. After completing 21 credits, students, in consultation with the graduate coordinator, will choose for their examination three of the following six areas of concentration: Peninsular culture, Latin American culture, linguistics, Peninsular literature, Latin American literature, and translation theory. Once these areas are chosen they may not be changed, nor may the option be changed. The exam will be based on the courses taken as well as on a supplementary list of readings for each area available in the department. The exam will include three 90-minute sections drafted by the examination committee. Grammatical accuracy will also be a graded component of the exam. After passing all three parts of the written exam, students will take an oral examination covering these chosen areas. Students who do not pass any part(s) of the exam will be allowed to retake the failed part(s) only once. Students who do not pass all three parts and the oral examination the second time will be separated from the program.

- Final Research Project: Students with at least a 3.8 GPA may (upon the approval of the Spanish graduate coordinator) substitute a final project (six credits of SPAN 797) for the written examination. Before initiating the project, students will establish a three-member faculty examination committee and secure their approval of the project proposals. If the proposal is rejected twice, the student must take the written examination option. When accepted projects are completed, students will take the Final Examination, an oral examination covering the final project. The committee shall consist of the project director, two other members of the graduate faculty, and the graduate faculty representative. Students whose projects are not acceptable for defense will be allowed to resubmit their project the following semester. Students who do not secure approval the second time will be separated from the program. More detailed guidelines will be distributed to enrolled students.

World Languages and Cultures Courses

FOL 614 - Romance Linguistics

Graduate credit (12 credits maximum) may be obtained for courses designated 650 or above when taught by graduate faculty. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level requires additional work.

FOL 699 - Application of Linguistics to the Teaching of Languages

Graduate credit (12 credits maximum) may be obtained for courses designated 650 or above when taught by graduate faculty. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level requires additional work.

FOL 714 - Current Issues in Second Language Acquisition

Credits 3

Investigates current issues in theoretical studies of second language acquisition, and a comparison of L1/L2 acquisition in light of recent developments in linguistic theory and empirical studies. Provides overview of major subdisciplines, issues and approaches.

FOL 715 - Theory of Translation

Credits 3

Readings in the theory of translation, as well as textual analysis of existing translations to and from several different languages. **Notes** Taught in English. **Prerequisites** Graduate student with advanced knowledge of one foreign language, consent of instructor.

FOL 716 - Workshop in Translation

Credits 3

Explores problems inherent in the translation of foreign texts, works on individual and common projects with assistance of instructor. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Graduate student with advanced knowledge of one foreign language, FOL 715, consent of instructor.

FOL 717 - Independent Studies in Translation

Credits 3

Opportunity to pursue an individualized course or project in translation studies. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Graduate student with advanced knowledge of one foreign language, FOL

715, FOL 716, consent of instructor.

FRE 621 - Literature of the Middle Ages

Graduate credit (12 credits maximum) may be obtained for courses designated 650 or above when taught by graduate faculty. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level requires additional work.

FRE 632 - Renaissance Literature

Graduate credit (12 credits maximum) may be obtained for courses designated 650 or above when taught by graduate faculty. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level requires additional work.

FRE 650 - History of the French Language

Graduate credit (12 credits maximum) may be obtained for courses designated 650 or above when taught by graduate faculty. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level requires additional work.

FRE 653 - French Institutions and Cultural Life

Graduate credit (12 credits maximum) may be obtained for courses designated 650 or above when taught by graduate faculty. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level requires additional work.

FRE 654 - The Arts in France

Graduate credit (12 credits maximum) may be obtained for courses designated 650 or above when taught by graduate faculty. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level requires additional work.

FRE 655 - The Culture of Paris

Graduate credit (12 credits maximum) may be obtained for courses designated 650 or above when taught by graduate faculty. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level requires additional work.

FRE 690 - Selected Topics of French Literature

Graduate credit (12 credits maximum) may be obtained for courses designated 650 or above when taught by graduate faculty. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level requires additional work.

FREN 701 - Methods of Literary Research and the Writing of Essays

Credits 3

Bibliography and documentation including the techniques of the dissertation française (three-part essay).

FREN 702 - French Literary Criticism

Credits 3

History of literary criticism from the Renaissance to the present. Theories and techniques of twentieth-century literary criticism emphasized.

FREN 703 - Guided Reading and Research

Credits 1–3. Notes May be repeated for up to six credits.

FREN 704 - Selected Topics in French Literature

Credits 3

Study of a particular literary theme or individual writer as chosen by the professor. Topics vary. **Notes** May be repeated for credit.

FREN 722 - The Courtly Romance

Credits 3

Studies origins and variations of French courtly romance. Close analysis of prevalent themes and stylistic found in works of Marie de France, Chretien de Troyes, and Guillaume de Lorris. **Prerequisites** Graduate standing or consent of instructor.

FREN 741 - The Development of the French Novel

Credits 3

Evolution of the novel as a genre, from Chretien de Troyes to contemporary writers. **Notes** Taught in French.

FREN 742 - The Evolution of French Theater

Credits 3

Study of the development of the dramatic arts in France. **Notes** Taught in French.

FREN 743 - The Evolution of French Poetry

Credits 3

Evolution of poetry, from the troubadours to contemporary French poets. **Notes** Taught in French.

FREN 755 - Studies in Francophone Culture

Credits 3

Presentation of French speaking cultures outside metropolitan France. **Notes** May be repeated for up to six credits. Taught in French.

FREN 792 - Studies in Francophone Literature

Credits 3

Study of principal works in Francophone literature. **Notes** May be repeated for up to six credits. Taught in French.

FREN 797 - Thesis

Credits 3–6

ITAL 603 - Advanced Reading Proficiency in Italian

Graduate credit (12 credits maximum) may be obtained for courses designated 650 or above when taught by graduate faculty. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level requires additional work.

ITAL 662 - Dante's Divine Comedy

Credits 3

A select reading in the Divine Comedy with some reference to Dante's other works, Convivio, Monarchia, and Vita Nuova. **Notes** Taught in English.

SPAN 650 - Advanced Topics in Hispanic Literature

Graduate credit (12 credits maximum) may be obtained for courses designated 650 or above when taught by graduate faculty. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level requires additional work.

SPAN 696 - Spanish Dialectology**Credits 3**

Graduate credit (12 credits maximum) may be obtained for courses designated 650 or above when taught by graduate faculty. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level requires additional work.

SPAN 703 - Guided Reading and Research

Credits 1–3. Notes May be repeated to a maximum of six credits.

SPAN 708 - Teaching Literature in Language Classes**Credits 3**

Investigation of concerns related to integration of short stories into Spanish language skill classes. Variety of pedagogical resources and techniques explored. Students acquire a collection of teaching ideas, materials and strategies. **Notes** Taught in Spanish.

SPAN 709 - Writing Workshop**Credits 3**

Enhance students' writing skills in Spanish. Some grammar issues reviewed. Analyzes writing techniques for different texts such as reports, summaries, reviews and analytical papers. Student apply these techniques to their own assignments. **Notes** Taught in Spanish. **Prerequisites** Successful completion of departmental Spanish language exam.

SPAN 710 - Studies in the Spanish Language**Credits 3**

Current approaches to topics related to the Spanish language. **Notes** May be repeated with different topics to a maximum of six credits. Taught in Spanish. **Prerequisites** SPAN 717 or consent of instructor.

SPAN 713 - Spanish Sociolinguistics**Credits 3**

Overview of the varied manifestations of the Spanish language. Topics include regional variation, social variation, code-switching, and bilingualism. **Notes** Taught in Spanish. **Prerequisites** SPAN 717 or consent of instructor.

SPAN 716 - Romance Linguistics**Credits 3**

Linguistic development of Latin into the different Romance languages and dialects, with background of social and cultural history of the Romance-speaking area.

SPAN 717 - Seminar in Spanish Linguistics**Credits 3**

Introduction to structure of the Spanish language within framework of theoretical linguistics. Topics covered include analysis of Spanish sound system, word formation processes, and sentence structure. **Notes** Taught in Spanish.

SPAN 720 - Textual Analysis**Credits 3**

Introduction to textual criticism, based on broad concept of text used by current theoretical trends. Theoretical approaches include Russian Formalism to Postmodernism and application to different texts such as film, architecture, comics, commercial ads, TV programs, fashion and literary texts. **Notes** Taught in Spanish.

SPAN 730 - Studies in Hispanic Culture

Credits 3

Study of aspects of culture reflected in works of scholars, writers, artists, and the mass media. **Notes** May be repeated with different topics for a maximum of six credits. Taught in Spanish.

SPAN 740 - Studies in Hispanic Literature**Credits 3**

Covers selected works in Hispanic literature which reflect prominent cultural trends. Texts studied may represent historical periods, a literary genre, or a single important author. Variety of critical perspectives and overview of the sociopolitical environment incorporated. **Notes** May be repeated with different topics. Taught in Spanish.

SPAN 770 - Studies in Translation**Credits 3**

Offers access to wide range of topics in Spanish-English translation. Focuses on a specific area, such as the translation of cultural difference or the formal problems involved in the translation of poetry. **Notes** May be repeated a maximum of six credits. Taught in Spanish. **Prerequisites** SPAN 709 and ENG 602 or ENG 603.

SPAN 780 - Studies in Interpretation**Credits 3**

Offers access to wide range of topics in Spanish-English interpretation. Focuses on a specific area, such as advanced medical, legal or conference interpretation. **Notes** May be repeated to a maximum of six credits. Taught in Spanish. **Prerequisites** SPAN 709 and ENG 602 or ENG 603.

SPAN 796 - Independent Study**Credits 3**

Individual reading projects under direction of a faculty member. Department approval must be obtained prior to registration. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Department approval prior to registration.

SPAN 797 - M.A. Written Project**Credits 3**

Development and undertaking of a capstone project in the M.A. program. Approval from student's M.A. Committee must be obtained prior to registration. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Approval from student's M.A. Committee.

SPAN 798 - M. A. Written Examination**Credits 3**

Preparation for the written examination, including the supplementary reading lists. Generally taken in the same semester as written M. A. exam. **Notes** May not be repeated for credit. **Grading** Grade will be pass/fail based on the results of the examination. **Prerequisites** Consent of graduate coordinator.

Interdisciplinary Studies Faculty

Graduate Faculty

Bergquist, Kathleen

Professor.

Bock, Sheila - *Full Graduate Faculty*

Assistant Professor; B.A., UC Berkeley; M.A., Ohio State University; Ph.D., Ohio State University.

Comella, Lynn - *Full Graduate Faculty*

Assistant Professor; Ph.D., University of Massachusetts, Amherst.

Gauthier, Tim - *Full Graduate Faculty*

Assistant Professor.

Macias, Stacy - *Associate Graduate Faculty*

Assistant Professor-in-Residence

Padoongpatt, Tanachai

Assistant Professor; Ph.D., University of Southern California.

Revilla, Anita - *Full Graduate Faculty*

Associate Professor; Ph.D., UCLA.

Roth-Johnson, Danielle - *Associate Graduate Faculty*

Assistant Professor-in-Residence; Ph.D., Stanford University.

Spencer, Rainier - *Full Graduate Faculty*

Professor.

Tuman, John

Associate Professor; Ph.D., UCLA

Interdisciplinary Studies

The College of Liberal Arts offers a number of interdisciplinary programs that enable students to take courses in several departments and colleges on campus. Students combine their course work in exciting and innovative ways beyond the existing Bachelor of Arts and Bachelor of Science degrees in order to meet their career goals and to reflect their personal interests. There are Interdisciplinary B.A. degree programs in the following fields: Afro-American Studies, Asian Studies, Latin American Studies, Multidisciplinary Studies, Social Science Studies and Women's Studies.

Women's Studies provides students with interdisciplinary approaches and methodologies for studying gender relations, i.e. how gender, in intersection with other substantive categories of analysis and identity, such as race, class, sexuality, ethnicity, physical ability, nationality, shapes the material conditions of peoples' lives all over the world. Our classrooms are interactive learning environments that value diversity and multiple perspectives. Our students learn new ways of viewing the world, develop tools for critical thinking, and are empowered to make a difference in the world. Our curriculum provides students with the skills to undertake cutting-edge research on contemporary issues through our core sequence of upper-division courses on theory, research methodologies, and praxis. Students interested in learning more about gender issues in conjunction with other interests find that it is easy to combine our curriculum with other majors, minors and fields of study. In addition, internship and leadership opportunities, combined with individualized advising from core faculty, allows students to pursue career goals while

undertaking their course of study. Women's Studies equips students to enter a range of careers in today's diverse and multicultural workplaces. Students can pursue further study to become researchers and scholars either within the growing field of Women's/Gender Studies or in a wide range of academic fields in the humanities and social sciences where knowledge of contemporary gender analysis provides an advantage.

The Certificate in Women's Studies has been placed in moratorium as the department effects its transition into Interdisciplinary Degree Programs. No students will be accepted into the Certificate Program until further notice

Tim Gauthier, Ph.D., Director

Interdisciplinary Studies Courses

WMST 601 - Feminist Theories

Credits 3

The following undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

WMST 607 - Communication Between the Sexes

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

WMST 618 - Language and Gender

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

WMST 632A - History of American Women to 1870

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

WMST 632B - History of American Women Since 1870

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

WMST 648 - Gender and Social Interaction

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

WMST 671 - Sexuality, Literature and the City

Credits 3

A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

WMST 672 - Controversies in Gender and Race

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full

description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

WMST 673 - Chicana Feminism and Experience

Credits 3

Examines Chicana/Latina experiences as they intersect with race, class, gender, sexuality, and nation. Examines the work of Chicana/Latina writers, feminists, scholars, performers, artists, filmmakers, and activists. Focuses on issues such as immigration, labor, family, language, education, spirituality, identity, patriarchy, homophobia, and racism.

Prerequisites Graduate standing.

WMST 674 - Gender, Sexuality, and Consumer Culture

Credits 3

Explores theoretical and empirical approaches to consumer culture, with a focus on gender, sexuality, social class, and consumption. Examines the rise of mass consumerism in American society, and the ways social participation, individual identities, subcultural communities, and political life are shaped through varied acts of consumption.

WMST 675 - Gender, Development, and Globalization

Credits 3

Examines the relationship between women's position and processes of development and globalization, with a primary focus on Third World women. Considers the interaction of local and global forces in creating change (both positive and negative) and women's perspectives and activism for promoting social equity. **Prerequisites** Graduate Standing.

WMST 676 - Feminism and Activism

Credits 3

Presents selected activist movements across the political spectrum. Includes nineteenth century abolitionism, women's rights and twentieth century socialism and feminism. Also examines movements for social change from the right and left. **Prerequisites** Graduate Standing.

WMST 677 - Critical Race Feminism

Credits 3

Examination of feminist theories put forward by women of color. Topics include critical race feminist approaches to race, ethnicity, gender, class, sexuality, language, immigration, and labor.

WMST 690 - Special Topics

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

WMST 691A - Women in the Ancient World

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

WMST 691B - Women in Medieval Culture and Society

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

WMST 692A - Women in Early Modern Europe

Credits 3

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

WMST 695 - Special Topics in Gender and History**Credits 3**

This undergraduate course may be used in the graduate program of study with the approval of the advisor. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

WMST 700 - Introduction to Women's Studies**Credits 3**

Satisfies the prerequisite for admission to the women's studies graduate certificate program for those applicants who have no prior knowledge of the field, as demonstrated either by undergraduate course work in women's studies or extensive reading of and familiarity with women's studies scholarship. **Prerequisites** Graduate Standing.

WMST 701 - Feminist Theory**Credits 3**

Interdisciplinary examination of feminist principles of analysis, applied to gendered social life. Encompasses multicultural and transnational perspectives on the questions: What is feminist theory? What is the relationship between theory and practice? What is the role of theory in political and social activism? What does it mean to "do" theory?. **Prerequisites** Admission to Graduate Certificate Program; or completion of two 600-level Women's Studies or crosslisted courses on women and/or gender, or permission of instructor.

WMST 702 - Principles of Feminist Inquiry**Credits 3**

Introduction to the theory and application of research methods from critical feminist inquiry approach. Investigates core scholarship of feminist inquiry applied to research methods in the last twenty-five years. **Prerequisites** Admission to Graduate Certificate Program; or completion of two 600-level Women's Studies or cross-listed courses on women and/or gender; or permission of instructor.

WMST 703 - Feminist Pedagogy**Credits 3**

Historical development of theory and practice of feminist pedagogy offers opportunity to practice the art. Students prepared to teach interdisciplinary women's studies courses at postsecondary level. **Prerequisites** Admission to Graduate Certificate Program; or completion of two 600- level Women's Studies or cross-listed courses on women and/or gender; or permission of instructor.

WMST 710 - Graduate Capstone Seminar**Credits 3**

Capstone seminar provides opportunity for students to reflect critically on theories and methods of interdisciplinary women's studies scholarship and apply them either to production of knowledge in the arts, humanities, social sciences, or natural sciences or to their practice as psychologists, social workers, nurses, librarians, teachers, and other working professionals. **Prerequisites** WMST 701 and WMST 702

WMST 721 - Issues in Women's Nutrition**Credits 3**

Advanced discussion of how nutrition affects physical and mental health of women throughout the life cycle and how to evaluate validity of nutrition research as it relates to the needs of women rather than the general population. **Prerequisites** Graduate standing.

WMST 799 - Independent Study

Credits 3

Independent study of special topics selected in consultation with the chair of women's studies. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Consent of chair.

College of Sciences

The natural and mathematical sciences represent the dual cutting edges of our technological future. UNLV's College of Sciences is dedicated to making this future real, in the creation of new knowledge through research, and in the application of that knowledge in the classroom and in the development of technological advances to benefit society. These are the guiding principles that bring students, faculty, and staff together. Whether in a small discussion session, in a research laboratory or in the field, College of Sciences graduate students are in an environment in which learning, discovery, and innovation are the common goals. Many students choose a graduate institution based on the reputation of an individual faculty scholar or laboratory group. This is often an excellent approach to find the right match between a new graduate student and a mentor. Still, students who come to UNLV's College of Sciences without a particular graduate project in mind can count on identifying potential major professors who are receptive to a wide array of interests and backgrounds. Through its active programs of research and teaching, the College of Sciences has established a remarkable foundation of state-of-the-art instrumentation and facilities, providing an ever-growing set of opportunities for students who desire the best from their graduate experiences. Students who graduate with a Master's or doctoral degree from the College of Sciences fulfill their professional goals, and are competitive for career positions in academia, industry, or in governmental or non-governmental organizations.

Timothy L. Porter, Dean

Javier A. Rodriguez, Associate Dean

College of Sciences Plan

Master of Arts – Science

Plan Description

The Master of Arts in Science (M.A.S.) is a non-thesis degree designed to allow students to increase their knowledge base in two different fields of science. Traditional and nontraditional students interested in pursuing or advancing science-related careers will discover a host of new opportunities after completing the program. Secondary science teachers who enroll in the program will be better prepared to face classroom challenges with a broad science background.

This program includes the current graduate faculty, course work and facilities from the departments of Biological Sciences, Chemistry, Geoscience, Mathematical Sciences, and Physics. Any graduate courses offered by these departments can be considered for inclusion in this degree program. In addition, graduate courses from Environmental Studies can be used to satisfy the second field.

Learning Outcomes

<http://www.unlv.edu/degree/ma-science>

Plan Admission Requirements

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Three letters of recommendation are required from individuals familiar with the applicant's academic and professional record and potential for advanced study in mathematics and science education.

A written statement/letter of intent is required and should include:

- summary of research interests
- reason(s) for wishing to earn an advanced degree
- motivation for attending UNLV
- name of two intended department faculty mentors for major and minor

Submission of official transcripts of all colleges and universities attended.

Copy of current curriculum vitae or resume is required.

Teacher Track

A bachelor's degree in any of the sciences, mathematical sciences or secondary education with at least nine upper division (300 level or higher) science or math courses. Must be a licensed educator, have current licensure, a current job offer (ideally in grades 6-12) or degree in education.

A minimum grade point average (GPA) of 3.0 for all undergraduate work (based on a 4.00 scale).

Satisfactory scores on the General Graduate Record Examination (GRE). Successful applicants should complete the GRE or pass the Praxis I, II.

Copy of current teaching licensure, licensure certificate, letter of employment or diploma is required.

General Track

Satisfactory scores on the General Graduate Record Examination (GRE).

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Teacher Track

Total Credits Required: 33

Course Requirements

- Major Field Courses - Credits: 9
 - Complete 9 credits of advisor-approved coursework in a major field of study from the following list:
 - Biology
 - Chemistry
 - Physics
 - Astronomy
 - Mathematics
 - Statistics
 - Geoscience
 - Water Resources Management
- Minor Field Courses - Credits: 6
 - Complete 6 credits of advisor-approved coursework in a minor field of study from the following list:
 - Biology

- Chemistry
 - Physics
 - Astronomy
 - Mathematics
 - Statistics
 - Geoscience
 - Water Resources Management
- Elective Courses - Credits: 15
 - Complete 15 credits of advisor-approved elective coursework.
- Culminating Experience - Credits: 3
 - Complete either the capstone course or professional paper.
 - SCI 796 - Professional Paper, Master of Arts in Sciences

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: General Track

Total Credits Required: 33

Course Requirements

- Major Field Courses - Credits: 9
 - Complete 9 credits of advisor-approved coursework in a major field of study from the following list:
 - Biology
 - Chemistry
 - Physics
 - Astronomy
 - Mathematics
 - Statistics
 - Geoscience
 - Water Resources Management
- Minor Field Courses - Credits: 6
 - Complete 6 credits of advisor-approved coursework in a minor field of study from the following list:
 - Biology
 - Chemistry
 - Physics
 - Astronomy
 - Mathematics
 - Statistics
 - Geoscience
 - Water Resources Management

- Elective Courses - Credits: 15
 - Complete 15 credits of advisor-approved elective coursework.
- Culminating Experience - Credits: 3
 - Complete either the capstone course or professional paper.
 - SCI 796 - Professional Paper, Master of Arts in Sciences

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Degree Requirements

Complete a total of 33 credits of regular course work of which 50% must be at 700-level.

A student will be placed on academic probation if a minimum 3.00 grade point average is not maintained in all work taken in the degree program.

Students accepted into the Master of Arts in Science (MAS) program will be required to take at least 12 credits in one major area of one department and at least 6 credits in one minor field of science, mathematics or statistics from a different department in the College.

No more than 9 credits may be earned through independent study.

A maximum of 6 credits may be taken outside of the College.

Students must obtain advisor approval for all coursework. Coursework can be taken from Biology, Chemistry, Physics, Astronomy, Mathematics, Statistics, Geoscience, Science, Environmental Studies, Educational Psychology, Anthropology, Water Resource Management, Civil and Environmental Engineering, Electrical Engineering, Computer Science, Mechanical Engineering, Curriculum and Instruction.

All students must develop their degree program with the consent of the faculty mentor from their major department and the student's Graduate Advisory Committee. Student's progress will be assessed annually by the Advisory Committee.

Students must successfully complete a professional paper.

Plan Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

The student must complete a culminating experience.

College of Sciences Courses

SCI 620 - Middle School Mathematics Content:

Credits 1–3

Middle school mathematics content for teachers. Topics: a) Number, Number Theory, Operations, b) Geometry & Measurement, c) Probability & Statistics, d) Algebra I, e) Euclidean/Non-Euclidean Geometry, f) Problem Solving, g) Algebra II, h) Pre-calculus, i) Computer/Technology Applications, j) other. **Notes** Credit repeatable by topic (1–3 credits). Credits may not be applied to College of Sciences graduate program. The maximum number of credits that may be earned is 24.

SCI 630 - Middle School Science Content:**Credits 1–3**

Surveys middle school science content for middle school teachers. Introduces experimental and research-based aspects of the fields/topics listed through an inquiry approach to scientific content. Fields/topics: a) Lab Safety and Science Process. b) Life Science IA. c) Life Science IB. d) Physical Science IA. e) Physical Science IB. f) Earth Science IA. g) Earth Science IB. h) other. **Notes** May be repeated for credit in different fields/topics (1–3 credits); not available for credit in graduate programs in College of Sciences

SCI 640 - High School Mathematics Content:

Credits 1–3. Formerly Surveys high school mathematics content for high school teachers. Introduces exploratory and research-based aspects of the fields/topics listed through a problem solving approach to mathematics content. Fields/topics: a) Geometry. b) Advanced Algebra. c) Trigonometry and Analysis. d) Statistics and Probability. e) Calculus. f) Technology Applications. g) other. **Notes** May be repeated for credit in different fields/topics (1–3 credits); not applicable to graduate programs in College of Sciences.

SCI 650 - High School Science Content:**Credits 1–3**

High school science content for teachers. a) Lab Safety, Science Process. b) Content Area Literacy. (c,d) Biology IA, IB (e,f) Earth Science IA, IB (g,h) Chemistry IA, IB (j,k) Physics IA, IB (l) AP Biology (m) AP Chemistry (n) AP Physics (o) other (p,q) Principles of Science, semesters 1,2.

SCI 691 - Life Science for Federal Land Managers**Credits 1–3**

For managers in BLM, BIA, Forest Service, Park Service and Fish and Wildlife Service. Meets GS 401 Certification needs. Conceptual understanding of basic biological principles: how information is acquired and evaluated within a scientific framework; modern cell theory; basic principles of molecular biology and genetics; and concepts of microevolution.

SCI 796 - Professional Paper, Master of Arts in Sciences**Credits 1–3**

Professional paper preparation, including review of literature or similar research effort. May be repeated to a maximum of three credits. Not permitted for students pursuing the M.S. Thesis option. Prerequisite: Consent of instructor.

Chemistry

The Chemistry Department offers the Ph.D. in Chemistry or Radiochemistry and the M.S. in Chemistry or Biochemistry. Students may supplement their programs with appropriate courses from other science departments, with the approval of their graduate committee. Research may include projects conducted in the Chemistry Department, the Harry Reid Center, the Desert Research Institute, or the Environmental Protection Agency.

Associate Professor; *Physical Chemistry*; B.S., University of Illinois, Champaign-Urbana; M.A., Ph.D., University of California, Santa Barbara. *Rebel since 1991.*

Spangelo, Bryan L. - *Full Graduate Faculty*

Professor; *Biochemistry*; B.S., Keene State College; Ph.D., George Washington University Medical Center. *Rebel since 1994.*

Steinberg, Spencer - *Full Graduate Faculty*

Professor; *Environmental & Organic Chemistry*; B.A., Ph.D., University of California, San Diego. *Rebel since 1989.*

Sung, Hong - *Full Graduate Faculty*

Associate Professor, *Biochemistry*.

Tirri, Lawrence J. - *Full Graduate Faculty*

Assistant Professor; *Biochemistry*; B.S., Fairleigh Dickinson University; Ph.D., Fordham University. *Rebel since 1997.*

Zhang, Hui - *Full Graduate Faculty*

Associate Professor, *Biochemistry*.

Professors Emeriti

Alsup, William M.

Emeritus Associate Professor; B.S., M.E., Ph.D., University of Wyoming. *UNLV Emeritus 1964-1991.*

Billingham, Edward J., Jr.

Emeritus Professor; B.S., Lebanon Valley College; Ph.D., Pennsylvania State University. *UNLV Emeritus 1965-1988.*

Earl, Boyd

Professor; B.S., University of Idaho; M.S., Ph.D., University of California, Berkeley. *UNLV Emeritus 1976.*

Emerson, David W.

Emeritus Professor; B.A., Dartmouth College; M.S., Ph.D., University of Michigan. *UNLV Emeritus 1981-1998.*

Grenda, Stanley C.

Associate Professor; B.S., DePaul University; M.S., University of Arizona; Ph.D., Lehigh University. *UNLV Emeritus 1967.*

Titus, Richard L.

Emeritus Professor; B.A., DePaul University; Ph.D., Michigan State University. *UNLV Emeritus 1967-1997.*

Chemistry Plans

Master of Science - Chemistry

Plan Description

Our graduate programs offer exceptional research opportunities for advanced training in a wide variety of chemistry related disciplines including Organic, Physical, Analytical, Computational, Materials, Biochemistry, and Chemical Education. The graduate student to faculty ratio in the department is nearly one-to-one. Consequently, our diverse student body receives a high level of individualized interaction with excellent faculty through customized research projects, specialized course work, professional development, and graduate seminars. In addition, many of our research programs offer exciting interdisciplinary collaborations with local scientists, as well as with scientists nationally and internationally.

Learning Outcomes

www.unlv.edu/degree/ms-chemistry

Plan Admission Requirements

Admission to the program requires an undergraduate degree in chemistry, chemical engineering, biology, biochemistry or a related discipline, with a cumulative GPA of 2.75, or of 3.00 for the last two years of undergraduate work. An application must be submitted to the Graduate College, with official transcripts of all college-level work. Two letters of recommendation from individuals able to assess the applicant's potential as a graduate student should be sent directly to the department along with an additional set of transcripts. The GRE General Aptitude Test results must be received by the department prior to regular admission.

Individuals with apparent deficiencies in their undergraduate background may be required to enroll in selected courses in addition to those listed in the following section to satisfy M.S. degree requirements.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 30

Course Requirements

- Graduate Seminar Course – Credits: 2
 - CHEM 791 - Graduate Seminar
- Elective Courses – Credits: 18
 - Complete 18 credits of elective coursework.
- Independent Study – Credits: 4
 - CHEM 795 - Independent Study
- Thesis – Credits: 6
 - CHEM 798 - Thesis

Degree Requirements

Students must complete a minimum of 30 credit hours with a minimum GPA of 3.00.

No grade lower than C is acceptable, and only one grade below B- is permitted.

At least 12 credits of electives must be in courses at the 700-level.

In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Research and course work specializations are available in analytical chemistry, biochemistry, organic chemistry, and physical chemistry. The individual student's program of course work must be selected in consultation with and approved by the student's committee, and may include courses from selected disciplines other than chemistry, such as biology, physics, civil and environmental engineering, or water resources management.

Each student is required to present a departmental seminar on the student's research prior to graduation. This requirement is in addition to the two credits of Graduate Seminar. Students are expected to attend weekly departmental seminars.

Each student is required to meet at least once per semester with the student's examination committee. At the meeting in the semester prior to the expected term of graduation, the student will be asked to make a detailed presentation on research progress. The committee will then make recommendations to be addressed by the student during the remainder of the student's research program, in writing the thesis, and in the final examination. The committee may request another meeting prior to the final exam if deemed necessary.

It is expected that each student be a teaching assistant for a minimum of two courses prior to graduation. It is also expected that each student publish at least one research-based manuscript in a peer-reviewed journal.

Plan Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.

The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Master of Science - Biochemistry

Plan Description

Our graduate programs offer exceptional research opportunities for advanced training in a wide variety of chemistry related disciplines including Organic, Physical, Analytical, Computational, Materials, Biochemistry, and Chemical Education. The graduate student to faculty ratio in the department is nearly one-to-one. Consequently, our diverse student body receives a high level of individualized interaction with excellent faculty through customized research projects, specialized course work, professional development, and graduate seminars. In addition, many of our research programs offer exciting interdisciplinary collaborations with local scientists, as well as with scientists nationally and internationally.

Plan Requirements

Total Credits Required: 30

Course Requirements

- Graduate Seminar Course – Credits: 2
 - CHEM 791 - Graduate Seminar
- Elective Courses – Credits: 18
 - Complete 18 credits of advisor-approved coursework electives. These courses may include but are not limited to:
 - CHEM 770 - Protein Chemistry
 - CHEM 771 - Metabolism and Energetics
 - CHEM 772 - Nucleic Acid Chemistry
 - CHEM 773 - Physical Biochemistry
 - CHEM 672 - Biochemistry Laboratory
 - BIOL 701 - Ethics in Scientific Research
- Independent Study – Credits: 4

- CHEM 795 - Independent Study
- Thesis – Credits: 6
 - CHEM 798 - Thesis

Degree Requirements

Students must complete a minimum of 30 credit hours with a minimum GPA of 3.00.

No grade lower than C is acceptable, and only one grade below B- is permitted.

At least 12 credits of electives must be in courses at the 700-level.

The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.

The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Doctor of Philosophy - Radiochemistry

Plan Description

The Radiochemistry Ph.D. Program is a student-driven research intensive program stressing fundamental aspects of radiochemistry science. It was established by the Departments of Health Physics and Chemistry and includes participants from the Harry Reid Center, Nuclear Science and Technology Group. The program is administered by the UNLV Graduate College. The Ph.D. program requires 60 credits of research and courses beyond the baccalaureate degree. Credit is required for four courses in nuclear chemistry, radiochemistry, detectors, and laboratory. The remaining courses are based on the area of interest of the student and include laboratory research. Students are obliged to maintain a B average and show progress in their research. The curriculum and research provides a comprehensive and interdisciplinary examination of topics and experiences necessary to produce graduates who are ready to secure employment and participate in radiochemistry research.

Learning Objectives

Plan Admission Requirements

Admission to the program is granted annually for the fall semester. Applicants should refer to both the radiochemistry and Graduate College websites for specific application deadlines.

Admission requirements include:

Completed Graduate College Application including applicable fees.

An earned undergraduate degree from a regionally accredited institution in the field of chemistry, radiochemistry, health physics, engineering or other related field with a minimum GPA of 3.0. Applicants with a GPA below 3.0, but not less than 2.75, may be admitted on a provisional basis.

Three letters of recommendation including one letter from an individual who can evaluate the applicant's ability to conduct graduate work at the PhD level. A second letter of recommendation must come from someone who has supervised the candidate in a work setting.

A current resume.

A statement of purpose explaining the applicant's career goals and why the doctorate would enhance the likelihood of achieving those goals. The statement should also explain why the applicant believes that he or she is qualified to conduct academic work at the advance graduate level. Finally, the statement should address the specific area of specialization the student would like to emphasize.

A score ranking in the 50th percentile or higher in the verbal and quantitative sections of the Graduate Record Exam (GRE).

Students meeting all of the above admission requirements may be asked to meet with the admission committee for a personal interview.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 60

Course Requirements

- Core Courses – Credits: 12
 - RDCH 701 - Applied Nuclear Physics
 - RDCH 702 - Radiochemistry
 - HPS 602 - Radiation Detection
 - HPS 603 - Radiation Physics and Instrumentation Laboratory
- Electives – Credits: 30-36
 - Complete 30-36 credits of advisor-approved electives.
- Dissertation – Credits: 12-18
 - CHEM 799 - Dissertation

Degree Requirements

1. Students must complete a minimum of 60 credit hours with a minimum GPA of 3.00.

2. RDCH 702 must be completed before enrolling in RDCH 710.
3. Students enrolled in the Radiochemistry Ph.D. program are required to maintain satisfactory progress toward the degree as determined by the student's academic advisor and advisory committee. To maintain satisfactory progress in the Radiochemistry Ph.D. program, a student must:
 - a. Maintain a cumulative grade point average of 3.0 or above each semester enrolled.
 - b. Receive a grade of B (3.0) or above in all core Radiochemistry courses. If less than a B is earned in any given course, it may be repeated. The student must be in good standing to repeat a course, and courses may not be repeated more than one time.
 - c. Schedule and take the oral qualifying exam within 1.5 years of satisfactorily completing the core Radiochemistry courses.
 - d. Pass the dissertation prospectus defense within 3 years of entering the Radiochemistry Ph.D. program.
 - e. Participate in Radiochemistry seminar. Students are required to participate in the weekly Radiochemistry seminar each semester they are in residence at UNLV. Students may only be exempted from this requirement due to scheduling conflicts, with the prior approval of their academic advisor.
4. Failure to make satisfactory progress as determined by the student's academic advisor and/or advisory committee may include: failure to complete six credits per calendar year toward the degree program; unsatisfactory grades (including Incompletes, grades below a B, or Withdrawals); failure to consult with the academic advisor when requested; failure to establish a graduate advisory committee; failure to establish the groundwork for an acceptable dissertation; failure of oral qualifying examination; failure to pass prospectus defense; or, continuous or willful neglect and/or intentional or continuous disregard for laboratory safety procedures.
5. To advance to candidacy, students are required to pass an oral exam on their research and an outside topic related to radiochemistry.
6. Complete all requirements for the Ph.D. degree within eight years, or six years if entering the program with a master's degree. If these requirements are not met, the program may place the student on academic probation or drop him/her from the Ph.D. program.
7. In consultation with his/her advisor, a student will organize a dissertation committee. The graduate advisory committee is responsible for guiding students through the Radiochemistry Ph.D. program. Upon entering the program, the Radiochemistry Graduate Coordinator will serve as academic advisor to all students until individual advisory committees have been established. The responsibility of establishing an advisory committee falls upon the students. By the end of the first year in the program, students must select an advisory committee chair who will also serve as the student's academic advisor from that point forward. By the end of the second year in the program, students must select the remaining members of the graduate advisory committee.
8. The graduate advisory committee consists of at least four graduate faculty members as follows:
 - a. Advisory Committee Chair - must have full graduate faculty status in Radiochemistry.
 - b. Graduate College Representative - must have full graduate faculty status at UNLV in a program outside of Radiochemistry and the host department. Faculty with status in Radiochemistry may not serve as the GC Rep.
 - c. Committee Member - must have affiliate, associate or full graduate faculty status in Radiochemistry.
 - d. Committee Member - must have affiliate, associate or full graduate faculty status in Radiochemistry.
9. The oral qualifying exam must be taken within 1.5 years of successfully completing the radiochemistry core courses listed above. The exam is designed to test students on the fundamental science underlying radiochemistry, including all content covered in the core courses. In addition, students are tested on their depth of knowledge in their area of research specialization.

10. The oral qualifying exam is held in closed session and is given by the qualifying examination committee. This committee is made up of a minimum of three members, the advisory committee chair, another member of the UNLV radiochemistry faculty, and an affiliate, associate or full graduate faculty status member in Radiochemistry. All members of the qualifying examination committee must be present during the oral qualifying exam. Additional members of the student's advisory committee may participate on the qualifying examination at the discretion of the academic advisor, but are not required to be present.
11. For the exam, students are responsible for preparing two presentations which are presented to the qualifying examination committee. The first presentation is an overview of the student's proposed research, including relevant literature, a proposed research plan and summary/results of current research. This presentation may serve as the basis for the Prospectus Defense as well. The second presentation summarizes a recent published scientific article on a topic not directly related to the candidate's proposed dissertation research. The article must be approved by the student's advisor prior to the exam.
12. Students who do not pass the exam may repeat the exam one time within 6 months, but no sooner than 3 months from the first attempt. Students who do not pass the oral qualifying exam on the second attempt will be severed from the program.
13. Students must schedule and take the oral qualifying exam within 1.5 years of satisfactorily completing the core Radiochemistry courses.
14. Students are required to participate in the weekly Radiochemistry seminar each semester they are in residence at UNLV. Students may only be exempted from this requirement due to scheduling conflicts, with the prior approval of their academic advisor.
15. Students must prepare and successfully defend their dissertation prospectus prior to the completion of their sixth semester. The prospectus will cover a review of the relevant literature, a statement of the problem or hypothesis to be examined and a research plan for the project. The prospectus will be defended to the student's advisory committee and will be open to the general research community. All members of the student's advisory committee must be present at the student's prospectus defense.
16. Students are expected to write a dissertation demonstrating both knowledge of a specific topic and the ability to conduct high quality original research. The dissertation must be accepted by the student's advisory committee prior to the completion of the degree program. Upon completion of the dissertation, the dissertation must be defended to the student's advisory committee in a public dissertation defense.
17. To advance to candidacy, students are required to pass the oral qualifying exam and successfully defend their dissertation prospectus. Upon successful completion of the prospectus defense, students shall be promoted to Ph.D. candidate the term following the defense.
18. The dissertation must be written in collaboration with the student's academic advisor and advisory committee. The dissertation must be accepted by the student's advisory committee prior to the completion of the degree program. Students must enroll in six credits of dissertation work each semester they are working on the dissertation and the minimum number of dissertation credits required for graduation is twelve.

Plan Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.

The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Doctor of Philosophy - Chemistry

Plan Description

The Ph.D. degree in chemistry is primarily a research-based program that includes sufficient advanced course work to provide a strong background from which students may pursue forefront research, under the direct guidance of a faculty member, in their chosen areas of interest. The program is designed to develop the professional skills required to function as an independent researcher in chemistry.

Learning Outcomes

www.unlv.edu/degree/phd-chemistry

Plan Admission Requirements

For preferential consideration, please submit materials for Fall semester admission by February 1, and for Spring semester, by October 1.

The applicant is required to submit a completed Graduate College application, application fee and official transcripts to the Graduate College with copies submitted to the department.

Admission to the Ph.D. degree program in Chemistry requires a B.S. degree or a M.S. degree in Biochemistry, Chemistry, Biology, or a related discipline.

A minimum grade point average (GPA) of 3.00, on a 4.0 scale, for all undergraduate or graduate work is required for admission to the program.

In addition, the Graduate College application and official transcripts, the Department of Chemistry requires a statement of interest from the applicant. A letter of application should state interests and goals for graduate study. This is a 1-2 page essay describing the applicant's reasons for considering graduate study, goals after completion of the graduate degree, and the applicant's specific areas of interest.

The Department of Chemistry requires three letters of recommendation from persons familiar with the academic record of the applicant. Each letter should detail the potential of the applicant for advanced graduate work in Chemistry or Biochemistry.

The Department of Chemistry requires scores for GRE, General Record Exam, for admission.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Bachelor's Track

Total Credits Required: 60

Course Requirements

- Graduate Seminar Course – Credits: 5
 - CHEM 791 - Graduate Seminar
 - A minimum of 3 presentations are required.
- Coursework Elective Courses – Credits: 18-21
 - Complete 18-21 credits of advisor-approved coursework electives. These courses may include but are not limited to:

- CHEM 790 - Directed Readings
 - CHEM 793 - Special Topics
- Research Elective Courses – Credits: 22-25
 - Complete 22-25 credits of advisor-approved research electives. These courses may include but are not limited to:
 - CHEM 792 - Research Seminar
 - CHEM 795 - Independent Study
 - CHEM 796 - Dissertation Prospectus
 - CHEM 797 - Directed Research
- Dissertation – Credits: 12
 - CHEM 799 - Dissertation

Degree Requirements

Doctoral students in Chemistry are required to complete a minimum of 60 credit hours beyond the baccalaureate. All 60 credits hours must be completed from courses at the 700-level.

All students are required to maintain a minimum a 3.00 grade point average in all graduate-level courses. Two grades of B- are permitted in the degree program as long as the GPA remains at or above 3.00. One grade of C+ or lower will result in academic probation even if the overall GPA is above 3.0. Two grades of C+ or lower will result in automatic suspension or separation from the program.

A dissertation advisor must be chosen by the end of the first semester, and the Doctoral Advisory Committee must be appointed prior to the end of the second semester. An approved graduate degree program must be filed prior to the beginning of the third semester of enrollment. All students must meet these deadlines; failure to do so will result in academic probation. Failure of a student on academic probation to meet these requirements within the next semester could result in separation from the program.

The Doctoral Advisory Committee must consist of the faculty advisor (chair), chemistry graduate faculty in the discipline of study, one additional chemistry graduate faculty member, and one graduate-college representative from outside the department. Failure to identify an advisor and form this committee will result in the student being placed on academic probation. The use of committee members external to UNLV is allowed with approval from the examination committee. External members without graduate faculty status at UNLV will be non-voting members of the Ph.D. examination committee.

All students are required to schedule an interview with the advisor either before or during the first semester of study. If the student does not select an advisor, the Graduate Coordinator will assign a temporary advisor. The purpose of the initial interview is to develop a plan of course work for the first year.

All students are required to schedule a diagnostic interview with the Doctoral Advisory Committee before the end of the 2nd semester. The purpose of the interview is to develop a list of recommended courses and design the student's degree program, which must be submitted prior to completing 16 credits of course work toward the degree.

All students must prepare a dissertation proposal for a Proposal Defense Examination. The student should register for the Dissertation Prospectus course. This examination must be completed prior to the end of the fourth semester. To remain in good standing students are required to develop and defend a dissertation prospectus no later than the fourth semester of enrollment. If a student does not defend a dissertation prospectus they will be placed on academic probation. The Proposal Defense Examination focuses on the dissertation proposal and the student's ability to perform the research. It includes a formal oral presentation of the student's dissertation proposal, research to date, and questions by the dissertation advisory committee on the dissertation topic. The Proposal Defense Examination is to be taken prior to the Comprehensive Examination.

Advancement to Candidacy. Students will advance to candidacy if the Comprehensive Examination is passed and the enrolled coursework is successfully completed based on the evaluation of the students Doctoral

Advisory Committee. The comprehensive exam will consist of written and oral components as defined by the Ph.D. Examination Committee. Satisfactory performance on the Comprehensive Examination requires that Ph.D. students have a basic knowledge of the discipline of study. It also requires the student to follow the guidelines established for each discipline (i.e., Biochemistry, Physical Chemistry, Analytical Chemistry, Inorganic Chemistry and Organic Chemistry). The student's Doctoral Advisory Committee or the faculty from the discipline of study will determine the format and content of both the written and oral exams.

The Ph.D. Examination Committee will determine if the student passes the Comprehensive Examination. If a student fails any part of the Comprehensive Examination, the Ph.D Examination Committee will determine if the student is allowed to retake the portion of the comprehensive exam that is not passed.

Students who fail to pass any part of the Comprehensive Examination or Proposal Defense on the first attempt must successfully complete a second attempt (as specified by the Ph.D. Examination Committee) within the next six months to remain in the program.

Failure to advance to candidacy by the end of the sixth semester of enrollment will result in the student being placed on academic probation. Failure to advance to candidacy by the end of the seventh semester will result in the student being separated from the program.

Students who enter the program with a baccalaureate degree and who fail the second examination may be allowed to continue as a Master of Science student with the consent of the Doctoral Advisory Committee.

A student who has successfully passed both the Proposal Defense and Comprehensive Examinations will advance to candidacy for the Ph.D. degree.

After advancement, subsequent years of study will be required for the graduate student to complete their degree. The duration of this period will depend on the success of the research project as defined by the Doctoral Advisory Committee.

Completed coursework will only be counted towards the graduation requirements of this program for eight years if the student completed a baccalaureate degree. It is recommended that students publish at least one research-based manuscript in a peer-reviewed journal prior to graduation.

Satisfactory performance on the final examination will consist of the presentation and defense of the dissertation research. The defense will consist of an oral presentation open to the public, a short period of questions from the public, a closed session of questions from the Doctoral Advisory Committee, and a closed deliberation and vote by just the Doctoral Advisory Committee members. Any graduate faculty member may attend the closed session of questions of the defense.

Graduation Requirements

See Plan Degree Requirements below.

Subplan 2 Requirements: Post-Master's Track

Total Credits Required: 30

Course Requirements

- Graduate Seminar Course – Credits: 5
 - CHEM 791 - Graduate Seminar
 - A minimum of 3 presentations are required.
- Elective Courses – Credits: 13

- Complete 13 credits of advisor-approved electives. These courses may include but are not limited to:
 - CHEM 790 - Directed Readings
 - CHEM 792 - Research Seminar
 - CHEM 793 - Special Topics
 - CHEM 795 - Independent Study
 - CHEM 796 - Dissertation Prospectus
 - CHEM 797 - Directed Research
- Dissertation – Credits: 12
 - CHEM 799 - Dissertation

Degree Requirements

1. Doctoral students entering the Ph.D. program with an approved M.S. degree in Chemistry or a closely related discipline, are required to complete a minimum of 30 credit hours in the Ph.D. program at UNLV comprised of courses at the 700-level.
2. All students are required to maintain a minimum a 3.00 grade point average in all graduate-level courses. Two grades of B- are permitted in the degree program as long as the GPA remains at or above 3.00. One grade of C+ or lower will result in academic probation even if the overall GPA is above 3.0. Two grades of C+ or lower will result in automatic suspension or separation from the program.
3. A dissertation advisor must be chosen by the end of the first semester, and the Doctoral Advisory Committee must be appointed prior to the end of the second semester. An approved graduate degree program must be filed prior to the beginning of the third semester of enrollment. All students must meet these deadlines; failure to do so will result in academic probation. Failure of a student on academic probation to meet these requirements within the next semester could result in separation from the program.
4. The Doctoral Advisory Committee must consist of the faculty advisor (chair), chemistry graduate faculty in the discipline of study, one additional chemistry graduate faculty member, and one graduate-college representative from outside the department. Failure to identify an advisor and form this committee will result in the student being placed on academic probation. The use of committee members external to UNLV is allowed with approval from the examination committee. External members without graduate faculty status at UNLV will be non-voting members of the Ph.D. examination committee.
5. All students are required to schedule an interview with the advisor either before or during the first semester of study. If the student does not select an advisor, the Graduate Coordinator will assign a temporary advisor. The purpose of the initial interview is to develop a plan of course work for the first year.
6. All students are required to schedule a diagnostic interview with the Doctoral Advisory Committee before the end of the 2nd semester. The purpose of the interview is to develop a list of recommended courses and design the student's degree program, which must be submitted prior to completing 16 credits of course work toward the degree.
7. All students must prepare a dissertation proposal for a Proposal Defense Examination. The student should register for the Dissertation Prospectus course. This examination must be completed prior to the end of the fourth semester. To remain in good standing students are required to develop and defend a dissertation prospectus no later than the fourth semester of enrollment. If a student does not defend a dissertation prospectus they will be placed on academic probation. The Proposal Defense Examination focuses on the dissertation proposal and the student's ability to perform the research. It includes a formal oral presentation of the student's dissertation proposal, research to date, and questions by the dissertation advisory committee on the dissertation topic. The Proposal Defense Examination is to be taken prior to the Comprehensive Examination.
8. Advancement to Candidacy. Students will advance to candidacy if the Comprehensive Examination is passed and the enrolled coursework is successfully completed based on the evaluation of the students

Doctoral Advisory Committee. The comprehensive exam will consist of written and oral components as defined by the Ph.D. Examination Committee. Satisfactory performance on the Comprehensive Examination requires that Ph.D. students have a basic knowledge of the discipline of study. It also requires the student to follow the guidelines established for each discipline (i.e., Biochemistry, Physical Chemistry, Analytical Chemistry, Inorganic Chemistry and Organic Chemistry). The student's Doctoral Advisory Committee or the faculty from the discipline of study will determine the format and content of both the written and oral exams.

9. The Ph.D. Examination Committee will determine if the student passes the Comprehensive Examination. If a student fails any part of the Comprehensive Examination, the Ph.D Examination Committee will determine if the student is allowed to retake the portion of the comprehensive exam that is not passed.
 - a. Students who fail to pass any part of the Comprehensive Examination or Proposal Defense on the first attempt must successfully complete a second attempt (as specified by the Ph.D. Examination Committee) within the next six months to remain in the program.
 - b. Failure to advance to candidacy by the end of the sixth semester of enrollment will result in the student being placed on academic probation. Failure to advance to candidacy by the end of the seventh semester will result in the student being separated from the program.
 - c. Students who entered the program with a master's degree who fail the examination a second time will be separated from the program.
 - d. A student who has successfully passed both the Proposal Defense and Comprehensive Examinations will advance to candidacy for the Ph.D. degree.
 - e. After advancement, subsequent years of study will be required for the graduate student to complete their degree. The duration of this period will depend on the success of the research project as defined by the Doctoral Advisory Committee.
 - f. Completed coursework will only be counted towards the graduation requirements of this program for six years. It is recommended that students publish at least one research-based manuscript in a peer-reviewed journal prior to graduation.
 - g. Satisfactory performance on the final examination will consist of the presentation and defense of the dissertation research. The defense will consist of an oral presentation open to the public, a short period of questions from the public, a closed session of questions from the Doctoral Advisory Committee, and a closed deliberation and vote by just the Doctoral Advisory Committee members. Any graduate faculty member may attend the closed session of questions of the defense.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public. The student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Chemistry Courses

CHEM 602 - Scientific Software for the Microcomputer

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

CHEM 621 - Physical Chemistry

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

CHEM 622 - Physical Chemistry II

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

CHEM 628 - Quantum Chemistry

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

CHEM 631 - Advanced Inorganic Chemistry**Credits 3**

Atomic and nuclear properties. Structure, symmetry, and bonding for molecular and solid-state compounds. Solution behavior, solubility, acid-based properties. Chemistry of the elements and periodic trends. **Prerequisites** CHEM 422 or equivalent.

CHEM 655 - Instrumental Analysis

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

CHEM 672 - Biochemistry Laboratory

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work. This course offered by another department may also be taken for graduate credit.

CHEM 676 - Advanced Topics in Biochemistry**Credits 3**

In depth study of selected advanced topics in biochemistry, cancer biochemistry or other medically-related topics in biochemistry. **Notes** May be repeated (different topic) once for a total of 6 credits to be applied toward graduate degree program. **Prerequisites** CHEM 475, graduate standing or permission of instructor.

CHEM 678 - Endocrinology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

CHEM 710 - Environmental Aquatic Chemistry**Credits 3**

Study of the chemistry of natural waters, emphasizing chemical speciation and the interaction of aqueous media with soil and air. Considerable attention given to the use and limitations of thermodynamic equilibrium models of chemical speciation. **Prerequisites** Graduate standing or consent of instructor.

CHEM 715 - Environmental Organic Chemistry**Credits 3**

Organic chemistry of natural waters, soils and the atmosphere, emphasizing chemical reactions, sorption, bio-

concentration and fate and transport. Use and limitation of thermodynamic and kinetic models and the extrapolation of laboratory data to environmental conditions. **Prerequisites** Graduate standing in chemistry or consent of instructor.

CHEM 725 - Advanced Organic Chemistry

Credits 3

Advanced study of structures and reactions of organic compounds. Reactive intermediates, reaction mechanism, stereochemistry, and synthesis examined. **Prerequisites** CHEM 242 and 421.

CHEM 726 - Organic Synthesis

Credits 3

Study of the synthesis of complex organic molecules. Stereochemistry, use of organometallic reagents and chiral auxiliaries stressed, with considerable emphasis on current literature. **Prerequisites** CHEM 242, 421

CHEM 728 - Organic Synthesis Laboratory

Credits 2

Some reasonably challenging syntheses undertaken to include reactions requiring rigid exclusion of air and moisture. Products characterized by modern spectroscopic methods. **Notes** Eight hours laboratory per week.

Prerequisites CHEM 242, 421, 447 or consent of instructor.

CHEM 735 - Advanced Physical Chemistry

Credits 3

Statistical and quantum mechanics and their use in calculating thermodynamic properties. **Prerequisites** CHEM 421 and 428

CHEM 745 - Instrumental Analysis-Inorganic

Credits 3

Theory of modern analytical instrumentation as it pertains to inorganic analysis. **Notes** May include atomic emission and absorption, x-ray, radioactivity and mass spectroscopic methods.

CHEM 746 - Instrumental Analysis-Organic

Credits 3

Theory of modern analytical instrumentation as it pertains to organic analysis. May include gas chromatography-mass spectrometry, supercritical fluid chromatography, nuclear magnetic resonance, Fourier transform infrared methods and fluorescence techniques.

CHEM 749 - Polymer Chemistry

Credits 3

Polymer structure; classification of polymerization reactions, step-growth and chain-growth polymerization reactions; condensation, radical, cationic, and anionic polymerization reactions; physical properties and characterization of polymers. **Prerequisites** Consent of instructor.

CHEM 750 - Quality Assurance and Statistics

Credits 3

Purpose, theory, and applications of quality assurance/quality control. Experimental design including development of sampling protocols. Statistics relating to the evaluation of data quality covered. **Notes** Not a theoretical statistics course. **Prerequisites** STA 161 and CHEM 455.

CHEM 752 - Chromatography

Credits 3

Theory and applications of chromatography as the basis of analytical separations for inorganic and organic analyses. Separating power, selectivity, efficiency, and limitations of the various methods discussed. **Prerequisites** CHEM 241, 422, and 455.

CHEM 755 - Sample Preparation and Analysis

Credits 3

Collection, preparation, and analysis of gaseous, soil, and water samples using approved standard methods. Techniques used may include gas chromatography, gas chromatography-mass spectroscopy, high performance liquid chromatography- atomic absorption spectroscopy, and inductively coupled plasma atomic emission spectroscopy. **Notes** One hour lecture and six hours laboratory. Consult instructor(s) prior to enrollment. **Prerequisites** Graduate standing in chemistry.

CHEM 760 - Environmental Radiochemistry/Radiation Safety

Credits 3

Practical applications of radiochemistry to topics of current and future concern, such as the temporary and permanent storage of radioactive wastes, nuclear utilities, nuclear medicine and isotope geology. Includes advanced radiochemical techniques and radiation safety training. **Prerequisites** CHEM 421 and 422 or equivalent, or consent of instructor.

CHEM 765 - Inorganic Chemistry

Credits 3

Physical approach to inorganic compounds, mainly of the transition elements including bonding, stereochemistry, and electronic properties with use of symmetry and elementary group theory. **Prerequisites** CHEM 422

CHEM 770 - Protein Chemistry

Credits 3

Protein structure and function. Enzymology (kinetics, regulation). Survey of techniques used in protein purification and analysis. **Prerequisites** CHEM 475 or equivalent.

CHEM 771 - Metabolism and Energetics

Credits 3

Biochemical pathways of carbohydrate, lipid, nucleic acid and amino acid metabolism and the mechanism of mitochondrial ATP synthesis. **Prerequisites** CHEM 475

CHEM 772 - Nucleic Acid Chemistry

Credits 3

Chemistry and function of nucleic acids (DNA, RNA) and their analogs. **Prerequisites** CHEM 475 or equivalent.

CHEM 773 - Physical Biochemistry

Credits 3

Theory and practice of physical chemistry as applied to the structure, properties, and interactions of biochemical macromolecules. Includes thermodynamics, various types of spectroscopy, electrophoresis, ligand binding, and hydrodynamic methods (covering the theoretical aspects of diffusion, sedimentation, and viscosity). **Prerequisites** CHEM 475

CHEM 775 - Bioanalytical Environmental Toxicology

Credits 3

Principles of toxicology. Study of the interaction of toxicants with biochemical pathways. Emphasis on toxic chemicals of environmental interest. **Prerequisites** CHEM 475

CHEM 783 - Spectral Interpretation

Credits 3

Spectroscopic data obtained from the techniques of nuclear magnetic resonance (NMR), mass spectrometry (MS), infrared (IR) and ultraviolet-visible (UV-VIS) spectrophotometry used to establish structural features of organic molecules. Emphasizes strategies, interpretation, modern techniques, and problem solving. **Prerequisites** Consent of instructor.

CHEM 784 - Spectral Interpretation Laboratory

Credits 1

Identification and characterization of an organic compound using infrared, ultraviolet, mass, and NMR spectrometers. Proton, carbon-13, and two-dimensional NMR spectra used to fully determine the structure.

Corequisite CHEM 783

CHEM 790 - Directed Readings**Credits 1**

Directed readings in the primary literature supportive of the dissertation prospectus. **Notes** May be repeated, but only three credits are applied to the academic program. **Prerequisites** Enrollment in the Chemistry or Radiochemistry doctoral program.

CHEM 791 - Graduate Seminar**Credits 1**

Attendance and participation in seminar presentations. Includes student presentations. For master's students, enrollment is required. Two presentations are required. **Notes** May be repeated for a maximum of five credits. **Grading S/F. Prerequisites** Graduate standing in Chemistry or Radiochemistry.

CHEM 792 - Research Seminar**Credits 3**

Public defense of a graduate research project in the Ph.D. Program. **Prerequisites** Graduate standing in Chemistry or Radiochemistry.

CHEM 793 - Special Topics**Credits 3**

Study of a topic of interest from any field of chemistry (for example, analytical chemistry, biochemistry, etc.), at an advanced level. Topic varies each semester. Topic chosen will be published in the class schedule. **Notes** May be repeated for credit if classes are in different topics. **Prerequisites** Graduate standing in chemistry.

CHEM 795 - Independent Study**Credits 1-3**

Individual directed study of a topic not covered in other courses. **Notes** May be repeated once for credit. May be repeated to a maximum of six credits. **Prerequisites** Graduate standing in chemistry and consent of instructor.

CHEM 796 - Dissertation Prospectus**Credits 1**

Development of a prospectus and its defense before the Ph.D. examination committee. **Prerequisites** Enrollment in the Chemistry or Radiochemistry doctoral program.

CHEM 797 - Directed Research**Credits 1-6**

Supervised research in the doctoral program. May be repeated for a maximum of twelve credits. **Prerequisites** Enrollment in the Chemistry or Radiochemistry doctoral program.

CHEM 798 - Thesis

Credits 3-6. Notes May be repeated, but only nine credits applied to the student's program. **Grading S/F** grading only. **Prerequisites** CHEM 745 or CHEM 746 and consent of instructor.

CHEM 799 - Dissertation**Credits 3-6**

Research, analysis, and writing toward completion of dissertation and subsequent defense. **Notes** May be repeated but a minimum of eighteen credits and a maximum of twenty four credits will be applied toward fulfillment of degree requirements. **Grading S/F** grading only. **Prerequisites** Graduate standing in Chemistry or Radiochemistry and consent of instructor.

RDCH 701 - Applied Nuclear Physics**Credits 3**

Introduces nuclear properties in radiation and radiochemistry. Concepts of the nuclei, radioactive decay, and nuclear reactions examined. Use of quantum mechanics in development of nuclear models and equations. Physics involved in interaction of radiation with matter. **Prerequisites** General physics, graduate standing in Radiochemistry program.

RDCH 702 - Radiochemistry**Credits 3**

Introduces chemical properties in radiation and radiochemistry. Use of stability constants and relationship between speciation, kinetics and thermodynamics. Influence of radiolysis on chemistry of radioisotopes. Radioisotope production and use. Radiochemical separations. **Prerequisites** Inorganic chemistry, physical chemistry, graduate standing in Radiochemistry program.

RDCH 710 - Actinide Chemistry**Credits 3**

Basis for unique chemistry of actinide elements described and related to oxidation-reduction, complexation, orbital interaction, and spectroscopy. Using nuclear properties in understanding actinide chemistry covered. Presentations on exploiting chemical behavior of actinides in separation, nuclear fuel cycle, environmental behavior, and materials. **Prerequisites** RDCH 702, graduate standing in Radiochemistry program.

RDCH 750 - Radiochemistry Laboratory Research**Credits 3**

Experimental laboratory research conducted by the student under supervision. The student supplies research topic and provides suitable literature and background information. Research plan developed in conjunction with instructor. The student obtains experience in performing radiochemical laboratory research. **Prerequisites** Undergraduate chemistry laboratory experience, graduate standing in the Radiochemistry program.

Geoscience

The Department of Geoscience is an active and enthusiastic department consisting of eighteen full-time faculty, approximately sixty graduate students and one hundred undergraduate majors. The department offers a program of courses, seminars and research opportunities leading to Master of Science and Doctor of Philosophy degrees in Geoscience. The interests of the faculty and students cover a wide range of topics. Graduate students can choose one of three Geoscience emphases: Geology, Hydrogeology, and Soil Science. Active research by faculty and students is ongoing throughout the western United States, as well as in Antarctica, Canada, Chile, China, Costa Rica, Indonesia, France, Guatemala, Mexico, New Zealand, Panama, Poland, Russia, South Africa, Spain, and Switzerland.

The department encourages interdisciplinary research. Opportunities for geological and interdisciplinary research may be pursued with organizations near, or on, campus that cooperate with the department including: the Harry Reid Center (HRC) for Environmental Studies; the Division of Hydrologic Sciences of the Desert Research Institute (DRI), a division of the University and Community College System of Nevada; the Environmental Monitoring and Support Laboratory of the Environmental Protection Agency (EPA); the Department of Energy; and other university departments and schools such as life sciences, chemistry, physics, and engineering.

Students are encouraged to read the general graduate college rules and regulations elsewhere in this catalog and to read the Department of Geoscience Graduate Student Guidelines, which are available on the department's web site at: <http://geoscience.unlv.edu/graduateprogram.htm>. An understanding of these documents is essential for satisfactory progress toward the degree.

Terry Spell, Ph.D., Chair

Matthew Lachniet, Ph.D., Graduate Coordinator

Chair

Spell, Terry - Full Graduate Faculty

Associate Professor; B.S., West Georgia College; M.S., New Mexico Institute of Mining and Technology; Ph.D., State University of New York, Albany. *Rebel since 1996.*

Graduate Coordinator

Lachniet, Matthew - Full Graduate Faculty

Associate Professor; B.A., Antioch College; M.S., Michigan State University, Ph.D., Syracuse University. *Rebel since 2003.*

Graduate Faculty

Buck, Brenda - Full Graduate Faculty

Associate Professor; B.S., University of Notre Dame; M.S., Ph.D., New Mexico State University. *Rebel since 1998.*

Burnley, Pamela - Full Graduate Faculty

Associate Research Professor; B.S., Brown University; M.S., Ph.D., University of California Davis. *Rebel since 2008.*

Cline, Jean S. - Full Graduate Faculty

Professor; B.S., Wisconsin State University; M.S., University of Arizona; Ph.D., Virginia Polytechnic Institute and State University. *Rebel since 1990.*

Hanson, Andrew - *Full Graduate Faculty*

Associate Professor; B.S., Montana State University; M.S., San Diego State University; Ph.D., Stanford University. *Rebel since 2000.*

Hausrath, Elisabeth - *Full Graduate Faculty*

Assistant Professor; B.S., Brown University; Ph.D., Pennsylvania State University. *Rebel since 2009.*

Jiang, Ganqing Q. - *Full Graduate Faculty*

Associate Professor; B.A., Xiangtan Mining College; M.Sc., China University of Geosciences; Ph.D., Columbia University. *Rebel since 2004.*

Kreamer, David K. - *Full Graduate Faculty*

Professor; B.S., M.S., Ph.D., University of Arizona. *Rebel since 1990.*

Metcalf, Rodney V. - *Full Graduate Faculty*

Associate Professor; B.S., M.S., University of Kentucky; Ph.D., University of New Mexico. *Rebel since 1991.*

Nicholl, Michael J. - *Full Graduate Faculty*

Associate Professor; B.S., Eastern Michigan University; M.S., Ph.D., University of Nevada, Reno. *Rebel since 2004.*

Nowicki, Scott - *Associate Graduate Faculty*

Assistant Professor in Residence; B.S., Augustana College; M.S., Ph.D., Arizona State University. *Rebel since 2008.*

Ren, Minghua - *Associate Graduate Faculty*

Assistant Research Professor; B.S., Nanjing University; M.S., Ph.D. Baylor University. *Rebel since 2011.*

Rowland, Stephen M. - *Full Graduate Faculty*

Professor; A.B., University of California, Berkeley; Ph.D., University of California, Santa Cruz. *Rebel since 1978.*

Smith, Eugene I. - *Full Graduate Faculty*

Professor; B.S., Wayne State University; M.S., Ph.D., University of New Mexico. *Rebel since 1980.*

Taylor, Wanda J. - *Full Graduate Faculty*

Professor; B.S., University of Minnesota; M.S., Syracuse University; Ph.D., University of Utah. *Rebel since 1991.*

Tschauner, Oliver - *Associate Graduate Faculty*

Associate Research Professor; B.S., M.S., Ph.D. (Dr. rer. nat.), University of Cologne. *Rebel since 2008.*

Wells, Michael L. - *Full Graduate Faculty*

Professor; B.S., University of California, Santa Cruz; M.S., Ph.D., Cornell University. *Rebel since 1993.*

Yu, Zhongbo - *Full Graduate Faculty*

Professor; B.S., Hohai University; M.S., University of Southern Mississippi; Ph.D., Ohio State University. *Rebel since 1999.*

Professors Emeriti

Bachhuber, Frederick W.

Emeritus Professor; B.S., M.S., University of Wisconsin; Ph.D., University of New Mexico. *UNLV Emeritus 1974-2002.*

Geoscience Plans

Master of Science - Geoscience

Plan Description

The Master of Science – Geoscience degree is designed to prepare students for a broad range of challenging careers in government service, private consulting, and industry. This thesis-based degree program also serves as a stepping-stone for those students who wish to pursue further graduate studies at the Doctoral level. Working closely with their advisor, students focus on original research in one of several areas of specialization, including: petrology, volcanology, economic geology, structural geology, sedimentology, geochemistry, hydrology, soil science, climate change, petroleum geology, and paleontology. Students are expected to develop original research suitable for submission to a refereed scientific journal. Students are expected to have strong content knowledge in their area of emphasis, which is tested during the culminating defense of their thesis research.

Learning Outcomes

www.unlv.edu/degree/ms-geoscience

Plan Admission Requirements

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Geology Track

The emphasis in Geology includes the fields of economic geology, environmental geology, geochemistry, geochronology, geomorphology, igneous petrology, paleontology, metamorphic petrology, Quaternary geology, pedology, sedimentology, stratigraphy, structural geology, surficial processes, tectonics, and volcanology.

Applicants must satisfy the following requirements:

- A bachelor's degree in geology or equivalent.
- In order to be admitted without contingencies the student must have completed an introductory geology class and six of the following eight classes (or their equivalents): mineralogy, geochemistry, geomorphology, structural geology, igneous and metamorphic petrology, paleontology, field geology, and sedimentology/stratigraphy.

Geophysics Track

Applicants must satisfy the following requirements:

- A bachelor's degree in geology, engineering, physics or mathematics.
- To be admitted to the program with a Geophysics emphasis, it is recommended that the student have completed the following courses for unconditional admission to the program.
 - Mathematics: Three semesters of calculus
 - Physics: Two semesters of introductory (calculus level) physics
 - Geology: Physical geology, historical geology, mineralogy, structural geology, sedimentology/stratigraphy, and igneous and metamorphic petrology.

Soil Science Track

Applicants must satisfy the following requirements:

- B.S. degree in a Natural Science (or similar field and course work) or B.A. degree in Natural Science (or similar field and course work) with approval of the graduate coordinator.

- To be admitted to the program with a Soil Science emphasis, it is recommended that the student have completed two of the following courses for unconditional admission to the program: Mineralogy, Geomorphology, Sedimentology/Stratigraphy, or Geochemistry.

Hydrogeology Track

Applicants must satisfy the following requirements:

- A B.S. degree in geology or a related discipline (e.g., civil engineering).
- To be admitted to the program with a hydrogeology emphasis, it is required that the student have completed four of the following courses (or their equivalents) for unconditional admission to the program:
 - GEOL 474 – Hydrogeology
 - GEOL 330 – Geochemistry
 - GEOL 333 – Geomorphology
 - GEOL 341 – Structural Geology
 - GEOL 348 – Field Geology
 - GEOL 462 – Stratigraphy and Sedimentology

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Geology Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 4
 - GEOL 701 - Research Methods in Geoscience
 - GEOL 795 - Poster Presentation and Time Management
- Elective Courses – Credits: 20
 - Complete 20 credits of 600- or 700-level GEOL courses, or other advisor-approved courses.
- Thesis – Credits: 6
 - GEOL 797 - Thesis

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Geophysics Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 4
 - GEOL 701 - Research Methods in Geoscience
 - GEOL 795 - Poster Presentation and Time Management
- Core Course – Credits: 3
 - Complete one of the following courses:
 - CEE 636 - Engineering Geophysics
 - GEOL 645 - Geophysical Methods
- Additional Core Course – Credits: 3
 - Complete one of the following courses:
 - ECG 780 - Digital Signal Processing
 - GEOL 793 - Independent Study and Research
- Geophysics Courses – Credits: 9
 - Complete 9 credits in three or more of the following courses, or other advisor-approved courses.
 - BIOL 618 - Microbial Ecology
 - CEE 634 - Rock Mechanics
 - CEE 636 - Engineering Geophysics
 - CEE 676 - Earthquake Engineering
 - CEE 737 - Soil Dynamics and Earthquake Engineering
 - CEE 775 - Seismic Response of Structures
 - GEOL 630 - Geographic Information Systems (GIS): Theory and Applications
 - GEOL 643 - Plate Tectonics
 - GEOL 644 - Tectonics of Orogenic Belts
 - GEOL 646 - Geologic Applications in Remote Sensing
 - GEOL 678 - Hydrogeochemistry
 - GEOL 688 - Microtechniques in Geoscience
 - GEOL 716 - Geostatistics
 - GEOL 744 - Tectonics and Structures
 - GEOL 745 - Advanced Structural Geology
 - GEOL 746 - Strain and Microstructural Analysis
 - GEOL 747 - Geological Evolution of Western North America
 - GEOL 770 - Sedimentary Basins
 - GEOL 772 - Reflection Seismic Data Interpretation
 - GEOL 773 - Seminar in Geophysics
- Elective Courses – Credits: 5
 - Complete 5 credits from the following list of courses, or other advisor-approved courses that are appropriate for the course of study.
 - BIOL 618 - Microbial Ecology
 - CEE 634 - Rock Mechanics
 - CEE 636 - Engineering Geophysics
 - CEE 676 - Earthquake Engineering
 - CEE 737 - Soil Dynamics and Earthquake Engineering
 - CEE 775 - Seismic Response of Structures
 - GEOL 630 - Geographic Information Systems (GIS): Theory and Applications
 - GEOL 643 - Plate Tectonics
 - GEOL 644 - Tectonics of Orogenic Belts
 - GEOL 646 - Geologic Applications in Remote Sensing
 - GEOL 678 - Hydrogeochemistry
 - GEOL 688 - Microtechniques in Geoscience

- GEOL 716 - Geostatistics
- GEOL 744 - Tectonics and Structures
- GEOL 745 - Advanced Structural Geology
- GEOL 746 - Strain and Microstructural Analysis
- GEOL 747 - Geological Evolution of Western North America
- GEOL 770 - Sedimentary Basins
- GEOL 772 - Reflection Seismic Data Interpretation
- GEOL 773 - Seminar in Geophysics
- Thesis – Credits: 6
 - GEOL 797 - Thesis

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: Soil Science Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 10
 - GEOL 610 - Soil Classification and Resource Management
 - GEOL 701 - Research Methods in Geoscience
 - GEOL 786 - Soils Applications: Paleoclimate, Neotectonics, Archeology
 - GEOL 795 - Poster Presentation and Time Management
- Elective Courses – Credits: 14
 - Complete 14 credits from the following list of courses, or other advisor-approved courses that are appropriate for the course of study.
 - BIOL 618 - Microbial Ecology
 - BIOL 745 - Arid Zone Soils
 - GEOL 630 - Geographic Information Systems (GIS): Theory and Applications
 - GEOL 646 - Geologic Applications in Remote Sensing
 - GEOL 688 - Microtechniques in Geoscience
 - GEOL 712 - Watershed Hydrology
 - GEOL 716 - Geostatistics
 - GEOL 719 - Vadose Zone Hydrology
 - GEOL 735 - Seminar in Environmental Geology
 - GEOL 740 - Arid Zone Soils
 - GEOL 744 - Tectonics and Structures
 - GEOL 760 - Advanced Spatial Modeling with GIS
 - GEOL 770 - Sedimentary Basins
 - GEOL 776 - Paleosols Records of Past Landscapes
- Thesis – Credits: 6
 - GEOL 797 - Thesis

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 4 Requirements: Hydrogeology Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 4
 - GEOL 701 - Research Methods in Geoscience
 - GEOL 795 - Poster Presentation and Time Management
- Elective Courses – Credits: 20
 - Complete 20 credits from the following list of courses, or other advisor-approved courses that are appropriate for the course of study.
 - GEOL 630 - Geographic Information Systems (GIS): Theory and Applications
 - GEOL 646 - Geologic Applications in Remote Sensing
 - GEOL 674 - Hydrogeology
 - GEOL 678 - Hydrogeochemistry
 - GEOL 709 - Field Methods in Hydrogeology
 - GEOL 711 - Principles of Hydrology and Hydraulics
 - GEOL 712 - Watershed Hydrology
 - GEOL 715 - Advanced Hydrogeology
 - GEOL 716 - Geostatistics
 - GEOL 719 - Vadose Zone Hydrology
 - GEOL 740 - Arid Zone Soils
 - GEOL 744 - Tectonics and Structures
 - GEOL 760 - Advanced Spatial Modeling with GIS
 - GEOL 765 - Seminar in Stratigraphy
 - GEOL 785 - Seminar in Sedimentology
 - GEOL 792 - Seminar in Hydroscience
- Thesis – Credits: 6
 - GEOL 797 - Thesis

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Degree Requirements

- Students must complete a minimum of 30 credit hours with a minimum GPA of 3.00.
- At least 12 credits (excluding thesis) must be in 700-level courses.
- GEOL 701 and GEOL 795 must be taken during the first year of enrollment.
- Credits taken at other institutions will be considered for transfer; however, at least 16 of the 24 course credits required for the degree (not including thesis credits) must be taken at UNLV.
- Students must confer with their appointed advisor prior to enrollment in their first semester. Using Degree Audit as a guide, a degree program must be approved by the advisory committee. A thesis prospectus must be filed with the Graduate College, and a thesis committee must be appointed by the end of the second semester after admission to the college. This responsibility rests with the student. Students will be dropped from the program and separated from the Graduate College if they fail to fulfill this requirement.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Satisfactory progress toward meeting the degree requirements is required of all students. Satisfactory progress includes maintaining at least a 3.00 grade point average in all graduate-level courses. Consult the Geoscience Graduate Student Guidelines at <http://geoscience.unlv.edu/graduatestudentguidelines.htm> for full details.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Doctor of Philosophy - Geoscience

Plan Description

The Doctor of Philosophy – Geoscience degree is designed to prepare students for demanding research-oriented careers in academia, government service, private consulting, and industry. Working closely with their advisors, students focus on original research in an emphasis area. Research expectations are high; students are expected to develop original lines of research that will lead to three or more original manuscripts that are suitable for submission to a refereed scientific journal. Students are expected to have strong content knowledge in their area of emphasis and three additional sub-disciplines of the geologic sciences. Fundamental knowledge levels are tested first in a diagnostic interview that is used to guide coursework taken by the student, and then later in a comprehensive exam.

Learning Outcomes

www.unlv.edu/degree/phd-geoscience

Plan Admission Requirements

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Geology Track

The emphasis in Geology includes the fields of economic geology, environmental geology, geochemistry, geochronology, geomorphology, igneous petrology, paleontology, metamorphic petrology, Quaternary geology, pedology, sedimentology, stratigraphy, structural geology, surficial processes, tectonics, and volcanology.

Applicants must satisfy the following requirements:

- For the Post-Bachelor's Track: A bachelor's degree in geology or equivalent.
- For the Post-Master's Track: A Master of Science degree in geology or equivalent.
- It is recommended that the student have completed the following courses for unconditional admission to the program. An introductory geology class and six of the following eight classes (or their equivalents): mineralogy, geochemistry, geomorphology, structural geology, igneous and metamorphic petrology, paleontology, field geology, and sedimentology/stratigraphy.

Geophysics Track

Applicants must satisfy the following requirements:

- For the Post-Bachelor's Track: A bachelor's degree in geology, engineering, physics or mathematics.
- For the Post-Master's Track: A Master of Science degree.
- To be admitted to the program with a Geophysics emphasis, it is recommended that the student have completed the following courses for unconditional admission to the program.
 - Mathematics: Three semesters of calculus
 - Physics: Two semesters of introductory (calculus level) physics
 - Geology: Physical geology, historical geology, mineralogy, structural geology, sedimentology/stratigraphy, and igneous and metamorphic petrology.

Soil Science Track

Applicants must satisfy the following requirements:

- For the Post-Bachelor's Track: B.S. degree in a Natural Science (or similar field and course work) or B.A. degree in Natural Science (or similar field and course work) with approval of the graduate coordinator.
- For the Post-Master's Track: A Master of Science degree.
- To be admitted to the program with a Soil Science emphasis, it is recommended that the student have completed two of the following courses for unconditional admission to the program: Mineralogy, Geomorphology, Sedimentology/Stratigraphy, or Geochemistry.

Hydrogeology Track

Applicants must satisfy the following requirements:

- For the Post-Bachelor's Track: A B.S. degree in geology or a related discipline (e.g., civil engineering).
- For the Post-Master's Track: A master's degree in geology or a related discipline (e.g., civil engineering).

- To be admitted to the program with a hydrogeology emphasis, it is required that the student have completed four of the following courses (or their equivalents) for unconditional admission to the program:
 - GEOL 474 - Hydrogeology
 - GEOL 330 - Geochemistry
 - GEOL 333 - Geomorphology
 - GEOL 341 - Structural Geology
 - GEOL 348 - Field Geology
 - GEOL 462 - Stratigraphy and Sedimentology

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Bachelor's - Geology Track

Total Credits Required: 60

Course Requirements

- Required Course – Credits: 3
 - GEOL 701 - Research Methods in Geoscience
- Elective Courses – Credits: 45
 - Complete 45 credits of 600- or 700-level GEOL courses, or other advisor-approved courses.
- Dissertation – Credits: 12
 - GEOL 799 - Dissertation

Degree Requirements

- Students must complete a minimum of 60 credit hours with a minimum GPA of 3.00.
- A minimum of 24 of the 60 credits required must be at the 700-level.
- Although more course work and dissertation credits may be taken, only 12 credits of Dissertation, and 48 course credits will be counted toward the degree program.
- Doctoral students are encouraged to take courses from outside of geoscience; however, a minimum of 15 credits must be geoscience (GEOL) courses.
- A maximum of three credits of Independent Study are permitted, except in special circumstances in which case permission from the doctoral advising committee, the department Graduate Coordinator and the department chair is required.
- Satisfactory progress toward meeting the degree requirements is required of all candidates. Satisfactory progress is defined as, at a minimum:
 - Maintenance of at least a 3.00 grade point average in all graduate-level courses. Two grades of B- are permitted in the degree program as long as the GPA remains at or above 3.00. One grade of C+ or lower results in academic probation even if the overall GPA is above 3.0. Two grades of C+ or lower will result in automatic suspension from the program.
 - Selecting a dissertation advisor and committee. The advisor must be selected before the end of the first semester and the committee before the end of the second semester.

- Scheduling of an interview with the advisor either during or before the first semester. If an advisor is not selected, a temporary advisor will be assigned by the graduate coordinator. The purpose of the interview is to develop a plan of course work for the first year.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Scheduling of a diagnostic interview with the Advisory Committee before the end of the 2nd semester. The purpose of the interview is to develop a list of recommended courses and design the student's degree program, which must be submitted prior to completing 16 credits of course work toward the degree.
- Preparation of a dissertation proposal and satisfactory performance on a Proposal Defense Examination. This examination must be completed prior to the end of the third semester. The Proposal Defense Examination focuses on the dissertation proposal and the student's ability to perform the research. It includes a formal oral presentation of the student's dissertation proposal, research to date, and questions by the dissertation advisory committee on the dissertation topic. The Proposal Defense Examination is to be taken prior to the Comprehensive Examination.
- Satisfactory performance on the Comprehensive Examination. Ph.D. students must have a basic knowledge of Physical Geology in addition to a comprehensive knowledge of three fields of geosciences (see Department of Geoscience Graduate Student Guidelines for recommended fields for each Ph.D. Emphasis). The format and content of the exam will be determined by the student's doctoral advisory committee with approval of the department graduate coordinator. The Comprehensive Examination will be taken either the semester after all course work is completed or before the end of the fifth semester, whichever comes first. The examination will be oral. In exceptional circumstances, as determined by the student's dissertation committee and the graduate coordinator, the examination will consist of both oral and written components. Students who fail to pass the Comprehensive Examination or Proposal Defense on the first attempt must successfully complete a second examination (as specified by the doctoral advisory committee) within the next six months to remain in the program. Students who entered the program with a baccalaureate degree and who fail the second examination may be allowed to continue as a Master of Science student with the consent of the doctoral advising committee. Students who entered the program with a master's degree who fail the examination a second time will be separated from the program. A student who has successfully passed both the Proposal Defense and Comprehensive Examinations will be admitted to candidacy for the Ph.D. degree.
- Satisfactory performance on a final examination will consist of the presentation and defense of the dissertation research. The defense will consist of an oral presentation open to the public, a short period of questions from the public, a closed session of questions from the doctoral advising committee, and a closed deliberation and vote by just the advisory committee members. Any graduate faculty member may attend the closed session of questions of the defense.
- Using Degree Audit as a guide, a degree program must be approved by the advisory committee prior to the beginning of the third semester of enrollment.
- It is recommended that the student be a teaching assistant or instructor for at least one semester.

- Students may request a maximum of 15 graduate credits taken at UNLV prior to admission be included in the graduate degree program, providing those credits were not used to fulfill undergraduate requirements and a grade of B (3.00) or higher was achieved.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Post-Bachelor's - Geophysics Track

Total Credits Required: 60

Course Requirements

- Required Course – Credits: 3
 - GEOL 701 - Research Methods in Geoscience
- Core Course – Credits: 3
 - Complete one of the following courses:
 - CEE 636 - Engineering Geophysics
 - GEOL 645 - Geophysical Methods
- Additional Core Course – Credits: 3
 - Complete one of the following courses:
 - ECG 780 - Digital Signal Processing
 - GEOL 793 - Independent Study and Research
- Geophysics Courses – Credits: 9
 - Complete 9 credits in three or more of the following courses, or other advisor-approved courses.
 - BIOL 618 - Microbial Ecology
 - CEE 634 - Rock Mechanics
 - CEE 636 - Engineering Geophysics
 - CEE 676 - Earthquake Engineering
 - CEE 737 - Soil Dynamics and Earthquake Engineering
 - CEE 775 - Seismic Response of Structures
 - GEOL 630 - Geographic Information Systems (GIS): Theory and Applications
 - GEOL 643 - Plate Tectonics
 - GEOL 644 - Tectonics of Orogenic Belts
 - GEOL 646 - Geologic Applications in Remote Sensing
 - GEOL 678 - Hydrogeochemistry
 - GEOL 688 - Microtechniques in Geoscience
 - GEOL 716 - Geostatistics
 - GEOL 744 - Tectonics and Structures
 - GEOL 745 - Advanced Structural Geology
 - GEOL 746 - Strain and Microstructural Analysis
 - GEOL 747 - Geological Evolution of Western North America
 - GEOL 770 - Sedimentary Basins
 - GEOL 772 - Reflection Seismic Data Interpretation
 - GEOL 773 - Seminar in Geophysics
- Elective Courses – Credits: 30

- Complete 30 credits from the following list of courses, or other advisor-approved courses that are appropriate for the course of study.
 - BIOL 618 - Microbial Ecology
 - CEE 634 - Rock Mechanics
 - CEE 636 - Engineering Geophysics
 - CEE 676 - Earthquake Engineering
 - CEE 737 - Soil Dynamics and Earthquake Engineering
 - CEE 775 - Seismic Response of Structures
 - GEOL 630 - Geographic Information Systems (GIS): Theory and Applications
 - GEOL 643 - Plate Tectonics
 - GEOL 644 - Tectonics of Orogenic Belts
 - GEOL 646 - Geologic Applications in Remote Sensing
 - GEOL 678 - Hydrogeochemistry
 - GEOL 688 - Microtechniques in Geoscience
 - GEOL 716 - Geostatistics
 - GEOL 744 - Tectonics and Structures
 - GEOL 745 - Advanced Structural Geology
 - GEOL 746 - Strain and Microstructural Analysis
 - GEOL 747 - Geological Evolution of Western North America
 - GEOL 770 - Sedimentary Basins
 - GEOL 772 - Reflection Seismic Data Interpretation
 - GEOL 773 - Seminar in Geophysics
- Dissertation – Credits: 12
 - GEOL 799 - Dissertation

Degree Requirements

- Students must complete a minimum of 60 credit hours with a minimum GPA of 3.00.
- A minimum of 24 of the 60 credits required must be at the 700-level.
- Although more course work and dissertation credits may be taken, only 12 credits of Dissertation, and 48 course credits will be counted toward the degree program.
- Doctoral students are encouraged to take courses from outside of geoscience; however, a minimum of 15 credits must be geoscience (GEOL) courses.
- A maximum of three credits of Independent Study are permitted, except in special circumstances in which case permission from the doctoral advising committee, the department Graduate Coordinator and the department chair is required.
- Satisfactory progress toward meeting the degree requirements is required of all candidates. Satisfactory progress is defined as, at a minimum:
 - Maintenance of at least a 3.00 grade point average in all graduate-level courses. Two grades of B- are permitted in the degree program as long as the GPA remains at or above 3.00. One grade of C+ or lower results in academic probation even if the overall GPA is above 3.0. Two grades of C+ or lower will result in automatic suspension from the program.
 - Selecting a dissertation advisor and committee. The advisor must be selected before the end of the first semester and the committee before the end of the second semester.
 - Scheduling of an interview with the advisor either during or before the first semester. If an advisor is not selected, a temporary advisor will be assigned by the graduate coordinator. The purpose of the interview is to develop a plan of course work for the first year.
 - In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department,

known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

- Scheduling of a diagnostic interview with the Advisory Committee before the end of the 2nd semester. The purpose of the interview is to develop a list of recommended courses and design the student's degree program, which must be submitted prior to completing 16 credits of course work toward the degree.
 - Preparation of a dissertation proposal and satisfactory performance on a Proposal Defense Examination. This examination must be completed prior to the end of the third semester. The Proposal Defense Examination focuses on the dissertation proposal and the student's ability to perform the research. It includes a formal oral presentation of the student's dissertation proposal, research to date, and questions by the dissertation advisory committee on the dissertation topic. The Proposal Defense Examination is to be taken prior to the Comprehensive Examination.
 - Satisfactory performance on the Comprehensive Examination. Ph.D. students must have a basic knowledge of Physical Geology in addition to a comprehensive knowledge of three fields of geosciences (see Department of Geoscience Graduate Student Guidelines for recommended fields for each Ph.D. Emphasis). The format and content of the exam will be determined by the student's doctoral advisory committee with approval of the department graduate coordinator. The Comprehensive Examination will be taken either the semester after all course work is completed or before the end of the fifth semester, whichever comes first. The examination will be oral. Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: Post-Bachelor's - Soil Science Track

Total Credits Required: 60

Course Requirements

- Required Course – Credits: 3
 - GEOL 701 - Research Methods in Geoscience
- Core Courses – Credits: 6
 - GEOL 610 - Soil Classification and Resource Management
 - GEOL 786 - Soils Applications: Paleoclimate, Neotectonics, Archeology
- Elective Courses – Credits: 39
 - Complete 39 credits from the following list of courses, or other advisor-approved courses that are appropriate for the course of study.
 - BIOL 618 - Microbial Ecology
 - BIOL 745 - Arid Zone Soils
 - GEOL 630 - Geographic Information Systems (GIS): Theory and Applications
 - GEOL 646 - Geologic Applications in Remote Sensing
 - GEOL 688 - Microtechniques in Geoscience
 - GEOL 712 - Watershed Hydrology
 - GEOL 716 - Geostatistics
 - GEOL 719 - Vadose Zone Hydrology
 - GEOL 735 - Seminar in Environmental Geology
 - GEOL 740 - Arid Zone Soils
 - GEOL 744 - Tectonics and Structures
 - GEOL 760 - Advanced Spatial Modeling with GIS
 - GEOL 770 - Sedimentary Basins
 - GEOL 776 - Paleosols Records of Past Landscapes
- Dissertation – Credits: 12
 - GEOL 799 - Dissertation

Degree Requirements

- Students must complete a minimum of 60 credit hours with a minimum GPA of 3.00.
- A minimum of 24 of the 60 credits required must be at the 700-level.
- Although more course work and dissertation credits may be taken, only 12 credits of Dissertation, and 48 course credits will be counted toward the degree program.
- Doctoral students are encouraged to take courses from outside of geoscience; however, a minimum of 15 credits must be geoscience (GEOL) courses.
- A maximum of three credits of Independent Study are permitted, except in special circumstances in which case permission from the doctoral advising committee, the department Graduate Coordinator and the department chair is required.
- Satisfactory progress toward meeting the degree requirements is required of all candidates. Satisfactory progress is defined as, at a minimum:
 - Maintenance of at least a 3.00 grade point average in all graduate-level courses. Two grades of B- are permitted in the degree program as long as the GPA remains at or above 3.00. One grade of C+ or lower results in academic probation even if the overall GPA is above 3.0. Two grades of C+ or lower will result in automatic suspension from the program.

- Selecting a dissertation advisor and committee. The advisor must be selected before the end of the first semester and the committee before the end of the second semester.
- Scheduling of an interview with the advisor either during or before the first semester. If an advisor is not selected, a temporary advisor will be assigned by the graduate coordinator. The purpose of the interview is to develop a plan of course work for the first year.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Scheduling of a diagnostic interview with the Advisory Committee before the end of the 2nd semester. The purpose of the interview is to develop a list of recommended courses and design the student's degree program, which must be submitted prior to completing 16 credits of course work toward the degree.
- Preparation of a dissertation proposal and satisfactory performance on a Proposal Defense Examination. This examination must be completed prior to the end of the third semester. The Proposal Defense Examination focuses on the dissertation proposal and the student's ability to perform the research. It includes a formal oral presentation of the student's dissertation proposal, research to date, and questions by the dissertation advisory committee on the dissertation topic. The Proposal Defense Examination is to be taken prior to the Comprehensive Examination.
- Satisfactory performance on the Comprehensive Examination. Ph.D. students must have a basic knowledge of Physical Geology in addition to a comprehensive knowledge of three fields of geosciences (see Department of Geoscience Graduate Student Guidelines for recommended fields for each Ph.D. Emphasis). The format and content of the exam will be determined by the student's doctoral advisory committee with approval of the department graduate coordinator. The Comprehensive Examination will be taken either the semester after all course work is completed or before the end of the fifth semester, whichever comes first. The examination will be oral. In exceptional circumstances, as determined by the student's dissertation committee and the graduate coordinator, the examination will consist of both oral and written components. Students who fail to pass the Comprehensive Examination or Proposal Defense on the first attempt must successfully complete a second examination (as specified by the doctoral advisory committee) within the next six months to remain in the program. Students who entered the program with a baccalaureate degree and who fail the second examination may be allowed to continue as a Master of Science student with the consent of the doctoral advising committee. Students who entered the program with a master's degree who fail the examination a second time will be separated from the program. - Satisfactory performance on a final examination will consist of the presentation and defense of the dissertation research. The defense will consist of an oral presentation open to the public, a short period of questions from the public, a closed session of questions from the doctoral advising committee, and a closed deliberation and vote by just the advisory committee members. Any graduate faculty member may attend the closed session of questions of the defense.
- Using Degree Audit as a guide, a degree program must be approved by the advisory committee prior to the beginning of the third semester of enrollment.
- It is recommended that the student be a teaching assistant or instructor for at least one semester.

- Students may request a maximum of 15 graduate credits taken at UNLV prior to admission be included in the graduate degree program, providing those credits were not used to fulfill undergraduate requirements and a grade of B (3.00) or higher was achieved.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 4 Requirements: Post-Bachelor's - Hydrogeology Track

Total Credits Required: 60

Course Requirements

- Required Course – Credits: 3
 - GEOL 701 - Research Methods in Geoscience
- Elective Courses – Credits: 45
 - Complete 45 credits from the following list of courses, or other advisor-approved courses that are appropriate for the course of study.
 - BIOL 618 - Microbial Ecology
 - BIOL 745 - Arid Zone Soils
 - GEOL 630 - Geographic Information Systems (GIS): Theory and Applications
 - GEOL 646 - Geologic Applications in Remote Sensing
 - GEOL 674 - Hydrogeology
 - GEOL 678 - Hydrogeochemistry
 - GEOL 688 - Microtechniques in Geoscience
 - GEOL 709 - Field Methods in Hydrogeology
 - GEOL 711 - Principles of Hydrology and Hydraulics
 - GEOL 712 - Watershed Hydrology
 - GEOL 715 - Advanced Hydrogeology
 - GEOL 716 - Geostatistics
 - GEOL 719 - Vadose Zone Hydrology
 - GEOL 735 - Seminar in Environmental Geology
 - GEOL 740 - Arid Zone Soils
 - GEOL 744 - Tectonics and Structures
 - GEOL 760 - Advanced Spatial Modeling with GIS
 - GEOL 765 - Seminar in Stratigraphy
 - GEOL 770 - Sedimentary Basins
 - GEOL 776 - Paleosols Records of Past Landscapes
 - GEOL 785 - Seminar in Sedimentology
 - GEOL 792 - Seminar in Hydroscience
- Dissertation – Credits: 12
 - GEOL 799 - Dissertation

Degree Requirements

- Students must complete a minimum of 60 credit hours with a minimum GPA of 3.00.
- A minimum of 24 of the 60 credits required must be at the 700-level.

- Although more course work and dissertation credits may be taken, only 12 credits of Dissertation, and 48 course credits will be counted toward the degree program.
- Doctoral students are encouraged to take courses from outside of geoscience; however, a minimum of 15 credits must be geoscience (GEOL) courses.
- A maximum of three credits of Independent Study are permitted, except in special circumstances in which case permission from the doctoral advising committee, the department Graduate Coordinator and the department chair is required.
- Satisfactory progress toward meeting the degree requirements is required of all candidates. Satisfactory progress is defined as, at a minimum:
 - Maintenance of at least a 3.00 grade point average in all graduate-level courses. Two grades of B- are permitted in the degree program as long as the GPA remains at or above 3.00. One grade of C+ or lower results in academic probation even if the overall GPA is above 3.0. Two grades of C+ or lower will result in automatic suspension from the program.
 - Selecting a dissertation advisor and committee. The advisor must be selected before the end of the first semester and the committee before the end of the second semester.
 - Scheduling of an interview with the advisor either during or before the first semester. If an advisor is not selected, a temporary advisor will be assigned by the graduate coordinator. The purpose of the interview is to develop a plan of course work for the first year.
 - In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
 - Scheduling of a diagnostic interview with the Advisory Committee before the end of the 2nd semester. The purpose of the interview is to develop a list of recommended courses and design the student's degree program, which must be submitted prior to completing 16 credits of course work toward the degree.
 - Preparation of a dissertation proposal and satisfactory performance on a Proposal Defense Examination. This examination must be completed prior to the end of the third semester. The Proposal Defense Examination focuses on the dissertation proposal and the student's ability to perform the research. It includes a formal oral presentation of the student's dissertation proposal, research to date, and questions by the dissertation advisory committee on the dissertation topic. The Proposal Defense Examination is to be taken prior to the Comprehensive Examination.
 - Satisfactory performance on the Comprehensive Examination. Ph.D. students must have a basic knowledge of Physical Geology in addition to a comprehensive knowledge of three fields of geosciences (see Department of Geoscience Graduate Student Guidelines for recommended fields for each Ph.D. Emphasis). The format and content of the exam will be determined by the student's doctoral advisory committee with approval of the department graduate coordinator. The Comprehensive Examination will be taken either the semester after all course work is completed or before the end of the fifth semester, whichever comes first. The examination will be oral. In exceptional circumstances, as determined by the student's dissertation committee and the graduate coordinator, the examination will consist of both oral and written components. Students who fail to pass the Comprehensive Examination or Proposal Defense on the first attempt must successfully complete a second examination (as specified by the doctoral advisory committee) within the next six months to remain in the program. Students who entered the program with a baccalaureate degree and who fail the second examination may be allowed to continue as a Master of Science student with the

consent of the doctoral advising committee. Students who entered the program with a master's degree who fail the examination a second time will be separated from the program. A student who has successfully passed both the Proposal Defense and Comprehensive Examinations will be admitted to candidacy for the Ph.D. degree.

- Satisfactory performance on a final examination will consist of the presentation and defense of the dissertation research. The defense will consist of an oral presentation open to the public, a short period of questions from the public, a closed session of questions from the doctoral advising committee, and a closed deliberation and vote by just the advisory committee members. Any graduate faculty member may attend the closed session of questions of the defense.
- Using Degree Audit as a guide, a degree program must be approved by the advisory committee prior to the beginning of the third semester of enrollment.
- It is recommended that the student be a teaching assistant or instructor for at least one semester.
- Students may request a maximum of 15 graduate credits taken at UNLV prior to admission be included in the graduate degree program, providing those credits were not used to fulfill undergraduate requirements and a grade of B (3.00) or higher was achieved.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 5 Requirements: Post-Master's - Geology Track

Total Credits Required: 36

Course Requirements

- Required Course – Credits: 3
 - GEOL 701 - Research Methods in Geoscience
- Elective Courses – Credits: 21
 - Complete 21 credits of 600- or 700-level GEOL courses, or other advisor-approved courses.
- Dissertation – Credits: 12
 - GEOL 799 - Dissertation

Degree Requirements

- Students must complete a minimum of 36 credit hours with a minimum GPA of 3.00.
- A minimum of 12 of the 36 credits required must be at the 700-level.
- Although more course work and dissertation credits may be taken, only 12 credits of Dissertation, and 24 course credits will be counted toward the degree program.
- Doctoral students are encouraged to take courses from outside of geoscience; however, a minimum of 15 credits must be geoscience (GEOL) courses.
- A maximum of three credits of Independent Study are permitted, except in special circumstances in which case permission from the doctoral advising committee, the department Graduate Coordinator and the department chair is required.
- Satisfactory progress toward meeting the degree requirements is required of all candidates. Satisfactory progress is defined as, at a minimum:

- Maintenance of at least a 3.00 grade point average in all graduate-level courses. Two grades of B- are permitted in the degree program as long as the GPA remains at or above 3.00. One grade of C+ or lower results in academic probation even if the overall GPA is above 3.0. Two grades of C+ or lower will result in automatic suspension from the program.
- Selecting a dissertation advisor and committee. The advisor must be selected before the end of the first semester and the committee before the end of the second semester.
- Scheduling of an interview with the advisor either during or before the first semester. If an advisor is not selected, a temporary advisor will be assigned by the graduate coordinator. The purpose of the interview is to develop a plan of course work for the first year.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Scheduling of a diagnostic interview with the Advisory Committee before the end of the 2nd semester. The purpose of the interview is to develop a list of recommended courses and design the student's degree program, which must be submitted prior to completing 16 credits of course work toward the degree.
- Preparation of a dissertation proposal and satisfactory performance on a Proposal Defense Examination. This examination must be completed prior to the end of the third semester. The Proposal Defense Examination focuses on the dissertation proposal and the student's ability to perform the research. It includes a formal oral presentation of the student's dissertation proposal, research to date, and questions by the dissertation advisory committee on the dissertation topic. The Proposal Defense Examination is to be taken prior to the Comprehensive Examination.
- Satisfactory performance on the Comprehensive Examination. Ph.D. students must have a basic knowledge of Physical Geology in addition to a comprehensive knowledge of three fields of geosciences (see Department of Geoscience Graduate Student Guidelines for recommended fields for each Ph.D. Emphasis). The format and content of the exam will be determined by the student's doctoral advisory committee with approval of the department graduate coordinator. The Comprehensive Examination will be taken either the semester after all course work is completed or before the end of the fifth semester, whichever comes first. The examination will be oral. In exceptional circumstances, as determined by the student's dissertation committee and the graduate coordinator, the examination will consist of both oral and written components. Students who fail to pass the Comprehensive Examination or Proposal Defense on the first attempt must successfully complete a second examination (as specified by the doctoral advisory committee) within the next six months to remain in the program. Graduation Requirements

See Plan Graduation Requirements below.

Subplan 6 Requirements: Post-Master's - Geophysics Track

Total Credits Required: 36

Course Requirements

- Required Course – Credits: 3
 - GEOL 701 - Research Methods in Geoscience
- Core Course – Credits: 3
 - Complete one of the following courses:
 - CEE 636 - Engineering Geophysics
 - GEOL 645 - Geophysical Methods
- Additional Core Course – Credits: 3
 - Complete one of the following courses:
 - ECG 780 - Digital Signal Processing
 - GEOL 793 - Independent Study and Research
- Geophysics Courses – Credits: 9
 - Complete 9 credits in three or more of the following courses, or other advisor-approved courses.
 - BIOL 618 - Microbial Ecology
 - CEE 634 - Rock Mechanics
 - CEE 636 - Engineering Geophysics
 - CEE 676 - Earthquake Engineering
 - CEE 737 - Soil Dynamics and Earthquake Engineering
 - CEE 775 - Seismic Response of Structures
 - GEOL 630 - Geographic Information Systems (GIS): Theory and Applications
 - GEOL 643 - Plate Tectonics
 - GEOL 644 - Tectonics of Orogenic Belts
 - GEOL 646 - Geologic Applications in Remote Sensing
 - GEOL 678 - Hydrogeochemistry
 - GEOL 688 - Microtechniques in Geoscience
 - GEOL 716 - Geostatistics
 - GEOL 744 - Tectonics and Structures
 - GEOL 745 - Advanced Structural Geology
 - GEOL 746 - Strain and Microstructural Analysis
 - GEOL 747 - Geological Evolution of Western North America

- GEOL 770 - Sedimentary Basins
 - GEOL 772 - Reflection Seismic Data Interpretation
 - GEOL 773 - Seminar in Geophysics
- Elective Courses – Credits: 6
 - Complete 6 credits from the following list of courses, or other advisor-approved courses that are appropriate for the course of study.
 - BIOL 618 - Microbial Ecology
 - CEE 634 - Rock Mechanics
 - CEE 636 - Engineering Geophysics
 - CEE 676 - Earthquake Engineering
 - CEE 737 - Soil Dynamics and Earthquake Engineering
 - CEE 775 - Seismic Response of Structures
 - GEOL 630 - Geographic Information Systems (GIS): Theory and Applications
 - GEOL 643 - Plate Tectonics
 - GEOL 644 - Tectonics of Orogenic Belts
 - GEOL 646 - Geologic Applications in Remote Sensing
 - GEOL 678 - Hydrogeochemistry
 - GEOL 688 - Microtechniques in Geoscience
 - GEOL 716 - Geostatistics
 - GEOL 744 - Tectonics and Structures
 - GEOL 745 - Advanced Structural Geology
 - GEOL 746 - Strain and Microstructural Analysis
 - GEOL 747 - Geological Evolution of Western North America
 - GEOL 770 - Sedimentary Basins
 - GEOL 772 - Reflection Seismic Data Interpretation
 - GEOL 773 - Seminar in Geophysics
- Dissertation – Credits: 12
 - GEOL 799 - Dissertation

Degree Requirements

- Students must complete a minimum of 36 credit hours with a minimum GPA of 3.00.
- A minimum of 12 of the 36 credits required must be at the 700-level.
- Although more course work and dissertation credits may be taken, only 12 credits of Dissertation, and 24 course credits will be counted toward the degree program.
- Doctoral students are encouraged to take courses from outside of geoscience; however, a minimum of 15 credits must be geoscience (GEOL) courses.
- A maximum of three credits of Independent Study are permitted, except in special circumstances in which case permission from the doctoral advising committee, the department Graduate Coordinator and the department chair is required.
- Satisfactory progress toward meeting the degree requirements is required of all candidates. Satisfactory progress is defined as, at a minimum:
 - Maintenance of at least a 3.00 grade point average in all graduate-level courses. Two grades of B- are permitted in the degree program as long as the GPA remains at or above 3.00. One grade of C+ or lower results in academic probation even if the overall GPA is above 3.0. Two grades of C+ or lower will result in automatic suspension from the program.
 - Selecting a dissertation advisor and committee. The advisor must be selected before the end of the first semester and the committee before the end of the second semester.

- Scheduling of an interview with the advisor either during or before the first semester. If an advisor is not selected, a temporary advisor will be assigned by the graduate coordinator. The purpose of the interview is to develop a plan of course work for the first year.
 - In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
 - Scheduling of a diagnostic interview with the Advisory Committee before the end of the 2nd semester. The purpose of the interview is to develop a list of recommended courses and design the student's degree program, which must be submitted prior to completing 16 credits of course work toward the degree.
 - Preparation of a dissertation proposal and satisfactory performance on a Proposal Defense Examination. This examination must be completed prior to the end of the third semester. The Proposal Defense Examination focuses on the dissertation proposal and the student's ability to perform the research. It includes a formal oral presentation of the student's dissertation proposal, research to date, and questions by the dissertation advisory committee on the dissertation topic. The Proposal Defense Examination is to be taken prior to the Comprehensive Examination.
 - Satisfactory performance on the Comprehensive Examination. Ph.D. students must have a basic knowledge of Physical Geology in addition to a comprehensive knowledge of three fields of geosciences (see Department of Geoscience Graduate Student Guidelines for recommended fields for each Ph.D. Emphasis). The format and content of the exam will be determined by the student's doctoral advisory committee with approval of the department graduate coordinator. The Comprehensive Examination will be taken either the semester after all course work is completed or before the end of the fifth semester, whichever comes first. The examination will be oral. In exceptional circumstances, as determined by the student's dissertation committee and the graduate coordinator, the examination will consist of both oral and written components. Students who fail to pass the Comprehensive Examination or Proposal Defense on the first attempt must successfully complete a second examination (as specified by the doctoral advisory committee) within the next six months to remain in the program. Students who entered the program with a baccalaureate degree and who fail the second examination may be allowed to continue as a Master of Science student with the consent of the doctoral advising committee. Students who entered the program with a master's degree who fail the examination a second time will be separated from the program. A student who has successfully passed both the Proposal Defense and Comprehensive Examinations will be admitted to candidacy for the Ph.D. degree.
 - Satisfactory performance on a final examination will consist of the presentation and defense of the dissertation research. The defense will consist of an oral presentation open to the public, a short period of questions from the public, a closed session of questions from the doctoral advising committee, and a closed deliberation and vote by just the advisory committee members. Any graduate faculty member may attend the closed session of questions of the defense.
- Using Degree Audit as a guide, a degree program must be approved by the advisory committee prior to the beginning of the third semester of enrollment.
 - It is recommended that the student be a teaching assistant or instructor for at least one semester.

- Students may request a maximum of 15 graduate credits taken at UNLV prior to admission be included in the graduate degree program, providing those credits were not used to fulfill undergraduate requirements and a grade of B (3.00) or higher was achieved.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 7 Requirements: Post-Master's - Soil Science Track

Total Credits Required: 36

Course Requirements

- Required Courses – Credits: 9
 - GEOL 610 - Soil Classification and Resource Management
 - GEOL 701 - Research Methods in Geoscience
 - GEOL 786 - Soils Applications: Paleoclimate, Neotectonics, Archeology
- Elective Courses – Credits: 15
 - Complete 15 credits from the following list of courses, or other advisor-approved courses that are appropriate for the course of study.
 - BIOL 618 - Microbial Ecology
 - BIOL 745 - Arid Zone Soils
 - GEOL 630 - Geographic Information Systems (GIS): Theory and Applications
 - GEOL 646 - Geologic Applications in Remote Sensing
 - GEOL 688 - Microtechniques in Geoscience
 - GEOL 712 - Watershed Hydrology
 - GEOL 716 - Geostatistics
 - GEOL 719 - Vadose Zone Hydrology
 - GEOL 735 - Seminar in Environmental Geology
 - GEOL 740 - Arid Zone Soils
 - GEOL 744 - Tectonics and Structures
 - GEOL 760 - Advanced Spatial Modeling with GIS
 - GEOL 770 - Sedimentary Basins
 - GEOL 776 - Paleosols Records of Past Landscapes
- Dissertation – Credits: 12
 - GEOL 799 - Dissertation

Degree Requirements

- Students must complete a minimum of 36 credit hours with a minimum GPA of 3.00.
- A minimum of 12 of the 36 credits required must be at the 700-level.
- Although more course work and dissertation credits may be taken, only 12 credits of Dissertation, and 24 course credits will be counted toward the degree program.
- Doctoral students are encouraged to take courses from outside of geoscience; however, a minimum of 15 credits must be geoscience (GEOL) courses.

- A maximum of three credits of Independent Study are permitted, except in special circumstances in which case permission from the doctoral advising committee, the department Graduate Coordinator and the department chair is required.
- Satisfactory progress toward meeting the degree requirements is required of all candidates. Satisfactory progress is defined as, at a minimum:
 - Maintenance of at least a 3.00 grade point average in all graduate-level courses. Two grades of B- are permitted in the degree program as long as the GPA remains at or above 3.00. One grade of C+ or lower results in academic probation even if the overall GPA is above 3.0. Two grades of C+ or lower will result in automatic suspension from the program.
 - Selecting a dissertation advisor and committee. The advisor must be selected before the end of the first semester and the committee before the end of the second semester.
 - Scheduling of an interview with the advisor either during or before the first semester. If an advisor is not selected, a temporary advisor will be assigned by the graduate coordinator. The purpose of the interview is to develop a plan of course work for the first year.
 - In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
 - Scheduling of a diagnostic interview with the Advisory Committee before the end of the 2nd semester. The purpose of the interview is to develop a list of recommended courses and design the student's degree program, which must be submitted prior to completing 16 credits of course work toward the degree.
 - Preparation of a dissertation proposal and satisfactory performance on a Proposal Defense Examination. This examination must be completed prior to the end of the third semester. The Proposal Defense Examination focuses on the dissertation proposal and the student's ability to perform the research. It includes a formal oral presentation of the student's dissertation proposal, research to date, and questions by the dissertation advisory committee on the dissertation topic. The Proposal Defense Examination is to be taken prior to the Comprehensive Examination.
 - Satisfactory performance on the Comprehensive Examination. Ph.D. students must have a basic knowledge of Physical Geology in addition to a comprehensive knowledge of three fields of geosciences (see Department of Geoscience Graduate Student Guidelines for recommended fields for each Ph.D. Emphasis). The format and content of the exam will be determined by the student's doctoral advisory committee with approval of the department graduate coordinator. The Comprehensive Examination will be taken either the semester after all course work is completed or before the end of the fifth semester, whichever comes first. The examination will be oral. In exceptional circumstances, as determined by the student's dissertation committee and the graduate coordinator, the examination will consist of both oral and written components. Students who fail to pass the Comprehensive Examination or Proposal Defense on the first attempt must successfully complete a second examination (as specified by the doctoral advisory committee) within the next six months to remain in the program. - Students may request a maximum of 15 graduate credits taken at UNLV prior to admission be included in the graduate degree program, providing those credits were not used to fulfill undergraduate requirements and a grade of B (3.00) or higher was achieved.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 8 Requirements: Post-Master's - Hydrogeology Track

Total Credits Required: 36

Course Requirements

- Required Course – Credits: 3
 - GEOL 701 - Research Methods in Geoscience
- Elective Courses – Credits: 21
 - Complete 21 credits from the following list of courses, or other advisor-approved courses that are appropriate for the course of study.
 - BIOL 618 - Microbial Ecology
 - BIOL 745 - Arid Zone Soils
 - GEOL 630 - Geographic Information Systems (GIS): Theory and Applications
 - GEOL 646 - Geologic Applications in Remote Sensing
 - GEOL 674 - Hydrogeology
 - GEOL 678 - Hydrogeochemistry
 - GEOL 688 - Microtechniques in Geoscience
 - GEOL 709 - Field Methods in Hydrogeology
 - GEOL 711 - Principles of Hydrology and Hydraulics
 - GEOL 712 - Watershed Hydrology
 - GEOL 715 - Advanced Hydrogeology
 - GEOL 716 - Geostatistics
 - GEOL 719 - Vadose Zone Hydrology
 - GEOL 735 - Seminar in Environmental Geology
 - GEOL 740 - Arid Zone Soils
 - GEOL 744 - Tectonics and Structures
 - GEOL 760 - Advanced Spatial Modeling with GIS
 - GEOL 765 - Seminar in Stratigraphy
 - GEOL 770 - Sedimentary Basins
 - GEOL 776 - Paleosols Records of Past Landscapes

- GEOL 785 - Seminar in Sedimentology
 - GEOL 792 - Seminar in Hydroscience
- Dissertation – Credits: 12
 - GEOL 799 - Dissertation

Degree Requirements

- Students must complete a minimum of 36 credit hours with a minimum GPA of 3.00.
- A minimum of 12 of the 36 credits required must be at the 700-level.
- Although more course work and dissertation credits may be taken, only 12 credits of Dissertation, and 24 course credits will be counted toward the degree program.
- Doctoral students are encouraged to take courses from outside of geoscience; however, a minimum of 15 credits must be geoscience (GEOL) courses.
- A maximum of three credits of Independent Study are permitted, except in special circumstances in which case permission from the doctoral advising committee, the department Graduate Coordinator and the department chair is required.
- Satisfactory progress toward meeting the degree requirements is required of all candidates. Satisfactory progress is defined as, at a minimum:
 - Maintenance of at least a 3.00 grade point average in all graduate-level courses. Two grades of B- are permitted in the degree program as long as the GPA remains at or above 3.00. One grade of C+ or lower results in academic probation even if the overall GPA is above 3.0. Two grades of C+ or lower will result in automatic suspension from the program.
 - Selecting a dissertation advisor and committee. The advisor must be selected before the end of the first semester and the committee before the end of the second semester.
 - Scheduling of an interview with the advisor either during or before the first semester. If an advisor is not selected, a temporary advisor will be assigned by the graduate coordinator. The purpose of the interview is to develop a plan of course work for the first year.
 - In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
 - Scheduling of a diagnostic interview with the Advisory Committee before the end of the 2nd semester. The purpose of the interview is to develop a list of recommended courses and design the student's degree program, which must be submitted prior to completing 16 credits of course work toward the degree.
 - Preparation of a dissertation proposal and satisfactory performance on a Proposal Defense Examination. This examination must be completed prior to the end of the third semester. The Proposal Defense Examination focuses on the dissertation proposal and the student's ability to perform the research. It includes a formal oral presentation of the student's dissertation proposal, research to date, and questions by the dissertation advisory committee on the dissertation topic. The Proposal Defense Examination is to be taken prior to the Comprehensive Examination.
 - Satisfactory performance on the Comprehensive Examination. Ph.D. students must have a basic knowledge of Physical Geology in addition to a comprehensive knowledge of three fields of geosciences (see Department of Geoscience Graduate Student Guidelines for recommended fields for each Ph.D. Emphasis). The format and content of the exam will be determined by the student's doctoral advisory committee with approval of the department graduate coordinator. The Comprehensive Examination will be taken either the semester after all course work is completed or before the end of the fifth semester, whichever comes first. The examination will be oral. In

exceptional circumstances, as determined by the student's dissertation committee and the graduate coordinator, the examination will consist of both oral and written components. Students who fail to pass the Comprehensive Examination or Proposal Defense on the first attempt must successfully complete a second examination (as specified by the doctoral advisory committee) within the next six months to remain in the program. Students who entered the program with a baccalaureate degree and who fail the second examination may be allowed to continue as a Master of Science student with the consent of the doctoral advising committee. Students who entered the program with a master's degree who fail the examination a second time will be separated from the program. A student who has successfully passed both the Proposal Defense and Comprehensive Examinations will be admitted to candidacy for the Ph.D. degree.

- Satisfactory performance on a final examination will consist of the presentation and defense of the dissertation research. The defense will consist of an oral presentation open to the public, a short period of questions from the public, a closed session of questions from the doctoral advising committee, and a closed deliberation and vote by just the advisory committee members. Any graduate faculty member may attend the closed session of questions of the defense.
- Using Degree Audit as a guide, a degree program must be approved by the advisory committee prior to the beginning of the third semester of enrollment.
- It is recommended that the student be a teaching assistant or instructor for at least one semester.
- Students may request a maximum of 15 graduate credits taken at UNLV prior to admission be included in the graduate degree program, providing those credits were not used to fulfill undergraduate requirements and a grade of B (3.00) or higher was achieved.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Geoscience Courses

GEOG 621 - Climatology

Credits 3

Physical characteristics of the atmosphere. World climatic classification. Local atmospheric field study.

Prerequisites GEOG 103 or consent of instructor.

GEOG 610 - Soil Classification and Resource Management

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOG 620 - Introduction to X-ray Diffraction and X-ray Spectrometry Methods

Introduction to the principles and methods of x-ray analysis as applied to the study of minerals. Powder camera,

diffraction and spectrometry methods covered. **Notes** This course is cross-listed with GEOL 420. Credit at the 600-level requires additional work.

GEOL 625 - Principles of Geochemistry

Credits 3

Fundamental geochemical processes operating within the earth's lithosphere, hydrosphere and atmosphere. Topics include chemical differentiation of the earth, crystal chemistry, mineral stability and phase diagrams, aqueous geochemistry, isotope geochemistry, organic chemistry. **Prerequisites** College level chemistry or geochemistry.

GEOL 629 - Geochemical Thermodynamics and Kinetics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 630 - Geographic Information Systems (GIS): Theory and Applications

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 633 - Glacial and Periglacial Geology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 634 - Quaternary Geology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 636 - Quaternary Paleocology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 637 - Paleoclimatology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 640 - Volcanology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 643 - Plate Tectonics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 644 - Tectonics of Orogenic Belts

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 645 - Geophysical Methods

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 645L - Geophysical Methods Lab

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 646 - Geologic Applications in Remote Sensing

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 646L - Geologic Applications in Remote Sensing Lab

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 649 - Geochronology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 671 - Petroleum Geology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 674 - Hydrogeology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 677 - Geology of Metallic Ore Deposits

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 678 - Hydrogeochemistry

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 685 - Engineering Geology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 688 - Microtechniques in Geoscience

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600-level normally requires additional work.

GEOL 701 - Research Methods in Geoscience**Credits 3**

Discussion of the processes of scientific research and research design as applied to modern geoscience. Includes scientific approaches to field and laboratory research, research and professional ethics, writing, and public presentation. Model thesis prospectus and grant proposals prepared. **Notes** Required weekend field trips familiarize students with the local geology. **Prerequisites** Graduate standing or consent of instructor.

GEOL 707 - Stable Isotope Geochemistry**Credits 3**

Investigates stable isotopes in the hydrologic and geologic cycles, and their use as tracers in paleoclimatology, hydrogeology, and oceanography. Theory and research applications of stable isotopes in geologic, biologic, water, and atmospheric samples, including carbon, oxygen, hydrogen, nitrogen, strontium, and sulfur isotopes.

Prerequisites Geochemistry.

GEOL 708 - Radiogenic Isotope Geochemistry**Credits 3**

Principles of radiogenic isotope geochemistry as a monitor of geochemical processes in the mantle, lithosphere and hydrosphere; applications to petrology, tectonics, economic geology, marine geology and paleoclimatology.

Prerequisites GEOL 330, GEOL 426, MATH 181 or equivalent, or consent of instructor.

GEOL 709 - Field Methods in Hydrogeology**Credits 3**

A survey of techniques used to investigate field problems in hydrogeology. Data collection, analysis, and professional presentation of results are emphasized. Topics may include: water balance measures, water table mapping, estimation of hydraulic parameters, and ground-water monitoring. Additional topics suggested by students may also be explored.

GEOL 710 - Igneous Petrology**Credits 4**

Origin of igneous rocks, relation of magma types to tectonic settings, physical properties of magmas, application of trace elements and isotopes to petrogenesis, modeling of crystal fractionation and partial melting, phase diagrams.

Notes Six hours laboratory. **Prerequisites** GEOL 325 or equivalent or consent of instructor.

GEOL 711 - Principles of Hydrology and Hydraulics**Credits 3**

Consideration of modern concepts of hydrology and hydraulics. Includes coverage of statistical methods of analysis, unsteady flow, channel design, modeling and simulation, urban hydrology, and design of hydraulic structures.

Prerequisites Consent of instructor.

GEOL 712 - Watershed Hydrology

Credits 3

Concepts and processes controlling water movement and distribution within the watershed; analysis techniques for understanding watershed dynamics; numerical simulation of various watershed-scale hydrologic processes.

Prerequisites Consent of instructor.

GEOL 713 - Flow and Transport in Unsaturated Fractured Media

Credits 3

Explores the current state of understanding regarding fluid flow and contaminant transport in unsaturated fractured geologic media (e.g., rock, soil) through review of recent literature. Competing conceptual models are contrasted in light of existing capabilities for numerical simulation at the scale of pertinent applied problems.

GEOL 715 - Advanced Hydrogeology

Credits 4

Advanced concepts used in ground water investigations, including flow system analysis, resource evaluation, exploration, development, and monitoring. **Prerequisites** GEOL 674

GEOL 716 - Geostatistics

Credits 3

Analysis of the spatial and temporal variations in geologic, hydrologic and geochemical data, including derived distributions, time series analysis, correlation and spectral analysis, interpolation techniques, cluster analysis and sensitivity and uncertainty techniques. **Prerequisites** STA 491 or 691 (or equivalent) or consent of instructor.

GEOL 719 - Vadose Zone Hydrology

Credits 3

Basic physical properties of soils and water and the physical principles governing the soil-water system. Modeling the transport of moisture and chemicals in unsaturated soil with applications to practical field problems.

Prerequisites GEOL 674

GEOL 720 - Advanced Geochemistry

Credits 4

Contemporary geochemistry applied to igneous, metamorphic, and sedimentary rocks, economic mineral deposits, and problems of the origin of the Earth and other terrestrial planets. **Notes** Six hours laboratory. **Prerequisites** Graduate standing or consent of instructor.

GEOL 725 - Seminar in Petrology

Credits 3

Analysis of current problems, concepts, and research in petrology and closely related fields. **Prerequisites** Graduate standing or consent of instructor.

GEOL 727 - Metamorphic Petrology

Credits 4

Application of field studies, petrography, mineralogy, phase equilibria, and isotopic methods to the study of metamorphic rocks and crustal evolution; explores relationships among metamorphism, tectonics and thermal evolution of the crust. **Notes** Three hours lecture, three hours laboratory. **Prerequisites** GEOL 429/629 or equivalent and graduate standing, or consent of instructor.

GEOL 730 - Seminar in Quaternary Studies

Credits 3

Evaluation of current methodology focused on solving problems of Quaternary chronology, geomorphic processes, and environmental reconstruction. Emphasis on pluvial and post-pluvial environments of the western United States, the evolution of landforms and the development of stratigraphic units and surficial geology originating during the past three million years. **Prerequisites** Graduate standing or consent of instructor.

GEOL 735 - Seminar in Environmental Geology**Credits 3**

Application of basic geologic concepts to environmental problems: emphasis on geologic hazards, waste disposal, urban planning, resource policy issues, and environmental programs. **Prerequisites** GEOL 672 or equivalent or consent of instructor.

GEOL 740 - Arid Zone Soils**Credits 3**

The role soils have in the soil-plant-atmospheric continuum of arid regions, influence of arid zone soils on all aspects of plant growth and development, influence of soil forming factors on the development of arid soils. **Same as** (BIO 745). **Prerequisites** Consent of instructor.

GEOL 742 - Seminar in Volcanology**Credits 3**

Analysis of current problems, concepts, and research in volcanology and closely related fields. **Prerequisites** Graduate standing or consent of instructor.

GEOL 743 - Seminar in Planetary Geology**Credits 3**

Analysis of current problems, concepts, and research in planetary geology with emphasis on newly available data. **Prerequisites** Graduate standing or consent of instructor.

GEOL 744 - Tectonics and Structures**Credits 3**

Analysis of upper crustal deformation with emphasis on faulting, neotectonics and seismic interpretation; includes a group research project with field and literature data collection, analysis and results suitable for presentation at a professional conference. **Prerequisites** Consent of instructor.

GEOL 745 - Advanced Structural Geology**Credits 3**

Analysis of deformation of the Earth's crust with emphasis on deformation mechanisms operative in rocks at different crustal levels; the geometry, kinematics, and dynamics of common geological structural associations, and mechanism and styles of deformation in orogenic belts. **Notes** Three hours lecture per week. **Prerequisites** GEOL 341 and GEOL 349.

GEOL 746 - Strain and Microstructural Analysis**Credits 4**

Examination of the principles and techniques of finite and incremental strain analysis and their application to naturally deformed rocks. Investigation of plastic deformation processes and deformation mechanisms, and recognition and interpretation of microstructures developed during deformation. **Notes** Three hours lecture, three hours laboratory. **Prerequisites** GEOL 341 or consent of instructor.

GEOL 747 - Geological Evolution of Western North America

Credits 3

Study of the geological evolution of western North America. Emphasis on the stratigraphic, structural, and tectonic development of the continent within the framework of plate tectonics. **Notes** Three hours lecture per week.

Prerequisites GEOL 223, GEOL 341, GEOL 462.

GEOL 749 - Advanced Geochronology and Thermochronology**Credits 3**

Detailed discussion of isotopic dating of rocks with application to geologic problems. Diffusion theory and reconstruction of thermal histories of rocks. Includes surface exposure dating using cosmogenic isotopes, study of uranium series disequilibrium, luminescence, electron spin resonance, and ¹⁴C dating. **Prerequisites** GEOL 426

GEOL 750 - Seminar in Paleobiology**Credits 3**

Fossil record as a tool for understanding evolutionary processes, early history of life, eruptive radiation, mass extinction, macroevolution, and origin of higher taxa. **Prerequisites** Graduate standing in geology or biology or consent of instructor.

GEOL 755 - Seminar in Paleontology**Credits 3**

Special topics of current interest in paleontology, with emphasis on Great Basin fossil faunas. **Prerequisites** Graduate standing in geology or biology or consent of instructor.

GEOL 760 - Advanced Spatial Modeling with GIS**Credits 4**

Advanced study in computer-based techniques for storage, retrieval, analysis, and representation of spatially referenced data. Emphasis on development of spatially distributed models in the geosciences using Geographic Information System (GIS) technology. Students required to develop system models in their chosen thesis area. **Notes** Three hours lecture and three hours lab. **Prerequisites** GEOL 430 or GEOL 630.

GEOL 762 - Geological Applications of Computers**Credits 3**

Use of computer algorithms to solve geological problems, geostatistics, modeling of geological processes.

Prerequisites Graduate standing and CS 116 and 169.

GEOL 765 - Seminar in Stratigraphy**Credits 3**

Special topics in stratigraphy with emphasis on southern Nevada and adjacent regions. **Prerequisites** Graduate standing or consent of instructor.

GEOL 766 - Earth Systems Change**Credits 3**

Investigate long-term and short-term global climate changes, ocean redox evolution, and their impacts on biospheric innovations. Explore interactions between Earth's sub spheres (lithosphere, hydrosphere, atmosphere, and biosphere) during times of extreme environmental changes in Earth history and testing methods and techniques for such interactions. **Prerequisites** Graduate standing or consent of instructor.

GEOL 770 - Sedimentary Basins**Credits 3**

Analysis of current ideas concerning the plate tectonic setting and evolution of sedimentary basins. Emphasis on

characteristic styles of basin sedimentation and resulting stratigraphic framework, provenance of basin fill, chronologic relationship of tectonic events and sedimentation, and methods of basin analysis. **Prerequisites** Graduate standing or consent of instructor.

GEOL 772 - Reflection Seismic Data Interpretation

Credits 4

Fundamentals of geologic interpretation using seismic reflection data. Introduction to seismic data acquisition and processing. Interpretation techniques include well log to seismicities, contour maps and time-to depth conversion. Interpretation of data from different structural settings, seismic stratigraphy, and 3-D seismic interpretation. **Notes** Three hour lecture and three hour lab. **Prerequisites** Graduate standing or consent of instructor.

GEOL 772L - Reflection Seismic Data Interpretation Laboratory

Credits 0

Lab course designed to supplement the lecture course. Interpretations of several structural regimes, structure contour maps, correlation using well logs, creation of synthetics, and the interpretation of a 3-D seismic data set.

Prerequisites Graduate standing or consent of instructor.

GEOL 773 - Seminar in Geophysics

Credits 1-3

Specialized topics in geophysics with an emphasis on current analysis techniques and problems. **Prerequisites** Graduate standing or consent of instructor.

GEOL 775 - Seminar in Economic Geology

Credits 3

Analysis of current problems, concepts and research in economic geology and closely related fields. **Prerequisites** GEOL 677 or equivalent or consent of instructor.

GEOL 776 - Paleosols Records of Past Landscapes

Credits 3

Recognition and analysis of soil horizons preserved in the rock record. Use of paleosols for reconstructing paleoclimates, tectonics, depositional environments, and other aspects of geologic history. **Prerequisites** Graduate standing and GEOL 462 (or equivalent) or consent of instructor.

GEOL 777 - Instrumental Techniques in Geology

Credits 3

Use of modern instrumentation to acquire geological and geochemical data. Includes, but not limited to, the practical application of x-ray diffraction and fluorescence and atomic absorption spectrophotometry. **Notes** Six hours laboratory. **Prerequisites** Graduate standing or consent of instructor.

GEOL 779 - Theory of Ore Deposition

Credits 3

Study of physical and chemical processes which contribute to metal solubility, transport, and precipitation. Includes fundamental geochemical and thermodynamic concepts as they apply to ore and gangue mineral stability under various geologic conditions. **Prerequisites** GEOL 426 and GEOL 477.

GEOL 780 - Terrigenous Depositional Systems

Credits 3

Examination of modern nonmarine and marine depositional environments dominated by terrigenous sediments, processes that operate in these settings, and responses of sediment to processes. Establish criteria for recognizing

these environments and processes in ancient terrigenous sequences. **Prerequisites** Graduate standing and GEOL 462 or consent of instructor.

GEOL 781 - Carbonate Depositional Systems

Credits 3

Examination of modern non-marine and marine depositional environments dominated by carbonate sediments, organisms that produce sediments, processes that operate in these settings, and responses of sediment to the processes. Establish criteria for recognizing these environments and processes in ancient carbonate sequences.

Prerequisites Graduate standing and GEOL 462 or consent of instructor.

GEOL 782 - Sandstone Petrology

Credits 4

Description, classification, and interpretation of terrigenous sedimentary rocks. Emphasis on petrographic methods applied to sandstones and interpretation of provenance of sedimentary sequences. **Prerequisites** GEOL 780 (corequisite) or consent of instructor.

GEOL 783 - Carbonate Petrology

Credits 4

Study of the physical and chemical factors important in the genesis and diagenesis of carbonate sediments and rocks. Various analytical techniques covered, with emphasis on thin section petrography for deciphering rock components and diagenesis. **Prerequisites** GEOL 781 (corequisite) or consent of instructor.

GEOL 785 - Seminar in Sedimentology

Credits 1–4

Analysis of current problems, concepts, and research in sedimentary geology and related fields. Emphasis may be upon the genesis and diagenesis of specific sedimentary sequences or upon particular depositional or diagenetic environments. **Prerequisites** Graduate standing and either GEOL 780 or GEOL 781, or consent of instructor.

GEOL 786 - Soils Applications: Paleoclimate, Neotectonics, Archeology

Credits 3

Special topics of current interest in soil science with emphasis on the use of soils for applications in geomorphology, paleoclimate, neotectonics, and/or archeology. **Prerequisites** Graduate standing in geology, biology, anthropology, or consent of instructor.

GEOL 787 - Thesis Research

Credits 1–6

Supervised research prior to approval of master's program prospectus. **Notes** May be repeated to a maximum of six credits, but only one credit can be applied to the student's program. **Grading** S/F grading only. **Prerequisites** Enrollment in the M.S. Program.

GEOL 789 - Dissertation Research

Credits 1–6

Supervised research prior to advancement to candidacy in the doctoral program. **Notes** May be repeated, but only two credits can be applied to the student's program. **Grading** S/F grading only. **Prerequisites** Enrollment in the doctoral program.

GEOL 792 - Seminar in Hydroscience

Credits 1–3

Specialized topics in hydroscience.

GEOL 793 - Independent Study and Research

Credits 1–3

Independent study and research projects in some field of geology. Proposed project for study must be submitted in writing to the graduate program coordinator and the department chair for approval and credit evaluation at least two weeks prior to registration. **Notes** May be repeated for credit, but only three credits are permitted per instructor unless special permission is received. **Prerequisites** Consent of instructor.

GEOL 794 - Directed Readings

Credits 1–3

Supervised readings on special topics in consultation with a geoscience graduate faculty member. **Notes** May be repeated to a maximum of six credits. Requires consent of student's academic adviser. **Grading** S/F grading only. **Prerequisites** Admission to Geoscience Ph.D. program; Consent of instructor.

GEOL 795 - Poster Presentation and Time Management

Credits 1

Presentation of geological information in poster format and time management skills. Poster presentation includes layout and design, focus, data versus interpretation, computer graphics, verbal presentation and referencing. Time management issues include scheduling, planning, organization, and productivity. **Notes** Should be taken during first or second semester of graduate program. **Prerequisites** Graduate standing in Geoscience.

GEOL 796 - Advanced Topics in Geoscience

Credits 1–3

Variety of advanced studies of current and/or topical interest in specialized areas of geoscience. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Varies, depending upon the specific topic.

GEOL 797 - Thesis

Credits 1–6. **Notes** May be repeated, but only six credits applied to the student's program. **Grading** S/F grading only. **Prerequisites** Graduate standing and consent of instructor.

GEOL 799 - Dissertation

Credits 3–6

Research analysis and writing toward completion of dissertation and subsequent defense. **Notes** Twelve credits are required for the degree, may be repeated, but only twelve credits will be applied to the student's degree program. May be repeated but only a maximum of 12 credits may be used in students degree program. **Grading** S/F grade. **Prerequisites** Successful completion of qualifying examination and approval by department.

Life Sciences

The School of Life Sciences (SoLS) offers programs of studies leading to the Master of Science and Doctor of Philosophy degrees. Each degree requires a research thesis (M.S.) or dissertation (Ph.D.). Research leading to the M.S. and Ph.D. degrees may be conducted in one or more of the following fields: cellular and molecular biology; genetics; microbiology; bioinformatics; physiology; population, community, and ecosystem ecology; evolutionary biology; systematics; and biogeography. The School has well-equipped laboratories to support faculty and graduate student research. These facilities are enhanced through access to a number of specialized scientific resources, including the Nevada Genomics Center (which house state-of-the-art equipment that includes an RTPCR machine, an Amersham Typhoon imager, a microarray printer, hybridization capacity and scanner, and a DNA capillary sequencer); the UNLV Confocal and Biological Imaging Core (which houses a Nikon A1R confocal laser scanning microscope system); the Ecophysiological Research facility (which includes a greenhouse designed to support experiments at elevated levels of carbon dioxide); an AAALAC-accredited animal care facility; and regional natural history collections, including those of the Wesley E. Niles Herbarium and the Marjorie Barrick Museum. Investigators from the Nevada System of Higher Education's Desert Research Institute also participate in our graduate program. Numerous funding opportunities are available through state-funded graduate assistant programs via statewide initiatives or in association with individual faculty research programs. Prospective students should make contact with one or more faculty members to familiarize themselves with their current research interests, opportunities for conducting research projects, and funding availability. A list of faculty research interests and admission materials are available on-line at the School's web site.

For details regarding application deadlines and the application review process, see the School of Life Sciences' *Graduate Student Handbook*, which is available at <http://sols.unlv.edu/gradhandbook.html>.

Dennis Bazylinski, Ph.D., Director
Martin R. Schiller, Ph.D., Graduate Coordinator

Director

Bazylinski, Dennis A. - Full Graduate Faculty
Professor; Ph.D., University of New Hampshire, Durham. *Rebel since 2006.*

Graduate Coordinator

Schiller, Martin - Full Graduate Faculty
Professor; Ph.D., Utah State University. *Rebel Since 2009.*

Graduate Faculty

Andres, Andrew J. - Full Graduate Faculty
Associate Professor; Ph.D., Indiana University, Bloomington. *Rebel since 2002.*

Caberoy, Nora B. - Full Graduate Faculty
Assistant Professor; B.S., University of the Philippines, Los Banos; M.S., University of the Philippines, Visayas; Ph.D., Washington State University. *Rebel since 2012.*

Devitt, Dale A. - Full Graduate Faculty
Professor; Ph.D., University of California, Riverside. *Rebel since 2005.*

Elekonich, Michelle M. - Full Graduate Faculty
Associate Professor; Ph.D., University of Washington, Seattle. *Rebel since 2003.*

Gibbs, Allen G. - *Full Graduate Faculty*

Professor; University of California, San Diego. *Rebel since 2005.*

Hedlund, Brian P. - *Full Graduate Faculty*

Associate Professor; Ph.D., University of Washington, Seattle. *Rebel since 2003.*

Lee, David V. - *Full Graduate Faculty*

Assistant Professor; Ph.D., University of Utah. *Rebel since 2007.*

Raftery, Laurel - *Full Graduate Faculty*

Associate Professor; A.B., University of California, Berkeley; Ph.D., University of Colorado, Boulder. *Rebel since 2010*

Reiber, Carl L. - *Full Graduate Faculty*

Professor; Ph.D., University of Massachusetts, Amherst. *Rebel since 1993.*

Riddle, Brett R. - *Full Graduate Faculty*

Professor; Ph.D., University of New Mexico, Albuquerque. *Rebel since 1990.*

Robleto, Eduardo A. - *Full Graduate Faculty*

Associate Professor; Ph.D., University of Wisconsin, Madison. *Rebel since 2002.*

Rodríguez-Robles, Javier A. - *Full Graduate Faculty*

Associate Professor; University of California, Berkeley. *Rebel since 2002.*

Schulte, Paul J. - *Full Graduate Faculty*

Associate Professor; Ph.D., University of Washington, Seattle. *Rebel since 1990.*

Shen, Jeffery Q. - *Full Graduate Faculty*

Full Professor; Ph.D., Washington University, St. Louis. *Rebel since 2000.*

Smith, Stanley D. - *Full Graduate Faculty*

Professor; Ph.D., Arizona State University, Tempe. *Rebel since 1985.*

Stark, Lloyd R. - *Full Graduate Faculty*

Associate Professor; Ph.D., Pennsylvania State University, University Park. *Rebel since 1999*

Starkweather, Peter L. - *Full Graduate Faculty*

Professor; Dartmouth College, Hanover, New Hampshire. *Rebel since 1978.*

Thompson, Daniel B. - *Full Graduate Faculty*

Associate Professor; Ph.D., University of Arizona, Tucson. *Rebel since 1990.*

Tseng, Ai-Sun - *Full Graduate Faculty*

Assistant Professor; Ph.D. *Rebel since 2012.*

Tsourkas, Philippos - *Full Graduate Faculty*

Assistant Professor; Ph.D. *Rebel since 2012.*

Van Breukelen, Frank - *Full Graduate Faculty*

Associate Professor; Ph.D., University of Colorado, Boulder. *Rebel since 1990.*

Walker, Lawrence R. - *Full Graduate Faculty*

Professor; Ph.D., University of Alaska, Fairbanks. *Rebel since 1992.*

Wing, Helen J. - *Full Graduate Faculty*

Associate Professor; Ph.D., University of Birmingham, Edgbaston, United Kingdom. *Rebel since 2005.*

Professors Emeriti

Babero, Bert B.

Emeritus Professor; Ph.D., University of Illinois. *UNLV Emeritus 1965-1987.*

Deacon, James E.

Emeritus Distinguished Professor; Ph.D., University of Kansas, Lawrence. *UNLV Emeritus 1960-2002.*

Murvosh, Chad M.

Emeritus Professor; Ph.D., Ohio State University, Columbus. *UNLV Emeritus 1964-1992.*

Niles, Wesley E.

Emeritus Professor; Ph.D., University of Arizona, Tucson. *UNLV Emeritus 1968-2002.*

Yousef, Mohamed K.

Emeritus Distinguished Professor; Ph.D., University of Missouri. *UNLV Emeritus 1968-1994.*

School of Life Sciences Courses

BIOL 604 - Principles of Neurobiology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 607 - Molecular Biology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 609 - Virology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 611 - Molecular Evolution

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 618 - Microbial Ecology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 622 - Taxonomy of Vascular Plants

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires

additional work.

BIOL 625 - Genomics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 626 - Plant Anatomy

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 631 - Ichthyology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 632 - Herpetology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 633 - Ornithology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 634 - Mammalogy

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 638 - Soil Plant Water Relations in Arid Environments

Credits 3

The class will cover soil plant water relationships relevant to arid environments under limited water resources. Topics that will be discussed in detail include; the hydrologic cycle, water properties, soil physical and chemical properties, environmental demand, plant stress associated with drought and salinity, water quality and irrigation management as it relates to plant growth and productivity. The class will be taught in a lecture/lab format.

Prerequisites CHEM 121, CHEM 122, and BIOL 197 or equivalents.

BIOL 641 - Field Ecology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 642 - Principles of Plant Physiology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 644 - Principles of Plant Ecology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 645 - Cell Physiology**Credits 3**

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Same as** BIOL 445. **Notes** Credit at the 600 level normally requires additional work. **Prerequisites** Consent of instructor.

BIOL 647 - Comparative Animal Physiology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 648 - Endocrinology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 651 - Comparative Vertebrate Anatomy Laboratory**Credits 2**

The companion laboratory course of BIOL 655. Hands-on dissection of specimens representing major vertebrate groups. Numerous demonstration specimens sample the diversity of fishes, amphibians, and amniotes. Review of fossil vertebrates with emphasis on phylogenetic relationships. **Prerequisites** Biology degree or consent of instructor. **Corequisite** BIOL 655

BIOL 653 - Immunology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 655 - Comparative Vertebrate Anatomy and Biomechanics**Credits 3**

Examines structure-function relationships in the context of vertebrate evolution. Tissues and structures of the integumentary, skeletal, and muscular system are emphasized. Biomechanics of materials, structures, and movements are related to adaptations of vertebrates to life in their physical worlds. **Prerequisites** Biology degree or consent of instructor. **Corequisite** BIOL 651

BIOL 660 - Microbial Physiology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 664 - Bacterial Pathogenesis**Credits 3**

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found

in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work. **Prerequisites** BIOL 351 or equivalent microbiology class.

BIOL 665 - Vertebrate Embryology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 668 - Histology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 670 - Topics in Applied Microbiology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 671 - Aquatic Ecology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 672 - Limnology

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 680 - Introduction to Biological Modeling

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 685 - Microbial Genetics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 687 - Principles of Systematics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 689 - Developmental Genetics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 690 - Biogeography

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

BIOL 701 - Ethics in Scientific Research

Credits 1

Examination of ethical problems in scientific research, including the falsification and manipulation of data, public access and peer review, and decisions concerning research problems and support. **Prerequisites** Graduate standing.

BIOL 703 - Biochemical Genetics

Credits 3

Detailed study of the structure of nucleic acids and the molecular genetic mechanisms of replication, transcription, and induction and repression of genetic information. Biochemical genetics of gene transfer. **Prerequisites** BIO 300 and CHEM 471.

BIOL 705 - Secondary Education: Teaching Evolution and the Nature of Science

Credits 1–3

Focus on Science and Creationism and hands-on activities and inquiry-based computer simulations that can be used in classrooms to illustrate evolutionary principles. Workshop taught using scientific methods so educators are well-versed in methods of evolutionary study and principles. **Notes** Follow up sessions explore implementations of lessons from workshop.

BIOL 711 - Advanced Eukaryotic Genetics

Credits 3

Focuses on the biology and genetics of common model organisms: *C. elegans*, *Drosophila*, *Arabidopsis*, Zebrafish, and mouse, and their relationship to the biology of human health and agriculture. The goal is help students understand current research topics in functional genetics and genome manipulation. **Prerequisites** Consent of instructor.

BIOL 714 - Population Genetics

Credits 3

Examines the interactions of evolutionary processes, such as natural selection, genetic drift, gene flow, and mutation, and effects of these interactions on population differentiation, speciation, and extinction. Theoretical and empirical approaches to the study of DNA substitutions and quantitative genetic change addressed. **Prerequisites** MATH 181 and BIO 310 or consent of instructor.

BIOL 722 - Advanced Taxonomy of Vascular Plants

Credits 3

Identification, classification, and evolutionary relationships of the subfamilies and tribes of the composite, legume, and grass families. **Notes** Three hours laboratory. **Prerequisites** BIO 422

BIOL 730A-D - Special Lectures in Life Sciences

Credits 3

Reserved for formal didactic classes with varying special current topics in different disciplines of life sciences. Lettering system reflects focus on topics specific for each Section within Life Sciences (A = Ecology and Evolution, B = Organismal Physiology, C = Cell and Molecular Biology, D = Microbiology). **Notes** May be repeated to a maximum of nine credits. **Prerequisites** Consent of instructor.

BIOL 742 - Topics in Advanced Plant Physiology

Credits 2

Advanced treatment of current topics in plant physiology. Topics for consideration selected from one of the three following major subject areas: (a) Water relations, ion balance, and mineral nutrition; (b) Photosynthesis, intermediary metabolism, and plant growth; and (c) Stress physiology. Instructor and students decide which area covered during a given semester. **Notes** May be repeated to a maximum of six credits. **Prerequisites** BIO 442

BIOL 743 - Ecological Plant Physiology**Credits 3**

Examination of the physiological responses and adaptations of terrestrial plants to their environment. Primary topics covered include microclimate analysis, water relations, gas exchange, nutrient relations, and adaptations to stress. Adaptations of plants from contrasting physical environments emphasized. **Prerequisites** BIO 340 and BIO 442.

BIOL 745 - Arid Zone Soils**Credits 3**

Role soils have in the soil-plant-atmospheric continuum of arid regions, influence of arid zone soils on all aspects of plant growth and development, influence of soil forming factors on the development of arid soils. **Same as** GEOL 740 . **Prerequisites** Consent of instructor.

BIOL 748 - Environmental Physiology**Credits 3**

Examination of physiological responses, including adaptation and acclimatization to extreme physical environments. Consideration of desert, tropical, arctic, mountain, and aquatic environments and their physiology, ecological, and phylogenetic implications.

BIOL 763 - Vertebrate Reproductive Biology**Credits 3**

Study of vertebrate reproduction at the systematic, organismal and population levels. Individual or group projects. **Prerequisites** BIOL 350, 448 or 465, and consent of instructor.

BIOL 781 - Population and Evolutionary Ecology**Credits 3**

Advanced topics in population growth, population interaction and evolution in ecological systems. Includes reading and class discussion of both theoretical and empirical material with emphasis on individual student analysis and integration. **Notes** Three hours of lecture and discussion. **Prerequisites** BIO 340 or equivalent and consent of instructor.

BIOL 783 - Community and Ecosystem Ecology**Credits 3**

Readings and evaluation of the highest levels of organization in ecology through: a) exploration of the fundamental concepts of community distributions, structure, organization, and change; and b) analysis of ecosystem-level processes of primary and secondary production and nutrient cycling. **Prerequisites** BIO 340 or equivalent and consent of instructor.

BIOL 784 - Conservation Biology**Credits 3**

Science of scarcity and diversity viewed from the perspective of understanding the causes and consequences of extinction as well as the conditions necessary for maintenance of biotic diversity. Review regional and worldwide developments in this emerging subdiscipline. **Prerequisites** BIO 340 or consent of instructor.

BIOL 786 - Bioenergetics**Credits 3**

Review of primary and secondary productivity and associated topics dealing with ecosystem energetics. **Notes** Four hours laboratory. **Prerequisites** Consent of instructor.

BIOL 787 - Research Laboratory Rotation**Credits 1–3**

Provides an opportunity for newly admitted graduate students to experience the research of Biological Sciences graduate faculty through one-on-one interactions. Gives graduate students the information they need to make informal choices about the lab(s) where they carry out their thesis and dissertation research. **Notes** May be repeated to a maximum of three credits. **Grading** S/F grading only. **Prerequisites** Admission as a regular graduate student in the M.S. or Ph.D. Program.

BIOL 789 - Independent Graduate Study in Life Sciences**Credits 1–3**

Students use this class to receive research credit related to their thesis or dissertation project prior to registering for BIOL 797 or BIOL 799. **Notes** May be repeated to a maximum of nine credits. **Prerequisites** Consent of instructor.

BIOL 790A-D - Research Colloquium in Life Sciences**Credits 1–3**

Students use this class to present their individual research results to a section-wide audience. Lettering system reflects focus on topics specific for each Section within Life Sciences (A = Ecology and Evolution, B = Organismal Physiology, C = Cell and Molecular Biology, D = Microbiology). **Notes** May be repeated to a maximum of nine credits. **Prerequisites** Consent of instructor.

BIOL 791 - Research Laboratory Discussions in Life Sciences**Credits 1–2**

Students present their research and discuss the work of colleagues during formal laboratory meetings with their mentor's research group. **Notes** May be repeated to a maximum of ten credits. **Prerequisites** Consent of instructor.

BIOL 792 - Advanced Topics in Cell and Molecular Biology**Credits 1–3**

Includes papers, oral presentations and discussion of current literature in these fields. **Notes** Topics announced with each offering. May be repeated to a maximum of twelve credits. **Prerequisites** Graduate standing and consent of instructor.

BIOL 793A-D - Advanced Topics in Life Sciences**Credits 1–2**

A seminar-style class where presentations are organized around a common theme. Students present and discuss the related primary literature. Lettering system reflects focus on topics specific for each Section within Life Sciences (A = Ecology and Evolution, B = Organismal Physiology, C = Cell and Molecular Biology, D = Microbiology). **Notes** May be repeated to a maximum of six credits. **Prerequisites** Consent of instructor.

BIOL 794 - Techniques in Molecular Biology**Credits 3**

Introduction to the theory and laboratory methods used in molecular biology research. Topics include the isolation and purification of nucleic acids, restriction digests, cloning. Southern blotting, PCR, DNA sequencing, and electrophoresis. **Notes** Three to nine laboratory hours per week. **Prerequisites** Consent of instructor.

BIOL 795 - Teaching Strategies for University Science Courses**Credits 2**

Designed for graduate students in the sciences and will prepare you for University-level science teaching, whether pursuing a research-based or teaching-based faculty position. We explore different learning theories, current research about learning science and applying them to teaching and the development of a personal teaching philosophy.

BIOL 796 A-D - Graduate Seminar**Credits 1–2**

Instructs students on how to prepare and present seminars on topics of current interest in life sciences. Lettering system reflects focus on topics specific for each Section within Life Sciences (A = Ecology and Evolution, B = Organismal Physiology, C = Cell and Molecular Biology, D = Microbiology). **Notes** May be repeated to a maximum of ten credits. **Prerequisites** Graduate standing in biology.

BIOL 797 - Thesis

Credits 3–6. Notes May be repeated but only six credits applied to the student's program. Enrollment by consent of instructor only. **Grading** S/F grading only.

BIOL 799 - Dissertation**Credits 3–6**

Research analysis and writing toward completion of dissertation and subsequent defense. **Notes** May be repeated but a maximum of only 18 credits may be applied to the degree program. **Grading** S/F grading only. **Prerequisites** Graduate standing in the Biology Ph.D. program and consent of instructor.

Mathematical Sciences

The Department of Mathematical Sciences offers both the Master of Science and Doctor of Philosophy degrees. The M.S. program has areas of concentration in Pure Mathematics, Applied Mathematics, Applied Statistics, Statistics, and Teaching Mathematics. The Ph.D. program has areas of concentration in Applied Mathematics, Computational Mathematics, Pure Mathematics, and Statistics. Specific disciplines include approximation theory, applied complex analysis, bioinformatics, biostatistics, calculus of variations, combinatorics, control theory, finite fields, graph theory, mathematical education, mathematical modeling, number theory, numerical analysis, partial differential equations, scientific computing, set theory, statistics. Excellent computing facilities are available for classroom studies and research. The Department of Mathematical Sciences, through an active faculty, offers graduate students both an unusual amount of personal attention and a lively research atmosphere. The degree programs are designed to provide students with a strong theoretical background in graduate-level mathematics. Our graduates have been successful in finding employment in industry, government and education.

Derrick DuBose, Ph.D., Chair

Douglas Burke, Ph.D., Graduate Coordinator

Chair

DuBose, Derrick A. - *Full Graduate Faculty*

Associate Professor; B.A., California State University, Long Beach; M.A., Ph.D., University of California, Los Angeles. *Rebel since 1987.*

Graduate Coordinator

Burke, Douglas - *Full Graduate Faculty*

Associate Professor; B.S., University of Wisconsin, Madison; M.A., University of California, Berkeley; Ph.D., University of California, Los Angeles. *Rebel since 1994.*

Graduate Faculty

Amei, Amei - *Full Graduate Faculty*

Assistant Professor; B.S., Inner Mongolia University; M.S., University of Science and Technology of China; Ph.D., Washington University. *Rebel since 2007.*

Ananda, Malwane M.A. - *Full Graduate Faculty*

Professor; B.S., University of Sri Jayewardenepura; M.S., Ph.D., Purdue University. *Rebel since 1990.*

Bachman, Gennady - *Full Graduate Faculty*

Professor; B.A., Temple University; Ph.D., University of Illinois. *Rebel since 1991.*

Baragar, Arthur - *Full Graduate Faculty*

Associate Professor; B.S., University of Alberta; Ph.D., Brown University. *Rebel since 1997.*

Bellomo, Carryn - *Full Graduate Faculty*

Associate Professor; B.S., M.S., Ph.D., Old Dominion University. *Rebel since 2003.*

Bhatnagar, Satish C. - *Full Graduate Faculty*

Professor; B.A. (honor), M.A., Panjab University, India; M.A., Ph.D. Indiana University. *Rebel since 1974.*

Catlin, Sandra - *Full Graduate Faculty*

Associate Professor; B.A., University of California, Berkeley; M.S., Ph.D., University of Washington. *Rebel since 1997.*

Cho, Hokwon - Full Graduate Faculty

Associate Professor; B.A., Korea University; M.A., Ph.D., University of California, Santa Barbara. *Rebel since 1999.*

Costa, David - Full Graduate Faculty

Professor; B.S., Federal University of Pernambuco, Recife, Brazil; Ph.D., Brown University. *Rebel since 1993.*

Dalpatadu, Rohan - Full Graduate Faculty

Associate Professor; B.S., University of Ceylon; M.S., Ph.D., Southern Illinois University at Carbondale. *Rebel since 1985.*

Ding, Zhonghai - Full Graduate Faculty

Professor; B.S., Nanjing Institute of Technology; M.S., Institute of Systems Science; Ph.D., Texas A&M University.

Ghosh, Kaushik - Full Graduate Faculty

Assistant Professor; B. Stat., Indian Statistical Institute; M.Stat., Indian Statistical Institute; Ph.D., University of California Santa Barbara. *Rebel since 2007.*

Ho, Chih-Hsiang - Full Graduate Faculty

Professor; B.S., National Central University; M.S., New Mexico Highlands University; M.S., Ph.D., University of Minnesota. *Rebel since 1986.*

Li, Jichun - Full Graduate Faculty

Associate Professor; B.S., M.S., Nanjing University, China; Ph.D., Florida State University. *Rebel since 2000.*

Li, Xin - Full Graduate Faculty

Associate Professor; B.S., M.S., Jilin University, Changchun; Ph.D., Texas A&M University. *Rebel since 1992.*

Marcozzi, Michael - Full Graduate Faculty

Associate Professor; B.S., M.S., Ph.D., University of Delaware. *Rebel since 1997.*

Muleshkov, Angel - Full Graduate Faculty

Associate Professor; M.S., Ph.D., University of Washington. *Rebel since 1989.*

Neda, Monika - Full Graduate Faculty

Assistant Professor; B.S., University of Novi Sad; Ph.D., University of Pittsburgh. *Rebel since 2007.*

Phanord, Dieudonne D. - Full Graduate Faculty

Professor; B.S., Gordon College; M.S., Ph.D., University of Illinois, Chicago. *Rebel since 2002.*

Salehi, Ebrahim - Full Graduate Faculty

Associate Professor; B.S., University of Tehran; M.S., Institute of Mathematics, Tehran; M.S., Ph.D., University of Washington. *Rebel since 1985.*

Robinette, Michelle - Full Graduate Faculty

Associate Professor; B.S., M.A., Ph.D., Western Michigan University. *Rebel since 1996.*

Shiue, Peter - Full Graduate Faculty

Professor; B.S., National Taiwan Normal University; M.S., Ph.D., Southern Illinois University. *Rebel since 1985.*

Sun, Pengtao - Full Graduate Faculty

Assistant Professor; B.S., M.S., Shandong University; Ph.D. Institute of Mathematics, Academia Sinica. *Rebel since 2007.*

Tehrani, Hossein - *Full Graduate Faculty*

Associate Professor; B.S., Sharif University of Technology; M.S., Ph.D., Courant Institute of Mathematical Sciences. *Rebel since 1997.*

Westveld, Anton H. - *Full Graduate Faculty*

Assistant Professor; B.A., M.A., University of Michigan; Ph.D., University of Washington. *Rebel since 2007.*

Yang, Hongtao - *Full Graduate Faculty*

Assistant Professor; B.S., M.S., Jilin University; Ph.D., University of Alberta. *Rebel since 2007.*

Professors Emeriti

Aizely, Paul

Professor; B.A., Harvard University; M.S., University of Arizona; Ph.D., Arizona State University. *UNLV Emeritus 1968-2008.*

Bowman, Harold

Emeritus Associate Professor; B.E.E., City College of New York; M.A., Oklahoma University; Ph.D., Arizona State University. *UNLV Emeritus 1972-1999.*

Graham, Malcolm

Emeritus Professor; B.S., New Jersey State College; M.S., University of Massachusetts; Ed.D., Columbia University. *UNLV Emeritus 1956-1985.*

Miel, George, J.

Emeritus Professor; B.S., M.S., University of Illinois; Ph.D., University of Wyoming. *UNLV Emeritus 1977-1985 & 1991-2006.*

Nietling, Lloyd

Emeritus Associate Professor; B.A., St. Mary of the Plains College; B.S., Aquinas College; M.A., University of Michigan; Ph.D., Ohio State University. *UNLV Emeritus 1967-1992.*

Master of Science - Mathematical Sciences

Plan Description

The degree is a well-established MS program with concentrations in Applied Math, Pure Math, Statistics, and Math Education to serve students in many different areas of Mathematical Sciences.

The concentrations in pure, applied, and statistics each include a core requirement corresponding to the given area. Additional credits are required so that students can develop knowledge in a field of interest. All three require the student to either defend a thesis or pass a written comprehensive exam corresponding to the core requirements.

The teaching mathematics concentration requires a variety of content courses, as well as, education courses. The degree options for the teaching math concentration include the opportunity to write a professional paper.

Learning Outcomes

www.unlv.edu/degree/ms-mathematical-sciences

Plan Admission Requirements

- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.
- Have a bachelor's degree with a minimum GPA of 2.75 for all undergraduate work or a minimum GPA of 3.00 for the last two years of undergraduate work, and completed at least 18 credits of upper-division mathematics or statistics courses beyond calculus.
- Submit application materials to both the Graduate College and the Department of Mathematical Sciences.
- Firstly, applicants must submit to the Graduate College the following materials:
 - A completed online application
 - Submit official transcripts from all post-secondary institutions attended
- Secondly, applicants must submit to the Department of Mathematical Sciences the following materials:
 - Copies of all transcripts sent to the Graduate College
 - At least two letters of recommendation from persons familiar with the applicant's academic record and potential for advanced study in mathematical sciences
 - A statement of purpose describing the aim in applying for graduate study, the particular area of specialization within the mathematical sciences (if known), and any additional information that may aid the selection committee in evaluating the applicant's preparation and aptitude for graduate study
 - A completed online Graduate Assistantship application, if interested

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Pure Mathematics - Thesis Track

Total Credits Required: 33

Course Requirements

- Analysis Courses – Credits: 6
 - Complete two of the following courses:
 - MAT 707 - Real Analysis I
 - MAT 708 - Real Analysis II
 - MAT 709 - Complex Function Theory I
 - MAT 710 - Complex Function Theory II
 - MAT 771 - Applied Analysis I
 - MAT 772 - Applied Analysis II
 - Algebra Course – Credits: 3
 - Complete one of the following courses:
 - MAT 703 - Abstract Algebra III
 - MAT 704 - Abstract Algebra IV
 - MAT 753 - Homological Algebra
 - MAT 754 - Homological Algebra
 - MAT 755 - Topics in Algebra
- Area of Emphasis Courses – Credits: 6
 - Complete an additional 6 credits of 700-level MAT courses (excluding MAT 711 & 712) in a field of special interest.
- Elective Courses – Credits: 12

- Complete 12 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Thesis – Credits: 6
 - MAT 791 - Thesis

Degree Requirements

- Students must complete a minimum of 33 credit hours with a minimum GPA of 3.00.
- Of the 33 required credits, 27 must be coursework. Of those 27 coursework credits, at least 18 must be 700-level.
- A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student's program by the Graduate Studies Committee. Students who fail to meet the conditions of their probation will be separated.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Pure Mathematics - Comprehensive Exam Track

Total Credits Required: 30

Course Requirements

- Analysis Courses – Credits: 6
 - Complete two of the following courses:
 - MAT 707 - Real Analysis I
 - MAT 708 - Real Analysis II
 - MAT 709 - Complex Function Theory I
 - MAT 710 - Complex Function Theory II
 - MAT 771 - Applied Analysis I
 - MAT 772 - Applied Analysis II
- Algebra Course – Credits: 3
 - Complete one of the following courses:
 - MAT 703 - Abstract Algebra III
 - MAT 704 - Abstract Algebra IV
 - MAT 753 - Homological Algebra
 - MAT 754 - Homological Algebra

- MAT 755 - Topics in Algebra
- Area of Emphasis Courses – Credits: 6
 - Complete an additional 6 credits of 700-level MAT courses (excluding MAT 711 & 712) in a field of special interest.
- Elective Courses – Credits: 15
 - Complete 15 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.

Degree Requirements

- Students must complete a minimum of 30 credit hours with a minimum GPA of 3.00.
- Of the 30 required credits, at least 18 must be 700-level.
- A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student's program by the Graduate Studies Committee.
- In consultation with his/her advisor, a student will organize an advisory committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must pass a final comprehensive examination.

Subplan 3 Requirements: Applied Mathematics - Thesis Track

Total Credits Required: 33

Course Requirements

- Required Courses – Credits: 6
 - Complete two of the following courses:
 - MAT 707 - Real Analysis I
 - MAT 708 - Real Analysis II
 - MAT 709 - Complex Function Theory I
 - MAT 710 - Complex Function Theory II
 - MAT 771 - Applied Analysis I
 - MAT 772 - Applied Analysis II
- Numerical Analysis Course – Credits: 3
 - Complete one of the following courses:
 - MAT 663 - Advanced Matrix Theory and Applications
 - MAT 765 - Advanced Numerical Analysis
 - MAT 767 - Topics in Numerical Analysis
- Applied and Computational Courses – Credits: 6
 - Complete 6 credits of 700-level advisor-approved MAT coursework in applied and computational mathematics.

- Elective Courses – Credits: 12
 - Complete 12 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Thesis – Credits: 6
 - MAT 791 - Thesis

Degree Requirements

- Students must complete a minimum of 33 credit hours with a minimum GPA of 3.00.
- Of the 33 required credits, 27 must be coursework. Of those 27 coursework credits, at least 18 must be 700-level.
- A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student’s program by the Graduate Studies Committee.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department’s discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 4 Requirements: Applied Mathematics - Comprehensive Exam Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 6
 - Complete two of the following courses:
 - MAT 707 - Real Analysis I
 - MAT 708 - Real Analysis II
 - MAT 709 - Complex Function Theory I
 - MAT 710 - Complex Function Theory II
 - MAT 771 - Applied Analysis I
 - MAT 772 - Applied Analysis II
- Numerical Analysis Course – Credits: 3
 - Complete one of the following courses:
 - MAT 663 - Advanced Matrix Theory and Applications
 - MAT 765 - Advanced Numerical Analysis
 - MAT 767 - Topics in Numerical Analysis

- Applied and Computational Courses – Credits: 6
 - Complete 6 credits of 700-level advisor-approved MAT coursework in applied and computational mathematics.
- Elective Courses – Credits: 15
 - Complete 15 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.

Degree Requirements

- Students must complete a minimum of 30 credit hours with a minimum GPA of 3.00.
- Of the 30 required credits, at least 18 must be 700-level.
- A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student’s program by the Graduate Studies Committee.
- In consultation with his/her advisor, a student will organize an advisory committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department’s discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete a final comprehensive examination.

Subplan 5 Requirements: Applied Statistics - Thesis Track

Total Credits Required: 33

Course Requirements

- Required Courses – Credits: 6
 - MAT 657 - Introduction to Real Analysis I
 - MAT 663 - Advanced Matrix Theory and Applications
- Core Courses – Credits: 12
 - STA 761 - Regression Analysis I
 - STA 762 - Regression Analysis II
 - STA 767 - Mathematical Statistics I
 - STA 768 - Mathematical Statistics II
- Statistics Courses – Credits: 6
 - Complete an additional 6 credits of 700-level STA coursework in a field of special interest to the student.
- Elective Courses – Credits: 3
 - Complete 3 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Thesis – Credits: 6
 - MAT 791 - Thesis

Degree Requirements

- Students must complete a minimum of 30 credit hours with a minimum GPA of 3.00.
- Of the 33 required credits, 27 must be coursework. Of those 27 coursework credits, at least 18 must be 700-level.
- A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student's program by the Graduate Studies Committee.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 6 Requirements: Applied Statistics - Comprehensive Exam Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 6
 - MAT 657 - Introduction to Real Analysis I
 - MAT 663 - Advanced Matrix Theory and Applications
- Core Courses – Credits: 12
 - STA 761 - Regression Analysis I
 - STA 762 - Regression Analysis II
 - STA 767 - Mathematical Statistics I
 - STA 768 - Mathematical Statistics II
- Statistics Courses – Credits: 6
 - Complete an additional 6 credits of 700-level STA coursework in a field of special interest to the student.
- Elective Courses – Credits: 6
 - Complete 6 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.

Degree Requirements

- Students must complete a minimum of 30 credit hours with a minimum GPA of 3.00.
- Of the 30 required credits, 27 must be coursework. Of those 27 coursework credits, at least 18 must be 700-level.

- A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student's program by the Graduate Studies Committee.
- In consultation with his/her advisor, a student will organize an advisory committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must pass a final comprehensive examination.

Subplan 7 Requirements: Teaching Mathematics - Professional Paper Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 9
 - MAT 711 - Survey of Mathematical Problems I
 - MAT 712 - Survey of Mathematical Problems II
 - MAT 714 - History of Mathematics
- Algebra Course – Credits: 3
 - Complete one of the following courses:
 - MAT 653 - Abstract Algebra I
 - MAT 654 - Abstract Algebra II
 - MAT 703 - Abstract Algebra III
 - MAT 704 - Abstract Algebra IV
 - MAT 655 - Elementary Theory of Numbers I
 - MAT 669 - Combinatorics I
 - MAT 670 - Combinatorics II
- Analysis Course – Credits: 3
 - Complete one of the following courses:
 - MAT 657 - Introduction to Real Analysis I
 - MAT 658 - Introduction to Real Analysis II
 - MAT 707 - Real Analysis I
 - MAT 708 - Real Analysis II
 - MAT 659 - Elementary Complex Analysis
 - MAT 709 - Complex Function Theory I
 - MAT 710 - Complex Function Theory II
 - MAT 687 - Introduction to Partial Differential Equations
- Foundations Course – Credits: 3
 - Complete one of the following courses:
 - MAT 651 - Foundations of Mathematics I
 - MAT 652 - Foundations of Mathematics II

- MAT 701 - Foundations of Mathematics III
 - MAT 702 - Foundations of Mathematics IV
 - MAT 680 - College Geometry
 - MAT 683 - General Topology I
 - MAT 684 - General Topology II
- Education Courses – Credits: 6
 - Complete two of the following courses:
 - CIS 622 - Instructional Middle School Mathematics Education
 - CIS 624 - Instruction Secondary Mathematics Education
 - CIG 620 - Principles of Learning Mathematics
- Elective Courses – Credits: 3
 - Complete 3 credits of 600- or 700-level MAT or STA courses, or other advisor-approved courses.
- Professional Paper – Credits: 3
 - MAT 793 - Teaching Concentration Professional Paper Research

Degree Requirements

- Students must complete a minimum of 30 credit hours with a minimum GPA of 3.00.
- Of the 30 required credits, 27 must be coursework. Of those 27 coursework credits, at least 15 must be 700-level.
- A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student’s program by the Graduate Studies Committee.
- In consultation with his/her advisor, a student will organize an advisory committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department’s discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete and defend a professional paper.

Subplan 8 Requirements: Teaching Mathematics - Comprehensive Exam Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 9
 - MAT 711 - Survey of Mathematical Problems I
 - MAT 712 - Survey of Mathematical Problems II
 - MAT 714 - History of Mathematics
- Algebra Course – Credits: 3
 - Complete one of the following courses:
 - MAT 653 - Abstract Algebra I
 - MAT 654 - Abstract Algebra II

- MAT 703 - Abstract Algebra III
 - MAT 704 - Abstract Algebra IV
 - MAT 655 - Elementary Theory of Numbers I
 - MAT 669 - Combinatorics I
 - MAT 670 - Combinatorics II
- Analysis Course – Credits: 3
 - Complete one of the following courses:
 - MAT 657 - Introduction to Real Analysis I
 - MAT 658 - Introduction to Real Analysis II
 - MAT 707 - Real Analysis I
 - MAT 708 - Real Analysis II
 - MAT 659 - Elementary Complex Analysis
 - MAT 709 - Complex Function Theory I
 - MAT 710 - Complex Function Theory II
 - MAT 687 - Introduction to Partial Differential Equations
- Foundations Course – Credits: 3
 - Complete one of the following courses:
 - MAT 651 - Foundations of Mathematics I
 - MAT 652 - Foundations of Mathematics II
 - MAT 701 - Foundations of Mathematics III
 - MAT 702 - Foundations of Mathematics IV
 - MAT 680 - College Geometry
 - MAT 683 - General Topology I
 - MAT 684 - General Topology II
- Education Courses – Credits: 6
 - Complete two of the following courses:
 - CIS 622 - Instructional Middle School Mathematics Education
 - CIS 624 - Instruction Secondary Mathematics Education
 - CIG 620 - Principles of Learning Mathematics
- Elective Courses – Credits: 6
 - Complete 6 credits of 600- or 700-level MAT or STA courses, or other advisor-approved courses.

Degree Requirements

- Students must complete a minimum of 30 credit hours with a minimum GPA of 3.00.
- Of the 30 required credits, 27 must be coursework. Of those 27 coursework credits, at least 15 must be 700-level.
- A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student's program by the Graduate Studies Committee.
- In consultation with his/her advisor, a student will organize an advisory committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must pass a final comprehensive examination.

Doctor of Philosophy - Mathematical Sciences

Plan Description

UNLV's Mathematical Sciences Ph.D. program is Nevada's only Ph.D. program in the Mathematical Sciences. It is relatively new (established in 2005) and includes concentrations in Applied Math, Pure Math, Computational Math, and Statistics to serve students in many different areas of Mathematical Sciences.

The main part of the Ph.D. is the dissertation. The degree requirements also include: credit requirement, qualifying examination requirement, subject area breadth requirement.

The qualifying examination requirement and the subject area breadth requirement are tailored according to the area of concentration.

Learning Outcomes

www.unlv.edu/degree/phd-mathematical-sciences

Plan Admission Requirements

In addition to the requirements of the Graduate College, applicants must satisfy the admission requirements of the Department of Mathematical Sciences summarized as follows. Applicants seeking direct admission to the doctoral program without a previously earned master's degree must have a minimum GPA of 3.00 for all undergraduate work or a minimum GPA of 3.25 for the last two years of undergraduate mathematics work. Applicants with a master's degree must have a minimum GPA 3.00 for all graduate work and at least 15 credits of graduate course work in Mathematical Sciences with a grade of B or better. Applicants must submit the official score of the GRE General Test with a minimum score in the top 35% on the GRE quantitative.

To apply for admission to the Ph.D. Program, applicants must submit application materials to both the Graduate College and the Department of Mathematical Sciences.

Firstly, applicants must submit to the Graduate College the following materials:

- A completed application form.
- The official transcripts from all colleges and universities the student has attended.

Secondly, applicants must submit to the Department the following materials:

- Copies of all official transcripts sent to the Graduate College.
- At least three letters of recommendation from persons familiar with the applicant's academic record and potential for advanced study in mathematical sciences.
- The official GRE General Test score
- A completed application for Graduate Assistantship, if interested.
- A statement of purpose describing the aim in applying for graduate study, the particular area of specialization within the mathematical sciences (if known), and any additional information that may aid the selection committee in evaluating preparation and aptitude for graduate study.

Details of the admission procedure for the Ph.D. Program can be found on the Department's web site.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See subplan requirements below.

Subplan 1 Requirements: Post-Bachelor's - Applied Mathematics Track

Total Credits Required: 78

Course Requirements

- Required Courses Part 1– Credits: 6
 - Complete two analysis or two theory courses:
 - MAT 707 - Real Analysis I
 - MAT 708 - Real Analysis II
 - OR
 - MAT 709 - Complex Function Theory I
 - MAT 710 - Complex Function Theory II
- Required Courses Part 2 – Credits: 6
 - MAT 771 - Applied Analysis I
 - MAT 772 - Applied Analysis II
- Subject Area Courses – Credits: 12
 - Complete two of the following one-year course sequences:
 - MAT 703 - Abstract Algebra III
 - MAT 704 - Abstract Algebra IV
 - MAT 723 - Advanced Ordinary Differential Equations I
 - MAT 724 - Advanced Ordinary Differential Equations II
 - MAT 729 - Partial Differential Equations I
 - MAT 730 - Partial Differential Equations II
 - MAT 733 - Topology
 - MAT 734 - Topology

- MAT 765 - Advanced Numerical Analysis
- MAT 766 - Advanced Numerical Analysis
- STA 767 - Mathematical Statistics I
- STA 768 - Mathematical Statistics II
- Additional Courses – Credits: 12
 - Complete 12 credits of 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Elective Courses – Credits: 24
 - Complete 24 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Dissertation – Credits: 18
 - MAT 799 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Post-Bachelor's - Computational Mathematics Track

Total Credits Required: 78

Course Requirements

- Required Courses Part 1 – Credits: 6
 - Complete two analysis or two theory courses:
 - MAT 707 - Real Analysis I
 - MAT 708 - Real Analysis II
 - OR
 - MAT 709 - Complex Function Theory I
 - MAT 710 - Complex Function Theory II
- Required Courses Part 2 – Credits: 6
 - MAT 765 - Advanced Numerical Analysis
 - MAT 766 - Advanced Numerical Analysis
- Subject Area Courses – Credits: 12
 - Complete two of the following one-year course sequences:
 - MAT 703 - Abstract Algebra III
 - MAT 704 - Abstract Algebra IV
 - MAT 723 - Advanced Ordinary Differential Equations I
 - MAT 724 - Advanced Ordinary Differential Equations II
 - MAT 729 - Partial Differential Equations I
 - MAT 730 - Partial Differential Equations II
 - MAT 733 - Topology
 - MAT 734 - Topology
 - MAT 771 - Applied Analysis I
 - MAT 772 - Applied Analysis II

- STA 767 - Mathematical Statistics I
 - STA 768 - Mathematical Statistics II
- Additional Courses – Credits: 12
 - Complete 12 credits of 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Elective Courses – Credits: 24
 - Complete 24 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Dissertation – Credits: 18
 - MAT 799 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: Post-Bachelor's - Pure Mathematics Track

Total Credits Required: 78

Course Requirements

- Required Courses Part 1 – Credits: 6
 - Complete two analysis or two theory courses:
 - MAT 707 - Real Analysis I
 - MAT 708 - Real Analysis II
 - OR
 - MAT 709 - Complex Function Theory I
 - MAT 710 - Complex Function Theory II
- Required Courses Part 2 – Credits: 6
 - MAT 703 - Abstract Algebra III
 - MAT 704 - Abstract Algebra IV
- Subject Area Courses – Credits: 12
 - Complete two of the following one-year course sequences:
 - MAT 701 - Foundations of Mathematics III
 - MAT 702 - Foundations of Mathematics IV
 - MAT 717 - Analytical Solution Methods for Partial Differential Equations, I
 - MAT 718 - Analytical Solution Methods for Partial Differential Equations, II
 - MAT 723 - Advanced Ordinary Differential Equations I
 - MAT 724 - Advanced Ordinary Differential Equations II
 - MAT 733 - Topology
 - MAT 734 - Topology
 - MAT 771 - Applied Analysis I
 - MAT 772 - Applied Analysis II
 - STA 767 - Mathematical Statistics I
 - STA 768 - Mathematical Statistics II

- Additional Courses – Credits: 12
 - Complete 12 credits of 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Elective Courses – Credits: 24
 - Complete 24 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Dissertation – Credits: 18
 - MAT 799 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 4 Requirements: Post-Bachelor's - Statistics Track

Total Credits Required: 78

Course Requirements

- Required Courses Part 1 – Credits: 6
 - STA 767 - Mathematical Statistics I
 - STA 768 - Mathematical Statistics II
- Required Courses Part 2 – Credits: 6
 - STA 761 - Regression Analysis I
 - STA 762 - Regression Analysis II
- Subject Area Courses – Credits: 12
 - Complete two of the following one-year course sequences:
 - STA 713 - Experimental Design
 - STA 715 - Multivariate Statistical Methods
 - STA 750 - Time Series Analysis
 - STA 751 - Spatial Statistics
 - STA 755 - Stochastic Modeling I
 - STA 756 - Stochastic Modeling II
 - STA 753 - Bayesian Data Analysis
 - STA 765 - Statistical Decision Theory
 - STA 763 - Analysis of Variance I
 - STA 764 - Analysis of Variance II
 - MAT 707 - Real Analysis I
 - STA 731 - Probability Theory and Its Applications
- Additional Courses – Credits: 12
 - Complete 12 credits of 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Elective Courses – Credits: 24

- Complete 24 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Dissertation – Credits: 18
 - STA 799 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 5 Requirements: Post-Master's - Applied Mathematics Track

Credits Required: 48

Course Requirements

- Required Courses Part 1– Credits: 6
 - Complete two analysis or two theory courses:
 - MAT 707 - Real Analysis I
 - MAT 708 - Real Analysis II

OR

 - MAT 709 - Complex Function Theory I
 - MAT 710 - Complex Function Theory II
- Required Courses Part 2 – Credits: 6
 - MAT 771 - Applied Analysis I
 - MAT 772 - Applied Analysis II
- Subject Area Courses – Credits: 12
 - Complete two of the following one-year course sequences:
 - MAT 703 - Abstract Algebra III
 - MAT 704 - Abstract Algebra IV
 - MAT 723 - Advanced Ordinary Differential Equations I
 - MAT 724 - Advanced Ordinary Differential Equations II
 - MAT 729 - Partial Differential Equations I
 - MAT 730 - Partial Differential Equations II
 - MAT 733 - Topology
 - MAT 734 - Topology
 - MAT 765 - Advanced Numerical Analysis
 - MAT 766 - Advanced Numerical Analysis
 - STA 767 - Mathematical Statistics I
 - STA 768 - Mathematical Statistics II
- Elective Courses – Credits: 6
 - Complete 6 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Dissertation – Credits: 18
 - MAT 799 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 6 Requirements: Post-Master's - Computational Mathematics Track

Total Credits Required: 48

Course Requirements

- Required Courses Part 1 – Credits: 6
 - Complete two analysis or two theory courses:
 - MAT 707 - Real Analysis I
 - MAT 708 - Real Analysis II
 - OR
 - MAT 709 - Complex Function Theory I
 - MAT 710 - Complex Function Theory II
- Required Courses Part 2 – Credits: 6
 - MAT 765 - Advanced Numerical Analysis
 - MAT 766 - Advanced Numerical Analysis
- Subject Area Courses – Credits: 12
 - Complete two of the following one-year course sequences:
 - MAT 703 - Abstract Algebra III
 - MAT 704 - Abstract Algebra IV
 - MAT 723 - Advanced Ordinary Differential Equations I
 - MAT 724 - Advanced Ordinary Differential Equations II
 - MAT 729 - Partial Differential Equations I
 - MAT 730 - Partial Differential Equations II
 - MAT 733 - Topology
 - MAT 734 - Topology
 - MAT 771 - Applied Analysis I
 - MAT 772 - Applied Analysis II
 - STA 767 - Mathematical Statistics I
 - STA 768 - Mathematical Statistics II
- Elective Courses – Credits: 6
 - Complete 6 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Dissertation – Credits: 18
 - MAT 799 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 7 Requirements: Post-Master's - Pure Mathematics Track

Total Credits Required: 48

Course Requirements

- Required Courses Part 1 – Credits: 6
 - Complete two analysis or two theory courses:
 - MAT 707 - Real Analysis I
 - MAT 708 - Real Analysis II
 - OR
 - MAT 709 - Complex Function Theory I
 - MAT 710 - Complex Function Theory II
- Required Courses Part 2 – Credits: 6
 - MAT 703 - Abstract Algebra III
 - MAT 704 - Abstract Algebra IV
- Subject Area Courses – Credits: 12
 - Complete two of the following one-year course sequences:
 - MAT 701 - Foundations of Mathematics III
 - MAT 702 - Foundations of Mathematics IV
 - MAT 717 - Analytical Solution Methods for Partial Differential Equations, I
 - MAT 718 - Analytical Solution Methods for Partial Differential Equations, II
 - MAT 723 - Advanced Ordinary Differential Equations I
 - MAT 724 - Advanced Ordinary Differential Equations II
 - MAT 733 - Topology
 - MAT 734 - Topology
 - MAT 771 - Applied Analysis I
 - MAT 772 - Applied Analysis II
 - STA 767 - Mathematical Statistics I
 - STA 768 - Mathematical Statistics II
- Elective Courses – Credits: 6
 - Complete 6 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Dissertation – Credits: 18
 - MAT 799 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 8 Requirements: Post-Master's - Statistics Track

Total Credits Required: 48

Course Requirements

- Required Courses Part 1 – Credits: 6
 - STA 767 - Mathematical Statistics I
 - STA 768 - Mathematical Statistics II
- Required Courses Part 2 – Credits: 6
 - STA 761 - Regression Analysis I
 - STA 762 - Regression Analysis II
- Subject Area Courses – Credits: 12
 - Complete two of the following one-year course sequences:
 - STA 713 - Experimental Design
 - STA 715 - Multivariate Statistical Methods
 - STA 750 - Time Series Analysis
 - STA 751 - Spatial Statistics
 - STA 755 - Stochastic Modeling I
 - STA 756 - Stochastic Modeling II
 - STA 753 - Bayesian Data Analysis
 - STA 765 - Statistical Decision Theory
 - STA 763 - Analysis of Variance I
 - STA 764 - Analysis of Variance II
 - MAT 707 - Real Analysis I
 - STA 731 - Probability Theory and Its Applications
- Elective Courses – Credits: 6
 - Complete 6 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved courses.
- Dissertation – Credits: 18
 - STA 799 - Dissertation

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Degree Requirements

- Students in a post-bachelor's track must complete a minimum of 60 credits of course work (excluding dissertation), at least 18 of which must be at the 700-level.
- Students in a post-master's track must complete a minimum of 30 credits of course work (excluding dissertation), at least 18 of which must be at the 700-level.
- A student must enroll in a minimum of 18 credits of Dissertation.
- In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate

College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

- Qualifying Examination. The purpose of the Qualifying Examination is to measure the student's knowledge of basic graduate course work in selected areas and to make sure that the student is prepared to proceed to more advanced studies.
- A doctoral student normally takes the Qualifying Examination within the second year after entering the program, based on the core courses in the student's concentration.
- Doctoral students must pass the Qualifying Examination within three years.
- The Qualifying Examination consists of two parts, corresponding to Required Courses Part 1 & Part2.
- A student who fails the Qualifying Examination on the first attempt will be placed on probation and must complete a second examination within the next twelve months.
- A post-bachelor's track student who fails the second examination may be allowed to complete a M.S. degree with the consent of the Graduate Studies Committee. Such a student will not be permitted to seek readmission to the Doctoral Program in Mathematical Sciences at UNLV.
- A post-master's track student who fails the Qualifying Examination a second time will be separated from the program.
- Subject Area Breadth Requirements. With the goal of encouraging students to be exposed to a broad spectrum of mathematics during their graduate studies, doctoral students are required to take at least two one-year sequence courses with a grade of B or better, in addition to the core courses tested by the Ph.D. Qualifying Examination.
- The purpose of the Comprehensive Examination is to measure a doctoral student's knowledge of the advanced level graduate work that will be required as the student begins to do original research in his or her area of concentration.
- After passing the Qualifying Examination, a student will engage in the approved course work specified by the Doctoral Advisory Committee and submit to the latter a dissertation proposal.
- Usually one year after passing the Qualifying Examination, a student will complete the Comprehensive Examination, designed and administered by the Doctoral Advisory Committee, based on the student's course work with focus on his/her ability to perform research on the dissertation proposal.
- A student who fails the Comprehensive Examination on the first attempt must complete a second examination within the next semester. A student who fails the examination a second time will be separated from the Doctoral Program.
- A student who has successfully passed the Comprehensive Examination will be admitted to Candidacy for the Ph.D. degree and thereby be allowed to proceed with the approved dissertation proposal.
- A doctoral candidate is expected to complete a dissertation embodying the results of significant original research, which is performed independently by the student, and is acceptable to the student's advisory committee.
- Skills in foreign languages, computer programming and/or interdisciplinary areas, dependent on the concentration of a student's program, will be determined by the Doctoral Advisory Committee and the Graduate Studies Committee in consultation with the Department Chair.
- Dissertation Defense. After submitting to the Doctoral Advisory Committee a dissertation draft that was approved by his/her Dissertation Advisor, a candidate will defend orally the dissertation before the Doctoral Advisory Committee and any other graduate faculty members who wish to attend. The Doctoral Advisory Committee will recommend to the Graduate Coordinator/Department Chair whether the dissertation and defense are both satisfactory.
- Specific degree requirements, including those listed above, are described in detail in the Graduate Student Handbook for the Ph.D. Program, available on the department's web site. The listing of graduate courses is constantly under review. Graduate students will automatically receive new listings. Since some courses are taught on an "on demand" basis, course prerequisites for each of the four concentrations are considered

guidelines with courses roughly equivalent accepted as prerequisites, subject to approval of the Graduate Studies Committee and the student's Doctoral Advisory Committee.

- A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student's program by the Graduate Studies Committee.
- The Graduate College requires a minimum of 50 percent of the total credits required to complete the doctoral degree, exclusive of transferred credits and/or the dissertation, must be earned at UNLV after admission to a graduate degree program.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Dual Degree: Master of Arts - Economics & Master of Science - Mathematical Sciences

Plan Description

The dual Master of Arts – Economics and Master of Science – Mathematical Sciences combine economic reasoning with mathematical methods. The program attracts students with focused career choices that require core competence in analytical skills and mathematical methods. It also prepares students with interests in pursuing a Ph.D. in economics with substantial quantitative skills, or a Ph.D. in Mathematics with economic applications. We believe that the analytical nature of the program will attract high quality undergraduates.

The MA – Economics portion of the dual degree program advances students' knowledge in macro- and micro-economic theory. It also provides students with econometrics as well as developing their communication skills. The MS – Mathematical Sciences portion of the dual degree program is designed to equip graduate students with a solid foundation of mathematics, statistics, and real-world applications.

The MS – Mathematical Sciences portion of the dual degree is designed to equip graduate students with a solid foundation of mathematics, statistics, and real-world applications. The MA – Economics portion of the dual degree advances students' knowledge in macro- and micro-economic theory. It also provides students with econometrics as well as developing their communication skills.

Learning Outcomes

www.unlv.edu/degree/dual-ms-math-ma-economics

Plan Admission Requirements

The Departments of Economics and Mathematical Sciences welcome applications from college graduates in all fields. All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements. Applicants must satisfy the minimum admission requirements of the MA – Economics

program and the MS – Mathematics program. If denied by one program, the applicant will have the option of proceeding with a single degree program with departmental approval.

Plan Requirements

Total Credits Required: 51

Course Requirements

Total Credits Required for the Economics M.A.: 24

- Required Courses – Credits: 18
 - ECO 701 - Macroeconomic Theory
 - ECO 702 - Microeconomic Theory
 - ECO 740 - Mathematical Economics
 - ECO 770 - Econometrics I, Statistical Modeling
 - ECO 772 - Econometrics II
 - ECO 793 - Seminar in Economic Research
- Elective Courses – Credits: 3
 - Complete 3 credits of ECO electives at the 600- or 700-level.
- Professional Paper – Credits: 3
 - ECO 794 - Professional Paper

Total Credits Required for the Mathematical Sciences M.S.: 27

- Required Courses – Credits: 18
 - Complete 18 credits from the following list of courses:
 - MAT 657 - Introduction to Real Analysis I
 - MAT 663 - Advanced Matrix Theory and Applications
 - MAT 707 - Real Analysis I
 - MAT 709 - Complex Function Theory I
 - MAT 723 - Advanced Ordinary Differential Equations I
 - MAT 771 - Applied Analysis I
 - STA 761 - Regression Analysis I
 - STA 762 - Regression Analysis II
 - STA 767 - Mathematical Statistics I
 - STA 768 - Mathematical Statistics II
- Elective Courses – Credits: 3
 - Complete 3 credits of 600- or 700-level MAT or STA courses (excluding MAT 711 & 712), or other advisor-approved graduate-level courses.
- Thesis – Credits: 6
 - Complete six credits in one of the following courses:
 - MAT 791 - Thesis
 - STA 791 - Thesis

Degree Requirements

- A minimum of 51 credits of graduate work is required for the Dual M.S. and M.A. Program in Mathematics and Economics.

- Completion of a minimum of 24 credits for the Economics M.A. and a minimum of 27 credits for the Mathematical Sciences M.S. with a minimum GPA of 3.00.
- 18 of the 21 credits of economics coursework (excluding professional paper) must be at the 700-level.
- 15 of the 21 credits of mathematics coursework (excluding thesis) must be at the 700-level.
- A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student's program by the Graduate Studies Committee. Failure to meet the requirements of probation will result in separation from the graduate program.
- Classes in which a student receives a C or lower will not count towards his or her degree.
- Students are required to defend a thesis on subjects in the interdisciplinary area of Mathematics and Economics. The committee chair and two other committee members must be from the Mathematics Department. The thesis committee must be composed at minimum of two graduate faculty members from the Economics Department. Please see Graduate College policy for committee appointment guidelines.
- Students are required to complete a professional paper. The committee for the professional paper must be composed of a chair and two committee members from the Economics Department and one graduate faculty member from the Mathematics Department.

Plan Graduation Requirements

- Students cannot graduate from one portion of the dual degree until the requirements for both are met. Students must apply to graduate from both programs for the same semester.
- The student must submit all required forms to the Graduate College and then apply for graduation from both degrees up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete a professional paper.
- Submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- Submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.
- Dual Degree: Doctor of Philosophy - Electrical Engineering & Master of Science - Mathematical Sciences

Dual Degree: Doctor of Philosophy - Electrical Engineering & Master of Science - Mathematical Sciences

Plan Description

The dual Ph.D. EE and M.S. MAT program of study is designed for those who want to pursue a Ph.D. degree in Electrical Engineering or a career in Electrical Engineering with emphasis in applied mathematics. The program prepares graduate students with complementing educational components covering electrical engineering and mathematics, which is the basis of all engineering.

The culminating experience in the Ph.D. program in the Department of Electrical and Computer Engineering is centered about developing new knowledge focused around a specific theme embodied in the form a well-written and orally defended dissertation. The Department of Electrical and Computer Engineering at UNLV offers a number of program options leading to the Ph.D. degree in the Field of Electrical Engineering. Specific major areas of study currently available include: Communications, Computer Engineering, Control System Theory, Electromagnetics and Optics, Electronics, Power Systems, Signal Processing, and Solid State Materials and Devices.

Plan Admission Requirements

Applicants are considered on an individual basis. All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Applicants must satisfy the minimum requirements of the Ph.D. – Electrical Engineering program, and the M.S. – Mathematics program. If denied by one program, the applicant will have the option of proceeding with a single degree program with departmental approval.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Master's Track

Total Credits Required: 69-72

Course Requirements

Total Credits Required for the Mathematical Sciences M.S.: 30-33

- Required Courses – Credits: 6
 - Complete two of the following courses:
 - MAT 707 - Real Analysis I
 - MAT 709 - Complex Function Theory I
 - MAT 765 - Advanced Numerical Analysis
- Elective Courses – Credits: 21-24
 - Students completing the exam option must complete a minimum of 24 credits of MAT or STA elective courses (excluding MAT 711 & 712), and students completing the thesis option must complete a minimum of 21 credits of MAT or STA elective courses (excluding MAT 711 & 712). Other graduate-level courses may be taken with advisor-approval.
- Thesis – Credits: 6 (Optional)
 - Complete 6 credits from one of the following courses:
 - MAT 791 - Thesis
 - STA 791 - Thesis

Total Credits Required for the Electrical Engineering Ph.D.: 45

- Major Field Courses – Credits: 6-15
 - Complete 6-15 credits of coursework in an approved major in a single area in Electrical and Computer Engineering with a minimum overall average GPA of 3.33.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering

- ECG 600 - Computer Communication Networks
- ECG 603 - Embedded Systems Design
- ECG 604 - Modern Processor Architecture
- ECG 605 - Data Compression Systems
- ECG 607 - Biometrics
- ECG 608 - Digital Design Verification and Testing
- ECG 700 - Advanced Computer System Architecture
- ECG 701 - Reliable Design of Digital Systems
- ECG 702 - Interconnection Networks for Parallel Processing Applications
- ECG 704 - Coding with Applications in Computers and Communication Media
- ECG 706 - Analysis of Telecommunication and Data Networks
- ECG 707 - Logic Synthesis Engineering
- ECG 709 - Synthesis and Optimization of Digital Systems
- Control Systems Theory
 - ECG 672 - Digital Control Systems
 - ECG 674 - Recent Topics in Control
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - ECG 774 - Stochastic Control
 - ECG 776 - Adaptive Control
- Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I
- Electronics
 - ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
- Power Engineering
 - ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
- Signal Processing
 - ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 781 - Digital Filters

- ECG 782 - Multidimensional Digital Signal Processing
 - ECG 783 - Adaptive Signal Processing with Neural Networks
- Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 750 - Optical Electronics I
 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- Minor Fields Courses – Credits: 6-18
 - Select two advisor-approved minor fields and complete coursework in each single area totaling 6-18 credits, with a minimum overall average GPA of 3.33. The secondary minor can be from a field outside Electrical Engineering.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics
 - ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture
 - ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital Systems
 - Control Systems Theory
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II

- ECG 733 - Plasma I
- Electronics
 - ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
- Power Engineering
 - ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
- Signal Processing
 - ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 781 - Digital Filters
- Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 750 - Optical Electronics I
 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- Elective Courses – Credits: 0-12
 - Complete 0-12 credits of 600- or 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Dissertation – Credits: 18
 - ECG 799 - Dissertation

Total Credits Shared: 6

- Two courses can be double counted between Electrical Engineering Ph.D. and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Degree Requirements

- A minimum 69 or 72 credits (including thesis and dissertation credits) is required for the Dual Electrical Engineering Ph.D. and Mathematical Sciences M.S. which corresponds to the choice of completing a Mathematics comprehensive exam or thesis.
- Two of the courses included in the degree program can be double counted in the Electrical Engineering Ph.D. and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Mathematical Sciences M.S

- Students completing a thesis must complete a minimum of 33 credit hours with a minimum GPA of 3.00.
- Students completing the comprehensive exam must complete a minimum of 30 credit hours with a minimum GPA of 3.00.
- For the master's degree 21 credits of mathematics course work must be at the 700-level (excluding thesis).
- A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student's program by the Graduate Studies Committee.
- The Graduate College requires a minimum of 50 percent of the total credits required to complete the graduate degree, exclusive of transferred credits and/or the thesis, must be earned at UNLV after admission to a graduate degree program.
- Students must complete a final examination. This will be either an examination to defend the thesis or a written comprehensive examination based on requirements 1 and 2.
- If the thesis option is chosen: In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Electrical Engineering Ph.D.

- All Ph.D. students must satisfy the Ph.D. degree program admission requirements and be admitted to the Ph.D. program on a regular status.
- Complete a minimum of 27 credits of graduate level courses (excluding dissertation credits) with an overall minimum GPA of 3.20 and a minimum GPA of 2.70 (B-) in each class applied towards the 27 credits. The final division of major, minor, and elective credits will be determined in consultation with the student's advisor.
- Of the 27 required credits, a minimum of 18 credits must be in 700-level courses. Of these 18 credits, a minimum of 15 must be from formal courses. The student's doctoral advisory committee may add more requirements in accordance with the individual's background and field of study.
- No more than 3 credits may be from Graduate Independent Study together with Graduate Seminar. No more than 6 credits of a combination of informal courses such as Graduate Independent Study, Special Topics, and Seminar may be applied to the degree program.
- Beyond the Bachelor degree, a Ph.D. student must complete a minimum of 15 credits in an approved ECE major field, 9 credits an approved ECE minor (primary minor) field, and 9 credits in a second approved open minor (secondary minor) field. Of the 15 credits required in the ECE major field, a minimum of 9 credits must be completed in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in the major field. Of the 9 required credits in each minor field, a minimum of 6 credits must be in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in each of the minor fields.
- Informal courses (Graduate Independent Study, Graduate Seminar, and Special Topics) cannot be applied to the ECE major, ECE minor (primary minor) and the open minor (secondary minor) fields.

- At the time of admission or no later than the first semester, the Ph.D. candidate must formally petition BOTH the graduate college and the ECE graduate committee to accept transfer credits and credits taken as a non-degree seeking graduate student to be applied to the Ph.D. program.
- All regular (full graduate standing) status graduate students must select a faculty advisor in their first semester.
- Maintain a minimum overall grade point average (GPA) of 3.20, must maintain a minimum GPA of 3.20 each semester, and must complete all graduate level courses that apply towards their degree with a minimum GPA of 2.70 (B-) in each course. Grades below B- cannot be applied towards the Ph.D. degree and must be repeated or replaced. A class grade below C (2.0) is grounds for initiating a program separation recommendation to the Graduate College. Ph.D. candidates who do not maintain an overall minimum GPA of 3.2, who do not maintain a minimum GPA of 3.2 each semester, or who earn more than one grade below B- will be placed on academic probation or expelled from the program. The Electrical and Computer Engineering Graduate Committee in conjunction with the Graduate College will determine the terms of the student's probation based upon the student's academic record and in accordance with the rules of the Graduate College.
- All regular (full graduate standing) status graduate students must file an approved program before the completion of their third semester. This program must be approved by the student's advisor and the graduate coordinator. All regular and provisional status graduate students must show satisfactory progress towards completion of their degree by completing at least six credits of their approved program per calendar year. If their progress towards their degree program is not satisfactory, students will either be put on probation or expelled from the program.
- Before beginning a dissertation, students must have their dissertation topic approved by their advisor, and the necessary paper work including a dissertation prospectus must be filed with the Graduate College by the end of the third semester. The dissertation prospectus describes the dissertation topic and must include an introductory set of sentences, a well formed hypothesis or hypotheses (specifically italicized in the prospectus) accompanied by a motivation, objectives with major and alternative approaches to the studies, and conjectures of possible outcomes. Students are NOT allowed to take dissertation credits until their prospectus is approved. Credits taken before the approval date will NOT count towards the degree program.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Post-Bachelor's Track

Total Credits Required: 93-96

Course Requirements

Total Credits Required for the Mathematical Sciences M.S.: 30-33

- Required Courses – Credits: 6
 - Complete two of the following courses:
 - MAT 707 - Real Analysis I
 - MAT 709 - Complex Function Theory I
 - MAT 765 - Advanced Numerical Analysis
- Elective Courses – Credits: 21-24

- Students completing the exam option must complete a minimum of 24 credits of MAT or STA elective courses (excluding MAT 711 & 712), and students completing the thesis option must complete a minimum of 21 credits of MAT or STA elective courses (excluding MAT 711 & 712). Other graduate-level courses may be taken with advisor-approval.
- Thesis – Credits: 6 (Optional)
 - Complete 6 credits from one of the following courses:
 - MAT 791 - Thesis
 - STA 791 - Thesis

Total Credits Required for the Electrical Engineering Ph.D.: 69

- Major Field Courses – Credits: 15
 - Complete 15 credits of coursework in an approved major in a single area in Electrical and Computer Engineering with a minimum overall GPA of 3.33. A minimum of 9 credits must be in 700-level courses.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics
 - ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture
 - ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital Systems
 - Control Systems Theory
 - ECG 672 - Digital Control Systems
 - ECG 674 - Recent Topics in Control
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - ECG 774 - Stochastic Control
 - ECG 776 - Adaptive Control
 - Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering

- ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I
- Electronics
 - ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
- Power Engineering
 - ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
- Signal Processing
 - ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 781 - Digital Filters
 - ECG 782 - Multidimensional Digital Signal Processing
 - ECG 783 - Adaptive Signal Processing with Neural Networks
- Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 750 - Optical Electronics I
 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- Minor Fields Courses – Credits: 18
 - Select two advisor-approved minor fields and complete 9 credits of coursework in each single area with a minimum overall average GPA of 3.33. A minimum of 6 credits in each area must be in 700-level courses. The secondary minor can be from a field outside Electrical Engineering.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems

- ECG 607 - Biometrics
- ECG 608 - Digital Design Verification and Testing
- ECG 700 - Advanced Computer System Architecture
- ECG 701 - Reliable Design of Digital Systems
- ECG 702 - Interconnection Networks for Parallel Processing Applications
- ECG 704 - Coding with Applications in Computers and Communication Media
- ECG 706 - Analysis of Telecommunication and Data Networks
- ECG 707 - Logic Synthesis Engineering
- ECG 709 - Synthesis and Optimization of Digital Systems
- Control Systems Theory
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
- Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I
- Electronics
 - ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
- Power Engineering
 - ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
- Signal Processing
 - ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 781 - Digital Filters
- Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 750 - Optical Electronics I
 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication

- ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- 700-Level Elective Courses – Credits: 12
 - Complete 12 credits of 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Elective Courses – Credits: 6
 - Complete 6 credits of 600- or 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Dissertation – Credits: 18
 - ECG 799 - Dissertation

Total Credits Shared: 6

- Two courses can be double counted between Electrical Engineering Ph.D. and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Degree Requirements

- A minimum 93 or 96 credits (including thesis and dissertation credits) is required for the Dual Electrical Engineering Ph.D. and Mathematical Sciences M.S. which corresponds to the choice of completing a Mathematics comprehensive exam or thesis.
- Two of the courses included in the degree program can be double counted Electrical Engineering M.S.E and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Mathematical Sciences M.S

- Students completing a thesis must complete a minimum of 33 credit hours with a minimum GPA of 3.00.
- Students completing the comprehensive exam must complete a minimum of 30 credit hours with a minimum GPA of 3.00.
- 21 credits of mathematics course work must be at the 700-level (excluding thesis).
- A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student's program by the Graduate Studies Committee.
- The Graduate College requires a minimum of 50 percent of the total credits required to complete the graduate degree, exclusive of transferred credits and/or the thesis, must be earned at UNLV after admission to a graduate degree program.
- Students must complete a final examination. This will be either an examination to defend the thesis or a written comprehensive examination based on requirements 1 and 2.
- If the thesis option is chosen: In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Electrical Engineering Ph.D.

- All Ph.D. students must satisfy the Ph.D. degree program admission requirements and be admitted to the Ph.D. program on a regular status.
- Complete a minimum of 51 credits (24 M.S.E. credits + 27 Post-Master's Track credits) of graduate level courses (excluding dissertation credits) with an overall minimum GPA of 3.20 and a minimum GPA of 2.70 (B-) in each class applied towards the 27 credits.
- Of the 51 required credits, a minimum of 33 credits must be in 700-level courses. Of these 33 credits, a minimum of 30 must be from formal courses. The student's doctoral advisory committee may add more requirements in accordance with the individual's background and field of study.
- No more than 6 credits may be from Graduate Independent Study together with Graduate Seminar. No more than 12 credits of a combination of informal courses such as Graduate Independent Study, Special Topics, and Seminar may be applied to the degree program.
- Complete a minimum of 15 credits in an approved ECE major field, 9 credits an approved ECE minor (primary minor) field, and 9 credits in a second approved open minor (secondary minor) field. Of the 15 credits required in the ECE major field, a minimum of 9 credits must be completed in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in the major field. Of the 9 required credits in each minor field, a minimum of 6 credits must be in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in each of the minor fields.
- Informal courses (Graduate Independent Study, Graduate Seminar, and Special Topics) cannot be applied to the ECE major, ECE minor (primary minor) and the open minor (secondary minor) fields.
- At the time of admission or no later than the first semester, the Ph.D. candidate must formally petition BOTH the graduate college and the ECE graduate committee to accept transfer credits and credits taken as a non-degree seeking graduate student to be applied to the Ph.D. program.
- All regular (full graduate standing) status graduate students must select a faculty advisor in their first semester.
- Students on academic probation may be transferred to the M.S.E. Program depending on the student's academic record. In such a case, the M.S.E. Program requirements must be satisfied. For example, only 6 credits of the informal courses may be applied to the M.S.E. degree program with the further constraint that up to 3 credits total of Independent Study in combination with Graduate Seminar may be in the 6 credits.
- Maintain a minimum overall grade point average (GPA) of 3.20, must maintain a minimum GPA of 3.20 each semester, and must complete all graduate level courses that apply towards their degree with a minimum GPA of 2.70 (B-) in each course. Grades below B- cannot be applied towards the Ph.D. degree and must be repeated or replaced. A class grade below C (2.0) is grounds for initiating a program separation recommendation to the Graduate College. Ph.D. candidates who do not maintain an overall minimum GPA of 3.2, who do not maintain a minimum GPA of 3.2 each semester, or who earn more than one grade below B- will be placed on academic probation or expelled from the program. The Electrical and Computer Engineering Graduate Committee and/or the Graduate College will determine the terms of the student's probation in accordance with the rules of the Graduate College.
- All regular status graduate students must file an approved program before the completion of their third semester. This program must be approved by the student's advisor and the graduate coordinator. All regular and provisional status graduate students must show satisfactory progress towards completion of their degree by completing at least six credits of their approved program per calendar year. If their progress towards their degree program is not satisfactory, students will either be put on probation or expelled from the program.

- Before beginning a dissertation, students must have their dissertation topic approved by their advisor, and the necessary paper work including a dissertation prospectus must be filed with the Graduate College by the end of the third semester. The dissertation prospectus describes the dissertation topic and must include an introductory set of sentences, a well formed hypothesis or hypotheses (specifically italicized in the prospectus) accompanied by a motivation, objectives with major and alternative approaches to the studies, and conjectures of possible outcomes. Students are NOT allowed to take dissertation credits until their prospectus is approved. Credits taken before the approval date will NOT count towards the degree program.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: Post-Bachelor's Integrated BS-PHD Track

Total Credits Required: 84-93

Course Requirements

Total Credits Required for the Mathematical Sciences M.S.: 30-33

- Required Courses – Credits: 6
 - Complete two of the following courses:
 - MAT 707 - Real Analysis I
 - MAT 709 - Complex Function Theory I
 - MAT 765 - Advanced Numerical Analysis
- Elective Courses – Credits: 21-24
 - Students completing the exam option must complete a minimum of 24 credits of MAT or STA elective courses (excluding MAT 711 & 712), and students completing the thesis option must complete a minimum of 21 credits of MAT or STA elective courses (excluding MAT 711 & 712). Other graduate-level courses may be taken with advisor-approval.
- Thesis – Credits: 6 (Optional)
 - Complete 6 credits from one of the following courses:
 - MAT 791 - Thesis
 - STA 791 - Thesis

Total Credits Required for the Electrical Engineering Ph.D.: 60-66

- Major Field Courses – Credits: 6-15
 - Complete 6-15 credits of coursework in an approved major in a single area in Electrical and Computer Engineering with a minimum overall GPA of 3.33.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media

- ECG 760 - Random Processes in Engineering Problems
- ECG 762 - Detection and Estimation of Signals in Noise
- Computer Engineering
 - ECG 600 - Computer Communication Networks
 - ECG 603 - Embedded Systems Design
 - ECG 604 - Modern Processor Architecture
 - ECG 605 - Data Compression Systems
 - ECG 607 - Biometrics
 - ECG 608 - Digital Design Verification and Testing
 - ECG 700 - Advanced Computer System Architecture
 - ECG 701 - Reliable Design of Digital Systems
 - ECG 702 - Interconnection Networks for Parallel Processing Applications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 706 - Analysis of Telecommunication and Data Networks
 - ECG 707 - Logic Synthesis Engineering
 - ECG 709 - Synthesis and Optimization of Digital Systems
- Control Systems Theory
 - ECG 672 - Digital Control Systems
 - ECG 674 - Recent Topics in Control
 - ECG 770 - Linear Systems Theory
 - ECG 771 - Optimal and Modern Controls
 - ECG 772 - Nonlinear Systems I
 - ECG 774 - Stochastic Control
 - ECG 776 - Adaptive Control
- Electromagnetics and Optics
 - ECG 630 - Transmission Lines
 - ECG 631 - Engineering Optics
 - ECG 632 - Antenna Engineering
 - ECG 633 - Active and Passive Microwave Engineering
 - ECG 730 - Advanced Engineering Electromagnetics I
 - ECG 731 - Theoretical Techniques in Electromagnetics
 - ECG 732 - Advanced Engineering Electromagnetics II
 - ECG 733 - Plasma I
- Electronics
 - ECG 620 - Analog Integrated Circuit Design
 - ECG 621 - Digital Integrated Circuit Design
 - ECG 720 - Advanced Analog IC Design
 - ECG 721 - Memory Circuit Design
 - ECG 722 - Mixed-Signal Circuit Design
- Power Engineering
 - ECG 642 - Power Electronics
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
- Signal Processing

- ECG 680 - Discrete-Time Signal Processing
 - ECG 762 - Detection and Estimation of Signals in Noise
 - ECG 781 - Digital Filters
 - ECG 782 - Multidimensional Digital Signal Processing
 - ECG 783 - Adaptive Signal Processing with Neural Networks
- Solid State Electronics
 - ECG 651 - Electronic and Magnetic Materials and Devices
 - ECG 652 - Optoelectronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 750 - Optical Electronics I
 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- Minor Fields Courses – Credits: 9-18
 - Select two advisor-approved minor fields and complete coursework in each single area totaling 9-18 credits, with a minimum overall average GPA of 3.33. The secondary minor can be from a field outside Electrical Engineering.
 - Communications
 - ECG 662 - Advanced Digital Communications
 - ECG 704 - Coding with Applications in Computers and Communication Media
 - ECG 760 - Random Processes in Engineering Problems
 - ECG 762 - Detection and Estimation of Signals in Noise
 - Computer Engineering
 - ECG 600 - Computer Communication Networks

 - ECG 752 - Physical Electronics
 - ECG 753 - Advanced Topics in Semiconductor Devices I
 - ECG 755 - Monolithic Integrated Circuit Fabrication
 - ECG 756 - Advanced Topics in Semiconductor Devices II
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
- Elective Courses – Credits: 9-18
 - Complete 9-18 credits of 600- or 700-level MAT, PHY, AST, CEE, CEM, ECG, EGG, CS, ME, or other advisor-approved courses.
- Dissertation – Credits: 18
 - ECG 799 - Dissertation

Total Credits Shared: 6

- Two courses can be double counted between Electrical Engineering Ph.D. and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Degree Requirements

- A minimum of 84, 87, 90, or 93 credits (including thesis and dissertation credits) of graduate work is required for the Dual Electrical Engineering Ph.D. and Mathematical Sciences M.S. which corresponds to the choice of completing a Mathematics comprehensive exam or thesis, and the number of credits of formally approved graduate level courses applied toward the B.S. degree and used in the Electrical Engineering Integrated BS-PHD Track.
- Two of the courses included in the degree program can be double counted Electrical Engineering M.S.E and Mathematical Sciences M.S. degrees. Non-ECG courses must be applied towards non-ECG elective credits in the electrical engineering degree program pursued.

Mathematical Sciences M.S

- Students completing a thesis must complete a minimum of 33 credit hours with a minimum GPA of 3.00.
- Students completing the comprehensive exam must complete a minimum of 30 credit hours with a minimum GPA of 3.00.
- 21 credits of mathematics course work must be at the 700-level (excluding thesis).
- A student will be placed on academic probation if a minimum of 3.00 GPA is not maintained in all work taken in the degree program. A grade of C or less in one graduate-level course will cause a student to be placed on academic probation and will elicit a critical review of the student's program by the Graduate Studies Committee.
- The Graduate College requires a minimum of 50 percent of the total credits required to complete the graduate degree, exclusive of transferred credits and/or the thesis, must be earned at UNLV after admission to a graduate degree program.
- Students must complete a final examination. This will be either an examination to defend the thesis or a written comprehensive examination based on requirements 1 and 2.
- If the thesis option is chosen: In consultation with his/her advisor, a student will organize a dissertation committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Electrical Engineering Ph.D.

- All Ph.D. students must satisfy the Ph.D. degree program admission requirements and be admitted to the Ph.D. program on a regular status.
- Total credits required depends on the total number of approved graduate-level course work taken as technical electives (with a grade of B or better) during the senior year.
- Complete a minimum of 60, 63, or 66 credits (including dissertation credits) respectively corresponding to 9, 6, or 3 credits of formally approved graduate level courses applied toward the B.S. degree yielding a total of 69 course credits. The final division of major, minor, and elective credits will be determined in consultation with the student's advisor.
- Of the 69 required credits, a minimum of 33 credits must be in 700-level courses. Of these 33 credits, a minimum of 30 must be from formal courses. The student's doctoral advisory committee may add more requirements in accordance with the individual's background and field of study.

- No more than 6 credits may be from Graduate Independent Study together with Graduate Seminar. No more than 12 credits of a combination of informal courses such as Graduate Independent Study, Special Topics, and Seminar may be applied to the degree program.
- Complete a minimum of 15 credits in an approved ECE major field, 9 credits an approved ECE minor (primary minor) field, and 9 credits in a second approved open minor (secondary minor) field. Of the 15 credits required in the ECE major field, a minimum of 9 credits must be completed in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in the major field. Of the 9 required credits in each minor field, a minimum of 6 credits must be in 700-level courses. A minimum GPA of 3.33 (B+=3.30) must be obtained in each of the minor fields.
- Informal courses (Graduate Independent Study, Graduate Seminar, and Special Topics) cannot be applied to the ECE major, ECE minor (primary minor) and the open minor (secondary minor) fields.
- All regular (full graduate standing) status graduate students must select a faculty advisor in their first semester.
- Students on academic probation may be transferred to the M.S.E. Program depending on the student's academic record. In such a case, the M.S.E. Program requirements must be satisfied. For example, only 6 credits of the informal courses may be applied to the M.S.E. degree program with the further constraint that up to 3 credits total of Independent Study in combination with Graduate Seminar may be in the 6 credits.
- Maintain a minimum overall grade point average (GPA) of 3.20, must maintain a minimum GPA of 3.20 each semester, and must complete all graduate level courses that apply towards their degree with a minimum GPA of 2.70 (B-) in each course. Grades below B- cannot be applied towards the Ph.D. degree and must be repeated or replaced. A class grade below C (2.0) is grounds for initiating a program separation recommendation to the Graduate College. Ph.D. candidates who do not maintain an overall minimum GPA of 3.20, who do not maintain a GPA of 3.20 each semester, or who earn more than one grade below B- will either be placed on probation or expelled from the program. The Electrical and Computer Engineering Graduate Committee and/or the Graduate College will determine the terms of the student's probation in accordance with the rules of the Graduate College.
- All regular status graduate students must file an approved program before the completion of their third semester. This program must be approved by the student's advisor and the graduate coordinator. All regular and provisional status graduate students must show satisfactory progress towards completion of their degree by completing at least six credits of their approved program per calendar year. If their progress towards their degree program is not satisfactory, students will either be put on probation or expelled from the program.
- Before beginning a dissertation, students must have their dissertation topic approved by their advisor, and the necessary paper work including a dissertation prospectus must be filed with the Graduate College by the end of the third semester. The dissertation prospectus describes the dissertation topic and must include an introductory set of sentences, a well formed hypothesis or hypotheses (specifically italicized in the prospectus) accompanied by a motivation, objectives with major and alternative approaches to the studies, and conjectures of possible outcomes. Students are NOT allowed to take dissertation credits until their prospectus is approved. Credits taken before the approval date will NOT count towards the degree program.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

- Students cannot graduate from one portion of the dual degree until the requirements for both are met. Students must apply to graduate from both programs for the same semester.
- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

Mathematical Sciences M.S

- The student must successfully complete a culminating experience.
- If the exam option is chosen, the student must successfully pass a final comprehensive examination.
- If the thesis option is chosen, the student must:
 - Submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
 - Submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Electrical Engineering Ph.D.

- During the first semester, a Ph.D. student must select a faculty advisor. The faculty advisor does not have to be the one to whom the student was assigned upon entering the Ph.D. program. In coordination with the faculty advisor, the student must also form a doctoral advisory committee. A doctoral advisory committee is composed of at least four members of the UNLV Graduate Faculty. Three of the faculty must be from the Department of Electrical and Computer Engineering. The fourth from a relevant supporting field having Full Graduate Faculty Status as recognized by the Graduate College.
- Students admitted on provisional and/or conditional status are not allowed to take the qualifying exam until their provisions and/or conditions have been met. Students taking the exam while on provisional or conditional status will be required to retake the exam regardless if one or all areas of the exam have been passed.
- Provisional status students must complete all required supplementary work within one calendar year from the time of admission into the program with a grade of B (3.0) or better in each course.
- Pass the Qualifying Exam within 2 semesters of being admitted to the Ph.D. program on a regular (full graduate standing) status. The Qualifying Exam is offered once every fall semester and once every spring semester. This exam cannot be taken more than twice.
- The Qualifying Exam tests the student's general undergraduate knowledge of electrical engineering and computer engineering. To register for the Qualifying Exam, eligible students must notify the graduate coordinator no later than one month prior to the examination date.
- All students must pass the Qualifying Exam within the first two semesters (excluding the summer semester) upon being admitted to the Ph.D. program on a regular status. If a student is required to take the qualifying exam and is not present to sit the exam, an automatic FAIL is assigned. Students who have not passed the Qualifying Exam within this timeframe will be terminated from the Ph.D. program. Students who have not passed the Qualifying Exam by their second attempt will be terminated from the Ph.D. program. Students in the Direct Ph.D. program who fail the Qualifying Exam on their second attempt within the two semester timeframe may elect to pursue a M.S. Degree by completing all of the requirements listed for that degree.
- The Qualifying Exam is a four and one-half hour exam covering questions in the following undergraduate electrical and computer engineering fields:
 - Communications
 - Control System Theory

- Electromagnetics and Optics
 - Electronics
 - Power
 - Signal Processing
 - Solid State
 - Digital Logic Design
 - Computer Architectures and Organization
 - Digital Electronics and VLSI Design
 - Computer Communication Networks
- To pass the qualifying exam requirement, the student must successfully complete any four of the eleven areas with a grade of PASS to complete the qualifying exam requirement within two sittings. If the student passes less than four areas on the first attempt, the student will receive a PASS for those individual areas successfully completed and will not be required to retake these areas on the second attempt. The exam is a closed note, closed book exam.
 - For more details on course specifics, exam logistics, appeal rights and procedure, and protocols regarding the qualifying exam, refer to the ECE department's Electrical Engineering Graduate Program Document.
 - In all Post-Bachelor's Tracks, a Ph.D. student must complete a minimum of 15 credits in an approved ECE major field in a single area of Electrical and Computer Engineering, 9 credits in an approved ECE minor field (primary minor) in a single but different area of Electrical and Computer Engineering, and another 9 credits in a second approved minor (secondary minor) field. Currently, the Department of Electrical and Computer Engineering at UNLV offers Communications, Computer Engineering, Control System Theory, Electromagnetics and Optics, Electronics, Power Systems, Signal Processing, and Solid State Materials and Devices as major fields. Specific courses that can be applied to specific fields are listed in detail in the Electrical Engineering Graduate Program Document.
 - Of the 15 credits required in the ECE major field, a minimum of 9 credits must be completed in 700-level courses. To complete the ECE major field requirement, the applied 15 credits of ECE major course work must attain a minimum overall GPA of 3.33 (B+=3.30).
 - Each student must complete two minor fields. To complete a minor field, a student must complete a minimum of 9 credits in a minor field and have an overall minimum GPA of 3.33 (B+=3.30) for the 9 minor field credits. Of the 9 required credits in each minor field, a minimum of 6 credits must be in 700-level courses. Courses that can be applied to specific minor fields are listed in detail in the Electrical Engineering Graduate Program Document. These courses may be applied to any designated field but may only be counted once. With the written approval of the major advisor and the student's advisory committee, the secondary minor may be a mixed minor field. A mixed minor field may be formed with courses inside and/or outside of the Electrical Engineering Department's approved fields (e.g., mathematics and physics, computer engineering and computer science, physics, mechanical engineering, solid state and electromagnetics) A mixed minor may not be composed of courses in the Electrical Engineering Department that satisfy course work in the major and the other minor field. The only exception is when a course may be used in more than one field. In this case, the course may not be counted twice but may be used for either minor area. However, the student must complete at least one minor field (primary minor field) in Electrical Engineering in a single area.
 - After passing the Qualifying Exam, successfully completing all courses for a major field, and successfully completing all courses for the ECE minor field, students are eligible to take the Comprehensive Exam. All students must have passed the Comprehensive Exam within two semesters after successfully completing all required course work except for the 18 credits Dissertation. [NOTE: Up to 6 credits of Dissertation taken prior to the successful completion of the Preliminary Exam may

count towards the degree program.] The Comprehensive Exam cannot be taken more than once per semester and cannot be taken more than twice.

- The Comprehensive Exam tests the candidate's depth of knowledge in the candidate's chosen ECE major field and chosen ECE minor (primary minor) field. All students must have passed the Comprehensive Exam within two semesters after successfully completing all required course work (except for the 18 credits of Dissertation). The Comprehensive Exam is offered once every fall semester and once every spring semester. The Comprehensive Exam cannot be taken more than twice. Candidates who have not passed the Comprehensive Exam within this timeframe (two consecutive sittings) will be terminated from the Ph.D. program. Candidates who have not passed the Comprehensive Exam following their second attempt will be terminated from the Ph.D. program.
- Before a student is eligible to register for the Comprehensive Exam, the candidate must have obtained regular (full graduate standing) admission status, passed the Qualifying Exam, and must have successfully completed all of the course requirements for the ECE major field and the ECE minor (primary minor) field. The student must have acquired a minimum GPA of 3.33 in both the major and minor fields separately. If the minor field GPA is less than 3.33 and/or the major field GPA is less than 3.33, then the minor and/or major field requirement has not been successfully completed. The candidate will not be allowed to take the Comprehensive Exam until both the major and minor 3.33 GPA requirements are fulfilled. Further, the student must have a minimum overall GPA of 3.2 and must have satisfied all other Ph.D. degree program admission requirements. If a student takes the Comprehensive Exam before any one of these requirements has been satisfied, the student will automatically receive a FAIL grade for the exam. At their discretion, the Graduate Committee may also count this failing grade as one of the student's attempts for the Comprehensive Exam. To register for the Comprehensive Exam, eligible students must notify the graduate coordinator no later than one month prior to the examination date.
- To pass the Comprehensive Exam, a student must pass a five-hour exam covering courses in his/her ECE major field and ECE minor (primary minor) field. A pass or fail grade will be given for the exam. The graduate committee will notify students of the results of the exam. The major and minor area exam will emphasize graduate coursework taken in the ECE major and ECE minor (primary minor; minor 1) fields. The exam will evaluate the student's ability to apply his/her theoretical and analytical abilities to problems in his/her ECE major and ECE minor (primary minor) field. However, the exam may require knowledge of undergraduate material related to the student's major and minor fields. Students should expect problems that require advanced thinking. Specific problems need not be familiar textbook problems nor may the student be necessarily familiar with the problem. A pass or fail grade will be given for the exam. The graduate committee will notify students of the exam results.
- For more details on course specifics, exam logistics, appeal rights and procedure, and protocols regarding the comprehensive exam, refer to the ECE department's Electrical Engineering Graduate Program Document.
- After successfully completing all required course work and passing the Comprehensive Exam, the candidate must pass the Preliminary Exam. The Preliminary Exam cannot be taken more than once per semester but may be repeated until passed.
- The Preliminary Exam evaluates the caliber of a student's dissertation topic. The Preliminary Exam cannot be taken more than once per semester but may be repeated until passed.
- To be eligible for the Preliminary Exam, a student must have passed the Comprehensive Exam, and have successfully completed all required course work except for the 18 credits of Dissertation.
- Before the Preliminary Exam, a student must prepare a 10 to 20-page prospectus of his/her research. A copy of this prospectus must be submitted to the Graduate Committee and each member of the Ph.D. candidate's advisory committee at least two weeks prior to the Preliminary Exam.

- The student must also notify the Graduate Committee and each member of their advisory committee of the date, time and location of their Preliminary Exam. This must be done at least two weeks prior to the Preliminary Exam.
- During the Preliminary Exam, the student presents his/her prospectus to his advisory committee. To pass the Preliminary Exam, the student's advisory committee must unanimously approve the student's prospectus. Students who pass the Preliminary Exam are advanced to candidacy for the Ph.D.
- Complete a minimum of 18 credits of Dissertation and complete a dissertation containing original research. Upon completion, the student must pass the Final Exam in which the student defends his/her dissertation. The Final Exam is the culminating experience of the PhD program.
- The Final Exam evaluates the Ph.D. candidate's dissertation. The Final Exam cannot be taken more than once per every three months but may be repeated until passed. To be eligible for the Final Exam, a Ph.D. candidate must have passed the Preliminary Exam, and have successfully completed all required course work including a minimum of 18 credits of Dissertation. A minimum of 12 credits of Dissertation must be taken after the successful completion of the Preliminary Exam. A copy of the Ph.D. candidate's dissertation must be submitted to the Graduate Committee and each member of the Ph.D. candidate's advisory committee at least two weeks prior to the Final Exam. The Ph.D. candidate must also notify the Graduate Committee and each member of his/her advisory committee of the date, time, and location of his/her Final Exam at least two weeks prior to the Final Exam. During the Final Exam, the Ph.D. candidate will present his/her dissertation to their advisory committee. To pass the Final Exam, the Ph.D. candidate's advisory committee must unanimously approve the Ph.D. candidate's dissertation.
- The Department of Electrical and Computer Engineering requires that the Ph.D. degree be completed within a period of six years from the time the candidate is fully admitted to the Ph.D. program. Further, courses taken more than six years prior to graduation cannot be applied toward the PhD degree without permission from the Graduate College. Students exceeding this time limit must formally write a letter requesting permission from both the Graduate Committee and the Graduate College to stay in the Ph.D. program and apply coursework towards the degree program. The formal letter must explain the circumstances of why the degree was not completed within the allotted timeframe and indicate the extended period of time needed to complete the degree.
- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Mathematical Sciences Courses

MAT 651 - Foundations of Mathematics I

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 652 - Foundations of Mathematics II

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings

and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 653 - Abstract Algebra I

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 654 - Abstract Algebra II

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 655 - Elementary Theory of Numbers I

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 656 - Elementary Theory of Numbers II

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 657 - Introduction to Real Analysis I

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 658 - Introduction to Real Analysis II

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the

corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 659 - Elementary Complex Analysis

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 661 - Probability Theory

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 662 - Stochastic Processes

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 663 - Advanced Matrix Theory and Applications

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 665 - Numerical Analysis I

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 666 - Numerical Analysis II

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate

credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 668 - Applied Finite Element Analysis

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 669 - Combinatorics I

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 670 - Combinatorics II

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 680 - College Geometry

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 683 - General Topology I

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 684 - General Topology II

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in

an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 687 - Introduction to Partial Differential Equations

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 689 - Advanced Mathematical Topics

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 690 - Independent Study

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

MAT 701 - Foundations of Mathematics III

Credits 3

Selection from the following topics: model theory, recursive function theory, set theory, mathematics of metamathematics. **Prerequisites** MAT 652

MAT 702 - Foundations of Mathematics IV

Credits 3

Selection from the following topics: model theory, recursive function theory, set theory, mathematics of metamathematics. **Prerequisites** MAT 652

MAT 703 - Abstract Algebra III

Credits 3

Detailed study of the following algebraic structures: groups, rings and ideals, fields, modules, and Galois theory. **Prerequisites** A year of undergraduate abstract algebra or consent of instructor.

MAT 704 - Abstract Algebra IV

Credits 3

Detailed study of the following algebraic structures: groups, rings and ideals, fields, modules, and Galois theory. **Prerequisites** A year of undergraduate abstract algebra or consent of instructor.

MAT 707 - Real Analysis I

Credits 3

Theory of measure, integration and differentiation: Banach spaces; Hilbert spaces; spaces of continuous functions.
Prerequisites MAT 658

MAT 708 - Real Analysis II

Credits 3

Theory of measure, integration and differentiation: Banach spaces; Hilbert spaces; spaces of continuous functions.
Prerequisites MAT 658

MAT 709 - Complex Function Theory I

Credits 3

Analytic functions, conformal mappings, Cauchy's theorem, power series, Laurent series, the Riemann mapping theorem, harmonic functions, subharmonic functions, canonical mappings of multiply connected regions, analytic continuation. **Prerequisites** MAT 657 or MAT 659 or equivalent.

MAT 710 - Complex Function Theory II

Credits 3

Analytic functions, conformal mappings, Cauchy's theorem, power series, Laurent series, the Riemann mapping theorem, harmonic functions, subharmonic functions, canonical mappings of multiply connected regions, analytic continuation. **Prerequisites** MAT 657 or MAT 659 or equivalent.

MAT 711 - Survey of Mathematical Problems I

Credits 3

Selected topics from logical reasoning, probability, combinatorics, graph theory, codes, number theory, constructibility, game theory, limits, functions, set theory and foundations, and plane geometry. Problem solving and techniques of proof emphasized throughout. Connections made between the mathematics of this course and secondary education mathematics. **Prerequisites** Graduate standing and consent of instructor.

MAT 712 - Survey of Mathematical Problems II

Credits 3

Continuation of topics listed for MAT 711 with emphasis on problem solving and techniques of proof. Again, connections made between the mathematical content of this course and mathematical content for secondary education. **Prerequisites** MAT 711 or consent of instructor.

MAT 714 - History of Mathematics

Credits 3

Historical development of mathematics from primitive origins to the present time. Lives of many mathematicians and their contributions to the development of mathematics. **Prerequisites** Graduate standing and consent of instructor.

MAT 716 - Integrative Mathematical Topics

Credits 3

Survey of mathematical topics in an integrative manner. The topics may cover theory and applications in long stretches including probability and statistics; combinatorics, number theory and algebra; geometry and topology; ODE and PDE; computation and numerical analysis; Real and complex analysis. **Prerequisites** At least nine credits at 600-level as required in Requirement #1.

MAT 717 - Analytical Solution Methods for Partial Differential Equations, I

Credits 3

Covers the basic theory and methods for solving linear partial differential equations. Emphasis on introducing

various techniques to obtain analytical solutions of linear partial differential equations. Techniques include: Method of separation of variables; Fourier transform method; Laplace transform method; Green's function method, etc.

Prerequisites MAT 487/687, or MAT 458/658, or consent of instructor.

MAT 718 - Analytical Solution Methods for Partial Differential Equations, II

Credits 3

Covers the basic theory and methods for solving nonlinear partial differential equations. Emphasise on introducing various techniques to obtain analytical solutions. Techniques include: Generalized method of characteristics, method of shock wave solution, method of travelling wave solution, perturbation method, method of similarity solution, etc.

Prerequisites MAT 487/687, or MAT 717, or consent of instructor.

MAT 723 - Advanced Ordinary Differential Equations I

Credits 3

Functional analysis; Frechet calculus; existence and uniqueness theorems for initial and boundary value problems; qualitative properties of solutions, particularly of linear equations. **Prerequisites** MAT 671–672 or MAT 673–674

MAT 724 - Advanced Ordinary Differential Equations II

Credits 3

Topics to be selected from the following: Sturm-Liouville theory, stability theory, perturbation theory, numerical methods, the theory of invariant imbedding and functional differential equations. **Prerequisites** MAT 723

MAT 725 - Mathematics for Operations Research I

Credits 3

Theory of stochastic processes, theory of queues, Markov processes, non-Markov processes, Markov chains, applications. **Prerequisites** MAT 661

MAT 726 - Mathematics for Operations Research II

Credits 3

Linear and non-linear programming, dynamic programming, Lagrange multiplier and duality theorems, control theory and optimal control, applications of programming. **Prerequisites** MAT 671 and 673

MAT 729 - Partial Differential Equations I

Credits 3

Linear and nonlinear first order PDEs. Heat, wave and Laplace equations. Classical representation formulas in one and more dimensions. Properties of solutions: maximum principles, energy methods, uniqueness and regularity considerations. **Prerequisites** MAT 687 or MAT 717

MAT 730 - Partial Differential Equations II

Credits 3

Develops a functional analytical framework which will give students a deeper understanding of the subject matter. Topics include Sobolev and Holder spaces, embedding inequalities, weak solutions, regularity and maximum principles. **Prerequisites** MAT 708 and MAT 729, or consent of instructor.

MAT 731 - Mathematical Modeling

Credits 3

Process and techniques of mathematical modeling with an emphasis on differential equations based models, though other models may also be considered. Applications selected from physical, biological and social sciences. Modeling projects based on student interests. Symbolic computation software. **Prerequisites** MAT 687 or MAT 717 or consent of instructor.

MAT 733 - Topology**Credits 3**

Selected topics from algebraic and point-set topology with emphasis on algebraic topology. **Prerequisites** MAT 684 or consent of instructor.

MAT 734 - Topology**Credits 3**

Selected topics from algebraic and point-set topology with emphasis on algebraic topology. **Prerequisites** MAT 684 or consent of instructor.

MAT 740 - Mathematical Wave Propagation Theory and Application I**Credits 3**

Review of linear wave equations, techniques of linear and non-linear modeling of natural occurrences and their role in understanding mathematical inversion, mathematical foundation of dyadic wave propagation, introduction to asymptotic analysis and boundary layer theory, application to problems for waves propagating in the atmosphere, ocean and space. **Prerequisites** MAT 717 or MAT 729 or consent of instructor.

MAT 741 - Mathematical Wave Propagation Theory and Application II**Credits 3**

The generalized tensor wave nature of matter, advanced mathematical methods of non-linear and quantum optics. Earth quake dynamics, elastic waves and cracks propagation with applications from earth system and space science. **Prerequisites** MAT 718 and MAT 740 or consent of instructor.

MAT 751 - Topics in Foundations of Mathematics

Credits 3. Notes May be repeated for credit with the consent of the mathematics department. Except under special circumstances, total credits limited to six credits. **Prerequisites** MAT 701–702

MAT 753 - Homological Algebra**Credits 3**

Modules, categories and factors, tensors, Hom, Tor, Ext, the dimensions of rings and modules, derived factors, cohomology of groups and algebras. **Prerequisites** MAT 703–704 or consent of instructor.

MAT 754 - Homological Algebra**Credits 3**

Modules, categories and factors, tensors, Hom, Tor, Ext, the dimensions of rings and modules, derived factors, cohomology of groups and algebras. **Prerequisites** MAT 703–704 or consent of instructor.

MAT 755 - Topics in Algebra

Credits 3. Notes May be repeated for credit with the consent of the mathematics department. Except under special circumstances, total credits limited to six. **Prerequisites** MAT 703–704 or consent of instructor.

MAT 756 - Arithmetic on Elliptic Curves**Credits 3**

The group structure of elliptic curves over the reals, complex numbers, the rationals, number fields, and finite fields; Bezout's theorem and its applications; projective geometry; genus; Mordell's theorem; points of finite order; and heights. Additional topics may include complex multiplication; modular forms; and factoring using elliptic curves.

Prerequisites MAT 653 and 654, or equivalent.

MAT 757 - Topics in Analysis

Credits 3. **Notes** May be repeated for credit with the consent of the mathematics department. Except under special circumstances, total credits limited to six. **Prerequisites** MAT 707–708 or consent of instructor.

MAT 760 - Mathematical Scattering Theory and Applications I**Credits 3**

Scalar, vector, and tensor scattering with diverse techniques applied to earth system and space science. General Reciprocity Relations Corresponding to Different Directions of Incidence, Dyadic Scattering Theory, Two-Space Scattering Formalism of Victor Twersky, and Applications to Earth and Space Related Problems. **Prerequisites** MAT 717 or MAT 729 or consent of instructor.

MAT 761 - Mathematical Scattering Theory and Applications II**Credits 3**

Advanced statistical mechanics and spatial statistics in relation to Twersky scattering with applications from earth system and space science. Calculation of bulk propagation parameters using both configurational and ensemble average in addition to spatial average. Application of Twersky multiple two-Space Scattering formalism to space and earth related problems. **Prerequisites** MAT 760 or consent of instructor.

MAT 765 - Advanced Numerical Analysis**Credits 3**

Numerical solution of ordinary and partial differential equations; advanced programming techniques; experiments with the computer. **Notes** Topics selected by instructor. Three hours lecture, two hours laboratory. **Prerequisites** MAT 666

MAT 766 - Advanced Numerical Analysis**Credits 3**

Numerical solution of ordinary and partial differential equations; advanced programming techniques; experiments with the computer. **Notes** Topics selected by instructor. Three hours lecture, two hours laboratory. **Prerequisites** MAT 666

MAT 767 - Topics in Numerical Analysis**Credits 3**

Topics selected by the instructor. **Notes** May be repeated for credit with the consent of the mathematics department. Except under special circumstances, total credits limited to six. **Prerequisites** MAT 765–766

MAT 771 - Applied Analysis I**Credits 3**

Functional analysis in Banach spaces and Hilbert spaces, with emphasis on computational applications. Theoretical topics to be selected from: linear functionals and operators, fixed point theorems, iterative methods, elementary spectral theory. Applications to be selected from: finite element methods, finite difference methods, approximation and interpolation, optimization algorithms. **Prerequisites** Graduate standing and consent of instructor.

MAT 772 - Applied Analysis II**Credits 3**

Functional analysis in Banach spaces and Hilbert spaces, with emphasis on computational applications. Theoretical topics to be selected from: linear functionals and operators, fixed point theorems, iterative methods, elementary spectral theory. Applications to be selected from: finite element methods, finite difference methods, approximation and interpolation, optimization algorithms. **Prerequisites** Graduate standing and consent of instructor.

MAT 775 - Calculus of Variations

Credits 3

Variation of functionals, Euler-Lagrange equation, general variations, broken extremals, Weierstrass-Erdmann conditions, canonical forms, Noether's theorem, Hamilton- Jacobi equations, Legendre's condition, conjugate points, fields, E-function, sufficient conditions for extrema, Pontryagin's principle, introduction to linear and non-linear optimal control theory. **Prerequisites** MATH 428 or 658 or consent of instructor.

MAT 777 - Application of High-Performance Computing Methods in Science and Engineering

Credits 3

Application of high performance computing systems to science and engineering, models for numerically intensive problem solving, high performance numerical algorithms, FORTRAN 90 and high-performance FORTRAN. **Same as (ME 777).** **Prerequisites** Knowledge of UNIX, FORTRAN, and previous course on numerical methods. Graduate standing.

MAT 783 - Topics in Topology

Credits 3. Notes May be repeated for credit with the consent of the mathematics department. Except under special circumstances, total credits limited to six credits. **Prerequisites** Consent of instructor.

MAT 789 - Topics in Advanced Mathematics

Credits 3

Graduate-level course in some field of mathematics, at advanced level, depending upon the current interest of the staff and the students. **Notes** May be repeated to a maximum of six credits.

MAT 790 - Independent Study

Credits 1-3

Library work and reports on topics of mathematical interest. **Notes** May be repeated for credit with the consent of the mathematics department. Except under special circumstances, total credits will be limited to six.

MAT 791 - Thesis

Credits 1-6. Notes May be repeated but only six credits will be applied to the student's program. **Grading** S/F grading only.

MAT 792 - Research Seminar

Credits 1

Oral presentation of assigned articles. **Notes** May be repeated to a maximum of four credits.

MAT 793 - Teaching Concentration Professional Paper Research

Credits 1-3

Individual research towards an applied professional paper under the direction of a faculty member. **Notes** May be repeated any number of times, but no more than three credits will count towards degree requirements. **Grading** S/F grading only. **Prerequisites** Consent of instructor.

MAT 799 - Dissertation

Credits 3-6

Research analysis and writing toward completion of dissertation and subsequent defense. A minimum of 24 dissertation credits is required for a degree program. Dissertation may be repeated but only a maximum of 36 credits may be used in students degree program. **Grading** S/F grading only. **Prerequisites** Successful completion of qualifying examination and approval by department.

STA 663 - Applied Statistics for Engineers

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

STA 667 - Introduction to Mathematical Statistics

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

STA 669 - Environmental Statistics I: Univariate Methods

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

STA 689 - Advanced Statistics Topics

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program.

STA 690 - Independent Study

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program. This course offered by another department may also be taken for graduate credit.

STA 691 - Statistics for Scientists I

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program. This course offered by another department may also be taken for graduate credit.

STA 692 - Statistics for Scientists II

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program. This course offered by another department may also be taken for graduate credit.

STA 693 - Applied Regression Analysis

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program. This course offered by another department may also be taken for graduate credit.

STA 695 - Nonparametric Statistics

This course, when taught by a member of the graduate faculty, may be applied to a graduate program. For listings and a course description of this 600-level course, please consult the current Undergraduate Catalog under the corresponding 400 number. **Notes** The 600-level MAT and STA courses that are normally available for graduate credit are those numbered 650 or higher; the exceptions are MAT 680, which may be counted for graduate credit in an education degree program, and STA 691, STA 693, and STA 695, which may be counted for graduate credit in a biological sciences program. This course offered by another department may also be taken for graduate credit.

STA 713 - Experimental Design

Credits 3

Fundamental principles of analysis of variance; one-way, two-way, and higher order designs; nested designs; randomized blocks; split plot designs; Latin squares; multiple comparisons; analysis of covariance. **Prerequisites** MATH 181 and one of the following: STAT 411, STA 663 and STA 693.

STA 715 - Multivariate Statistical Methods

Credits 3

Multivariate techniques with emphasis on application. Topics include multivariate analysis of variance, discriminant analysis, canonical correlation and independence, principal component analysis, factor analysis, cluster analysis and analysis of repeated measurements. **Prerequisites** MATH 181, MATH 463 and one of the following: STAT 411, STA 663, STA 691.

STA 717 - Environmental Statistics

Credits 3

Testing for multivariate normality, data dependent transformations for multivariate normality, tests for outliers for multivariate data, multivariate control charts, exploratory data analysis of multivariate data using principal components, cluster analysis, factor analysis, and multivariate calibration problems. **Prerequisites** MATH 181 and one of the following: STAT 411, STA 663, STA 691.

STA 731 - Probability Theory and Its Applications

Credits 3

Topics include: set theory, limits of sets, probability space, random variables, measurability, independence, expectation, probability inequalities, convergence, laws of large numbers, central limit theorem, moment generating functions, characteristic functions, large deviation theory, martingale theory, random walk. **Prerequisites** MAT 657

STA 750 - Time Series Analysis

Credits 3

Topics include ARMA and ARIMA processes; autocorrelation and partial autocorrelation functions; spectral density and periodogram; Yule-Walker equations; model fitting, forecasting and diagnostics; state-space models and the Kalman filter; multivariate time series; use of statistical software. **Prerequisites** STA 667 or consent of instructor.

STA 751 - Spatial Statistics

Credits 3

Stochastic process, first and second order stationarity, intrinsic hypothesis, models of spatial dependence, different forms of Kriging – Ordinary Kriging, Universal Kriging, Probability Kriging, bicubic splines, conditional simulation. **Prerequisites** STA 667 or consent of instructor.

STA 753 - Bayesian Data Analysis

Credits 3

This course will present methods for statistical modeling and data analysis from a Bayesian perspective. Topics include: Bayes' Theorem, prior and posterior distributions, computational algorithms for posterior simulation, statistical software and programming, as well as model formulation and diagnostics for linear, generalized linear, and hierarchical models. **Prerequisites** STA 667 or equivalent, or consent of instructor.

STA 755 - Stochastic Modeling I

Credits 3

Probability theory, Markov chains in discrete and continuous time, the Poisson process, renewal theory, queueing theory, reliability theory, martingales, stationary processes, statistical inference for stochastic processes, and simulation techniques. **Prerequisites** STA 667 or consent of instructor.

STA 756 - Stochastic Modeling II

Credits 3

Probability theory, Markov chains in discrete and continuous time, the Poisson process, renewal theory, queueing theory, reliability theory, martingales, stationary processes, statistical inference for stochastic process, and simulation techniques. **Prerequisites** STA 755

STA 761 - Regression Analysis I

Credits 3

Fitting a straight line, matrix theory, examining residuals, selecting the “best” fit, multiple regression, non-linear regressions, multivariate normal, estimation, classification, principal components, canonical correlation, distribution of characteristic roots. **Prerequisites** STA 667 and MAT 663, or equivalent.

STA 762 - Regression Analysis II

Credits 3

Fitting a straight line, matrix theory, examining residuals, selecting the “best” fit, multiple regression, non-linear regressions, multivariate normal, estimation, classification, variance-covariance matrix, testing sets of variates, principal components, canonical correlation, distribution of characteristic roots. **Prerequisites** STA 667 and MAT 663 or equivalent.

STA 763 - Analysis of Variance I

Credits 3

Special topics in matrix theory; noncentral chi-square, F, and t; the multivariate normal distribution; Cochran's theorem; point and interval estimation; one-, two-, three-, higher-way layouts; Latin squares, incomplete blocks and nested designs, analysis of covariance; random effects models; mixed models; randomization models. **Prerequisites**

STA 667 and MAT 663 or equivalent.

STA 764 - Analysis of Variance II

Credits 3

Special topics in matrix theory; noncentral chi-square, F, and t; the multivariate normal distribution; Cochran's theorem; point and interval estimation; one-, two-, three-, higher-way layouts; Latin squares, incomplete blocks and nested designs, analysis of covariance; random effects models; mixed models; randomization models. **Prerequisites** STA 667 and MAT 663 or equivalent.

STA 765 - Statistical Decision Theory

Credits 3

Introduction to decision theory, decision rules, loss functions, risk functions, decision principles, utility theory, prior information and subjective probability, noninformative priors, the posterior distribution, conjugate families, predictive distribution, Bayesian estimators, generalized Bayes estimators, credible regions, hypothesis testing, admissibility of Bayes rules, robustness of Bayes rules, minimax analysis, invariance, Bayesian sequential analysis. **Prerequisites** STA 667 or consent of instructor.

STA 767 - Mathematical Statistics I

Credits 3

Basic probability theory, conditional probability, independence, random variables, probability distribution functions, distribution functions, transformations, function of random variables, expectations, moment generating functions, discrete and continuous distributions, exponential family, joint distribution, marginal distribution, modes of convergence, limiting distribution, random sample, sampling distribution, principle of data reduction. **Prerequisites** STA 667 or consent of instructor.

STA 768 - Mathematical Statistics II

Credits 3

Random sample, sampling theory, point estimation, sufficiency, likelihood, method of moment, maximum likelihood estimator, Bayes estimator, unbiasedness, optimality, decision theory, hypothesis testing, likelihood ratio tests, Bayes test, most powerful test, set estimation, evaluating interval estimators, sequential estimation, asymptotics, robustness, linear models. **Prerequisites** STA 767

STA 789 - Topics in Advanced Statistics

Credits 3

Graduate-level course in some field of statistics, depending upon the current interest of the faculty and the students. **Notes** May be repeated to a maximum of six credits.

STA 790 - Independent Study

Credits 1–3

Library research and reports on topics of statistical interest. **Notes** May be repeated to a maximum of six credits with consent of the department.

STA 791 - Thesis

Credits 3–6. **Notes** May be repeated but only six credits applied to the student's program. **Grading** S/F grading only.

STA 792 - Research Seminar

Credits 1

Oral presentation of assigned articles. **Notes** May be repeated to a maximum of four credits.

STA 793 - Techniques of Statistical Consulting**Credits 1–3**

Seminar series and practicum covering technical and nontechnical aspects of statistical consulting, including skills for effective communication with clients, report writing, issues in sampling and design of experiments, and other statistical tools commonly used in a consulting setting. **Notes** May be repeated to a maximum of six credits.

STA 799 - Dissertation**Credits 3–6**

Research analysis and writing toward completion of dissertation and subsequent defense. A minimum of 24 dissertation credits is required for the degree program. Dissertation may be repeated but only a maximum of 36 credits may be used in students degree program. **Prerequisites** Successful completion of qualifying examination and approval by department.

Physics and Astronomy

The Physics Department offers M.S. and Ph.D. degrees in physics, with concentrations in three research areas: laser physics, high pressure physics (in collaboration with LLNL and LANL), and condensed matter physics. The Physics Department also offers M.S. and Ph.D. degrees in Astronomy. The astronomers make use of space telescopes such as the Hubble Space Telescope, Swift, Chandra X-ray Observatory and XMM-Newton Observatory, etc. to conduct research. The department's experimental research programs are supported by fully equipped laboratories and mechanical, electronic and glass shops. The department is well equipped with state-of-the-art computing facilities, which allow for performing virtually any modeling and computer simulation.

Stephen Lepp, Ph.D., Chair

Lon Spight, Ph.D., Graduate Coordinator

Chair

Lepp, Stephen - *Full Graduate Faculty*

Professor; B.S., University of Minnesota; M.A., Ph.D., University of Colorado, Boulder. *Rebel since 1991.*

Graduate Coordinator

Spight, Lon D. - *Full Graduate Faculty*

Associate Professor; B.S., M.S., Colorado State University; Ph.D., University of Nevada, Reno. *Rebel since 1970.*

Graduate Faculty

Chen, Changfeng - *Full Graduate Faculty*

Professor; B.S., Ph.D., Peking University. *Rebel since 1990.*

Cornelius, Andrew - *Full Graduate Faculty*

Professor; B.S., Drake University; Ph.D., Washington University. *Rebel since 1999.*

Farley, John W. - *Full Graduate Faculty*

Professor; B.A., Harvard College; M.A., Ph.D., Columbia University. *Rebel since 1987.*

Kwong, Victor H. - *Full Graduate Faculty*

Professor; B.S., Queen's University; M.S., University of Windsor; Ph.D., University of Toronto. *Rebel since 1984.*

Kumar, Ravhi

Associate Research Professor; Ph.D., Anna University, Chennai.

Lepp, Stephen H. - *Full Graduate Faculty*

Professor; B.S., University of Minnesota; M.A., Ph.D., University of Colorado, Boulder. *Rebel since 1991.*

Nagamine, Kentaro - *Full Graduate Faculty*

Associate Professor; B.S., University of Tokyo; M.A., Ph.D., Princeton University. *Rebel since 2006.*

Pang, Tao - *Full Graduate Faculty*

Professor; B.S., Fudan University; Ph.D., University of Minnesota. *Rebel since 1991.*

Pravica, Michael - *Full Graduate Faculty*

Associate Professor; B.S., Cal Tech; A.M., Ph.D., Harvard University. *Rebel since 2003.*

Proga, Daniel - Full Graduate Faculty

Associate Professor; M.S., Nicolaus Copernicus University; Ph.D. Nicolaus Copernicus Astronomical Center. *Rebel since 2005.*

Rhee, George - Full Graduate Faculty

Associate Professor; B.A., Cambridge University; M.Sc., Leiden University; M.A., Cambridge University; Ph.D., Leiden University. *Rebel since 1993.*

Selser, James C. - Full Graduate Faculty

Professor; B.S., U.S. Air Force Academy; M.S., Ph.D., University of California, Davis. *Rebel since 1981.*

Shelton, David P. - Full Graduate Faculty

Professor; B.A., M.S., Ph.D., University of Manitoba. *Rebel since 1988.*

Zhang, Bing - Full Graduate Faculty

Professor; B.S., M.S., Ph.D., Peking University. *Rebel since 2004.*

Zhao, Yusheng - Full Graduate Faculty

Professor; B.S., M.S., Peking University; Ph.D., University of California, Berkely. *Rebel since 2010.*

Zygelman, Bernard - Full Graduate Faculty

Professor; B.S., Ph.D., City College of New York. *Rebel since 1990.*

Professor Emeritus

Cloud, Stan

Emeritus Professor; B.S. Stanford University; M.S., Ph.D., Duke University. *UNLV Emeritus 1980-2005.*

Pyper-Smith, Diane - Full Graduate Faculty

Associate Professor; A.B., University of California, Berkeley; Ph.D., University of California, Santa Cruz. *UNLV Emeritus*

Weistrop, Donna E.

Emeritus Professor; B.A., Wellesley College; Ph.D., California Institute of Technology. *UNLV Emeritus 1990-2005.*

Zane, Len

Emeritus Professor; B.S., City College of New York; Ph.D. Duke University. *UNLV Emeritus 1973-2011.*

Physics & Astronomy Plans

Master of Science - Astronomy

Plan Description

The purpose of the Astronomy M.S. and Ph.D. degrees are to prepare students for a career in Astronomy or Astrophysics Research or in education at the university level. The program achieves this with a custom program for each student set up by their advisor and their advising committee. At the M.S. level we have two options. A coursework M.S., wherein students take classes at the graduate level in Astronomy and pass an exam. We also offer a thesis option where students will learn to formulate, conduct and report on research.

Learning Outcomes

Plan Admission Requirements

- Applicants must have an undergraduate degree in Physics, Astronomy or other related area.
- Applicants must have a minimum grade point average (GPA) of 2.75 for all undergraduate work or a minimum 3.00 GPA for the last two years of undergraduate work.
- Applicants must have completed 18 semester credits of upper-division physics.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Thesis Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 24
 - Complete 24 credits of 600- or 700-level AST or PHYS courses, or other advisor-approved courses.
- Thesis – Credits: 6
 - PHYS 797 - Thesis

Degree Requirements

- Complete a minimum of 30 graduate credits.
- Complete a minimum of 15 credits (excluding thesis) in 700-level astronomy or physics courses.
- A GPA of 3.00 or better is required in all course work which is part of the degree program.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete and defend a thesis by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Non-Thesis Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 6
 - AST 713 - Astrophysics I
 - AST 714 - Astrophysics II
- Core Courses – Credits: 6
 - Complete two of the following courses:
 - AST 710 - Observational Astronomy Techniques
 - AST 721 - Astrophysics of Gaseous Nebulae and Active Galactic Nuclei
 - AST 725 - High Energy Astrophysics
 - AST 727 - Cosmology
 - AST 747 - Interstellar Medium
 - PHYS 771 - Advanced Topics in Experimental and Theoretical Physics
- Elective Courses – Credits: 18
 - Complete 18 credits of 600- or 700-level AST or PHYS courses, or other advisor-approved courses.

Degree Requirements

- Complete a minimum of 30 graduate level credits in physics, astronomy, or related fields (excluding graduate seminar).
- Complete at least 15 credits of 700-level astronomy or physics courses.
- A GPA of 3.00 or better in all course work which is part of the degree program.
- In consultation with his/her advisor, a student will organize an advisory committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Satisfactory performance on an astronomy qualifying examination on graduate astronomy knowledge at the master's level.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must pass a qualifying examination.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Thesis Track
- Subplan 2: Non-Thesis Track

Master of Science - Physics

- Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Doctor of Philosophy - Astronomy

Plan Description

The purpose of the Astronomy M.S. and Ph.D. degrees are to prepare students for a career in Astronomy or Astrophysics Research or in education at the university level. The program achieves this with a custom program for each student set up by their advisor and their advising committee. In the case of the Ph.D. the research must be original research conducted independently by the student.

Learning Outcomes

www.unlv.edu/degree/phd-astronomy

Plan Admission Requirements

- Applicants must have an undergraduate degree or a Masters degree in Physics, Astronomy or related area.
- Applicants must have a minimum GPA of 2.75 for all undergraduate work or a minimum 3.00 GPA for the last two years of undergraduate work.
- Applicants seeking direct admission to the doctoral program without a previously earned Master of Science degree must have a score in the 65th percentile or above on the Advanced Physics portion of the GRE before admission and have a minimum GPA of 3.00 for all undergraduate work or an overall 3.25 GPA for the last two years of undergraduate work.
- Applicants with a Master's degree must have an overall 3.00 GPA in their Master's program and at least 15 credit hours of graduate-level course work in physics or astronomy with a grade of B or better. A student entering with a Master's degree will be required to complete at least 30 additional credits, including dissertation credits, beyond the Masters.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Bachelor's Track

Total Credits Required: 60

Course Requirements

- Required Courses – Credits: 9
 - AST 713 - Astrophysics I
 - AST 714 - Astrophysics II
 - PHYS 700 - Mathematical Physics I
- Theory Course – Credits: 3
- Complete one of the following courses:
 - PHYS 702 - Classical Mechanics I
 - PHYS 711 - Electromagnetic Theory I
 - PHYS 721 - Quantum Theory I
- Astronomy Courses – Credits: 9
- Complete three of the following courses:
 - AST 710 - Observational Astronomy Techniques
 - AST 721 - Astrophysics of Gaseous Nebulae and Active Galactic Nuclei
 - AST 725 - High Energy Astrophysics
 - AST 727 - Cosmology
 - AST 731 - Stellar Atmospheres: Theory, Observation, and Analysis
 - AST 747 - Interstellar Medium
- PHYS 771 - Advanced Topics in Experimental and Theoretical Physics
- Graduate Seminar Course – Credits: 6
- Complete 6 credits of the following course, including three acceptable presentations.
- PHYS 796 - Graduate Seminar

- Elective Courses – Credits: 15
- Complete 15 credits of 600- or 700-level AST or PHYS courses, or other advisor-approved courses.
- Dissertation – Credits: 18
- PHYS 799 - Doctoral Dissertation

Degree Requirements

- The student must complete a minimum of 60 credits.
- A minimum grade of B- is required in each course. An overall GPA of 3.00 or better is required in all course work which is part of the degree program.
- Satisfactory performance on an astronomy qualifying examination on graduate astronomy knowledge. This requirement must be fulfilled by the second year in the program. Students who fail to pass the exam within the specified timeline will be placed on academic probation and will be allowed one retake of the exam. Failure to pass the retake or meet the requirements of academic probation will result in separation.
- A dissertation of high quality consisting of significant original research.
- Satisfactory performance on a final examination which will consist of an oral defense of the dissertation.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Post-Master's Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 0-9
 - Complete 0-9 credits from the following list of courses:
 - AST 713 - Astrophysics I
 - AST 714 - Astrophysics II
 - PHYS 700 - Mathematical Physics I
- Theory Course – Credits: 0-3
 - Complete 0-3 credits from the following list of courses:
 - PHYS 702 - Classical Mechanics I
 - PHYS 711 - Electromagnetic Theory I
 - PHYS 721 - Quantum Theory I
- Astronomy Courses – Credits: 0-9
 - Complete 0-9 credits from the following list of courses:
 - AST 710 - Observational Astronomy Techniques
 - AST 721 - Astrophysics of Gaseous Nebulae and Active Galactic Nuclei
 - AST 725 - High Energy Astrophysics
 - AST 727 - Cosmology
 - AST 731 - Stellar Atmospheres: Theory, Observation, and Analysis
 - AST 747 - Interstellar Medium
 - PHYS 771 - Advanced Topics in Experimental and Theoretical Physics
- Seminar Course – Credits: 0-6
 - Complete 0-6 credits of the following, including three acceptable presentations.

- PHYS 796 - Graduate Seminar
- Dissertation – Credits: 18
 - PHYS 799 - Doctoral Dissertation

Degree Requirements

- Students must take an advisor approved combination of the coursework listed above, completing a minimum of 30 credits. Additional credits may be required to address student deficiencies or build specialized expertise.
- The total number of Required, Theory, Astronomy, and Seminar courses will be determined in consultation with the student's advisor.
- A minimum grade of B- is required in each course. An overall GPA of 3.00 or better is required in all course work which is part of the degree program.
- Satisfactory performance on an astronomy qualifying examination on graduate astronomy knowledge. This requirement must be fulfilled by the second year in the program. Students who fail to pass the exam within the specified timeline will be placed on academic probation and will be allowed one retake of the exam. Failure to pass the retake or meet the requirements of academic probation will result in separation.
- A dissertation of high quality consisting of significant original research.
- Satisfactory performance on a final examination which will consist of an oral defense of the dissertation.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must pass a qualifying exam and submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Doctor of Philosophy - Physics

Plan Description

The purpose of the Physics M.S. and Ph.D. degrees are to prepare students for a career in Physics Research or in education at the university level. The program achieves this with a custom program for each student set up by their advisor and their advising committee. In the case of Ph.D. the students will be able to conduct these steps independently.

Learning Outcomes

www.unlv.edu/degree/phd-physics

Plan Admission Requirements

- Applicants seeking direct admission to the doctoral program without a previously earned Master of Science degree must have a score in the 65th percentile or above on the Advanced Physics portion of the GRE before admission. Applicants with a bachelor's degree in physics must have a minimum GPA of 3.00 for all undergraduate work or a 3.25 GPA for the last two years of undergraduate work, and a minimum of 18 credits of upper-division physics.
- Applicants with a master's degree in physics must have at least 15 credit hours of graduate-level course work in physics with a grade of B or better and a 3.25 GPA in the master's program.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Bachelor's Track

Total Credits Required: 60

Course Requirements

- Required Courses – Credits: 18
 - PHYS 700 - Mathematical Physics I
 - PHYS 711 - Electromagnetic Theory I
 - PHYS 721 - Quantum Theory I
 - PHYS 721 - Quantum Theory I
 - PHYS 722 - Quantum Theory II
 - PHYS 731 - Statistical Physics I
- Elective Courses – Credits: 18
 - Complete 18 credits of 600- or 700-level AST or PHYS courses, or other advisor-approved courses.
- Graduate Seminar Course – Credits: 6
 - Complete 6 credits of the following, including three acceptable presentations.
 - PHYS 796 - Graduate Seminar
- Dissertation – Credits: 18
 - PHYS 799 - Doctoral Dissertation

Degree Requirements

- Students must complete a minimum of 60 credits.
- A minimum grade of B- is required in each course. An overall GPA of 3.00 or better is required on all course work that is part of the degree program.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Each student's advisory committee will carry out an annual review of the student's progress.
- Course work taken outside the Physics & Astronomy Department must have departmental approval.
- Satisfactory performance on a written qualifying examination on advanced undergraduate physics must be fulfilled during the first two years in the graduate program. Students who fail to pass the exam within the

specified timeline will be placed on academic probation and will be allowed one retake of the exam. Failure to pass the retake or meet the requirements of academic probation will result in separation.

- A dissertation of high quality. The doctoral dissertation reports the results of significant original research, performed independently by the student, written in lucid scientific prose.
- Satisfactory performance on a final examination that will consist of an oral defense of the dissertation.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Post-Master's Track

Total Credits Required: 30

Course Requirements

- Required Courses – Credits: 6-18
 - Complete 6-18 credits from the following list of courses:
 - PHYS 700 - Mathematical Physics I
 - PHYS 711 - Electromagnetic Theory I
 - PHYS 712 - Electromagnetic Theory II
 - PHYS 721 - Quantum Theory I
 - PHYS 722 - Quantum Theory II
 - PHYS 731 - Statistical Physics I
- Graduate Seminar Course – Credits: 0-6
 - Complete 0-6 credits of the following, including three acceptable presentations.
 - PHYS 796 - Graduate Seminar
- Dissertation – Credits: 18
 - PHYS 799 - Doctoral Dissertation

Degree Requirements

- Students must take an advisor approved combination of the coursework listed above, completing a minimum of 30 credits. Additional credits may be required to address student deficiencies or build specialized expertise.

Physics & Astronomy Courses

AST 710 - Observational Astronomy Techniques

Credits 3

Techniques used in observational astronomy. Students plan and execute an observing program on a research grade telescope. Data reduction and analysis using standard professional software packages and procedures. **Prerequisites** Graduate standing.

AST 713 - Astrophysics I

Credits 3

Laws of physics applied to astrophysical situations. **Notes** Major topics include solar physics, element synthesis, stellar evolution, end states of stars. **Prerequisites** Graduate standing.

AST 714 - Astrophysics II

Credits 3

Laws of physics applied to astrophysical situations. **Notes** Major topics include interstellar medium, the Milky Way, active galaxies, galaxy clusters, the Big Bang. **Prerequisites** Graduate standing.

AST 721 - Astrophysics of Gaseous Nebulae and Active Galactic Nuclei

Credits 3

Theory and observations used to determine the physical conditions in gaseous nebulae (H II regions, planetary nebulae, supernova remnants, etc.) and active galactic nuclei. Formation of spectra in these regions and analysis to determine temperatures, density and chemical composition. Recent observational results also discussed. **Same as** Previously known as PHYS 777 . **Prerequisites** Graduate standing.

AST 723 - Astrophysical Fluids

Credits 3

Physics of fluids applied to astrophysical situations. Major topics include single-fluid theory, waves, shocks, fronts, magnetohydrodynamics, and plasma physics.

AST 725 - High Energy Astrophysics

Credits 3

Introduction of high energy astrophysics. Theory to understand high energy phenomena in the universe, including radiation mechanisms and various energy power sources (accretion, nuclear, spindown, magnetic). Objects include neutron stars, black holes, bursters. Brief introduction of neutrino, cosmic ray, and gravitational astrophysics.

AST 727 - Cosmology

Credits 3

Classical cosmology, the isotropic universe, gravitational lensing the age and distance scales, the early universe, observational cosmology, matter in the universe, galaxies and their evolution, active galaxies, galaxy formation and clustering, cosmic background fluctuations. **Same as** Previously known as PHYS 777. **Prerequisites** Graduate standing.

AST 729 - Galaxies

Credits 3

Observation and theoretical basis for our current understanding of galactic astronomy. Major topics include Morphology of Galaxies, the Milky Way, equilibria of collisionless systems, spiral structure , and dark matter. **Prerequisites** Graduate standing.

AST 731 - Stellar Atmospheres: Theory, Observation, and Analysis

Credits 3

Theoretical treatment of stellar atmospheric structure and radiative transfer, state-of-the-art astrophysical analysis techniques used to derive atmospheric parameters, our current observational understanding of stellar atmospheres, special topics in stellar atmospheres (pulsation, chromospheric activity, etc.), and relevance to galactic and extragalactic astronomy. **Prerequisites** Graduate standing.

AST 747 - Interstellar Medium

Credits 3

Physics of the interstellar medium. Overall chemical, thermal and physical state of the gas in our galaxy. Astrochemistry, cosmic rays, radiative transfer, atomic and molecular physics, thermal equilibrium, and the overall dynamics of the galaxy. **Same as** Previously known as PHYS 771 . **Prerequisites** Graduate standing.

PHYS 604 - Computational Techniques in Physics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 614 - Intermediate Laboratory II

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 622 - Electricity and Magnetism

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 624 - Mechanics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found

in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 626 - Physics of Solids

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 631 - Nuclear and Elementary Particle Physics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 641 - Mathematical Physics I

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 642 - Mathematical Physics II

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 651 - Modern Scientific Instrumentation

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 661 - Light and Physical Optics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 662 - Modern Optics and Photonics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 667 - Thermodynamics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 668 - Statistical Mechanics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 681 - Quantum Mechanics I

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 682 - Quantum Mechanics II

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 683 - Special Topics in Physics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 685 - Condensed Matter Physics

Graduate credit may be obtained for courses designated 600 or above. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** Credit at the 600 level normally requires additional work.

PHYS 700 - Mathematical Physics I **Credits 3**

Reviews and introduces various specific mathematical functions and techniques basic to the study of physics.

PHYS 701 - Mathematical Physics II **Credits 3**

Reviews and introduces various specific mathematical functions and techniques basic to the study of physics.

PHYS 702 - Classical Mechanics I **Credits 3**

Newtonian mechanics from an advanced point of view. Variational principles. Lagrange's and Hamilton's equations, central forces, rigid body motion, canonical transformations, Hamilton-Jacobi theory, small oscillations.

PHYS 703 - Classical Mechanics II **Credits 3**

Newtonian mechanics from an advanced point of view. Variational principles. Lagrange's and Hamilton's equations, central forces, rigid body motion, canonical transformations, Hamilton-Jacobi theory, small oscillations.

PHYS 705 - Advanced Optical Systems **Credits 3**

Analysis and design of complete optical systems. Light sources and detectors. Matrix methods. Characteristics and application of optical components including lenses, mirrors, fibers, filters, holographic elements, prisms, and gratings. Apertures, stops, and pupils. Fourier optics. **Prerequisites** PHYS 461 or equivalent; graduate standing or consent of instructor.

PHYS 707 - Condensed Matter Theory I **Credits 3**

Comparison of different band structure calculation methods. Local-density approximation. Relation of structural, transport, and optical properties to electronic structure. Properties of metals, insulators and semiconductors. Quantum theory of magnetism. **Prerequisites** PHYS 482/682, PHYS 483/683 and graduate standing.

PHYS 708 - Condensed Matter Theory II

Credits 3

Lattice dynamics. Electron-photon interaction. Elementary excitations. Many-body effects in condensed matter physics. Superconductivity. Phase transitions. Renormalization group theory. **Prerequisites** PHYS 707 and graduate standing.

PHYS 711 - Electromagnetic Theory I

Credits 3

General properties of vector fields with special application to electrostatic and magnetostatic fields. Solutions to boundary value problems. General electromagnetic equations and conservation theorems. Energy and momentum in the electromagnetic field. Motions of charged particles in electromagnetic fields. Electromagnetic theory of radiation electrodynamics and special relativity. Reflection, refraction, and dispersion of electromagnetic waves.

Prerequisites PHYS 422/PHYS 622 and graduate standing.

PHYS 712 - Electromagnetic Theory II

Credits 3

General properties of vector fields with special application to electrostatic and magnetostatic fields. Solutions to boundary value problems. General electromagnetic equations and conservation theorems. Energy and momentum in the electromagnetic field. Motions of charged particles in electromagnetic fields. Electromagnetic theory of radiation electrodynamics and special relativity. Reflection, refraction, and dispersion of electromagnetic waves.

Prerequisites PHYS 422/PHYS 622 and graduate standing.

PHYS 721 - Quantum Theory I

Credits 3

Development of quantum theory. Schroedinger equation, operators, expectation values. Matrix formalism of Heisenberg, eigenvalue problems, wave packets, conjugate variables, and uncertainty principle. Solution of wave equation for square potentials, harmonic oscillator, and hydrogen-like atoms. Perturbation theory, both time-independent and time-dependent. Degeneracy, interaction of matter with radiation, selection rules. Scattering theory, Born approximation and other approximation methods. Dirac notation and an introduction to spin. **Prerequisites** PHYS 482/PHYS 682 and graduate standing.

PHYS 722 - Quantum Theory II

Credits 3

Development of quantum theory. Schroedinger equation, operators, expectation values. Matrix formalism of Heisenberg, eigenvalue problems, wave packets, conjugate variables, and uncertainty principle. Solution of wave equation for square potentials, harmonic oscillator, and hydrogen-like atoms. Perturbation theory, both time-independent and time-dependent. Degeneracy, interaction of matter with radiation, selection rules. Scattering theory, Born approximation and other approximation methods. Dirac notation and an introduction to spin. **Prerequisites** PHYS 482/PHYS 682 and graduate standing.

PHYS 723 - Quantum Optics

Credits 3

Properties of light, its creation, and its interaction with matter explored as quantum-mechanical phenomena. Quantization of the light field. Quantum theory of coherence. Dissipation and fluctuations. Light amplification. Nonlinear optics. **Prerequisites** PHYS 622 and PHYS 682/PHYS 721, or consent of instructor.

PHYS 724 - Laser Applications: Interaction with Matter

Credits 3

Laser principles. Introduction to laser spectroscopy, isotope separation, and trace element analysis. Laser induced fusion. Laser induced plasmas and their radiation. **Prerequisites** Graduate standing or consent of instructor.

PHYS 725 - Spectroscopy

Credits 3

Survey of spectroscopy, including absorption and emission spectroscopy, classical grating spectroscopy, laser spectroscopy, Raman spectroscopy, and Fourier transform spectroscopy. Intensities, sensitivity limits, and resolution. High-resolution and ultra-high-resolution spectroscopy. Photon correlation spectroscopy. Analysis of spectra. **Prerequisites** PHYS 461/PHYS 661, PHYS 481/PHYS 681 and graduate standing.

PHYS 726 - Advanced Quantum Theory

Credits 3

The Dirac equation, hole theory, second quantization, Feynman diagrams, self-energy, vacuum polarization, renormalization, QED effects in high-Z atoms, path integral methods in field theory. **Prerequisites** PHYS 722 and graduate standing.

PHYS 727 - Advanced Topics in Semiconductor Devices I

Credits 3

Topics of current interest in solid state electronic devices: physics of semiconductors, thermal and optical and electronic properties of semiconductors, bipolar junction devices, field effect devices, surface related effects, optoelectronic devices, semiconductor lasers. Applications and the design of circuits using these devices. Intended for electrical and electronic engineers, physicists, and qualified senior students in engineering and physics.

Prerequisites PHYS 411 and PHYS 683, or EEG 414 and EEG 420, and consent of instructor.

PHYS 728 - Applications of Group Theory in Quantum Mechanics

Credits 3

Abstract group theory, theory of group representations, and direct product theory. Relationship to quantum mechanics; applications to atomic, molecular and solid state physics. Time-reversal symmetry, continuous groups, and the symmetric group. **Prerequisites** PHYS 482/PHYS 682 and graduate standing.

PHYS 731 - Statistical Physics I

Credits 3

Liouville's theorem, ensembles, Boltzmann and Gibbs methods. Non-ideal gases, cluster expansions, theory of condensation. **Prerequisites** PHYS 467, 468 and graduate standing.

PHYS 732 - Statistical Physics II

Credits 3

Quantum statistical mechanics, Fermi-Dirac and Bose-Einstein statistics. Phase transitions. Fluctuations.

Prerequisites PHYS 731 and graduate standing.

PHYS 741 - Atomic and Molecular Theory

Credits 3

Hartree-Fock theory, many-body perturbation theory, relativistic effects, energy levels, oscillator strengths, bound-continuum processes, Born-Oppenheimer approximation for molecules, symmetries, selection rules.

Prerequisites PHYS 721 and graduate standing.

PHYS 771 - Advanced Topics in Experimental and Theoretical Physics

Credits 3

Consists of lectures dealing with experimental and theoretical aspects of one of the fields listed. a) Electrodynamics.

b) Fluid mechanics. c) Plasma physics. d) Quantum theory. e) Nuclear physics. f) Atomic and molecular physics. g) Electron and ion physics. h) Low-temperature physics. i) Solid and/ r liquid state. k) Cosmic rays. l) Relativity. m) Elementary particles. p) Astrophysics. r) Atmospheric Physics. s) Geophysics. t) Applied Optics. **Notes** May be repeated for credit in different fields to a maximum of 12 credits. **Prerequisites** Depends on particular topic, consult instructor.

PHYS 777 - Advanced Special Problems

Credits 1–6

Special study of advanced topics not specifically covered in listed courses. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Prior conference with instructor.

PHYS 781 - Thesis Research

Credits 1

Research leading to master's level program prospectus. **Notes** May be repeated but only one credit can be applied to the student's program. **Grading** S/F grading only. **Prerequisites** Enrollment in the M.S. Program.

PHYS 782 - Dissertation Research

Credits 1

Supervised research prior to advancement to candidacy in the doctoral program. **Notes** May be repeated but only two credits can be applied to the student's program. A maximum of one credit is allowed per semester. **Grading** S/F grading only. **Prerequisites** enrollment in the doctoral program.

PHYS 796 - Graduate Seminar

Credits 1

Students required to give presentations on topics outside their Ph.D. work and to discuss the presentations. Presentations by graduate students given on a regularly scheduled basis, last about an hour, and given at the nonspecialist level. **Notes** A total of three acceptable presentations in three different semesters during the six semesters of enrollment required. May be repeated to a maximum of six credits. **Prerequisites** Graduate standing.

PHYS 797 - Thesis

Credits 3–6. **Notes** May be repeated but only six credits will be applied to the student's program. **Grading** S/F grading only.

PHYS 799 - Doctoral Dissertation

Credits 3–6

Doctoral dissertation. **Notes** May be repeated. A minimum of 18 credits required for the degree. **Prerequisites** Qualifying exam and approval by department.

Water Resources Management

The Water Resources Management Program is a flexible, interdisciplinary course of study leading to an M.S. degree. It is a technically and scientifically based program that blends the physical aspects of the hydrologic sciences, in a broader sense, with policy and management issues in hydrosience. People with degrees in physical, biological, or natural sciences and engineering and those with degrees in the social sciences, management, environmental studies, or related disciplines are encouraged to apply to the program. Working together, the student and faculty advising committee will design specific courses of study or thesis topics such that all students will strengthen their understanding of hydrologic sciences and water management while also developing technical skills.

The Water Resources Management Graduate Program is housed in the College of Sciences and encourages multidisciplinary study and research with participating faculty at UNLV from the colleges of Sciences, Business, Urban Affairs, Engineering, and Liberal Arts and participating faculty at the Harry Reid Center for Environmental Studies (HRC) on the UNLV campus, the Desert Research Institute (DRI), and the University of Nevada, Reno (UNR). Adjunct participating faculty may also be with the U.S. Environmental Protection Agency (EPA), the U. S. Geological Survey (USGS), Department of Energy (DOE), Las Vegas Valley Water District (LVVWD), the Bureau of Reclamation (BOR) or other governmental or private agencies.

Michael Nicholl, Ph.D., Director, Graduate Coordinator

Director

Papelis, Charalambos

Associate Research Professor; B.S., National Technical University, Athens, Greece; M.S., Ph.D., Stanford University. *Rebel since 1994.*

Graduate Faculty

Faculty participating in the Water Resources Management Graduate Program (WRM) are affiliated with several different colleges, departments, and centers of UNLV and the NSHE. Researchers from governmental or private agencies may also participate as adjunct faculty. A list of participating faculty can be found at the website of the WRM Graduate Program at <http://sciences.unlv.edu/wrm>.

Water Resources Management Plan

Master of Science - Water Resources Management

Plan Description

The Water Resources Management (WRM) program in the College of Sciences at the University of Nevada, Las Vegas is a flexible, interdisciplinary course of study leading to a Master of Science degree. It is a technically and scientifically based program that blends the physical aspects of the hydrologic sciences with policy and management issues.

The WRM program is designed to encourage a multidisciplinary approach to learning. Students enter the program from a wide variety of undergraduate programs, then take classes and conduct research with faculty in the Colleges of: Sciences, Business, Urban Affairs, Engineering, and Liberal Arts at UNLV, plus the Boyd School of Law and the Desert Research Institute. Students in the WRM program also work with participating faculty from federal, state, and local government agencies.

Learning Outcomes

www.unlv.edu/degree/ms-water-resource-management

Plan Admission Requirements

Applicants to the program must hold a B.S. or B.A. degrees in the physical, natural or social sciences, business, management, or a related field.

1. A minimum overall undergraduate grade point average of 3.00.
2. Submission of an online application.
3. Transcripts of all college-level course work.
4. Three letters of recommendation from individuals competent to comment on the applicant's promise as a graduate student.
5. A letter of application stating the student's interests and goals.
6. Satisfactory scores on the Graduate Record Exam. This requirement may be waived in the case of candidates with exceptional professional experience.

Items 3-5 should be uploaded as part of the online application.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Refer to the Graduate College website for current deadlines.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Thesis Track

Total Credits Required: 33

Course Requirements

- Required Course – Credits: 3
 - Complete one of the following courses:
 - WRM 706 - Research Methods in Water Resources Management
 - GEOL 701 - Research Methods in Geoscience
- Hydrologic Sciences Courses – Credits: 6
 - Complete 6 credits of advisor-approved GEOL or CEE courses.
- Additional Science Course – Credits: 3
 - Complete 3 credits of advisor-approved science, mathematics or engineering (BIOL, CEE, CHEM, GEOL, MAT, ME, PHYS, STA) courses.
- Administrative Courses – Credits: 9
 - Complete 9 credits of advisor-approved management, public administration, economics, law, or political science (ECO, ENV, HIST, LAW, MGT, MIS, PSC, PUA) courses.

- Elective Courses – Credits: 6
 - Complete 6 credits of advisor-approved BIOL, CEE, CHEM, ECO, ENV, GEO, HIST, LAW, MAT, ME, MGT, MIS, PHYS, PSC, PUA, or STA courses.
- Thesis – Credits: 6
 - WRM 798 - Thesis

Degree Requirements

- Completion of a minimum of 33 credit hours with a minimum GPA of 3.00.
- A minimum of 15 credit hours must be in 700-level courses.
- Because of the interdisciplinary nature of the Water Resources Management Graduate Program, students are encouraged to select courses from different departments that would strengthen their background and help them achieve their research and educational goals.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Students must develop their course work program with the consent of the advisor and the student's advisory committee. Courses from different colleges and departments may be incorporated into the student's program of study. Students should consult the listings of individual departments.
- There will be a final examination that will include a comprehensive oral examination.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Non-Thesis Track

Total Required Credits: 36

Course Requirements

- Required Course – Credits: 3
 - Complete one of the following courses:
 - WRM 706 - Research Methods in Water Resources Management
 - GEOL 701 - Research Methods in Geoscience
- Hydrologic Sciences Courses – Credits: 6
 - Complete 6 credits of advisor-approved GEOL or CEE courses.
- Additional Science Courses – Credits: 6
 - Complete 6 credits of advisor-approved science, mathematics or engineering (BIOL, CEE, CHEM, GEOL, MAT, ME, PHYS, STA) courses.
- Administrative Courses – Credits: 12
 - Complete 12 credits of advisor-approved management, public administration, economics, law, or political science (ECO, ENV, HIST, LAW, MGT, MIS, PSC, PUA) courses.
- Elective Courses – Credits: 6

- Complete 6 credits of advisor-approved BIOL, CEE, CHEM, ECO, ENV, GEO, HIST, LAW, MAT, ME, MGT, MIS, PHYS, PSC, PUA, or STA courses.
- Professional Paper – Credits: 3
 - WRM 796 - Professional Paper in WRM

Degree Requirements

- Completion of a minimum of 36 credit hours with a minimum GPA of 3.00.
- A minimum of 15 credit hours must be in 700-level courses.
- Because of the interdisciplinary nature of the Water Resources Management Graduate Program, students are encouraged to select courses from different departments that would strengthen their background and help them achieve their research and educational goals.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. - Students must develop their course work program with the consent of the advisor and the student's advisory committee. Courses from different colleges and departments may be incorporated into the student's program of study. Students should consult the listings of individual departments.
- There will be a final examination that will include a comprehensive oral examination.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete and defend a professional paper.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Thesis Track
- Subplan 2: Non-Thesis Track

Water Resources Management Courses

WRM 706 - Research Methods in Water Resources Management

Credits 3

Discussion of the processes of scientific research and research design as applied to modern water resources management. Includes scientific approaches to field and laboratory research, research and professional ethics, writing, and public presentation. Model thesis prospectus and grant proposals prepared. **Prerequisites** Graduate standing or consent of instructor.

WRM 790 - Special Topics in Water Resources Management

Credits 1–3

Topics selected and published in the class schedule. **Notes** May be repeated to a maximum of nine credits.

Prerequisites Consent of instructor.

WRM 791 - Independent Study

Credits 1–3

Review of recent literature in a specialized area related to water resources. **Notes** May be repeated to a maximum of four credits. **Prerequisites** Consent of instructor.

WRM 796 - Professional Paper in WRM

Credits 1–6

Professional paper preparation, including review of literature or similar research effort. **Notes** May be repeated to a maximum of three credits. Not permitted for students pursuing the M.S. Thesis option. **Prerequisites** Consent of instructor.

WRM 798 - Thesis

Credits 1–3

Enrollment by consent of research director only. **Notes** May be repeated for credit with cumulative maximum of six credits allowed toward degree program. **Grading** S/F grading only.

Greenspun College of Urban Affairs

"Making a Difference" is more than a motto for the Greenspun College of Urban Affairs. It is the focus of all we do. The vibrant, complex environment in the Las Vegas Valley is the laboratory for the Greenspun College. Dedicated to using the knowledge of its disciplines to address the issues and problems in an urban environment, the faculty and students in the Greenspun College strive to make a positive difference in Las Vegas, the region, and the nation. As the College's faculty advances their disciplines through research and teaching, they share a commitment to fostering the professional development of their students and equipping them to address the myriad of issues that confront individuals as well as organizations in an urban environment.

The college offers a myriad of graduate programs including graduate certificates in Forensic Social Work, Marriage and Family Therapy, Public Management, Nonprofit Management, and Solar and Renewable Energy. It offers Master of Arts in Communication, in Criminal Justice, and in Journalism and Media Studies, and Urban Leadership; Master of Science in Marriage and Family Therapy, and in Environmental Studies; the Master of Social Work (MSW); and the Master of Public Administration (MPA). There are two master level executive programs (a Professional Master of Arts in Criminal Justice, an Executive Master in Crisis and Emergency Management) and three Ph.D. programs in Environmental Science, Public Affairs, and Workforce Development and Organizational Leadership. These graduate programs emphasize the application of theory in professional practice to address the issues and problems of urban life. Partnerships among the departments and with the community provide students abundant opportunities to develop professionally under the guidance of expert faculty and skilled practitioners. By bridging the gap between the community and the university, the faculty and students in the college are making a difference in thousands of lives.

David Henry, Ph.D., Interim Dean

Communication

The Department of Communication Studies offers the Master of Arts degree, in Communication Studies, with emphases in interpersonal and rhetorical studies. Courses of study are designed both for students with a career orientation — in such diverse arenas as politics, education, law, public service, the ministry, and media relations — and for those who aspire to continue their education in doctoral programs.

All students are required to take four introductory courses: survey of communication studies, rhetorical-critical research methods, empirical research methods, and theories of communication (COM 710, 711, 712, and 730). Graduate teaching assistants are required to take an additional course in college teaching in communication in their first semester (COM 725 or prior to being admitted to the program if a spring admit). Yet, because each student's goals are unique, the curriculum allows flexibility in developing individual degree programs. Such development aims to balance the communication discipline's varied traditions in theoretical, historical, and applied research, with particular attention to the changing communication culture of the twenty-first century.

Tom Burkholder, Ph.D., Interim Chair
Donovan Conley, Ph.D., Graduate Coordinator

Interim Chair

Burkholder, Thomas R. - *Full Graduate Faculty*
Associate Professor; B.S.E., M.A., Emporia State University; Ph.D., University of Kansas. *Rebel since 1999.*

Graduate Coordinator

Conley, Donovan S. - *Full Graduate Faculty*
Associate Professor; B.A., University of Lethbridge, Alberta; M.A., Ph.D., University of Illinois, Urbana-Champaign. *Rebel since 2004.*

Graduate Faculty

Emmers-Sommer, Tara M. - *Full Graduate Faculty*
Professor and Associate Dean of Research and Graduate Education, Greenspun College of Urban Affairs; B. A., M. A., University of Wisconsin, Milwaukee; Ph.D., Ohio University. *Rebel since 2006.*

Engstrom, Erika - *Full Graduate Faculty*
Professor; B.A., M.A., University of Central Florida; Ph.D., University of Florida. *Rebel since 1991.*

Guthrie, Jennifer - *Full Graduate Faculty*
Assistant Professor; B.A., University of Missouri-Kansas City; M.A., Ph.D., University of Kansas. *Rebel since 2013.*

Henry, David - *Full Graduate Faculty*
Professor; B.A., University of California, Berkeley; M.A., University of California, Davis; Ph.D., Indiana University. *Rebel since 1998.*

McManus, Tara - *Full Graduate Faculty*
Assistant Professor; B.A., University of Kentucky; M.A., University of Cincinnati; Ph.D., Pennsylvania State University. *Rebel since 2008.*

Thompson, Jacob - *Full Graduate Faculty*

Director, Sanford J. Berman Debt Forum, Faculty in Residence; B.A., Wayne State University; M.A., Ph.D., University of Kansas. *Rebel since 2007.*

VanderHaagen, Sara - *Full Graduate Faculty*

Assistant Professor. B.A., Calvin Theological Seminary; M.A. & Ph.D., Northwestern University. *Rebel since 2012.*

Watson, Martha

Emeritus Professor; B.A., Rice University; M.A., Ph.D., University of Texas at Austin. *UNLV Emeritus 1997.*

Communication Studies Plan

Master of Arts - Communication Studies

Plan Description

The Master of Arts program in the Department of Communication Studies brings together scholars interested in the various aspects of interpersonal communication and rhetorical studies. The program prepares you for careers in the private sector, government agencies, or further educational opportunities. Recent graduates have been accepted to top doctoral programs throughout the country.

Learning Outcomes

www.unlv.edu/degree/ma-communication-studies

Plan Admission Requirements

- Students have the choice of doing original research leading to the writing of a thesis or completing a program of course work leading to a comprehensive examination. Programs of study are designed to meet the student's individual, professional or personal objectives. Although an undergraduate degree in communication is not required for admission to the program, a student without a background in communication may be required to complete course work in addition to the minimum requirements.
- The Department of Communication Studies accepts applicants only in the fall semester of each year.
- Review of applications starts January 15.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Thesis Track

Total Credits Required: 36

Course Requirements

All students enrolled in the program are required to complete core courses in their first year.

- Core Courses – Credits: 12
 - COM 710 - Survey of Communication Studies
 - COM 711 - Rhetorical-Critical Research Methods
 - COM 712 - Empirical Research Methods
 - COM 730 - Theories of Communication
- Elective Courses – Credits: 18
 - Complete 18 credits of electives. A maximum of 6 credits can be taken outside the Department of Communication Studies.
- Thesis – Credits: 6
 - COM 797 – Thesis

Degree Requirements

- A student must complete a minimum of 30 credit hours of approved course work plus six hours of thesis credits. The classes may include six credits outside the Department of Communication Studies. An oral examination on the thesis is required.
- Graduate teaching assistants are required to take COM 725 – College Teaching in Communication during their first semester.
- The Graduate Studies Coordinator will be the advisor for all entering students. Before completing 16 credit hours, the student should select a permanent advisor. The permanent advisor will work with the student through the completion of the program. The student's advisor must approve all course work.
- Acceptable course work is defined as any class in which a student receives a grade of B- or higher. Any required course graded C+ or below will not be included in the candidate's degree program.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- The defense of the thesis may result in any of three decisions: pass, pass with further edits, no pass. The most common of these three results is the pass with further edits decision. These edits may range from simple editing of style, grammatical errors, and so forth, to extensive rewrites of entire sections of the thesis. The committee may decide to either "sign off" on the thesis or not at the time of this decision depending on the extent of the edits. The committee may also want to see the final edits or not. Signing off on the thesis means that the committee agrees to sign the appropriate forms for the completion of the thesis. Again, they may do that at the time of the defense, or at a later time after edits are completed.
- If the thesis passes outright, then the student will have no further edits except those that the Graduate College may request. The committee signs off on the thesis at the time of the defense.
- In the event that the student's thesis is not passed, the student will, at that time be severed from the program and will not be granted a Master of Arts degree.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.

- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Examination Track

Total Credits Required: 36

Course Requirements

All students enrolled in the program are required to complete core courses in their first year.

- Core Courses – Credits: 12
 - COM 710 - Survey of Communication Studies
 - COM 711 - Rhetorical-Critical Research Methods
 - COM 712 - Empirical Research Methods
 - COM 730 - Theories of Communication
- Elective Courses – Credits: 24
 - Complete 24 credits of electives. A maximum of 6 credits can be taken outside the Department of Communication Studies.

Degree Requirements

- A student must complete a minimum of 36 credit hours of approved course work. No more than six hours may be taken outside the Department of Communication Studies.
- Graduate teaching assistants are required to take COM 725 – College Teaching in Communication during their first semester.
- Students must pass a comprehensive written examination. The examination lasts eight hours and is given over two consecutive days. A Graduate Education Portfolio is also required of exam track students (the specifics of the portfolio are outlined in the Department of Communication Studies Graduate Handbook, which is available upon request).
- The Graduate Studies Coordinator will be the advisor for all entering students. Before completing 16 credit hours, the student should select a permanent advisor. The permanent advisor will work with the student through the completion of the program. The student's advisor must approve all course work.
- Acceptable course work is defined as any class in which a student receives a grade of B- or higher. Any required course graded C+ or below will not be included in the candidate's degree program.
- The oral defense of the examination must take place within one week of completing the written examination.
- In the case where a student receives a Pass with Conditions involving a minor rewrite, these rewrites must be completed within two weeks of notification. Examination Committee members will again have the same time limits as specified above.
- A student must retake a failed examination within one year and successfully pass it to receive his or her degree. A second failure on the examination automatically results in the student's termination from the program.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must pass a comprehensive written examination.

Subplan 3 Requirements: Scholarly Research Project Track

Total Credits Required: 36

Course Requirements

All students enrolled in the program are required to complete core courses in their first year.

- Core Courses – Credits: 12
 - COM 710 - Survey of Communication Studies
 - COM 711 - Rhetorical-Critical Research Methods
 - COM 712 - Empirical Research Methods
 - COM 730 - Theories of Communication
- Elective Courses – Credits: 24
 - Complete 24 credits of electives. A maximum of 6 credits can be taken outside the Department of Communication Studies.

Degree Requirements

- The Scholarly Research Project Track entails the completion of 36 credits of course work, construction of a Graduate Education Portfolio, and development of an original research project for submission to a scholarly meeting and/or scholarly journal.
- Graduate teaching assistants are required to take COM 725 – College Teaching in Communication during their first semester.
- Students select a four-person committee: three departmental faculty, one of whom serves as chair, and one Graduate College representative. Students prepare and defend a prospectus by September 15 of the second year of their program, work primarily with the committee chair through development of the paper, and meet with the full committee by April 1 for a formal presentation and defense of the project.
- The Graduate Studies Coordinator will be the advisor for all entering students. Before completing 16 credit hours, the student should select a permanent advisor. The permanent advisor will work with the student through the completion of the program. The student's advisor must approve all course work.
- Acceptable course work is defined as any class in which a student receives a grade of B- or higher. Any required course graded C+ or below will not be included in the candidate's degree program.
- Scholarly Research Projects may be assessed as Pass, Pass with revisions, or Not Pass. Revisions may include—but are not limited to—minor stylistic changes, investigating Committee members' questions about substantive claims, revising sections of the argument, and so on. In some cases Committee members may want to see the final revisions; in other instances they may entrust the Chair to act on the Committee's behalf. In both cases, and when the initial judgment is Pass, Committee members will sign the required Graduate College documents the day of the Presentation. In cases that require more elaborate revision, or when a performance is assessed as Not Pass, the Committee will delineate the necessary course/s of action before the student leaves the Defense.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete and defend a scholarly research paper.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Thesis Track
- Subplan 2: Examination Track
- Subplan 3: Scholarly Research Project Track

Communication Studies Courses

COM 601 - The Rhetoric of Women's Rights, 1832–1920

Credits 3

Examination of the rhetorical campaign for woman suffrage and women's rights from the early nineteenth century up to passage of the 19th amendment to the U.S. Constitution in 1920. Emphasis on identifying, understanding, and evaluating major rhetorical strategies in their historical context. **Prerequisites** Graduate standing.

COM 603 - Public Communication

This course is approved for use in graduate programs for Master of Arts candidates. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

COM 604 - Principles of Persuasion

This course is approved for use in graduate programs for Master of Arts candidates. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

COM 607 - Communication Between the Sexes

This course is approved for use in graduate programs for Master of Arts candidates. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

COM 610 - Advanced Topics in Relational Communication

Credits 3

This course will examine contemporary topics and processes relevant to communication in personal relationships. To improve understanding of the communication process and its implications for the development, maintenance, and termination of close personal relationships, current theory and research will be incorporated. The course will enhance critical thinking and analytical skills.

COM 613 - Argumentation

Credits 3

Study of advanced argumentation theories and implementation of argumentation practice.

COM 614 - Famous Speeches

Credits 3

Study of the role of public address in American history. Emphasis on speeches which had a significant effect on American history. **Prerequisites** Graduate Standing.

COM 615 - Marital & Family Communication

Credits 3

This course introduces graduate students to communication processes that occur in the context of marital and family relationships. We will examine definitions of the family, the roles of family members, various types of families that comprise modern society, and a number of current issues that affect families. Students will also become more familiar with communication theory and research both at the disciplinary level but also in the particular area of

family communication.

COM 634 - Conflict Management

This course is approved for use in graduate programs for Master of Arts candidates. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

COM 641 - Rhetoric of Dissent

Credits 3

Description and analysis of public discourse by agitators and those opposed to agitation. Focus on significant movements for change in recent American history.

COM 682 - Security Discourse

Credits 3

In a globalized world the ways in which national security is discussed profoundly affects the public life of all individuals. This class examines the language, arguments and practices related to security policy, including but not limited to topics such as the rhetorics of American foreign policy, war, terrorism and nuclear arms.

COM 684 - Political Communication

This course is approved for use in graduate programs for Master of Arts candidates. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

COM 706 - Seminar in Intercultural Communication

Credits 3

Study of theoretical, methodological, practical and service foundations of intercultural communication. Examines complexities and implications of the relationship of culture and communication.

COM 710 - Survey of Communication Studies

Credits 3

Survey of communication disciplines and their interrelationships; past, contemporary, and emerging issues; appropriate research topics, questions, methods, and style.

COM 711 - Rhetorical-Critical Research Methods

Credits 3

Methods of describing, analyzing, interpreting, and judging public discourse. Study critical theory and practice. Research and write original critical essays.

COM 712 - Empirical Research Methods

Credits 3

Fundamentals of scientific philosophy, research design, and data analysis; writing and critiquing research reports.

COM 725 - College Teaching in Communication

Credits 3

Discussion of theory and practice in the teaching of communication in college, particularly entry-level courses.

Notes Required of all graduate teaching assistants. **Prerequisites** Graduate standing.

COM 730 - Theories of Communication

Credits 3

Exploration and explanation of communication phenomena. Survey of theoretical ideas, nature of theory in general, major communication theories and theories relevant to communication, and examines purpose of theory in

communication research. **Prerequisites** Graduate standing.

COM 741 - Social Movements as Rhetorical Form

Credits 3

Rhetorical approaches to the study of social movements, examining communicative processes and symbolic action involved in social change. Focuses on theoretical and methodological issues in movement studies as well as on rhetorical documents and practices of several social movements. **Prerequisites** Consent of instructor.

COM 780 - Persuasion

Credits 3

Study of theories and applications of persuasion in various fields of social, political, business, religious, and educational activities.

COM 781 - Seminar in Argumentation

Credits 3

Examines field of argument from its roots in classical Aristotelian rationalism to modern practical reasoning perspectives. Argumentation in interpersonal and public contexts emphasized. **Prerequisites** Consent of instructor.

COM 784 - Political Communication

Credits 3

Study of relationship of rhetorical communication theory to political discourse. Focus on political campaigns, presidential rhetoric, and media influences.

COM 789 - Selected Topics in Communication

Credits 3

Content varies with current developments in communication theory. **Notes** May be repeated to a maximum of six credits with instructor's permission. **Prerequisites** Consent of instructor.

COM 793 - Independent Study

Credits 1-3

Supervised study and practical experience in subjects and projects determined in consultation with a faculty member. Students wishing to take this course must consult with the faculty member prior to registration. **Notes** May be repeated to a maximum of three credits.

COM 794 - Special Readings

Credits 3

Content dependent upon the instructor's interest and expertise, as well as student interest and requirements.

COM 797 - Thesis

Credits 3

This course is approved for use in graduate programs for Master of Arts candidates. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number. **Notes** May be repeated but only six credits applied to the student's program. **Grading** S/F grading only.

Criminal Justice

The Department of Criminal Justice offers a broad-based graduate program leading to the Master of Arts degree. The program addresses issues of crime and criminal justice within an analytical framework and emphasizes theory and research and their implications for social policy. The curriculum is grounded in the social and behavioral sciences and in legal approaches to crime and social control. It draws from contemporary research and theoretical developments across a spectrum of academic disciplines.

The graduate program in criminal justice offers two degree options. The Traditional Master of Arts degree is designed to prepare students for doctoral studies in the field and in related areas of the social and behavioral sciences. Those who obtain this degree may also assume teaching positions at the community college level. The Professional Master's degree is designed to serve the needs of professionals currently working in justice-related agencies by providing the knowledge and skills to enhance their performance in current positions and/or prepare them for career advancement. Both degrees require a minimum of 36 semester hours of study. Students enrolled in the Traditional Master of Arts degree track are required to complete a scholarly thesis. Students seeking the Professional Master's degree must pass a comprehensive examination.

Criminal Justice Plan

Master of Arts - Criminal Justice

Plan Description

The Traditional Master of Arts degree program is designed to improve a student's understanding of the nature, causes, and consequences of crime and crime control. Based on the tradition of the liberal arts, the program emphasizes the symbiotic relationship between crime and the structure of society and the interplay between criminal justice theory and practice. These relationships are explored through course work in criminological theory, law and social control, the administration of justice, and crime and public policy. By completing the requirements for this program, students will be prepared for teaching at the community college level and doctoral study in crime and criminal justice.

Designed for the full-time criminal justice professional, the Professional Master's Degree Program in Criminal Justice provides students with advanced knowledge of the nature of crime, criminal justice institutions and processes, current criminal justice policy and training in research methods, statistics, and program evaluation. The program will also be open to students seeking a terminal master's degree and a career in the criminal justice system. Upon completion of the program, students will have furthered their understanding of crime, the criminal justice system, and be able to conduct evaluations of policies and programs within various agencies in the justice system. This program is structured so that enrolled students can complete the program in two years of part-time study (six credit hours per regular semester and six credit hours during the summer sessions). Recognizing most full-time professionals have schedules that often preclude attendance during regular class times, the program utilizes a variety of distance education techniques, including prerecorded and compressed video, and online instruction.

Learning Outcomes

www.unlv.edu/degree/ma-trad-criminal-justice

Plan Admission Requirements

- An undergraduate degree from an institution with regional or national accreditation is required. Students are encouraged to complete some undergraduate course work related to criminal justice/criminology, and

statistics in social sciences. A minimum GPA of 2.75 for all undergraduate work and a 3.00 for the last two years of undergraduate work is required for admission to the program.

- The Graduate Record Examination (GRE) is required for admission.
- A Criminal Justice Graduate Program Application Cover Page must be completed.
- A statement of purpose for pursuing the Master of Arts Degree, addressing the student's particular interests in the field of criminal justice and his or her future academic and/or professional goals, must be provided at the time of application.
- Two letters of recommendation are required. It is preferred that both letters be from professors from whom the applicant took the classes. If the applicant completed the undergraduate degree work within the past five years, it is required that at least one letter be from a professor, unless the applicant can document the reasons why a letter from a former professor is difficult to obtain. If the applicant completed the undergraduate degree work more than five years ago and is currently working in a criminal justice-related field, two letters may be obtained from the applicant's direct supervisor or co-workers. References from other sources will not be reviewed.
- The admissions process requires submitting all information and materials through the UNLV Graduate College Online Application. See the Criminal Justice Department website for more details.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Traditional Track

Total Credits Required: 36

Course Requirements

- Required Courses – Credits: 18
 - CRJ 700 - Proseminar in Criminal Justice
 - CRJ 701 - Proseminar on Theory
 - CRJ 702 - Proseminar on Research Methods
 - CRJ 703 - Proseminar on Statistics
 - CRJ 704 - Proseminar on Law and Social Control
 - CRJ 705 - Proseminar on the Administration of Justice
- A maximum of 9 credits of 600-level course work are usable as electives.
 - Criminal Justice Elective Courses – Credits: 6
 - Complete 6 credits of 600- or 700-level Criminal Justice courses. CRJ 716 and CRJ 799 may not be used to fulfill this requirement.
- General Elective Courses – Credits: 6
 - Complete 6 credits of 600- or 700-level courses. Courses may be from Criminal Justice, from the following approved list of electives, or by advisor-approval:
 - ANTH 746 - Gender, Sexuality, Race and Flexible Citizenship
 - ENV 703 - Environmental Law and Policy Seminar
 - LAW 639 - Feminist Jurisprudence
 - LAW 642 - Law and Social Justice
 - LAW 644 - Juvenile Law
 - LAW 646 - Cyberlaw
 - LAW 653 - Criminal Procedure I

- LAW 658 - Immigration Law
 - LAW 666 - Domestic Violence and the Law

 - CRJ 797 - Master's Thesis in Criminal Justice

Degree Requirements

1. Complete a minimum of 36 credits at the 600- and 700-level with a minimum GPA of 3.00.
2. A maximum of 9 credits of 600-level course work is allowed.
3. Students may select up to 6 hours of approved graduate study in other social or behavioral sciences or in graduate programs formally approved by the department. An approved list of outside electives is

- available at the Criminal Justice website. Students must obtain an approval from Graduate Coordinator to take an outside elective course that is not on the approved list.
4. All students are required to write a thesis. The thesis will be written under the direction of a committee of three graduate faculty and chaired by a member of the faculty in Criminal Justice. One member of the thesis committee is a graduate faculty member from outside the Department of Criminal Justice. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
 5. Upon completion of the course work and thesis, an oral examination related to the general field and thesis is required of all students. The examination will be administered by the student's thesis committee and a representative from outside the department chosen by the Graduate College. The oral examination will assess:
 - a. The student's competency in defending the substantive, theoretical, and methodological topics covered by the thesis.
 - b. His or her general knowledge, including the ability to integrate topics covered by core and elective criminal justice classes and to apply core fundamentals to important issues.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Professional Track

Total Credits Required: 36

Course Requirements

- Required Courses – Credits: 15
 - CRJ 700 - Proseminar in Criminal Justice
 - CRJ 701 - Proseminar on Theory
 - CRJ 702 - Proseminar on Research Methods
 - CRJ 703 - Proseminar on Statistics
 - CRJ 705 - Proseminar on the Administration of Justice
- A maximum of 9 credits of 600-level course work are usable as electives.
 - Criminal Justice Elective Courses – Credits: 9
 - Complete 9 credits of 600- or 700-level Criminal Justice courses. CRJ 716 and CRJ 799 may not be used to fulfill this requirement.
- General Elective Courses – Credits: 9
 - Complete 9 credits of 600- or 700-level courses. Courses may be from Criminal Justice, from the following approved list of electives, or by advisor-approval:
 - ACC 706ACC 706 - Auditing Theory and Applications
 - BIOL 701 - Ethics in Scientific Research
 - BIOL 703 - Biochemical Genetics
 - CED 715 - Counseling and Consultation Theories
 - CED 732 - Advanced Multicultural CounselingSubstance Abuse Prevention and Treatment
 - CED 735 - Substance Abuse Prevention and Treatment
 - CED 745 - Assessment, Treatment, and Case Management in Addictions

- CED 755 - Planning, Management, and Evaluation of Addictions and Mental Health Programs
 - CED 766 - Psychopathology and Wellness Models in Counseling
 - EPS 747 - Public Policy Process
 - EPY 705 - Child Counseling
 - LAW 606 - Evidence
 - LAW 616 - Criminal Law
 - LAW 622 - Introduction to Gaming Law
 - MBA 771 - Law and Ethics
 - MFT 783 - Trauma and Abuse
 - PAF 701 - Origins and Development of Public Policy in America
 - PAF 702 - Role of Government in Society
 - PUA 701 - Principles of Public Administration
 - PUA 704 - Seminar in Fiscal Administration
 - PUA 711 - Seminar in Administrative Behavior
 - PUA 713 - E-Government Implications for Public Sector Organizations
 - PUA 715 - Administrative Law
 - PUA 718 - Career Development and Performance Appraisal in the Public Sector
 - PUA 751 - Origins and Development of Public Policy in America
 - SW 675 - Treatment of Addictions
 - ULD 701 - Leading Ethical Organizations
 - ULD 730 - Leading in Diverse Communities
- Comprehensive Exam – Credits: 3
 - CRJ 796 - Comprehensive Examination

Degree Requirements

1. Completion of a minimum of 36 credits at the 600- and 700-level with a minimum GPA of 3.00.
2. A maximum of 9 credits of 600-level courses can be used toward the degree.
3. Students may take a maximum of 9 total credits of Independent Study and/or Graduate Readings for use toward the degree.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

1. The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
2. The student must successfully pass a comprehensive exam.

Criminal Justice Courses

CRJ 605 - History of Criminal Justice

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CRJ 611 - Comparative Criminal Justice Systems

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CRJ 628 - Women and Crime

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CRJ 636 - Sociology of Law

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CRJ 641 - Social Science in Law

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

CRJ 700 - Proseminar in Criminal Justice

Credits 3

Provides an introduction to graduate studies in Criminal Justice. Students are exposed to information regarding the main components of the criminal justices system, including: law enforcement, courts, and the correctional system.

Prerequisites Graduate standing in criminal justice.

CRJ 701 - Proseminar on Theory

Credits 3

History of criminological thought. Contemporary and classical theories of crime. Attention to social, cultural, and psychological perspectives. **Prerequisites** Graduate standing in criminal justice or consent of instructor.

CRJ 702 - Proseminar on Research Methods

Credits 3

Methods and applications of quantitative and qualitative research. Relationships among theory, research, and social policy. Development and interpretation of research reports. **Prerequisites** Graduate standing in criminal justice or consent of instructor and satisfactory completion of an undergraduate course in research methods.

CRJ 703 - Proseminar on Statistics

Credits 3

Univariate and multivariate techniques. Use of computerized statistical packages in the social and behavioral sciences. Practical applications in statistical problem-solving using primary and secondary data sources.

Prerequisites Graduate standing in criminal justice or consent of instructor and satisfactory completion of an undergraduate statistics course.

CRJ 704 - Proseminar on Law and Social Control

Credits 3

Nature of law and legal institutions. Relationships between law and other forms of social control. Theory and research on the development and implementation of law. **Prerequisites** Graduate standing in criminal justice or consent of instructor.

CRJ 705 - Proseminar on the Administration of Justice

Credits 3

Structures, functions, and operations of criminal justice organizations. Formal and informal organizational structures and their relationships to the broader social, political, and legal institutions. **Prerequisites** Graduate standing in

criminal justice or consent of instructor.

CRJ 706 - Seminar on the Nature of Crime

Credits 3

Investigation of selected theoretical perspectives and particular types of crime and criminality. **Notes** Specific subject matter varies by semester. May be repeated to a maximum of six credits. **Prerequisites** Graduate standing in criminal justice or consent of instructor.

CRJ 707 - Policing

Credits 3

Police organization and subculture, occupational socialization, police community relations, occupational deviance, policy formation, and related issues discussed. **Notes** Specific subject matter varies by semester. **Prerequisites** Graduate standing in criminal justice or consent of instructor.

CRJ 708 - Seminar on Law and Legal Process

Credits 3

Development and implementation of criminal law. May focus on issues related to the legislative process, the criminal courts, case law, and legal reform. **Notes** Specific subject matter varies by semester. May be repeated to a maximum of six credits. **Prerequisites** Graduate standing in criminal justice or consent of instructor.

CRJ 709 - Delinquency and Juvenile Justice

Credits 3

Historical development and current practices of juvenile courts and treatment institutions. Emphasis on the relationship between delinquency theory, research, and policy formulation, with particular attention to programs of delinquency prevention. **Prerequisites** Graduate standing in criminal justice or consent of instructor.

CRJ 710 - Crime and Its Control in Gambling

Credits 3

Analytical approach to patterns of gambling in America, nature of organized crime involvement, and development and implementation of forms of social control of organized crime in the area. Particular attention given to patterns of crime and regulatory control in Nevada gambling. **Prerequisites** Graduate standing in criminal justice or consent of instructor.

CRJ 711 - Criminological Research

Credits 3

Correlates of crime and theory-based research on crime causation. Implications for the major theoretical perspectives. **Prerequisites** CRJ 701 and CRJ 702, graduate standing in criminal justice or consent of instructor.

CRJ 712 - Punishment and Corrections

Credits 3

Philosophies and practices of punishment and corrections. Contemporary theory, the prison environment, work and rehabilitation programs, parole, overcrowding, capital punishment, and alternatives to imprisonment. **Prerequisites** Graduate standing in criminal justice or consent of instructor.

CRJ 713 - Victimization

Credits 3

Problems confronted by victims of crime. The role of the victim in criminal offenses. Policy, advocacy issues, and victims' rights. **Prerequisites** Graduate standing in criminal justice or consent of instructor.

CRJ 714 - Theory Construction**Credits 3**

Types of theory and levels of theoretical analysis. Empirical, logical, and conceptual considerations in the construction of theory. Problems and prospects for theoretical integration and the development of general theory.

Prerequisites CRJ 701 and CRJ 702, Graduate standing in criminal justice, consent of instructor.

CRJ 715 - Criminal Justice Policy**Credits 3**

Contemporary policies in criminal justice. Relationships among theory, policy, and practice. Attention to public opinion, legislative process, law enforcement administration, the courts, appellate review, issues of intergroup conflict, and civil rights. **Prerequisites** Graduate standing in criminal justice or consent of instructor.

CRJ 716 - Graduate Readings in Criminal Justice**Credits 3**

With faculty supervision, students pursue a personalized program of readings related to specific issues in criminal justice. **Prerequisites** CRJ 701 and CRJ 702 and Graduate standing in criminal justice or consent of instructor.

CRJ 724 - Applied Research in Criminal Justice**Credits 3**

Survey of research and statistical methods appropriate for evaluating criminal justice programs. Nature and role of program evaluation; impact and process assessment; presentation and interpretation of statistical results, ethics and politics of evaluation research. **Prerequisites** CRJ 701, CRJ 702, CRJ 703

CRJ 796 - Comprehensive Examination**Credits 3**

As part of the requirements for the Professional Degree Program, students must pass a written comprehensive examination designed to test students' ability to synthesize a body of knowledge in criminal justice. **Prerequisites** CRJ 700, CRJ 702, CRJ 703, CRJ 705

CRJ 797 - Master's Thesis in Criminal Justice**Credits 3or 6**

Development of a research design and analysis of data relating to an issue of theoretical and empirical significance. Students expected to display the ability to integrate the elements of the core courses and related program of study.

Notes May be repeated to a maximum of six credits. **Grading** S/F grading only. **Prerequisites** CRJ 701, CRJ 702, CRJ 703, CRJ 704, and CRJ 705 and Graduate standing in criminal justice, consent of instructor.

CRJ 798 - Applied Project in Criminal Justice**Credits 3**

Research application in criminal justice or an evaluation of a specific criminal justice program. **Notes** May be repeated to a maximum of six credits. **Prerequisites** CRJ 701, CRJ 702, CRJ 703, CRJ 704, CRJ 705, and CRJ 724

CRJ 799 - Independent Study in Criminal Justice**Credits 3or 6**

Directed research on an issue of contemporary significance in criminal justice, culminating in the development of a research paper. **Notes** May be repeated to a maximum of six credits. **Prerequisites** CRJ 701 and CRJ 702 and Graduate standing in criminal justice or consent of instructor.

Journalism and Media Studies

The Hank Greenspun School of Journalism and Media Studies offers the Master of Arts degree, a course of study designed to emphasize methodological and theoretical exploration in various areas of journalism, and in the form and content of media. JMS courses help students acquire tools for conducting graduate-level research and for producing scholarship. The curriculum also caters to those with a professional orientation, allowing these students to investigate areas such as advertising, emerging media, film, the Internet, media management, print, public relations, and television, and their effects at social and individual levels. The program aims to develop a deep understanding of the media and to make students experts on journalistic and mass-mediated problems and issues, as well to make them better consumers of media messages, developers of content, and critics of mediated subject matter.

All students are required to take three core courses: The 1-credit Colloquium (JMS 708); Methods (JMS 709); and Theory (JMS 730). Because each student's goals are unique, the program is flexible in developing individual program curricula. The objective is to balance the discipline's varied traditions in theory, history, and research with attention paid especially to the changing media landscape of the twenty-first century.

Hank Greenspun School of Journalism and Media Studies Plan

Master of Arts - Journalism & Media Studies

Plan Description

The Hank Greenspun School of Journalism & Media Studies offers a graduate program of study leading to a Master of Arts degree. Courses of study are designed both for students with a career orientation - in such diverse arenas as human resources, politics, advertising, education, public relations, broadcasting, and social services - and for those who aspire to continue their education in doctoral programs.

All students are required to take four introductory courses: survey of graduate studies, quantitative analysis, and qualitative research methods, and theory. Yet because each student's goals are unique, the curriculum allows flexibility in developing individual degree programs. Such development aims to balance the discipline's varied traditions in theoretical, historical, and applied research, with particular attention to the changing culture of the twenty-first century.

Learning Outcomes

www.unlv.edu/degree/ma-journalism-media-studies

Plan Admission Requirements

The master's degree program is designed to meet the student's professional and/or personal objectives. Although an undergraduate degree in journalism, broadcasting, media studies, or communication is not required for admission to the program, a student without a background in these related fields may be required to complete additional course work at the graduate or undergraduate level in order to satisfy minimum expectations of someone entering a graduate course of study.

The Hank Greenspun School of Journalism and Media Studies admits graduate students only in the fall semester.

Review of applications begins March 15.

For additional information, check the school's website.

Students should send application and college transcripts to the Graduate College. In addition, the following should be sent directly to the Graduate Coordinator of the Hank Greenspun School of Journalism and Media Studies:

- A copy of your undergraduate transcripts (you must have a GPA of at least 3.00 in the last 90 credits of undergraduate course work).
- Satisfactory scores on the verbal and quantitative sections of the Graduate Record Examination (GRE).
- At least three letters of recommendation from people who are able to attest to the applicant's ability to do graduate-level work. At least one of these letters should come from a former or current professor or college-level instructor.
- A letter of intent detailing the applicant's goals and expectations as a graduate student in journalism and media studies.
- A writing sample such as a college course term paper.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 37

Course Requirements

- Required Courses – Credits: 7
 - JMS 708 - Journalism and Media Studies Colloquium

- JMS 709 - Introduction to Research Methods in Journalism and Media Studies (3 credits)
- JMS 730 - Journalism and Media Theory (3 credits)
- Journalism & Media Studies Courses – Credits: 15
 - Complete 15 JMS credits.
- Elective Courses – Credits: 9
 - Complete 9 credits of 600- or 700-level elective coursework.
- Thesis – Credits: 6
 - JMS 798 - Thesis

Degree Requirements

- Students may elect to present their theses content in traditional or non-traditional formats.
- The non-traditional thesis must be consistent with the overall objectives of the program and be approved by the student's thesis committee. There content may be written or take the form of a documentary, drama, public relations campaign, film, video, exhibit, script, website, or any combination approved by the student's thesis committee. In addition, a written research component that follows department and Graduate College formatting guidelines is required.
- Regardless of the option selected, the entire thesis must be approved by the Graduate College for electronic and university library access purposes. An oral examination of the thesis is required.
- The Graduate Coordinator is the temporary advisor for all new, incoming graduate students. Before completing 16 credit hours, the student selects a permanent advisor who mentors the student through the remainder of the program and guides them in the thesis or examination process.
- Students are responsible for determining a program of study with their advisor or Graduate Coordinator.
- A passing grade in any graduate-level course is B- or better. Any course grade of C+ or lower will not be included in the student's degree program. All grades, pass or fail, are calculated to produce the student's GPA. Students can repeat a course to try to better a grade. To graduate, the master's student must have a GPA of 3.00 or higher in his or her accumulated course work.
- A student who fails the oral examination for the thesis or the comprehensive examination is allowed to reschedule the oral examination no sooner than three months after the first attempt. Student will be placed on probation. Failure on the second attempt results in the student being separated from the program.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.
- The student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Hank Greenspun School of Journalism and Media Studies Courses

JMS 601 - The First Amendment and Society

This course is approved for use in graduate programs for master of Arts candidates in the Hank Greenspun School of Journalism and Media Studies. Full descriptions of these courses may be found in the Undergraduate Catalog under the corresponding 400 number.

JMS 608 - Media Criticism

This course is approved for use in graduate programs for master of Arts candidates in the Hank Greenspun School of

Journalism and Media Studies. Full descriptions of these courses may be found in the Undergraduate Catalog under the corresponding 400 number.

JMS 613 - History Of Journalism

Credits 3

History of American mass media from antecedents in medieval Europe to the present.

JMS 620 - Visual Literacy

This course is approved for use in graduate programs for master of Arts candidates in the Hank Greenspun School of Journalism and Media Studies. Full descriptions of these courses may be found in the Undergraduate Catalog under the corresponding 400 number.

JMS 635 - Mass Communication Research Methods

This course is approved for use in graduate programs for master of Arts candidates in the Hank Greenspun School of Journalism and Media Studies. Full descriptions of these courses may be found in the Undergraduate Catalog under the corresponding 400 number.

JMS 684 - Mass Media and Political Communication

This course is approved for use in graduate programs for master of Arts candidates in the Hank Greenspun School of Journalism and Media Studies. Full descriptions of these courses may be found in the Undergraduate Catalog under the corresponding 400 number.

JMS 685 - Mass Media and Society

This course is approved for use in graduate programs for master of Arts candidates in the Hank Greenspun School of Journalism and Media Studies. Full descriptions of these courses may be found in the Undergraduate Catalog under the corresponding 400 number.

JMS 687 - Ethics in Mass Media

Credits 3

This course is approved for use in graduate programs for Master of Arts candidates. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

JMS 708 - Journalism and Media Studies Colloquium

Credits 1

Required core class, introduction to JMS for graduate students in program. Provides an overview of the fields and interrelationships of journalism and media studies. Introduction to theories, methods, and research skills, plus contemporary JMS scholarship, use of library and other tools, development of a bibliography. **Grading** S/F grading only

JMS 709 - Introduction to Research Methods in Journalism and Media Studies

Credits 3

Introduction to methods used in JMS research, concentrating on tools students may encounter in developing literature reviews and papers, including theses or papers. Students demonstrate familiarity with methods by developing and presenting an original research paper that features the use of a methodological approach discussed in class.

JMS 710 - Survey of Journalism and Media Studies

Credits 3

Introduction to graduate research writing including learning the proper technical aspects of academic writing; also

surveys the fields of journalism and media studies and their interrelationships; past, present, and future issues; overview of the program. **Prerequisites** Graduate standing.

JMS 711 - Qualitative Research Methods

Credits 3

Fundamentals of humanistic research methodologies; examines such methods as case study, ethnography, focus groups, interviews, visual methods, and other qualitative and critical research methods. **Notes** Application and critique of the methods. **Prerequisites** Graduate standing.

JMS 712 - Quantitative Research Methods

Credits 3

Fundamentals of scientific approach to research examined and applied; surveys, content analysis, and other methods appropriate to the study of journalistic and media messages, processes, and effects examined. **Prerequisites** Graduate standing.

JMS 713 - History of Journalism and Mass Communication

Credits 3

Critical analysis of historical research and scholarship in journalism and media studies including primary sources and methods. Development of a research project. **Prerequisites** Graduate standing

JMS 715 - Science and Health Communication

Credits 3

Investigates the application of communication theory and research to understanding processes through which information related to science, health, environment, and technology reaches the public. Emphasis on mediated communication but also considers the interrelated roles of other channels.

JMS 730 - Journalism and Media Theory

Credits 3

Explores and explains various media phenomena at a theoretical level. Surveys theoretical ideas, the nature of theory, specific theories in the field and those from other fields related to the discipline. Theory evaluation and metatheoretical issues. **Prerequisites** Graduate standing.

JMS 733 - First Amendment Theory

Credits 3

Examination of theory development on the meaning of the press and speech clauses of the First Amendment and how First Amendment theory has been reflected in legal decisions. **Prerequisites** Consent of instructor.

JMS 739 - Special Problems in Media Production

Credits 3

Discussion and practical experience in production techniques of the mass media. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Consent of instructor.

JMS 760 - Social Influence of the Media

Credits 3

Analysis of mediated communication patterns and their social importance; considers both news, public affairs, and entertainment influences. **Notes** Emphasis may vary depending on instructor.

JMS 761 - Journalism and Media Policy and Regulation

Credits 3

In-depth examination of regulation and policy aspects of broadcasting with emphasis on legal research in telecommunications.

JMS 784 - The Media and Politics

Credits 3

Examines the relationship between the media and political leadership, policymaking, campaigns, and related issues. Looks at the mediation of political reality. **Prerequisites** Graduate standing.

JMS 789 - Selected Topics in Journalism and Media Studies

Credits 3

Content varies with current developments in research in Journalism and Media Studies. **Notes** May be repeated to a maximum of six credits with consent of instructor and department chair. **Prerequisites** Consent of instructor.

JMS 794 - Special Readings

Credits 3

Content dependent upon the instructor's interest and expertise, as well as student interest and requirements. **Notes** Course may be repeated to a maximum of six credits. **Prerequisites** Graduate standing.

JMS 795 - Independent Study

Credits 1-4

Supervised study in subjects and projects determined in consultation with a faculty member. Students wishing to take this course must consult with the faculty member prior to registration. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Faculty approval.

JMS 798 - Thesis

Credits 3. **Notes** May be repeated but only six credits apply to the student's program. **Grading** S/F grading only. **Prerequisites** Graduate standing only.

Marriage and Family Therapy

The Marriage and Family Therapy Program offers a Master of Science degree and a graduate certificate. The M.S. degree program in marriage and family therapy is the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE). Marriage and Family Therapy is a theory-based professional practice. The program emphasizes putting theory into clinical practice. This practice includes supervised clinical experiences in the on-campus Center for Individual, Couple and Family Counseling. Students complete an approved internship in the community.

Students are required to obtain 500 hours of face-to-face clinical contact through practica and internship site experiences.

The philosophy of the MFT faculty is based upon values of individual worth and dignity, personal uniqueness and value, and individual freedom to be self-determined within a context of responsibility to others. Program faculty represent a wide variety of therapy approaches and are actively involved in research related to the profession of marriage and family therapy. Students are encouraged to become informed consumers of therapy literature and research. The program also emphasizes the importance of personal growth of the student. Since personal qualities play a vital part in the determination of success as a therapist, opportunities are provided for the development of self-awareness, as well as an understanding of the effect one has upon others in interpersonal relationships.

The mission of the MFT program is to provide quality training in the theory and practice of marriage and family therapy to students primarily from the Southern Nevada region, but also those from the state, across the country, and throughout the world. We are committed to helping students become competent professionals through developing greater self-awareness, appreciating and embracing diversity, learning the art and science of clinical practice, and promoting a sense of ethical behavior, professionalism and professional identity.

Marriage and Family Therapy Plan

Master of Science - Marriage and Family Therapy

Plan Description

The Marriage and Family Therapy Master of Science Degree Program, a 60 semester hour course of study, prepares candidates for licensure as a Marriage and Family Therapist (MFT) in Nevada. MFTs work with individuals, couples, families, and groups on mental health, behavioral, personal and/or relational concerns. MFTs are employed in a wide range of settings, including public and private, for-profit and non-profit agencies, hospitals and social service agencies. They may practice independently after they are fully licensed. While there are similarities between MFT licensing requirements for most states, students are strongly encouraged to become familiar with the licensing requirements in the state(s) wherein they want to practice as an MFT. Students who are in their final semester of completing of their degrees may apply to the State of Nevada Board of Examiners for Marriage and Family Therapists and Clinical Professional Counselors for licensure as an MFT Intern. Once approved by the Board, a licensed Marriage and Family Therapy Intern is eligible to practice under the direct supervision of an AAMFT Approved Supervisor or AAMFT Supervisor Candidate. Further information on this process may be obtained by calling the board's office. Students should be aware that the state's post-master's internship and the department's pre-master's internships are in no way related. The department does not offer, nor otherwise sanction, state internships.

Learning Outcomes

www.unlv.edu/degree/ms-marriage-family-therapy

Plan Admission Requirements

The master's degree program requires that applicants apply for admission to the Graduate College, as well as to the Department of Marriage and Family Therapy as Applicants must provide official transcripts of all college level coursework. In addition, applicants are required to submit Graduate Record Examination (GRE) scores on both the Verbal and Quantitative sections of the general test. A minimum score of 450 is required on each and must have been taken within five years prior to submitting admission applications. A minimum grade point average of 2.75 for all undergraduate work and a 3.00 for the last two years of undergraduate work is required.

Applicants must also make arrangements for three letters of recommendation to be sent directly to the department, along with a departmental application form, and two writings (an autobiographical writing and an essay on the family). Potential students should visit the department website for specific application materials (<http://mft.unlv.edu/index.html>). Applications are accepted once a year, with a January 15 priority deadline and a

final deadline of July 1. The application process also involves an extensive on-campus interview for viable candidates, with all candidates participating in interviews together. Classes begin in the Fall semester.

Note: Non-admitted students may take up to three selected courses (see course listing for prerequisites) prior to formal admission to the program (MFT 701, MFT 759 and MFT 763). If admitted, these courses are eligible to count toward the degree. However, program tuition remains the same. Please contact the Marriage and Family Therapy graduate coordinator for more information.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Thesis Track

Total Credits Required: 60

Course Requirements

- Required Courses – Credits: 54
 - MFT 701 - Introduction to Marriage and Family Therapy
 - MFT 719 - Sexual Issues in Marriage and Family Therapy
 - MFT 720 - Counseling Across the Lifespan
 - MFT 725 - Diversity in Marriage and Family Therapy
 - MFT 731 - Substance Abuse in Marriage and Family Therapy
 - MFT 759 - Family Dynamics
 - MFT 762 - Diagnosis in Marriage and Family Therapy
 - MFT 763 - Family Systems Theory
 - MFT 764 - Principles and Practices of Marriage and Family Therapy I
 - MFT 765 - Principles and Practices of Marriage and Family Therapy II
 - MFT 771 - Ethical and Legal Issues in Marriage and Family Therapy
 - MFT 773 - Marriage and Family Practicum (three semesters for 9 credits)
 - MFT 776 - Internship in Marriage and Family Therapy (two semesters for 6 credits)
 - MFT 777 - Couples Counseling
 - MFT 779 - Marriage and Family Therapy Research Seminar
- Thesis – Credits: 6
 - MFT 749 - Thesis

Degree Requirements

- Have a cumulative grade point average of 3.00 or better in the program. Students who receive an F, or more than two Cs, will be separated from the program.
- A grade of B or better is required in any practicum or internship or the course must be repeated.
- Students are required to complete 6 credits of thesis.
- In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.
- Every student will be reviewed each semester to determine adequate progress and retention in the program.

- The full time program is sequenced so that students take a certain number of courses or credits each semester, including summer. A student who does not follow the designated course sequence may lack prerequisites for their next courses, and, therefore, may need to wait for a course to be offered again in the next cycle. It is the responsibility of the student to discuss course sequencing and planned timing with their advisor. Not all courses are offered every semester or every year. There are many courses that are offered only once each calendar year. Thus, it is imperative that students take the recommended number of credits and stay in sequence in order for them to graduate in a timely manner.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public. .
- The student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Supplan 2 Requirements: Non-Thesis Track

Total Credits Required: 60

Course Requirements

- Required Courses – Credits: 54
 - MFT 701 - Introduction to Marriage and Family Therapy
 - MFT 719 - Sexual Issues in Marriage and Family Therapy
 - MFT 720 - Counseling Across the Lifespan
 - MFT 725 - Diversity in Marriage and Family Therapy
 - MFT 731 - Substance Abuse in Marriage and Family Therapy
 - MFT 759 - Family Dynamics
 - MFT 762 - Diagnosis in Marriage and Family Therapy
 - MFT 763 - Family Systems Theory
 - MFT 764 - Principles and Practices of Marriage and Family Therapy I
 - MFT 765 - Principles and Practices of Marriage and Family Therapy II
 - MFT 771 - Ethical and Legal Issues in Marriage and Family Therapy
 - MFT 773 - Marriage and Family Practicum(three semesters for 9 credits)
 - MFT 776 - Internship in Marriage and Family Therapy (two semesters for 6 credits)
 - MFT 777 - Couples Counseling
 - MFT 779 - Marriage and Family Therapy Research Seminar
- Capstone Course – Credits: 6
 - MFT 750 - Capstone

Degree Requirements

- Have a cumulative grade point average of 3.00 or better in the program. Students who receive an F, or more than two Cs, will be separated from the program.
- A grade of B or better is required in any practicum or internship or the course must be repeated.

- Students prepare a portfolio with either a clinical focus or research focus and are required to complete 6 credits of capstone.
- Every student will be reviewed each semester to determine adequate progress and retention in the program.
- The full time program is sequenced so that students take a certain number of courses or credits each semester, including summer. A student who does not follow the designated course sequence may lack prerequisites for their next courses, and, therefore, may need to wait for a course to be offered again in the next cycle. It is the responsibility of the student to discuss course sequencing and planned timing with their advisor. Not all courses are offered every semester or every year. There are many courses that are offered only once each calendar year. Thus, it is imperative that students take the recommended number of credits and stay in sequence in order for them to graduate in a timely manner.

Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must successfully complete the capstone.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

- Subplan 1: Thesis Track
- Subplan 2: Non-Thesis Track

Marriage and Family Therapy Courses

MFT 701 - Introduction to Marriage and Family Therapy

Credits 3

Introduction to the field and profession of marriage and family therapy including the study of trends, purposes, ethics, standards, and professional roles of marriage and family therapists. Basic therapeutic techniques such as joining, conducting an assessment, treatment planning, and termination of treatment.

MFT 705 - Child Counseling

Credits 3

Focus on developing knowledge and skills necessary to counsel children and adolescents. Theoretical and practical counseling interventions for helping children and adolescents will be explored. Ethical and legal responsibilities in regard to children, and current research presented. **Prerequisites** MFT 764 Admission to MFT program or consent of instructor.

MFT 710 - Family Therapy with Older Adults

Credits 3

Targets on the use of human relations and counseling techniques with elderly citizens who may have coping or adaptation problems. Emphasis on problems related to aging. **Prerequisites** MFT 701 Admission to MFT program or consent of instructor.

MFT 711 - Issues in Counseling Women

Credits 3

Developmental patterns in women. Changing roles of women; sexist bias and nonsexist counseling; existing counseling approaches and their impact on various female populations; examination of subcultures within the female

group. **Prerequisites** MFT 701 Admission to MFT program or consent of instructor.

MFT 713 - Gender Issues in Marriage and Family Therapy

Credits 3

Survey of gender issues for adult men and women, which impact counseling concerns such as relationships, work, and lifestyles. **Prerequisites** MFT 701 Admission to MFT program or consent of instructor.

MFT 715 - Group Processes and Procedures

Credits 3

Group dynamics and procedures; emphasis on personal growth, examination of personal attitudes and values, and group membership. **Prerequisites** Admission to MFT program or consent of instructor.

MFT 719 - Sexual Issues in Marriage and Family Therapy

Credits 3

Basic knowledge, theory, and interventions to help clients deal with sexual issues. Introduces methodology of conducting sexual assessment interviews, as well as structuring and implementing treatment strategies for a variety of issues including: sexual dysfunctions, selected varieties of sexual behavior, aging, disabilities, and transmitted diseases. **Prerequisites** MFT 765 Admission to MFT program or consent of instructor.

MFT 720 - Counseling Across the Lifespan

Credits 3

This class focuses on developing knowledge and skills necessary to counsel across the lifespan. Theoretical and practical counseling interventions for helping across developmental ages will be explored, as well as ethical and legal responsibilities. **Prerequisites** Admission into the MFT MS program.

MFT 725 - Diversity in Marriage and Family Therapy

Credits 3

Provides principles, procedures, and techniques of therapy with multicultural populations. Emphasis on establishing communication with individuals representing diversified cultures. Offering of action-oriented guidance relevant to various cultural lifestyles. **Prerequisites** Admission to MFT program or consent of instructor.

MFT 731 - Substance Abuse in Marriage and Family Therapy

Credits 3

Physical and psychological aspects of substance abuse and other addictions, specific counseling and treatment approaches. **Prerequisites** Admission to MFT program or consent of instructor.

MFT 734 - Assessment in Marriage and Family Therapy

Credits 3

Theoretical and practical approach to assessing the individual. Includes development of framework for understanding individual and group testing in behavioral health; data gathering methods; case study approaches; and individual differences including ethnic, cultural, and gender considerations. **Prerequisites** MFT 701 Admission to MFT program or consent of instructor.

MFT 736 - Orientation to Marriage and Family Therapy

Credits 1

Provides information concerning the professional role, function, history, philosophy and practice of therapy. Role of the marriage and family therapist in community, educational, and business settings, as well as their interactive relationship with other professionals.

MFT 737 - Seminar: Crucial Issues in Marriage and Family Therapy**Credits 3–6**

Analysis of selected and significant issues in therapy of current and continuing concern. **Notes** May be repeated once for credit. Majors only. **Prerequisites** Admission to MFT program or consent of instructor.

MFT 748 - Marriage and Family Therapy Professional Paper**Credits 3**

The professional paper is designed to demonstrate the skills students have acquired during their graduate education. **Grading** S/F grading only. **Prerequisites** Admission to MFT program or consent of instructor. **Corequisite** MFT 779

MFT 749 - Thesis

Credits 3–6. **Notes** May be repeated but only six credits applied to the student's program. **Grading** S/F grading only. **Prerequisites** MFT 779 Admission to MFT program or consent of instructor.

MFT 750 - Capstone**Credits 3**

As a capstone experience in the program, students may choose to prepare either a clinical or research portfolio. The clinical portfolio focuses on students' development as a clinician. The research portfolio focuses on students' development as a scientist-practitioner. Students will be required to prepare a written and oral presentation. **Prerequisites** Admission into the MFT MS program.

MFT 755 - Advanced Marriage and Family Theories**Credits 3**

Intensive exploration of current and historical developments in the field of marriage and family therapy. Emphasis on the major systems and applications together with the current research in these areas. **Prerequisites** MFT 765

MFT 756 - Human Development**Credits 3**

Study of human growth and development of individuals across the lifespan, including stability and change in relationships. Focus on developmental implications in conducting marriage and family therapy and interventions. **Prerequisites** Admission to MFT program or consent of instructor.

MFT 758 - Individual Instruction**Credits 1–3**

Selected basic problems related to the field of marriage and family therapy. a) Testing. b) Curriculum. c) Supervision. d) Therapy. e) Area Problems. f) Research. **Notes** May be repeated to a maximum of nine credits. **Prerequisites** Admission to MFT program or consent of instructor.

MFT 759 - Family Dynamics**Credits 3**

Study of family factors as they relate to personal adaptability. Application of research and practice in family therapy relative to the interpersonal problems of adults and children.

MFT 761 - Technology and the Internet in the Social Science, Research and Practice**Credits 3**

Explores role of technology in changing society, application of technology to field of social sciences, research and practice, and limitations and concerns about technology in the helping profession. **Prerequisites** MFT 701 Admission to MFT program or consent of instructor.

MFT 762 - Diagnosis in Marriage and Family Therapy

Credits 3

Overview of practical and theoretical aspects of assessment and diagnosis of behavior in marriage and family therapy. Examination of cultural factors affecting diagnosis and assessment. Focus on relational diagnosis.

Prerequisites Admission to MFT program or consent of instructor. **Corequisite** MFT 764

MFT 763 - Family Systems Theory

Credits 3

In-depth analysis of general systems theory as it applies to therapy, especially with multi-person client systems such as couples and families. Major concepts, philosophical foundations, and pragmatic implications of using systematic principles in counseling.

MFT 764 - Principles and Practices of Marriage and Family Therapy I

Credits 3

Focuses on the process of family therapy. Beginning skills necessary for family therapy. Theoretical foundations in systems theory as well as each of the major models of family therapy. Prepares students to assess families and conduct family therapy from variety of approaches. **Prerequisites** Admission to MFT program or consent of instructor.

MFT 765 - Principles and Practices of Marriage and Family Therapy II

Credits 3

Focuses on contemporary family therapy theories and approaches, including marital therapy theories and models. Advanced understanding of assessment, applications of current research and outcomes, professional and ethical issues, and clinical marital issues included. **Prerequisites** MFT 764

MFT 771 - Ethical and Legal Issues in Marriage and Family Therapy

Credits 3

Examination of professional organizations, their methods of change, ethical and legal standards, their evolution and application to a variety of professional activities. **Prerequisites** Admission to MFT program or consent of instructor.

MFT 773 - Marriage and Family Practicum

Credits 3

Advanced therapy experience with couples and families. **Notes** Must be repeated for a minimum of nine credits.

Prerequisites MFT 762, MFT 765.

MFT 776 - Internship in Marriage and Family Therapy

Credits 3

Internship is the final activity and is intended to provide students with the opportunity to engage in all of the activities of a regularly employed staff member in an approved clinical setting, including working with clients. To be eligible to take Internship, students must have completed all other coursework with the exception of MFT 748/MFT 749. **Notes** Internship activities take place at community sites where interns can work with clients.

Prerequisites MFT 773 Admission to MFT program or consent of instructor.

MFT 777 - Couples Counseling

Credits 3

Specialized approaches to resolving adult relationship problems. Theoretical issues, relationship appraisal techniques, and ethical considerations specific to couples therapy. **Prerequisites** Admission to MFT program or consent of instructor.

MFT 779 - Marriage and Family Therapy Research Seminar

Credits 3

Seminar in the application and integration of marriage and family therapy outcome and process research. Emphasis on developing knowledge necessary to understand the results of and apply the methods of marriage and family research through an exploration of applied research methods, and relevant research findings. **Prerequisites** Admission to MFT program or consent of instructor.

MFT 781 - Best Practices in Marriage and Family Therapy

Credits 3

Advanced course that builds upon existing knowledge and clinical experience. Focuses on research supporting the effectiveness of marriage and family therapy. Students will learn “best practice” marriage and family treatment approaches for use with clients suffering from various relational and mental health problems. **Prerequisites** MFT 762, MFT 779 Admission to MFT program or consent of instructor.

MFT 783 - Trauma and Abuse

Credits 3

Specified counseling procedures with the child abuser or abused child. Study etiology of the phenomenon of child abuse. Study of factors and their interpretation to facilitate intervention models and resources to meet client objectives. **Prerequisites** MFT 759 Admission to MFT program or consent of instructor.

MFT 787 - Individual Research

Credits 1–3

Selected problems in Marriage and Family Therapy. **Notes** May be repeated to a maximum of seven credits. **Prerequisites** Admission to MFT program or consent of instructor.

MFT 788 - Advanced Seminar in Marriage and Family Therapy

Credits 1–6

Selected topics in counseling and human development services. a) Principles and practices. b) Individual analysis. c) Occupational information. d) Placement. e) Follow-up evaluation. f) Research. **Same as** (EPY 788). **Notes** May be repeated to a maximum of six credits. **Prerequisites** Admission to MFT program or consent of instructor.

MFT 793 - Doctoral Internship

Credits 3–6

Intense supervision with a restricted client load. Enrollees synthesize and translate clinical skills in supervisory role. Restricted to doctoral candidates. **Notes** May be repeated to a total of six credits. **Prerequisites** Doctoral candidates. Admission to MFT program or consent of instructor.

MFT 799 - Dissertation

Credits 3–24

Culminating experience that may be: a) traditional, original research, b) field oriented and problem solving, or c) exploratory or generative research. **Notes** Limited to doctoral candidates. 3–24 credits in increments of 3. **Prerequisites** Doctoral candidates. Admission to MFT program or consent of instructor.

Environmental and Public Affairs

The School of Environmental and Public Affairs was created to assist the College of Urban affairs in its mission to prepare community leaders and address pressing societal issues. The School provides an umbrella for exciting, interdisciplinary research and teaching in public administration and governance, environmental science and studies, non-profit management, urban studies, and natural resources management. Our faculty's strong record and interest in these areas offer students and practitioners a variety of possibilities in cutting-edge and relevant knowledge, research, and projects. The School does this primarily through interdisciplinary activities including policy forums and the offering of doctoral degrees in Environmental Science, Public Affairs, and Workforce Development and Organizational Leadership.

Emeritus Professor; B.S., Oregon State University; M.A., Ph.D., University of Arizona. *UNLV Emeritus 1967-1997.*

School of Environmental and Public Affairs Plans

Graduate Certificate in Nonprofit Management

Plan Description

The School of Environmental and Public Affairs offers a Graduate Certificate in Nonprofit Management. The Certificate is designed for individuals with either a baccalaureate degree or a graduate degree who are interested in enhancing their educational background with regard to the nonprofit sector. The Certificate is designed to provide individuals the intellectual foundation to function as a manager in nonprofit organizations.

Students earning the certificate may apply for admission into the Master of Public Administration degree program. If accepted, the fifteen credits earned in the certificate program may be applied to the M.P.A. Additional information about admissions to the M.P.A. can be found on the School of Environmental and Public Affairs web page http://sepa.unlv.edu/admissions/mpa_pa.html.

Learning Outcomes

Plan Admission Requirements

- Applicants for admission to the Certificate in Nonprofit Management Program must have earned an undergraduate degree from a regionally accredited college or university. Applicants must be accepted by the Graduate College and the School of Environmental and Public Affairs.
- Application Process:
- Apply online to the Graduate College.
- All application material is subsequently reviewed by faculty to determine admission into the program.
- Additional materials listed below should be uploaded and submitted with your application:
 - Official transcripts demonstrating an earned bachelor's degree from a regionally accredited college or university and a GPA sufficient to meet Graduate College requirements.
 - Note: Unofficial transcripts are allowed to be uploaded and submitted with your application to allow initial evaluation.
- Two letters of recommendation from professors, employers, and/or professional colleagues. Identify the two people sending letters of recommendation on your behalf. They will, in turn, upload their letters to the Graduate College's On-line application site. To get this process started, go to the Graduate College's Application process webpage and click on the RECOMMENDATIONS link at the left side of the page immediately below the Application process links. Then make sure you check "yes" when it asks you about submitting your letters electronically.
- A written essay explaining why you are interested in the certificate program in nonprofit management.
- A current resume.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Refer to the Graduate College website for current deadlines.

Plan Requirements

Total Credits Required: 15

Course Requirements

- Core Courses – Credits: 6
 - PUA 770 - Nonprofit Management and Theories of the 3rd Sector
 - PUA 708 - Seminar in Public Personnel Administration
- Required Courses – Credits: 6
 - Complete two of the following courses:
 - PUA 774 - Community Outreach and Volunteerism
 - PUA 775 - Strategic Planning and Program Evaluation for Nonprofits
 - PUA 776 - Development for Nonprofit Managers
- Elective Courses – Credits: 3
 - Complete three credits of the following course:
 - PUA 792 - Current Issues in Public Administration
 - Examples of Topics Include:
 - Board Development
 - Legal Issues and Risk Management
 - Advocacy and Coalition Building
 - Financial Management for Nonprofits

- Leadership and Ethics

Certificate Requirements

- Completion of a minimum of 15 credit hours with a minimum GPA of 3.00.
- Students are required to submit a final project paper that uses knowledge and skills obtained from the Certificate's course work and apply this information to an organization of their choice. Specific guidelines for the paper may be obtained from the Nonprofit Certificate program director.

Plan Certificate Completion Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.
- Complete the final project paper. Graduate Certificate in Solar & Renewable Energy

Graduate Certificate in Solar & Renewable Energy

Plan Description

The School of Environmental and Public Affairs offers a Graduate Certificate in Solar and Renewable (SRE) Energy. The Certificate is designed for individuals already in possession of either a baccalaureate degree or a graduate degree. More specifically, the Certificate provides a specialized qualification for career professionals in the energy industry, professionals from other fields and individuals with baccalaureate degrees seeking entry into the renewable energy field, or currently enrolled graduate students seeking an additional specialization. This Certificate is designed to:

Provide an interdisciplinary approach to SRE grounded in the three critical pillars of policy and governance, technology and physical science, and the built environment.

Develop within students the intellectual and problem-solving foundation for a successful professional career in the SRE field.

Improve the overall effectiveness of the solar and renewable energy sector in Nevada and the Western U.S.

Students earning the Certificate may apply for admission into UNLV graduate degree programs as long as they meet the existing admissions criteria for said programs.

Learning Outcomes

www.unlv.edu/certificate/grad-solar-renewable-energy

Plan Admission Requirements

- **Applicants must have earned an undergraduate degree from a regionally accredited college or university with** an overall undergraduate GPA of 2.75 or higher.
- Applicants must be accepted by the Graduate College and the Advisory/Admissions Committee for the SRE Certificate program.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 18

Course Requirements

- Required Course – Credits: 3
 - ME 677 - Solar and Renewable Energy Utilization
- Environmental Decision Making Course – Credits: 3
 - Complete one of the following courses:
 - ENV 702 - Environmental Problem Solving
 - ENV 720 - Natural Resource Valuation
 - PAF 703 - Individual and Group Decision Making
- Built Environment Course – Credits: 3
 - Complete one of the following courses:
 - CEM 680 - Sustainable Construction
 - ABS 632 - Solar Energy Applications in Architecture
- Energy Policy Course – Credits: 3
 - Complete three credits from the following list of courses:
 - ENV 611 - Environmental Risk Management
 - ENV 702 - Environmental Problem Solving
 - ENV 703 - Environmental Law and Policy Seminar
 - ENV 711 - Risk Assessment and Risk Management
 - ENV 720 - Natural Resource Valuation
 - ENV 750 - Environmental Studies and Public Policy
 - LAW 651 - Environmental Quality Law
 - ECO 707 - Environmental and Natural Resource Economics
 - PAF 701 - Origins and Development of Public Policy in America
 - PAF 702 - Role of Government in Society
 - PUA 725 - Policy Analysis and Program Evaluation
 - PUA 745 - Administration in a Federal and Intergovernmental Perspective
 - PUA 756 - Policy Implementation
- Engineering & Science Course – Credits: 3
 - Complete three credits from the following list of courses:
 - CEM 680 - Sustainable Construction
 - CEM 755 - Renewable Energy Capital Facility Projects
 - ABS 531 - Environmental Control Systems I
 - ABS 532 - Environmental Control Systems II
 - ABS 632 - Solar Energy Applications in Architecture
 - GEOL 610 - Soil Classification and Resource Management
 - GEOL 630 - Geographic Information Systems (GIS): Theory and Applications
 - GEOL 646 - Geologic Applications in Remote Sensing
 - ENV 660 - Environmental Modeling
 - ENV 680 - GIS for Environmental Management
 - ECG 646 - Photovoltaic Devices and Systems
 - ECG 642 - Power Electronics
 - ECG 653 - Introduction to Nanotechnology
 - ECG 740 - Computer Analysis Methods for Power Systems
 - ECG 741 - Electric Power Distribution System Engineering
 - ECG 742 - Power System Stability and Control
 - ECG 757 - Electron Transport Phenomena in Solid State Devices
 - ME 619 - Advanced HVAC and Energy Conservation Systems
 - ME 705 - Conduction Heat Transfer

- ME 707 - Radiation Heat Transfer
- ME 711 - Advanced Thermodynamics
- ME 714 - Computational Aspects of Solar Energy
- ME 746 - Experimental Design and Analysis of Digital Process Control Systems
- Elective Course – Credits: 3
 - Complete three credits from the Energy Policy or Engineering & Science courses listed above.

Certificate Requirements

- Completion of a minimum 18 credit hours with a minimum GPA of 3.00.

Plan Certificate Completion Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation in MyUNLV by the appropriate deadline.

Doctor of Philosophy - Environmental Science

Plan Description

The School of Environmental and Public Affairs administers an interdisciplinary program offering Environmental Science M.S. and Ph.D. degrees.

Description and Objectives of the Program

The graduate program in Environmental Science fosters an understanding of interrelationships between disciplines in addition to requiring depth of study in specialized areas. It emphasizes the need to understand the social context and environmental consequences of using science and technology to serve human needs. We require all students to take two core courses: Environmental Problem Solving (ENV 702), and Environmental Law and Policy Seminar (ENV 703). Other course work in support of a student's specialization generally includes courses from several departments and student research often crosses disciplinary lines.

The general objectives of offering a Ph.D. degree in Environmental Science at UNLV are to:

- Promote the understanding of environmental systems, the relationship among science, environmental management and the human condition, and the effective management of that relationship.
- Respond to local, state, regional, national and international needs for environmental professionals with advanced degrees.
- Assist in the process of shifting toward more sustainable practices in our local community, state and throughout the world.
- Encourage graduate students, undergraduate students, and faculty from various departments, colleges and NSHE institutions to collaborate in an effort to find new and creative solutions to environmental problems.
- Assist in the development of expertise that will both support excellence in Environmental Science at UNLV and lead to the enhancement of disciplinary graduate programs of each department.
- Provide opportunities and encouragement for both disciplinary and interdisciplinary student and faculty interactions that will promote team-building; undergraduate, graduate, faculty mentoring activities; community problem-solving; and enhance instructional programs at UNLV.
- Support graduate student research with grants and contracts from extramural sources.

- Encourage faculty and graduate student research on environmental projects developed in cooperation with the UNLV International Programs Office and institutions abroad.

Learning Outcomes

www.unlv.edu/degree/phd-environmental-science

Plan Admission Requirements

Applications are reviewed twice per year: February 15 and November 15. Requirements 1-5 below must be met before applying to the program. Items 7 and 8 must be submitted directly to the School of Environmental and Public Affairs office prior to the application review dates.

- A bachelor's degree from an accredited college or university.
- Minimum of three credits of calculus or three credits of statistics and at least 12 credit hours in physical and/or biological sciences with grades of B or better.
- A GPA of at least 3.00 on a 4.00 scale is required for admission.
- Scores at or above the 50th percentile in all three areas of the Graduate Record Exam.
- International students must take and obtain a score of at least 550 on the TOEFL exam.
- Application to the Graduate College, submitted using the on-line application system.
- Three letters of recommendation from professors, employers and/or professional colleagues.
- A 1-2 page "Statement of Objectives."

The Graduate Coordinating Committee uses the Statement of Objectives to determine whether the necessary physical and intellectual resources exist at UNLV to allow the applicant to achieve her/his objectives. The statement will be used to identify and appoint an appropriate advisor for the first year of graduate study, and make other decisions regarding admissibility.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Post-Master's Track

Students who have completed an M.S. in Chemistry or Environmental Science (Environmental Chemistry) may qualify for the 48 credits Post-Master's Track. However, additional credits may be required to address student deficiencies or build specialized expertise. Course selection will be based on the student's research objectives, academic record and results of a preliminary examination. This examination will consist of the American Chemical Society Advanced Placement Examination or will be a three-part placement examination prepared by the Chemistry Department with assistance from faculty in other areas appropriate to the particular interests of the student.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Bachelor's - Environmental Chemistry Track (On Hold)

Total Credits Required: 72

Course Requirements

- Required Courses – Credits: 6
 - ENV 702 - Environmental Problem Solving

- ENV 703 - Environmental Law and Policy Seminar
- Seminar Course – Credits: 6
 - CHEM 791 - Graduate Seminar
- Chemistry Courses – Credits: 9
 - Complete 9 credits of advisor-approved CHE or WRM graduate-level courses.
- Elective Courses – Credits: 33
 - Complete 33 credits of advisor-approved elective coursework.
- Dissertation – Credits: 18
 - ENV 798 - Dissertation Research

Degree Requirements

- A minimum of 72 credits beyond the baccalaureate is required for the Ph.D. degree.
- At least 36 credits must be from 700-level courses.
- Requirements for completion of each of the fields in the degree program will frequently make it necessary for students to exceed minimum credit requirements.
- The student is advised to examine the specific information for each field of study for additional requirements.
- Each student admitted to the Ph.D. program in Environmental Science will be appointed an initial advisor. The initial advisor will help the student design an appropriate curriculum, evaluate possible research directions or opportunities, identify an advisor, and become aware of personnel and resources available in Environmental Science at UNLV.
- By the end of the second semester the student will select a chair of her/ his Advisory Committee and, in consultation with that chair recommend membership on the Advisory Committee. It will be composed of a total of four members representing appropriate expertise plus one representative from the Graduate College. The Advisory Committee and the chair are subject to approval by the Graduate Coordinating Committee. The Advisory Committee will assist the student in course selection and definition of a research topic for the dissertation.
- Students must make satisfactory progress each semester to remain in the program. Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of the minimum required credits in the approved program per calendar year, maintenance of a GPA of at least 3.00, no grades below a C, and compliance with the Graduate Catalog. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise the GPA to a 3.00 or above.
- The program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the student's graduate committee must approve the program. The program of study must be submitted by the second semester of study.
- Satisfactory performance on a written Comprehensive Examination prepared by the Chemistry Department (with collaboration from other appropriate faculty).
- Satisfactory oral defense of the student's dissertation proposal before the student's dissertation committee. The dissertation advisor shall be present but non-voting.
- Satisfactory performance on an oral final defense of the dissertation. The dissertation committee will be selected by the completion of the student's first year and composed of:
 - Three members of the Chemistry Department (usually the Dissertation advisor and two faculty members in related fields).
 - Two members selected from the participating units in the Environmental Science Doctoral Program (including collaborating departments at UNLV and/or faculty from the DRI or UNR).
 - One member appointed by the Graduate College.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Post-Bachelor's - Environmental Policy and Management Track

Total Credits Required: 72

Course Requirements

- Required Courses – Credits: 9
 - ENV 701 - Environmental Science Pro Seminar
 - ENV 702 - Environmental Problem Solving
 - ENV 703 - Environmental Law and Policy Seminar
- Elective Courses – Credits: 45
 - Complete 45 credits of advisor-approved elective coursework.
- Dissertation & Directed Readings – Credits: 18
 - Complete 0-6 credits of Directed Readings and 12-18 credits of Dissertation. A maximum of 18 credits in combination can be counted towards the degree.
 - ENV 797 - Directed Readings
 - ENV 798 - Dissertation Research

Degree Requirements

- A minimum of 72 credits beyond the baccalaureate is required for the Ph.D. degree.
- At least 36 credits must be from 700-level courses.
- Requirements for completion of each of the fields in these degree programs will frequently make it necessary for students to exceed these minimum credit requirements.
- The student is advised to examine the specific information for each field of study for additional requirements.
- Students will design three areas of concentration in consultation with their advisor, each consisting of a minimum of three courses. Courses in an area of concentration do not need to have the same prefix or be from the same department. Areas of concentration should represent a subset of expertise that is relevant to the student's program. Areas may include, but are not limited to: anthropology, biological sciences, chemistry, communication, economics, education, geology, risk analysis, history, mathematics, political science, public administration, sociology, or statistics. Areas of concentration must be approved by the student's committee chair.
- Each student admitted to the Ph.D. program in Environmental Science will be appointed an initial advisor. The initial advisor will help the student design an appropriate curriculum, evaluate possible research directions or opportunities, identify an advisor, and become aware of personnel and resources available in Environmental Science at UNLV.
- Each student will be required to take ENV 701 during the first semester it is offered after the student joins the program and an advanced methods course during some subsequent semester.
- A minimum of 12 credit hours each calendar year and at least three each semester.
- By the end of the second semester the student will select a chair of her/ his Advisory Committee and, in consultation with that chair recommend membership on the Advisory Committee. It will be composed of a total of four members representing appropriate expertise plus one representative from the Graduate College. The Advisory Committee and the chair are subject to approval by the Graduate Coordinating

Committee. The Advisory Committee will assist the student in course selection and definition of a research topic for the dissertation.

- Students must make satisfactory progress each semester to remain in the program. Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of the minimum required credits in the approved program per calendar year, maintenance of a GPA of at least 3.00, no grades below a C, and compliance with the Graduate Catalog. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise the GPA to a 3.00 or above.
- The program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the student's graduate committee must approve the program. The program of study must be submitted by the second semester of study. Students must also fulfill the requirements specific to their field of study as described below.
- Students will have three additional semesters beyond completion of ENV 701 to advance to candidacy. Each student in the Ph.D. program must take a minimum of three credits of Directed Readings (ENV 797) each semester following completion of ENV 701 until he or she has successfully advanced to candidacy. A maximum of six credits of ENV 797 may count towards the 72 total credits required by the program. Each Ph.D. candidate must take a minimum of three credits of dissertation research (ENV 798) each semester until graduation. 18 credits of ENV 798 and ENV 797 combined may be included in the 72 total credits required by the program. No more than six of these may be ENV 797; a minimum of 12 and a maximum of 18 of these may be ENV 798.
- Following completion of course work from the three areas selected, the Advisory Committee will administer a qualifying examination. Students who fail the qualifying examination may be allowed to retake it one time. The student will then defend a dissertation proposal before the student's Advisory Committee. The student's Doctoral Advisory Committee must approve the dissertation proposal. The dissertation advisor shall be present but non-voting. Students are advanced to candidacy for the Ph.D. upon the completion of all course work and approval of the dissertation research proposal. Completion of the dissertation and its successful defense will complete degree requirements.
- Satisfactory performance on a written Comprehensive Examination prepared by the Chemistry Department (with collaboration from other appropriate faculty).
 - Satisfactory performance on an oral final defense of the dissertation. The dissertation committee will be selected by the completion of the student's first year and composed of:
 - Three members of the Chemistry Department (usually the Dissertation advisor and two faculty members in related fields).
 - Two members selected from the participating units in the Environmental Science Doctoral Program (including collaborating departments at UNLV and/or faculty from the DRI or UNR).
 - One member appointed by the Graduate College.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: Post-Master's - Environmental Chemistry Track (On Hold)

Total Credits Required: 48

Course Requirements

- Required Courses – Credits: 6

- ENV 702 - Environmental Problem Solving
 - ENV 703 - Environmental Law and Policy Seminar
- Seminar Course – Credits: 6
 - CHEM 791 - Graduate Seminar
- Chemistry Courses – Credits: 9
 - Complete 9 credits of advisor-approved CHE or WRM graduate-level courses.
- Elective Courses – Credits: 9
 - Complete 9 credits of advisor-approved elective coursework.
- Dissertation – Credits: 18
 - ENV 798 - Dissertation Research

Degree Requirements

- A minimum of 48 credits beyond the master's is required for the Ph.D. degree. Additional credits may be required to address student deficiencies or build specialized expertise.
- At least 24 credits must be from 700-level courses.
- Requirements for completion of each of the fields in the degree program will frequently make it necessary for students to exceed minimum credit requirements.
- The student is advised to examine the specific information for each field of study for additional requirements.
- Each student admitted to the Ph.D. program in Environmental Science will be appointed an initial advisor. The initial advisor will help the student design an appropriate curriculum, evaluate possible research directions or opportunities, identify an advisor, and become aware of personnel and resources available in Environmental Science at UNLV.
- By the end of the second semester the student will select a chair of her/ his Advisory Committee and, in consultation with that chair recommend membership on the Advisory Committee. It will be composed of a total of four members representing appropriate expertise plus one representative from the Graduate College. The Advisory Committee and the chair are subject to approval by the Graduate Coordinating Committee. The Advisory Committee will assist the student in course selection and definition of a research topic for the dissertation.
- Students must make satisfactory progress each semester to remain in the program. Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of the minimum required credits in the approved program per calendar year, maintenance of a GPA of at least 3.00, no grades below a C, and compliance with the Graduate Catalog. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise the GPA to a 3.00 or above.
- The program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the student's graduate committee must approve the program. The program of study must be submitted by the second semester of study.
- Satisfactory performance on a written Comprehensive Examination prepared by the Chemistry Department (with collaboration from other appropriate faculty).
- Satisfactory oral defense of the student's dissertation proposal before the student's dissertation committee. The dissertation advisor shall be present but non-voting.
- Satisfactory performance on an oral final defense of the dissertation. The dissertation committee will be selected by the completion of the student's first year and composed of:
 - Three members of the Chemistry Department (usually the Dissertation advisor and two faculty members in related fields).

- Two members selected from the participating units in the Environmental Science Doctoral Program (including collaborating departments at UNLV and/or faculty from the DRI or UNR).
- One member appointed by the Graduate College.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 4 Requirements: Post-Master's - Environmental Policy and Management Track

Total Credits Required: 48

Course Requirements

- Required Courses – Credits: 9
 - ENV 701 - Environmental Science Pro Seminar
 - ENV 702 - Environmental Problem Solving
 - ENV 703 - Environmental Law and Policy Seminar
- Elective Courses – Credits: 21
 - Complete 21 credits of advisor-approved elective coursework.
- Dissertation & Directed Readings – Credits: 18
 - Complete 0-6 credits of Directed Readings and 12-18 credits of Dissertation. A maximum of 18 credits in combination can be counted towards the degree.
 - ENV 797 - Directed Readings
 - ENV 798 - Dissertation Research

Degree Requirements

- A minimum of 48 credits beyond the master's is required for the Ph.D. degree. Additional credits may be required to address student deficiencies or build specialized expertise.
- At least 24 credits must be from 700-level courses.
- Requirements for completion of each of the fields in these degree programs will frequently make it necessary for students to exceed these minimum credit requirements.
- The student is advised to examine the specific information for each field of study for additional requirements.
- Students will design three areas of concentration in consultation with their advisor, each consisting of a minimum of three courses. Courses in an area of concentration do not need to have the same prefix or be from the same department. Areas of concentration should represent a subset of expertise that is relevant to the student's program. Areas may include, but are not limited to: anthropology, biological sciences, chemistry, communication, economics, education, geology, risk analysis, history, mathematics, political science, public administration, sociology, or statistics. Areas of concentration must be approved by the student's committee chair.
- Each student admitted to the Ph.D. program in Environmental Science will be appointed an initial advisor. The initial advisor will help the student design an appropriate curriculum, evaluate possible research directions or opportunities, identify an advisor, and become aware of personnel and resources available in Environmental Science at UNLV.
- Each student will be required to take ENV 701 during the first semester it is offered after the student joins the program and an advanced methods course during some subsequent semester.
- A minimum of 12 credit hours each calendar year and at least three each semester.

- By the end of the second semester the student will select a chair of her/ his Advisory Committee and, in consultation with that chair recommend membership on the Advisory Committee. It will be composed of a total of four members representing appropriate expertise plus one representative from the Graduate College. The Advisory Committee and the chair are subject to approval by the Graduate Coordinating Committee. The Advisory Committee will assist the student in course selection and definition of a research topic for the dissertation.
- Students must make satisfactory progress each semester to remain in the program. Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of the minimum required credits in the approved program per calendar year, maintenance of a GPA of at least 3.00, no grades below a C, and compliance with the Graduate Catalog. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise the GPA to a 3.00 or above.
- The program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the student's graduate committee must approve the program. The program of study must be submitted by the second semester of study. Students must also fulfill the requirements specific to their field of study as described below.
- Students will have three additional semesters beyond completion of ENV 701 to advance to candidacy. Each student in the Ph.D. program must take a minimum of three credits of Directed Readings (ENV 797) each semester following completion of ENV 701 until he or she has successfully advanced to candidacy. A maximum of six credits of ENV 797 may count towards the 72 total credits required by the program. Each Ph.D. candidate must take a minimum of three credits of dissertation research (ENV 798) each semester until graduation. 18 credits of ENV 798 and ENV 797 combined may be included in the 72 total credits required by the program. No more than six of these may be ENV 797; a minimum of 12 and a maximum of 18 of these may be ENV 798.
- Following completion of course work from the three areas selected, the Advisory Committee will administer a qualifying examination. Students who fail the qualifying examination may be allowed to retake it one time. The student will then defend a dissertation proposal before the student's Advisory Committee. The student's Doctoral Advisory Committee must approve the dissertation proposal. The dissertation advisor shall be present but non-voting. Students are advanced to candidacy for the Ph.D. upon the completion of all course work and approval of the dissertation research proposal. Completion of the dissertation and its successful defense will complete degree requirements.
- Satisfactory performance on a written Comprehensive Examination prepared by the Chemistry Department (with collaboration from other appropriate faculty).
- Satisfactory performance on an oral final defense of the dissertation. The dissertation committee will be selected by the completion of the student's first year and composed of:
 - Three members of the Chemistry Department (usually the Dissertation advisor and two faculty members in related fields).
 - Two members selected from the participating units in the Environmental Science Doctoral Program (including collaborating departments at UNLV and/or faculty from the DRI or UNR).
 - One member appointed by the Graduate College.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Doctor of Philosophy - Environmental Science

Plan Description

The School of Environmental and Public Affairs administers an interdisciplinary program offering Environmental Science M.S. and Ph.D. degrees.

Description and Objectives of the Program

The graduate program in Environmental Science fosters an understanding of interrelationships between disciplines in addition to requiring depth of study in specialized areas. It emphasizes the need to understand the social context and environmental consequences of using science and technology to serve human needs. We require all students to take two core courses: Environmental Problem Solving (ENV 702), and Environmental Law and Policy Seminar (ENV 703). Other course work in support of a student's specialization generally includes courses from several departments and student research often crosses disciplinary lines.

The general objectives of offering a Ph.D. degree in Environmental Science at UNLV are to:

- Promote the understanding of environmental systems, the relationship among science, environmental management and the human condition, and the effective management of that relationship.
- Respond to local, state, regional, national and international needs for environmental professionals with advanced degrees.
- Assist in the process of shifting toward more sustainable practices in our local community, state and throughout the world.
- Encourage graduate students, undergraduate students, and faculty from various departments, colleges and NSHE institutions to collaborate in an effort to find new and creative solutions to environmental problems.
- Assist in the development of expertise that will both support excellence in Environmental Science at UNLV and lead to the enhancement of disciplinary graduate programs of each department.
- Provide opportunities and encouragement for both disciplinary and interdisciplinary student and faculty interactions that will promote team-building; undergraduate, graduate, faculty mentoring activities; community problem-solving; and enhance instructional programs at UNLV.
- Support graduate student research with grants and contracts from extramural sources.
- Encourage faculty and graduate student research on environmental projects developed in cooperation with the UNLV International Programs Office and institutions abroad.

Learning Outcomes

www.unlv.edu/degree/phd-environmental-science

Plan Admission Requirements

Applications are reviewed twice per year: February 15 and November 15. Requirements 1-5 below must be met before applying to the program. Items 7 and 8 must be submitted directly to the School of Environmental and Public Affairs office prior to the application review dates.

- A bachelor's degree from an accredited college or university.
- Minimum of three credits of calculus or three credits of statistics and at least 12 credit hours in physical and/or biological sciences with grades of B or better.
- A GPA of at least 3.00 on a 4.00 scale is required for admission.
- Scores at or above the 50th percentile in all three areas of the Graduate Record Exam.
- International students must take and obtain a score of at least 550 on the TOEFL exam.
- Application to the Graduate College, submitted using the on-line application system.
- Three letters of recommendation from professors, employers and/or professional colleagues.
- A 1-2 page "Statement of Objectives."

The Graduate Coordinating Committee uses the Statement of Objectives to determine whether the necessary physical and intellectual resources exist at UNLV to allow the applicant to achieve her/his objectives. The statement will be used to identify and appoint an appropriate advisor for the first year of graduate study, and make other decisions regarding admissibility.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Post-Master's Track

Students who have completed an M.S. in Chemistry or Environmental Science (Environmental Chemistry) may qualify for the 48 credits Post-Master's Track. However, additional credits may be required to address student deficiencies or build specialized expertise. Course selection will be based on the student's research objectives, academic record and results of a preliminary examination. This examination will consist of the American Chemical Society Advanced Placement Examination or will be a three-part placement examination prepared by the Chemistry Department with assistance from faculty in other areas appropriate to the particular interests of the student.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Post-Bachelor's - Environmental Chemistry Track (On Hold)

Total Credits Required: 72

Course Requirements

- Required Courses – Credits: 6
 - ENV 702 - Environmental Problem Solving
 - ENV 703 - Environmental Law and Policy Seminar
- Seminar Course – Credits: 6
 - CHEM 791 - Graduate Seminar
- Chemistry Courses – Credits: 9
 - Complete 9 credits of advisor-approved CHE or WRM graduate-level courses.
- Elective Courses – Credits: 33
 - Complete 33 credits of advisor-approved elective coursework.
- Dissertation – Credits: 18

- ENV 798 - Dissertation Research

Degree Requirements

- A minimum of 72 credits beyond the baccalaureate is required for the Ph.D. degree.
- At least 36 credits must be from 700-level courses.
- Requirements for completion of each of the fields in the degree program will frequently make it necessary for students to exceed minimum credit requirements.
- The student is advised to examine the specific information for each field of study for additional requirements.
- Each student admitted to the Ph.D. program in Environmental Science will be appointed an initial advisor. The initial advisor will help the student design an appropriate curriculum, evaluate possible research directions or opportunities, identify an advisor, and become aware of personnel and resources available in Environmental Science at UNLV.
- By the end of the second semester the student will select a chair of her/ his Advisory Committee and, in consultation with that chair recommend membership on the Advisory Committee. It will be composed of a total of four members representing appropriate expertise plus one representative from the Graduate College. The Advisory Committee and the chair are subject to approval by the Graduate Coordinating Committee. The Advisory Committee will assist the student in course selection and definition of a research topic for the dissertation.
- Students must make satisfactory progress each semester to remain in the program. Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of the minimum required credits in the approved program per calendar year, maintenance of a GPA of at least 3.00, no grades below a C, and compliance with the Graduate Catalog. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise the GPA to a 3.00 or above.
- The program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the student's graduate committee must approve the program. The program of study must be submitted by the second semester of study.
- Satisfactory performance on a written Comprehensive Examination prepared by the Chemistry Department (with collaboration from other appropriate faculty).
- Satisfactory oral defense of the student's dissertation proposal before the student's dissertation committee. The dissertation advisor shall be present but non-voting.
- Satisfactory performance on an oral final defense of the dissertation. The dissertation committee will be selected by the completion of the student's first year and composed of:
 - Three members of the Chemistry Department (usually the Dissertation advisor and two faculty members in related fields).
 - Two members selected from the participating units in the Environmental Science Doctoral Program (including collaborating departments at UNLV and/or faculty from the DRI or UNR).
 - One member appointed by the Graduate College.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Post-Bachelor's - Environmental Policy and Management Track

Total Credits Required: 72

Course Requirements

- Required Courses – Credits: 9
 - ENV 701 - Environmental Science Pro Seminar
 - ENV 702 - Environmental Problem Solving
 - ENV 703 - Environmental Law and Policy Seminar
- Elective Courses – Credits: 45
 - Complete 45 credits of advisor-approved elective coursework.
- Dissertation & Directed Readings – Credits: 18
 - Complete 0-6 credits of Directed Readings and 12-18 credits of Dissertation. A maximum of 18 credits in combination can be counted towards the degree.
 - ENV 797 - Directed Readings
 - ENV 798 - Dissertation Research

Degree Requirements

- A minimum of 72 credits beyond the baccalaureate is required for the Ph.D. degree.
- At least 36 credits must be from 700-level courses.
- Requirements for completion of each of the fields in these degree programs will frequently make it necessary for students to exceed these minimum credit requirements.
- The student is advised to examine the specific information for each field of study for additional requirements.
- Students will design three areas of concentration in consultation with their advisor, each consisting of a minimum of three courses. Courses in an area of concentration do not need to have the same prefix or be from the same department. Areas of concentration should represent a subset of expertise that is relevant to the student's program. Areas may include, but are not limited to: anthropology, biological sciences, chemistry, communication, economics, education, geology, risk analysis, history, mathematics, political science, public administration, sociology, or statistics. Areas of concentration must be approved by the student's committee chair.
- Each student admitted to the Ph.D. program in Environmental Science will be appointed an initial advisor. The initial advisor will help the student design an appropriate curriculum, evaluate possible research directions or opportunities, identify an advisor, and become aware of personnel and resources available in Environmental Science at UNLV.
- Each student will be required to take ENV 701 during the first semester it is offered after the student joins the program and an advanced methods course during some subsequent semester.
- A minimum of 12 credit hours each calendar year and at least three each semester.
- By the end of the second semester the student will select a chair of her/ his Advisory Committee and, in consultation with that chair recommend membership on the Advisory Committee. It will be composed of a total of four members representing appropriate expertise plus one representative from the Graduate College. The Advisory Committee and the chair are subject to approval by the Graduate Coordinating Committee. The Advisory Committee will assist the student in course selection and definition of a research topic for the dissertation.
- Students must make satisfactory progress each semester to remain in the program. Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of the minimum required credits in the approved program per calendar year, maintenance of a GPA of at least 3.00, no grades below a C, and compliance with the Graduate Catalog. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise the GPA to a 3.00 or above.

- The program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the student's graduate committee must approve the program. The program of study must be submitted by the second semester of study. Students must also fulfill the requirements specific to their field of study as described below.
- Students will have three additional semesters beyond completion of ENV 701 to advance to candidacy. Each student in the Ph.D. program must take a minimum of three credits of Directed Readings (ENV 797) each semester following completion of ENV 701 until he or she has successfully advanced to candidacy. A maximum of six credits of ENV 797 may count towards the 72 total credits required by the program. Each Ph.D. candidate must take a minimum of three credits of dissertation research (ENV 798) each semester until graduation. 18 credits of ENV 798 and ENV 797 combined may be included in the 72 total credits required by the program. No more than six of these may be ENV 797; a minimum of 12 and a maximum of 18 of these may be ENV 798.
- Following completion of course work from the three areas selected, the Advisory Committee will administer a qualifying examination. Students who fail the qualifying examination may be allowed to retake it one time. The student will then defend a dissertation proposal before the student's Advisory Committee. The student's Doctoral Advisory Committee must approve the dissertation proposal. The dissertation advisor shall be present but non-voting. Students are advanced to candidacy for the Ph.D. upon the completion of all course work and approval of the dissertation research proposal. Completion of the dissertation and its successful defense will complete degree requirements.
- Satisfactory performance on a written Comprehensive Examination prepared by the Chemistry Department (with collaboration from other appropriate faculty).
- Satisfactory performance on an oral final defense of the dissertation. The dissertation committee will be selected by the completion of the student's first year and composed of:
 - Three members of the Chemistry Department (usually the Dissertation advisor and two faculty members in related fields).
 - Two members selected from the participating units in the Environmental Science Doctoral Program (including collaborating departments at UNLV and/or faculty from the DRI or UNR).
 - One member appointed by the Graduate College.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 3 Requirements: Post-Master's - Environmental Chemistry Track (On Hold)

Total Credits Required: 48

Course Requirements

- Required Courses – Credits: 6
 - ENV 702 - Environmental Problem Solving
 - ENV 703 - Environmental Law and Policy Seminar
- Seminar Course – Credits: 6
 - CHEM 791 - Graduate Seminar
- Chemistry Courses – Credits: 9
 - Complete 9 credits of advisor-approved CHE or WRM graduate-level courses.
- Elective Courses – Credits: 9

- Complete 9 credits of advisor-approved elective coursework.
- Dissertation – Credits: 18
 - ENV 798 - Dissertation Research

Degree Requirements

- A minimum of 48 credits beyond the master's is required for the Ph.D. degree. Additional credits may be required to address student deficiencies or build specialized expertise.
- At least 24 credits must be from 700-level courses.
- Requirements for completion of each of the fields in the degree program will frequently make it necessary for students to exceed minimum credit requirements.
- The student is advised to examine the specific information for each field of study for additional requirements.
- Each student admitted to the Ph.D. program in Environmental Science will be appointed an initial advisor. The initial advisor will help the student design an appropriate curriculum, evaluate possible research directions or opportunities, identify an advisor, and become aware of personnel and resources available in Environmental Science at UNLV.
- By the end of the second semester the student will select a chair of her/ his Advisory Committee and, in consultation with that chair recommend membership on the Advisory Committee. It will be composed of a total of four members representing appropriate expertise plus one representative from the Graduate College. The Advisory Committee and the chair are subject to approval by the Graduate Coordinating Committee. The Advisory Committee will assist the student in course selection and definition of a research topic for the dissertation.
- Students must make satisfactory progress each semester to remain in the program. Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of the minimum required credits in the approved program per calendar year, maintenance of a GPA of at least 3.00, no grades below a C, and compliance with the Graduate Catalog. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise the GPA to a 3.00 or above.
- The program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the student's graduate committee must approve the program. The program of study must be submitted by the second semester of study.
- Satisfactory performance on a written Comprehensive Examination prepared by the Chemistry Department (with collaboration from other appropriate faculty).
- Satisfactory oral defense of the student's dissertation proposal before the student's dissertation committee. The dissertation advisor shall be present but non-voting.
- Satisfactory performance on an oral final defense of the dissertation. The dissertation committee will be selected by the completion of the student's first year and composed of:
 - Three members of the Chemistry Department (usually the Dissertation advisor and two faculty members in related fields).
 - Two members selected from the participating units in the Environmental Science Doctoral Program (including collaborating departments at UNLV and/or faculty from the DRI or UNR).
 - One member appointed by the Graduate College.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 4 Requirements: Post-Master's - Environmental Policy and Management Track

Total Credits Required: 48

Course Requirements

- Required Courses – Credits: 9
 - ENV 701 - Environmental Science Pro Seminar
 - ENV 702 - Environmental Problem Solving
 - ENV 703 - Environmental Law and Policy Seminar
- Elective Courses – Credits: 21
 - Complete 21 credits of advisor-approved elective coursework.
- Dissertation & Directed Readings – Credits: 18
 - Complete 0-6 credits of Directed Readings and 12-18 credits of Dissertation. A maximum of 18 credits in combination can be counted towards the degree.
 - ENV 797 - Directed Readings
 - ENV 798 - Dissertation Research

Degree Requirements

- A minimum of 48 credits beyond the master's is required for the Ph.D. degree. Additional credits may be required to address student deficiencies or build specialized expertise.
- At least 24 credits must be from 700-level courses.
- Requirements for completion of each of the fields in these degree programs will frequently make it necessary for students to exceed these minimum credit requirements.
- The student is advised to examine the specific information for each field of study for additional requirements.
- Students will design three areas of concentration in consultation with their advisor, each consisting of a minimum of three courses. Courses in an area of concentration do not need to have the same prefix or be from the same department. Areas of concentration should represent a subset of expertise that is relevant to the student's program. Areas may include, but are not limited to: anthropology, biological sciences, chemistry, communication, economics, education, geology, risk analysis, history, mathematics, political science, public administration, sociology, or statistics. Areas of concentration must be approved by the student's committee chair.
- Each student admitted to the Ph.D. program in Environmental Science will be appointed an initial advisor. The initial advisor will help the student design an appropriate curriculum, evaluate possible research directions or opportunities, identify an advisor, and become aware of personnel and resources available in Environmental Science at UNLV.
- Each student will be required to take ENV 701 during the first semester it is offered after the student joins the program and an advanced methods course during some subsequent semester.
- A minimum of 12 credit hours each calendar year and at least three each semester.
- By the end of the second semester the student will select a chair of her/ his Advisory Committee and, in consultation with that chair recommend membership on the Advisory Committee. It will be composed of a total of four members representing appropriate expertise plus one representative from the Graduate College. The Advisory Committee and the chair are subject to approval by the Graduate Coordinating Committee. The Advisory Committee will assist the student in course selection and definition of a research topic for the dissertation.
- Students must make satisfactory progress each semester to remain in the program. Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of the minimum required credits in the approved program per calendar year, maintenance of a GPA of at least

3.00, no grades below a C, and compliance with the Graduate Catalog. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise the GPA to a 3.00 or above.

- The program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the student's graduate committee must approve the program. The program of study must be submitted by the second semester of study. Students must also fulfill the requirements specific to their field of study as described below.
- Students will have three additional semesters beyond completion of ENV 701 to advance to candidacy. Each student in the Ph.D. program must take a minimum of three credits of Directed Readings (ENV 797) each semester following completion of ENV 701 until he or she has successfully advanced to candidacy. A maximum of six credits of ENV 797 may count towards the 72 total credits required by the program. Each Ph.D. candidate must take a minimum of three credits of dissertation research (ENV 798) each semester until graduation. 18 credits of ENV 798 and ENV 797 combined may be included in the 72 total credits required by the program. No more than six of these may be ENV 797; a minimum of 12 and a maximum of 18 of these may be ENV 798.
- Following completion of course work from the three areas selected, the Advisory Committee will administer a qualifying examination. Students who fail the qualifying examination may be allowed to retake it one time. The student will then defend a dissertation proposal before the student's Advisory Committee. The student's Doctoral Advisory Committee must approve the dissertation proposal. The dissertation advisor shall be present but non-voting. Students are advanced to candidacy for the Ph.D. upon the completion of all course work and approval of the dissertation research proposal. Completion of the dissertation and its successful defense will complete degree requirements.
- Satisfactory performance on a written Comprehensive Examination prepared by the Chemistry Department (with collaboration from other appropriate faculty).
- Satisfactory performance on an oral final defense of the dissertation. The dissertation committee will be selected by the completion of the student's first year and composed of:
 - Three members of the Chemistry Department (usually the Dissertation advisor and two faculty members in related fields).
 - Two members selected from the participating units in the Environmental Science Doctoral Program (including collaborating departments at UNLV and/or faculty from the DRI or UNR).
 - One member appointed by the Graduate College.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must submit and successfully defend his/her dissertation by the posted deadline. The defense must be advertised and is open to the public.
- Student must submit his/her approved, properly formatted hard-copy dissertation to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Doctor of Philosophy - Workforce Development and Organizational Leadership (On Hold)

Master of Arts - Urban Leadership (On Hold)

Plan Description

The primary goal of the Urban Leadership M.A. program is to prepare the leaders of education and youth services to manage, organize and reorganize schools, governmental agencies, and non-profits in response to the complex challenges of 21st century society. The Urban Leadership M.A. program strives to engage students in an interdisciplinary approach to creating knowledge and understanding that supports effective policy and governance of urban community organizations.

This integration helps future leaders to expand to their capacity to strategically and positively impact the communities they will serve as indicated. Successful Urban Leadership graduates will have the knowledge, skills, and dispositions to create a positive organizational culture that effectively engages members of diverse communities; identify issues and take actions focused on producing meaningful and effective change; manage data and use data-driven decision-making in strategic planning of organizational goals and priorities; ensure transparent accountability processes and procedures that foster community trust; model leadership grounded in integrity and ethical behavior; and understand the needs of children in an urban environment.

Learning Outcomes

www.unlv.edu/degree/ma-urban-leadership

Plan Admission Requirements

All applications for admission to the Urban Leadership (UL) program are made to the Graduate College but are reviewed by the UL Admission's Committee. The committee considers all training and preparation, general abilities, and previous experience. An application form, and official transcripts of all college level work, must be submitted to the Graduate College.

In addition, the applicant should have:

- An earned bachelor's degree in an acceptable field of undergraduate study.
- A GPA of at least 2.75 overall or 3.00 in the last 60 semester hours of undergraduate study.
- At least 3 years of professional experience. Currently individuals who are seeking a Nevada endorsement as an administrator of a school must hold a valid elementary, middle school/junior high, secondary or special teaching license (excluding Business and Industry or special qualifications) and provide evidence of 3-years of teaching experience in K-12 schools approved by the state.
- A minimum of two letters of nomination that provide evidence related to specific criteria established by program faculty (e.g. evidence of capacity for teamwork; reflective practice).
- A résumé indicating educational and professional experience sent to the Program.
- An on-site performance assessment that examines problem finding/solving, data analysis, and writing skills.
- Individual interview
- An official transcript from the college or university where the applicant received a bachelor's degree should be sent to the Program.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 39

Course Requirements

- Required Courses – Credits: 17
 - ULD 701 - Leading Ethical Organizations
 - ULD 705 - Leadership Field Experience I
 - ULD 708X – Seminar: Organizational Management
 - ULD 715 - Leading Learning Organizations
 - ULD 730 - Leading in Diverse Communities
 - EDA 700 - Special Problems in Educational Administration
- Research Requirements – Credits: 7
 - PUA 792 - Current Issues in Public Administration
 - ULD 710X – Data-based Decision Making in Complex Organizations
 - EPY 716 - Evaluation Research Methods
- Internship – Credits: 6
 - ULD 742 - Leadership Field Experience II
 - ULD 789 - Leadership Field Experience III
- Specialty Area Courses – Credits: 6
- Complete 6 credits from the following courses:
 - PUA 792 - Current Issues in Public Administration
 - PUA 791 - Topics in Administration
 - EDA 715 - Issues in Instructional Leadership
- Capstone Experience – Credits: 3
 - ULD 744 - Leading and Assessing Change in Organizations

Degree Requirements

- The Urban Leadership M.A. requires 39 credits of approved course work. All students entering the program should start with: Leadership Seminar I, a class designed to provide a general overview of the field. With this foundation, the student then embarks upon the rest of the program.
- All students will meet with an academic advisor and complete a formal degree plan, which must have the approval of the M.P.A. coordinator.
- Students must obtain a B average in order to graduate. A student can have no more than one grade less than a B-. It is assumed that students working full time and taking courses on a part-time basis can complete the UL program in two years of study.
- Students complete a project as part of the Leading Organizational Change course that demonstrates application of analytical skills to a community, educational, or non-profit issue. Final demonstration includes proficiency in connecting theory to practice.
- Nevada Endorsement for School Principal. Students must pass the Praxis II exam. There are four main parts to the UL program: a core set of seminar courses focusing on leadership in urban settings, a set of courses focused on general administrative and management skills; a set of courses that engage students' analytical skills in problems of practice; and a series of internship experiences in related organizations.

Plan Graduation Requirements

- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- The student must complete the capstone experience.

Master of Public Administration

Plan Description

The Master of Public Administration degree is designed to provide the public administrator with an understanding of the governmental and economic environment in which he or she must work. In addition to serving administrators in governmental organizations, the program is appropriate for career military personnel, nonprofit organization administrators, and the private sector professionals whose responsibilities involve extensive contact with governmental agencies and public sector personnel.

Courses within the program are scheduled during the evenings and weekends to meet the needs of employed students. Graduates of the program will have an understanding of governmental structure and organizations, the essential principles of public management, and the theory and methods of research concerning public administration and the development of public policy. Graduate work in the program provides an awareness of the organizational contexts within which public sector administrators make and implement decisions, as well as training in the skills of administration and management. The M.P.A. is fully accredited by the National Association of Schools of Public Affairs and Administration (N.A.S.P.A.A.).

Plan Admission Requirements

All applications for admission to the M.P.A. program are made to the Graduate College but are reviewed by the M.P.A. Admission's Committee. The committee considers all training and preparation, general abilities, and previous experience.

The applicant should have:

- An earned bachelor's degree in an acceptable field of undergraduate study from a regionally accredited college or university.
- A GPA of at least 2.75 overall or 3.00 in the last 60 semester hours of undergraduate study.
- Satisfactory score on either the Graduate Record Examination (GRE) or Graduate Management Admissions Test (GMAT). Applicants with an undergraduate GPA of 3.5 and five years of responsible administrative or professional work experience in the public or nonprofit sector need not submit GRE or GMAT scores. Applicants who have completed the department's Graduate Certificate in Public Management with a GPA of 3.5 or higher need not submit GRE or GMAT scores. The GRE scores should be sent directly to the School of Environmental and Public Affairs.
- Three letters of reference sent to the School.
- A resumé indicating educational and professional experience sent to the School of Environmental and Public Affairs.
- A personal statement describing how the MPA fits into the applicants professional goals.
- An official transcript from the college or university where the applicant received a bachelor's degree should be sent to the School of Environmental and Public Affairs and Graduate College.
- All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Public Administration Concentration

Total Credits Required: 36

Course Requirements

- Required Courses – Credits: 12
 - PUA 701 - Principles of Public Administration
 - PUA 703 - Seminar In Organization Theory
 - PUA 704 - Seminar in Fiscal Administration
 - PUA 708 - Seminar in Public Personnel Administration
- Analytic Skills Courses – Credits: 6
 - PUA 721 - Quantitative Methods for Public Administration
 - PUA 723 - Research Design for Public Administration
- Additional Analytic Skills Course – Credits: 3
 - Complete one of the following courses:
 - PUA 725 - Policy Analysis and Program Evaluation
 - PUA 726 - Policy Analysis
- Elective Courses – Credits: 9
 - Complete 9 credits of advisor-approved elective coursework.
 - Writing Intensive Elective Courses – Credits: 3
 - Complete 3 credits of advisor-approved elective coursework.
- Applied Analytical Project – Credits: 3
 - PUA 791 - Topics in Administration

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Subplan 2 Requirements: Non-Profit Management Concentration

Total Credits Required: 36

Course Requirements

- Required Courses – Credits: 12
 - PUA 701 - Principles of Public Administration
 - PUA 703 - Seminar In Organization Theory
 - PUA 704 - Seminar in Fiscal Administration
 - PUA 708 - Seminar in Public Personnel Administration
- Analytic Skills Courses – Credits: 6
 - PUA 721 - Quantitative Methods for Public Administration
 - PUA 723 - Research Design for Public Administration
- Additional Analytic Skills Course – Credits: 3
 - Complete one of the following courses:
 - PUA 725 - Policy Analysis and Program Evaluation
 - PUA 726 - Policy Analysis
- Non-Profit Management Courses – Credits: 6
 - PUA 770 - Nonprofit Management and Theories of the 3rd Sector
 - PUA 792 - Current Issues in Public Administration
- Examples of Topics Include:
 - Board Development
 - Legal Issues and Risk Management

- Advocacy and Coalition Building
- Financial Management for Nonprofits
- Leadership and Ethics
- Elective Courses – Credits: 6
 - Complete two of the following courses:
 - PUA 774 - Community Outreach and Volunteerism
 - PUA 775 - Strategic Planning and Program Evaluation for Nonprofits
 - PUA 776 - Development for Nonprofit Managers
- Applied Analytical Project – Credits: 3
 - PUA 791 - Topics in Administration

Degree Requirements

See Plan Degree Requirements below.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

The student must complete an Applied Analytical Project.

Plan Degree Requirements

Completion of a minimum of 36 credit hours with a minimum GPA of 3.00.

All students entering the program should start with PUA 701 - Principles of Public Administration, a class designed to provide a general overview of the field. With this foundation, the student then embarks upon the rest of the program.

Students may enroll in PUA 725 only after they have completed at least 24 credit hours toward the MPA degree. The order of the end-of-course sequence (PUA 725 and PUA 791, Topics in Administration) is determined by when the student completes the required 24 credit hours.

Students enroll in PUA 791 - Topics in Administration to complete their final project which is taken after completing either PUA 725 or PUA 726. The final project applies analytical skills to an issue of interest to a governmental or nonprofit agency and should be completed near the end of a student's program of study.

Students must obtain a B average in order to graduate. A student can have no more than one grade less than a B-. It is assumed that students working full time and taking courses on a part-time basis can complete the M.P.A. program in two and one-half years of study.

For students without appropriate professional administrative experiences, the degree requires an internship and a total of 39 hours.

Master of Science - Environmental Science (On Hold)

Plan Description

The School of Environmental and Public Affairs administers an interdisciplinary program offering Environmental Science M.S. and Ph.D. degrees.

Description and Objectives of the Program

The graduate program in Environmental Science fosters an understanding of interrelationships between disciplines in addition to requiring depth of study in specialized areas. It emphasizes the need to understand the social context and environmental consequences of using science and technology to serve human needs. We require all students to take two core courses: Environmental Problem Solving (ENV 702), and Environmental Law and Policy Seminar (ENV 703). Other course work in support of a student's specialization generally includes courses from several departments and student research often crosses disciplinary lines.

The general objectives of offering a M.S. degree in Environmental Science at UNLV are to:

- Promote the understanding of environmental systems, the relationship among science, environmental management and the human condition, and the effective management of that relationship.
- Respond to local, state, regional, national and international needs for environmental professionals with advanced degrees.
- Assist in the process of shifting toward more sustainable practices in our local community, state and throughout the world.
- Encourage graduate students, undergraduate students, and faculty from various departments, colleges and NSHE institutions to collaborate in an effort to find new and creative solutions to environmental problems.
- Assist in the development of expertise that will both support excellence in Environmental Science at UNLV and lead to the enhancement of disciplinary graduate programs of each department.
- Provide opportunities and encouragement for both disciplinary and interdisciplinary student and faculty interactions that will promote team-building; undergraduate, graduate, faculty mentoring activities; community problem-solving; and enhance instructional programs at UNLV.
- Support graduate student research with grants and contracts from extramural sources.
- Encourage faculty and graduate student research on environmental projects developed in cooperation with the UNLV International Programs Office and institutions abroad.

Learning Outcomes

www.unlv.edu/degree/ms-environmental-science

Plan Admission Requirements

Applications are reviewed twice per year: February 15 and November 15. Requirements 1-5 below must be met before applying to the program. Items 7 and 8 must be submitted directly to the School of Environmental and Public Affairs office prior to the application review dates.

1. A bachelor's degree from an accredited college or university.
2. Minimum of three credits of calculus or three credits of statistics and at least 12 credit hours in physical and/or biological sciences with grades of B or better.
3. A GPA of at least 3.00 on a 4.00 scale is required for admission.
4. Scores at or above the 50th percentile in all three areas of the Graduate Record Exam.
5. International students must take and obtain a score of at least 550 on the TOEFL exam.
6. Application to the Graduate College, submitted using the on-line application system.

7. Three letters of recommendation from professors, employers and/or professional colleagues.
8. A 1-2 page "Statement of Objectives."

The Graduate Coordinating Committee uses the Statement of Objectives to determine whether the necessary physical and intellectual resources exist at UNLV to allow the applicant to achieve her/his objectives. The statement will be used to identify and appoint an appropriate advisor for the first year of graduate study, and make other decisions regarding admissibility.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Environmental Chemistry Track

Total Credits Required: 33

Course Requirements

- Required Courses – Credits: 6
 - ENV 702 - Environmental Problem Solving
 - ENV 703 - Environmental Law and Policy Seminar
- Seminar Course – Credits: 6
 - CHEM 791 - Graduate Seminar (1 credit)
- Chemistry Courses – Credits: 9
 - Complete 9 credits of advisor-approved CHE or WRM courses.
- Elective Courses – Credits: 6
 - Complete 6 credits of advisor-approved elective coursework.
- Thesis – Credits: 6
 - ENV 795 - Thesis

Degree Requirements

- A minimum of 33 credits beyond the baccalaureate, including a minimum of six credits for thesis, is required for the M.S. degree.
- At least 21 of the 33 credits must be 700-level courses.
- Requirements for completion of each of the fields in the degree program will frequently make it necessary for students to exceed minimum credit requirements.
- The student is advised to examine the specific information for each field of study for additional requirements.

Each student admitted to the M.S. degree program in Environmental Science will be appointed an initial advisor. The initial advisor will help the student design an appropriate curriculum, evaluate possible research directions or opportunities, identify an advisor, and become aware of personnel and resources available in Environmental Science at UNLV.

By the end of the first semester the student will select a chair of her/ his Advisory Committee and, in consultation with that chair recommend membership on the Advisory Committee. It will be composed of a total of four members representing appropriate expertise plus one representative from the Graduate College. The Advisory Committee and the chair are subject to approval by the Graduate Coordinating Committee. The Advisory Committee will assist the student in course selection and definition of a research topic for the thesis.

Students must make satisfactory progress each semester to remain in the program. Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of the minimum required credits in the approved program per calendar year, maintenance of a GPA of at least 3.00, no grades below a C, and compliance with the Graduate Catalog. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise the GPA to a 3.00 or above.

The program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the student's graduate committee must approve the program. The program of study must be submitted by the second semester of study.

Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.

Student must submit his/her approved, properly formatted hard-copy thesis to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Subplan 2 Requirements: Environmental Policy and Management Track

Total Credits Required: 33

Course Requirements

- Required Courses – Credits: 9
 - ENV 701 - Environmental Science Pro Seminar
 - ENV 702 - Environmental Problem Solving
 - ENV 703 - Environmental Law and Policy Seminar
- Elective Courses – Credits: 18-21
 - Students completing the Thesis, Professional Paper, or Practicum must complete a minimum of 18 credits of advisor-approved elective coursework, while students completing the Examination must complete a minimum of 21 credits of advisor-approved elective coursework.
- Culminating Experience – Credits: 3-6
 - Complete one of the following culminating experiences:
 - Thesis – Credits: 6
 - ENV 795 - Thesis
 - Professional Paper – Credits: 6
 - ENV 792 - Environmental Sciences Professional Paper Research
 - Practicum – Credits: 6
 - Complete either 3 credits each of ENV 749 & ENV 790, or 6 credits of ENV 790.
 - ENV 749 - Environmental Sciences Teaching Practicum (3 credits)
 - ENV 790 - Internship in Environmental Science (3-6 credits)
 - Examination – Credits: 3
 - ENV 791 - Environmental Sciences Examination Preparation

Degree Requirements

- A minimum of 33 credits beyond the baccalaureate, including a minimum of six credits for thesis, is required for the M.S. degree.
- At least 21 of the 33 credits must be 700-level courses.
- Requirements for completion of each of the fields in these degree programs will frequently make it necessary for students to exceed these minimum credit requirements.
- The student is advised to examine the specific information for each field of study for additional requirements.

Students will design two areas of concentration in consultation with their advisor, each consisting of a minimum of three courses. Courses in an area of concentration do not need to have the same prefix or be from the same department. Areas of concentration should represent a subset of expertise that is relevant to the student's program. Areas may include, but are not limited to: anthropology, biological sciences, chemistry, communication, economics, education, geology, risk analysis, history, mathematics, political science, public administration, sociology, or statistics. Areas of concentration must be approved by the student's committee chair.

Each student admitted to the M.S. degree program in Environmental Science will be appointed an initial advisor. The initial advisor will help the student design an appropriate curriculum, evaluate possible research directions or opportunities, identify an advisor, and become aware of personnel and resources available in Environmental Science at UNLV.

Each student will be required to take ENV 701 during the first semester it is offered after the student joins the program and an advanced methods course during some subsequent semester.

Complete a minimum of 12 credit hours each calendar year and at least three each semester.

By the end of the first semester the student will select a chair of her/his Advisory Committee and, in consultation with that chair recommend membership on the Advisory Committee. It will be composed of a total of four members representing appropriate expertise plus one representative from the Graduate College. The Advisory Committee and the chair are subject to approval by the Graduate Coordinating Committee. The Advisory Committee will assist the student in course selection and definition of a research topic for the thesis.

Students must make satisfactory progress each semester to remain in the program. Satisfactory progress is defined as filing an approved program before the completion of nine credits of course work, completion of the minimum required credits in the approved program per calendar year, maintenance of a GPA of at least 3.00, no grades below a C, and compliance with the Graduate Catalog. Any student whose GPA falls below 3.00 will be placed on probation and will have one semester to raise the GPA to a 3.00 or above.

The program of study will be developed by the student and advisor and filed with the Graduate College. Prior to filing, the student's graduate committee must approve the program. The program of study must be submitted by the second semester of study.

By the end of the first full year in the program, each student will choose one of four options for completing the degree (Thesis, Professional Paper, Examination, or Practicum).

Thesis Option: Students in the Thesis Option, in addition to requirements previously noted, must complete a minimum of 33 credits beyond the baccalaureate, including six credits of thesis, and must complete and orally defend a thesis. Each student who wishes to earn the M.S. under the thesis option must, by the end of his or her first full year in the program, have completed a thesis prospectus, approved by the Advisory Committee. Students in the Thesis Option may not count ENV 791 or ENV 792 credits towards the degree and may count no more than six credits of ENV 749 and ENV 790 combined towards the degree.

Professional Paper Option: Students in the Professional Paper Option, in addition to requirements previously noted, must complete a minimum of 33 credits beyond the baccalaureate, including six credits of professional paper research, and must complete and orally defend a professional paper. Each student who wishes to earn the M.S. under the Professional Paper Option must, by the time he or she has completed one full year in the program, have completed a professional paper prospectus, approved by the Advisory Committee. Students in the professional Paper Option may not count ENV 791 or ENV 795 credits towards the degree and may count no more than six credits of ENV 749 and ENV 790 combined toward the degree.

Examination Option: Students in the Examination option, in addition to requirements previously noted, must complete a minimum of 33 credits beyond the baccalaureate, including three credits of examination preparation under the direction of a graduate program chair, and must complete a written examination that will take place over a two-day period, eight hours each day. The student's advisor will design the examination and determine the dates of completion and rubric for grading. The Advisory Committee may require an oral defense of the examination. Students in the Examination Option may not count ENV 792 or ENV 795 credits towards the degree and may count no more than six credits of ENV 749 and ENV 790 combined towards the degree.

Practicum Option: Students in the Practicum Option, in addition to requirements previously noted, must complete a minimum of 33 credits beyond the baccalaureate, including a minimum of six credits combined of Internship (ENV 790) and Teaching practicum (ENV 749). The Advisory Committee must approve the student's proposed program of courses and approve a final report prepared by the student outlining the Practicum experience and explaining its relationship to the selected course of study. Students in the Practicum Option may not count ENV 791, ENV 792 or ENV 795 credits towards the degree and may count no more than nine credits of ENV 749 and ENV 790 combined towards the degree.

Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

Successfully complete an examination or practicum, or successfully complete and orally defend a thesis or professional paper. The defense must be advertised and is open to the public.

If a thesis is completed, the student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and submit the approved electronic version to ProQuest by the posted deadline.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

Subplan 1: Environmental Chemistry Track

Subplan 2: Environmental Policy and Management Track

Master of Science - Executive Crisis and Emergency Management (ECEM)

Plan Description

The ECEM program is a professional degree designed to maximize the expertise of experienced professionals from numerous disciplines, levels, and regions, thereby providing the opportunity to both advance individual philosophies and to gain broad exposure to a wide variety of other techniques and methodologies to effectively address natural, intentional, and technical disasters. The degree offers enhanced professional growth for the individual and a

contribution to a developing body of knowledge. The program is intended for mid- to-upper level incident response managers and policy makers from the federal, state, and local level. Private sector candidates must have strong background in incident response, or be in a position that requires significant responsibility and governmental interface in this arena.

Please note that the ECEM program is a special tuition and fee based program approved by the Board of Regents. To find the current fee structure, please call (702) 895-2640 or (702) 895-4835.

Plan Execution

Students will evaluate, develop, and implement exercises designed to test their ability to apply course content.

Students will be required to complete course work through the University's online educational system.

Students are expected to enroll in a full three-course load each module and finish with the initial cohort.

Learning Outcomes

www.unlv.edu/degree/ecem

Plan Admission Requirements

- A baccalaureate degree from a regionally accredited college or university.
- A minimum grade point average of 2.75 overall for all undergraduate work.
- A completed Graduate College application.
- Submission of official transcripts from all colleges and universities attended.
- A resume which should indicate professional experience.
- A personal statement
- Three letters of recommendation.
- A nonrefundable admission application fee, payable by credit card, check, or money order. Checks or money orders should be made payable to Board of Regents.
- Satisfactory GRE scores in the verbal and quantitative sections may be required.

All the above should be submitted online through the Graduate College admissions application.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

Total Credits Required: 36

Course Requirements

- Required Courses – Credits: 33
 - ECEM 711 - Crisis and Emergency Management
 - ECEM 712 - Science of Catastrophes
 - ECEM 713 - Evolution of Terrorism
 - ECEM 714 - Intergovernmental Affairs
 - ECEM 721 - Organizational Leadership
 - ECEM 722 - Community Preparedness
 - ECEM 723 - Human Considerations
 - ECEM 724 - Exercise Design and Reponse Plan

- ECEM 731 - Risk Assessment, Mitigation and Communication
- ECEM 732 - Prevention and Planning
- ECEM 733 - Response and Recovery
- Culminating Experience – Credits: 3
 - ECEM 734 - Research in the Implementation of Concepts in Crisis and Emergency Management

Degree Requirements

Completion of a minimum of 36 credit hours with a minimum GPA of 3.00.

The degree requires the twelve courses listed above (36 credits), taken both on-line and on campus. All students who enter the program are expected to complete the program as a cohort. Each cohort will come to campus for several in-class sessions; the remainder of the educational experience involves interaction with instructors and classmates via web-based application, e-mail, and telephone.

Plan Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

School of Environmental and Public Affairs Courses

ENV 601 - Advanced Environmental Toxicology

ENV 611 - Environmental Risk Management

ENV 614 - Air Pollution Science and Management

ENV 660 - Environmental Modeling

ENV 680 - GIS for Environmental Management

ENV 685 - Seminar on Advanced Topics in Spatial Analysis

Credits 1

Students will review and discuss current applied environmental and socioeconomic research in GIS/Spatial Analysis. Readings will be drawn from key journals in the field of environmental studies, regional science, spatial analysis, and urban planning. Students will present and discuss case studies with advanced spatial analysis. **Notes** May be repeated to a maximum of three credits. **Prerequisites** ENV 480 or ENV 680 or CEE 468, CEE 668 or GEOL 430 or GEOL 630 or equivalent.

ENV 701 - Environmental Science Pro Seminar

Credits 3

Introduction to research approaches appropriate to the environmental sciences. Includes quantitative research design. Development of literature review and thesis/dissertation prospectus. **Prerequisites** Graduate standing in Environmental Science program.

ENV 702 - Environmental Problem Solving

Credits 3

Examines the dynamic, interdependent and interactive relationships between human activities and ecosystems. Evaluates opportunities to shift toward more sustainable human behavior. **Prerequisites** Graduate standing in

environmental science or consent of instructor.

ENV 703 - Environmental Law and Policy Seminar

Credits 3

Substantive aspects of major federal environmental laws and their concomitant regulations, as well as the policy underlying their promulgation and implementation. The present status and implementation of the National Environmental Policy Act, the Clean Air Act, the Clean Water Act, the Resource Conservation and Recovery Act, and the comprehensive Environmental Response, Compensation and Liability Act. Examines the policies underlying the existing laws, their derivative regulations, and the changes being considered by Congress for these laws.

Prerequisites Graduate standing in environmental science or consent of instructor.

ENV 711 - Risk Assessment and Risk Management

Credits 3

Principles of risk management as related to exposure to environmental contaminants. Prerequisite: Consent of instructor.

ENV 712 - Environmental Risk Decision Making

Credits 3

Explores interface of technical information, experts, and environmental decision arenas. Major issues include decision making under uncertainty, risk perception, risk communication, and public participation in environmental risk modeling.

ENV 720 - Natural Resource Valuation

Credits 3

Exploration of the valuation literature including traditional, environmental, and experimental economics; physical sciences and philosophy. Methodologic and normative issues. Application and design of valuation tools.

Prerequisites ENV or equivalent.

ENV 725 - Quantitative Methods for Environmental Science

Credits 3

Quantitative research tools specifically developed for environmental science including models, data collection and statistical methods, both univariate and multivariate analyses. Emphasis on methods appropriate to student theses and dissertations.

ENV 735 - Risk-Benefit Assessment

Credits 3

History, philosophy and methodology of risk-benefit analysis for environmental and health decision making.

Explores the history of assessing costs and benefits of public projects, describes the current status of cost-effectiveness analysis in risk regulatory policy. Develops tools to estimate and compare risks, costs and benefits associated with governmental, societal and private risk decision-making.

ENV 749 - Environmental Sciences Teaching Practicum

Credits 3

Introduction to methods and content for environmental science instructors. Tips, methods, styles, scholarship of teaching and learning. **Prerequisites** Currently teaching undergraduate ENV course.

ENV 750 - Environmental Studies and Public Policy

Credits 3

Introduces the principles of public policy, science, and technology that shape environmental protection strategies in this nation and abroad. ENV 750 will act as a foundation policy course in the graduate program of the Department of Environmental Studies. **Prerequisites** Graduate standing.

ENV 751 - International Environmental Policy

Credits 3

Examines environmental protection strategies on the international stage. **Prerequisites** Graduate standing.

ENV 752 - Advanced Seminar in Environmental Studies and Public Policy

Credits 3

Explores special topics in the field of environmental policy. **Prerequisites** ENV 750 or consent of instructor.

ENV 755 - Political Economy of Technology, Environment and Development

Credits 3

Critically examines the roles of political and economic systems as drivers of change in the areas of technology, environment and “development”. Themes include class, conservation, gender, history, natural resources, North-South conflicts, Third World, Trade, and “sustainability” theory and practice. Multicultural literature and cases, and multidisciplinary methods are utilized.

ENV 790 - Internship in Environmental Science

Credits 1–3

Individual students complete appropriate internship with private, public or non-profit organization involved in environmental management. Terms to be negotiated with and approved by internship supervisor and Graduate Coordinator. **Notes** May be repeated to a maximum of six credits. **Grading** S/F

ENV 791 - Environmental Sciences Examination Preparation

Credits 3

Individual preparation for Masters Degree examination. **Notes** May be repeated any number of times, but no more than three credits will count towards degree requirements. **Prerequisites** ENV 701.

ENV 792 - Environmental Sciences Professional Paper Research

Credits 3–6

Individual research towards an applied professional paper under the direction of a faculty member. **Notes** May be repeated any number of times, but no more than six credits will count towards degree requirements. **Prerequisites** ENV 701.

ENV 793 - Independent Study in Environmental Science

Credits 1–6

Independent study of a selected topic in environmental science. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Graduate standing in environmental science or consent of instructor.

ENV 794 - Special Topics in Environmental Science

Credits 1–3

Selected topic of current interest not covered in any existing course. **Notes** May be repeated for a maximum of six credits. **Prerequisites** Graduate standing in environmental science or consent of instructor.

ENV 795 - Thesis

Credits 3. **Notes** May be repeated but only six credits applied to the student’s program. **Grading** S/F grading only.

ENV 797 - Directed Readings

Credits 3

Individual research to develop doctoral dissertation prospectus under the direction of a faculty member. **Notes** May be repeated any number of times, but no more than six credits will count towards degree requirements.

Prerequisites Admitted to ENV Ph.D. program, ENV 701.

ENV 798 - Dissertation Research

Credits 3–6

Research analysis and writing towards completion of dissertation and subsequent defense. **Notes** May be repeated up to eighteen credits. **Grading** S/F grading only.

PAF 701 - Origins and Development of Public Policy in America

Credits 3

Examines the development of public policy in America especially as it is driven by citizen’s needs. In addition, it examines the impact of public policy on society. **Same as** PUA 751. **Prerequisites** Graduate standing.

PAF 702 - Role of Government in Society**Credits 3**

Evaluates the challenges of public policymaking and the moral responsibilities of public actors in a democracy. Looks at the underlying theories used to debate what government should do in society. **Prerequisites** Admission into a Ph.D. program or permission of instructor.

PAF 703 - Individual and Group Decision Making**Credits 3**

Explores how different academic disciplines view individual and group decision-making under uncertainty. Analysis of how individuals and groups make decisions, and different notions about how they should act when faced with risk and uncertainty. **Prerequisites** Admission into program.

PAF 704 - Public Affairs as a Profession**Credits 1**

This course is part of the doctoral program in public affairs and is designed for students to understand potential career opportunities with a Ph.D. in Public Affairs. Understanding the norms and expectations in the profession are addressed, and attention is given to expectations, strategies, and preparation for the job market to better understand what students can do with their Ph.D. degrees in public affairs. **Prerequisites** Admitted to a PhD program.

PAF 710 - Theory and Design of Research**Credits 3**

Designed to develop in students the role of theory in designing research applicable to issues studied in public affairs. Beginning course in the Public Affairs Ph. D. program's analytical studies sequence. **Prerequisites** Admission into program.

PAF 711 - Advanced Seminar in Quantitative Research in Public Affairs**Credits 3**

Students in this course will become familiar with the conceptual foundations and appropriate applications of major social scientific approaches to data-gathering and analysis, with emphasis on quantitative multivariate analysis. **Prerequisites** PAF 710 or permission of instructor.

PAF 717 - Theory and Practice of Public Sector Survey Research**Credits 3**

Provides theoretical and applied components of survey research. Students learn the basics of all elements of the survey process. Students will participate in an actual survey. **Same as** (PUA 727). **Prerequisites** Admission to a graduate program.

PAF 750 - Education Policy**Credits 3**

Examines governmental policy and structure affecting elementary and secondary school finance, administration, and management. Reviews the history and impact of various structural and policy reforms proposed from 1950 to the present. Analyzes structure, policy, and reforms in terms of equity, effectiveness in facilitating student achievement, and other criteria. **Same as** (PUA 750)

PAF 752 - Social Policy, the Individual, and Society**Credits 3**

Examines moral and other dimensions of social policy; frameworks for the analysis and development of social policy; the social construction of social problems; the role of social science in informing social policy; and social policies as manifestations of a society's values.

PAF 795 - Directed Readings in Public Affairs**Credits 3**

Student, under the supervision of a graduate faculty member, conducts additional readings on a topic previously explored in doctoral coursework. **Notes** Student may repeat the course for a total of six credits. **Prerequisites** Completion of core course work and approval of the Graduate Director.

PAF 797 - Independent Research in Public Affairs**Credits 3–6**

Student, under the supervision of a graduate faculty member, conducts research on a topic within the public affairs program areas. Completion of the research should produce a publishable manuscript. **Prerequisites** Completion of core course work and approval of the Graduate Director.

PAF 799 - Dissertation Research in Public Affairs**Credits 6**

Research, analysis, and writing on a topic that makes an original contribution of knowledge to the field of public affairs. Upon completion, students defend the dissertation. Students are expected to enroll in six credits a semester until the dissertation is completed; however, only twelve credits may be counted toward the degree. **Grading** S/F grading only. **Prerequisites** Completion of all course work and approval of Committee Chair.

PUA 701 - Principles of Public Administration**Credits 3**

Survey of the field of public administration with an introduction to the functions of finance, personnel administration, evaluation, research and planning. **Same as** SW 763 . **Prerequisites** Enrollment in the M.S.W. or M.P.A. program or consent of instructor.

PUA 703 - Seminar In Organization Theory**Credits 3**

Analyzes organizations as functioning social units. Emphasis on organization design, structure, processes, and external relationships. **Formerly** PUA 713

PUA 704 - Seminar in Fiscal Administration**Credits 3**

Provides an overview of fiscal administration in the public sector at all levels of government. Introduces students to basic concepts and practices in two key areas: government revenues and budgeting. **Formerly** PUA 714. **Same as** SW 765 . **Prerequisites** PUA 701 or consent of instructor.

PUA 708 - Seminar in Public Personnel Administration**Credits 3**

Includes advanced reading, discussion and research in personnel problems as seen in the public and nonprofit sector. **Formerly** PUA 718. **Same as** SW 767 . **Prerequisites** PUA 701 or consent of instructor.

PUA 709 - Internship Program in Public Administration**Credits 1–6**

Graduate students have a work assignment in a public agency at the national, state, or local governmental level and make regular reports on work activities and assigned readings.

PUA 710 - Accounting for Public Service Managers**Credits 3**

Introduces financial accounting statements from the perspective of the user. Covers principles and concepts of cost accounting from a managerial perspective. Covers financial accounting for investor owned, government, and not-for-profit organization. **Prerequisites** Facility with spreadsheet software is strongly recommended.

PUA 711 - Seminar in Administrative Behavior**Credits 3**

Stresses the development of knowledge and skill in understanding the role of the administrator in the context of public agencies. Emphasis given to strategies of policy making, policy implementation and understanding the factors that bear upon the administrator acting in these capacities.

PUA 712 - Information Technology and the Public Sector Manager**Credits 3**

Introduces computer-based information systems from the perspective of the public sector manager. Presents the

theoretical aspects of organizational computing. Covers such management issues as computer security concerns, health-safety issues, privacy and confidentiality requirements, ADA requirements, training issues, and decision-making applications. **Formerly** PUA 720

PUA 713 - E-Government Implications for Public Sector Organizations

Credits 3

Introduces e-government from the perspective of the public sector organization. Presents theoretical aspects of Internet based systems. Covers such management issues as security, ADA requirements privacy statements, and the provision of services on the web. Discusses organizational implications of providing services on line and the use of change management. **Formerly** PUA 721. **Prerequisites** PUA 712 or consent of instructor.

PUA 715 - Administrative Law

Credits 3

Branch of law that deals with public administration. Examines authority upon which administrative agencies operate and limits necessary to control agency action. Attention given to procedures governing rule making, administrative adjudication, and judicial review. **Prerequisites** PUA 701 or consent of instructor.

PUA 718 - Career Development and Performance Appraisal in the Public Sector

Credits 3

Investigates how and why government agencies should develop career-stage appropriate employee development programs. Students gain greater appreciation of public sector employee evaluation systems. **Formerly** PUA 728. **Prerequisites** PUA 708 or consent of instructor.

PUA 719 - Personnel Assessment and Selection

Credits 3

Covers legal and technical aspects of personnel selection. Concentrates on assessment center process for diagnosing management skills and selection in the public sector. **Prerequisites** PUA 701 or consent of instructor.

PUA 721 - Quantitative Methods for Public Administration

Credits 3

Quantitative techniques used in program design and evaluation. Coverage includes such topics as measurement, tests of significance, and measures of association. Includes descriptive and inferential statistics and forecasting methods. **Formerly** PUA 722. **Prerequisites** PUA 701 or consent of instructor.

PUA 723 - Research Design for Public Administration

Credits 3

Introduction to empirical research methods useful for analysis of public policies and programs. Includes techniques such as survey research, experiments, quasi-experiments, case studies, and qualitative methods. Students learn to understand, evaluate, and undertake basic empirical research of topics relevant to public administration and public policy. **Prerequisites** PUA 701 or consent of instructor.

PUA 725 - Policy Analysis and Program Evaluation

Credits 3

Introduces students to the practical aspects of program evaluation, and the methodologies employed to analyze a program and to conduct an evaluation in the public and nonprofit sectors. **Prerequisites** PUA 721 and PUA 723 or consent of instructor.

PUA 726 - Policy Analysis

Credits 3

Introduction to skills and knowledge of concepts, techniques and theories of public policy analysis. **Prerequisites** PUA 701, PUA 721, and PUA 723 or consent of instructor.

PUA 727 - Theory and Practice of Public Sector Survey Research

Credits 3

Provides the theoretical and applied components of survey research. Students learn the basics of all elements of the survey process. **Same as** PAF 717 . **Notes** Students will participate in an actual survey. **Prerequisites** Admission to

a graduate program.

PUA 735 - Public Regulation of Gambling

Credits 3

Development and control of the legalized gambling industry in its many forms. Comparative analysis of regulatory models for casino, lottery, pari-mutuel, and charity gambling in Nevada and other jurisdictions. Emphasis given to procedures for insuring financial and legal integrity of gambling. **Prerequisites** PUA 701 or consent of instructor.

PUA 740 - Urban Administration

Credits 3

Urban management approached from the viewpoint of the chief administrator. Some consideration given to the city as an organic economic, political and social institution. Emphasis on administrative exercise of leadership decision making and various functional activities. **Prerequisites** PUA 701 or consent of instructor.

PUA 742 - State Government Administration

Credits 3

Focuses on the administration of state government functions in general, with emphasis on the state government of Nevada. Covers the economic and political environment of the state and the role of state government in the federal system. **Prerequisites** PUA 701 or consent of instructor.

PUA 745 - Administration in a Federal and Intergovernmental Perspective

Credits 3

Provides students with understanding of the issues and problems of administering public programs in a federal system. Emphasis placed on how all levels of governments work together. Studies role of grants, mandates, and state/federal statutes on administrators. **Formerly** PUA 706. **Same as** ECEM 714

PUA 750 - Education Policy

Credits 3

Examines governmental policy and structure affecting elementary and secondary school finance, administration, and management. Reviews the history and impact of various structural and policy reforms proposed from 1950 to the present. Analyzes structure, policy, and reforms in terms of equity, effectiveness in facilitating student achievement, and other criteria. **Same as** (PAF 750)

PUA 751 - Origins and Development of Public Policy in America

Credits 3

Examines the development of public policy in America especially as it is driven by citizen's needs. In addition, it examines the impact of public policy on society. **Same as** PAF 701. **Prerequisites** Graduate standing.

PUA 753 - Dynamic Leadership in Public Organizations

Credits 3

This course provides background required to exercise leadership in complex and diverse organizational and community settings. Concepts and methodologies are drawn from the social and behavioral sciences. **Prerequisites** Graduate standing.

PUA 755 - Impacts of the Gaming Industry

Credits 3

Comprehensive course dealing with the political, social, and economic impacts of the world-wide gambling industry. Special attention given to economic development impacts in the public sector with the establishment of various kinds of gambling. **Formerly** (PUA 736). **Prerequisites** PUA 701 or consent of instructor.

PUA 756 - Policy Implementation

Credits 3

Provides students an introduction to current models of implementation and the means for assessing both theory and methods; provides a bridge between the literature on policy analysis and program evaluation; offers students the opportunity to apply theoretical frameworks to practical situations.

PUA 760 - Political Economy**Credits 3**

Survey of the field of political economy since 1945 with emphasis on alternative theories of the role of government, value, and distribution. Focus on the ideological structure of neomarxism, neoinstitutionalism, social economics and postkeynesianism as well as the neoclassical synthesis, monetarism and public choice. **Formerly** (PUA 732).

Prerequisites Graduate standing in the M.P.A. or Economics programs or consent of instructor.

PUA 761 - Introduction to Workforce Education**Credits 3**

Overview of history, philosophy and areas within the workforce education field. **Formerly** EDW 730

PUA 762 - Needs Assessment and Evaluation**Credits 3**

Discusses approaches to identifying performance problems in organizations and determining appropriate interventions. Emphasis/focus on assessment, evaluation, and measurement of workplace learning and performance activities. **Formerly** EDW 734

PUA 763 - Facilitation Skills for Workplace Learning and Performance**Credits 1–3**

Introductory course providing overview of roles and functions of the training professional. Ample opportunities to practice facilitation skills. Topics include evolution of training, current paradigms in training and development, media development, and delivery techniques. May be repeated to a maximum of 3 credits. **Formerly** EDW 737

PUA 764 - Technologies for the Workplace**Credits 1–3**

Applications of -and implications for the use emerging technology in the workplace. May be repeated for a maximum of 3 credits.

PUA 770 - Nonprofit Management and Theories of the 3rd Sector**Credits 3**

Examines the legal and other definitions of the 3rd sector, the sector's distinctive values, its contributions to civil society, its role vis-à-vis the government and business sectors, and current conditions in and challenges for the sector. In addition, the course will serve as an introduction the principal skills, knowledge, and abilities that are involved in the management of nonprofit organizations.

PUA 774 - Community Outreach and Volunteerism**Credits 3**

Provides a general overview of Volunteer Management as it relates to the field of public administration. Introductory course emphasizes non-profit as part of the MPA program and introduces students to the basic concepts and issues surrounding the development and management of community based volunteer programs.

PUA 775 - Strategic Planning and Program Evaluation for Nonprofits**Credits 3**

Provides the capability to understand, plan, implement and evaluate strategies and programs so as to take advantage of opportunities and effectively manage challenges facing their organization. Teaches students to analyze how strategic planning and evaluation strategies differ from those used in the private sector. Emphasis is on management strategies that distinguish nonprofits from for-profits and public agencies and the challenges facing each.

PUA 776 - Development for Nonprofit Managers**Credits 3**

Introduction to fundraising for nonprofit organizations, including annual giving, major gifts, planned giving, and campaigns.

PUA 791 - Topics in Administration**Credits 3–6**

Emphasizes the intensive specialized study of a selected administrative topic. Involves advanced study, reading, and

analysis culminating in a written report and designed to supplement the learning provided by the tool and theory courses. **Grading** S/F grading only. **Prerequisites** PUA 725 or PUA 726 or consent of instructor.

PUA 792 - Current Issues in Public Administration

Credits 1–6

Examination of timely issues in the field with special attention to the needs of the practitioner. **Notes** May be repeated to a maximum of nine credits.

PUA 795 - Formulating Administrative Strategies in the Public Sector

Credits 3

Integrating course in public administration. Covers the analysis of alternative administrative strategies. Emphasis placed on the modern role and techniques of administration. Case studies and administrative problems considered. Focus on the use of contemporary techniques in finding solutions to practical administrative problems.

Prerequisites Open only to M.P.A. Students.

PUA 798 - Research in Public Administration

Credits 1–6

Individual research projects under the direction of a faculty member. **Notes** May be repeated to a maximum of six credits. **Prerequisites** PUA 701 and PUA 723 and/or consent of instructor.

ULD 701 - Leading Ethical Organizations

Credits 3

This course introduces theoretical frameworks related to understanding the dynamics of self, the organization and the norms and values associated with ethical leadership of state and governmental agencies. Students will develop an understanding of how leaders in disparate organizations can affect climate and culture to facilitate inter-organizational cooperation and collaboration. **Formerly** EDA 701. **Corequisite** ULD 705

ULD 705 - Leadership Field Experience I

Credits 1–3

Allows graduate students to participate in and observe the culture, climate, and organizational structure of a variety of community agencies, including schools. Open only to, and required of, students pursuing a M.A. in Urban Leadership. **Formerly** EDA 705. **Corequisite** ULD 701

ULD 710X - Data-based Decision Making in Complex Organizations

Credits 3

This course examines the various types of data that support quality supervision of the core technologies in order to advance the vision and mission of the organization. **Formerly** EDA 710. **Corequisite** ULD 705

ULD 715 - Leading Learning Organizations

Credits 3

The course examines and critiques research related to creating and fostering productive communities of practice that engage in continuous improvement actions related to the core technology of an organization. Content includes knowledge and application of theories related to adult learning, motivation, and team building.

ULD 730 - Leading in Diverse Communities

Credits 3

The growth and development of a dynamic community is enhanced when leaders of schools and affiliated community agencies demonstrate cultural competence. This course focuses on the knowledge and skills leaders need work in cross-cultural situations, to build effective collaborative relationships, and to mobilize community resources. **Formerly** EDA 730.

ULD 742 - Leadership Field Experience II

Credits 3

This field experience requires students to shadow leaders in schools, community agencies, non-profit and for-profit agencies and participate in ways that help them learn about the day-to-day challenges that are faced in dealing with policy, procedures, programs and people. **Prerequisite:** Consent of instructor and consent of supervising mentor.

Formerly EDA 742. **Notes** May be repeated to a maximum of six credits. **Prerequisites** Admission to program in physical education and approval of advisor.

ULD 744 - Leading and Assessing Change in Organizations

Credits 3

Change is a constant demand and required activity in all organizations. This course examines research, theory and strategies for leading change processes that make the difference in having success or failure.

ULD 789 - Leadership Field Experience III

Credits 1–3

This capstone course requires students to connect knowledge bases with practical applications of leadership. Projects are individually structured under the joint guidance of university faculty and an organizational executive. Projects may address an organizational problem, an activity that furthers the organizational mission or the development of proactive community partnerships. **Formerly** EDA 789.

WDL 767 - Review and Analysis of Policies in Workforce Development

Credits 3

Focuses on federal, state and local policies related to workforce development and its ties to local workforce initiatives and grants. **Formerly** EDW 767.

WDL 780 - Leadership in Workforce Education and Development

Credits 3

Provides students with the knowledge, skills, and dispositions necessary to undertake leadership positions in diverse educational settings and organizations. Emphasis on modern leadership practices and techniques through the study of accepted theory and applied principles. **Formerly** EDW 780.

WDL 785 - Global and Diversity Perspectives in Workforce Development

Credits 3

This course examines workforce development systems and their effectiveness in developing human capital from a global perspective. Human resource management trends and the challenges a global workforce poses for human resource practices are also discussed. **Formerly** EDW 785. **Prerequisites** Consent of instructor.

WDL 786 - Critique of Research in Workforce Development and Organizational Leadership

Credits 3. Formerly EDW 786.

WDL 787 - Organization Development & Change: Theories to Practice

Credits 3

Overview of theories and research on organizations and managing change within them. **Formerly** EDW 787.

Prerequisites EDW 732

WDL 788 - Strategic Planning and Management

Credits 3

Leading organizations require the ability to plan and implement a strategic plan and manage performance within an organization. Topics will revolve around strategy and performance management as it relates to workforce initiatives. **Formerly** EDW 788.

WDL 789 - Professional Development and Research

Credits 3–6

This graduate(doctoral) level course in workforce education leadership provides participants with an opportunity to explore the functions and roles of as a leader of workforce education and development field and to apply conceptual learning relative to workforce education leadership in a workforce setting. **Formerly** EDW 789. **Notes** May be repeated to a maximum of six credits.

WDL 796 - Workforce Development & Organizational Leadership Prospectus

Credits 3

Designed to guide students to begin their dissertation process by preparing a dissertation proposal. The prospectus

should provide a detailed description of a research plan. . **Formerly** EDW 796. **Prerequisites** Completion of all core courses, and completion of qualifying/comprehensive exam.

WDL 799 - Doctoral Dissertation

Credits 1–12

Research analysis and writing toward completion of dissertation and subsequent defense. **Formerly** EDW 799. **Notes** Twelve credits are required for the degree, may be repeated, but only twelve credits will be applied to the students degree program. **Grading** S/F grading only. **Prerequisites** Successful completion of WDL 796 and approval by the department.

Social Work

The philosophy of the School of Social Work stresses the importance of both sound academic education and rich practical experience in preparing "advanced social work practitioners." Faculty members bring to their positions a range of knowledge and applied experiences, and they are active in scholarly research, consultation, and practice in their respective fields.

School of Social Work Plans

Master of Social Work

Plan Description

The Master of Social Work (M.S.W.) program at UNLV prepares students for professional social work careers in the areas of direct practice with individuals, families and groups, and in management and community practice. The mission of the M.S.W. program is to educate students to work with populations in urban settings, utilizing generalist, problem solving, empowerment, and social justice approaches. Special attention is given to the mastery of multiple practice issues, attendant upon the present plural and diverse populations in today's American society.

Students may elect either "direct practice" or "management and community practice" as their area of concentration. The direct practice concentration prepares students for advanced social work practice with individuals, families, and groups. The management and community practice concentration prepares students for advanced administrative, managerial, and community practice in human service organizations and agencies at the local, state and national levels.

Students are provided academic knowledge related to the theory, research, and major substantive issues in the field and practice experience through practicum experiences in a variety of private and public agency environments. Field practicum placement is concurrent with classroom instruction and is an integral part of the program. A wide variety of field practicum agencies are available, and students are placed in the field under the guidance of the Field Director and in cooperation with the professional supervisory staff from local social service agencies. The program seeks to encourage and accommodate varied student interests, abilities, and career goals. Partnerships and on-going collaborative relationships between the school faculty and the service agencies facilitate a rich blend of academic and community-based experience for our students.

The M.S.W. program is designed to be consistent with the accreditation standards of the field's national professional accrediting body, the Council on Social Work Education (CSWE). The program is fully accredited by the Council on Social Work Education. The School of Social Work does not discriminate on the basis of race, color, gender, age, creed, ethnic background, national origin, disability, and political, religious, or sexual orientation.

Learning Outcomes

www.unlv.edu/degree/msw

Plan Admission Requirements

An applicant must have the following:

A minimum overall grade point average of 2.75 on a 4.00 scale for the bachelor's degree. An earned bachelor's degree in social work from an accredited program or a degree in another field.

Completion of the following liberal arts courses: English composition or literature courses; college-level mathematics or statistics course; courses in social sciences, preferably in psychology, sociology, and anthropology; a science course; one course in fine arts or humanities; a course in history or political science; a course or content in the biological determinants of human behavior or human biology; a course or content in diverse cultures, social conditions, or social problems. The applicant must not have more than two course deficiencies to be admitted to the program, and those must be cleared by the end of the first semester of M.S.W. studies.

An applicant must submit an application for admission, transcripts of all college-level work, and the application fee to the Graduate College. Three letters of recommendation (as specified below), a personal statement, and transcripts of all college-level work must be submitted to the School of Social Work.

The applicant must submit to the School of Social Work three letters of recommendation (on the prescribed form) that reflect the applicant's academic experience, general abilities, and interest and motivation in pursuing a graduate degree in social work. One of these letters should be from the most recent employer in a social work position (if applicable), and one should be from an instructor (social work instructor, if applicable) from the last college attended. The third letter should be from a person who is familiar with the applicant's overall qualifications, experience, and interest in pursuing the M.S.W. degree.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Admission to the MSW Program cannot be deferred. The student must also enroll in the program to which admission is offered (i.e., a particular concentration, full or part-time). Students must make any request for a change in status in writing and in accordance with School procedure. Also considering the rigor of the program, students must evaluate if their individual circumstances and resources warrant applying for the full-time or part-time program. Students working 20 hours a week or more are strongly advised to apply to the part-time program.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Capstone Track

Total Credits Required: 63

Course Requirements

- Required Courses – Credits: 27
 - SW 701 - Social Welfare Policy I
 - SW 703 - Social Welfare Policy II
 - SW 715 - Human Behavior and the Social Environment I

- SW 716 - Social Work Research I
- SW 719 - Foundation Practice I
- SW 720 - Foundation Practice Methods I
- SW 726 - Social Work Research II
- SW 729 - Foundation Practicum II
- SW 730 - Macro Theory and Practice
- Concentration Courses – Credits: 24
- Complete 24 credits of coursework from one of the following concentration areas:
 - Direct Practice
 - SW 707 - Developing Cross Cultural Competence
 - SW 739 - Field Practicum I (DP)
 - SW 740 - Direct Practice I
 - SW 747 - DSM: Assessment and Diagnosis
 - SW 749 - Field Practicum II (DP)
 - SW 750 - Direct Practice II
 - SW 776 - Legal and Ethical Issues in Social Work
 - SW 785 - Special Topics in Advanced Policy
 - Management and Community Practice
 - SW 707 - Developing Cross Cultural Competence
 - SW 759 - Field Practicum I (MCP)
 - SW 760 - Management and Community Practice I
 - SW 765 - Financial Management and Resource Development
 - SW 769 - Field Practicum II (MCP)
 - SW 770 - Management and Community Practice II
 - SW 775 - Advanced Policy Practice
 - SW 776 - Legal and Ethical Issues in Social Work
- Elective Courses – Credits: 9
 - Complete a minimum of 9 credits of Social Work electives, or other advisor-approved graduate-level courses.
- Capstone Course – Credits: 3
 - SW 795 - Capstone Seminar

Degree Requirements

Complete course work with a minimum overall grade point average of 3.00 on a 4.00 scale.

Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

- Successfully complete the capstone course.

Subplan 2 Requirements: Thesis Track

Total Credits Required: 63

Course Requirements

- Required Courses – Credits: 27
 - SW 701 - Social Welfare Policy I
 - SW 703 - Social Welfare Policy II

- SW 715 - Human Behavior and the Social Environment I
- SW 716 - Social Work Research I
- SW 719 - Foundation Practice I
- SW 720 - Foundation Practice Methods I
- SW 726 - Social Work Research II
- SW 729 - Foundation Practicum II
- SW 730 - Macro Theory and Practice
- Concentration Courses – Credits: 24
- Complete 24 credits of coursework from one of the following concentration areas:
 - Direct Practice
 - SW 707 - Developing Cross Cultural Competence
 - SW 739 - Field Practicum I (DP)
 - SW 740 - Direct Practice I
 - SW 747 - DSM: Assessment and Diagnosis
 - SW 749 - Field Practicum II (DP)
 - SW 750 - Direct Practice II
 - SW 776 - Legal and Ethical Issues in Social Work
 - SW 785 - Special Topics in Advanced Policy
 - Management and Community Practice
 - SW 707 - Developing Cross Cultural Competence
 - SW 759 - Field Practicum I (MCP)
 - SW 760 - Management and Community Practice I
 - SW 765 - Financial Management and Resource Development
 - SW 769 - Field Practicum II (MCP)
 - SW 770 - Management and Community Practice II
 - SW 775 - Advanced Policy Practice
 - SW 776 - Legal and Ethical Issues in Social Work
- Elective Courses – Credits: 6
 - Complete a minimum of 6 credits of Social Work electives, or other advisor-approved graduate-level courses.
- Thesis – Credits: 6
 - SW 796 - Thesis

Degree Requirements

Complete course work with a minimum overall grade point average of 3.00 on a 4.00 scale.

In consultation with his/her advisor, a student will organize a thesis committee of at least three departmental members. In addition, a fourth member from outside the department, known as the Graduate College Representative, must be appointed. An additional committee member may be added at the student and department's discretion. Please see Graduate College policy for committee appointment guidelines.

Graduation Requirements

The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.

The student must submit and successfully defend his/her thesis by the posted deadline. The defense must be advertised and is open to the public.

The student must submit his/her approved, properly formatted hard-copy document to the Graduate College, and

submit the approved electronic version to ProQuest by the posted deadline.

Plan Graduation Requirements

Refer to your subplan for Graduation Requirements.

Subplan 1: Capstone Track

Subplan 2: Thesis Track

Dual Degree: Master of Social Work & Juris Doctor

Plan Description

The Juris Doctor/Master of Social Work (JD/MSW) dual degree program allows students to be admitted to both programs and to pursue the two degrees concurrently.

Pursued individually, the JD requires the completion of 89 credit hours and the MSW requires the completion of 63 credit hours. The dual MSW/JD degree would require the completion of 80 law credit hours and 54 social work credit hours, as 9 hours of law courses are accepted toward the MSW and 9 hours of social work courses are accepted toward the JD.

Learning Outcomes

www.unlv.edu/degree/dual-degree-jd-msw

Plan Admission Requirements

Applicants to the JD/MSW degree program must apply for, and gain admission to, both the Boyd School of Law JD program and to the School of Social Work MSW program, respectively. Admission requirements are the same as those listed under the regular JD and MSW programs.

While applications from current students in either program will be considered, students normally should seek and satisfy admission to enter both programs upon entering the university. However, petitions requesting admission to the dual JD/MSW program from students at more advanced stages in either program will be considered. Those interested are encouraged to submit a request for permission to participate in the program, along with applications for admission, at the earliest possible time. Contact the William S. Boyd School of Law at (702) 895-2440 and the UNLV School of Social Work programs at (702) 895-3311 for further information on admissions requirements.

All domestic and international applicants must review and follow the Graduate College Admission and Registration Requirements.

Plan Requirements

See Subplan Requirements below.

Subplan 1 Requirements: Direct Practice Concentration

Total Credits Required: 134

Course Requirements

Total Credits Required for the Social Work M.S.W.: 54

- Required Courses – Credits: 27
 - SW 701 - Social Welfare Policy I
 - SW 703 - Social Welfare Policy II
 - SW 715 - Human Behavior and the Social Environment I
 - SW 716 - Social Work Research I
 - SW 719 - Foundation Practice I
 - SW 720 - Foundation Practice Methods I
 - SW 726 - Social Work Research II
 - SW 729 - Foundation Practicum II
 - SW 730 - Macro Theory and Practice
- Direct Practice Courses – Credits: 24
 - SW 707 - Developing Cross Cultural Competence
 - SW 739 - Field Practicum I (DP)
 - SW 740 - Direct Practice I

Total Credits Required for the Juris Doctor: 80

- Required Courses – Credits: 44
- Free Electives at Law School – Credits: 24
- Directed Electives at Law School – Credits: 12

Degree Requirements

Complete course work with a minimum overall grade point average of 3.00 on a 4.00 scale.

Graduation Requirements

See Plan Graduation Requirements below.

Plan Graduation Requirements

- Students cannot graduate from one portion of the dual degree until the requirements for both are met. Students must apply to graduate from both programs for the same semester.
- The student must submit all required forms to the Graduate College and then apply for graduation up to two semesters prior to completing his/her degree requirements.
- Successfully complete the capstone seminar.

School of Social Work Courses

SW 602 - The Effects of War on Individuals and Communities

Credits 3

The course examines the effects that overwhelming and horrifying events in war have on the individual and their social environment. A variety of countries at war will be examined through film, literature, journal articles, and the internet to help understand the settings and real life outcomes of war.

SW 605 - Group Practice

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SW 622 - AIDS: An Interdisciplinary Perspective

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SW 641 - Social Work with the Elderly

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SW 661 - Seminar: Contemporary Issues in Social Welfare

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SW 662 - Issues in Child Welfare

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SW 670 - Community Organization Practice

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SW 671 - Advanced Seminar: Special Problems

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SW 672 - Principles of Family Counseling

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SW 674 - Grant Writing and Management

Prepares current health and human service professionals to develop and write effective grant proposals. Provides a basic overview and review of the grant writing process. This course helps students generate program ideas, plan and develop funding proposals to support those ideas, and seek appropriate funding sources.

SW 675 - Treatment of Addictions

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SW 678 - Global Child Welfare

Credits 3

This course addresses the major challenges faced by children and their families globally and prepares the student for further study or action in specific areas of concern. Each content area (poverty, child labor, exploitation, etc.) will cover incidence, political, social and cultural interplay, current response, and recommended future strategies.

Prerequisites SW 715 and SW 735 or consent of instructor.

SW 693 - Gandhian Welfare Philosophy and Nonviolent Culture

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SW 694 - Eastern Conceptions and Social Work Practice

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

SW 701 - Social Welfare Policy I

Credits 3

Introduction to the history and philosophy of social welfare and social work in the United States. Social welfare decision making, policies, and services. Theory of social need and social interventions. **Prerequisites** Graduate standing in Social Work.

SW 703 - Social Welfare Policy II

Credits 3

Examines social welfare policy and provides analytical frameworks and guidelines for determining the efficacy of public policy in addressing human needs. Focuses on the issues of poverty, social services and generalist social work practice. **Prerequisites** SW 701

SW 705 - Social Work Practice with Therapeutic Groups

Credits 3

Historical development of group work, practice methodology in interactional groups, and theoretical underpinnings for social work practice. Focuses on development of skills to lead therapeutic groups with a variety of diverse urban population. **Prerequisites** SW 720 and SW 730 or SW 780

SW 707 - Developing Cross Cultural Competence

Credits 3

Sensitizes students to the strengths, problems and issues in working with groups of color. Provides an understanding of the cultural and behavioral patterns of ethnic communities with a framework for utilizing this knowledge in social work practice. **Prerequisites** Graduate standing in Social Work.

SW 710 - Child Welfare Practice

Credits 3

Develops advanced knowledge and skills for use in intervening in current or potential problems of abuse, neglect, dependency, unruliness, and delinquency of children and youth. Types of services, both traditional and new, social workers provide to children. **Prerequisites** SW 793 or concurrent enrollment in SW 793

SW 715 - Human Behavior and the Social Environment I

Credits 3

Provides advanced knowledge-building theories and knowledge of normal and abnormal human bio-psycho-social development and functioning of individuals, families and micro-groups. Focuses on the impact of social, economic, and cultural systems on individual, family and group well-being. Provides foundational understanding of the use of DSM-IV. **Prerequisites** Graduate standing in Social Work.

SW 716 - Social Work Research I

Credits 3

Provides an understanding of the scientific- analytic approach to the building of the knowledge base for social work practice at different levels. Provides familiarity with quantitative and qualitative research methodologies, various research designs, sampling procedures, data collection procedures, data analysis techniques, and report writing. Emphasizes diversity, empowerment, and social justice considerations as well as ethical standards of conducting research. **Prerequisites** Graduate standing in Social Work.

SW 719 - Foundation Practice I

Credits 3

Foundation field practicum course requires 150 hours of generalist social work practice experience in a social service agency and attendance in weekly field seminar classes. Provides broad range of experiences, from micro to macro levels of intervention. Ongoing professional field supervision/consultation also required. **Prerequisites** Graduate standing in Social Work. **Corequisite** Enrollment in SW 720.

SW 720 - Foundation Practice Methods I

Credits 3

First course in the foundation practice sequence introduces students to a generalist practice approach with individual, families, and groups. Emphasizes values, ethics, knowledge, and skills essential for working with clients. Prepares students with generic practice skills in assessment, interviewing, intervention, evaluation, and termination.

Prerequisites Graduate standing in Social Work. **Corequisite** Enrollment in SW 719.

SW 726 - Social Work Research II

Credits 3

Provides knowledge and practice of program evaluation, single-subject design, descriptive statistics, inferential statistics, data management and data analysis using SPSS. **Prerequisites** SW 716.

SW 729 - Foundation Practicum II

Credits 3

Foundation field practicum course requires 150 hours of generalist social work practice experience in a social service agency and attendance in weekly field seminar classes. Provides broad range of experiences, from micro to macro levels of intervention. Ongoing professional field supervision/consultation also required. **Prerequisites** SW 719 **Corequisite** Enrollment in SW 730.

SW 730 - Macro Theory and Practice

Credits 3

Second course in the generalist foundation practice sequence focuses on professional practice with organizations, groups, coalitions, and communities, utilizing advanced knowledge and theories at the mezzo and macro levels. Emphasizes a strengths perspective and provides generalist-level content in management, community organization and development, and policy practice. **Prerequisites** SW 719, SW 720 **Corequisite** Enrollment in SW 729.

SW 739 - Field Practicum I (DP)

Credits 3

Field practicum requires 300 hours in a social service agency and attendance in weekly field seminar classes. Builds upon generalist foundation. Prepares for advanced, critically analyzed, and ultimately autonomous direct social work practice. Ongoing professional field supervision/consultation also required. **Prerequisites** SW 729 or Advanced Standing. **Corequisite** Enrollment in SW 740.

SW 740 - Direct Practice I

Credits 3

First course in advanced direct social work practice. Integrates skills of assessment, interviewing, intervention, and termination into social work treatment models and theories. Builds upon generalist foundation. Highlights empowerment, client advocacy, and strengths perspective. Emphasizes social work with individuals from culturally diverse and oppressed populations. **Prerequisites** SW 730 or advanced standing. **Corequisite** Enrollment in SW 739.

SW 747 - DSM: Assessment and Diagnosis

Credits 3

Exploration and a synopsis of the criteria for diagnoses in the DSM for social work practice. Focuses on the use of DSM in assessment interventions and with diverse urban populations.

SW 749 - Field Practicum II (DP)

Credits 3

Field practicum course requires 300 hours of experience in a social service agency and attendance in weekly field seminar classes. Builds upon generalist foundation. Prepares for advanced, critically analyzed, and ultimately autonomous direct social work practice. Ongoing professional field supervision/consultation also required.

Prerequisites SW 739 **Corequisite** Enrollment in SW 750.

SW 750 - Direct Practice II

Credits 3

Second course in advanced direct social work practice. Intergrades systems of family-centered practice. Builds upon generalist and advanced curricula. Explores context of social work with families and groups via historical, conceptual, and contemporary modes of practice. Emphasizes working with culturally diverse and oppressed populations. **Prerequisites** SW 740 **Corequisite** Enrollment in SW 749.

SW 755 - Seminar in Forensic Social Work**Credits 3**

Explores the interaction between social work and the law. Emphasizes the knowledge, skills, and values of practice with and within legal settings with a focus on interdisciplinary collaborations, ethical issues, and the varying roles of social workers within the legal arena.

SW 759 - Field Practicum I (MCP)**Credits 3**

Field practicum course requires 300 hours of experience in a social service agency and attendance in weekly field seminar classes. It builds upon generalist foundation. Prepares for advanced, critically analyzed and ultimately autonomous practice in management and community practice. Ongoing professional field supervision/consultation also required. **Prerequisites** SW 729 or advanced standing. **Corequisite** Enrollment in SW 760.

SW 760 - Management and Community Practice I**Credits 3**

Advanced applications of the management and planning processes as they relate to community organization and development. Uses community practice and management frameworks for human service organizations and community development and change. **Prerequisites** SW 729 or advanced standing. **Corequisite** Enrollment in SW 759

.SW 763 - Principles of Public Administration**Credits 3**

Survey of the field of public administration with introduction to the function of finance, personnel, administration, evaluation, research and planning. **Same as** PUA 701 **Prerequisites** Enrollment in the M.S.W. or M.P.A. program or consent of instructor.

SW 765 - Financial Management and Resource Development**Credits 3**

Addresses the knowledge and skills needed to financially manage a human services organization. Prepares the student with problem-solving skills for innovative management in financial processes such as planning, financial control and analysis, budgeting, grant proposal writing, and resource development and allocation in a challenging environment. **Same as** PUA 704 **Prerequisites** PUA 701 or consent of instructor.

SW 767 - Seminar in Public Personnel Administration**Credits 3**

Includes advanced reading, discussion and research in personnel problems as seen in the public and nonprofit sector. **Same as** PUA 708 **Prerequisites** PUA 701 or consent of instructor.

SW 768 - Supervision in Social Work**Credits 3**

Delineates and explores principles, concepts, and components of supervision in social work. Examines the transition from worker to supervisor, differentiates supervision and consultation. **Prerequisites** Graduate standing in Social Work.

SW 769 - Field Practicum II (MCP)**Credits 3**

Field practicum course requires 300 hours of experience in a social service agency and attendance in weekly field seminar classes. It builds upon generalist foundation. Prepares for advanced, critically analyzed and ultimately

autonomous practice in management and community practice. Ongoing professional field supervision/consultation also required. **Prerequisites** SW 759 or advanced standing. **Corequisite** Enrollment in SW 770.

SW 770 - Management and Community Practice II

Credits 3

Develops skills in needs assessment, program design and evaluation. Students understand social problems in the context of their communities and the needs and problems of a variety of sub-populations. **Prerequisites** SW 760 **Corequisite** Enrollment in SW 769.

SW 775 - Advanced Policy Practice

Credits 3

Advanced knowledge and skills in effective advocacy in the human services, particularly in management and community practice. Focus on social workers as political actors and activists with the ability to determine effective strategies and techniques among policy alternatives and an understanding of ethical complexity in an advocacy and political context. **Prerequisites** SW 701, SW 703, SW 730

SW 776 - Legal and Ethical Issues in Social Work

This 600-level course has been approved for graduate credit. A full description of this course may be found in the Undergraduate Catalog under the corresponding 400 number.

Formerly SW 676

SW 779 - Field Practicum (APP) III

Credits 3

Supervised social work practice experience consisting of 300 hours in a child welfare agency and attendance in weekly field seminar classes. Provides for the integration and application of social work values, knowledge, and micro to macro levels of advanced practice skills. **Prerequisites** SW 769 **Corequisite** Enrollment in SW 780.

SW 785 - Special Topics in Advanced Policy

Credits 3

Advanced studies in a selected social policy issue. Emphasizes policy analysis of current and critical issues in areas such as child and family studies, poverty and homelessness, health and mental health, addictions, and policy practice. **Prerequisites** SW 701, SW 703.

SW 786 - Child Welfare Program Evaluation

Credits 3

In-depth analysis of the planning and evaluation process in child welfare. Analyzes challenges confronting child welfare organizations in the United States. **Prerequisites** SW 716, SW 726.

SW 789 - Field Practicum II (Child Welfare)

Credits 3

Supervised social work practice experience consisting of 300 hours in a child welfare agency and attendance in weekly field seminar classes. Provides for an appropriate progression in the integration and application of social work values, knowledge, and micro to macro levels of advanced practice skills. **Prerequisites** Child Welfare Concentration.

SW 790 - Family-Based Practice

Credits 3

Examination of child and adolescent treatment issues and corresponding interventions. Child behavior disorders; issues of abandonment, grief and loss; and general children's mental health issues. **Prerequisites** Graduate standing in Social Work.

SW 791 - Advanced Practice With Children

Credits 3

Examination of child and adolescent treatment issues and corresponding interventions. Child behavior disorders; issues of abandonment, grief and loss; and general children's mental health issues. **Prerequisites** Graduate standing in Social Work.

SW 792 - Cross-Cutting Issues in Child Welfare

Credits 3

Special topics in the child welfare system, focusing primarily on the issues of mental health, substance abuse, and domestic violence faced by clients in the child welfare system. **Prerequisites** Graduate standing in Social Work.

SW 793 - Child Welfare Policy and Services

Credits 3

Analyzes contemporary United States public child welfare policy, programs, and services, emerging policy and program directions in the field of child welfare, and their historical and philosophical roots, with particular emphasis on the preservation and reunification of families, preventive and supportive services, permanency planning, foster care, and adoption. **Prerequisites** SW 701 and SW 703

SW 795 - Capstone Seminar

Credits 3

Capstone seminar focused on assessing intervention theories and strategies regarding a specific topic in social work practice. **Prerequisites** SW 701, SW 703, SW 715, SW 716, SW 719, SW 720, SW 726, SW 729 , and SW 730.

SW 796 - Thesis

Credits 3

Development, completion, and oral defense of research project before a chosen committee, aimed at evaluation of practice outcomes at different levels and advancement of scientific knowledge for social work practice.

Prerequisites SW 716, SW 726

SW 797 - Culturally Competent Child Welfare Practice

Credits 3

Cultural competence in child welfare practice. Examination social, psychological, economic, political, and other structural aspects of racism, ethnicity, and multiculturalism as a dynamic of the public child welfare services system in the United States. **Prerequisites** Graduate standing in Social Work.

SW 798 - Child Welfare Administration and Supervision

Credits 3

Introduces students to contemporary theories on administration and supervision in organizations which provide services to children and families. Focuses on public and nonprofit child welfare administration and supervision.

Prerequisites SW 793

SW 799 - Independent Study

Credits 1 – 3

Intensive study in a specific area of student interest under the direction of a faculty member. May be repeated to a maximum of six credits. **Prerequisites** Consent of instructor.

SW 7001 - Introduction to Forensic Social Work

Credits 1

Required for Forensic Social Work Certification. Course provides an overview of forensic social work principles and practice. Students are oriented to the roles and functions of social workers in host legal settings, and introduced to the organizational and professional cultural factors inherent to interdisciplinary collaborations.

SW 7002 - Seminar in Criminal Law

Credits 3

Required for Forensic Social Work Certification. Addresses the social worker's involvement in criminal law as part of a legal team. Topics cover criminal litigation from the time an individual is charged through to adjudication and sentencing. **Prerequisites** Admission to the Forensic Social Work Certification Program.

SW 7003 - Seminar in Family Law

Credits 3

Surveys a spectrum of issues involving marriage, cohabitation and the family. Topics include the law and ethics of alternative dispute resolution (e.g. family, custody and divorce mediation), litigation in family matters, adoption, custody, guardianship, same-sex cohabitants, and parent-child issues with a solution focus. **Prerequisites** Admission to the Forensic Social Work Certification Program.

SW 7004 - Skills Lab in Forensic Social Work

Credits 3

Students will demonstrate forensic social work practice skills under critical analysis and review. Areas of focus include documentation and report writing for the legal arena, expert witness testimony, interviewing and assessment, mock court and advocacy. **Prerequisites** Admission to the Forensic Social Work Certification Program.

SW 7005A - Field Practicum - Forensic Social Work

Credits 3

Required for Forensic Social Work Certification. Alternative to SW 7005B. Experiential learning at a community-based agency within the legal arena. Students will apply forensic social work theory and concepts to supervised practice. **Notes** Course requires completion of practicum hours and field seminar attendance. **Prerequisites** Admission to the Forensic Social Work Certification Program; SW 7001.

SW 7005B - Professional Presentation - Forensic Social Work

Credits 3

Alternative to SW 7005A. Students will participate in directed research and present in a topical area of forensic social work theory or practice at a conference or symposium. **Prerequisites** Admission to the Forensic Social Work Certification Program; instructor permission required.

SW 7010 - Capstone to Forensic Social Work

Credits 2

Continuation of SW 7001; students are required to demonstrate integration and synthesis of certification program content. Requirements include the production of (1) a publication quality paper co-authored with social work or law faculty, and (2) a professional portfolio documenting program achievements. **Prerequisites** Admission to the Forensic Social Work Certification Program, SW 7001.
